

MAY MAKE A WELL

Work began yesterday on raising the casing in the Weston No. 4, well above the level of the first showing, and it is stated that this sand will be thoroughly tested, possibly by shooting it.

TRY TO GET LEASE

Efforts are being made by oil men to secure sufficient acreage near the Weston No. 4 well to justify sinking another hole. The contemplated acreage lies between Mr. Gregory's acreage and Goldthwaite.

MILLS COUNTY'S FIRST AGRICULTURAL FAIR

Mills County's First Agricultural fair and race meet was brought to a successful close last Thursday notwithstanding rain and mud.

The agricultural exhibit was so fine that it made one feel proud to know that he lived in this county. It was equal to any exhibit that may be seen at county fairs that have grown old in exhibiting farm products, yet this was our first and not more than twenty farmers furnished the products which were brought to the exhibit hall. Had the farmers all over the country taken the interest they should have, the entire space in the hall would have been taken over by the agricultural exhibit.

The fair management especially wishes to commend the efforts put forth by the two communities of Prairie and Mullin, which furnished the community exhibits at the fair. We wish to go on record as favoring this class of exhibits. It helps your community in which you live as well as yourself. We hope next year to see as many as six or eight communities show their community spirit by helping to make an exhibit from their community.

Another special exhibit worthy of mention was the two farm displays shown by A. A. Downey and W. C. Stark. Mr. Downey carried off first money, which was \$2.50, offered by the fair association and \$5.00 offered by Little & Sons. This is another form of exhibit which the management wishes to encourage. Next year let us have ten or twelve such exhibits and we will have more farm displays.

Big Valley deserves special mention, also, for their splendid showing, while not competing as a community, they showed the proper spirit by giving all individual premiums to the school fund. Folk you had better watch Big Valley next year or they will carry off the bacon.

The management of the agricultural department has been requested to give a writeup of all the different departments, but as we were only responsible for the agricultural displays, we do not think that we could do justice to the many works of art in the ladies department or the relics, either, for this reason, we are going to request those who entered very old quilts, or other articles of special interest to give us the data on same and we will have the editor to print an historical sketch of these and the relics also. We believe that this will give each a fair writeup. We believe many of these relics deserve this special attention and the association will be glad to receive authentic history of all such articles.

The management of the agricultural department desires to thank each and all who by their efforts made this department a success. We especially congratulate Prairie and Mullin communities in their successful exhibits for their respective communities. We hope their example will be followed by others and one and all are invited to be with us next year, when we will have a bigger and better fair. That's our slogan: "Bigger and Better each year."

R. F. McDERMOTT.

W. M. U. MEETING

There will be an all day meeting of the W. M. U. at the Baptist church next Monday, beginning at 10 o'clock a. m. All Baptist ladies of the county are invited. There will be dinner on the ground.

Miss Celeste McClellan of Southwestern Theological Seminary, Ft. Worth, will speak about W. M. U. methods and also the young people's work.

Work will be done on the Howard Payne College endowment fund.

ROCK SPRINGS

We had Sunday school Sunday morning and B. Y. P. U. Sunday night with a very good crowd each time.

Hugh Dennard and family of Big Valley, Mr. and Mrs. Vord Woods of Fort Worth and Sam Frizzell and family visited W. A. Daniel last Sunday.

B. D. Forehand and family spent Sunday with Bud Forehand and wife.

Beryl Vann and James Watson Roberts are visiting their grand parents, Mr. and Mrs. J. W. Roberts, this week.

W. A. Daniel, B. D. Forehand and wife and Mrs. Eula Nickols held the election last Saturday. Hurrah for Dan, he was the lucky man. Poor ma will still be bossed by pa. We are very sorry to think that ma beat in Mills county.

I. G. Abney of Richland Springs visited Mr. and Mrs. J. W. Roberts last week and attended the fair.

Mrs. J. C. Stark, Mr. and Mrs. Author Smith motored over to Proctor to see Ray Davis and family Monday and returned Tuesday.

Mr. and Mrs. J. D. McClary and Miss Minnie Hill called on Mrs. J. C. Stark and family.

Miss Flora Evelyn Gatlin spent a few days last week with Miss Melvina Fox in Goldthwaite and Miss Melvina came home with her for a visit.

Mrs. Orby Woody and Miss Love Gatlin of Goldthwaite visited Oscar Gatlin Monday.

The drillers are passing once more. We hope they will soon get back to business.

Those who visited Miss Elizabeth Nickols last Sunday were: Florence Alice and Ra. Stark, Herbert and Horace Cooke, Earl Hale, Homer Morris, Jack Robertson, Joe Davis, Orau Hale, Cecil Parker, May McNutt, Oleta Daniel, Minnie Hill, Mr. and Mrs. Arlie Davis, Woodie Traylor and family and Haskell Gatlin.

Remember our meeting begins the second Sunday in August.—BUSY BEE.

EASTERN STAR

The Order of the Eastern Star will meet for the installation of officers, Monday evening at 8:00 o'clock, August 2.

Making Progress Against His Will

DAN MOODY ELECTED GOVERNOR OF TEXAS

In the Democratic primary election last Saturday Attorney General Dan Moody leads all opponents over 100,000 votes, according to the latest figures of the Texas Election Bureau. This gives him a clear majority. Whether the final count shows that or not, Mrs. Ferguson, Governor of Texas, in a report to the newspapers last Tuesday stated that she will resign as governor—in accordance with an election bet made at the beginning of the campaign, and that she withdraws from the race, whether or not Mr. Moody gets a clear majority. In resigning, Mrs. Ferguson called a special session of the legislature for the purpose of validating the road bonds, investigating any state department and conducting any other business which the governor may desire. She stated, however, that she hopes to be able to make her resignation effective the first of November. Anti-Ferguson factions all over the state are clamoring for her immediate resignation, and it is very probable that such a demand will be made to the State Democratic Convention, should the county conventions take the action it is thought they will.

The results of the race in Mills county will be found on another page of this paper. The count here is not official and it is thought that it is incorrect in one or more totals. However, next Saturday the Democratic Executive Committee will canvass the returns and then the final result can be ascertained. In a couple of the races the results are so close that the official count may give the nomination to others than those shown on the tabulated report.

The Texas Conference of the Church of God convened on Saturday, July 24, at Goldthwaite, meeting at the U. C. V. Memorial Tabernacle.

Bible class is conducted by F. L. Austin for adults and E. O. Stewart for juniors. Attendance is increasing.

Preaching services at nights in week and three times a day on Sunday. Interesting services are held every day. The general public has a cordial invitation to hear all these services.

COUNTY CANDIDATES

THANK THE VOTERS

TO MY FRIENDS—

I want to thank my friends who supported me during my race for the Democratic nomination for County Clerk. By your help I was able to get into the run-off.

The time between this and the run off primary, August 28, is so short that it will be impossible for me to make another house to house canvass, so I take this method of soliciting your vote and assure you that I will do everything in my power to make you a REAL County Clerk should you decide to give me the job.

I am depending upon my friends to get a large vote out in the run-off primary, August 28.

Again I thank those who supported me and ask consideration from those who are free to make a selection at this time.

Your friend,
LEWIS B. PORTER.

TO MY FRIENDS

I want to thank you for your assistance in the Democratic primary election last Saturday. While I did not get quite enough votes to get into the run-off, I want to thank you just the same for the splendid showing I made. The endorsement of my friends means much to me and I am sure that I conducted my race in such a manner that I have not lost a friend I was raised in Mills county and intend to remain here. Again, I thank you.—E. A. TYSON.

TO THE VOTERS OF MILLS COUNTY:

Due to the loyal support of my friends in Mills County, I am in the run-off for the Democratic nomination for county clerk.

I am truly grateful to all those who supported me in the first primary, and want to solicit your con for candidates eliminated in the first support and influence. I also want to ask those who voted first primary to give me your vote and I will heartily appreciate any support that you will give me on August 28.

I was reared in Mills county and also feel that I am qualified to handle the affairs of the county clerk's office.

I pledge you that if elected, I will give you a faithful, efficient and conscientious conduct of the office.

I again solicit your vote and influence on August 28.

Very respectfully,
S. J. CASEY.

I THANK YOU.

I take this method of thanking my friends for their votes and support at the Primary election last Saturday. While I did not win the race, I am sure that I have retained the confidence of my friends.—WILLIAM M. BIRD

TO THE VOTERS OF PRECINCT No. 1:

I want to take this method of expressing to you my appreciation for your confidence in nominating me for the office of commissioner precinct No. 1, re-election. The fact that I did not have an opponent in this race does not make me a bit less appreciative of your votes.

In return for your kindness, I pledge to you my best efforts as your commissioner during the coming two years.

Your friend,
L. B. BURNHAM.

C. M. T. C. BOYS GET TASTE OF TRUE ARMY LIFE

The boys who are in Fort Sam Houston attending C. M. T. C. are this week at Camp Bullis, twenty-eight miles out in the wilderness from San Antonio. Here they are camping in true army style and learning to shoot real bullets. Pictures of the platoons the boys are in have arrived and the Goldthwaite boys are the finest in the group.

They will be coming home next week as camp closes August 4. Let's all give them the glad hand.

Maurice Stephens, manager of Stephens Lumber Company at Wichita Falls, and another one of Goldthwaite's boys who has made good, was here last week end visiting his parents, Mr. and

THE DAYS NEWS IN PICTURE

There is no more interesting or more educational than pictures of the world's things carried in the newspapers. What could be more interesting than seeing the pictures of all the important happenings in the days news?

This is exactly what the International News carries and as a special added attraction, International News will be shown every week on Monday and Tuesday at the Dixie Theatre. Most of the important events in the news all over the world are shown here two weeks after you have read it in the newspapers.

This is in line with the Dixie's policy of "a good show every night." We have picked our pictures in the hope of always pleasing you and we want you to know that we appreciate your patronage.

IT DRIVES OUT WORMS

The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c Sold by

OLD SOLDIERS THANK GOLDTHWAITE PEOPLE

The following resolutions and vote of thanks are hereby tendered the people of Goldthwaite and Mills county:

We, the members of Jeff Davis Camp No. 117, U. C. V. at our annual reunion held July 25, 21; 22, 1926, take this method of tendering and expressing to you, one and all, our sincere, heartfelt thanks for the many expressions of love and kindness and the gentle care rendered us by one and all. To the Mills County Fair Association, whose guests we were during said reunion: Your courteous and kind treatment was all the human heart could wish. Kindly, reverently, royally we were kept, doted for and entertained. And to the kind ladies of Goldthwaite and Mills County who prepared the good, substantial and abundant supply of food for us and administered to our many wants like an angel of mercy. May the God of Mercy, of Love and Protection guide, guard and shield you and yours all along life's journey.

Also Judge E. B. Anderson, P. H. Clements, Rev. E. P. Neal, and Rev. I. A. Danee for their kind words and the entertainment rendered to us, as old soldiers, and for the good and instructive lessons produced by them, to us and for the use and benefit of the young and rising generation. And to the John Tarleton College boys and the home music furnished us was all heart could wish for and to Mrs. Joe Palmer's home talent entertainment for all their acts and plays of every kind, we enjoyed and appreciated and to all others who in any way by act or deed, assisted in caring for and entertaining us while in our midst. To the performers of the Old Virginia Reel, continued applause as well as thanks. To one and all: Accept our heartfelt thanks for every kind word act or deed done by any one, accept our heartfelt thanks.

U. C. V. CAMP No. 117.

The Needle Work At The Fair

The Fair Association is indeed gratified over the interest shown in the needle work display. The exhibit was one worthy of the Dallas Fair and many were the complimentary expressions heard from those who visited the booth.

The exhibit was that every Mills County citizen could point to with pride. It was a pleasure to ask visitors to look through the Exhibit Hall.

We especially desire to express our appreciation to the Ladies of The Central Embroidery Club and Mrs. J. M. Campbell as President of the Club for help and cooperation in making the Needle Work Department a success.

Here's for a still better one next year.—MILLS COUNTY FAIR ASSOCIATION, J. A. Hester, Manager Women Department.

WHY GOVERNMENT PRICE FIXING WON'T WORK

One of the most persistent fallacies is government price-fixing on competitive commodities. There is already government price-fixing in commodities and services where competition plays no part in price determination. These are railway transportation, electricity, gas, telephone and telegraph, and so on. Here government price-fixing is solely to protect the consumer. There are two fatal objections to government price-fixing for agricultural products, which represent the most competitive business in the world. These are, first, that it will not work; second, that it is always done for the consumer as against the producer.

Government price-fixing for agricultural products would work if at the same time the government regulated wages, profits, middlemen's margins, the production of all commodities and the rationing of all consumers. In short, if the population were enlisted in one vast army, directed and rationed, price-fixing would work, but otherwise not. If the price is fixed on the wheat the farmer sells, then he cannot keep on producing wheat if wages or the cost of harvesting machinery rise, or if the cost of other material he buys rises. So the next step would be the fixation of other prices, and yet other prices.

The United States government fixed the price of wheat but once in our history, and then it was to benefit consumers, not producers. The government might, in an emergency, fix some agricultural prices for the purpose of elevating such prices. Such action would inevitably and speedily lead to outcry from city consumers and a consequent reversal of policy. Indeed, the consumers, not the producers, are most likely to demand and secure food price regulation by government authorities. The farmer, therefore, who favors any form of governmental price-fixing is working against his own interests. He is putting his head into a noose.—James E. Boyle, Professor of Rural Economics, Cornell University, in the *Banker-Farmer*.

STRAIGHT TALKS WITH AUNT EMMY

On Fifteen Per Cent Bonds

Mrs. Norris beamed as she greeted Aunt Emmy and exclaimed, "Now I know all my financial worries are over! I wanted to tell you right away—"

"What have you bought this time?" Aunt Emmy demanded suspiciously.

"Well, I haven't paid the money over yet, but I have found the loveliest investment where my money will be perfectly safe and will earn a nice income for me right away." Mrs. Norris said. "I'm going to buy bonds, good safe bonds, that will pay me fifteen per cent interest."

"Wait a minute, you'll have to go some, Maud Norris, to tell me about 'good safe bonds' that pay fifteen per cent!" Aunt Emmy broke in.

"They are safe,—the man said so and this booklet says so too!" "Do you know what a bond is?" asked Aunt Emmy.

"No, but it's awfully safe, I'm sure of that," Mrs. Norris said. "Every body knows that bonds are safe—"

"My dear, some bonds are safe and some are not. When you buy a bond you simply lend your money to the company putting out the bonds. Bond issues are secured generally by the company mortgaging or pledging some of its property. In other words, it offers a certain asset as security that it will return your money to you on the date the bond matures. It agrees to pay you a certain sum each year for the use of your money, usually something between five and eight per cent. No company can afford to pay too much for its money—and as to fifteen per cent bonds—why it would be very unusual for a company to be able to earn enough to enable it to pay fifteen per cent for the privilege of using other people's money,—moreover, if it is good enough to borrow money at all it can borrow it more cheaply than that!"

"Oh dear!" wailed Mrs. Norris, "then a bond isn't a good safe investment—"

"Don't jump at conclusions so fast!" said Aunt Emmy. "I did not say that. A bond is as safe as a church if the company that issues it is financially sound, has a high credit rating and is making money. Before you buy bonds assure yourself that the company behind them is above reproach."

"But the man who told me about these fifteen per cent bonds was so earnest—I felt sure I could believe him."

"Don't turn over any money to him until you have some advice on the bonds from your bank," admonished Aunt Emmy. "Then, if you find out that the bonds are questionable you will escape another bad investment."

—A. B. Ayres.

Mason County, Michigan, bankers are pushing hard to replace scrub stock with pure-bred cattle. The plan as outlined by the county agent is to purchase young pure-bred sires and place them wherever a farmer is found who is willing to co-operate in the proposition. The bankers will advance the purchase price and take a note for one year without interest. The idea is to make it as easy as possible for the farmers to procure thoroughbreds.

COTTON PROSPECTS ARE EXCEEDINGLY GOOD

Reports from every section of Mills county indicate that the prospects for a bumper cotton crop are very bright. The recent rains have given the cotton another start and caused it to fruit heavily. It is estimated that a bale to the acre is now on much of the cotton. Boll weevils are working on the cotton to some extent, but not appreciable damage has been done. The cotton flea has ceased

its activities. On account of the large foliage, the leaf worm is feared. However, this history of the leaf worm in this country has been that it did not begin to operate until late in the season. It is probable that the cotton crop will be made before much damage can be done by this insect.

The recent government estimate placed this year's cotton crop at approximately that of last year, and price guessers estimate that it will be some—but not a great deal—lower than last year.

Find Ancient Chinese Drug Good for Colds

Used by the Chinese for more than 5,000 years as a treatment for asthma, ephedrine has been found good for colds, as an anesthetic and for raising the blood pressure or arresting bleeding in cases of hemorrhage. These uses are partial results of research conducted with the substance at the university of Wisconsin. Experiments are under way to determine if the drug is beneficial in treating hay fever. According to Dr. Ko-Kuei Chen, scientist at the university, ephedrine is considered superior to adrenalin in raising the blood pressure as its effects last over a longer period. The ancient Chinese doctors found that the substance caused muscles around the air passages in the lungs to relax, thus promoting easier breathing. The same experience has been met with in tests conducted with the drug at large clinics in Pennsylvania and Minnesota.

Which Wheel for New Tire?

To obtain the longest mileage, the two best tires on a car should be placed on the rear wheels. Some drivers assert that the best tires belong on the front to minimize the danger from blowouts and the risk of losing control of the car, but this hazard is considered negligible, and the real fault usually lies in the driver losing his head. The spare should replace the more worn of the rear tires at the end of several thousand miles of driving. On new cars, all tires may remain as originally placed for several thousand miles, then the front ones should be put on the rear wheels.

Mowing Heavy Grass

When lawnmowers are crowded to cut thick and heavy growths of grass, the stationary cutting bar and supporting roller frequently jump or "buck," leaving unsightly patches of long grass here and there about the lawn. By attaching the spring-and-roller device shown in the drawing, this trouble is readily overcome. The main leaf from a discarded wagon-seat spring is bolted to the underside of the mower handle so that the two small wood disks, or wheels, mounted on the free end of the spring, will rest upon the wood roller of the mower when the handle is pressed down. In ordinary use, the spring plays no part, but when the mower is driven into rank grass, the handle may be held low enough to bring the rollers in contact, thus holding the rear part of the mower against "bucking."

Rubber Stamp Attached to Thimble

In canning factories, cold-storage plants and other places, where numerical or other identification and grading stamps are used, the thimble stamp shown in the drawing will be found very useful. The small round rubber stamps are removed from the original wooden handles and are mounted on thimbles, the ends of which have been flattened for this purpose. The stamps are fastened with glue or rubber cement. The operator then provides himself with a pad, strapped to the hand, as shown, for inking the stamps. This is made from a cross section of an old inner tube with the ink pad glued to it. With a little practice he can ink and stamp much more rapidly than in the usual manner, and both hands are practically free to move or turn boxes and crates.

Movies Not Harmful to Eyes

If you can read, write or do other work without tiring your eyes, there is no harm in going to the movies, specialists in eye diseases say. Tests with 150 persons showed that those who suffered eye fatigue after watching a motion-picture film, also became tired when doing other work that affected the vision, so that the movies were not responsible for the trouble.

Sawdust Soaked in Acetic to Kill Mosquitoes

Sawdust immersed in a weak solution of water and acetic acid scattered on breeding places from airplanes, is being tried by the United States marine corps as a means of combating the mosquito. The method is said not to be injurious to fish, birds or persons, because the poison is diluted.

Into the field of low-priced cars the smoothest Chevrolet in Chevrolet history brings exactly the velvet acceleration and freedom from high-speed vibration that have been the big reasons for the buying of multiple-cylinder cars.

Imagine loafing up a hill in a loaded car—with the motor turning so easily that you are scarcely aware of its operation. You can in the smooth Chevrolet!

Imagine rushing from 10 to 30 miles an hour before your watch ticks ten times—with never a semblance of labor on

the part of the motor. You can in the smooth Chevrolet!

Imagine being able to drive between 40 and 50 miles an hour for hour upon hour—in perfect comfort, entirely free from any sense of excessive speed and unconscious of even the slightest roughness in the road. You can in the smooth Chevrolet!

Learn for yourself the incredible smoothness that is winning the world to Chevrolet. Arrange to see and drive the car today! and come prepared for a ride the like of which you never dreamed possible in a car that sells at Chevrolet's low prices!
