NUMBER ELEVEN

WPA GRANT ASSURES STREET IMPROVEMENT

\$27,546 Allotted To Goldthwaite

Fire Department Stops Serious Fire

Prompt action by the members of the Goldthwaite Fire Department Wednesday night prevented what could easily have been a disastrous fire. Apparently starting from the flue of an overheated stove, the fire destroyed the one-story store-room at the back of the Dempsey Hotel, but the remainder of the building was saved.

School Sidewalks To Come First Citizens Urge

Allotment of a WPA grant of \$27,546 for improving streets and sidewalks in Goldthwaite was announced last week in a telegram from Senator Tom Connally in Washington to Mayor H. G. Bodkin.

This grant assures that the street improvements which have been underway here for the past two years will be continued. The last grant was for \$12488. WPA workers are also assured of steady employment through the winter months. Production of certain materials in or near Goldthwaite is also provided for.

Agitation for building sidewalks to the city school has recently increased, and the PTA has taken up the movement energetically. Many citizens have expressed the hope that this work will receive priority in the new construction that is to be done.

According to the terms of the grant, the city must supply part of the materials required.

College Receives Training Program

Brownwood, Nov. 2.—Dr. Z. T. Huff, academic dean of the college was notified this week that Howard Payne College's application to participate in the Pilot Training Program has been accepted by the Civil Aeronautic Authority.

In a letter from Robert H. Hinely, chairman of the Civil Aeronautic Authority, Dean Huff was informed that instruction for the program of the academic year of 1939-1940 with student application forms are being forwarded to officials of Howard Payne.

There will be a minimum of ten students required by the civil authorities before the program will be carried out, but already more than 30 Howard Payne students have made known their desire to participate in the program.

The course will be open to regularly enrolled students of the college who are between the ages of 18 and 25 years. A laboratory fee of \$40 will be required of each student.

The 72 hours of ground school instruction will be given in the college class rooms while the flight training, a minimum of 35 hours to a maximum of 50 hours, will be given at the Brownwood Airport.

Formal contract for the Air Training Program will be sent to college officials at an early date so that a definite program of activity can be undertaken by Howard Payne in the very near future.

Capt. M. Y. Stokes, Jr., returned Saturday from the Cavalry maneuvers at Balmorhea.

Chas. L. South Appoints Supervisor For Census District

Representative Chas. L. South has stated that there will be two census districts for the 21st congressional district. He stated that the Bureau of the Census had designated Kerrville as headquarters for census district No. 27, comprising the counties of Kerr, Val Verde, Edwards, Kinney, Real, Uvalde, Bandera, Kendall, Gillespie, Kimble, Sutton, Schleicher, Menard, Mason, and Llano. G. Rankin Starkey, of Kerrville, has been recommended as District Supervisor.

H. H. Jackson will be District Supervisor for the 21st census district, with Coleman as headquarters, which district will include the counties of Coleman, Sterling, Coke, Runnels, Brown, Mills, Lampasas, San Saba, McCulloch, Concho, Tom Green, and Irion.

"It is contemplated," Mr. South said, "that the District Supervisors will be appointed about Nov. 15, and that the district offices will be opened about January 2nd or 3rd." There will be approximately 240 enumerators in the two districts, who will receive 4c per name, 10c to 35c for each business concern, and 20c to 50c for each farm, amounting, it is estimated, to approximately \$70 to \$75 for each enumerator for some two or three weeks' work. "The District Supervisors will appoint the enumerators for the various counties in their respective districts," he added.

Fairman Co. Buys Urbach Hardware

Earl Fairman has announced the purchase by Fairman Co. of the W. C. Urbach hardware store, the oldest business in Goldthwaite.

Mr. Urbach and his late brother opened a tin shop the day Goldthwaite was started, and the business has continued without interruption until its sale this week.

Mr. Urbach has been in bad health for several months, but the business has been operated by Mrs. Urbach.

An unusual close-out sale will be staged Monday by Fairman Co. as announced elsewhere in this paper.

They will also hold a big barbecue at noon Monday in honor of those citizens of Mills county who were living here when the Urbach business was organized.

L. J. Gartman Hurt In Auto Accident

L. J. Gartman was injured in a car wreck on the highway just out of Evant on his way home about 4:30 o'clock last Thursday afternoon. James Broyles, who had picked up several school children, came in from the old highway into the new highway. His car collided with the Gartman car, which was driven by Harry Couch, who received several minor bruises.

Mr. Gartman was rushed to Goldthwaite for medical aid. He received several broken ribs, a broken nose and was badly cut in the face. The three children who were thrown from the Broyles car were taken to the hospital at Hamilton. They were only slightly injured.

Mr. Broyles was unhurt. Both cars were badly wrecked. Mr. Gartman is recovering, but is still suffering from bruises and cuts.

Introducing

Walter Kelly, young son of Mr. and Mrs. W. G. (Spot) Saylor, arrived Wednesday morning a little before 12 o'clock. He weighs eight pounds. Mother, father and son are doing nicely.

H. H. Jackson Will Take Applications For Census Jobs

COLEMAN, Nov. 2.—A flood of applications for positions as enumerators has swept down on the office of H. H. Jackson, Coleman newspaper publisher who recently was recommended for the position of district supervisor of the 1940 census for the Coleman district by Congressman Charles L. South of Coleman.

Mr. Jackson is filling all applications as they are received and, of course, will give all of them the proper consideration. In the meantime, he points out that if he has not been appointed and that if he is appointed he probably could not open an office until early in January.

The Coleman publisher probably will be assisted by J. B. Hamilton, Coleman, commander of the local American Legion post. Incidentally, ex-soldiers and widows of ex-soldiers probably will be given preference to positions where everything else is equal.

Approximately 100 enumerators will be used in this 12-county district. Counties in the Coleman district include, Coleman, Sterling, Coke, Runnels, Brown, Mills, Lampasas, San Saba, McCulloch, Concho, Tom Green and Irion.

Enumerators are to be paid so much per name, business concern or farm, and each enumerator will probably receive from \$70 to \$75 for two or three week's work.

New County Agent Begins Work Here

Mr. and Mrs. S. E. Rosenberg and little daughter, Judith Ann arrived from Eastland Tuesday and are domiciled in the Marshall house in the western part of town.

Mr. Rosenberg assumed the duties of Mills County Extension Agent, Wednesday, by appearing on chapel programs at Star in the morning and the 4-H program at the wiener roast at Lake Merritt at night.

Two Percent Discount Offered on Taxes

The 3 percent discount on state and county taxes ended Nov. 2, but a 2 percent discount will be allowed all who pay in November. Next month the discount will be 1 percent. Collections broke all records for October here with nearly \$30,000 collected.

Taxpayers still have the option of paying one-half of their county taxes now, and the remaining half before June 30 next year.

No discount will be allowed on the half-taxes paid now, but discounts of 3, 2 and 1 percent will be allowed on the second half if paid before March 31, April 30, and May 31 respectively.

Turkey Season to Open Next Week

Turkey marketing season is due to open next week in order to provide fowls for the early Thanksgiving on November 23.

No estimate of prices has been made so far.

As turkey money customarily belongs to the women of the families marketing turkeys, local retail business is due for an upsurge as turkey money is traded for wearing apparel and home necessities.

Al Badger Appointed Assistant Manager

San Antonio, Texas, November 2nd—Jack White, owner and general manager of the Plaza Hotels of San Antonio and Corpus Christi and the White-Plaza of Dallas, announces the appointment of Al Badger, veteran hotel man, as assistant general manager of the three hotels.

Mr. Badger comes to the Jack White-Plaza Hotels following seven years as manager of the Stephen F. Austin Hotel in Austin. His duties will include assistance to Mr. White in the general administration of the hotel group with special emphasis on the food departments.

As a young man Mr. Badger started early to cater to hungry people. His first connection was in the dining car service of the Colorado and Southern Railroad with headquarters in Denver. This was followed by two years as service inspector in the Texas and Pacific dining car service at Fort Worth. He has managed three of the leading country clubs of Texas. Then, he became general manager of the McBurnett Chain, with headquarters in San Angelo in which capacity he served for four and one-half years. He opened the million dollar Wooten Hotel in Abilene as president and general manager.

Al, as he is known to traveling men, oil men and hoteliers in general, has won wide distinction as a sportsman and has won several important golf championships. With Mrs. Badger, he will make his home in the San Antonio Plaza.

We Are Sorry

Several interesting news items have been crowded out of The Eagle this week for lack of space. They will appear next week.

Football Special Wins High Praise

Y. E. Hoover, local Santa Fe Agent, and the Goldthwaite School Board and businessmen of the Athletic Council who sponsored the football special train to Lampasas October 27, are highly praised in letters received here from A. C. Ater, General Passenger Agent, and P. H. Swinney, Traveling Passenger Agent, of the Santa Fe.

With 487 tickets sold and 9 passes honored, the train carried 496 passengers, a record which has never before been equalled in this section when the population of the town is considered.

The officials recommend that the special train be made an annual event.

Stores to Close

Members of the Retail Merchants Association and other business men of Goldthwaite will close their places of business on November 11, for Armistice.

P.-T. A. Carnival

Hurrah! Mr. Smith was really and truly "ducked" in a tank of water on our Carnival night just like it was promised you! So were Mayor Bodkin and R. V. Littlepage! If many of the men who promised to serve as these three did, had not found "business elsewhere" at that time, Lincoln Saylor and his co-workers could have made much more money for our school. Anyway, we sincerely appreciate Mr. Saylor and everyone who helped in any way with this carnival attraction.

All those who helped conduct the places of amusements and refreshments stands worked hard and showed a wonderful co-operative spirit.

Mrs. Earl Fairman was an untiring worker in all her efforts for the Carnival, and the Parade and Band sent the affair off with a bang! No wonder it was a big success. Thank you, everyone. MRS. LESTER MOON, President

Friday Feature At Brunk's

Friday night is feature night at Brunk's Comedians, who are playing in Goldthwaite in the big tent. The play, "Cheating Husbands" is the one that caused so much discussion before the Board of Censors recently in Kansas City.

The private dining room scene in the night club of "Cheating Husbands" in the Brunk version will be played in its entirety, and this one scene alone is almost a complete show.

Brunk's will close their engagement here Saturday night. A program, including the Saturday matinee, and the giving away of a LIVE BABY, will be found elsewhere in this paper.

The football special pull-out train for Lampasas last Friday for Lampasas, there were 503 people on board.

Mr. Paul Sweeney, agent of the Santa Fe, has the largest crowd for the train in his company has ever seen. Needless to say the train was pleased with the response of the people responsible for the project has thanks of the Athletic Council.

Using this response the Eagle fans will turn out in force. It is planned to make an annual trek to Lampasas trip each time.

THIS IS THE HEART OF THE I. E. S. LAMP

The white glass diffusing bowl in every I. E. S. lamp conceals the bulb, sifts out harmful glare and provides a flood of soft, evenly-distributed light. Result: true eye comfort.

I. E. S. Better Sight Lamps provide an abundance of soft pleasing light that acts as a balm to tired eyes. Glare eliminated by a white glass diffusing bowl which provides both downward and upward light. The downward light is intensified and spread in a broad circle by a wide shade with a specially-treated lining. The upward light goes to the ceiling and is reflected throughout the room, dispelling harsh shadows. Only I. E. S. Lamps carry the I. E. point, making the score, Lampasas 7, Goldthwaite 0.

Neither team scored in the latter part of the first quarter, and the Badgers still led by one touch down in the beginning of the second quarter.

The Lampasas team kept possession of the ball most of the second quarter, but were unable to push over but one touchdown to make the 13-0. During the last part of the first half the Eagles offensive plays began to click, but the whistle ending the half caught them on the Badgers 25-yard line.

The Eagle squad came into the last half determined to overcome the 13-0 lead of the Lampasas team, and succeeded in crossing over for a touchdown after a nice run almost to the goal line by Denison, who intercepted a Badger pass. In the next play Denison carried the ball off tackle for the Eagle's only score of the game. An attempted pass for point failed, leaving the Eagles with the short end of the score of 13-6.

Neither team again moved within scoring distance during the last half. Although the Eagles fought like demons the last few minutes of play, they were unable to overcome the Badgers lead and the game ended with Lampasas the winner.

Outstanding players for Goldthwaite constituted the whole left side of the line, including Sam Graves, Jerome Kirby, and Alton Rose, with McKenzie and Denison also turning in a nice game.

The Eagle team is scheduled for three more games: Richland Springs, Llano and San Saba, and an open date tonight. The Eagles will play Richland Springs here, but will travel to Llano and San Saba for those two games.

So far, Goldthwaite has won only one conference game, beating Rochelle 7-0, and have been handed two defeats by Fredericksburg and Lampasas. Before the team has hung up their suits for the last time we hope to have three more wins in the bag by defeating Richland Springs, Llano, and most of all, San Saba.

Last Friday was a perfect set-up for the game between the Goldthwaite Eagles and the Lampasas Badgers, except that the wrong team (Lampasas) came out with the long end of the score (13). To sum it all up, there were 500 loyal Eagle fans who took the special train with a large pep squad, and a fine band and assembled at the Lampasas field to see Goldthwaite walk away with the victory. However fate had its way, and Goldthwaite lost its second game this year to the tune of 13-6.

The Eagles kicked off to the Badgers on the 20-yard line, but a Lampasas player fumbled the ball and Goldthwaite recovered for their first big break of the game. The Eagle squad worked the ball down to the Badger's three-yard line, but were stopped on downs. The Badgers then started a drive that carried them up the field, and they finally succeeded in crossing the goal line for their first tally of the game. The try for extra point was blocked by Denison and Rose, but a Lampasas man picked up the ball and raced across for the

W. P. Weaver Praised For Fine Service

Below is a talk delivered at a testimonial luncheon in honor of W. P. Weaver, well known farm agent of Mills County, by his co-worker, Miss Emma Scott.

This occasion was sponsored by the Extension Service Employees of District 7 at Hotel Brownwood in May. As Mr. Weaver is retiring the first of November, I would like for friends of his and Mrs. Weaver to know how I feel to have had the privilege of working with Mr. Weaver.

Director Williamson, Mr. Glass, Miss Hearn, Mr. and Mrs. Weaver and other co-workers, the day of September 1, 1938, presented many new and invaluable experiences to one newly appointed county home demonstration agent. To be sure I was too confused and disturbed, and maybe a little frightened over the newness and bigness of the new field to which I had been admitted to realize that I was surrounded by grand opportunities. Frankly, at that time about all I realized was a lot of hard work was ahead of me, and I could not overcome a feeling of unpreparedness that I knew wouldn't help cope with the situations and problems that would doubtless arise in the development of home demonstration work in a new county. Not until I had actually confronted some of the problems that necessarily arise in promoting an extension service program, and not until I had to have the judicious guidance of some one who knew people, who knew Extension Service policies and who thoroughly understood the work did I realize I was a very fortunate person to be a co-worker of Mr. Weaver's.

His profound knowledge of people and how to deal with them has been invaluable to me in my attempt to develop home demonstration work in Mills County. Perhaps Mr. Weaver in his casual conversations (when I learn most) hasn't been aware that he is imparting knowledge but, believe me, I'm aware of it and I've tucked it all away, and labeled it "Solutions Not Found in the Policy Book."

As a co-worker Mr. Weaver possesses all the traits that make working with him a pleasure. He is willing. His sense of honesty and fairness is unquestionable. I have never regretted following his advice. Sometimes I have regretted that I didn't. Mr. Weaver is the best courage revolver I have ever known. He possesses an outrageous keenness of insight. Some how he can just tell when things are going right and when they aren't. I am going to mention a few of the instances in which Mr. Weaver's ready assistance will never be forgotten by one county home demonstration agent. Until I had gained sufficient geographical knowledge of the county Mr. Weaver was never so busy that he could not take time out and straighten out my road problems, labelling all the right and left hand turns, all the bridges and mail boxes. You know I could offer a number of suggestions for the improvement of county road maps.

Another appreciated assistance. Mr. Weaver saw to it that I met people in each community who would be instrumental in promoting an Extension Service program. A number of these women had worked with him in 4-H clubs, either as club members or leaders. The splendid work that Mr. Weaver has directed justly speaking, has created a firm foundation for the development of home demonstration work.

Working with Mr. Weaver has been like having access to a large library, with the answers to all questions available. If I needed to know the family background of some particular 4-H club girl, that I felt I needed to give special attention, he could tell me. If I want to know about the response I will receive in a new community, he predicts correctly, always. If I ask about economic conditions of some locality, he can tell me as quick as the banker. If I need to meet certain people of influence he can introduce me.

It is a challenge, an inspiration to have been allowed the privilege of being Mr. Weaver's co-worker and to know Mrs. Weaver.

There is but one W. P. Weaver. There never was but one. Judging from the work he has accomplished and the success he has enjoyed there will never be another.

Emma Scott.

FSA Group to Help Farmers Work Out Tenure Agreements

Farmers who anticipate difficulty in working out tenure agreements for next year because of excessive debts may get expert help from the Mills County farm debt adjustment committee which meets at 2 o'clock p. m. Tuesday, Nov. 7, 1939, in the Mills County Courthouse.

"This is the time of year when creditors are most active in pushing collections," said W. Roy Tisdale, Farm Security Administration supervisor, "and it is imperative that every farmer make his arrangements now. He must begin his next year's crop free from the possibility that he might be forced to abandon it because of foreclosure of land or chattels."

"The Mills County farm debt adjustment committee, which is sponsored by the FSA, is composed of public-spirited local business men and farmers," the supervisor said, "and has been quite successful in working out voluntary agreements between farmers and their creditors whereby the farmers can continue to operate and eventually pay their debts. Each case is considered on its merits and the matter kept confidential."

Farmers in need of this service should to the county FSA office, or to one of the committeemen, or they might appear at the meeting.

Committeemen are: Willis A. Hill, A. A. Downey, and J. H. Burnett.

Dr. Walter Judd To Speak to Baptist

Outstanding among the many speakers who will appear before the several thousand members of the Woman's Missionary Union, Auxiliary to the Baptist General Convention, in San Antonio, Nov. 13-17, is Dr. Walter Judd, of Mont Clair, New Jersey, who served as a medical missionary for a number of years and will deliver an address of that subject. Mrs. B. A. Copass, of Fort Worth, president, is expected to report all 1938-1939 goals for state, home and foreign mission work reached or exceeded. Texas Baptist women led all Baptist women in 17 states this year in their offering of \$65,000.00 for foreign missions. Three phases of the work sponsored by the Union will be stressed at the San Antonio meeting—missions, benevolence, and Christian education. Prominent speakers from Texas and the South, as well as from Brazil and Africa, will occupy places on the program.

Leading Baptist pastors and laymen will meet in four sessions preceding the Baptist general convention in San Antonio, Nov. 13-17. Charles A. Wells, New York City, world traveler and lecturer, will address messengers from 3,156 churches. Rev. Roy S. Holloman, pastor of the Immanuel Baptist Church, El Paso, president, will preside at all sessions of the conference.

The two preliminary meetings and the larger general meeting of the convention, are expected to attract over 10,000 visitors to the Alamo City.

GOLDTHWAITE GIRLS RECEIVE HONOR AT TSCW

Denton, November 2—Misses Jean Goosby and Ruth Goosby of Goldthwaite have met the qualifications of the Advisory Council at Texas State College for Women and have been named advisors to new students this year.

Miss Jean Goosby is majoring in home economics and is in her sophomore year in college. Miss Ruth Goosby is a senior in college and is majoring in business administration. Both girls are the daughters of Mr. and Mrs. C. R. Goosby.

Besides a high scholastic standing, the position of advisor demands leadership, dependability and an understanding of college problems. Misses Jean and Ruth Goosby have been assigned a group of new students for special guidance on the campus.

Honoring her guest, Mrs. Roxie Jones of Cisco, Mrs. John Berry entertained informally Monday afternoon.

All were old friends who had worked together in the Presbyterian Auxiliary so conversation flowed freely.

Interest centered on Mrs. Jones' hobby, collecting buttons and everyone claimed the privilege of contributing to her "Charm String."

Candy, nuts and fruits were served to Mmes. J. H. Randolph, W. H. Linkenhogger, Wiley Johnston, Lewis Hudson, Jon Schooler, and the honoree.

(Address to the Nation, Sept. 3, 1939)

What is Tax Diversion?

We have never taken the position that we know whether or not for-hire truck and bus transportation is paying, in taxes of various kinds, too little, enough, or too much to cover its share of the cost and maintenance of the highways it uses. Our position has been that there ought to be a thorough, impartial, and authoritative investigation to see just what the condition is, and that highway taxes ought to be adjusted fairly on the basis of the findings.

In the meantime the matter remains open for argument and arguments on both sides are colored by the interests of the parties to the debate. What many of the debators do not seem to realize is that some of the argument they use will, in the long run, do their cause more harm than good. One such argument is that used by the truck operators, positively, when they include, in their calculations of total taxes paid for the support of the highways, the entire sum of such items as license payments and gasoline taxes, and, negatively, when they protest against what they call "diversion" of such items as gasoline taxes.

As we understand the American theory of taxation, it is that all monies collected as taxes are deposited in a general fund to pay all of the costs of the government. There is, inherently, no such thing as a special tax for a special purpose. Where, occasionally, the states have sought to create such a condition, they have had to do so by constitutional amendment. It may well be that legislators and politicians have led the people to believe that the state taxes on gasoline, for instance, were to be collected solely to provide new highways and maintain existing highways, or that state sales taxes were to be instituted solely to help the state carry the relief burden. Legally, however, unless an exception is made by constitutional amendment, the gasoline tax, the sales tax, the license fee are all part of the general income of the state to be disbursed by legislative appropriation as the legislature sees fit.

Without considering for the moment, the passing promises of politicians or the overt injustices in particular cases, that state of affairs is as it should be. The real estate owner pays taxes not only to provide improvements that will enhance the value of his property or to maintain it, but because the existence of his equity adds to the burden and expense of the government, on the one hand, and because the property-owning citizen has a financial duty toward the community, on the other.

If the truck operator feels that an injustice is being done to him when some of the gasoline taxes he pays are used for purposes other than highway building and maintenance, he might get some consolation by tracing through to their ultimate dispersal the tax dollars paid in personal property taxes, in income dollars, in liquor and other luxury taxes. He will probably feel, after the examination, that he is fortunate in that so great a part of what he pays the government is spent for his own immediate benefit.

We have seen nowhere, for instance, a proposal that any part of the money collected in liquor

taxes be disbursed by the government for the benefit either of the liquor dealer or the liquor consumer. The cigarette smoker who pays the federal government more than the value of the tobacco he smokes every time he buys a pack—to say nothing of added state and local taxes in many places—has never so far as we have heard asked that a single penny of that money be spent to improve tobacco stores or the comfort of tobacco users.

The mere existence of the truck and bus and their operation on the highway creates added governmental costs that they should help bear. We know that some calculations include, in the expense asserted to be covered by current automotive tax payments, a portion of the expense of highway police, but the advent of the automobile and the highways have added other and more remote policing expense and problems of protection and education that did not exist before.

Even that, however, is somewhat beside the point. The trucker is just as much obligated to help pay for the new court house for the maintenance of the penal institutions, for the development of boulevards, parks, beaches, and other public improvements and for the maintenance of the public educational system, as any other taxpayer.

It may be that, when an impartial investigation is made, it will show that the trucks and buses are now paying even more than their share of all of these expenses. It is because we and a lot of other folks would like to know about it that we advocate such an investigation. The point we are trying to make now is that the trucking interests are not strengthening their own case by their strenuous use of the "diversion" argument. We think there are plenty of things the trucker could use in his attempt to justify his contention that his taxes are now high enough without insisting that all "special" taxes be used for his special benefit. If he were to confine himself to arguments based on sound economics, his position might not seem so strong, at the moment; but his foundation would be more secure and he would be in much safer position as time goes on.

United Church Seen By Bishop

EL PASO.—Recent union of the three branches of the Methodist Church is but a step in the eventual joining of all American churches, believes Methodist Bishop Ivan Lee Holt of Dallas.

In El Paso for a five-day conference of the New Mexico unit of the church, Bishop Holt said he was an advocate of a united church in the United States. He pointed to the merger of churches in England and Canada as well as reconciliation of the branches of the Methodist Church in this country, as examples of a trend toward a united church.

The Methodist, Congregationalist and Presbyterian faiths merged into the United Church of Canada in 1929, while three great churches of England joined together in 1932, he said.

Uniting of the three branches, Bishop Holt said, gives the Methodist church a congregation of 10,000,000 in the United States.

New developments in the oil news since our last issue have been few and far between. The Tiger Lily cub has not as yet started drilling. They had to have a piece cast for their pump, which was supposed to have been ready Tuesday afternoon or Wednesday, but so far it has not arrived and drilling can not start until it does. Local men, with Clyde Lane of Goldthwaite, have been blocking acreage at Bend on both sides of the river for a test, and Thursday morning reported they had gotten all the key acreage except one land owner, and as soon as this is secured, Mr. Lane reports that he is ready to start drilling.

Comanche

A court of inquiry asked for by District Attorney H. W. Allen, concerning the deaths of Mrs. Martha McGuire, 79, and her son J. B. Haynes, 58, whose charred bodies were found Monday morning in the ruins after fire had destroyed the McGuire farm home north of Comanche, consumed all day Thursday before Justice of Peace Geo. W. Wetzel.

Between six and seven million pounds of peanuts have already been weighed in Comanche this season, and truck loads still continue to bring peanuts to the Comanche market.

Practically all of the peanuts in the county will be threshed within the next ten days, and the market will continue at top speed for about two or three more weeks.

Native stone of Comanche county will be quarried to be used in the construction of the new court house building. The limestone will be quarried from the L. S. Adcock farm near Gustine and the sandstone probably will be taken from the W. C. Stark farm near Hase.

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D., Dean of The Moody Bible Institute of Chicago. (Released by Western Newspaper Union.)

Lesson for November 5

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

RIGHTEOUSNESS IN THE KINGDOM

LESSON TEXT—Matthew 5:17-20, 38-45; 6:1-4.
GOLDEN TEXT—Be ye therefore perfect, even as your Father which is in heaven is perfect.—Matthew 5:48.

"Righteousness in the kingdom," the title of our lesson, properly relates its teaching to the kingdom of the Messiah which is to come on the earth, and to the condition which shall then prevail. At the same time we agree with Dr. James M. Gray that "it would be wrong to press this too far and to say that the Sermon on the Mount has no application whatever to the Christian church or the time in which we live, for God is the same through all dispensations and the underlying principles of His government never change."

Certainly it is true that if all of the men and all of the nations of the earth were on this Armistice Sunday true followers of Christ and ready to carry out the teachings of this lesson, there would no longer be any possibility of war. This means that the best peace propaganda is the sending of missionaries and teachers to all the earth to win men to Christ.

Our lesson should be studied and taught with great care lest we confuse morality with Christianity and make it appear that men are justified before God by their good works rather than by their faith in Christ.

I. Christ Fulfills the Law (5:17-20).

The law of God is eternal, never to be abrogated, never set aside. Christ Himself, although we might properly say that He was in reality the Law-giver and thus had power and authority over the law, indicated His purpose in coming to be that of giving the law its full meaning, not of destroying it. One could wish that those who profess to be His servants might have the same measure of regard for God's law. If they did, they obviously would not be so ready to ignore it, so quick to change it or explain it away, and far more ready to accept with their Master every "jot and tittle," that is, even the minutest detail of His Word.

Recognizing Christ as the fulfillment of the law should prepare one to manifest obedience to every moral precept through His grace and by His strength. Certainly it should not lead anyone to lawlessness or carelessness regarding details of the daily walk. Fellowship with the Saviour should be revealed in consistent living (v. 20).

II. Christ Explains the Law (5:38-45).

Look at verses 21 to 37. The spirit of murder is anger (vv. 21, 22). A lustful look is adultery (vv. 27-30). It is better to be blind than to be guilty of it. Divorce is linked very plainly with adultery (vv. 31, 32). Swearing is forbidden (vv. 33-37). Thus Christ strips outward conformity to the law of its apparent virtue and reveals that with God it is the spirit that gives meaning to the act.

He goes on to make plain that God alone is wise enough to take vengeance, that we ought never to retaliate with evil for evil. Note that verse 39 probably refers to an insult rather than to physical violence; that in verse 40 it is a question of a difference of opinion in which the other man feels that he has a legal right to your coat; and that here, as in verses 41 and 42, it is not a matter of letting a wicked or scheming person defraud you of your rights or property, but rather of doing what is required of you in an ungrudging spirit and of being generous with others who are in need. In Christ we are to be like our heavenly Father and love our enemies (vv. 43-45).

III. Christ Illustrates the Law (6:1-4).

Possibly it would be more appropriate for us to say that Christ here illustrates the right and the wrong way of fulfilling the law. How very clear He makes it that the one who, while ostensibly doing the will of God, actually is seeking the recognition and glory of men has received his full reward, for men have applauded his act of generosity. The transaction is complete and God has nothing to do with it at all. On the other hand, the one who gives in the spirit of Christ, not wanting men to know of his faithful stewardship (v. 4), and in fact making no reckoning of it himself (v. 3), may be certain that he has a heavenly Father who takes careful account of the loving deeds of His children and who will reward him, both in this world and in the world to come.

Memories of Happy Days

Why is it that the memory of some days in the past, unmarked by any striking event, always come to us like the breath of spring? It may be that on those days, in reward for some forgotten act, God drew us close to Him, and that we absorbed something of His eternal peace and happiness.

THE TRADING POST

Special to The Eagle . . . In an attempt to help build a bigger and better Goldthwaite two enterprising young men have installed an unique service available free of charge to all the citizens of Mills County.

A building has been rented and the "firm" named THE TRADING POST. It is located on the west side of the square here in Goldthwaite.

THE TRADING POST is truly a clearing house for one's attic. It is operated upon the theory that all persons have some objects or items of value laying around home, in the garage or in the attic. This particular item, while worthless to the owner, may have a cash value to someone else. THE TRADING POST will take this "worthless" item and turn it into cash money for the owner by selling it to some person who does have a use for the article.

This new business endeavor has as its slogan, "from a pin to locomotive." This, of course, includes anything of value, livestock, produce, feedstuffs, and clothes.

Cotton Still King

Cotton reigns supreme among the kitchen textiles because it is easy to launder, durable, inexpensive, and especially because it is cool, says Mrs. Dora R. Barnes, specialist in clothing for the A. and M. College Extension Service. That cotton is satisfactory in this respect is shown by the trim cotton uniforms that have been adopted almost universally by dietitians, cooks, waitresses and others who spend the working hours in or about a home or institution kitchen, where the temperature usually borders on the torrid.
