VOLUME THIRTY-NINE

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, JUNE 9, 1933.

Methodist Notes

By special invitation this week and Pharisec attended Zone meeting of the Methodist ladies Missionary society. I scarcely ever think of this society that it does not evoke a smile. Not that they are in any sense a sect to provoke laughter, but their history and the tribulations which they endured to be started. They had rather turbulent waters to sail upon in the beginning. The wise leaders of the church—those of the cloth, especially, thought that there were dangers ahead if the society formed an organization. But women have a way of finding others of their right mind and also to work, especially in a good cause. So, after a period of disappointed hopes, they were able to go on their way. They are still on their feet and in point of accomplishments the brethren are following at a distance. When I view their accomplishments, building a school, carrying on great institutions of learning and attending to thousands of things that would otherwise be neglected, then observe the acquisitions of the formerly recalcitrant women, I smile. I would ask any question the value of work accomplished by our schools and the music of the community, they would attend a commencement and the recitals of the church classes. For one, I have an opportunity to see the work of the work of these women by way of contrast. In my viewpoint there is an improvement since I first attended the work here. In attending the recitals of the church I make bold to say in the various chautauqua entertainments of the past, cost hundreds of dollars, these local talents did not suffer comparison. As a matter of fact, these of the home talent superior to some of those. The Methodist folk should see that the approaching summer with the proverbial dog should not deplete the ranks of the Sunday school, or the attendance at the church services. The superintendent of the Sunday school is expected to be faithful, the pastor to be there with a well-rehearsed sermon. If these brethren would all rise to the occasion, we would all raise a shout of praise, because of their efforts. If we are to expect that they be faithful, we expect us to be less lax. The Methodist folk are expected to be in the United Methodist church at Austin, and to return from Southwestern University. I think that there are more of our folk of all churches leaving for summer school than are returning. We speed those who go away and welcome those who are returning. J. E. Lovett, presiding elder of the Llano district, preached an appreciative audience at the Methodist church Sunday evening. At the close of the service he held the third quarterly conference. We are always glad to have Brother Lovett with us. It is my understanding that the Swanner of the Baptist church will be in his pulpit next Sunday. Mr. Hoover and his people in the midst of what we all may be a fine meeting at Church of Christ. Mr. and Mrs. Dan Westerman want to urge the Methodists to be religious this year. They should be so every year, but I fear they are not so. Both Bro. Hammond and Bro. Brown will be in George attending the pastors' school, and there will be no pastor to look after their spiritual well-being. By the way, Bro. Hammond promises to bring Dr. E. Stanton, pastor at Georgetown, from Georgetown to look after him next Sunday. J. S. BOWLES.

Two New Arrests In Priddy Case

Two more arrests have been made in connection with the robbery of the Priddy bank on March 31. A man giving the name of Ralph Arnold and stating his address as Cleburne was placed in jail here Monday night, charged with being implicated with the robbers. His bond has been set by Judge Rahl at \$750 and it has been sent to Dallas for his friends to make, but it had not been returned at the time the Eagle was put to press. Another man has been arrested and jailed at Cleburne in connection with the same robbery. Judge Rahl authorized his release on \$750 bond, but has not learned whether the man has been released or is still being held. Glenn Bogle, who was brought here by rangers and placed in jail last week, was released on bond Sunday, the bond having been signed by friends in Cleburne and approved by the sheriff of that county.

UNIVERSITY GRADUATION

Mr. and Mrs. O. H. Yarborough and son, Harold, together with Mrs. J. C. Mullin, attended the commencement exercises of the state university at Austin the first of the week, in which William Glenn Yarborough was awarded his degree in Business Administration. He was a member of the Greek letter fraternity Pi Kappa Alpha of the University, member of the Assembly of 1932-33, member of Business Administration council '32-'33, and was on the board of publications of the University for the same period. The young man has the enthusiastic congratulations of his friends, which includes the list of his acquaintances. Everybody likes William Glenn and we all expect this to be indeed the commencement of his attainments. He is a young man of splendid ability and high ideals, who is endowed with a special gift for making friends, and this will stand him well in hand in building a career. The good wishes of his fellows will help him to attainments and to reflect credit upon his alma mater and his home community.

Goldthwaite Sets New Wool Record

More than a million pounds of wool have been shipped from Goldthwaite so far this season. Twenty-three carloads or nearly three-fourths of this were shipped by rail, and the remainder went out on trucks. A new record has been set by Goldthwaite in the amount of wool handled and a reputation as a good wool marketing center has been established. Much wool from Comanche, Hamilton and Brown counties has been concentrated here in addition to that grown locally. Much mohair has also been handled here this year. One lot of mohair was shipped here from far-off Kansas as a result of Goldthwaite's record for paying top prices for good clips.

A MISLEADING LETTER

A communication was published last week in which there were several misleading statements that gave offense to the parties named. The letter was signed by the writer, unless the signature was a forgery. Interested or aggrieved parties can inspect the letter and signature at this office and if they desire the publication of the name it will be done. If the signature is a forgery the matter will be carried to the grand jury. The Eagle appreciates communications containing news items of the communities and believes there are very few who would impose on the paper or offend their neighbors by sending misleading or untrue items. We sincerely hope his will not occur again.

Ready to Let Highway No. 7

A jury of view in Mullin late last week awarded the owner of one tract of land needed by the new route of highway 7 \$100 damages for his land and fruit trees. Another owner received \$10. The commissioners court at its regular session on Monday will accept the jury's report and will provide funds to pay the damages so that a clear title can be turned over to the state highway department. Work on plans for this section of the highway has been going ahead in the office of the district engineer and it is hoped they will be ready in time to be included in the July letting of contracts. There will be a letting on June 19, the highway commission has announced, but it is not now possible to get this project included.

BIRTHDAY PARTY

Last Friday afternoon at the hour of four the little friends of Aileen Huffman gathered at her home to help her celebrate her thirteenth birthday. When they arrived they were asked out in the yard under some beautiful shade trees, where she had tables fixed for dominoes and jigsaws. The guests enjoyed this for awhile and refreshments were served by Misses Lillian Snow, Fatima Faulkner and Marie Paula. The dainty dishes consisted of a bowl of vanilla ice cream, a glass of pineapple-lemonade and a square of pink and white cake. After the refreshments had been enjoyed they entered in some lively games. When 6 o'clock came they were asked into the living room and admired the lovely gifts and departing wished the little hostess many more happy birthdays. The guests were Misses Barline and Wanda Faulkner, Willie Grace Blackburn, Ladola Kelly, Midget Walden, Oleta Henry, Opal Faulkner and Master Eugene Snow. A GUEST

Dr. Pepper Team Stops Goldthwaite

The Goldthwaite baseball team lost their first game this season at Fair Park last Sunday to the Dr. Pepper team of Brownwood. The loss can be attributed to some lousy hitting by the opposition as well as to some errors that were committed by Goldthwaite team. From a spectator's point of view it was a good game to see as several unusual plays were made and the score was close enough to be anybody's ball game until the last man was retired. A ninth inning rally was cut short when, after Jones had walked, Littlepage hit a high foul that was sacked by the third baseman and Jones who had started to steal, was doubled off first base. McLean, pinch-hitting for Bradley, followed with a single to right, which went for naught, when the next batter was retired on a roller to the infield. Hud Hamilton started the game for Goldthwaite and going strong when he had to be relieved in the fourth inning. Up to the time he was replaced by Turner, he had struck out six men. Hamilton has not been pitching regular this year and could not go the route on his first time out. In defense of the manager it might be well to say that Hamilton requested that he be removed from the mound and he was not jerked by Smith for his inability to hold them. Up to the time of his removal he had literally been throwing them by the Brownwood boys. Many of them taking a third called strike with their bats on their shoulder. Turner, who relieved Hamilton, pitched a creditable ball game. He displayed a cool head in the pinches and pitched good enough to win had his teammates given him some runs. Pace of Brownwood had a good fast ball and change of pace that had Goldthwaite guessing all evening. He retired 9 batters by the strikeout route. He is the best pitcher that the Goldthwaite players have hooked at all season.

Adams, Goldthwaite shortstop, took the locals ahead in the third inning, when he walloped a home run over the right field wall with two mates on base. B. (Continued on page 5)

Work is slated to begin Monday constructing curbs and gutters for Fisher street in Goldthwaite. The labor will be supplied by the Mills County Relief Committee and will be paid with R. F. C. relief funds. State highway engineers under the direction of O. W. Hunn expect to finish running the curb lines today. They will supervise the work to be done by the city in building the curbs and gutters in order that when paving of Fisher street commences as a part of state highway 81, a uniform job will result. The square will be paved also, it is understood. The paving is to be done by the highway department and city jointly. The paved street will be 60 feet from curb to curb in the business section, but somewhat narrower in the residence section along the north end of Fisher street. A crew of relief workers under Dan Yates was busy last week on street work where needed over town.

War Veterans Get Tree Jobs

Information has been received by veterans of the world war living in Goldthwaite that Mills county will be allowed one or possibly two world war veterans in the Civilian Conservation corps, usually known as the Tree Army. Apportionment is on the basis of one veteran to every 3347 inhabitants in each county, and Mills county has over 8000. Enrollment is scheduled to begin throughout Texas on June 12. Each veteran must be physically able to do the work required and must have his application endorsed by four local citizens. Veterans will receive the same rate of pay as the younger recruits, \$30 per month, with an opportunity to make as high as \$45 a month. There is also the likelihood that Mills county may get to send a few more of the younger recruits, W. C. Dew, chairman of the Mills county relief committee, was asked to telegraph the number of certified applicants he could send. The names of four men were wired in. S. W. U. GRADUATE

Rev. and Mrs. J. S. Bowles and daughter, Miss Mary, accompanied by Mrs. Orby Woody, attended the commencement exercises of Southwestern University at Georgetown Tuesday, where Joseph Bowles received his degree. Mrs. Bowles and Miss Mary will spend several weeks in Austin attending the University summer school. Bro. Bowles, Mrs. Woody and Joseph returned home Tuesday night. Joseph has made a fine reputation as a school teacher and will wisely engage in that line of work for the next several years and the successful termination of his studies in the University at Georgetown will better equip him for his work. His Goldthwaite friends extend hearty congratulations to him.

PROSPECTS FOR A FAIR

The officers of the Fair association and others interested are talking "fair" pretty freely and it is hoped and believed it will be possible to make a good showing in a fair some time this summer. No definite statements have been made by those in authority, but the Eagle hopes plans will be under way pretty soon and that Mills county will join the other prosperous and progressive counties in arranging for the annual fair and race meet in July or August.

METHODIST CHURCH

The regular services will be held at the Methodist church Sunday, one of the preachers from the pastors' school at Georgetown, will preach at 11 o'clock. You are cordially invited to attend the service. S. O. HAMMOND, Pastor.

Bright Woman Lost 20 Pounds

FEELS MUCH BETTER

"June 28, 1932, I started taking Kruschen Salts. Have lost 20 pounds from June 28th to Jan. 10, feel better than I have felt for four years. Was under doctor's care for several months. He said my fall stone and should have an operation. Kruschen did all and more than I expected."

Mrs. Lut Bright, Walker, Minn. (1933).

To see at and at the same time gain in physical attractiveness and feel spirited and youthful take one half teaspoonful of Kruschen in a glass of hot water before breakfast every morning. A jar that lasts 4 weeks costs but a trifle at any drugstore in the world, but be sure and get Kruschen Salts the SAFE way to reduce wide hips, prominent front and double chin and gain the love of living — money back if dissatisfied after the first jar.

A Dollar Bill!
 Bruce Brewer, vice president of the Ferry-Harley Advertising Company, is authority for the following test of the value of advertising made by a country merchant who thought no one read his ads.
 To convince him, the editor suggested writing an ad with a lot of copy in it, such as the merchant believed, "nobody reads," and somewhere, buried in the copy, offer a dollar bill to every one who reads the ad and brings to your store. If you do that, I will run the ad free, just to prove folks do read advertisements.
 In spite of the warning of the editor that it would cost money, the merchant accepted the challenge.
 The ad contained so many words that it had to be set in type even smaller than that of the regular reading matter, but, buried away down in it was this offer: "To every one who brings in this ad we will give a one dollar bill." That was all that was said about the dollar.

The newspaper had not been out an hour before the store was full of people waving copies of the ad. The experiment cost that merchant \$500, but it proved to him, as nothing else ever had, that subscribers to the local weekly read it from end to end and everything in it. California Publisher.

MELLON TAX PROBE
ASKED BY SENATOR
 A sweeping investigation of income taxes, assessments and refunds of Andrew W. Mellon and Ogden L. Mills, former secretaries of the treasury, was asked in a resolution introduced in the senate last week by Senator McClellar, Democrat of Tennessee.
 The inquiry also called for an inquiry into the income taxes of Mellon banks and corporations.
 The resolution would ask the secretary of the treasury to furnish the senate with all details about the taxes assessed against, paid by, and refunded to Mellon and Mills.

The same information was demanded about the Mellon National Bank, the Union Trust Company, the Union Savings, the Aluminum Company of America, the Gulf Refining Company, the Gulf Production Company, the Pittsburgh Plate Glass Company and many others in which Mellon has tremendous holdings.

 A musical program then followed including a duet by Mrs. G. J. Woodward and Mrs. H. E. McCullough. (Info News-Review.)

THE COLLEGE GRADUATE
LEARNS CHINESE
TEXAS GIRL
 Dr. Nancy Lee Swann, who holds two degrees from the University of Texas and a third from Columbia University, has accomplished an unusual feat for an occidental. She has mastered the Chinese language. Her life's work is the translation of ancient Chinese manuscripts, a task she considers her avocation as well. Last year her book, "Pan Chao, Foremost Woman of China" was published by the American Historical Society. She is now engaged in writing two other books about famous Chinese women.

Dr. Swann, who is now curator of the Gost Chinese Research Library of McGill University, Montreal, Canada, was a recent visitor at the University of Texas, her alma mater. She is a native of Tyler, Texas, and after her graduation she spent twelve years in the mission field in China.
 In connection with her intense interest in Chinese culture, Dr. Swann reminds Americans that China, not Germany, invented printing, and that China gave to the world paper and ink.
 To acquire a working knowledge of spoken Chinese, one must learn some one thousand characters, Dr. Swann said, adding that after two years in that country she was able to "understand a little" of the spoken language. To learn the written language requires approximately ten years, she explained.

STATE COLLEGE TUITION
FEES ARE RAISED
 A bill to increase the tuition fees at state colleges was finally approved last week by the Texas legislature. The senate voted 19 to 8 to adopt a free conference committee report on the proposition. The house previously had accepted the report.
 The bill would increase the long term fees from \$30 to \$50, or \$25 a semester. Students from other states would have to pay the same tuition as institutions in their states charge Texans. In event this section should be held unconstitutional, the bill for non-residents would be a \$100 a semester. Summer school fees would be from \$20 to \$35, to be determined by the college heads. Heretofore they have been \$10.

 There is some doubt that people care to hear very much about what goes on under the hoods of their cars. The driver knows that "driving qualities" are not accidental; they are put there. How the manufacturer creates or evolves those results may not interest him. He judges entirely by the results he gets in driving.
 Well, it is not essential to talk "shop"; let us talk Results. Smoothness. Drive the Ford V-8 and you will find that the engine runs with surpassing smoothness, due to its design and the extra-precise methods of its manufacture.
 Power. There it is, 75 horsepower (we could say 80) at the drive-shaft for the driver's use. With less weight to pull around, the mettle of this car—its life-like response—is rather remarkable.
 Economy. Our V-8 develops more power on a gallon of gasoline than any car we have made. Mileage is partly a matter of individual driving, but under average conditions the Ford V-8 does 17 to 20 miles a gallon. Of course, car economy is not only a matter of fuel. Ford V-8 has that too, but it is also economical in the complete sense—initial cost, operation, maintenance.
 Appearance. This is woman's contribution. The motor car must not only be useful, but also good-looking. View the Ford V-8 and you will not need our comment on its fine appearance.

We have had lots of good rains and now we have fine crops. The farmers are most all up with their work with nothing to do, but cut grain and that is the order of the day.

Mrs. Liss Walker was called to Austin to be with her son, Harbin Cagle, who had undergone a very serious operation, and at last report was not doing well.

Mr. and Mrs. Ernest Eakin and children, Hazel, Marvin, Pauline and Penta Ray, visited in the Fickle home Saturday night and were treated to an ice cream supper.

Mr. and Mrs. Buford Boon and son, Buford Jr., of Austin and Mr. and Mrs. Albert Jones of Benavides have been visiting Mrs. Boon's and Mrs. Jones' parents, Mr. and Mrs. Liss Walker.

Quite a crowd from here attended the Sunday dinner in Hamilton county Sunday of one of Uncle Jim Evans' brothers. Those who attended from here were Jim Evans and son, Mr. and Mrs. Norris Crook and children, Mr. and Mrs. Ben Crawford and daughter, Mr. and Mrs. Omer Hill. All report a fine time except Uncle Jim and we think the trouble with him was, he just ate too much.

We have been having more school trouble. We have no objections to the consolidation of schools for those who want it, but we do not want it. We have a nice little school here and are out of debt, and we think that any concern that can pull thru such times as we have had and keep out of the red is doing well enough, and we prefer to remain as we are at the present time, anyway.

BURIAL OF HOWARD JONES

The remains of Howard Jones, aged 39, were brought here from San Antonio, where he made his home, for burial beside the graves of his parents, Mr. and Mrs. J. W. Jones, in the cemetery at this place. Funeral services were held Sunday morning at 10 o'clock, conducted by Rev. S. O. Hammond, pastor of the Methodist church, and were attended by a large number of the friends of the bereaved family, although many others would have attended had they known about it.

Mr. I. W. Jones was hardware merchant in this city many years ago and the family is kindly remembered by all who lived here at that time. Howard was a small boy when they moved from here to Strawn and it is doubtful if he had ever been back, although some of the other members of the family have been here and have continued their acquaintance at this place.

Among those who were here for the funeral Sunday were Ed Jones and wife, Victoria; Bob Harper and wife, San Angelo; Melvin Harper and wife, Eastland; John Jones and family, Prescott, Arizona; Jake Harper and family, San Angelo; Chas. H. Harper and family, San Angelo.

A SAD MESSAGE

Mrs. R. F. McDermott received the sad information a few days ago of the death of her mother, Mrs. Mary McDermott, aged 94 years, 5 months and 18 days, at her home in Easton, Mass., about 22 miles from Boston. Mrs. McDermott celebrated the 70th anniversary of her marriage on May 25, and she had lived on the same lot all her life and was engaged in school teaching prior to the civil war. She was liberal in her views and in the days of the reconstruction did not endorse such unfair representations as portrayed in "Uncle Tom's Cabin."

Mrs. McDermott and other members of the bereaved family have the sympathy of their Mills county friends.

DOWN ON THE FARM

By O.G.H.

A number of farmers are making orders for sodium chlorate to kill out Johnson grass, wild morning glory and other noxious weeds. This is a dependable weed killer that will do the work. However, it is too expensive to apply on land fully set in Johnson grass, but is advised for killing out patches to stop spread of undesirable plants.

A good plan and the only one to prevent theft of poultry and sheep and goats is to form an association and put on tattoo brands. In this way the organizations and combinations of thieves can be met.

Pruning tomatoes decreases the yield, but produces more uniform fruit than unpruned plants. Many hotels in Texas cities are using country cured hams put up the A. & M. way. Farmers in 75 Texas counties are selling meat cured the A. & M. way to grocery stores.

Years ago above-ground silos were tried extensively in Texas and for the most part failed, or at least ceased to be used. In the last two years county agents have been showing farmers how to dig and fill trench silos with feed at a ridiculously low cost. Now they are spreading rapidly over the state. Last year 393 new ones were dug and a total of 532 filled. More than a dozen Mills county farmers have declared intentions to dig trench silos this summer.

The annual A. & M. short course, covering the week of July 24, is making a strong appeal this year. The program is comprehensive and varied. Some of the courses are: meat cutting and curing, tanning hides, grading cotton, making green making grape juice, trench silo construction, grading fruit and truck products, installing garden sub-irrigation systems and making cottage cheese and Bulgarian butter. Railroads offer low rates and a convenient and attractive camp site is available to all who desire to camp.

CARD OF THANKS

We are indeed thankful to our friends in Big Valley, Goldthwaite and elsewhere for their kindness and sympathy in our great bereavement, when our little son was taken by the Silent Messenger. The people of South Bend and Graham could not have been more kind and the friends in Mills county did everything in their power to help to lift the overshadowing cloud of sorrow. We appreciate it all more than words can tell and will hold all of this kindness in grateful remembrance.

There was a good crowd out today, the grandstand being well filled—and the game was well worth watching, even if the locals lost.

Goldthwaite will play San Saba Sunday at Fair Park and it promises to be another good game. San Saba always has a good ball team and this year they have been playing the strong teams in the hill county league of which they are a member.

IT DOESN'T FIT

A determined effort was made in the Texas legislature last week to put the state's anti-trust laws in cold storage and place a moratorium on trust busting for an indefinite period in conformity with the provisions of the National Industrial Recovery act.

It is interesting that the question should have arisen, because to the "forgotten man," anti-trust laws seem to be a forgotten art in Texas. The attorney general has some suits pending against the major oil companies, but they do not appear to be losing any sleep or business over the outcome.

There have been entirely too many attempts to coerce the voters of Texas, and its officials as well, by the admonition to support the president. Postmaster General Farley has lately announced that loyal democrats should support the movement to repeal the eighteenth amendment to the federal constitution, but he confuses the sentiment of his own wet state, New York, with that of Texas.

The principle of reviving prosperity by favoring the rich and the powerful was given more than a fair trial by the last Republican administration. It has been completely discredited despite the millions of dollars poured by the Reconstruction Finance Corporation into the depleted treasuries of railroads, insurance companies and banks.

Such a plan of reconstruction simply doesn't fit in with the president's oft-repeated promises of aid for the "forgotten man." If other states wish to try it, Texas does not object. If the federal government believes that it will improve business to encourage competitors to fix prices and wages and establish minute codes of corporate conduct for interstate commerce, well and good.

But when it gets down to our own front yard, when we are asked to legalize these get-togethers of the leaders of industry and let them make their own laws, we simply can't see it. President Roosevelt is too good a Democrat to ask such less demand, an abrogation of state rights, even for this emergency. Any business man or banker can tell you that the trusts have enough power in Texas as it is. Honest industry is treated as fairly in Texas as anywhere else in the world. There is no reason to let down the bars against trust domination now.

SOMETHING IS WRONG

A news item from the University of Texas gives a list of freshmen students who made a grade of 90 or above on a recent test on high school algebra given to freshmen students of mathematics at the university.

There are 67 names on the list, and 14 of these are more than 50 per cent - are students who have come from other states to attend the University of Texas. The states represented include Colorado, New Jersey, Missouri, New York, New Hampshire, Massachusetts, the home of Harvard University, and Connecticut, the home of Yale.

Something is wrong here. If all of the freshmen students of mathematics received the test, 53 is entirely too small a number to receive the grade of 90 or above. Inadequate high school preparation is clearly indicated.

If, on the other hand, the test was only required of students entering the university from unaffiliated schools (although the announcement does not indicate this), the number of students taking the test would be much smaller, and perhaps 53 is a fair proportion to reach the higher grades.

But in any event, the news calls attention to the relatively large number of students attending the university whose homes are in other states and whose families, presumably, pay taxes to help support other schools while their sons and daughters are educated in Austin at the lowest cost of any educational institution of equal rank in the United States.

We have no desire to appear provincial or selfish, but it would be entirely just and reasonable to charge these out-of-state students a higher fee than that charged to Texas boys and girls. There are 14 freshmen mathematics students whose grades are high who come from other states, how many other students are there from other states in the other classes? They are not here to support themselves by working in Austin at jobs which are thereby closed to Texas boys and girls.

To say the least, a policy of reciprocity should be adopted so that no student should be allowed free tuition in a state supported school in Texas unless the state supported schools of his own state grant equal privileges to students from Texas.

WHY STOP LEARNING?

A book by Dorothy Canfield bears the arresting title, "Why Stop Learning?" In it she points out the many opportunities open to us for self-advancement, many of them at slight or no cost.

A similar theme is developed in Walter B. Pitkin's "The Art of Learning." Published in 1931, this book offers inspiration and practical assignments in pointing the ways, suited to the times, for acquiring a practical self-education. The distinguished author has no sympathy for those who learn merely to show off, or have any consideration for those who only aim to make more money with what they learn. But he appeals to energetic, ambitious adults to make the most of their leisure hours by following some consistent course of intensive study. He makes an appeal for community laboratories devoted to the study of problems of housing, of hygiene, of government. He says that any age is too old for learning, but admits that many minds are too dense to receive new ideas. Anyone whose mind has not ossified, will enjoy this treatise.

THE REALM OF SCIENCE

TERMITES

The termite is a pallid, squabby little bug which would be of no importance whatever were it not for its depraved appetite. It likes to eat wood. That taste makes it immensely important to building owners in tropical and warm temperate regions, says Time.

There are over 1200 species of termite, some 40 of them in the U. S. New York's variety builds its labyrinthine nests in the soft beneath buildings, crawls up into wooden beams and floors. It eats from the inside so that owners are unaware of damage until shell-like or spongy timbers collapse. First intimation a young New Jersey couple got was when they beheld, through a gaping parlor floor, their grand piano in the cellar.

SUMMER COMPLAINT

The season of the year when the most complaints are received on the account of diarrhea and dysentery or "summer complaint" is here and the Texas state department of health has issued a warning to parents in regard to this, and offers the following suggestions to prevent its occurrence.

The chief causes of diarrhea include impure water and contaminated foods, overheating, fever from any cause, too much sugar or cream in the diet, overfeeding and underfeeding.

Mother's milk is the safest food. However, if other milk must be used, the supply should be clean and pure. The water should be clean, pure and boiled. Any other articles of food should be fresh and clean and fit unsuitable articles of food such as cake and candy should be given.

If a feeding formula is used, it should be as prescribed by a physician and it must be prepared with extreme attention to cleanliness and kept cold until used. The baby should be at regular intervals and should not be forced to eat when he is not hungry. The baby should be kept cool and comfortable in hot weather, should not be over-clothed and should be given plenty of clean water to drink.

NOTICE OF PROPOSED AMENDMENT TO THE CONSTITUTION OF TEXAS

J. R. NO. 3.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Article IX of the Constitution of Texas be amended by adding thereto a section to be Section 3, which shall provide:

"Section 3. (1) Holding the belief that the highest degree of local self government which is consistent with the efficient conduct of those affairs by necessity lodged in the Nation and the State will prove most responsive to the will of the people, and result to reward their diligence and intelligence by greater economy and efficiency in their local governmental affairs, it hereby is ordained:

"(2) Any county having a population of sixty-two thousand (62,000) or more according to the then last Federal Census may adopt a County Home Rule Charter to embrace those powers-appropriate hereto, within the specific limitations herein-after provided. It further is provided that the Legislature, by a favorable vote of two-thirds of the total membership of both the Senate and the House of Representatives, may authorize any county having a population less than that above specified, to proceed hereunder for the adoption of a Charter; however, as a condition for such authorization, it is required that notice of the intent to seek Legislative authority hereunder must be published in one or more newspapers, to give general circulation in the county affected, not less than once per week for four (4) consecutive weeks, and the first of such publications shall appear not less than thirty (30) days next prior to the time an Act making proposal hereunder may be introduced in the Legislature. No County Home Rule Charter may be adopted by any county save upon a favorable vote of the resident qualified electors of the affected county. In elections submitted to the voters, a proposal to adopt a Charter (unless otherwise provided by a two-thirds vote of the total membership of each House of the Legislature) the votes cast by the qualified electors residing within the limits of all the incorporated cities and towns of the county shall be separately kept but collectively counted and the votes of the qualified electors of the county who do not reside within the limits of any incorporated city or town likewise shall be separately kept and separately counted, and unless there be a favorable majority of the votes cast without such collective cities and towns, the Charter shall not be adopted. It is expressly forbidden that any such Charter may be inconsistent with the operation of the General Laws of the State relating to the judicial, tax, fiscal, educational, police, highway and health systems, or any other department of the State's superior government. Nothing herein contained shall be deemed to authorize the adoption of a Charter provision inimical to or inconsistent with the sovereignty and established public policies of this State, and no provision having as its object the violation of any of the State's obligations, maturing after a period of five (5) years, the same shall be issued to mature serially, fixing the first maturity of principal at a time not to exceed two (2) years next after the date of the issuance of such obligations. Such obligations may pledge the full faith and credit of the county; but in no event shall the aggregate obligations so issued, in principal amount outstanding at any one time, exceed the then existing Constitutional limits for such obligations, and such indebtedness and its supporting tax shall constitute a first and superior lien upon the property taxable in such county. No obligation issued hereunder shall be valid unless prior to the time of the issuance thereof there be levied a tax sufficient to retire the same as it matures, which tax shall not exceed the then existing Constitutional limits.

"(3) a. A Charter hereunder may provide: The continuance of a County Commissioners' Court, as now constituted, to serve as the governing body of a county to operate hereunder; or may provide for a governing body otherwise constituted, which shall be elective, and service therein shall be upon such qualifications, for such terms, under such plan of representation, and upon such conditions of tenure and compensation as may be fixed by any such Charter. The terms for service in such governing body may exceed two (2) years, but shall not exceed six (6) years. In any event, in addition to the powers and duties provided by any such Charter, such governing body shall exercise all powers and discharge all duties which, in the absence of the provisions hereof, would devolve by law on County Commissioners and County Commissioners' Courts. Further, any such Charter may provide for the organization, re-organization, establishment and administration of the government of the county, including the control and regulation of the performance of and the compensation for all duties, required, in the conduct of the county affairs, subject to the limitations herein provided.

"b. A Charter hereunder may provide that judges of County Courts (including that County Court designated in this Constitution) and Justices of the Peace be compensated upon a salary basis in lieu of fees. The jurisdiction of the County Court designated in this Constitution, and the duties of the Justices thereof, may be confined to that general jurisdiction of a Probate Court which elsewhere is defined in this Constitution. The office of Justice of the Peace may be made either elective or appointive. Other than as herein provided, no such charter shall provide for altering the jurisdiction of any court. The salary of any Justice of the Peace or County Attorney may be collected by the State, and the purpose of representing the State

is a party and to enforcement of the State's Penal Code, and the compensation of said attorney, may be fixed on a salary basis in lieu of fees.

"c. Save as hereinabove and hereinafter otherwise provided, such Charters within the limits expressed therein may invest the governing body to be established for any county electing to operate hereunder with the power to create, consolidate or abolish any office or department, whether created by other provisions of the constitution or by statute, define the duties thereof, fix the compensation for service therein, qualifications and conditions for tenure in any such office; save that no such Charter other than as hereinbefore authorized, shall provide to regulate the status, service, duties or compensation of members of the Legislature, Judges of the Courts, District Attorneys, County Attorneys, or any office whatever by the law of the State required to be filled by an election embracing more than one county. Excepting herefrom nominations, elections or appointments to offices, the terms whereof may not have expired prior to the adoption of this Amendment to the Constitution, at such time as a Charter provision adopted hereunder may be in effect (save as to those offices which must continue to be elective, as herein elsewhere specified), all terms of county officers and all contracts for the giving of service by depositors under such officers, may be subject to termination by the administrative body of the county under an adopted Charter so providing, and there shall be no liability by reason thereof.

"d. Any county electing to operate hereunder shall have the power, by Charter provision, to levy, assess and collect taxes, and to fix the maximum rate for ad valorem taxes to be levied for specific purposes, in accordance with the Constitution and laws of this State, provided, however, that the limit of the aggregate taxes which may be levied, assessed and collected hereunder shall not exceed the limit or total fixed, or hereafter to be fixed, by this Constitution to control cities, and the annual assessment of property, both real, personal and mixed, shall be a first superior and prior lien thereon.

"e. In addition to the powers herein provided, and in addition to powers included in County Home Rule Charters, any county may, by a majority vote of the qualified electors of said county, amend its Charter to include other powers, functions, duties and rights which now or hereafter may be provided by this Constitution and the statutes of the State for counties.

"f. Any county operating hereunder shall have the power to borrow money for all purposes lawful under its Charter, to include the refunding of a lawful debt, in a manner conforming to the General Laws of the State, and may issue therefor its obligations. Such obligations, other than those to refund a lawful debt, shall not be valid unless authorized by a majority of all votes cast by those resident qualified voters of the area affected by the taxes required to retire such obligations, who may vote thereon. In cases of county obligations, maturing after a period of five (5) years, the same shall be issued to mature serially, fixing the first maturity of principal at a time not to exceed two (2) years next after the date of the issuance of such obligations. Such obligations may pledge the full faith and credit of the county; but in no event shall the aggregate obligations so issued, in principal amount outstanding at any one time, exceed the then existing Constitutional limits for such obligations, and such indebtedness and its supporting tax shall constitute a first and superior lien upon the property taxable in such county. No obligation issued hereunder shall be valid unless prior to the time of the issuance thereof there be levied a tax sufficient to retire the same as it matures, which tax shall not exceed the then existing Constitutional limits.

"g. Such Charter may authorize the governing body of a county operating hereunder to prescribe the schedule of fees to be charged by the officers of the county for specified services, to be in lieu of the schedule for such fees prescribed by the General Laws of the State, and to appropriate such fees to such funds as the Charter may prescribe; provided, however, no fee for a specified service shall exceed, in amount, the fee fixed by General Law for that same service. Such Charters as to all judicial officers, other than District Judges, may prescribe the qualifications for services, provided the standards thereof be not lower than those fixed by the General Laws of the State.

"h. Subject to the express limitations upon the exercise of the powers by this subdivision to be authorized, such Charters may provide (or omit to provide) that the governmental and/or proprietary functions of any city, town, district or other defined political subdivision (which is a governmental agency and embraced within the boundaries of the county) be transferred, either in whole or in part, to the governing body of the county. No such transfer of any kind of functions shall be made unless the proposed transfer is subject to a vote of

the people, and, unless otherwise provided by a two-thirds vote of the total membership of the county, such a proposal shall be submitted as a separate issue, and the vote within and without any such city, town, district, or other defined governmental entity, shall be separately cast and counted, and unless two-thirds of the qualified votes cast within the yielding defined governmental entity, and a majority of the qualified votes cast in the remainder of the county, favor the proposed merger, it shall not be effected. In case of the mergers hereby authorized, without express Charter provision therefor, in so far as may be required to make effective the object of the proposed merger, the county shall succeed to all the appropriate lawful powers, duties, rights, procedures, restrictions and limitations which prior to the merger were reposed in, or imposed upon, the yielding governmental agency. Particularly, it is provided that the power to create funded indebtedness and to levy taxes in support thereof may be exercised only by such procedures, and within such limits as now are, or hereafter may be, provided by law to control such appropriate other governmental agencies were they to be independently administered. Such proposed contracts between the county and any such yielding governmental agency, to be approved at an election as hereinbefore provided for. In order to increase governmental efficiency and effect economy the county may contract with the principal city of the county to perform one or more of its functions, provided such contracts shall not be valid for more than two (2) years.

"i. In case of the partial or complete merger of the government of a city operating under a Home Rule Charter, with the government of a county operating hereunder, those city Charter provisions which shall cease to control, and the county Charter provisions shall control.

"j. When any embraced incorporated city or town elects to merge its governmental functions with those of the county under the provisions hereof, such Charter may provide for defining or redefining the boundaries of such cities and towns, provided, however, that in defining or redefining the boundaries of such cities and towns, such boundaries may be extended only to include those areas contiguous to such cities as are urban in character; and as to such cities or towns and for the benefit thereof the county, in addition to the primary city and county tax herein authorized and any other lawful district tax, may levy and collect taxes upon the property taxable within such city or town as defined or redefined, within the limits authorized by Sections 4 and 5 of Article XI of this Constitution, (or any Amendment thereof) for incorporated cities according to the population, provided that no tax greater than that existing at the time of such merger or for any added purpose shall be imposed upon any such city or town unless authorized by a majority of all votes cast by the resident qualified voters of such city or town.

"k. Areas urban in character though not incorporated, under appropriate Charter provision may be defined as such by the governing body of the county, provided, however, that no portion of the county shall be defined as an urban area unless it has sufficient population to entitle it to incorporate under the then existing laws of the State; and no such urban area, when created, shall be vested with any taxing or bonding power which it would not possess if it were operating as a separate incorporated unit under the then existing Constitutional and Statutory provisions of this State; and provided further that the governing body of the county for the government of such areas shall have and exercise all powers and authority granted by law to the governing bodies of similar areas when separately incorporated as a city or town, and such areas shall be subject to additional taxation within the same Constitutional limits, as control taxation for a city or town of like population. Likewise such Charter may provide for the governing body of the county subject to existing Constitutional and statutory provisions to define, create and administer districts, and have and exercise the powers and authority granted by the Constitution and laws relative to the same.

"l. No provision of this Constitution inconsistent with the provisions of this Section 3, of Article IX, shall be held to control the provisions of a Charter adopted hereunder, and conforming herewith. Charters adopted hereunder shall make appropriate provision for the abandonment, revocation and amendment thereof, subject only to such requirements that there must be a favorable majority of the vote cast upon such a proposal, by the qualified resident electors of the county; and no Charter may forbid amendments thereof for a time greater than two (2) years. The provisions hereof shall be self-executing subject only to the duty of the Legislature to pass all laws (consistent herewith) which may be necessary to carry out the intent and purposes hereof. Further, the Legislature

shall prescribe a procedure for submitting to decision, by a majority vote of the electors voting thereon, proposed alternate and elective Charter provisions.

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State at an election to be held throughout the State on the fourth Saturday in August, 1933, at which election all ballots shall have printed thereon the following: "For the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

"Against the Amendment to Article IX of the Constitution of Texas, adding Section 3, providing authority for the adoption of a Home Rule Charter by the voters in counties having a population of sixty-two thousand (62,000) or more, to effect more efficient and economical government within such counties, and to authorize mergers of separate governmental agencies within such counties as may from time to time be authorized by vote of the people therein."

Each voter shall scratch out one of the above listed clauses on such ballot leaving unscratched that particular clause which expresses his vote on the proposed Amendment to which it relates.

Section 3. The Governor of this State is hereby directed to issue the necessary proclamation ordering an election in conformity herewith to determine whether or not the proposed Constitutional Amendment set forth herein shall be adopted, and the Governor shall have the same published as required by the Constitution and laws of this State.

ROCK SPRINGS

There wasn't any Sunday school Sunday, as some went to Center Point to the singing convention and others had company.

The singing convention was a success. There was lots of good singing and singers there. The next convention will be at Pleasant Grove. Let's all go.

I didn't find out if anyone went to prayer meeting Saturday night.

Don't forget Sunday afternoon is singing at Center Point. It should be fine, as some have the new Harbor Bells No. 2 book.

Anita Chambers, daughter of Mr. and Mrs. Leonard Chambers, died in San Saba last Tuesday afternoon at three. Anita was two years and two months old.

She was John Dave's granddaughter, who lives in Big Valley. Bro. Chambers from Lampasas conducted funeral services. We wish to extend our sympathy to the bereaved.

Ray Stark and wife, Herbert and Nellie Dee Cooke went to Stephenville Monday to enter summer school.

Bro. J. R. Davis went to Comanche county last week end to visit his wife, who has been caring for her mother who is sick.

Fred McClary took Herbert and Nellie D. Cooke to Stephenville Monday.

Ray Stark and wife and mother and Mrs. Joe Davis and son went to Brownwood Saturday to shop. Mrs. Davis and son spent Saturday night in Arlie Davis' home.

I hope Walton Daniel has caught up with his sleep this week.

Mrs. Eula Nickols visited in the Gatlin and Long homes in town Saturday afternoon.

Mrs. Doggett and Nickols treated Joe Roberts and family and Eva Cook to ice tea and cream Tuesday. Mr. Roberts is getting the Roberts' house ready to move into this week.

Delton Barnett and Guy Rudd were out in our community early Monday morning, doing some trading with Oscar Gatlin. They traded sheep for more sheep and some cows to boot.

Some may not believe this, but it is so and I can prove it. I talked to a lady in town Saturday and she said she never got her name in the paper. Now believe me if she lived out here it would be in the paper. She is too far away for my news—Rabbit Ridge could claim her, though. Now Crosseyes if you care to know who this is, see me.

A good rain is needed as the ground seems to be getting too hard to plow. Hoeing is the sport out here this week. BUSY BEE

There was a quartet with us Sunday morning, which did some excellent singing. The Carr trio was present Saturday night, but was unable to be here Sunday. We really appreciate everyone's help in the singing as well as those who helped prepare dinner and were glad to have the presence of all.

Let's all look forward to the next convention, which will be held in September at Pleasant Grove.

MARRIED AT EBONY

Miss Ruth Briley of Ebony and Mr. O. R. Mitchell of Telephone were married Saturday evening, June 3, at the home of the bride's grandmother, Mrs. Clara Wilmett, near Ebony. Bro. Clem W. Hoover, minister of the Church of Christ at Goldthwaite officiated.

The bride is the daughter of Mr. and Mrs. John B. Briley and has been for three years teacher of the intermediate department in the Ebony school. The groom is the son of Mrs. Virgie Mitchell of Telephone, Fannin county. He is principal of the Bigbee school near Telephone. Both are seniors of the North Texas State Teachers college, Denton.

Only close relatives of the family were present at the quiet, but pretty home wedding. The bride wore a simple white crepe frock. The groom was attired in light gray. The house was beautifully decorated with wild daisies and mountain pinks. Mrs. J. F. Bateman of Fort Worth, aunt of the bride, sang "At Dawning." Miss Grace Briley, sister of the bride, played the "Bridal Chorus from 'Lohengrin'" and the "Wedding March" by Mendelssohn. Cake and punch were served in the dining room.

Mr. and Mrs. Mitchell left Sunday after church for Denton, where they will spend their honeymoon attending summer school. They expect to spend their vacation at Ebony. In September they will be at home at Telephone.

A FRIEND

MOUNT OLIVE

We're all alive out here, as much as we hate the fact.

Saturday and Sunday were meeting days here and Brother Chambers delivered both of his messages to large congregations.

Sunday is singing day at Mount Olive and a cordial invitation is extended to every one. Singing will begin at 3 p. m.

Miss Martha Couch of Dallas attended church here Sunday.

Several people here attended the singing convention at Center Point Sunday.

Grain cutting will begin out here this week. What little grain we have sure looks good.

Mount Olive Chigger Gleaner baseball team seems to be pretty lively. They are getting in practice for some real games.

Maybe next week will see us mostly up with all of our farm work outside of chigger scratching. So maybe by that time we'll know who our teachers are.

Lyle Geeslin and Miss Myrl Smith of Oak Hurst were quietly married at the Methodist church in Huntsville last Wednesday at 3 o'clock. A few of their relatives and close friends were present.

After the wedding ceremony they visited in Austin and elsewhere. Saturday they arrived here for a visit with his parents, Mr. and Mrs. J. M. Geeslin. Mrs. Geeslin is a stranger to us, but with the short acquaintance we are pleased with her personal and feel quite sure Lyle chose wisely. He is another home boy who has made good. After finishing school in Goldthwaite he attended Daniel Baker several years, then taught in our school, after which he accepted a position with an oil company of Houston. They expect to leave Saturday for Conro, where he has a good position and will make their home. They carry with them congratulations and good wishes of all here. May their future be bright and prosperous.

Bro. and Sister Mitchell and little son of Harwood arrived Monday about noon. She and her little son are visiting her parents, Mr. and Mrs. C. A. Head, while Bro. Mitchell is attending the pastors' school in Georgetown, Monday evening a number of relatives and friends prepared ice cream and cake, and honored them with supper at Long Hole. All who wished enjoyed a swim before supper time. We certainly enjoyed this meeting together again, and hope they will occur many times in the future.

Mr. and Mrs. Willis Hill and sons of South Bennett attended the supper Monday evening. All were glad to have these good people with us.

Miss Vonnie Mae Head of Lometta is visiting her grandparents, Mr. and Mrs. Jas. Owens.

A number of our young people will be away at school this summer. Hollis Blackwell and Aubra Hudson accompanied Miss Lois Blackwell to Fort Worth, where she met Miss Maida Hudson and the two young ladies went on to Denton to attend the Normal.

Miss Gladys Casbeer is in John Tarlan and Miss Pearl Casbeer is in Brownwood. Hollis Blackwell expects to go to Lubbock for the school here.

Bertram Geeslin, accompanied by his brother, Lyle, went to Austin the first of the week to enter the University, but found he could not take the work he wanted and came home. We hope he can go this winter and finish his course.

Mrs. Nickols left Wednesday for Post City, where she will spend the summer with her daughter.

"XX", we enjoyed your "believe it or not" items. Some we think were equal to Ripley's.

Mrs. Davis and two daughters Irvin Jones, Hazel Davis and Viola Williams of Hamilton accompanied by Billie Stone of the valley were happy visitors in the Joe Langford and J. M. Geeslin homes last Sunday. They arrived early and left about midnight. In the afternoon all enjoyed a good swim in the Bennett creek.

Miss Naomi Langford visited in Hamilton last week.

Mrs. Clarence Langford and children and Mrs. Otis Allen visited their mother and other relatives the first of the week.

Chas. Welch and family met other members of the Welch family in the W. G. Welch home at Sterling City last Saturday and Sunday celebrated the 90th birthday of their mother, "Aunt Cindy," as she is lovingly called here. She had with her all of her children and others to the number of 63, who enjoyed the occasion. They report her well and able to about fine, for one of her age.

We regret to report the conditions of Mrs. Geo. Byrd and James Day not improving as all had hoped.

Miss Lucile Welch left Wednesday for Austin, where she will finish her course and secure a degree from the University this summer.

Jesse Moreland is visiting in Waco this week.

Mr. and Mrs. Walter Fairman returned home Tuesday night from Chicago, where they spent some time at the Century of Progress exposition and also visited Judge S. H. Allen and family in Arkansas. Judge Allen is school superintendent and his son, Sam, is principal of the same school. His mother, Mrs. J. W. Allen, also lives at the old home and in good health. Mr. and Mrs. Fairman were delighted with the fair and report a most pleasant trip.
