District Court In Special Term Adjourns

Several Cases Tried Two Guilty Pleas

The special term of district court adjourned Monday, after being in session since the previous Monday.

A number of cases were disposed of the first week, as reported in last week's Eagle.

When the Eagle was put to press last week the case of the State vs. W. B. Fowler, charged with the murder of Dr. J. C. Barrett, was on trial. The evidence was completed Saturday afternoon and the case was submitted to the jury Saturday night, after completion of the argument of the attorneys. Sunday morning the jury reported a verdict, finding Fowler guilty and assessing his punishment at two years in the penitentiary. His attorneys at once gave notice of appeal and he was granted bond in the sum of \$2000.

A special venire of 125 men was summoned to appear Monday to secure a jury for the trial of Bailey Fowler, charged as an accomplice of his father. When the case was called Monday morning it was continued to next term of court, which is to convene on Sept. 22.

Alvin Bohannon, charged with burglary, was given a five years suspended sentence on a plea of guilty.

R. L. Logan, also charged with burglary, plead guilty and was given a five years suspended sentence.

ATHENS CLASS

One of the most enjoyable social events of the year was had by the Athens Sunday school class on Monday night, August 11, at Peck's Crossing.

The crowd gathered at the Baptist church at 6:30 o'clock and left immediately for the appointed place.

As usual the class was represented by a peppy and jolly crowd of about eighty-five or ninety. Upon arriving at the river, those who participated in the swimming, donned their bathing suits and went in for a delightful swim. My, what a splash when we all got in, and especially when Tom Toland hit the water. And I guess we might have been playing in the water until now, if Mrs. Walter Fairman hadn't been standing on the bank calling to us to come out, for she knew there were about 18 or 20 cold watermelons to be served. So, to keep she and Bill Richards from disturbing the neighborhood, the ones that were in the water had to come out and what a melon feast we had! What is more enjoyable than to "just be kids again," and that is exactly what we were with Mrs. Cockrum as our leader. We played most all the childhood games we could think of. The time came entirely too soon to go home and each one left, expressing their appreciation to our teacher and president for such a wonderful time.

We have one of the best Sunday school classes in the state, and we extend a most hearty welcome to any one who will come and line up with us.

SCHOOL BOARD HOLDS IMPORTANT SESSION

Opening Date Fixed Work Assigned

The Goldthwaite school board held a meeting Tuesday night, at which time the date for opening of the fall term of school was fixed for Monday, Sept. 8.

It was decided that the Teachers Institute should be held on Friday and Saturday before the opening of school, which will be on Sept. 5 and 6. Mrs. E. D. Stringer was named as principal of the Grammar school, Mrs. Joe A. Palmer having already been designated as principal of the Junior High school and Prof. E. D. Stringer superintendent of the school system.

The Board agreed to meet the Lions club on a 50-50 basis, not to exceed \$200, in providing play ground equipment for the school, all purchases to be approved by Supt. Stringer.

COMMISSIONERS COURT

Commissioners court was in regular monthly session Monday and gave attention to a considerable amount of business.

Official reports were received and examined.

Accounts against the county were audited and allowed. The highway money from the sale of license tags was divided to the various precincts in accordance with the place of ownership of car licenses. Precinct No. 1 received \$25, No. 2, \$26.06; No. 3, \$33.67; No. 4, \$20.31.

Will Steinmann was appointed constable at Priddy and he at once made bond and entered upon his duties.

The tax levy for the county was made the same as last year, i. e., 60 cents on the \$100 valuation. It was apportioned as follows: General fund 25c, court house fund 15c, road and bridge fund 15c, jury fund 5c.

Levies were made for all special taxes in school districts, which amounts have been voted and are the same as heretofore.

SOME STATES DRY

W. H. Oglesby wrote the Eagle from Breckenridge last week, wanting a report from the July primary. He had just returned to Texas from a two months visit in Mississippi, Tennessee and Arkansas and reports rather severe drouth in some portions of those states.

METHODIST CHURCH

With the intense heat and distressing drouth, folks continue to come to our services. They realize the tremendous need, not only for rain to quench the thirst of a desolate vegetation, but the greater need of "showers of blessing" from the throne of God for our immediate neighborhood and for our entire land and country and for the whole world. We must not be unmindful that God is the giver of every good gift. To pray for rain is not amiss and it is certainly needful that we pray for revival in our own hearts. There is oftentimes need for true repentance and rightly relating ourselves to the things of God. In this connection we read Haggai 1. and Malachi III.

We are looking for a very gracious service next Sunday morning when we welcome a number of new members into our church. We want to see all of our Methodists present to make the cordiality of our welcome hearty. We must not fail to impress our joy in our church and our gladness of heart in the choice of others that choose our Savior and desire fellowship in service for His glory.

We are not ungrateful for the progress of all of our work. The Junior work which meets in the basement and the Hi-League which meets in the Wesley Workers' class room and the Senior League. All seem to be doing fine, with the exception of our Choir, which is not quite up to par. Perhaps the vacation and out-of-town business will soon be over and then we are sure we can count on them.

Diligence must be the order of the day with less than two months to Conference.

The "Heart of Texas" League Union meeting will be held with us on the fifth Sunday of this month. Brother Bolton Boone of San Antonio will preach for us and we expect to give the League a hearty welcome and enjoy a great day with them.

Yours for the greatest Sunday of the year on August 24.
S. D. LAMBERT.

WESLEY WORKERS

ENTERTAIN WITH WATERMELON FEAST

Thursday evening, August 7, the Wesley Workers entertained with a party at the river, on the Scott Thompson place.

Members and guests gathered at the river from six o'clock until eight, and had a glorious time swimming. This fine sport was broken by the call of a feast that awaited this group of merry-makers, who all made a rush for the picnic grounds, where they were served fried chicken, numerous salads, olives, iced tea and watermelons.

There were approximately ninety-six members and their guests, and every one enjoyed themselves to the utmost.

THE GOLDTHWAITE EAGLE

A concrete beginning for a \$200,000 permanent headquarters building for the Texas Federation of Women's Clubs in Austin has been made by the headquarters committee.

One man was killed and another seriously injured when two automobiles collided on a suburban boulevard in Fort Worth Saturday night, and one of the machines careened against the men, who were sitting on the curb talking.

A wonderful record was that of Mrs. Anna Van Skite celebrating her seventieth birthday by swimming twenty miles from Venice, Cal., pier to the Santa Monica Canyon light-house and return. Mrs. Van Skite was in the water 12 hours and 10 minutes.

Band leaders of West Texas will have an opportunity to demonstrate the efficiency of their organizations at the West Texas Exposition at San Angelo, September 22 to 27, according to Harold Broome, director of the DeMolay high school bands of San Angelo.

The heat story about picking baked apples from trees was given verification in Pennsylvania when Dr. G. L. Zundel, plant pathologist at the Pennsylvania State College, disappeared in his office a collection of partly cooked apples. Dr. Zundel reported that on a trip through a country, 5 per cent of the apples in the orchards he visited were partially baked. In some orchards he reported 10 per cent of the apples on the seaward side of trees baked.

Curtailement of oil production in the entire state of Texas will be attempted by the Railroad Commission under general provision to be incorporated in an order to be issued, but giving a remote effective date so that requests for changes may be made and considered before actual restriction begins. The desire is to reduce the production by 75,000 barrels daily and prevent overproduction with the resultant wasteful waste of oil and gas, as well as having the effect of stopping the economic waste in depressed prices.

Contract for the new \$500,000 classroom building at the University of Texas will be let sometime this fall, it has been announced. Architects are now busy drawing up the preliminary plans to be submitted to the Board of Regents. This building will be located on the original forty acres, at Speedway and Twenty-second street, just east of Garrison Hall. The building will be four stories high and will resemble Garrison Hall, the newest of the classroom and office buildings. The School of Business Administration will occupy part of the building.

Last Saturday at noon an outlaw of Fort Worth walked into the Stockyards National Bank of that city and demanded \$10,000, saying he was desperate and would blow up the bank if the money was not forthcoming. The president of the bank agreed to give him the money and went for it, at the same time telephoning police authorities. The vice-president engaged the outlaw in conversation while the president was getting the money, which was being counted out in the bank office. Two policemen appeared at the door and the outlaw threw a satchel containing nitro-glycerine to the floor which caused an explosion that blew the vice-president and himself to fragments, injured several other persons and damaged the building. The outlaw was not considered dangerous of crazy by those who knew him and his action is unexplainable.

**S. J. R. No. 7
PROPOSING A CONSTITUTIONAL AMENDMENT TO BE VOTED ON NOVEMBER 4, 1930.**

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 11 of Article VII of the Constitution of the State of Texas be amended so as to read as follows:

Section 11. In order to enable the Legislature to perform the duties set forth in the foregoing section, it is hereby declared all lands and other property heretofore set apart and appropriated for the establishment and maintenance of the University of Texas, together with all the proceeds of sales of the same, heretofore made or hereafter to be made, and all grants, donations and appropriations that may hereafter be made by the State of Texas, or from any other source, shall constitute and become a permanent university fund. And the same as realized and received into the Treasury of the State (together with such sums belonging to the fund, as may now be in the Treasury), shall be invested in bonds of the United States, the State of Texas, or counties of said State, or in school bonds of municipalities, or in bonds of any city of this State, or in obligations and pledges for the construction of dormitories and other buildings for the use of the University of Texas, or in bonds issued under and by virtue of the Federal Farm Loan Act approved by the President of the United States, July 17, 1916, and amendments thereto; and the interest accruing thereon shall be subject to appropriation by the Legislature to accomplish the purpose declared in the foregoing section; provided, that the one-tenth of the alternate sections of land granted to railroads, reserved by the State, which were set apart and appropriated to the establishment of the University of Texas, by an Act of the Legislature of February 11, 1858, entitled, "An Act to establish the University of Texas," shall not be included in, or constitute a part of, the permanent university fund."

Sec. 2. Said proposed amendment shall be voted on by the electors of this State qualified to vote on constitutional amendments at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1930.

PREFERENTIAL BALLOT

Several of Texas' cities have consistently used the preferential ballot through a number of years. Significantly enough, they have found that the will of the people effectively expressed and the expense incident to run-off elections is saved to the people.

If the preferential ballot works satisfactorily in municipal elections, there is little reason to believe it would not operate as well in the state elections.

In one Texas county, some thing odd, defeated candidates who have no further interest in the election, are contributing to the enormous expense of the run-off primary. It is not an equitable arrangement, and undoubtedly good men hesitate to announce for office when they compute the money-hazard involved.

There seems to be no good reason why the preferential ballot should not be used in state elections where three or more candidates announce for an office. Many Texas newspapers are advocating its use, and the electorate, in all probability, would not object to relief from the burden of a second primary.

Among the host of bills, good, bad and indifferent, which will be offered the 42nd legislature, it is hoped that some legislator will present one making mandatory the use of the preferential ballot in future primaries.—From Editorials for Month.

GOVERNOR CAN NOT ACT

In addition to the fact that between one and two years must elapse before anything can be done about the road bond issue, much is certain:

Mr. Sterling, as governor, would be powerless to keep it from going into effect.

That is because the people, and they alone, have the power to reject or adopt the plan. First, the legislature must submit it to the people by a two-thirds majority vote; then the people must vote on the question.

Regardless of who is governor, that executive will have nothing to do with it, one way or the other. A governor friendly to the plan could not put it into effect; a governor unfriendly to the plan could not prevent it from going into effect if the people vote for it. A veto would not be effective, because two-thirds of the legislature can override a veto.

This much just to keep the record straight, and clarify any possible confusion in the matter.—Abilene Morning News.

ARE YOU OFF KEY

Do you feel yourself out of tune with many of your past associates?

You may think they have changed, but not for the better.

Certainly they are not as deeply interested as formerly in the things which at one time engaged your mutual interest.

Have you ever thought that possibly you are not advancing in thought as fast as you are progressing in years?

Perhaps your friends are growing up faster than you are.

Will you ever grow up?

Are your desires greater, your known accomplishments increased, your conversation deeper as the result of thought and study?

Most people progress in mentality till age interferes with advancement.

Are you willing to say that you are too old to take up new things?

If you feel a deficiency, then either illness or a failure on your part to take advantage of opportunities for mental growth has caused the trouble.

The fact that you feel out of harmony with most of your friends indicates that they are normal and you are off key.

Of course, yours may be an exceptional mind, and so grown away from old friends.

But it is more likely that you have slipped or slumped. Houston Chronicle.

CANNON EQUIPPED PLANE

Night bombing airplanes carrying small rapid-fire cannon instead of machine guns are now being developed in Great Britain to add to the horrors of the next war. Tests are now being carried out with a multiple engine night-bomber and are understood to have been fairly successful. The new guns fire explosive shells and it is believed that not only will the shells prove a better defense for bombers against attacking aircraft than machine gun defense, but that adapted to smaller fighters they will also prove more destructive in trench raiding and in attacking columns of troops on the march than machine gun fire.

COMANCHE

W. E. Lowe and Will Barker
of DeLeon will have their names
printed on the ballot of the run
off primary for chairman of
precinct No. 15, according to
action of the executive com-
mittee in session at Comanche Sat-
urday. In the July primary Mr.
Lowe and Mr. Barker each re-
ceived seven votes for chair-
man.

William J. Bond, Jr., 17 year
old son of W. J. Bond, who re-
sides four miles east of Gus-
tine, was instantly killed at
6:15 a. m. Thursday morning,
August 7th, when he was struck
by the Frisco train near Brown-
wood. According to the Brown-
wood Bulletin, the engineer
on the passenger train says that
just as the train was crossing
the May road, two miles east
of Brownwood, looking down
he saw Bond lying on the track
with his knees across the rail
with his body between the
rails. It is the theory of rela-
tives that Bond had set down
to rest, as his shoes were re-
moved and were by the spot
where he was sitting.

With his skull crushed, a
limb broken and his body bruised,
as the result of an auto ac-
cident, Jim Gilchrist, 15, was
picked up by Winston Durham
at Lake Eanes, Friday night
at nine o'clock and brought to
Dr. H. A. Bowden's office,
where he died a few minutes
later. According to J. D. Cloud,
17, who with Pete Cloud and
Moody Helmeck were with Gil-
christ at the time of the ac-
cident, the four were riding in
a "cut-down" model T Ford,
headed toward the swimming
pool and near the pump station,
they struck a post. J. D. was
driving with the engine cut off
and when he saw the post he
turned to the right in an effort
to miss it. Gilchrist, who was
in the rear seat with Pete, jump-
ed, his head striking the post
and his foot going into the
wheel of the car. He never re-
gained consciousness after the
accident.—Chief.

LOMETA

The first bale of the 1930 cot-
ton crop in the Lometa terri-
tory was ginned here Monday
by the Mason gin for J. Lee
Spivey. The cotton was raised
on his place about three miles
west of town.

The country home of Mr.
and Mrs. W. J. Herring was
made a scene of merriment
Wednesday night of last week,
when Mrs. Vera Page enter-
tained the Bridge Gang and
other guests with a "tacky"
bridge party.

Lewis Moore, a resident of
Bend for many years, died sud-
denly Wednesday morning and
we understand that the trouble
was heart trouble, although we
were unable to find out the par-
ticulars of this sad turn of fate.

After suffering a fairly heavy
loss on July 6th, as a result of a
wind storm, which blew down
part of his barn, Mr. Ecker,
who recently purchased the W.
W. Brooks place near Lometa,
had the misfortune of having
the same barn and its contents
completely destroyed by fire
one night last week. The origin
of the blaze has not been de-
termined and the loss is esti-
mated at \$5,000.—Reporter.

FARM STORAGE

A farmer without storage
space is forced to sell his crops
at harvest time. If he does not,
as in the case of some cotton
farmers, he is penalized for
country damage, real and imag-
inary.

It is poor business to grow
and harvest a crop and be forced
to take any price offered be-
cause there is no room for it on
the farm. Millions of bushels of
grain are forced on the market
in harvest time because the
growers cannot hold it and wait
until the market glut is over.
Many farmers do not even have
storage for the grains and feed-
stuffs for farm consumption.
Farmers have been known to
sell their oat crop in the spring
because of lack of storage space,
and buy oats by the sack during
the fall and winter at a
much higher price.

Concrete storage, of course,
is to be preferred, because it is
rat and insect-proof, but good
storage, properly constructed
with lumber, serves the pur-
pose very well. We also have
sheet iron storage that is equal
to concrete, as far as being dry,
fireproof and rat-proof. Metal
storage bins can be purchased
all ready to be set up. Many
prefer this form to concrete.

Almost any kind of storage is
preferable to none at all, and
before another harvest comes,
plans should be made to pro-
vide this necessary facility. In
the long run, it will prove a
most profitable investment.—

DEATH RATE REDUCED

Death comes to the United
States half as often now as it
did thirty years ago, according
to the figures of the joint com-
mittee of the American Medical
Association and the National
Educational Association. With-
in a generation the death rate
has been cut in half. That is an
amazing accomplishment. Yet
some verification is within the
recollection of most of us. We
have only to recall how tuber-
culosis was formerly the white
plague, whose victims were
marked for the grave. We have
gone a long way toward com-
bating that disease within re-
cent years.

But tuberculosis is not the
disease which has most strik-
ingly yielded to the improved
effectiveness of the men of
science. The death rate due to
diphtheria has been reduced 95
percent since 1900. The fatality
ratio in cases of typhoid and
paratyphoid fever has been
brought down by that much
also. These figures are as con-
vincing as the statistics on
smallpox, since the general re-
sult to vaccination. Preventive
medicine has made great strides
within the span of those now
living.

Problems unsolved remain to
occupy the attention of our
best medical wisdom. There is
never time to celebrate past vic-
tories because there are always
victories yet unwon. The ills of
middle and old age become
dearly oppressive as larger
numbers of us reach those
brackets of human existence.
Cancer and circulatory mal-
adies appear to be gaining, rat-
her than losing ground.—Dallas
News.

CHILDREN'S HOSPITAL

The children's hospital being
built at the State Tuberculosis
Sanatorium, near San Angelo,
to treat tubercular children be-
tween the ages of 6 and 14, will
be ready for occupancy after
October 1. The hospital will ac-
commodate 161 children.

An eleemosynary independ-
ent school district has been
formed, affiliated with the state
department of education, which
will afford the child an oppor-
tunity to continue his school
work at the hospital from the
first to seventh grades, inclu-
sive.

A well-equipped playground
is provided. An effort was made
to eliminate devices which
cause a strain on the shoulders
and arms.

All applicants admitted into
the hospitals are to be given six
months' treatment and an ad-
ditional three months will be
extended if the superintendent
deems their physical condition
can be further improved by ad-
ditional time.

A negro at Wharton was

the postoffice and caught the
negro in a few minutes.

Back Quit Hurting

"I was in a very weak condition from a serious sickness," writes Mrs. L. Leonard, of 571 Joseph St., New Orleans, La. "I was so weak, I wanted to sleep all the time. I did not have strength to do anything. My back ached nearly all the time. I was just in misery. My mother told me I must arouse myself from the sleepiness, and take something to help get my strength back. She had taken Cardui and had been helped, so I decided to take Cardui, too. After my first bottle, I could see that it was helping me. I took four bottles at this time. My strength came back and I gained weight. Pretty soon, I was my old self again. My back quit hurting, and I haven't had any more trouble since I took Cardui."

**LUNCHEON CLUB HEARS
SPLENDID TALKS**

Members of the Brady Luncheon club heard two splendid talks yesterday noon, D.A. Newton, superintendent of the Brady schools having as his subject, "Brady High School—Its Organization and Aspirations for the 1930-31 Term," and Mrs. C. A. Blasig speaking upon the subject, "The Standards We Hope to Attain for Our Pupils As Citizens of Brady."

Prof. Newton stated that one great aim would be for friendliness in the school and towards the school; a friendly spirit among the members of the faculty in order that all work might be co-ordinated to the best advantage and to make for the best interests of the school. He asked for the friendly interest of patrons and the citizenship, their frank criticism and helpful suggestions and their co-operation.—Brady Standard.

**VICTIM OF TRAGEDY
OF PIONEER FAMILY
OF BROWN COUNTY**

Mrs. A. D. Payne, Amarillo murder plot victim, was a member of a pioneer Brown county family and frequently visited with relatives in this county in her life time, according to information received by The Bulletin. Her father, John Johnson, was reared in Brown county, being a resident of the Jordan Spring community. Her grandfather settled in that section in the pioneer days of the county. Mr. Johnson moved away from this county soon after his marriage and has not lived here since.—Brownwood Bulletin.

**MODERN FACTORY SAFER
THAN HOME OR STREET**

Precautions Taken to Protect Worker From Injury Make Hazard Slight

Machinery in modern factories is guarded to protect the worker from injury. A pair of specially constructed shoes saved from injury the man holding a ninety-pound piece of glass, which slipped and dropped on his foot.

"As a result of the precautions taken in our plants, the factory is really a safer place than the street and is even safer than the home, according to the evidence of accident statistics," says the WESTERN ELECTRIC NEWS. "Of course there are powerful machines on all sides in the factory which you don't have in the homes, but their harmful potentialities are thoroughly curbed by designing them to minimize hazards and by equipping them with guards. For example, overhead belt drives, which once provided a fruitful source of accidents, have been replaced by safe individual motor drives. This change has also made the machine shops much lighter, with a consequent lessening in the possibilities of accidents due to obscure vision, and perhaps a certain gain in healthfulness.

"As an indication of the success of such measures the Hawthorne Works' accident records show that machines cause only about one accident out of every five that occur. "Homes, on the contrary, usually cherish ancient and rickety stepladders, dilapidated tools, dark, ill-lighted stairs—all sorts of safety hazards to entice the confiding householder into many forms of trouble. In the home,

too, with no supervisor to help keep him 'safety conscious,' a man is apt to do odd jobs in the way that looks quickest and easiest, rather than in the safe way. When, as a natural result, he gets hurt, perhaps he wraps up the wound without properly disinfecting it, or even just lets it go without any attention at all. Such conditions would not be tolerated under the safety rules in our shops.

"Then think of the streets as compared with the factory. In the streets we have plenty of machinery whirring all around us, but instead of being bolted to one spot with their moving parts well guarded, like our law-abiding shop machines, these juggernauts of the streets menace us from the moment we step down off the curb and even at times pursue us onto the sidewalks. And machines are only one of the many hazards of the streets to which we expose life and limb daily. Icy sidewalks, open coal holes, falling bricks, and numerous other menaces are constantly looking for a chance to do us damage.

"Thus, from a safety standpoint, we are better off during the portion of the day spent in the factory, practically free from danger, than we are anywhere else."

has returned home, but his wife
will remain for a longer visit.

MOHAIR NOTES

We will begin receiving the
fall crop of Mohair August 15th
and will be located in the new
Stallings Warehouse on the
railroad. All parties who have
mohair on hand or expect to
shear soon are invited to get in
touch with us and we will try
to give them a good advance
basis upon the grade of their
mohair. The organization is
stronger and better than ever
and will be in position to handle
all the wool or mohair that is
grown in the county.

The advance has not yet been
set, but is expected to be around
the advance of last spring,
which was 30 and 40 cents, while
this advance will be based on
the grade entirely and some of
it may bring this price and some
may bring less. In other words
the final advance that will be
paid the grower has not been
posted, but is expected within
the next week or so. Call around
and see us when you are ready
to sell your mohair.

had not been good for some time.
Mrs. Shocklee made her home
here each summer, because of
the climate, and during her stay
had made many friends, all of
whom were grieved when the
announcement of her death
reached them. Funeral services
were held in the Baptist church
Thursday morning at 10:30
o'clock, attended by a large num-

where he died, and at one time
he made his home in this city.
He was well liked by all who
knew him and his family has the
sympathy of many friends in
their bereavement.

The remains of Mr. Straley
were interred in the cemetery at
this place yesterday morning at
10 o'clock.

the Tread**

Here is EXTRA SAFETY

FOR the high powered, high speed cars of today, with needed quick
stops, you should have this extra protection. Just look at the inside of
Firestone Anchor Super Heavy Duty Tire. There are eight plies of cords
the all Non-Skid, Center Traction Tread. It is a big—tough—strong tire—
struction that insures against punctures and blowouts.

Come In and See for Yourself!

We have cut up various brands
of tires, so that you can see the
inside construction. Come in
and make these comparisons,
section for section, and you will
readily see the superiority of
Firestone.

We sell and service the com-
plete line of Firestone Tires,
Tubes, Batteries, Rims, Brake
Lining and Accessories, and
actually give you greater
values.

PATENTED DOUBLE CORD BREAKER THICKER TREAD

MORE RUBBER IN
TREAD AND SIDEWALL

The Firestone Anchor Super Heavy
Duty Balloon has a double cord
breaker—8 plies under the tread.
Some other makes have no breaker
at all and some a single breaker
made with old-fashioned, square
woven fabric that Firestone dis-
carded when they developed the bal-
loon tire.

**SAFETY . . .
Everyone Should Have

O. brs. north 30 1-2 east 4 1-2 varas; thence S. 45 W. 540 varas to a stone md. on the southwest line of the said Michael Short survey; thence south 45 east 471 varas, to the beginning, being the same tract conveyed by Mrs. L. C. Pease to Dudley Page by deed dated October 2, 1897, and containing 45 acres of land, more or less.
That on said last mentioned date, the defendants wrongfully entered upon said lands and premises and ejected the plaintiff therefrom, and ever since said date have withheld from plaintiff the possession thereof to plaintiff's damage in the sum of ten thousand dollars.
That on the 1st day of May, A. D. 1930, the plaintiff had, and now has, title to the above described tracts and parcels of land, not only by a regular and consecutive chain of deeds and transfers from the sovereignty of the soil to himself, but also by virtue of the statutes of limitation of three, five, ten and twenty-five years; that plaintiff then had, and now has, and asserts and claims title to said tracts and parcels of land by virtue of the statute of limitation of three years in this: That he and those whose estate he has have had and held under title and color of title from and under the State of Texas, actual peaceable, continuous, exclusive and adverse possession of said land above described for a period of more than three years before the commencement of this suit.
That plaintiff then had, and now has and asserts title to said tracts and parcels of land by virtue of the statute of limitation of five years in this: That he and those whose estate he has claiming the same under a deed duly registered, have had actual peaceable, continuous, exclusive, and adverse possession of the tracts and parcels of land, using and enjoying the same, and paying all taxes due thereon, for a period of more than five years next before the commencement of this suit.
That plaintiff then had, and now has, and asserts and claims title to said tracts and parcels of land by virtue of the statute of limitation of ten years in this: That he and those whose estate he has, claiming to have good and perfect right and title to said tracts and parcels of land, have had and held actual, peaceable, continuous, exclusive and adverse possession of said land above described, cultivating, and using and enjoying the same, and having the same enclosed under substantial fence, for a period of more than ten years next before the commencement of this suit.
That plaintiff then had, and now has, and asserts and claims title to said tracts and parcels of land by virtue of the statute of limitation of twenty-five years in this: That he and those whose estate he has, under claim of right and title to said land in good faith under deeds duly recorded in Mills County, Texas, purporting to convey the same, have had and held actual, peaceable, continuous, exclusive and adverse possession of said land above described, using, cultivating and enjoying the same and having the same under substantial fence, for a period of more than twenty-five years next before the commencement of this suit.
Plaintiff further alleges that the nature of the defendants' claims to said tracts and parcels of land is to the plaintiff unknown, but that defendants

are asserting some kind of title to interest in or claims against said land, the exact character and extent of which plaintiff is unable to state; that defendants have no title, no valid interest in and no claims against said land, or any part thereof, and have no right to possession thereof, but are naked trespassers.
Plaintiff prays for the title to and possession of said tracts and parcels of land, and for writ of possession of the same, that all clouds cast upon his title to said lands by reason of defendants' claims thereto be removed, and that he be established, confirmed and quieted in his claim to the same, and for general relief.
Herein fall not, and have you before said Court, on the said first day of the next term thereof, this writ with your endorsement thereon, showing how you have executed same.
Given under my hand and seal of said court, at office in Goldthwaite, Texas, this 13th day of August, A. D. 1930.

Clerk of the District Court of Mills County, Texas.

MR. COBB'S LETTER

As the excessive hot weather continues forcing the old tribe to stay close to the shade, we will venture a word with brother Bob and the readers of the Eagle.

I was out on the street yesterday and someone recognized me, calling me by name and when I approached his car, he said, "You don't know me." I said his voice was more recognizable to me than his face, but before I could get a good look at him he said, "This is John Street from Goldthwaite." The more than a dozen years which have passed since we met I couldn't see much change in his looks. His son was with him, to whom he introduced me and said they were citizens of Corpus Christi during the cotton season. I am always glad to meet any of the good people from Mills county.

While at breakfast the same morning a nice, openfaced, young man approached me and asked if I was H. C. Cobb, who used to live at Kuttawa, Ky. When I told him I was, he said, "I am W. E. Matthews' son of Kuttawa and was passing thru Corpus and Houston to San Antonio in a hurry," but couldn't get his consent not to hunt me up and renew old acquaintance. He was just a youth when I left there, but remembered me. We had only a few minutes together and it afforded me great pleasure to know that in his haste he hunted me up. I understand that one of the obligations a Boy Scout makes in becoming a Scout is to endeavor to do at least one good deed every day. I think this a fine promise to make, if carried out, and for the benefit of the Boy Scouts I want to say to you, that you can't improve very much on looking up some old person, speaking a kind word to them, letting them know you are interested in their welfare. I am fearful many boys have grown to manhood without having known of the real appreciation of an old man being noticed by children and young people.

I remember one time at Mullin, a very elderly man preached and while a number of grown people, after the congregation was dismissed, went forward, shook hands with him and after the grown-ups got through a little girl came forward, introduced herself to the old preacher, telling him she did not feel like going away without telling him, she enjoyed his sermon, that she loved old people and especially old preachers. I was close enough to have put my hands on both the child and the preacher and will never forget how much brighter the old Brother look, as he held on to the little girl's hand and told her how proud he was to have one child in the audience come and speak to him. The thoughtfulness of this little girl not only cheered the heart of the old man, but rays of joy and happiness played upon her own sweet, happy, childish face, but an impression of a lasting one was made on the looker-on, this present scribe. This girl grew to womanhood is still living in Mills county. She has a family of her own, may not remember this circumstance if she does I would be glad to have a letter from her. I spoke to her that day, commending her thoughtfulness that had not only made the old preacher and herself glad, but made an impression on the mind of her Sunday school Superintendent that the afflictions, trials, temptations and joys of the more than 20 years since then have failed to blot out. Don't think your time and kind words are thrown away when lavished on the man or woman on whom the weight of years often hang heavily.

Brother Street said he had been reading my letters in the Eagle and enjoyed them. I told him I was glad to know it, as I had heard but little about them and didn't know but what I had been sowing in vain. Now don't you see? It is said, once a man and twice a child. If you live long enough you may more fully appreciate my rambling letter. If you have not spoken kindly to some old man or woman and asked about their health, go wash your face, comb your

KONJOLA ENDS NEURITIS AND STOMACH PAINS

Grateful Man Eager To Endorse Medicine That Did So Much For Him

MR. W. T. BRYANT

"Konjola is the best medicine ever made," said Mr. W. T. Bryant, 1009 Morrell street, Oak Cliff, near Dallas. "Neuritis became so severe in my legs that I could scarcely walk. There was a constant aching in my back and shoulders. I could never get a perfect night's rest. My bowels were irregular and I was constantly taking cathartics. I always had a sour stomach, frequent accumulations of gas and severe headaches. My vitality was at a low ebb, and I felt miserable."

"After giving Konjola a trial I am like a different man. Konjola restored my organs to normal condition and they now function perfectly. I am no longer bothered with indigestion or constipation. The neuritis pains have completely left me and my entire system is in good condition. Konjola deserves all the praise it gets—and more."

When taken for six to eight weeks, Konjola the new and different medicine, will work wonders that will astonish those who suffer from the stubborn ill of the stomach, liver, kidneys and bowels and of rheumatism, neuritis and nervousness.

Konjola is sold in Goldthwaite, Texas, at Hudson Bros. Drug Store, and by all the best druggists in all towns throughout this entire section.

POPULATION GROWTH

The completed census shows the population of the continental United States to be 122,728,872, an increase of 16.1 per cent since 1920, as compared with an increase of 14.9 per cent between 1910 and 1920, and an increase of 21 per cent between 1900 and 1910. The numerical increase during the past ten years was 17,018,253, which is the greatest numerical increase during any decade in the history of the country. The percentage of increase was surpassed by that of only one decade—1900 to 1910.

It is to be remarked that this enormous increase has been attained in spite of the sharp reduction of immigration and a falling off of the birth rate. This is just another way of saying that the death rate has been reduced sufficiently more than to offset the reduction in immigration and in the birth rate. And it reflects an unusually sound and healthy economic condition, with a high living standard, in the country during the ten year period. There is a direct and inevitable relation between the standard of living and the death rate of any country, and when population growth results from a lower death rate, it can be said just as truly to have resulted from a better standard of living—Texas Weekly.

MARRIAGE BELLS

Mr. Dan Calaway of this community and Miss Lucille Johnson of San Saba county, in company with a few friends, drove to our home the evening of the 7th and were married at 8:00 o'clock p. m.

Mr. Dan is the oldest son of Mr. J. D. Calaway and was reared among us. We all esteem him, because of his strength of moral character and industrious habits. He is among our best. That Miss Lucille loved him and married him is sufficient recommendation as to her wisdom and attainments. May rich blessings and happiness attend them in all the future. L. L. HAYS

S. J. R. No. 2 PROPOSING A CONSTITUTIONAL AMENDMENT TO BE VOTED ON NOVEMBER 4, 1930.

Be it resolved by the Legislature of the State of Texas, that Article V of the Constitution of Texas shall be amended by adding a new section to be known as Section 3a, to read as follows:

Section 3a. The Supreme Court may sit at any time during the year at the seat of Government for the transaction of business and each term thereof shall begin and end with each calendar year.

Section 2. That Section 3 of Article V of the Constitution of Texas shall be amended by repealing the sentence of said section which reads: "The Supreme Court shall sit for the transaction of business from the first Monday of October in each year until the last Saturday in June of the next year, inclusive, at the Capitol of the State."

Section 3. If the Constitution shall not have been previously amended so as to provide that the Supreme Court shall be open at all times, then, in that event the foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this State, at an election to be held on the first Tuesday after the first Monday in November, A. D. 1930. (A correct copy.)

JANE Y. McCALLUM, Secretary of State.

GET READY FOR FALL PLANTINGS

Every forward-looking farmer in the Southwest is now thinking of his acreage for fall sowing and planting. Next year we should be more fortunate in escaping killing freezes for fall oats, barley, rye and wheat. Plans should be made for these crops in order that we may have winter grazing for our stock and an abundant harvest of grain in early summer. Then we have our winter legumes to plant. It would be fortunate and profitable if the acreage of winter legumes, such as Austrian peas, the various winter vetches, and such other legumes as will grow in the Southwest, should be doubled. Not only will these cover crops prevent washing, but will give winter grazing and improve the soil. Plans for making 1931 a big feed crop year should be made right now. — Farm and Ranch.

HERE TOO, more people ride on Goodyear than on any other kind

It's these stubborn drops of

WET GAS

that often make you shift to second!

Half-way up a busy hill you have to shift to second. Horns honk impatiently. Drivers smile in sympathy or glare in irritation. Angrily you swing into the gutter to make way for those who can take the hill in high.

Blame wet gas for this constant annoyance and embarrassment. It condenses into drops of raw gasoline in the manifold, resists the spark and dilutes motor oil. It not only ruins performance but may ruin the motor itself. What a difference when you put Texaco in your tank! This gasoline forms a dry gas that

others are trying to imitate! It vaporizes readily and burns completely, enabling your car to start like an arrow and climb like a mountain goat!

Tests prove that Texaco is as pure as it is powerful. With it, engines seem immune to usual gasoline troubles. It has become the favorite of motorists throughout each of our 48 States!

Stop today at the Texaco Red Star with the Green T. Swap your wet gas troubles for dry gas power and pleasure. And remember—Texaco, the original dry gas is obtainable only from the Texaco pump.

1. A wet gas is an atomized mixture of gasoline vapor in which are suspended drops of raw gasoline.
2. These drops of raw gasoline form an uneven mixture which resists the action of the spark.
3. Result: Destructive crankcase dilution, difficult starts, slow acceleration—a sluggish motor.

1. The new and better Texaco vaporizes so readily that it forms a dry gas—an active mixture of gasoline and air.
2. This pure, dry gas responds instantly to the action of the spark.
3. Result: Lightning starts, rapid acceleration, smooth action—power!

This department is still wondering where the expression, "Cool as a Cucumber," originated. Where did anyone ever get the idea that a cucumber is cool?

We have an idea that you would be pleased with Barnes & McCullough's WALL PAPER if you would give it a trial.
