LOCAL AND SOCIAL MATTERS REPORTED

A Broadcast Station In Juarez

Dr. Em Wilson and his sons have extended their holdings in the radio broadcasting business and are this week installing another large station in Juarez, Mexico. They already operate a number of stations in this country, among them being at Brownwood, Corpus Christi, El Paso, A. & M. college of New Mexico and possibly others. The fact that they are reaching out into foreign countries makes their friends here know that their business is prospering and they are handling it properly. The radio is a wonderful invention and the Wilsons seem to have gotten in on the ground floor in the business. Good luck to them all.

PRESS MEETING IN COLEMAN

The Eagle editor and wife and Mrs. R. H. Patterson of Mullin were among the newspaper folk attending the Heart of Texas Press association meeting in Coleman last Saturday.

Coleman is one of the most beautiful towns in Texas and if there is any lack of prosperity there, a visitor can not discern the fact. Everything was in readiness for the press meeting, while the newspaper people and those in other vocations seemed busily engaged and all seemed prosperous, while many notes of hope and good cheer were heard.

There was a large attendance upon the press meeting and the program of entertainment was most delightful, while the discussions of the various phases of the business were interesting and helpful.

One of the most pleasing features of the convention was the inspection of the new building and equipment of the Democrat. Voice, owned by Mr. H. H. Jackson, who came to Coleman a few years ago with no previous knowledge of the newspaper business, bought the town paper from a stock company and has made such a wonderful success of the business as to cause trained newspaper men to marvel. He has an investment of perhaps \$75,000 in the building and plant, which would do credit to a city four times the size of Coleman.

At noon Mr. Jackson, retiring president of the association, was host to the entire convention at a most delightful banquet at the New Moore hotel, one of the well appointed hostleries of the city. After lunch the ladies of the convention were guests of Mrs. Jackson for a drive about the city and a theatre party, while the men folk, or most of them, enjoyed the courtesy of the Country Club and a golf tournament.

The Eagle editor was especially honored in this convention by being named by the president to represent Editor Billie Smith of the San Saba News in responding to the well-worded, enthusiastic and hospitable address of welcome by Mr. Sim O'Neal, secretary of the Coleman Chamber of Commerce.

Will Collins of the Llano News was elected president of the association for the ensuing year. Edgar McLendon of Junction was made vice-president and H. M. Jones of Brownwood was re-elected secretary. The next semi-annual meeting of the association will be held in Junction in April.

CLASS MEETING

The pretty suburban home of Mr. and Mrs. Monroe Fletcher was thrown open to the Philathea class of the Methodist church on Monday evening from 7:30 until 10 o'clock for their business meeting.

Six carloads of ladies left the city at 7 o'clock, all in a jolly mood to enjoy the nice cool ride out the mountain road. Mrs. Fletcher greeted the guests with a warm welcome and after all arrived, the meeting was called to order by Mrs. Allen, the president, and a short devotional service was led by Mrs. J. C. Evans, reading the 37th Psalm, which was followed with a prayer by Mrs. John Keese.

After the regular business of the class was dispensed with, the election of officers was called for, which resulted in the following being elected: President, Mrs. Dan Yates; vice-president, Mrs. Dan Westerman; recording secretary, Mrs. Lee Berry; treasurer, Mrs. W. C. Dew; reporter, Mrs. R. M. Thompson.

After the business was finished, a most pleasant social hour was enjoyed, at which time Mrs. Fletcher, assisted by Mrs. Annie Little, served delightful lemonade and wafers. XXX

AGRICULTURAL CREDIT CORPORATION CONSIDERED

More than 200 bankers, farmers and merchants from San Saba, McCullough, Comanche, Brown and Mills counties met at Brownwood Tuesday to discuss the advisability of forming an Agricultural Credit Corporation. The purpose of the Corporation, as stated by Chester Harrison, chairman of the meeting, is to lend money at low interest on long terms to farmers for the production of crops and stockmen to pay for feed, pasture, etc. No money can be furnished by this corporation to pay existing debts or interest on existing debts or to buy livestock. Each borrower will take stock in the corporation in a way similar to the Federal Land Bank plan. Money may be borrowed on approved personal security.

It was stated that Congress will be asked to appropriate \$2,000,000 for relief in the drought area. If this appropriation is made it will likely be disbursed by the Agricultural Credit Association.

Another meeting will be held at Brownwood next Tuesday, Sept. 30, to determine definitely if a corporation will be organized. XXX

TENNIS CLUB ORGANIZED

The first meeting of the Tennis club of the Goldthwaite High school was held on Sept. 10, 1930. The officers who were elected are as follows: Owen Clements, president; D. K. Simpson, vice-president; Thelma Richards, secretary-treasurer; Marlin Ross, reporter.

The second meeting was held on Sept. 24. The members decided to meet semi-monthly. Other business such as fees and committee on tennis courts was discussed. The meeting was then adjourned until the next session.

The outlook for the tennis club is very bright. There are many new members. We plan to accomplish much this year in the way of tennis activity.

HIGH SCHOOL FOOTBALL NOTES

Last Friday the Rising Star Wildcats went home with a tuft of Eagle feathers in their mouths. The score was 13-0. The lighter Eagles made the wildcat howl and yowl before the cats were successful in getting the feathers to carry home. The air was rather thick with patches of fur and stray feathers during the entire game.

Surprise was evidenced by the fans at the game played by the light locals. They are scrappers from start to finish and deserve 100 per cent support.

The next home game will be Oct. 10, when the San Saba Arm adillos come over and try to take home some Eagle meat. Let every body come down and help the Eagles. We understand that San Saba business closed during the Coleman game. We have more than San Saba ever dreamed of. This afternoon the Eagles take flight over to Richland Springs to see what they can see.

The Pep Squad girls rendered valuable and unceasing support in the first game and are traveling to Richland Springs to repeat the performance.

The girls also would like to help the local fans save money by selling them a season ticket, which will be a saving before the San Saba game. No tickets will be sold after that game.

Get behind the Eagles and boost and root for them. They are worthy of everybody's support.

A BAD ACCIDENT

Sam Sullivan and Howard Trent were seriously injured in an automobile accident on the road to Brownwood Monday night. They were riding in a light coupe and struck loose dirt or sand at a turn in the road, which caused the car to turn over. Mr. Trent was hurt in the back and his spine is thought to be injured. He was carried to a hospital in Brownwood, where an x-ray picture revealed that there was no serious hurt, altho it was quite painful and he is still in the hospital. Mr. Sullivan suffered two broken ribs and a bad injury to his cheek bone. He was carried to the hospital in Temple on Tuesday morning's train and specialists cleared the break of clotted blood. He came home yesterday morning, but it is understood he will return to Temple today for an operation that will raise the broken portion of the bone. Their hurts are bad, but they and their friends feel that they were indeed fortunate not to have been killed or permanently injured.

A SAD MESSAGE

The Faulkner family received a message Wednesday afternoon announcing the death of Mr. Phil Faulkner, a brother of the late Mr. L. W. Faulkner, at his home in Narana, Lampasas county. The funeral was announced for yesterday afternoon and Mrs. L. W. Faulkner, Everett and Clyde Faulkner and their families went over to attend. Mr. Faulkner has frequently visited in this county and is kindly remembered.

METHODIST CHURCH

Next Sunday is expected to be a full day. The following is the program for the morning service:

Morning Worship
Voluntary.
Hymn No. 286.
Creed.
Prayer.
Hymn No. 57.
Psalm No. 474.
Gloria.
New Testament Lesson.
Announcements.
Offeratory.
Hymn No. 57.
Sermon.
Closing services.

How swiftly time flies! Just a few weeks then cometh Confession. Certainly we have not overfilled the year with goodness; but we lift our hearts to the Lord of the Harvest for every advance in Sunday schools, Leagues and Junior Society and the fifty-nine added in two years to our church as well as the invisible growth of grace in our hearts. May we bring all our trophies to the foot of the cross and may the advances be conserved and added unto 'til ours shall be a work, which is the joy of the Lord. Let's do our very best for we are all going up to a great "conference" to render our records. These are momentous days. Pray for the spirit of God upon the worship and for the Lord to add to His church.

A cordial welcome awaits at all of our services.

S. D. LAMBERT.

Hi-League

Hi-League at six-fifteen. Senior League at six forty-five. Evening service at seven thirty.

Rev. W. M. Rader of Llano, our Presiding Elder will preach his first sermon to us. This will be a great occasion.

Our Sunday school is expected to take a rise preparatory to Rally Day next Sunday, Oct. 5.

Our Juniors worship in the basement at the eleven o'clock hour, and is inspiring to know the interest they are taking.

THEY MARRY

On last Saturday evening, Sept. 20, Mr. Colter Leverett of a prominent family of Canadian and Miss Arna Cline of Goldthwaite drove out to Trigger Mountain and were married surely and happily.

The writer in the years ago having been pastor to the Cline family grew a warm and happy friendship for the entire family, which friendship abides to give special interest in Miss Arna's matrimonial life. I also esteem Mr. Leverett for his wise, careful choice in so serious, but happy obligation. I join their many friends in wishing for them a long, happy experience together as man and wife and invoke many choice blessings on them.

UNION PRAYER MEETING

The union prayer meeting will meet with Mrs. W. T. Keese this afternoon at 4 o'clock, with Mrs. Williams as leader. Next Friday afternoon the meeting will be held with Mrs. Henry Martin, with Mrs. Mollie Lowrie leading.

BETTER COTTON SELLING AT A PREMIUM

It is gratifying to those who bought better cotton seed last year to know that better staple cotton is selling on the streets of Goldthwaite at from \$5 to \$12 a bale over short staple varieties. In some cases the premium is more than this. We are informed that all the Harper Mebane seed are being taken home for next year's planting or sold to ginners, who will hold them to sell next year.

Further, W. P. Weaver, County Agent, has arranged with Robt. Harper, Martindale, to furnish Mills county farmers his pedigreed seed for next year's planting at \$1.50 a bushel. If a car-load is wanted they come prepaid. If less than a carload the farmer will pay transportation.

Now farmers, you have started in the right direction. Go right on until we make better planting seed unanimous. Later a seed committee will be formed to take the orders. XXX

CLUB MEETING

The first meeting of the Art and Civic Club was held in the beautiful home of Mrs. Walter Fairman, with our new president, Mrs. Jacob Saylor, presiding.

Mrs. Osterhout reported she had been requested by some of the school faculty to continue the health work, begun last year. The club's vote was unanimous to continue the work.

At the close of our business meeting session, we had our educational program. We were favored by a duet by Mesdames Martin and Bowman and a solo by Mrs. Eacott. The hostess served a delicious salad course to a number of guests.

Everyone expressed the hope that Mrs. Fairman would soon repeat this delightful afternoon.

Carl Kauhs and Miss Wilma Wheeler were united in marriage at the Methodist parsonage last Saturday afternoon. Rev. S. D. Lambert officiating. They are popular young people and were reared in this county. The groom is a son of Mr. and Mrs. J. H. Kauhs of Bulls Springs community and his bride is a daughter of Mr. and Mrs. D. L. Wheeler of Nabors Creek. They have the good wishes of many friends.

A BIG DEAL

Mrs. J. W. Edwards has sold the two lots on Front street, at the intersection of Fourth street, to the Humble Oil Co. and the rumor is that a pretentious filling station is to be built on the lots. Mrs. Edwards retains ownership of the dwellings, one that is occupied by W. D. Holland and family and the other occupied as her own home. The buildings will be moved to her lots north of the school grounds.

THE GOLDTHWAITE EAGLE

The little Republic of Cuba blocked a move in a League of Nations assembly committee to put into effect the protocol for revision of the world court statute. The action has caused anxiety among many members of the league.

The University of Texas permanent fund, resulting from collection of royalties from its west Texas oil fields, reached a new height of \$13,246,706 this month, when the total royalties for September reached \$167,991, with approximately \$50,000 more expected for the month.

Indication of an increasing financial relationship with Argentina, Bolivia and Peru was given at the State Department in Washington as diplomatic moves were made to complete formal recognition by the United States of the three new provisional governments. Secretary Stimson says he has heard informally a number of United States concerns probably would be bidding for loans to the new South American regimes.

Formation of the General Cotton Corporation to acquire control of merchandising, manufacturing and equipment companies, mainly in New England is announced. The corporation was incorporated in Delaware with 800,000 shares of no par value and has a charter granting a broad field of operations. It was learned that the aim of the organization was to acquire textile concerns in New England and possibly in the southern states.

The Bureau of the Census is preparing to issue preliminary reports on the new census distribution for cities as rapidly as returns will permit. Dr. W. M. Stewart, director of the census announced. The preliminary city report will show the number of retail stores and wholesale establishments, number of full-time employees, net sales, amount of goods on hand and salaries and wages. The inventory figures will be as of Dec. 31, 1929, and salaries and wages as well as sales are actual 1929 book figures.

Reward of \$100 for evidence leading to the conviction of bootleggers bartering with students at any place in Texas is offered by Governor Moody, he announced Saturday. Governor Moody said the reward would be made upon conviction of any bootlegger in the state selling liquor to high school, parochial school, college or university student. The Governor also said he would give \$50 to state prosecuting officers securing convictions on evidence presented them of student liquor traffic.

Using dirks, two inmates of the Texas penitentiary stabbed each other to death on the Ferguson State farm, near Huntsville, a few nights ago. Penitentiary officials were unable to say what started the fight. Elmer Butler, with only three months of a four years' sentence for assault to murder to serve, died instantly when the blade of a knife in the hands of Volmer Tinney penetrated his heart. Butler was sent up from Johnson county. Tinney, serving twenty-five years from Wilson county for robbery with firearms, died several hours later in the prison hospital. He had received deep knife wounds in his abdomen, inflicted by a knife wielded by Butler. It is indeed a severe reflection on the penitentiary management that convicts are allowed to go armed with dirks.

KONJOLA FREED PORT WORTH MAN OF RHEUMATISM

Suffered Five Years—Kidney And Stomach Ailments Also Banished

MR. N. R. DANIEL

"I suffered from rheumatism for four or five years," said Mr. N. R. Daniel, 808 East Arlington avenue, Fort Worth. "This settled in my left leg and hips and I became so sore and stiff that I walked with a limp. I could not stoop sufficiently to lace my shoes. Later I became afflicted with stomach pains caused by gas. My kidneys became affected and I suffered constant back pains.

"I watched local endorsements of Konjola and decided to give it a trial. I noticed a change while I was taking the first bottle so I continued the treatment. Today the pains of rheumatism have entirely passed. I move my limbs freely and without effort. The stomach and kidney ailments have gone the way of my rheumatism and I no longer suffer from constipation. Even head catarrh, which bothered me for years has been relieved by this new medicine."

The files of Konjola contain many such instances. Konjola is free from alcohol, nerve-deadening drugs or heart-depressing chemicals.

Konjola is sold in Goldthwaite, Texas, at Hudson Bros. Drug Store, and by all the best druggists in all towns throughout this entire section.

ON TEXAS FARM

By W. H. Darrow

A commercial orchard can pay profits in the Hill Country, Felix Kneese of Gillespie county thinks, and he points to a sale of \$3,000 worth of fruit this year in proof. Proper pruning and thorough cultivation gives him high quality fruit, which averaged him 50 cents per bushel above ordinary prices last year.

Not so far from there, in Llano county, it's Chinese red cowpeas that get the praise from two crop demonstrators. Early maturity puts them ahead of the summer drouth, and their upright growth makes them easy to cut and cure for hay, those men say. One of them declares these peas the best he has ever planted and while he doesn't know the yield says they will run more bogs per acre than whippoorwills.

There're drilling deep for oil on A. Gulden's place in Tom Green county, but it's alfalfa yields he talks about and not oil. From 5 1/2 acres in a demonstration started in April 1929, he has cut and baled 875 bales which he says is worth 50 cents per bale.

Up in Rockwall county, B. H. Branch, planted 12 acres of Bermuda onions last spring. He had all kinds of hard luck. Got 'em too far apart, had a gully overflow on them, and didn't use enough plants per acre. But the county agent says 121 1-2 crates were sold for \$151.25 and that the expense came to \$56.35, which is \$80.33 net per acre.

After fruit, cowpeas, alfalfa and onion stories, it's quite a drop to a grass story, but since grass is the biggest crop in the world and rather fundamental in livestock production, we'll end up in Robert Gillespie's sudan patch in Colorado county. It was worth \$2.67 per day to him this summer for his 13 cows that grazed its 13 acres.

Menard county will vote on \$80,000 bonds for building a new court house on Oct. 18.

A 70-year-old man was arrested at Tyler last Saturday, charged with murder committed in the state of Alabama 47 years ago. He has been a fugitive since the killing and came to Smith county to visit a brother, when the son of the murdered man learned of his visit and informed the officers.

FIRE PREVENTION WEEK COMING

The National Board of Fire Underwriters reports that the fire loss during July was \$34,847,750—\$2,862,257 more than in July 1929. The total loss for the first seven months of this year has been \$277,187,521, as compared with \$262,078,288 during the same period last year, an increase of more than \$15,000,000.

The discouraging fact is that we are once more on our way toward a half-billion dollar annual waste. For the past few years there has been a small, but steady decrease in annual loss and it was hoped that the American people were at last becoming "fire conscious." Apparently the hope was unfounded. Carelessness and ignorance continue to destroy, through the medium of fire, thousands of irreplaceable lives and a gigantic amount of property each year.

The week of October 5-11 has been set aside as "Fire Prevention Week." Once more private and public organizations will endeavor to instill in the public a knowledge of fire hazards, of the need for better building construction and the like. Once more we will have the opportunity to learn, under expert guidance, lessons that are of direct financial benefit to all of us.

The issue is up to the public. Our gigantic fire loss is a menace to prosperity, to home building, to industrial progress. It is a national disgrace that can be remedied only by increasing unceasing vigilance in our homes and places of business.

Head and Back Quit Hurting

"A few years ago, I found that I was very weak and nothing I ate seemed to give me any strength," writes Mrs. R. B. Douglas, 704 South Congress St., Jackson, Miss.

"I suffered intense pain in my head and back. At times I would have to hold to something to steady myself, so as to do my little work. I was worried about my condition.

"My mother told me that I should take Cardui. After taking two bottles, I felt stronger, but I kept on taking it until my head and back quit hurting. I took about six bottles in all, and have never quit praising Cardui."

LAMPASAS

Miss Norma Harris left Fri-
day for Dallas, where she will
resume her duties in the public
schools of that city.

J. W. Goins, who was born in
Atascosa county, Texas, July
22, 1874, died here Wednesday
night, just before midnight,
following a lingering illness of
several months. Mr. Goins had
lived in Lampasas county for
the past 21 years.

Clyde Walker, son of Mr. and
Mrs. Walter Walker, of the Uni-
ty community, left Sunday for
New York, where he will attend
school this year. He will be with
his brother, Stanley Walker,
who is city editor of the New
York Herald-Tribune.

Rev. D. H. Kirkpatrick, pas-
tor of the Presbyterian church
of Lampasas, reports a very
fine meeting of the Waco Pres-
bytery, which met in that
church on Monday and Tues-
day of this week.

R. L. Scott, switchman for
the International-Great North-
ern railroad, was killed Sun-
day morning at about 10:00
o'clock in an accident in the
railroad yards at Houston, in
which he was mangled under
a train. In setting the brakes,
he was thrown from a box car
and was run over by the trucks.
Mr. Scott, who was 50 years of
age, was born and reared in
Lampasas, being the son of Mrs.
L. R. Scott.—Record.

LOMETA

Miss Marie Wallace of Mulin
is back in Lometa, a mem-
ber of our school faculty again
this year.

Miss Pearl Casbeer of Gold-
thwaite arrived in Lometa
Sunday to resume her school
work here.

The Lometa public school open-
ed its doors for the 1930-31
session, Monday morning, Sept.
15, with an unusually large at-
tendance of both pupils and pa-
trons.

Recent developments of the
affairs of the First National
Bank of Lometa are indicative
of a satisfactory settlement, cul-
minating in the re-opening of
the institution in the near fu-
ture in the full payment of de-
positors.

J. R. McAttee, who some time
ago moved a stock of dry goods
to Lometa and opened up a busi-
ness in the old Rodgers Mer-
cantile Co., building last week
moved the stock to Slaton,
where it is presumed, he con-
templates opening a store.

The dog is a friend of man
has been a recognized fact for
—well, long enough anyway,
and the dog doesn't always take
his own safety into considera-
tion when in the act of befriend-
ing his master, as was the case
with the faithful old pet be-
long to Lewis Edward Kirby,
when the dog bayed a four foot
rattlesnake at the backdoor of
the Ed Kirby home, Friday
night, about 10 o'clock. Mrs.
Kirby had a very narrow es-
cape from being bitten by the
snake, as she had only a few
moments before walked along
where the dog discovered the
snake.—Reporter.

**KEEP UP ADVERTISING,
GO AFTER BUSINESS**

R. H. Ballard, president of
the Southern California Edison
Co., Los Angeles, said:

"More new business is what
we need and not so much talk
of depression. Spend the money
for new business campaigns
and new advertising, and the
results will be surprising. The
people have the money and will
buy goods, I believe, if some-
body has the courage to sell
them the buying idea."

He pointed to increases in
savings deposits, gains in new
life insurance in force and in-
creased buying of bonds as evi-
dence of the ability of consum-
ers to buy goods if they so de-
sire. Affected, however, by the
pessimistic drift of national
comment, the public is reluctant
to buy and consequently is
building up a tremendous
backlog of purchasing power.

This backlog should and can
be tapped, declared Mr. Ball-
ard, if American business men
snap out of an apathetic state
of mind and employ redoubled
efforts to produce new busi-
ness. This is not the time, in his
opinion, to lay off salesman and
cut advertising appropriations.

INDUSTRIAL DEVELOPMENT

A well-ordered economic life
demands more than the develop-
ment and improvement of agri-
culture, however. The proper de-
velopment of the other resources
of the State, the creation and
maintenance of industrial enter-
prises to manufacture our raw
materials into finished products
and to supply an ever growing lo-
cal market, the expansion and
stabilization of our commercial
and financial institutions and
the fullest development of every
form of transportation—all these
are necessary to insure the most
profitable employment of our
people and to secure for them at
all times an adequate share of
the nation's prosperity. The sta-
bility and orderly progress of agri-
culture itself demands all this,
for among the prime needs of
the agricultural producers of the
state is a greater, more reliable
and more profitable home market
for the diversified products of
the farm. Industrial develop-
ment would provide such a mar-
ket to an ever increasing de-
gree and thus contribute to the
prosperity of the rural popula-
tion no less than to that of the
urban.

Industrial development is nec-
essary also because only thru
the enhancement of wealth and
the increase of the annual pro-
duction of wealth within the
state, which such development
brings, can there be progress and
adequate support of the civiliz-
ing aspects of community life.
The progress of education is es-
pecially dependent upon a con-
stant increase of the wealth and
productivity of the people, for it
is only from these sources that
the increased state and local re-
venues necessary to meet the grow-
ing educational needs of a con-
stantly increasing population
can be obtained. The lack of in-
dustrial development affects
practically every aspect of the
life of our people, and nothing
could be more important to the
people than to stimulate and fos-
ter it.—Texas Weekly.

THE COST OF LIVING

Living costs have come down
nearly a quarter since the end
of the war, according to the
Bureau of Labor Statistics.
They are still two-thirds great-
er than they were in 1913, how-
ever. Stated another way, a
dollar will buy only as much
of the necessities of life as 60
cents would have bought 17
years ago.

Reduction in the average cost
of many of the items which en-
ter into the cost of living is still
going on, however. In the past
eight months average food
prices have declined more than
6 per cent, and they are still in
some commodities. Just now,
for example, meat prices are
very low, because the drought
has forced many farmers to
rush their cattle, sheep and
hogs to market. Milk in the
large cities, on the other hand,
is up a cent a quart, because
of the short supply.

The biggest increase in liv-
ing costs since the war is in the
items of fuel and house furn-
ishings. The latter averages
nearly double the cost of 1914.
Food is less than half again as
expensive as it was before the
war, clothing only slightly
higher than that.

There are a lot of things on
which the average family
spends money today which did
not figure in the domestic bud-
get before the war, however.
Radio sets are one of these. Au-
tomobiles are another. So are
electric refrigerators and a good
many other kinds of electrical
household equipment, which
were luxuries for the very rich
only a few years ago.

Maintenance and operation of
cars, radio, electric equipment,
telephone—things which were
luxuries only recently, but
which most people now look on
as necessities—run family ex-
penditures up, but those things
are not officially classified as
"cost of living," since we could
get along without them if we
had to. However, we have set
a standard of living in Ameri-
ca to which in time we shall
have elevated the whole nation,
and that includes the upkeep
of bobbed hair, the price of
golf balls and numerous other
items which do not figure at all
in the average citizen's budget
anywhere else in the world.—

**One-Hundred-Piece Band

MARJORIE MOODY

Love is just a bit—the bit of Heaven, since I fell in love with you.

**Marjorie Moody Finds
No Difficulty In Being
Heard**

New York City.—Singing to
the accompaniment of a hun-
dred-piece brass band is an
achievement attained by few
women. Indeed, Miss Marjorie
Moody, soprano, is the only one
who has done it so far as any-
body knows. Yet she says it's
really easy, provided you have the
right band and the right song.

Miss Moody is the soloist with
John Philip Sousa, and has sung
with him for several years.
"At first, people were skeptical
that any woman's voice could be
heard above the hundred brass-
es," she admits, "but, of course,
Mr. Sousa's band convinced
them. He has carried on for

years the most thrilling experi-
ments with his instruments.
"It's a mistake to imagine that
a brass band, to be successful,
must blare and drown out every-
thing else within hearing. I have
never experienced the faintest
difficulty in being heard above the
band and it isn't necessary for me
to strain my voice, either.
"Some of our best selections
are quite soft and cradle-songish,
contrary to popular belief.
"Of course, not all modern music
is especially adapted to voice and
a brass band. One song that I am
singing offers interesting and
charming possibilities. It is 'Love
Is Just a Little Bit of Heaven,' a
waltz ballad which is now my
favorite encore number. It has
the 'something' which gives it
personality."
Miss Moody is a Bostonian who
was trained for grand opera.

ART OF ORGANIZATION

This is the age of organization. People have to unite to get things done. When they advocate progressive ideas individually, they attract little attention. If some good organization takes up such suggestions, politicians listen and citizens co-operate.

It is a fine art to manage community organizations. In many towns societies once useful and popular, have gone to pieces. Usually someone blundered.

People have their human frailties. Some of them have eccentric and sensitive notions. To unite a lot of folks in one movement, and induce all these contrary natures to pull together, is like the farmer's boy driving the unruly calves to pasture. Some of them are sure to kick up and bolt for the woods. The person who has the savvy and courtesy to provide such leadership successfully, has passed the first test for the government's diplomatic service.

The first element in that diplomacy, is to avoid disputes. If members feel that they or their friends have been slighted, the benefits the organization renders will not seem to offset such an offense. Much can be learned from the politicians. They are said to make use of soothing syrup, soft soap and taffy. Organization managers may need such healing remedies also. Second essential in organization diplomacy, is to make all members feel they are considered and consulted. If the managements hand out plans and policies, and say, "Take or leave it," discontent can be expected to smoulder. Give all members a chance to express their views, and you will secure useful suggestions, and three times as much co-operation.

We have a list of fine organizations here in Goldthwaite. They have on the whole been very successful, and co-operatively. They will continue to provide leadership for have worked harmoniously and our community.—**ORGANIZER**

ROCK SPRINGS

We had thirty at Sunday school Sunday morning. Every teacher present.

The B. Y. P. U. elected officers Sunday night. Horace Cooke, president; Miss Waldine Traylor, vice-president; Miss Johnnie Bell Circle, recording secretary; Shirley Nickols, group captain No. 1; Miss Bernice Traylor, group captain No. 2; Miss Oleta Daniel, quiz leader; Miss Murna Traylor, pianist; Miss Florence Stark, choirster. Now, as this is beginning of a new quarter, let's make it the best we have had in a long time.

Friday while reading the Eagle I saw where my old neighbor, Mrs. Carl Murray, nee Vashti Power, was moving to Enid, Oklahoma. I wish them good luck in this new town and hope some day she and her husband can make her old home town a visit. And Saturday afternoon I met J. T. Sanders and wife, nee Anna Lee Ashley, from Arlington. It made me feel good to see this happy couple. I wish them good luck and a long wedded life. So Saturday night, who should call me up and talk to me but Mrs. Don Yark, nee Anna Laura Karnes. Mrs. Yark has a good job in Fort Worth. I always thought lots of Anna Laura. She used to be in my home lots.

Mrs. E. D. Robertson helped Mr. and Mrs. Chadwick move their things from Brownwood to the Moore ranch, across the bayou, this week.

L. O. Ellis and family had company Sunday. Pleas Hicks and wife, Bernice Traylor, Horace Cooke, Mrs. Eula Nickols and four sons. The dinner was a birthday dinner for Phillip and James Nickols. They can tell you what a good cook Mrs. Ellis and daughter are. In the afternoon Collier Ballard and Hubert Cooke and Miss Waldine Traylor joined the crowd.

Douglas Robertson and family from Center Point and Miss Florence Stark are picking cotton for J. T. Robertson this week.

Mrs. Ino. W. Roberts came home from Dallas last Friday. She left her sister better.

Mrs. Will Harris and daughter and Mrs. Heath and baby from town visited in the Webb home Friday afternoon.

There were two very interesting forty-two games at R. C. Webb's Saturday night.

Mrs. Eula Nickols and Phillip sat with Mr. and Mrs. Roberts Saturday night until bed time. Jack Robertson and Shirley Nickols visited in the Traylor home Saturday night.

Marion Robertson and family from Big Valley visited in J. M. Traylor's home Sunday afternoon.

Dr. Osterhout and wife from town have been coming out and doctoring their nice Jersey cow that Mr. and Mrs. Grant are caring for.

Mrs. J. C. Stark and Miss Florence spent Friday afternoon in the Davis home.

Glenn Nickols entertained Oscar and Jim Gatlin Friday night with Artophone music.

Mrs. J. M. Traylor went to Brownwood Saturday with Marion Robertson and family from Big Valley.

Mrs. Clyde Bates and daughter visited her sister, Mrs. Joe Huffman, and family in town last week.

One of M. R. Circle's horses died this week.

L. O. Ellis and family sat until bed time in C. Ballard's home Saturday night.

Mrs. Andy Weston from Mullin spent Saturday afternoon in the McNutt home.

Miss Minnie Hill from Ranger is visiting her mother, Mrs. J. O. McClary, this week.

Harmon Weston and wife from Mullin, Dan Westerman and wife from Goldthwaite visited in the McNutt home Sunday afternoon.

Several from here went to court Monday morning.

Will Stark has canned several goats during the past week.

Dr. Osterhout and wife called in the Grant home last Thursday.

Ray Davis and family from Big Valley visited in J. C. Stark's home last Tuesday afternoon.

Mrs. J. F. and Joe Davis and baby visited Mrs. J. T. Robertson last Wednesday afternoon.

Mrs. Mary Faulkner and grand children went to town Saturday morning.

J. T. Stark from Rising Star

MRS. LANE PASSED AWAY

Mrs. W. H. Lane died at her home in this city last Saturday night about 11 o'clock and her remains were laid to rest in the cemetery at this place Sunday afternoon. While she had been in ill health for several years, her death was unexpected, as she had been apparently as well as usual and had not complained of any special pain or depression. After retiring Saturday night she asked for a drink of water and when it was brought she was found to be dead.

Mrs. Lane lived in this city the greater portion of her life and for several years her mother has lived with her. She leaves two children, Will Lane of San Saba and Miss Marylee Lane of this city. She was a member of the Senterfitt family and a number of relatives survive her in this and San Saba county.

The relatives have the sympathy of many friends here and elsewhere.

and Mrs. B. A. Meeks and children and Miss Minnie Hill from Ranger spent a few hours last Thursday night in the J. C. Stark and J. O. McClary homes.

Mrs. Mary Faulkner and grand children and Mrs. Claud Laird and children and Mrs. Eula Nickols visited in the Davis and Robertson homes Thursday afternoon.

There has been several from here take cotton to town lately.

Mrs. J. O. McClary and Miss Minnie Hill visited Mrs. Jess Cockrum and girls Monday afternoon.

Will Harris and wife and boys visited in R. C. Webb's home Sunday afternoon.

Mesdames Roberts and Circle went to town shopping Tuesday afternoon.

Mrs. Eula Nickols visited her daughter, Mrs. Homer Doggett, Tuesday. In the afternoon she and Mrs. Joe Roberts accompanied Mrs. Nickols and they called on Mrs. Bob Ervin.

Marion Eckman and wife from Taylor are visiting Jesse Cockrum and family.

Miss Florence Stark visited in Joe Davis' home Tuesday night.

Mrs. J. T. Robertson and Billie spent Wednesday with Mrs. Nickols.

I believe all the school children from here are liking school fine.

Mrs. Ashley Weathers and children picked cotton for Woody Traylor this week.

Mrs. Mary Redford is back with her daughter, Mrs. McNutt, for the winter.

George Lowery Ballard from town and Clifford Ballard and family from San Saba county, spent the day Sunday with C. Ballard and family.

J. T. Robertson and family spent the day Sunday with their son, Walter, at Lake Merritt.

I hope this high wind brings a rain. If it could rain as hard as the wind is blowing it would be fine.

BUSY BEE.

MIDWAY

We had good services at church Sunday. Brother Sparkman brought a very interesting sermon. B. Y. P. U. and Sunday school were good.

Mrs. Herman McNeil is on the sick list this week.

Rev. J. W. Stripling left Monday for Georgia to bring his wife back with him. We are sure he will have a pleasant trip. He expects to be gone three weeks.

Helen Jackson entered school at Goldthwaite Monday.

Some of the young people enjoyed a party at Tom Booker's Saturday night.

The wedding bells have begun to ring at last. Last Saturday night Mr. Colter Leverett and Miss Arna Cline motored to Trigger Mountain, where Brother Hays performed the ceremony that pronounced them man and wife. The bride is the daughter of Mr. and Mrs. A. J. Cline of this place. She taught school for several years and now holds a responsible position with the Fairman Company. The groom is a successful farmer of this place. We wish for them a long and happy life.

Deward Reynolds and wife visited J. M. Petsick and wife Sunday.

Mrs. J. M. Petsick visited her mother, Mrs. F. M. Anderson, Monday.

Mrs. W. W. Reynolds and Herman are expected home from Dallas this week. **REPORTER.**

BIG VALLEY

Mr. and Mrs. H. A. Sykes visited in Mullin Sunday.

Brother Renfro was called to Nix to conduct a funeral and could not fill his appointment here Sunday.

Brother Sparkman will preach here next Sunday morning and evening.

Joy Doak was given a delightful surprise last Friday, when her friends called her to the home of Flora Weaver, where a liberal pantry shower awaited. After a pleasant afternoon of games, refreshments were served. Joy is going to keep house with her brother this winter, while teaching school at Briggs.

Lorane Dewey dined at Cockrell's Sunday.

The one time third Sunday afternoon singing was revived last Sunday.

Some Rock Springs friends attended church here Sunday.

An old time quilting at Mrs. J. J. Cockrell's was a social diversion of the week.

Mrs. Hartman failed to report at Sunday school last meeting day.

The young folks had singing at Mr. Trobridge's Sunday night.

P. S. Mr. Editor, please send rain by Friday.

Yours,
FARMER.

(Our local weather man, Mr. Edwards, is out of the city and if he does not return before Friday the rain may have to be delayed a few days.—Editor)

R. G. Huffman, Jr., is visiting his sister at Scallorn.

Trade In Your Old Tires

We Will Allow You More

Trade in your used tires now. We will make you a liberal trade-in allowance—on one tire or a full set. If your tires are worn smooth they are worth money, as we have an up-to-date tire repair department and can apply a new tread, and we have a ready sale for these tires. If your tires are only partly worn, or if they are new and do not provide you with the safety that you want for wet and slippery weather this fall and winter, we will give you still more for your tires in trade for new Firestone tires. . . Why take chances on tires that are not safe—you can have the safety that race drivers demand—at the lowest cost ever known.

We are in the tire business—we know tires and tire values, and give you better service and lower transportation cost.

The tire buying public is entitled to the truth about tire values. We joined with Firestone to give car owners the facts. When we sell you a tire we not only sell you the most economical transportation but greatest safety.

We sell and service the complete line of Firestone Tires, Tubes, Batteries, Brake Lining, Rims, and Accessories — also Gasoline, Oils and Lubrication. This means we buy higher quality products at lower cost and pass the savings on to you in lower cost transportation per mile and more efficient service.

DOUBLE GUARANTEE

Every tire made in the Firestone Factories, carries the Firestone name. You are doubly protected in buying these tires from us, carrying the Firestone unlimited guarantee and ours.

A "Mail Order" or "Special Brand" tire is made by some unknown manufacturer and sold under a name that does not identify him to the public, usually because he builds his "first grade" tires under his own name.

"IT IS AN ILL WIND—"

The drouth, as severe as it
has been, not only in some sec-
tions of the southwest, but thro-
out the agricultural areas of
the entire compensating fea-
tures. It has put a check on
much of the high living in the
cities and has taught the farm-
ing population to waste less and
save more. Reports from edi-
tors in the field check with re-
ports from county and home
demonstration agents to the ef-
fect that many farm families
have a greater supply of food
products on hand than ever be-
fore; that more farm families
are supplied with poultry flocks
dairy cows and other means of
providing a living at home that
at any time in the past ten
years; and that farmers, as
a whole, owe less money than
they did last year.

Reports of this kind are en-
couraging inasmuch as the les-
sons we are learning this year,
if not forgotten will serve us in
more prosperous times. Every
farm should be made to produce
most of the vegetables, fruits,
dairy and poultry products.
lard, pork and other meats con-
sumed by the family operating
the place. This should be true
in the case of renters as well as
when the owner lives on the
farm. When this is done, the
cotton crop, whatever it may
amount to, belongs to the man
who produces it, or, in case of
a tenant, his legal share of it.
The same is true of other crops
and livestock produced for the
market.

Landlords who neglect to
provide a way for their renters
to have a garden and who ob-
ject to renters having chickens,
a cow or two and a brood sow
for their own exclusive benefit
are making a mistake. Con-
tented renters are always more
profitable than the dissatisfied
ones. The farm, first of all,
should provide food for the
family that operates it.—Farm

BAPTIST CHURCH

There has been quite a fad among the boys and girls of late known as "Tree Sitters." We notice that in south Texas a cow decided to compete for honors and for three days a family had to do without milk, finally on investigation she was found perched in a tree, seeming to be perfectly satisfied. We are wondering what will be next.

Can anyone show this writer in history where the United States has ever had a famine? Other countries have had such disasters, but when have we had one? It's true that many have died in our country for the lack of necessities that sustain life. But would that be true if they had made their necessities for maintaining life known? Personally, I do not think so. But because we have not had such a calamity, is it possible for such a thing to happen? It is possible, but not very probable. America is known around the world as a Christian nation and God has always taken care of His people when they would adhere to His will. And He is the same God yesterday, today and tomorrow, and will provide in accordance with His Divine will, supplying our every need, with the proviso that we will do His will. I am wondering if Christians, not individually but collectively, have not forgotten God? Don't you believe that there ought to be a turning around? Don't you believe that the time is here when Christians everywhere should get on their faces before God? Space forbids me saying anything else, but when we think of the present conditions in our own country, and conditions that are existing in other lands, especially Europe, I believe the only solution is for God's people to call upon Him.

Many visitors attended our services Sunday. Rev. Lawrence Hays brought us a good message Sunday night on the New Birth. Every one enjoyed the service and many words of commendation have been spoken to this pastor about the Sunday night sermon. Our friends are always invited to our services. It is a genuine pleasure to have them and we assure them our appreciation. Come again.

The pastor is elated over the interest taken in our song service. We are anxious that the choir be filled at every service. When you come to the Baptist church if you sing your place is in the choir, matters not who you are, or where you are from. Just remember we have a place for you. We appreciate any effort put forth by any one that will help our music to be the best possible. Good music, vocal and instrumental, always assures us of a good crowd. Let us not forget, it is always understood at our church that the congregational singing is required with the exception of Mr. Toland, Haynes Harrison, Mrs. Ivins and Mrs. Earl Clements. These four and no more are excused.

Oh well, let's get ready for Sunday service. Everyone ask some one to be at the Baptist church for all services Sunday. The preacher will preach at both hours, 10:45 a. m. and 7:30 p. m. G. C. IVINS, Pastor.

THAT BIG SNAKE

Editor Eagle: In regard to the big rattlesnake killed in this community by Arnold Walker last week being a large one to be killed in a prohibition community: It is not strange to us who live here, but it is strange for a prohibitionist to mention the matter. School started here Monday morning, with Mrs. Terrell Nealy of San Saba as teacher, and we hope she has the co-operation of her patrons and is able to impart such information and inculcate into her pupils such principles as will be for their good through life.

People here are about through picking cotton. In fact, they were about through before they commenced. I think ex-Judge Laurenz is clearing his land of rocks, preparatory to putting in a golf course. He says there is more fun in playing golf than in farming and just about as much money in it. Well all who read this can tell

LIONS CLUB PREMIUMS

Early in March the Lions club offered a number of premiums for well kept premises and flowers. A committee was appointed to promulgate rules for government of the judges and later a committee of judges was appointed to keep a record of the yards in the town and make the awards, giving consideration to every feature outlined in the rules. After careful consideration the committee reported to the club names of those awarded the premiums, which are:

- 1. Best kept and most attractive premises, including walks, garage, drive ways, out buildings, back lots, lawns, fountains, back lots, lawns, flowers, etc. \$15.00 — Mrs. Everett.
2. Second best kept and most attractive premises, as above. \$7.50.—Mrs. Luther Rudd.
3. Prettiest flower boxes, most attractively arranged. \$5.00.—Mrs. L. E. Miller.
4. Prettiest flower beds, including all kinds of flowers, judged according to location and arrangements. \$2.50.—Mrs. Henry Martin.

Texas-Louisiana Power Co. was given honorable mention on the flower beds about the power house.

It might be interesting to drive about town and look at the premises above mentioned and many others that also deserve premiums if the funds for that purpose were available.

I am feeling better since my return from Mineral Wells and I surely do thank those who helped me in the matter. LISS WALKER.

LOOKING TEN YEARS AHEAD

The census of 1930 is the most important numbering of the people of the United States since the first count of our inhabitants was made. Even though all of the conclusions to be drawn from it have not yet become available, it has already taught us more about ourselves than we ever knew before.

Especially has it shown us that one of the causes of our great national prosperity is disappearing—the steady increase in population at a high rate. Decline in immigration and decline in the birth-rate have combined to reduce our annual rate of population growth to about 1 per cent a year.

This will make a great difference in business, industries and investments which depend upon population. The rate of growth in the big cities is falling off more rapidly than in country towns and small communities generally. That means that real estate in the large cities will not increase so rapidly in value from year to year, while in the smaller towns it will increase at a faster rate.

The redistribution of population is always an important factor in business and industry. Nowhere in the world do people shift their homes from one place to another as they do in America. Just now the census shows a strong tendency of manufacturing industries away from the large centers and to the smaller towns. That will mean more building in the smaller places in the next ten years, homes, factories, stores, institutions and public buildings. There probably will be less building in the large cities, and that largely by way of replacing obsolete structures.

The declining birth rate is sure to have a definite effect on building as well as on business generally. Not only will we need fewer school buildings, especially in the lower grades, but the type of home now in growing demand is in smaller units than formerly. Fewer babies are born, but more of them grow up to go to high school and college. More people live to old age. It is not hard to forecast a time coming when the whole problem of living will center more about the needs of the adults and the elderly and less about the needs of the children than ever before in history.—Stephenville Tribune.

When you want a suit, dress or single garment cleaned or pressed, call Burch and he will please you.

R. A. Stevens of Caradan looked after business in this city one day this week. Judge R. L. McLaugh of Brownwood has been among the visiting attorneys here this week.

Musical Comedy Offers Chance to Home Girls

MARIE VERO

Marie Vero Prefers it to Operatic Possibility

New York City.—Until we have American opera in which American singers can use their own language, musical comedy will offer greater opportunity for the native-born girl than opera. Marie Vero, who was recently picked by vaudeville scouts at a public school entertainment in New York and hailed as the typical "sweet girl graduate," backs up this statement by her experiences. Not Opera "Too many American girls have the false idea that vocal honors can be obtained only through the operatic stage," she declares. "A common sense review of opera in America upsets this theory. Technically, musical comedy offers as great a range for the voice as opera, so first of all the singer of popular production numbers need not apologize to herself for the medium she is using to express her art. She will find her creative talent has as much opportunity for growth and achievement in musical comedy as it has in opera. Looking at the question from a practical standpoint: there are only a half dozen opera companies in America while there are sev-

SIGNIFICANT SNEER

The last two articles on Chiropractic published in this paper brought some SNEERS; and this is my logical answer, READ AND THINK

When a conscientious medical doctor advanced the theory that blood circulated through the veins of the body, his announcement was met with significant sneers, but it is taught in every college at present. When D. D. Palmer announced that life force surged through the nerves of the body and was a great healing force, his discovery was met with significant sneers. When every great invention in history was first announced it was met with significant sneers—every great invention and the beginning of every great religion. "THINK," SIGNIFICANT SNEERS, the half-grins of the sneers have done more to retard human progress than all the efforts of human genius have done to advance it.

It is self conceit that makes opinion obstinate. It is considered wise by some to discredit new things with the half-smile of assumed superiority or with the sneering sneer of ridicule. It seldom occurs to the "wise guy" to investigate anything. He just takes a fancy to sneer at certain things with an assumption of superior knowledge and his position of dumb, self esteem as hard as the rock of Gibraltar. He is the person who cannot see both sides of anything.

If he is a hide bound atheist, he sneers at religion and presumes to know more than God. If the sneer addict is medical minded, he sneers at Chiropractic and by the same token, rabid Chiropractic followers sneer at almost everything in medicine.

The person who can see no good in his opponent is not fair minded. The person who condemns new innovations, inventions and scientific principles without first investigating is a fool.

The writer, in a recent conversation with a public official, who has spent a great deal of his time persecuting Chiropractic, observed on the face of this official a benign self-satisfied sneer every time he mentioned Chiropractors. Now the sad part of it is that this official thinks he has investigated Chiropractic. He has received all his information from the enemies of Chiropractic and, therefore, is unconsciously pulling the chestnuts out of the fire for the enemies of Chiropractic. His assumption that Chiropractic is a fake because the enemies of Chiropractic have succeeded in preventing Chiropractic from obtaining proper recognition under the law, is just as unwise and unfair as is the attitude of the man who sneers at religion. Poor Dan Moody said in his first campaign, that he was going to

run every Chiropractor the state of Texas. He did that just about as well as he did some of his duties or. There are more Chiropractors in Texas NOW than there were a hundred years ago. Little Dan took the office.

Had he and other Chiropractic and it had restored sight to the blind, that made sane, the lame walked, the old happiness into the world that were bleak with it has in Mills county, not sneer at Chiropractic.

There was a Divine the greatest in all mankind, the God of the world, who was elected to the brutal, the jeers and sneers. This made Him God. This made Him none the less true. Sneers are not evil, they are the ignorant and the That is why great see above the sneers; that is why eventually turn sneers. And when the sneer, the cheering, and. That is why will soon be the greatest of all the Open minded heartily invited.

THERE'LL BE NO REGRETS

wet gas like a wet windshield SLOWS DOWN DRIVING

Driving through traffic with a wet windshield slows you up. You just creep along—barely making progress! Wet gasoline acts in the very same way! Sluggish, uneven in power, it slows you up—hesitates when instant response is needed—and stalls most unsuspectedly! Today, try Texaco. It forms a dry gas. It yields its power instantly, smoothly and completely. When your foot signals for action, your car leaps ahead in a flash! On the hills, in traffic, or on the straightaway, your car does what you want it to—when you want it to—if your tank is filled with Texaco.

1. A wet gas is an atomized mixture of gasoline vapor in which are suspended drops of raw gasoline.
2. These drops of raw gasoline form an uneven mixture which resists the action of the spark.
3. Result: Destructive crankcase dilution, difficult starts, slow acceleration—a sluggish motor.

1. The new and better Texaco vaporizes so readily that it forms a dry gas—an active mixture of gasoline and air.
2. This pure, dry gas responds instantly to the action of the spark.
3. Result: Lightning starts, rapid acceleration, smooth action—power!
