it is a much needed rain. We all
hope it will continue until there

Let everyone that reads these

A SUCCESSFUL OPERATION
The friends here of Mr. and
Mrs. Leonard Doughty and fam-
ily are glad to know they have
returned to their home in San
Antonio, after an extended trip
through the north and east. The
principal object of their trip was
to visit Johns Hopkins hospital
in Baltimore and have an opera-
tion on Mr. Doughty's eye for
the removal of a cataract. The
operation was entirely success-
ful and he writes that he is now
able to read twelve hours a day.
They also visited his son,
Leonard, who is teacher of
French in the United States
military academy in Annapolis,
Md., and has the military rank
of lieutenant. Leonard spent the
greater part of his childhood in
Goldthwaite and the friends of
the family will be interested in
knowing that he has such a
vivid remembrance of the peo-
ple here that he recalls readily
nine-tenths of the number

Bank Buys Bonds

The Goldthwaite National Bank recently voted to purchase \$500,000 of bonds for the purpose of providing a fund for the improvement of the highway system in the county. The bonds are for \$20,000 each and will run for thirty years, at a rate of 5 per cent interest.

Methodist Notes

The Methodist young people's meeting got off to a good start last Sunday. It is to be hoped that this work, so important in all things, may grow to the point of usefulness that is so much needed and desired. Too much emphasis can not be put upon this feature of church work. The young people need the church life and the activities that should go with it. Yet, I fear that this fact is emphasized, while another feature of it is neglected. True, the young people need the church, but it is also true that the church needs the young people. With reverence, let it be said that God needs the young people. He can not carry on His work without them. As a matter of fact, the crying need of this age is a consecration of our youth to the ennobling purpose of aiding God in the conquest of the world. The church needs the enthusiasm, the energy, the consecrated purpose of our youth to lead the battles of the perilous age. We need the same spirit in this holy warfare that characterized our youth a decade ago, when the world was darkened by the clouds of bloody war. It will take this to conquer.

Commissioners Hold Sessions

Commissioners court has held several short sessions the past two or three weeks, endeavoring to get the highway rights of way perfected to where the highway commission can contract for construction. At the session this week it was announced the right of way for 74a had been purchased from Lampasas county line to the Cryer mountain, south of the city limits. The highway commission asked that this much of the right of way be procured, in order that a contract could be let for grading. There are two surveys from the public square to the Cryer tract and it has not yet been determined which survey will be adopted.

Poll Tax Payment Falls Short

The county tax collector's office issued 1490 poll tax receipts up to the close of business Jan 31, which is several hundred below the number issued last year, but it being an "off" year in politics many did not take much interest in securing the voting privilege. However, when the voters and unders are counted, the county can vote approximately 2000, which is fairly good for a non-political year.

Commissioners Hold Sessions

The court also decided to appoint a county planning committee, to meet the requirements of the national public works commission in securing public funds for any projects adopted. The court appointed one committee man from each precinct and one from the county at large, to co-operate with the court in outlining county projects and applying for federal funds to complete them. Those appointed are: For the county, W. Marsh Johnson; precinct No. 1, W. C. Dew; No. 2, H. R. Collier; No. 3, E. A. Kemp; No. 4, Reid M. Haynes.

Many Checks Still Expected

All of the livestock checks have been received by the county agent and have been distributed and a great many hog-corn and other payment checks have been delivered, but a large amount is yet due for 1933 plow-up options and second payment on hog-corn contracts, and no parity checks have yet been received. They will all be paid in time and those to whom they are due have the satisfaction of knowing they are sure to come. A few of the plow-up checks have been received by farmers to whom they are due. They are sent direct to the farmers by the department.

Baptist Reminder

I returned the first of the week from San Saba. I had an enjoyable time with Bro. Taylor and his fine church. We never accomplish what we would like to in a meeting, but I feel the meeting was a great help to me and the people at San Saba felt that some things were accomplished. I was glad to know that Bro. Taylor's message was well received. I have heard several say that Bro. Weaver brought a very interesting message Sunday evening.

Fine Rain Falls Right

Rain commenced to fall here Wednesday afternoon and continued at intervals through the night and throughout the forenoon yesterday. It fell right to penetrate the ground and where the land had been broken it was of extra benefit. It also did great good to the small grain fields that had been replanted after the recent freeze, which killed most of the small grain.

Supt. A. H. Smith of the Goldthwaite school system was elected president of the Mid-Texas Teachers association in their meeting in Brownwood last Friday. HIGHWAY IMPROVEMENT

A \$50,700,000 construction program of roads, streets and grade separations for Texas has been presented to the finance committee of the United States senate by highway advocates as a sound way to employ part of the huge federal public works fund. The Texas program is part of a nation-wide plan worked out by road leaders from many states. They listed for the committee 23,192 specific projects, to cost \$1,700,000,000, which the various state highway departments can initiate immediately or within the year.

MISSIONARY SOCIETY

The Woman's Missionary Society met with Mrs. Eva Ligon on last Monday with twenty-one present. It was the regular business meeting, but Mrs. Kate Marshall gave a chapter on our new study, "Foreign Neighbors." Then the business of the afternoon was transacted, after which Mrs. Ligon, assisted by Mrs. Carl Keese, served delicious refreshments.

PUBLICITY CHAIRMAN

This seems to be the only definite and detailed plan advanced thus far by any agency for unemployment relief under the terms of the present bill. Aside from their revenue-producing power and enhancement of community values, highways gave more employment last year, dollar for dollar, than any other type of public work, employing some 1,903,000 men.

Basket Ball
 Yesterday afternoon Mount Olive came over and played ball with the Eagles.
 Eagles won by a score of 17. At the end of the first half the score stood 8 to 5 in favor of Goldthwaite. At the end of the second half, still in favor of the Eagles. At the end of the third period, the tally stood 16-12, in Goldthwaite's favor. The last quarter Mount Olive scored five points and the Eagles scored three to win by the final score of 19-17. Needless to say that the game was fairly close, although Mount Olive boys never gained the lead.
 Last Thursday the Eagles defeated the Goldthwaite Buzzards by a score of 19-17. The team of Goldthwaite. The stars have a good team and will play anybody, anywhere, on a two-day's notice beforehand.

The Observer
 By Vergil Howard
 The first scene is taking place in a town in the early morning hours, around 7 o'clock. Down the sidewalk comes the young man I'm about to describe for you. He's a senior boy, has black hair, hazel eyes, weighs about 150 pounds. He is about five feet and eight inches tall. He was a member of the football squad last year. He seems to "moon" over a certain little freshman a whole lot (well practically all the time).
 The second scene takes place around 9 o'clock at school. In comes the boy in question. Of course he is a half hour late, but that's nothing unusual—it happens five days a week. Who is he?

The boy described last week was Harold Yarborough.
 The girl I'm going to describe this week is a member of our beloved senior class. She has light brown hair, brown eyes, weighs about 118, is about five feet, four inches tall. She was a member of the pep squad last year, and they say she was one of their most loyal members. She will be among the seniors eligible for graduation this year. She is well liked among the members of her class, and she certainly has a pleasing personality which wins her many friends.
 Who is she? The girl described last week was Daphane Evans.

Volley Ball Girls Organize
 On January 28, the volley ball girls met to organize a team. After the house was called to order by our coach, Mrs. Barnett, the following officers were elected: Captain, Ileta Sheppard; first sub-captain, Irene Ray; second sub-captain, Alleen Stark; secretary-treasurer, Alice Doggett; reporter, Mary Horton.
 The three captains chose the following players for their teams: First team, Fleeta Sheppard, Juanita Sanderson, Mary Horton, Ila Mae Scrivner, Doris Saylor, Oleta Horton; second team, Irene Ray, Jewel Smythe, Agnes Johnson, Clara Mae Huckabee, Florence McDermott; third team, Alleen Stark, Alice Doggett, Vivian Cortis, Dorothy Fryer, Guilda Lee Horton, Izetta Featherston.

These teams will play against each other here at school, and want to go to other schools and play also.
 We have started training for the Mills county interscholastic league meet, and expect to win honors for our school.

The Utility Problem
 For several years the utility question has been bearing heavily on the minds of the people.

Most of the utilities are furnished to the people by large corporations, which are owned by the wealthiest companies of the land. In many cases one of these companies will furnish several states and in this way they gain a monopoly in that state, because they are able to sell to the people at a cheaper rate than the local company. By doing this they run the local man out of business. Where the local merchant has been run out, the large company has a monopoly in that town and can force as high rates as they wish upon the people.

That is the problem that must be solved. The country as a whole, is not able to pay high rates and there are very few men who are able to be forced out of business. These big utility owners are becoming rich off of the people and then many will try to evade the taxes and the restrictions which are placed upon them. One good example of this is the Samuel Insull case. He was evading the income tax and when the government caught on to his game, he ran from the country and traveled all over the United States authorities. He probably enjoyed his trip and all of that, but where the rub comes is that the United States had to send men after him. This is only one example that may be given of where the utility people are trying to defraud either the people or the government.

Why not either let the government own or control these utility plants, and by so doing make the profits themselves. When such a plan is suggested, there will probably be a howl of socialism raised, but do you call it socialism when something is done for the betterment of the middle class of people?
 The way to remedy the situation that we are now in is to watch the elections and put those men in office who will pledge themselves to the people and not to the utility people. In order to put the right man in office it will be necessary to study the ballot, because many men will run for office on money, furnished by the utilities.

Honor Versus Gold
 By Vergil Howard
 If someone were to tell you that you were worth a million dollars, you would in all probability think they were either crazy or just kidding you. If you would only stop to give the question a second thought, you would readily agree with this person. Don't you enjoy good health? Would you sell your physical abilities and become a total wreck for the paltry sum of a few dollars in gold? The one thing that every person should pride and do their best to keep is "honor." Have you ever stopped to think how much that one word means? A man or woman is never poor if they still have honor. A person's honor is worth more to them than all the gold in the world. Would you be willing to sell your honor and let the whole world know that "honor" was an unknown quality in your make-up?

From the time of the creation of man until our present day, men have sold their souls to evil temptations to appease their avarice for gold. Today we read in all the papers of the end of such persons, who were willing to sell their personal honor.
 It has been said that women have caused thousands of men to either lose or sell their honor. Maybe this is true, but a man is no greater than the woman he associates with. Women can either raise a man or drag him down. A good woman, intelligent and with the interest of her husband at heart can raise a man from a very low position to the ranks of high society. A bad woman can only lower a man. Wreck his life and that of his family. She can bring a man from the highest place in society to the slums in a very short time.

Always remember that you are wealthy if you still have your honor, because you certainly

can't buy it back once you have sold it.

SENIOR PLAY
 By Mary Louise Fairman
 The senior play has finally been selected by the class advisors. The play is a three-act comedy, "Reach for the Moon," by Lindsay Barbee. The action takes place on a dude ranch in a western setting. The ranch is managed by an English dude and all through the plot runs a vein of romance as well as a tangled web of mystery.

There are fourteen characters in the cast, but the sponsors have not yet selected the persons to personify these characters. The play will probably be presented to the public in March or April. Watch for the date!

Mid-Texas Teachers' Ass'n.
 By Naomi Langford
 The Mid-Texas teachers association celebrated their twenty-eighth anniversary at Brownwood, February 1 and 2. There was the grand attendance of 1500 teachers present at this meeting.

Some of the outstanding leaders present were: State Superintendent of Education Woods, Dr. Fred C. Ayer, University of Texas, and Supt. C. N. Shaver, Huntsville.

The principal theme discussed was the modernizing of schools and curriculum revision.
 Supt. A.H. Smith was appointed by the state board of education as district curriculum chairman for district fourteen.

The Mid-Texas teachers association will meet next year at Brady.
 The thing of which the student body and, for that matter, all of Goldthwaite may be proud, is that Mr. Smith was elected president of this association for the following year.

Around the Supper Table

Questions from last week:
 Q.—When do American women become of age?
 A.—Under common law a woman attains her majority at the age of 21. In more than a third of the states, a state law or the constitution decrees that a woman is of age at 18.

Q.—What is the total amount of taxes paid in the United States?
 A.—The United States chamber of commerce estimated that the total taxes paid in 1934 amounted to \$9,000,000,000.

Q.—When and how did the expression "o'clock" originate?
 A.—Under the old Babylonian system of computing time, the day and night were divided into twelve hours each. As the seasons changed the hours of the day or night grew longer or shorter. When the clock was invented, the hour became fixed. When speaking of time recorded by the clock they would say "of the clock." This was later shortened to "o'clock."

Q.—Are there any distinctions made between right and left-handed soldiers?
 A.—No. All movements must be uniform, so all soldiers are taught to use arms right as well as left handed.

Questions to think about:
 Q.—How many people are actually represented by each representative?
 Q.—How many world war veterans hold bonus certificates?
 Q.—How far does the earth travel in a day? A year?
 Q.—How is snow counted in reckoning the annual rainfall?

Fifth Grade

The fifth grade students have finished their mid-term exams and are ready for another half term. Mr. Hein hopes all of his pupils will work harder than they did before, so they will make better grades.

Third and Fourth Grades

Quite a number of students from the third and fourth grade room are absent this week, because of sickness. We're hoping they will be back soon.

Mid-term exams are over and we wish to begin with new resolutions to do better work the second half than we did the first half, if possible.

Wanda Langford has moved to Indian Gap, where she expects to enter school. We regret losing her very much.

We invite everyone to come to the tournament next Saturday. We are looking forward to an enjoyable, as well as a profitable day.

Primary News

Billy Shipp is the proud owner of a mounted prairie chicken.

Wanda Humphries, Rosa Lee Steinmann, Edward Jeske and Merlene Dearson, were on the spelling honor roll Monday.

Al Geddes Langford, a second grade pupil, moved from our community last week. We regret the loss of Al Geddes very much.

Boys Sports

Because it would be their last game until the tournament next Saturday, Mr. Grimland turned the ninth, tenth and eleventh grades out and they all went to Pottsville to see the Pups defeat the Pottsville boys 22 to 21.

The Pups gained a lead during the first half, but began to lose during the fourth quarter. Grafton Townsend, not being used to the single post goals, hit one as he endeavored to hold himself and injured his leg. However, he did not quit playing.

The Pups are not going to play the rest of the week in order to be in good shape for the tournament, which is to be held here Saturday, February 9.

Girls Glee Club

The girls appeared on the stage at Goldthwaite Tuesday evening, January 29. They sang Memories and Mr. and Mrs. Is the Name. They did not get to practice last week, because everybody was busy taking examinations.

Home Economics

The home economics club girls will soon take up clothing. They are now working on their notebooks and will thoroughly clean the laboratory before going on with clothing.

Civics Club

The civics class will have questions daily on the constitution until it has been thoroughly gone over.

Girls Sports

The Priddy basketball girls played a game with Mount Olive last Friday. The score was 9 to 5 in favor of the Priddy girls. There was not one who fouled out during the game. Half of the game was played in two division court, while the other half was played three division.

The following players were in the game for Priddy: Edna Lubke and Mildred Mason, forwards; Louise Koch and Jewel Bramblett, guards, until Viola Gimmer played guard in Jewel's place; Irene Gromatzky, jumping center, and Velma Bufe, running center. The players did their part in playing and those who did not play, did their part in yelling.

The girls enjoyed playing the Mount Olive team and hope for another chance.

CHRISTMAS WEDDING REVEALED TO FRIENDS

The many friends of new Sheltan and Miss Dimple Beshears were surprised to learn the last week that the happy young couple had taken a trip to the altar during the Christmas holidays. They were married Dec. 26, at 6 o'clock p. m. by Rev. L. J. Vann, an uncle of the groom.

The impressive ceremony was witnessed by Mr. and Mrs. Glenn Kittle and Joe Francis Ivy. Immediately afterwards, the party motored to Brownwood for a short trip.

The attractive bride is the daughter of Mrs. Addie Beshears. She is a young lady of culture and refinement and quite adept in the art of home-making.

The groom is the son of Mr. and Mrs. A. F. Shelton, prominent citizens here. He is a progressive and outstanding young farmer with a wide circle of friends.

Both these young people were reared here and are graduates of Mullin high school.

They will make their home on the Shelton farm north of Mullin.

As this happy young couple start their voyage on the highway of married life, they carry with them the best wishes of their many friends.

LARGEST REPRESENTATION FROM MULLIN CHURCH

The Methodist church of Mullin had the distinction of being better represented than any organization in this conference at the First Methodist church in Brownwood Friday, where the church educational program was held.

The trip was well worthwhile, for it was a privilege to listen to Bishop Boaz, Dr. King Vivion, president of Southwestern University, Georgetown; Dr. R. G. Boger, president of Weatherford college, and Dr. C. C. Seelman, president of Southern Methodist University; also Dr. C. Q. Smith, president of McMurray college, Abilene.

Friday's large attendance was also complimented by the Chairman, Rev. W. W. Ward, as it surpassed, according to membership, the group meeting in Waco the preceding day and the meeting in Dallas on Wednesday.

A turkey dinner was served by the ladies of the church in the basement at the noon hour and Dr. C. C. Seelman delivered his address at that hour.

PROMINENT PIONEER OBSERVES BIRTHDAY

Mr. and Mrs. T. A. Crockett of Ballinger honored her father, Mr. J. A. Fletcher, with a lovely birthday dinner Sunday, celebrating his 81st anniversary.

The hospitable home was effectively decorated and good cheer and gaiety radiated over the entire party.

The honoree had his picture taken with four generations, that will be a treasure to all the family.

In the afternoon about 100 friends and neighbors including Mr. and Mrs. Crockett's pastor and wife, called and had cake and tea and brought many gifts of love and appreciation to the honoree.

ADJUSTMENT RAISES HOG INCOME
Expected Hog Slaughter, and Total Paid by Packers, for First 8 Months, 1933 and 1934

PRELIMINARY studies indicate that a substantial increase in hog income is resulting from the adjustment in hog marketing effected by the 1933-34 emergency hog-buying programs and the 1934 corn-hog production adjustment program of the Agricultural Adjustment Administration. The figures above show that the total estimated cost to packers for hogs slaughtered under Federal inspection during the first eight months of 1934, including the processing taxes due, was approximately \$100,000,000 larger than for the corresponding period in 1933. This represents an increase of about one-third in total cost and of more than one-half in the hundred weight cost of live animals. At the same time, the total inspected slaughter of hogs for the first eight months of 1934 was about 12 percent under the total for the corresponding period for 1933. A part of this gain has been due to an increase in consumer income and to some adjustment in tonnage affected by the shortage of food supplies resulting from drought, but production control under the Agricultural Adjustment Act has been a large factor. Hog prices throughout the current marketing year are expected to average higher than for several seasons. Corn-hog farmers of the United States will have an opportunity to hold gains made this past year by cooperating in the 1935 corn-hog program now being offered by the Agricultural Adjustment Administration.
