Goldthwaite Girls Defeat Eagle Lake Sexette At Weimar Tuesday Night

AFRAID OF BARBER?—Not this young man, as you can clearly see in this picture. He is taking things right in stride as he has done for some time now. One reason for that comfortable expression on his face is that he is used to visiting the barber shop and then it is quite possible that the fact the barber is "Daddy" has something to do with the situation.

"Chuck" Shaw, son of Alex and Nan Shaw has been getting barber shop hair cuts since he was a wee bit of an infant, and has been visiting Hill's Barber Shop, where his daddy is manager, for a long time. This picture was made when he was 11 months old.

His grand parents are Mr. and Mrs. Jack Shaw and Mr. and Mrs. W. H. Hightower of this city.

Regional Play-Off To Take Place At Brenham Saturday

The Goldthwaite High School Eaglettes continued their winning ways and capturing the bi-district title when they defeated the Eagle Lake High School basketball girls with a score of 62-49 at Weimar Tuesday night.

With a record crowd of local fans in the gym the girls took to the floor and, while not making the first score for the evening, started early in the game of maintaining a small lead with the score at the end of the first quarter being 11 to 8.

By the half time they increased their lead to five points, 25 to 20 and during the third period they moved up to a ten point lead over their opponents and the score board read 45 to 35 favoring Goldthwaite. As the signal ended the game the Eaglettes held a 13 point lead and brought home a bi-district victory, 62-49, defeating the same team they won the bi-district title from last year when the game was played at Burnet. Shirley Rowlett made 43 points, Esther Thorne 5 and Dorothy Warlick 14.

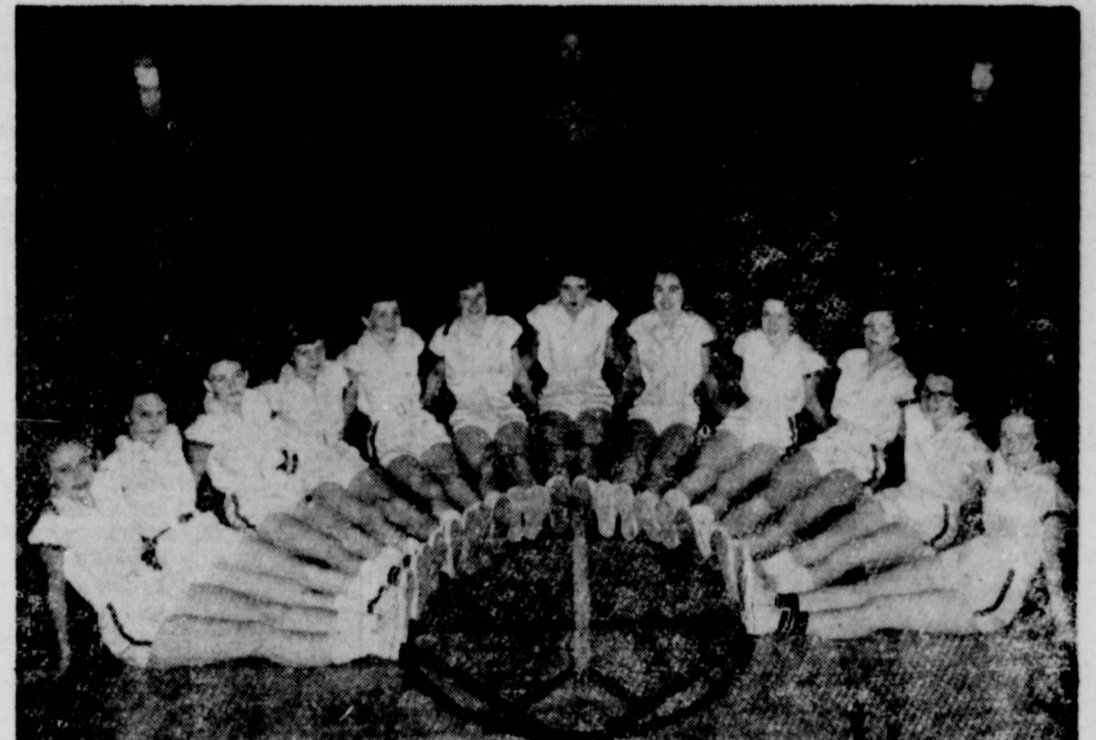

REGIONAL PLAY THIS SATURDAY

The Eaglettes will travel to Brenham this week Saturday to take part in the regional play-offs.

Drawing for time and places for Saturday's game took place Wednesday afternoon. According to word from Supt. J. T. Jones late Wednesday Goldthwaite will play Connally, of Waco, Saturday morning at 8:45. Connally girls are the champs of districts 21 and 22 while Goldthwaite girls hold the bi-district title for 23 and 24.

The other Bi-District A teams are Buna and Newton. They will take the floor at 10:15 Saturday morning.

The winning teams from the two morning games will take to the floor at 7:15 o'clock Saturday night to battle it out for the regional championship title.

Eaglettes Defeat Mason By 42-40 For District Championship Title

The Goldthwaite Eaglettes captured the district 23-A girls basketball title last Thursday night when they defeated Mason with a 42-40 sudden death play-off at Burnet.

At the end of the regular season both teams were tied with nine wins and one loss making the sudden death play-off necessary.

The Eaglettes got off to a slow start with the Punterettes making four points before the Eaglettes started to score. Goldthwaite recovered from a slow start and at the end of the first quarter led Mason 11 to 9. At the half they had gained even more and were leading with a score of 26-17.

During the third period they cooled off somewhat and Mason started to hit the baskets and

climbed to a tie of 33 to 33.

When the final period opened Mason had the ball and started to stall, which proved very costly to them. After freeing the ball for four and one half minutes Eaglette guards, after some excellent playing, took possession of the ball then in short order Shirley Rowlett made a floor shot and Esther Thorne made two free throws giving them a four point lead.

Mason made one more basket before the fatal bell shattered their hopes for victory as they were still two points behind. Shirley Rowlett was credited with making 31 points and Esther Thorne made eleven.

Both teams hit fifteen field goals, the Eaglettes made 12 of 18 free throws while Mason hit 10 of 16.

Inside WASHINGTON MARCH OF EVENTS

Don't Expect Any Changes in Cabinet at This Time Kennedy Looks Good 'Veep' Bet to Some Demo Leaders

Special to Central Press Association WASHINGTON—Do not look for any change in President Eisenhower's Cabinet despite the recent furor raised over Agriculture Secretary Ezra Taft Benson and Secretary of State John Foster Dulles. Insiders say that both men have the full support of the President and can stay on just as long as they like.

Senator Kennedy

Do not forget that Defense Secretary Charles E. Wilson at one time was in just as much hot water as Dulles and Benson because of public statements he made, and no effort was ever made to remove him. The White House feels that both Dulles and Benson may have spoken out of turn in the past but they are working hard at their jobs to achieve administration goals.

ADIAI E. STEVENSON is reported favorably inclined toward Kennedy as a possible running mate. Kennedy would be geographically "right" on the ticket. He has an excellent war record— to balance Adlai's World War II civilian status. He is a Roman Catholic—and the Democrats want to lure back the Catholic voters who voted for Ike in 1952. He is also only 38 now.

NAVY—Rep. Carl Vinson (D), Georgia, says the Navy has 985 vessels and 16,000 planes in operation. The chairman of the House armed services committee has furnished a breakdown of the size of the United States Navy. Of the 985 ships, 404 are "warships." Also there are 26 aircraft carriers in commission. In addition, there are 1,800 ships in the mothball fleet.

RELIGION AND TREATIES—Two treaties of friendship with other nations soon to come before the Senate for ratification threaten to stir up some controversy in religious circles. These are treaties of friendship, commerce and navigation with Haiti and Spain. Usually, these treaties contain a clause that citizens of one country shall have the liberty, while residing in the other country, to hold religious services, both public and private, in places of their choice.

PROTESTANTS ALARMED BY OMISSION This clause is absent in the pending treaty with Haiti. This has caused some concern among Protestant church leaders. They are not concerned so much about the absence of the clause in the treaty with Haiti, since this nation is tolerant toward all creeds.

They are afraid, however, that the clause also will be absent in the treaty with Spain when it comes along. Spain, they remark, is notably less friendly than Haiti toward non-Catholics.

WHEN THE OLD BIRD WAS YOUNGER

10 YEARS AGO—

(Taken from the Eagle files of March 1, 1946)

Saturday morning, February 23, 1946 marked the end of life for one of Mills County's most prominent citizens, John Bernhard Schlee of Priddy. Practically all his life was spent here in our own midst and his death evoked deep grief and sincere mourning from his family and a host of friends.

Miss Carol F. Bryant, daughter of Mr. and Mrs. George C. Bryant of Kenmore, N. Y. and T/Sgt. Dale D. Dyches, son of Rev. and Mrs. I. A. Dyches of Goldthwaite were married January 29th at Seguin.

Mrs. Mary Moore, age 70, and a resident of Mills County for 41 years passed away at the home of her daughter, Mrs. Henry Soules of Star, Tuesday afternoon at 3:00 o'clock after a short illness.

Manila-2nd Lieutenant Doris Nelson Trotter, Army Nurse Corps is at the Paranaque Replacement and Disposition Center south of Manila where she is awaiting her next assignment in the Corps. Lt. Trotter, the daughter of Marcus W. Trotter of Goldthwaite, has served in the Philippines since May 1945.

O. O. Smith, manager of Barnes and McCullough Lumber Company, spent part of this week in Houston, and lumber mills in east Texas.

Robert Steen Jr., underwent surgery Friday of last week, at Scott and White Hospital.

25 YEARS AGO—

(Taken from the Eagle files of February 27, 1931)

Some person or persons robbed G. W. Jackson's smokehouse at his residence a short distance west of town, on the San Saba road, Monday night and took five hams and seven sides of meat. The thief was liberal enough to leave some meat in the smoke house but took a good portion of what he found stored. The meat belonged to Mr. Jackson and his son, John, and was placed in the smokehouse and the door left unlocked. Officers are hopeful of locating the meat and securing evidence against the thief.

Odus Melton Carlisle, 14, son of Mr. and Mrs. W. M. Carlisle, who reside about six miles from Mullin, passed away in a local hospital last Friday morning at 1:30 o'clock.

Mrs. W. A. Fields, age 75, passed away at the family home in the Liberty community, three miles east of this city Monday and her remains were laid to rest in the Center City Cemetery, a large number of friends attending the service.

Earl Hill, a student in the

Baptist Seminary in Fort Worth spent the weekend visiting his mother, Mrs. J. O. McClary and family at Rock Springs.

Dan Long and family of Big Spring came in Saturday for a visit with relatives here and at Big Valley.

Walter Weatherby and his mother, Mrs. A. C. Weatherby, went to Brownwood Monday to be at the bedside of Bert Weatherby, who underwent an operation for appendicitis. They returned home Monday afternoon and reported the patient resting well.

Dr. and Mrs. Em Wilson of Corpus Christi visited their daughter, Mrs. Annie Armstrong and family in this city the first of the week.

50 YEARS AGO—

(Taken from the Eagle files March 3, 1906)

Those interested in purchasing grounds for a park and pleasure resort met in the court house Tuesday and organized the Mountain Park Club with a capital stock of \$2,500. Forty nine members were enlisted. The stock is \$50 per share and the money is to be used in buying and improving a park somewhere near the city and the grounds will in charge of the board of directors of the club.

B. F. Geeslin this week bought a majority of J. C. Street's mercantile interest here and will continue the business in the name of the B. F. Geeslin Mercantile Company.

A great many Mills County citizens will take stock in the railroad to San Saba. It will be a paying investment.

Mesdames Brockman and Thiers and Miss Clute, who visited Henry Martin's family for several days, have returned to their home at Junction.

M. H. Hines is erecting a residence on his lots between J. A. Allen's residence and L. R. Conroe's home.

Ed Jamar, son of C. C. Jamar, who lives in the northwestern part of the county was thrown from his horse last Saturday, and striking on his head concussion of the brain was produced from which he died with

VIC'S... SOLILOQUY

Mrs. Roy Jones writes as follows: "Please send the Eagle to Box 1268, Bay City, Texas instead of to Pawhuska, Oklahoma. Even though it is Friday or Saturday before I get the paper I enjoy every page."

"An enclosing check for paper. Please keep it coming. Like to keep in touch with my many friends there," writes Mrs. J. G. Boatwright from out Lubbock way.

Mrs. G. E. Benningfield writes from Ozona, Texas: "Am enclosing check for renewal of my subscription to the paper. We enjoy the home town paper very much."

"Find enclosed check, please keep the Eagle coming our way," from Bert Lockett of Levelland, Texas.

There is nothing like looking ahead and making plans for the future. Sorta like the story about the two fellows who were in conversation when one of them said to his friend: "Bill, your trouble is, you worry about crossing all the bridges before you ever get to them." To this his friend replied: "Yes, and your trouble is, you forget that they are all toll bridges."

Tommy Clint Daniel thought about the first year of college long before he was ready to make actual plans for enrolling or making the decision on what school he would choose to attend.

As a youngster, when he got his first job and earned a few dollars he told his mother that he planned on saving his money as he earned it so that he would have enough to take him through the first year of college without having to work while going to school.

Time went on and Tommy kept working after school hours and the other day he reached his goal.

Tommy, son of Mr. and Mrs. Walton Daniel, a senior in Goldthwaite High School this year, came home the other day and showed his MOM his bank book, happy to report that he has reached the goal set some time ago. He has saved sufficient funds to take him through that first year of college without having to work along with his studies.

RED CROSS DRIVE

Throughout the year the American people call upon the Red Cross for help. Once each year this great humanitarian organization turns to the people for support.

This year marks the 75th anniversary of the founding of the American Red Cross and on March 1, 1,500,000 volunteers will launch the 1956-57 campaign

out regaining consciousness.—San Saba Star.

Will Walton and bride are expected here tomorrow from their wedding trip.

Tom White of Indian Territory has been here this week visiting Rev. Gartman and family.

Mrs. Hopson and children of Mart are in the city visiting C. L. Stephens and other relatives.

Ed Brown who has been living in Coryell County for the past year or so has moved back to this city and is building a home on the Payne road just east of Mrs. Mamie Thompson's dwelling.

for members, and funds. They will be calling upon us for the means to carry on the agency's proud record of providing assistance wherever and whenever it is needed.

When disaster strikes, the Red Cross is neighborliness in action, providing shelter and clothing for the homeless, food for the hungry, medical and nursing care for the ill and injured, information for anxious families and friends, and long-term aid to victims who cannot get started again without help.

The Eastern States Flood in 1955, the second largest disaster operation in the history of the American Red Cross, affected 41,066 families, of whom 16,025 applied to the Red Cross for assistance. A total of \$17 million was spent by the Red Cross in six states to relieve the suffering of disaster victims during the emergency period as well as long after the flood waters receded. Many families, seriously injured or wiped out financially needed longterm assistance before they could again be self-supporting members of their communities.

Although Disaster Services is one of the most dramatic programs of the Red Cross, it is only one of ten distinct activities carried on under the organization's Congressional Charter. Services to the Armed Forces and Veterans, even in peacetime, account for 41 percent of the total budget; Nursing Service enroll registered nurses for community service, conduct home nursing courses, and train volunteer nurse's aides; Safety Service train thousands in first aid and water safety skills each year; helps to strengthen the Red Cross throughout the world; Junior Red Cross program in the schools lets youngsters serve their communities and those in other lands; the Red Cross Blood Program provides a channel for the "gift of life" to patients in civilian as well as military hospitals; and, finally, volunteers serve their communities through their Red Cross chapters in many other needed ways.

The Red Cross is truly labor helping neighbors—the generous support of the American people, funds, time and even blood, the past 75 years of Cross service could never be performed. Keep the Cross on the job—join and so that the future will be bright as the Red Cross of the past.

Miss Frances Ann Dwyer, daughter of Mrs. Ellen Dwyer and the late Michael J. Dwyer, became the bride of John Mark Johnston, son of Mr. and Mrs. Kyle D. Johnston all of Galveston, Saturday evening, February 11, at 5:00 p. m. The Rev. Msgr. C. P. O'Connell officiated at the impressive double ring ceremony in St. Mary's Cathedral, Galveston.

Nuptial music was provided by Miss Julia Antonini, vocalist and Miss Julia Webster, organist.

Attendants of the bride were her niece, Miss Peggy Johnston, maid of honor and Misses Mary Ann Vickich and Lola Mae Hackleman, bride's maid. They wore floor length gowns of American beauty velvet and tulle. The decollete velvet bodice were finished by matching velvet capelets. Velvet dahlias accented the bouffant tulle skirts.

Picture hats of American beauty velvet and tulle were worn and they carried bouquets of pink pom pom chrysanthemums embellished with tulle and satin streamers.

Miss Diane Frances McCormick, niece of the bride was flower girl. She wore petal pink tulle over taffeta, which ended in floor length. Pink pom pom chrysanthemums formed a headpiece and were also carried in her satin trimmed basket.

The bride given in marriage by her brother, Patrick A. Dwyer of Fort Leonard Wood, Mo., wore traditional Chantilly lace and tulle over satin. The lace formed a small Peter Pan collar, which was defined by a shadow yoke, and the sculptured bodice with its portrait neckline. The shirred tulle skirt released from a brief lace peplum formed a cotillion sweep.

The fingertip veil of silk illusion was held by a tiara of bridal jewels. Her bouquet was an orchid encircled with Stephanotis and adorned with showers of

satin and tulle streamers.

Boyd Dewey Johnston, brother of the bridegroom was best man and Walter Leo Johnston, also a brother of the bridegroom and Harvey Sutton were groomsmen.

Johnny Kay Rost, nephew of the bridegroom was ring bearer.

Immediately following the ceremony a reception was held in the Flamingo room at Crow's restaurant. The bride's table was covered with pink satin and centered with a three tiered cake topped by a miniature bridal couple flanked by pink tapers.

Mrs. Johnston is a graduate of Dominican High School and Mr. Johnston is a graduate of Ball High School both of Galveston.

MRS. FORTUNE CELEBRATES BIRTHDAY

Mrs. John Fortune, a resident of Mills and Hamilton Counties for 66 years celebrated her 87th birthday at Aunt Lou Heads Rest Home in Priddy, Saturday, February 18.

She is the daughter of the late John Harris, a veteran of the Civil War. Her mother died when she was very small. She lived on a farm east of Priddy in Hamilton County. She said one year they made 100 bales of cotton. Her husband's health failed and he was sick for seven years. She nursed him during his long illness. At his death she sold the farm and bought a small farm at Indian Gap.

She is the mother of Mrs. Hattie Gooch of Austin, Oscar Fortune of San Antonio, Robert of Brownwood and Mrs. O. A. Nebasta of Indian Gap. She has 14 grandchildren and 36 great-grandchildren. She has often visited in this community with relatives and friends. We wish for her many more happy birthdays.

Mr. and Mrs. Jess Price of Clovis, New Mexico attended the funeral services for his cousin, Verda Price.

This scribe was made very happy last Wednesday when she drove to the mail box and Mark Daniel ran out and opened the gate for her. We welcome the Daniels back home and hope for them good health.

Lee Price and family of Oklahoma were called to Goldthwaite to attend funeral services for his son, Verda Price who was killed in a car wreck at Pecos last Thursday. He was the son-in-law of Mr. and Mrs. T. V. Stephens and leaves a wife and four children. The Prices are former residents of this community. We extend our deepest sympathy to his loved ones.

Social Security Beneficiaries With \$1,200 Income Must File Report

Social security beneficiaries under age 72 during any part of 1955, whose earnings from active employment and for self-employment, exceed \$1200 for the taxable year, must file an annual report with the Social Security Administration, according to James B. Marley, District Manager of the Austin Social Security Office.

These reports must be filed after the close of the taxable year within 2 months and 15 days. That date is March 15, 1956, for those who file their tax returns on a calendar year basis. This should not be confused with the income tax return deadline which is April 15.

Submarine Program Best For Atomic Power Training

Sailors who want to get training in atomic propulsion stand the best chance if they apply for the submarine program.

The Bureau of Naval Personnel, which has received many requests for both the atomic surface and atomic submarine training programs, said that the submarine program is wide open. But surface training is limited to outstanding fleet applicants.

Both fleet and shore-duty Regulars can apply for the atomic sub-training if they have one of these ratings: Machinist's Mate, Engineman, Electrician's Mate, Electronics Technician, and Interior Communications.

The Navy said the first atomic surface ship training class will start next July at the Naval Nuclear Power Training Unit at Idaho Falls.

The atomic sub-training school is already in operation at New London, Conn.

in 1955. Failure to receive a report form does not relieve an individual beneficiary of his obligation to make a timely report if his earnings exceed the \$1200. The law provides penalties for failure to file within the time limit. Forms will be available at our Social Security Administration District Office.

Mr. Marley pointed out that the 1954 Amendments to the Social Security Act provide that all earnings, including those from excluded professions as well as earnings from covered employment, will be counted in determining whether or not the \$1200 has been exceeded.

Fourth Army Announces Choice Of Duty Station

A new step has been taken by the Army to improve the morale and welfare of individual soldiers who desire to serve in the Fourth Army locality, according to Sgt. James J. Shelton, U. S. Army Recruiting Sergeant.

"The new regulation authorizes persons with prior Army service who have been discharged less than 90 days to choose their duty station. The choice of assignment includes installations within the five state Fourth Army area of Texas, Oklahoma, Louisiana, New Mexico and Arkansas," Sgt. Shelton stated.

Upon enlistment, individuals will be transferred direct to station selected for assignment and not be required to process through a reception center. Travel pay and leave as delay enroute is authorized for this type of reenlistment, Sgt. Shelton added.

Persons interested in this choice of assignment are urged to make application at the U. S. Army Recruiting Station, 102 North Center, Brownwood, prior to 90 days after their discharge date.

"Tea House of The August Moon"

Among them are the Pulitzer Prize, The Critics Circle Award, and The American Theater Award. Next meeting will be Tuesday

Jesus Institutes the Lord's Supper ILLUSTRATED SUNDAY SCHOOL LESSON By Alfred J. Buescher

Scripture—Luke 22:1-71.

As the Passover neared the chief priests and scribes pondered on a way to get Jesus into their power that they might kill Him. Judas Iscariot, tempted by Satan, went to them offering to betray Him for money.

Peter and John were sent by Jesus to prepare the Passover. They would meet a man bearing a pitcher of water on his head. Following him to a house, the owner would show them the room in which to hold the Passover.

At table Christ passed the disciples the wine, broke bread and gave it to them, saying the wine was His blood, shed for them; the bread His body broken for them, adding "This do in remembrance of Me."

Jesus declared that one of the 12 would betray Him. Peter vowed he would go to prison or death with his Master, but Christ said Peter would deny Him three times ere the cock crowed. MEMORY VERSE—I Corinthians 11:24.

Ever get tired of writing your return address on letters you mail? If so, students of Goldthwaite High School and Grammar School offer you a perfect solution. They will sell you 300 personalized return address labels, printed with your own name and address, for only one dollar. These labels are used primarily to indicate your return address on letters, but they can also be used to personalize your stationery, post cards, parcel post, as well as numerous other uses. And here is the interesting part—seventy cents out of each dollar collected from the sale of these labels will be given to the school for various projects such as a tennis court at the high school, and additional play-ground equipment at the Grammar School. SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

By CHARLES HAENISCH

Springtime is grass seeding time.

It is during this time of the year that most conservation farmers and ranchers of the Brown-Mills Soil Conservation District begin to get their machinery ready to plant native grass seed.

Native grass seeds need to be handled a little differently than our common cereal grasses such as oats, wheat, etc. Native grass seeds have a protective coating and their light fluffy nature presents a planting problem. Due to these facts, native grass seeds cannot be expected to come up in 7 to 14 days after planting. Instances have been observed of native grass seed staying in the ground for 3 or 4 years without coming up, and then coming up to a perfect stand. This is unusual and was due primarily to drought conditions. Normally, we would expect native grass seed planted around March 1st to be up to a fair stand by May 1st. This does not mean that you won't see some grass seedlings before then, but it is pointed out to emphasize the slow germination and slow early growth of the native grasses.

Native grasses unlike their brothers, the cereal grass, do not like a well prepared seed bed. A well prepared seed bed for native grasses needs to be planned well in advance of the actual seeding operations. Some times as much as one year ahead.

We need to divide the land on which native grasses are to be seeded. On cultivated land to be seeded we should have some sort of dead cover in which to plant. Any kind of stubble will serve this purpose. The purpose of stubble is two-fold, first the stubble and dead cover serve to trap winter moisture and put it in the soil for use by the seedlings later in the year. The other purpose is for the stubble itself. Most stubble is left at a height of 6 to 12 inches and is left even after the seeding operation. The seed should be

planted as near the base of the stubble as possible. Spring winds cause severe damage to seedling grasses. The stubble serves to raise the air currents above the ground surface and reduces the damaging effect the wind causes to the grass seedlings.

Native grasses that are seeded on cultivated land should be cultivated the first year. The cultivation need not be more than just running the middles to control weeds and other competition. Moisture supply is always limited as far as the grass seedling is concerned. Being a seedling naturally its roots are short and cannot reach down to tap the reserve moisture. Again the stubble and dead cover provides a means of keeping the surface damp longer so that the seedling can make as rapid growth as possible.

Cultivation often the first year is seldom necessary as weed control can be accomplished by spraying. Spraying is not recommended the first year as native grass seedlings in the two leaf stages are often killed by weed killing sprays. Running a chisel down the middle helps get moisture in the ground from the hard packing rains.

The primary species of native grass that are adapted in our district for reseeding purposes are Sideoats grama, Little bluestem, Indiangrass, Blackwell switchgrass, Buffalograss and Sand lovegrass. These grasses are our native grasses and were growing in this country before white men settled here.

There are several introduced grasses that are well adapted to our district.

Most of the introduced grasses are adapted to be in a semi-cultivated condition. Among these are Weeping lovegrass, King Ranch bluestem, Blue panicgrass, Buffalograss and Caucasian bluestem. Most of these grasses are selected for high productivity and should be planted on productive land, not land that is no longer suited for cultivation. The management of these grasses are different from that of native grasses. Seeding dates on these grasses is somewhat later than our native species.

FARM CHEMICAL SAFETY

Insecticides, fungicides and weed killers will soon be in heavy demand in Texas as the new crop gets underway. These farming "aids" are credited by many agriculturists as being a major factor in crop progress during the past 15 years.

Selective weed killers, new insecticides and fungicides, hormone sprays and feed additives, antibiotics and defoliants are among the chemicals introduced during this period. Along with greater mechanization and better agricultural practices, such chemicals have helped farmers produce 42 percent more than before World War II.

It has been estimated that savings and additional agricultural production resulting from the use of chemicals is adding

about \$1 billion a year to farm income. However, as this "chemical farming" continues to increase, there arises a need for greater emphasis on the safe use and safe handling of pesticides.

It is important to recognize that with the wide selection of pesticides available today, safety hazards vary with the chemicals used.

Some pesticides are safe when used according to good agricultural practices. Some require careful use for the protection of persons applying the material. Others require care to avoid harmful effects on crops. Some constitute a residue problem, while others do not.

Chemical manufacturers and agricultural agencies generally carry on extensive research projects to establish effective and safe procedures adapted to the special characteristics of pesticides. This information is passed along to users on labels and bulletins.

The Texas Department of Agriculture at Austin maintains up-to-date literature on most farm chemicals sold in the state. In addition, department inspectors regulate certain phases of field applications.

Farmers are urged to contact John C. White, Capitol Station, Austin, for information of this kind. It is essential to maintain safe production of wholesome, high-quality foods and fiber in this chemical age of agriculture.

Youth Center Is Planned For Lometa

LOMETA (Spl.)—Recognizing a need for the young people of their community, the L. M. Study & Civic Club of Lometa, has undertaken the building of a Youth Center for youth recreation and entertainment.

The only form of public entertainment is a theater which is operated two nights a week. As a result too much time is spent in automobiles traveling 17 to 20 miles to the nearest towns, for recreation and entertainment.

The Brownie and Boy Scout Troops plan to use the building for their meetings.

Mr. and Mrs. W. J. (Monty) Montgomery have donated land for the building, located on Main Street between the school and the business district.

The club membership, composed of 16 active women, has held a number of fund-raising projects, and more are planned.

A building suitable to be moved is the last obstacle before the center can be realized. The need is there—the will to furnish that need is there—therefore, by faith and determination this small group will meet the challenge to give future citizens every opportunity available to become good citizens.

AUSTIN, Tex.—Texans will hear a lot about "interposition" during the next few months.

Governor Allan Shivers has asked the Democratic State Executive Committee to consider placing on the July ballot a referendum on "interposition."

"Interposition" as it is being used in this case means "to stand between." And the Federal Government's interference with States Rights is what Governor Shivers refers to. He seeks to place the Texas Legislature between the people of Texas and "the abnormal extension of power by the Federal Government in all its branches—Legislative, Executive and Judicial."

Shivers contends that certain rulings are beyond the power of the court. Therefore the referendum to be voted on in July would be a declaration by the people of Texas that US Supreme Court decisions on such matters as the Tidelands, integration and the Federal Power Commission's control over gas are inapplicable because they go beyond Federal jurisdiction.

If approved by the people, the referendum would be a mandate to the Legislature for them to vote for submission of a Federal constitutional amendment firming up and defining State Sovereignty.

While other states are using interposition in a negative fashion, Shivers plans to use it in a positive way to protect the state's rights. He is strongly opposed to the extension of power by the Federal Government at the expense of state and local governments.

"Interposition" will be an often used word during the coming months. People who do not like the idea say it is "nullification." Shivers contends he is opposed to nullification as being contrary to truly constitutional government.

VETERANS' LAND SALES will be court house news again in Austin, come March 6. That's when the trial scheduled for P. R. Sheffield, Brady land promoter and one-time business associate of former Land Commissioner Bascom Giles, will be held.

Sheffield has summoned 131 witnesses, including Governor Shivers, Atty. Gen. John Ben Shepperd, and Land Commissioner J. Earl Rudder. Also John Osorio, aide to Shivers; Robert S. Trotti, former first assistant attorney general; and Homer Garrison, director of public safety.

Sheffield is charged with theft of state funds in connection with a Kinney County land deal.

TEXAS POLITICS heated up ahead of season when Governor Shivers announced that he might run for a fourth term. It is the closest he has come to saying "yes." This news quickly eclipsed an earlier statement by Sen. Jimmy Phillips of Angleton that he was withdrawing from the race for governor for lack of campaign funds. A later announcement by Shivers was that he would reveal his political plans for 1956 on March 1.

U. S. Sen. Price Daniel said that Shivers' decision, whichever way it went, would in no way affect his own decision about becoming a gubernatorial candidate. His announcement awaits disposal of farm legislation now pending in Congress, and is expected by mid-March.

MORRIS BROWNLEE of Houston is replacing Garland Smith on the insurance commission. Until a few weeks ago Brownlee was executive vice president of Continental American Life Insurance Co. of Houston.

J. Byron Sattgers, chairman of the insurance commission, reports that one of the largest insurance firms, Lloyds of London, has agreed to pay the state an estimated \$1,500,000 in premium taxes. Although not admitted to do business directly in Texas, Lloyds writes surplus insurance where amounts in-

mitted company to handle alone. Bills to tax such surplus insurance have repeatedly failed to pass the legislature.

Two mutual companies were placed in receivership after their permits were revoked by the insurance commission. They were American Home Mutual and Trans-County Mutual, both of Dallas.

STATE AUDITOR C. H. CAVNESS reports errors and irregularities in the records of Texas Southern University at Houston. TSU is a state-supported college for negroes.

Cavness said there was a shortage of more than \$5,000 in the bookstore inventory which "may or may not" be connected with a \$2,976 overage in the general store inventory.

Texas Southern is among the most crowded of Texas' state-supported institutions of higher learning," according to the auditor's report. He said he did not believe the staff was adequate to keep proper records.

RESIGNATION of Federal Attorney Lonny F. Zweimer to join the state attorney general's staff leaves Austin without a federal prosecutor. U. S. Dist. Atty. Russell Wine of San Antonio said Zweimer would not be replaced.

APPEAL of the Upshur Co. Rural Electric Cooperative, from a Travis Co. court decision in favor of the state "on relation of Southwestern Gas & Electric Co." was argued in Third Civil Appeals Court. Former Gov. Dan Moody was among counsel for the cooperative. Spokesmen for the co-op said the trial decision, unless reversed, would destroy all electric cooperatives.

At issue was the right of the Upshur County co-op to continue serving customers taken into the city of Gilmer by annexation. A controversial point is application of the law that co-ops may not serve rural customers where private utilities have facilities available to furnish the service.

AN AFL TEAMSTERS UNION OFFICIAL, Raymond C. Shafer, business manager for the Union's Local 657, was arrested by Texas Rangers and charged with playing a role in the August, 1954 bombing of an Austin warehouse during a labor dispute. The Austin Fireproof Warehouse was being picketed by the Teamsters Union at the time of the explosion. Shafer also faces charges in connection with a bombing in San Antonio in 1955.

PAUL L. WAKEFIELD, former state selective service director, has been promoted to major general in the Texas National Guard by Governor Shivers. Wakefield also was presented the U. S. Army citation of Merit. This by Major Douglas C. Pritchett, personal representative of Major General Lewis B. Hershey, national director of Selective Service. Wakefield resigned from the selective service post last September.

R. L. WHEELLOCK, Corsicana independent oil and gas producer and rancher, has been appointed to the Good Neighbor Commission. Governor Shivers named Wheellock to succeed Neville G. Penrose of Fort Worth who resigned a term that was to run until June 19, 1957, to become a member of the International Good Neighbor Council.

WILLIAM J. HARDING is the new public relations director for the Texas Insurance Advisory Association. He was editor of the Texas State Teachers Association magazine. He succeeds Jack Maguire, now executive secretary of the UT Ex-Students Association.
