Plan Church Services Wedding Bells

A great audience is expected at the Methodist church and Sunday school next Sunday. Last Sunday surpassed our expectation as the weather was unfavorable. We should be profoundly grateful that there is little illness and most of the folks are feeling fine. The angry winter weather has made us fearful of an epidemic of gripp or flu and with discretion we hope to evade any great deal of it this year. Let us continue to practice discretion and the use of our reason. It is sinful to abuse these bodies, and the preservation of our health physically is a sacred duty. Many of our plans we have been unable to execute this winter but we shall keep sweet as we remember that we are the children of God who rules the temperature as well as the universe and try to give Him acceptable service and praise. For his marvelous goodness let us not fail to honor Him in all our ways and not forsake the assembling of ourselves together at His house. A warm house and warm hearts extends to you a warm welcome at the Methodist church next Sunday for Sunday school and all regular workers.

On Thursday evening, Jan. 23, at 6:30 Miss Velma Loren became the bride of Mr. Lynn Cross Plains at the home of her aunt, Mrs. Joe DeWitt, Blundell street, Ranger. Rev. H. H. Stephens, pastor of the Central Baptist church of Ranger, officiating and using the ring ceremony. A few friends and relatives of the bride and groom with Mrs. Stephens, were the only guests present.

Mrs. Nix was unusually active in a silhouette model of gold Elizabeth crepe with high waist line and long circular skirt. She wore a shawl or corsage tinted in delicate shades of pink and lavender with all accessories. She is beautiful and popular daughter of Mr. and Mrs. J. H. Loren, formerly of Goldthwaite and now of El Centro, California. The groom is the son of Mr. and Mrs. J. D. Nix of Goldthwaite. This young couple were married at Goldthwaite, where they have a host of admiring friends who will wish for their long and happy wedded life.

Mr. and Mrs. Nix left immediately for Cross Plains, where they have a beautiful furnished home waiting for them.

Subject—The New Africa.
Leader—Virginia McGirk.
Song—Thru out the Life Line, No. 189.

Scripture—St. John 7: 37; Mat. 18: 6—Elda Byran.
Silent Prayer, closed by Vera Horton.

A discussion of the third and fourth chapters of the New Africa—Lois Fuller.
A mission offering.
Song—Give of your best to the Master, No. 202.
League Benediction.

MEETING AT STAR

Rev. W. L. Barr, presiding elder, will be at Star church next Wednesday, Jan. 29, to hold the first quarterly conference for the Star circuit. There will be an all day service with dinner on the grounds for all who will attend.

Priddy Represented Ablly And Well

Mr. and Mrs. Ed Dearson were at home to a crowd of friends who gathered at their home Sunday, Jan. 19.

The Priddy Luther League met Sunday evening to elect officers for the coming year. Those elected were: Arthur Gromatzky, president; Arthur Hohertz, vice president; Anna Hohertz, secretary; Weimar Hein, treasurer.

Herbert Sommerfeld was a Caradan visitor Sunday.

Calvin W. Ballard and G. C. Partin visited in the home of Paul Finke Tuesday evening.

Mr. and Mrs. Ted Wuestenberger were visited by a crowd of friends Sunday.

Floyd Partin visited Joe Barker Sunday.

Mr. and Mrs. Albert Hohertz gave a party in honor of Mr. Hohertz's twenty-eighth birthday Tuesday evening.

There was Sunday school and church at the St. John's Lutheran church Sunday morning.

Mr. and Mrs. August Druhammer and family and Mrs. Geo. Niemann family visited Mr. and Mrs. Ralph Sunday.

Alfred Tischler and Miss Emma Greele visited Mr. and Mrs. Arthur Meyer of Goldthwaite Sunday.

Otto Lubke and Frank Schramm went to Comanche Sunday.

Farmers report much of their grain killed by the recent extreme cold weather.

G. M. Hiller and family of Indian Gap, Bruno Schrank family, and Mr. W. W. Hammer and family enjoyed a turkey dinner at the home of Mr. and Mrs. Otto Schuster Sunday.

Mr. and Mrs. Fritz Eisen returned Sunday from a three week's trip to the Rio Grande valley.

Mr. and Mrs. Louis Tischler entertained with a dance in their home Saturday night.

Henry Seibert and family of Mesboro visited Richard Hohertz and family Sunday.

John Hiller and family visited in the home of Mrs. Emma Apples Sunday.

Herman Hohertz and family visited F. W. Hein and family Sunday.

Friends and relatives gathered at the home of John Hiller Wednesday to celebrate Mrs. Hiller's birthday.

Eighteen Karat Boobys present at the Priddy school auditorium Friday evening presented by the Aleman high school.

Ed Schrank and son, Benjamin, were Goldthwaite visitors Saturday.

Fritz Tiemann was bitten Sunday by a pet wolf, owned by the Priddy Garage.

Otto Stahnke's brooder house with 300 chickens was completely destroyed by fire Thursday night.

Two boys enroute to Comanche from Goldthwaite Sunday afternoon lost the drive shaft and fly wheel of their car a short distance south of Priddy. They came to Priddy and telephoned for aid.

Charlie Tiemann lost seventeen sheep Thursday because of a raid the night before by dogs.

Mr. and Mrs. Malcolm Limmer of Wilson are visiting Mr.

MIDWAY

Health in our community has improved some since last writing.

In spite of the cold weather the young people enjoyed a party at Mr. Jackson's last Saturday night.

Some of the school children were unable to get to school Monday on account of slick roads.

Very few were at Sunday school last Sunday. Let's more of us be present next Sunday if possible.

Farmers are getting anxious to sow grain but it is rather impossible when the ground is covered with ice. The women are wanting to start gardening also.

Miss Laurie Petsiek visited homefolks last Sunday.

The severe cold has prevented most of the automobiles from starting so there has been very little visiting, causing the news to be very scarce this week.

REPORTER

CHURCH OF CHRIST

All our services were extra well attended last Sunday. We are very encouraged by the hearty co-operation of the members in their attendance at all services. I am sure I have never labored with a congregation where as great a percent of it's members attended regularly.

I have no way to fully express my appreciation for this manifestation of interest. I shall be disappointed if this splendid interest does not continue. As cold as it was last week, there were thirty at prayer meeting. This was far more than I really expected, the weather was so cold. It is impossible to progress in the church work without the members attendance. I feel sure my brethren appreciate this fact, hence their co-operation in this respect.

I feel sure just as soon as the extreme cold weather is over a much greater interest will be manifest. We seem to be in the midst of the most severe winter we have had in many years. No doubt the hard winter will slow down all lines of activity. Ordinarily church work is the first to suffer from such obstacles. It surely is gratifying to see the religious interest holding out so well. Brethren let us even make a greater effort in the future than in the past.

Remember our Bible study begins at 10 a. m. each Sunday. Preaching begins at 11 a. m. Young people's class at 6 p. m. each Sunday. Preaching at the evening hour each Lord's day. Ladies Bible class at 3 p. m. each Wednesday. Prayer meeting each Wednesday evening.

"Prepare to meet thy God."
Your servant,
E. S. FITZGERALD.

HILL - KUYKENDALL

James Hill and Miss Vivian Kuykendall from the Liberty community were united in marriage at the Baptist parsonage January 17.

and Mrs. F. W. Limmer and family of Priddy.

Frank Lubke and two friends from Eden visited friends and family Sunday afternoon until Monday relatives in Priddy from Saturday morning.

REPORTER

BAPTIST CHURCH

Just one more Sunday in the first month of the New Year. Here is hoping that the sun will be shining brightly; that the birds will be singing sweetly; that everybody who is ill will be well; that those of us who have been despondent, those who have had the grouch and those who have had a smile, will meet at the Baptist church Sunday for an old fashioned, heaven-sent service, both in the Sunday school room and in the church.

Owing to the weather conditions our crowds at all services last Sunday were beyond our expectations. At the morning service we were favored with a special song by Mrs. John Gary of Longview. Mrs. Gary is not a stranger to our people, and we are always glad to have her sing for us.

We are earnestly praying for every one of our members and other acquaintances of our town who are in hospitals. We are deeply concerned about them and truly hope that all of them will soon recover, and we are praying to that end.

Personally, I want to thank the citizenship who responded to the call of this pastor in helping to defray the expenses of a mother and her four daughters to San Angelo. It is not an easy task to ask people to help take care of those whom they do not know. But this very thing has been done a number of times recently in our town. The people have responded in a beautiful way. There is not a people between the oceans that will help more readily to the call of their fellow man than the citizens of Goldthwaite.

Now listen, Baptists, you know that the ladies have taken over the financial secretaryship of our church. It is very generous of them to do this work, and put what they get out of it back into the church work. Mrs. Campbell is looking after this part of our work. Now let's everyone who will and who can contribute monthly. Let's also put our offering in one of our church envelopes, with our name signed. Come to church Sunday and drop your envelope in the plate. Many have already done this and if these good women are willing to look after this "gratis," surely we ought to be willing to make this part of our work a joy, instead of a burden. We want every member of our church, if possible, to help take care of our financial obligations. But if there is anyone that feels that they can't help in this work, we want them to come to church just the same. There are more ways to help the church than that of giving money. Some people are less fortunate than others, and cannot give money, but can help by their presence. Our church is a church where everybody is recognized, whether rich or poor, high or low. In fact, we have no rich or "high ups" in our church. We are just plain people, and plain people are the best people to be found in the church or out of the church. So come on and join the crowd and have a good hour of fellowship that will drive away all impediments.

G. C. IVINS.

ROCK SPRINGS

We didn't have Sunday school Sunday morning as some thought the weather too bad, a few went to B. Y. P. U., but those on the program were not there, so there wasn't any B. Y. P. U. It seems queer some can go to town and others places when it is cold, but when it comes to our church work, the least little thing keeps them at home.

Brother A. L. Braswell, pastor of the Nazarene church, preached for us Sunday afternoon. If he hadn't brought his crowd with him, the crowd would have been very small, as there was just a few from here heard his good sermon.

Landy Ellis sold Mr. Locklear a bunch of cattle last week. Jack Robertson delivered them to Mr. Locklear Saturday.

J. C. Stark and wife and J. O. Stark and family from Center Point visited in the Davis home Sunday afternoon.

There were several sick ones in our midst last week, but at this writing I believe all are better.

Washing and hog killing took place last week. It almost got too cold to do either.

Ethel and Hardy McClary spent the day Sunday in the Nickols home.

Jim Circle of San Saba spent Saturday night with his parents.

Bill Curtis from Junction is visiting W. A. Daniel and family and Mrs. Zona Robertson in Big Valley.

Walter Weatherby was kept very busy those cold days, coming out to his farm to feed his sheep.

Miss Love Gatlin brought Oscar to the farm Saturday morning.

J. C. McClary lost a nice Jersey heifer during the cold spell.

There were several frozen to death in our community last Friday night — flowers of all kind in cellars and pits and elsewhere.

Mrs. Eula Nickols and Shirley made Mrs. Joe Roberts a pop call Saturday afternoon, at Bulls creek.

H. G. Forehand attended church at this place Sunday afternoon.

J. O. McClary went to Ranger last week.

It made us all feel proud when we read in the Eagle about our neighbor, Miss Melba Coekrum, being on the honor roll at Lyubock Tech.

Some out here received invitations to Mr. J. D. Lowe's wedding. We can say one thing the bride knew how to select a husband, for J. D. is a fine boy. We wish them well and a long happy life.

J. T. Robertson helped his son, Marion kill hogs last week in Big Valley.

Landy Ellis and Collier Ballard had business in town Saturday.

Miss Fay Ellis spent last week with Mildred Dellis at Trigger Mountain.

Jno. W. Roberts can't decide what to do first every morning since he doesn't have work at town.

J. O. McClary spent Sunday in the McNutt home. Mesdames Robertson and Nickols called in the Davis home Monday afternoon. Miss Ethel McClary and Mrs. Eula Nickols went with

Mr. and Mrs. Floyd Frazier of Brownwood visited relatives here Sunday.

W. M. Sparkman of the eastern part of the county looked after business in this city yesterday.

Mrs. Ha Gary of Longview, visited her mother, Mrs. Simms and other relatives here last week.

Mrs. D. D. Kemper returned Saturday from San Marcos, where she has been visiting her daughter, Mrs. H. J. Starnes.

Mr. and Mrs. Virgil Jackson of Lometa and Mrs. W. B. Jackson spent Sunday in Brownwood at the bedside of W. B. Jackson.

W. E. Rahl has returned from a business trip to San Angelo, Fort Worth and Dallas. He reports much cold weather, but business on the move.

Reports from the Temple sanitarium say Mrs. Robert Weaver is much improved and it is now expected she will soon be able to return to her home in Waco.

Rev. W. A. Thornton, Baptist missionary for this county, who was taken to the sanitarium in Brownwood last week, is reported to be recovering nicely.

W. B. Jackson, who was carried to the sanitarium in Brownwood last week, is not improving as much as was expected. His family and friends hope he will soon take a turn for the better.

J. C. Mullan, who has been suffering for several weeks with a carbuncle on his neck, is somewhat improved and it is hoped he will be able to return to his place of business in the near future.

J. B. Whiteman and wife of Brady visited friends in this city Friday. He was manager for the West Texas Telephone Co. here a good many years ago and occupies a similar position in Brady.

Kelly Saylor attended the state meeting of Chevrolet dealers in San Antonio the first of the week. Mrs. Saylor and Mrs. J. W. Weathers accompanied him and spent the time visiting in the W. A. L. Graves home. They made the trip in a car.

Edward Geeslin and wife were here from Brady Friday, he looking after tax matters and other business, while Mrs. Geeslin visited friends. He is very sanguine of Goldthwaite getting gas in the near future and says the Brady supply is strong and the line to Goldthwaite will come from the same field.

In a special to the daily papers of Saturday announcement is made of the election of S. P. Peebles as president of the Lee County State Bank Lexington. Mr. Peeble is a son-in-law of Mr. W. M. Johnston of this city and has a number of acquaintances here, where he has frequently visited in the home of Mr. Johnston and they are glad to know of his success and advancement.

Horace Cooke Sunday evening late to take Herbert to his school over on the bayou.

Mrs. R. C. Webb had business in town Monday, if the roads were slick.

Lewey Ponder is back on his farm.

During all the bad weather J. Frank Davis never failed to get a smoke in his cob pipe.

J. C. Stark's old faithful horse died this week.

As I close my letter the ground is covered with snow, and sleet and I hope when we read it Friday the sun is out and everybody can smile and be in a good humor once again.

BUSY BIRD.

Experiences to Weather

As never been experienced in Texas as long a siege of weather as that of the weeks. Snow, sleet, and cold winds, and little rain. The cold week has been the of any time, while of times the thermometer has hovered around

to the stockmen great, altho most had some losses, the sheep and goat of them have had heavy, but we the winter will and early pastures the situation a lot.

THE GOLDTHWAITE EAGLE

Mr. and Mrs. I. E. Miller made a visit to Menard Sunday.

Phone us your order for Bill's famous Brick Chili—Bill's Cafe.

Mrs. R. C. Webb of Rock Springs was shopping in the city Monday.

You should see the stylish samples of spring suits Burch is showing.

J. R. Carter, Sr. was a visitor to the city from Center City Saturday.

C. F. Joak, merchant and banker of Priddy, had business in the city the first of the week.

Better get your highway license tag or your car before Feb. 1, otherwise it may cost more.

Judge and Mrs. E. B. Anderson visited relatives in Brady Sunday and returned home Monday.

If you want used furniture, see Cryer, west side of square. He has bargains. 16-11-11

Miss Garetta Little, who is a student in Howard Payne College, spent Saturday and Sunday at home.

Your poll tax receipt will not entitle you to vote in any of the elections this year, unless it is dated prior to February first.

Be sure to call for Bill's famous Brick Chili. The only original Bill's Cafe.

G. H. Crawford, one of the prosperous young farmers of Chappel Hill community, was an appreciated caller at the Eagle office Saturday.

Dr. Baker, the Dentist, will be in his Goldthwaite office every Wednesday and Saturday, rain or shine, hot or cold.

Hon. Phil H. Clements, door-keeper for the House of Representatives, left Sunday for the Capital city, to be ready for the opening of the special session Monday.

After February 1, taxes will be higher, for the 10 cents on the dollar will be added. The collector has no choice in this matter, but must add the 10 cents on the dollar.

These cold days, nothing tastes better than Hot Chili—Bill's Cafe. One pound bricks.

Hon. Homer C. DeWolfe, representative for Comanche and Mills counties in the state legislature, left for Austin Sunday to take up his duties in the called session, which convened Monday.

Cryer has bargains in all kinds of used furniture, west side of square. 10-11-11

C. C. Bledsoe came in from Kerrville the first of the week and reported disagreeable weather in the Kerrville section.

Wm. Glenn Yarborough came over from Brownwood Sunday to spend the day at home.

Dr. Baker, the Dentist, will be in his Goldthwaite office every Wednesday and Saturday, rain or shine, hot or cold.

The Saylor Chevrolet Co. have moved into their new location on Fisher street and certainly presents a nice appearance. The sales room is located in the area formerly occupied by the hotel lobby and office, while the garage and storage room is in the new building adjoining the hotel building on the north. Not only is it spacious and well appointed, but it is fireproof throughout. This company now has one of the finest and best appointed salesrooms, offices and garages in Texas.

Dr. Baker, the Dentist, will be in his Goldthwaite office every Wednesday and Saturday, rain or shine, hot or cold.

A Great Discovery

When Pasteur discovered, in 1881, that the infection of wounds was caused by malignant bacteria, he performed a curious of inestimable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that these dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Borosone, the modern antiseptic. You can get Liquid Borosone, in a glass to fit your needs and purse, from

HUDSON BROS., Druggists

HABITS OF THRIFT

A man who is often referred to as a business genius recently said: "Early in life, when a boy, I formed a habit of jotting down a record of every penny I spent. This taught me the value of system and frugality. I soon found myself able to save a little money. As I grew, I developed habits of general thrift from this simple beginning, and, with a small amount of capital thus available when I reached the age of maturity, I was able to take advantage of opportunities that led to subsequent success." Many other men who have achieved great success in the business world could give similar testimony.

One of the first essentials in making plans is to keep a budget. This may seem a trivial matter yet it is the only method by which any person can plan his financial affairs scientifically or develop greater efficiency in personal economics.

The value of budget keeping is especially applicable to the young, for the habit thus formed early in life is quite apt to be carried along as a permanent routine.

Every business concern keeps a strict account of every penny received and spent, and a business which transacted its affairs in any other manner would be most incapably managed.

If you are endeavoring to get ahead in the world and be prepared for the rainy days that come into all lives, adopt first of all the rule of keeping an accurate daily record of your expenses. You will find that by the adoption of this system your progress in thrift will be made doubly easy and you will soon be surprised at the difference these well-ordered practices make in the amount of your savings.

Working without a plan is sailing without a compass," says the old proverb and it can well be applied to the administration of one's personal affairs.—S. W. Straus.

WATCH THE DATES

Every Eagle subscriber's expiration date is printed on the paper opposite the name of the person addressed and every subscriber can know at any time just how the record shows at this office. The pay in advance rule is being enforced as nearly as possible, while some dates have been allowed to lapse, where the publisher has a reason to believe the paper is desired by the subscriber and the account will be paid. A few have complained that their names have been dropped without notice, which is a true statement, yet it has been the experience of the Eagle management that subscription statements result in a loss of postage. However, a plan has been evolved to make the notice clear and without expense. An X will be marked on the paper opposite the subscription date and the subscriber will then know that a renewal is requested. The Eagle management appreciates the patronage of the subscribers and trusts they will all renew, without the necessity of dropping a name from the list, but if they do not desire the paper continued to their address, the management has no desire to force their patronage.

Dubious Cure For Crime

A move has been started to pass a law regulating interstate shipments of firearms. According to the proponents of the law, a pistol is of no possible use as a weapon of defense to the law-abiding citizen because of the element of surprise. This is a highly dubious statement as there are many cases—such as a prowler heard in a house or a robber holding up a train—where the armed citizen is not taken by surprise. But even taking it at its face value, is it a valid argument against ownership of guns by law-abiding citizens? What of the psychological advantage accruing to criminals who know that the law-abiding citizen is unarmed, and hence, even if he is warned ahead of time, cannot defend himself? What of that more important phase of the problem, constitutional rights? In several great

SHIFT TO BETTER COTTON INDICATED

Early indications point to increased emphasis by Texas farmers next year on the growing of better staple cotton, according to reports of county agents to the Extension Service. In the past most of the development of one-variety cotton communities, standardized on one superior strain, has come as a result of much urging by county agents and others, but farmers in many localities are this fall pushing the matter for themselves. The reasons most commonly given for this change in sentiment are price discriminations in local markets against short staple and low grade cotton, the general short crop and low prices, and the successful experience of many communities in Texas counties last year. The results of their ventures in growing and selling better cotton have not yet been summarized, but the previous year an average increase of \$7.83 per bale was realized, the Extension Service agronomist reported. Among the counties

cities stringent anti-pistol laws are in effect. Has crime decreased? It has not. A well-armed citizenry would be a strong defense against crime if only for the reason that it would make criminals think twice before entering a house or holding up an office or store. Proponents of anti-pistol laws are interested in stopping crime as are all good citizens. But the remedy they propose would seem to substitute fancy for reason.

Elimination of 25 railroad crossings and a reduction of 21 miles in length was effected by the Highway Department in rerouting Highway No. 5 from Henrietta to Donham, a distance of 108 miles, Gibb Gilchrist, Highway Engineer, said Thursday following the receipt of tentative plans for the new route. In spite of the reduction every town on the old route will be on the new one.

Former Gov. James E. Ferguson fell Saturday night and broke his collar bone. It was a peculiar accident in that the former Governor fell or slipped from his bed and sustained the injury. It is expected to be entirely healed in time for him to participate in next summer's campaign. The attending physician said the ex-Governor had not been seriously injured and that he had set the injury with no great inconvenience to his patient.

whose farmers are reported by county agents to be active in establishing one-variety communities are Lynn, Van Zandt, Dickens, Howard, Mason and Mills. In Van Zandt county 17 farmers have asked aid of the agent in developing the production of good staple cotton in place of half and half, and bankers report that hundreds of farmers have indicated that they would not plant short staple cotton this year. A meeting of "staple-minded" farmers is being held in Dickens County this month to begin a fight to get the \$15 per bale alleged to be lost in the local market there on account of short staple cotton.

Jazz Is Red-Headed, Says Titian-Tressed Drummer

BOBBY GRICE

What a girl—what a night—what a man—driving tight—

Who Also Adds That Waltzes Are Brunette!

New York City.—When the boys in the neighborhood yell "Red Head, Red Head, ginger-bread" at the sight of Bobbie Grice's red pig-tails, Bobbie used to shake her little fists, stamp her feet and weep, though never until she got home where the boys couldn't see her. This wasn't so long ago, because Bobbie is only twenty-one now. But she is still stamping her feet. That's because as leader of The Parisian Red Heads, the highest paid girls' band in the country, no part of her small body can keep still as she directs one of the newest jazz hits.

Still Stamps She no longer stamps in anger or cries in sadness over her red hair. In fact, she gives to her titian tresses much of the credit for her astonishing musical success.

"Red heads make the best jazz musicians, and I've got fourteen other red heads in my band, so don't consider this unduly personal," declares Bobbie. "Somehow the ginger-breads seem to have the temperament that goes with our modern music. In choosing the members of my band, and I've listened to hundreds of girl musicians, I found that the one-headed girls could play the jazz moon-light type of rhythm, but for the strange jazz tunes, the carrot-tops are best.

"Take the fiddle, 'What A Girl! What A Night!' No brunette could get as much out of that tune as a red head. Jazz is really a red head's music. Its very tempo is red."

Well-Paid The members of Miss Grice's band get from sixty to one hundred and fifty dollars a week, and their leader urges more women to enter the musical profession.

"It pays higher salaries than almost any other profession open to women," says Bobbie. "The idea that women can play only the piano and violin is absurd. If they are talented they can learn to play any instrument. There is a great demand right now for cornet and trumpet players, in fact, there is a scarcity of all wind instrument musicians."

Miss Grice, herself, is one of the head-line drummers in the country. "And if a woman can play the drums, and still please her audience, she can play anything, even the mouth-organ," declares this famous red-head.

TREASURER'S REPORT

In the matter of county finances in the hands of Lois Fuller, Treasurer of Mills County, Texas.

Commissioners' Court, Mills County, Texas, in Regular Quarterly Session, January Term, 1930.

We, the undersigned, as County Commissioners within and for said Mills County, and the Hon. L. E. Patterson, County Judge of said Mills County, constituting the entire Commissioners' Court of said County, and each one of us, do hereby certify that on this, the 13th day of Jan. A. D. 1930, at a regular quarterly term of our said Court, we have compared and examined the quarterly report of Lois Fuller, treasurer of Mills County, Texas, for the quarter beginning on the 1st day of Oct. A. D. 1929, and ending on the 31st day of Dec. A. D. 1929, and finding the same correct have caused an order to be entered upon the minutes of the Commissioners Court of Mills County, stating the approval of said Treasurer's Report by our said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since her last report to this Court, and for and during the time covered by her present report, and the balance of each fund remaining in said Treasurer's hands on the said 31st day of December A. D. 1929, and have ordered the proper credit to be made in the accounts of the said County Treasurer, in accordance with said order as required by Article 867, Chapter 1, Title XXV, of the Revised Statutes of Texas, as amended by an Act of the Twenty-fifth Legislature of Texas, at its regular session, approved March 20, 1927.

And we, and each of us, further certify that we have actually and fully inspected and counted all the actual cash and assets in hands of said Treasurer belonging to Mills County at the close of the examination of said Treasurer's Report, on this the 13th day of January A. D. 1930, and find the same to be as follows, to-wit:

JURY FUND

Balance on hand	\$1593.89
To amount received	470.12
By amount disbursed	980.10
By amount transferred	800.00
By amount to balance	283.91
TOTAL	\$2064.01

Balance to credit of said Jury Fund as actually counted by us on the 13th day of Jan. A. D. 1930, and including amount balance on hand by said Treasurer at the date of the filing of her report on the 13th day of January A. D. 1930, and the balance between receipts and disbursements since that day, making a total of

.....	\$896.62

By amount transferred	1582.59

STRANGE IF TRUE

Authentic sources seem to verify the story that a hound caught in a trap in New Hampshire was fed for eight days by an Airedale that carried food to the prisoner. But if the story had only a flimsy basis we should still like to believe it.

We hope that no hard-boiled pursuer of nature fakes will take it into his head to run this story to earth. The world would be so much the poorer if the story should be proved untrue. Whether or not it actually happened is not so important. It is a good allegory at any rate. It is one of those things which should be true if it isn't, and which would be true if a dog's reasoning powers were as reliable as his affections.

We choose not to go any further into this subject.—San Francisco Chronicle.

EXAMINATION

An examination has been announced for the position of fourth-class postmaster at Star, Texas. Persons wishing application blanks and instructions may get them at the office of the vacancy or direct from the United States Civil Service Commission at Washington, D. C. The date for assembling of competitors will be stated on the admission cards which will be mailed to applicants after the close of receipts of applications, Jan. 31, 1930, and will be about fifteen days after that date.

-------	-----------

AS OTHERS SEE IT

When you find your ideas directly opposed to those of another, do you every think of trying to reason from his standpoint?

Or do you stubbornly try to force your own opinion?

Have you good reason to consider your thoughts infallible?

Is your gray matter superior to all other brain matter? Is your training so much above that of your friends and associates?

In certain ways you think you are superior.

But perhaps you have not compared your opportunities and drawbacks with those of the one whose opinion you value so little.

If your relative positions had been changed from the start, would you know any more than he or she does?

It is easy to think the other person is inferior if actuated by a different line of reasoning or an unfamiliar attitude.

But comparing what you have accomplished with what others have accomplished who have come up to your advantages you don't stand so high.

And a more understanding view of your friend might change your idea of who is nearer right by comparison, under like conditions.—Houston Chronicle.

FOOD TEMPERATURES

The importance of low temperatures in the preservation of food in the home is illustrated in a chart recently issued by the Bureau of Home Economics of the United States Department of Agriculture. Cooked vegetables, eggs, fats and left-overs should be held at a temperature not over 50 degrees. Berries and cooked meats are a little harder to keep properly and a temperature of not over 48 degrees is recommended by the Bureau for such foods. A still lower temperature is advised for uncooked meats, poultry and salad material held in a covered jar. Such

The Eagle always appreciates local items sent or phoned in. Of course we would like for them to be of current news and properly authenticated.

supplies should be kept at a temperature not higher than 47 degrees, the charts indicate. On account of the favorable field they afford for bacterial growth, milk-broth and dishes composed of milk should be kept at a temperature not above 55. Uncooked meats should be placed in an uncovered dish, or covered very loosely. Cooked meats can be stored by covering loosely with oiled paper. The coldest place in the refrigerator should be reserved for the most perishable foods.

Run-Down

"About seven years ago, I was all run-down, worn-out and never felt good," says Mrs. Harry Cantrell, of Cape Girardeau, Mo. "A chair would be more welcome any time than my work."

"I was so tired when I would arise in the morning. Instead of being rested, I felt terrible."

"At last, mother told me to take Cardui, and I did. After the first bottle, I could tell a difference, and when I had taken five bottles the tired feeling was all gone. I felt like a different person, thanks to Cardui. I hope that other mothers will try Cardui. I have been wonderfully benefited by it."

Try Cardui in your case.

CARDUI

HELPS WOMEN TO HEALTH

Take Theodor's BLACKDRAUGHT for Constipation, Indigestion, Bloating. Costs only 1 cent a dose.

Heritage From Ancestor Makes Success for Star

BEBE DANIELS

Bebe Daniels Owes Much to Famous Great Grandfather

New York City.—Bebe Daniels can thank her great grandfather for the fact that she was chosen to star in "Rio Rita," the most successful sound picture yet produced.

Bebe's ancestor was president of the Republic of Columbia, but of more moment to Bebe, he was Spanish, and his great grandfather inherited his exquisitely modulated yet clear toned Spanish voice.

When the voices of movie stars were being tested for the singing of modern American songs, Bebe's was found to be the most beautiful

of all the stars. Her instinctive, almost uncanny ability to interpret the music of today's America, puzzled modern music students until they were told of her Spanish ancestry.

"Modern American music was born in New Orleans, and brought up in San Francisco, so that its background is nine tenths Spanish so why wouldn't Bebe Daniels, with her Spanish ancestry, star as its interpreter?" says one noted student of modern music.

It is this background which gives Miss Daniels aid in both her singing and acting in "Rio Rita." The critics called her interpretation of the waltz "You're Always In My Arms" from "Rio Rita" perfection, and an outstanding musical event of the year.

Registered Billie Goats

FOR SALE CHEAP

Or will trade for other Goats, Sheep or Cattle. Now is a good time to get a Registered Goat Cheap. We will also trade Tires and Tubes or Gas and Oil for live stock. If you have cattle for sale, we will buy them and pay the cash. We will work on your car and make it run like new. If you will call on us once, you will call again. You will find us at same old stand—old Lane wagon yard.

CENTER POINT

Editor of the Eagle and it's
many readers, did you know
that—

Mrs. R. V. Leverett of Sweet
water is visiting her parents,
Mr. and Mrs. Will Spinks.

Vergie Mae and Johnnie
Taylor visited school Thurs-
day afternoon.

We are still having cold weath-
er out in this part and very
little hopes for any better any
time soon.

Sylvester Cummings of Ridge
called on Miss Leona Newman
Sunday afternoon.

Miss Edna Williams spent
Thursday night with Lessie
Shelton.

Mr. and Mrs. Carl Calder
and son Lewis, Mrs. Charlie
Calder and children, Miss Vergie
Smith and Mr. and Mrs.
Oliver Green and little daugh-
ter were visitors in the Ander-
son home Sunday.

Gus Henry Meyer happened
to a very painful accident last
week at school. He was wrest-
ling and fell on his lower limb
and broke it. He is suffering
severe pains with it now.

Miss Julia D. Fallon spent
Wednesday night with Miss
Leona Newman.

Misses Mildred Spinks, Vera
Conner and Eva Fallon spent
the week-end at home.

Mr. and Mrs. Walter Conner
are rejoicing over the arrival
of a daughter at their home on
January 18th.

Rosa and Albert Spinks and
Mrs. R. V. Leverett visited in
the Taylor home Sunday.

John Spinks and family of
Mullin spent Saturday night
with Will Spinks and family.

Mrs. Marion Mills visited her
brother, Mr. Smith, in Big Val-
ley Thursday.

Mr. and Mrs. Charlie Starks
visited his sister, Mrs. Joe Dav-
is, at Rock Springs Sunday.

Mrs. Kate Shelton and daugh-
ter spent Friday with Mrs. Ray
Hammond.

Mr. and Mrs. Ray Hammond
spent Saturday night with Mrs.
Kate Shelton and children.

Clyde and Curtis Taylor
spent Saturday night in Gold-
thwaite with their grandmoth-
er, Mrs. J. S. Wesson.

Miss Edna Williams spent
Sunday afternoon with the
Conner girls.

Miss Ola Belle Williams vis-
ited Edna Williams Saturday
afternoon.

Vernon French is still on the
sick list.

R. E. Shelton visited Jesse
Shelton Sunday.

Mr. and Mrs. Grover Dalton
and Herbert Meyer, from Gold-
thwaite visited in the Gus Mey-
er home Sunday.

Mrs. Amos Shelton and Mrs.
Fred Laughlin spent Thursday
with Mrs. Jim Fallon.

Mr. and Mrs. C. H. Black
visited his mother, Mrs. C. H.
Black at Seallorn.

J. D. Fallon and children
visited in the Waddell home at
Lake Merritt Sunday.

C. H. Black and wife and
Fred Laughlin and family sat
until bedtime in the Fallon
home Sunday night.

Craig Wesson and Johnnie
Taylor played 42 at R. C.
Webb's at Rock Springs Sat-
urday night.

Amos Shelton and wife vis-
ited E. P. Shelton and child-
ren Sunday.

Mr. Dailey and Ted enjoy-
ed a 42 game with Mr. and
Mrs. Amos Shelton Friday
night.

Misses Alta and Leona Den-
nis and Velma Faulkenbury
visited the Fallon girls Sunday
afternoon.

Mrs. J. A. Perry has been
sick but is now improving.

Miss Ola Belle Williams
spent Saturday night with the
Conner girls.

Marion Mills and family vis-
ited Mrs. Mills' brother, Mr.
Charlie Smith, at Big Valley
Sunday.

Hammon and Sherman Perry
visited Deward and Elmo Fal-
lon Sunday.

E. P. Shelton is putting up a
new fence around his farm.

Miss Besse Hutchings visit-
ed Mrs. Octor Taylor Monday
afternoon.

Earl Davis and family visit-
ed Mr. and Mrs. Ed Davis Sun-
day.

Mrs. Edith McWhorter is
staying with her mother, Mrs.
J. A. Perry now.

Mrs. J. H. Brown spent Tues-
day night with Mrs. J. D. Fal-
lon. BLUE BELL.

OUR CANDIDATES

The campaign has not heat-
ed up much this week, maybe
because of the weather and
maybe because of lack of inter-
est. From a newspaper man's
standpoint it is dreadfully dull
and the small number of can-
didates is depressing to the
publishers, altho the same con-
dition may not prevail with
reference to the candidates
who have no opponents. At any
rate, there is not much inter-
est so far and very few addi-
tional candidates in prospect.
We have some mighty good
men offering for the positions
and the business of the county
will be in safe hands if those
already announced are elected.

CHESTER FRAZIER

W. Chester Frazier announ-
ces in this issue for the office
of Tax Assessor, which position
he is well qualified to fill. He
has been a citizen of the coun-
ty 25 years, most of the time
having been engaged in farm-
ing in the Pleasant Grove com-
munity. The last few years he
has made his home in Goldth-
waite, where he has taken part
in church work and other mat-
ters for civic betterment. He is
employed now in the oil busi-
ness and has an extensive ac-
quaintance in this and sur-
rounding towns and has the
confidence and esteem of all
who know him. His work
keeps him busy and he will
not be able to give a great deal
of attention to his campaign,
but he has a large number of
friends and supporters who are
glad to tell of his good quali-
ties and his worthiness of the
support and confidence of the
voters.

E. A. DUREN

Ernest Duren is one of the
hardest working and most cap-
able members of the Commis-
sioners' Court and his sound
judgment and close attention
to business has made him val-
uable to the entire county, as
well as his home precinct. He is
serving his first term in the of-
fice and the good record he has
made has attracted the atten-
tion of the voters in his pre-
cinct and many are enthusias-
tic in advocating his election to
a second term. He has done
a lot of good road work in his
section of the county and has
plans for much more, when the
funds are available. He is care-
ful of the expenditure of the
public money and endeavors to
get full value for funds expen-
ded, either on the road or
otherwise in the interest of the
county. He is a native of Mills
county and knows the needs of
every part of the county.

J. H. BURNETT

One of the most valuable of-
ficers the county has is John
H. Burnett, commissioner for
precinct No. 4. He is one of
the best informed men on
county business to be found
and there is no more faithful
worker nor one who looks
more carefully after every de-
tail of the duties of his office.
Having served as sheriff and
collector he is well acquainted
with property values in all
parts of the county and his ex-
perience in the office he now
holds has added to his quali-
fications. He is an enthusiastic
advocate of good roads and
has done much good road work
for his precinct, notwithstand-
ing the finances have been very
limited and he has only one
state highway in his precinct
to help with the road work. He
is a good business man, a good
citizen and a mighty good com-
missioner.

MISS LOIS FULLER

The friends of Miss Lois Ful-
ler are glad to know she will
offer her services to the county
for a second term as County
Treasurer. She has made a
splendid record in the office
during her first term and it is
a pleasure to have business
with her department. She is
careful to keep every fund and
every account accurately and
her reports to the Commission-
ers court have been gratifying
to the members of that body.
Her experience in the office
has added to her qualifications
for the position, yet there is no
room for improvement in her
work. One of the most com-
mendable features of the con-
duct of her office is the fact
that she is always there in busi-
ness hours, and gives prompt
and efficient as well as pleas-
ant attention to every duty.
Mills county has never had a
more careful and conscientious
official than Miss Fuller.

TIME FOR PRUNING

Often the home orchard gets
too little attention. At the
planting, trees are placed too
close together. After that, too
little cultivation is given. Rarely
is fertilizer ever used. Seldom
are trees pruned. Then we
wonder why this is not a
fruit country.
Give the orchard regular and
shallow cultivation. Properly
prune at this season. Spray
now for scale and other pests.
"The only bad part about
using manure on the orchard
is that the trees don't get en-
ough of it. If you will put five
to ten good loads of manure
per acre on your orchard now
and disc it in when the weather
clears up, you won't lose by it."
W. P. WEAVER,
County Agent.

**HIGHER MOHAIR
PRICES ARE PROMISED**

There appeared under the
above caption in the Fort
Worth Star-Telegram, the fol-
lowing statement by Roy J.
Davenport, president of Amer-
ican Mohair Co-operative As-
sociation:

"In meeting producers in vari-
ous parts of Texas we find
that the speculators are begin-
ning to advise producers that
they are going to receive 35
cents per pound for the Spring
mohair clip," he said. "We
want to tell you that any such
price information is advance
propaganda to get you in a
frame of mind to take another
skinning. We want to tell pro-
ducers of mohair we will ad-
vance more money per pound
than the above-mentioned price
and they will retain title to the
mohair. We ask that producers
get in touch with us at an early
date at our office in Uvalde."
The Mohair Co-operative
Marketing Association was or-
ganized at Uvalde last Spring
and is affiliated with the Fed-
eral Farm Loan Board.

Mr. Davenport has called a
meeting of wool and mohair
growers at the court house in
Goldthwaite Saturday, Janu-
ary 25th, at 9:30 a. m., when
he will discuss with them all
details with reference to the
co-operative work and the line
up this organization has with
the Farm Board.

All growers interested in bet-
ter prices for the coming clip
are urged to attend the meet-
ing which is called for an early
hour to Mr. Davenport may
reach another town for an af-
ternoon meeting.

Everybody come.
W. P. WEAVER,
County Agent.

THE BEST FERTILIZER

The county agent is often
asked for information relative
to commercial fertilizer, the
cost and method of application.

We are advised by experts
at A. and M. College that the
use of commercial fertilizer in
West Texas is of doubtful val-
ue, owing to summer drouths,
boll weevil and other pests.

We are also advised that a
most excellent substitute for
commercial fertilizer is easily
available to every farmer. This
substitute costs less and the ef-
fect of one application is notice-
d in the production of crops
over a period of years. This
valuable substitute is known
as "barnyard manure." From
ten to twenty loads per acre
applied at this season is well
worth while. Try it on a few
acres of cotton and watch re-
sults.

W. P. WEAVER,
County Agent.

NOTE OF ERROR

In Dr. Swanger's article, on
another page, there appear-
ed an unfortunate typographical
error in the third paragraph,
where the statement is made
that "Physicians says" when
obviously the words should be
"Physicists says." The ungram-
matical expression will of itself
show the error, but it is best
to make it plain anyway. The
Eagle regrets the error but the
article was printed before it
was discovered.

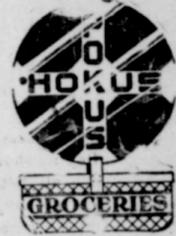

Be Fair To Your Clock

For years maybe it has giv-
en you good service, but it
can't do its best when the oil
dries out and gets stiff and
rands. A good overhauling,
cleaning, fresh oil, etc., will en-
able it to give many years of
satisfactory service. Take it to
L. E. Miller, the Jeweler, and
you can get it put in perfect
order at small cost.

NEW CAFE

I have opened a New Cafe in the building
joining Kelly's meat market and solicit a share
of the public patronage. My place will at all times
be kept neat and clean and supplied with the best
market affords. A nice place for ladies as well
as gentlemen.

MULLIN NEWS

NEWS NOTES CLIPPED FROM THE MULLIN ENTERPRISE

Mrs. Josephine Burleson

Grandmother Burleson passed away at the home of her daughter, Mrs. Roscoe Holland in Dallas on Sunday, Jan. 19, at 5 o'clock in the afternoon.

Her death came as a shock to her many friends here. She lived here for a number of years and counted her friends by her acquaintances. She was one of the sweetest and kindest women I have ever met. Her years were spared far past the average, as she was 88 years of age.

She was a devoted member of the Primitive Baptist church. Her home was one all felt it made them better by having visited. Her devoted husband preceded her in death some 15 years and she has since made her home with her children.

Her life was one that will be worthy of imitation, as it was the life of a true Christian devoted wife and a loving mother. Five children are left to mourn for her. Three sons, Ezra, John and Will Burleson, two daughters, Mrs. Jim Holland and Mrs. Roscoe Holland. Her remains were laid to rest in Oak View cemetery Tuesday afternoon.

The Supreme Cause for Our National Crime Wave

There may be many causes for the unequalled crime wave of this nation, but without question the supreme cause is idleness. Too many folks trying to "get by" without work and at the expense of others. That kind of a principle is not honest, and if not honest, then it is a breeder of crime. The incubator of crime is the home. Too many parents who indulge their children in idleness, and know not that in so doing, they are breeding criminals. Idleness is the germ and breeder of crime. "An idle human is the devil's workshop." We can't make honest folks out of idlers. It is not the busy, working folks who commit crime, but the idlers.

The parent who relieve their children of honest labor is breeding criminals. I have witnessed this fact from many angles, and can not recall a single instance where parent failed to teach their children to work but what it brought shame to that family. Working folks don't have time to rob banks and study dishonesty. There was a woman who had several children, the older ones of which were taught to work and made good citizens, but the younger, whom she called her baby, was brought up in idleness, and to have his own way. He had the cream of the milk. She thought her baby too sweet to work. Two years ago that baby boy was electrocuted for committing the greatest crime that has ever been recorded on the pages of history. He was too sweet to work but not to sweet to commit the crime. He had his own way, but his own way led him to his eternal doom. "A child left to himself bringeth his mother to shame."

I have sent four children out on the battle fields of life. I am proud of them, for they each are making good. If I have any secret to offer for this success, it is that I taught them to do their share of the work in and around the home and not ask mother and dad to do for them, the things that they could do for themselves. It is a great sin for parents to slave their lives out while their children grow up in idleness.

The crime wave of our nation will be greatly solved if parents will teach their children the value of steady work until they have reached the matured years of life. Parents are supremely responsible for this nation's crime wave.

Yours for industrious homes
J. W. STRIPLING.

ZERO WEATHER AND A HOWLING GALE VISITS THIS SECTION

For about ten days prior to the 17th of January, the weather had been freezing and then came a real visit from the king of winter, a norther roaring from iceland with biting sleet, strong and angry. The wind howled and every living creature fled for shelter.

The stockmen rushed to feed their cattle and then again to feed the shivering flocks suffering from the intense, biting cold. A number of lambs were lost. The poultry refused to stir even into the neighbor's flower beds, while the old roosters croaked as they attempted to tell the world about their individual troubles; and the worst blizzard of the winter. Wood disappeared like magic. Count the blessings one by one. The boll weevils are evidently all frozen and not a one left to tell the tale, or ruin the next cotton crop. So better times are ahead, happy picnic times. Election year is here and good old Summer time is coming.

METHODIST CHURCH

Our congregations were some larger last Sunday than they were the Sunday previous. The cold weather kept many from the services. We look for more agreeable weather. Some of our people have gotten out of the habit of coming to church. I mean they have a habit of staying away. The Methodist people, say one backslides when one repudiates his confession and falls out of line of duty. They also teach that one can be restored by returning to the Father and the line of duty like the Prodigal Son. Some are like the colored brother who was asked by his friend Mose, "Sambo, ain't yo, tending de church services any?" No, seh, not till ah has backslid some mo."

Jesus gave a striking parable of the "Marriage Supper" in which he said a certain man made a great supper, and sent his servants out to invite the guests to come to the table. "And they all with one consent began to make excuses. One had bought some land, another some oxen, and one fellow and just married, but none of them could come. The master told the servants to go out in the streets and highways and invite the poor, the lame, the halt, and the blind. I have heard some of my members in other places make fun of some groups and call them "holy rollers" and "tonguers" and what not. Do you know that God has invited the poor, the ignorant, those who are maimed in mind and body? Are you going to let these folk show better judgment than you? This is no foolish matter. You are being invited to the "Marriage Supper of the Lamb." Do you intend to miss the great event? "The Spirit and the bride say come. And let him that heareth say, come. And let him that is a thirst come; and whosoever will, let him take the water of life freely.

Jesus said again, "He that heareth these sayings of mine and doeth them is like unto a wise man who built his house on a rock that stood the storms and fell not. The foolish man is the one who heard the sayings but did not heed them. He built his house on the sand which was destroyed during the storm. Friends of mine, build wisely. Faithfully yours,
THOS. M. MITCHELL.

Miss Joe Curb is very much improved after a week of critical illness, according to a report from her local physician.

Mrs. Staggs of Zephyr is visiting her daughter, Mrs. Ernest Fisher.

Mrs. Jim Fisher of Zephyr is reported very sick with a siege of pneumonia in a Brownwood hospital.

Aden McGuarg of Duren was looking after business in town Saturday.

Mr. and Mrs. W. B. Summy of Goldthwaite, visited his father, W. P. Summy Sunday.

Mr. and Mrs. Walter Conner of Williams' Ranch, announce the arrival of a nine pound daughter on the 18th of January.

W. C. Preston has been critically ill the past two weeks with an attack of flu and his eyes are now giving him much pain.

Ben White has been very ill for the past few days.

Miss Laverne Robinson has returned to Houston after a visit with Mrs. O. H. Pafford and other relatives and friends.

Mr. and Mrs. Floyd E. Barlett are at home now and their little son, James almost well again and improving daily.

The last news from Sam Morgan whom we mentioned in our last issue as being very ill is to the effect that a major operation will be necessary at an early date.

THE GOLDTHWAITE EAGLE

Texas ranks first in the United States in effective work in public schools in teaching fire prevention as a regular course of study, T. A. Fleming, chairman of the speakers' bureau of the National Fire Waste Council said Saturday.

Struck by a hit and run motorist Thursday night, F. A. Parks, formerly of Amarillo, was left on the streets of Pampa to freeze to death. Found Friday morning, unconscious and nearly frozen, Parks died shortly after being taken to a hospital. Parks is said to have formerly been a traveling man in this territory.

In China, even beggars must become members of a guild. For the mendicant there is no other alternative than join and thereafter do as he is told. He must contribute his earnings to his begging society and at the end of the day or week all members gather about and the total revenue is divided equally after the leaders have extracted commissions. Native shops and residents must also contribute to the guild or suffer serious consequences, such as having a beggar threaten to die on the door steps. To have a beggar die at one's door in China is bad luck and as a result there are very few Chinese non-subscribers to the numerous societies.

A new peace-time record for construction and maintenance on public work and by public utilities is expected during the present year by Secretary Lamont on the basis of reports indicating that \$7,000,000,000 will be spent in these fields. This total does not include expenditures for residences, commercial and industrial structures and other private operations which last year amounted to more than \$3,000,000,000 and which, if continued at the same pace, would bring the outlay for 1929 to more than \$10,000,000,000.

Employment of state tax experts at salaries of \$6,000 a year is provided for in a joint bill introduced at the special session by Senators Pink L. Parrish of Lubbock and Walter Woodul of Houston, who represented the Senate on a joint legislative committee that investigated the system for the purpose of recommending measures to correct alleged abuses. According to the bill it will be the duty of the tax experts to assist county tax authorities in seeing that tax equalization is brought about, both as between counties and classes of property. A limit also will be placed on the amount counties may pay tax experts.

A defense of his proposed law to make the buyer of liquor subject to the same penalty as the seller was made by Sen. Morris Sheppard in an address in Detroit Sunday. The Senator addressed a rally which concluded the Anti-Saloon League's national convention. "We need to make but few examples of the high-brows who think they are above the law in order to smash the bottom out of the bootleg market," he asserted. "Too often buyers are persons of standing, using the exemption accorded them by the law as an excuse for its moral infraction. It is true that in punishing possession we get the purchasers by one foot. If there is anyone we need to get by both feet, however, it is the individual of high standing, who flaunts and defies the law."

"What You Want When You Want It"

Our Wards Cost Dearly

The Philippine islands are wards of the United States, and as such, many of our Congressmen feel that no duty should be imposed on the products of the islands sent to this country. Many foreigners and also a number of American capitalists have taken advantage of this sentiment and have invested in thousands of acres of coconut palm groves. Great areas of land are secured for a few cents per acre and labor is just as cheap. Therefore it is profitable to ship coconut oil to the United States. Coconut oil from the rest of the world is shut out by the tariff, but not from the Philippines.

This paternal act towards the Philippines has become a burden upon the backs of the American farmers, large producers of vegetable and animal oils. It probably hits the South a harder blow than any other section of the country, but it also costs the producers of hogs, sheep and cattle, for coconut oil is being freely used as a substitute for any oils vegetable or animal, which are classified as fat oils. To know that imports of coconut oils from the Philippines are now equal to 65 per cent of the total production of cottonseed oil in this country should convert anyone having the interest of the farmers at heart, to a belief in finding some means of taxing coconut oil imports from every section of the world. If our sentiment and conviction of duty to our wards, the Philippines, is such that we feel that we should give them preferential treatment, then the suggestion made by Ed Woodall that we impose a duty on vegetable oils from the Philippines but return the amount collected to the Philippine Government for educational purposes is a logical way to solve the problem. This would protect American farmers and help the cause of education, a special need in the Philippine Islands but if they ever qualify for independence.

The low market for cottonseed oil, because of this com-

Radio and the Farmer

One has only to ride through the country from time to time to note the increase in the number of aerials at farm homes. That radio is rapidly becoming a part of every farm home equipment is much in evidence. That farmers are interested in the agricultural programs is also in evidence by the receipt of 80,000 letters from farmers by the Department of Agriculture in 1929. Probably not 5 per cent of farmers who depend upon these reports ever thought of writing the Department.

The radio often carries much useless matter and frequently the program of entertainment is not up to par, but making use of the radio to secure useful information is on the increase, and more rapidly in rural districts, according to population, than in the city. Weather reports sent out by radio have saved producers millions of dollars in the aggregate. Market reports have proved of the utmost value, but best of all come the stimulating talks from department specialists. The Department of Agriculture and the agriculture colleges are getting closer to the producers than ever before. They are broadcasting information right on the spot when it is most needed instead of waiting months to put it in bulletin form. The radio is of more practical use on the farm than anywhere else.— Farm and Ranch.

petition, is undoubtedly one of the main causes for low prices of cottonseed. Cottonseed meal is comparatively high, but it is merely a byproduct of cottonseed oil mills. It requires a fair price for oil to make a good price for seed.

Philippine importations of vegetable oils not only affects adversely the price of cotton seed, but also the price of lard, tallow, and dairy products. It is fine sentiment to deal gently with our Philippine wards, but it is not time to also give some consideration to our own American farmers.— Farm and Ranch.

DEMAND FOR SARGON BROKEN ALL RECORDS

Famous Medicine Rapidly Becoming Household Word Throughout America. 24 Carloads Sold in 26 Days in 27 States. Overwhelming Demand the One Great Outstanding Proof of Its Wonderful Merit.

Most medicines are sold by the dozen or by the gross. A few are sold in larger quantities, but think of a medicine that sells in such enormous quantities that wholesale dealers are forced to buy it in solid carload lots to supply a demand that has been so phenomenal as to almost stagger the imagination.

That's just what has happened with Sargon, the celebrated new medicine that is now sweeping the country like a great tidal wave. Not only is the trade buying it in carload lots, but they are buying carload after carload, each car containing over 20,000 bottles of Sargon and Sargon Soft Mass Pills.

Twenty-four carloads in 25 days sold in only 27 states is the amazing record recently made by these wonderful medicines.

In the State of California where Sargon was introduced in April of last year, it has required 21 carloads to supply the ever increasing demand in this one state alone. Texas dealers required 9 carloads in only four months.

A single New York firm, with wholesale branches in leading cities, is selling at the rate of over a Million and quarter bottles a year.

"Phenomenal and bewildering" is the way one of the big drug jobbers of the country describes the marvelous demand for Sargon.

"It's the greatest seller with-in the memory of the oldest members of our organization," said another.

"We are selling more Sargon than any other ten medicines put together," said still another.

And so it is everywhere Sargon has been introduced. From Coast to Coast and from the Gulf to the Great Lakes, Sargon is known and honored.

Millions upon millions have used it and have told other millions what it has done for them. When suffering men and women find a medicine that helps them, they naturally want to tell their friends about it and in this way Sargon is fast becoming a household

Rebekah Lodge Instituted

Lewis Hudson, secretary of Goldthwaite Odd Fellows Lodge, informs the Eagle that a Rebekah lodge is to be instituted here on Jan. 28. Mrs. Jessie N. Ross of Amarillo, state president, and Mrs. Mattie E. Knauff of San Antonio, state secretary of the Rebekahs will be here to institute the lodge the afternoon of Jan. 28, at 2:30 and will complete the work that night. Those interested should confer with Mr. Hudson or other members of the Lodge at this place.

Farm-To-Market Roads

The year 1930 should be a record-breaker from the standpoint of increasing the mileage of farm-to-market roads. A program for these feeder roads to main highways is essential to open up the back country and thereby give an equitable apportionment of road tax funds to the more inaccessible farming districts. The cost of building or improving such roads can be held at a moderate figure under modern road building methods.

word throughout America. Sargon may be obtained in Goldthwaite at Clements' Drug and Jewelry Store.

Whispering Baritone Wins By Novelty of His Music

JACK SMITH

Love made a sissy out of me, — The only one I trust by car for,

Jack Smith Has Fans in Eight Foreign Countries

New York City. — Many an American singer has puzzled in vain over the astounding success of one Jack Smith, more generally known as "the whispering baritone" who has captured the music halls of eight foreign countries. Press notices from abroad show Smith's popularity, not only in England and in France, but in Ireland, Scotland, Germany, Norway, Sweden and Denmark.

comes from a most reliable source, the lips of persons who, with him, have been part of Smith's audiences. "Europeans are used to hearing a male singer open his mouth and send forth the fullest volume of voice he can set free," says this bystander. "Smith first startled, then delighted them with his soft, yet singing. So effortless is the singing that, as the singer's nickname implies, it is almost a whisper. The Europeans like the change. They have heard thundering baritones all their lives. They find Jack's technique restful, intriguing, and above all, novel, especially in such soft enchanting melodies as 'Love Made a Gypsy Out Of Me,' which has become international in its popularity."

WHAT IS IT THE CHIRO- PRACTORS DEAL WITH AND DEPEND UPON TO RESTORE HEALTH WITH- IN THE HUMAN BODY?

By Dr. R. A. Swanger, M. A., Ph. D., D. C.

To answer that question is the purpose of this article.

Chiropractors deal with a power or force so subtle and yet so potential, that to measure it's breadth and depth and to ascertain all it's uses and purposes would require more years than are allotted to man on this earth, for it's possibilities and powers are unlimited. It is the source of all intelligence and of all mental, scientific, artistic and physical achievement and advancement. Because it is the subtle-substance of man's soul, which is the sub-portion of God's alwise intelligence that dwells within man. It is that likeness of God within. It is that portion of man which God said He created him in His likeness. This power within man underlies all knowledge, is the cause of all happiness and health and the lack of it's expression in man's physical organs or glands cause unhappiness and disease, and without doubt will be closely associated with our Soul after it leaves this earth. The source of this force is as old as all time and, all living being having existed before man was created. So man cannot grasp all the truths and facts at once, therefore, it has been necessary for humanity to move forward slowly, step by step, in its education. All things exist, but man knows of them only so far as he is educated to comprehend them. What is a fact to one is an unreality to another; thus, no two people will exactly agree upon a given subject, because of education or the lack of education.

Just as Apostle Paul was taught by his educators to persecute and put in prison all who professed Christ, thus he said, when relating his conversion, "I did it with all clear conscience." But he was wrong, and was honest enough to confess it, repent, turn away from it. Do you can see that a man's conscience is the creature of his education and can be wrong, but error taught will not suffice for the truth.

Men have recognized the existence of this power within and have given it various names. Biology says this power or force within man is 'life.' Physicians says it is 'thought or etheric energy,' and Chiropractic teaches that it is "an Infinite Inate energy from which all things proceed, and included with a sub-portion of God's alwise intelligence."

The Bible tells us that "Man was made in the image of God," is always loved by God, partakes of all the potentiality, that man actually inherits and shares the power of God. Hence God loves man. Truly, He said, a man cannot hate himself, as man is part heavenly and part earthly. God loves man, because man is a part of Him. Never until this the twentieth century has man understood the tremendous meaning of these statements. It is thru advancement in the study of the relationship existing between the Physical and the Inate forces of man that the great truth is dawning upon the minds of men that man's Inate power within may safely be called magical, measureless and powerful. There is no longer any doubt in the minds of thinking men that the power of force of a man's Inate over his physical body is actually superior to any microbe in the body, provided, this power can be expressed in 100 per cent of time, quantity and quality as the Infinite mind intended.

The action we call Death is a natural result of the transgression of Adam and Eve, therefore, Death was placed upon man. We all have to meet it according to our time here upon earth, but God said it is not His will that any should suffer. So then let God's natural forces have their sway and control and man's physical being shall have no reason to suffer while here, nor his Soul either in the state after death. This is God's will. Who is it that can refute His word. You may wonder, what part does Chiropractic take in the matter? Or what does it do to fill

it's mission with this Natural Law of the Universe? Will say, man has two minds within his skull. We are taught in public schools that man's brain is composed of Grey and White matter. Thus each is a separate set of organs, as they are separate tissues and communicating one with another by minute nerve tissue. Chiropractic classifies the Grey as the educated brain and the White the Inate brain. The educated brain is the brain lobe that receives and retains learning. It is in the educated brain where our conscience dwells, and in the Inate is where the sub-portion of God's intelligence dwells. Some may doubt this statement of two separate minds, but by a close study of the Bible and Natural Science we find it to be a fact. Thus, Apostle Paul speaks of them as the Carnal and Spiritual mind many times and the context of his language plainly teaches that each mind does different duties. One quotation from his pen will suffice and I quote from the Waydill translation of the Original language of Paul, Rom, 7th, 25vs. "So then I of myself, with the Spiritual mind, indeed serve the law of God, but with the Carnal mind the law of sin." Likewise, each and every organ and gland in the body has a specific function to perform, regardless of what some may think, God created all of them, and for a specific purpose.

The brain of man is located within the skull and its lower extension forms the spinal cord extending downward through the spinal column, and at each joint of the spine the spinal cord gives off two branches of fibres, one on each side of the spine, thus we call them nerves and we find them dividing about two inches from the spine and then sub-dividing, and ramifying each and every tissue, organ and gland of the body. Do you wonder what all of this net work of nerves leading from the brain of man was created for by the Master mind. Do you think for naught. Man as a whole is an expression of God's alwise intelligence through matter, and this intelligence is expressed through the nervous system or can be transmitted from one person to another by etheric waves, commonly called suggestion of thought. Likewise, the animal kingdom uses the thought language. Man can make use of same if he only exerts his efforts in the right way.

This article is one means of expression of thoughts and by closely reading same, will create in the mind of the reader, many suggestions I intend to him to think upon, and it all has been transmitted thru etheric waves to the eyes and thence by the optic nerves to the brain centers of your educated mind. Therefore, you can see why Chiropractic confines its study to the mind and nervous system, as it is the only medium of carrying thought or

mental impulse to and from the brain to the tissues of the physical body, and knowing that in the Brainal tissues of man dwells all power of mind, and it sends out to all parts of the body its power or force over the nervous system and, as stated in the beginning of this article, the lack of this expression of force in the tissues was the cause of disease, and if there is disease in the body, there must be a cause.

Therefore, Chiropractic has confined its research upon the cause of disease, and the most plausible place to find the cause of the lack of mental expression is in the Spinal column, and by taking an X-Ray picture we find joints of the spine out of their natural position, and by being displaced, pressure is brought to bear upon the nerve trunks as they leave the spine, and this pressure on the nerves reduces the natural flow of mental impulse or force, and disease is the result. As the organs and glands are dependant upon this power or force for this power or force in them produces action

and motion and when this force is uninterrupted in transmission through the nervous system, we have perfect physical function or health. It is this power or force that keeps you well when you are well. Come take a look at a human spine and you can see for your self, and I can show you X-Ray pictures of spines and show you the dis-locations therein, and show you how we with a simple thrust by hands only, drive the joint to its natural position, thereby releasing the imprisoned mental impulse or force and thereby creating the natural transmission, and then by nature's power within, health is restored. And then show you an X-Ray picture of the same spine and it showing that the spinal correction has been made and the patient is in good health. Then pray tell me where have you any reason to doubt Chiropractic Science. The true meaning of Science is a thing that can be proven by deed and action and found to be facts. By this merit alone, Chiropractic has grown from one practitioner in 32 years to

over one hundred thousand and has gained grace and favor in the hearts of millions of people of the earth. It has withstood the vilest persecution and pros-ecution of all healing Arts. But it is the survival of the fittest, and is here to stay, regardless of what Class or Leg-islators say or do.

Come to my Office or Home anytime by appointment, with your health problems and investigate for yourself what Chiropractic can or cannot do for you.

For what your eyes see, your heart feels, your mind understands, your Soul must believe. Take Chiropractic First, and THERE'LL BE NO REGRETS.

A FEW MORE DAYS

Those who have not secured their highway license or poll tax receipts have only the remainder of this month to pay. On February 1, it will be a violation of law to run a car on the highway without a 1930 license plate and a poll tax receipt issued after January 31 will not entitle the holder to vote.

WHEN CHILDREN Need a Laxative

"We have used Theford's Black-Draught in our family for nineteen years. I have found it of great help in raising my family."

"I have given it to all six of my children. Whenever they complain of upset stomach, or begin to look pale and sickly, I make a tea of Black-Draught and begin giving it to them. In a day or two they are all right."

"I give it to them for constipation, and my husband and I both take it. I always give it for colds in winter, for I believe a way to prevent them is to keep the system clean."—Mrs. Doehie Terry, 1206 4th Ave., Decatur, Ala.

WOMEN who need a laxative should take THEFORD'S Black-Draught in one 25 cent bottle.

THE GOLDTHWAITE EAGLE

Mrs. Guy Rudd spent Sunday with relatives at Energy.

Now is the time to save eggs for hatching—Mrs. Burch's Hatchery.

Watches, all makes, repaired by L. E. Miller, the Jeweler. Ladies' wrist watches given special attention.

F. P. Bowman was called to Star Saturday because of the illness of his mother, Mrs. C. T. Bowman. He reports her improving.

W. K. Marshall has been confined to his room by sickness for a week or more and his condition is not encouraging to his family and friends. However, with an improvement in weather conditions it is hoped he will recover rapidly.

Rev. and Mrs. H. E. Moreland received a telegram Monday telling of the safe arrival of Franklin Peugh, Jr., at Higgins, Texas. The little fellow is making his home with Mr. and Mrs. Franklin Peugh, at Higgins. Mrs. Peugh will be remembered as Miss Bernice Harris of the M. E. Home at Waco. She was in the home of Rev. and Mrs. Moreland quite often.

S. P. Sullivan and wife attended an entertainment in Brownwood Monday night.

Alcohol for your radiators. \$1 per gallon.—Racket Store.

Your watch is a friend that you consult many times a day. If it is not doing its duty as it should, take it to L. E. Miller, the Jeweler, and you can get it put in first-class order with perfect satisfaction guaranteed.

Mr. Taylor Passed Away

Mr. W. M. Taylor died at the home of his daughter, Mrs. J. W. Johnson, in Brownwood Wednesday night at 10 o'clock and his remains were brought here yesterday afternoon to the home of his grandson, Frank Taylor, from which place the funeral will be held this morning at 10 o'clock, service being held in the Baptist church preceding the interment in the cemetery at this place, beside the grave of his wife, who passed away here about four years ago.

Mr. Taylor was 86 years of age and had become quite feeble. The last few years of his life were spent in Brownwood, but prior to that he spent many years in this county, having located here in 1894. He was a native of Arkansas and was reared in that state, but in early life migrated to Texas, first making his home in the eastern part of the state, later moving to Coleman county, where his first wife died and was buried near the town of Coleman. He moved from there to Borden county and then to this county. He was universally esteemed for his splendid character and his religious fervor. It has been truly said of him that "we all know where to find Brother Taylor." The world is better because of his having lived in it and is poorer because of his going.

He leaves four sons and two daughters, only one of whom lives in Mills county. One son lives in Flint, Mich., one near Plainview, one at Merkel and Mr. W. W. Taylor lives here. One of his daughters, Mrs. W. P. Hutchinson, lives in San Antonio, and his other daughter, Mrs. Johnson, in Brownwood. He is also survived by two brothers and two sisters, none of whom live here.

The bereaved family has the sincere sympathy of friends everywhere.

A PIONEER DEAD

William Calvin Shaw, age 93, died at his home in Georgetown late Sunday. He was a pioneer of Mills county, having settled on the Colorado before the civil war. He saw much service on the frontier protecting the settlers from the Indians and did a full share in developing this part of the state. For a number of years he was justice of the peace in Lampasas county and in his official capacity married many couples. His home was always open to anyone needing shelter and his purse was never closed to the needy. No night was too dark and no trail too dim to prevent him from going to the relief of a sick or distressed friend.

Mr. Shaw "Esq. Bill" as his friends called him, assisted in organizing the first Masonic lodge in Mills county. It was known as Mullin's Creek Lodge No. 476 and was instituted in 1877. He rode twenty miles horseback to be present on that occasion. He was a charter member and officer of the lodge and was the last survivor of the charter members. The lodge demised in 1882. At this time only one member of that lodge survives, and he was last made a member.

Basket Ball Tournament

The boy's basket ball tournament of the Interscholastic League will be held in Goldthwaite on January 31 and February 1, beginning Friday at 1 o'clock. The girls basket ball tournament will be held in Mullin February 28 and March 1. All schools desiring to participate in these tournaments are urged to be on time.

E. D. STRINGER, Director General.

A FEW MORE DAYS

Those who have not secured their highway license or poll tax receipts have only the remainder of this month to pay. On February 1, it will be a violation of law to run a car on the highway without a 1930 license plate and a poll tax receipt issued after January 31 will not entitle the holder to vote.

If you order Sweet Feed for your stock you will be pleased and so will the stock.—Ross Feed Store.

FAILURE THUS FAR

The sum of the meeting of scientists at Temple the other day, to discuss root rot and what we know about it, amounted to the confession of failure. And the failure is now about a dozen years old. For, more than a decade ago, Dr. J. J. Taubenhaus of the Agricultural and Mechanical College of Texas began his studies, with the princely sum of \$400 accorded him the first year for the purpose.

Dr. Taubenhaus and other distinguished experts, despite the limited funds at their disposal even now, are making progress. The failure so far to conquer root rot does not make the task a hopeless one. Some things concerning the habits and frailties of the fungus organism are definitely known and others are pretty strongly suspected. But the big job of getting the better of root rot remains still to be done, still indispensable, still under-financed.

The burden of investigation is now largely on the shoulders of young men—which is fortunate, if the project is long to be drawn out, since their enthusiasm and energy and keen rivalry are all in their favor—but young men who are paid very much less than the importance of their project justifies. Root rot is one of the things that is in a fair way to put the black lands out of the farming business. It has been estimated that it cost those lands \$35,000,000 last year. And it does not yet appear how great future costs will be.

Praise is due to the men who labor on this problem. Some of them continue at it, not because they can expect to make money at it, but because they hope by success to establish their standing in science. It is the most laudable form of ambition. But these men ought to get recognition now, and to be given proper support. If they are not given needed assistance, Texas may have, before long, a surplus of potential golf lands.—Dallas News.

You would not run your automobile without fresh oil and an occasional overhauling. Be as fair with your watch. Have it cleaned and freshly oiled occasionally. It will last much longer and give better service. Take it to L. E. Miller, the Jeweler, where you will receive the best of work with satisfaction guaranteed.

You should see the stylish samples of spring suits Burch is showing.
