HUNDREDS OF YOUNG MEN NEEDED AS PARACHUTE ARMY TROOPS

Sgt. William J. Hess, U. S. Army Recruiting sergeant whose office is located in the Memorial Hall in Brownwood, said that hundreds of young men are now needed for infantry parachute duty. Young men who enlist for this branch of the service will be given about 13 weeks of basic training and will be transferred to parachute units where they will be trained as parachute troops. These men receive an additional \$50 a month.

Under the new regulations, Aviation Cadet applicants can be accepted between 60 and 76 inches in height. That is, from five feet to six feet four inches. However, applicants from five to five feet 4 inches tall must be told that they cannot be pilots but will have to go in one of the other training courses. The age is from 18 to 26 inclusive.

There are still unlimited vacancies for the Army of the United States unassigned. The age limits for this are from 18 to 35 inclusive.

Sgt. Hess has also announced that due to the change in time new hours have been set—the hours now being from 9 to 12 in the mornings and from 1 to 6 in the afternoons.

Victory Demonstrator Clubs To Be Organized

Demonstrators To Do Their Best To Win War Victory

A victory demonstrator will do his best to win the war by doing the following:

1. Produce food, feed, and fiber for home use and for distribution to meet war needs.

2. Repair and take good care of farm and home equipment, buildings, machinery, furnishings, and clothes.

3. Purchase necessities wisely and eliminate unnecessary buying.

4. Purchase defense stamps and bonds. Do his part in other war activities, such as collecting scrap-iron and junk, assisting in air raid warnings systems, guarding water supplies and public health, preventing fires, etc.

5. Assist in relieving farm labor shortages. This may necessitate shifting work responsibilities among various members of the family. It may include use of the various government employment services.

6. Conserve human and natural resources by good farm and home management and by cooperation with others.

7. Understand and help others understand the "why" and "how" of adjustments rural people must make to war-time situations.

8. Build the kind of family, community and national life which is worth defending, which will maintain morale, and which can meet the difficulties of post-war reconstruction.

We believe that the promotion of Victory Demonstrations will stimulate participation by the farm and ranch people in their war activities and will appeal to their patriotism. It will give a patriotic fervor in producing food and feed, in taking good care of everything we use, in buying carefully, in using such money as they can to purchase defense stamps and bonds, and in working with our families and neighbors in all these war activities.

Any rural person—man, boy, woman, girl or family—who desires to be a Victory Demonstrator may do so by indicating his interest to the county agent or home demonstration agent and by developing a Victory Demonstration. He will receive his information from news releases, radio talks, community-wide meetings, and from his own steam and ingenuity to be a good Victory Demonstrator.

A Victory Demonstrator will naturally do as much of all the work included in the demonstration as he can since he wants to do his best to help win the war. He will concern himself with the production of food and feed to meet his home needs and for distribution to meet the war needs.

Cards will be available soon in the Extension agent's office for the enrollment of all who are interested in becoming Victory Demonstrators.

CHAIRMAN DAVIS ASKS OVER-SUBSCRIPTION RED CROSS WAR FUND

WASHINGTON, Feb. 18.—Chairman Norman H. Davis has appealed to the American people for a generous over-subscription of the Red Cross War Fund to meet the growing needs of Red Cross services to the nation's rapidly expanding armed forces. He asked that the previously announced minimum goal of \$50,000,000 be over-subscribed so that at least \$65,000,000 be raised in this campaign.

Chairman Davis pointed out that in the proclamation initiating the present War Fund Campaign the President asked for a "minimum sum of \$50,000,000." Since the campaign was launched on December 8, the day after Pearl Harbor, not only has the war program greatly expanded but also the resulting needs of the Red Cross have become more specific. Chairman Davis was able to state, therefore, that it is the expectation of the Red Cross, if this increased amount is reached, and barring a major disaster, that no further War Fund appeal will be necessary during 1942.

"The Red Cross must keep pace with military and industrial mobilization," said Mr. Davis. "Our fighting forces are being sent to an increasing number of fronts throughout the world, and the Red Cross must go with them. On the home front it must serve the families of our service men. It must help in training our civilian population to meet the threat of bombings, sabotage and industrial accidents. These tasks require not only great sums of money, but also a tremendous amount of volunteer service. For this reason we must raise our money quickly and be in a position to give added attention and energy to the actual work of relief.

"Up to this time over \$42,000,000 has been subscribed. I am happy to say that 1,533 chapters out of 3,742 have reached or exceeded their quotas. This gives us real hope that the generous response already made will be further increased and that we can bring the present campaign to a prompt and successful conclusion.

BOYS LEAVING FOR AIRCRAFT TRAINING

Five more local boys left here last Friday to go to Dallas, where they will enter training at the Southwest Aeronautical Institute to prepare themselves to become airplane assembly workers.

They were Coy Featherston, son of Mr. and Mrs. Walter Featherston, and Alvin Harris, son of Mr. and Mrs. Henry Harris, both near Goldthwaite, and Cecil Partin, son of Mr. and Mrs. Charlie Partin. Paul Niemann, son of Mr. and Mrs. Henry Niemann, and Carl Hohertz, son of Mr. and Mrs. Ed Hohertz, all near Priddy.

The best wishes of their many friends accompany these boys during their training for this vital defense industry.

SOCIETY

WOMEN'S DEFENSE LEAGUE IN MEETING

The Mills County Defense League is not made up of superstitious women, for on Friday, Feb. 13, a goodly number gathered at the Melba Theatre for their monthly meeting.

The Rev. Myers offered the opening prayer which was followed by a salute to the flag. After minutes were read, the treasurer's report given and various committee reports heard, Dr. J. J. Stephen explained the courses in home nursing and First Aid as outlined by Dr. Cox, state chairman of these activities. Then Brian Smith, Red Cross chairman for Mills County, told what had been done and was being done in this county, and it was decided to make a survey of the county to determine just how many wished to take these courses before any more classes were begun. A committee was named to make this survey.

Chairmen from various communities reported what they had done to make the cakewalk a success, and the sewing and knitting for the Red Cross being done. Since there is a scarcity of buttons and thread many had contributed buttons. Plans for food production, conservation, and preservation were made.

Mrs. Ed Gilliam, Jr., told how many Bibles had been given to outgoing soldiers and said her committee was prepared to give each man leaving Mills County in the service of his country a Bible.

Mrs. Robert Steen said to save rags, paper, cardboard and all metals.

Brian Smith, after having been assured he would have the unstinted assistance of both the Defense League and the Junior Defense League, agreed to accept the chairmanship of the waste paper committee. Another shipment is about ready.

Mrs. Whittaker's report of the sewing and knitting being done for the Red Cross was thrilling.

Mrs. Jim Weatherby asked all who had flower seeds or shrubs to give for Camp Bowie to report to the Garden Club.

Miss Coleman said she would show some patriotic pictures at the meeting of the League the first Friday in March.

The Schubert Club Entertains Monday

The Schubert Club entertained Mrs. Howard Duggan, nee Bledsoe, who has recently married, with an oyster supper and theatre party at the Melba Monday evening, Feb. 16.

During the dinner, the honoree, her parents, Mr. and Mrs. Bledsoe, and guests (other than club members and husbands), Mr. and Mrs. Littlepage, Miss Connie Saylor and Miss Beatrice Bledsoe, heard the following program:

Song: Star Spangled Banner—Led by Miss Stinnett.

Grace: Mr. Johnson.

Toast to Bride, by Toastmistress.

Humorous Sketch: Life history of Bride and Groom (with illustrations).

Song: White Cliffs of Dover—Led by Miss Stinnett.

Musical I. Q. Contest: Winner, W. M. Johnson's team.

Presentation of Gifts: Mrs. Johnson.

In her speech our president highlighted some points in which the honoree has served as a club member. She told how that Lorane is unique in that she with her versatility has been able to "fill in" where most needed from first soprano to second alto.

Lorane's response was full of devotion and gratitude.

We older members of the Schubert Club are glad to give honor to Lorane on this occasion. We realize that our young women were included with the young men in the statement by President Roosevelt when he said, "This generation has a rendezvous with destiny." And while our boys are at the front our girls, as Mrs. Roosevelt has suggested, may see regimentation as the women of Russia have. If this comes we older ones are assured that each of our beloved young women will face whatever task life has in store for her and with a steadfastness of purpose step out to meet her destiny resolved to conquer any task however difficult, and with faith and loyalty help our country on to a final and glorious victory.—Reporter.

Sure we can do it!

Old Man Texas has sharpened his pencil. There's a job to be done.

Uncle Sam has a war to win and it will be paid for by you and me.

Our big job is to meet rapidly increasing federal taxes and buy defense bonds. And added to these are the costs of our local and State governments, including bond issues. The money to pay for them must all come out of the same pocket.

To make the bill fit our pocket, we're going to have to cut out some of the things we can do without. Among these are new bond issues, new State and local taxes and nonessential spending in every branch of government.

Old Man Texas is looking to taxing officials all over the State to be on the alert to effect economies.

Every local tax dollar saved for Texas taxpayers is another dollar available for victory.

FRESHMAN REPORT

Everyone seems to have adjusted themselves to the new time and everything is going all right. We are all happy to welcome Mrs. Barnet back to G. H.S. She helps check the freshman roll and teaches algebra.

Freshmen, let's get to work. Six-weeks tests are just around the corner, and before you know it, the final exams will be here. Those of us who were determined to make better grades the last half than we did the first had better get to work. All work and no play is bad, but all play and no work is still worse.

TYPING CLUB

The Typing Club put on a negro minstrel Thursday night. We hope the audience had as much fun as the characters did preparing and putting it on. Marjeanne Perntman had the prettiest cake and won the \$2 defense stamps.

The club cleared about \$23 and it hasn't been definitely decided how the money is to be spent. Part of it will be spent for defense stamps to be given away each week to the student who shows the greatest improvement in typing.

We are going to have to work very hard as county meet will soon be here and we want some very good typists to represent Goldthwaite High School.

SENIOR REPORT

The Senior Class sponsored "the Sunshine Boys" on February 17.

We wish to thank all our classmates that came to see our program. You will be Seniors soon and we sincerely hope that you will have success in whatever you undertake to do.

We wish to thank the people of the town and you may be sure that the Seniors will always remember and be thankful for your help.

The crowd was great and the show was good, clean entertainment.

MEET THE FACULTY

Miss Love Gatlin is just a born history teacher. I wager there is very little about history that she doesn't know. She is somewhat of a diplomat—she calls you a "brat" in such a way that you wish you really were one. Miss Gatlin is a friend to everybody but she is especially fond of the freshmen—taking up for them and always coming to their rescue. She can always be identified by her smart neat appearance and her merry little laugh that always makes you feel so happy.

Mr. Coffee is, to put it in understandable English, just a "good egg." He is slow of speech (but not of mind), and has a heart as big as a mountain. Mr. Coffee, as you know, is the instructor of the F.F.A. Chapter and the inspiration of all his boys. He puts the boys' interest before his own and is always willing to help. He dislikes calling a student down, but when the occasion demands, he can be as severe and keep as good order as anybody. This good-natured guy is tops with everybody, and Goldthwaite High School just wouldn't be high school without Mr. Coffee.

Miss Evelyn Hoting means just as much to the girls as does Mr. Coffee to the boys. Little more than a girl herself, but with an authoritative air that distinguishes her from others, she is making important progress in the Home Economics Department. Miss Hoting is just beautiful all over, with a deep olive complexion, brown hair, and some of the cutest clothes—all go together and make a very striking picture. She has such a sweet attitude toward every-

thing and is always ready and willing to help you with your problems.

PRESENTING:

Fay Griffin who is one of our fun-loving, energetic, lively Seniors. Her hobby is hiking and her favorite sport is football and she has been loyal to her school in this field for the past four years. She is also loyal to her country and plans to train for a nurse when she graduates. Faye is also popular when someone of the Seniors wants to know how to work business arithmetic. She is an average Senior who has brown hair and blue eyes.

Likes best—Parties.
Dislikes—For the soldiers to leave Camp Bowie.
Inseparable companion—Nelma Rhea Perry.

A few weeks ago we had an addition to our class, and a most charming one at that. Miss Susie Bessent arrived from Mullin, where she spent some two years of her school life, and is now "one of us." She is a quiet, demure young lady, and has such a sweet little look on her face that you can't help liking her. She has a small-like figure, light brown hair, and hazel eyes that fairly beam with smiles. We are proud to have her as a member of our class. She is an industrious student, but is undecided as to what she will do in the future.

Likes best—Public speaking class!!
Dislikes—Dill pickles.
Favorite story—"Cinderella."
In-a-word description—"Sweet Sue-sie."

Now I wonder who this could be? He's known to the boys as "Knute"; he's about 5 feet 10 inches and has gray eyes; he played guard and half-back on our football team for three years. Yes, you guessed it—it's Gordon Henry. He is a Senior and is a favorite with both boys AND girls. He has received his past education at Burnet, Chadwick, Scallorn, and for the last four years has gone to good old G.H.S. In his spare time he reads, when not servicing your car with "pusholine" at Jack Long's station. Everyone has some hidden ambition—his is to be a flying cadet. Not everyone is able to realize his ambition but here's hoping Gordon gets his.

Likes best—Football.
Dislikes—School with a capital "S."

DOWN THE GUTTER

You know, you can just glance over some of these desk tops up here and find out in one glance about who has a crush on who, etc., etc. (It's fun!) You oughta try it sometime!

Sammie just couldn't possibly play a speck of tennis Monday while "that girl" was watching him. Now, that is getting bad.

Joe Proc, wuz yo' all a courtin' that 'air little Casbeer gal ag'in? You wuz seen at the Nigger Minstrel. Mus' be so!

Ditto: Eli and Lorena.
Can anybody tell us why Claude spent so-o-o much money to buy that cake "Burnsie" was holding at the Minstrel? We can!

Speaking of Claude—'tis rumored Mary Ann is all a-flutter about him.

More of our girls are really down-hearted, now that Camp Bowie has been practically evacuated. We'd say about 60 per cent of them had boy-friends there.

Guess what! Ernest Kauhs has turned out to be a Romeo after all. At least that's what some girls living in the country say. Is it so, Kauhs?

My, my! What bright and shining faces we see scattered among the students of G.H.S.

TEX. FARMERS ASKED TO SELL SCRAP IRON

Sell that lot-corner heap of scrap-iron, B. F. Vance, College Station, chairman of the Texas USDA War Board, is asking Texas farmers.

"Repairing farm machinery instead of buying new equipment and selling worthless scrap iron are two methods of agricultural 'steel economy' through which Texas farmers can help keep military production lines rolling," the chairman said.

America's six million farms are huge reservoirs of scrap iron from which an estimated 1 1/4 million tons can be collected.

Scrap steel, which is used in charging furnaces, is necessary to steel production under the open-hearth process. From 50 to 60 per cent scrap is combined with 40 to 50 per cent pig iron in this fast, modern method. Good steel can be made under another method, but is more costly and takes about twice as long. In today's speed-up war program, the open-hearth process is vital, Vance said.

"According to estimates, if any farmer has 18 tons of scrap steel available, that is the amount needed for a medium tank weighing 27 tons," Vance declared. Other estimates include 3 tons of scrap steel necessary in turning out a 3-inch anti-aircraft gun, 50 pounds for a .50 caliber machine gun, 25 pounds for a 100-pound aerial bomb, and 500 pounds for a huge 2000-pound bomb.

"Don't sell scrap iron for which you will have future use, but cull scrap heaps carefully so steel mills can keep going at full blast," he said.

NEW FARM MACHINERY

Production of new farm machinery is directed at Food-Freedom goals this year, according to B. F. Vance, chairman of Texas USDA War Board.

Materials used in manufacture of repair parts will be permitted equal to 150 per cent of the 1940 production, while materials used in manufacture of new machinery has been cut to 83 per cent of the 1940 level.

"At the same time output of milking machines, haying and certain poultry equipment is going up, output of new machinery for harvesting cotton and wheat is going down," the chairman declared.

WELL AT ENERGY GETS GOOD OIL SHOW

Late Wednesday afternoon the Hunt Oil Co. Pettit No. 1 oil test at Energy, 16 miles west of Hamilton, was down 3,353 feet, with the last core brought out running oil.

Authoritative reports from drillers employed by Ice & McCamey, operators, are that it is expected the coring will continue for some 40 feet further down. "Looks extremely good" is the version of those making the hole, and there is general optimism in the activities of those holding the leases.

Rumors, afloat from undeniable sources, are that the Lone Star Gas Co. will have rigs on locations in the Pottsville area in the very near future with the intention of drilling in additional gassers, and there is general and lively interest expressed in the outlook for big pay in both oil and gas in the Hamilton County territory. — Hamilton County News.

PETROLEUM INDUSTRY TO HAVE SCRAP WEEK

DALLAS, Feb. 19.—The last week in February, Feb. 22-28, was today officially designated Scrap Collection Week for the petroleum industry by Charles F. Roesser, chairman of the industry's old metal and rubber drive for District 3.

The week set aside for the intensive collection of the oil and gas industry's scrap will open with Washington's birthday and end with the month, Mr. Roesser said. Efforts will be made to get all possible scrap collected from leases, yards, plants and the like, and trucked in to collection centers during the seven-day period. Mr. Roesser emphasized, however, that the industry's scrap collection will NOT end with the special week, but will go on as long as any scrap is available.

The collection campaign, sponsored by the Texas Mid-Continent Oil and Gas Association at the request of the federal government, is already well under way. Mr. Roesser said. The district chairman has named chairmen and in some cases co-chairmen for all the larger oil-producing counties of the state, and also appointed State Collection Committee members all over Texas. These are now at work.

SANTA FE CARLOADINGS SHOW BIG GAIN

GALVESTON, Feb. 19. (Spe.)—Santa Fe System carloadings for the week ending Feb. 14 were 20,877 compared with 17,825 for the same week in 1941.

HOUSTON'S FLOWER SHOW OPENS MAR. 1

HOUSTON, Feb. 19—Hundreds of exotic blooms representative of the countries that are fighting the Axis will be featured in Houston's Annual Flower Show, which opens March 1 at Sam Houston Coliseum for a showing of eight days.

Rare and exotic plants will be representative of virtually the entire world, with the possible exception of that portion "temporarily dominated by the Axis," it was announced today by O. H. Carlisle, show president.

Featured will be blooms once found in profusion at Pearl Harbor, exotic plants from China, the East Indies, Africa, South America and other distant places.

The central theme will be the world famous Taj Mahal, aptly described as the most beautiful edifice ever erected by man—the crowning achievement of Shah Jahan, the mogul ruler of India 3,000 years ago.

The advance sale of general admission tickets was given added impetus today when garden club women from virtually every section of the Houston trade are swung into the campaign, Mr. Carlisle said.

If purchased prior to the deadline, set for February 25, tickets are obtainable for 55 cents. After that date the regular box office price of 85 cents will prevail, as has been the custom during previous shows held here.

Mr. and Mrs. H. N. Smith and daughter, Mary Len, of Abilene were dinner guests of Mr. and Mrs. A. H. Smith Monday.

A letter from Mrs. Wm. M. Andress of Bellville states that their city and Austin County had a perfect success in their first black-out on Feb. 2. Mr. Andress got plenty of new experience.

Corporal Vernon Harville of Camp Bowie was a week-end guest in the home of Rev. and Mrs. L. J. Vann.

Mrs. S. J. Casey returned to her home at Wolforth Sunday, after a two-weeks' visit here with relatives and friends.

Goosby-Freeman Wedding Sunday

Edgar Bell Freeman and Miss Louise Goosby were married at three o'clock last Sunday afternoon, Feb. 15, at the home of the bride's parents. Rev. E. E. Dawson read the single ring ceremony before an altar of ferns and white stock. Mrs. S. E. Cloninger sang "I Love You Truly."

The dining table was laid with a lace cloth. Sweet peas and white toppers in crystal holders formed the center piece. Ruth and Jean Goosby, sisters of the bride, cut the three-tiered wedding cake, and poured punch. Only the immediate family, the two grandmothers of the bride, and a few friends were present.

Mr. Freeman is the son of Mrs. William Baker of Medina. He is employed as a civil service aircraft engine mechanic at Duncan Field, San Antonio.

Mrs. Freeman is the oldest daughter of Mr. and Mrs. G. R. Goosby. Before her marriage she was a commercial teacher in the Birdville High School at Fort Worth.

The young couple at present is at home in San Antonio, but they will be transferred to the new air field at Harlingen in the near future.

Goldthwaite H-D Club In Meeting

The Goldthwaite Home Demonstration Club met in the home of Mrs. John Edlin Feb. 3, with nine old members and two new members present.

A very exciting game was played for ten minutes preceding our business meeting, which was presided over by our president, Mrs. Beulah Sauters.

Our roll call was answered by each member giving what class of food her family needed most.

We enjoyed a discussion on foods and then we gathered around the dining table and had lovely refreshments of: Cream cheese and cottage cheese and sandwiches, pickles, tea, coffee, whipped cream and pecan cake, while our plans were made for our exhibit at the F.F.A. Show at Mullin on February 24.

Our next meeting will be with Mrs. Fred Reynolds March 2 instead of February 24.

Come, enjoy and learn how to refinish old furniture. Our agent will be present. Visitors are always welcome.

Please leave your exhibit at Mr. Ben Davis' by Monday night.—Reporter.

GARDEN CLUB

Mrs. John Berry, state chairman of Garden Clubs Goodwill Committee, attended a meeting of the San Saba Garden Club last Saturday to meet with and discuss the idea of clubs furnishing shade trees and shrubs for hospitals and chapels at Camp Bowie. Chaplain Broadus and Sgt. Dall were present, and gave interesting talks on the subject.

The meeting was held in the magnificent new rock home of Mr. and Mrs. Clarence Dolfmeier, which was a treat to inspect.

Mrs. Berry was accompanied by Mrs. J. M. Campbell, Mrs. Raymond Little, and Mrs. R. M. Thompson.

Golden Wedding Anniversary

Mr. and Mrs. John C. Street of Lubbock, former residents of Goldthwaite, will celebrate their fiftieth wedding anniversary on February 25, at their home in Lubbock.

Their daughters, Mrs. Gordon McFarland of Dallas, Mrs. Ben S. Pope and Mrs. Arley M. Justice of Marshall will be guests of their parents on this occasion.

SONG OF THE WEEK

This song was the Song of the Week in the Dallas schools, and all children in the Dallas schools have been asked to learn it.

Let everyone in our schools and county learn this Thanksgiving-Hymn. It was written in 1625 at the time of the Dutch and Spanish war. It is also found in the new Methodist Hymnal, page 20.

THANKSGIVING HYMN
(Netherlands Tune)

1.
We gather together to ask the Lord's blessing,
He chastens and hastens His will to make known;
The wicked oppressing cease them from distressing,
Sing praises to His name, He forgets not his own.

2.
Beside us to guide us, our God with us joining,
Ordaining, maintaining His kingdom divine;
So from the beginning the fight we were winning,
Thou, Lord, wast at our side.
Let the glory be thine!

3.
We all do extol Thee, Thou leader in battle,
And pray that Thou still our Defender wilt be;
Let thy congregation escape tribulation;
Thy name be ever praised!
And thy people be free. Ever be free!

Mr. and Mrs. G. Burks and little daughter, Billie Louise, of Cherokee, Mr. and Mrs. Bailey Gates of San Saba spent Sunday with Mrs. Will Urbach and other relatives here.

Books for Buddies

Ten million books will be sought for men of the United States armed forces and Merchant Marine through this poster, designed by the Nationally known illustrator, C. B. Falls. Sponsors of the Victory Book Campaign are the American Red Cross, American Library Association and the United Service Organizations.

VICTORY BOOK CHAIRMAN SELECTED FOR 4 CENT.-TEX. COUNTIES

Mrs. William Wiegand of Gatesville has been selected as the local chairman for collection of books in Coryell, Mills, Lampasas and Hamilton Counties as a part of the nation-wide Victory Book Campaign now being conducted in an all out war effort to collect ten million books throughout the United States to be made available to our boys in uniform, the soldiers, the sailors, and the marines, according to Mrs. John Horsfall, district VBC director. Waco.

According to camp librarians, most popular books include, in the fiction field, adventure, aviation stories, historical novels, humor, mystery, sports, and western; and, in the non-fiction field, applied psychology, current events, military publications, crime and FBI, police system and finger printing, English grammar, arithmetic, algebra, geometry, trigonometry, calculus, up-to-date technical books,

accounting, shorthand, business and salesmanship, lettering and mechanical drawing, photography, cartoons, music, sports, poetry, plays, geography, travel of the last ten years, biography, history and books on how to write.

This Victory Book Campaign will give each person a chance to contribute in a small way in the present war effort. Contact your local chairman for additional information or take your books to the library.

Give a book and help morale of the boys who are fighting this war!

KEEP 'EM READING!

It is difficult to contact directly all potential donors who have books which they would gladly give if informed as to the great need for that morale-building force among Soldiers Sailors and Marines.

Such knowledge, relaxation, and information imparted by books are needed in the nation's camps, stations, and ships.

Every community in Mills County is urged to conduct the Victory Book Campaign.

Won't you see that the campaign is started at once in your community?

And bring the books collected to Red Cross headquarters in City Utilities building on west side of court house.

MRS. J. H. SAYLOR,
Victory Book Chairman.

WATCH WAR PROPAGANDA

By GEORGE C. HESTER

One of the peculiar characteristics of this World War is the fact that from the beginning it has been a war on the political front. The way for some of Hitler's most significant victories was paved by an advanced political attack. The "softening up" process, as he terms it, served to create doubts and dissensions in the minds of the people which weakened their morale and in some instances even prevented their resistance.

Today the same type of political warfare is being waged on every front. It is causing trouble for the Allies all the way from Spain to Burma. Incipient revolts are brewing everywhere in these areas. The avowed purpose of Japan's strategy is to win some quick, initial victories and then concentrate on the political front by attempting to arouse the Orientals against the white man. The Hindu will be told to revolt and throw off the white man's yoke. Everywhere will be preached the doctrine—"The Orient for the Orientals." It is by this method she hopes to win the war.

This is a vital phase of the whole military problem that officials in both Washington and London have failed signally to understand and appreciate.

In the coming months the people of this country can expect certain phases of this political warfare. Some of it will come from innocent and well-meaning people, but people who fail to understand its real significance.

One phase of it we are already beginning to hear. It is becoming a cardinal principle of the Nazi effort to spread dissent among the Allies. It runs something like this:

"If Russia wins the war, the whole world will be engulfed by Communism. Hitler is really trying to save the world from such a fate. Sooner or later the Democratic powers will have to fight Russia. Why spill our blood to save Russia now?"

Of course, the answer to such propaganda is perfectly obvious. Russia today is the supreme obstacle to Hitler's conquest of Europe and Asia. It lies across his path like a mountain range, and its people are as hard and as determined as the rocks. Moreover, Russia has never shown any intentions of conquering the world. The conquest of the strategic position in Finland was for her own protection, as Russia foresaw what was coming.

We should recall that it was Russia who proposed complete disarmament of all countries before the League of Nations several years ago. It was the others who refused and then Russia prepared for war.

The fact is that Russian advance today threatens Nazi Germany and not the United States and England.

There are several other lines of this propaganda attack. One in particular is the attempt to discredit England's effort and try to drive a wedge between the U. S. and England. It is insinuated that England is waiting for the U. S. to do the fighting, and especially for the U. S. to pay for the war through the lend-lease.

It would, of course, require an extensive article to array all the facts in repudiation of such assertions. Anyone with an elementary acquaintance with England's far-flung war efforts, and the intensive efforts of her people both at home and abroad, are thoroughly aware of the falsity of such arguments. Incidentally, the same arguments against the U. S. are being used in England.

There they are telling the British people, and especially the British subjects in other parts of the world, that the U. S. has no stomach for fighting and intends to lie back and let England do the bleeding. These two arguments are utterly contradictory, but inconsistency has never bothered the Nazi propaganda machine. With them it is anything for the interest of Germany. Japan is equally as unscrupulous, but not quite so scientific in technique.

It is up to the American citizen to stand on his own feet and do his own thinking. The success of our war effort and even the future security of our country demand it.

Bridging The Future

(From THE SILVER LINING)

LIKE A MIGHTY RIVER roaring through a rocky gorge the unknown future faces America.

We in America today face the gigantic task of building a bridge to span the dangerous years ahead. We must build a bridge above the dark waters of disaster, over which the generations-to-come may pass in safety.

Spanning the Hudson River, from the Palisades of the New Jersey Shore to the Heights of Manhattan on the New York side, is the famous George Washington Bridge—one of the longest and largest suspension bridges in the world.

The length of the main span of the bridge is 3,563 feet! The total length between anchorages is 8,200 feet! From a distance, the cables look like the web of a spider, but they are the strength of the bridge; they must support the tremendous weight of 160,000,000 pounds! These cables are three feet in diameter; they are made of sixty-one interwoven cables, four and one-half inches thick. The smaller cables are made by spinning together 434 strands of thin steel wire, each wire less than one-fiftieth of an inch in diameter. Thus bound together, 26,474 of these tiny wires make the large cables that must support the load of millions of pounds.

The strength of America's bridge depends upon spinning the tiny wires of individual ability into the sturdy cables of co-operative strength.

All the tiny wires of constructive Americanism: creative ideas, team-work, loyalty, faith, courage, work, love, must be united in powerful cables to withstand the pounding force of the world-storms which are endangering our way of life.

Each of us can help to build the bridge by junking the defective wires of discord and bitterness, and spinning into the giant cables only the best qualities of our minds, hearts and spirits. We must spin together everything that is strong and good in America and omit all that is weak. Thus, together, we can build an American Bridge with the supreme strength to span any future!

We must do something to be happy.—Hazlitt.

LOOKING BACKWARD

TWENTY-FIVE YEARS AGO

From Eagle files Feb. 17, 1917)

R. H. Patterson of Star came over Tuesday and accompanied the Goldthwaite delegation of bankers to the Brownwood convention.

The Mills County Singing Convention held a quarterly session in Goldthwaite last Saturday and Sunday.

H. F. Butts and Miss Lillie Martin left yesterday for market to buy spring goods for Henry Martin's dry goods store.

In speaking of the remodeling of the Brown County court house, the Brownwood News says: "The new court house will be a very handsome building, patterned something after the new court house at Goldthwaite. It will do service for the county for the next 35 years, and when it is completed every citizen of the county will have cause to be proud of it."

Rev. D. I. Haralson left for Comanche yesterday and will preach there tomorrow.

Abney and Roberts received a car of wagons and farming implements Saturday. Johnnie Roberts, despite the cold weather and being a new married man, was busily engaged unloading them Monday and Tuesday.—Mullin News.

Mr. Thurman Sexton and Miss Mollie Kirby were united in marriage at Lometa last Thursday.

INCOME TAX INFORMATION

In the event of failure to make and file an income tax return as required by law within the prescribed time, a certain per cent of the amount of the tax is required to be added to the tax unless failure to file the return within the prescribed time is shown to the satisfaction of the Commissioner to be due to reasonable cause and not to willful neglect.

The amount to be added to the tax is 5 per cent if the failure is for more than thirty days, with an additional five per cent for each additional 30 days or fraction thereof during which failure to file a return continues, not to exceed 25 per cent of the aggregate.

A taxpayer who files a tardy return and wishes to avoid the addition to the tax for delinquency must make an affirmative showing of all the facts, alleged as a reasonable cause for failure to file the return on time, in the form of an affidavit which should be attached to the return. Alleged ignorance of the law does not constitute reasonable cause for delinquency.

Taxpayers should make every effort to file their returns within the time prescribed by law and thus avoid the possibility of the additions to the tax for delinquency in filing returns.

Do not forget that single persons or married persons not living with husband or wife, who earn as much as \$1443 a week for the 52 weeks of the year, and married persons living together who have aggregate earnings of as much as \$28.85 a week for the year, are required to file returns.

Short Lessons In FIRST AID

4.—TO TOURNIQUET OR NOT

In no accident emergency is there greater need for prompt and effective action than in the case of serious bleeding. Loss of half of the blood of the body is fatal, and the loss is sometimes rapid.

Impelled by such knowledge the would-be samaritan is inclined to act in accord with the urge to "do something quickly." Yet here, where time is of the essence, it is most vitally important to do the right thing. Assistance must be effective as well as prompt.

In comparison with the actual performances of the untrained in cases of hemorrhage, the yarn about Pat, who put a tourniquet around Mike's neck to prevent his bleeding to death from a cut on the chin, is neither so funny nor so far-fetched as it may sound.

Virtually everyone, it seems, is tourniquet conscious. Ask any one of a dozen untrained in First Aid: "What would you do to prevent serious bleeding?" and you will invariably get the prompt and assured response: "Use a tourniquet."

Unfortunately, that is not invariably the right answer; and even in cases where it is the right answer, adequate knowledge and training of the kind readily obtainable through Red Cross First Aid courses is essential. Instances are numerous in which the victim's condition has been aggravated or his death made certain by well-meaning but bungling use of this device.

Such instances include use of the tourniquet in the wrong place (sometimes even on the wrong side of the wound); application of insufficient pressure, which may agument the bleeding; constant application of pressure for too long a time, which may cause gangrene to set in; and the use of wire, rope or other material suitable for a tourniquet, which may so seriously injure the member that amputation is necessary.

Adequate knowledge of First Aid can be had only by means of competent instruction and training, but the fact should be mentioned that a tourniquet, unless properly applied, is a dangerous instrument and that it should not be used if bleeding can be readily checked otherwise. In brief, the tourniquet is useful only in case of bleeding from an injury of one of the limbs, and there are only two places where it can be effectively applied:

- 1.—Around the upper arm about a hand's breadth below the armpit;
- 2.—Around the thigh about the same distance below the groin.

The quickest and most convenient method of stopping the flow of blood from an external wound, regardless of its location, is by means of hand pressure applied between the injury and the heart at the proper one of six points where the main arteries lie close to a bone. Knowledge of the exact location of these pressure points is of course essential. The use of such digital pressure recommends itself because it requires no equipment and because it answers the purpose immediately and pending whatever additional procedure may be necessary.

Bleeding from some wounds can be stopped by the use of a dressing or compress, which is the same given to material applied directly over the wound. The material most commonly used for this purpose is gauze, which is preferable because it is absorbent and does not exclude the air. It is of the utmost importance that the compress be not only clean in the ordinary sense but that it must be free of germs, which is to say it must be sterile. Use of the compress alone is seldom sufficient to prevent serious bleeding, but is helpful in causing the blood to clot and is often desirable in connection with digital pressure or the tourniquet.

It should be apparent from this brief discussion of the subject that although the tourniquet, when properly applied, is invaluable under certain circumstances, it is by no means a panacea for the prevention of bleeding, that a knowledge of its

State Department Health Notes

HOW TO FIGHT COLDS

With open season colds in full swing, Dr. George W. Cox, State Health Officer, suggests ways by which they can be avoided or reduced to a minimum. Here they are:

NUMBER ONE: Keep yourself as fit as possible. Substitute the simpler and more nourishing foods for rich mixtures. Eggs, milk, and other dairy products, fruits and green vegetables are rich in the vitamins that are a protection against colds. Add them to your diet. Drink several glasses of water daily.

NUMBER TWO: Dress according to the weather. Keep comfortably warm. Have a sweater handy or a warm coat to slip on when the days turn cold suddenly. Light a fire or turn on the heat if your house is damp and chilly. If you are a housekeeper, get your warm bedclothes out—and use them.

NUMBER THREE: Avoid sudden chilling. Change as quickly as possible to dry shoes and dry clothing if you are caught unprepared in a drenching rain.

NUMBER FOUR: Get some exercise in the open air every day—a brisk walk, if you can't do more than that. Hold your head up and breathe deeply as you walk. Keep your sleeping quarters and your working rooms well ventilated, and get plenty of sleep.

NUMBER FIVE: Colds are catching. Don't go where people are coughing or sneezing. Wash your hands before eating.

NUMBER SIX: If your powers of resistance have been lowered and a cold "catches" you, don't fight it. You will save time and strength and get well more quickly if you go to bed, eat lightly, drink plenty of water and stay in bed until your physician says you may get up. Don't wait, either, until you are seriously ill to send for your doctor. Send for him promptly, and follow his advice.

NUMBER SEVEN: Don't give your cold to others. Have your own towel and drinking glasses. Don't broadcast your germs. Don't sneeze or cough in your neighbor's face. Keep yourself well supplied with paper handkerchiefs and destroy them after using. Postpone visits to friends until your cold is non-communicable.

MEASLES EPIDEMIC

Measles in Texas is reaching a mild epidemic stage at present, with outbreaks following closely the main lines of travel across the state, according to information just made public by Doctor George W. Cox, State Health Officer.

"The peculiar pattern of this spread of measles emphasizes the fact that it is a contagious disease, passed on from one person to another," Doctor Cox said. "Guard against exposure by avoiding contact with measles patients."

Doctor Cox said that measles alone is not necessarily a dangerous disease, but dangerous complications, such as streptococcus, mastoiditis, and pneumonia which frequently follow, make it a disease to be carefully nursed, with close attention from a doctor.

"Unskilled treatment of a plain case of measles can result in complications which often kill," Doctor Cox warned, "and it is not to be regarded lightly as simply another childhood disease."

Doctor Cox urged parents to carefully watch children exposed, and at first sign of temperature, flushed face, sniffles, or watering eyes, advised that the child be put to bed immediately and placed under a doctor's care.

(Intended for last week)
 Rain is our main desire these days.

Mr. and Mrs. Raymond Webb and children, Dianne and Joe, of San Angelo spent the week-end with her sister, Mrs. C. L. Mashburn. They spent part of Saturday in Brownwood. We hear they are thinking of locating there.

Mrs. Sydney Boyd and her charming little family of four—Sylvia, Lavelle, Winelle, and Bryan—of Indian Creek joined us in our Sunday School Sunday.

Mrs. Irene Reeves spent Tuesday afternoon with Mrs. John Briley.

Mr. and Mrs. Edward Egger's new house is looming up and taking on the appearance of a substantial, comfortable home. While it is not yet finished, they moved into it last week so as to be able to put in more working hours on it.

Since Mr. and Mrs. Hubert Reeves and children have moved to Texarkana, Mr. and Mrs. Stanley Reeves are occupying their home.

Mrs. Ira Egger spent Monday night and Tuesday night with her friend and neighbor, Mrs. Edna Dwyer, while Ira was scouting around trying to fine stock to stock their farm.

Mr. and Mrs. Johnnie Egger visited Mr. and Mrs. Marvin Hinesly and Mr. and Mrs. Luke Russell Sunday.

Mr. and Mrs. Dale Reid and children, Mr. and Mrs. Charn Whittenburg and children, and Darvin Roberts and Miss Ann DePriest of Brownwood called on Mr. and Mrs. P. R. Reid Sunday afternoon.

Mr. and Mrs. J. R. Wilmeth, Mr. and Mrs. J. R. Briley, and Mrs. Edna Dwyer visited Mrs. Bob Egger Sunday afternoon.

Mr. and Mrs. Charn Whittenburg and children also called.

Mrs. Egger has been in bed for over four weeks, and she may be there for several weeks yet. Her doctor has told her that she must not exert herself to talk, but she may listen to others talk. She is trying to follow his orders minutely. She is being well cared for by the members of her family. She does not seem to be discouraged, but is very patient and hopeful. And we hope with her that she may soon be up again.

Mrs. Egger's mother, Granny Hobbs, has been in her home for the past few weeks. Granny will be 88 March 1, and with the exception of poor eyesight, she is still hale and hearty. She was able to help Bob get breakfast one morning not long ago.

Mr. and Mrs. Cecil Egger and Ynelle spent Sunday with Mr. and Mrs. Henry Egger at Regency.

Mr. and Mrs. Orvel Egger and baby spent Saturday night and Sunday with Mr. and Mrs. Ira Egger. Then Mr. and Mrs. Egger went home with them and stayed until Monday evening.

Mr. and Mrs. Raleigh Egger and Pat of Brownwood were out to see the new house and visit with Mr. and Mrs. Edward Egger Sunday afternoon.

Mrs. Nellie Malone writes that she and her folks at Van Horn have all had the flu. She hopes to be with us again before long and get busy raising stock, chickens, turkeys, feed, and garden to help in defense.

Mrs. Winter Stevenson and brother, Jim Hunt, and Mrs. Ora Black attended the funeral of Mrs. Steve Jones Sunday in Lometa.

Miss Greta Sue Hines was a Saturday night guest of Mrs. Tom Ford, who was visiting in the home of Mrs. Cora Ford.

We wish to correct a mistake made in last week's report of the Scallorn H. D. Club which met with Mrs. O'Bannon. I should have said Mrs. McMullen. Our next meeting will be with Mrs. Millican.

Improved Uniform International SUNDAY SCHOOL LESSON

BY HAROLD L. LUNDQUIST, D. D., Of The Moody Bible Institute of Chicago. (Released by Western Newspaper Union.)

Lesson for February 22

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JESUS APPOINTS AND TEACHES THE TWELVE

LESSON TEXT—Luke 6:12-26. GOLDEN TEXT—Let your light so shine before men, that they may see your good works, and glorify your Father which is in heaven.—Matthew 5:16.

God is sovereign and has all power. He might, therefore, perform His works without the help of man, and on many an occasion He does just that.

That fact makes it all the more glorious that He ordinarily works through men, giving to them the privilege of companionship with Him in service. Sinful and weak though they may have been, they become strong and holy in Him, able to do valiant service in His name.

1. Appointed to Serve Christ (vv. 12-19).

It is the constant teaching of Scripture that those called to serve God are not self-appointed. They are:

1. Chosen by Him (vv. 12, 13). He chooses whom He will, gives them the gifts and the grace for ministry (and both are important!), and provides them a place of service. It is vital to the servant of Christ that he know that he has been chosen and called of the Lord. Only with that assurance can he meet the problems and bear the burdens of the work.

Observe that it was after a night of prayer that Jesus appointed the twelve. How many churches give that much prayer to the choosing of their leaders? Do we not need it far more than did our Lord?

2. Called from Many Walks of Life (vv. 14-16). The apostles were men of widely differing gifts, temperaments, and personal characteristics. Some had unusual ability, others apparently were of ordinary qualifications. They were of many occupations, fishermen, a tax gatherer, etc.; but not one was by profession a preacher or priest.

Were men to choose for such offices they would look within the narrow limits of a few learned professions, with certain nationalities preferred, and with position in life an important factor. God cuts across every man-made limitation and calls His workers as He sees fit.

3. Companions in Service (vv. 17-19). At once the twelve received their introduction to service to the great multitude diseased, demon possessed, in spiritual need. It was Jesus who healed them (and notice that "he healed them all," v. 19), but verse 17 tells us that the newly appointed apostles came and stood with Him. They had fellowship with the healing and serving Christ, just as we may have it in service for Him today.

II. Prepared to Live for Christ (vv. 20-26).

Service for Christ is as much (perhaps we should say, more) by life as by ministry. The twelve needed instruction that their spiritual perspective might be right. He tells them:

1. How to Meet Difficulties (vv. 20-23). Poverty, hunger, weeping, being hated for Christ's sake, these were the things that Jesus knew His servants might expect, so He prepared them. They were told that these things need not disturb them, for there is a kingdom coming; there will be a time when every hunger will be satisfied, when weeping shall turn to laughter.

Hatred for Christ's sake is declared to be the occasion for an outburst of joy because of the reward which awaits in heaven. Scripture speaks much of rewards, and we do well to encourage ourselves and other Christians by the blessed prospect.

Meeting difficulties is a matter of having mental and spiritual eyes rightly focused. If we do, we can see right through them and see that on the other side there is blessing.

But there are temptations in another direction, so He tells them:

2. How to Avoid Dangers (vv. 24-26). Jesus is here speaking of those who, lacking true spiritual vision, revel in the satisfaction of worldly things without a thought of God. The passage, however, may well be applied to the worker for Christ. Often he will be tempted to covet the wealth, the prosperity, the pleasures, and popularity of those round about him.

The question which comes to him is, Why should I and my family not share these pleasant things? Therein lies a temptation to become worldly-minded, centered in the temporalities of life. Let him learn that money in itself cannot bring lasting joy; that the fullness of this world is soon exchanged for an eternal emptiness; that the shallow laughter of this world's fun rapidly gives way to weeping.

The praise of men—popularity with those who know not Christ—is a futile thing. One day they will praise a man to the skies, and the next day no evil word or disgraceful treatment is spared to destroy and dishonor him.

CENTER CITY

MRS. J. M. OGLESBY

Fine showers of rain fell here Saturday and Sunday night. A brisk norther blew the clouds away Monday morning.

Tom Booker spent several days at the soldiers' hospital at Legion.

A miscellaneous shower was given Mrs. Bill Park at the home of Mr. and Mrs. Chas. Welch last Friday. Mrs. Park, a recent bride, is known to her friends as Miss Annie Laurie House, and we wish her and her young husband much happiness in life. Refreshments consisting of ham sandwiches, hot chocolate, cake and mint cream were served to all present.

Mr. Park left Camp Bowie Sunday morning with other soldiers to be sent where Uncle Sam needs them most.

The Methodist members of the Sunday School joined the Baptist members and together had an interesting lesson. Their pastor, Rev. Sims, was not present so there was no preaching.

Many parents and relatives in this community visited the boys in Camp Bowie last week.

We regret very much to learn Grandmother Shaw has been quite ill at the home of her daughter, Mrs. Brock McFarland.

Mr. and Mrs. Bobbie Lee and daughter of Hamilton visited in the Aubrey Head home Sunday.

Miss Violet Lee attended the air raid meeting in Brownwood Monday and reported a most interesting meeting to aid defense.

Bro. Allen Carter received a message Wednesday that his sister, Mrs. Ben Halstead, of Baird had passed away at two o'clock. He and his wife and Mr. and Mrs. DeAlbert Carter left immediately and attended the funeral services at the Christian Church in Baird. Harmon McCasland and family of Star also attended the last rites. Our sympathy is extended to Mr. Carter and relatives. May God comfort each in their hour of gloom.

Mr. and Mrs. Robert E. Lee and son, Mrs. W. T. Lucas and Mrs. Ira Alldredge and son Garland visited Mr. and Mrs. Avery Lee, Miss Shirley Lucas and Billie Johnson in Abilene last week-end.

Mrs. Chester Head was carried to Temple last Friday, where she entered a hospital.

She underwent a major operation Monday morning and at this writing is not recovered sufficiently for a favorable report. She has been in failing health for more than a year. Her many friends wish for her a speedy recovery.

Mrs. Joe Langford, supervisor of the Red Cross sewing, was very successful and finished the first 30 shirt allotment last week. She is well pleased with how the ladies responded to the call and there is much more to be done so all will have a chance to help.

Mrs. Emma Casbeer accompanied her daughter, Mrs. Chester Head, to Temple last Friday.

**WENDELL HAMILTON
 READY FOR THE JAPS**

The following letter is from Lt. O. W. Hamilton, another Mills County boy making good in Uncle Sam's armed forces. Wendell went to school at Star. Judge R. J. Gerald was his teacher all through high school. Then he went to John Tarleton, and finished his degree at A. and M. College:

Aircraft Warning Depot. Signal Corps School, Ft. Monmouth, N. J. Jan. 18, 1942.

Dearest Mom and Family:
 Hello Shirley Ann, Eddie Blake, Jack R., Harold J., Mom and Dad.

Have been in New Jersey several days. I am in the Aircraft Warning Department of the Signal Corps school. I now go to school from one o'clock in the afternoon to 2:30 at night.

I will probably be gone from Ft. Monmouth before this letter reaches you for parts of the world unknown. Aircraft warning seems to be very much in demand. Men can't be trained fast enough, thus the reason for going to night school. Men are being sent to all parts of the world. Where my particular spot will be, I don't know. The equipment we use is very secret, so the name of the school aircraft warning will give you some suggestion as to what I will be doing.

I have my application in at Washington, D. C., for a ten thousand dollar life insurance policy.

I am just 45 miles from New York City. I have been through the city three times. Buttons, to look up at those tall buildings really blister your tonsils. To go through New York City you get up on the overpass and look down at the city. Traffic really moves. There are six lanes of traffic. Two lanes travel at 60 miles per hour, two at 45 and two for trucks and buses only. You have to look at the third traffic light ahead of you and stop on it. Then you go through the Holland Tunnel, which has 60 feet of water over it. From the Holland Tunnel you go on to the Merritt Speedway and buss for about 30 miles through the rest of the city. There are no traffic lights on

**FISHER DENOUNCES
 PENSIONS FOR CONGRESSMEN AS PASSED**

District Attorney O. C. Fisher of San Angelo, who is a candidate for Congress from the 21st District, is unalterably opposed to pensions for Congressmen, according to a news report from there.

"Congressmen receive a liberal salary of \$10,000 per year," Fisher pointed out. "We are now in a life-and-death struggle when not one cent of public money should be diverted to wholly unworthy and unnecessary purposes such as pensions for Congressmen."

"There is no conceivable excuse for congressional pensions that didn't exist months and years ago," he continued. "And even if this proposal had merit, it either should have been voted upon prior to the present national crisis or postponed until after it had ended."

The new pension law was recently enacted after it passed the Senate with some opposition and went through the House of Representatives on January 21 without a dissenting vote. Mr. Fisher expressed the hope that Congress would soon respond to public demand and repeal the act.

**Paper Committee
 Wants People To
 Save Waste Paper**

Paper is needed for National Defense. It is your patriotic duty to save old paper. It is also your patriotic duty to save it in a way that it is not a burden to handle.

The way paper has been delivered to the paper depot in the past necessitated the hiring of labor to assort it. If you will co-operate the extra labor can be eliminated. The cost of one day's labor is more than the value of 1,000 pounds of paper.

Paper should be assorted in four classifications. Magazines, newspapers, cardboard, and waste paper. Securely tie all magazines separately. Securely tie all newspapers separately. Securely tie all cardboard separately and place all waste paper either in boxes or bags. Securely tied means in a way the bundles can be pitched in a truck without the paper becoming separated. You can tie the paper with a wire or stout strings. Do not put rags or other waste in with the scrap paper.

Bring the paper to the paper depot, at old ice house next door to the Community Public Service Building. If you do not have a car we will collect paper on every Wednesday afternoon. If you will phone No. 186 and leave your name and address, it will only be necessary to make one call, as your name will be put on a permanent record.

We want your old paper, your country needs it and needs your co-operation in doing the job right—Paper Committee Mills County Women's Defense League.

There will be services at the Moline Baptist Church next Sunday, Feb. 22. Come to Sunday School and then attend preaching both morning and evening.

We extend an invitation to all those living in the joining communities to come and worship with us, if you are not attending services at your own church. You will be received with a hearty welcome at our church.

It seems to me that all of us, especially Christian people, should be deeply concerned about religion at this time. If there is anything that will put this old world right, it is the Religion that the Bible teaches and that was put into practice by Jesus Christ. If the world would abide by the things Christ taught, we would have peace and not war. Show your appreciation of what Christianity means to the world by attending services Sunday.

**FIRST BAPTIST
 CHURCH**
 E. E. DAWSON, Pastor

On the first Sunday of war time, Brother Lazybones and Sister Sleepyhead failed to get up in time for Sunday school and worship service. But both have purchased alarm clocks and promise to do better next Sunday. So here's hoping. Really, we did pretty well in spite of the radical change. Faithful Christians and true patriots will adjust their lives to the new situation and sustain the things that we love and for which we have unyielding convictions.

Next Sunday the church observes its annual call of a pastor. Every member will please take notice of this important event.

There is always a genuine if not worldly welcome to those who worship with us.
