NUMBER FOURTY-SIX

Business Census For Mills County District 16 Baptist Brotherhood To Start In Goldthwaite Next Week

W. L. ROY WELLBORNE

W. L. Roy Wellborne of San Angelo was in Goldthwaite Wednesday morning making arrangements to begin a business census of Mills County, to start Tuesday or Wednesday of next week. Mr. Wellborne has been appointed by the U. S. Bureau of the Census to oversee the enumeration of business establishments in 27 counties, covering the 21st Texas Congressional District. His headquarters are in San Angelo. He and his crew are working in Lampasas and Brown Counties this week.

A. E. (Ed) Lamb, principal of the Brownwood Junior High School will be in charge of the business census in Mills County, and expects to start next Tuesday.

Business men of Goldthwaite and the county are asked to co-operate with the census takers, which is for business only. All answers to the census enumerators are held strictly confidential, and the census covers the year of 1948 only. An Act of Congress requires that all business shall report on the forms, which are for retail, wholesale and service establishments only.

This business census is not to be confused with the 10-year population census, which will start in the spring of next year.

The Census of Business is required by an act of Congress to be conducted in 1949 and every fifth year thereafter. The act makes it the duty of business owners and managers of establishments covered by the census to supply complete and accurate information, to the best of their knowledge, to inquiries on the census report forms. Since this law imposes penalties for failure to furnish the required census reports, the bureau discharged its obligation by designing the report forms and reporting procedure so as to make the requirements for compliance with the law reasonable.

The reporting forms used were designed to make the businessman's part in the census as effortless and time saving as possible. The information requested usually is available from records kept by business establishments. More than a year's work, including many conferences with over 50 national trade associations, authorities on accounting practices and practical businessmen, was devoted to development of these forms.

Two adaptable reporting forms will be used, one for most of the retail stores with sales under \$100,000 last year, the other for the larger establishments.

The form for the smaller establishments is brief and printed on a single sheet of paper, with inquiries under six headings. About half of these inquiries can be answered without reference to any records at all. These cover identification and location of the business, its ownership, legal form of organization and related information.

GOLDTHWAITE TO BE CLOSED MONDAY FOR JULY FOURTH

The Bank, Courthouse, Post-office and Goldthwaite stores will all be closed all day Monday, July Fourth.

Several years ago the business and professional men of this city got together and decided on four holidays each year on which to close their businesses—July Fourth, Armistice Day, Thanksgiving, and Christmas Day.

The Post Office will be closed Monday. There will be no Rural Route service, but there will be window service at the post office from 11 a. m. to 12. Incoming and outgoing mail will be handled as on other days, Lucile Fairman, acting postmaster, said.

Spread of anthrax among cattle across the San Saba River county line into San Saba County Wednesday forced the Texas Livestock Sanitary Commission to extend the quarantine to cover the nick in the southern edge of Mills County that was left out of the quarantine area, and in San Saba County between the San Saba and Lomet Highways down to the San Saba River bridge.

Dr. G. A. Kay of Dallas, special man on contagion for the Livestock Sanitary Commission, has been working in San Saba and Mills Counties the past two days, extending the quarantine and checking up on vaccinations. Most Mills County livestock in the quarantine area have now been vaccinated, and few additional cows are being found dead from anthrax.

Dr. J. S. King of Brady, District Veterinarian for the Texas Livestock Sanitary Commission, has the duty of overseeing the vaccination, and the Mills County Sheriff's Department is to enforce the quarantine and keep all domestic animals from entering or leaving the area. The quarantine was established in the western and southern portions of the county last Thursday, June 23, and is to last for 30 days, or longer if necessary.

For information, assistance, or to report any irregularity, the Sheriff's Department should be called.

Sheriff Wiley L. Mahan last Saturday placed the following guards on main roads leading in and out of the quarantined area. They are working in pairs, with one on duty at all times 24 hours per day:

- Dan Holland, Worley Laughlin, J. T. Stark, Guy Waldon, Randolph Massey, Ben Massey, O. D. Williford, Elbrey Davee, Luther Geeslin, Tom Seabolt, Wilford Gray, Ernest Thorn.

San Saba County Commissioners Court is furnishing two guards who are stationed across the Colorado River bridge. Lampasas County has been requested to furnish two.

Following is the official order from Dr. Roy Loventhal of Fort Worth, head of the Texas Livestock Sanitary Commission, which placed the quarantine in effect.

NEW HUMBLE ESSO EXTRE MOTOR OIL NOW ON SALE

Houston, June 27—At more than 2,000 retail stations in Texas, Humble Oil and Refining Company this week is introducing new Esso Extra Motor oil, companion product to premium Esso Extra gasoline.

The motoring public is hearing about this new detergent-type motor oil through one of the most aggressive advertising campaigns ever placed behind a product by Humble. Advertising is being carried in more than 400 Texas newspapers, and this effort is being supplemented by radio, poster board, point of sale, and direct mail programs.

Service stations in cities, towns, and hamlets over the state are decorated for the occasion. On the driveways of these stations are more than 4,000 salesmen who have learned about the new product in a series of 30 educational meet-

ings held in recent weeks.

The new Esso Extra Motor oil is the result of several years of research and more than one million miles of test driving under all kinds of conditions. Humble sales executives announced. It contains a detergent agent which enables the oil to clean as it lubricates. It also holds in suspension such impurities as accumulate in the oil. Humble technicians explain, and thus makes for a cleaner motor.

Ten Constitutional Amendments To Be Voted On In Texas In September

Voters of Texas will have privilege to vote on at least ten contemplated amendments to the Texas Constitution. Date has been set for Sept. 24 for the election, but this may be changed to a later date to allow for more amendments on the ballot.

The Eagle is printing five of these amendments for four issues, as required by law, and the Mullin Enterprise is publishing the other five. Every voter should read and study them, or put them away to study just before election time.

In brief, the amendments if adopted would change the present constitution to:

Have regular sessions of the Texas Legislature every year, with Legislators' pay \$3,600 a year, instead of the present method of every two years with pay of \$10 a day for the first 120 days, and \$5 thereafter.

Abolishing payment of the poll tax as a requirement for voting, and providing for a general registration law.

Permitting women serve on grand and trial juries. They can't do so now in Texas.

Giving the Legislature power to provide for establishment of rural fire prevention districts that could levy a property tax of no more than 3 cents per \$100 valuation.

Giving the Legislature power to provide for organization of city-county health units and authorizing those units of government to levy a tax of not more than 20 cents per \$100 valuation upon a vote of the people affected.

Authorizing the Legislature to provide for civil service systems in counties of more than 75,000 population, upon a vote of the people. Appointive jobs only would be affected.

Providing that district courts shall hold proceedings at the county seat in which the case is pending, "except as otherwise provided by law." That "except" phrase would permit the Legis-

QUOTAS LIFTED FOR AIR FORCE RECRUITS

With the reactivation of numerous Air Force Bases throughout the States, the Air Force has temporarily lifted the quota restrictions on Air Force enlistments, Captain Wayne Hall, Commanding Officer of the Abilene US Army and US Air Force Recruiting Main Station, disclosed this week. Prior to this, Captain Hall said, only a limited number of men were permitted to enlist in the Air Force each month.

The Lubbock, Texas, Air Force Base is among the bases that will soon be reactivated.

Interested persons should contact the recruiting Sgt from the Brownwood US Army and US Air Force Recruiting Station, who will be here in Goldthwaite

Allowing the Legislature to enact laws permitting waiver of a jury trial in most lunacy cases.

Authorizing the Legislature to create hospital districts with a supporting property tax, on a vote of the people in the proposed districts.

Permitting laws to establish retirement and disability pensions for appointive county officers and employees on a voluntary basis.

New Product Meets Million-Mile Test

WARNER BROS. SET MED COMEDY POPULAR PRICE

Noted by the country's critics among the Ten Best Pictures of the year, Warner Bros.' zany laugh-fest, Clarence Day's "Life With Father" comes next Tuesday to the Melba Theatre at popular prices.

This unique family of red heads from Father, played by William Powell, and Mother, played by Irene Dunne, through their four young sons, keeps the screen constantly alive with a regular volley of laughs. Warner Bros.' "Life With Father" considered one of the funniest pictures ever made in Hollywood.

Powell creates one of his most memorable characters as the eccentric Father Day. Critics labeled it one of the outstanding performances of the year also. Miss Dunne, as Annie, his loving wife, also merits special praise for her portrayal. The intimate laugh-filled home life of the Day family in their brownstone manse at Madison Avenue in New York City during the elegant eighties provides the setting for this rich American comedy.

'FAMILY HONEYMOON'

With their "The Egg and I" still vividly memorable as a commercially successful commercial comedy, Claudette Colbert and Fred MacMurray appear sure to click again in this partly similar and partly very dissimilar presentation. It is funniest in its bucolic sequences, where physical humor predominates, but funny enough in its more sophisticated sections to catch those audience elements "The Egg and I" may have missed.

Frustration is the keynote, with all developments conspiring to keep newlyweds in separate beds throughout the honeymoon.

In the Dan Lussier screenplay, based on the Homer Croly novel, and directed tellingly by Claude Binyon, MacMurray is a college professor who marries Miss Colbert, widowed mother of three mischievous children who are forced by circumstances to go along on the Grand Canyon honeymoon. By getting lost, creating a furor in a hotel, and by creating confusion and havoc generally, the children precipitate an eventual separation of bride and groom. But the breach is mended at the conclusion, which leaves them alone at last.

Mr. Krause is a former resident of Mills County, having lived for several years on the Ohlenbusch Ranch, now known as the Wilke Shady Oak Ranch. He has many friends here who will wish the couple much happiness.

Mrs. Maurice Knight, Recent Bride, Honored With Shower

Mrs. M. A. Childress and Mrs. Roy Simpson were hostesses at a shower honoring Mrs. Maurice Knight, a recent bride, at the home of Mrs. Childress, Thursday afternoon, June 16th, from two to five o'clock. The bride is the former Miss Earline Simpson.

The dining table was laid with a lace cloth, centered with a lovely flower arrangement of gladioli and roses, a three-tiered bride's cake topped with a miniature bride, and punch served from a crystal bowl.

About forty guests called during the afternoon, and several who were unable to attend sent gifts. The bride was the recipient of many lovely gifts.

A new Federalized Housing bill and a new long-range agricultural measure scored in the news on Capitol Hill last week. With some difference in House and Senate versions of housing, the details of the proposed new housing law will not be known until a conference committee iron out the differences.

There are several certainties, however, about the future of housing as the picture unfolds. First, Uncle Sam is due to become the world's biggest landlord. Secondly, regardless of claims of what the program will actually cost, the fact is that the Senate bill authorizes outright grants and contributions over a period of time of \$16 billion. In addition, a total of \$2,750,000,000 is authorized for loans.

Starting out as a move to relieve housing shortage, the sponsors of the federalized housing program finally abandoned the claim that any more houses will be built as a result of the legislation. They now attempt to justify the undertaking on a basis of providing subsidized low rentals for so-called low-income people. Most of this will, of course, be in the big cities.

Building during the past two years has been at capacity and no one claims now it can be stepped up by the new program. In fact, the cost of construction is expected to go up as a result. It was pointed out that despite the high cost of labor and material, in 1947 and 1948 private builders constructed 1,785,000 new homes, the greatest number of housing units in two years ever built in the history of the Nation.

Another fact regarding the housing program stands out. That is the virtual certainty that this will be only the beginning. Mr. Foley, the Housing Administrator, testified that there are around six million people in need of the proposed low rentals. And since the pres-

S. R. Schooler of O'Donnell and J. L. Schooler of Lubbock were called to Stephenville Friday for the funeral of a relative. They came on here and spent the night with Mr. and Mrs. John Schooler.

Wade Knight of Jal, N. M., spent the past week with his brother, Mr. and Mrs. Maurice Knight, while convalescing from an appendectomy.

"Family Honeymoon," a picture that will make you forget all your troubles, Sunday, Monday at Melba.

ent measure will take care of but a million of them. It is generally admitted privately that more and costlier demands will be forthcoming in the future. It all adds up to a trend that means less and less thought is being given by our leadership to the problem of a balanced budget and a reduction of the national debt.

A brand new long-range agricultural program to take the place of the Aiken-Hope bill, passed at the last session, came out of the House Agriculture Committee last week. It would include permission for an experiment on trial run on three commodities under the so-called Brannan plan. And it includes a provision for mohair, thus giving mohair its first recognition as an important product from a legislative standpoint. This was the result of the continuous efforts of growers and particularly of the insistence of Rep. Bob Poage of Waco, who was on the subcommittee which wrote the bill.

Among recent Texas visitors have been: Mr. and Mrs. Edgar Whidden and their daughter, Mary, of San Angelo. In Washington they visited their daughter, Lois, and her husband, and were taking their own time while the polio epidemic is raging at home.

R. W. Hedges, Chamber of Commerce manager of Brownwood, attended to business during a busy two-day stop-over in the Capital. C. C. Woodson of Brownwood was also here briefly last week.

From Fredericksburg came Walter McKay and Arthur Stehling, attending to REA and other business matters while here.

Tonto Coleman, football coach at Abilene Christian College, and family came by en route to Atlantic City to the Kiwanis convention. The Coleman lived in San Angelo many years before moving to Abilene.

Other recent visitors included Mr. and Mrs. J. E. Stockton, Sr. of San Angelo; John Lee Nisbet, also from the Concho country; Miss Amy Thaxton, formerly of Menard; Dr. and Mrs. J. L. Bullard, and Mr. and Mrs. E. M. Foreman, of Kerrville.

An advertisement that came to my desk the other day sounded good. It featured "crush-resistant palm beach suits," and pictured an Angora goat, with the comment, "Angora mohair base—costly Angora mohair base fibres give you longer wear, lasting shape." The advertiser was Raleigh Haberdasher, the largest Men's wear store in Washington.

Graduating from the Naval Academy in the recent class was Ensign William Donald Weir, son of the Schreiner coach, of Kerrville. Immediately following the graduation Donald was married to Marilyn Anne Parke at Bay Shore, New York. Ensign Weir was the only graduate from our district this year from the two service academies.

Women Better Church-Goers Than Men, Belden Poll Survey Shows

By JOE BELDEN
Director, The Texas Poll

Austin—A study of church-going habits of Texas adults reveals that education and economic status are important factors that influence church attendance.

Most college-trained persons, as well as most persons of average or above average living standards, attend church regularly, according to a recent statewide survey by The Texas Poll. The survey showed, however, that the same does not hold true for the lower educational levels or the lower income groups.

Several other interesting comparisons were disclosed by the survey. For instance, women are better church-goers than men. Older persons go more often than young people. Parents attend less often than persons who don't have children. And people in big cities don't go as often as people in small towns and rural areas.

A majority of Texans go to church casually—that is, only now and then or once in a great while, if at all. It takes a great religious celebration, like Easter, to attract more than 50 per cent.

These findings are based on a survey covering a cross section of adults living in all parts of the state. Seventy interviewers for The Texas Poll asked the people these questions:

"Are you a member of any church in this county?"

Yes	76%
No	24%

100%

"Do you attend church regularly, now and then, once in a great while, or not at all?"

Regularly	45%
Now and then	30%
Once in a great while	20%
Not at all	5%

"Did you attend any religious service on Easter Sunday?"

Yes	53%
No	47%

100%

Regular attendance among the various groups of the public was measured as follows:

% Attending Regularly	
By age:	
20-29 years	41%
30-49 years	45%
50 or older	49%
By sex:	
Men	41%
Women	49%
By Economic Level:	
Below Average	41%
Average and Up	52%
By Education:	
Grade school or none	40%
Some high school	45%
Some college	53%
By Residence:	
Cities 50,000 Up	39%
Towns under 50,000	48%
Farm or ranch	47%
By Family Type:	
With Children	42%
Without Children	53%

Each person was also asked: "In your opinion, what can churches do to make more people want to attend their services?"

The three top suggestions were these:

1. Preach the Bible and have members obey Christ's teaching.
2. Obtain good preachers. Have the preachers give briefer sermons, better sermons, more educational sermons, using words that everyone can understand.
3. Show more hospitality to strangers.

A few suggested more socials and recreation, especially for young people. But there were

others who disagreed: "There's too much society in churches," said a Wharton laborer, "and not enough of Gold Almighty." "Cut out a lot of the society, and do more religious work," insisted a retired farmer.

Several criticized people who show off their fine clothes in church. Commented a farmer's wife living near Abernathy: "It would be better if people wouldn't dress so fine; then the ones who can't wouldn't feel so bad." Agreed a waitress in Galveston: "People should not dress up so much." And a business executive in Houston had the same idea: "Members should not try to out-dress one another."

But more than a third of those questioned had no suggestions to make. "I think a lot of religion," explained a mother of several children, "but my work keeps me from going." In their own way, many others said the churches could do little or nothing to bring in some people who would not or could not break away from what they do on Sundays.

SOCIAL SECURITY FAVORS YOUTHS

"Social security is the first life insurance that most school boys and girls pay for out of their own earnings by summer employment," James B. Marley, manager of the Austin Social Security Administration field office in the Brown Building, said today. "Very few of them, and few of their parents realize they are acquiring insurance, because the social security card is still usually associated in the public mind with old age."

"The fact is that eligibility provisions in the Social Security Act favor young people. Until a person is twenty-four and a half years old, earnings of as little as \$50 in as few as six different calendar quarters are sufficient credits in a social security account to give the equip-

ment of \$60.00 life insurance, minimum. The six calendar quarters do not need to be consecutive. And, no matter how young a person may be when the sixth quarter is earned, the insurance remains in force until attainment of 24 and a half years of age, even if the boy or girl never does any more work in covered employment after the six necessary quarters are completed.

"The \$60 minimum insurance protection under social security is a small sum in terms of life insurance, but it is only a beginning and will increase to substantial amounts as employment becomes regular at larger wages, and when the boy or girl takes on the support of dependents."

Health Notes

In view of the fact that June has been proclaimed National Dairy Month, Dr. Geo. W. Cox, State Health Officer, urges that with the more extensive use of milk, both producer and consumer be concerned as to its quality. The use of clean safe milk is a health measure.

Local interest in improved methods of producing wholesome milk has increased greatly in the past two decades and the striking advance in milk control has been responsible for the enormous saving in infant life.

Milk is perishable and especially during hot weather. To insure milk of good quality requires cleanliness, sterile utensils, protection against flies, careful bottling and maintenance at low temperature. The presence in fresh milk of large numbers of bacteria, due to insanitary methods of production is a health hazard.

Dr. Cox added, "Among the diseases which may be transmitted through milk are tuberculosis, typhoid fever, scarlet fever, diphtheria, septic sore throat, undulant fever, diarrhea and enteritis. Numerous milk-

borne outbreaks of disease occur every year in this country from the use of milk that might have been safe with proper care.

"We should firmly insist that the milk we drink be carefully produced, so that we will have the maximum practicable protection along the line from the cow to the consumer."

REVIVAL AT MOLINE BAPTIST CHURCH JULY FIRST TO 10TH

A ten-day Revival Meeting will start at the Moline Baptist Church tonight. Dr. D. D. Tidwell of Brownwood will do the preaching. Dr. Tidwell for the last three years has been a teacher of Bible in Howard Payne college. Prior to his coming to Brownwood as Bible teacher, Dr. Tidwell spent some twenty years in the pastorate. He has conducted revivals for years and knows church problems.

Dr. Tidwell is not a stranger in this part of Texas, as while he was a student in Howard Payne College he pastored near Hamilton, Texas. I want to say two things about Dr. Tidwell, he preaches his convictions and he is spiritual and if you want to hear the Bible preached you make your plans to come and attend our revival which will begin July 1st, and closes July 10th. On Sunday July 3rd, services will begin at 10 o'clock a. m. and 8 p. m.

As pastor of the church I want to extend to every one a welcome to each and all services. The song service will be conducted by local talent. We are looking for good crowds each night. Come and bring your lost friends.

The motto for our Revival is found in II Chronicles 7:14 is thus: "If my people which are called by my name, shall humble themselves and pray, and seek my face and turn from their wicked ways, then will I hear from heaven and will forgive their sins and will heal their lands."

E. P. KILBURN, Pastor.

REVIVAL NOTICE

There will be a Revival meeting at the Duren Church house beginning Friday night, July 1 and extending through July 11 with Rev. Vern Cook of Dublin as Evangelist and Rev. B. F. Jones, Dublin, Texas, will have charge of the song service. Every one has a cordial invitation to attend.

ANGUS FIELD DAY AT SHADY OAKS RANCH

An Angus Field Day, under direction of Chairman Ed Young of the Texas Angus Association 13th District, was scheduled to be held at Wilky Shady Oak Ranch, 10 miles south of Goldthwaite, beginning at 10:30 yesterday.

Mr. Young's announcement was received by The Eagle too late to get in last week's paper. An interesting program was scheduled, with a barbecue at lunch.

Mrs. J. H. Randolph returned home Saturday from Austin where she had gone to greet and congratulate her nephew, Senator Kyle Vick who had been made acting Governor of Texas in the absence of Gov. Jester for two days. Her sister and brother-in-law accompanied her, Mr. and Mrs. Haskell Smith who reside in Austin and great numbers of his friends from over the state were there to call on him and congratulate him as he occupied the Governor's chair. Mrs. Randolph also visited relatives in Temple, Troy and Belton before returning home.

Mr. and Mrs. John R. Graves and children, of Kermit, are here spending their vacation with Mrs. Graves' parents, Mr. and Mrs. F. P. Bowman, and other relatives. They are spending this week at the Bowman cabin, at Lake Merritt.

BE ALIVE ON THE FIFTH
Hundreds of people are killed every year by accidents during the Fourth of July holiday.

That plain fact is borne out year after year by figures from the National Safety Council. Why are they killed? It is easy to advance a lot of deeply philosophical reasons.

But there is no need to do any heavy thinking on the reasons for the holiday death toll. The reasons are quite simple, really.

For one thing, more people are driving automobiles. When more cars are on the road and they are traveling farther, the chances for accident go up proportionately.

Pleasure-bent drivers usually are in a hurry. They want to get somewhere to start having fun, or they are pounding along on the first leg of a summer vacation trip. A lot of people are doing the same thing, and it becomes a sort of race.

Beaches are crowded, too. A lot of occasional swimmers overestimate their skill or their endurance. Children excited by holiday fever elude adult supervision.

The tonic of celebrations leads to excesses in exercise, eating, exposure to sun. All of these things contribute to Fourth of July deaths.

Don't take a trip just to be going somewhere. There are many delights near home. Drive slower. Don't become impatient at unimportant delays.

Be temperate in your swimming. Keep an alert eye on children. Take your family to a public fireworks display instead of risking tragedy by personal handling of explosives.

These are the simple things that will ensure delight in a summer holiday—that will bring you home relaxed and refreshed, that will see your children safely in bed to dream of the day's pleasures.

Kipling said it: "Teach us delight in simple things and mirth that has no bitter springs."

Songs for All Hearts

Lesson for July 3, 1949

THE greatest hymn-book in the world is to be our study for three months. Not the oldest; that honor belongs to the Vedic Hymns of ancient India.

Not the largest; the hymnal of your own church may easily be twice as large. But the greatest hymn-book in the world is the book of poems was used as the hymn-book of Psalms. This collection of religious songs...

Dr. Foreman
Portrait of Dr. Kenneth J. Foreman.

How It Grew
LIKE all hymnals, this book of Psalms grew by degrees. It was not written all at one time or by one person. David wrote some of the Psalms, how many we do not know. The "titles" of the Psalms were added by later Hebrew editors, are no part of the original Psalms, and are often inaccurate.

It is very likely that as much as a thousand years went by between the first of the Psalms to be written, and the last. Every modern hymnal that is any good is in part a collection of the best of the old hymnals.

So our book of Psalms, as it finally took shape, came from older collections. A glance through it in the American standard version will show that in its present form it is made up of five smaller books, ending with Psalms 41, 72, 89, 106 and 150. Each book ends with a doxology and book V ends with a magnificent series of them. Sometimes the editors left in duplicates. Reading Psalm 14 side by side with Psalm 53 will show that these two are exactly the same, only using different names for God. At least one of the Psalms is made up of "clippings" from earlier Psalms: thus Psalm 108 is made up from Psalm 57:7-11 and Psalm 60:5-12. The Psalms were cherished and preserved generation after generation because of their heart-appeal. Our Psalm book has gone through centuries of sifting; many were dropped out and forgotten, but the best were saved and sung; and what we have is the cream of the best of the singers of Israel.

Mirror of Man
JOHN CALVIN called the Psalms the "mirror of the soul." All the varied moods of man—hope, despair, triumph, envy, doubt, aspiration, loneliness, hatred, fear, irritation, patriotism, joy, bitterness, weariness, amazement, anguish, rapture—almost every emotion that can be felt toward God or man breathes somewhere or other in these Psalms.

Since not one of the authors of the Psalms was a Christian, of course, we should not be surprised to find, here and there, expressions (for example) of hatred which are out of harmony with the spirit and teaching of Jesus. The wonder is that there is so little of that kind of thing.

For every Psalm in which the poet says something cruel or hateful (e. g. Psalm 137:9 or 109:6-14), there are scores that breathe a spirit of gentleness and grace. For every note of despair (Psalm 88 is the only completely gloomy one in the whole collection), there are many hallelujahs of hope and gladness.

Message of God
IF the Psalms are so human, how can they be also God's Word? Yet they are also, truly, a message of God. For they not only cast a divine light on the state of man's heart, but they show what the life of man is when God becomes real. For God was real to each poet who contributed to this great book. In latter weeks this summer we shall be looking at the Psalms from various special angles. This week it will be helpful to sit quietly with the three typical Psalms, 1, 67 and 100, and as you ponder over each one in turn, ask yourself: What does this show me about God? What does this show about life when it turns to God?

CHRISTIAN SCIENCE SERVICES

"God" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 3.

The Golden Text is: "I will say of the Lord, He is my refuge and my fortress; my God; in Him will I trust" (Psalms 91:2).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For the Lord is our judge, the Lord is our lawgiver, the Lord is our king; he will save us" (Isaiah 33:22).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "There is no power apart from God. Omnipotence has all-power, and to acknowledge any other power is to dishonor God" (page 228).

GEMS OF THOUGHT

All the strength and force of man comes from his faith in things unseen. He who believes is strong; he who doubts is weak. —James Freeman Clarke.

From lack of moral strength empires fall. Right alone is irresistible, permanent, eternal. —Mary Baker Eddy.

A year later, he was still missing and the War Department declared him "presumably" dead. A year later, his remains were found buried in an isolated grave at Buckersheide, Germany. He was removed to Belgium on May 3, 1946, to the National Cemetery at Neuville-en-Condroz, near Leige.

His remains were returned to the United States for re-burial, landing in New York the 4th of May, 1949. The body arrived in Goldthwaite, Saturday morning, June 25th.

Our Revival Meeting begins at the Moline Baptist Church, Friday night, July 1, and will continue through Sunday, July 10th. Bro Tidwell, of Bownwood will conduct the services. Every one is cordially invited.

Miss Melba Miller spent Sunday in the Baird home with Miss Dorothy Clapp. Mrs. Baird is taking her vacation, visiting her children in the Valley.

We will welcome back to our midst some of our old friends, Mr. and Mrs. Will Jeffery, who have moved back in their old store building.

"A farmer can build good terraces with his own equipment," N. M. Faulk, Engineer of the Soil Conservation Service, told the Farm and Ranch Group last Thursday night. Forty-five farmers and agriculture workers saw the slides that Mr. Faulk used to show the value of terracing and also the methods of constructing terraces and maintaining them.

Mr. Faulk pointed out that a cover crop of some legume was important in a sound conservation program. Contour cultivation with terraces is essential, Mr. Faulk said and protected terrace outlets and waterways are an important part of the terrace system. Terrace maintenance after the terraces are built, can be carried on as a part of the regular farm operation.

Y. B. Johnson, vocational agriculture teacher of Goldthwaite, was asked to be the program chairman for the July meeting.

Mr. Johnson will discuss the sheep and wool program in this area. Ranchers who have sheep should attend this meeting on July 28th.

Doyle and Clinton Miles spent all of this week visiting their grandmother, of Star, and attending the Vacation Bible school there.

A wedding of interest to their many friends here was that of Miss Gwendlyn Wright to Mr. Charles Lee Griffin. They were married Saturday evening in the home of the Methodist pastor, of Goldthwaite. Miss Melba Miller and Mr. Farrell Elder were their only attendants. They left immediately for Ft. Worth and Dallas for a short honeymoon. We wish for them a long, happy married life.

EDITOR'S END—
When a plumber makes a mistake he charges twice for it. When a lawyer makes a mistake, it is just what he wanted, because he has a chance to try the case all over again. When a carpenter makes a mistake, it's just what he expected. When a doctor makes a mistake, he buries it. When a judge makes a mistake, it becomes the law of the land. When a preacher makes a mistake, nobody knows the difference. But when an editor makes a mistake—good night!
