

# THE GOLDTHWAITE EAGLE.

VOLUME THIRTY-FIVE

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, SEPTEMBER 6, 1929.

NUMBER FORTY-THREE.

## Goldthwaite's Forty-Fourth Birthday Recorded This Week

### SOME HISTORY IS RECALLED

Monday, September 2nd, marked another anniversary of the founding of Goldthwaite. On that day in 1885, the first train carrying passengers stopped near where the depot now stands. The train came out from Temple that morning and carried a large number, as a low rate was given and it was the first train to arrive in Brown county. Most of the visitors were from Temple and Lampasas. From Galveston came a special coach bearing railway officials, their families and friends. Col. Walter Gresham, Col. Geo. P. Finley and Joe Goldthwaite were busy getting acquainted with prospective new citizens. The train came to a halt about ten o'clock and was greeted by several hundred people from the surrounding country, who came on foot, horseback, and in wagons. As there were no "filling stations" to feed the people, buckets, boxes and baskets were to be seen at the noon hour under the shade trees that covered the public square and the blocks adjoining, so that no one went away hungry. As for drinks, that will do for another story.

The weather was fine and the people assembled made up a typical frontier crowd, just such as will not be seen again, here or elsewhere.

The sale of lots began at 11 o'clock and was by public auction under the direction of Thos. W. Jackson, Santa Fe Land Commissioner. Shade and seats had been provided by the company on the hill where the Eagle office now stands. The price of lots was a disappointment to Mr. Jackson, and only about \$30,000 worth were sold on that day.

The first lot sold was knocked off to Capt. Walter Acker, then of Lampasas, for \$250.00. Under the plan of sale he had the privilege of taking as many lots as he chose at the price. He selected six lots, each of which is now a prominent business corner. The second purchaser was Dr. J. E. Holden, who gave a higher price, and for lots afterwards known as the Lane Wagon Yard. The third to select was Capt. D. T. Bush, who took the Eagle office lot. He erected a small wooden building at once and was one of the first to collect rents in the city.

The weather was quite fine and those attending this sale will long remember the event as one of gala-days of the long ago—if 44 years is "long ago."

P. H. CLEMENTS.

### SENIOR LEAGUE

September 8, 1929, 7 o'clock. Subject—All for Christ. Leader—Anniegene Johnson. Song—"What A Friend" Prayer. Scripture: Phil. 4:13; Luke 10:25-29—Letha Ola Burks. Our Youth Needs Christ—Rachel Johnson. Piano Solo—Virginia Lambert.

All for Christ, Christ for All—Anniegene Johnson. Song—"True-Hearted, Whole Hearted."

League Benediction.

### HI-LEAGUE PROGRAM

Leader—Woody Saylor. Song. Prayer. Roll Call—Scripture Verses. Bible Reading: Ruth 1:7-19—Maston Pribble. Special Music—Elizabeth Lambert. Song. Discussion on the Book of Ruth. League Benediction.

## SCHOOL OPENING POSTPONED ONE WEEK BY BOARD

### OPENING SET FOR SEPTEMBER 23

The Goldthwaite School Board expects to have the fall term of school to open on Sept. 23. It was the original intention and plan for the term to begin Sept. 16, but the new building will not be completed in time for the grounds to be cleared and the furniture properly placed in the new building. Under this condition, the Board decided it best to delay the opening a week and bend every effort to get everything in readiness for the opening on Sept. 23. Of course it might be possible that another delay would be necessary, but this is not thought probable and the Board will certainly endeavor to have everything in readiness for the new date for opening, Sept. 23.

### W. M. U. PROGRAM

Program for Sept. 9, 1929. Subject—Woman's Responsibility in the New World. Song—"Take Time to Be Holy."

Prayer—Mrs. Jeff Priddy. Talk—"The Historic Attitude Toward Woman"—Mrs. W. E. Miller.

Song—"Joy to the World." Talk—"The Attitude of Jesus Toward Woman"—Mrs. Stephens.

Reading—Pauline Dalton. Talk—"Woman and the New World"—Mrs. Ashley.

Prayer—Mrs. B. J. Park.

### THE METHODIST CHURCH

You may never find conditions ideal for going to worship till it's too late to go. It may be too hot, too cold, too dry or too wet, never just right. If circumstances were ideal here we would desire to stay here forever. Anyway, don't blame God for all the misfortunes that come when you have done so little to make the world a better place to live in. Autumn is coming and the audience is already growing fast at the Methodist church, where these ceiling fans and wide open windows change the air rapidly. The Methodist church can assure you of as cool auditorium as the city affords. Our services begin at eight o'clock and close before folks get too tired to listen to worship.

Our leagues are going nicely and the outlook is for great times with them. These young worshippers are an inspiration to others who worship.

Brother Ivins, how dare you tempt us to give our number at Sunday school! If the number were small he would be embarrassed to publish it and if it were large we would find temptation great to crow about it. I shall confess to you that if the judgment would come it would find some penitent Sunday school workers and many Methodists outside the Sunday school, where they worship God in the study of His word. We are praying and planning to get busy and cross another hundred plus during this month. Brother Methodist and unchurched friend, we extend to you a glad welcome.

Don't forget the Hi-League and Senior League begin at 7:30 p. m. and the Juniors meet in the tabernacle at 11:00 a. m. Our Wednesday night prayer meeting is worthy of notice. The Apostles' creed will be discussed at this service. A welcome awaits you where "You are never a stranger but once."

S. D. LAMBERT, Pastor.

## A Good Rain Falls In This Immediate Vicinity

### FULLY 2 INCHES OF MOISTURE

About one-half inch of rain fell here Wednesday night and early Thursday morning. While it was not a general rain, it extended to several communities in the county, Big Valley probably receiving more than any other section. The fall was light to the north and east, but it was all helpful to vegetation and to lay the dust. The indications were for more yesterday and some of our successful weather prophets say we will get plenty of rain, since the start has been made. Rain would not help cotton or other field crops now, unless there was a rainy season and an unusually late frost, but it would make the grass come in time for winter pasturage and the farm land would be put in condition for fall plowing and planting.

### Later

Rain commenced to fall last night and continued almost constantly thru the night. About an inch and a half of rain fell during the night and is still falling as the Eagle goes out, thus putting a splendid season in the ground. While cotton will not be damaged by it, picking will be delayed several days, but the rain was too badly needed to allow complaint on that score.

### AN IMPORTANT DEAL

Mayor H. G. Bodkin has purchased from J. A. Hester the two-story building on the north side of the public square, now occupied by Hester's Variety Store in the lower story and offices in the upper story. While the price was not made public, it is understood to have been sufficient to reflect credit upon the property values of Goldthwaite. Mr. Hester was given a long time lease on the building and the new owner has already contracted for putting in a glass front and making other improvements that will be of value to the business district of the city. It is also creditable to the town from the fact that Mr. Bodkin already owns a number of other business buildings and other property and purchased the Hester building as an investment, believing in the stability and future of Goldthwaite.

### FAMILY REUNION

The members of the Davis family, formerly of Newburg, enjoyed a reunion at the Fair park in this city last week and spent the time camping. These are the sons and daughters of the late I. H. Davis, together with their families, and the reunion was one of the most pleasant they ever held. Those present were Mrs. A. C. Reiger and family of Hico, Mr. and Mrs. T. L. Ferguson of Dallas, Mr. and Mrs. W. H. Tate and family of Comanche, Mr. and Mrs. J. D. Allen of Priddy, Mr. and Mrs. J. D. Priddy of this city, M. F. Davis of Post and Miss Lula Davis of this city. Joe Davis of Burchtree, Mo., and T. J. Davis of Post were unable to be present. A number of the friends of the family visited with them during the time of their reunion and the occasion was one most pleasant for all taking part.

W. C. Dew had business in Brownwood the early part of the week.

Mr. and Mrs. W. B. Jackson spent last Sunday in Lometa with their son, Virgil and wife. Monroe Geeslin of the Center City community had business in this city the early part of the week.

Mrs. W. K. Marshall and her youngest son, Fred Dew, are spending a few days in Brownwood.

Dr. Richard Burgess and his wife and son are here from Dallas visiting his father and the Kemper family.

S. P. Sullivan and wife, Mrs. D. H. Trent and two grand daughters returned the early part of the week from a visit to San Antonio.

B. P. Hurdle and family returned to their home in Cameron the first of the week, after visiting his mother and other relatives here.

Mrs. Claude Wilson came in Sunday morning from Marlin, where she had been for treatment for several weeks, her health being somewhat improved.

T. H. House has purchased from the Weathers estate the farm in the Live Oak community known as the Taylor farm. This property is to the north of the Center City road and is one of the good farms of that section.

Mr. and Mrs. W. E. Miller last Monday, looped the loop from Goldthwaite to Brownwood, Brady and San Saba on a business and pleasure trip. They had the pleasure of meeting several old friends at the different places visited.

Mrs. F. N. Irwin returned to the sanitarium in Brownwood yesterday, as it was thought she would have to undergo another operation. Her friends throughout the country are hoping she will soon be able to return home fully recovered.

Rev. and Mrs. Lambert, together with Elisabeth and Samuel, motored down to Lampasas to attend the Alamo Monk meeting Monday night. They report that Brother Monk is going strong and the audience is great to the point of closing the streets for evening worship. Mrs. Henry Martin accompanied them down.

The Mills county teachers institute is in session at the high school. The session convened yesterday morning and will continue thru today. Most of those who will teach in the schools of Mills county the coming term are in attendance and the programs are quite interesting. Dr. I. I. Nelson of the University of Texas is the conductor.

C. J. Crawford, one of the prosperous ranchers west of the bayou, was looking after business in the city Tuesday. He had received information that his brother was painfully altho not dangerously wounded on August 18 while traveling in Michigan. He was kind enough to take a tramp in his car and after going a good many miles the tramp knocked him unconscious, robbed him and took his car, throwing him out by the roadside. The robber was captured in a short time and has already commenced a life sentence in the penitentiary of Michigan for having committed the crime.

### A BIRTHDAY PICNIC

On last Tuesday morning a large crowd gathered at the home of Mr. and Mrs. Charlie Smith, in Big Valley, for a surprise birthday picnic to Mr. Smith.

Each one arrived on time with filled basket. After enjoying a while in the home, we decided to go to the river and spread our lunch under the shade trees. It was a joy to rest under these beautiful old trees, which for many years have weathered the storms and sunshine, whose stately branches have given rest to the tired and weary soul. It was indeed a pleasure to again visit this beautiful place.

Mrs. M. D. Mills of Mullin presented Mr. Smith with the birthday cake, prepared by Mrs. Hugh Smith. It was a lovely cake, all snowy white, with beautiful pink and green candles. It would not be fair to Mr. Smith to tell just how many. It was as much a surprise to him as it was a pleasure.

After Mr. Mills had asked the blessing, each one enjoyed the many such things as a picnic basket contains, namely: chicken, salad, cake, etc.

After dinner we lingered far into the afternoon, enjoying the social hours together. Finally, each one wishing Mr. Smith many happy returns of the day, we left for home.

Those who enjoyed this wonderful outing were: Mrs. Sena Ezzelle, Mr. and Mrs. Hugh Smith, Mr. and Mrs. Scott Thompson and children, Mr. and Mrs. Walter Nelson and children, Mr. and Mrs. Dapree and children, Mr. and Mrs. M. D. Mills and children, Mr. and Mrs. Joe Walker, Miss Ethel Bohannon, Mrs. Floyd Jackson, Mr. and Mrs. Alvin Oxley, and Messrs. Ebb Smith, Bill Troubridge and Sam Troubridge. A. GUEST.

### MARRIED AT CLEBURNE

Last Sunday morning at an early hour, Mr. Joan Aubrey Reynolds and Miss Marene Hawkins of Cleburne were quickly married in a pretty home wedding. Immediately after the wedding the bride and groom left for his father's home in the Caradan community, where the young man was reared to manhood, to join his family, Mr. and Mrs. W. W. Reynolds in a family reunion, leaving Monday morning for Slaton, the home of the groom, and where he holds a good position with the Santa Fe railroad.

John Aubrey is to be congratulated on winning this beautiful and accomplished bride. They carry with them the wishes of their many friends for a long and prosperous life full of wedded bliss and happiness. XXX.

### EX-STUDENTS

Ex-Student association will meet Monday, Sept. 9, at 5 p. m. in the District Court room. Everyone interested invited to come and join our organization. Dues will be collected. Paid membership entitles one to vote on all business matters at said meeting. We urge you to come. D. A. NEWTON MRS. C. A. EACOTT, Pres.

### ROCK SPRINGS

We had a nice crowd at church Saturday night and Sunday. Bro. Sparkman filled his regular appointment.

Mrs. Jno. W. Roberts left Monday afternoon for Dallas. Her sister, Mrs. W. W. Fowler, is sick. Beryl Roberts went, too. He will have his tonsils and adenoids removed.

W. E. and D. S. Self from Shep, Texas, and J. P. Self and wife of Winters, and Willie Bradshaw visited Sam Self and wife Sunday night and Monday.

J. T. Stark went back to his work at Rising Star Tuesday. Austin Cooke was the first in our community to get out a bale of cotton.

Those who ate dinner in the Self home Monday were: Sam Caraway and wife and daughter and grandchildren, I. G. Caraway and wife and K. S. Caraway from Goldthwaite.

Mr. Clyde Bates of Amarillo is visiting in the McNutt home. Dwight Nickols left Sunday night for Big Lake, to work in a Gulf filling station for Omar Warren.

E. W. McNutt and Shirley Nickols cut Sam Self's feed last Thursday.

R. C. Webb and wife and Eula Nickols visited in the Self home Monday afternoon.

Ben Forehand and wife, Bro. Sparkman and wife and Woody Traylor and family dined with J. T. Robertson and family Sunday.

E. W. McNutt fixed Sam Self's windmill Monday. Glenn and Philip Nickols sheared E. W. McNutt's goats Tuesday.

Haskell Gatlin visited the Nickols boys Saturday night and Sunday.

Nora Lee Robertson of Big Valley visited Oleta Traylor last week.

Miss Besse Hutchings from Center Point and Mrs. Bettie Bowdin of Fort Worth visited Eula Nickols last Thursday afternoon.

Miss Oleta Daniel visited Miss Oneta Traylor one day last week.

Beryl Vann and James Watson Roberts of Bulls Creek visited their grandma Nickols Sunday.

Annabelle Long of Big Valley visited Bernice Traylor Saturday and Sunday.

Horace and Rudolph Cooke worked for Ashley Weathers last week. Horace was riding a mule and it threw him off, his foot hung in the stirrup and the mule ran a distance, dragging Horace. He is still complaining at this writing.

Another accident occurred when Hardy McClary and the Nickols boys were riding a yearling Sunday afternoon. The yearling threw Hardy against the wire fence, cutting quite a gash in his limb.

Mary Douglas Forehand dined Sunday with Nellie D. Cook. John Edlin and wife from Center Point sat until bed time in the Davis home Monday night.

Miss Flora Evelyn Gatlin is back visiting her grand parents Mr. and Mrs. McGowan after visiting her grandmother Gatlin and other relatives in Goldthwaite.

Mrs. J. C. Stark has been real sick since last Wednesday. Those who came to her bedside were her three sisters, Mrs. Till Worbarton and daughter from Yoakum, Joe Bales and family from Melvin, Mrs. Ann Worthington from Fort Worth; her

### BASCOM BURTON DEAD

Bascom, the 16-year-old son of Mr. and Mrs. John Burton of Newburg, died in the San Angelo sanitarium the early part of the week and his remains were carried to Newburg for burial Wednesday. The young man was visiting in San Angelo when he was stricken with appendicitis and was taken to the sanitarium for an operation, but medical science could not save him and his young life came to an untimely end. The family has a great many friends in this county who deeply sympathize with them.

### A SERIOUS CHARGE

Tuesday night some one stole a pistol out of the pocket of Mr. W. E. Nance's automobile, which was parked on the street in this city. The sheriff's department was at once notified and Sheriff Bledsoe ascertained that two young men, ages 18 and 20, had left town that night. He wired officers at various points between this place and Temple and soon had them located at Belton. He went to that place and brought the young fellows back with him, to answer the charge of taking the pistol.

### GOING TOO FAR

A burdensome tax rate seldom results from the necessary cost of government. It is the governmental luxuries, such as experiments in business, expensive "improvements" purchased before the community can afford them, duplication of effort, waste and incompetence that pile up the dollars on the annual tax bill.

Bond issues are easy to devise and pass. In many cases after what they bought has been outmoded or destroyed, citizens must pay for them with interest costs added.

At the present time the cost of government is highest in history. Many states and cities are struggling under a burden of bonded debt that discourages industry and home building and results in stagnation. They are sad testimonials of abuse of the "charge account" idea.

Not all necessary improvements can be paid in cash. But it is the part of wisdom to well consider the balance between debt and current income whether an expenditure is for a person or a city.

### HOSPITAL NOTES

Mrs. J. W. Shirey of Mullin is ill in a Brownwood hospital. \* \* \* Loyd Garner of Mullin was admitted to a local surgical institution Tuesday for a minor operation. \* \* \* Joe Greathouse of Goldthwaite is resting well in a Brownwood sanitarium following an operation Tuesday. — Brownwood Bulletin.

### JUNIOR LEAGUE PROGRAM FOR SEPT. 8.

Subject—Joseph. Prayer—Silent. Song—Selected. Scripture—Matt. 6:12; Gen. 45:1-11. Story of Joseph—Wallace Johnson. Discussion. Reading—Lizetta Featherston. Song—Selected. Benediction.

daughters, Mrs. Ray Davis and family from Big Valley, Mrs. Geo. Hammett, De Leon, Mrs. Arthur Smith from Batson, Texas. I am glad to say that our friend and neighbor is improving at this writing. "The man who gets but little here Upon this busy earth, Is—if the truth were spread around— Just getting all he's worth. BUSY BEE.

**THE GOLDTHWAITE EAGLE**

The first step in its immense water expansion program will be taken by Sweetwater, Sept. 9, with the receiving of bids for the construction of a submerged dam across Sweetwater Creek below the present location of Lake Trammell.

Beware of the movement to establish national banks similar to national chain stores in their centralization of wealth in one or a few cities, was the warning of A. A. Horne, Galveston, president of the Texas Bankers' Association in semi-annual session at Midland.

A sharp curve in a highway, seven miles west of Weatherford, caused an automobile bearing four men of prominent Mineral Wells families to overturn early Saturday, killing one of the occupants instantly, injuring fatally another and sending the other two to a hospital badly hurt.

The two-story Scott Hotel building, one of the oldest structures in Wichita Falls, was destroyed by fire of undetermined origin Friday. The building was erected in 1884 and was owned by R. W. Scott of Wellington. Loss was estimated between \$15,000 and \$20,000.

Governor Moody apparently has decided not to call the Legislature into special session until January, Senator Julian C. Hyer of Fort Worth said Friday, after a conference with the chief executive. Belief was current last week that the lawmakers would be called to Austin after the Prison Committee had finished a report of its findings. The belief gained strength when Governor Moody asserted that the State was losing \$7,000,000 annually thru contracts made by Commissioners' Courts for the collection of delinquent taxes, paying fees in some instances as high as 33 1-3 per cent.

Pajamas as business dress for men may be "setting 'em afire" in some cities but the person who first appeared on the streets of Denton in night clothes has decided that the fashion is "all wet"—at least he got a wet reception when he made his bow to the new fad. A Denton youth, member of the Denton fire department, walked around the square in his pajamas late at night to win a bet. The new style didn't take so well with fellow-members of the fire department and they showed their appreciation by submitting the wearer to a ducking, bringing a length of fire hose into play.

Approximately 640,000 seedling pine trees are growing at the present time in the nurseries of the Texas forest service, according to the State Forestry Department, headquarters of which are located at the Agricultural and Mechanical College. These trees will be available for reforestation planting this winter. About 300,000 of these seedlings will be used in plantings on State forests, which are located near Kirbyville and Conroe. About 10,000 of the pine trees will be reserved for the 4-H Clubs of Texas, and the remaining trees will be sold at cost of production to lumber companies, individual land owners and others who desire to reforest cut-over forest land or plant submarginal farm land.

The custom of women to knock a few years off their ages in belief that is one of the prerogatives of the sex is causing a large number of Confederate widows both misery and financial loss, it developed Saturday at the State Comptroller's office. Under the law enacted by the last session of the Legislature, widows of veterans under 75 will receive no pension payment this quarter because of insufficient funds. The new statute took in several thousand more women, born since 1873, instead of since 1861, as the old law provided, and further required that the money should first be distributed to those 75 or above. That took all the money for the older women.

**CURRENT SPLASHES**

August, 1929, has been a history-making month. The Graf Zeppelin passed completely around the earth that month, a new achievement in air navigation that has never been put over. It was put over without mishap.

China and Russia appear to be approaching a settlement of their difficulties through the Kelog treaty plan. By the way, a copy of the text of that treaty can be found on the bulletin board at the postoffice in our own little city.

It seems that New York has a law against padlocking places where whisky is legally sold. The state authorities refuse to take cognizance of the violations of the 18th Amendment. We may have to withdraw from New York yet.

Judges on the bench of the Supreme Court are due a \$20,000.00 a year pension after 20 years service, provided they are 70 years old. Three of our venerable jurists are now due that annual stipend of \$20,000 per year if they choose to resign. Ex-President Coolidge didn't "choose to run" and it seems these great jurists don't choose to resign. We have no intention of calling for their resignation, however, for their work is very satisfactory.

The agreement on a decision of German reparations seems to have been reached—and that is more history for the past month. The trouble at the Walling Wall was an unfortunate thing, but seems likely to be settled without any more serious trouble. On account of national hatreds there will likely be sporadic killings, but we hope the worst of the difficulty has passed into history.

As some one has said, "The women show more backbone each day." Yes, I saw one on the street the other day whose backbone was plainly visible to the waist line. The fashion for her, I assume, was not so recent, as the streak down the opening in the back of her dress was thoroughly sun-tanned.

Since woman got the ballot, she has learned to fly, shoot and bootleg. Yes, we often see them on the streets with breeches on. We often speak of the He-man and it looks like we might be drawing nearer the He-woman. But this is the 20th century and new things are coming into society each day. Keep the show moving.

Say, are we getting our fashions from Paris or Africa? I should not be much surprised to meet a blooming American belle triggred out in a Central African evening gown. Most anything, as the fashionable attire seems to be growing shorter at each end.

A few days ago Dean Inge of London, England, is said to have been invited to address the Sun Tan Society of that city, and after admonishing them to not be so absent minded as to forget all of their clothing, reeled off the following jingle in concluding: "Half an inch, half an inch. Half an inch shorter. Skirts for the mother. And skirts for the daughter. When the wind blows Everything shows And some things that hadn't Orto."

**PHILOSOPHER.**

**NEED GLASSES?**

Dr. Jones, the eye man, will be in Dr. Campbell's office on Saturday, Sept. 14. See him about your eyes, headaches and glasses. (adv.)

**TRIGGER MOUNTAIN**

Sorry to report a few who are ailing.

Mrs. James Hayes, who is in a sanitarium at Brownwood, is slightly improved, but is not able to come home.

Lewis Eubank, who is also at Brownwood for treatment, is not doing so well.

Master Lloyd Garner is sick with a cold.

Brother Hayes preached for us Sunday morning and evening. We had a good Sunday School and B. Y. P. U.

Miss Alice Cunningham returned home from Houston last Tuesday. Her aunt, Mrs. T. S. Nelson, accompanied her home.

Mr. and Mrs. J. A. Plummer moved last week to the Syd Eaton place. We are sorry to lose such good neighbors. Mr. Weston and family will move to the place vacated by Mr. Plummer and family. Mr. Weston and family lived on the Fern Hancock place for the past few months. We understand that Mac Hancock and family will live on the Fern Hancock place.

Misses Ola Mae and Katherine Dellis will leave the last of the week for Temple, where they will be in high school.

Mr. and Mrs. J. D. Kennedy returned home from West Texas Sunday night. They report the country dry and crops about as they are here and some not so good.

Mr. and Mrs. J. B. Lively had a number of visitors last week. Her daughter, Mrs. Amos M. Campbell, and son, and some relatives from Arkansas, but we failed to learn their names.

John Cunningham went to Houston Saturday night to visit his sister, Mrs. J. W. Roberts.

Well, every one is picking cotton and I've got to go pick, but it is the same old job, not a single new thrill in it.

**THE FARMER'S WIFE**

**TRUCK ON FIRE**

Friday evening, while coming from Waco with a load of merchandise one of Ross & Son's large trucks caught fire and but for the prompt and heroic work of Duard Howard, driver of the truck, the loss would have been heavy. When he discovered the fire, which was caused by a superheated exhaust pipe igniting some gasoline that had leaked from the feed pipe, young Howard stopped the car and attempted to smother the fire with sand, but found the task hopeless. The flames were reaching high and he climbed into the cab and ran the truck to the creek a considerable distance away and there, after unloading the merchandise with which the truck was laden, secured water and put out the fire. One remarkable part of the accident was that there was very little damage done, only the upholstery of the cab and some wood work being burned.

**A NICE CAFE**

Miss Lois Kirby, who recently took charge of the Eddie Cafe, is doing a nice business and her friends predict success for her in the undertaking. She is a deserving young lady and conducts an attractive eating place.

**Doctors Disagree**

When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of *White's Cream Vermifuge*, the sure exponent of round and pin worms. If your child has any of these symptoms, try this harmless, old-fashioned remedy, which you can get at 35c per bottle from:

HUDSON BROS., Druggists

**CHIROPRACTORS NOT FANATICS, SESSION IS TOLD BY LEADER**

Omaha, Sept. 2.—Dr. Harry Gallaher of Guthrie, Okla., took occasion Monday to declare that "chiropractors are not fanatics."

He spoke before the third annual gathering of the International Chiropractic Congress, in session here. Dr. Gallaher, secretary, said that "wonders performed by members of the profession, warrant consideration of the world for a profession that is doing a miraculous work for humanity."

Dr. Gallaher was the organizer of the congress. J. Ralph Johns, retiring president, urged his organization to strengthen chiropractic in public favor "as a science that offers most good for ailing people."

"Advancement in individual knowledge will meet sure to a great degree the strength of the profession," he declared. "Honesty to the public is one of the essentials for success as well as pride in being a member of the profession."

**There'll Be No Regrets**

**ROADS FOR THE FUTURE**

It is common for roads that were built a comparatively few years ago to become dangerous because of the amazing increase in motor travel. Narrow surfaces, overly steeped hills and unbanked turns constitute a serious menace in these days of congested speed traffic.

Progressive communities are protecting their own futures by building wider roads to care for the still greater traffic of tomorrow. It is said on good authority that all highways of importance should be broad enough to carry two lanes of traffic in both directions.

Even in rural districts, where expense of road building is preeminent, low cost oil and asphaltic surfaces are providing the farmer and rural dweller with high grade highways, reasonable to build and maintain. In this modern age, civilization follows the highway and a community with insufficient or poor roads must exist in an undeveloped state.

**CONSTRUCTIVE POLICY**

Laws that are discouraging to mining are in opposition to the general prosperity and progress of the entire nation.

As our civilization develops, an adequate, fair priced supply of metals becomes a constantly more imperative need. In recent years the mining industry has revolutionized itself, until, at the present time, the science of metal recovery, marketing and mining wage

**UNPROFITABLE PUBLICITY**

Collier's now steps out with an article portraying a Southern city as a veritable old-fashioned liquor den. Is this an attempt to secure publicity in Southern publications? Recently the Chicago Tribune published an editorial slandering the South in no uncertain terms, and that item was commented upon by several Southern newspapers. One of these frankly admitted that they thought the editorial was written for publicity purposes. Such publicity certainly cannot help build respect or confidence for the publications using these methods. In each instance it would seem to any person carefully reading either the editorial in the Tribune or the Dallas article in Collier's that only an inmate of an asylum would consider such article anything but a brain storm on the part of the writers.

If, on the other hand, Collier's is continuing in its effort to prove that the Eighteenth Amendment and its supporting laws are unenforceable, another mistake has been made. If it is legitimate to create sentiment against the Volstead Act, then it should be done by sticking to the truth and by avoiding exaggerations of the facts.—Farm and Ranch.

standards are at the highest point in history.

Yet many laws are proposed, and sometimes passed, that regulate too stringently the activities of the industry. Fair laws, that protect both the industry and the public, and reasonable taxes are imperative. But burdensome legislation, such as mining has been subjected to in the past, benefits no one.

**PROFESSIONAL CARDS**

E. B. ANDERSON—  
Lawyer, Land Agent and Abstractor

Will Practice In All Courts  
Special attention given to land and commercial litigation. Notary Public in office. BOTH PHONES. Goldthwaite, Texas.

McGAUGH & DARROCH

**LOW CUT PRICES**

COME AND SEE THEM AND YOU WILL BE CONVINCED

I will save you money on anything you buy. Will sell you goods cheaper than Dallas or Fort Worth. So when you contemplate buying Furniture, Stoves and Rugs, don't forget to call on J. C. Evans.

Let your next stove be a Nesco, the best stove made. Burns like gas. One third the oil that others burn. Every stove tested and approved by the Good Housekeeping Institute. No better recommendation needed. The longer you use it, the better you will like it.

So don't go off after Mail Order Houses when you can get goods cheaper in your Home Town and see the goods before you buy. When you market your produce you don't go to mail order houses. They tell you there is nothing doing. So don't be a slacker. Spend your money and help build up a larger town. This will give you a good market for what you have to sell

**J. C. EVANS**

POST OFFICE ST. GOLDTHWAITE, TEXAS

Mr. and Mrs. J. H. Randolph were visitors to Star the early part of the week.

Reide M. Haynes of Ebony transacted business in this city last week end.

Attorney Homer C. DeWolfe made a professional visit to Gatesville this week.

**Better have your winter clothes renovated. Burch does it right.**

Mrs. J. W. McAlexander and her daughter, Mrs. L. A. Bartay, were here from Brownwood Tuesday visiting friends and looking after business matters.

W. P. Weaver, our efficient county farm demonstrator, has returned from his vacation trip to his old home in Arkansas, and is again on the job, giving advice, encouragement and assistance to the people in growing crops, live stock and produce.

Oscar Pate, cashier of the City National Bank at Sweetwater, Saturday was given a hearing before the United States Commissioner on embezzlement charges. Pate went to Abilene Saturday unattended to appear before the commissioner, Mrs. Isa M. James. The complaint was lodged by Baylor Crawford, United States Deputy Marshal, who said he was acting on instructions from Norman A. Dodge, Federal District Attorney at Fort Worth.

Is the most speedy remedy known.

Jack Wells writes from Los Angeles, Cal., to order the Eagle sent to his father, S. T. Wells, at Tucson, Arizona. The Wells family lived in Goldthwaite a long time and Mr. Wells was county treasurer for several terms. They have lots of friends here who remember them kindly and hope for their visits from time to time.

**RELIEF that is REFRESHING**

"We have used Theodor's Black-Draught for years in our family. I can highly recommend it for many ailments. We take it for colds and for constipation. I have four children, and I give it to them. When my little girl gets bilious or complains of headache, I give her a treatment of Black-Draught, and she is all right in a day or two. Sometimes when I have indigestion from improper eating, I have headache. Then I take Black-Draught. I always feel fresh and have more energy after I have taken it."—Mrs. E. Reich, 2215 East First Street, Austin, Texas.

I carry in stock a drench and salt made to destroy

**STOMACH WORMS**

in sheep and goats. This salt is manufactured at San Angelo, Texas, by the Texas Stockmen's Supply Co.

I have sold this salt for two years and find it to give satisfaction.

I also have a complete line of plain stock salt at a very low price.

Come In. Let Us Talk Salt to You!

**JOE A. PALMER  
THE GROCERYMAN**

Mr. and Mrs. E. T. Fairman returned Sunday from a stay of several days in Temple.

J. L. McKimney, formerly of the Washboard community, writes to have the Eagle sent to him at Rotan, Texas.

Mrs. M. Y. Stokes, Jr., and sons, Lawrence Morrison and Melmoth III, arrived from Houston on Sunday evening's train to visit her father, R. M. Thompson, and other relatives, her mother being absent in Colorado.

A most appreciated letter comes from Mr. and Mrs. Bob Harper of San Angelo, saying they enjoy the Eagle and are always glad to know of the doings of their friends of former days, when they formerly lived in Goldthwaite, Mr. Harper is a son of W. A. Harper and spent his early life here, moving with the family to San Angelo several years ago. Mrs. Harper was Miss Ethel Jones and is the daughter of a former Goldthwaite hardware merchant. They are both kindly remembered by a host of friends at this place.

Flies have caused more deaths than all wars combined—yet one of us do nothing to help prevent future casualties. Flies have no preference—you or one of your family or friends may be next. Start today—and kill every one you see. It is very easy if you use FLY-TOX the rodnut developed at Mellon Institute of Industrial Research v Rex Research Fellowship. It is a perfume-like fragrance, harmless to mankind, but kills all household insects. Just follow instructions on blue label of bottle. INSIST upon FLY-TOX from your retailer. Adv.

**MAKING A MARKET**

Comanche will have a market for sweet milk, according to plans of farmers who met at the Court House Saturday afternoon to discuss the question of sweet milk market, providing the farmers co-operate in producing sufficient volume to justify transportation.

The Goldthwaite Cheese plant has made Comanche dairymen a proposition to purchase sweet milk and tentative arrangements have been made with truckmen to haul the milk, providing sufficient volume can be secured to justify the operation of a truck.

It was pointed out by representatives of the Chamber of Commerce, who are fostering the move, that a truck to operate at a low charge for hauling at least in the neighborhood of 90 gallons of milk per day will be required, and the producers are urged to confer with those in charge in an effort to get sufficient volume to justify the truck to run.—Comanche Chief.

**IMPORTANT NOTICE**

An effort will be made to collect all delinquent taxes. Taxes are a lien upon land, and suit will be filed for the collection of delinquent taxes and to foreclose the tax liens so that such lands may be sold for taxes, if such taxes are not paid at an early date. By paying now, you can save court costs.

See if your taxes are delinquent for any year from 1885 to 1928, and if they are, pay them at once.

The Commissioners Court has made arrangements with me to make a new delinquent tax record, and assist in the collection of all delinquent taxes. HOMER C. DeWOLFE

**FLORIDA FRUIT FLY**

The presence of the Mediterranean fruit fly in such numbers and over such a wide area in Florida is of grave concern and endangers the fruit and vegetable industry of the entire South. At the present time the sympathy of the Nation goes to Florida and her people because a great industry is threatened. Florida has had more than her share of trouble the past few years and the wide distribution of the fruit fly is not the least. Many thousands of boxes of fruit have been destroyed. Quarantine regulations have taken from them a large part of their market, and as a result many banks have failed and industry has been crippled. It is now suggested that Congress make an appropriation sufficient in size to partly reimburse Florida fruit growers for the fruit that has been destroyed in an effort to eradicate the pest.

There is another side to this threatened danger to the South which has not been discussed. We recall two instances when the Mexican fruit fly was found in the Rio Grande Valley of Texas. Its presence was immediately reported and the growers of the Valley cheerfully co-operated in its destruction. The closest inspection fails to reveal a single Mexican fruit fly this side of the river. We also remember when citrus canker was discovered and how quickly growers responded to the demand that infected trees be destroyed. There is no citrus canker in the Valley today. When the pink boll worm crossed the border it was immediately reported and the fight started before it had spread over a wide area, and the great cotton crop of the entire South was thus protected. But—we read that the Mediterranean fruit fly was distributed over 34 per cent of the entire area of Florida before any fuss was made about it. In this area is found 72 per cent of all the citrus trees in the State. The fruit fly, imported in the straw covering a whisky bottle, as has been stated, was not sufficiently numerous to spread very far for several seasons. It must have been present in Florida for a long while before it was reported. There must have been thousands of boxes of fruit destroyed by this fly before its presence was made known. Why wasn't it reported? The only conclusion we can logically arrive at is that Florida has employed incompetent inspectors or else there was a deliberate effort to hide out the facts in the case to avoid a probable injury to the reputation of the State.—Farm and Ranch.

**WOMEN AND CARS**

The more women there are in the immediate family perhaps, the more trouble a man has. A minority is always in the wrong and there is nothing more minor than one male in a family of women. But trouble is a purely comparative phrase. Man since the year I has been accustomed to associate trouble with women, but has not yet gone down on record except in the divorce court to the effect that she corresponds to more of the commodity than she is worth. A man is said not to get anywhere if he does not know how to meet trouble. And it is true that he spends a lot of his time in this vale of tears trying to meet women folks. Woman is a trial, an expense, a luxury, and a handicap, but a fellow would as soon think of getting along without her as without an automobile. There is a good deal in common between the two, too. The lower the initial cost the higher the upkeep. It costs a lot to keep a two-year-old automobile in repair and after a fellow puts his wife through two or three clinics, he finds the garage bill there is pretty steep, too. Woman began as an ornament and finished up as a household necessity. Man began as a drudge and hasn't graduated yet. Woman keeps him in his place. She isn't always sure where it is, but she keeps him herded in some sort of place anyway. A man who goes in for the higher priced models in woman finds that the upholstering costs him more every year. An automobile gets old and is traded in on a new model. And the divorce courts are cluttered up with men trying the same dodge. But in the alimony States it is more economical to get along with the old model and buy her a new coat of paint. After a man has spent twenty or thirty years trying to get along with the sex, he sits down and tries to figure what he has gotten out of his worry. He can put down in black and white what it cost. He can make the record look pretty bad. But then let the ladies start to putting down what they got out of twenty or thirty years of associating with men, and the balance is off on the other side. Woman is trouble. But listen, men! trouble never troubles you until you trouble trouble.—State Press in Dallas News.

Your clothing lasts longer and look better if you have them Cleaned and Pressed. Burch knows how.

**A BAD PRACTICE**

The rush that was made to the fire in the southern part of this city last Saturday afternoon proves what a hazardous condition may result from a fire alarm. Literally hundreds of cars hurried pell-mell to the scene and the marvel is that some serious accidents did not result. However, the time of some of the fire company members was taken in guarding people back from the fire and in preventing cars running over the water hose. While it is a criminal offense punishable by fine to drive over the hose, a small fine would hardly offset the damage done should the hose be cut and the work of the fire fighters thereby hindered. It is a bad practice to gather around a fire anyway, for no possible good can result and aside from the hindrance to the firemen, there is always more or less danger. But people will continue to hurry in the direction of a fire every time the alarm is given.

Judge L. E. Patterson made a visit to San Antonio last Saturday and when he reached that city he found his son Carlos suffering with a severe case of appendicitis. He had him taken to the hospital and an operation performed that night. Judge Patterson returned home Tuesday morning and reported the young man's condition improved and encouraging.

G. T. Stewart of the Ratler section was in to see the Eagle Saturday. He only recently returned to Mills county, after a stay of twelve years in western Texas and New Mexico. He, like the Eagle editor, has decided there is no better place to live than good old Mills county.

Prof. and Mrs. D. A. Newton and their daughter, Mrs. McNeill, visited friends in Brownwood Saturday.

**Just Like An Ostrich.**  
A medical authority says that a person who tries to cover up skin blemishes and pimples with toilet creams and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that contamination is throwing poisons into your blood stream and weakening your whole constitution. Remove the constipated condition and you will strengthen your system against disease and clear up your disfigured skin. The best way to do this is with a course of Herbine, the vegetable medicine that acts naturally and easily, which you can get at

**SPELLS OF BACKACHE**

"I HAVE used Cardui at intervals for sixteen years, when I suffered from weakness, and it always helped me," says Mrs. J. W. Jimright, R. F. D. 2, Troy, Ala.

"Mostly I was afflicted with bad spells of backache. At times I felt as if my back would break. I would drag one foot after the other, in a helpless sort of a way, and once I got down in bed. My husband urged me to take Cardui, and I soon found what a fine medicine it really was. When my second child was little, I was in very bad health. I did not pick up as I should have. I was weak and sickly. I do not believe that I would have come through, but for Cardui."

**SEGER ELLIS**

Oh, Lord! please take a-way the dark-ness— Oh, Lord! please take a-way the rain.

**College Men Deserting the Professions to Enter Radio**

New York City.—Biographers of future dramatic stars will have to work hard to make their stories as melodramatic as former biographies. There will be fewer headlines who got their start as starving children singing in the honky-tonks or dancing in their bare feet on a Broadway corner.

"The radio is bringing an entirely new type of young man into the dramatic world," says Seger Ellis, radio star, and the son of a Houston, Texas, banker. "The boy who was the star in his college glee club, but who continued to sing only as an amateur after he got out of college because his family objected to the free and easy dramatic world, the uncertainty of the theatrical profes-

sion and the lack of normal home life, can now sing over the radio, be as prosperous as any actor, yet establish a home and live up to the best family traditions.

"The fact that a singer who makes good over the radio, doesn't have to travel to carry on his chosen profession and can earn a steady income, will steadily attract a finer type of young man into the dramatic world, and in addition, will give the public a better type of music. The well-trained musician or singer can give his audience music of a calibre that the untrained singer never tried to do. Slowly the public is hearing the better things and understanding them. 'Song of the Bayou,' a five thousand dollar prize song by Rube Bloom, is a remarkable example of this type. It is a classic of the Bayou and as pure a folk song as any ever heard."

**CARROLL & CORTS**

**Extra MILES in GUM-DIPPED Cords**

THE car owners does not see the cord fabric but it is the substantial framework that carries the load and withstands the burden of all the strains that are thrust upon the tire.

Firestone owns and operates the largest exclusive cord fabric mills in the world and uses choice long staple cotton to insure the very best cord. But this is not enough. Before these highest quality cords which are twisted for greatest strength and elasticity are built into tires, they are Gum-Dipped for greatest endurance and mileage.

Every cord goes through liquid rubber. This process gets rubber into the cord just as a dye penetrates and covers every fibre of the cloth that is dipped into it.

The rubber in Gum-Dipped cords makes them last longer because of the reduced friction inside of the cords themselves, and the carcass or framework of the tire will also be longer lived.

Firestone Gum-Dipped tires have extra reasons for their ruggedness and durability. No wonder they hold all records for speed, safety and endurance. You'll be surprised at their low cost! Come in today.

**SCALLORN**

It is still hot and dry. Stock water is scarce.

Chester and Fleming Ford are cleaning out their tank, fixing for the rain that is going to be in the future.

Francis Kyle and wife are domiciled in their grandmother's house until school opens at Talpa.

Clarence Horton, wife and son, spent the week end with Mr. and Mrs. C. H. Horton.

Walter Ford, wife and two children spent last week in the home of J. D. Ford near Moline.

Mr. Bradley and Mrs. Ora Black and son attended the funeral of Mr. Bradley's sister-in-law at Lampasas.

Elsie Laughlin and wife, Mr. and Mrs. T. J. Laughlin, Sr., spent several days in Colorado City and San Angelo. Mrs. Nance and son accompanied them home for a few days visit. Leslie came in after them Sunday.

Wiley Smith and family of Cisco spent the week end with his brother, Dutch Smith.

Mr. and Mrs. Mark Nance spent Saturday night and Sunday in the Elsie Laughlin home.

Misses Freda and Greda Hines spent last week in the home of their grandmother, Mrs. Fields, near Adamsville.

Jack Bradley spent Saturday with John Samuel Kuykendall. Mr. Hicks Bledsoe's nephew and his wife spent the week-end with him.

Chester Brister attended church Sunday and was shaking hands with his old friends. He still has a position in San Angelo.

Miss Norene Johnson spent last week with her aunt, Mrs. Will Pierce, at Atherton.

Mr. and Mrs. Faith Ford are spending a week or so on his father's ranch, before going back to Galveston to enter school.

Winter Stevenson had the misfortune one day last week to mash the end of his finger off. He was working with an engine.

Earl Blake and wife of Brownwood spent the week end with home folks.

Mrs. Lindsey Ashley and girls of Goldthwaite spent last Monday with Mrs. Frank Hines and girls.

Mrs. T. F. Elliott's two sons and their wives spent several days in her home.

Norene Johnson is spending this week in the home of her aunt, Mrs. Cora Ford.

Travis Wilcox is spending several weeks with his mother, Mrs. T. F. Elliott.

**NOTICE TO FARMERS**  
I will grind feed of all kinds or thresh maize each Monday, beginning Monday, Sept. 2nd. Please remember the date.  
9-6 R. F. McDERMOTT.

**BROKE HER ARM**

The 8-year-old daughter of Mr. and Mrs. J. T. Morris fell from a fruit tree at the family home in this city Monday afternoon and broke her arm. Her mother had only recently returned from the hospital and is still in bed. The family certainly has the sympathy of all their friends.

**Doctors Disagree**  
When children are irritable and wish, grind their teeth and sleeplessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of *White's Cream Vermifuge*, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harmless, old fashioned remedy, which you can get at 35c per bottle from

HUDSON BROS., Druggists

**O. K. NERVE IMPULSE!**

Photo Proves the Principle of Chiropractic

**A Discovery**

I take this opportunity to thank the Associated Press, the New York Times, New York Evening Post and various other newspapers throughout the country for the fact that they have finally verified the fundamental of Chiropractic. What the eye sees, the heart must feel and the mind believe. On this principle the medical profession likewise places its stamp of approval on Chiropractic. Do not think, dear reader, that all this has come out of the goodness of heart of the Associated Press, the newspapers or the esteemed medical profession. On the contrary, Chiropractic has not been mentioned in connection with this sweet confession of the soul. All those beloved friends of Chiropractic, however, inadvertently let the cat out of the bag in the publication of an Associated Press dispatch from Boston which says, "A device which makes visible the impulse, or message, travelling along a nerve, was described to the Thirtieth International Physiological Congress at Harvard Medical School today by Dr. Joseph Erlanger and Dr. H. S. Gasser of St. Louis. The usefulness of this new scientific instrument lies in that it enables science to LEARN MORE ABOUT SOME OF THE LITTLE UNDERSTOOD ACTION OF NERVES." Scientists have known for some time that when a nerve is stimulated artificially so that an impulse travels along its length, delicate modern instruments will register the passage of the nerve message. Some of them have been studying these impulses with the idea that the nerve message, if not electrical, may be closely associated with minute electrical effects. The St. Louis physiologists have made these impulses visible on a cathode oscillograph, an instrument so sensitive that it photographs lightning striking wires and gives a picture of how far the electrical surge travels in a millionth of a second. To register the minute electrical charge transmitted over a nerve, it is necessary to amplify the current coming from the nerve by 100,000 times. The oscillograph transforms such electrical impulse into a point of light or a wavering line of light.

What a grand opportunity these great agencies of public information have passed up in the last thirty years, in refusing to learn something about Chiropractic and in refusing to publish to mankind the benefits of Chiropractic that can be obtained by releasing life's fullest expression in the nerve impulse. It is idle to contemplate that the nerve impulse is merely electrical or a "message," because electricity of itself has no intelligence and man admittedly is no automaton. That it is a FORCE which animates the human body is cer-

**GLEANINGS**

I enjoyed being at Bethel part time last week in their protracted meeting. Rev. Frank Smith, P. C., for the Methodist church, Center City circuit, doing the preaching.

Prosiding Elder Barr will be in a Training School at Center City Oct. 2. Go, see, listen, and learn.

O how I did enjoy the good cheer of children and grandchildren of fathers and mothers I used to know in the Bethel community and round about. Billie Gray, B. P. Sevier, Will Leverett, F. B. Minor, Nichols, Anderson, etc. Brother Temp-ling used to say, "The gate stands ajar" and we used to sing:

There is a gate that stands ajar,  
And thru its portals gleaming  
A radiance from the cross afar  
Our Savior's love is beaming.  
TOMMIE JAY HARRISON.

In addition it is also certain that the nerve impulse is an INTELLIGENT LIFE FORCE. It is, therefore, something more than a message. It is God's GIVEN LIFE ACTIVITY WITHIN THE BODY OF MAN. It was intelligent enough in the creation of all things—all the vital organs, the bones and tissue—it is intelligent enough, therefore, to repair them. If it does not, there is a cause, and that is the Chiropractor's business to remove it.

It is gratifying to know that Dr. Enlanger and Dr. Gasser have acquainted the Physiological Congress at the Harvard Medical School with the fact at least that there is no doubt that man actually possesses a nerve impulse. It is regrettable, however, that it required 6,000 years for the medical profession, this so-called "science of medicine" to discover this truth. In another 6,000 years perhaps medicine will discover that this nerve impulse is an intelligent force emanating from the brain of man, passing through his spinal cord and over the entire nervous system to perform nature's only sure way of curing human afflictions, just as Chiropractors have done.

We cannot be too optimistic, however, that this will come to pass, for even with photographs of the nerve impulse on hand, there are very few of the 168,000 medical doctors in the United States who will be willing to surrender their pills and squirt guns for the use of the life force which God gave to man. Read I Jno. 4:4.

"Do thy duty, that is best.  
Leave unto thy God the rest.

THERE'LL BE NO REGRETS

**BETHEL**

The people of Hidway, North Bennett and Bethel have been enjoying the Methodist meeting held at Bethel church. Bro. Smith did the preaching.

Mrs. Waites of Goldthwaite visited Mrs. Anderson last week a few days.

Mr. and Mrs. Gray and son of Mason visited in the Denman home last Sunday.

Mr. Ralph Wright of Houston and his brother, John Wright and son Emmett of Hereford visited in the A. J. Cline home Friday.

Grandma Denton is spending a few days in Comanche with friends.

Mr. John Aubrey Reynolds surprised his many friends by getting married Sunday morning in Cleburne and then coming home to spend a few days with his parents, before going to Slayton, where they will make their home.

Mr. and Mrs. Tom Booker left Tuesday for Moody, where Mr. Booker expects to work.

Mr. and Mrs. Floyd Platt and daughters Loretta and Katherine, spent Sunday in the W. W. Reynolds home.

Mr. and Mrs. Lee Stewart have been out at Lubbock to see his sister, Mrs. D. Huckabee, who has been very sick.

Miss Mary Harcastle and brothers, are spending a few weeks in Lampasas.

Mr. and Mrs. John Reynolds and children of West Texas have been here visiting their son, Floyd, and daughter, Lois. They left Saturday for their home.

Mrs. J. Leverett and daughter is visiting Mrs. Mary Leverett this week.

The young people enjoyed the singing at North Bennett Sunday afternoon.

Miss Kate Petsick is spending a part of the summer in Dallas.

Mr. and Mrs. Charlie Anderson made a business trip to town Tuesday. BROWN EYES

Miss Mary Leigh Lane expects to leave next week for Everett, Liberty county, where she will teach school the coming season. Her friends here are glad of her success as a teacher and wish for her a pleasant term thru the fall and winter.

J. C. Faulkner and family were visitors to Hamilton yesterday.

The city has put on a weed cutting campaign this week, and as a result there is considerable improvement about the town.

A new sign has been painted on the front of the Melba Theatre, which is both attractive and ornamental.

Big Sale on now at HUDSON BROS.

L. J. GARTMAN  
MUSIC HOUSE

**Music Plays New Role In the Modern Theatre**

OWEN SWEETEN

**Now It Is Almost Whole Show, Says Owen Sweeten**

San Francisco.—The modern orchestra's relation to the theatre has undergone a radical change within the last few years.

This is the opinion of Owen Sweeten, famous orchestra conductor on the Pacific coast.

"A few years ago, the orchestra was a pleasing but unnecessary adornment of the theatre," explains Sweeten. "It took its place with the new drinking fountain and the elaborate program rather than with anything directly connected with the production."

"Today the orchestra is an integral part of the production, sometimes practically the whole show. I predict that soon all stage casts will be made up of musicians. There will be a perfect blending of the two arts, drama and music. We shall see whole

shows built around popular songs. This will mean that lyricists must be playwrights as well as poets. The lyrics will become more narrative. They will tell a complete story to provide the action that will combine the two arts. This is the age of action. We must not act songs if they are to get across.

"Too Busy"

"I am presenting 'Too Busy' in an act explaining how I think the song was written. The act is a corner of a drug store with telephone booths, and a stream of satisfied would-be telephoner being greeted with the operator's signal 'busy.' When one youth finally gets a number, his girl tells him she's too busy to talk, and he plaintively and wearily asks her, 'Are you honestly too busy, too? Just as a songwriter comes up to join the telephoner. The song-writer, forgetting his own errand, sits down at the soda fountain and dashes off 'Too Busy.'

"And this little act is not fiction, but based on an incident told me by the composers."

# MULLIN NEWS

NEWS NOTES CLIPPED FROM THE MULLIN ENTERPRISE

Miss Mary Kemp has gone to Temple for a short visit.

C. C. Hancock is in Ballinger looking after business.

Wm. Rae and family of Hamilton were recent guests of Mr. and Mrs. H. H. Stebbins.

Mr. and Mrs. M. A. Toliver of San Saba were guests of her father, S. H. Davis, Sunday.

O. Canady and family of Breckenridge spent the week end with Mr. and Mrs. J. J. Canady.

Mr. and Mrs. Tom Cooksey and sons were in town Saturday meeting friends and looking after business.

Mrs. C. A. Stewart and little son Charles and Miss May Holcomb of Brownwood visited in the Chancellor and Kemp homes the past week.

Mrs. McCown of San Saba has been here the past two weeks attending the revival meeting and a guest of her son Z. T. McCown and family.

Mrs. S. M. Casey has returned home from a visit to her son Earl at San Antonio and her mother, Mrs. Britton at Pleasanton.

Walter Campbell was in town Saturday transacting business. He has been having trouble with his teeth, and the dentist, it seems, is having trouble pulling them.

Leverett Henry, who has been in Chicago all summer studying an electrical course, has completed the course and is back in the Lone Star State. He is at home for a few days visit.

Mr. and Mrs. T. D. Goodwin of Blanket visited here the past week end.

Mrs. A. W. Savoy has been quite sick this week with an attack of appendicitis.

H. H. Stebbins, the genial mail carrier on route one, enjoyed labor day in Coleman.

Mr. and Mrs. Ernest Fisher visited her parents, Mr. and Mrs. Staggs, near Zephyr, Sunday.

Mrs. J. L. Smith and B. P. Kittle, Miss Marie Rice and Ben Kittle drove to Glen Rose and enjoyed the Sabbath in that city.

Charles Hays of Ballinger spent Labor Day at home with his family. His son, Alvin Hays, who is now with the Santa Fe welding crew, was also at home for the day.

G. B. Wallace spent the week end in Brownwood with Mrs. G. B. Wallace, who is recovering from a recent operation. She has been moved to the home of her daughter, Mrs. O. B. Crouh, from the sanitarium.

Miss Mildred Clark of Abilene made a brief visit in Mullin one day this week. She was enroute to Lometa with her aunt, Mrs. W. W. Tippen. After a visit in that city, Miss Clark expects to visit in San Antonio. She will again teach in the Abilene schools.

Mr. and Mrs. C. D. Green and pretty little grandsons were in town Saturday. Mrs. Green says that her nephew, Will Butts, and family are planning to move from Oakwood, Okla., to the Amos Green farm at an early date.

W. W. Perkins and family were guests of Mrs. J. L. Farmer, Saturday.

A. W. Savoy has sold his farm, known as the Oxley place to Matt Kyle of Goldthwaite.

Uncle Jack Brockenbrough made one of his occasional visits to our town recently.

Miss Helen Applewhite of Tahoka and Miss Anna Lee Applewhite of Imperial, Cal.

Mesdames LeMasters and Joekel of San Saba were visitors in the home of their sister, Mrs. C. R. Wilson, the past Sabbath.

The Primitive Baptist people of this section enjoyed services at their church Monday and Tuesday, Elder Patterson doing the preaching.

Mr. and Mrs. T. W. Cryer and Miss Leta Mae Williams arrived home Saturday from a most pleasant visit to Del Rio and other points of interest in the west.

Mr. and Mrs. Lee Hancock and charming daughter, Miss Virginia Lee of Fort Worth wee week end guests of their brother, W. C. Hancock, and family.

Aaron Little and Miss Ora Mills of Comanche visited in our city Saturday. Miss Mills has spent the summer at C. I. A. and will return in a few weeks to complete her course.

L. G. Tillman, progressive young business man of Glen Rose, visited his parents, Mr. and Mrs. F. M. Tillman, the past week. L. G. has a wide circle of friends here, who are always delighted to give him the glad hand.

Misses Lois Lee Koger and Leta Hancock spent Sunday in Glen Rose.

Sam Gardner has returned to his home at Swenson, after a visit to his brother, Ham Gardner, and sister, Miss Gardner.

Mr. and Mrs. G. H. Buchanan have returned to their home at Stephenville and were accompanied by Miss Neoma Toliver and E. L. Obenhaus.

Miss Inez Tyson of Brownwood visited her father, Roland Tyson, Saturday.

Mrs. B. A. Williams has renewed his subscription to the Enterprise recently.

Mr. and Mrs. Will Lockett of Best visited here recently in the home of his parents, Mr. and Mrs. D. J. Lockett. He has a good position on the deepest well in the world, it is said, at Best.

Mr. and Mrs. G. A. Buchanan have had the following guests recently: Mr. and Mrs. A. J. Brown of Rochelle, C. O. Buchanan and family of Dallas, and Mr. and Mrs. Knowles of Goldthwaite.

Mr. and Mrs. S. J. Fisher and mother, Mrs. Burgess, Ralph Fisher and Miss Myra Fisher have returned home from a visit at Vernon, Texas, where they were guests of a sister of Mrs. Burgess.

Miss Thelma Casey and her brother, Glen Casey, left Monday morning for Lockhart, in Caldwell county, where Miss Casey is county demonstrator. They were accompanied as far as San Marcos by J. P. Sanders who is planning on entering that school for the fall term.

G. W. Absher, a pioneer citizen of this section, was in town Monday.

F. A. Cobb and family of Ridge visited Mr. and Mrs. J. D. Cobb Saturday.

Seth Price and lovely little daughter were in town Saturday meeting friends and neighbors.

Rev. and Mrs. J. W. Stripling have returned home from Cherokee, where he has been conducting a meeting.

Mrs. Bennett Allridge and Mrs. Dudley Allridge recently visited Mr. and Mrs. A. H. Pickens.

Mrs. E. P. Smith and children left Tuesday morning for a visit with her brother at Somerville.

Mrs. J. L. Herrington and her little grandson, James Fisher, are visiting Miss Ima Herrington and J. W. Fisher in Brownwood.

Mr. and Mrs. Eddie Ragsdale of San Saba attended services at church here Sunday and visited his brother, Z. T. McCown.

Mr. Joe Fletcher has returned home from a visit to his children in Runnels county. He visited in the homes of Bert Fletcher and R. D. Martin at Maverick and T. A. Crockett at Ballinger. He had a pleasant visit, but was glad to get back to Mills County and his many old friends and relatives here were indeed glad to see him.

Misses Bertha Cox and Neoma Toliver spent Wednesday in Goldthwaite.

Mrs. A. R. Pyburn, Adeline and Ted Pyburn have gone to Eola for a visit.

Jimmy Smith is visiting his aunt, Mrs. A. J. Meaks, in Fort Worth.

Miss Lorene Crockett is in Brownwood, taking a commercial course.

Aden McCrary, a good citizen of Duren, was among the crowd in town Saturday.

The many friends of L. L. Wilson will be glad to know he is convalescing from a recent attack of appendicitis.

Miss Marsalete Summy of Batson, Texas, is now receiving the home paper by order of her mother, Mrs. C. L. Summy.

M. S. Savoy went to Temple Wednesday to be with his mother, who is ill in a sanitarium there.

Mrs. A. W. Savoy was rushed to Temple Tuesday night for an operation for appendicitis. She was accompanied by A. W. Savoy and Dr. Jones.

The many friends of Mrs. Aaron Little will regret to hear of the death of her grandson, Bascom Burton, in San Angelo. Funeral services were held at Newburg Wednesday.

**Women Like to Buy for  
Their Men Folks Here**

They like to buy for men in a man's store. They like especially the style they find here, the dependable quality, the courteous, careful service. They know that shirts, hose, ties, underwear selected here are certain to fit correctly, to please in every way. This is the man's store where women like to shop.

## Green tobacco is like wet Gasoline!

1. A wet gas is an atomized mixture of gasoline vapor in which are suspended drops of raw gasoline.
2. These drops form an uneven mixture which resists the action of the spark.
3. Result: Crankcase dilution, difficult starts, slow acceleration, sluggish power.

1. The new and better Texaco vaporizes so readily that it forms a dry gas—an active mixture of gasoline and air.
2. This pure, dry gas responds instantly to the action of the spark.
3. Result: Lightning starts, rapid acceleration, smooth action, power!

Green tobacco—wet gasoline, both are raw. It takes proper curing to make a sweet smoke. And it takes special, scientific refining to make a dry gasoline.

The new and better Texaco is specially refined to form a pure, dry, high test gasoline. It has a low "boiling" point, a low "end" point and great volatility, which means exactly this:—Texaco will release quickly all its power for useful work in the engine of your car. *It's better because it's dry!*

*The NEW and BETTER*

**BANGS, TEXAS FARMER SAYS HE HAS SUFFERED TWO YEARS**

**Tried All That Time to Find A Medicine That Would End Troubles; He Praises Orgatone**

"A man would have to travel a long way to find a medicine that will equal Orgatone," said L. B. Landis, a well known farmer, who lives on rural route No. 1, Bangs, Texas, while in Camp-Bell Drug Store, Brownwood, Texas.

"My trouble started about two years ago," continued Mr. Landis, "and I have been trying ever since to find some medicine or a treatment that would overcome it, and this Orgatone is the only thing I have yet found that has been worth a cent to me. My stomach was in such a bad condition that the doctors told me I would have to be operated upon. I would just simply suffer agonies every time I ate anything. My food would sour on my stomach, and I would be terribly bloated up with gas for two or three hours after meals. I was badly constipated all the time, and had to take a laxative of some kind every day nearly; and this condition caused my head to ache nearly every day. I was very nervous too, and it was a rare thing for me to have a good night's sleep. These troubles just kept pulling me down until I did not feel like doing my work."

"I commenced feeling better by the time I had been taking Orgatone about a week, and I am now as well and hearty as any man would want to be. I have the best appetite I ever had in my life, and I eat three square meals every day of my life, and I never have indigestion or sour stomach any more. Why, I actually eat big meals of meat and cabbage, and top it off with some kind of pastry now, and I never suffer a particle afterwards. I go to sleep soon after I hit the bed every night, and I am dead to the world for about nine hours, and the first thing I think about when I wake up is that I am going to enjoy a good hearty breakfast, and then go to my work with as much life and energy as I ever had. I am gaining weight every day, and in fact, Orgatone has simply made a well, sound man of me in every way, and that is why I say that you will have to travel a long way before you will find another Orgatone."

Genuine Orgatone may be bought in Goldthwaite at Hudson Bros. Drug Store.

**A SMALL BLAZE**

A small blaze in the southern portion of the city Saturday attracted a multitude of people and several hundred automobiles made double quick time getting to the scene, when it was found to be a shed containing a small quantity of feed. The proximity of the fire to the two gins as well as several residences in that section made the condition hazardous for a time, but the volunteer fire fighters soon had the blaze extinguished without any adjoining property having been damaged. The loss was small. The shed was the property of Mrs. W. J. Wagoner.

**BAPTIST CHURCH**

Who said it didn't pay to advertise in the Eagle? The man that had been lost for two weeks was at church Sunday, put his check in the basket and it looked like he was happy because he was back at his post of duty. To say the least of it, we were happy to have him. Sunday night one of the gentlemen that has been staying out on Sunday night was in his usual place, shaking hands with the folk and helping them to find comfortable seats. If we can just get the "baker" started on Sunday nights, we are going to start something at the Baptist church. In fact, we liked to have started something last Sunday. Our goal was reached in Sunday School, splendid crowds at both services and nine additions to the church. Now come on, Mr. and Mrs. Baptist. Be at your post of duty next Sunday. Now if any of you Baptists read these lines and you have the "grouch" just remember that your absence always contributes to our services. There is always two things this preacher does not want, and that is the itch and the grouch, and if the preacher can stay clear of these diseases certainly every member of the church ought to.

Schools are going to begin during this month and many of our young people are going away to school, while others are going to teach. Next Sunday, at the morning service, we are going to have an appropriate service for all who are interested in school work, whether you are a teacher, student or parent, or whether you are to remain in this town during the school session or go away. The pastor will speak on the "Home, Church and School." These three institutions ought to be of vital interest to every citizen, and just remember as the homes and churches go, so the schools go. These institutions are inseparable, yet this preacher believes in the separation of church and state. But these institutions are vitally related. So worship with us Sunday morning. Something may be said that will help you. If not, there will be nothing said that will hurt you.

There is one thing that this writer has been thinking of mentioning for some time, but has refrained from doing, because some are ready to say that it is none of his business. But from our way of thinking, it is the preacher's business to say anything that will promote happiness, prosperity and the preserving of life to the citizenship of our little town. Every citizen who drives a car ought to be very careful. This applies to all of us. Unless some of us are more careful about driving over the streets and decrease our speed, an accident is inevitable. It is certain to happen. It almost happened a few days ago when a baby started across

**IMPORTANT DECISION**

The United States Court of Appeal for the Eighth Circuit, in holding that the State Bank of North Dakota (a state-owned institution undertaken under Nonpartisan League regime) is liable for taxes just as though it were privately owned, lays down the principle that it is only when performing strictly governmental functions that a publicly owned institution may properly claim exemption.

The decision sets a precedent of far-reaching effect upon publicly owned enterprises. It does not, of course, attempt to define the line where governmental functions end and private business begins but it does state that there is a definite line of division and that when this is crossed, publicly owned enterprise loses the advantage of tax exemption and stands on an equal footing with private business.

The principle laid down is one that should be carefully weighed in consideration of proposals to inject government into business. If Federal taxes apply, then it is likely that State taxes would also apply to city owned enterprises.

the street and if the driver had not been driving at a moderate rate of speed it would have happened. I have lived in two or three towns where this very thing has happened, and then every one would drive careful and not at such a high rate of speed. Let's don't let this happen in order for us to be careful drivers. Let's put the right value upon our own lives and then place the right value upon the lives of our fellowmen.

G. C. IVINS, Pastor.

Mr. and Mrs. W. W. Johnson of Chappel Hill community came in Saturday to see the Eagle. They had just returned from a two week's visit to relatives in Bell, Milam, Robertson and Leon counties, their first stop being at Little River and the farthest point visited was Normangee. They met some friends they had not seen for many years and it had been a good many years since they had seen any of their kin in that section. Their daughter, Miss Lorraine, accompanied them and drove the car. They made the entire trip covering more than 600 miles without a puncture or the slightest car trouble. They brought back with them some of the fruits grown in eastern Texas and gave the Eagle editor a sample of the muscadines gathered in that section. Such fruit is a curiosity to many Mills county people.

H. M. Walden and family arrived from Burnet Friday and he took charge of the Saylor Hotel Sept. 1. He is an experienced hotel man and the Goldthwaite people extend a hearty welcome to him and his good family.

Weaver Leigh and his mother, Mrs. Maud Leigh, left in their car for their former home in Navasota, carrying with them the good wishes of all who know them.

Miss Grace Patterson left Saturday for San Antonio, to attend the Teachers Institute this week. She will teach in one of the rural communities fifteen miles from San Antonio.

Mr. and Mrs. E. O. Priddy went over to Valley Mills the early part of the week, for a visit to their son Alvin and wife.

**A STRANGE ACCIDENT**

Calvin Hazleton, San Saba citizen, is in Central Texas Hospital as a result of an accident that occurred about six o'clock Sunday afternoon while he was washing his car in the San Saba river. He is suffering from a considerable loss of blood.

Mr. Hazleton was about two miles from his home near San Saba. He was sitting in the front seat of the car washing the windshield when the glass from the windshield broke, cutting his right leg below the knee. Tendons, nerves and blood vessels were severed by broken glass. While blood was rapidly flowing from the wound, Mr. Hazleton drove his car to his home where the flow of blood was stopped. He was brought to the Central Texas Hospital, where he is rapidly recovering—Brownwood Bulletin.

**BARN BURNED**

W.G. Smith of the Bulls Spring section was in to see the Eagle Friday and told of his barn having burned a few days previous. The fire started in the day time, shortly after he had stored his last load of corn, and he believes it to have been caused by spontaneous combustion in the hay stored in the barn. All of his corn and other feed was a total loss, as was the barn, without a dollar's insurance. It was indeed a serious loss and his friends everywhere sympathize with him.

**A Great Discovery**

When Pasteur discovered, in 1862, that the infection of wounds was caused by malignant bacteria, he performed a service of incalculable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that these dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Borozone, the modern antiseptic. You can get Liquid Borozone, in a size to fit your needs and purse, from

HUDSON BROS., Druggists

Father Has the Right Idea

Orphans in the Near East need clothing. There are still 25,000 children in American care too young to be graduated into self-support. Bundles may be sent by parcel post, express or freight, prepaid or collect, to Near East Relief Warehouse, U. S. Army Base, foot 58th Street, Brooklyn, N. Y.

FLAT RATES ON CHEVROLETS

Saylor Chevrolet Company

*Economical Transportation*  
**CHEVROLET**  
**Facts that prove the Value of The New CHEVROLET SIX**

The new Chevrolet Six is shattering every previous record of Chevrolet success—not only because it provides the greatest value in Chevrolet history, but because it gives you more for the dollar than any other car in the world at or near its price! Facts tell the story! Modern features afford the proof! Read the adjoining column and you will know why over a MILLION careful buyers have chosen the Chevrolet Six in less than eight months. Then come in and get a ride in this sensational six-cylinder automobile—*which actually sells in the price range of the four!*

The \$595 COACH

The Roadster... \$525	The Imperial Sedan... \$695
The Phaeton... \$525	The Sedan Delivery... \$595
The Coupe... \$595	The Light Delivery Heavy Chassis... \$400
The Sport Coupe... \$645	The Light Ton Chassis... \$545
The Sedan... \$675	The Six Ton Chassis with Cab... \$650

*All prices f. o. b. factory, Flint, Michigan*

**Remarkable Six-Cylinder Engine**  
Chevrolet's remarkable six-cylinder engine impresses you most vividly by its sensationally smooth performance. At every speed you enjoy that silent, velvet-like flow of power which is characteristic of the truly fine automobile!

**Beautiful Fisher Bodies**  
With their low, graceful, sweeping lines and smart silhouette, their ample room for passengers and their sparkling color combinations and rich upholstery—the new Fisher bodies on the Chevrolet Six represent one of Fisher's greatest achievements.

**Outstanding Economy**  
The new Chevrolet Six is an unusually economical car to operate. Not only does it deliver better than twenty miles to the gallon of gasoline, but its oil economy is equal to, if not actually greater than, that of its famous four-cylinder predecessor.

**Remarkable Dependability**  
In order to appreciate what outstanding value the Chevrolet Six represents, it is necessary to remember that it is built to the world's highest standards. In design, in materials and in workmanship—it is every inch a quality car!

**Amazing Low Prices**  
An achievement no less remarkable than the design and quality of the Chevrolet Six is the fact that it is sold at prices so amazingly low! Furthermore, Chevrolet delivered prices include the lowest financing and handling charges available.

William Glenn Yarborough will leave Sunday for Brownwood, to enter Howard Payne college at the beginning of the term. The college does not open until Wednesday, but he has a position with Garner-Alvis Dry Goods Co. of Brownwood to serve as salesman in the afternoon and other times not required by his studies and enters upon his duties Monday.

**EYE SIGHT SPECIALIST COMING AGAIN**

Dr. Fred Baker, San Angelo's well known optical specialist, will be at the Saylor Hotel one day only, Wednesday, September 11th. The doctor has been fitting his famous glasses for people of this section for several years. Phone L. B. Porter, County Clerk, and H. B. Johnson for references. Also J. D. Brim, Mrs. Marvin Rudd, Mrs. R. F. Enloe, Mrs. C. F. Williams and others, who will be furnished as references upon request.

Dr. Baker was President of the Texas Optical Association, National Vice-President and was appointed by former Governor Pat. M. Neff a member of the Texas Optometry Examining Board. Don't fail to see him.

**HENS CATCH COLD**

Hens may catch cold, even in warm weather, if kept in poorly ventilated houses. The county agent at Corpus Christi reports that one flock of 250 White Leghorns quit laying due to colds. Lack of ventilation on one side of the poultry house was found to be the cause. After this was corrected and the flock doused with Epsom salts and the drinking water disinfected, the birds returned to 50 per cent egg production in two weeks' time.

**PLOW EARLY**

Early plowing of land in the fall to increase its water holding capacity, and the plowing under of such green crop and weed growth as possible, are two valuable farm practices to which attention is called by county agents in crop demonstration tours this season. A striking example is that of Mr. Kloessel in Runnels county. He plowed his land six inches deep twice early last fall and harvested 75 bushels of oats per acre this year.

**DATE FIXED**

Oct. 1 is the date fixed for placing the Eagle's subscription list on a cash basis.

**I AM CHIROPRACTIC**

Gift of the bounty of God Bestowed with the breath of life. Strong and as eager and tender As the love of a groom for his wife. Kind as a touch of a mother On the cheek of her newborn child. Bright as the sun in the heavens, Cheering and healing and mild, I am Chiropractic!

Old as the ages of earth, Yet new as the science of man, True as the life we are living Since the wonder of living began. Love from the love of our Maker, Eternal as time beyond time; Soothing the rich and the lowly, Gentle befriender sublime, I am Chiropractic!

Oppressed by legions of greed, Denied by vendors of lies, Monsters that grin with their triumph While the life of the living one dies. Enslaved, but the Spirit of Freedom, Like Joseph, the servant of light, A slave more able than masters, With knowledge, virtue and might, I am Chiropractic!

Laden with burden of joy, Richer far richer than wealth, Mine hands o'erflowing with treasures, Hold the marvelous treasures of health; Turning tears into shining jewels, Like sun-dew that glistens the sod, Easing the hearts of the weary— A wonderful gift from God! I am Chiropractic!

J. C. Burdett presented the Eagle editor with some nice pears this week. He reports insects preying upon his fruit to a distressing extent.

Don't be late to work nor late to quit. Time is money. Have that watch put in good order to keep correct time. Take it to L. E. Miller, the Jeweler, and you will get perfect satisfaction.—Adv.

Come to Miller's Jewelry store where you can fit yourself with a pair of spectacles and save money.—Adv.

**NAILS AND STAPLES**

Volume Number 1. Friday, September 6, 1929. Number 34

Published in the interest of the people of Mills County by Barnes and McCullough.

PAUL McCULLOUGH, Editor

Monday Labor took a vacation and celebrated, but the average business man kept plugging away to make ends meet.

Jno. Hester is improving the front of his building. Those who are prosperous have nice looking buildings and homes.

The 23rd will be one day that boys around Goldthwaite will not celebrate. School opens then.

There should be several other new fronts put in stores in Goldthwaite's business district. When you pass a store that has a neat show window of a glass front, you will unconsciously stop and look in.

Never mind, fellows, it's not such a long time to the Christmas holidays.

We have a dipping vat already made for use. If you intend to build a goat dipping vat, come in and see our form, and if you don't like it you can get the idea.

We didn't enthuse over the beginning of September either. Had to throw our saw away or get it knocked off.

A certain man who uses a lot of cement said, "You know, Atlas Portland Cement looks richer and gets harder than any cement I ever used."

We didn't hear the dry goods stores kicking, however. They can now sell those swell fall hats they're showing.

The Atlas Portland Cement people were the first in the United States to make cement, and believe me they know how to make it.

A kiss once meant matrimony or disgrace. Now it lands only on the enameled surface and is rubbed off each night with cold cream.
