NUMBER THIRTY-EIGHT

## RESULTS OF DEMOCRATIC PRIMARY HELD SATURDAY

### District Court Convenes In Special Term

#### Several Jail Cases Are For Consideration

District court will re-convene in special session in this city Monday and it is hoped to clear the docket at this term. The Fowler cases have been set for next Wednesday and a number of jail cases are to be considered, although no indictments have been returned in some cases where arrests have been made on information or complaint. So far the grand jury has not been ordered re-convened, but officers think such an order likely to be issued by Judge Brewster within the next few days.

There are several cases on the docket carried over from last term because of lack of time to try them, and it was on this account that Judge Brewster ordered this special term, which may continue several weeks or may be concluded in a week.

#### REV. MONK DEAD

Many people hereabouts learned with sorrow of the death of Rev. Alonzo Monk, which occurred in the Methodist hospital in Fort Worth Monday, following a second operation for appendicitis. He was first stricken Wednesday of last week, while visiting in Fort Worth, and underwent an operation, which did not prove successful and he underwent another operation shortly before his death. Rev. Monk did the preaching in a revival meeting in the Methodist church here last summer and was held in high esteem by the people of Goldthwaite. He leaves a wife and a grown son and daughter.

#### METHODIST CHURCH

July has come and gone. How swiftly time flies! It seems but yesterday since the dawn of spring. What has gone with our time? I trust we have not permitted the precious moments to come and go and age to come our way gradually without our consciousness and same preparation for it. It is sadly true that there are lots of grasshopper folks. I mean like the proverbial grasshopper which spent all of his precious summer days in gaiety and when winter came with its chill he had neither the provision against its stark chill nor had he earned the friendship of those who had. The summer time of life's opportunity is swiftly passing. The autumn of age is approaching. The winter of death will come to each and all alike. Have you laid aside provisions against that day, or have you won the friendship of the holder of all wealth that you may have an entrance into his presence, while darkness and wailing fills the outside world, and gnashing of teeth is the order outside? My brother you cannot afford to face the winter of life thus. You would condemn such an indolent man. You may not desire my church, nor my conception of religion, but my brother, my sister, you need Christ in the labors of life and consolation of the autumn time and the storms of the winter.

A good audience worshipped with us last Sunday at all the service. Next Sunday may we greet you among the great throng. Good fellowship, inspiring worship awaits you at our church.

Goldthwaiters have much for which to be thankful. Many towns larger do not afford the opportunity to worship and work together. The Sunday school affords a real source of blessing. The Leagues will give that touch of life that will never be forgotten.

If you knew how much your presence meant to us, I am sure you would be with us next Sunday at all of the services. "Come up to the help of the Lord against the mighty."

Yours in His service,  
S. D. LAMBERT.

#### APPRECIATES SUPPORT

I am indeed thankful to the good people who supported me in last Saturday's primary for the office of Tax assessor and will be equally as appreciative for support in the second primary August 23. I also solicit the votes and influence of those who supported the other gentlemen in the first primary and will now decide between the two of us for the final nomination. I have personally met with and solicited most of the voters and will not likely be able to make a thorough campaign for the second primary, but if the good people of the county see proper to elect me as their Tax Assessor, I assure them I will give them the best service of which I am capable and will ever be mindful of a debt of gratitude I owe them.

Again soliciting your support,  
I am, Respectfully,  
W. L. BURKS.

#### DEMOCRATIC CALL

Members of the County Democratic Executive Committee who functioned as such during the recent campaign, are hereby called to meet in the court house in Goldthwaite on Saturday, August 2, at 9:30 a. m. for the purpose of canvassing the returns from the recent primary election and transacting such other business as may come before them. Please be prompt. JNO. W. ROBERTS, Chairman.

#### A BIRTHDAY PICNIC

Last Friday, bright and early a crowd met at the home of Mr. and Mrs. Hugh Smith to celebrate the thirteenth birthday of their nephew, Wilson Mills, of Mullin.

It was a real summer day, but not warm enough to mar the pleasure that is usually celebrated on a day like this.

About ten thirty we went on down to the river to spread our dinner and to enjoy the ever fascinating sport of swimming before we partook of the lovely prepared dinner that awaited us upon our return to the river bank.

When Mrs. Mills and Mrs. Smith announced dinner was ready, we never saw so many nice things to eat: Barbecued meat, turkey, chicken, salads and everything else that completed a dinner like this. Last, but not least, the large birthday cake, cooked by Mrs. Smith. It was perfectly beautiful and just as good as it looked. To say that everybody did justice to these good things does not half-way express it.

Again we enjoyed the swimming, some went fishing and others enjoyed just the cool shade of those beautiful old trees, who for many, many years have weathered the storms and sunshine.

Later in the afternoon we spread supper, again enjoying the many blessing that God has afforded us, after which we bade each other good bye and wished Wilson many happy returns of the day.

Those who enjoyed this outing were: Mr. and Mrs. Marion Mills, little daughter, Laura Evelyn, and son, Wilson, of Mullin; Mr. and Mrs. Floyd Jackson and son, James, Mr. and Mrs. Hugh Smith and little son, Hugh Forrest, Mr. Ebb Smith and Mr. W. J. Gardner.

#### AN OLD CITIZEN PASSED AWAY

Mrs. M. A. McGuire, an old citizen of this place, passed away quietly last Sunday afternoon and her remains were laid to rest Tuesday afternoon in the cemetery at this place, after funeral services in the Baptist church, conducted by the pastor, Rev. G. C. Ivins.

Mrs. McGuire made her home with her daughter, Mrs. J. M. Baker, in the Lake Merritt community, and on Sunday the family had taken dinner in the home of Mr. and Mrs. Charlie Brown and Mrs. McGuire retired for her afternoon nap. Later in the afternoon, when it was time for the family to return home a messenger went to call her and found her spirit had passed away.

Mrs. McGuire is survived by two sons and two daughters, only one of whom lives here now. She was 80 years of age and had been a consistent Christian and a member of the Baptist church for many years.

#### A NICE MELON

Dr. R. A. Swanger brought the Eagle editor a watermelon a few days ago, just to prove that he could grow melons and now we will add testimony that he can grow mighty good ones. While the melon was not exceptionally large it was exceptionally good and we expect to keep a closer watch on the Doctor's patch another year.

#### WORDS OF APPRECIATION

To the Voters of Precinct No. 3: I want to thank all who voted for me in the recent election, and the words of encouragement given me throughout the campaign.

My friends have shown their true friendship and loyalty as only friends can, when opportunity presents itself.

The county affairs are something like our schools and churches: the teachers and preachers must have the co-operation of their people before they can make a success.

The officers of your county to be successful must have the co-operation of the entire citizenship.

If the people of this precinct think there has been anything for their betterment during my past term, they must attribute it to the co-operation which they have given me. For which I again thank each and every one. E. A. DUREN.

THE GOLDTHWAITE EAGLE

A report from the Farmers Short Course at College Station this week says there are more than 3,000 present.

A San Angelo man attempted to shoot a dog believed to be affected with rabies, but the bullet glanced and the man's wife was wounded instead of the dog.

The death of R. L. Johnson at Waco is believed to have been the result of a strenuous campaign for representative. His funeral was held while the voting was in progress.

The Farm Board at Washington is receiving very discouraging reports from the wheat sections of the United States, where prolonged drouth has materially injured the crop.

Three bank robbers who sprayed bullets into a Republican national convention crowd in a downtown district of Kansas City two years ago, were hanged simultaneously Friday.

A new agreement for settlement of the Mexican Government's direct external debt and for working out settlement of the debt of the National Railways of Mexico was signed Friday by Mexican Finance Minister and chairman of the International Committee of Bankers of Mexico.

Most of the newspapers have been filled with election matter for the last several months and, incidentally, many waste baskets have been filled with political propaganda sent out from the headquarters of the various candidates. The run-off campaign will not attract so much interest or at least will not require so much space. We will, therefore, have more space for other matters. Still it is Sterling or Ma.

Another crank passed away when Jim How died last week. James Eads How, millionaire hobo, died in a hospital at Staunton, Va., of pneumonia, "evidently superinduced by starvation," physicians said. How 56, was a member of one of the wealthiest families of St. Louis, where he was born. A graduate at Harvard and a former student at Oxford and the College of Physicians and Surgeons at Columbia University, How elected to spend his life among the hoboes.

Substantial reduction in freight rates on wheat and other grains moving through Western territory were ordered Friday by the Interstate Commerce Commission, effective Oct. 1. The findings of the commission justifying a decrease in wheat, other grain products such as flour and meal, resulted from the commission's compliance with the Hoech-Smith resolution of Congress, which ordered products of agriculture affected by depression to be given as low railroad rates as possible.

Corsicana Sun: Dr. Nicholas Murray Butler, president of Columbia University, is talking world peace. Unlike some others, he kept his silence until he had arrived at that point in his studies and cogitations where he could see the world situation clearly and logically reason a way out. His program includes small defensive navies and armies, abolition of compulsory military service, strengthening of the machinery of arbitration, agreement on a body of international law and a code of international conduct, upholding of the prestige of the League of Nations, safeguarding of the peoples of the Orient against exploitation and cooperation between Governments without dictation or overlordship on the part of any one of them.

BRADY BANK SHORTAGE

Following the filing of complaints by District Attorney Walter Early Wednesday afternoon, warrants were issued by Justice of the Peace W. B. Douglass, charging embezzlement of funds of the Commercial National bank in connection with a shortage announced by directors as being approximately \$92,000. The bank opened as usual Wednesday morning, the Federal Reserve bank of Dallas having shipped \$100,000 to it by airplane Tuesday afternoon to provide against any emergencies. The two other local banks, the Brady National and the Farmers & Merchants State, were also offered any needed funds, and were given assurance of the fullest measure of co-operation by the Federal Reserve bank, should necessity occasion. The defalcations are said to have occurred over a period of the past eight years, and to have been in amounts not exceeding \$300 or \$400 at a time.

Named in the warrants are S. S. Graham, assistant cashier, who is charged in two cases involving embezzlement of \$100 in each case; Leo Campbell, bookkeeper, one case of \$1,545.50; G. T. Roberts, teller, one case of \$1,442.65, and W. A. Oden, bookkeeper, one case of \$633. The first two named were taken into custody by the officers Wednesday evening, being later released under bonds of \$5,000 in each case. Roberts, who returned Wednesday night from a vacation visit in Houston, was placed under arrest at noon yesterday, his bond having been set also at \$5,000, and which he made. No papers have as yet been served on Oden, who is quite seriously ill in the local sanitarium. The parties arrested are being held to await action of the grand jury to be reconvened at the special term of district court, which has been called for Monday, August 18.—Brady Standard.

NO WAR FOR JAPAN

The discussion over the London treaty caused some Americans to drag the old Japanese bogie out of the attic and look it over again with fear-filled hearts. Before we get real panicky about it, however, we might pay attention to some recent remarks by W. R. Castle, Jr., who has just returned to this country after serving as our special ambassador to Japan. "It is amazing to me, once more at home in Washington, to find the anti-treaty people still harping on the Japanese bogie," says Mr. Castle. "Japan could hardly live except for her exports to America, amounting to nearly \$400,000,000. She imports from us nearly \$300,000,000 worth of goods and depends on America for the cotton which she manufactures and re-exports to China. War with America, which would be serious for us, would be ruin for Japan."

That is sober sense. In the face of it, why get so worried about one or two extra cruisers in the Japanese fleet. —Houston Press.

LAMPASAS

The building formerly occupied by Holley-Langford Motor Co., on East Third street, is now the home of Frazer-Taylor Furniture Co., the merchandise having been moved this week. Vacancies in the school faculty of the Lampasas schools were filled by elections of the school board at a recent meeting, according to Supt. Chas. Wachendorfer. With these places filled, only one place is left open that of a man for the grammar school.

A special session of district court was convened in Lampasas Wednesday, for the purpose of trying the habeas corpus case of Milton Patterson vs. Mrs. A. J. Straley before a jury. The case was one in which Mr. Patterson was suing for the possession of his nine-months old baby boy, whose mother died at the time of its birth. According to the evidence brought out, Mrs. Straley, grandmother of the child and mother of its mother, had reared the child since it was one day old. Mr. Patterson having married again, desired the child. The jury failing to reach an agreement was dismissed at 10:30 by agreement of the attorneys. The final ballot stood 7 to 5 in favor of the grandmother keeping the child.—Record.

Alexander of San Saba. J. N. received the message of his death Saturday afternoon and left immediately for the scene. Burial was at Dalhart Monday afternoon.

Woodrow McBride of San Saba, driving the Chevrolet coupe of Joe Ellis, ran over Arthur Miller near Florence Sunday morning about nine o'clock. Miller was killed instantly. Miller lived at Alexander and was going south. His car had broken down and he was standing in the road and was in conversation with another car driver. The McBride car was passing, and just at the time, Miller stepped back into the road. Woodrow had honked his horn and believed the parties heard it.—News.

**BAPTIST CHURCH**

The pastor will have to cut his notes short this week, as his wife is making her debut into the columns of this paper. Oh well, looks like the women are going to run our state government for the next two years, and I guess it's alright for a preacher's wife to begin having her name appear in the paper.

Ferguson prosperity has already begun. Went down town last Monday morning and one of the filling station boys notified me that red gas was as cheap as white gas. So this preacher is using red gas.

We understand that Dr. Campbell and a few of his close friends are soon to start an old fashioned revival some where on "Bull's Run Creek" that Jim Coekrum is to furnish the goats, and Bill Woody the music, and D. G. Barnett will take the collection. This revival, however, will be of a political nature, and all who lost their candidate for governor are invited.

The thing that makes politics interesting is the fact that all men cannot agree. They have never all agreed and they never will; and that is the reason that we have a democratic form of government, and given the privilege to express our desires at the ballot box. But there is one thing that we do not want to forget and that is, if we are losers, be good sports, and still maintain the respect and friendship of all. It doesn't make any difference who is elected governor, they are not going to move to Goldthwaite, and if any of us get sick, or our home burns, or some other calamity comes our way, we are not going down to Austin and ask the governor to come and sit up with us, or even ask him for an offering to help take care of our needs, but will expect our neighbors to do it, and they will. Naturally we want our man to win and if he did not win, let's pick another and if he loses, and it will come a good rain the grass will grow just the same.

I like to have forgotten to mention that we are still having regular services at the Baptist church every Sunday. Not so many out last Sunday—just 174 in Sunday school and the crowd at the morning hour not so good; however, a splendid congregation at the evening service. Come on folk. Bring you visitors. Let's make it over two hundred next Sunday.

cells of land, had had and held, peaceable and adverse possession of same, cultivating, using, and enjoying the same, for a period of more than ten years, next before the commencement of this suit.

Plaintiff alleges in his petition that the defendants are asserting some kind of title to, or lien on or against said tracts and parcels of land, the nature and character of which, are unknown to plaintiff; that defendants have no valid claim to, or lien on or against said tracts and parcels of land, and have no right, title or interest therein, or right to the possession thereof, but are naked trespassers.

Plaintiff asks judgment for the title to, and possession of, said tracts or land, and for a writ of possession to same; that all claims or liens asserted against same by defendants, or either of them, be cancelled and declared of no effect, and that all clouds cast upon plaintiff's title to said tracts and parcels of land, by reason of defendants said claims, and asserted liens, be removed.

Herein Fall Not, but have you before said court, at its aforesaid regular term, this writ, with your return thereon, showing how you have executed the same.

Notice to each Baptist church in this association:

We are still behind sixty-seven dollars on a note that was made last March to balance accounts with County Missionary Thornton. So far our strongest churches and some others have not paid in anything since the note was made. I take this method of appealing to you to help take care of this matter before the association meets next month.

**PROPOSING A CONSTITUTIONAL AMENDMENT TO BE VOTED ON NOVEMBER 4, 1930.**

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 11 of Article VII of the Constitution of the State of Texas be amended so as to read as follows:

Section 11. In order to enable the Legislature to perform the duties set forth in the foregoing section, it is hereby declared all lands and other property heretofore set apart and appropriated for the establishment and maintenance of the University of Texas, together with all the proceeds of sales of the same, heretofore made or hereafter to be made, and all grants, donations and appropriations that may hereafter be made by the State of Texas, or from any other source, shall constitute and become a permanent university fund. And the same as realized and received into the Treasury of the State (together with such sums belonging to the fund, as may now be in the Treasury), shall be invested in bonds of the United States, the State of Texas, or counties of said State, or in school bonds of municipalities, or in bonds of any city of this State, or in obligations and pledges, for the construction of dormitories and other buildings for the use of the University of Texas, or in bonds issued under and by virtue of the Federal Farm Loan Act approved by the President of the United States, July 17, 1916, and amendments thereto; and the interest accruing thereon shall be subject to appropriation by the Legislature to accomplish the purpose declared in the foregoing section; provided, that the one-tenth of the alternate sections of land granted to railroads, reserved by the State, which were set apart and appropriated to the establishment of the University of Texas, by an Act of the Legislature of February 11, 1858, entitled, "An Act to establish the University of Texas," shall not be included in, or constitute a part of, the permanent university fund."

Sec. 2. Said proposed amendment shall be voted on by the electors of this State qualified to vote on constitutional amendments at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1930.

**DAN MURRAH DEAD**

Old residents of this county, and especially this city, remember well Dan Murrah, who lived here during his youth and early manhood. The family lived a short distance southwest of town, on the farm now owned by Mr. H. B. Bradley. They moved from here to Schleicher county and some members later settled in other parts of the southwest. Those who remember the family regretted the death of Dan Murrah, which occurred last Thursday, according to a special to the daily papers from Del Rio, which said: "Funeral for Dan Murrah, 61, weight 419 pounds, ranchman who died while weighing himself here Wednesday, await arrival of a specially constructed coffin from San Antonio. Mr. Murrah served as sheriff of Schleicher county for two terms. He purchased a ranch in Val Verde county in 1908."

**MEETING CLOSED**

The revival meeting closed Sunday night at Seallorn. Pastor R. V. Mayfield held the meeting. Brother Mayfield loves the Lord and lost men. There were three additions to the church, one for baptism and two by letter. He begins a meeting Friday night at Center City and you will not regret going to hear him and I think we will make a mistake if we let him leave this association.

**We have joined with Firestone to not only meet but BEAT Mail Order and other Special Brand tires on Price-Quality-Service**

Come in and see the facts for yourself

YOU no longer need to send for tires by mail, nor do you have to buy tires made by some unknown manufacturer. Firestone prices are now the lowest in tire history, but more important than that, Firestone quality has never been higher.

We've taken the mystery out of tire buying

Visit our store and we will show you the "inside facts" about tires. We have actually cut up new tires and have the cross sections for you to examine—you will easily see why Firestone quality is so outstanding.

Don't worry about punctures and blowouts

Punctures and blowouts are bothersome and most people fear them—but NOW, because of the patented Double Cord Breaker, Firestone has practically eliminated them. Come in and let us show you this feature that puts two extra plies of cord right under the tread where most road wear comes and where punctures and blowouts start.

Compare Prices and Specifications

Because Firestone Tires hold all world records on road and track for speed, safety and endurance, many people think they are high priced—but just check these low prices—then compare quality—you will be dollars and miles ahead.

**A new ETHYL Gasoline ...**  
**TEXACO-ETHYL**  
 The "DRY" ETHYL Gasoline

Here's something new in premium gasoline—Texaco-Ethyl, the "dry" Ethyl gasoline. It's better because it's "dry"! And here's the reason—

In any premium gasoline the quality of the gasoline base determines the efficiency of the premium fuel. In Texaco-Ethyl the gasoline base is the famous *new and better* Texaco, the original "dry" gas. This is where the difference begins!

Because Texaco is "dry" it vaporizes readily, allowing

a complete and uniform diffusion of Ethyl compounds through the manifold into the cylinders. And that same "dryness" makes possible the surprising quick-starting and pick-up that has made Texaco famous. The additional power and speed that it develops are a natural result of that same "dry" quality.

There's pep and power throughout the entire driving range! There's the complete freedom from knocking! There's your premium gasoline! Fill your tank today with Texaco-Ethyl.

**ATHLETE SOON REGAINS HEALTH BY NEW KONJOLA**

Baseball Player Suffering From Rheumatism and Other Ailments Finds Prompt Relief

MR. JACK LONG

"For over two years I suffered from rheumatism," said Mr. Jack M. Long, 511 Burnett street, Fort Worth. "My legs and back were affected so much that I could not carry on my work as a baseball player. Finally I was forced to remain in my home for three months. I had attacks of indigestion and my kidneys gave me no end of trouble; the pains in my back were terrible. I was forced to rise many times nightly and became very nervous."

"I tried many remedies without result when a friend recommended Konjola. After taking seven bottles, I was able to resume my work in the K. I. C. league as a ball player. The rheumatic pains have completely vanished and my stomach is in perfect condition. My kidneys are again normal and I do not have to rise at night. The pains have left my back and my nerves are strong. Konjola restored me to perfect health."

Although many men and women state that one or two bottles brought relief, it is recommended that six or eight bottles be taken to obtain the best results.

Konjola is sold in Goldthwaite, Texas, at Hudson Bros. Drug Store, and by all the best druggists in all towns throughout this entire section.

**RURAL RESIDENCE BURNS**

The residence of Mrs. John Nesbit, in the Pleasant Grove community, was totally destroyed by fire Saturday afternoon about 3 o'clock. Mrs. Nesbit was visiting in Waco and her son, Marvin, and family, who make their home with her, had gone to San Saba county for a visit, hence there was nobody at home when the fire started. Most of the people of the community had gone to their voting places and very few were left in the community and by the time those who learned of the fire had reached the place the fire was under such headway it could not be checked, neither could anything be salvaged from the house. The smoke house nearby was also destroyed by the fire, which was communicated from the residence.

Some of Mrs. Nesbit's neighbors were in town Monday and took up a subscription, to aid her because of her heavy loss.

**A JOB FOR A GENIUS**

Government in business usually means inefficiency in business.

In a recent address, Edward N. Hurley brought out some interesting facts regarding the shipbuilding industry when controlled by the government during the war. He stated that, at the most conservative estimate, the industry was at least 25 per cent less efficient after the government became responsible for wages than before, and that at least half a billion dollars could have been saved by private management operating with the same men on the payroll.

"A genius who could invent some method of getting the profit motive into governmental operations, excluding graft, would be worth hundreds of millions a year," according to Mr. Hurley. "As it is now, there is no adequate reward for an executive in government service, who increases his efficiency and no adequate punishment for the one who lets it slip."

Employees or executives of a private business are responsible to directors and are in direct competition with other businesses, all seeking to cut costs and lead their field. The job of a government employe is not generally dependent upon outstanding ability, but upon politics. It is no wonder that the American people have time and again insisted that government restrict itself to governing and leave business where it belongs, in private hands.

**ASSOCIATIONAL W. M. U.**

As president of the W. M. U. of Mills County, I have visited the following churches: Star, Mullin, Scallorn, Big Valley, Trigger Mountain, and North Bennett. Have been to these churches in the last fifteen days. Every one gave me a cordial reception, promising to do their best for our women's work. Some have already sent in an offering, while the others will do so by the meeting of the Association. There are a few churches that I have not been able to reach at this writing, but will before our Association meets.

Our women's work is one of the most vital works that our denomination has, and whether a church has a woman's organization or not, they can very easily help carry on the work that is fostered by the women. As president of the Mills county W. M. U., will you be so kind as to allow me to make an earnest appeal to every woman in every church to lend a helping hand just now in the taking care of our work? Let the women in every church make a special effort to send something to the Association for our work.

It has been a genuine pleasure for me to act as your president, and the spirit of co-operation, and willingness, upon the part of the ladies of the different churches, as well as the help given by the pastors, has given me inspiration and encouragement, for which I speak my appreciation.

Let's remember that we will have a business meeting during the first day of our Association, more than likely in the afternoon. We want some lady to be ready to make a report of work done, and what we can expect to be done during the rest of the year from each of the churches.

Will meet you at Star expecting to have the best Association in the history of our county.

My back hurt almost all the time, and my legs and ankles ached. My head hurt me until sometimes I would be almost past going. As I had used Cardui before, and knew how much I had improved after taking it, I got a bottle and started taking it. I continued to use it for several months. **Meeting the Needs of Millions of People**

The low-priced automobile has brought greater opportunity and added hours of recreation to millions of men and women.

**BECAUSE** the automobile is such an important factor in the lives and prosperity of so many people, the purpose of the Ford Motor Company is something more than the mere manufacture of a motor car.

There is no service in simply setting up a machine or a plant and letting it turn out goods. The service extends into every detail of the business—design, production, the wages paid and the selling price. All are a part of the plan.

The Ford Motor Company looks upon itself as charged with making an automobile that will meet the needs of millions of people and to provide it at a low price. That is its mission. That is its duty and its obligation to the public.

The search for better ways of doing things is never-ending. There is ceaseless, untiring effort to find new methods and new machines that will save steps and time in manufacturing. The Ford plants are, in reality, a great mechanical university, dedicated to the advancement of industry. Many manufacturers come to see and share the progress made.

The greatest progress comes by never standing still. Today's methods, however successful, can never be taken as wholly right. They represent simply the best efforts of the moment. Tomorrow must bring an improvement.

ment in the methods of the day. Hard work usually finds the way. Once it was thought impossible to make gray iron by the endless chain. All precedent was against it. The previous experiment had failed. Prices to the public demanded that the methods be eliminated. A better way was found.

A better way of making axle shafts thirty-six million dollars in value. A new method of cutting crankshafts reduced the cost by \$500,000 a year. The perfection of a new machine produced a similar amount on such a little one bolt. Then electric welding developed to make many bolts stronger and to increase structural strength.

Just a little while ago, an engine conveyor almost four miles long was installed at the Rouge plant. This has a daily capacity of 300,000 pounds, weighing more than 2,000,000 pounds. By substituting the tireless machine for tasks formerly done by men, it has made the day's work of thousands of workers and saved millions in the manufacture of automobiles.

All of these things are of interest to the public—benefits of reliable transportation may be obtained within the means of the Ford Motor Company.

### MARRIAGE INSURANCE

Birth, Marriage, and Death are the three most important events in any person's life, and of these Marriage is the most important, for it is the only one of the three about which the individual has any choice.

Are you held back from Marriage by lack of money? When you become a member of the CENTRAL MATRIMONIAL ENDOWMENT ASS'N., you have invested in a legacy to be paid to you after Marriage.

The plan is identical in operation with that of the Mutual Life Insurance Companies, which plan has proven its worth and place in our economic system. Marriage—the same as death, always makes available cash imperative.

### MEETING AT STAR CLOSED

The Baptist meeting at Star closed Sunday night. We had seven addition—five by baptism and two by statement.

Rev. J. W. Sailors, pastor of the First Church at Stanton, did the preaching and did it well. The people were so well pleased with Brother Sailors efforts that they invited him to come back at the same time next year. You know, Sailors and I have been pals for twenty-five years. It has been said that the old pals of yesterday are the best and I am believing it.

The Church met in conference Saturday and called me, without any opposition, to serve them as pastor for another year.

You will remember that the Association meets at Star August 15th. We will be happy to have you with us.

W. A. THORNTON, Pastor.

### THANKS TO VOTERS

I am sincerely thankful to the voters who favored me with their support in last Saturday's primary election, and assure every one of them, and the citizens of the county generally, that I will use my best endeavors to fill the office of county judge and ex-officio school superintendent in a way that will be satisfactory to the citizens and creditable to the county. I expect to devote my entire time and best energies to the work and will be glad at all times to receive suggestions that are intended for the betterment of the service to the people and more efficient administration of the affairs of the office.

Again I thank you.  
Sincerely,  
ROY SIMPSON

### THE MOTORISTS FAULT

The fact that most grade-crossing accidents are strictly the fault of the motorist and not of the railway is strikingly brought out in a recent incident near St. Albans, Vt.

At a crossing near that city a motorist drove his car into a Central Vermont Railway locomotive and damaged the locomotive to the tune of \$19.60. The railway sued for the sum and the motorist's insurance company has paid in full.

The railroad contended that the motorist was entirely at fault, since he drove out on the crossing despite the fact that crossing bell and semaphore were giving him the proper warning.

As a general thing, it can be said that most grade-crossing accidents are due to the motorist's negligence. This railway's action in collection for damages to the locomotive is a good reminder.—Houston Press.

### PROFESSIONAL CARDS

J. J. Coekrell, the fruit man of Big Valley, brought the Eagle editor some delightful grapes a few days ago. He secured first premium and a blue ribbon on his grapes at the fair, and after sampling the excellency of his products there is no wonder he gets blue ribbons wherever he displays his products. Yet he says his grapes are not up to their usual standard, because of the dry weather.

**OUR JURY SYSTEM**

To be judged by your peers  
is almost an inalienable right  
of the American people. The  
right of trial by jury is pro-  
tected by the Constitution. That  
does not, however, mean that  
our present methods of select-  
ing juries, the qualifications,  
or rather the lack of qualifica-  
tions required of jurors, and  
our treatment of jurors is right.

Men who believe themselves  
to be in the right want judg-  
ment passed upon themselves  
or upon their cause by men of  
intelligence, not by men who  
are ignorant to the point of  
knowing nothing about the sub-  
ject on which they are to pass.  
Yet, in practice, the man who  
reads the papers or who pro-  
fesses to know anything about  
the case for which he was called,  
disqualifies himself as a  
juror. Men of intelligence,  
sworn to consider only the evi-  
dence placed before them, can  
and will be true to their oaths,  
no matter what opinions had  
been formed from reading or  
from hearsay. Certainly such  
men should make better jurors  
than those who confess their  
ignorance to the court.

Reform is needed in the meth-  
ods employed in selecting jur-  
ors. Selecting a juror should  
finally rest with the Court. Un-  
der the present methods, law-  
yers oftentimes consume several  
days and the time of several  
hundred men in order to se-  
cure twelve who look and act  
as though they should be in-  
fluenced by oratory, or through  
sympathy for their client. Reli-  
gious and fraternal affilia-  
tions, social connections, and  
family affairs are all matters  
of inquiry in determining  
whether or not the prospective  
juror is selected. To pick one  
man who will stick with him no  
matter what the evidence, is  
the aim of the lawyer. One fa-  
vorable juror wins the case.

Leading jurists have spoken  
in favor of jury reform. They  
will get it only when they go  
to the Legislature and demand  
it.—Farm and Ranch.

**GLAD I AM A FARMER**

(By George W. Winningham)

Mighty glad I am a farmer,  
'Tis the only life for me;  
From the dawn of morn till  
darkness,

Just as happy as I'm free,  
Like to hear the cowbells jingle,  
Hear the roosters crow for  
day,

Puts a love song in my bosom,  
Thus my troubles drift away,  
Like to hear the old hens cackle  
In the barn loft and the stalls;

Sounds like fairy strains of  
music  
Wafted from enchanted halls.  
Big fat turkey out there strut-  
brother,

Puts a laugh in ev'ry breeze—  
Days grow brighter, life more  
sweeter,

In a farm house 'mong the trees,  
O, I'm glad I am a farmer!  
When the days are cold and  
wet,

Sit around the fire with "Toot-  
sie"  
While the other fellows fret,  
Life is full of love and laughter  
Same way in the summer sea-  
son,

When the sun is shining down,  
When I come home from the  
cornfield,

Just as tired as I can be,  
"Tootsie's" in the kitchen, sing-  
ing,

And I know the song's for me,  
Kind o' 'pears to me, then,  
borther,

Life is worth the woe and pain,  
Worth the trouble it takes to live  
it

In a farm house by the lane.

**ROADS AND UNEMPLOYMENT**

Iowa is showing the nation  
how to relieve unemployment  
and, at the same time benefit  
the public.

The state has accelerated its  
highway program. Thirty thous-  
and workmen on Iowa roads  
will earn \$18,000,000 this year.  
And a multitude of cities,  
towns and rural communities  
will enjoy the prosperity that  
always accompanies intensive  
road building.

At the end of 1920 nine-  
tenths of its roads were mud.

At the end of 1930, eight-tenths  
of them will be surfaced.

The greatest present road  
need is the construction of  
practical and comparatively  
inexpensive secondary, farm-  
to-market highways that will  
give agricultural communities  
all-year contact with their mar-  
kets. The American Farm Bur-  
eau Federation has repeatedly  
pointed out that so long as  
5,000,000 of the 6,250,000 Ameri-  
can farmers are barred from  
these markets during several  
months of the year by mud, we  
will have a farm problem of in-  
creasing seriousness.

The modern application of  
asphalts and road-oils to dirt,  
macadam and gravel surfaces  
is making possible the building  
of tens of thousands of miles  
of low cost, waterproof surfac-  
ed, secondary roads, which  
would have been out of the  
question a decade ago.

**THANKS TO VOTERS**

I am indeed profoundly grate-  
ful to the voters of Precinct No.  
1 for the hearty support they  
gave me in the primary just  
ended. I have endeavored at all  
times to give the county my  
very best service and have given  
every interest my careful atten-  
tion, while representing Pre-  
cinct No. 1 in a way I thought  
would meet the approval of the  
taxpayers and the entire citi-  
zenship. The assistance given  
me by the people I serve has  
helped me to give better ser-  
vice than I otherwise could have  
given, all of which I appreciate  
and shall endeavor to prove my  
appreciation by renewed effort  
in the interest of the county and  
my precinct in the future.

Respectfully,  
L. B. BURNHAM.

tack of something like ptomaine  
poison. Reports last night were
