THE SAN SABA NEWS IS NOW UNDER NEW MANAGEMENT

With this issue of The News is
closed the ownership and man-
agement of the Smith family, the
plant having been purchased by
Mr. M. W. Trussell of Battle
Lake Minn., a former Tennes-
sian, who will take over the man-
agement today.

For exactly 30 years, possibly
this week or next, The News has
not missed an issue on regular
schedule and during this 30
years not single issue has gone to
press without the name Smith at
the masthead. That may sound
a little like tootin'. And if it
does not, then it is not exactly
like it is intended. You can bet
your everlasting dollar that I am
proud of it. The record of The
News is an open book in the lives
and hearts of the people of this
town and county; yea, of this
trade territory, and in the sec-
tion known as the Heart of Tex-
as. For those 30 years, as for the
more than 60 years of its publi-
cation, and as it will continue
until Gabriel blows his horn, The
News has stood four square, in
season and out of season, for the
highest ideals of its people and
for the development and explo-
itation of the undreamed na-
tural resources of San Saba
County.—San Saba News.

The editor of The Goldthwaite
Eagle regrets to learn of Billy
Smith's departure from the
newspaper field. He has been a
splendid newspaper man and he
and his two sons have been
mighty fine newspaper neighbors
to us. Although since his ap-
pointment as postmaster at San
Saba his connection with the
News has been largely advisory,
it still carried the imprint of his
likable personality and public
spiritedness. To his successor we
extend a welcome to Texas and
our congratulations for securing
a mighty good newspaper in a
mighty good section of the state.

GIPSY SMITH REVIVAL

First service for the Gipsy
Smith revival meeting will be
held at Brownwood Sunday after-
noon at 2:30 in Soldiers and
Sailors Memorial Hall. Services
will be held each night during
the revival at 7:30 o'clock. An-
nouncement in regard to the
day services will be made Sun-
day.

-- We Are Thankful --

As this is Thanksgiving week
and the newspapers are stress-
ing the fact by pictures, letters
and splendid editorials, the
Eagle editor takes this opportu-
nity to thank all subscribers
correspondents and other friends
who so loyally and consistently
cooperate with the management
in making it possible to publish
a paper that will interest and

please all of our people, as it
surely must, for so many have
spoken words of encouragement
about our work, compliment-
ing The Eagle for the news and
good editorials. We appreciate
all these.

are new or those who have re-
newed follows:

City Takes Holiday On Thanksgiving

Goldthwaite was pretty much
of a closed town Thursday with
everyone taking off for Thanks-
giving. The recent cold weather
had taxed those who were com-
pelled to get out in it, and they
in particular welcomed the op-
portunity to rest.

Through the cooperation of its
advertisers and contributors, the
Eagle has been able to publish
its regular size paper early
enough to permit the force to
enjoy the holiday.

CHRISTMAS SEAL SALE TO GET UNDERWAY

Dorothy Thompson, political
columnist of the New York Her-
ald Tribune, commenting on the
annual Christmas Seal Sale says:
"What pleases me about the
Christmas Seal idea is its ex-
treme simplicity. Everybody
wants to fight tuberculosis, and
everybody is bound to be inter-
ested—as an egotist and an al-
truist. The Christmas Seal cam-
paign wins support because there
are no solicitors to pester the life
out of one. I like both the cause
and the technique!"

This month people throughout
the United States will have an
opportunity to contribute by
mail to the campaign against
tuberculosis supported by sale
of Christmas Seals. Letters en-
closing consignments of Seals, to
be sent on approval to thousands
of Texans, are now being pre-
pared in the offices of the Texas
Tuberculosis Association and its
affiliated local organizations.
The recipient is privileged either
to mail his contribution in the
return envelope which is enclos-
ed or to return the Seals.

GREETINGS

The Lions Club and other
friends have received greetings
from Kelly Saylor, who is in a
Temple hospital. He states that
he expects to return home this
week end.

REV. LAWRENCE HAYS A BELIEVER IN YOUNG PEOPLE

The Rev. Lawrence Hays, new
pastor of the Park Heights Bap-
tist Church, who with his family
came here a week ago, is not an
adherent to the belief that youth
of today are running berserk
over moral scruples.

"We have the greatest crop
of young people the world has
ever seen," he said. "I have never
subscribed to some teachers'
views that they have gone to the
devil."

"To meet the demand for a
regulating medium in this ac-
celerated world," the Rev. Mr.
Hays said, "I urge youth to put
life under control of moral in-
telligence."

"If the Christians had sown
Japan waist deep with mission-
aries 50 years ago, when she ask-
ed for it, the world might have
averted this pillaging and slaugh-
ter."

"She took our military edu-
cation and the best whatever
else our countries had to offer
except Christianity, and now we
are reaping our reward."

"Life in the raw is not worth
living. It has to be made worth
living. That's why Christ came to
the world 19 centuries ago."

A retired pioneer pastor of
Texas the Rev. L. L. Hays, his
father, is now living on a ranch
near Goldthwaite. The local pas-
tor was born there, where he
lived until he was 18. Mrs. Hays
is a native of Lampasas county.

Oil Well Drilling To Start Again

After being closed down for
more than a week on account of
the rain and inclement weather,
the oil well test on Pecan Bayou
is ready to start again. The
drillers had passed the 1000 foot
level when the drilling stopped.

FOOTBALL GAME IS POSTPONED

The football game between
Star and Goldthwaite that had
been scheduled for Tuesday af-
ternoon of this week was called
off because of snow.

The game was played Thurs-
day afternoon. The score, 14
to 0, in favor of Goldthwaite.

TEXAS TURKEY CROP IS ON THE UPGRADE

The Texas Turkey Crop is on
the upgrade, in 1934 only 42 per
cent of turkeys produced in this
state were grade A or first class.
1935 we stepped up to 53 per
cent in 1936 we made an advance
to 67 per cent.

According to the University
Bureau of Business Research, we
are expected to show a greater
increase in the quality or grade
of Texas turkey crop, while the
yield will be probably two per
cent less. However over eight
million dollars worth of turkeys
have been produced in 1937 and
no stimulant like good prices of-
fered as an incentive to the pro-
ducer.

RED CROSS

The Goldthwaite Public School

MISS VIRGINIA WILLIAMS
AND W. G. YARBOROUGH
MARRIED

One of the most beautiful wed-
dings that ever occurred in Gil-
mer took place at the Methodist
Church Friday evening at six
o'clock when Miss Virginia Wil-
liams became the bride of Mr.
William Glenn Yarborough.

The church decorations were
entirely in bridal white with a
background of greenery. South-
ern Smilax covered a tall trellis
that formed the back of the al-
tar, and this trellis was flanked
on each side by tall graceful
palms.

Just preceding the wedding
ceremony the parents of the
groom, Mr. and Mrs. O. H. Yar-
borough of Goldthwaite were
ushered to their pew. Mrs. Yar-
borough wore a "Mainbocher"
model of black velvet with a
heart shaped yoke of pale blue
opalescent sequins. With this she
wore a small black toque and
black gloves.

Mrs. P. K. Williams, mother of
the bride wore a frock of grape
colored taffeta appliqued with
wine colored velvet. She wore a
wine velvet toque and both ladies
wore corsages of orchids.

At five forty-five, Mr. George
Perfect, of Dallas, took his place
at the organ and played a pre-
lude of wedding music and fa-
vorite old love songs. Mrs. Ray
Locke of Sherman, an aunt of
the bride, sang "O Promise Me"
and "I Love You Truly."

Immediately following the
songs, Mrs. Barnwell played the
opening bars of the Bridal Cho-
rus from Lohengrin, which sig-
naled the entrance of the wed-
ding party, marching down the
center aisle of the church.

The ushers were Mr. J. G. Wil-
liams, brother of the bride, Mr.
Mr. Don Wilcox of Austin and
John Bell of Cuero and Mr. Har-
old Yarborough, brother of the
groom.

Next to enter were the two
bridesmaids, Miss Sarah Jo Wil-
liams, sister of the bride and
Miss Mary Delle Locke of Sher-
man. Both wore gowns of wine
colored satin, made on princess
lines with short tulle veils in
matching color. They carried
arm bouquets of bronze chry-
santhemums tied with gold satin
ribbon.

The Matron of Honor, Mrs. J. T.
Baird, Jr., entered alone gowned
in a princess frock of royal blue
satin with short matching veil
and carrying an arm bouquet of
bronze chrsanthemums. Follow-
ing the Matron of Honor, was the
Maid of Honor, Miss Sarah Lou
Cook, also attired in royal blue
satin, and carrying bronze chry-
santhemums.

Rev. Stewart Clendenin of
Houston and Rev. C. W. Mc-
Phail, Methodist pastor, then
took their places at the altar,
as the groom, and his best man,
Mr. William Woods of Amarillo,
came in by the side aisle of the
church.

Immediately preceding the
bride were two dainty little flow-
er girls, Barbara Ann Nolley, and
Susanne Powers, attired in long
evening dresses of gold satin.

The bride entered on the arm of
her father, Mr. P. K. Williams,
and was a picture of loveliness
in her white slipper satin, de-
signed in chaste and becoming
simplicity with long train. Her
veil was of exquisite Point D.
Venice, flowing gracefully from
a coronet of pearls. The veil and
coronet were of especial signifi-
ficance to the bride, as her
mother purchased the veil in

Twenty-one years ago, back in
1916, according to Bob Johnson,
there was a cold spell in late No-
vember something like this year's.
But for most folks here this has
been a brand-new experience.
Tuesday night was the ninth
consecutive night in which the
mercury tumbled below freezing.

Monday a heavy snow fell all
day covering the ground to a
depth of three inches on the
level and much deeper in drifts.
This also is a new record for No-
vember. Its melting has sent
every drop of moisture into the
soil and gives promise of a fine
season for next year's crops.
Small grain and grass have been
greatly benefited. The ground
did not freeze, so the plentiful
supply of boll weevils remain to
be killed later.

LORENA ANN MOON HAS BIRTHDAY PARTY

Mrs. Lester Moon entertained
Tuesday afternoon with a party
at her home in honor of her
daughter, Lorena Ann, whose
sixth birthday, November 25,
comes on Thanksgiving Day this
year.

Mrs. M. Y. Stokes, Jr., present-
ed the honoree with a beautiful
birthday cake, "built up" in the
form of a snowcovered, brown
house with orange windows and
cobble stone walk. Six tiny mu-
sicians clothed in orange suits
"played" in the snow covered
yard while six white candles gave
them light as they burned in
their "snow hills". Lorena Ann
received many other pretty gifts
also.

Directed games and a picture
show, were enjoyed by the child-
ren. In keeping with the Thanks-
giving season, refreshments of
orange ice cream and snow cov-
ered chocolate cake muffins were
served.

TUESDAY STUDY CLUB

The Tuesday Study Club met
in the home of Mrs. John Berry
for its regular meeting Tuesday,
November 16, 1937.

"You Can't Take It With You,"
an outstanding play of the year,
was reviewed by Mrs. V. C. Brad-

HIGHWAY NOTES

Motorists traveling United States designated highways in Texas no longer will be puzzled by a multitude of highway markers in thickly populated areas, according to instructions just issued by the Texas Highway Commission through Julian Montgomery, State Highway Engineer, ordering state markers taken down on such routes.

"After an exhaustive study of this whole matter of highway markings we have found that by simply using U. S. route markers it is much easier for the traveling public to follow the highways," said Mr. Montgomery. "With the trend toward simplicity and elimination of confusion caused by duplicate markers some thirty-five states using U. S. markers exclusively to the satisfaction of all concerned.

"According to the present marking, many places in the state, and especially the business districts of cities, require so many markers on each post that the traveler is forced to stop traffic while studying these markings, thus creating a safety hazard."

State highway officials state that the original purpose in assigning U. S. route numbers was to simplify the markings of high-

ways enabling the traveling public to follow the route, to, or through, other states.

According to Mr. Montgomery, the elimination of state markers from U. S. routes will result in a considerable saving to the department. He further said that markers would remain in place on state highways which have not been designated as U. S. routes and which do not carry standard U. S. shield markers.

JOLLY CHATTER CLUB

The Jolly Chatter Club met last Thursday afternoon with Mrs. Dewey Gerald. The afternoon was spent in quilting and everyone had a jolly good time.

After refreshments were served to fourteen members and four visitors our president called the house to order and we had a short business session. We planned our Christmas tree and drew names for Christmas. Mrs. House would like to have it announced that she would like a brand new car from the one that drew her name. But if its impossible to get a new car a new buggy whip will do just as well.

Our visitors were Mrs. Jackson, Mrs. Loyd Reynolds and Mrs. Frank Kirby. Mrs. Franklin Denman is our new member. The next meeting will be with Mrs. Jack Kirby.—Reporter.

ART AND CIVIC CLUB ENTERTAINS

Clever and thoughtful indeed, was the plan of Mrs. C. A. Eacott president of the "Art and Civic Club" which was carried out in her home the afternoon of Tuesday, November 18 afforded enjoyment for the members of Study Clubs of Goldthwaite, and to nine ladies who are members of the Study Club of Lometa.

The program was gleaned from the recent meeting of the State Federation of Women's Clubs, which convened in Austin in the beautiful Federation Home. It was attended by the president, Mrs. Eacott and delegate, Mrs. John Schooler.

Mrs. E. E. Cass, president of the Study and Civic Club of Lometa, also attended the convention so Mrs. Eacott invited her and the entire membership of that club.

The ladies from Lometa rendered the major part of the program, and after having heard them speak, it was easy to realize why there could be such a large, wide-awake study club in that town.

The Art and Civic Club considers it a pleasure and a privilege to have had them present.

Mrs. Eacott, in her gracious manner, welcome the guests, and, in introduction, made a few interesting remarks about the convention and gave a poem on Thanksgiving that carried with it the thought that to get the most out of life one must give something away. She then introduced Mrs. J. W. McCann, Jr. of Lometa, stating that she was at one time a citizen of Goldthwaite, Mr. McCann having been a teacher in the high school.

Mrs. McCann expressed the appreciation of the Lometa group for the opportunity of attending the meeting. She then introduced Mrs. Cass, president of the Study and Civic Club. As she had attended the convention in mind, soul, and body, she gave a full report of the convention, naming as the peak, the address, "Leadership for Tomorrow," by Cameron Beck, Personnel Director, New York Stock Exchange.

Mrs. John Schooler, the next speaker, began her remarks where Mrs. Cass left off. She, too, received much inspiration from having attended the convention and told of some of the high points. She stressed, especially, the address on "The Challenge of the New Day," by Mrs. H. C. Houghton, Jr., Iowa State Director to General Federation of Women's Clubs.

Next, Mrs. Eacott presented a very charming little woman who spoke on the Benefits and Ideals of the Federation. She was Mrs. W. E. Cantrell, wife of one of Goldthwaite's former school superintendents, herself a teacher in the primary grades.

The Study and Civic Club honored Mrs. Eacott and guests by their presence and by their part on the program, and Mrs. Eacott, in turn, honored their club of the S. F. W. C. She invited everyone into the dining room to celebrate this anniversary. The table was beautifully laid with linen and silver, with a center piece of roses, and color scheme of pink and green. Silver candelabra bearing pink and green candles graced each end of the table.

Mrs. Cass cut and served the anniversary cake, each piece bearing one green candle in a pink rose holder. Mrs. Jacob Saylor poured coffee from an antique silver coffee service. Other dainties were savory chicken

Bronchial Coughs Need Creomulsion

Just a common cough, a chest cold, or a bronchial irritation of today may lead to serious trouble tomorrow. They may be relieved now with Creomulsion, an emulsified Creosote that is pleasant to take. Creomulsion is a medicinal combination designed to aid nature in soothing and healing irritated mucous membranes by allaying irritation and inflammation and by aiding in loosening and expelling the germ-laden phlegm.

The Medical Profession has for many years recognized the beneficial effect of Beechwood Creosote in the treatment of coughs, chest colds, and bronchial irritations. A special process was worked out by a chemist for blending Creosote with other ingredients and now in Creomulsion you

get a real dose of genuine Beechwood Creosote which is palatable and can even be taken frequently and continuously by both adults and children.

Creomulsion is one preparation that goes to the very seat of the trouble to help loosen and expel the germ-laden phlegm. When coughs, chest colds and bronchial troubles—due to common colds—hang on, get a bottle of Creomulsion from your drug store, use it as directed and if you are not satisfied with the relief obtained, the druggist is authorized to refund every cent of your money. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief that you want. WOMEN WHO HOLD THEIR MEN NEVER LET THEM KNOW

No matter how much your back aches and your nerves scream, your husband, because he is only a man, can never understand why you are so hard to live with one week in every month.

Too often the honeymoon express is wrecked by the nagging tongue of a three-quarter wife. The wise woman never lets her husband know by outward sign that she is a victim of periodic pain.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

The very thought of Thanksgiving Day brings to the mind, visions of gala holidays with friends. Boys and girls home from college; grid classics that draw throngs of pennant waving fans. Festive parties gay with music and laughter; tables heavy laden with turkey and all the trimmings—these are the pictures suggested by Thanksgiving.

The Pilgrim Fathers that held that first well-known Thanksgiving feast would perhaps be gratified to know that their American descendants have kept alive their tradition of having such a feast annually. But they might also be disappointed to know that true thankfulness is not always the motive behind the celebrations.

To them Thanksgiving was a day on which to give special thanks to the Giver of all gifts for His kindness toward them. They had their share of fun and frolic, but even their pleasures were pervaded by a spirit of gratitude for the privilege of enjoying them.

Let us be just a little more old-fashioned. Let us pause a moment in the holiday rush and thank our Heavenly Father for His blessings, perhaps even share them with someone less fortunate. In so doing we can make Thanksgiving mean more to ourselves and to others.

MURDER

The weather was cold, bitter cold. The wind which had fallen well below the zero mark, had a sharp, stinging bite which made it doubly unbearable. But to the young man who crouched in the snow beside the small house, the cold was of secondary importance. In his right hand he held a small, sharp axe with which he would soon be cutting and hacking until the warm body beneath his blows would be still on the blood-stained snow. He bent even lower as footsteps could be heard around the side of the small house. Through the haze of the freshly fallen snow he could see a dim figure approaching. With a wild, exultant shout he leaped forward. He quickly enveloped the head of the figure in the folds of a large sack which he had carried under his coat. With a single whirling motion he swung the axe which flashed red in the obscure light as it struck home with a dull thud. A few convulsive moments and the body was still. Breathing heavily, he muttered under his breath, "at last I've got you! I've been after you for two weeks looking down at the silent figure, he thought to himself, "What a dinner that turkey is going to make."

FRESHMAN REPORT

For us this week has seemed the dullest. There hasn't anything happened except for one great thing to us. Our six weeks tests. They were all considered hard enough I think. The teachers have to come around and pull everyone's ears to make us pay attention to class and not the snow which we are so proud of. I guess we will have to stand it until after classes.

We had a few comments on our program the other morning but mind you there weren't many students out of higher grades that commended us, only teachers.

FLASH! Mr. Peterson is "Tarzan"! of the Freshmen.

PEP SQUAD NOTES

With the Star football game the football season of 1937 for Goldthwaite closed forever. The Llano game was really the last conference game, and it was certainly a grand game, ending a grand football season. As a representative of the pep squad, I believe I can truthfully say that we have not been greatly disappointed in the season as a whole, of course we did not win district championship and we were defeated according to the score, in several games, but it is not always the score that counts. In some games the odds were somewhat against our team they were opposing a stronger team than they; and in those cases no one expected them to make half a dozen touchdowns, only to do their very best.

The pep squad wishes to thank Mr. Smith and others who have made it possible for us to have so much fun on football trips and on picnics. Some of us have seen most of the games; others, only a few of them. We hope that by next season the football field will have been completed, making it possible for more games to be played at home.

The wonderful school spirit of Miss Coleman and some business men of the town is an incentive for the team, the pep squad, and the whole student body to work harder and to make a real showing in the realm of football. Their cooperation with the pep squad in the past season is greatly appreciated. When more citizens of Goldthwaite become interested in football and when the field is completed, Goldthwaite will really "go to town" in football.

With the close of the football season the pep squad will be converted into the Eaglet Club, founded in 1936.

THE SPOTLIGHT

The "Spotlight" shines this week on the girl who likes to be different. Earline Faulkner. She is a tall, slender, brunette, known by all high school students for her originality.

This young lady was born at Caradan on May 21, 1919, and christened Rubyeye Earline. At an early age she moved to Goldthwaite, where she entered school in the first grade. Her entire school career has been spent here, and she expects to graduate from Goldthwaite High School next spring.

Earline has taken an active part in school organizations for the last four years. She has been a member of the Glee Club and Pep Squad since her freshman year. Now, as a senior, she is in both organizations.

Miss Faulkner plans to study mathematics at Abilene Christian College following her graduation from high school. Her friends wish her great success in the pursuit she has chosen.

Less Monthly Discomfort

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

Cardui, praised by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.

AN IDEAL GIRL

An ideal girl would have to have the following:
 1. Helen Reid's figure.
 2. "Cappie" Fairman's musical talent.
 3. Also a little of Jeannette Martin's musical talent.
 4. Jean Goosby's knowledge of physics.
 5. Gladys Kerby's teeth.
 6. Alberta Windham's hair.
 7. Marjeanne Perryman's acrobatic ability.
 8. Oleta Henry's perfection of making speeches in public speaking.
 9. Ila Mae Scribners voice.
 10. Gloria Armstrong's talent for telling stories.
 11. Estelle Miller's knowledge of plane geometry.
 12. Mary June Perryman's artistic ability.
 13. Florence McDermott's tennis ability.
 14. Harriet Allen's dramatic ability.
 If these were all "rolled up" in one, wouldn't this be an ideal girl?

GLEE CLUB

The Glee Club has begun work on a group of Christmas carols that will be presented in the form of a pageant during the Christmas season. The churches have invited the club to render a program as it has in past years. Some of the familiar carols are being studied in two and three part arrangements. A further announcement will be given concerning the date of the performance.

GOLDTHWAITE EAGLES DEFEAT LLANO, 20-6

In the last district game this year, the Goldthwaite Eagles defeated the Llano Yellow Jackets 20 to 6 at Llano Friday afternoon.

After leading 6 to 0 at the half the Eagles opened up with an aerial attack which netted another touchdown when Hill sprinted 37 yards to the goal line. Hill also intercepted a Llano pass and carried the ball 45 yards for a touchdown. Fred

Marshall's gains through the line were another feature of the game.

Goldthwaite made five penetrations to Llano's one and gained 279 yards to the Yellow Jackets' 125.

The Eagles crossed the goal line twice more, but neither score was allowed by the referee.

NEWS NOTES

Garth Carter appeared at school Wednesday morning with a broken nose. The injury was the result of football scrimmage the preceding afternoon.

Another student received an injury at school Friday morning. Isabel Grelle fell on the stairs and sprained her ankle.

Bobby Tillery, formerly a popular sophomore here, is now going to school in Whitney. Letters received by her friends since her departure show that the Goldthwaite High School and students hold a warm spot in her heart.

Catherine Fairman informally entertained a group of friends in her home Thursday night.

Mary Louise McGirk was absent from school Monday the absence being necessitated by a trip to Brownwood to have her eyes treated.

RED CROSS DRIVE

Each class in high school has been asked to join in the Red Cross drive by contributing at least one dollar to the fund. Miss Gatlin, who has charge of the project in the school, reports that each class has paid that amount, and some have exceeded it. The following report was given Monday afternoon.

Senior class, \$1.00; Junior class, \$2.05; Sophomore class \$1.10; Freshman class, \$1.50; Total \$5.65.

The teachers paid \$10.00 membership fees, making a total of \$15.65 in the High School.

Mrs. Claude Saylor had charge of collections in the Grammar School.

that helps save eyes

THE I. E. S. Better Sight Lamp represents the biggest improvement in home lighting since the incandescent bulb. Every lighting feature of it was specified by the Illuminating Engineering Society. It is the first lamp to provide enough light and the right kind of light for safe seeing.

GLASS DIFFUSING BOWL conceals bulb, softens light and prevents glare.

OPENING AT TOP throws some of light to ceiling for general room illumination, reducing harsh contrasts of dark and light.

WIDE SHADE spreads light evenly over broad area.

SPECIAL WHITE SHADE LINING reflects more light than most shades.

You actually get from 3 to 5 times more light from an I.E.S. lamp than from most ordinary lamps, yet the difference in operating cost is only a cent or two an evening. Get an I.E.S. lamp for your home today. Lounge models, \$6.95. Floor lamps, \$9.95 up. Table study lamps, \$4.95.

ROCK SPRINGS

The faithful few went to Sunday School Sunday morning.

Last week the Editor took my write-up about our wedding out of my letter and put it on the front page of the paper. So I was asked why I didn't give them a write-up in my news, so that is how it was. Well Saturday night the bride and groom, Shirley Nickols and wife and Mrs. Homer Doggett, Janece and Estel Doggett from Coleman came down for the bridal shower which was a success. They received many nice gifts which they were very proud of. The two mothers and sisters-in-laws served hot chocolate and cookies. We wish for Shirley and Bernice a long and happy life.

Well I hope everyone who reads this had a good dinner Thanksgiving Day, good health if we don't have lots of wealth. Just one more month and we will see Santa Claus, if we will be good.

Mrs. J. T. Robertson spent Friday with Mrs. Nickols while her husband went to town.

Well, I am so glad I didn't tell a "white fib" about the Roberts car. I really thought for two weeks I had told it wrong but I was right thank goodness!

One Old Enough to Merit Respect

By IRVIN S. COBB

AS I have several times stated in offering a veteran yarn for this symposium—and now repeat—antiquity should be no bar to a story.

At a certain theatrical hotel a vaudeville performer was stopping. He was the owner of a troupe of performing fleas. One evening, at

dinner, he was telling his fellow-lodgers how he went about the job of training his tiny pets. To demonstrate, he cleared a space on the table, took one of his fleas, while he called Henry, an especially intelligent and gifted insect, out of a small box, and proceeded to put the lively little chap through his paces.

"Hop East!" he commanded, and the flea hopped.

"Hop West!" The flea obeyed.

"Forward!" The flea marched.

"Face about!" And the flea whirled into the air to execute the command. But one of the lady boarders, in the intensity of her interest, was bending close and the flea landed in her hair and was instantly lost from view.

Confusion followed. After much searching the lady produced the truant and the performance was resumed.

"Hop East!" the man commanded but the flea refused to move.

"Hop West!" The flea remained stationary. Surprised, the owner leaned over and scrutinized the performer more closely.

Then, sitting up with a start and staring at the lady, he said in a stern, accusing voice:

"Madam, there has been a mistake—this is not my Henry!"

SAFETY EDUCATION

The role of education in the efforts toward solution of the traffic accident problem is ably discussed by Albert W. Whitney, consulting director of the National Conservation Bureau.

Mr. Whitney goes back to the early days of the industrial safety movement for an analogy which is vital to his discussion. He recalls that on the one hand that were those who believed that the only way to make industry safe was through so-called engineering revision, and on the other, those who insisted that the key to the problem was to be found in the education of workers themselves. Today, both ways of attacking the problem are recognized as essential.

We now have a similar situation in the traffic field, Mr. Whitney says. "The state is in the same position as the employer for the state cannot consistently insist on good driving and good pedestrianism unless it is also doing its part in making the physical and mechanical conditions right." He emphasizes that we must not lose time in carrying forward the necessarily long-term engineering projects needed to achieve traffic control and safety. He refers particularly to the enormously expensive job of rebuilding our streets and highways. However, he points out, we must meanwhile be carrying on the necessary work of preparing individuals, ordinary citizens and public servants alike, for proper adjustment to their motor age environment. That means education.

As he says, "The people of the United States must be educated to an understanding of the fact that the traffic accident problem can be solved. We have sufficient proof that solution is possible. If the man in the street can be educated to the belief that we do not have to have traffic accidents, the back of the traffic accident problem will be broken. To do this is educational job number one."

Fear causes people to hide things. Perfect love casts out fear. Ergo: If they hide things from one another, they no longer love.

MAKE THE GOOD ONES BIG

Enlarging enables you to vary your print size. When you get like this, have it enlarged.

SUMMER is about over and by now you should have a drawer full of prints—pictures of week-end outings and the vacation tour, sunsets and maybe seashores, the family's younger generation in sunbaths or bathing suits, capering about the lawn spray or digging furiously in a sandpile; all sorts of pictures rich with memories of a grand season.

The question now is—what are you going to do about them? Let them lie loose in the drawer where nobody will see them? Or, will you fix them up to be seen as pictures should be?

The least you can do is mount them in an album so they won't be lost. And if you have some really good ones, you might try your hand at a "summer book," edited just as the modern picture magazines are.

Have you ever studied these magazines and wondered why their pages are so interesting? Have you wondered why your own snapshots do not have the same snap and flash? It's really very simple—a matter of size as much as anything else. When an art editor gets a picture that is especially good, he trims it down to include just the part he wants. Then he has it enlarged and "splashes" it over a whole magazine page, maybe two pages. Other pic-

tures, not as good, smaller size and the picture carries them also.

WILLIAMS—YARBOROUGH WEDDING—

(Continued from Page 1)

Venice and the coronet in Paris on her recent European trip. The bride's only jewels consisted of a string of pearls. She carried a shower bouquet of white orchid and lilies of the valley with white sweet peas. She was met at the altar by the groom, and Rev. Clendinning assisted by Rev. McPhail, conducted the impressive and beautiful ritual of the Methodist ring ceremony.

During the ceremony, Mrs. Barnwell at the organ, softly played, "The Sweetest Story Ever Told," and immediately after the service the joyous notes of Mendelssohn's Wedding March rang throughout the church.

Following the church service, Mr. and Mrs. Williams held a brief reception at their home on Trinity Street for the members of the wedding party, out of town guests and a few intimate friends.

Immediately after the reception, Mr. and Mrs. Yarborough left by motor for a wedding trip to Monterrey, Mexico. Mrs. Yarborough was attired in a frock of cinnamon brown, with brown squirrel coat and dark green accessories. She wore a corsage of white and lavender orchids.

The groom is the daughter of Mr. and Mrs. P. K. Williams and is one of Gilmer's most popular and attractive young ladies. She is a graduate of Stephens College of Columbia, Mo., and received her B. A. degree at the University of Texas at Austin. At the University she was a member of the Kappa Theta sorority, and was popular and active in the school social life.

The groom is the son of Mr. and Mrs. O. H. Yarborough of Goldthwaite, but now lives in Austin, where he is associated with Messrs. Gaynor Kendall and Homer DeWolfe in the practice of law. He received his law degree at the University of Texas, where he took an active and interested part in social and campus activities. He was a member of the Varsity Cowboys, Lawyers' Review and Pi Kappa Alpha fraternity. At the present time he is a member of the Bar Association of Travis County.

After their return from their wedding trip Mr. and Mrs. Yarborough will be at home at 1804 East Side Ave., Austin, Texas.—Gilmer Mirror.

SAVING THE GAME

Moans and groans over the fact that the buffalo is gone forever from the Texas range are all very well, but forward-thinking people are doing something more than groaning over the gradual demise of other types of Texas wildlife.

The Texas Game, Fish and Oyster Commission, A. & M. College, the American Wildlife Institute, and the United States Biological Survey are now all working together to protect and increase the wildlife resources in Texas.

Methods of such groups include the study of habits and necessities of various birds and animals, a continual restocking of game preserves, and the careful formation of game laws for the mutual benefit of hunter and hunted. These determined workers must have the full support of Texas hunting citizens if this conservation policy is to be effective.

Hunters vs Hunted
Quail meat on the table might well become a delicacy of the golden past were it not for the constant efforts of state game officials to keep such birds evenly distributed over the state.

Last year over 4,375 quail were raised on the game preserves and distributed, 315 wild turkeys and 123 deer. There are 97 state game preserves where this work is carried on, encompassing over 2,699,293 acres.

However on the other side of the fence there are 20,565 hunters on the 1370 shooting preserves over 7500 deer, 16,500 ducks and geese, 5,250 doves and quail and 1,590 turkeys.

THANKS FOR WHAT?

Thanksgiving Day this year finds the world in turmoil. Nation is arming against nation. Unrest and suspicion are present everywhere. Yet here in our United States we have much for which to be truly thankful.

We are thankful that we are not at war. We can lie down in peace to sleep with out the fear of bombs or shells or poison gas. Our boys are not freezing in bloody mud, confused as to what it is all about. The haunting fear of what may happen to us if the next battle is lost does not trouble our minds. We are thankful our great nation is at peace with its neighbors and the world.

We are thankful for the freedom that is ours. Nowhere else may the newspapers report the news as fully and as truthfully as they do here in the United States. Nowhere else in the world is a reader able to gain so accurate a picture of what is happening about him.

Freedom of speech permits us to say what we think about those in authority. There are no gag laws, no prison camps for nonconformists, no secret trials and executions in the cold gray dawn for criticizing what we believe is wrong in any of our governments.

Freedom of worship is taken for granted in every section of our great commonwealth. Churches are present to meet the needs of all. There are no padlocks on the Bibles or on the church doors. There are no government censors to tell our clergy what to preach. Where our consciences rule, our government steps out. We are free to pray and to worship as we please.

We are free of the limitations of space and time and labor as no people have ever been before. Men have mastered machines and made them our untiring slaves. Where our fathers toiled from dark to dark, and often still longer hours, we are enabled to conserve our energy and to guard our time through the facilities of the modern inventions that surround even the humblest of us.

The journey that only a few years ago required a full day to make may now be covered easily and effortlessly in less than half an hour. There is hardly any field of endeavor left untouched by the magic wand of labor and time saving inventions, so that we may, if we will, utilize our time for self-improvement in place of constant drudgery. Life is easier for us. We should be thankful for it.

We are thankful for the blessings of modern medical and surgical care, for the miracles that daily are performed for the healing and helping of mankind, for the alleviation given by anesthetics, and for the prevention of many ills through anti-septics and inoculation.

We are blessed with the marvels of radio and talking pictures and countless other miracles of which our forefathers could not even dream. Education is really free for all who seek it.

We in America have cause to be thankful that the government belongs to us instead of our belonging to the government. We are not regimented like cattle or herded like sheep. We bow neither to an emperor or a dictator.

And most of all we can be thankful that this is still the land of glorious opportunity. Every day we note the success of men and women who have risen from humble homes to positions of importance. We see also that rank and wealth cannot be monopolized by inheritance. The rich man's children must prove their worth or they will soon slip back to the ranks of common folks.

And finally we are thankful that we belong to a race that is not ashamed to express its thankfulness to Almighty God from whom all our blessings have come. For all these and for many more benefits this year we have good cause to be truly thankful.

The WEEKLY CONSTITUTIONAL
by MAX BERNS

Power for Mischief

Have we any protection against the danger of an all-powerful central government?

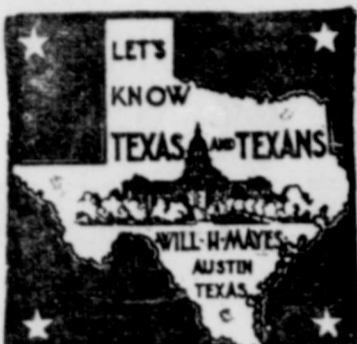

In his inaugural address in 1861, Lincoln said: "By the frame of the government under which we live our Constitution, this same people have wisely given their public servants but little power for mischief; and have, with equal wisdom, provided for the return of that little to their own hands at very short intervals."

Our Constitution divides our government into three independent branches, limits the power of each branch and provides that this power be "returned to the hands of the people" by periodic elections of Congressmen, Senators and the Executive. These stipulations cannot be altered by Congress or the Executive or the Courts, as our Con-

stitution can be amended only by the people.

In these ways, "we the people," in our Constitution, "give public servants but little power for mischief." Copyright 1937 by Max Berns

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the state and its people. Address inquiries to Will H. Mayes, Austin, Texas

Q. Why is the National Park Service so interested in acquiring the Big Bend Park site?

A. Because of the proposed international character of the park on the United States-Mexico border, which invites both cooperation on the part of the two republics and friendly rivalry in beautification of a large area in both countries; because of geologic formations unlike anything else in North America and because of the wide array of plant and animal life, embracing in one location practically all forms to be found from the Canadian Rockies to the Appalachian and desert forms of the Mexican plateaus, all of which invite visitors and especially students of nature's greatest revelations.

Q. How many travel information stations are maintained at or near important gateways to Texas?

A. During the Centennial celebrations 13 such stations were maintained by the Highway Department near the State line at most strategic points for the accommodation of out-of-state tourists, each in charge of a person qualified to give road and other information about Texas. Where conditions seem to justify these will be permanently kept or thru seasons of greatest travel.

Q. What is the total value of all the buildings owned and used by the Texas State Highway Department?

A. The total investment valuation including the State and all divisional buildings is \$1,432,018.-86.

Q. Has the Texas Highway Department experimented with building pedestrian walks along highways?

A. In recent years walks for pedestrians have been built on

many bridges and along highways near schools, and other places of unusual travel. This is likely to be done more generally in future as a precaution against traffic accidents.

Q. Where and what are Hueco Tanks?

A. They are tank-like rock formations in the mountains about 24 miles east of El Paso and 10 miles north of Highway 62 and were an important stopping place on the old Butterfield Stage route from Texas to California. Indian pictographs at the tanks are said to be archeologists to be more than 2,000 years old.

Q. Where are Capote Falls?

A. They are near Marfa in Presidio county, where the stream flows through towering rocky walls, creating a most impressive gorge.

A beautiful book with brilliant cover showing Texas Capitol surmounted by Six Flags, size 9x13 pages, indexed, classified by subjects, with numerous historical pictures ready to be pasted in book.

A POOR WAR FORECAST

The Nipponese penchant for half-truths was aptly illustrated in the warning of one of the Japanese good will envoys to this country that a world war, originating in a Russo-Japanese conflict in the East, will begin within a year if peace is not effected in China.

What impartial foreign observers say is that a war between Japan and Russia is highly improbable as long as the hostilities are continuing in China. They base Japan's unwillingness to take on Russia before ending the war in China on the proposition that it is elementary strategy to finish an opponent before acquiring a second one and on the actual fact that Japan is entirely too greatly drawn out in its present contest to extend its energies to attacking the Russians on another wide front.

As for Russia, these observers say she is content to furnish supplies to China to weaken the opponent of both—Japan. Russia's internal affairs, manifested in its purges, and the probability that Germany would strike from the west, are said to stand in the way of Russia starting a war with Japan at present.

The portion of the truth in the statement of the Japanese good will envoys lay in the assertion a war may develop between their country and Russia. The error was in time, which more likely will be after peace is established in China than before.

THE RED CROSS ROLL

The work of the Red Cross is so well known that no argument needs to be presented in behalf of the organization. It stands out as an institution of mercy, ever ready to lend a helping hand in times of disaster.

Houston and other sections of Texas have received direct benefits from the Red Cross. In the December, 1935, flood those left homeless and destitute by the swirling waters of Buffalo and White Oak bayous received food, clothing, shelter and medical attention from the local Red Cross.

Trained Red Cross workers were among the first on the scene at New London last Spring when some 300 children and teachers of the school were killed in a terrible explosion. And the Red Cross, with doctors, nurses, food and medical supplies, has rushed to sections of the Texas coast swept by hurricanes in recent summers.

In war and in peace the humanitarian work of the Red Cross goes on.

The annual roll call of the Harris County chapter is now under way in the communities of the county outside Houston. The campaign for members will continue until Thanksgiving. The goal is 2000 members at \$1 each, a slight increase over last year. No campaign for members is conducted in Houston, for Houstonians make their contribution to the Red Cross through the Community Chest. Those residents of Harris County outside the jurisdiction of the Chest who have not enrolled in the Red Cross should do so immediately and thereby add their contribution to the humanitarian efforts of this great organization.

HEALTH NOTES

Dr. Geo. W. Cox, State Health Officer, has just issued a warning in regard to scarlet fever, as the number of cases reported in Texas are increasing rapidly. Last year nearly three thousand cases were reported—the majority occurring from November through February.

Scarlet fever is a very contagious and serious disease. Grown people may catch scarlet fever, but children under 15 years are most likely to have it, if exposed. It is especially dangerous for children under five years, and for babies. Do not let your children take any chance with scarlet fever. Call the doctor as soon as the symptoms appear.

If your child is going to have scarlet fever, the first signs you may notice are that he seems tired, restless and out of sorts. Usually, there is a sore throat, chill, vomiting, or convulsion. The child has fever. His skin is dry and hot. His tongue is furred, and, under this white covering, it is red and swollen. In ordinary cases, these early signs are followed in a day or two by a rash. Little flat red points, close together, appear first on the neck and chest. Soon the rash is over most of the body

and brilliant in color. The doctor is required to report the case to health officer. Do you following carefully the instructions which health officer will give you. Who have had scarlet fever, who have been exposed, not return to school until permission is given by the health officer and physician. A fatal case of scarlet fever develop from contact with one who has only a light

LOMETA
Last Friday Highway 74 from Lometa to Lampasas was opened to the public, and boy it really makes the cars laugh. Due to the fact that the new road was soon to be opened, very little repair, ing has been done on the old highway, and it has gotten about as rough as a Spanish pony early on a frosty morning.
Mr. Millican, assistant of District Engineer Ehlinger stationed at Brownwood, was here Wednesday morning, with the necessary papers to be fixed up for the installation of a stop light at the intersection of Main St. and Highway 74, and just as soon as possible the light will be installed.

Mrs. C. W. White, aged 59 years died Saturday night, November 13, at 9:5 o'clock at her home in Lometa, after an illness of several weeks duration.
Last Tuesday a large number of soldiers came through Lometa and camped Tuesday night near the Santa Fe Lake, a few miles north of town. Wednesday several of them came and visited the different classes. They told all about the army life, its advantages and disadvantages. They explained many army terms and expressions, and some of them even passed out blank bullets such as they used in practice. They told of the different places they had been and of the different places they to go from here. In some classes they entered into the discussions, and all in all proved to be a very interesting group.
Mr. and Mrs. Ed Kirby and Mrs. John T. Kirby spent Wednesday in Brownwood.
Miss Beryl Rogers spent the week-end in Goldthwaite with relatives.
Mr. and Mrs. Ben Hurdle spent Sunday at Buchanan Dam.—Reporter.

Mr. and Mrs. Ralph Wilmeth of the Spring Creek school, San Saba County, arrived in time for Sunday School Sunday morning. They were accompanied by Mrs. Wilmeth's mother, Mrs. H. G. Duckworth, of Mason, who is spending the week with them while Mr. Duckworth is off to Arizona on a deer hunt.
Grandma Egger is not so well again, and was in bed Saturday and Sunday. Grandma Wilmeth and her daughters, Mrs. E. O. Dwyer and Mrs. J. R. Briley, visited her Sunday afternoon. Others present were Mr. and Mrs. P. R. Reid, Mr. and Mrs. Wood Roberts, Mr. and Mrs. Jess Egger and Mrs. M. L. White. Her daughter, Mrs. Wood Roberts and her daughters-in-law, Mrs. Jess Egger and Mrs. Henry Egger, are taking it time about staying with her while she is so poorly, but Tom Riggs is with them all the time to do the work and wait on Grandma and aunt T. The women say he really does the job well.
Aunt T is looking forward to her 90th birthday in January, but she seems well and hearty and her many flowers in the yard are well cared for.

Mrs. W. H. Reeves reports that her sister, Miss Sybil Guthrie, who has been in a hospital at Three Rivers because of severe injuries received in a car wreck near there several weeks ago, is some better. Last week members of her family were hastily summoned to her bedside to find her condition very grave indeed. She has been moved to a hospital at San Antonio, and her present improvement makes us hope that she is now on the road to recovery.

In spite of the rain and muddy roads, several attended the bridal shower given for Mrs. John Holder at the home of Mrs. Lula Kelly Tuesday. Present, besides Mrs. Holder, were Mrs. Lula Kelly, Mrs. Frank Crowder, Mrs. Ira Rattliff, Mrs. Ross White, Mrs. Wood Roberts, Mrs. Jim Wilmeth, Mrs. Earl Day, Mrs. John Briley, Mrs. Reese Reid, Miss Dolly Reynolds, Miss Maurine White, and Mrs. Lucille Calk and children, Winifred and Carlton, of Burkett, sister of the bride groom. Cocoa, coffee and two kinds of cake were served. The bride was very charming in her dark blue dress and her radiant, happy face. She was very gracious in her acknowledgement of appreciation of the many gifts bestowed upon her.
Mrs. Nellie Malone and Ernest were guests for a birthday dinner honoring Mr. Thompson and Mildred at the Thompson home Sunday.
Thomas Smith and J. C. Crowder left early in the week for West Texas with another load of pecans. Mrs. Crowder went along to visit her children at Monahans and El Paso.
Mrs. J. R. Briley, Miss Grace Briley, and Miss Bernice Wilmeth attended the homecoming at Daniel Baker College Saturday, and enjoyed every bit of it from the magnificent breakfast on the roof garden of Hotel Brownwood throughout the impressive chapel service at Coggin Memorial Hall to the delightful tea at Mrs. Taber's in the afternoon and the game at night.
Mrs. Minerva Price Owen, mother of E. O. Dwyer, died at her home at Ralls Friday November 5, and was buried Saturday in the Ralls Cemetery.
She was born in Missouri, December 1851. Her first marriage was to a Mr. Robertson. Left a widow early in life, she came to Texas with her father, John Price, in 1874 and settled in

EBONY
Brownwood. After her marriage to M. Dwyer, the family lived for many years on a farm at Indian Creek near the Posy farm. A widow again late in life, she married I. N. Owen, who brought her a bride to his home in Ebony. After several years residence here, they bought a home near Zephyr where they lived until Mr. Owen's death several years ago. She then bought her home at Ralls where her son, Lon Robertson, lived with her until her death.

Of untiring energy, Mrs. Owen was a veritable Martha, looking well to the ways of her household in her widowhood she worked hard to support her small children. No body could make a better or keep a cleaner house than she. She was a queen of fine hand work. Her children possess one or more fine counterpanes woven by her hands. In her latter years, she turned to fancy work. The things she made were beautiful and exquisitely done.

She is survived by three sons, Lon Robertson of Ralls, John Dwyer of Chickasha, Oklahoma, and E. O. Dwyer of Ebony; two brothers, John Price of Colorado and D. C. Price of Brownwood; a sister, Mrs. Duck Elm of Comanche; and eight grandchildren.

Next week is Thanksgiving week. Don't forget the cemetery working Thanksgiving Day. Bring lunch and tools to work with.

W. W. QUEEN DEAD
W. W. Queen died in Arlington Tuesday night, at the home of his daughter, Mrs. Daisy Melton. He was buried in Goldthwaite Wednesday afternoon from the Methodist Church.

Mr. Queen lived here many years and he was 94 years old. His daughter, Mrs. Ben Geeslin and two children, Miss Frances and Dale of Edinburg, arrived Wednesday morning to attend the funeral.

WILLIAMS RANCH

Hoss thieves, cow thieves, hog thieves galore
Two good saloons and a grocery store,
Little wood school house on the hill
A blacksmith shop, an old stone mill.

Regular dances at the Hutch Hotel
Hosses hitched near the old town well
So's to be handy any hour of the night
In case of a knock down drag out fight.

Cap and balls worn on every occasion
Rifles on the saddles—extra persuasion.
Mobs a slippin' up and down ravines
No tellin' when you'd hear carbines.

Pair of Niggers hangin' to a tree
No body knows—so why worry.
Preacher disappeared one night 'bout two
Nobody cares—nothin' to do.

One old boy, when he cum to town
A boozin', bluffin' an' bellerin' around—
I'll tell you the truth. It ain't no joke.
They laid him out with a wagon spoke.

Cow herds a goin' up the trail
Cow boys a hollerin' and twistin' their tail
Dogies a bringin' up the rear
Coyotes a howlin'—filled 'em with fear.

Nearly forgot Old Injun' Jim
Ev'ry kid in town was'fraid of him—
When he started in to paint the town red
Kiddies ran home—crawled under the bed.

Everything was lovely til the railroad came
An' ruined a good town—What a shame!
Them's my memories of Williams Ranch
Scene of my birthplace on Herd Pen Branch—

WILL WALTON DEAD

Goldthwaite people were shocked Tuesday to learn of the sudden death of Will Walton of Lubbock Monday evening. He had been a prominent citizen here 20 years ago. Although he had been gone some time he was still well remembered. From Goldthwaite he moved to Lampasas and from there to Lubbock where he was in business at the time of his death.

Mr. Walton had moved to Goldthwaite when he was quite a young man and here he met and married Miss Aurie Little, daughter of Mr. and Mrs. L. H. Little. He was quite prominent in business circles being connected with Littles dry goods store for a number of years. In 1914 they moved to Lometa where he opened a dry goods store which he sold in 1922 when they moved to Lampasas where he joined Lewis Little in the Ford Motor Co. This partnership continued until the death of Lewis Little. The Walton family then moved to Lubbock where they established Walton's Man's Shop, a men's furnishing store. This business he was conducting at the time of his sudden death on Monday night at 8 o'clock in a hospital in Lubbock, where he had been taken only that morning. He had recently had the flu, but was apparently recovering, but a sudden heart attack caused his death.

He is survived by his wife and two sons Newton and George Edwin all of Lubbock and one sister, Mrs. B. A. Cordell of San Antonio.

The body was brought here Tuesday to the home of Mrs. L. H. Little and funeral services were conducted by Rev. F. J. Brucks assisted by Rev. F. E. Swanner at the Methodist Church Tuesday afternoon at 4 o'clock. Burial was in Odd Fellows Cemetery beside a little son, Will B. who preceded him in death a number of years ago.

A large concourse of friends from Lubbock, Lometa and Lampasas attended the funeral services.

NOTICE—Eris A. Ritchie, representative of the Troup Nursery Company, will be in Goldthwaite Friday afternoon and all day Saturday, Nov. 26, and 27, with a load of fruit trees and rose bushes. Popular varieties, priced right. We guarantee everything we sell to live. Plan now to beautify your place with roses, and increase the value of your property by planting an orchard.

MORE CARS, MORE NEED FOR SAFE DRIVING

The return of better times brings with it a more acute traffic problem. The increase in the national income is accompanied by more spending for automobiles and for gasoline with which to run both and new cars.

Automobile registrations this year will show an increase of approximately 2,000,000 cars in this country, according to American Petroleum Industries Committee figures.

Bringing it down to our own locality, Harris County's share of the increased registrations should be in the neighborhood of 5000. Even in a city as large as Houston, the addition of several 1,000 cars to its already crowded streets changes the entire picture.

Not only has increased prosperity brought about a large increase in the number of cars on the highway. It has caused more driving, so that the number of cars on the highway. HETAOLET cars actually on the highways is much greater than during the depression than is indicated by the registrations.

This increase in the number of cars on the roads undoubtedly has much to do with the continued rise of traffic accidents and injuries.

With more and more cars on the highways every year, it is up to the motorists to see that sane driving lessens the traffic hazards.—Houston Chronicle.

Hint to the statesmen of democratic lands: A soft backbone doesn't turn away wrath.

YOUR ACCIDENT BILL

Accidents account for about 30 per cent of America's total motoring costs!

This is the estimate of National Safety Council statisticians. They figure that the expense of an average 100-mile driving trip is \$2.60, divided as follows: Gas, \$1.50, oil, 20 cents; tires, 19c; accidents, 71 cents.

The direct cost of last year's accidents, according to the same authorities, was \$1,640,000,000. That is enough money to build or pave 550,000 miles of road, at a cost of \$3,000 a mile—or to buy 1,640,000 automobiles worth \$1,000 each.

It is statistically impossible to accurately determine the indirect costs of automobile accident. But all experts agree that they are substantially greater than even the vast direct costs.

Here is a gigantic, totally unnecessary drain on the nation's economic resources. And, had as that it is, it is nothing compared to the human waste that the reckless and incompetent driver causes. In 1936, traffic accidents killed almost 38,000 human beings. They injured 1,300,000 more of whom a large number will eventually die as a result of the accidents. Blasted careers, parentless children, ruined homes—these are but three of the consequences of a heavy foot on the throttle, a drunk at the wheel, an incompetent in control of a lethal machine weighing thousands of pounds.

We are now entering the winter season, in which the accident rate has always risen in the past. The most dangerous driving days are just ahead, with rain, ice, snow and early darkness to add to the always-present hazards. Yet it is within our power to revoke precedent, and make winter a safe season. All that is needed is the co-operation of each motorist and pedestrian. Do your part!

PRESERVE THE FALL BEAUTY

Sounding the tocsin, "Preserve the autumn beauty of our highways and roadside parks!" the State Highway Department, through Jack L. Gubbels, landscape architect, today announced a vigorous two-month campaign against the wanton picking of berries, flowers and colored leaves from shrubs and trees along the roadsides of Texas.

"With the nip of fall in the air, many of our berries, particularly the beauty berry, familiarly known as the "French Mulberry," and even some of the edible berries, already are turning red," he said. Together with the fast-coloring leaves, these are among the principal items of beautification on our highways at this time of the year.

"We earnestly hope the children, especially in our rural com-
