GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, JULY 17, 1936

NUMBER FORTY-SEVEN

## Methodist Notes

Two weeks ago the pastor, Brother Duke, now visiting in Houston, invited me to fill his pulpit here next Sunday morning. This I agreed to do. So we may expect the usual services next Sunday morning, unless Providence should order otherwise. For myself I extend an invitation to you to attend the service if you so desire.

There will be no service at the evening hour in deference to the Baptist church.

Frankly, I do not feel like attempting to fill the space that I have attempted to supply with these notes during the past several years.

Some years ago, the editor, Mr. R. M. Thompson, was kind enough to ask me to furnish each week some matter for the paper. This I have tried to do. He and I have been for almost thirty years very close friends. I could scarce love a brother more than him. Now, while I write these lines, his body lies cold in death in his home near by, and his friends numbered by his extensive acquaintanceship, together with his family, mourn his untimely going.

A good citizen, an influential editor, and staunch friend has slipped away from us into the life eternal, while we are left to mourn. Farewell, dear friend, but not for long. J. S. BOWLES.

## Reynolds Reunion

A delightful family reunion was held last week-end at the W. W. Reynolds home on Canadian route. Mr. and Mrs. J. A. Others present included: Mr. and Mrs. Floyd Platt of Levita, Texas. Misses Loretta, Katherine, Lola Jean Platt, Lillian Oats, Jimmie Reynolds of Dallas; Glory, Jack, Oatis, Mr. and Mrs. Lloyd Reynolds and boys, Walter Cline, Byrd Edmon, Aubry Melvin, Harold Lloyd, Neal, Lethia; Mr. and Mrs. Deward Reynolds and boys, Don, Walter Marion, Daphane and Babe Reynolds, Herman and D. L. Reynolds. XX

## R. M. THOMPSON EAGLE EDITOR LAID TO REST

Death came Tuesday to silence the voice and still the pen of the Goldthwaite Eagle's veteran editor and publisher, R. M. Thompson. While he did not live to see this issue put to press, much of it was written and proof-read by him. Because so many of you who will read these lines were his personal friends, it is not unfitting to tell you how he died.

Many times, particularly in recent years after his health had broken, Mr. Thompson had expressed the hope that he would be spared a lingering death and be taken at his work.

Last week he felt a warning that the end was near, but, rather than alarm his loved ones, he kept the premonition to himself. Sunday, with firm step and unclouded eye, he attended church services both morning and evening. At noon and in the afternoon he enjoyed an informal reunion of his family. Monday, though ill, he worked all day, carrying on by sheer nerve and inflexible will power as he had done on so many other days in recent years. It was then that he confided to his friend, Brother Bowles, that he knew his time was up. "But," he added, "I am ready to go."

Early Tuesday morning he was back at his desk, gave his instructions for the work to be done that day, and then went home. He was gravely ill all day. Just at five o'clock the hour when it was his custom at the Eagle to call, "Quitting Time," for the day, his tired spirit answered a higher call and passed peacefully and without a struggle to eternal rest.

Mr. Thompson was a young man when he came to Goldthwaite and Mills county soon after their organization. To them he devoted all of his best years. When, several years ago, he left here to travel widely and to publish papers in Lampasas, Brownwood and Cleburne, he was never satisfied. Goldthwaite was still home to him, and his happiest days were when he came back to stay.

One by one he saw the associates of early days here retire from business, most of them to answer the call of death. Although still lacking several years of his allotted three score years and ten, at his death he was the only one of those Goldthwaite pioneers still actively engaged in business. Now he too has gone.

Thursday morning, in the presence of many friends, his earthly remains were buried under the shade of a sturdy little oak tree which, years ago, when it was hardly more than a sapling, he had selected to mark his final resting place.

It has been a difficult task to go on with the printing of this issue of the Eagle, but the prompt and regular publication of his paper was a passion with R. M. Thompson. No matter what happened, the Eagle must come out on time. He was proud of the fact that never in his long career had he missed printing a single issue. He looked on his relationship to his readers as a solemn covenant. It was his part of the contract to deliver the news to them accurately, impartially, legibly and on time each week. This we also have endeavored and shall continue to endeavor to do.

## Baptist Reminder

I am certainly grieved at the going of our editor. It will be a great loss to our town and county. He was a great editor, a good citizen, a Christian gentleman. He lived a clean and unbiased life. He was the most generous editor I ever worked with. He gave ample space to any church. He was one of my very closest friends in this town. When I wanted to be made happy, I enjoyed going to the Eagle office. He was fine to visit with.

Our meeting will continue through Sunday night. We are having a good meeting. Through Wednesday night twenty additions had united with our church. Bro. Trussell is doing great work. Our folk like him.

We lacked four reaching two hundred in Sunday school Sunday. Our goal will be 275 Sunday. Let's beat anything we have done since we went into our new building. Thus far the record is 267. Can we count on you? FRANKLIN E. SWANNER.

## Seven Applicants Take Examination

Seven applicants took the civil service examination given at the high school building Thursday for the position of substitute clerk in the post office service. Clyde D. Woods, secretary of the Brownwood civil service board, was in charge of the examination.

Those taking the examination were three post office clerks: L. A. Moon, Wyatt Berry and Pat Murphy, and Mrs. Mark Fairman, Miss Georgia Frizzell, Miss Ruby Cobb and Sam Henry Rahl.

Results of the examination will be announced in about three months from now, according to Mr. Woods.

## Nazarene Remarks

We all extend kindest sympathy to the bereaved family of our kind friend and editor, R. M. Thompson. Goldthwaite has lost a great citizen. As we have expressed to him personally, again we express our appreciation of him to the public for his many kind deeds he has shown this writer. He had a place in our heart and mind that no one else can fill. We shall miss that cheery greeting and happy smile that we were assured of each time on entering his office. Many blessings upon the family; and may we all take consolation in the fact that it is the door, which God leads us through, to better things.

The unified rally of our church workers on this zone is being held today at Brooksmith. Our young people are hoping to bring home the attendance banner again. They have received this banner from each rally since its being awarded on this zone.

Also, we would call attention to the annual holiness camp meeting which is in progress at Waco. The meeting will continue through July 26. A number of our group plan to attend some during next week.

Our regular services will continue as usual on Sunday and throughout next week. We invite you to attend.

CHARLIE HARRISON, Pastor

## FRONTIER CENTENNIAL OPENS TOMORROW

President Roosevelt, now fishing off the coast of Maine, will officially open the Fort Worth frontier centennial Saturday at 3:30 p. m. He will push a button which, by arrangement with the Western Union and radio facilities, will open the gates in Fort Worth.

The president will leave his fishing sloop long enough to board a cruiser which is standing by and perform the formal functions for the Fort Worth celebration.

There will be regular monthly church services this week-end. BO PEET.

## Work Continues On 9 Miles Of No. 74

Work is under way on 9 miles of highway 74 south of Lometa and the Fred Hall Construction company of Waco is doing the work under a \$90,000 contract.

New machinery is being used on this construction and Lometa local labor is being used on the project.

Construction of this continuation will be comparatively easy after the Lometa-Goldthwaite stretch. Few dirt fills and few grades will be necessary in this work.

The distance from Ogles, at the end of this project, to Lampasas, 8 miles, has been purchased by Lampasas county and the right-of-way has been fenced.

## Page-Fletcher Wedding Held

Miss Frances Page became the bride of Mr. Hulon Fletcher Tuesday, July 14, at the home of Mr. and Mrs. Clyde Weatherby in Hamilton.

The ring ceremony took place with Rev. Anderson, pastor of the Hamilton Presbyterian church, officiating.

The bride wore an aqua blue ensemble suit with brown accessories. She carried a shower bouquet of pink rosebuds and sweetpeas.

The couple left immediately for a wedding trip to the centennial exposition in Dallas and the frontier celebration in Fort Worth, after which they will be at home in Goldthwaite.

Mrs. Fletcher is the daughter of Mrs. Kate Page of this city and the granddaughter of the late Dan Bush.

Mr. Fletcher, son of Mr. and Mrs. M. H. Fletcher, also of this city is an employe of the Trent State bank.

This wedding, although an anticipated affair came as a surprise to this couple's many friends and acquaintances. A long and happy married life is the unanimous wish for this popular couple.

## Sewer Construction Making Progress

Construction work on Goldthwaite's \$45,000 sewage disposal system is rapidly going forward and is practically half way completed, having been in progress six weeks. H. E. Dalton Construction company of Dallas has the contract for the work and PWA funds are making the work possible.

Some of the pipes are being laid for 10 to 12 feet deep and the deepest cuts are being made through almost solid rock in the middle of Goldthwaite. In some places the ditch digger could not be used at all, but blasting had to be done from the surface to the base of the cut.

The disposal system plant is located southwest of Goldthwaite and is of the latest design that offers the most sanitary and economical operation possible for a plant of this kind.

R. C. Petty, who lives near Lake Merritt, has brought the Eagle editor a sample of the Elberta peaches he is growing this year. They are certainly fine representatives of what Mills county can produce.

ROCK SPRINGS

There was church Saturday night and Sunday school and church Sunday night. B. F. Renfro did the preaching.

To the surprise of John Roberts and wife, there was a singing announced to be held in their nice new home Sunday afternoon. There was a few of the neighbors present with the pastor and family. The singers were small in number, but large in voice. All reported a good time.

Those who have missed going to the revival in town are missing some fine sermons and good singing. There were people from most every Baptist church in the county present Sunday night and there were people from every church in town present.

I noticed in the Center City news, where our neighbor, Prof. Horace Cooke, had resigned at Center City and will teach at Star. He is climbing. We hope he will be liked at Star like he was at Center City and at home.

Miss Bernice Traylor, a home girl, was elected to teach this school next term. She is the first of our home students to get to teach here. We wish her good luck with the school. She should feel honored.

This place was well represented in town at church Saturday night and Sunday night.

Center City, I noticed our letters side by side last week. Wasn't that an honor? I hope your letter will be as newsy and longer this week.

Keep a Good Laxative always in your home

Among the necessities of home is a good, reliable laxative. Don't be without one! Do your best to prevent constipation. Don't neglect it when you feel any of its disagreeable symptoms coming on. "We have used Theford's Black-Draught for 21 years and have found it a very useful medicine that every family ought to have in their home," writes Mrs. Perry Hicks, of Belton, Texas. "I take Black-Draught for biliousness, constipation and other ills where a good laxative or purgative is needed. I have always found Black-Draught gives good results."

As he concludes the task of wiping the government slate clean of the now invalidated AAA, Chester C. Davis sums up the record of almost three years under the act in a report issued at Washington Sunday. The former AAA administrator finds that the 1935 farm income was almost seven billion dollars, a gain of about 60 per cent over 1932, the last year of uncontrolled production. And the price gain in the three years on crops under AAA programs was 120 per cent as against a 46 per cent increase in all other farm products. That is of course to state the situation in terms as favorable as possible to AAA, because the crops chosen to be placed under AAA were naturally those which were proportionately lowest in the 1932 price scale. At the end of 1932, the prices of crops later placed under AAA were 49 per cent of the pre-war level, as against 74 per cent for other farm products. But the AAA achievement record, even so, is still an impressive one when we note that the price-level of control crops, so far below other products in 1932, has now overtaken that of the non-control crops, as measured in percentage of pre-war prices. More important than unit price is the exchange value per unit of farm products. That has grown from 61 per cent of the pre-war level in 1932 to 88 per cent at the end of 1935. The farmer can actually buy 41 per cent more in other commodities with each unit of the crop he produced last year. And that is indeed a ponderable gain, not only for the farmer himself, but for all business which depends in any considerable degree upon the farm market.—Des Moines Register.

## SECURITY PROGRAM IS HUGE AFFAIR

Uncle Sam's newest federal-aid program of co-operative government insurance against individual misfortune is gradually spreading over the United States. It is the omnibus federal-state system for social security, now a little less than a year old. It ramifies in some form into every state. Its varied angles include assistance to the needy aged, unemployment compensation, aid to crippled and dependent children, maternal and child welfare, public health and vocational education for the disabled.

There are ten titles under which the social security program functions. Most of the activities are financed by federal grants to the states whereby the states are required to match dollar for dollar whatever they receive from Washington.

For this program the New Deal congress already has appropriated \$517,917,910 of which more than \$42,500,000 were put at the immediate disposal of the various agencies involved during the fiscal year just closed.

The remaining \$475,253,410, plus the balances from the last fiscal year, represents the full fiscal year program beginning the first of this month.

A stupendous task for the new security board is to compile individual record showing the earning of approximately 26 million employees of some 3,500,000 employers. This work, under a newly set up bureau of old age benefits, is to carry on the direct federal old-age benefit payments beginning in 1942. There are separate divisions of records, of claims, of actual work, and a field service division, in this bureau of the board. The bureau is studying long-time policies and there will be district and branch offices of the bureau throughout the country.—The United States News.

## Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'do-less.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me."... If Cardui does not help YOU, consult a physician.

**THE RECORD**

R. A. LUKER

Some are making much ado of the fact that I missed lots of roll calls. In fact the record shows I was present, but did not vote. When the House met for the purpose of passing a lot of pet bills to bolster records back home, I did not vote unless I knew what I was voting on. At one such night session the House being under call, when no member could leave, with Luker present, there were seventy-six roll calls and I voted twice. There may be people who can vote intelligently on the passage of one law every two minutes, but there are none in this race.

When I voted, I knew what I was voting on and I will never vote unless I do know what I am voting on. I knew what I was about. That is the reason I was able to render real service to the people who elected me. You know I was there.

It is possible for a member to vote on every roll call and then nobody know that he ever even got to Austin without looking at the record.

Next week I will publish a sworn statement from the sergeant of arms of the house of representatives, that the above reference to the record is true.

Yours,  
 R. A. LUKER.

**THE J. H. WILSON PARK**

A visit to the Wilson park, half mile east of this city, is worth while.

We are proud of our highway park and it is history and as time today as ever with each privilege there is a responsibility. Keep the park looking its best. Remember, a real scout camp is more than a mere vacation, it is a school of manhood and citizenship, a builder of physical, mental and moral strength.

Scouts are urged to bring their band instruments and join in the camp band.

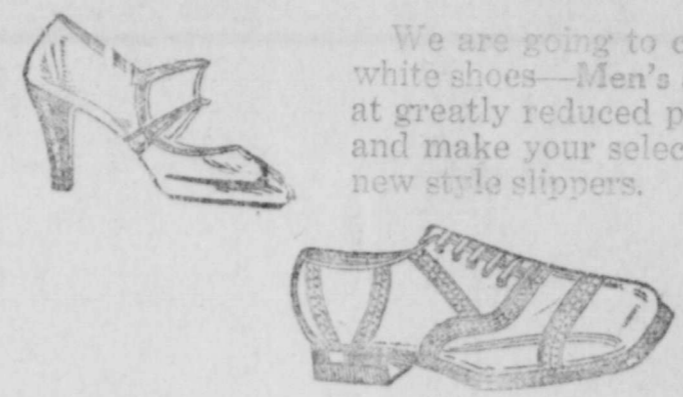

The scouts who are attending camp are: Jack Casey, John Farmer, Hal Ray McDonald, Ernest Lynn Fisher and Tom and Max Cooksey. Scoutmaster C. T. Perry will accompany the scouts on their trip.

A full Boy Scout troop consists of 32 boys. At present we have 10 registered scouts in our troop. We have room for 22 other boys. Any boy who is 12 years of age or over, and is interested in becoming a scout, should talk to the scoutmaster or one of the scouts.

A THIRD PARTY CANDIDATE

Nobody seriously anticipates the election of a third party candidate to the presidency, yet that candidate may have considerable influence in throwing the election to either dominant party. The candidate in this instance is a man who is unknown to the great body of the electorate.

There are always third parties, of course, and fourth and fifth parties as well. Best examples are the Socialist and Communist parties, which put a ticket into the field each year.

Several times in the history of the republic, such a third party has determined the election. Most notable example of that was the election of 1860, when Lincoln and Douglas contended for the presidency.

Another notable example occurred in 1884, when Blaine was the Republican nominee, running against Grover Cleveland. The decisive state was New York.

The most successful third party was led by Theodore Roosevelt in 1912, which ran second to the Democratic party headed by Woodrow Wilson.

Most recent example of an important third party was the Progressive Party, which had the elder Senator LaFollette for its candidate.

To return to the present, Candidate Lemke has a strong following in a number of what may be extremely important states which are more or less in the "doubtful" class.

Which candidate has the most to fear from Lemke's candidacy? Some observers say that at least 90 per cent of the Lemke vote will be taken from Roosevelt, practically none from Landon.

AN INDEX TO PROSPERITY

There is no better index to the financial improvement throughout the country than the sales of automobiles. While automobiles are in reality necessary, they are generally classed in the line of luxuries.

Sales in the first three months of the year amounted to 693,722 cars, as compared to 568,727 in the corresponding period in 1935, an increase of 23 per cent.

Production in the first quarter exceeded sales by a considerable margin. Actual production for the domestic market in the January to March period totaled 808,887 units.

A STRONG GOVERNMENT

Every citizen should be proud of the fact that the government is recognized to be the most stable government or business institution on earth. The immense line up of figures shows the stability of public credit.

If the drought in the west is not broken soon, the outlandings must be larger.

POLITICAL CALENDAR

CAREFUL LIVING

Keeping cool and standing the heat during the hot summer months is in a large measure dependent upon the individual, health authorities agree.

"The clothes we wear and the food we eat play an important role in keeping us comfortable during the hot season," the state health officer says.

"Summer clothing should be light in weight and color and of a porous texture. White clothes reflect the rays of the sun and are therefore cooler.

"The summer diet should consist of light, nutritious and easily digested foods. Fresh fruits and vegetables are particularly desirable as hot weather foods because of their ease of digestion and wide range of variety in the manner they may be served.

"Exercise should be taken in hot weather, but good judgment must be used in the amount taken.

"Plenty of rest is necessary during hot weather. Sleep a sufficient number of hours and eat at regular meal times. Acquire regular habits of living and develop a cheerful outlook on life.

SUMMER POULTRY HINTS

1. To secure more eggs in fall when prices are usually high, force the hens into early molt during June or July.

2. Do not wash dirty eggs. Clean with a damp cloth or steel wool; washing will cause them to go bad much more quickly than they otherwise would.

3. Hens must be provided with shade in some way if they are to do their best in summer. Trees, brush arbors, or anything that provides protection from the hot sun will be all right.

4. Caponize cockrels the latter part of June or July to get them ready for next year's Easter market. This is when they are usually in greatest demand, and they need 8 to 10 months to develop.

5. To produce quality eggs during summer, carry out the following three simple rules: (a) keep eggs clean, (b) gather them three times per day, and (c) store in a cool place until ready to sell or use.—The Progressive Farmer.

RELIEF PROSPECTS

A mass return of the jobless to employment is all that will avert the need of an additional 500 million dollars for relief this year.

So declares Work Administrator Hopkins, as he allocates to states a total of 350 million dollars for work relief to last for an estimated six weeks.

Here is his analysis of the relief situation: At the present time, 2,293,625 persons are looking to the federal government for employment on "little public works," otherwise known as work relief.

Total relief rolls, including dependents and also the unemployed cared for by states, are estimated at 14 to 166 million, said to represent a slight decline from a year ago.

Drought in the west will increase the call for relief funds, 25,000 persons from the afflicted area having already been accepted as prospective WPA employees.

Cold weather will bring a large increase in demand for relief outlays.

EDITORIAL COMMENT

VIEWES OF THE NATION'S PRESS ON TOPICS OF INTEREST AND IMPORTANCE

A STUPENDOUS STORY

Striking figures just issued by the railroad commission for 1935 show the stupendous importance to Texas of oil production.

For that one year alone, the state produced 370,000,000 barrels. At the end of the year there were 59,000 producing wells and 1,900,000 acres were under lease.

Of the 254 counties of Texas, 109 contained one or more oil fields.

In the East Texas field alone at present, according to a review issued this week of the five-year history of the field, there had been completed 20,906 wells which have brought in 967,000,000 barrels.

None of these figures, of course, even touches upon the hundreds of millions of dollars involved in the refining and transportation aspects of the industry.

That Houston is the center of this tremendous business is a guarantee of our local prosperity.—Houston Chronicle.

RIISING COTTON PRICES

Increased farm income for Texas is reflected in the jump in cotton prices that followed the announcement of the federal crop estimates as of July 1.

The acreage estimate shows that the new program of soil conservation has succeeded to a greater degree than was anticipated. An unfavorable planting season, followed by a summer drought, has tended to reduce the crop in some areas.

While this season's crop is small enough to keep domestic prices high, the increase over last year will give an opportunity for a considerable increase in American cotton exports.

Texas will be one of the chief beneficiaries of this year's cotton situation. This year's Texas crop is estimated at 12 per cent above that of last year—a large increase than that for the whole cotton belt.

CHURCHES STILL GAIN MEMBERS

For several years reports of annual gains in membership in the various religious bodies of the United States have been cited as an answer to statements that the church is declining.

The percentage is below the average for the last nine years, which was 1.66, but it is shown that the church gain for 1935 was greater than that in population, which was .71 per cent.

On a numerical basis, certainly, this showing is favorable to the church. Other recently published statistics are less so, for they indicated that so far as a considerable part of the denomination was concerned only about 25 per cent of the members contributed to support of the church and only 30 per cent of the pews were occupied on Sunday by both members and visitors.

WHERE MAN IS HELPLESS

While the weather bureau at Abilene was recording the second driest June in 51 years, south Texas communities were feeling the effects of overflowing creeks and rivers and hoping that the rains, ranging as high as 15 inches in 48 hours, would let up for awhile.

In Washington the president and his secretary of agriculture confer on the problems of a drought now prevailing in the Dakotas, a drought that bids fair to be even worse than the epochal dry spell of two years ago.

The crops in this part of Texas are good in spite of lack of rainfall, and can stand a few more days of aridness. The cool nights familiar to West Texans are helping out no little.

The variegated weather map serves to remind us that we are dependent upon the elements for our prosperity and wellbeing, as we always have been.

MOTORIZED WAR

Just a glimpse of the power of motorized war, if another war occurs, comes from the Franco-Belgian border. Smugglers, getting hold of a fast army tank in Belgium, crashed through frontier barriers and proceeded to their destination somewhere in France at 70 miles an hour.

FORCED SAVINGS FOR ALL

What becomes of the money? The plan is to establish 30,000,000 savings accounts under government supervision.

Then, at retirement age, the worker is entitled to an annuity that will range from \$17.50 to \$81.50 per month for the remainder of his life.

On this basis, the government will force workers to save against a rainy day. They then would be entitled to old age annuities on the basis of right, rather than on the basis of charity.

There is a question, however, whether this system of forced saving will be popular with workers once deductions are made from their pay envelopes to sustain it.

There also is a question, made acute by a federal court decision during the past week, whether this type of system can be built within the constitution.

WORRYING ABOUT

The political party wished to win power would insert a plank form favoring better planks. Whatever the condition of the degree of temperature of people are.

For years the Bureau through three solar observatories, has collected statistical data on effect on the weather.

In the meantime, mortals will have to along under the old one prediction is that that is the present are too rare in July to the hot spell comes.

There are reasons London and Paris are in letting bygones be with Rome.

WAY ROME W

The city of London to loan the Fascists have it that a kind of Gibraltar is to be built at the mouth of the land and that with the operations of the Italian position Mediterranean it may Britain's line of empire East and her contact with Egypt and the destined to be by the Italy.

In addition, it is the Italian government take part in the Monteference, where Turkey for refortification of danelles is under construction.

Finally, Great Britain ing increasingly alarmed the Reich's rumored and according to Foreigner Eden, the Baldwin government is losing its patience.

Site of the agricultural experiment station for the cross timbers, sandy land section of Texas will be somewhere in the Rising Star or May communities and on or very near highway 23. As they were returning Monday afternoon from a trip to San Angelo and Ballinger, where they had gone looking for Elzie Capes, charged here with theft of over \$50, Sheriff Jack Hallmark and Deputy Chester Avinger were hailed by a man "thumbing a ride," recognized him as the man they sought and stopped and arrested him. The officers said Capes had 18 cubes of morphine on his person when they arrested him, but that he likely will be tried here on the theft charge instead of being released to federal officers on a narcotic charge.—Banner.

## SANDERFORD FOR GOVERNOR

To the People of Texas:

In announcing my candidacy for governor, subject to the Democratic primary, July, 1936, I wish to make the following statement:

I am a native of Bell county, Texas, and am in my 41st year. I have had fair educational advantages in the common schools, Wedemeyer's academy, from which I graduated in 1914, and was for two years a student in Baylor university of Waco. I taught a rural school for one year. In the fall of 1917, I voluntarily enlisted for flying duty in the United States air corps in which capacity I served for 21 months.

I am married and have three children, all within the scholastic age. I have been a member of the Baptist church for over twenty years. I served for two terms as tax collector of Bell county and have been in the automobile and associate business continuously since 1923. I am not a lawyer. I was elected to the state senate from the 21st district over two worthy opponents in the first primary in July 1932.

When I am elected I shall respect the constitutional rights of the people to have a governor who will stay on the job, cooperate with the legislature and will neither squander the people's time nor abuse the opportunity for service by continually engaging in social, political and pleasurable affairs. I will not use the powers of the office to place my relatives on government payrolls.

I favor: First. A substantial reduction of government expense and where conditions will justify I shall, if necessary, use the veto power to reduce appropriations twenty-five per cent. Second. A three per cent retail sales tax for the purpose of paying the old age pension and to take the place of the present real estate taxes for general revenue, schools and confederate pensions. Third. I am opposed to any state income tax, as the federal government has already preempted the income tax field. It would invite new capital to our state, result in the development of industry and the employment of more labor than perhaps any other one thing that could be done. Fourth. I favor a graduated land tax for county purposes beginning with small valuations. This will increase opportunities

for home ownership and tend to discourage the holding of large tracts of land for speculative purposes. The federal government while loaning millions to banks, railroads, insurance companies, towns, cities and counties, could render no greater service than to loan up to \$3,000.00 at 1 1/2 per cent interest on 21 years' time, without down payment to families with which to buy farm homes. Fifth. I favor a reasonable chain store tax, provided it treats everybody alike and does not exempt any special class of business. Sixth. To promote employment, I favor a constitutional amendment exempting from taxation all textile, leather, paper and woolen mills and other similar factories for a period of twenty years that have 50 or more employees. Seventh. I favor the right of suffrage being extended to any citizen on the payment of a small registration fee in lieu of our present poll tax. Eighth. I subscribe wholly to the principles of local self-government with the enforcement of all laws administered honestly by local authorities and with the backing of the state government. Ninth. I believe that labor has the inherent right to organize and bargain collectively through representatives of its own choosing. Tenth. Since the people of Texas have voted repeal, I favor the passage of such laws as will insure strict regulation of the liquor traffic and reduce the evils of this trade to a minimum. I am the only candidate that can beat Allred in the runoff. Hunter has lost twice and Fischer is unknown, incompetent and is an oil millionaire.

**FOOD FOR THOUGHT**

**TO THE VOTERS OF MILLS COUNTY TEXAS:**

I am a candidate for the office of county clerk of Mills county and submit my claim.

I was born in the beautiful little city of Mullin, moved from there with my parents, Dr. and Mrs. Em. Wilson, to Goldthwaite, when I was a little girl, and have lived in Mills county practically all my life. Attended Goldthwaite high school and graduated from that institution, holding a first grade teachers' certificate. Afterward attended the state university.

I taught school four years. Since that time I have been engaged in clerical work, with bookkeeping as my principal business.

My ability is recognized by all who know me. Honesty and ability should be the prevailing qualifications of an office seeker. I can qualify on both accounts, as my life's history is an open book to many of Mills county's citizens.

If I am elected I will give my best efforts to conduct the office in a way that will be satisfactory to all.

I realize that the citizens of a city should patronize the business men in the city if it is to prosper and grow. Therefore, if elected I will endeavor to secure all supplies in Mills county necessary to the operation of the office, as well as personal needs. Money spent at home will be used for the uplift of the community, and as our family has always been interested in the betterment of community affairs, I think it sufficient evidence that I will continue in that way.

I find a few good citizens who are against women holding office. A constitutional amendment gave the franchise to women. While it has only been a few years since woman was made politically free, she has in these few years demonstrated her ability to handle the affairs of state.

A reasonable estimate places criminal liability about five times greater in men than women.

There is a woman in the president's cabinet. Texas has a national committeewoman in the Democratic party. Many are the instances where women are displacing men in all vocations of life. Not only in governmental affairs, but in the business world. It follows that honesty and ability are the only requirements of an efficient official and that sex is not to be considered.

A legislator of the state to New Jersey says, "If ever politics is to be purified, it is a job for the women."

If I should not see each one of you personally, it will be on account of not having more time. I will appreciate your vote and influence. If you can consistently vote for me I promise to give my best efforts in the discharge of my official duties.
