

THE GOLDTHWAITE EAGLE

GOLDTHWAITE, MILLS COUNTY, TEXAS, FRIDAY, SEPTEMBER 3, 1937

NUMBER TWO

Structures Planned for Post Office

Charles L. South, architect, has been selected to design the new post office building to be constructed in Goldthwaite. The building will be a two-story structure and will contain approximately 10,000 square feet of floor space. The estimated cost of the building is \$25,000. The building will be located on the corner of the old location which has been in use for many years. The building will be a modern structure and will be a credit to the community.

Band Instructor In Local Schools

At a recent meeting of the school board, J. H. Gain was elected as a band teacher. In addition to the time devoted to teaching band work, Mr. Gain will do teaching in the elementary grades. This is a new position, created this year for the first time. It was made necessary both by a consistent demand for band instruction, which is being offered in practically all high schools now, and by the increase in scholastic population. The increase is 30 more than last year. Mr. Gain comes very highly recommended. He was reared in Dublin, Texas, and is a graduate of Howard Payne college. He has had quite a bit of experience in band work both in high schools and in college. Also at this same meeting of the school board Miss Edna Taylor of Brownwood was elected to a position in the primary department, filling the vacancy caused by the resignation of Miss Grace Moore Skinner. Miss Taylor was reared in Brownwood, which is her home now. She is a graduate of Howard Payne college and is a successful primary teacher. Advance registration running well ahead of last year indicates quite an increase in enrollment.

CCC Issues Call For 11,000 Boys

Almost any boy in Mills county who is unemployed, is between 17 and 23 years of age, is in need and whose parents are not financially able to put him in school has a good opportunity to enroll in the CCC in October, according to information received from the Texas Relief Commission by Mrs. Myrtle Forehand, local relief administrator. The quota of 11,000 white and 1200 colored boys to be enrolled from Texas in October is far greater than any previous enrollment, and in connection with the more liberal rules will make it possible for many boys to receive this excellent training who would formerly have been barred. Applicants are no longer required to be from families on relief. Still more attention will be given to educational subjects and in preparing the enrollees for securing and holding paying positions when they leave the corps. Applications should be made with Mrs. Forehand at once by those interested.

GIBB GILCHRIST UNABLE TO ATTEND BARBECUE

Gibb Gilchrist, state highway engineer, will not be able to come to Lake Merritt to attend a barbecue to which the stockholders of the Mills County Hunting and Fishing Club invited him at their annual meeting. After previously accepting the invitation, Mr. Gilchrist has just written that it has been impossible for him to set a time when he could get off. He writes that he hopes that after he is settled at A & M he will be able to come up and see all of his friends in Goldthwaite again.

VISITS IN COLORADO

H. A. Sykes returned from a visit with his son, James Sykes and family in Canyon. They have toured Colorado and had the thrill of climbing Pikes Peak. Mr. Sykes Sr. was met in Balingler on his return by Mrs. H. A. Sykes Jr., and daughters of Winters, and Mrs. J. A. Birdsong of Vernon. They came to Goldthwaite Friday. H. A. Sykes lives in Big Valley. The rest of the party visited with relatives and friends here. Mrs. Birdsong and Mrs. H. A. Sykes Jr. are daughters of Mr. and Mrs. Lewis Hudson. They left for their homes Monday.

Storm Strikes Lake Merritt On Monday

Shortly after noon on Monday, at the Mills County Hunting and Fishing Club on Lake Merritt, 7 miles northeast of Goldthwaite, a windstorm demolished the men's bath house and the south fishing pier and uprooted trees. One metal rowboat was blown out of the water and 100 feet from the shore line. The club house and summer homes and their occupants escaped injury. Several boats were crushed when the bath house collapsed. The bath house and pier will be replaced.

Daniel Baker Dean Injured in Accident

Dr. Guy Davis, dean of Daniel Baker college, was hurt in a car wreck last night just south of town. He was unconscious when he was picked up by Fairman ambulance and carried to Medical Arts hospital in Brownwood after a short examination by Dr. Campbell here.

ANOTHER DISTINGUISHED CITIZEN

Another distinguished citizen is Mayor H. G. Bodkin, whose name occupies a space in Who's Who book of famous Texans of the 1937 edition.

YARDS TO BE JUDGED

All entries in the yard beautification contest sponsored by the Goldthwaite Garden Club will be judged sometime during the week Sept. 6-10.

Walter J. Walker Is Resettlement Head

Walter J. Walker of San Saba has been transferred to Goldthwaite as supervisor of the resettlement administration office here and San Saba county has been combined with Lampasas and Mills county under his supervision. He relieved Joe E. Stewart.

Several other changes in the staff of the local offices are also being made at this time.

Baptist Reminder

Our revival closed Sunday night. We had large crowds throughout our meeting. It was probably the greatest meeting we have had since I became pastor. There were 38 additions to our church. The spirit of our church seems to be the finest it has ever been. Our help was of the very highest type. Our people were very generous in the offering. The offering was \$252. This was the largest for any meeting since I became pastor. It seems to me that our church faces the brightest future in its history.

Mrs. Swanner and I want to thank our church for the cooperation during the meeting. We also want to express our appreciation for the fine shower. It was the most generous shower we have ever received anywhere. We received over one hundred cans of various things, besides many other gifts.

We will have our regular services Sunday. I will preach at both services. We will observe the Lord's supper Sunday night. We are very anxious that our membership be present and especially our new members. — Franklin E. Swanner.

MEETING AT PRIDDY

J. A. Lauder milk, Baptist minister of Brownwood, is holding a meeting at Priddy and services will continue until Sunday. Friends and everybody invited to attend the services.

Work Started on Athletic Field

Work commenced this week on a new athletic field for the Goldthwaite Eagles. The rocky southwest corner of the school grounds is being graded and leveled and will be plated with caliche.

This will provide the local teams with a much better and more convenient place for practice and will remove the cause for other teams in this district objecting to playing here.

Cost of the work is estimated at \$250. At a called meeting of the Lions Club Tuesday evening the project was endorsed, and a committee will solicit donations to meet the expense.

Citizens are urged not to wait to be solicited by the committee, but to phone or see Supt. A. H. Smith and let him know the amount they will give.

Eagles to Begin Training Today

Coach S. E. Cloninger arrived home Wednesday from Houston where he has worked this summer and stated that he was anxious to get the football boys lined up and in training for the game that is to be played on Sept. 11 with Comanche team.

This does not give the team much time for the early game and all encouragement that the town can give the boys and their coach will be greatly appreciated.

Let's talk football, boost the boys and help in every way to make a good team in Goldthwaite.

Splendid Rains Fall Over Entire County

Beginning Monday rains broke the drought that has hovered over Mills county practically all the summer. Creeks were drying up, stock water was running short and all vegetation was dying. Everyone should be happy and start in the new season looking on the brighter side of things, with better business and better prices for your commodities.

The rainfall in Goldthwaite was one-third of an inch, but heavier in different parts of the county.

WILCOX REUNION

Wednesday, Aug. 25, was a very happy day for members of the Wilcox family that attended the reunion held at the Fair Park.

Those attending were: E. J. Wilcox, Corpus Christi; Mrs. Travis Moore and daughter, Waco; Mr. and Mrs. B. L. Pumphrey, Fort Worth; Mr. and Mrs. Will Loyd, Mr. and Mrs. Will Hudson, Mr. and Mrs. Ray Pumphrey, Willie Pumphrey, Marvin Pumphrey, Mrs. Allen Harrison and daughter, all of Winters; K. B. Evans, Houston; Mr. and Mrs. C. H. Evans and two daughters, Mexia; Mrs. L. B. Hanson, San Angelo; W. B. Wilcox, Arthur Wilcox and son, Mr. and Mrs. Ben Wilcox and grandson, Mr. and Mrs. Richard Wilcox, Mrs. J. J. Wilcox, Bennie D. Wilcox, Mr. and Mrs. Tom House and four children, Mrs. Lester Johnson and daughter of Christine, Texas, Mr. and Mrs. Ira Allbridge and two children, Mr. and Mrs. Oscar Hill, Mr. and Mrs. J. Everett Evans and daughter, Mr. and Mrs. Walter Doggett and family, Tom Williams, George Johnson, Mr. and Mrs. Henry Morris, Lindon Morris, Mrs. Alice Morris, all of Mills county.

A bounteous lunch was spread at the noon hour with plenty left for supper, after which the crowd bade farewell with plans made to make this reunion an annual affair.

EVANGELIST

REV. MRS. MORRIS GILL

Nazarene Church Revival to Begin Sunday Morning

The Church of the Nazarene will begin a series of revival meetings on Sunday morning. The evangelist, Rev. Mrs. Morris Gill, comes to us from Long Island, N. Y. She is different, she says the things that others do not say. A woman preacher with a message. Prayer meetings have been conducted for a number of days preparatory to the revival and the local church is looking forward to a gracious outpouring of the spirit. The churches of our city and all who love the cause of righteousness are urged to lend their influence and prayers to the success of the meetings. Our farmer friends and those from out of town are especially urged to attend. Services at 10 a.m. and 7:45 p.m. Rev. Joe M. Tyson and wife will be in charge of the music. Come early if you want a back seat.

Marine Corps Asks For New Recruits

An unlimited number of applications for service in the United States Marine Corps will be considered by the officer in charge of the Marine Corps Recruiting office, Dallas, during the month of September.

Applicants must be white, single and without dependants, ranging in height from 64 to 74 inches and of good moral character. Those between 18 and 21 years of age must have consent of parents, or legal guardian.

Applicants not living in the immediate vicinity of Dallas are advised to have a local physician fill in a preliminary examination form, mail it to the Dallas office. The applicant will then be notified whether or not to report for a final examination.

Application blanks, physical examination forms and full information regarding life and opportunities in the United States Marine Corps will be mailed on request, it was stated.

MOVES HERE

Mr. and Mrs. Oscar Burns and daughter, Evelyn, have moved to Goldthwaite from Coleman and expect to remain here for the winter. Oscar has been a valued employee of the Santa Fe for a number of years. Mrs. Burns' parents reside at Star and we are all glad to have them return to Goldthwaite where they lived when they were first married, and also they have much property interests here. They are occupying an apartment in Mrs. J. H. Randolph's home.

Priddy School to Open Sept. 20

Priddy school has everything about set for the next term which is scheduled to open on Sept. 20. Gathering the cotton crop of this community usually delays the opening of school for a few days longer than the opening of the larger schools, owing to the fact that this is a cotton section.

The faculty has been carefully selected by the trustees in order to meet all requirements of the State Department of Education. We believe we have a very efficient group of teachers and are looking forward to a delightfully successful term.

The faculty is as follows: J. Oscar Swindle, superintendent, history; Ray Duren, principal, mathematics; Miss Irene Harris, English; Miss Gertrude Johnson, 5th and 6th grades; Miss Ruth Jackson, 3rd and 4th grades; Mrs. Lucy Bell Roberts, primary; Mr. A. F. Vandergriff, vocational agriculture; Miss Hettie McClanahan, vocational home economics.

Within the last two years, Priddy school has consolidated with Washboard, a two-teacher school, has established vocational agriculture, and built and equipped a building for this work. It has established vocational home economics and equipped a room for that purpose, and has obtained full affiliation by accrediting 16 units of work. We are justly proud of this record but there are many things yet to be done by way of improvements and we are all working together to make the school better and more efficient each year. We run three busses to accommodate the pupils living in the more remote sections of the district. Many of the roads have been improved by our commissioner during the summer and this will add to the value of the farms as well as to the efficiency of the school.

Herman R. Anderson Killed By Lightning

Herman R. Anderson, 32, farmer in Big Valley community 10 miles south of Goldthwaite, was instantly killed when struck by lightning while at work in a pecan orchard at 3 p.m. Monday. The bolt entered the upper part of his body and was grounded through his legs which were badly burned. His dog was killed by his side, apparently by the same bolt. He is survived by his widow and two small sons, Herman R., Jr., and Billy Harrell.

Mr. Anderson was born and reared near Brownwood. He was a grandson of the late W. C. Anderson, pioneer resident of Brown county.

Funeral services were held in Austin Avenue Church of Christ Wednesday afternoon at 3:30 followed by burial in Slate cemetery with the Rev. Mr. Hoover officiating.

HONORING MRS. KEEL

Mrs. Etta Keel writes from Austin that she enjoyed a reunion with all her boys at home. Mrs. Keel has been a wonderful mother and deserves great praise for she was left alone with five little boys to rear, and their conduct and positions now show what a mother's love and inspiration can do for children. Now by hard work and many sacrifices she has five fine, stalwart sons, well educated and hard working men, occupying important positions. All honor to Mrs. Keel.

Present at the family reunion are: Aubrey E. Keel of New York City, Robert Keel of Sioux Falls, S. D., Guthrie Keel of Hobbs, N. M., and Loyd Keel of Denison, John Lewis Keel of Austin.

Pecan Meet at Brownwood on September 10

The summer meeting of the West Texas Pecan Growers association will be held in Brownwood on Friday, Sept. 10, according to a recent announcement by W. S. Price, Jr., president. The principal business at the meeting will be discussion of pecan marketing problems, prospective prices, and probable production this year. However, a large part of the morning will be devoted to the inspection of the two federal pecan experimental stations located in Brownwood. The committee in charge feels this will give a good opportunity to the high school agricultural students and 4-H boys to become acquainted with progressive pecan culture and extends to them a special invitation to attend.

At noon a barbecue lunch will be served to all the visitors at the pavilion in Izaak Walton Park at Lake Brownwood. In the afternoon several papers of interest to pecan growers will be presented.

Chauffeur Exams To Start October 1

Due to lack of man power, actual examination of applicants for operator's and chauffeur's licenses will be delayed until after the first of October, it was announced in Austin by Col. H. H. Carmichael, director of the Department of Public Safety.

Under the provisions of the amended driver's license law, all applicants for such licenses must be given an examination by the department.

"However," Col. Carmichael stated, "the department will be unable to make these examinations, estimated at more than a quarter of a million annually, until additional personnel is secured from graduates of the highway patrol training school now in progress at Camp Mabry."

The administrative set-up for the examination of applicants and the issuance of licenses has been completed by the department, Col. Carmichael said, and has been given the approval of the Public Safety Commission. Under the approved plan, the driver's license division of the department, headed by Ralph L. Buell, will be assisted by assigned personnel of the Texas highway patrol in maintaining a regular examination schedule which will reach every county seat in the state at least once a week.

Permanent offices, open every day in the week except Sunday, will be maintained in the larger cities of the state, including those at which highway patrol headquarters are located. At these points examinations will be given on demand either by patrolmen or examiners of the driver's license division.

County seat cities in which regular offices are not located, will be furnished with examiners at regular stated intervals, according to Buell, who stated

TEXAN WANTS HENS TO COLOR EASTER EGGS

Next Easter the kiddies may have something entirely different in Easter eggs. And they may be obtained simply by having Mother call the grocer and request the desired color and shade. Also, she may have them delivered in cellophane through the efforts of the hen alone.

Henry Tarvin of McKinney has been experimenting with color in eggs. He believes that by feeding hens a diet, concentrate in certain minerals, different colors of egg yolks may be produced. And he has had success in producing yolks ranging from the natural yellow to a Nile green.

At Eagle Lake, Ciy Marshall R. A. Walker has a hen whose eggs are produced cellophane-wrapped. The eggs are of usual size, covered with a loose, transparent, flexible coating, the hen's idea of modernity in a cellophane age.—State Observer.

A Child's Right-- A HOME

The influence of children has much to do with home-building. They receive the best guiding influences of their lives, only in a real home—one you build and own.

"They grow up quickly; soon comes a morning when they first trudge off to school. From that day they change rapidly. Every year you notice it, and then comes the day when John or Mary with a cheery, 'We'll be home for Christmas, sure,' waves a stout farewell."

You choke back your feelings, and reconcile yourself for their loss by the knowledge that they have had the right home influences to guide them, and a real home awaits their return.

We will welcome an opportunity to show you plans and costs of charming homes, to which "John or Mary" will be glad to return.

STAR

This cloudy, cool Monday afternoon, with a breath of rain in the air, is indeed a treat after the famishing days that have just passed. A few flowers in our yards that have survived the summer heat will flourish in the cool autumn days. And keeping pace with the seasons things are moving rapidly in anticipation of the fall harvest, the opening of school, and winter weather. It's rather early to think of icy blasts, but one extreme follows another, so we may as well clean out the flues, heap up the wood, and chink all the dry weather cracks in the walls.

Supt. J. S. Armstrong, Hardy Collier, J. J. Witty and Mr. and Mrs. Robert Moore left Friday of last week for Union City, Ind., to receive the two new buses purchased for our school. They will necessarily return slowly which will delay the opening of school for a few days. Notwithstanding everybody is looking forward to a splendid school.

Prof. Geeslin has been busy the past few weeks training the 38 new band members. The band of last year lost several through graduation, but with the new recruits, it will have some 60 odd pieces. Everyone is proud of the band and we congratulate Mr. Geeslin in his success.

Star isn't exactly "settin' still." Mr. Graham Wall has recently transformed the garage on his lot into a nifty two-room cottage. L. J. Teague is adding another room and a bath to his house. Howard Petree's residence is going up rapidly and Christian Goode is making an addition to his home. T. L. Adams is making new improvements at the gin, and installing new and modern machinery. He will have one of the best equipped Gins in this section.

Mrs. Hurst is visiting relatives in Hico. She was accompanied by a daughter and two grand-children.

Jeff Boykin of Littlefield is visiting his parents, Mr. and Mrs. Bob Boykin and other relatives.

Mr. and Mrs. Rex Clifton and daughter, Rexine, went to Santa Anna Sunday to see Randolph Garrett, whom they report doing nicely.

During the past few weeks Star has been "all lit up" for softball. Folks living near-abouts don't have to go to bed so early, for under those radiant reflectors it's plenty light enough to do gardening, pulling weeds, maybe until near the beginning of another day. Of course, it's optional. But I don't choose. The ladies play too, but I have not been lucky enough to see them yet, but from all I can hear Miss Artie Rickel is one of Star's star softball players.

Needless to say that every lady on the diamond is in the lime-light. But—may I offer a suggestion? Why not have a crier? Doll up some one with a good resonant voice in red jacket, yellow pantaloons, red cap with yellow plume, and with a megaphone have him call out the score after each inning. It would add a bit of color, or interest, and satisfaction for everybody wants to know how the game is going. It isn't any fun to drive away and not even know which side won.

I think it is nice for neighbors, friends, fathers, mothers, youngsters, etc., to meet out in the open air these hot nights to visit and play. I don't know who is the instigator of all this but it was a happy thought.

Mrs. B. P. Goode and boys, Robert and Donald, are spending the week with Dr. and Mrs. J. E. Brooking of Goldthwaite.

Mrs. Virtus Armstrong who is visiting in the Armstrong home, left Monday to take her little daughter, Gene, to the Santa Anna hospital. She was accompanied by Mrs. J. S. Armstrong.

Miss Mary Soules left today for Doole, where she will teach school again another year.

Mrs. Jim Adams of West College Street, is visiting her son, J. C. Adams, of Comanche whose wife is very sick.

Miss Florence Soules left Monday for Waco where she went to take a beauty course. She was accompanied by her mother, Mrs. Jim Soules, Mrs. Harry Soules, and Mrs. Roy McKinley of Goldthwaite.

The SNAPSHOT GUILD

DO'S AND DON'TS

Give your camera half a chance and you'll get good snapshots.

It's really quite surprising the number of amateurs who go merrily along snapping pictures without giving any thought as to why their snapshots appear somewhat smudgy or cloudy.

If your snapshots can be classed with the above the chances are the trouble can be attributed to your own neglect and not to faulty construction of the camera.

A dirty lens, for example, will cause smudgy prints. A lens is the eye of your camera. Can you see clearly if your glasses are smudged by finger prints?

Cleaning a lens is a very simple operation. All you need is a soft, un-starched linen handkerchief and perhaps a match or pencil, if the lens is quite small. The rear surface of the lens can easily be reached by removing the back of the camera.

If the camera has a double lens (one behind and one in front of the shutter diaphragm), the front combination may be removed by turning to the left, which will allow you to work through the shutter opening when set for "time," with the handkerchief over the end of the match or lead pencil. If the lens is quite dirty breathe on it and then rub quickly with the handkerchief. Be sure, when replacing the front lens, to screw it back into the shutter as far as it will go.

The suggestion to work through the shutter opening also applies to cleaning the front surface of single lenses fitted to box cameras and certain folding models. Work carefully and don't exert too much pressure.

It isn't necessary and might scratch the surface.

Taking it for granted that you have a clean lens and that your camera is in good mechanical condition let's discuss some "do's" and "don't's."

With the familiar box type camera it is so easy unknowingly to have your finger extend slightly—or more so—over the lens. The result is obvious. You will have an unattractive black smudge over part of your picture. So keep your fingers away from the front of the lens.

Another error is a double exposure caused by failing to turn the film roll to the next number after snapping a picture. If you fail to turn it you may find, when your prints are returned, that quite miraculously grandma is sitting in her favorite chair out in the middle of a lake.

When using a focusing type camera be sure to set the lens at the correct distance mark, for if you don't the chances are that your picture will be out of focus and blurred.

Here's another one. Unless you have an extremely fast lens and shutter don't try to take roadside snaps of fast-moving subjects. Moving objects can, however, be caught, even with an ordinary camera, if taken from an angle of about 45 degrees and not too close up.

Amateur snapshotting is really anything but difficult and it is quite safe to say that the majority of picture failures are the result of carelessness or lack of thought on the part of the snapshotter.

Less Monthly Discomfort

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

Cardui, praised by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.

Health Notes

Austin.—In speaking of health racketeers, Dr. Geo. W. Cox state health officer, said, "There is no meaner method of hitting below the belt than by holding out false promises to incurables. This fact, however, does not in the least deter the unscrupulous who thus heartlessly prey upon thousands of unfortunates who are in a hopeless stage of illness. Thousands of dollars are extracted annually from individuals whose conditions direct their hopes to the promises made by the super-scientific gentry who claim to have beaten the untiring researchers of endowed laboratories to cures for cancer, diabetes, tuberculosis, epilepsy, pellagra, and other serious conditions.

"Unfortunately, it is words rather than deeds that create the miracle. A miracle which, instead of being related to a cure, is entirely associated with the transfer of large sums of money from innocent persons to those who only interest in health and health matters stops at the cash register.

It is the sad and killing fact that in addition to incurables, there are thousands of believing persons who become the victims of this type of racketeer, and thus through self diagnosis and self treatment, postpone a real investigation of their ailments until the incurable stage is reached.

Two main rules should be followed in this connection. The first is to have an annual physical examination by a reputable physician. In this way incipient conditions can be discovered and by proper treatment the disease can frequently be conquered. The second rule is to mistrust all 'high promising' statements of 'amazing discoveries.'

POULTRY AND EGGS

Austin.—Shipments of poultry and eggs from Texas to interstate points during July, although approaching their seasonal low, were well above those of the corresponding month of last year, the University of Texas Bureau of Business Research announced.

Poultry shipments totaled 45 cars in July this year, as compared with 32 cars a year ago, a gain of over 40 per cent; and egg shipments for the two comparable months were 40 cars and 31 cars respectively, an increase of nearly 30 per cent. Only two cars of eggs were

 long to the CIO, regardless of what we may think of that organization.

In my opinion it is just as important to protect people from outrages of this kind as to prevent the taking of property from the rightful owners by the sit down strike or other unlawful method. Because I didn't want to see the thing get started in Texas again I immediately sent 25 members of the state police to Dallas with instructions to protect men in their right to speak freely and to assemble lawfully. These officers are instructed not to take sides in any controversy but simply to prevent violence on either side.

I was surprised to get a bunch of inspired telegrams apparently approving the treatment given these organizers because, the telegrams said, they were members of the CIO. I don't care to what organization they belong. If they violate any law they ought to be prosecuted for it; but no set of men has the right to take the law into their own hands and kidnap, or beat, or tar and feather, these men. I think the people of Texas are backing me up in this stand.

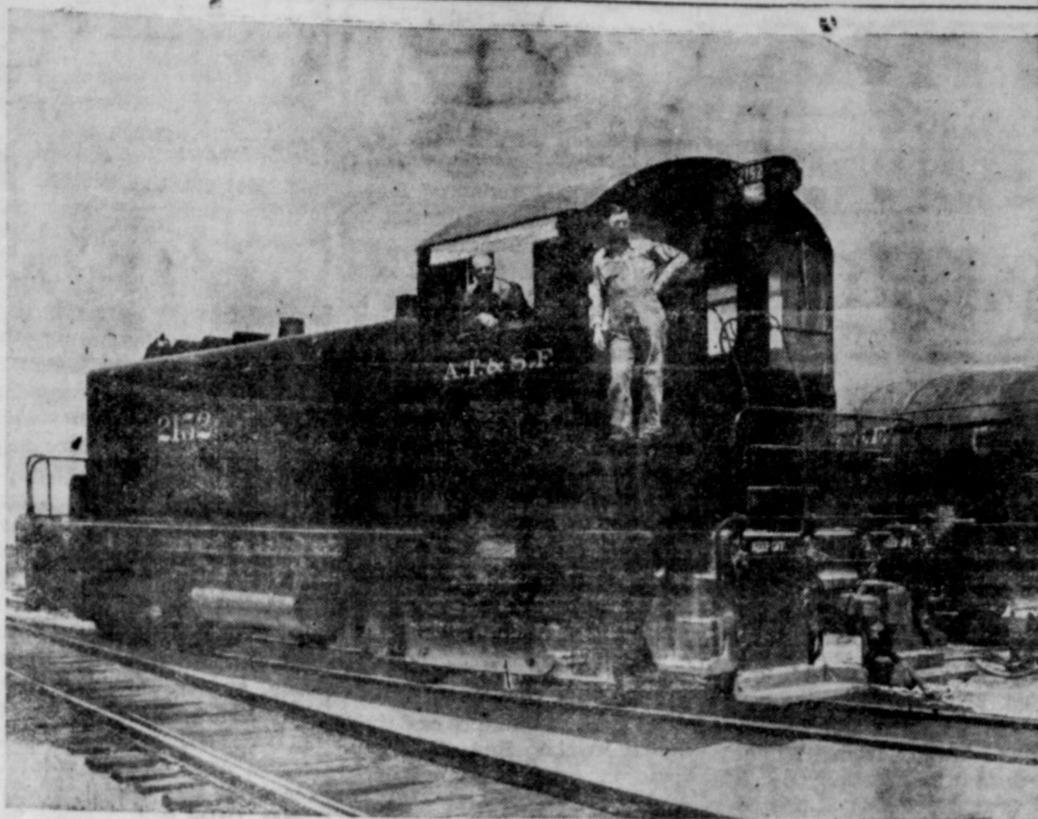

Since the state police went to Dallas these troubles have practically ceased. I am very hopeful that the situation will adjust itself without any further trouble.

I really wish the general public could know in detail the many fine things that have been accomplished by the Public Safety Department. I am particularly proud of the intelligence branch. In this division we have fingerprint, handwriting and ballistic experts. This has been a great help to local officers everywhere and, of course, has materially assisted the state in dealing with the more hardened type of criminal.

Just as illustrative of what has been done in the one field of ballistic work: As perhaps most of you know, men from this department can take a bullet that has been fired and trace it to the gun that fired it by markings on the bullet. They have done this in many instances and solved cases that might otherwise have gone down as "perfect" crimes.

For instance, recently in one Texas town a man was murdered at night as he slept. He was not robbed and officers were at a loss for a motive. They did, however, find shotgun shells of a certain type. They picked up every gun of this caliber in the little town and fired some test shells from them and sent these test shells together with the ones found on the ground in to Austin. The fired shells from each gun had been numbered and the experts in the Public

SINGING NOTICE

The Mills County Singing Convention will convene Sunday, Sept 5, for an all day singing in the Grammar school auditorium here. This is a convention for the people of Mills county and should be patronized by all.

There will be singing by local talent and class singing by some of the classes of other communities which cannot be excelled by classes anywhere.

We will have singers from every county adjoining Mills, as well as excellent singers from other localities, including Bill Jones' Quartet from Dublin.

Everybody come and bring your dinner baskets.—L. B. Porter.

Safety Department shortly advised that the shell with a certain number on it was from the same gun as that which fired the shells found at the scene of the crime. It was no trouble to trace the ownership of this shotgun and its use to a negro in the community who promptly confessed the crime. This is just one of a number of similar cases that illustrate how quickly the department can assist your local officers.

Some time ago I had occasion to use the handwriting experts. The state of Illinois had asked for extradition papers on a prominent citizen of this state on a charge of forgery alleged to have been committed in Illinois. The notary public who took the acknowledgement in Illinois identified this citizen and in an affidavit asserted that he had seen him sign the instrument in question. While I was hearing the case I had the handwriting expert from the Public Safety Department to go over the alleged forged deed and compare it with samples of the defendants handwriting; and before I could close the hearing these experts reported to me that without any question the defendant had not forged the deed.

AMERICAN BOY INTRODUCES A NEW FOOTBALL GAME

In the early issues of THE AMERICAN BOY there'll be presented the story of a new game—six-man football—fast as professional football, wide open as basketball, thrilling as hockey!

The game came to life through the need of small schools for some substitute for 11-man football, which was too expensive. Stephen Epler, a Nebraska graduate student in athletics, developed the game of six-man football to meet this need. In six-man football anybody can score, the possibility of injury from mass plays is minimized, and the game is open enough for spectators to follow every exciting development.

The new game is a hit. New schools are taking it up every day. In coming issues THE AMERICAN BOY tells the world about this practical new game. In addition, it presents the American Boy Official Handbook, which can be obtained from the magazine at 20 cents a copy, or 15 cents when bought in bulk.

NOTE: Subscription prices of THE AMERICAN BOY will be raised in the near future. Send your subscription order at once to take advantage of the bargain rates now in effect; one year at \$1.00 or three years at \$2.00. Foreign subscriptions 50c a year extra. Send your name, address and remittance to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Mich. On newsstands the price is 15c a copy.

CONFIDENCE

In 1933 America was paralyzed by fear—much of our trouble during the depression was because business had the nightmare—was afraid of the dark.

As the country emerges from its jitters, people have gradually grown bolder again until there are already indications of speculation running riot.

Many gambling schemes are being overworked as over-confidence takes the place of fear in the nation's money marts.

Human nature runs pretty well true to form and before many years shall have passed the same people who needed a shot in the arm in '33 to bring them back to life will need a padded cell to subdue their mad ness.

I hereby resolve to spend a little less than I earn, saving some of it for the evil day—I shall not go goofy with the crowd again!

COMMUNITY LETTERS

ROCK SPRINGS

As I start my letter tonight our hearts are sad to hear of our neighbor, Herman Anderson, being killed by lightning Monday afternoon in Big Valley. He was working for Will Dennard. We extend sympathy to his wife and two boys in the loss of her husband and their father. May God's richest blessings rest on each of you in your sorrow.

There were 12 at Sunday school Sunday morning.

Seems like the rain just passes us by. We have missed several good chances, maybe our time will come yet.

The baptizing at the Lake was a pretty sight Sunday afternoon. So nice Goldthwaite and Big Valley could baptize together.

I have been asked if Prof. Horace Cooke had resigned at Star. Well, he hasn't. Of course Star couldn't get along without him. Elmer McKnight and family, Mrs. Juanita Pike, Miss Selva Lou Medcalf from Bangs and Joe Davis and family spent Sunday in the J. F. Davis home.

Mrs. E. L. Pass from town spent Thursday in the John Roberts home.

James Nickols and wife and Shirley Nickols and Mrs. E. L. Pass spent Sunday in the Nickols home.

Ray Stark and Mrs. Arthur Smith took their father to Santa Anna Monday to see Dr. Sealy. Judson Strickland and son Charles, from California visited

with John Roberts and wife last Thursday.

Julius Kauhs helped Oscar Gatlin to gather corn this week.

Mrs. A. R. Kauhs and son, and Nellie Dee Cooke spent the day with Mrs. Eula Nickols Monday.

Jack Robertson and wife of South Bennett spent Sunday with his parents.

Joe Davis and wife visited in the Stark home Sunday night.

Mrs. J. T. Robertson made a call in the Nickols home Monday afternoon, while her husband went to town for their son, Walter, who is helping his father gather corn this week.

L. W. Boyds had company most all last week.

Julius Kauhs is selling nice tomatoes and black eyed peas to Long & Berry this week.

Mrs. Eula Nickols visited all of her sons and their wives in town while attending church.

Horace Cooke was called to Star Monday to help the coach.

J. O. McClary happened to bad luck last week while in town. He backed into a swell car. No one was hurt, just Mr. McClary's pocketbook was dented.

Rudolph Cooke and wife and Miss Nellie Dee dined with A. D. Kirk and wife Sunday at Ratler.

We were glad to see Will Kelso from Ridge on the streets Saturday. We hope he will be able to begin his job Sept. 6 as bus driver in town.

Those who have radios listened to the fight Monday night. The announcer said it would be

a clean fight. I wouldn't think it could be very clean with a Negro in the ring. Of course the Negro won.

Miss Nealie Moore from Brownwood is visiting her sister, Mrs. E. D. Robertson, and other relatives this week.

Rudolph Cook helped Phillip Nickols to do some fencing on Monday and Tuesday.

R. E. Collier and wife spent Sunday afternoon with Claud Collier and family.

Mrs. John Roberts was a dinner guest in the McClary home Sunday.

Bedford Renfro and family are living on the Weatherby farm.

Mrs. Eula Nickols and Philip visited Thursday afternoon in the J. F. Davis home.

Wick Webb from Williams Ranch took his brother and wife to Lower Big Valley Sunday for the day to attend church.

Phillip Nickols visited Sunday afternoon with Mr. Guynes at Rabbit Ridge.

Mrs. Marvin Spinks and daughter from Rabbit Ridge and Nellie Dee Cooke visited Wednesday afternoon in the Stark home.

J. F. Davis and son bought goats from W. A. Daniel this week.

J. O. McClary and wife ate dinner with their son, Hardy McClary, and wife in town Thursday.

Phillip Nickols is helping Landy Ellis to gather corn this week.

Christine Traylor spent most of last week with her grandparents, Mr. and Mrs. Robertson. Busy Bee.

CENTER POINT

There were 35 present at Sunday school Sunday morning. We re-organized and the following officers were elected: C. O. Stark, superintendent; R. A. Martin, assistant superintendent; E. F. Cunningham, secretary; R. A. Martin, adult teacher; Mrs. C. C. Wesson, senior teacher; Mrs. C. L. Halford, junior teacher; Mrs. C. O. Stark, primary teacher.

Mr. and Mrs. Loyd Allen from Houston spent last week end with her parents, Mr. and Mrs. J. D. Fallon and family.

Misses Arlie Taylor and Ovella Wesson called on Miss Merlene Wesson Saturday night.

Mr. and Mrs. Will Moreland of Pleasant Grove spent one day last week in the L. W. French home. In the afternoon they called in the Tom Perry home.

Mrs. Amos Shelton and baby visited in the Ray Hammond home in South Bennett last week.

Garl Perry and family, who have been near Georgetown picking cotton, came home last week end.

J. C. Wesson spent Saturday night with Oran Stark.

Miss Merlen Stark and Elmo Fallon accompanied Mr. and Mrs. Loyd Allen to Brady Saturday afternoon.

Mrs. Craig Wesson had as visitors last week her sister, Mrs. Aubrey French and daughter of near Mullin.

Mrs. Milton Collier and little daughter and Mrs. Cecil Lawson called in the C. O. Stark home Saturday night.

Miss Arlie Taylor spent Saturday night with Miss Ovella Wesson.

Miss Loraine Callaway visited Saturday night and Sunday with Miss Mildred Tyson.

Mrs. Deward Morris, nee Miss Etche Hill, was given a lovely bridal shower at the home of Miss Mildred Tyson last Friday. She received many nice gifts and everyone wished for her and her husband a long and happy married life.

Mrs. Craig Wesson and Mrs. Aubrey French called on Mrs. J. S. Wesson in town Saturday afternoon.

Mr. and Mrs. John Higgins visited her parents last week end.

Mrs. Julia Taylor and son, Joe, spent Saturday night with Mrs. Kate Shelton.

Some from this community attended the baptizing at the Lake Sunday.

Mr. and Mrs. Craig Wesson and children, also Mrs. Aubrey French and daughter, accompanied some of their friends from Duren and Goldthwaite to the Bayou Thursday night and Friday. They reported all the fish they could eat.

Mr. and Mrs. Sam Self have moved from the B. F. Mahan place to the Newman farm recently vacated by R. A. Martin and wife. Mr. and Mrs. Martin have moved back to their farm.

Amos Shelton and family spent Saturday with Mrs. Kate Shelton.

Miss Ovella Wesson called on Miss Arlie Taylor Thursday afternoon.

Sam Self called on Otis Hutchings Wednesday morning.

Mr. and Mrs. E. F. Cunningham and children had as visitor last week their nephew.

Mr. and Mrs. Gene Shelton and baby, Mrs. Kate Shelton and Dee Hammond visited Sunday in the Ray Hammond home in South Bennett.

Gene Shelton and Craig Wesson played dominoes in the Amos Shelton home Saturday night.

Everyone remember to be at Sunday school Sunday morning at 10:30.—Sunflower.

BIG VALLEY

The Baptist revival closed Sunday night. There were six additions by baptism and two by letter. One other convert, who did not join the church. Five of the candidates for baptism were baptised at Lake Merritt Sunday afternoon, another, joining Sunday night, will be baptised in the near future.

Death entered once more into our midst and took little John Wesley Limbaugh, 5 year old son of Mr. and Mrs. A. R. Kimbaugh. The entire community deeply sympathizes with the family in their loss.

Mr. and Mrs. Clyde Adair and daughters from Dallas spent a few days visiting his sister, Mrs. W. H. Nelson, and family.

Mr. and Mrs. Clarence Duey and son, Mr. and Mrs. Howard Duey, and N. A. Duey visited their sister and daughter, Miss Lorain Duey, in Dalas Sunday.

Onea Jean Mitchel spent the week end with Beryl Oglesby.

Mrs. Daisy Sellers spent Sunday with her mother, Mrs. Bledsoe.

The annual Weaver family reunion was held Sunday at the Weaver place. I didn't get a total of the number present, but I would estimate the crowd at about a hundred.

A real nice rain fell here on Monday afternoon. It was greatly appreciated but we would like to see more.

Mr. and Mrs. C. W. Lawson and children dined in the F. O. Sykes home Sunday.

Miss Neely Moore of Brownwood was a dinner guest in the Charley Miller home Sunday.

Bro. B. F. Renfro and two sons from town were visitors in the community Sunday.

Mrs. M. D. Long and son, Ray, of Midland and Mr. and Mrs. Walter Chambers of Forson returned to their homes Monday

A SENSIBLE VETO

President Roosevelt displayed his usual courage and gratifying common sense when he vetoed the appropriation which Congress had voted for federal participation in Oklahoma's memorial to the late Will Rogers.

Such a memorial is so out of keeping with the great humorist's own philosophy of economy and proportion, the passage of the bill has raised serious doubts as to whether the legislators who voted for it were familiar with his daily writings.

Certain it is that if Will Rogers himself could return in the flesh, the first thing he would do would be to grasp the President's hand and say:

"Thanks, pardner, for helping me out of a tight spot. Shucks, I didn't want those folks in Congress to vote all that money just to honor me. To tell the truth, I don't think I need any memorial to make folks think about me, and I sure don't want any taxpayers' money for a monument. What you did in vetoing it was a plumb nice thing, and I thank you for acting sensible like."

THE GIRLS CAN HELP

"Two young men and a girl, aged 17 to 19, were killed instantly late last night returning from a dance when their car crashed into a tree at a high rate of speed. The fourth member of the party is in a critical condition in a local hospital."

This news item, differing only in minor details, has appeared a thousand times, and in papers in every state of the union. It reflects one of the most tragic phases of the automobile accident problem—the reckless drivers in their early teens and early twenties. Out for a good time, they careen about the highways and by-ways—and at regular intervals death follows in their tracks. Immature minds regard it as an act of enviable bravado to "see what the old bus will do." In many cases the cars they drive should have been sent to the junk pile long ago—brakes are gone, lights are bad, steering mechanisms are faulty, and tires are down to the fabric, ready for blowouts.

The larger part of the blame for accidents that kill and maim young people must be put squarely on the shoulders of their parents. The fathers and mothers who permit their children to endanger their lives with reckless driving, or are too lazy to find out the true state of affairs, are to put it kindly, derelict in duty. Even worse are the parents who, when their children are arrested for dangerous driving practices, move heaven and earth to have them freed without punishment—thus, in effect, telling them to go out and do it again.

But youth itself, in the form of the young girls who go riding with their boy friends, can be of the greatest assistance in reducing this toll by bestowing a bit of praise and showing admiration for the safe driver and simply refusing to ride with the reckless one—make safe driving the price of a date and watch said boy friend slow down.

CHANGES IN THE CCC

It is encouraging to learn that recent changes in the regulations of the Civilian Conservation Corps do not require recruits to be taken from the relief rolls. Practically any young man between 17 and 23 years of age who is out of work will be eligible for enrollment in October. Greatly improved educational advantages will also be offered to enrollees at that time.

Other regulations which require all enrollees to retire who have reached their twenty-third birthdays or who have served as much as 18 months in the CCC will open the door for rapid promotion of many capable young men. Practically all of the better paid positions in the camps are now filled by enrollees who have been in the service for 18 months or longer. As they withdraw, their places must be filled with younger men. New men who have a high school education or better will stand an excellent opportunity of securing a leader's job at \$45, a month or an assistant leader's rating at \$36.

The meaning of these changes is clear. The CCC is no longer primarily a relief institution. Already in the industrial states it is becoming difficult to fill the quotas with eligible boys. But the work the CCC has been doing is generally recognized as work that should be continued. It is also realized that the boys who go thru a term of enrollment are usually benefitted physically and find it easier to secure regular employment upon their discharge. Consequently the Corps is to be continued, possibly permanently, as a great organization with the primary purpose of conserving the natural resources of the nation and at the same time provide thousands of young men with practical training that will help them find a profitable place in life.

It is encouraging to find that the nation has progressed past the stage where relief for unemployed youths was the first con-

The WEEKLY CONSTITUTIONAL by MAX BERNS

The Judicial Power

What is meant by the judicial power?

This is the power which our Constitution vests in the Supreme Court and other Federal courts to construe or interpret laws.

The Supreme Court, like a jury, merely passes upon cases submitted to it. And the judges, like jurors, are supposed to be impartial. Before being accepted for service, every prospective juror is asked whether he has any prejudice for or against the plaintiff or defendant and whether he will construe the law as written whether he likes it or not. He is not there to write, rewrite or repeal statutes or condemn or praise them but merely to decide controversies submitted in accordance with the law.

So also with the Supreme Court. It hears and acts upon no more than the case immediately before it as brought into Court by some litigant.

If two laws conflict, a citizen cannot obey both of them simultaneously because in obeying one, he disobeys the other. Or, if enforcement of a statute causes a citizen to sacrifice rights guaranteed him by the

Constitution—by the Supreme Law—he seeks relief by going to Court. The Court hears the arguments of both sides, and if constitutionality of the statute is challenged, it decides whether the statute conforms to or conflicts with the Supreme Law—with the Constitution.

Congress and Congress alone may write or rewrite laws or repeal them. All the Supreme Court does is to construe these laws and the Supreme Law—the Constitution.

Q. Where did Gov. Alford's ancestors settle in Texas?

A. Gov. Alford's grandparents came to Texas nearly a century ago and lived in what is known as "Cherry Mound" community in Grayson county.

Q. Why did Santa Anna and his men go to New Washington just before the Battle of San Jacinto?

A. Two reasons have been given: one that his army was much in need of Texas supplies stored there which he secured for the relief of his half-starved men; the other that he thought Houston's forces were in retreat to safety beyond the Sabine and he (Santa Anna) hoped to negotiate with the owner of a coasting vessel for his return to Mexico via Vera Cruz. When he reached there he learned that the vessel had that day been captured by a Texas war schooner, so he turned inland to avoid a sea attack and to assemble the scattered Mexican army.

Q. Where is Padre Island and to whom does it belong?

A. It is a narrow sand-formed strip of land 120 miles long along the Texas coast between Corpus Christi and Brownsville. Private parties claim ownership under a Spanish grant confirmed by the Texas legislature in 1852 to "eleven and one-half leagues called Padre Island," but the island now contains nearly three times that amount of land.

EDITORIAL COMMENT

VIEWS OF THE NATION'S PRESS ON TOPICS OF INTEREST AND IMP

HOUSING AND WAGES

Those who are thinking about the question of wage differentials, which has been very much to the fore in connection with the wages-and-hour bill and which will come up again when that measure is taken up in January, might find it profitable to weigh some of the points about differentials in housing costs emphasized during the debates on the new housing bill.

The members of the New York delegation in both house and senate have, in connection with the housing bill, been pounding home the argument that it costs more in New York and perhaps in many other urban centers to build good houses than it does in some other parts of the country. They have insisted that it requires at least \$1600 a room to provide adequately built homes for New York families. Probably they exaggerate, but even so the point is probably well taken that housing costs are higher in New York than in many smaller communities.

If this be true, it follows that rentals for most homes in New York and other urban communities, say in the mill centers of the South. It ought not perhaps to cost \$1600 a room to build modern tenements in New York but the housing developments under the public works administration at New York have run to this figure. The PWA has, however, built houses in Atlanta for about \$1,150 a room. On this basis there is a differential of about \$450 a room, or \$1,800 for a four-room apartment, between the two cities. And if smaller Southern cities be taken into account, it might be found that a differential of almost \$3,000 exists in favor of the Southern communities.

Now a difference of \$3,000 in housing costs means a difference of about \$300 a year in rentals. This, on a 10 per cent rental basis, which is as conservative as anyone could ask. But a difference of approximately \$1 a working day or \$6 a week. And to translate this into terms of wages instead of rentals, it may be said that on the assumption that housing costs vary as indicated above, a Southern worker could receive \$6 weekly less than workers in New York and still get the same wages, as measured in what his money wages would buy. And there are other items, such as fuel, which need to be considered in this connection, and which might widen the divergence between the costs of living in the various sections.

These differences in rentals and fuel costs and other items in the cost of living will need to be taken carefully into account in connection with any and all proposals affecting minimum wages and maximum working hours. To disregard such matters would be to disregard the question of real wages, which form the proper measure of welfare.—Baltimore Sun.

SANTA ANNA COULDN'T LAUGH

Several folks got a big kick out of reading in the San Antonio Express about Atascosa county forgetting to print ballots for the election Monday and had to rush over to Bexar county to borrow ballots for the voters. Now our commissioners didn't forget to order ballots printed—our voters forgot or neglected to use them, so ours could have been given to Atascosa county and never been missed apparently, judging from the number of votes cast.

There is no use crying over spilled milk and with the election all over, there is no use saying what voters should have done. However, just as a reminder for the next election, we will repeat that in practically every election which the city, county or state or nation holds, there is something in the election which is of vital interest to the taxpayer and voter whether he shows interest or not. More often than not, elections deal with the spending of YOUR MONEY. You would very seriously object if your next door neighbor came to your house and told you how to spend your money and more than likely he would leave with his ears burning and he ought to. Then why do you let folks put that same gag over by neglecting to vote at election time. You let your neighbor vote and tell the government not only how his money will be spent and who shall spend it, but he told them how to spend yours also because you will pay government taxes whether you vote or not and you will be under someone's authority whether you vote or not.

You aren't going to let someone else tell you how to spend your money. No, sir. That's what you think. You are doing it every time you fall to vote and we'll venture to say that many of the complainers on how the government spends its money will be among those that didn't voice an opinion at election time.—Santa Anna News.

PRESIDIO HEARS TALK ON DEVELOPMENT

Presidio, one of the oldest towns in Texas, is letting the public know that it is a vegetable market of some standing. Presidio was laid out 300 years ago. The Orient railroad of Mexico operates from Chihuahua, Mex., to Ojinaga, the latter being across the Rio Grande from Presidio. An international bridge connects Presidio and Ojinaga. Crops adapted to the Presidio area are cotton, alfalfa, corn and various kinds of winter vegetables. Cotton has made yields higher than a bale to the acre.

Presidio has a population of 1500. Reports are that a tract of 700 acres adjoining Presidio known by some as the Sparks ranch, by others as the Fairfield tract, is about to be opened for development in small acreages. The land is deep silt and it is highly productive. Water from the Rio Grande is available on a 14-foot pump life, and is distributed over the tract by gravity flow for irrigation, with drainage.—The Earth.

D., 1937, the same being the 27th day of September A. D., 1937, then and there to answer a Petition filed in said Court on the 10th day of August A. D., 1937, in a suit numbered on the Docket of said Court Number 2527, wherein C. A. King is Plaintiff and Henry Mundell, Mrs. Florence E. McCall and husband, M. D. McCall, D. J. Phillips and wife, Mrs. D. J. Phillips, Mrs. F. E. Prince and husband, A. A. Prince, and the unknown heirs, legal representatives and devisees of each and all of the above named persons, all alleged to be deceased, are defendants; said petition alleging substantially as follows:

This suit is brought as well to try title as for damages. Plaintiff alleging that heretofore, to-wit: on the 1st day of July A. D. 1937, he was legally seized and possessed of the following described land and premises, lying and being situated in Mills County, Texas, holding and claiming the same in fee simple, to-wit:

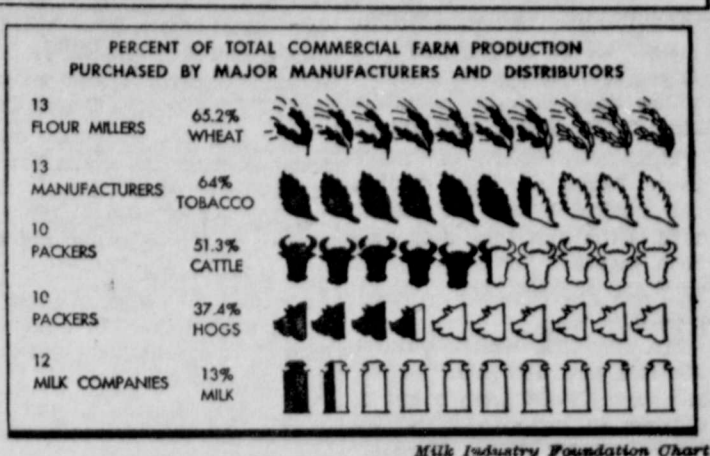

The Henry Mundell survey number 22 on the waters of Pecan Bayou, a tributary of the Colorado River, about ten miles N 65 West from Goldthwaite, by virtue of Headright Certificate No. 235 issued to said Mundell by the Board of Land Commissioners for Texas County, December 28th, 1846.

Thence N 45 E 728 vrs to a stake; Thence N 45 W 728 vrs to a stake; Thence S 45 W 728 vrs to the place of beginning. Bearings marked H, and containing 94 acres of land.

That on the day and year last aforesaid, the defendants entered upon the said premises and ejected the Plaintiff therefrom, and unlawfully withheld from him the possession thereof to

WHO BUYS FARM PRODUCTS?

Milk Industry Foundation Chart

A recent study of agricultural income by the Federal Trade Commission revealed many interesting facts relating to the handling of many leading farm products.

While figures for big income-producing farm products indicate that large marketing concerns buy more than 50 per cent of the U. S. production, total milk purchased by a dozen large dairy firms is only about 10 per cent of the country's annual 47 billion quart "crop."

Contrary to the usual impression, purchases of farm products are probably less concentrated than the average person would expect. Ten leading meat packing companies sold only the equivalent of 70.3 per cent of the beef, 35.1 per cent of the fresh pork and 54 per cent of the cured and processed pork products. In the case of veal, however, purchases of these concerns totaled 98.5 per cent, the federal figures showed. Two of the largest packing companies' beef

sales were but 47 per cent of the total. Purchases of 10 leading packers for a year equalled 51.3 per cent of the total production of cattle and calves, and 37.4 per cent of the hogs. The three largest companies purchased 40.8 per cent of the beef and 25.3 per cent of the hogs.

Thirteen millers bought only 65.2 per cent of the commercial wheat flour crop, while 13 tobacco manufacturers bought the equivalent of 64 per cent of the nation's tobacco crop, selling 97 per cent of the cigarettes and 90 per cent of the smoking tobacco. With milk the so-called big companies are but a minor factor as 12 major concerns purchased only about 10 per cent of the total milk production in 1934 and about 11 per cent of the commercial milk. Eleven leading companies marketed 18 per cent of the fluid milk and cream sold in cities and villages and about 25 per cent of the butter.

his damage in the sum of Two Thousand Dollars. Plaintiff further alleges title to the said land under and by virtue of the statute of five and ten years limitation, as is more fully set out in Plaintiff's Petition on file herein, and the nature of the defendants title or claim to the said land is unknown to him.

Plaintiff prays Judgement for the title and possession of the said land, and that he be quieted in his title thereto, and that the cloud cast upon the title of the Plaintiff to the said land by the claim of the defendants be removed and held for naught and for such other and further relief to which he may be entitled in law or equity.

Herein Fail Not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness B. J. Keese, Clerk of the District Court of Mills County, Texas. Given under my hand and the seal of said Court, at office in Goldthwaite, Texas, this the 10th day of August A. D., 1937.

HOW LONG CAN A THREE-QUARTER WIFE HOLD HER HUSBAND?

YOU have to work at marriage to make a success of it. Men may be selfish, un sympathetic, but that's the way they're made and you might as well realize it. When your back aches and your nerves scream, don't take it out on your husband. He can't possibly know how you feel. For generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for "middle age." 3. Approaching "old age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and go "Smiling Through."

NAME IT

There's a little bird up our way That sings the same from day to day. Just a "Tweet, tweet, tweet." And a "Tweet, tweet, tweet." That's about all he seems to say.

Has a little top-knot and a great long tail, His color is gray, but that dreadful wail: Just a "Tweet, tweet, tweet." And a "Tweet, tweet, tweet." Like a maiden singin' to her mate in jail.
