GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, OCTOBER 16, 1936

NUMBER EIGHT

District Zone Meeting of Methodist Ladies Held Here Tuesday, Oct. 13

City Water Pure State Test Shows

Lacy Thompson, city engineer, has received a report from the state health department on recent samples of water from the Goldthwaite city wells and also samples taken from the water mains. Every report shows that the city water is absolutely pure and free from all forms of contamination.

More Money Sought For Sewerage System

This week application was made to the PWA for \$5,000 additional funds for the sewerage system now under construction in Goldthwaite.

If this money can be obtained, it will be possible to extend the present system so as to include new customers who have petitioned for the extension.

New Paving Starts On Parker Street

Street paving actually started this week, and the first block to get the asphalt topping was Parker street between fifth and sixth. Three more blocks are to be paved immediately. The labor for the work is being provided by the WPA under the supervision of John Patterson. The city is furnishing the paving material.

GOVERNMENT TERRACING EQUIPMENT

We are trying to locate the following equipment that has been used by farmers of Mills county and not returned: Texas terracers, Fresnoes, terracing plows and levels.

If we have loaned you any of the above equipment or if you know of the location of any of these implements, please notify the county agent's office by Saturday morning, October 17, 1936. W. P. WEAVER, County Agent.

JUNIOR ART AND CIVIC CLUB

The Junior Art and Civic club met with Mrs. Herman Richards Wednesday afternoon, October 14.

After a brief business session, the following Bible program was enjoyed:

The Roll Call: "Favorite Characters of the Bible."

"The Parable of the Ten Virgins," Beatrice Bledsoe.

The Great Women of the Kingdom," Mrs. Herman Richards.

REPORTER.

BLUE BONNET CLUB

The members of the Blue Bonnet club met with Mrs. Dan Covington, October 6 in the afternoon. They spent the evening in quilting on a fan quilt.

We were glad to have Mrs. Covington and Edith and Mrs. Lewis Covington and two children and Mrs. Will Blackburn.

Mrs. Dan Covington and Mrs. Clyde Featherston served cake and fruit grape juice. Our next meeting will be with Mrs. Kemp, October 20 in the afternoon. REPORTER.

POSTAL ODDITIES HEARD DURING RADIO PROGRAMS

Odd, and in some cases almost unbelievable, facts and historical incidents related to the postal service are being broadcast each Thursday from 7:00 to 7:30 p. m. over radio station WACO at Waco.

This is a non-commercial feature which is sponsored by the National Federation of Post Office Clerks. The programs are in dialog form and are fascinating to the entire family.

Returned Missionary At Baptist Church

Mrs. Wilson Fielder, a returned missionary from China, will be at the Baptist church Monday, October 19, and tell of her experiences and of the people of China. She is a very interesting speaker and the women of the Baptist churches of the county are urged to be present to hear her.

Especially do we invite the local women of other churches to come in the afternoon to hear Mrs. Fielder.

The program begins at 11:00 o'clock with Mrs. J. P. King bringing the message. Lunch will be served and in the afternoon Mrs. Fielder and Mrs. Sivells of Brownwood will speak.

Mrs. Byler, the associational president, will be present to get the work of the county started for another year. XX

Detective Work Recovers Barley

Mrs. Clarence Mason planted thirty bushels of barley yesterday. But that is only the end of the story. She intended to plant it Wednesday. When she arrived at her farm Wednesday morning her barley was gone. But there were tracks. A trail of barley led from the barn to the track of a car. And the tracks of the car led somewhere else. She secured a search warrant and had it executed. She got her barley back, a young man, who intended to raise barley himself, did not plant it, but raised some bondsmen instead. And Mrs. Mason planted her barley Thursday.

P-T-A.

The P-T-A met Tuesday, October 13 in the grammar school auditorium with Mrs. Armstrong, president, presiding. The program for the afternoon was as follows:

Piano solo—Allene Ross.

Dance—Patricia Stevens, Macalee Long and Dorothy Nell Rudd.

Talk, "Value of Proper Care of Children's Teeth," Dr. T. C. Graves.

In the business session which followed it was decided to continue the annual custom and have a hallowe'en carnival on Saturday, October 31. Plans for the carnival were submitted, committees were announced and work will begin at once. The association will appreciate the cooperation of everyone who will help make this undertaking a success. The P-T-A voted to join the Red Cross for the year.

John G. Berry, Mills county representative of the state highway department, has been directing the repair of flood damaged state highways in the county. Two thousand dollars were allotted for this purpose. The Colorado river bridge on highway 81 between Goldthwaite and San Saba was opened to traffic Saturday, and the badly washed sections of this highway in Big Valley are being gravelled and the road put back in first class shape.

County Roads Being Repaired

At the Monday session of the commissioners' court, Jess Egger, precinct four commissioner, was granted authority to secure the necessary right of way for the relocation of the mail route in lower Big Valley where a section of the road was washed into the river. It is expected that this road will be completed within a few weeks.

744 bales of cotton ginned in Mills county up to October 1 according to Mrs. M. Y. Stokes, Jr., cotton census enumerator, up to same date last year 1088 bales had been ginned.

Church Of Christ

Shall the religion of our Lord survive or shall we yield to modernism and allow it to become social, political and worldly? The modern world says that the religion for today must be that to survive and answer the needs of humanity.

To be social, religion must clothe the naked, feed the hungry and shelter the homeless. This, it is true, is a characteristic of Christianity, but it is the result of Christianity and not a means to it. If this be the heights of religion, then the brutes would be invited to our banquets. Religion is more than social. It is spiritual.

To be political religion must run on democratic principles. This is merely an invitation to men of political influence rather than to those who have been born again. The head is counted in this religion rather than the heart. It is doubtful if any of the apostles would qualify for this modern religion. When religion becomes political it is evident that it has ceased to be Christian.

To be worldly, religion must adorn itself so as to attract the worldly. It must become worldly. As little as you think this idea has contaminated the thought of many a religionist. Where are the old time hell-fire sermons? Largely they have been consigned to obscurity. Where is the distinction between the religionist and the worldly? Instead of the worldly becoming Christian, the so-called Christian has become worldly. Religion to survive the test of judgment must not be worldly. Paul said, "He was crucified unto the world and the world unto him."

You are invited to church. E. W. STOVALL, Minister.

RALLY DAY

In the Methodist church school, Rally Day will be observed next Sunday, October 18.

Every member is urged to be present for general assembly in the auditorium when a special service will be held. "Tags for Rally Day." SUPERINTENDENT.

Methodist Notes

Sunday morning last, the Methodist folks had the largest audience that they have had in some time. At the evening hour the auditorium was filled to the doors. There was plenty of room, however, at the front. This should have been filled also.

In looking over the average congregation it has often occurred to this not very wise scribe that the people, for the most part, show a decided preference for the seats at the rear of the auditorium. I have always felt that in making his announcements, the pastor should urge the people to come early so as to get the rear seats. Well, come early next Sunday, and come in large numbers. Only three more Sundays until conference, you know.

It is not my purpose to write in detail about the Zone meeting of the Woman's Missionary society held here last Tuesday. This is committed to other and more competent hands. I might be permitted to say, however, that with a pardonable degree of energy the writer managed to get in on the meeting. He enjoyed the program so much that he remained through the entire day. This, of course, included the noon hour, around which hangs so many pleasant memories. It turned out to be really easy to break in on the fine dinner. I just stood around and looked real hungry, a thing not at all difficult. Finally one of the good women asked if I would not remain and take dinner with them. This I did, after trying to appear to want to make an excuse for not doing so. Needless to say the effort was well repaid, for I do not know when it has been my pleasure to attempt a meal that gave a greater reward for the effort expended. In fact all was so satisfactory that it is at present my purpose to become a member of the Woman's Missionary society since the membership fee is in no way excessive.

One week from next Sunday Brother Nixon will be present and hold the last quarterly conference for the year. It will be held at the Sunday school hour, after which he will go to Center City to preach at eleven o'clock. It would be well for all who have any thing to do with the closing up of the year's work to be on the job from now until then, so as to be able to close the work of the year in a creditable way. If this is to be done, each must be on the job from now to that time as this closes the work for the year. J. S. BOWLES.

Sample Ballot Printed For Eagle Readers

A sample of the ballot to be used in the November 3 election is published in this issue, in order that the readers may familiarize themselves with it. This is one of the largest ballots ever handed voters of Texas, yet there is not a column or a name on it not required by law. Those who vote the Democratic ticket straight need only to run a pencil mark down the other seven columns, but a mixed ticket will be more difficult. If it is desired to vote for some one whose name does not appear on the ticket it will be necessary to write the name in the unheaded ticket. If the name to be voted appears on another ticket, just leave it as it appears and scratch the corresponding name in all other tickets. A careful study of this ticket will help the voter to make his ticket out as he wants it to go.

FOOTBALL PLAYER GETS SPLIT TONGUE

Shults Faulkner, sturdy linesman of the Goldthwaite high school football team, is talking baby talk this week—when he talks. At practice Tuesday afternoon he suffered a split tongue which required a stitch to put it back together.

Public Library Movement Started

Committees from 3 study clubs met with Judge Gerald and Mayor Bodkin in the county judge's office Saturday morning to discuss ways and means of obtaining a public library for Mills county. It was decided that the best way to have a library was to start one, so each organization interested will be asked to elect one member of a library board with Judge Gerald chairman ex-officio. Such board has been called to meet in Judge Gerald's office Monday, November 2, at 9:30 a. m. to organize and transact further business. The major will proclaim book-week in November and during that week it is planned to have a book tea at which every interested person in the county will be asked to donate a book.

Nazarene Remarks

All of our services were very well attended last Sunday. The Sunday school is on an increase as we come down to the close of the assembly year. The election of Sunday school superintendent has been held and new teachers will be appointed at the close of the Sunday school next Sunday. New officers and teachers will not take their places until the first Sunday of the new assembly year, which will be November 9.

We will begin all our evening services at 7:15 hereafter. By doing this, those that work and are in school will be assured of time for rest and to get lessons after services.

We invite you to worship with us next Sunday. CHARLIE HARRISON, Pastor.

Smartly attired in a
 mannish suit with black ac-
 cessorials, made the kick-off at
 Goldthwaite-Llano game last
 Friday. The football captain, J.
 McKenzie, escorted Miss Har-
 tman onto the field to make the
 kick that helped the Eagles
 give Llano a good "licking."
 Dorothy was leaving the field,
 president of the pep squad
 wanted to tie a beautiful
 bouquet of roses tied with black
 and gold ribbons.

The juniors sold lots of candy
 during the game last Friday. Thank
 you for your support.

FROM THE SOPHOMORES

Child, coming from a filthy
 neighborhood was taught at
 school to wash his face. He
 was so sweet and clean that his
 mother washed her face. When
 she came from work and
 saw the improvement, he wash-
 ed his face. The neighbors who
 saw the change and wash-
 ed their faces. Soon the little
 child lived in a clean, pleasant
 neighborhood.

Every day some one is in-
 fluenced by what you do. Is your
 influence over him good or bad?

The freshmen know not, and
 know not that they know not.
 They are foolish. Show them.
 The sophomores know not,
 and know that they know not.
 They are simple. Teach them.
 The juniors know, and know
 that they know. They are
 simple. Wake them.
 The seniors know, and know
 that they know. They are wise.
 Guide them.

JAMBOREE

Partly in celebration of our
 smashing victory over Llano Fri-
 day afternoon and partly because
 it was a good idea anyway the
 pep squad gave the football team
 a picnic Friday night in Gar-
 tman's pasture. We can vouch for
 that "a good time was had by
 all" inasmuch as there was
 plenty to eat and everyone was
 in great spirits. Few games were
 played, but there was plenty of
 back-slapping and hand-shak-
 ing.

A slight difficulty was en-
 countered in the fact that the
 football boys and coach wanted
 to stand in a huddle and talk
 about the game. However, the
 pep squad girls felt that their
 hospitality was being insulted
 and proceeded to break it up. A
 ball to grub quickly dispersed
 them and the party moved on to
 a glorious climax.

HOME ECONOMICS CLUB ORGANIZED

 thwaite high school organized
 and the following officers were
 elected: President, Louise Gart-
 man; vice-president, Juanita
 Sanderson; secretary, Addie Mae
 Summy; reporter, Louie Heater.

OTHA WINSLAR RESIGNS

Mr. Otha Winslar, teacher of
 vocational agriculture, recently
 submitted his resignation and
 has accepted employment with
 a commercial firm. He is now
 located in Corpus Christi. Mr.
 Winslar had only been with the
 school since last summer, but in
 that time he had won a friendly
 place in the hearts of all who
 knew him. He was very popular
 among both teachers and pupils.
 It is with regret that we see him
 go and as he goes he carries with
 him the very best wishes of the
 entire school and community.

MR. HENRY ELECTED

At a regular meeting of the
 school board held last Monday
 night Tom J. Henry was
 elected as teacher of vocational
 agriculture, taking the place
 made vacant by the resignation
 of Mr. Winslar. Mr. Henry was
 reared at Floresville, Texas, at-
 tended school at both John Tar-
 leton and A. & M. colleges, and
 graduated from the latter school.
 His preparation during all his
 college career has been for his
 chosen line of work. The student
 body and faculty welcome Mr.
 Henry to our midst and trust
 that his stay with us may be
 both pleasant and profitable.

 Eagles, they were unable to cope
 with Goldthwaite's strong line
 and backfield.

 yards.

Fourth quarter:

Miller went in for Berry for
 the Eagles. Llano lost 1 yard

 Davis ran 25 yards on a play and
 fumbled, but the Eagles recover-

 McKenzie for 6 yards and a
 touchdown. This ended the game,
 but the point was tried for after
 the final whistle, but was not
 made.

This victory placed the Eagles
 fourth in district 22-B standings,
 with Brady and Lampasas tied
 for first and San Saba third. The
 standing of other district teams
 is as follows: Mason, Fredericks-

CRATER COLUMN

Whoops, my dear friends!
 Rumor goes round that a peti-
 tion is being "got up" to exter-
 minate us. It is said that the best
 snoop is one that everybody
 hates. If we can prove this, may-
 be we will get our salary raised
 enough so that we can live on it.
 The pep squad picnic last Fri-
 day was the grandest hunting
 ground we have found in ages.
 We found people together who
 were to say the least, unexpect-
 ed. Was it possible that the presi-
 dent of the senior class and his
 aloof brother took freshmen in
 to supper? And was or was not
 Skeeter Tully with Laura Helen
 Saylor? Oh my, how these lads
 from Cowntown come along!

We hear that Dorothy Eunice
 Morris is slowly recovering from
 the shock that the removal of
 Jack Hall to Port Arthur caused
 her. However, she still haunts
 the post office.

How many of you know what
 senior couple has gone together
 longer than any other? Believe
 it or not, Louise Gartman and
 Jimmie Frizzell have been sweet-
 hearts ever since they were in
 the first grade. But we wouldn't
 say that that keeps either of
 them off the market.

Was our august principal, Mr.
 Cloninger, a little unusual Fri-
 ers.

that the sight of the score Fri-
 day afternoon upset him, but
 really is no excuse for
 some of the things he did.

Why did Milton Tate fall
 asleep in algebra class Monday
 morning? We wouldn't know, of
 course, but we have heard that
 staying out late nights.

What is Freddie Marshall going
 to do about Shuly Faulkner's
 taking Katherine Hodges to the
 football picnic? We want to
 know!

Was it declared Louise Ohlen-
 busch states that herofore her
 car is not a free public convey-
 ance, and that anyone attempt-
 ing to use it as such without due
 consideration and permission will
 do well to insure himself heavily.
 We (having disregarded the
 warning once) heartily endorse
 the above statement and sug-
 gest that the advice be univer-
 sally followed.

Would it be possible (of course
 it would—we can do anything)
 to suggest to certain seniors that
 they should learn to read blank
 verse? "Macbeth" alone is bad
 enough, but to have to listen to
 Troy Berry and Leon Gray read
 is too much.

What has Connie Trent to con-
 fess? We have information that
 she will tell all—if the price is
 right.

For the most amusing sight of
 the year, we recommend a view
 of Clark Davis and Altrueman
 Langford washing dishes. There
 is no admission price, but contri-
 butions will be appreciated. Lo-
 cation: The sink in Bill's cafe.

Tip for teachers:
 There are ways to prevent that
 blockade on the upper stairs
 every day at one forty-five—but
 we aren't going to tell you what
 they are. Mr. Stephens can find
 out.

Miss Love—Don't be so wor-
 ried about those Texas history
 papers. We understand—maybe
 the state department will.

Notice! George Ballard, be-
 cause of a throat ailment, has
 been obliged to discontinue his
 singing in classes and study
 halls. But he will be back in
 circulation in a week or so—un-
 less Jim Weathers takes over his
 position.

Albert Rieger has been con-
 cealing magazines in his note-
 books and reading them in dull
 classes (which are not?). Can't
 something be done about it?
 P. S.—All right, Albert, rent
 your column!

The Athens class enjoyed a

During the business session the
 following officers were elected:

 Mrs. F. E. Martin played a selec-

 followed by songs by the ladies

 was dedicated to Mr. Clements,
 the poet laureate of the class.

What some mathematicians have
 contended, that the decimal sys-
 tem in which human beings do
 their arithmetic may not be the
 easiest one. The new machine
 uses the binary system. That is,
 everything is done in multiples
 of two instead of multiples of
 tens. In this system a person
 counts up only to two before
 starting over again. Thus one is
 written 1. But two is written 10.
 Then three is 11 and 100 in four.
 Mathematicians have suggest-
 ed that even the simplest sort
 of mind could work in this binary
 system and with less errors than
 in the higher grade decimal sys-
 tem. For the machine mind, the
 advantage is easy to understand.
 An adding machine working in
 the decimal system requires 10
 cogs, to carry the numerals zero
 to nine. Not until the cogs have
 moved ten times does 10 come up,
 and the process starts over again
 in the machine. But the binary
 system the machine "mind"
 needs only two cogs. In proof
 that this advantage not limited
 to the matter of fewer cogs, the
 inventor of the machine says it
 works algebra, something not
 before done mechanically. The
 inventor is Louis Couffignal,
 technical advisor to the French
 naval school at Brest. Couffignal
 says the new machine can easily
 be adapted to be worked by the-
 graph. It will, he says, find
 square roots.

A meeting was held at the school house on Monday evening, October 12, for the purpose of organizing a Little Theatre for Mullin and surrounding territory.

Mr. Parker acted as chairman and Miss Iva Lee Daniel as secretary. A constitution and by-laws, which had been previously drawn up, was read and voted on by those present. It was adopted and signed by those wishing to become members of the organization.

The following officers were elected to compose the board of control: President—chairman, Mr. Patterson; vice-chairman, Tom Wallace; secretary, Mrs. Brooke Smith; treasurer, Rev. McCullough; reporter, Mrs. Lallie Read. An additional three members were also elected to the above committee: Mrs. Julius Lockridge, Mrs. Leone Walton and Mr. Brooke Smith.

Great interest was shown by those present. Several made talks on the advantages the people as a whole would derive from having a Little Theatre in our town. All plays will be of a highly moral and uplifting standard and therefore can be attended and appreciated by all.—Enterprise.

LONG SUFFERING SCHOOL-BOY GETS A BREAK

The long suffering schoolboy got his first real break in 400 years last week.

His elders started a campaign to abolish homework.

The movement had been brewing for 35 years, but this was the first time an organization was set up specifically to combat the drudgery.

The group had only one objective, and made no bones about it when it picked a name:

The National Association for Elimination of Homework.

Still in its infancy—it has just reached the letterhead stage—the association disclosed through its vice-president, Chester H. McCall of New York City, that it had set up headquarters in Chicago and was preparing to storm school boards, school teachers and parent-teacher units with these arguments:

Homework is a waste of time
Homework is a worry to parents.

Homework is a worry to children.

Homework is a maker of de-cets.

Homework is a barrier between parents and children.

Homework is out of date anyway.

School children have used the first argument for centuries, but they never got anywhere with it.

Homework has been the bane of the student's existence ever since schools began, said Dr. Edward Reisinger, professor of educational history at Columbia university.

After the civil war, the school-boy's lot grew heavier. Grade schools began to develop, curricula piled up, and teachers added more and more home assignments to keep up their schedules.

A revolt began 35 years ago. California abolished homework by law in 1901. Progressive schools elsewhere inserted study periods in schoolroom schedules.

In Bangs, Texas, Dr. Arthur Mayberry launched a new regime. He abolished homework altogether.

This year New York City adopted the idea.

At Columbia's Teachers college laboratory "no homework" has become the ideal. Teachers are urged to substitute systems which lead the child into original research into community problems, such as housing, transportation, and so on.

Proponents of the take-your-books-home system urge their system breed

NEW FASTENERS IN GAY COLORED PLAS

In the changing aspects of fashions, more and more demands are being made on modern materials that have hitherto been unavailable. Plastics, for example, have opened a new field to fashion couturiers, who by creating different uses and designs in plastics are starting interesting fashion trends.

In recent years, the smart world has learned the beauty and practicality of handbags made of plastics. A new development in this field is the corrugated composition with dull mat finish, used by Nat Lewis in styling high fashion bags. Others made of coated fabrics, in many colors, are popular as well. Plastic coverings for heels of high heeled shoes and slippers, stimulating the leather perfectly and yet durable and scuffless, are being used for the best of fashionable foot wear for women. Paris designers, as well as those in America, are creating lovely and colorful motifs, belt buckles, brooches, neck ornaments, and earrings made of plastics, to be worn with new costumes. This idea was stressed a number of times in the recent mid season openings in Paris.

The ability to make practical slide fasteners of plastic in a variety of interesting colors has opened up a new field in dress design. For example, Schiaparelli and other prominent Paris designers have set a new style in their use of these plastic fasteners, on dresses, suits and coats. Smart and effective as color accents, as well as being very successful for their purpose, they give another example of the versatility of plastics in the mode.

Slide fasteners of P,ralin, a pyroxylin plastic, are used as a contrasting color trim on dress, handbag, and gloves in the ensemble shown at the right. This frock, fashioned from one of the new rayon fabrics, has colored fasteners on pocket and front closing and the hat, a smart new Breton in a white synthetic fiber, features the plastic slide fastener in red in the novel role of closing the little top crown pocket in which a veil may be carried. FIVE HUNDRED SHIPS A MONTH

Just 20 years ago, Mayor Ben Campbell gave an interview to the press of Houston, bemoaning the fact that only one ship a week was using the new port of Houston, although elaborate and costly facilities had been prepared. Last month 599 freighters and tankers loaded and discharged at Houston wharfs.

This is about as effective an illustration of the growth of a city and port as could be found anywhere.

Incidentally, this is an all-time record for the channel and our shippers believe that this month may even pass September.

It is well to keep repeating these comparisons of growth that we may constantly realize the significance of the part in our progress and never overlook an opportunity for its continued development.—Houston Chronicle.

Many of the old-fashioned herbs that are used in seasoning dishes can be grown right in the kitchen window in flower boxes. The department of agriculture, which makes this suggestion, says the best herbs to grow in a window are mint, watercress, parsley, rose geranium, chives, sweet marjoram and basil. The best soil for them is one-part sharp sand, one part well-rotted cow manure, two or three parts of good garden loam, and a little bone meal, all well mixed together.

RESOLUTION OF RESPECT

Whereas, our loving heavenly Father has taken from us our beloved sister and co-worker, Mrs. M. C. Kirkpatrick;

Therefore, be it resolved, in the death of our dear sister, the Mullin Cemetery association has lost a member who, by her gracious, gentle life and deep devotion and her faithfulness to our association we have suffered an irreplaceable loss.

That she will be missed, not only from our association, but greater still from her home circle, where by her queenly life she reigned constantly in the affection of her children.

That her church, in which relation she proved her real worth as a faithful member and in which relation she measured up to every standard of a truly great woman, likewise suffers with us in the loss we sustain.

That we bow in humble submission to the will of our Father in heaven, knowing that he doeth all things well.

That we extend the deepest sympathy of our hearts to her dear children in this tragic hour that has come to them and to us.

Tenderly submitted,
MULLIN CEMETERY ASS'N.

The astonishing story of GULFPRIDE

THE WORLD'S FINEST MOTOR OIL

THE results you get from GULFPRIDE OIL can be obtained from no other motor oil in the world!

For only GULFPRIDE is made from choice Pennsylvania crude... refined to equal the best motor oils on the market... and then further refined by Gulf's exclusive Alchlor process.

This process was developed by Gulf after 15 years of scientific research—the kind of painstaking research that is behind every Gulf product.

Read the facts below. Then replace your summer-worn oil with GULFPRIDE now. At all Gulf dealers.

(Left) BEATING THE BEST. No other process refines oil so thoroughly as Gulf's Alchlor process. When a blend of 6 of the finest Pennsylvania motor oils—already highly refined—was put through this process, 20% waste came out. That's the Alchlor process makes GULFPRIDE finer than the finest other Pennsylvania oil.

A GULFPRIDE USER drove from Bennington, Vt., to Portland, Ore., averaging 400 miles a day. He did not add a single drop of oil. An unusual record, yes. But expect GULFPRIDE to take you farther before you need a quart than any other oil you ever used.

EASTERN AIR LINES' Great Silver Fleet uses GULFPRIDE only in every one of its 21 mighty planes. No other oil will do, because no other oil can match GULFPRIDE—the world's finest motor oil—for safety, stamina, and low cost per mile!

CENTER CITY

All are so busy here there isn't much visiting. The weather is ideal for gathering cotton and corn. Some are sowing grain.

There was no church services Sunday. Both Sunday schools were fine yet there were some who did not attend. We hope to have all present next Sunday and remember the preaching by Bro. Wade at the Baptist church.

Sunday was the annual time for the Brock McCasland, Walter Simpson and Mohler Oglesby families to meet in celebration of Florence Simpson, Glenda Oglesby and Brockie D. McCasland birthdays. All met at the Mohler cemetery for lunch and the afternoon together. They were joined by Alvin Oglesby and family, Omar Shaw and two little daughters, Grandmothers, McCasland and Shaw and Misses Wanda Faulkner and Bonnie Ferne Doggett. All enjoyed the fine dinner and wished for these young ladies many more happy birthdays together.

School dismissed last week so the children could pick cotton and this week all are very busy. The inspector, Miss Gilstrap, and Judge Gerald visited the school Tuesday. They reported everything fine and were very liberal in helping Center City keep a high standard in the educational line.

The Methodist people are still planning for the home-coming at the church the 25th of this month. They want every one who ever attended church services here to be present that day.
