Mrs. O. H. Yarborough and sons, William Glenn and Harold, spent Sunday with Mr. Yarborough in Marlin, where he is spending some time for the benefit of the hot baths for the cure of rheumatism in his knee. They found him getting along nicely with good prospects for a speedy cure.

Dr. A. L. Taylor is receiving treatment in Medical Arts hospital for injuries suffered in an automobile accident near Mullin Saturday night. Dr. Taylor's car left the road and went into the ditch at a corner. He suffered an injury to his back and was considerably shaken up, but is reported resting fairly well today. After the accident a passer-by took Dr. Taylor to Mullin and he came on to Brownwood on the bus. His car was also damaged.—Brownwood Bulletin.

INSURANCE RATES MAY BE LOWERED

BY NEW INVENTION

A recent night fire in Groesbeck which cost the lives of two persons caused K. A. Childress, plant superintendent at The Journal, to start thinking of ways and means of preventing such calamities in the future. The result of his thinking has led to the perfection of a fire alarm which automatically rings when a fire breaks out in the house and keeps on ringing. A further feature of the automatic fire alarm is that it can also be used as an automatic signal to the telephone company in case of fire in the home. In other words the same action that starts the alarm to ringing in the home will also automatically inform the telephone operator that there is a fire at such and such a number. Mr. Childress states that his invention is not dependent upon the telephone companies for connection, to be successful, as an outside electric gong or siren may effectively be substituted for the telephone, however, he thinks the telephone companies will look with favor on his invention as most all public utilities desire to render the best possible service to their patrons, and this fire alarm is undoubtedly, in Mr. Childress' opinion, a very desirable additional service that the telephone companies may render to their patrons without any additional cost to them.

Sounds a little unreasonable doesn't it? Nevertheless it is true. This invention has been tested several times and works to perfection. And the amazing feature of it is that it is simple and inexpensive. Mr. Childress, who has already made a trip to Washington to insure himself of a patent on the device, is now completing arrangements for the assembling and sale of these devices, one which we prophesy every home will have before many years, not only as protection from being caught asleep by fire, but also as a medium thru which to gain lower fire insurance rates.—Groesbeck Journal.

Both Mr. and Mrs. Childress are well known here, having taught several schools in the county and they also have relatives here. We are all hoping for them to get into the millionaire class with the patent.

SHAME OF A NATION

It is the grim distinction shared by America and China that in those countries alone kidnaping is a large-scale and profitable business enterprise. China is in the midst of a long revolution. Awakened from an ancient social and political system, the Chinese will require several decades longer to restore equilibrium in their body politic. They have some excuse for the frequency of kidnapings. The United States which we like to consider the finest flowering of modern civilization, has no excuse whatever. Yet day after day and week after week, the kidnapings continue. Charles Lindbergh, a national hero, has been driven to take refuge in Europe if he would rear his child safe from the horrible tragedy that overtook his first-born. Others, less able to choose their country of domicile, must remain in America and accept stonically a condition of insecurity. Few crimes are so revolting as kidnaping. None is quite as demoralizing to the community, especially to the parents of children thoughtlessly unaware of danger. The causes of this condition are several. Foremost of them, undeniably, is the fact that all too few kidnapers are apprehended, and still fewer receive the punishment they deserve. Swift and certain action by police and courts of law is the one remedy. It is within our power to secure this action. Until we restore to American life the security it ought to have, our boasts of living in the greatest nation will have a hollow sound.—Cincinnati Enquirer.

MRS. D. A. NEWTON ENTERTAINS

Mrs. D. A. Newton was hostess on Wednesday afternoon to her bridge club, entertaining with a delightful George Washington party. As appropriate to the occasion, the George Washington motif was carried out in the decorations and found expression in the tallies and table accessories and as well in the refreshments.—Brady Standard.

HOW MODERN

WOMEN LOSE FAT SAFELY

Gain Physical Vigor—Youthfulness With Clear Skin and Vivacious Eyes That Sparkle With Glorious Health.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast—cut down on pastry and fatty meats—go light on potatoes, butter, cream and sugar—in 4 weeks get on the scales and note how many pounds of fat have vanished.

Get a bottle of Kruschen Salts—the cost is trifling and it lasts 4 weeks. If even this first bottle doesn't convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—so gloriously energetic—vigorously alive—your money gladly returned.

But be sure for your health's sake that you ask for and get Kruschen Salts. Get them at any drugstore in the world.

WE TRUST YOU, MR. ROOSEVELT

Tomorrow you become President of these United States, Mr. Roosevelt, and take over the hardest job in the whole wide world. We've wanted a change so bad, it's going to be hard to be reasonable with you about it.

You are going to be President tomorrow noon, and we are going to start looking for that new deal before sundown. We're a disillusioned lot of citizens, Mr. President, and you are the only miracle man that's left us.

This country is in a terrible fix, Mr. President. Nobody seems to know what's wrong with it except that all the easy money's dried up. If you can start it to running again, we'll name our suits and babies after you.

We like the appointments you have made to your cabinet. They seem like workers, and that suits us better than a lot of fancy talkers. In fact, we're all pretty well fed up on oratory, Mr. Roosevelt, and we're over due on action.

You needn't look to us for any advice on how to run this country, Mr. Roosevelt. If we had that much sense, we wouldn't be so concerned in seeing things get better quick.

LET'S GET THIS STRAIGHT

On January 28 the Texas Weekly quoted a few lines of a GOLDTHWAITE EAGLE editorial against the sales tax wherein we protested that the proposed tax would fall more heavily upon the poor than upon the rich.

"We are further opposed to the adoption of a sales tax, either by the state or the nation, because it will be sure to prove an entering wedge for securing more tax money to squander, because it will require a horde of petty tax collectors to check up on the merchants who are already harassed almost beyond endurance and will throw a heavy burden on the honest merchant while his dishonest competitor pockets the tax himself, and by using it to balance the overdrawn budgets of state and nation it will avert the dire necessity of economizing."

A few weeks later we reprinted, without comment, the Texas Weekly's criticism of the proposed state income tax. We did not, however, add its plea for the sales tax instead of an income tax.

The EAGLE is opposed both to the sales tax and to the income tax. We want to see the state's budget balanced in the same way that the common people are having to balance their personal budgets nowadays—by cutting down expenses.

When John got his wages cut, he went home and told his wife: "We've got just so much to spend from now on. What can we do without?" But when Sam got a pay cut, he kept on spending as usual, until finally, when his credit was gone, he went out and robbed a bank.

Who is it that wants this sales tax anyway? President Roosevelt has opposed it because he realizes its injustice. Congress has refused to enact it. Leading economists in Texas and elsewhere have shown that it is a tax on consumption and will retard economic recovery.

Of course the oil companies want it, the railroads want it, and the big public utilities want it because they want to be relieved of their present state taxes on real estate and other property.

Georgia has balanced its budget without recourse to the sales tax, because it has cut its expenditures. So has Virginia, and so has North Carolina. Indiana has given her brilliant young governor carte blanche to trim his state's expenditures to fit its reduced income.

This is 1933, and the day of increasing taxation has passed. The legislator who hasn't found that out is asleep. The EAGLE would like to see the brilliant pen of the Texas Weekly's editor battling on the side of the public on this question.

The power trust, the oil millionaires, the railway magnates, and the absentee landlords, most of whom have for many years been taking far more out of Texas than they have contributed to it, can get along without him because they still have plenty of money. But the people the EAGLE is fighting for need able writers to defend them against the predatory hands of the political tax-gatherers.

The EAGLE is still against the sales tax.

Perverse Views of the News

OMNIVOROUS OSTRICHES
The remarkable appetite of ostriches for almost anything is indicated by a recent report of Edward G. Boulenger of the London Zoological Society in a lecture at the Royal Society of Arts in that city. A post-mortem on this bird, long an inhabitant of the London zoo, yielded three gloves and two handkerchiefs, presumably snatched from venturesome visitors, three feet of string, a comb from some lady visitor's hair, a metal valve from a bicycle tire, a film spool from a kodak but minus the film, a lead pencil and various bits of wood, a clock key, a metal glove fastener, part of a gold necklace, two gold collar buttons, three-pence in British money and one Belgian franc.

TREATMENT FOR COLDS
The time to treat a cold is when it is beginning. Don't wait until it has you down and almost out. Most people have had colds often enough to know just when one is starting. An old, but very effective treatment for colds in the early stages is to prepare a tub of hot water, as hot as one can stand it, and get into it and stay for 20 minutes. Then briskly rub yourself with a rough towel to restore circulation and hop into bed. Drink several glasses of lemonade and be sure there is plenty of cover on the bed so you will sweat.

DENATURED GARLIC

A food connoisseur in San Francisco claims to have perfected a process for entirely eliminating the odor of garlic. But isn't the characteristic odor a factor in the taste, and with deodorized garlic grand opera would be minus a familiar flavor? And what would become of its alleged efficacy in preventing and curing certain lung complaints? That is, if the malignant germs are killed, not by the garlic, but by its aroma. —San Antonio Light.

BAPTIST CHURCH PASTOR'S LETTER

(Continued from page 1)
most loved and honored citizens of our community. We all, with them, feel a personal loss in the home-going of this young man and express to them our sympathy and assure them of our prayers, asking that God's grace sustain them in these hours of bereavement.
To the mother and other loved ones: Remember, "God calls our loved ones, but we lose not wholly what he has given. They live on earth, in thought, and deed, as truly as in heaven."
Mourn not the dead who calmly lie.
By God's own hand composed to rest.
For, hark! A voice from yonder sky,
Proclaims them blest—supremely blest.
With them the toil and strife are o'er;
Their labors end, their sorrows cease;
For they have gained the blissful shore,
Where dwells serene eternal peace."
It is important that every member of the Baptist church worship with us Sunday morning, and we invite our friends and visitors. G. C. IVINS.

CARD OF THANKS

It is with grateful hearts we express our thanks for the kindness and sympathy shown us in our bereavement. Friends at home and abroad have been so kind and sympathetic that we are overcome with gratitude. As soon as the announcement of our bereavement was made, our friends hurried to us with words of consolation and expressions of sympathy, while messages were received from other friends and from other points. The people of Lampasas, Temple, San Saba, Hamilton and other places, joined with those of our home community in expressions that were appreciated more than words can tell. No family ever had a more sympathetic circle of friends than those who came to us in this time of sadness and grief and certainly none were ever more appreciated. The beautiful flowers supplied for the home and the cemetery by individuals and organizations are also appreciated as much as the words of the kind friends who offered us every help within their power.
Be sure, friends at home and abroad, we are grateful for your every word and deed.
THE LITTLE FAMILY.

LEWIS LITTLE PASSED AWAY

Mr. Lewis N. Little died in a sanitarium in Temple last Saturday, after a short illness, although his health had not been good for some time. His condition was not known to be so serious, however, even by his immediate family and the watchers at his bedside, and the announcement of his death was a great shock to his family and friends.
Mr. Little was the youngest son of the late Mr. L. H. Little and Mrs. L. H. Little, and he spent most of his childhood in Goldthwaite, where he had the friendship of everybody. He was a big-hearted, companionable young man and possessed many admirable traits of character.
A few years ago he joined his brother-in-law, W. H. Walton, in the purchase of the Ford automobile agency in Lampasas and went there to live, but during the years he continued to hold the friendship and interest of the Goldthwaite people. He was married in Lampasas, and his wife and little son survive him, and they together with his mother, brother, sisters and other members of the family have the sympathy of all of us.
His remains were brought here Saturday night and funeral services were held in his mother's home Sunday afternoon, burial being made in the cemetery at this place immediately afterwards. Services were conducted by Rev. Wentworth Riemann, rector of the Episcopal church of Lampasas, in which church Mrs. L. N. Little holds membership. Rev. G. C. Ivins, pastor of the Baptist church of this city, assisted.
A large number of Lampasas people came over to attend the funeral, as did many sympathizing friends of the family from Temple, San Saba, Hamilton and elsewhere.
The floral offering was one of the most elaborate and beautiful ever seen in this city, contributions having been made to it from many points, and a number of organizations also sent flowers.

Walter Glenn Saylor, who is a student in the University at Austin, visited his parents Wednesday and Thursday, returning to Austin Thursday afternoon.
Dr. J. M. Campbell received a message Wednesday telling him of the death of his brother at Rotan that morning. He and Mrs. Campbell left at once for that place to be with the other members of the family and to attend the funeral. The friends here of Dr. Campbell and family deeply sympathize with them.
