ESTABLISHED 1894

VOL. 64, NO. 29

GOLDTHWAITE, MILLS COUNTY, TEXAS

THURSDAY, JANUARY 31, 1957

Highway 16 Contract Let-\$693,717.18

A contract for 17.2 miles of construction on State Highway 16 in Mills County has been awarded to a Waco firm...

John M. Arthur, Resident Engineer at Goldthwaite will be in charge of the project while under construction.

The new highway will connect with the new and improved State Highway 16 at Comanche county line and will join US 84 north of Goldthwaite...

When the job is completed and the highway is opened it will open a new avenue for heavy through traffic to this area which in the past has been routed around because of limitations on the old bridge structures.

Weather Report

Rainfall recorded here during the past eight days measured .56 inch. Of this amount .22 inch fell on Wednesday January 2, .18 inch on Thursday January 24 and .16 inch over the past weekend.

This brings the total rainfall for the month of January to .99 inch, (unless more is recorded from the time of this writing Wednesday afternoon through Thursday night.)

Goldthwaite and the Mills county area shared with the rest of the state in receiving a good cold blast with considerable ice during the past week with temperature reported in the low twenties.

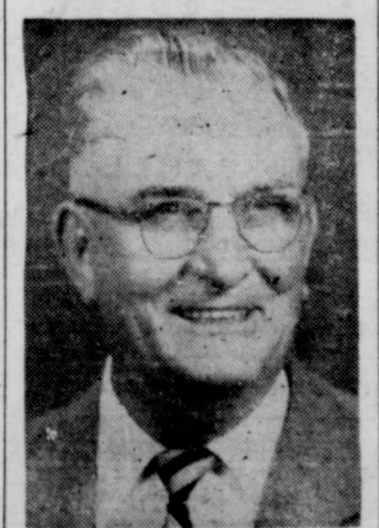

1956 Bond Sales In Mills County Go Over Quota

Mr. W. P. Duren, United States Savings Bonds Chairman for Mills County, announced today that citizens of this County purchased \$155,913 dollars worth of U. S. Savings Bonds during the past twelve months.

Go to your bank NOW and buy that extra Bond. Your purchase will help Mills County to make its 1957 goal. And remember, said Mr. Duren, when you are buying that extra bond you are helping to keep your dollars stable, you are helping to keep your community strong, and you're investing in a brighter future for yourself and your family with a safe, sure United States Savings Bond.

New 1957 Auto Registration Tags Will Go On Sale Friday, February 1

New 1957 license tags for cars, trucks and trailers, will go on sale at the office of tax assessor-collector at Mills County courthouse starting Friday February 1, (tomorrow).

WM. T. DURHAM The retirement of William T. Durham, Santa Fe Railway traveling freight agent at Temple, Texas, for the past 24 years, effective February 1, has been announced today by Clark Davis, freight traffic manager at Galveston. The announcement brings to a close a varied railroad career of more than 45 years of loyal and efficient service. Durham will be succeeded by James L. Smith, city freight agent at Dallas.

Sweetclover Proves Itself Well Adapted As Versatile Legume Here

By HUBERT COPELAND Soil Conservationist Soil Conservation Service

SWEETCLOVER—A well adapted deep rooted legume used in crop rotations in this area.

Sweetclover, the versatile legume, has proven itself to be well adapted to this area. Farmers and ranchers in the Brown-Mills Soil Conservation District who have used this crop in the past will agree to that statement. Sweetclover is one of the few deep rooted legumes adapted to this area that can be used in a cropping system to protect and improve the soil.

Crops following Hubam or Madrid frequently double in yield. David Watters, Supervisor of the District, reported a large increase in production of corn on land that had been in Madrid four years previously. Watters said, "The corn on the clover land had a deeper color, stayed green longer, and produced more corn than on land not previously in clover".

Rate Reduction For Drouth Feed Extension Given

AUSTIN, (Spec.) — Drought-stricken Texas farmers, dairymen and ranchers will reap additional large benefits as a result of the railroads' extending their 50 per cent freight reduction on shipments of hay.

Since Oct. 13, when the rate slash went into effect through mid-January, Texas agriculturists were aided by the railroads to the extent of \$1,669,389. During that time the railroads shipped 134,933 tons of hay into Texas at the 50 per cent rate.

OTHER WINNERS Sheep — Ramboulllets and Merinos, Wether Lamb—Jean Pafford, first and second.

Hampshires—Peggy Pafford, third.

Corriedale — Jimmy White, fifth.

Other Breeds and Crosses—Annette Duncan, sixth.

Pen of Three Wether Lambs—Jean Pafford, second.

MRS. ARMSTRONG ENTERTAINS GUESTS

Mrs. Jay Moore and son, Tommy Anderson and daughter, Jayanna of Kingsville; Mrs. Gabe Garrett and daughter, Sally Gay, Mrs. Frieda Smith and Mrs. Hildred Lockhart all of Corpus Christi were here several days last week visiting their sister, Mrs. Annie Armstrong.

Landowners are also discovering that cropland following clovers "soak up" more of the rain that falls. Tests made on the L. B. Burnham farm, near the Colorado River, show that the water intake on cropland following three years of clover

was three (3) inches per hour compared to only three-fourths inch per hour on land that had never been in clover. The deep roots of the clover opened the soil and allowed the rain to "soak in" rather than to run off. Burnham observed that the additional water on the clover land could be the difference between a crop success and a crop failure.

Organic Matter—essential to good soil structure—is also increased by the proper management of sweetclover residue. Charley Swindle near Priddy found that when he plowed his clover stubble near the surface of the ground, the soil seemed to be given new life. The added organic matter greatly improved the physical condition of the soil and increased the number of helpful soil organisms.

Supervisors of the Brown-Mills Soil Conservation District urges each cooperators to begin now making plans to plant one field to sweetclover. Listed below are a few hints in planting sweetclover that the Supervisors would like to pass on to those who will plant this spring:

- (1) Plant between February 15 and March 15. Your deeper and tighter soils are more adapted to sweetclovers. Earlier plantings are usually the most successful. (2) Plant from six to ten pounds of inoculated seed per acre. A firm seed bed should be prepared. Seed should be at a depth of one-half to one inch deep. (3) Apply at least one hundred pounds of 45% phosphate or its equivalent per acre. A nitrogen fertilizer is needed the first year of planting.

Students To Get Salk Polio Shots At School Today

Today at 1:00 o'clock all school children throughout the county who have requested the Salk vaccine will receive their first shot. Dr. Raley, county health officer, announced this week. The shots will be given in the office of Mrs. Stokes at the Goldthwaite elementary school building.

According to information received here, the State Health Department will furnish the first two shots as they did before with the parents of each child paying for or being responsible for the third shot. There will be about 300 children of school age to receive their first shot today.

The committee agreed that the prizes should be food or clothing equipment instead of money and they spent the better part of two days assembling the cookie jars, cake plates, candy bowls and other articles to give the girls. There was a total of 29 first, 23 second and 13 third prizes bought and distributed.

The girls, their sponsors and I want to thank everyone who helped us with this show. We could not have succeeded at all without your support and encouragement.

PRUNE THE TREES

Have you pruned the trees in your orchard and have you taken an inventory of the buds?

Blueford Hancock, horticultural marketing specialist for the Texas Agricultural Extension Service, says that if you haven't already done so, now is the time for pruning in your orchard.

If the trees are carrying a light crop of buds this year, less growth should be cut, but if the

bud crop is heavy, considerably more growth should be removed from the orchard and burned to keep the bores from getting into the other trees.

This is one of the winter jobs that has to be done on time to insure a good crop this spring. The other winter jobs are spraying and fertilizing. All three should be completed before the trees come into bloom.

USDA PLENTIFUL FOODS LIST FOR FEBRUARY

The feature spot on the USDA's plentiful foods list for February for the southwestern area goes to eggs. Supplies of this highly nutritive food are heavy and prices attractive. Consumers are urged to take advantage of the situation.

Beef, lamb, broilers and fryers, and ocean perch and had-dock fillets are also listed by the USDA as in plentiful supply.

Other foods expected to be plentiful during February include rice, milk and other dairy products, potatoes, canned sweet corn, canned purple plums and dried prunes.

A monthly survey made by the southwest food distribution

WE NEVER FORGET

Unfortunately, people do!

They say that elephants never forget. However, it's a well known fact that people DO! That's why it pays the business man to keep on reminding people who he is, where he is, and what he has for sale. Best place to do this reminding is where people look when they are planning to BUY something. That's in the advertising columns of The Eagle, where most shopping starts. All of which is to remind YOU that this might be a good time to talk to us. Just pick up your phone and call 80.

Golden Esso Extra

has the highest octane rating of any gasoline.

Modern cars, especially the 1957 models, have engines with very high compression ratios (9 to 1, and higher!).

These engines require a gasoline that's better than the best of "premium" gasolines, better than the "supers."

The one gasoline—the only one—that permits every high compression engine to deliver its full power output is Humble's Golden Esso Extra.

It is the world's finest automotive fuel... with the highest octane rating of any gasoline.

Protect the value of your automobile investment—use the gasoline that gives you added value from full performance. Fill up at the golden pump under your neighbor's Humble sign.

If you answer *yes* to *any one* of these questions, you should try Golden Esso Extra—world's finest gasoline.

- Does your car knock on "premium" gasoline?
- Is your car air-conditioned? (On an average the engine pulls a 3-ton air conditioner.)
- Does the engine have a compression ratio of 9 to 1, or higher?
- Does your car have more than one carburetor or a "Power-Pack"?
- Is the engine rated at 200 horsepower or higher?

(These points become even more important as you add miles to a new car. Anti-knock requirements increase when you pass the break-in period.)

Don't let a "knock you can't hear" rob your car of power!

Engineers call it "trace knock," a knock so faint that only a trained technician can hear it. But like all knocks, it robs your engine of power, forecasts engine damage. If yours is a modern car in any price class—especially if it's a 1957 model—prevent "trace knock" with Golden Esso Extra, the gasoline with the highest octane rating ever.

Parables of the Kingdom

ILLUSTRATED SUNDAY SCHOOL LESSON

By Alfred J. Buescher

Scripture—Matthew 13.

Jesus sat by the seaside, and great multitudes followed Him and stood on the shore. Christ went into a ship and sat there as He told parables to crowds on the shore.

A man sowed seeds; some fell by the roadside and fowls ate them; some on shallow ground where the sun withered them; thorns choked others; but some fell on good soil and flourished.

Jesus spoke of the tiny mustard seed which, when planted, became a huge tree. He also told of a woman, putting leaven into a batch of dough, making the whole mass light.

In the last parable, Christ told how fishermen drew their full nets to shore, then sat down and sorted the good fish from the bad.

MEMORY VERSE—Matthew 13:45-46.

Texas Press Association Sponsored Better Government Bills Introduced

Two of the 15 "Better Government" bills, sponsored by the Texas Press Association have been introduced in the legislative hopper in Austin.

Sen. Charles Herring of Austin, relates to the Veterans Land Act. It provides for public notice in the hometown newspaper of any veteran applying for a loan to purchase land under benefits of the Veterans Land bill. His bill would name the veteran who has made application for a loan, specifically designate the land, and quote the purchase price. "By this method," Herring stated, "the public would know what is being done with

our veterans land funds, and who is taking advantage of the state's generous offer to help our veterans obtain land." The public notice, in the form of a classified ad, would be prepared by the Veterans Land Board.

Herring's bill is scheduled for hearing before the Senate Affairs Committee at 2:00 p.m. on February 18. A companion measure is House Bill 104 introduced by Rep. Louis H. Anderson of Midland.

Second of the two measures is Senate Bill 55, introduced by Sen. Preston Smith of Lubbock. It provides for removal from office of any public official refusing to print public notices required of him under existing laws. This bill does not create any new public notices. It merely puts teeth into laws already on the statutes. It will prevent intentional evasion of the law by elected officials who are responsible for publication of financial reports and other notices specifically called for by law. Known as the "Mandatory Publications" act, its companion measure in the House is House Bill 38 introduced by Rep. John Lee of Kermit.

"TPA's bills have received the enthusiastic support of many Texans," says Russell W. Bryant, publisher of the Italy News-Herald and chairman of the Texas Press Association legislative committee.

"An informed citizenry is the best possible safeguard against malfeasance among public officials," Bryant added. "The newspapers of Texas do their best to keep Texans informed on the workings of their government. But unless we have legislation enabling us to provide the necessary information, our hands are tied. Therefore we have prepared these 15 bills designed to assure 'better government' in our state."

Rock Springs Club Postpones Meetings Mrs. Marvin Spinks was hostess to the Rock Springs Community Club at the last meeting. The afternoon was spent embroidering quilt blocks.

Delicious refreshments were served to club members and two guests, Mrs. August Kauhs and Mrs. Bruce Burnett. Due to bad weather the Rock Springs Community Club decided to take a winter vacation of two months. Next meeting will be April 11 with Mrs. Floyd Manuel hostess.

Bill To Speed Housing Loans Is Introduced

Senator Lyndon B. Johnson has introduced in the Senate a bill designed to speed up housing loans to veterans without any increase in the present interest rate of four and one-half per cent.

The Johnson bill has three principal provisions:

- (1) It would make available 25 per cent of the National Service Life Insurance Fund for direct veterans' loans at four and one-half per cent interest.
- (2) It would increase the authorized amount of the mortgage limit from \$10,000 to \$14,000.
- (3) It would eliminate some of the delays in processing applications, which in many cases have actually prevented loans from being made.

"This measure would make available to veterans money out of their own fund," Johnson said. "It would also eliminate the dampening effect of the present \$10,000 mortgage limit, which has caused many applications to the Veterans Administration simply not to be processed."

In order to speed up action on applications, Johnson's bill would require action, either affirmatively or negatively, by the VA on each application for direct loan at the same time that efforts to obtain private financing are being made. If private financing should be available within a 20-day period, it would be preferred and used. If not, the VA would be in a position to make qualified loans much faster than at present.

A number of other Senators have joined Senator Johnson in sponsorship of his bill.

POINT OF NO RETURN!

More intently than ever the pilot now watches his dials, cocking a sensitive ear to the motors' rhythm. He has reached the point of no return. He dare not turn back.

Years of research by scores of scientists have perfected his plane. Hours upon hours have been spent in reading it for the journey. If something goes wrong now, the pilot will know instinctively what to do, because of his long years of training.

Like the pilot, you try to prepare for emergencies. You realize that without training beforehand, it is impossible to meet a crisis wisely and adequately.

The spiritual knowledge you'll need for these times can be found in the Church. Through its guidance you will learn to meet everyday problems with serenity, and emergencies with confidence.

Begin right now to strengthen your spiritual reserves of courage, faith, and hope. TODAY is your point of no return.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

Monday, between household chores, we watched, on TV, the inaugural ceremonies and parade. To me it was the opportunity of a lifetime. There they were, almost as real as being there—the dignitaries of our nation in their most solemn ceremony. And they were a group to be proud of—men and women of dignity, intelligence, of high purpose, whom we trust to steer safely the ship of state through these times of world crisis.

No one outshone President and Mrs. Eisenhower. They seemed very happy, and they gave us a feeling of really belonging to the people. Mr. and Mrs. Nixon and their children and the John Eisenhowers and their children gave just the right touch to bring out the importance of our American family life.

For the most important parts I would tear myself away from the kitchen and just sit down and enjoy the program.

After our tardy lunch, I left the dishes and sat down to watch the parade. Six miles of marchers, musicians, and multi-colored floats—35 paper-spangled floats, 65 bands, asserted trucks, tanks, and guided missiles—and the GOP elephant passed the White House reviewing stand in less than 2½ hours.

Following the Armed Forces in the line of march came the 48 states and the territories, in the order of their entry into the Union. Most accepted the committee's invitation to send a governor, a float, a band, and a marching unit. I noticed Texans sent only Arlington State College's crack marching unit. "The Sam Houston Rifles," and the 96-piece boy and girl Richardson High School Band from Dallas County. Texas Secretary of State, Zollie Steakley, represented Governor Daniel.

It was all wonderful to me. So

long I have wanted to see our Nation's Capital. And right before my eyes were Pennsylvania Ave. and the Capitol Building and the White House and all those marching military units and bands. And once they showed us the Washington Monument in the distance. Now I feel that I know something about how our Nation's Capital looks, even if I never see it.

Today I saw a robin walking on the roof of the carport next door. It is the first robin I have glimpsed in El Paso. When spring is near there are often great flocks of them in our woods at home. I am always delighted to see them. If they were there in my childhood, I never knew it. Until I was grown, I knew robins only in song and story. When I taught at White-wright in North Texas, I heard them sing. I have never heard one sing at home, but it is a joy to see them.

PASSENGER CAR STYLING
New to the trucking business is Ford's 1957 Style-side Pickup. It applies revolutionary changes to new Ford trucks which dealers display February 1.

Full-width styling has more than just "eye appeal." It widens the truck's load area by 20 inches, and adds 25 percent more load capacity than old-style models offer. This pickup

is one of nearly 300 models in the 1957 Ford line which ranges upward to huge extra heavy duty models. New Ford Trucks go on display tomorrow at Edgington Motor Company in Goldthwaite.

1957 FARM PRICE PICTURE
There will be another one for those who have not yet left after the drought and slim profits are hitching up may be.

present potential on which to base payments. So the Texas farmer will have to look to his crops and produce for income. Here, in part, are his prospects:
COTTON — Fortunately for Texas' big cotton industry, price prospects are most encouraging here. The unexpected export of seven million bales in 1956 reduced Commodity Credit stockpiles considerably. That, plus war threats and probable reduced production through the Soil Bank make the cotton outlook better. It is even possible the Administration may have to raise the support level.

WHEAT—The 1957 wheat crop is expected to be considerably shorter than that of last year, due to reductions from Soil Bank and drought. Surpluses will probably drop, especially if exports continue to improve. All this, however, is not calculated

to bring prices much higher. Supports will likely remain unchanged, although market prices should be up very lightly.
CORN—No prospects for improvement as prices still will depend entirely on support levels. The corn inventory is high.
GRAIN SORGHUM—Prospects here are poor price-wise. The crop promises to be big and cheap, although the drought will likely pare down the estimates notably. The market will probably be below loan rate.

POULTRY AND EGGS—Broilers have already gotten off to a bad start this year, but prices can't go any way but up. The climb will have to be gradual, and though prices should top the dreary '56 picture, they still won't be high. Egg prices are currently low and may remain below the same period last year until late spring. After that, they should be about the same as last year.

LIVESTOCK — Pork production will be down which means some improvement, although it will likely be very slight. Fat cattle prices averaging better than last year's lows are predicted, although feeder cattle prospects are doubtful with little or no improvement in sight. Sheep population is expected to increase and lamb prices should average slightly higher. Wool will remain well below the incentive payment level of 62 cents. Dairy prospects are unchanged with whatever late-year gains anticipated being eaten up in production costs.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

By CHARLES HAENISCH

Have you made plans to seed Blue Panic grass this spring? Farmers and ranchers in the Brown-Mills Soil Conservation District who have tried this grass agree that it has a place in the farming and ranching operations in this area. Since most of the livestock farms depend on the cropland for temporary grazing, blue panic grass fits well into this operation. A field of blue panic for summer grazing will assist the landowner in deferring a pasture in the seeding season of his range grasses.

Those who have had experience with blue panic have found it to be drought resistant. J. H. Priddy, C. C. Wright, Hardy Collier, L. B. Burnham, Harold Johanson, W. J. Strickland, and others are planning now to plant this grass this spring.

The supervisors of the district urge everyone to plan now to establish a part of their cropland to grass. For information on grass and grass seeding contact the technicians of the district. Grass is an excellent soil builder besides furnishing spring and summer grazing. Land planted to grass may be overseeded to oats or Austrian winterpeas in the fall.

R. L. Burdette, south of Goldthwaite, completed sixty acres of level border irrigation this week. He plans to begin leveling another sixty acres in the near future.

Technicians of the Soil Conservation Service assisted Mr. Tom Easterwood develop a soil, water, and plant conservation plan on his farm west of Priddy. He has since completed construction of approximately two miles of terraces. He built these

to conserve the rainfall as well as to prevent water erosion from taking place on the field. Jack Williams of Brownwood was the contractor for the job.

Priddy Basketball Games Net \$87.61 For March Of Dimes

Two basketball games were played in the Priddy gymnasium on Wednesday evening, January 16, 1957. The proceeds from the games went to the March Of Dimes.

The first game was a contest between the women teachers and "Trustee's Bosses", and the members of the local Wednesday Club. The "Faculty Team" defeated the "Wednesday Club Team", by a score of 10-8. The "Faculty Team" was sparked by the brilliant playing of their star forward, Mrs. Ella Mae Jeske, and their outstanding guard, Mrs. Anna Currin.

The second game featured the "Men Teachers and Trustees" versus the "Outsiders".

The teacher's team won over the outsiders, 33-25. The versatile agriculture teacher, Mr. Vestal, was the high scorer in this game. Officials for the games were Walter Marwitz and Harry Driskill.

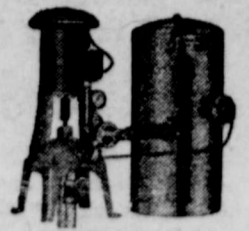

During the half-time intermission of the second game, spectators were entertained by a short song from the repertoire of the superintendent, Mr. Culp and his able assistant, Mrs. Ida Dearson.

Proceeds from the games, donations and sale of cakes brought the total to \$87.61 for the March of Dimes.

By VERN SANFORD
Texas Press Association

AUSTIN, Tex.—A number of the "Better Government" bills requested of the Legislature by the Texas Press Association have hit the legislative hopper. Outstanding among those introduced are:

1. A Mandatory Publications bill, designed to force public officials to print public notices as called for by present statutes. Requiring removal from office of any public official who refuses to publish financial reports called for under existing laws, this bill would eliminate such occurrences as have happened in Duval County in recent years. Introduced by Sen. Preston Smith of Lubbock and Rep. John Lee of Kermit.

2. A bill to provide for public notice of applications of veterans applying for loans under the Veterans Land Act. Notices, to appear in the veteran's hometown newspaper, would specify name of the veteran, describe the land, and quote the price he will be paying. Sen. Charles Herring of Austin and Rep. Louis M. Anderson of Midland have introduced companion bills in the Senate and House.

3. Rep. Virginia Duff of Ferris

and Sen. Crawford Martin of Hillsboro have introduced measures which will require publication of annual financial statements by school districts and other official bodies. Again, a measure to help prevent situations similar to that in Duval County.

4. Sen. Ottis Lock of Lufkin and Rep. Howard Green have introduced bills in their respective houses which would make it unlawful to bar newspaper reporters from precinct conventions. Object: To prevent instances when newsmen are unable to report convention facts to their readers because they are refused admission to such political meetings.

5. Meetings of public bodies would be open to the public, including newspapermen, if a bill introduced by Sen. Henry B. Gonzalez of San Antonio and Rep. Don Dennard of Fort Worth is passed. This bill will insure the "public's business" being kept public.

6. A measure providing for removal of officials who refuse to testify concerning their duties. By Sen. Doyle Williams and Rep. Howard Green, both of Fort Worth.

7. Two bills introduced by Rep. Jack Welch of Marlin would require insurance companies to publish financial statements annually, and provide a penalty for furnishing false information to the insurance commission.

8. Another bill by Rep. DeWitt Hale of Corpus Christi would require each treasurer receiving or controlling funds of a school district to keep a full account of all funds, and to file an annual report of those funds each school year. Present laws do not provide adequate protection at the local level for such accountings.

Among other items in the still-abundant flow of suggested legislation are bills which would:

1. Require voters to register by parties. By Sen. Henry B. Gonzalez of San Antonio.

2. Provide paid investigators to assist grand juries. By Rep. John T. Cox of Temple.

3. Refund state taxes on gasoline paid by cities. By Rep. Robert W. Baker of Houston.

4. Exempt widows, old age pensioners, injured veterans and others from state property taxes on the first \$5,000 in value. By Rep. D. Roy Harrington of Port Arthur.

5. Place liquidation of insurance companies under supervision of Travis County district judges rather than the Insurance Commission. By Sen. Charles Herring of Austin.

6. Make Texas Thanksgiving the same as the federal holiday. By Sen. Dorsey B. Hardeman of San Angelo.

7. Re-organize the Industrial Accident Board and increase workmen's compensation benefits. By Reps. Kennard and Wade Spilman of McAllen.

8. Provide for annual sessions, boost legislators' salaries to \$7,500 a year and the speaker and lieutenant governor to \$12,500. By Rep. Truett Latimer of Abilene.

MONEY HERE, MONEY THERE—House and Senate committees now are neck-deep in hearings on the paramount issue of the 55th session of the Texas Legislature—how much money to appropriate and to whom.

Facing them are these requests:

1. A \$2,000,000,000 appropriation bill submitted by the Legis-

lative Budget Board.

2. A bill to increase public school teachers' basic salaries from \$2,805 to \$3,204. Introduced by Sen. A. M. Aiken and Rep. James A. Turman.

3. A bill to give state employees a 15 per cent raise on the first \$3,000 of their salaries. By Sen. Charles Herring, Reps. Charles Sandahl and Wilson Foreman of Austin. Another bill by the other Travis County member, Rep. Obie Jones, asks a 25 per cent raise.

4. A bill to appropriate \$3,000,000 to aid the totally disabled. By Sen. William S. Fly of Victoria.

5. A bill to raise judges' salaries, from \$9,000 to \$16,000 for district judges, from \$12,000 to \$20,000 for civil appellate judges, from \$17,500 to \$24,000 for Supreme Court and Criminal Appeal judges. By Sen. Doyle Williams.

NEW WATER PLAN—With two previous plans junked, a third recommendation has been made for buying state water storage space in federal reservoirs. Earlier plans included, first, a fishing and boating tax, and then a water users tax. Both met strong opposition.

Now Sen. George Parkhouse of Dallas, water program leader, has substituted a plan to finance storage-buying with a \$100,000,000 bond program. This is separate from another \$100,000,000 bond proposal to aid local governments in financing water conservation.

SHORT SNORTS—Butane fuel is not "gas" as far as the state gross receipts tax is concerned, the Supreme Court ruled. It ordered the comptroller to refund taxes paid by a Rankin butane company. . . . State draft quota for February calls for 695 men, a drop from the January call of 861. A total of 65,094 men registered with Texas draft boards last year, according to State Selective Service Headquarters. . . . Governor Daniel has re-appointed William L. McGill as director of Texas Civil Defense and Disaster Relief Headquarters.
