A MOVE TO COLLECT DELINQUENT TAXES

The fact that the grand total of delinquent taxes in Texas has reached the gigantic proportions of one hundred and forty million dollars has caused some of the legislators to lay plans for more prompt collections.

Reintroducing the bill sponsored by the late Senator A. P. Duggan of Littlefield in the last regular session, Senator Holbrook proposes a summary sales measure which will allow a sale of delinquent property by the sheriff without a suit or trial.

The bill provides for a biennial recompilation of delinquent tax records by the tax collector, and during July of each year notices of delinquent taxes shall be sent to every delinquent property owner.

The sheriff shall serve owners

and lien holders of the property ordered sold with a citation and final notice notifying them of the date and hour of sale, such sale to take place on the first Tuesday of the second month after the citation is served.

Thus approximately one year will elapse between the date taxes were originally due and the date of sale.

No property may be sold for more than the amount of the taxes, interest, penalty and costs.

Any property sold may be redeemed within two years after date of sale. If redeemed within the first year after sale, the redeemer shall pay the sale price plus ten per cent.

C. C. C. BOYS

To the Editor of the Goldthwaite Eagle,

Dear Mr. Thompson: We are writing you a few lines about some of the C. C. C. boys from your county and adjoining counties.

There isn't anything much to look at out here except giant cactus, sand, cat-claw, grease-wood and mountains. Our favorite pets are gila monsters and rattlesnakes, of which there is a plentiful supply.

There are about 190 men in this camp. In our estimation we have the best camp commander in the whole C. C. C. His name is Captain Emzy H. Lynch.

We have lots of fun going to the different recreational and interesting spots near our camp. The great Coolidge dam is 55 miles from our camp, and we can see Mount Graham from here, which has an altitude of 11,000 feet and is the second highest mountain in Arizona.

The Soil Erosion Service of the United States department of Agriculture has charge of us while we are away from camp working.

Last Wednesday night a few of the neighbors gathered in W. A. Cooke's home for a miscellaneous shower for him to use in his new house.

We thank you in advance for your courteous attention to our letter.

- THE LONE STAR STATE BOYS CLINTON CALHOUN, Reporter JOE DAVIS, BEN CASBEER, JIM HUFFMAN, HENRY STEARNS, WELLS HENDERSON, JAMES WALKER, all of Goldthwaite. JESSE ROBBINS, Mullin, HENRY EDGIN, San Saba, AL KELLER, Comanche, CLINTON FULCHER, San Saba.

ROCK SPRINGS

Our friend and neighbor, J. W. Estep, who lived in town, was buried out here Saturday afternoon at 3 o'clock. Mr. Estep was born Dec. 20, 1855; died Sept. 20, 1935. He was converted at the age of 37 and joined the Baptist church.

We express our sympathy to Mrs. Sam Rahl in the loss of her dear mother. Also to Drew Wheeler in the loss of his father May God bless each of you.

Our committee meeting at the Eagle office was a success Saturday afternoon. The program is for all of us to meet at the Eagle office Saturday afternoon at 1 o'clock.

Bro. Homer Starnes from Brown county filled his appointment Sunday morning. There was a nice crowd at church. He preached an awfully good sermon. He didn't accept the work for this year.

Last Wednesday night a few of the neighbors gathered in W. A. Cooke's home for a miscellaneous shower for him to use in his new house.

Lois and Eula Belle Dewbre from town visited in the Dewbre and Daniel home Monday.

Bro. Homer Starnes called Sunday morning on J. R. Davis and wife before preaching time.

Marion Robertson and family from Rabbit Ridge dined in J. T. Robertson's home Sunday.

Dwight Nickols and wife from town spent Sunday in the Nickols home.

J. R. Davis is lots better. He had had an awful carbuncle to contend with. He will soon be up and around.

Mrs. Glenn Nickols from town spent Saturday night and Sunday in the Nickols home.

B. F. Renfro spent the week end with his parents at Ratler.

Richard Saunders and family and Rudolph Cooke dined with Mrs. Traylor and children Sunday.

Billie Ruth Daniel started to school in Big Valley Monday.

James Nickols thinks he will finish the work on Mrs. Leverett's home in town this week.

Jesse Massey has been selling fresh corn since the big rains we had not long ago.

Claud Laird and some friends from Galveston spent the week end at home with his family. They went fishing and caught lots of fish.

Sherill Robertson's school began Monday in San Saba county.

Mrs. Eula Nickols visited in Mrs. Estep's home in town Thursday afternoon.

A. R. Kauhs had to work at the gin Sunday. They had bad luck Saturday, so it had to be fixed Sunday.

Shirley Nickols helped Landy Ellis gather corn this week.

Homer Circle and wife from San Saba and his father took Grandmother Shipman to Trinity Sunday afternoon.

Mrs. Landy Ellis was called to San Saba to her father last Wednesday, who was sick. They took him to Temple, where he was operated on Thursday.

Little Cleta Laird was real sick Saturday night and Sunday.

James Roberts was real sick last week. The doctor pronounced his trouble asthma.

E. D. Roberson, who teaches at Big Valley, began his work Monday.

Marion Robertson and family from Rabbit Ridge, Woody Traylor and family and Mrs. Traylor

PUZZLING ORDERS

It has been something of a puzzle why so many federal judges issued injunctions against the collection of processing taxes, in view of federal statutes plainly providing that payment of taxes may not be restrained, but that taxes should be paid and actions brought in the courts for refund.

and children sat until bed time in the Faulkner and Laird home Saturday night.

J. B. Alley and family from Brownwood spent Saturday night and Sunday in J. Frank Davis' home.

Mrs. Joe Roberts and children visited Monday in the Nickols home.

B. F. Renfro and Miss Johnnie Belle Circle visited Sunday afternoon with Miss Waidine Traylor.

Mrs. Woody Traylor spent Sunday night with Mmes. Laird and Faulkner. She helped to take care of Cleta Laird, who was sick. She is better as I close my letter.

John Roberts was to begin to tear down his house Monday, getting ready to build a new one. More prosperity in this community.

Mrs. Landy Ellis came home Monday. She left her father doing as well as could be expected.

James Nickols didn't get to rest Sunday, as some do on Sunday, as he was kept busy barbering and some other work that had to be done. He helped his brothers ride a wild horse. Rudolph Cooke also helped with the wild horse.

Marvin Spinks and family returned from Rabbit Ridge and Miss Eva Fallon from Center Point, and W. A. Cooke and Mrs. Nickols sat until bed time with Mr. and Mrs. J. C. Stark Saturday night.

Arle Davis and family from Brown county spent Saturday night and Sunday with his parents and his brother and family. His uncle and grandfather went home with them after several weeks visiting in the Davis home.

Don't forget the Association, which meets with the Center Point church next week end.

There will be church Sunday morning. J. A. Laudermilk from Dublin will preach. Come to hear him and bring someone with you.

Marion Jetton, Mrs. J. T. Robertson's brother, is helping Mr. Robertson gather his corn.

Marion Robertson cut feed for Oscar Gatlin last week, with his wife's help.

R. C. Webb and wife are taking their vacation this week in Lock-er and other places.

Joe Roberts has been pretty busy fixing radios and also doing some wiring.

Mrs. Mary Faulkner and Doyle Laird had business in town Tuesday.

Woody Traylor and family sat until bed time in the Massey home Monday night.

Mrs. Joe Roberts and children, Mrs. Homer Doggett and daughter and Mrs. Eula Nickols attended the program at the junior high school in town Monday night.

We got a very light rain Monday afternoon. Some wish for more, while others don't want it to rain on account of their cotton.

PARENTS AND TEACHERS ENTERTAIN

On Monday night, September 23, the members of the Parent-Teachers association entertained all patrons of the school with a party in the school auditorium. There were around one hundred fifty parents and teachers present. Teachers, school board and officers of the association stood in the receiving line at the cad of which punch and cookies were served by Mrs. Cloninger and Mrs. Ramsey, from a vine and flower covered table.

A very interesting program was given. Special thanks go to Pat Patterson and Miss Ruby Lee Dickerson for the music furnished during the party, and to Mrs. Lon L. Smith of Brownwood, who brought several numbers in dancing.

We feel that the social affair was very beneficial, for much better work can be done in the school and in the Parent-Teachers association when school board, teachers and patrons are all cooperating. Quite a few of the new patrons were present, but not all of them. We are sorry they were not all present. Let us insist that all parents meet with us at 4 o'clock on the second Tuesday in October.

DANNY, THE DIRT DAUBER

It is reported that Miss Cox almost knocked Miss Gatlin down when we made our "nearly a touchdown" at Brady. Did we fool Brady. They thought Mr. Smith and Mr. Watson had bass drums on their busses. Little Audrey just laughed and laughed, 'cause she knew all the time it was just the girls hammering on the sides. Lottie drank so much water at a cafe in Brownwood that the waiter finally had to tell her she got only six glasses with one hot dog.

Misses Bayley and Brim have been chosen pep squad chaperones by the pep squad; Mrs. Barnett and Mrs. Little, by the way, will chaperone them.

GOLDTHWAITE LOSES FIRST CONFERENCE GAME, 12-0

The Eagles lost their first conference game to Brady Friday night, 12-0. The first quarter Goldthwaite was a little nervous, but after that the Eagles played good football. Brady's scores came as a result of a long end run and a pass. Goldthwaite showed plenty power on the defense at times. In the line Luckus, Miles and V. L. Doggett looked good. In the backfield, H. Gatlin and Clark Davis performed well.

In the second quarter Luckus blocked a punt and G. Johnson carried it over for a touchdown, but the ball was brought back, as both teams were off side. Goldthwaite out punted Brady and played most of the time in their territory. This was Brady's second game. They outweighed the Eagles, but did not out-play them, though they won the game. Goldthwaite was on Brady's ten yard line in the second quarter, but fumbled the ball on the second down.

Goldthwaite high school wishes to welcome the fourteen new pupils who were enrolled this week. Lee Roy Miller, formerly of Pleasant Grove, is a freshman. The other students are from Caradan. According to their classifications, they are as follows: Seniors—Furman Bleeker, Alvin Guess, Eva Koen and Vera Koen; juniors—Clara Mae Huckabee, Elmer Koen and Vivian Koen; sophomore—Clayton Huckabee; freshmen—Clara Lee Koen, Odessa Lindsey, Merideth Stewart, Lenden Dale Gerald and Jessie Ruth Ellis. We are glad to have you.

By an agreement entered into last week between the trustees and patrons of the Midway school and Caradan community, the county board, and the trustees of the Goldthwaite school, the high school work has been dropped at the Midway school and the pupils in high school

OBITUARY

In Loving Remembrance of James Robert Harmon
On Wednesday, Sept. 19, 1935, the mortal body of James Robert Harmon was lowered into its narrow grave in the North Brown cemetery.

On the previous day at 5:30 p. m. he passed away in his home after being sick for some 13 or 14 days. Bobbie, as he was better known to his playmates and friends, was born Oct. 3, 1928, in the Trigger Mountain community. He was of a pleasing manner and possessed a magnetic disposition. Those who knew him best loved him most.

His funeral services were conducted by Rev. Jim Hays, by his long and narrow grave.

Bobbie leaves to mourn his death his mother and father, Mr. and Mrs. Jim Harmon; two brothers, Floyd and Joe; four sisters, Edna, Lucille, Clara and Edith Maye, besides his grandparents and other relatives.

The pallbearers for little Bobbie were his aunts, Mrs. Joe Huffman, Mrs. Will Harmon, Mrs. M. T. Harmon and Mrs. Edd Randles.

The flower girls were five of his cousins and Lee Ruth Graves. The beautiful floral offerings betokened the love in which he was held, and the many heart strings that were touched and vibrated with grief at the death of one so young and tender.

But we can only submit to our Heavenly Father, even though our empty arms are aching to hold on to the loved one and stay the Conqueror Death.

We have lost our darling child. He has bid us all adieu; He has gone to live in heaven, And his form is lost to view.

Oh, that dear one, how we loved him!
Oh how hard to give him up!
But an angel came down for him,
And removed him from our flock. A LOVED ONE.

transferred to the Goldthwaite school. A seventh grade school with two teachers will be maintained at Midway.

The Goldthwaite school has purchased a bus to be operated from the Caradan community for the purpose of transporting the high school pupils from that community to town. This bus will transport the elementary school pupils who are available to route to the Midway school. Also it will transport part of the pupils from the Live Oak community to the Goldthwaite school, thus relieving a crowded condition on the Center City bus.

At the present time, by agreement or contract, the Goldthwaite school is serving eleven neighboring schools. In addition to this number, pupils from several other schools are in attendance. Of the eleven schools being served, transportation is being provided in nine of the districts. Four of the eleven are being served by the entire scholastic population being transported and taught in the Goldthwaite school. Seven of the eleven maintain schools in their own community, while all or a part of their high school pupils are transported and taught in the Goldthwaite school. In addition to the foregoing service, the greater part of the scholastic population remaining in the eleven schools referred to will be transported to and from their own school in the Goldthwaite buses.

Laxative combination folks know is trustworthy

The confidence thousands of parents have in good, old reliable, powdered Theford's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The grown folks stick to the powdered Black-Draught; the youngsters probably will prefer it when they outgrow their childish love of sweets.

Mrs. C. W. Adams of Murray, Ky., writes: "I have used Theford's Black-Draught (powder) about thirteen years, taking it for biliousness. Black-Draught acts well and I am always pleased with the results. I wanted a good, reliable laxative for my children. I have found Syrup of Black-Draught to be just that."

Penitas, a village in the Rio Grande valley, near McAllen, claims to have been established between 1523 and 1530 and to be the first community settled in the territory which now comprises Texas.

The government created a central agency Saturday to establish the federal supervision of munitions directed by the neutrality law. Within the state department an office of arms and munitions control was set up.

The government estimate of the Texas pecan crop is 36,000,000 pounds. Last year it was 12,000,000 pounds, while the United States crop for this year is estimated at 78,860,000 pounds compared with 35,810,000 pounds last year.

Mrs. Franklin D. Roosevelt was invited Saturday to attend the Rose Festival in Tyler from October 3 to 6. The president's wife will be in Fort Worth October 3, and it is hoped she can arrange to visit the festival while in Texas.

First replies from millers over the nation were favorable Saturday to a Ponca City man's proposal to give the Red Cross more than \$50,000,000 in impounded wheat processing taxes if the United States supreme court frees the money.

Congressman Patman of Texas, expressing confidence the next congress would pass the soldier's bonus bill, took the stand Saturday that the American Legion convention in St. Louis should urge immediate payment of adjusted service certificates.

Frank V. Lanham of Austin, former member of the Texas highway commission, has been named assistant director of the farm roads division of WPA, it was learned this week. Lanham will be the direct contact man between the states and the WPA on all farm-to-market road construction projects.

The Dallas News says that a negro's traditional fear of not being cared for properly in death leads to the unexpected condition in Dallas whereby few members of the black race ever go to paupers' graves and they are far outnumbered by white citizens who must be buried by the city in the potter's field.

An ancient plow that once tilled the soil of Texas for Sam Houston's colonists, used in later years to weigh down a beehive, was called from retirement Friday to assume a place among the historical relics of the state. A farmer whose family has been farming near Thorndale for a century, has the plow.

To keep out of future world wars the United States should quickly build up her air and navy forces so as to control the sea and air from the mid-Atlantic to mid-Pacific. This was the declaration Saturday of Rear Admiral Richmond Pearson Hobson, retired Spanish-American war hero, writer and lecturer.

A leader of forces organizing to combat the New Deal in the south accuses President Roosevelt of trying to "ruthlessly change beyond recognition the supreme law of the land." In a radio address he urged listeners to "turn from the poison gas of socialism now affecting the country's leadership in Washington."

A hurried call for ladybird beetles to battle cottony cushion scale, which has recently spread rapidly in the Rio Grande valley, is expected to be sent out from that section to California or

Louisiana, where colonies of the ladybirds are kept on hand. There is no other known method of checking the scale, which will kill citrus unless the ladybirds are turned loose on it.

Important changes in courses of study in all public schools of Texas are expected to result from a detailed curriculum study that is now going forward with cooperation of the state department of education and the state teachers association. This was learned Saturday as the state board of education closed a two-day business session in San Antonio in which various other problems were considered.

Government statisticians say that America's long-idle carpenters, bricklayers and other skilled workers are beginning to find jobs in the construction of private homes. Increased private construction has drawn the attention of economists who have been watching anxiously for improvement of the long-dragging heavy goods industries. They also found other signs of improvement in this vital field, along with some discouraging features.

Leo, the okapi, one of the rarest animals in the world, has taken a prominent place in London, England, Public Zoo society. Leo comes from Africa, and is the talk of the town. An okapi (o-ka-pi, with the accent on the second syllable), includes in equal proportions, the characteristics of the giffie, the deer the zebra and similar animals. One of the shyest of animals, the okapi has been hunted almost to the point of extinction by the pygmies of the Lтури forest with their deadly blow-guns.

Invisible, non-reflecting glass—a boon to safety but a jolt to vanity—made its debut in the United States Saturday. The new glass, developed in England, first appeared in the show windows of a New York jewelry shop. In addition to enhancing window displays, the glass was said by its sponsors to be capable of deflecting glare, such as from the sun in the daytime and from automobile and street lights at night. The new glass is acknowledged to have only one drawback—ladies can't stand in front of it and primp.

The Eagle's magazine offer will likely be withdrawn in the next few weeks; hence, those who expect to take advantage of it should do so at once and, thereby, be on the safe side.

A Timely Drink

HOW is your timing? The importance of timing is becoming more and more evident in modern life. In the ring, the skillful fighter is one who times his punches. In the theater, the outstanding actor times his emotional responses. Much of the art of a really great actress is said to hinge on her precise timing.

The good hostess is a good timer in both senses of the word. She serves the right thing at the right time, she provides the right fun at the right time—and "a good time is had by all."

Time For Grapefruit Juice! For this reason grapefruit juice is proving itself to be the timely drink. It is a drink that is good at all times, and the result is that this year the canning pack of grapefruit juice is the largest ever. It runs into millions of cases.

It is timely for a breakfast drink to start the day with a tang. Served just as it comes from the can, in a frosty cold glass, it is exhilarating. It is timely for a luncheon drink, to stimulate the appetite. For dinner, its tangy taste makes it excellent for salads, sherbets and mixed drinks of various kinds.

For Parties—Perfect! Between meals, for casual little parties that call for a drink and a bite, grapefruit cocktails, garnished with the precision of the Roxy chorus. They're just what you need to shake up a variety of good merry-making. Here are some suggestions:

Grapefruit Fizz: Boil one-half cup sugar with two cups water for five minutes to make a simple syrup. Cool, add the contents of

one No. 2 can of pineapple juice, one No. 2 can of grapefruit juice, and one-fourth cup lemon juice. Chill thoroughly. Just before serving add one quart of ginger ale. Pour over cracked ice in tall beverage glasses. This fills nine tall glasses.

Grapefruit and Orangeade: Boil one-half cup sugar with one-half cup water for five minutes. Cool. Add the contents of one No. 2 can of grapefruit juice, one-fourth cup lemon juice and two cups of orange juice. Chill thoroughly. Pour over cracked ice in tall beverage glasses. This fills nine tall glasses.

Raspberry Julep: Boil one-half cup sugar with one-half cup water for five minutes. Cool, add the contents of one No. 2 can of grapefruit juice, one-fourth cup lemon juice and three-fourths cup of sweetened raspberry juice (or syrup from canned raspberries). Chill thoroughly. Pour over cracked ice in tall beverage glasses. This fills nine tall glasses.

Grapefruit Sherbet: Soak one tablespoon gelatin in one-fourth cup cold water; dissolve the gelatin and three-fourths cup sugar in one cup boiling water. Cool. Add the contents of one No. 2 can of grapefruit juice. Freeze to a firm consistency in an ice-cream freezer or the trays of an automatic refrigerator. When completely frozen, unmold and serve in cool tea or ginger ale. These fruit juice cubes take the place of lemon and sugar. Color with strawberry or raspberry ice.

Mr. and Mrs. Alvin Oglesby had the following as guests Sunday: Mr. and Mrs. Trentland Mrs. Tom King was dangerously ill Thursday, but she is much improved now.

Mr. and Mrs. Howard Duey have moved to Phoenix, Arizona.

CARD OF THANKS

We are indeed thankful to the good people of Goldthwaite, Rock Springs and other communities for their great kindness and thoughtfulness during the illness and after the death of our husband and father. Every kindness was shown him and the family and many beautiful flowers were supplied for the home and the cemetery. We are grateful for every act and word of sympathy.

Paul Warlick went with his brother-in-law to Brownwood on a business trip last week.

Several ladies surprised Mrs. Tom King with a shower for her baby Friday afternoon.

The Big Valley school started Monday. Several of the patrons were present for the opening of school. The teachers are: Erle D. Roberson, Mr. Wilmeth, Miss Neppie Bird and Miss Dawn Butler. The prediction is that with these competent teachers we shall have a successful school year.

Hugh Forrest Smith spent the week end in the Marion Mills home at Mullin. REPORTER.

RIDGE

Brother Parker of Brownwood preached for us Saturday night and Sunday. We hope to have him back with us again soon.

Mr. and Mrs. Frank Powell and Frances, and Mr. Stanley went to Brownwood Saturday.

I. A. Hollis and son, Elvis, visited in the Kight home Friday evening.

Mr. and Mrs. Arle Egger announce the arrival of a son, on Wednesday, September 17. His name is Babby Zane.

I. A. Hollis went to Brownwood on business Saturday.

George Robbins and family went to Goldthwaite on business Thursday.

Edward Boyd, Robby Cummings and J. D. Nabors visited in the Kelso home Sunday.

Mrs. Annie Curtis, Mrs. Melvin Pafford and Melva Joan spent the day in the Cummings home Sunday.

W. A. Churchwell took his boy, Ray, to Santa Anna for another examination Saturday. Ray has a crippled leg and has to have it examined about once a month. We are glad to hear the doctor said it was doing fine and he could continue to go to school.

Mr. and Mrs. Wendell and children, Wilmer and Damon, went to Kerrville to see their new granddaughter and niece Sunday.

Mr. and Mrs. Herman Boyd Cummings, Mrs. Curtis and Edward Boyd went to Goldthwaite Monday. Edward bought him a new car while there.

Our school will start Monday. There will not be so many pupils this year, as the bus is taking part of them to Goldthwaite. All the pupils going to town say they are liking school fine and are trying their best to make good grades.

Archie Ketchum and Walton Keley of Mullin spent the night in the Kelso home Wednesday.

Mr. and Mrs. Archie Ketchum visited in the Kelso home a while Sunday evening.

We are sorry to hear Mrs. Bud Lee of Regency is on the sick list again. Mrs. Lee is the sister of Mrs. I. A. Hollis of this community.

Mrs. Pearl Hollis went to Abilene with her sister, Mrs. Lee, Wednesday to see a specialist.

Mr. and Mrs. Cecil Crowder spent a few days last week with his parents, Mr. and Mrs. Ed Crowder.

Warren Hall and mother and step-father of San Angelo spent the night in the Ed Crowder home Saturday.

Elwin Curtis has rented the Edmondson place for next year

MOUNT OLIVE

Miss Minnie Cody went to her school at Newburg Saturday. Her school at that place begins Monday.

Marion and Jess Roberts are back at home now visiting the home folks. I am not informed just where they live, but they seem to be doing well. The girls here seem to have observed that they drive a late model Plymouth coupe. The girls would.

Frank Poer went to Goldthwaite last week and brought out a load of lumber. He is doing some remodeling on his house.

Mrs. Sam Koen and daughter, Eva, visited Mrs. Koen's daughter, Mrs. Etta Mae Lawson, Friday evening.

Roy Long is visiting home folks this week. Louis Porter came out to his place last week after a load of corn.

A certain bachelor in this community who had read something about a "yes man" said he wished he could find a "yes girl."

Houston Balentine and family attended singing at Caradan Sunday night.

George Roberts is attending college at Brownwood. He recently had his tonsils removed, but has now fully recovered.

Vada Lee McCarty spent Saturday night and Sunday in Harry Couch's home.

An ad states, "Ladies evening gowns 50 per cent off," but that is nothing new. I have observed that for some time.

Lonnie Montgomery and family spent the day Sunday and Frank Poer and family spent the evening Sunday in the Balentine home.

Everett Faulkner sent a truck Monday to Balentine's after a load of rent corn.

I seem to find very little news this week, and so I will close with this observation. If all the street car strap hangers in the world were placed side by side, they would reach—

I have never expressed my opinion about the get-together for all the writers to the Eagle, because at the time the Rock Springs writer mentioned it I was working away from home and knew I could not attend. Now school work is keeping me very busy and I'm afraid it will not be possible for me to be there. However, I would like to meet each and everyone of you. I hope you will all have an enjoyable time. I am sure I would if it were possible for me to be there.

EBONY

There was Sunday school and church meeting Sunday morning as usual. Then in the afternoon, Bro. W. L. Wharton of Brownwood preached for us. Some of us brought our lunch and stayed on the grounds so as not to be late for the evening services. We rejoiced greatly to have preaching once again. It was the first we had had since our meeting closed the second Sunday in July. Bro. Wharton says, unless it rains and makes the roads impassable, that he expects to be here at 3 o'clock every fourth Sunday afternoon until otherwise announced.

The school bus stuck in the Linquist Lane Monday morning, and did not get to school until 11 o'clock.

Mr. and Mrs. M. L. Jernigan Brownwood accompanied Bro. Wharton out here Sunday afternoon.

Mr. and Mrs. J. Austin Cawyer and little daughter, Edna Beth, of Pasche visited Mr. and Mrs. E. O. Dwyer Sunday.

Mr. York of Goldthwaite and Burl Crowder began on Jim Wilmeth's barn Monday.

We had a good rain here Sunday evening late. And rain continues as though it were going to be a rainy week. Much feed is shocked in the fields here which will likely be damaged by the rain and cotton is already damaged greatly. All sorts of insects are working on it. The leaf worms have about stripped it now, which will help it to open.

Miss Maurine White, who is staying with her grandparents, Mr. and Mrs. S. N. Kelly, and attending school at Indian Creek, spent the week end with home folks near Bowser.

Truman Crowder, who has been visiting his parents, Mr. and Mrs. F. L. Crowder, at Oakland returned to San Angelo Sunday.

Friends of this community were glad to hear of the safe arrival of Billy Zane, the little son of Mr. and Mrs. Arle Egger, who live over on the bayou.

We also rejoice to hear of the little daughter born to Mr. and Mrs. Butch Rowlett at Regency last week.

Ralph Wilmeth left Saturday to be ready for the opening of school at Big Valley Monday morning.

Alvin Mashburn of Port Arthur came in Friday and stayed until Sunday visiting his mother, Mrs. W. M. Clements. He was accompanied by his friends, Bennie Visuete, also of Port Arthur. REPORTER.

LEGISLATING NEUTRALITY

The continued war cloud in Europe and in the other parts of the world induced the national administration to urge upon the recent session of congress the enactment of laws that would assure the neutrality of this country in case of hostilities between nations. The law as finally passed imposes an embargo on exports of munitions to belligerent nations, affective until March 1, 1936, sets up a registration and licensing system for arms manufacturers and exporters and prohibits American ships from carrying arms or men to belligerent ships at sea.

Although the desire of the congress to maintain the neutrality of the United States in a foreign war is highly commendable, it is questionable whether or not any legislation gives real assurance of keeping the United States out of foreign conflicts. The neutrality act, for example, contains no provision governing trade in war materials other than munitions. It is a well known fact that in case of war, cotton, foodstuffs, all kinds of steel and iron products, tractors, automobiles and many other things, become war materials. In countries lacking raw materials, the supply of cotton or of wheat is as important as the supply of munitions.

There also arises the problem of regulating shipments of munitions and war materials to neutral countries for reshipment to belligerents. During the last war, considerable quantities of American commodities shipped to neutral countries ultimately found their way to the belligerents on both sides. It has been argued that this illegal commerce in munitions can be checked by regulating the quantity shipped to neutral countries in accordance with their own normal needs, but in practice, this method is not workable. Whenever a war breaks out or even threatens, all countries tend to increase their military equipment. This process is certainly taking place at the present time in most countries of Europe, where efforts are being made to strengthen the war machinery. Furthermore, it is well known that a material increase in the navies of the world is now under way. These developments make it impossible to calculate the "normal" needs of a neutral country.

Aside from these considerations, the question arises whether even the most ideal neutrality law would afford effective protection to the people in the United States against being drawn into a foreign war. Although our neutrality policy may be correct in every respect, incidents arising out of the war often arouse public opinion so strongly as to determine governmental action. The sinking of the Lusitania is a good example of such an incident. Furthermore, there is no assurance that a war can be localized. Vital interests of other countries may be touched and this in turn may have serious consequences to the United States.

A CAUSE FOR CONFLICT

There doubtless has been cause for some of the conflicts between nations, although many of the wars of the past have been the result of selfishness and greed. Most international differences could have been and still can be settled by arbitration much more satisfactorily than by a resort to arms. The Texas Weekly has a very clear idea of the trouble between Italy and Ethiopia and in an editorial on the subject said in part:

"Italy must expand or explode," but the very circumstance that is quoted in justification of her present adventure, avowing as it does the motive impelling her course, is "prima facie" proof that Mussolini's attack on Ethiopia is unprovoked and that Italy is deliberately the aggressor. We can sympathize with Italy's desire for colonial territory, but we can not sympathize with or condone an unprovoked attack on a weaker country, an act of war, with the sole object of seizing that country's domain. The circumstance that such things have been common in the past, and that most nations have done at some time what Italy is now proposing to do, does not affect the matter today. The World War and its aftermath have wrought a change of fundamental character, and a will to peace among the truly civilized of mankind has decreed that nations must find other means to attain their aspirations, to achieve the ends of "necessity," and to compose their disputes than the barbarous means of organized and scientific slaughter.

SMALL HOPE FOR REFORM

There is to be very little hope for a decrease in the list of casualties caused by the motor traffic on the highways, under our present system. Then, it seems necessary, to make the laws more stringent and more certain of enforcement. There is no justice to the public to allow these constantly increasing preventable accidents. Here is a record that is worthy of study, if not remembering:

In the eighteen months that ended June 20 this year, 51,200 persons met death in motor crashes in this country. More than 1,300,000 were injured. The bare statistics, though provoking as they are, cannot give an adequate picture of the horror of major automobile accidents. Figures cannot express broken bones, mangled bodies, crushed skulls, obliterated features, decapitated bodies, and all the rest of the results of fatal motor accidents. Nor can figures picture the tragedy of parentless children and broken-hearted dependents of the victims of recklessly driven cars, or careless pedestrians who defy the law of right as well as the rules of traffic.

QUEZON ELECTED

In the recent campaign in the new Philippine republic, Senator Quezon was elected the first president of the group of islands to be known as the Philippine republic and his election is highly satisfactory to most Americans. While General Aguinaldo has many admirers in this country, because of his courage and fidelity to his native land, it must be admitted that he was lacking in that character or quality of judgement that makes for a stable ruler and representative of government. It is claimed by General Aguinaldo that he was a victim of fraud in the election, but that claim can not be taken seriously, since it is a claim to be expected, while it may be true to a greater or less extent.

There are only a half dozen of the islands that are of importance, although there are many in the group, yet there is an estimated population of 12,000,000 and the position of these islands in the Pacific make them of strategic worth to America in case of turmoil in the far east, and it is well to have a ruler who is friendly to this government.

Things Worth Knowing

COINS

The Denver mint in 1935 manufactured seventy-three million coins, more than seven times as many as last year.

ENDS BLUE EAGLE

The NRA emblem is officially dead after two years, one month and eleven days. Reproduction of the blue eagle insignia has been forbidden.

LOSE \$55,165,546

The problem of class one railroads in the United States is emphasized by recent figures made public by the CC showing that, for the first half of 1935, they failed to earn fixed charges by \$55,165,546.

NATIONAL DEBT

The national debt today is about six billion dollars greater than in 1922, but the total interest paid by the government is less. This is caused by lower interest rates secured through refunding operations.

DEATH RATE UP

The American death rate, in 1934, showed an advance for the first time since 1928. The rate was 1,104.9 per 100,000 as compared with 1,067.8 in 1933. Total deaths were 1,396,903, the largest number in the nation's history.

STUDENT AID

Needy high school and college students are being aided by the National Youth Administration by employment on a part-time basis. Institutions which are non-profit making are eligible for allotments for graduate students as well.

CONTRABAND?

Secretary Hull is studying the recent neutrality resolution passed by congress to provide a mandatory embargo on implements of war. Whether the list of contraband includes other than direct military weapons is the subject of the inquiry.

UP TO STATES

If unemployment insurance is to be really successful in this country, some forty-one states will have to enact laws setting up the system. The federal government levies a tax to operate them, and only states which have plans to qualify will receive benefits.

LIVE ABROAD

Not counting tourists, the state department estimates that nearly a half million Americans are living in foreign countries. Europe has 103,241, Canada and Newfoundland 222,920, South America 10,969, Mexico and Central America 19,437, Asia 29,067 and Ethiopia 130.

111,500 FARMERS

The AAA employs 111,500 farmers to assist in the major crop adjustment programs. Approximately this includes 10,000 farmer members of wheat committees, 75,000 members of corn-hog committees, 25,000 cotton committeemen and 1,500 tobacco committeemen. They are paid on a daily basis with compensation ranging from \$3 to \$4 per day. The committeemen are selected by the farmers and do the work upon which benefit payments are based.

DEFICIT

The government's deficit for the first two months of the new fiscal year amounted to 663 million dollars. About 1 billion, 240 million dollars were spent, against 980 million for the same period of last year. Federal revenue, however, advanced from 500 million dollars in two months last year to about 577 million dollars for this year. Meanwhile, because of litigation, processing taxes collected dropped from 81 million last year to 31 million this year.

ASKS REDUCTION

Andrew M. Smith, chief of a treasury division, recently requested that Joseph Greenberg, his assistant, be promoted to chief, and that he be given his lieutenant's place. He did this in order to meet an offer extended to Mr. Greenberg for other work. Mr. Smith, now 66,

MANY ACCIDENTS

Comparatively few people seriously realize the automobile's deadly power, but, according to the state health officer, over 1500 Texans are killed each year by autos. Very logically considered as a major recreational and useful mechanism, its ability prematurely to maim and kill makes little impression upon most of us. In fact, the daily list of casualties in the papers indicated indifference to the situation. Nevertheless, as a menace to life and limb, the automobile represents a real hazard.

In addition to its pleasure and utility factors, the motor-car has its devastating side also. Decidedly this fact should not be overlooked. And in this connection education alone can be relied upon to bring results. There is no serum, no drug, no quarantine procedure, nor any effective mass control against the automobile's damaging power. Automobile accidents caused more deaths in Texas last year than the combined deaths from typhoid fever, smallpox, measles, diphtheria, scarlet fever, whooping cough and infantile paralysis.

Whether human nature can be sufficiently bridled by public opinion as to result in more careful driving and more cautious walking remains to be proved. But the fact is that a major health and life problem is involved in the present circumstance.

Safe water, clean milk, disease control, slum clearance, sanatoria, and indeed modern medicine and surgery are all of small avail to the speed-maniac who kills himself and others. Medical science is also equally powerless to save pedestrians who are knocked down by the careless driver, or who carelessly connect with careful drivers.

Citizens generally could well seriously consider this ever increasing challenge to life and health. Upon them rests much of the obligation definitely to reduce the ever increasing casualties.

NOTES AND COMMENTS

(By Hugo)

Personally, let us get on record right now among those who can't tell you what the people of the United States are thinking.

Give the League of Nations ten battleships, plus accessories, and about 300,000 soldiers, plus equipment, and it will have backbone.

Do your part to build up Goldthwaite and you will probably be surprised to find out how many people are ready to do the same.

Correct this sentence: "No, thank you, Daddy, I don't want you to give me any money, because I have had enough candy already."

Judging from some of the advertising we see in national magazines, there must be more morons in the United States than we suspected.

Civilization being what it is, more people have heard of Sally Rand than of many a saintly mother who gives her life for her children.

A man died the other day in a metropolitan city from starvation while he had hundreds of dollars in his pockets; figure that out, if you can.

Business in Mills county ought to be better this year than last, and there is evidence that our farmers have some money to spend.

There are some people in the world who want free food, free clothes, free lodging and everything else free, but they are not as numerous as you might think.

The average school child has little idea of studying in order to be able to make a better living, and the sad truth is that many school authorities have no better ideas on the subject.

500,000,000 OUNCES

Since the adoption of the silver policy the treasury has purchased more than 500 million ounces, bringing the government's stocks up to one billion one hundred fifty-nine million ounces. Under the Silver Purchase Act, 1 billion, 300 million additional ounces must be purchased.

EDITORIAL COMMENT

VIEW OF THE NATION'S PRESS ON TOPICS OF INTEREST AND IMPORTANCE

UNTAMED MOTORS

The tragic death in a motor crash of the wife of a cabinet member, following straight upon the death by the same means of Queen Astrid of Belgium, adds another stroke to a picture already serious. It is to be hoped that the circumstances of publicity and celebrity which make these cases so genuinely shocking to the general mind may lessen that mind to the whole situation of motor travel more sharply than the mere list of persistently mounting tragedies seems to do. We have not yet tamed machinery, whatever magical performances may be cited to the contrary. It always presents a separate factor, in addition to the strength and skill of the one handling it, or the smoothness of the medium it must traverse. This seems to be proved in the case of the death of the Belgian Queen, when the skidding car apparently was driven at a moderate pace over a road held to be generally easy and safe; as it was proved in the case of the airplane which brought Will Rogers and Wiley Post down to their deaths. And since this is so, there is always an incalculable element, which may be mortal, the only condition upon which a machine should in conscience be driven at all is the condition of constant vigilance and care; of the realization that danger is always present and that speeding indefinitely increases it, of the sense that unnecessary speeding verges upon criminal folly. How far the automobile-riding, and especially driving public, are from this realization is only too evident from even a casual glance at the daily papers. One page of the New York Times, taken at random, carries four stories of hit-and-run deaths, in addition to an account of the campaign in Massachusetts to end drunken driving by what may yet prove to be the most effective corrective in this whole field—the suspension of licenses and registration. We should like to see that policy tried out over the country.—Commonwealth.

TANGLED WEB OF AFRICA

The White Nile carries the waters of the African mountains and plains, chiefly from Ethiopia, through Sudan and Egypt to the Mediterranean. The Blue Nile furnishes the water, and furnishes something else equally important, silt from Ethiopia. Yet the White Nile can function only if the watersheds in Ethiopia, and the lake reservoirs there, are left to fill the Blue Nile. The building of a single dam at Lake Tana could change the situation drastically. It could halt a sufficient flow to the White Nile, or it could divert the water of the Blue Nile entirely to other outlets, to streams moving toward the Red Sea or to the Indian Ocean. And, in these directoins, incidentally, lie the coastal desert colonies of Italy. As a person considers the far-reaching possibilities of this situation the occasion for the deep concern over who shall control Ethiopian territory becomes more understandable. Another fact emerges, that war in Africa is not at all likely to launch a colored race revolt against white-man domination. The colored races of Sudan and Egypt have a very definite community of interest in this situation with the British. On the other hand, when the dark races think of rebellion against white domination, most of them vision a fight against the British or French. Unless that kind of uprising is straddled and it seems less likely under present circumstances than ever—the Italian venture into Ethiopia, provided it comes, may well start most anything else, but it will not start a general anti-white-man crusade.—Houston Chronicle.

BEST SELLERS

Hundreds of thousands of Texans have been taken away from their homes by federal government's effort to prevent mail frauds, and smooth talk of salesmen knew their wares were wanted. Quack medicines and stocks are still the best sellers with the gullible, according to Karl A. Crowley, in charge of federal government's effort to prevent mail frauds, and cure-alls and get-rich-stock are the most attractive to lure dollars from savings banks. There are no new salesmen, says Crowley; just varied old rackets. These rackets have been worked so long and so thoroughly that suckers refuse to bite, "they always back" is the slogan of the fraud promoters. The government's place Texas at the top of states contributing generally to stock swindlers are the only ones who rich quick out of the quick over schemes, which the note.

YOU NEED FRIENDS

I recently read about a man who, while ill in the hospital, had over 300 visitors. All visiting records were broken. That man was a champion friend-maker. A successful old man, when asked how to get along in business, replied: "I simply say: Make friends. Looking back over a long life I can see that much of what the world calls success is due very largely to what my friends did for me." We need friends to win. We need friends to speak well of us to others. We need friends to stand by us and to believe in us. We need friends to point out our shortcomings and show us how we can improve ourselves. We need friends to inspire us. We need friends who use their influence to help us succeed. The best way to have friends is to be one. If you see a friend slipping away from you," wrote David Grayson, "stop whatever you are doing and bring him back, for friendship is one thing you cannot afford to be without."—The Silver Lining.

WATCH OUT FOR COLDS

The near approach of cold weather reminds us to warn readers against the common cold, that many people think is unavoidable. It is nothing to be lightly dismissed because it leads to serious complications very often. People catch colds but they can be avoided. Build up your system if it is run down. Parents should not permit their children to run wild during the time they have cold and should not mingle with other people themselves. If you want others to have your infection, if you wish to disregard the health of others and don't care whether somebody dies from your carelessness then, when you catch a cold, forget all precautions and spray your germs as you go. Otherwise carefully avoid infecting other people.—Stray Notes.

DOG EDUCATION

Information issued by the Department of Agriculture anent the intelligence of dogs: "A dog may bite a toad once, but if he does it twice it proves he has a low intelligence quotient. When the inexperienced dog bites a toad, a bitter taste is produced by the poisonous fluid from the glands behind the toad's eyes. Skunks, snakes and birds of prey don't mind the flavor. They eat toads, however the taste!"—Greenville Herald.

WHEN CIVILIZATION DESPAIRS

All nations of the world have outlawed poisoned bullets and the poisoning of wells. But all civilized nations of the world are busy storing up poison gas bombs to drop on cities and anywhere else that will kill the most people. In the case of the poisoned gas bomb it murders wholesale, men, women and children who are non-combatants. Honestly, do you think the world is civilized while such a custom prevails?—McKinney Examiner.

PAYING PENSIONERS

A minister of the gospel, been elected Premier of a Canadian province. In order to win the election he promised to all the grown folks most of the children. Now bothered by the task of good. If he doesn't make the prospective pensioners mad at him. If he does good, the taxpayers will hydrophobia, delirium tremens and hives—the disapproving children having the hives grown folks the harder disapprove. In lieu of money, which he unavailable, the preacher-lier thinks of issuing credit sort of like ice tickets. With things to sell will be sold to sell them for the ice tickets. But if they refuse to take tickets, preferring usable value tokens, there will be a melancholy mess in Alberta. State Press in Dallas News.

NEWS IN BRIEF

The first step in a suit against Franklin Delano Roosevelt, Jr., son of the president and a Harvard student, for damages growing out of an automobile collision in Boston, was taken in district court in Malden, Mass., Saturday. Hyman Barlow of Malden started proceedings by filing a writ claiming he was injured and his car damaged in a collision with young Roosevelt's car April 27.

Announcement of a track improvement program for 1935 to permit higher speed on transcontinental trains, involving expenditure of more than \$3,000,000, was made Saturday by Samuel T. Bledsoe, president of the Atchison, Topeka and Santa Fe railroad. Between a million and a million and a half dollars will be spent in reducing or eliminating dangerous curves. The work is in preparation for use of the road's new Diesel locomotive, now undergoing tests.

Rebellious members of the Young Democrats of Texas, "not bolters—just constitutional democrats," have planned a walk-out on the state convention. Their apparent spokesman, Phil Overton of Dallas, said he would resign his executive committee position at a November meeting and predicted "several others" would break away. "We are not going Republican," he asserted. "We are just what you might call constitutional democrats." Overton said a definite organization was being formed and that announcements concerning its aims, strength and membership would be made at the proper time. It was Overton who led the futile fight against Elliott Roosevelt, son of the president, who resigned his position as first vice president of the state organization recently to allow a "native son" to replace him.

Joe Peak and his friend, Ernest Jones of San Angelo, left Thursday morning for Houston, where they will resume their studies in the Texas Dental college.

Stop Chills and Fever!

Rid Your System of Malaria!

Shivering with chills one moment and burning with fever the next—that's one of the effects of Malaria. Unless checked, the disease will do serious harm to your health. Malaria, a blood infection, calls for two things. First, destroying the infection in the blood. Second, building up the blood to overcome the effects of the disease and to fortify against further attack.

Grove's Tasteless Chill Tonic supplies both these effects. It contains tasteless quinine, which kills the infection in the blood, and iron, which enriches and builds up the blood. Chills and fever soon stop and you are restored to health and comfort. For half a century, Grove's Tasteless Chill Tonic has been sure relief for Malaria. It is just as useful, too, as a general tonic for old and young. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle at any drug store. Now two sizes—50c and \$1. The \$1 size contains 2 1/2 times as much as the 50c size and gives you 25% more for your money.

PASSING OF MR. ESTEP

Mr. J. W. Estep, one of the community's old citizens, both in point of years and in time of residence, passed away at his home in this city last Friday night, after having been confined to his home and his bed for a long time, although he at no time suffered, but passed away because of age and weakness. He was in his eighty-second year and had lived in Mills and San Saba counties the greater part of his life.

Some years ago Mr. Estep moved with his family to Miles, where he engaged in the mercantile business for a number of years, later moving from Miles to Goldthwaite, where he continued the same line of business for some time and then retired from business activities.

He was universally esteemed as a man of the highest principles and one who would not harm his fellow-man by word or deed. He had been a loyal and true member of the Baptist church for many years and retained his membership in the church here until death.

Mr. Estep leaves his wife and two sons, together with two step-sons and one step-daughter. His sons live in Oklahoma, but were at his bedside at the time of his death and attended his funeral in Rock Springs cemetery Saturday afternoon at 2 o'clock, as did his step-sons, A. F. and O. T. McGowan, both of this county, and his step-daughter, Mrs. W. J. Smith, of San Saba.

Mr. and Mrs. J. W. Childers and Mrs. Wyatt Hart of Seminole spent the latter part of the week with John Childers and Tip Hart and family. The visitors and Mrs. Tip Hart visited Mrs. Monde Horton in Zephyr Saturday.

RABBIT RIDGE

This community was made sad Saturday morning when the news reached us that Grand-dad Estep was dead. This dear old man lived in our community several years ago, and we all loved him. Our hearts' deepest sympathy is with Grandmother Estep. Weep not, for he is at rest.

Grandmother Westerman spent Sunday with her son, Dorman, and family.

Mrs. Jesse Lowe is the proud owner of a new oil stove. Mrs. Marvin Spinks bought her old wood stove and is equally as proud of it.

Herman, Arvin and Anabeth, Davis from Center Point sat until bed time in the Spinks home Friday night.

We have new neighbors on the H. B. Bradley place. I haven't met them yet, but we are glad to have them in our community.

M. L. Spinks and family spent Sunday in the Ray, Fred and E. L. Davis home at Center Point.

A. F. McGowan is helping Mrs. Estep pack her things to move this week. She is going to live with her daughter at San Saba. Herbert and Horace Cook played dominoes with Marvin Spinks Tuesday night.

Will Guynes has lost several cows. I am afraid the disease among the stock is going to be serious.

Mr. and Mrs. A. F. McGowan's best milk cow died this week.

Say, writers, won't it be awful if the editor makes us all a four hour talk.

Ollie Brown and wife took supper with D. V. Westerman and family Monday night.

Some of our ladies are still waiting for our fall clothes. We have begun to think that "Everything comes to those who wait," but when they do they are out of date.

Mount Olive, I never miss one of your letters. I am enjoying them all. Keep them coming. Milton Stanley, and family of near Mullin.
