Methodist Visitor Returns Home

Little Betty Catherine Boger who has been the guest of Rev. and Mrs. Fred J. Brucks and Nettie Ruth for the past two weeks returned to the Methodist home at Waco Friday. While Betty Catherine was here she celebrated her ninth birthday and was given a party in the basement of the Methodist Church. Over thirty-six guests attended and wished her many more happy birthdays.

She was also entertained during her stay with a party at Lake Merritt by the members of the Missionary Society of the Methodist Church. Betty Catherine is the ward of Circle 2 of the Methodist Missionary Society here and they gave her this vacation.

School Notes

Looking forward toward a highly successful year and with the added advantage of a new athletic field, the following football schedule has been announced this week by Supt. A. H. Smith of Goldthwaite Schools.

September 16, Hamilton; September 23, Lometa; September 30, San Saba; October 7, Mason; October 14, open; October 21, Lampasas; October 28, open; November 4, open; November 11, Richland Springs; November 18, Llano. No further games are scheduled.

School opens September 5. It is hoped that all pupils will be ready to enroll the first day. Indications are that we will have the largest enrollment in the history of the school. This means some of the classes will be crowded and some classes may fill up to the extent that it will be impossible to admit more students to them. Those who enroll early will have a decided advantage in such cases.

The Goldthwaite Schools will open this year with twenty five units of affiliation. This is the highest number of affiliated credits the school has ever offered. An additional half unit will be offered in the Home Economics this year. Also a half unit in band will be added. Probably one or two more half unit courses may be introduced.

All who were in any way connected with Tag Day last Saturday are grateful for the response the movement met with. A total of \$67.15 was received, which amount will be applied to the purchase of band uniforms.

Entertained with Supper

On Friday evening at 6:00, Mr. and Mrs. C. H. Black entertained with a supper honoring their aunt, Mrs. John Luckhart of Kingston, Ohio. Mrs. Luckhart is a sister of the late Chance Black of Scallorn. This is her first visit here in 17 years.

Those present were: Mrs. John Luckhart, Mr. and Mrs. Wayne Luckhart and two sons and Miss Jane Tunnyhill, all of Ohio; Mr. and Mrs. S. M. Black, Harley Hanes Black, Norma Black, Mr. and Mrs. Burman Black and son, Mr. and Mrs. C. C. Wright and children, all of Brownwood, Texas; Mr. and Mrs. Earl Blake, Zephyr; Mr. and Mrs. Bates Friend and two sons of Trent, Texas; Mrs. W. R. Davis and son of Temple; Mr. and Mrs. W. O. Holland, Mrs. E. A. Tyson, Mr. and Mrs. L. R. McLean and Charlie of Goldthwaite; and Mrs. Ora Black and son of Scallorn.

No Wheat Insurance Applications After August 31

Midnight, August 31, is the deadline. At that hour will close, for this season, the opportunity to obtain the new, all-risk insurance on wheat to be harvested in 1939.

Because seeding (especially in localities which use wheat partly for winter pasture) will be starting soon and the policies of this new insurance become effective as soon as the seed is in the ground, this limit seemed necessary to give the service office at Kansas City time to send out the premium notices, get back the payments and put out the policies before seeding begins. Accordingly, August 31 was fixed as the last day on which County Crop Insurance Supervisors may receive these applications. The announcement was made August 9, by the Federal Crop Insurance Corporation, which administers this service.

J. H. Burnett, the Crop Insurance Supervisor for our county, in giving the foregoing information to this paper, tells us that County Agent's office will receive applications until August 31st as above stated.

Former Mills County Man Here on Visit

Charles Edward Bull, formerly of Mills County, and now of Cal., has been spending the week in town visiting with old acquaintances and friends. Mr. Bull's strong facial resemblance to Abraham Lincoln has won for him several roles in movies in which he has taken the part of the great war president.

At the World's Fair held in Chicago in 1933 he was asked to impersonate Lincoln in connection with the Fort at old Dearborn.

Lest We Forget

On Friday, August 26 (today), we shall meet at Mohler Cemetery, on Bull's Creek, to pay homage and respect to the memory of our dear ones who sleep there in that hallowed ground.

The plan is to meet there early Friday morning—not later than 8:00 a. m. if possible. Every worker will bring appropriate tools, with which to labor. The prime purpose, of course, being to clear the premises of weeds, etc., and to make such repairs to the fence as may be necessary. It is suggested that all parties bring water, as well as food and that everyone bring flowers. Let's take with us some old time song books—songs familiar to us all. We hope someone will be there who can lead us in singing a few numbers. We shall expect no sermons, however, we shall greatly appreciate the presence of someone who will offer a brief prayer.

This is to be no "long-faced" occasion. Of course, we shall commune in the spirit with our dear dead ones, and tread reverently thereabouts, but, when our labors of love are finished we shall picnic—as only Texans can. I know our dear departed ones would wish us to do so. Evidence the following: Captain Mohler said: "I never was a 'poke.' When you take me, make your horses trot, and after that go to the old Mohler Spring and have a big drink of that good water." My own brother, Ben Bull, said: "When you come to my grave to bring flowers, bring along things to eat; picnic and visit with me."

In closing, I ask you to please come. We shall call the roll. Please be there to answer to your name.

Very respectfully yours,
CHAS. EDW. BULL

Warning

Those people who have been making a practice of dumping trash, dead animals and rubbish on public highways and right-of-ways, are asked to stop it or they will be prosecuted to the full extent of the law, as it is against the law to do such things.

Political Speakers Hold Rallies Here

The past week has been one of unusually brisk activity in the ranks of prospective candidates for state and district offices. Realizing that Saturday will be the deciding day, they have made "hay while the sun shone" and while there was yet time to gain votes.

Penrose B. Metcalfe was thru Goldthwaite early in the week talking to friends and acquaintances and forwarding his candidacy for senator from this district. Tuesday night, Mr. Binion spoke for him also.

After band practice Tuesday night Tolbert Patterson, who seeks re-election for representative, addressed the crowd who was gathered at the square to hear him.

Ross Prescott, opposing Mr. Metcalfe, will speak to a crowd this afternoon on the court house lawn and present his arguments for the advancement of his candidacy.

WASHINGTON. — The Rural Electrification Administration has announced allotments totaling \$753,200 to five Texas projects for rural power line construction.

Long & Berry Now Cash-Carry

After conducting for many years one of the largest credit and city delivery grocery businesses in this section, Curtis Long and Lee Berry are announcing elsewhere in this issue of The Eagle that beginning tomorrow they will change to an exclusive cash and carry business. The new policy will enable them to price their merchandise at even lower prices than formerly, they state, and is in keeping with the general trend of the times. It is believed their move will be heartily applauded by their many friends and customers.

Tag Day Nets \$67.15

The Goldthwaite band's tag day, Saturday, was a pronounced success. Workers, who divided into two groups and canvassed the town, netted \$67.15.

The proceeds on the sale of the tags will go to the local band and will be used to apply on uniforms for the members of the school band.

Old Landmark Has Been Razed

An old landmark, the blacksmith shop, just east of the court house square was torn down last week. The building was one of the earliest in Goldthwaite, and had a most interesting history.

About thirty years ago it was sold by Luther Manning, who now lives in Gatesville, to Chas. Rudd. Mr. Manning had used it as a smithy. In 1913 it was being rented by Kerby and Glover who continued the blacksmith work there. Once it was used as a livery stable in the days before automobiles.

Monday, August 15, Mrs. Rudd, recent owner, sold the building as scrap lumber to Fred Sullivan, but retained the lot. Mr. Sullivan started demolishing it Friday, completing the job Saturday.

Tuesday Night Band Practice

The regular weekly band practice was held at the band stand Tuesday night with D. W. Diserens conducting. A large crowd was present to listen to the members of the band rehearse. Mr. Diserens will make his last visit for the summer with the band next Wednesday night. He has done a creditable job during the summer in organizing this band and the town regrets to see his trips discontinued.

Sunday School Picnic

The Junior League and Mrs. Brucks' Sunday school class were entertained with a picnic Tuesday afternoon at the Fletcher farm.

After various games were played, a delicious picnic supper was served to those present. The supper consisted of sandwiches, pickles, potato chips, fruit, cookies, punch and popcorn.

Hungary Joins Nazis

Budapest, Aug. 26.—From aboard a luxurious yacht in the Kiel Canal, Reichsfuehrer Adolf Hitler Tuesday virtually exploded the Little Entente by bringing Hungary into the Nazi camp of nations.

He persuaded Admiral Nicholas Horthy, regent of Hungary, to reject a non-aggression pact with Czechoslovakia and at the same time had the satisfaction of seeing Hungary obtain from the Little Entente conference at Bled, Jugoslavia, the right to rearm without concessions.

NOT PINK BOLL WORM SAYS COUNTY AGENT

Boll worms are doing extensive damage to cotton in Mills county. This pest appears to a greater or less extent every year, but usually works in the tips of corn ears. This worm is found in various colors from pink to green.

The following letter from R. R. Reppert, Extension Entomologist College Station satisfy farmers that no pink boll worm has been found in this section says Mr. Reppert:

"Many farmers are mistaking this large boll worm for pink boll worms and are so reporting it to College Station. The pink boll worm never reaches a length greater than 5-8 inch and a diameter of more than the lead of an ordinary pencil. The larger boll worm varies in color, some individuals being pinkish and this has led many farmers to believe that they have a pink boll worm infestation. The fact that the pink boll does not grow to a larger size than that indicated above, should enable farmers and others to make this distinction between the two species."

The screenline equipment which includes parcel post windows, general delivery windows, letter drops, slots, etc., are expected to arrive in a few days. They are being shipped here by boat from the factory in Pennsylvania. Several hundred new post office boxes will also arrive in the near future.

Installation of the equipment will require about a week according to post office authorities.

W. H. Laughlin Secures Fine Goats

W. H. Laughlin, prominent rancher of the Moline community, was through town Saturday on a return trip from Junction where he had attended a big auction sale of fine goats. Mr. Laughlin brought back two choice Angoras, a 2-year-old buck for which he paid \$350.00 and a yearling which was sold for \$125.00.

Mr. Laughlin stated that it was his hope that more ranchers in this section of the state would begin the breeding of finer goats and sheep. He confidently believes that there are profits in goat raising.

HEYER'S PRICKLY HEAT POWDER

Less Monthly Discomfort

Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

Cardui, praised by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.

To shine upon some fairer shore And bright in Heaven's jeweled crown,

They shine forever more."

REPORT ON THE SOUTH

A loyal Southerner finds himself confused after reading a summary of the recent report of the National Economic Council on the condition of the Southern States. One is torn between the desire to explain the sorry findings of the committee and to exclaim, "I told you so."

The facts presented by the council are incontrovertible, but their interpretation admits of wide divergence. The Southerner presents an average being taken of the economic status of Blacks and Whites alike. In rich New York, the economic status of Negroes living there is far below that of their white neighbors, but there are not enough Blacks in the North to lower the average of the Whites to any considerable extent. This fact is of particular importance in discussing the comparative facilities of North and South.

For the Council to indict high tariffs for much of the poverty and suffering of the South is to cite a fact only too well-known and long-proclaimed. But to hope that by giving it general recognition will be to secure a remedy is most too optimistic.

The plain facts are that the South has never recovered from the domination of the Northern carpetbagger. Even today far too much of the meager profits of Southern industry and trade are piped to Wall Street. Just as long as Southern producers must sell at low world prices and buy at high-tariff, protected prices, just so long will it be impossible for the region as a whole to prosper.

Now that the skeleton is out of the closet, now that the shameful truth of our relative poverty and instability has been revealed, the pertinent question is "What will be done about it?" And echo answers, "What?"

COOPERATION FOR RETALIATION

John W. Hanes, member of the SEC, recently said: "I believe that the time has come for businessmen to cease harping on the theme that the government is the enemy of business. And it shall be my everlasting endeavor to persuade government officials from uttering publicly or privately the thought that business is the enemy of government."

Business men certainly don't want to feel that government is their enemy. This breach between government and business has been largely created by politicians who, in recent years, have harassed the many for the shortcomings of the few, in business.

It is politicians who have passed legislation hamstringing and punishing business. It is politicians who have saddled business with a tax burden that makes operations next to profitless in many instances. It is politicians who have forced government into direct competition with business in certain fields, using to the full its advantages of tax-freedom, and unlimited public credit. It is politicians who have pilloried business men, and held them up to scorn and ridicule. It is politicians who have been undermining confidence in our American system of government and fomenting class hatred between labor and capital.

It is not business' duty to make "peace" with government. Government exists to serve business and individuals. Government is a means to an end, not an end in itself. Government lives financially off the fruits of business. Government's true purpose is to act as an umpire, not a player, in the commercial affairs of the people. Government should punish the guilty—and cooperate with the innocent. And that is exactly what the politicians have prevented government from doing.

Government will find practically all business ready to work in amicable accord with it when the politicians pursue policies of cooperation instead of retaliation.

FIRE TAKES 7,500 LIVES

This year, if past precedent holds, some 1,500 people will be cremated in burning buildings. Six thousand more will die as the result of burns and scalds.

When an airplane crashes and a dozen people burn to death, the news makes international headlines and the world is horrified. Yet the public at large, is callous to the fact that our annual total of deaths from fires is greater than the toll would be from 600 airplanes carrying to flaming doom 12 persons each.

Practically everyone of those thousands of fire deaths could be easily prevented. Due to the carelessness of adults, children are among the principal sufferers. Unprotected stoves, matches left about, steam and hot water—these are major causes of death and suffering among the very young. Death takes no holiday when those things which may cause fires and scalds are within

Equally dangerous, particularly in the case of adults, is the practice of starting stoves and furnaces with kerosene, gasoline or other inflammable liquids. You may get away with it a thousand times. Fencing Now Popular Sport

EDITOR'S NOTE.—Following interesting articles written by Warren Thompson for the Dallas Times Herald, Warren is the son of the late Lacy Thompson, graduate of the University of Texas at Austin (High School).

Reminiscent of the slithering sound of steel and the swishing sleek blades can be heard in Dallas fencing clubs as swordsmen slash to a nerable spot on their opposing them.

As one of the oldest clubs in the city, the Central Y. M. C. A. boasts the strongest, most better equipped organization the entire Southwest every week twenty young men gather competent leadership skilled Oscar Ormstrong.

There is the gleam in their eyes as they match wits, meeting skill, repelling steel. The cry, "Poy!" (the attack) Parry, treat; the light, sharp saber against the tongs.

Another opponent of the handshake, warm strengthened by a contest and contested. But it all is hardly this. A rookie fencer three months of hard preliminary training learns the principle of the some three or four greatest advantage in new class of rookies first of each month.

After the initial was completed, the rookie was a member of the beginning. Here he has more that he is allowed to actual combat with others and the more fencers.

When the beginner has reached the stage in his training he feels confidence in and the watchful eye of a instructor seems to have progressed sufficiently given an examination the entire training. Should the beginner progress or higher, he is to the advanced fencer where he is considered fledged fencer. The training lasts approximately months.

The Dallas "F" Fencing has turned out and polished and finished. Such members of this tion as Allen Brink Brockman and Forest who have held prominence in the Southwestern tournament. Others of honorable mention, and are rapidly advancing many worthy awards.

Fencing, or the sword play, dating back days of knights in armorously accompanying it is rapidly gaining popularity in the United States, particularly in the vicinity of the Southwest.

The Southwest will become so modern but thrilling sport will always present as a reminder of the tries of our ancestors.

Experience is not what happens to a man. It is what he does with what happens.—Aldous Huxley.

The meeting began Saturday night as scheduled, with Bro. Lewis doing the preaching and Bro. Williams looking after the singing. There was preaching Sunday morning and at night. Services were expected to continue each morning at ten o'clock and each evening at 8:30 until Friday night.

A good shower fell in this community Monday afternoon increasing the growth of grass and benefitting fall gardens and the second crop of feed. Cotton in this locality seems to be a failure this year. About two weeks ago fields around Ebony were beautiful and promising.

Attends N. F. L. A. Meeting

More than 75 officers and directors, representing 27 National Farm Loan Associations, attended a group meeting held at San Angelo August 22, according to E. B. Gilliam, secretary-treasurer of the Goldthwaite National Farm Loan Association and F. P. Bowman, secretary-treasurer of the Star National Farm Loan Association, who has just returned from the meeting. They reported that the conference afforded an excellent opportunity for officers and directors to discuss problems of mutual interest as well as to review the operation of the associations represented at the meeting.

More than 1,915 loans totaling \$4,440,400 were made during the first seven months of 1938 by the Federal Land Bank of Houston and the Federal Farm Mortgage Corporation to Texas farmers and ranchers. Of this amount, \$1,208,780, representing 596 loans, was for the purchase of land for agricultural purposes. Nearly 400 bank-owned farms were sold to Texas farmers during the same period. The sale of these farms involved considerations totaling \$914,032.

These significant facts were brought out by A. C. Williams, President of the Bank and General Agent of the Farm Credit Administration of Houston, in talking to the group.

"When the Bank is forced to take over farm properties," said Mr. Williams, "necessary repairs and improvements are made and the units are sold to new comers as soon as possible."

"Hundreds of young farmers," he continued, "have found it possible to acquire farms of their own either through purchase of a farm from the Federal Land Bank or by means of a Federal Land Bank and Land Bank Commissioner loan. In either case the buyer pays off his mortgage in reasonable semi-annual payments that gradually reduce the principal of the loan over a long term of years. By taking advantage of the Federal Land Bank method of financing, the farm purchaser avoids the necessity of costly renewals and has the added advantage of very low interest rates."

"When the Bank is forced to take over farm properties," said Mr. Williams, "necessary repairs and improvements are made and the units are sold to new comers as soon as possible."

A MESSAGE TO PROSPECTIVE...

HOME BUILDERS

YOU'LL NEVER

Have a Home UNLESS YOU START!

AND WE DOUBT IF THERE WAS EVER A BETTER TIME TO START THAN RIGHT NOW!

All over America, people are taking advantage of the liberal FHA plan of financing homes. It is far more economical to build you a home than to continue paying rent, in actual monthly payments, and FHA makes it possible for you to invest your former rent money in something you own.

If you have a steady income—if you are honest and sincere—if you have a desire to get ahead in life—there is likely a way by which you may be helped.

It will cost you nothing to come in and discuss your building needs with us, and we will be glad to render every aid within our power.

Egg Situation Favorable To Producer

At no time in recent years has the spread between feed cost and egg prices been so favorable to the producer. You can now buy MID-TEX EGG MASH as cheap as at any time during the depression when eggs were bringing from 10c to 12c. You can see that it really pays to feed your hens for egg production.

The extreme low price on MID-TEX is made possible by the large volume which we have been able to build up.

We hope poultrymen will not overlook the opportunity they have right now, by using MID-TEX EGG MASH.

Our market is always the top for you POULTRY, EGGS and CREAM. We would appreciate a chance to serve you.
