GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, MAY PC 1933.

NUMBER THIRTY-NINE

OrphanHomeHead School Term Ends Goldthwaite 6 Dies In Hillsboro 29 Get Diplomas To Mullin 1

The announcement of the death of Mr. W. F. Barnett, head of the Methodist orphanage at Waco, was received with genusadness in Goldthwaite. ine where he had visited with the Glee Club and other organizations from the Home and where he was held in high esteem personally, as well as because of the wonderful work he had accomplished and his devotion and care of the orphan children. He] was in Goldthwaite two weeks ago and renewed the friendships here that had existed for a number of years.

The Home and orphan children have truly lost a friend whose place will be hard to fill. No man within the connection of the Methodist church will be more sincerely missed and few there are who could not have been spared more readily than Mr. Barnett.

The announcement from Waco to the daily papers Wednesday afternoon said "Funeral services for W. F.

(Dad) Barnett, 64 manager of the Texas Methodist Orphanage here, will be conducted at 10:30 a. m. Thursday at the orphanage by Dr. Gaston Hartsfield, pastor of Austin Avenue Methodist assisted by Presiding Church Elder A. D. Porter and Rev. M. M. Chunn.

Mr. Barnett died Wednesday at the readence of his son, Dr. T.R. Barnett of Hillsboro.

He had been manager of the institution here fourteen years, coming to Waco from Corsicana, where he was associated prominently with the State Orphans' Home

He is survived by his wife here by a daughter, Mrs. Claude Mc-Kinney of Van Alstvne; his son at Hillsboro, his mother at Terrell, two brothers, George Barnett of Wolfe City and Bert Barnett of Terrell, and a sister. Mrs. Tom Briens, who lives in Illinois. Burial will be in Van Alstyne." Messages of condolence were

It was Commenceof wool that has not yet been ment day for the public schools, marketed, and competition beand this always interferes with tween the dealers is still keen for hoice clips. other services.

The school authorities deviited somewhat from the usual, in that they invited a local pastor. Elder Clem W. Hoover, to preach the sermon for the graduating class. It has been the custom for years to invite some minister of more than local reputation to preach. Last year Bishop Sam money that has been put in cir-Hay of Fort Worth was the culation recently. preacher.

The sermon Sunday morning clearly indicated that we have talent in our own community equal to the best, and that it might be well to follow the experiment in the future. The ser-

mon by Elder Hoover would bear this interpretation. The sermon was well thought out and was appreciated by the large audience in attendance.

The new pastor for the Bapstreet and the square in Goldtist church, Rev. Jack Gartman spent the past the week end in J. M. Traylor's couple of days in Dallas attend- home. ing to business matters. Mrs. We are very proud of our Gartman and two children, who neighbor, Daley Sullivan, who have been visiting friends and graduated this week. I hope for relatives there for the past week. him a very bright future. accompanied him home.-Brady Mrs.Doggett and daughter and Standard.

Roy Rowntree and family left Nickols' home Tuesday. In the Tuesday morning for Chicago, afternoon they visited Mrs. Verto be present at the opening of non Tyson and children, who mother rests well at night since the fair. After seeing the sights have moved to the country. there they will visit in Kentucky John Earl Roberts spent last farm. Michigan and other states and will be away perhaps a month or longer.

Mr. and Mrs. Walter Fairman left Tuesday morning for an automobile trip to Chicago and other points of interest. They ezpect to be in attendance upon the opening of the fair in the Windy City and after seeing the sights there they will return home over a different route from that over which they went. They will be away several weeks.

Supt. and Mrs. A. H. Smith came over from Winters Monday to get acquainted with some of the citizens and look the town over. Mr. Smith and Mr. Stringer have exchanged positions as school superintendents, effective at the close of the present school term. Mr. Smith called at the Eagle office and stated he expected to come to Goldthwaite to become a citizen some time in July.

three times as much state money.

Mrs. Ella Cook, who has the distinction of having trained more young men and women for successful ousiness careers than any other woman teacher in Texas, will open a Summer School of Touch Typewriting Letter Writing and Business

Spelling. Shorthand Morse and Wireless TELEGRAPHY. in the Goldthwaite High School MONDAY, JUNE 5 To continue all summer

Mrs. Cook has been teach-ing in Goldthwaite since March and has a number of satisfied students here to whom she is pleased to

refer. AN EXPERIENCED TEACHER

Before coming to Gold-thwaite, Mrs. Cook taught for seven years in Gatesville, where she left sev-eral hundred pleased students. Prior to that she taught for 12 years in Hill's and Toby's Business Colleges in Waco.

SCHOOL CREDITS School credits will be given school pupils who complete the summer course. Adults will also find the work in-teresting and profitable.

MODERATE TUITION Students may register for one or any number of courses. Fees are very mod-erate and satisfaction is assured.

REGISTER NOW Call at residence just South of High School.

Time and again I am told---by my own organization and by others

May 15, 1933

Friendly critics protest our putting into the Ford V-8 what they call "twenty-year steel." They say such quality is not necessary; the public does not expect it; and that the public does not know the difference anyway.

But I know the difference.

I know that the car a man sees is not the car he drives---he

drives the car which the engineer sees. The car which is seen, comprises beauty of design, color and attractive accessories, ---- all desirable, of course. The best evidence that we think so is that they are all found on the Ford V-8.

But these are not the car. The car proper, which is the basis of all the rest, is the type of engine and its reliability; the structure of chassis and body, ruggedly durable; the long thought and experiment given to safety factors; the steady development of comfort, conven-

ience and economy. These make the car. A car can be built that will last two or three years. But we

have never built one. We want the basic material of our car to be as dependable the day it is discarded as the day it is bought. Ford cars built 15 years ago are still on the road. It costs more to build a durable car---but two items we do not skimp are cost and conscience. A great many things could "get by"--- the public would never know the difference. But we would know.

The new Ford V-8 is a car that I endorse without any hesitancy.

I know what is in it. I trust our whole thirty years' reputation with it. It is even better than our previous V-8. It is larger, more rugged and mechanically a better job all round.

I readily say this in an advertisement because I know the car will back it up.

Kenny Ford

STREET WORK

.05c

.05c

.05c

19c

Mayor D. L. McNeill has a crew of workmen busy resurfacing the street between the depot and Sherman street. The labor on this work is being paid out of RFC money allotted to Mullin. As soon as this work is done.other streets will be treated in the same way. This means a great help at this time as this has been needed for several months as these streets have been badly cut up during the rainy season

THE REALM S. J. R. NO. 3. OF SCIENCE Be it resolved by the Legislature * * * * * * * of the State of Texas:

OF CHICAGO FAIR

___\$1.50 A short month or so ago, the World Fair City lay like a giant igsaw puzzle partially pieced to-

gether Today it is virtually a complete to the public. Here is a pedestrian's picture

of the Fair City: First, the twin towers of the

sky ride-fingers of steel jutting 624 feet toward the clouds, holding a skein of cables across which rocket cars will glide.

-a veritable mulligan of buildings, all shapes, sizes and colors.

nants of all nations.

On the right, the General Exvard" lies just south.

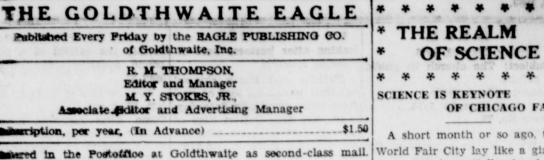

A few steps and one enters (4) consecutive weeks, and te streets of Paris,a transplant- first of such publications shall d section of Montmartre. Next, he Belgian village, a reproduc-

the making.

ttle tank.

years ago. Unadaptable creaure, they let time pass them by. They are back now, integral pieces of 1933's big picture puz-

eing groomed for their internaonal egg-laying contest.

Sitting on Top of the World.

TO THE GRADUATES

A lot of bunk is turned locce this time every year in the dire. tion of high school graduates who must politely sit and take it

If you had been graduated a few years ago during the heydays o prosperity, you would doubtless have been brassed on until you out like a poulor pigeon's and your head would have swelled until that funny little mortar-board cap of yours couldn't stay on. You would have been praised by one and all for your tremendous triumph in completing eleven grades of an alleged education, and the trials and tribulations that had beset you during your high school course would have been pictured so as to make the privations of Peary in the antarctic look like a petty adventure.

But, you would have been told, although you had already woved your right to a seat with the world's immortals, your life would be utterly ruined if you did not continue your education with Bur years of college or university work. And for the next twelve months you would have wandered around in a daze, up in the air so high that when you finally did come down to earth, it would be with a mighty thud.

This year, however, the sweet young graduates are being told a different story. From one end of this country to the other, to the accompaniment of soft, sad music, they are being told what a terrible mess the nation, nay the whole world, has fallen into And whereas the graduates used to come out of their commence ment exercises with badly swelled heads, they now emerge snivel-Ing with self-pity and bewailing their lack of a chance to make good.

One of these pictures is just as silly as the other, and both mave the common fault of centering the graduate's thoughts about Hinfself. Our advice to those graduates who wish to be happy or at Rast to escape the discontent of frustrated ambitions is to turn swar thoughts outward, not inward.

Instead of our congratulating you upon staying in school until rou have graduated, your fathers and mothers ought to receive the credit. But for them, most of you would have quit long ago. Eastead of telling you how smart you are, let's praise those patient

ted cities and

ng as much knowledge as they have a in doing into your sometimes none too receptive heads. Instead of weeping on your shoulders because you may not get to go to colrege, we will congratulate you on the opportunity that is yours to warve your way to real success.

You boys and girls, graduates of 1933, are stepping from school into a world that is seething with forces of unknown strength. The spring from which you will date your graduation has seen the most profound changes in American government ever made. This country is in the midst of a terrific experiment from which it will amerge strengthened and purged or not at all. Yours is the generation that will be called upon to man and steer the ship of state when the storm that now wracks her timbers has blown itself out. Upon what uncharted seas you will find yourself then, no man now can hazard even a guess. But this much is sure: Real men and women will be needed then, perhaps even more than they are meded today.

This is a time of storm and stress. It is a time when characvers will be made and lost. When strong men will grow stronger from fifty to three hundred children at one time and only and weak men weaker. It is a time for you to take careful stock of waurself, to decide what you can do best and make up your mind full grown children. Mrs. Fly to do it. And you can do it, if only you want to hard enough.

bragged that she and her hus-Not a man has made an enduring mark in American history who has not done so in spite of appalling obstacles. Whether it was band could be ancestors to a million flies in one season. Beorge Washington training himself to be a surveyor before he Mosquitoes are responsible for was as old as you, and surveying the Indian infested wilderness at the spread of malaria, dengue, the age of sixteen, whether it was Abraham Lincoln studying by the light of pine knots and drilling himself in public speaking and and yellow fever. Malaria is spread by the bite of the anothe law as he rode the Springfield circuit, or whether it was Theomore Roosevelt overcoming the handicaps of his frail body and gue fever and vellow fever are mearsighted eyes or our own President Franklin D. Roosevelt who transmitted by the Aedes aegypmas refused to be discouraged either by his paralysis or hard times, every man of note has fought his way to fame in spite of the diffisuffies that faced him. If you are to succeed, you, too, must fight 707 34.

Your greatest asset you cannot now appreciate, that is your youth. Your opportunities lie ahead of you. Some of you will seize them, and some of you will blindly pass them by.

We shall not set you up on a pedestal as a marvel of intellisence or industry. Nor shall we relegate you indifferently to the mar. Instead we offer you our hands and say, "Welcome, graduweres of 1933. Welcome to life!"

CEASE FIRING

Today is the sixty-eighth anniversary of the ending of the American Civil War. Sixty-eight years it has been since Appomat- vent their increase, all refuse and surrender marked finis to the struggle between North should be disposed of at once, and South. But in Texas alone, Confederate pensions each month amount to nearly \$300,000-a total of three and half million dolfars every year. In the United States as a whole, more than one hundred million dollars are being paid every year in pensions to hood raises its own flies so that Union veterans and their widows. Truly the costs of war are with- their number is an excellent innut an end.

Health Hint MOSQUITOES AND FLIES

Word has just been received by county to operate hereunder: the State Department of Health or. may provide for a governing that Mr. and Mrs. Mosquito and bedy otherwise constituted. Mr. and Mrs. Fly, with their kinwhich shall be elective, and servfolk, are planning to take up qualifications, for such terms, under such plan of representatheir summer residence in the state. They state that, although tion, and upon such conditions superior lien upon the property of tenure and compensation as taxable in such county. No oblimany had died since last summay be fixed by any such Char- gation issued hereunder shall be mer, they would soon have large families. Mrs. Mosquito raises
