ANOTHER BANK FAILURE

The Corens National Bank in Brownwald failed to open its doors wednesday morning, and the directors announced that the bank's affairs had been placed in the hands of the comptroller. This is a severe blow to the business interests of Brownwood and the citizens of the town in general, coming as it does so soon after the failure of the Citizens National Bank of Brownwood, of which institution the bank that failed this week was a re-organization. In the same issue of the paper that brought the announcement of the bank failure was the statement that one of the largest hotels of the city had been taken over by its bondholders, which naturally entails heavy loss to its stockholders. oldthwaite sympathizes with its

The Red Cross is an organiza-tion for the purpose of helping those who are worthy and can not help themselves. The local officers serve without remuneration. However, they get plenty of criticism and are amply paid for all their trouble. There were something like 140 who joined during the last drive. One half of this money goes to headquarters while the other half is retained in the local chapter for local purposes. During the last Francis Knight of Center City drive we heard some criticism, sworking in our community not about the local chapter, but about national headquarters. We wonder where these fellows got their information. How much have they ever contributed to the organization? What right does a man have to criticize an institution when he has never belonged? WOMAN LOST 20 POUNDS Year IN 4 WEEKS

Mrs. Mae West of St.Louis, Mo. writes: "I'm only 28 yrs, old and 1931 weighed 170 lbs, until taking one 1931 box of your Kruschen Salts just 1931 4 weeks ago. I now weigh 150 lbs. 1931 I also have more energy and fur- 1931 ther more I've never had a hun- 1931

Fat folks should take one half 1931 teaspoonful of Kruschen Salts in 1931 a glass of hot water in the morning before breakfast — it's the 1931 SAFE, harmless way to reduce as 1931 tens of thousands of men and 1931 women know.

For your health's sake ask for 1931 and get Kruschen at any drug 1931 store—the cost for a bottle that 1931 last 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with resultsmoney back.

MOUNT OLIVE SCHOOL NEWS (Intended for last week)

Life sure is full of funny tricks This reporter has received several criticisms as to his reports I am informed that our Mount Olive school, including faculty and students, have given me a ten day notice of my dischargal as reporter. No one can imagine my surprise when our students found their desires to be our fu-ture reporters. Even if I have to join the free soup lines over my discharge, I am glad that all of our young students have taken the future with such serious

forethought. So, now, readers, please do not cry over my abrupt discharge,for what can you imagine as the mind of a youth?

To my surprise the different divisions of the school consented to submit a report of the happenings of our community to make my last effort a success.

High School

We received our reports last veek, but we were quite satisfied bad weather and home work, our grades were low, consequently only four students in our room made the honor roll. We have an equal chance this month, so do not judge our first report too severely, until we have a second chance.

As reporters for our several grades have been appointed we submit their first attempt for your approval

After a long happy Christmas week spent by the school, we have come back to our studies

The students of the studies of the students of

expecting to do well.
The students of the ninth grade, especially Raymond Lawson, are very sorry to lose their classmate, Miss Onieta Kerby.

She was a very good student and did excellent class work.

The class is glad to know that they have a new classmate — Marcus Lee. He hasn't attended school at Mount Olive in about three terms. Naturally we are glad to see his shining face look-ing over the school room once

On account of small attendance last month, this class did not enter any one on the honor roll, but we are expecting success this month.

Eighth Grade

The basket ball girls are losing two of their best players, including their captain, when Misses Onieta and Mary Lou Kerby move this week. We surely do regret them leaving.

The girls played a game with Center Point the 26th and were defeated by a score of 14 to 2. However, they got a little revenge in taking the outside girls

to a trouncing of 8 to 4.

The boys basketball team is back on the job, preparing to teach Indian Gap a few tricks in basketball. Every player is eligi-ble at the present time, and there is much competition for places on our first team. Watch this section for further announce ments concerning basketball.

Seventh Grade After a week's vacation the eventh grade came to school with the spirit of donig better in their school work for 1933.

We received our report cards on Friday and everyone was pleased with their grades. Those who made the honor roll in our class were Vada Lee McCarty, Marv B. Hodges, Nadine Hodges and Sammie Roberts.

We had a Christmas tree at the school house Friday night. Sammie Roberts of the seventh grade recited a fifteen minute monologue.

The four out of the seventh grade were the only ones in the room that made the honor roll and members of the seventh grade are proud of the first honor roll in 1933.

Intermediate Report
Well, we are all back at school safe and sound, after our Christ-

mas holidays.
Ruby Ballentine was absent from school Monday. She went to Austin Sunday with her folks. returning home Monday night. returning home Monday night.

We are losing one of our fifth grade pupils this week. Joe Bailey Kerby is moving to the river. He is one of our star pupils. His name appears on the honor roll.

Ruby Brown was absent early this week, due to moving. She makes the honor roll, too, this month

Our teacher appears to be in very good humor this week. Probably it is due to a visit from Santa Claus last week.

The story comes to us of a Chinaman. "A Chinaman ate chop suey

till he died. We suppose he committed chop suey-cide."
And let the train go past. And we hear the story of the

Take a Pinch of **BLACK-DRAUGHT** For Distress After Meals

He had suffered distress after meals, but by taking Thedford's Black-Draught he was relieved of this trouble, writes Mr. Jess Higgins, of Dawsonville, Ga.

"I had sour stomach and gas," Mr. Higgins explains, "and often I would have bilious spells. I read about Thedford's Black-Draught and began to take it. It relieved me of this trouble. I keep it all the time now. I consider it a fine medicine. I take a pinch of Black-Draught after meals when I need it. It helps to prevent sick headache and to keep the system in good order."

Now you can get Black-Draught in the form of a SYRUP, for CHILDREN.

I had a pain in my side, and I kept losing weight. I grew nervous over my condition - this was unusual for me, for I am very cheerful when I am well and don't easily get nervous. I knew I ought to take something. My aunt told me I ought to try Cardui, which I did. I began to feel better. I kept it up until I had taken three or four bottles. My side quit hurting and I was soon feel-ing strong and well."

BURIED AT STAR

Mr. F. K. Lasly, an aged citizen who had made his home here for many years, passed away last 90, died at Beeville Tuesday and her remains were brought to Star for interment in Hurst Ranch cemetery yesterday. Mrs. Campbell and famliy lived in Star until about thirty years ago, when they moved to west Texas, where Mr. Campbell died. The family is and friends, but the enfeebled condition of his constitution daughter, Mrs. Fred Shave, still lives in Star.

MR. LASLY PASSED AWAY

Mr. F. K. Lasly, an aged citizen who had made his home here for many years, passed away last friday evening at his residence near the school building. He had been in feeble health for a long time, but the immediate cause of his death was pneumonia. Every attention was given him by relatives, physician, neighbors and friends, but the enfeebled condition of his constitution caused him to sink rapidly when preumonia developed. He was a part of his life in this county and

CALVIN COOLIDGE

Calvin Coolidge is dead. His going was as simple and unostentatious as his life. No lingering illness with a staff of famous physicians issuing hourly bulletins marked his demise. Instead he worked as usual Thursday morning, went upstairs to his room to

A lucky star seems to have governed the destinies of this taciturn, little Vermonter. He was nominated for the vice presidency, after serving as governor of Massachusetts, by the accident of Senator Johnson of California refusing to accept it. He became men sure have fixed the road president through the unexpected death of President Harding.

Now that he is dead, it is easy to lavish fulsome praise upon his character and career. But when everything is summed up, Calvin Coolidge will be best remembered because he knew how to keep silent when he had nothing to say, which was most of the time, and how, when he did have a message, to speak briefly, pointedly and forcefully, as when he told Samuel Gompers to keep out of the Boston police strike

AND NOW IT'S THE SALES TAX

Now that Jim Ferguson has come out for the sales tax, it begins to look as though one of the last available sources of revenue is due to be levied upon in the name of the state. If those Boston citizens who staged the famous Boston tea party in protest against the obnoxious tax on tea were to come alive again, they would be ashamed to find that the nation they helped set free has so many taxes that no one but an expert can keep track

Congress has been fighting over the sales tax for many months -in fact, ever since William Randolph Hearst took a party of congressmen over to Canada last year to see how easy the sales tax was working there. Mr. Hearst no doubt favors a sales tax as a means of giving relief to big income taxpayers. Most politicians favoring it, we are convinced, do so because in their greedy eyes it offers more money for them to spend.

With taxes in the form of tariffs on practically everything that is imported into the United States from abroad, and with taxes in the form of income taxes and property taxes on the production of everything that is produced or manufactured in this country, it is now proposed to tax the sale of merchandise, too.

The big argument offered by its proponents is that a little tax will produce much revenue. In Texas, for example, it is estimated that a sales tax of one per cent will produce ten million dollars revenue. Another argument is that it will hit the growing class of tax dodgers—the men and women who either have no visible property to be entered on the tax rolls or who are wilfully allowing the taxes assessed against them to become delinquent.

Jim Ferguson even goes so far as to say that the levy of a sales tax would lift the advalorem taxes on property altogether. The only trouble with that statement is that he was promising to do the same thing a few months ago by diverting the gasoline tax.

Mississippi is often cited as a successful example of the application of a sales tax. But Mississippi's constitution also permits that state, unlike Texas, to issue state bonds at will, and only a few years ago some of the very advocates of a sales tax now, were yelling their heads off for a statewide bond issue in Texas.

A sales tax, its advocates say, will divide the expense of government between all the people in proportion to the amount of money each spends. That is quite true, but the trouble is that a poor family has to spend every cent of its entire income and so must pay a tax on all it spends, whereas the rich family with more what it spends and not on what it has left over for investment or

It all sounds very nice to say that a family that only spends \$500 a year will only have to pay \$5 taxes with a one per cent sales tax, but by the time that family's multitudinous purchases durtax, but by the time that family's multitudinous purchases dur-ing the year are added up, it will be lucky indeed if the tax has not Worth Monday for Adrian Long. 1931 grown to \$15 or \$20. Even \$5 on a \$500 income is much more burdensome to pay than is \$500 paid out of a \$50,000 income.

Perhaps exemptions can be made on necessities such as food wearing apparel and drugs so as to benefit the families with the J. T. Robertson and wife. Messmall incomes, but if such exemptions are made, the tax will not dames Dunkle and Nickols atproduce as much revenue as estimated, or the rate will have to rended Mr. Lasly's funeral Sat-

by the state or the nation, because it will be sure to prove an entering wedge for securing more tax money to squander, because it will require a horde of petty tax collectors to check up on the merchants who are already harassed almost beyond endurance and will throw a heavy burden on the honest merchant while his dishonest competitor pockets the tax himself, and by using it to balance the overdrawn budgets of state and nation, it will avert the dire necessity of economizing.

Consider the gasoline tax. When first proposed as one cent per gallon for the use of the roads, it was readily accepted. Now in August Kauhs and Abbie Hunt Texas it amounts to five cents a gallon and in some states it is and James Nickols and mother, seven cents.

In 1920 when cotton was selling for \$200 a bale and other prices were in proportion, the expenses of the Texas state government amounted to \$33,498,724.83. In 1930 with cotton already on the toboggan, the state's expenses had climbed to more than three times as much, reaching \$103,672,473.30. For 1932 with cotton averaging less than \$30 a bale, we imagine only the angels in heaven are able to see the top of the staggering total to which the state's expenses have climbed.

If in 1920 when laborers were wearing silk shirts and earning as high as \$10 a day, this state could operate for thirty-three million dollars, it certainly could do so now.

We know that our voice will not be heard in the councils of the mighty. We know that instead of useless jobs being abolished, new ones will be added. We know that where expenses will be reduced court in one place, new demands will increase elsewhere. And so we are

taking it for granted that the sales tax will soon be here. Truly the power to tax is the power to destroy.

THE HITCHING POST

Up in Kansas the hitching posts are coming back. While the shine, as there is so much farm tractor and the flivver are rusting in the barn, Old Dobbin is prancing up the road to town hitched to a 1910 model buggy.

Here in Mills county we are seeing more buggies and wagons every week. As long as a gallon of gasoline costs more than a bushel of oats, any man who owns both oats and horses is going to think twice before he steps on the starter.

There is something solid and substantial about the hitching centuries has been easily vanpost. Maybe when more of them are used, we'll find that conditions quished by Japanese armored are becoming more settled too.

ROCK SPRINGS

Sunday was a beautiful day. We had Sunday school at the isual time. The time was when veryone got there.

peculiar abilit THE QUART THAT STAYS UP filling about one quart will "hide" itself up in your motor's precious working parts. This IN YOUR MOTOR AND NEVER DRAINS AWAY

The One Oil that Gives You Protection for Winter's Worst Days Ahead

Drip! trickle! drip! through long night hours, ordinary oil drains away. When the pump quits, ordinary oil quits, leaving the motor's parts high and dry. You touch the starter. The motor roars. The pump strains at the sluggish oil. It is only a few minutes till circulation is completed. But, in the meanting working surfaces only in the meantime, working surfaces only partly lubricated are in contact, while the motor makes three to five thousand revolutions. This causes 50% of all motor wear.

Prevent this loss. Choose not merely a quick oil, but an oil that never leaves. Choose the oil with the *hidden quart that penetrates and combines with the metal surfaces of the motor itself. In the emergency of an empty crankcase, users have driven many miles, without damage, on this *hidden quart alone. This proves that your motor need never suffer while waiting upon the pump. Don't remain in doubt. Drain and refill with the *hidden quart oil today.
