

THE GOLDTHWAITE EAGLE

VOLUME THIRTY-NINE

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, JUNE 23, 1933.

NUMBER FORTY-THREE

Highway Work Is Discussed

Judge I. E. Patterson, accompanied by his son John, made a trip to Austin Tuesday to meet with the representatives of Sanaba and Llano counties and appear before the Highway Commission to urge the beginning of work on highway No. 81. Judge Patterson was requested by the Comanche county authorities to present that county before the commission, in an effort to have the highway work started. The commission gave very little indication of an early beginning of the work and Judge Patterson learned from an authoritative source that it is a lack of finances that is delaying the work. The counties interested have expended a considerable amount in getting ready for the road building by the Highway department and all are anxious that that department to make a move. So far nothing definite has been learned as to when the work will be started.

Work Awaits Federal Approval

Highway construction totaling approximately \$15,000,000 can be started almost immediately by the Texas highway department as soon as federal regulations governing emergency relief funds are issued, Gibb Gilchrist, state highway engineer, said Wednesday. Gilchrist said the highway department had plans prepared for work that would cost approximately \$15,000,000. Texas has been awarded approximately \$25,000,000 for unemployment relief highway projects.

Members of the commission held a meeting to be held to select projects when the federal regulations were received. All projects must be submitted to a federal bureau of public roads for approval. A delay of two weeks would be necessary for approval by the federal bureau, to advertise for bids.

The commission was hopeful that contracts could be awarded a month of the work in July. Action on the Texas projects proposed for inclusion in the public works program will await the return of President Roosevelt and the appointment of a federal public works administrator for the Lone Star State. Col. Lawrence Westbrook, state relief director named by Governor Ferguson to handle the administration of federal public work funds in Texas, has presented a list of Texas projects to be approved to return home following a week of conference with federal officials.

Provisions Made For Driveways

Home owners on Fisher street who desire provisions made for driveways entering their premises from the pavement and over the curbing should make known their desires to the engineers, who are making a profile of the street work. An application to Mr. Hunn, chief of the engineers, will secure the necessary concessions, but this should be given attention at once, before the curbing is built.

BARN BURNED

The barn on the L. W. Leverett farm, in Lake Merritt community, was destroyed by fire Tuesday afternoon and its contents were lost. It is not known how the fire originated, but it is supposed to have resulted from combustion in new mowed hay that had been stored there. The place is occupied by R. V. Leverett and his feed was stored in the barn and was a total loss. It is not known whether or not there was insurance.

Methodist Notes

The people called Methodists, who reside within this balliwick, seem to be suffering the effects of the humid atmosphere indicative of approaching proverbial "dog-days." Possibly they are suffering the tribulations of Sunday sickness. "No apparent permanent disaster seems to have been the result of this disturbing disease, however, if one were to judge by results, everybody seems to be able to attend business as usual Monday.

A fairly good-sized audience greeted Bro. Hammond Sunday morning. It might have been better. For the benefit of the uninitiated, I might say that if any were disposed to think by the doctor's effort that he was somewhat intoxicated on the exuberance of an excessive verbosity they should know that he was simply putting into use, as he should do, the fund of knowledge he had accumulated at the pastors' school of theology at Georgetown last week. The truth is that a man would certainly be very obtuse who did not gain a great deal of useful information, after sitting for two weeks at the feet of such an array of talent as that which assembled in this school. It is needless to say that the people of the county ought to avail themselves of the instruction which Hammond and Brown obtained at Georgetown. Selah.

Arthur W. Jones was at the Methodist church Sunday night. His address was wonderful, and well received by a fine audience. To the dry forces of our county it was a religious lecture: To the wets it was a political harangue and a lot of other things uncomplimentary. This leads me to say that some folk are hard to please. In the old days if a preacher talked on prohibition the wets were outraged at the prostitution of the pulpit to the level of dirty politics. On the other hand, if the politician talked for prohibition a mighty howl was raised about dragging a religious subject into politics. Well, the plain truth is that it all can be said in three words: "We want beer" or "We want whisky." Well, the forces that want beer are going to have it right here in Goldthwaite, if the defenders of the homes do not wake up to the danger of the situation.

Bro. Clem Hoover of the Church of Christ is down at Austin leading the song service in a meeting. Here is where I am going to get in some smooth work. It is the opportunity that I have been looking for. It is my purpose to marshal the Methodist forces and take the whole bunch into the Methodist church. Already I have been having some confidential talks with Joe Curtis and Henry Ezell, and we are on the very best of terms. Then there is Mr. Greathouse is, who is pliable, to say the least of the matter. So if Hoover comes back and finds himself in the language of the late Senator Ingalls, "a statesman out of a job," he can simply blame himself for allowing himself to be so indiscreet as to go off and leave his flock among the wolves and unprotected.

As a matter of fact I had some designs on the Baptist folk while their pastor was enjoying the breezes of the Texas Panhandle. But the fly in the ointment was in the fact that the clearheaded pastor of that flock left his pastoral belongings in the secure hands of such worthies as W. E. Miller, Tom Toland, Bob Littlepage and others. As a result of this careful guardianship, there seemed to be no hope of success. So the only thing to do, now, so far as I could see the situation, was to wait for a more auspicious time, which may never come.

Of one thing I am sure, however, and that is that all these good people should improve their opportunity and get into the Methodist church.

HARVESTING IN PROGRESS
Grain harvesting is in progress in all parts of the country. The yield is light in most sections, but the good price will make up for the loss in quantity.

Explosion Kills Former Citizen

O. L. Bodenhamer of El Dorado, Ark., former national commander of the American Legion, died in a Shreveport, La., hospital at 7:20 o'clock Monday night of burns suffered in a gas explosion in the East Texas oil field near Henderson.

After the explosion Bodenhamer was carried to Shreveport and placed in a "heat bath" in an effort to save his life, after doctors ascertained he had been burned over his entire body with the exception of his head and chest.

His clothes were burned from his body in the accident. He had left Henderson before daylight en route to Houston on business and stopped at his property in the East Texas field to confer with his assistant, R. C. Cook, in preparation for reopening his five wells after a three-day shut-down.

As the men stood in front of Cook's home, eight miles from Henderson, Bodenhamer lit a cigarette. The explosion of gas which hovered near the ground followed, although the nearest well was about 150 yards away. Cook was burned about the face and hands and was taken to a Henderson hospital.

Lee Bodenhamer was born in Goldthwaite, the son of Mr. and Mrs. J. R. Bodenhamer, and a grandson of the late Mr. D. E. Hopkins. His father was a carpenter and the family lived at the place now occupied by W. A. Aiken's home, in the northern part of the city.

Lee enlisted as a private in the army at the age of 17. He was graduated from Howard Payne college and Baylor University. For a time he was professor of English at Southwest Texas State Teachers' college at San Marcos. He later entered the real estate business at El Dorado, Ark. He married Irene Richardson of Boston, Mass., Oct. 10, 1930.

In 1929 he was elected national commander of the American Legion at the Louisville, Ky., convention. He previously had served as post commander at El Dorado and was elected state commander. In 1932 he led a field of six men as runner-up to Mrs. Hattie Caraway in the race for the United States senate, from Arkansas, polling more than 60,000 votes.

He is kindly remembered here by many school mates of his boyhood days and other friends, who were grieved when they learned of the tragedy that caused his untimely death.

BRIDGE ENTERTAINMENT

Thursday evening Mrs. Forest Frazier and Mrs. Ernest Obenhaus were joint hostesses at a bridge party given at the home of Mrs. Frazier.

The guests assembled in the living room, where tables were arranged for bridge. Places were found and after playing several games, scores were counted and high score prizes were awarded to Mrs. Duard Howard and Mr. Tom Fryer. Mrs. Howard received a lovely all-over lace vanity set and Mr. Fryer a metal ash-tray and pencil set.

Refreshment plates, consisting of sandwiches, pickles, potato chips, cookies and punch were served to the following: Miss Mary Fallon, John L. Brim, Mr. and Mrs. Duard Howard, Mr. and Mrs. Tom Fryer, Ross Wheeler, Clarence Cave, Forest Frazier, and Ernest Obenhaus.

A GUEST

WALLS—KNIGHT

H. J. Walls of Cass county and Miss Ruby Knight of Star were united in marriage last Saturday at noon, at the residence of Rev. Jo Frizzell, in this city, that gentleman officiating. The bride's sister and brother-in-law, Mr. and Mrs. Harry Welch of Center City, accompanied them to the minister's residence and witnessed the ceremony.

Both parties have many friends and well-wishers in this county and elsewhere.

Cotton Reduction Goldthwaite

There will be a meeting in the court house Saturday afternoon at 2:30 o'clock of all persons interested in growing cotton in this county. This meeting has been called by W. P. Weaver, county farm agent, and is in conformity with instructions from the agricultural department. It is important that all communities in the county be represented and that the rules of the reduction of cotton acreage be well understood. Operations are to begin Monday and it is of the utmost importance that the cotton growers co-operate in the movement.

In short, the government proposes to pay farmers from \$6 to \$20 per acre for plowing up their cotton already planted, the bonus being governed by the schedule of former production on the same farms. The farmer will be allowed to plant some other crop in the same ground.

In the meeting Saturday Mr. Weaver will explain all details and committees will be appointed for all communities, in order that a full understanding may be had of the plan. Don't plow up cotton without a thorough understanding of the plan, else there might be a heavy loss. Just come to the meeting Saturday and get full information from Mr. Weaver.

A Fatal Accident

Fred Martin and daughter, Jeanett, and Mrs. Henry Martin were called to Antlers, Okla., last Saturday by a message announcing the death of Miss Elsie Schweining, daughter of Mr. and Mrs. George Schweining of that place.

Miss Schweining's death, which occurred at Talihina, Okla., was caused by a most peculiar accident. She was horseback riding with a party of friends near the town and they had dismounted to gather flowers. When she attempted to re-mount her horse, she placed her foot in the stirrup and taking hold of the horn started to draw herself up into the saddle, when her hold on the saddlehorn slipped and she fell backward, striking her head on a rock. At the same time the horse moved and her ankle was twisted. She was hurried to a home and given every attention, but sank into a coma and died without fully regaining consciousness.

The family lived here about twenty years ago, when Mr. Schweining was employed in Henry Martin's hardware store. Miss Elsie was then only a small child, but has visited her grandmother and other relatives here a number of times since the family moved away. She was a school teacher and had taught several terms in the Talihina school.

The friends here of the family deeply sympathize with them in their sorrow.

Cut In Postage Rates On July 1

A drop in the local postage rate from 3 to 2 cents will go into effect on July 1.

The change recently enacted also gives the president authority to make a general reduction in postal rates if he finds business conditions warrant that action. The drop in the local rate will be watched by officials to see what effect it has on the postal revenues. It may be applied generally. For the present, it will apply only on local rates in cities having carrier delivery.

No detailed instructions have been received by the local post-office, but the order is understood to mean that mail distributed by the local postoffice to carriers and on rural routes will require only 2 cents, i. e., the Eagle's correspondents on the routes will only be required to pay 2 cents postage, but letters to addresses other than the local office will require 3 cents under this order.

Goldthwaite Defeats Evant

In the best played game of this season Goldthwaite beat Evant last Sunday in a baseball game at Evant. There was a good crowd of Evant people at the game and a sprinkling of Goldthwaite fans accompanied the team from here. Ideal baseball weather prevailed and it was reflected in both team's play.

John (Ernsaw) Weaver pitched for Goldthwaite and turned in a very good game for seven innings, when he lost control and exchanged places with Lamar McLean at second base, who pitched the last two innings. Weaver's performance Sunday is deserving of more than passing interest, due to the fact he struck out 11 men in his seven innings and did not walk a man. For six straight innings from the second through the seventh one lone hit was all he allowed and it was of the fluke variety—a scratch single to right in the fifth. His loss of control in the eighth can probably be attributed to the fact that his team was behind all the time and he was having to bear down on every pitch. Except for the first inning, when they combined 3 of their 7 hits, he had the opposition eating out of his hand.

The third hit in this first inning was a hard hit ball that took a bad bounce by Kemper Dalton and scored two runs. This was not credited an error to the young man, who was playing his initial game of the first team and it may be said in his behalf that he played a good game in the infield and obtained one of his team's seven hits.

V. D. Adams, who has played a few games at shortstop for Goldthwaite, was in the pitcher's box for Evant and pitched a very good game. He struck out 5 Goldthwaite batters and limited them to 7 hits. He was beaten in the ninth inning, when Wilcox reached first on an error, advanced to second on an infield out and scored when Earl Tate came through with the hit that won the ball game. Adams also got two hits for his team, one of them was a double, the only extra base hit Evant got.

Lamar McLean pitched the last two innings for Goldthwaite without allowing a hit and striking out two batters. Weaver and McLean, together, got thirteen strikeouts. One notable feature of this game was that there were no walks issued and not a hit batsman on either team. In the opinion of the players Evant has the best team they have played against this season. The players also praised the Evant team for their sportsmanship and conduct on the field. Unified team-play is their main asset.

Totals scores for both teams are as follows: Goldthwaite—4 runs, 7 hits, one error.

Evant—3 runs, 7 hits, three errors.

Killed By Auto

Mrs. Carroll Sanders was struck by an auto in Post Sunday night and fatally injured, her death occurring Monday morning. Her two-year-old baby, which she was carrying in her arms, was badly hurt in the accident, but was alive at the last report.

Tom Gardner was arrested charged with being the driver of the automobile and was allowed bond in the sum of \$2500. He denied being the driver of the car.

Mrs. Sanders was a niece of Messrs. D. D. and Earl Tate of this city and the latter attended the funeral, returning home Tuesday night. Mr. and Mrs. D. D. Tate were prevented from joining the bereaved family because of the responsibility resting on him in business during the absence of Mr. Rowntree making it impossible for him to leave.

According to the details of the fatal accident, Mrs. Sanders had left the church in Post, carrying her baby out to quiet it. She was walking near the church building when the car struck her.

Gardner was wearing a pistol and is said to be in the state rager service. When arrested he was charged with driving a car while intoxicated.

Baptist Reminder

We certainly appreciate the co-operation of the entire community in furnishing us information in the way of religious census. I will furnish next week in the Eagle a brief of the religious status of our community. There will be some very revealing facts.

I am very glad to remind you that we had 213 present in Sunday school, including 15 visitors. We also had very splendid congregations at both preaching services Sunday. We had the largest number of young people present Sunday night that we have had.

I will preach Sunday morning at the 11 o'clock hour on the subject, "And Enoch Was Not." Sunday night I shall discuss the subject, "And They Brought Him to Jesus."

FRANKLIN E. SWANNER

BETTER TIMES AHEAD

There can be no doubt that there are better times ahead for the country, after passing through a depression the equal of which was never known in American history, or in the world's history for that matter, when its far-reaching effect is considered. Never has the condition faced the greater portion of the world of hunger among the populace while barns and warehouses were filled with food. Labor was without remunerative employment, while there was much necessary work to be done. Every feature of a depression has been felt and the condition was world wide.

But a great change has come and the change is due largely to the statesmanship and wisdom of one man—President Franklin D. Roosevelt, who has thrown the mighty resources of the government into the plan to defeat depression and bring back prosperity and happiness to the people.

Prices of products of the farm and ranch are going up, labor is again being employed and there is an optimistic song in the air. The world is coming back to normalcy and America is leading.

MISSIONARY SOCIETY

The Woman's Missionary Society of the Methodist church will entertain with a seated tea on Monday afternoon from 3:30 until 5:30 at the Methodist parsonage. All the ladies of the church are cordially invited to attend, as well as those who have no church affiliation.

PRESIDENT.

Jubilee and Races Planned

The board of directors and others interested in the Goldthwaite fair met in the court house Monday afternoon, in response to the call of President T. F. Toland, and inaugurated plans for a gathering at the fair grounds here some time in August. The exact date could not be fixed at this meeting, because of former plans for revival meetings to be held in July and the exact dates in August that will be open are to be ascertained.

The president appointed a committee to correspond with Roy Gray's carnival and ascertain what terms could be made on the concessions.

The plan now is to have a jubilee and races, rather than a regular county fair.

Right-of-Way Not Complete

The Eagle was mistaken in the statement last week that all right of ways for the highways 81 and 74A had been secured. The surveys have been made for these highways, juries of view have reported on 81 and on 74A from the top of the mountain east of Goldthwaite to the Brown county line and this right of way has been secured, with the exception of a short strip in the city of Mullin, but the jury of view has reported, estimating the damage and the money is on deposit to pay the amount, but negotiations are incomplete on the remainder of the highways. To be sure the county owns the highways as now in use, but the right of way over the new surveys has not been secured, and it is not until the court will agree to purchase all the right of way called for by the new surveys. However, the matter has not been closed and it is possible some changes will be acceptable to the highway department and the county.

FAMILY REUNION

Mrs. Bob Steen's brothers and sisters, with their families, came to Goldthwaite last Friday, June 16, for a reunion of the Ligon family. They all proceeded to the lake to spend the day. Dinner was spread at noon for the following: Mr. and Mrs. Ed Ross Ligon and children, Virginia Maud, Mary Ruth and Ed Ross, Jr., Mrs. Gerald Bryson and daughter, Ellen, Mr. and Mrs. John Jones and son, Billy, from Comanche, Mrs. Lee Jones of Cisco, Mr. and Mrs. Arville Blackshear and sons, Harrell and Joe, of Galveston, Mr. and Mrs. C. D. McKinley and daughter, Mrs. George Scott, Mrs. Daisy Blackshear and daughter, Nina, of Hamilton, Mr. and Mrs. Walker Ligon and Miss Lorene Moore of San Saba, Mr. and Mrs. Earl Summy, Mr. and Mrs. Bob Steen, Jr., Jim Bob and Jane Ann, Miss Charline Brim and Miss Louise Johnson, Floyd Ligon and Mr. and Mrs. Bob Steen of Goldthwaite.

That afternoon Mrs. Jim Brim and Mrs. W. B. Summy visited the party.

After a pleasant day of visiting, swimming and motorboat riding, they all returned to their homes.

A GUEST

ENTERTAINMENT

Mrs. Florence Conner and girls opened their home Saturday night to the members of the young folks league for an entertainment. The guests arrived early and in a very short time the house was filled with merriment. Numerous games were played and enjoyed by all. After quite a lot of exciting fun, announcement came that refreshments were ready and it was a jolly bunch that gathered around the long tables where delicious cake and punch was served to about 60 guests. At a late hour all departed, declaring they had had a wonderful time and wishing for another such occasion soon.

ONE PRESENT.

New Gulf-lube motor oil lasts 28½% more miles per quart!

TO MAKE THIS TEST, WE BORROWED 6 CARS—both new and old. Leading 25c oils were tested against Gulf-lube in each car. Gulf-lube stood up 28½% longer before a quart of oil had to be added!

Beats competing oils to a standstill in Speedway "burn up" test

FOR 4 days, 12 hours a day, 6 borrowed cars tested 4 of America's leading 25c oils . . .

And, with every step of the test supervised by the Contest Board of the American Automobile Association, here was the result—a result that amazed even the hard-boiled officials . . .

Gulf-lube beat every oil in every car! It averaged 28½% more miles per quart than the average of its competitors.

Switch to the "high mileage" motor oil. You'll say "give me a quart of oil" less often! And you'll get a better oil—the finest motor oil 25c ever bought! Get Gulf-lube at any Gulf station

News In Brief

Unannounced entertainment was found on the program of the convention of county and district clerks' association of Texas, when W. B. Kitts and his twin brother, W. Z., of Sulphur Springs, arrived. The brothers, county and district clerks of Hopkins county, are successful in their campaigns for office by using songs instead of speeches.
 A state-wide meeting of Texas printers has been called for June 26 in Dallas for consideration of the federal industrial recovery act. At the meeting it was planned to set up a complete state printers organization, in order that the industry may be ready to participate in the president's industrial program when permitted to do so under the laws of Texas.
 Contracts were signed Saturday for construction of a stainless steel train for the Chicago, Burlington and Quincy railroad, capable of traveling at 120 miles an hour. The train will comprise three cars built as an articulated unit. The train will have four wheel trucks instead of the normal six. The power unit will be a straight, two-cycle 600 horsepower motor.
 Discovery that mosquitoes are spreading a dreaded infectious brain disease among horses and mules in the Rio Grande valley adjacent to El Paso, has been made by the veterinary section of the army medical department at Fort Bliss, according to announcement. The disease, commonly known as the California horse disease, first broke out in the Rio Grande valley in New Mexico about a year ago. It was first reported in California in 1930 and by 1932 approximately 6000 horses had taken the disease and 3000 of the number had died. More than 200 horses died in the vicinity of El Paso from the disease last year.

A \$120,000 BIBLE

An idea of the amazing amount of money represented by literary and art treasures brought to America during the recent years may be suggested by the price of \$120,000 paid by an American collector for a Gutenberg bible, printed at Mainz, Germany, on the world's first printing press.
 This is said to be the highest price ever paid for a single book, but within a few years it may bring a great deal more. A similar bible sold for only \$2500 80 years ago.
 When J. P. Morgan, the elder, died in 1913, his art treasures were valued at close to \$100,000,000. His manuscripts included the originals of nine novels by Sir Walter Scott, Dickens' "The Christmas Carol," Thackeray's "Vanity Fair," and many works by Keats, Poe, Whitier, Longfellow and others. A single purchase of 700 books by Mr. Morgan in 1902 cost him a million and a quarter dollars.
 The late Henry Huntington left a collection for which he had paid about twenty millions. The finest collection of Shakespeare's works in existence is in the Folger library in Brooklyn.
 Europeans have long deplored the acquisition of their library and art treasures by Americans, but so long as they are highly prized by our wealthy men, they will continue to come to our shores.

CITY OF FIVE FLAGS

The distinction of having been under five different flags belongs to Mobile, Ala. In fact, it has changed flags seven times, as a brief account of its strange records will show.
 Founded by d'Iberville in 1702, Mobile was in French possession until 1763, when it passed to England by the treaty of Paris. It was taken by Spain in 1780, captured by the United States in 1813, taken by the English in the same year, and restored to the United States by the treaty of Ghent in 1815. It flew the Stars and Bars of the Confederacy during the civil war, after which it again came under the Stars and Stripes.
 The battle of Mobile Bay, on August 5, 1864, in which Admiral Farragut defeated the Confederates, was one of the principal naval engagements of the war, costing the Federals 335 men, while the Confederate loss was 10 killed, 16 wounded and 230 taken prisoners.
 Mobile was in serious financial difficulties during reconstruction days and lost its charter in 1876, which a commission was established to liquidate its debt of two and a half million dollars. A new charter was obtained in 1886. In recent years the city has made much progress and in 1930 had a population of 68,202.
 Pensacola, Fla., has also been under five flags, its history in that respect closely paralleling that of Mobile.

COTTONSEED MEAL SHOW INCREASE IN USE

A press dispatch states that a concentrate from cottonseed meal has been developed as a remedy for pellagra. It is probable that cottonseed can be effectively used as a remedy for other maladies, as well as an animal conditioner. A few handfuls in the feed for horses has been found beneficial, while as a food for cattle cottonseed meal is known to have few food superiors.
 A Cisco gentleman, Max Elser has found bread made of portions of cottonseed meal and wheat flour to be a remedy for diabetis. He has demonstrated its efficiency.—Cisco Citizen.

Henry Ford
 Dearborn, Mich.

 A COMPANY THIRTY YEARS OLD
 Last Friday the Ford Motor Company completed 30 years of automobile making.
 It is also my fortieth year at the same job. I made my first engine in 1893, and it still runs. This is the engine that won the Selden Patent Suit—which took the motor car out of the exclusive class, and opened the automobile industry to hundreds of manufacturers who started during the last 30 years.
 Some of the men who began with me that June day in 1903, are working here yet. All of the principles we laid down then, are still operative; we find that they have great survival value for the future. To date they have produced and sold over 21,000,000 Ford cars.
 Although we created the automobile market we have never thought it was good for anyone to monopolize it. We have always believed that before business could be good for one, it must be good for all. Our discoveries and improvements have always been open to other manufacturers without patent restrictions.
 Of course, there is one thing we cannot share—everyone must get it for himself—and that is experience. Money could duplicate our buildings and machines, but it cannot duplicate 40 years of experience. And it is experience that makes a motor car.
 But the past does not especially concern me; it has all been a preparation for the future. For myself, I feel that I have just been gathering the tools to do something worth while, and that my real task is still ahead.
 Great changes are upon the world. False ideas of every kind are vanishing in the general upheaval. Those who built truly on principle will survive—their service will carry over. Business integrity and commodity honor will be fully justified. And newer and better ways of living will appear.
 That is the outlook for this young thirty-year old Company of ours.
Henry Ford

The navy department has allotted 17 new ships for construction in private shipyards and announced bids will be open Wednesday, July 26.

Immediate action in securing a municipal power, light and water plant for San Angelo is sought in petitions now being circulated in that city and which will be presented to the city council soon.

A president of a state teachers college or any other employe of the state-supported school system "similarly circumstanced" is ineligible to be a delegate to the Texas national prohibition repeal convention, the attorney general's department has ruled.

Slot machines do not necessarily constitute a lottery, the Texas court of criminal appeals held this week. While condemning lotteries in strongest terms, the court reversed a conviction because the evidence showed only that the defendant operated slot machines.

The international cotton congress in London, representing 23 nations, has submitted a resolution to Prime Minister MacDonald, of England, urging a substantial rise in commodity prices as a paramount world necessity. The resolution also pleaded for early, universal "and equitable stabilization of currencies."

Governor Eugene Talmadge of Georgia Monday placed the state capitol under martial law and ordered removal of Capt. J. W. Barnett from the Georgia highway board. The action was the governor's reply to a civil action that has tied up funds he impounded. He has been engaged in a feud with the state highway board.

American bankers who have marketed German dollar bonds, of which about \$1,000,000,000 are outstanding in this country, have called a protest to the Reichsbank against the partial moratorium declared on transfer payments. The moratorium decree was issued June 8. The protest was directed against stoppage of certain payments July 1, under the decree.

Continuing its forward movement, business has so far given no indications of the usual slackening, said the Dun & Bradstreet Review Tuesday. Reports "emphasized increasing employment and advancing wages, with plans of summer closing abandoned, as orders make necessary a further widening of schedules." Many industries are booked well into early fall.

Triumphant in congress as no recent president ever has been, Franklin D. Roosevelt faces now the real test of his power to pull the country out of its slump. The legislative session which has just ended has given him all the implements he asked to combat deflation, unemployment, debt burdens and the myriad interlocked causes of depression. The men who are to translate into action the many daring new activities of government are at their posts ready to function or already deep in the task.

Average prices paid farmers have increased 25 per cent since the low point reached in February. The bureau of agricultural economics said that the average prices have increased since mid-May, when they moved up 17 per cent over averages on April 15. "In the past two months farm prices of grain rose 72 per cent and farm prices of cotton and cottonseed 35 per cent," the bureau said. At this season of the year, however, marketing of these products by farmers is relatively small, so that the rise in prices has not greatly affected the current cash income of farmers who produce these products.

A WAY TO CUT TAXES

Chantue, Kansas, a city of more than ten thousand population, has no city taxes for its citizens to pay.

While no Texas cities are yet able to dispense with city taxes because of the profits returned from their municipally owned utilities, there are 227 Texas municipalities which own at least one utility, and many own two or more.

These figures are cited because utility propagandists have flooded the country with misleading information about mismanaged publicly owned plants.

At this time the Reconstruction Finance Corporation is making self-liquidating loans to municipalities for the construction of utilities that will not be in competition with existing plants.

Municipal ownership of public utilities is definitely out of the experimental stage. Although in many instances privately owned plants are willing and able to render the same service for a reasonable price, in too many other cases the utilities have been exploited by holding companies, and their patrons made to pay the bills to provide excessive profits.

WOOL HAS GONE UP

A dispatch from Washington carries the exciting news that wool prices have gone up. Some bespectacled clerk in the Department of Agriculture's bureau of agricultural economics has discovered it, and the Associated Press has gladly spread the tidings to a depression-sick world.

Just how the bureau discovered the fact is not revealed. Possibly a slide rule and a table of logarithms contributed. Perhaps the crop reporters put it in a monthly report.

Yes, wool has gone up. But the wool raisers of Mills county did not have to wait until the news came from Washington to find it out.

The business men of Goldthwaite have also been able to get along without the encouraging news from Washington. They guessed something was up when sheep raising customers began to pay up old accounts and buy new suits of clothes.

PEACE FOR A DOLLAR

A great deal has been said by pacifists, professional and otherwise, about the money that is being made by the supporters of war.

Now, it seems, there is another side. In a full page advertisement in a Texas teacher's magazine, a frenzied appeal is made by a peace society for money.

The advertisement also points out how the organization has secured \$40,000 worth of bill board space free, how it has received free cables from the telegraph company, and how it has induced magazines with vast circulations to devote pages of space to distributing books on Peace.

Maybe so. But should Asiatic invaders, armed to the teeth, land on our shores, laying waste with fire and sword our homes and schools, we'd just a little rather meet one with a bayonet, or better still, a machine gun, even though we had never been properly introduced, than to show him our receipt for a dollar and a handful of posters and seals.

Verily, Peace hath her promoters, no less than war.

THE REALM OF SCIENCE A HUGE SUNDIAL

Airmen flying near the Washington monument don't have to look at their clocks or consult their appetites in order to tell what time of day it is.

The monument casts a huge, sharply marked shadow, and this shadow makes nearly two-thirds of a complete circle from sunrise to sunset.

Of course, no sundial gives strictly correct time—except at four times during the year. At other times sun time is either ahead or behind clock time—the difference being as much as 15 minutes either way.

People using sundials have a "correction table" which shows them how much to add or subtract from the time as indicated by the dial for each day of the year.

Not only is the shadow of the Washington monument a fairly good timekeeper, but it even can be made to show the time of year also. (This can likewise be done even with an upright pole.)

The New York Y. M. C. A. tests applicants for jobs by having them touch perforations in a revolving drum with an electric needle.

Prof. Jdarloff, a Russian chemist living in Paris, claims to have invented a tablet made of vegetable matter which will convert a gallon of water into a practical substitute for gasoline.

Traces of prehistoric man, found high in the Himalayas, cause the Yale North India expedition to believe those mountains are comparatively new, their upheaval taking place in the presence of man.

Moths cost the American public \$100,000,000 a year, according to the department of commerce. There is only one moth repellent dye on the market, and chemists are urged to discover others.

HEALTH HINTS

THYROID TROUBLE The thyroid is a double-necked ductless gland in the neck, which ancients compared to a shield.

Specialists generally call off three kinds of goiter—simple, adenomatous, exophthalmic. Simple goiter, which is the commonest type, may be transient. It is closely tied up with lack of iodine in the system.

drinking water indirectly cause goiter. Iodine in drink or food, he believes, kills such germs in the intestines. Theorists suggest that the present low incidence of goiters in the U. S., which the Mayos and other clinicians note, may be the result of the goiter scare last decade and the resulting exploitation of iodized salt.

KEEPING UP WITH TEXAS

The world's poorest shot probably lives in Dallas. Tiring of the cares and tribulations incident to life on the planet, the man fired two shots at himself Saturday—and missed.

A McAllen rancher owns a mare that has adopted two young calves. The mare will not allow the calves' mother to come near them, but takes care of them herself. The calves seem to be pleased with the arrangement and the three are getting along very well.

The Mexican Rio Grande valley's cotton crop, now in the picking stage, should amount to about 20,000 bales and the return to farmers should approximate \$1,500,000.

Palo Doro canyon, which cuts a yawning chasm across the Texas plains, known the nation over for their otherwise deceptive sameness, will become the site for camps accommodating 1000 of Texas reforestation recruits.

Whether an early special session of the Texas Legislature will be needed to co-operate in the national industrial recovery program will not be decided for "many days," former Governor James E. Ferguson announced for his wife, Gov. Miriam A. Ferguson, Saturday.

In Federal court for the southern district of Texas, Will Horwitz, a theatre man of Houston, was convicted of operating a lottery in the U. S. mails, in connection with his broadcasting station in Mexico.

Some estimable gentlemen who seem to think the matter important have been very busy lately polling the students of 500 American colleges in order to determine the attitude of youth toward war.

EDITORIAL COMMENT

VIEWS OF THE NATION'S PRESS ON TOPICS OF INTEREST AND IMPORTANCE

WELL—HARDLY EVER

The purification of the United States navy, a movement inaugurated by the missionary zeal of Josephus Daniels when he banished grog in all its forms from service vessels, continues apace.

It is, however, conceivable that this newest approach to Pinafore propriety will be less simple of enforcement than was the ban on the strong waters. A bottle of "redeye," either before consumption or afterward, has certain tangible and recognizable characteristics, but a blazing odor uttered in wardrobe or stokehole has about it an elusiveness which makes conviction for its crime a more difficult matter.

WAR NOT "COLLEGIATE" Some estimable gentlemen who seem to think the matter important have been very busy lately polling the students of 500 American colleges in order to determine the attitude of youth toward war.

Of those who voted at Chicago, 548 declared they would not participate in any war whatsoever; 346 stated they would serve whenever called upon, without reservations as to the origin and nature of the war, and 746 pledged themselves "not to participate in any war except in case the mainland of the United States is invaded."

The Chicago student body would appear to be more radically pacifist than the Yale students, 16 per cent of the whole enrollment at Chicago pledging themselves not to fight except when the country was actually invaded, as against but 6 per cent at Yale.

The essential inaccuracy of all such "surveys" is that they do not take into account the influences of circumstances on opinion. At best they show only that certain people think their course of action would be such and such.

Fort Worth Star-Telegram.

MUSSOLINI'S CONTRIBUTION

In Mussolini's four-power group of European super-nations France is outnumbered three to one. In any decision as to armament or security Britain and Italy would be aligned with Germany.

French safety is assured by the fact that the super-power pact has nothing to do with security in the French sense. It has been so modified that it is not applicable to frontier revision.

But it is not, any more than any other treaty of its kind, a definite insurance against war. It merely strengthens the force of the League of Nations, incidentally, and perhaps as an afterthought, it pledges the nations to co-operate in bringing European recovery.

Really the most remarkable fact is that a treaty could be devised satisfactory to all four of these powers. Mussolini's inception of the scheme was a daring stroke of genius, and his carrying of it to completion is indicative of unexpectedly liberal statesmanship.

BUSINESS INCREASE

Business in Coleman was thirty per cent better in May of 1933 than in the same month a year ago, a survey of business conditions here shows.

Commodity prices have given people in this area more encouragement than they have had in some time, the prices have given them more courage and a more optimistic view on conditions in general.

Although dry goods, lumber and oil seem to be leading the way back to recovery, practically

MADE NEW HISTORY

Extraordinary is a term the most fittingly applies to the session of the Congress which ended its labors Friday morning.

The hour that marked the session's convening was a separate one and called for decision, action, a test of new implements. The Congress met to challenge, matching the courage of the president with the strong measure of co-operation which the crisis urged, and merits for the people as sincere commendation as the executive voiced the hour of adjournment.

The nation has been served by the session's completion of the set-up by which constructive war will be waged for national recovery. It is well served by the adjournment of the history-making session. Interest of the administration can now be centered on the economic conference in London and upon the important business putting the mighty rehabilitation measures to work.

KEEP US ALIVE!

In these days of national adjustment every ray of hope, faith and courage is required to enable each of us to swim against the strong tides of life's demands. We cannot afford to cringe or retreat, as we, individually and collectively, wage war on human selfishness and greed—the two influences that have brought the great nation of ours to its present knees.

SAVE THE SHOES

Improvement to the local school campus will make it easier on shoes hereafter. Many wagonloads of sharp rocks have been taken from the ground and hauled away and a thick coat of rich dirt will be planted in grass seed.

all lines of business showed increase, the survey showed. There is not so much talk about "depression" now. Most persons are talking about the "New Deal" and the way back to normalcy.

Normal in all there seem to be new view of the entire situation with the "New Deal"—Coleman Democrat-Voice.

NEIGHBORING NEWS

ITEMS FROM LOCAL PAPERS OF TOWNS MENTIONED

Hamilton

Mr. and Mrs. John Berry were here from Goldthwaite Sunday for a visit with friends. They were accompanied home by Mrs. George B. Scott.

Mrs. L. C. Mathis of Lometa is visiting in Hamilton this week with relatives. She is a special guest in the home of her brother, Dr. C. C. Baker, sr., and wife.

Dr. Robert Fowler, prominent physician of Hamilton, left the city last Saturday night for Booneville, Ark., immediately after receiving a message informing him that his father, J. D. Fowler, had been slain at his home by a robber or robbers.

Mr. and Mrs. T. T. Brown and son, Olive Brown, and wife, and Tom Price, brother of Mrs. T. T. Brown, attended the funeral near Goldthwaite, on Monday, of Mr. Brown's brother, Charley J. Brown, who expired suddenly Sunday afternoon at about five o'clock, while sitting chatting with a neighbor.

George M. Carlton has in his possession a priceless relic in the form of a heavy green gold watch chain with silver fob on which is engraved the name of his father, Dr. F. M. Carlton, Carlton, Texas, and the name of the chain manufacturing company in Arkansas, which made the chain. The relic was given to Mr. Carlton by a farmer, Mr. White, of the Carlton community, who found the chain while plowing in his field a few days ago. Mr. Carlton said the chain had been lost at least forty years and is some sixty years old. Both the chain and fob are in a perfect state of preservation. He says that it is his guess that his revered father lost the chain while hunting.

Mrs. W. B. Claunch received a sad message on Tuesday of this week bring the news of the death of his home in Melrose, J. M., of Rev. R. R. Raymond, who was the husband of Mrs. Claunch's sister, who before her marriage to the minister was Miss Lottie Valliant, daughter of the late Dr. J. T. Valliant. Rev. Raymond and Miss Valliant were married in the Evergreen community, in the Valliant old home. The minister was widely known as an evangelist and held revival meetings in Hamilton county. Many friends will remember him and will regret to learn of his death. Rev. Raymond was 75 years of age and had been sick a number of months. Besides Mrs. Raymond the reverend gentleman is survived by five children, all of whom reside in the state of California. — Record-Herald.

Comanche

A letter from a misinformed applicant for a job as teacher in a Comanche colored school, was received this week by County Superintendent R. S. Walker. (Comanche never had a negro citizen.)

With delegations present from every interested town from Abilene to Temple, an organization in the interest of highway 36 from Abilene to Houston, was perfected at Comanche Thursday.

The city council Monday let a contract to Y. W. Holmes, local attorney, for collecting delinquent taxes. Approximately \$19,000 is due the city of which approximately \$15,000 is secured by real estate.

J. B. Chilton, president of the Comanche National Bank and for 53 years a successful business man in Comanche, died suddenly at his home in Comanche about 11 o'clock Thursday morning, June 15, from a heart attack.

Wallace Aiken, given two years from Comanche county for the alleged theft of a saddle a year ago, was granted a full pardon this week by Governor Miriam A. Ferguson. Aiken was also pardoned for a burglary sentence given him in February, 1932, in Llano county.

The bond of Oliver Walker, given ten years from Comanche county in the April term of district court in 1932, for the alleged robbery of the Proctor State Bank, was ordered forfeited by District Judge Bates Cross last week. Walker's sentence was recently affirmed by the Court of Criminal Appeals and his bondsmen were notified by the court to deliver him to the Comanche county officers. When they failed to do this within the specified time, the bond was ordered forfeited.—Chief.

San Saba

Miss Billy Weatherby of Goldthwaite is here visiting Miss Johnnie Weatherby this week.

Prentiss E. Dickerson is an old Cherokee boy. Last week he was elected head of the city schools in Weslaco, down in the valley.

Plans are being made to give San Saba and surrounding counties a two-day pecan school Tuesday and Wednesday, June 27-28.

J. P. Taylor, living near the Rector-Kuykendall dam, had a mule killed by lightning during the electric display Sunday night.

Mmes. W. F. Luckie of San Saba and Cora Ford of Scallorn returned Sunday from a visit to their sister, Mrs. A. J. Wise, at Moran. They report Mrs. Wise somewhat improved, but in very poor health.

Mrs. Ben Small was painfully hurt last Saturday about 11 o'clock, when the automobile she was driving skidded on the gravel road between the Miller Lake and Colorado river bridge. The car skidded, turned on its side and back to running position. Mrs. Small's left arm was caught and badly crushed and lacerated and the body bruised.

The social life of San Saba was all agog last Sunday morning, when the "June bride" wave reached its climax with a pretty double wedding solemnized in the First Baptist church. In this Miss Phinetta Morris became the bride of Richard L. Johnson and Miss Ruby Alexander became the bride of Cyrus J. Terry. —News.

Lampasas

Mr. and Mrs. H. D. Vernor of Waco spent the week end here visiting their mothers, Mrs. J. E. Vernor and Mrs. H. R. Barber.

The churches of the Lampasas association are planning to send a car to Buckner Orphans' home the first of September. The Lampasas Baptist church will furnish cans for anyone who will fill them.

Mr. and Mrs. George Gartman and two children, George, jr., and Katherine, and Miss Mary Lee Moore, left Monday by automobile for Chicago to attend the world's fair. They will probably be gone at least ten days or longer.—Leader.

This week has witnessed much work and considerable progress toward the final securing of a state park for Lampasas. The tract of land, known as the Pope place east of town, has been secured and will be deeded over to the state when it is finally accepted.

The local committee submitting projects for Lampasas, consisting of R. J. Paine, Chas. Wachendorfer, R. E. Rawls and G. Tom Bigham, went to Austin Wednesday to make tentative applications and find just the projects that the state committee would endorse and approve. Seven or eight projects were submitted to the committee at Austin and tentative undertakings by this city and county. — Record.

News of the Week

President Roosevelt last Saturday signed the Texas centennial bill providing for coinage of \$1,500,000 in silver half dollars in 1936 with a special engraving.

The largest group of deep producing oil wells in the world are the 13 which are located on a block of 194,000 acres of land owned by the University of Texas in Reagan county.

Forty thousand dollars is the amount asked for by the citizens of Richland Springs from the Reconstruction Finance corporation funds to use in the construction of a modern water system and a cold storage plant for that town.

A young Dallas desperado has a good many years in prison before him—263, to be exact. His latest was for murder. Tried in Hillsboro, he was assessed 99 years. Other sentences include 99 years for bank robbery at La Grange, 30 years for bank robbery in Dallas county, 25 years for a stickup in Tarrant county and 10 years for automobile theft in Fort Worth.

Underworld machine gunners shot and killed four officers and their prisoner, Frank Nash, Oklahoma train robber, in front of the Union Station in Kansas City Saturday. One federal officer was seriously wounded. Officials believe the attack was an attempt to free Nash, who was being returned to the Leavenworth federal penitentiary from which he had escaped.

Spokesmen for the million union workers on America's 201 Class 1 railroads, declared today they would ignore the demands of their employers for a 22 1-2 per cent reduction in wages to replace a 10 per cent temporary "deduction" in effect at present until November 1. The railroads in demanding the reduction last week, declared themselves united 100 per cent in their demand and would make no concessions.

The legislative Yuan of the Chinese Nationalist government has ratified the United States Reconstruction Finance corporation's \$50,000,000 loan to China. The legislative body made two recommendations: First, that a board of trustees be formed to hold the funds and supervise the appropriations. Second, that the entire loan be used for productive purposes, such as development of industries, agriculture, waterworks and communications.

Secretary Wallace announces that the maximum processing tax on wheat, about 30 cents, will be levied to finance an acreage reduction program under which benefits of approximately \$150,000,000 will be paid farmers this year. His program for wheat will cover a period of three years. Pending the outcome of the London wheat conference with delegates from the United States, Canada, Australia, and Argentina, the percentage of acreage reduction to be asked of wheat farmers in 1934 and 1935 is undetermined, but Wallace said that in no case will it exceed 20 per cent.

ering in the Central Texas hospital, Brownwood, from an automobile accident in which his left arm was completely severed. The accident occurred Friday of last week.

Turkey growers in McCulloch county have realized more than \$5000 from 55,000 turkey eggs sold to northern hatcheries this season, according to the county agent of McCulloch county. This is the second year of operation in selling turkey eggs. Last season about 25,000 eggs were sold during the season.

The city and county governments, the water improvement district, the local chapter of the Izaak Walton league and others who have been working independently to secure federal funds for Brown county development will be requested to work together in order that their applications may be grouped into one request for the entire county.

Peace reigned over the lake Brownwood waterfront this week, after a controversy over fence lines which reached the heights of fist fights and court action before subsiding. The fence constructed across the old Brownwood-Cross Cut highway as it approaches the lake was torn down, in accordance with orders from the commissioners court.—Banner-Bulletin.

ARGUS PADGETT

Last Thursday morning the death angel swung low his chariot in our community and took from our midst a very beloved brother and friend, Argus Padgett.

He was born in Leon county, May 22, 1907, and was laid to rest in Lower Big Valley cemetery June 15, 1933, thus being 26 years and 24 days, when death came. Rev. J. M. Hayes conducted funeral services at the cemetery.

Surviving are six brothers. Three live at Arlington: Vernon, Elmo and Sam, and one brother at Dallas, and Ashford and R. T. at Big Valley, and two sisters, Mrs. Amos Sheppard of Big Valley, and Miss Opal of Dallas.

Pallbearers were friends of the deceased: Connie Knowles, Leeman Reagan, Garland Patterson, Ernest Thorne, John Warlick and Ellis Smith.

Our heart goes out to this bereaved family at the loss of their dear brother. A true friend and character has crossed over the river to rest under the shade of the tree of life. A FRIEND.

APPORTIONMENT POSTPONED

The state board of education has postponed consideration of the state per capita apportionment until July 31, in order to obtain a ruling from the attorney general regarding absorption of the \$4,500,000 deficit in the state available school fund.

Word had come to the board that the deficit must come out of the funds for the ensuing scholastic year. Board members in the meeting at Lubbock Saturday indicated that should a ruling from the attorney general call for absorption of the deficit from the ensuing year the matter would be taken to the supreme court.

The board devoted much of its time in consideration of applications for purchase of school bonds, both for refunding and for new construction. With only \$152,000 available the board had to consider applications for purchase of more than \$2,000,000 worth.

Overcome Pains this better way

WOMEN who get into a weak, run-down condition can hardly expect to be free from troublesome "small symptoms."

Where the trouble is due to weakness, Cardul helps women to get stronger and thus makes it easier for nature to take its orderly course. Painful, nagging symptoms disappear as nourishment of the body is improved with the assistance of Cardul.

Instead of depending on temporary pain pills during the time of suffering, take Cardul to build up your resistance to womanly ailments.

Thousands of women have found relief by taking CARDUL. Sold at the drug store.

A group of American manufacturers, through the American Manufacturers Export Association, is planning a \$5,000,000 bank to finance barter with South American countries and to liquidate large sums of frozen credits. The bank, formed under the Edge Act for financing foreign trade, would be used to meet the steps England and France have taken to solve the frozen credit situation and provide means for financing which large United States Banks are not disposed to offer at this time. It also is designed to increase foreign trade.

REFORESTATION CAMP

To the Eagle Editor and Mills County Friends:

Here comes a letter from a member of the C.C.C. We left for Waco May 19, in dad's car, arrived feeling fit and fine. That would not answer the requirements of the government. They gave us two physical examinations, a good supper, lunch to eat en route and away we went to Camp Bullis, San Antonio.

For fear some defect, perchance, was overlooked, another examination was in order. Then to headquarters for clothes (which by the way are not tailor made). We there took the oath of C.C.C. (civilian conservation corps). Next we were taken to camp, where we were put to work, learning to pitch tents, keeping them clean and in order, as in all camp life.

After a few days we were told to be ready for another change. At the early hour (even for farm hands) of 3:30 a. m. we boarded trucks for town, where at four o'clock we started for Arizona. It was a 26-hour ride. We were comfortable in chair cars, which also served as berths. Had our meals on the train.

We reached Sonoita at noon, had a good dinner, another truck ride to camp grounds, where we went to work pitching tents and fixing up living quarters.

We hear a rising bell at 6:15, breakfast at 6:30, roll up our bunks, clean up our tents, report for orders for the day, and board trucks at 7:15 and away we go.

The work we are doing is building road with pick and shovel. We live eight miles from Box canyon, that makes actual working hours five, two to go and come. A number of the boys are leaving. I do not find camp life so hard. It takes spunk to put over anything.

Regards to the folks back home. VANCE COCKRELL.

MIDDLE DEFEATS BOTH ENDS

The reception which big business gives the enactment of the industrial recovery act is heartening to those who are hopeful that this drastic legislation will accomplish a fair measure of its aims—more employment and a speedier return to prosperity.

The recovery act points American business sharply away from the conditions which produced the former feast and famine succession of boom and panic. Without destroying or unreasonably curtailing private initiative and individual enterprise, it strikes sharply against the business anarchy of dog-eat-dog competition, feverish price wars and other conditions at which industry has for years protested, but has so far been unable to control through its own efforts.

The roll call in the senate which completed passage of the recovery act is illuminating. Opposed were the extreme conservatives and the radicals. Fess of Ohio, Reed of Pennsylvania were lined up with LaFollette, Wheeler and Huey Long. Backing the bill were the middle of the road men, most of them Democrats, but also five Republicans without whose support the measure would not have passed.

When extremists of both wings unite in opposing a piece of legislation it is a pretty good argument that the bill is a sound expression of sane moderation. Enworks funds in Texas has pre-spirit the industrial recovery law should open the door to a better deal for all those concerned with American industry. —Cleveland Plain Dealer.

REAL TEST OF ACREAGE REDUCTION

The folly or wisdom of destroying growing cotton in the fields as a means of reducing acreage, cutting down production and bettering the price of the staple is no longer a question to be debated. A test of it by actual employment of the radical measure is at hand if the farmers of Texas and other cotton growing states move with readiness to co-operate with the government's plan and in sufficient number to retire 10,000,000 acres from production this year.

It is made more difficult to assure such a tremendous reduction in acreage because the drastic proposal comes late and the crop is well advanced in Texas. Notwithstanding the difficulty, supervisors of the reduction campaign and local control committees have been named and intensive drives will shortly be under way in all parts of Texas.

The idea faces its acid test. The method has been deemed unworkable when it has been broached in other years. That was due to belief that farmers could never be induced to adopt it in sufficient numbers to make it count for anything as a factor in reduction. Now that compensation will be made for acreage retired from production, the attitude of the producer may be more tolerant. A real test of the method is at least to be desired. That alone will demonstrate its effectiveness or the lack of it.—Dallas Journal.

News In Brief

More than \$5,000,000 in taxable valuations were lifted off Cameron county farms by order of the commissioners court at its meeting there this week.

A total of 1175 Texas war veterans will be accepted for enrollment in the civilian conservation corps, according to an announcement made at Fort Sam Houston.

The court of criminal appeals Wednesday ruled that state courts do not have jurisdiction in cases where embezzlement is charged to employes of federal reserve banks or member banks of the federal reserve system.

The 50,000 employes of the General Electric company in its plants in various parts of the country will receive a 5 per cent increase in wages, effective July 1. Announcement of the increase was made at the offices of the company in New York.

Still weather-bound at their isolated Priblof island base, two navy airmen awaited clearing skies before starting a search for Jimmy Mattern of San Angelo, round the world flier, missing since he took off Wednesday from Khabarovsk, Siberia.

Widespread reductions in class of Texas postoffices was ordered Tuesday by Postmaster General James A. Farley, as he continued his efforts to cut expenditures. The drop in rating will add a substantial reduction to the present 15 per cent cut in salaries for the postmasters at these cities.

Police and private detectives have redoubled their efforts to capture the abductors of William Hamm, millionaire St. Paul brewer, who was returned to his home early Monday after being held prisoner almost four days. Hamm is giving police all assistance possible, although the amount of ransom paid for his release was not made public, but is believed to have been \$100,000.

The former German kaiser had a narrow escape from death while motoring in Holland, it was revealed Wednesday. His automobile was crossing railroad tracks between Amsterdam and Haarlem when the bars were let down automatically at the moment when Wilhelm's motorcar was on the tracks. One of the heavy bars hit the machine, damaging it considerably. The chauffeur was able to move the car from the track only a few seconds before a train hurtled past.

HISTORY STILL IN THE MAKING

History is still in the making. Today we are living in the most eventful time in all history. Old ways, old standards and old systems no longer can survive because they do not meet the needs of the day. No business, no community, state or nation can defy the law of progress by moving backward a generation. Progress and prosperity demands the cutting loose from all hampering precedent, and uniting our forces unselfishly to clear the ground for a new era.
