

THE GOLDTHWAITE EAGLE

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, JUNE 14, 1935

NUMBER THIRTY-TWO

Contract Highway Paving

Contract was made this morning for paving eight-tenths of a mile of highway on the Santa Fe railroad. The work will be done by the highway department. It is not yet known when the work will start, but it is expected to begin in the near future.

Shower

An evening Mr. and Mrs. Hester entertained a "neighborhood" shower for Miss Lois Keese. The party was held at the home of Mrs. Hester, who had inspired the social affairs during the past two weeks.

Penalties

The last month that was paid with a nominal amount for the month of June, 1935, can be paid for the month of June, 1935, at a rate of five per cent penalty. The penalties are as follows:

11 per cent;
17 per cent;
23 per cent;
29 per cent;
35 per cent;
41 per cent;

Property Damaged

Mr. Gerald was called back crossing on the highway after a collision with the span of the bridge had tilted. There was a collision with the bridge when the driver, B. McCurry of Mullin, was seriously injured. The bridge was damaged and the repairs are being made.

Methodist Notes

Next Sunday the meeting at the Methodist church begins. Let me urge that all begin with the opening service Sunday at 9:45, at the opening of the Sunday school and attend every service till the benediction at the close of the meeting. Whatever results are to be obtained will depend upon the faithfulness of the people. If we invest time and consecration, large dividends may be expected. Wherever Bro. Wells has held meetings, and I note that he has been constantly engaged all spring, the very best results have been obtained. Let us hope and pray for the very best results here.

We had a larger attendance at Sunday school last Sunday than usual. This is encouraging and should lead to still larger increase. I fear we do not place the value upon the church school that it really merits. My old friend, Judge Frank P. Culver, some time ago, in deciding a case in Fort Worth, a case that entirely wrecked a home, sending two boys to the reformatory, two younger children to the Tarrant county home for friendless children and the father and mother to the divorce court, where the entire home was scrapped, said that the entire trouble had its origin in bad social conditions and lack of proper influences in the home. So it is. The remedy is in the church and the lofty principles for which the church stands.

Not long since, a gentleman in another state pointed out the place where there once stood a church, and remarked that that place had saved him from ruin. (Continued on page 8)

Hester-Keese

Walters Hester and Miss Lois Keese of this city were married Wednesday night at 8:30 o'clock at the home of the bride's parents, Mr. and Mrs. W. T. Keese, of this city.

Mrs. Marsh Johnson sang the pre-nuptial solo, "I Love You Truly," accompanied by Mrs. J. T. Sanders of Arlington, who played the Lohengrin wedding march and "Toumer!" during the ceremony.

A green, pink and white theme was carried out in decorations throughout the house. Roses, fern and green tapers formed the setting of the ceremony.

The aisle was strewn with ribbon by Misses Marilyn and Carolyn Tarver, twin nieces of the bride.

The ceremony was read by Rev. F. E. Swanner, pastor of the Baptist church.

The bride wore an ice blue crepe suit with pink accessories. She carried a bouquet of pink Briarcliffe rose buds and fern.

Miss Frances Page, the bride's only attendant, wore an aqua blue matalasse crepe frock with white accessories. She carried a bouquet of white rose buds and carnations.

Sam Henry Rahl was best man. An informal reception was held after the ceremony with Mrs. Earl Summy at the bride's book and Mrs. Reese Tarver of Eldorado, Ark., presiding at the punch bowl. The table, centered by a tiered cake, was laid with rare old lace and appointed with silver and crystal.

The bride received her education at N. T. S. T. C. I. A. and the University of Texas.

Mr. Hester, son of Mr. and Mrs. John Hester of this city, received his education at Howard Payne college and S. M. U.

The bride's going away dress was dusty rose matalasse sheen, with which she wore brown accessories.

Mr. and Mrs. Hester plan to make their home in Goldthwaite.

Out of town guests for the wedding included the following: Mrs. Frank Keese, Long Beach, Calif.; Mr. and Mrs. Reese Tarver and girls, Eldorado, Ark.; Mrs. Edd Palmer and boys, Albany; Miss Doris Thompson, Brownwood; Eddy Power, Brownwood; and Mr. and Mrs. Bill Duren, San Saba. A GUEST

Harvesting In Progress

Harvesting of small grain is in progress over the county and the prospects are there will be an unusually heavy yield, due to the rains of a few weeks ago, which fell just right and in time to mature the crop. Prior to those rains, it was thought the grain crop would be a failure, but after the rains many crops matured that had been considered a practical loss. The rains of the past few days have interfered to some extent with harvesting, but it is not thought there will be any injury to the crop. Threshers are expected to start in the next few days in several of the communities in the county.

Campbell-Little Wedding

A marriage, uniting two pioneer families of central Texas was solemnized Sunday morning, June 9, at 8:30 o'clock, when Miss Vivian Campbell, daughter of Dr. and Mrs. J. M. Campbell, was given in marriage to Raymond Little, son of Mrs. Annie Little. The wedding took place at the home of Mrs. L. H. Little, grandmother of the bridegroom. Rev. R. E. Duke read the sacred vows in an impressive ceremony.

Pink gladiolas in pedestal baskets outlined an improvised altar of charming simplicity, draped in white satin, upon which lay an open prayer book. Formal greenery further decorated the altar, which was lighted with pink tapers in silver candelabra.

A program of wedding music was given by Mrs. John Berry at the piano and Mrs. Newton Walton of Lubbock, furnishing the violin obligato. "The Rosary" was given as the prelude, Lohengrin's "Bridal Chorus" as the procession and "To a Wild Rose" during the ceremony. Preceding the ceremony Julian Evans sang "I Love You Truly."

The bride, who entered on the arm of her father, wore a formal afternoon dress of apricot chiffon and carried an arm bouquet of opheila roses. The bridegroom was attended by his cousin, Newton Walton, of Lubbock.

A wedding breakfast was served immediately following the ceremony. The bride's table had as a centerpiece the wedding cake. Mrs. W. H. Walton of Lubbock, deposed coffee at one end of the table and Miss Adeline Little served strawberry tarts from the other. Miss Greta Little presided at the wedding cake. Others assisting at the bride's table were Misses Constance and Mary Ellen Trent and Mmes. E. B. Gilliam and Paul McCullough.

Both Mr. and Mrs. Little are graduates of the Goldthwaite high school. Mrs. Little received her degree from the State University at Austin, where she was a member of the Gamma Phi Beta sorority. She has been a member of the local high school faculty for the past several years. Mr. Little attended A & M college, College Station; S. M. U. at Dallas and the State University at Austin, where he was a member of Delta Sigma Phi fraternity. He is associated with the firm of Little & Sons, of this city.

Immediately following the ceremony the couple left for Monterrey, Mexico, to spend their honeymoon, after which they will be at home to their friends in Goldthwaite. The bride traveled in navy sheer with navy accessories.

Out of town guests for the wedding were Mrs. W. H. Walton, Mr. and Mrs. Newton Walton, Lubbock; Mr. and Mrs. Will Little and children, Charles, Garth, John and Dorothy, San Saba; Mr. and Mrs. Jack Rudd and Mrs. Leonard Stalling, Ballinger; Mr. and Mrs. J. T. McConnell and Mrs. G. M. Campbell of Meridian; Mrs. J. T. Sanders of Arlington. A GUEST

Local Canning Plant

The local relief office reports that plans are being made to start canning operations in the Mills county relief cannery the first part of next week. All repairs and equipment to be furnished locally have been completed and secured, and a part of the equipment furnished by the Texas relief commission has arrived. However, the burners, furnaces and cooking kettles are yet to be received and installed and the arrival of these items is expected Friday or Saturday of this week.

Mrs. J. W. Dellis has been selected, upon the recommendation of the home demonstration agent for this district, as the supervisor of the cannery and she plans to visit several of the relief canneries in adjoining counties this week in order to see a plant in operation in order that she can better formulate her plans for the work here.

The cannery is located in the old bottling works building on Parker street, which has recently been screened, and the interior painted. The county is paying the rent on the building and furnishing the fuel and incidental equipment, and the city of Goldthwaite has joined with the county in bearing a part of this local expense.

The state relief office is furnishing equipment and supplies and empty cans to the value of \$1021.40.

Relief labor will be employed in the actual operation of the plant, both men and women being used, and paid on the regular relief hourly rate of 20c.

The cannery will serve non-relief people as well as those on relief, canning for both on a toll basis. The rate of toll is for vegetables and fruit, 60 per cent to the relief office and 40 per cent to the producer with the relief office furnishing all equipment, cans and labor, and the producer the vegetables. In addition to canning on a toll basis, the relief office will buy produce from all rural rehabilitation clients, paying them the market price for same and this produce will then be canned, the relief office of course retaining 100 per cent and transferring the canned items to their store room for distribution to clients in the form of direct relief.

Those in the county that have produce that they will want canned in the relief cannery are asked to get in touch with the local relief office and tell them the kind and quantity of vegetables and when they will be ready for delivery. Do not deliver any vegetables to the relief office until a delivery date has been assigned you.

Sunrise Breakfast

Shirley and Allan Anne Majors of Del Rio and Joyce May Weaver of Coleman are visiting Dorothy Eunice Morris and they enjoyed a sunrise breakfast Tuesday morning.

Invited to meet their friends and breakfast with them were Misses Virginia Ruth Rudd, Catherine Bledsoe and Laura Helen Saylor. A GUEST

Good Relief Record Set by Mills County

Mills county has the smallest percentage of its citizens on relief of any county in this section of the state, according to statistics compiled by relief headquarters. Only 5 per cent of the residents of Mills county are on relief, whereas, in an adjoining county 22 per cent, or more than four times the Mills county percentage, are being taken care of by the government. Bell county with 11 per cent, or twice the Mills county average, is the next lowest in this district.

Preserve This Copy

This is an important copy of the Eagle for those who have not read the proposed constitutional amendments, for this is the last issue in which they will be published prior to the election in August. There are seven amendments to be voted on at that election, three of which have been published in the Mullin Enterprise and four in this paper, as directed by the secretary of state. The Eagle expects to publish a summary of all seven amendments before the election, but the full text of them will not appear in this paper again.

White to Oklahoma

Dr. William Richardson White, pastor of the Broadway Baptist church of Fort Worth, was chosen pastor of the First Baptist church of Oklahoma City by a unanimous vote of the congregation Sunday.

The Fort Worth pastor succeeds the Rev. T. L. Holcomb, who went to Memphis, Tenn., a week ago to take a position as secretary of the Sunday school board of the Southern Baptist convention.

Dr. White was pastor of the Goldthwaite Baptist church some years ago and has a great many friends here who are always glad to know of his success and advancement. The report of his call to Oklahoma City did not say whether or not he had accepted.

Exchange Certificates

All cotton producers having surplus tax-exemption certificates issued in 1934 must have these certificates exchanged for 1935 certificates before they can be used or transferred. Bring any unused certificates to the county agent's office at once so that they may be forwarded to Washington for exchange.

Every person growing cotton in 1935 must make an application for tax-exemption certificates in order to receive any certificates. Anyone who has not made an application must do so by June 15. This date has been set as final by the state allotment board. Applications received later than this date may receive no certificates.

G. R. GOOSBY, Assistant in Cotton Adjustment, Mills County, Texas.

Baptist Reminder

We were fortunate to have Rev. Earl Hill of Santa Rosa with us Wednesday to lead our prayer service. He brought a very splendid message and it was certainly enjoyed. It was also a pleasure to have as our guests at prayer meeting Judge and Mrs. Allen from Arkansas, also Mrs. Youngblood from Dallas. Judge Allen brought us a very splendid and encouraging word. It seems to me that "Toy" and "Walt" have some very fine kinkfolk.

I made a wild prophesy some time ago that if you wanted to get married, to just join my class. It seems that this is very true. I think about twelve of my number have taken the great adventure in recent months. Mrs. Harrison reminds me that very few of her girls like their names and that they are continually changing them. The fact is, I think she has lost a few more than I have. If you are interested, we will be glad to furnish you detailed information, by coming Sunday morning.

The services were well attended Sunday morning and evening. We had practically a full house Sunday evening. A good Methodist brother, living next door to our church, reminded me Sunday morning that my people must be very religious, and I ask him why. He said, because we got out so early. I told him that my people appreciate three things in their preacher namely, (1) Brief length, (2) Brief hair, (3) Brief sermons.

My subject Sunday morning at 11, "Formal vs. Spiritual Religion," Sunday evening at 8, "A Balanced Ration for Christians." We invite you.

Garden Party

On last Friday from five to seven o'clock the Goldthwaite Garden club entertained with a garden party and flower show at the home of Mrs. D. A. Trent.

The spacious grounds about the Trent home were most attractive, giving the appearance of a great outdoor living room, pot plants and cut flowers being used most effectively with the natural beauty of the estate. The guests were greeted by Mrs. Jno. Berry, the club's president, and Mrs. D. A. Trent. Club members formed other groups about the lawn.

The flower exhibit, being the first effort along this line of the members, was a credit to the club. The grouping and classification were directed by Mrs. W. E. Fairman, assisted by Mmes. Luther Rudd, Horace Chandler, J. M. Campbell, S. P. Sullivan, Al Dickerson, Robert Burtner and Joe Palmer.

Mmes. Mann, Huges and Coleson of Brady acted as judges. Mrs. Jno. Berry's prize of \$5 to the one receiving the most blue ribbons fell to Mmes. O. H. Yarbrough, A. T. Pribble, C. M. Burch and Walter Weatherby, they each, received the same number. About 126 entries were made. Another display of note was that made by the Jim Johnson Floral Co. of Comanche.

The back lawn was the center for refreshments. Here a lovely table, covered with a green and blue organdy cloth and centered with a fountain and pool was laid. The punch bowl was made of ice, in which a gorgeous array of flowers formed the center. Mrs. J. H. Randolph graciously served the punch, while the sandwiches, cakes and strawberries were passed by a group of young girls, the pretty daughters of the club members.

Music was enjoyed throughout the hours.

About three hundred members and friends made of this a most gay and festive occasion. A number of out of town people were present.

After seven o'clock the husbands of club members and friends called.

Commissioners Hold Session

Commissioners court was in monthly session Monday and transacted considerable business. Official reports were received and inspected and accounts against the county were audited and allowed.

The money received from automobile and truck license for the past month was divided to the different precincts from which it was collected, to be used for highway purposes. Precinct No. 1 received \$716.75; No. 2, \$239.78; No. 3, \$393.32; No. 4, \$256.50. The court went in a body to inspect the work being done on the Slack bridge, across the bayou, and found it very satisfactory and progressing as rapidly as could be desired. The contract is in the hands of the Monarch Construction Co. of San Antonio and they have the work well under way. The old bridge is being painted and re-floored with creosoted timbers, while new steel runners have been placed as supports to the old part of the bridge and a 100 foot span is being added to the east side of the bridge. When this work is completed the bridge will be in fine condition, absolutely safe and of great benefit to the western portion of the county.

The court put a premium of \$1 on bobcat scalps.

Williamson-Ford

Saturday, June 8, 1935, at 7:30 a. m. Miss Marvel Ford of Lometa, Texas, became the bride of Mr. Dave Williamson of San Angelo, Texas. The wedding occurred at the ranch home of the bride's mother. Miss Ford is the daughter of Mrs. W. J. Ford of Lometa, Texas. Miss Ford received her degree from the university of Texas in June, 1934. For the past year she was head of the home economics department of the Eldorado high school.

Miss Ford wore a white sheer crepe sport dress with white accessories for the wedding. Her traveling suit was navy crepe with red accessories.

Mr. Williamson is the son of Mr. and Mrs. J. W. Williamson of San Angelo, Texas. Mr. Williamson received his degree at A and M college. For the past six years he has been football coach of the athletic department of the Eldorado high school.

The wedding attendants were the bride's cousin, Mrs. Walter Richter of Austin, Texas, and the bride's brother, Walter Ford, of Lometa, Texas.

Rev. L. C. Mathis, pastor of the Lometa Methodist church, performed the wedding, using the ring ceremony.

Immediately after the wedding Mr. and Mrs. Williamson left for an extended honeymoon to Carlsbad, N. M., and Denver, Colo. Next year Mr. Williamson will be football coach of the athletic department of the Menard high school, which place Mr. and Mrs. Williamson will make their home. Only close friends and relatives were guests at the wedding.

Out of town guests were Mrs. Walter Richter and Mrs. A. D. King of Austin, Texas. A GUEST

THE GOLDTHWAITE EAGLE

Dwight Nickols and wife left Wednesday for Edenburg, where he has work in a filling station.

Mrs. W. J. Ford of Scallorn was in the city last Saturday shopping and visiting.

Mrs. Alfred C. Brown of Mullin made the Eagle an appreciated call Saturday.

Mr. and Mrs. J. A. Palmer and son and Mrs. J. W. Kelley visited relatives in Brownwood Sunday.

Mrs. Clyde Featherston of South Bennett was a pleasant caller in the Eagle office Tuesday morning.

Joseph Bowles, who taught in the Balmorhea school the past session, came home Friday night for a short vacation period.

W. L. Johnston, manager of the Goldthwaite Mutual Insurance company, was here from Brownwood the first of the week, looking after business matters.

Bert Galloway went over to Santo last week end and accompanied his wife and little daughter home from a visit to her mother.

G. H. Fritzell and V. D. Tyson returned the first of the week from a visit to Mississippi and Alabama, where they bought several carloads of wool.

L. W. Hill of Long Cove transacted business in this city the early part of the week. He reported harvesting in full swing in his community and the grain turning out very satisfactorily.

Today is Flag Day in the United States. Next Friday will be the longest day in the year and the Friday following will be the twenty-first anniversary of the beginning of the World War in Europe, that being June 28, 1914.

Mr. and Mrs. T. D. Lasly of Pioneer were here this week and contracted for building a new and modern residence on their lot on west Fifth street, which will be quite a benefit to that part of town.

Only one railroad engine was within the corporate limits of Goldthwaite when railroad week was inaugurated Monday morning at 8 o'clock. However, this one engine sounded its whistle long and lustily, so there could be no mistake about the recognition of the time.

Mr. and Mrs. Roy Rowntree and daughters, Ruth and Mary Ann, came over from Houston last week end and remained until Sunday afternoon with friends. They were popular citizens of Goldthwaite prior to their removal to Houston and they are always welcome visitors in this city.

Miss Ruth Featherston, who attended the state university at Austin the past session, is at home for a vacation. She has been elected teacher of English in the Pflugerville school, near Austin, one of the best schools in that section. Her friends here are delighted that she has been selected for the important position.

Postmaster J. R. Eanes of Comanche was a visitor in Goldthwaite Monday, having accompanied his nephew, Jim Eanes Reese, this far on his way to Austin to attend the summer session of the university. Mr. Eanes has a great many friends in Goldthwaite and throughout Mills county who are always glad to meet and extend a cordial greeting to him. He is one of the Eagle editor's most esteemed and highly appreciated friends.

Burch is prepared to clean and press garments for any member of the family and takes orders for made-to-measure garments. See his samples for Spring and Summer clothing.

ROCK SPRINGS

There were sixteen at Sunday school Sunday morning.

It seems as though some were expecting to hear I took a trip. Well, I took several trips, but they were close to home. I helped Mrs. Claud Eacott quilt Tuesday morning and Mrs. C. H. Ford in the afternoon. I enjoyed a real good dinner in the Eacott home. I can't see why Claud can't get fat, as his wife is such a good cook. Mrs. Ford treated me to nice plums. Now, you will think I was well paid for my work. I think I was too. I am hoping to take a trip before this year is gone, after the warm weather is over.

I have been asked just where the dance platform is located. It isn't in this community, but is not far from here. It is in the Rabbit Ridge community. You go to the San Saba highway about two miles west of town on the right hand side of the road, going towards San Saba. No trouble to find.

Some from here attended the dance at the McCarty home in Big Valley Saturday night. They also went to the one at Rabbit Ridge.

If nothing happens our club will meet with Mrs. Richard Souders Friday (today) and quilt.

I am always missing seeing things. They reported the Garden club tea was wonderful. About the nicest entertainment Goldthwaite has ever had. Next time I will do my best to go if I'm invited as I was this time.

Sunday was a warm day, but it didn't keep people from having a good time. Some fished, played ball and made ice cream, then some fixed windmills and went to the bayou bridge. The men were working on the bridge. Several from town drove down in the afternoon. They think it will be ready to cross in two weeks. Some ate their dinner on the creek with the snakes and red-bugs.

Those who met Friday afternoon and Friday night in the J. T. Robertson home, to be with Carl Duncan and family and Mrs. Ben Forehand and son were Mmes. J. C. and Ray Stark, J. F. Davis and wife, John Roberts and wife, Ducey Bohannon and wife, Joe Davis and family, Woody Traylor and family, Mrs. Traylor and children, Miss Johnnie Belle Circle, Mrs. Eula Nickols, Philip and James, Mrs. W. A. Daniel and Billie Ruth. Those who came Friday afternoon from Big Valley were Mrs. Zona Robertson, Mr. and Mrs. Bob Robertson and Mrs. George Robertson and Roberta. The afternoon and night was enjoyed by everyone present. It makes our hearts feel good to be with our old friends and neighbors. We all love Miss Grace, because she is such a wonderful woman. We hope when she comes again she can bring the rest of her family.

All of Mrs. Eula Nickols' children, even to her "in-laws," were at home once again Sunday. They hope it will happen again. Charley Joe Davis from Iowa Park is visiting his grandparents Mr. and Mrs. J. R. Davis, and other relatives.

Earl Hill and family from south Texas visited this week in the J. O. McClary home. Claud Holley and wife from Gonzalez brought Mrs. Joe Roberts and children home Sunday. Mrs. Roberts and John spent last week in the Holley home. Jannette had been with her auntie and uncle a month or more.

Rev. Marvin Powledge from Lampasas spent Saturday night and Sunday in the Webb home. Hugh Nelson and Luther Ward from town played 42 in the Webb home last Tuesday night with James Nickols and the Webb brothers.

Waldine Traylor spent Thursday night in Marion Robertson's home at Rabbit Ridge.

Jesse Lowe from Rabbit Ridge called on Joe Roberts Saturday morning. His radio needed something done to it. The Lowe's really enjoy their radio, especially the violin music.

Our sheriff passes by here quite often. He must be one of the bosses at the bayou bridge. Phillip Nickols is helping E. D. Robertson cut grain this week and Shirley is helping Landy Ellis.

Marion Robertson from Rabbit Ridge cut the oats on Mrs. Faulkner's farm Friday and Saturday he cut Bob Webb's oats.

Pleas Hicks from Junction, Euna Vee Dupre from Big Valley,

NARCOTIC FARM TO OPEN

Occupation next month of the new \$4,000,000 federal narcotic farm, five miles northwest of Lexington, Ky., marks the completion of a project which is a miniature city in itself. Transfer of patients is now under way from Leavenworth prison in Kansas to the huge establishment, which is expected to have about 300 inmates by July 1 and will eventually house 1400. Started in the spring of 1932, the plant is situated on a 1000-acre tract, most of which will be cultivated to provide food for the patients and staff.

Jay Hicks and wife and daughter, Fred McClary, Mrs. R. C. Webb and Mrs. Nickols and Phillip and Shirley and Richard Souders and wife treated themselves to ice cream Tuesday night in the Ellis home.

Mrs. Homer Doggett and Janace spent Saturday night in the Nickols home.

Edward Hagan from Center Point and Ben Davis watched James Nickols and Howard T. Davis fix fence Monday afternoon.

Joe Roberts helped his father cut oats this week.

Ducey Bohannon took Mrs. Jno. Roberts and Mr. and Mrs. J. O. McClary to Comanche Friday morning.

Marion Jetton had good luck Friday afternoon, fishing down on the creek.

Mrs. Eula Nickols and Shirley sat until bed time with Mr. and Mrs. Collier Friday night. They played dominoes and Mr. Collier and Mrs. Nickols were the winners. They hope Mrs. Collier and Shirley practice before they try to play again.

Ben Davis traded for the McClary car last week. Sunday he carried his family to A. F. McGowan's at Rabbit Ridge to spend the afternoon. Charley Joe Davis accompanied them.

W. A. Cooke visited in the J. F. Davis home Sunday afternoon.

Mr. Gray from town is running the tractor for John Roberts, while they are cutting grain.

J. F. Davis and wife, Joe Davis and family, Ray Stark and his mother, picked berries at the E. L. Pass farm Monday morning.

Marvin Spinks and family from Rabbit Ridge, Wick Webb and Rudolph Cooke sat until bed time Monday night with Mrs. Nickols and James. The men played dominoes. Mmes. Spinks and Maxine and Mrs. Nickols called on J. T. Robertson and wife awhile.

Ray Stark and family and his mother, J. F. Davis and wife, Joe Davis and family ate their dinner on the creek Sunday. They reported a good time. Shirley Nickols helped Fred McClary and August Kahus fix their windmill Sunday.

Mmes. J. F. and Joe Davis, Ray Stark and wife and Mrs. J. C. Stark picked berries on the E. L. Pass farm Monday.

Robert Steen and Glenn Nickols from town ate dinner in the Nickols home Monday.

E. L. Pass and wife had business in town Saturday afternoon.

Mrs. Ira Dewbre met her friend Mrs. O. V. Shaw, from Brownwood in town Saturday afternoon.

Miss Johnnie Belle Circle and Mrs. Nickols have been having trouble with their eyes lately. It isn't very nice when you can't see very good.

Otis Hutchings from Center Point made a pop call in the Nickols home Sunday morning.

Marion Jetton is spending his vacation with J. T. Robertson and wife.

Beryl Turner and family and Bernice Traylor spent Sunday in the Traylor home. They called in Marion Robertson's home at Rabbit Ridge, but didn't find them at home.

Howard T. Davis helped James Nickols to fix fence Monday and Tuesday.

Horace Cooke came home from Austin Saturday afternoon. He went back Sunday afternoon.

It is sprinkling again, as I close. The farmers would be glad if it wouldn't rain while they are cutting their grain.

BUSY BEE

CROSS CHILDREN MAY HAVE WORMS

Watch for upper lip, stomach, bad breath, freckles, loss of weight, itching around nose and ears. They may have pin or round worms. Whites Cream Vermifuge has safely and for years, reliably expelled the worms and soothed the delicate system. Whites Cream Vermifuge recommended by druggists.

HUDSON BROS., DRUGGISTS

MRS. MCKINNEY

Mrs. Lillian McKinney, well known home economist of the Ball Brothers Company, will be in Goldthwaite on June 21 and 22, at which time she will give a free demonstration of meat, fruit and vegetable preserving at Fairman Co., at 2 p. m.

Mrs. McKinney has won many prizes for her canning skill. She received two prizes at the Century of Progress, has won three international prizes, and a number of local, county and state prizes in Texas and Oklahoma.

LONG COVE

Several have been cutting grain the last few days. It will soon be time for the thrasher to start.

Mrs. David Neal was taken to Scott and White hospital in Temple one day last week, on account of a growth on her knee. Word was received here that the growth was a cancer and that Mrs. Neal's leg was removed above the knee. We are sorry to hear of this and we hope for Mrs. Neal a speedy recovery.

Mr. and Mrs. Roy Turnbo and Mr. and Mrs. Johnnie Martin spent Sunday with Mrs. Annie Need.

A party was enjoyed in the Mr. and Mrs. Bud Conrad home Saturday night.

Mr. and Mrs. Barton Hodges of Mullin spent Saturday with Mr. and Mrs. L. W. Hill.

Hazel Neal spent the week end with Lillian Godwin.

Mr. and Mrs. Paul Ray visited in the Godwin and Hill homes recently.

Mr. and Mrs. Ely Roberts spent Sunday with Mr. and Mrs. Bud Conrad.

Estelle Hill returned home Saturday, after a three week's visit with relatives near Mullin.

Mrs. Emma Mosier of Mullin is visiting her daughter, Mrs. Edward Smith.

NEW CCC REGULATIONS

Some days ago instructions were sent to all county relief offices to the effect that only 10 per cent of the quota for CCC selection would be allowed for non-relief applicants. A letter from Guy E. Neal, supervisor of CCC enrollment for the Texas relief commission, received this week by the local relief office rescinds the former order relative to the 10 per cent non-relief selection and states that all CCC selections must come from families on the relief rolls, and states specifically that no selections from non-relief or border line cases will be accepted. The definite quota for Mills county has not been set. When this quota is set, however, if a sufficient number of relief boys do not take advantage of this enrollment period, then that part of the quota will be lost for this county and the surplus will be transferred to some county having more relief applicants than can be taken care of with their original quota. While application for CCC enrollment is strictly voluntary, it would seem that this plan would offer for a relief family the most permanent type of security for the time, as funds for general relief purposes are being reduced each month, and this means that those families on the relief rolls either as a direct relief or a work relief family will have smaller budgets each month. Rural rehabilitation clients, those who are receiving loans in the place of grants, are continuing to draw their regular amounts as these funds have not been reduced.

ADMINISTRATOR

PROSPERITY AT THE GRASS ROOTS

It has often been said that "real prosperity must begin at the grass roots"—that is, on the farm.

Statistics support that belief. The great bulk of our population depends for its living on agriculture—and depression has tended to send more people back to the farm, because of the impossibility of finding jobs in industry. The American farmer still provides the greatest single market for consuming the products that our factories produce.

As a result, no citizen can afford to think that he has no personal interest in the ups and downs of agriculture. Good times for agriculture help make good times for all businesses, all workers—precisely as depressed agriculture hits us all.

Foresighted citizens, as a result, are throwing their weight strongly behind any movement whose purpose is to advance the farmer's social and economic

status. The farm co-operative movement, among others, has been given the genuine support of industrialists, economists and others who have no connection with farming, but who know that prosperity at the grass roots is essential to national well-being.

RESOLUTION

Proposing an amendment to Section 15, of Article 1, of the Constitution of Texas, and providing that the Legislature may authorize the temporary commitment of mentally ill persons, not charged with a criminal offense, for treatment and/or observation without the necessity of a trial by jury.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 15, of Article 1, of the Constitution of the State of Texas be so amended as to hereafter read as follows:

"Sec. 15. The right of trial by jury shall remain inviolate. The Legislature shall pass such laws as may be needed to regulate the same, and to maintain its purity and efficiency. Provided, that the Legislature may provide for the temporary commitment, for observation and/or treatment, of mentally ill persons not charged with a criminal offense, for a period of time not to exceed ninety (90) days, by order of the County Court without the necessity of a trial by jury."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of the State, qualified to vote on the Constitutional Amendments, at an election to be held throughout the State on the 4th Saturday of August, A. D. 1935, at which election each ballot shall have printed thereon the words:

"For the Amendment of Article 1, Section 15, of the State Constitution by adding to said Section a provision to the effect that the Legislature may provide for the temporary commitment of mentally ill persons not charged with a criminal offense by the County Court without the necessity of a jury trial."

"Against the Amendment of Article 1, Section 15, of the Constitution by adding to said Section a provision to the effect that the Legislature may provide for the temporary commitment of mentally ill persons not charged with a criminal offense by the County Court without the necessity of a jury trial."

Each voter shall scratch out with pen or pencil the clause which he desires to vote against, so as to indicate whether he is voting for or against the proposed Amendment.

HOUSE JOINT RESOLUTION

Proposing an Amendment to Section 1, of Article XVII, of the Constitution of Texas, providing that Constitutional Amendments may be submitted by the Legislature at Special Sessions under certain conditions; providing for the adoption of such amendment and providing for the proclamation and the publication thereof; describing the form of ballot and making an appropriation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 1, of Article XVII, of the Constitution of the State of Texas, be amended so as to hereafter read as follows:

"Section 1. How the Constitution is to be Amended. The Legislature, at any biennial session, by a vote of two thirds of all the members elected to each House, to be entered by yeas and nays on the Journals, may propose Amendments to the Constitution, to be voted upon by the qualified electors for members of the Legislature, which proposed Amendments shall be duly published once a week for four (4) weeks, commencing at least three (3) months before an election, the time of which shall be specified by the Legislature, in one weekly newspaper of each county, in which such a newspaper may be published; and it shall be the duty of the several returning officers of said election, to open a poll for, and make returns to the Secretary of State of the number of legal votes cast at said election for and against said Amendments; and if more than one be proposed, then the number of votes cast for and against each of them; and if it shall appear from said return, that a majority of the votes cast, have been cast in favor of any Amendment, the said Amendment, so receiving a majority of the votes cast, shall become a part of this Constitution, and proclamation shall be made by the Governor thereof, provided however, that in cases of extraordinary emergency affecting the State as a whole, Amendments to the Constitution may be proposed in the manner hereinafter set out upon the submission of the proposed Amendment by the Governor at any Special Session."

Sec. 2. The foregoing Amendment shall be submitted to the electors of this State who are qualified to vote on proposed Constitutional Amendments at an election to be held on the 24th day of August A. D. 1935, at which election each ballot shall have printed thereon for those favoring the Amendment the words:

"FOR the Amendment to Section 1, Article XVII, of the Constitution of Texas, providing that Amendments to the Constitution may be proposed at Special Sessions of the Legislature under certain conditions." And those against the Amendment shall have printed the words:

"AGAINST the Amendment to Section 1, Article XVII, of the Constitution of Texas, providing that Amendments to the Constitution may be proposed at Special Sessions of the Legislature under certain conditions."

Each voter shall strike out with pen or pencil the clause which does not indicate his desire regarding the above proposed amendment.

A JOINT RESOLUTION

Proposing to amend Sections 3 and 5 of Article 7 of the Constitution of the State of Texas so as to permit the furnishing of State official text books free to every child of scholastic age, attending any school within the State.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 3 of Article 7 of the Constitution of the State of Texas be amended so that hereafter it shall read as follows:

"Section 3. One-fourth of the revenue derived from the State occupation taxes and poll tax of One (\$1.00) Dollar on every inhabitant of the State, between the ages of twenty-one and sixty years, shall be set apart annually for the benefit of the public free schools; and in addition thereto, there shall be levied and collected an annual ad valorem State tax of such an amount not to exceed Thirty-Five Cents on the One Hundred (\$100.00) Dollars valuation, as with the available school fund arising from all other sources will be sufficient to maintain and support the public schools of the State for a period of not less than six months in each year, and it shall be the duty of the State Board of Education to set aside, under such regulations and in such manner as may be provided by law, a sufficient amount out of the said tax to provide free text books for the use of children within the scholastic age attending any school in this State, provided, however, that should the limit of taxation herein named be insufficient the deficit may be met by appropriation from the General Funds of the State and the Legislature may also provide for the formation of school districts by General Laws, and all such school districts may embrace parts of two or more counties, and the Legislature shall be authorized to pass laws for the assessment and collection of taxes in all said districts and for the management and control of the public school or schools of such districts, whether such districts are composed of territory wholly within a county or in parts of two or more counties, and the Legislature may authorize an additional ad valorem tax to be levied and collected within all school districts heretofore formed or hereafter formed, for the further maintenance of public free schools, and for the erection and equipment of school buildings therein; provided that a majority of the qualified property taxpaying voters of the district voting at an election to be held for that purpose, shall vote such tax not to exceed in any one year One (\$1.00) Dollar on the One Hundred (\$100.00) Dollars valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts, nor to independent or common school districts created by General or Special Law."

Sec. 2. That Section 5, Article 7, of the Constitution of the State of Texas, be amended so that hereafter it shall read as follows:

"Section 5. The principal of all bonds and other funds, and the principal arising from the sale of the lands hereinbefore set apart to said school fund, shall be the permanent school fund, and all the interest derivable therefrom and the taxes herein authorized and levied shall be the available school fund, to which the Legislature may add, not exceeding one per cent annually, of the total value of the permanent school fund, such value to be ascertained by the Board of Education until otherwise provided by law, and the available school fund shall be applied annually to the support of the public free schools. And no law shall ever be enacted appropriating any part of the permanent or available school fund to any other purpose whatever; nor shall the same, or any part thereof ever be appropriated or used for the support of any sectarian school, provided that the State Board of Education may furnish State Adopted text books free to every child of scholastic age, attending any school within the State; and the available school fund herein provided shall be distributed to the several

COTTON FLEA INJURIOUS

With flea hoppers reported increasing in many Texas cotton fields and threatening to become a serious pest this season, information as to control methods is of interest to cotton growers. Sulphur is advocated as one of the most effective insecticides against the flea, according to Texas agricultural experiment station bulletins and publications of the United States department of agriculture. The importance of controlling the flea hopper is pointed out in the bulletin of the Texas station, which states: "In Texas localities where the cotton flea hopper has demonstrated its ability to injure cotton, the unanimous opinion of growers has been that this insect is more destructive than the boll weevil."

Largest Wind-Tunnel in World
*Tests Full-Sized Planes in Virginia

Test Tunnel at Langley Field Surpasses Size of Giant Just Completed by French Air Ministry; Reproduces Actual Flight Conditions

THE French Air Ministry has just announced the completion of a tunnel of gigantic proportions, and an overall length of 313 feet. The air is brought into it through a collector seventy-nine feet in diameter. The air-flow is smoothed out by passage through a honey-combed grid, and then passes into the huge testing-chamber, in which an air-plane can be subjected to an artificial gale of 112 miles an hour.

Wide World
The largest wind-tunnel in the world, at Langley Field, Virginia. Actual flight conditions are reproduced to test full-sized planes.

while suspended from an overhead platform. From the testing-chamber, the air flows into the suction-chamber, in the walls of which are mounted six propeller-fans, each driven by a 1,000-horse-power electric motor. Thus, a total of 6,000 horse-power will be at work during the progress of a test, making the operation of a full-scale wind-tunnel one of the most expensive forms of scientific investigation in the world. America Has Larger Even this large French tunnel is surpassed by the American laboratory of the National Advisory Committee for Aeronautics, Langley Field, Virginia. In the working section of the American tunnel, sixty feet wide by thirty high, an air-plane having a forty-foot span can be comfortably mounted. Only two fans are employed to suck the wind through this tunnel, each driven by a 4,000 H.P. motor.

A NEW LAW

Under a law enacted by the last session of the legislature the owners of livestock of every description are liable to misdemeanor fines if animals under their control are found on the right of way of a designated state highway, under provisions of senate bill 143. Attention is called to this new law by the highway department, with the statement that it makes statewide application of what heretofore has been only a local option precinct regulation.

The title of the new law is "an act prohibiting any owner or person having control of any horse, mule, donkey, cow, bull, steer, hog, sheep, goat or any other livestock from permitting or allowing the same to traverse or roam at large upon the right of way of any designated state highway of this state, where same is enclosed by fences, unattended; providing a penalty and declaring an emergency."

Section 1 of the statute makes provision for the purpose set out in the caption. Section 2 repeals a series of other acts previously passed whose terms are in conflict with the new law; and Section 3 is an emergency clause making the new law immediately operative.

The bill was approved by Governor Allred and is now in force.

The reasons for its enactment as set forth in discussion during the legislative session, were that livestock roaming at large on the highways of the state presented a serious traffic menace, and that the highway beautification program now under way would be defeated unless livestock were kept out of the roads.

Enforcement of the new statute is to be by highway patrolmen and local law enforcement officers, all of whom are authorized and directed to enforce all provisions of the act. The penalty for violation is a maximum fine of \$200.

All owners of livestock should take warning and make sure they do not become liable by reason of their stock straying upon the highway, for it will only be necessary to prove ownership of such stock, without making provision for any excuse as to why the stock happened to be on the highway. Better be sure that your stock does not get on the highway in an unlawful manner.

INTERESTING BITS OF NEWS

Lee Simmon, general manager of the prison system, has notified Governor Allred that the penitentiary population has increased to 5804 and that it is not prepared to take care of that many. Simmons suggested that no additional prisoners be received and that the board of pardons and paroles be instructed to ascertain what prisoners are eligible for parole.

Near cloudbursts Wednesday flooded streets in several San Antonio suburbs, including Alamo Heights, where water was driven into stores. Five feet of water beneath the Missouri-Kansas-Texas Hackberry street viaduct, blocked the principal traffic artery to Highland Park. Rainfall continued in the downtown section after more than an inch had fallen.

The slow saunter of a bull on highway 40, two miles south of Gainesville Wednesday was blamed for the wrecking of a truck and three automobiles. One man was slightly injured by flying glass. The bull strayed onto the road and was struck by a truck carrying a cargo of peanut butter, which was scattered over the highway as the machine overturned. Two hours later an auto driven by an oil field worker, struck the sticky peanut butter, spun like a top and overturned.

Provisions of the 1934 corn-hog contracts were liberalized Saturday by the farm administration, because of evidence of adverse weather conditions as plans were made to speed payments under the control program for this year. The emergency ruling, effective immediately, will permit farmers who have signed or applied for contracts, to operate additional land not covered by the contract or to rent out a portion of the land in the unit under contract. The new ruling provides that if a contracting producer finds it necessary because of emergency conditions to

BIG VALLEY

We have been having some very hot days lately, which reminds us that "good ole summer time" is just around the corner.

People everywhere are busy planting and killing weeds. At the present it looks as if we would have more rain.

Mr. and Mrs. Carl Duncan and two children, Worth and Joan, and Mrs. Ben Forehand and son, James, of Arizona, were visiting Mr. and Mrs. Bob Robertson and family and other relatives in the valley last week.

At a cost of 65 cents postage charges, the Jonker diamond arrived in New York Sunday on the United States liner President Roosevelt. The 726 carat gem, the largest uncut diamond in the world, is insured for \$1,000,000, but it was transported from England in an ordinary registered mail sack. All the shippers could get in postal insurance was \$9.60. The diamond is a little larger than an ostrich egg and the color of the sky on a perfect day. Winston, a Fifth avenue gem dealer, not only grew lyrical over the color of the diamond, but said he doesn't want to commercialize it. He has admitted paying in excess of \$700,000 for the stone, but other reports put the figure at \$900,000.

LIGHTEN THE LOAD

State Relief Director Adam R. Johnson has appealed to municipalities and counties of the state to aid county administrators in reducing the Texas relief load.

The request came after a demonstration last week at Paris, where relief clients picketed the county relief office and refused to permit employes of the Lamar county relief staff to enter their offices.

The Lamar county administrator told Johnson by telephone that leaders in the demonstration refused to leave the place until concessions in the form of more adequate relief were granted.

HOUSING PROGRAM

After housing committee Goldthwaite has obtained funds from the relief commission to put forward a plan to put people in the industry to work. No industry has been harder hit by depression than workers in building industry. New construction has dropped nearly 90 percent from what it was in 1929. It is estimated that one-third of the workers in building industry are on the streets. The building industry and others in factories, transportation and other fields are dependent upon this industry for a livelihood. Until workers are largely re-employed, no community can enjoy any measure of prosperity. Last congress recognized the need for a Better Housing Program for Goldthwaite and vicinity.

will begin after July 1. A representative of the Better Housing campaign for Mills will call on practically every home in the county to explain the Better Housing program and secure information as to building, remodeling, and people are contemplating.

GARDEN CLUB PARTY A DELIGHTFUL AFFAIR

A group of the Mullin Garden Club members attended a lovely garden club party in Goldthwaite Friday afternoon from five to seven, at the beautiful suburban home of Mr. and Mrs. D. A. Trent.

The flower display was exquisite and the artistic shadow box drew many compliments and much admiration. The Dionne quintuplets, over in the vegetable department, also came in for due honor.

The huge dahlias were very much admired and many ladies determined to give their dahlias more cultivation. The Mexican band lent enchantment to the lovely lawn party, while the pretty young girls in evening dresses, added zest to the merry party. The refreshments were magically served, especially the punch, from an iced container, with frozen roses, glazier-like in the bottom of the container.

Those from here who enjoyed this lovely party were Mmes. G. M. Fletcher, S. J. Casey, W. S. Kemp, E. P. McNeill, A. H. Pickens, W. H. McFarland, J. P. Lockridge, C. C. Hancock, R. H. Patterson and Misses Nell Kirkpatrick, Era Hancock, Carrie Kirkpatrick and Rosa-Meck Fletcher.

FINE GRAIN CROPS CENTER OF ATTENTION

Grain fields are the center of attention now with the farmers, and the spring grain is producing much better than the grain planted in the fall, as the winter drouth was hard on it. Most of the grain is yielding much better than was expected, even by the optimists, a couple of months back.

Corn, too, is very promising and if June will continue her rains, at least one more rain, there will be a bumper crop of corn in this good section.

Men and boys are in the grain fields from dawn to late hours at night, the "five hour day" not in demand at present.

Miss Lena Bell Chancellor, who has been at Gladewater for several months, is at home enjoying a summer vacation with her mother, Mrs. J. L. Chancellor.

Mr. and Mrs. W. T. Gilmore and his mother, Mrs. Gilmore, also Miss Mary Hancock of Brownwood visited Mrs. M. C. Kirkpatrick and family Sunday.

LIVE OAK

Church was well attended at Bethel Sunday. There will be church at Live Oak Saturday night, Sunday morning and also Sunday night. Everyone is invited and urged to attend.

Ruth and Glenn Featherston have recently returned from Austin, where they have been in school the past winter.

Those who visited in the C. G. Featherston home this week were Mr. and Mrs. W. T. Moreland, Virginia McGirk and Mary Louise, Loyd Lee and Noble Doggett and Odell Hill.

Miss Ruth Featherston made a short business trip to Austin the fore part of the week and while there, visited her sisters, Margie and Ollie Mae, who are attending the university this summer.

Miss Aldele Welch left the fore part of last week for Abilene, where she is attending a beauty school.

Miss Izetta Featherston spent Sunday in the S. L. Harwell home.

Miss Juanita Harwell visited Nona B. House Sunday.

Miss Christine Simpson spent Sunday with Miss Christine Denman.

Mr. and Mrs. Roy Simpson spent Sunday in the John Duncan home.

John L. House left Monday for El Paso, where he will take up the duties of a soldier.

Mr. and Mrs. Jack Hill are the proud parents of a beautiful daughter, born the first part of the week.

Mr. and Mrs. Tom Lasly and daughter, Waldene, visited in the C. H. Welch home this week.

Mr. and Mrs. Bob Thompson and family left Tuesday for an extended tour over the United States, but have Oregon in mind, as their goal.

Garden Insects that DESTROY

American Bean Beetle — Menace to Bean Crops

By DR. HARRY F. DIETZ, Grasselli Chemical Co.

Research Department, to the bean plant is different from that done by any other insect which feeds on bean foliage. The adult, feeding from below, eats ragged areas of the lower surface of the leaf, but often cuts through the upper surface giving the surface a lace-like appearance. Although the leaves are attacked first, all parts of the plant above ground may be fed upon by both adult and larva.

Fortunately for the grower of beans, a method of control has been found and one that is inexpensive and easily prepared. It is the use of barium fluoride mixed with cheap flour or lime and used as a dust. The proportions are one part of barium fluoride and four parts of flour or lime. Applications should begin before the pods are set and starting to increase in size. The under side as well as the upper side of the leaves should be sprayed.

A Continued Discussion

Few subjects have held the attention of the public mind so fully and for so long a time as has the supreme court's decision invalidating the National Recovery Act, which gave dictatorial powers to the president over business and industry and allowed him to delegate that power to his associates and selected lieutenants. The supreme court by unanimous vote declared the act unconstitutional and it is now said by the advocates of government control of business that the lawyers connected with the administration believed all the time the act would not stand the test of the court of last resort, but they hoped for a divided court, possibly a 5 to 4 division, but when all nine of the members of the court concurred in the opinion they were nonplussed and disconcerted. Since the decision, however, there has been a constant effort on the part of the advocates of government supervision of business and industry to create the impression that a terrible condition has been created by the court's decision, but so far they have not been able to cite any outstanding case where abuses have been recorded. Most of the industries of the country—all of those of any magnitude—have gone on about their business without any change in their affairs. The advocates of government supervision and dictatorial power are clearly disappointed and are searching every nook and corner of the country in an effort to find some outstanding case where this supervision was helpful and the decision of the court hurtful, but so far they have not been able to locate such a case. The fact is that the country would have made much greater progress toward recovery had the supervising law never been enacted, but now that it has been enforced for a time, its advocates will not likely be satisfied to allow the country to build back in a normal way, but will continue to hope for some way to be found to formulate a system of government control that will, to some extent, follow the lines laid out by the invalidated measure.

An Important Court Decision

The supreme court of the United States handed down an important decision on the farm moratorium law on the same day the NRA decision was promulgated, but the wide-spread public interest in the last named decision prevented the moratorium law from being so much discussed or understood. The Frazier-Lemke farm mortgage moratorium law provided that when a farmer was threatened with foreclosure he could apply to a federal court for aid. The court was empowered to issue a stay against the foreclosure and have the property revalued by local appraisers. Thereafter, the law provided, the farmer could remain on the property for five years for a small annual rental. At any time during that period he could again regain title to the property by paying the appraised value—which, as the appraisal was made on the basis of depression values, was bound to be much less than the original mortgage.

The supreme court, in a unanimous decision read by Justice Brandeis, declared this law unconstitutional, as it deprived a mortgage holder of property without just compensation as provided for in the constitution.

Maintaining States Rights

In a controversy Saturday between Governor Alfred and one of President Roosevelt's sons on the question of states rights, before the convention of Young Democrats in Convention at Amarillo, the governor very ably defended the side of the states and the convention adopted a resolution declaring opposition to any change in the federal constitution that would interfere with or change the states rights principle. In the last issue of the Texas Weekly its editor, Peter Molyneux, very ably discusses the subject and quotes Thomas Jefferson and the Democratic platforms on the subject and says in part: "It was Thomas Jefferson himself who defined one of the fundamental tenets of the party to be the support of the state governments in all their rights as the most competent administrations for our domestic concerns, and the surest bulwarks against anti-republican tendencies, and the party has adhered to that 'fundamental principle' during more than a century. Indeed, it has been largely because the Democratic party has had such fundamental principles that it has endured across the years, while other parties have risen, had their little day, and ceased to be."

Law Enforcement Without Sentiment

The law against kidnaping, both federal and state, must be strictly enforced without maudlin sentiment, if the citizens of the nation are to be protected from the hoodlum element. In a number of recent cases convictions have been secured and in one notable case the victim of the gang that held her for ransom appeared in person to the authorities for leniency for the guilty party. Only a few days ago a 9-year-old boy was kidnaped in Tacoma, while he was on his way home from school and was held under threat of violence until his family paid \$200,000 ransom. Officers claim to have taken the members of the kidnaping gang into custody and secured a part of the ransom money. Unless the penalty prescribed by law is strictly enforced in these kidnaping cases, where the guilt is established, there will be a recurrence of the crime from time to time, but when once these criminals who plan to secure easy money by holding some member of a family until a ransom is paid, understand that it means the hangman's noose or the electric chair when their guilt is established there will be a cessation of such crimes.

A Brighter Side

Some of the writers on economic questions have broadcast their views on public affairs and the business outlook and have taken quite a pessimistic view. How they can hope for beneficial results from their promulgations it is hard to see. The government is making large appropriations and is assisting in public and private enterprise with an open and liberal purse, but we must remember this is the wealthiest and greatest government on earth and can afford to be liberal. The figures on the public expenditures would be staggering if they were the transactions of an individual, but when relating to the government they mean nothing. As an example: So far this fiscal year the treasury has spent the almost inconceivable sum of \$130,000,000 per week—over half a billion a month. Forty-eight per cent of this was used for the ordinary running expenses of government, the balance going for relief, public works and similar "emergency" projects, but look at the other side of the picture: Treasury receipts have averaged about \$283,000,000 a month. So there is no occasion for pessimism or depression in spirit.

Health Hint

SPIDER BITES

Several cases of spider poisoning caused by the bite of the so-called black widow spider, have been reported in Texas this year and people who live in rural districts might well take precautions against bites from these poisonous insects, warns the chief state health officer.

The scientific name of the black widow spider is Latrodectus mactans, and it is called the "hour glass," "black widow" and "shoe button spider." Its shiny black, round abdomen gives rise to the name of shoe button and the bright red patch, which may be shaped like an hour glass, is responsible for the hour glass designation. It obtains the name black widow from its custom of eating its mate. The body of the female is often an inch in length and the long shiny black legs may stretch over a spread of as much as two inches.

This spider builds its web in dimly lighted places, generally in old toilets, garages, and other outbuildings. Its rough, coarse irregular web is found under floors, in corners, between rafters, but especially under the floors of toilets, sheds, barns, etc.

Many requests have been received by the Texas state department of health relative to the best methods of controlling these insects. Spraying of crude oil or creosote in cracks and crevices, particularly around the seats of old toilets, is an invaluable procedure, but precautions must be taken against fire. It is possible, also, to crush the egg masses with a stick. Other methods of control are unknown, although efforts are being made at the present time to find a parasite which will feed on the egg masses.

After the sharp, stinging bite, acute pain develops in the region of the surface bitten, spreading to other parts of the body. In addition to the pain, there is generally writhing, muscle contraction, difficult breathing, cold perspiration, nausea and an extreme rigidity of the abdomen. If recovery occurs, there is a long convalescence, during which there remains general weakness, numbness and pain. There should be no delay in calling a physician in cases of spider bite.

NEWS IN BRIEF

In Texas 423 work relief projects have been handled under the state and local emergency relief administration, Harry L. Hopkins, federal emergency relief administrator, said Sunday. The projects include the construction and improvement of public buildings and improvement of parks. They are: Reservoirs, 7 constructed; waterworks, 148 constructed; federal reservations, 15 improved; city halls, jails and fire stations, 54 constructed, 98 improved; community houses, 25 constructed, 47 improved; park buildings, 11 constructed; auditoriums, 7 constructed, 7 improved; water pumping plants, 4 constructed. These statistics do not include projects started by the CWA and completed by the emergency relief administration and are exclusive of projects now in progress but not reported.

Washington expects all debtor nations, but Finland, to follow Great Britain's lead and again refuse to meet war debt payments due the United States June 15. In answer to a polite "reminder" from Secretary Hull that the British government would owe the United States \$65,670,000 on June 15 in addition to arrears totaling about \$380,000,000 the British ambassador gave notice of the new default. He said that Britain had dispatched a note last June explaining why his government had been unable to pay pending the "negotiation of a final revised settlement." The note added: "His Majesty's government has constantly given most careful consideration to the matter, but they regret it does not appear to them that the essentials of the situation have changed since that note was written." Finland, the only European nation which has made all payments when due, is expected to remit on schedule.

POSTAL RECEIPTS AT LEVEL OF 1930

"The postal receipts have long been looked upon as a barometer of business throughout the country," said Postmaster General James A. Farley at the dedication of the new post office in Philadelphia last week. "I found to my surprise shortly after taking office," he continued, "that while they were a good barometer, they were some months late in registering rise and fall of business. We have corrected that. Now we know on the seventh of each month the receipts and expenditures for the previous month.

"The improved system enables me to tell you that for the first ten months of this fiscal year there has been a gain in postal receipts of 10 1-3 per cent over last year in the smaller offices and 6 per cent in the larger offices. April, 1935, records the best postal increase since April, 1930, a gain over April, 1934 of 15 per cent or \$7,000,000, and \$1,000,000 less than in April, 1930.

"In the actual business of handling and delivering the people's mail our income is greater than our expenditures, a state of affairs that the country has not witnessed since the administration of Woodrow Wilson. And we have sacrificed no essential services in effecting this saving."

PWA LIBERALIZES TERMS

President Roosevelt's approval of a recommendation of the Advisory Committee on Allotments, providing for liberalism of the loan and grant terms on non-federal public works projects, was to reduce the share of the cost, borne by the federal government of re-employing men in the works relief program. The action makes it possible to loan more money instead of making 100 per cent federal grants.

Non-federal PWA projects under the old PWA procedure were offered an outright grant to the local authority undertaking the project of approximately 30 per cent of the cost and a loan of the balance of the cost at 4 per cent a year. Falling interest rates subsequently made it possible for PWA to sell \$85,000,000 worth of bonds it received as security for the loans made by it at substantial profits. More of such bonds will be sold as they become available.

Liberalization of the grant from approximately 30 per cent to 45 per cent of the cost of the project and reduction of the annual interest from 4 per cent to 3 per cent is designed to open the way for non-federal bodies, cities, states and other subdivisions, to co-operate in the works relief program with the federal government on a much more liberal basis. The action should make it easier for communities to borrow funds on collateral security from PWA instead of requesting outright all federal grants, thus helping to carry out the president's objectives of returning as large a proportion as possible of the funds to the treasury.

DO YOU KNOW

North and South Dakota claim the lowest human death rate of any states.

One person out of every 100 in this country was injured in an auto accident last year.

In 1934 the railroads had only one fatality per 400,000,000 passenger miles; scheduled air transport had one fatality for every 24,000,000 passenger miles; and autos had one fatality in every 11,000,000 miles.

The average woman uses six varieties of cosmetics — rouge, lipstick, face powder, cold cream, eyebrow pencil, mascara, and puts on an average of three applications a day.

The Alexander Hamilton Institute figures the total national wealth of the United States in 1934 at 264.4 billion dollars as compared with 237.2 billion in 1933 and 226.7 billion in 1932.

There are still 20,000 horses in New York City requiring 600 stables to house them.

This year's world wheat crop is expected to be the smallest in nine years.

Only five of the states now place no limits, either by the day or week, on the working hours of women.

EDITORIAL COMMENT

VIEWS OF THE NATION'S PRESS ON TOPICS OF INTEREST AND IMPORTANCE

GRADE CROSSING ELIMINATION

President Roosevelt has stated that he definitely favors grade-crossing elimination as part of the great emergency spending program.

The president, in making the announcement, alluded to the recent Maryland accident in which 14 children in a bus were killed when it was struck by a train, and said that such accidents are far too common. He then indicated that about \$200,000,000 will be spent for crossing elimination before July 1, 1936, and stressed the need for speed in getting the crossing program underway. The proposed plan is to grant money to states which have facilities for performing grade-crossing work and to have the federal government do the job in states where such facilities do not now exist.

Grade-crossing elimination is one of the best possible fields for spending of emergency funds. It fits every purpose for which the expenditures are designed. In that it serves a definite public need, benefits every citizen, stimulates industry and provides a maximum of employment, direct and indirect, for each dollar spent. Every heavy industry in the country will share in the purchasing power grade-crossing elimination will create—steel, cement, paint, etc. All other industries will likewise share, in that the money going to workmen will be spent for all manner of commodities and services. The cause of highway safety will be immeasurably advanced, and railroad service will be improved, as the existence of grade crossings is a great barrier to increasing train speeds.

The \$200,000,000 will not, of course, eliminate all grade crossings, but it marks a great step forward, and paves the way for additional work to be done by all units of government in the future.

THE BONUS AND THE CAMPAIGN

At one point, at least, concerning the soldier bonus there can be unanimity of thought. The prospect that it will be carried over as an issue into the next national political campaign is most deplorable.

There will be great issues at stake then: The industrial, agricultural and monetary policies of the Roosevelt administration will be under review. Possibly a contest over amendments to the federal constitution will be underway. These things will be fundamental, of century-long importance to the nation. Yet, it now appears, a consideration of them will be confused by organized campaigns for and against the soldier bonus, stirring bitterness and clouding all other issues.

Surely, the nation could afford to pay much, could afford to pay the difference between what is now owed on the bonus certificates and what will be owed at their maturity in 1945, in order to save itself from another bonus campaign at congressional and presidential election time.—Houston Chronicle.

PENSIONS EXPIRE SLOWLY

It doesn't take long to raise an army, but it does take a long time to pay them off. If the law of averages holds out Uncle Sam will still be paying pensions to Civil War veterans until 1955 and to their widows until at least 1980. While there are now less than 50 actual pensioners of the World War (not counting those receiving compensation) either likely continue to be paid these veterans until about 2025 and to their widows or dependents until around 2065. According to the records of the Veterans' administration the last Revolutionary veteran died in 1889 (the last widow in 1906); the last survivor of the war of 1812, in 1905; and the last soldier of the Mexican war, in 1929. But at the beginning of 1935 there were 15,647 civil war veterans and 106,901 of their widows and dependents on the pension rolls as well as five widows or dependents of the War of 1812.—Pathfinder.

JEFFERSON'S GREAT DREAM

The more closely you scan the trend of affairs in the United States over the past century, the more you must be of the opinion that the present era is the forerunner of a great transition in our scheme of government. This nation was founded, and Thomas Jefferson visioned it as such, on the theory that the average man would own his land, and also that a majority of the population would remain in agricultural centers.

But this dream of Jefferson's has not materialized; most people work for others, and they do not depend upon their own land for sustenance. The result is that we now have a generation of voters, the majority of whom are products of city industry; they do not know the feel of an ax as it clears farm land in a forest; they do not thrill to the turn of a furrow as they sow crops; they have no recollection of the beat of wind and rain and snow and sleet upon their bodies as winter tried to drive them from the conquest of nature's elemental environment.

The net result of all this reveals a majority of American citizens unable to appreciate the priceless heritage of free self-governing privileges; the resulting citizen apathy and disinterest therefore leave the way of government open to the demagogue, the predatory and mercenary politician, and, unless human beings reform, you can figure out for yourself how and when some form of state piracy and dictatorship will eventually become sovereign in our beloved America. — Birmingham, Mich., Eccentric.

OLD AGE PENSIONS

There has been very little general discussion of the proposed constitutional amendment in Texas whereby an old age pension will be granted by the state.

The old age pension is coming in some form. It is going to be burdensome to certain interests when it does come but the demand is growing and perhaps before a great while both the federal and the state governments will be legislating definitely in that direction.

It has been a time honored principle of economy that folks in their young days should lay away something for the proverbial rainy day. But in the light of recent experiences we know that when the rainy day comes it is as apt as not to wash away that has been laid up. That is the tragedy of it, and a civilized people can not let anyone starve because of unthriftiness, so far as that goes.

More and more concerns have drawn the line on gray hair. Men are shut out of employment now when they are at their best so far as skill is concerned, if not strength. To pull them off the job when they still have need of earning a living, and while they are still capable of doing it effectively, is an economic crime, and it can be met only by a pension.

Just who is to pay the pension is the question. Perhaps those who take a fellow and get the best out of him that he has, are the ones to keep on providing for him when he grows old. At any rate it is something that somebody must do.—Waco Record.

FARMERS' PROBLEMS

The wheat growers, like the cotton farmers, want a price for their crop that will justify growing the crop. They are less bothered over a prospective surplus than over an immediate profit.

This means that the beneficiaries of AAA are 100 per cent human. The wheat problem is not as acute as the cotton problem, however. Less wheat proportionately is exported. We are a wheat-eating nation, and when the domestic output is under normal appetite takes it up without needing to call upon foreigners to come over and help us. Wheat prices have been on the decline for two months. They reflect domestic demand and that demand inevitably tends to lower prices when there is no bidding from other countries. The

MEXICO'S NEW

Mexico is in the process of changing her currency and of making it convertible. The new silver peso is being introduced as compared with the old peso withdrawn from circulation in Mexico last year. The Mexican silver policy is being changed in this country because it was adopted by representatives of the Mexican government had been in consultation with Secretary of State.

If Mexico is given permission the silver peso is likely to pump out the white metal would be increased above the old price of \$1.29 an ounce. For Mexican peso would be valuable as a coin that would be used until the white metal is approximately \$1.35 in market.

It does not follow that Mexican currency policy is the intention of the government to force the price of silver to \$1.29, but it is significant that the Mexican government in adjusting its system, and after consultation at Washington, acts on the theory that the price of silver, the price Bryan demanded for years, may be restored, the new peso is coined in the new volume the expectation that it will be returned to the market and that the currency system will eventually become sovereign in our beloved America. — Birmingham, Mich., Eccentric.

FARM TENANCY

The Progressive Farmers' union in Europe in contrast to the United States is in the south. Many of the Scottish tenant farmers year leases on the land. Farms continue in the hands of one family for generations, although the land is owned by others. Neatly fenced and Scotch farm provide for crop rotation, fences, raising of livestock, conservation of fertility in soil fertility and prevention of impoverishment of the neglect.

It is easy to see why percentage of tenant farmers in England and Scotland which is presented by the percentage of tenant farmers in the United States, especially in the south. In this region a year-to-year tenant seldom occupies the land for two years in a row. The tenant tends to impoverish the land by the use of the land. English and Scottish farmers are so permanent their tenure amounts to a lease of the land. The tenant is almost, if not nomad. We could learn from these older countries the farm problem which confronts us was settled hundreds of years ago. —

A young boy, riding a bicycle, in an effort to dodge an oncoming car, plunged into the crowd of girls, before he realized they were in his path.—News.

One-man government was the accepted mode throughout innumerable centuries. With autocratic power, the autocrat not infrequently abused his authority, to the injury of his subjects. The continent of Europe today is largely given over to one-man dictatorship. There are many on that continent who regard the autocratic system as superior to the democratic. No doubt it is superior in some nations, nations which have never learned democracy. In the formative stages of our own republic there was an influential party which held out for strong centralized government, with the national capital as its base. But Washington, Jefferson, Madison, Monroe and Andrew Jackson, each in his turn, favored the largest measure of freedom for the states. The recent supreme court decision in the NRA case, as well as a series of decisions in lower courts, opposed the theory that the federal government can take authority over purely intrastate matters. It has also been ruled that unless a product shipped across state boundaries potentially affects interstate commerce it is to be regarded as subject only to intrastate laws or regulations.—State Press in Dallas News.

The rose still is the most popular flower in America today. However, the American Beauty variety has lost its place as America's first choice and a new rose has swept into its niche as most popular in a nationwide demand, it was determined as the flower industry prepared to fill the largest order in its history on international flower shut in day, June 20, when florists everywhere send an estimated million shut-ins gifts of bouquets. This new rose is called "Better Times."

Whole-hearted indorsement of the proposal of the state highway department that a larger share of federal funds be allotted to Texas for road construction was unanimously expressed in a resolution adopted at Mineral Wells Saturday at a special meeting of the county judges and commissioners association of Texas. At the same time emphasis was placed on the importance of using a considerable portion of the federal money in constructing lateral roads.

The centennial commission of control Saturday paved the way for expenditure of \$1,200,000 state funds for a main exposition building and equipment at Dallas. Plans of the central exposition corporation for a \$1,000,000 building were approved, a contract made and a certification to the comptroller effected to make the funds available immediately. Walter D. Cline, general manager of the Dallas exposition, announced he would leave immediately to urge an appropriation of \$3,000,000 by congress to supplement state, city and exposition funds. The state appropriation was \$3,000,000 of which \$500,000 was set aside for publicity, \$1,200,000 for Dallas and the remainder for commemorations at historical places. The exposition issued \$2,000,000 in bonds, while the City of Dallas promised \$3,500,000 for construction.

Miss Betsy Jane Walters, daughter of Judge G. A. Walters of San Saba, was here yesterday in the interest of a subscription campaign for the San Saba News and made the Eagle a pleasant call. Miss Walters gave a reading for the Missionary society here some time ago and made a great many admiring friends who will always be delighted to meet with her and will be glad to help in her campaign.

Dr. Herndon Nelson and wife are visiting his parents, Mr. and Mrs. Walter Nelson, at Big Valley. Dr. Nelson graduated from medical college at Galveston recently. He is a former graduate of Goldthwaite high school and Southwestern University and his many friends rejoice with him in his success. He will leave in a few days for Beaumont, where he is to be employed in a hospital.

CENTER POINT

Sunday was set aside to re-organize our Sunday school, but only a few were present and the re-organization was postponed. Everyone remember and try to be present for Sunday school on Sunday.

Herman Davis of Albany visited with his parents, Mr. and Mrs. Ed Davis, over the week end. Mrs. Lewis Trullitt and children called on Mrs. Chester Williams Saturday afternoon.

Mr. and Mrs. Marvin Spinks of Rabbit Ridge dined in the Joe Spinks home Sunday.

The sewing club met with Mrs. Joe Spinks and girls Thursday afternoon. Mrs. Spinks had some thing different to be done. The afternoon was spent in shelling and canning beans. After working several hours, refreshments were served to 20 members. The next meeting will be held with Mrs. Emil Steinmann on the afternoon of the twentieth. All members are urged to be present.

Mrs. Harvey Wilson was called to the bedside of her uncle, Mr. Will McNeil of Caradan, Sunday afternoon. Mrs. Wilson remained over until Monday, as her uncle died. She attended the funeral Monday.

Mrs. Joe Spinks and Lindy and Mrs. Emil Steinmann and Mattie Jane, visited in the Ed Davis home Tuesday afternoon.

Mr. and Mrs. Aubrey French and daughter, Wyno Lee, dined in the L. W. French home Sunday.

Mrs. Fred Davis called on Mrs. Omer Hill one afternoon this week and Mrs. Hill helped Mrs. Davis with some sewing.

Mr. and Mrs. Johnnie Taylor called in the Steinmann home Monday afternoon and gathered beans for canning.

Mrs. A. L. French and Rubye French attended church at Mullin Sunday afternoon.

Quite a bit of grain has been cut already, while some of the farmers are busy sowing their grain this week.

Warren Wilson helped Woodrow Spinks cut grain Monday and Tuesday.

Harvey and Lloyd Allen of San Saba visited in our community the early part of the week.

Chester Williams lately presented his wife with a new pressure cooker and sealer. He evidently plans on keeping her busy canning this summer.

Mr. and Mrs. J. N. Smith and son and Mrs. Ida Smith of Bangs spent Wednesday night with her mother, Mrs. Conner.

Mr. and Mrs. Will Harmon and children were Sunday guests in the Joe Spinks home.

Miss Lillie Conner returned last week, after a two week's visit with her sister near Bangs.

Mr. and Mrs. Jack Hill have a new girl, who arrived last week to make her home with them.

Mr. and Mrs. Lewis Trullitt and children and Miss Louella Trullitt of Pompey spent Thursday with Mrs. Trullitt's brother near Caradan.

George Hammond and boys are working at Duren this week.

Mrs. Fred Davis, Miss Julia Dee Fallon, Vernell Chaney and Mrs. E. W. Shelton called a few minutes Thursday afternoon in the Taylor and Conner home.

BLUE BONNET CLUB

June 4, 1935, the Blue Bonnet club met with Mrs. Walter Simpson, quilted one quilt and tacked one.

A reporter was elected and purple and white were decided for our colors. The Blue Bonnet was selected for our flower.

Three new members, Mrs. Vera Fletcher, Mrs. Virgie Mae Cox and Mrs. Francis Casbeer, met with us.

After the business session Mrs. Walter Simpson, assisted by Miss Vola Belle Scrivner, served delicious grape juice and cake. We adjourned to meet with Mrs. Rena Smith June 18.

REPORTER

Mr. and Mrs. J. D. Urquhart have been quite sick in their home here this week, but are reported to be improving.

Pat Murphy, who was recently badly injured in an automobile wreck near the cheese factory, is able to be at his place of duty in the postoffice.

Miss Allene Martin entered Baylor, Belton, college this week for a special summer course in music. She was accompanied to Belton by her parents, Mr. and Mrs. Fred Martin, and sister, Jeannett.

METHODIST NOTES

(Continued from page 1)

He said that when a boy he found himself going very definitely to the bad, when the church at that place stepped in and took charge of him. Three of his companions refused the good offices of those who sought him and because of strong drink were drowned in the river, while three others serve terms in prison for crime. That, said he, is holy ground for me. May it not be that, though we least suspect it, this is true of many of us. But for the church and the things for which it stands where might some of us be?

Wedding bells have been ringing in our town lately. Our young friends, Raymond Little and Miss Vivian Campbell, embarked together on life's sea last Sunday morning. This writer has known them both from childhood and regards them very highly and wishes for them a pleasant voyage, with neither storms nor clouds that may in any sense prove subversive of a worthwhile voyage. Blessings upon them.

Walters Hester and Miss Lola Keese, another couple of our acquaintance, worthy young people of our city, slipped out upon a like voyage last Wednesday. This is of special interest to this writer, because of the fact that some years ago he performed the ceremony that linked together the lives of the father and mother of young Hester. Blessings upon them all.

Say, what is the matter with you men who were once such strong supporters of the choir at the Methodist church? The ladies were there in full force at the evening hour, but the men were not there in very much force of any kind. Think of Jim Helm and a certain old man with a voice like a rock crusher being responsible for all the tenor that was sung. The bass did a little better, but some others should have been there to back the boys up. If you don't do better than this it is going to be a very great tax on the imagination of even the most eloquent liar to say anything really good about the Methodist choir. The ladies were there Sunday night, but where oh, where, were the men! The whole thing looked like an old maid's convention. Step up gentlemen and do your part. You are needed. J. S. BOWLES.

PASSING OF J. W. McNIEL

J. W. McNeil was called to rest June 9, about 10 o'clock a. m., after a long illness.

He was born in Leon county, Texas, November 10, 1860. He lived there a short time, and then with his parents, moved to McLennan county, where he lived until he was grown and came to Mills county to work.

He was married to Miss Mattie Head of Mills county in 1891 at Goldthwaite by Rev. J. T. Bloodworth, pastor of the Methodist church of that place. To this union was born six sons and one daughter, all of whom are left to mourn his death, except one son, James, who preceded him in death several years.

His wife, his children, nine grandchildren and three brothers and two sisters are left. His sons are Cloyce, Ollie, Herman, Morgan and Fred. His daughter is Mrs. Tom Booker. All his children live near his home place at North Bennett, Mills county, except Fred, who works in the tree army near Marble Falls.

His sisters are Mrs. R. S. Mote, Moody, Texas; Mrs. Charlie Eakins, Moody; Mrs. Charles Eakins, Moody; Mrs. Arthur McNeil, Moody; Kirk McNeil, Washington.

All his relatives were present at his funeral except his brother of Washington. He was a good citizen of Mills county for almost half a century and will be greatly missed by his friends and relatives.

May God's richest blessings be upon the bereaved. A FRIEND

PRE-NUPTIAL SHOWER

Many of the friends of Miss Marvel Ford gathered at the home of Mrs. W. J. Ford at Scalhorn, Mesdames. W. J. Ford, C. S. Smith, Fate and Homer Eckert were joint hostesses to honor her with a miscellaneous shower prior to her marriage to Mr. Dave Williamson of San Angelo.

Garden flowers, combined with wild flowers of the season, were used for very informal but appropriate decorations. After all the guests had arrived they were entertained very informally with games and contests for the first hour. The shower was presented to Miss Ford in the form of a huge pie, which upon cutting she found to be filled with lovely gifts from her friends. After the opening of the many beautiful packages, the guests were served with delicious refreshments of sandwiches and fruit punch. Miss Ford wore a green linen sport dress for the occasion.

The guests present were Miss Marvel Ford, honor guest; Mmes. J. N. Rusler, F. R. Hines, Lora Maund, John Kuykendall, L. J. Morrisley, Dee Jones, Winter Stevenson, Ernest Johnson, Troy Fleming, James V. Gage, A. J. Miller of Goldthwaite, Charley Harrison of Goldthwaite, Vonnie Easley of San Angelo, H. Blackman of Austin, Walter Richter of Austin, A. D. King of Austin; Misses Cecil Joe Kuykendall, Greta Hines, Myrtle Mae Miller of Goldthwaite, Beatrice Miller of Goldthwaite, and the four hostesses. AN ANONYMOUS INVITATION

An anonymous writer asks the Eagle to announce that there will be a big picnic and homecoming of all Mills county people in Fort Worth and Dallas at Arlington park, mid-way between the two cities, Sunday, June 16. The announcement and invitation may be a hoax and it may be genuine, as the Eagle has no idea who wrote the announcement, but gives the ex-Mills county citizens in those cities the benefit of the information that they may investigate. It is possible the arrangement for the meeting has been made in good faith and had the writer of the letter to the Eagle seen fit to sign it a more extended and authentic notice would have been given.

CARD OF THANKS

We are indeed grateful to our neighbors and other friends for their kind attention during the illness and death of our dear son. We appreciate our friends who realized and sympathized with our loss and sympathy will be remembered by us.
