Eagles Lose To AAA School; To Play McGregor Friday Night

Books Presented — Mrs. Milton Schwartz, president of the Art and Civic Club, is shown presenting a set of books, "Children's World of Science Library," to Mr. Ray Standley, principal of Goldthwaite Elementary School. The books are a gift to the Elementary School Library from the Art and Civic Club.

Goldthwaite B Team Loses To Santa Anna

The Goldthwaite Eagle reserves or the "B" team lost to the Santa Anna "B" team last Friday night in the first game of the season for the local team. The score was 20-6 in favor of the Santa Anna team.

Arthur Windham scored twice for the Santa Anna Mountaineers "B" team. He ran 42 yards in the first quarter, then made a 25 yard sprint in the second quarter for the two TD's. Charles Strength passed to Steven Voss for the two extra points.

Strength also scored in the fourth quarter when he ran six yards to climax a 30 yard drive, this made the score 20-0, in favor of Santa Anna. Then late in the final quarter, Mike Hoover carried the ball 27 yards for the Eagles' only touchdown. The try for extra point failed and the game ended with the score 20-6 for the Mountaineers "B" team.

This was the first time the Eagle reserves had worked together as a unit and the first time they had ever played against a single wing team.

Tonight the "B" team will travel to Comanche for their second game and starting time will be 7:30 p. m. Then next Tuesday night, October 7, the Goldthwaite "B" team will play San Saba at that place and the game will begin at 7:00 p. m.

Last Friday night the Eagles lost to the AAA Diamond Hill-Jarvis High School football team on Eagle Field by a score of 19-8. The AAA Diamond Hill eleven found the Goldthwaite Eagles tough and ready to do battle. Contrary to the expectations of many, Diamond Hill was only able to win by a meager 11 points, instead of the 40 points that had been predicted.

Though somewhat awed by the thoughts of playing a Triple A School as well as a large city school, during the first half, the Eagles came back after the half to make a real game out of what some thought would have been a runaway for the Diamond Hill team.

With a few breaks, the game could just as easily have been won by Goldthwaite according to Coach Blansit.

Curtis scored in the second quarter on a 32 yard run for the Diamond Hill team and Hart scored for the visiting team in the second quarter on a 8 yard run. Hart also scored the third TD for Diamond Hill in the fourth quarter on a 32 yard run and kick for the extra point was good, giving them a score of 19 points.

Gerry Head scored on a six yard plunge in the third quarter for the Eagles and the pass from Tom Graves to Gerry Head was good, making the score 19-8 as time ran out.

Goldthwaite	Diamond Hill

EAGLES TO PLAY MCGREGOR FRIDAY NIGHT

The game this week with McGregor will be a very tough one. McGregor was only beaten 14-12 last Friday night by Mart, the number two team in the State in Class A. If the Eagles continue with the fire and spirit they had during the last half of the Diamond Hill game, the fans should see a very thrilling and exciting game, stated Mr. Blansit.

Town And Country Achievement Awarded To Mullin Baptist Church

The First Baptist Church of Mullin was named winner this week of the District Sixteen Town and Country Achievement Award sponsored by the Baptist General Convention of Texas.

District missions secretary Clifford Nelson of Brownwood said the church conducted a vigorous church improvement program to win the coveted award.

District 16 includes nine associations, 211 churches, 25 missions and more than 50,000 members. The district's 17-county area extends from Reagan County on the west to Hamilton County on the east, and from Comanche County on the north to Sutton County on the south.

It is one of 17 geographical areas in which BGCT promotes the achievement program each year. The winning pastor in each district receives a parchment scroll, the church a metal plaque which may be displayed in a prominent place outside the building.

One church and pastor will be recognized as statewide winners during Texas Baptists' annual convention, Nov. 3-5, in San Antonio.

Pastor Alvis Bell said the church members did extensive renovation and maintenance work on the building, and increased church enrollment from 59 last year to the present 82. Divided into three categories,

Telephone Co-op. To Have Annual Meeting, Oct. 6

The Central Texas Telephone Co-operative, Inc., will hold their fifth annual meeting on Monday, October 6, 1958. The meeting will be held at the American Legion Hall in Goldthwaite.

This year the Co-operative is giving 20-1 year Free Extension Service (inside) or 20-\$5.00 bills as prizes, along with a various array of gifts donated by the business firms of Goldthwaite. Registration will begin at 1:00 p. m. and the meeting will get underway promptly at 2:00 o'clock.

At this time the members will elect their new board of directors and transact their regular business and attend to other business. The board will then meet and elect new officers for the coming year.

The public is cordially invited to attend this meeting according to announcement by Mr. Raymond Summy, manager.

Mills Co. Baptist Association To Have Annual Session Monday

The annual session of the Mills County Baptist Association will be held Monday, October 6, 1958, with the Mullin Baptist Church. It is the seventieth meeting of the association.

The afternoon session will begin at 2:00 p. m. It will include the reports on Brotherhood, Spanish Missions, Relief and Annuity, Christian Life Commission, W. M. U., and the District Missions Report by Dr. Clifford Nelson.

Also in the afternoon there will be reports on Rural Achievement program, Baptist Standard, Vacation Bible School, Home Missions, American Bible Society, Foreign Missions, and the State Missions.

The Baptist Benevolence Report will be brought by E. J. Gregory, Superintendent of Mexican Baptist Home, San Antonio, Texas. The Obituary Report will be brought by S. L. Tate Jr., of Goldthwaite.

Supper will be at 6 p. m. with the Mullin church being the host.

The evening session will begin at 7 p. m. At 7:15 p. m., Dr. Elwin Skiles, pastor of First Baptist Church, Abilene, Texas, will speak on Baptist work in Texas. Dr. Skiles has long been active in denominational work and now serves as a member of the Texas Baptist finance committee, chairman of a BGCT executive board administration committee, and as a member of the board of trustees of Hardin-Simmons University, Hendrick Memorial Hospital and Golden Gate Theological Seminary.

The annual sermon will be at 8:10 p. m. by Presnall H. Wood, pastor of First Baptist Church, Goldthwaite.

The moderator for the meeting will be Presnall H. Wood, and the song leader will be S. L. Tate, Jr. The host pastor will be Alvis Bell.

Those who are serving with Schuster in making plans for the drive at Priddy are: H. Earl Culp, George Hiller, Edwin Drucekhammer and Herbert Marwitz.

Members serving with Yarborough on advance planning for the drive are: Dr. T. C. Graves, special gifts; Warren P. Duren, prospects and rating; Vic E. Koleber, publicity; C. D. McLean, arrangements; and W. C. Barnett, audit.

Harold Yarborough is drive chairman for Goldthwaite and Wilford Schuster is chairman at Priddy.

Projects of the better community committee included an area weed-killing and clean-up campaign by church members. The committee also installed a community warning system for emergency use.

The "better world" community sent clothes to Buckners Orphan Home in Dallas and Christmas gifts to Southern Baptist missionaries in California for distribution to the needy.

Purpose of the town and country achievement program is to stimulate interest and initiative in town and country church work, to recognize outstanding achievements by pastors and churches and to help Texas Baptists realize their responsibilities to their local community and the world.

Other girls selected were Judith Ray and Charlene Hahn, Lampasas; Barbara Ziegler and Pamela Brown, Weatherford; Mary Starr and Norma Rawson, Cisco. Alternates selected were Sherry Barry, Weatherford, Ruth Ann McGregor, Lampasas, and Linda Lou Balke, Winters.

Mrs. Robbins emphasized that competition among Senior Girl Scouts of the Council was keen and that final selection was based on the girls' past experience in Scouting, their performance in pre-Roundup training sessions, and personal interviews with members of an Interview Committee. Miss Betty Browning, Cross Plains, had charge of all pre-Roundup training sessions.

Theme for the Roundup will be "A Mile High — A World Wide." While camping on two privately owned ranches near Colorado Springs, the girls will explore some of the new frontiers of the twentieth century. In 1859 prospectors came to Pikes' Peak region looking for gold in the hills. But the 1959

prospectors will come searching for gold in friendship and the exchange of Girl Scout experiences.

Mrs. Roscoe Langford, Lampasas, Council Program Chairman; Mrs. Earl Tomlinson, Lampasas, Council Public Relations Chairman; and Mrs. Walter Helmecke, Brownwood, Council Camp Chairman, served on the Special Roundup Committee which was in charge of arrangements for selecting girls for the Roundup.

They left Fort Worth on a special train which took the Texas delegation to the session which was attended by more than 10,000 from the United States and Alaska.

One of the highlights of the business session was an address by Robert Anderson, Secretary of the Treasury.

New Band Uniforms Needed

By J. T. JONES, SUPT.

Every football fan that followed our team to San Saba last week back by a band that was completely new in uniforms. This was a new reminder that we had uniforms, even though they appear from the distance to be fairly serviceable, have been used for some ten or twelve years and are pretty "rotten."

On our trip to Cross Plains, a school of our comparable size, we saw uniforms in much better shape and with fewer years of service.

To add further humiliation, our Drum Major broke out of his uniform on that occasion and the exposure of his anatomy was embarrassing to Gary Leverett.

How would you feel if such happened to you? Did you notice that Gary was wearing a different Drum Major Suit on Friday night? It had to be!

We have the largest band in the history of the school and are setting up a second bus for our road trips. We have a lot of interest and one of the best bands in our state.

Would you help buy new band uniforms? The peanut money from athletic contests will not do the job. Each band uniform would cost about \$75.00 complete. Who would buy a whole uniform? Who would buy a half? Who would donate \$25.00? How much would you donate?

If you will let us know your feelings, we will start work and perhaps have the new uniforms for our spring music festival. Contact Supt. Jones, Band Director Moreland, or Band Booster President Oliver. What do you think?

FROM THE MAIL BAG

"Paris is everything and more than what it is 'Racked Up' to be. I have had a glorious time here and all over the continent. I do wish that everyone could have been with me, Love—Marsha." This note by Marsha Wilkins was a welcome note even though it didn't arrive until several days after she returned to the States—and her home in Goldthwaite—from her Summer tour of Europe. We had hoped to get a report from Miss Wilkins telling all about her trip abroad, but, I guess with all the getting ready for entering the fall term at college there just wasn't enough time.

"Would you please renew my subscription to the Eagle. We look forward every weekend to receiving the paper."—J. Claude Fallon, Big Spring, Texas.

"I am writing you in regard to my subscription which was out 6-17-58. I got a notice that I hadn't paid my subscription. I paid it on July 2, 1958. I haven't been getting my paper regularly, it would always be later than necessary and if you all can't get on the ball and give some service you can refund my money.

"I sent my change of address when I sent my money and I haven't even received last week's copy."—B. F. Poore, Smithfield, Texas.

You see there, not all correspondence we get is sorry. We at the Eagle office get all types of mail and rightly so, we realize it takes all kinds of mail to get the job done. And rightly so we give our attention to all complaints such as this one. When you think of mailing 1,700 copies out to subscribers each week, with changes of address and renewals and new subscriptions coming in daily it would be too good to be true for everything to go letter perfect all the time.

In fact, sometimes we almost consider the day lost if we don't catch "H" about something.

"Please change our address on the 'EAGLE' to Box 2122, Waco, Texas. Beth is getting along fine and I am getting started in my new work. Best regards and look forward to seeing you before long." T. M. Glass.

AMBASSADOR FROM GOLDTHWAITE

Lucile Fairman, Goldthwaite Postmaster, received her credentials last week as a delegate to the Convention of National League of Postmasters of the United States which will be held in Miami, Florida October 5 through 10. She is serving at the present as fourth vice-president of Texas branch of the organization and will represent one of the Texas districts at the 55th National Convention. While representing the district, she is also an ambassador from Goldthwaite, you can bet on that.

WHAT HAPPENS IN WASHINGTON

A few days ago Gulf Oil Corporation mailed a letter addressed to fellow employees and shareholders of the company which pointed out some facts that are most important to every individual and should be thoroughly digested by everyone. Following is part of that letter:—

Congressman Ralph W. Gwinn of New York, who has been a member of the House of Representatives for many years and should therefore know his Washington scene intimately, has drafted a form letter that he sends to all of his constituents who inquire why, in the light of the shocking revelations of the McClellan Committee concerning extortion, gangsterism and worse in labor unions, Congress has done nothing to restore law and order in labor-management relations.

What Representative Gwinn has to say is both enlightening and frightening. His letter, in part, runs: "Since there isn't a ghost of a chance that such legislation will be passed, I want to tell you why . . .

"First you should know that labor—or rather the top officials of organized labor—dominate Congress; over 175 members of the House have benefited from union contributions, free campaign help, radio and TV time, advertising, extensive publicity in the labor press, scores of voluntary workers furnished by the unions, doorbell ringers, telephone brigades and all the rest of it. Business organizations do none of this. Business as such is unorganized politically and therefore impotent.

" . . . Union leaders get men elected who agree with them and thereby force government into improper activities. On the other

Homer B. Weaver, 48, a native of Mills County, died Wednesday night about 8:30 as a result of a heart attack. He died at his home in the Big Valley community, where he had lived all his life.

It's a girl for Mr. and Mrs. Buel Condon of Dallas. The young lady arrived September 20th and weighed eight pounds and 13 ounces.

hand business is not organized politically to restore and maintain the legitimate functions of government.

"But that's not the whole story. Countless smaller groups, organized to get theirs from government, depend on labor's political activity for their success, because union political power is solidly behind every socialist program ever enacted or enlarged by Congress.

"The trouble in Congress is not that we don't know what legislation is needed. The trouble is that we don't have the votes to get it passed . . ."

In the opinion of Gulf's management, Representative Gwinn's statement is an impelling call to action. For many years Gulf, together with most other American corporations, has been so busily engaged in business activities that politics has been ignored. But the situation so clearly spelled out by Mr. Gwinn cannot be ignored. Whether we want to be there or not, Gulf, and every other American corporation is in politics, up to its ears in politics, and we must either start swimming, or drown. Gulf's management would be derelict in its duty to its shareholders and employees alike if it tried to ignore this fact, and did nothing, as Representative Gwinn has put it, "to restore and maintain the legitimate functions of government."

On Saturday, September 25, 1948, Mr. M. L. Bonds and Mrs. Anna Brown motored to the Hays home and were solemnly united in marriage bonds. Mrs. Truman Vaughan accompanied them from Goldthwaite.

Need of Spartan Economy Emphasized in Washington | New Drive to Save Money Sparked by Budget Bureau

By HENRY CATHCART
Central Press Association Washington Writer

WASHINGTON—The specter of increasing inflation has driven the federal government to embark on a new money management program.

Latest and most severe step to be taken was issued by the budget bureau on direct orders from President Eisenhower. All government departments and agencies were "requested" to reduce payrolls by two per cent during the current fiscal year, which ends next June 30.

This is to be accomplished, not by discharging employees, but by not filling vacancies as they occur—the normal attrition of all large organizations.

Another facet of the payroll reduction program is that the departments and agencies are to absorb, as far as possible, recent increases in federal employees' pay by improving efficiency so that fewer persons will be required to do necessary jobs.

The budget bureau said it could not place dollar value on the savings which it hopes to incur. But it echoed the President's "great concern for the need of spartan economy."

ordered any agency head who felt he could not comply to report the facts to the Budget bureau.

The federal government is headed for a whopping, record deficit of over \$12 billions this fiscal year. This is the factor in the present inflation pressures which daily are raising prices, wages, and stock market quotations to new highs.

QUEMOY SMOKE—

There is a growing body of opinion in Washington, that the Quemoy crisis was manufactured in Moscow as a smokescreen to cover up the Communist propaganda defeat in the Middle East.

When the Chinese Reds opened up their intense bombardment of the Nationalist-Chinese held island off the mainland coast, of Washington was greatly alarmed that it presaged an imminent attempt against Formosa.

Now, however, several occurrences have caused a shift in opinion, although the possible outbreak of war in the area is not completely discounted.

First and foremost, the Communist leaders both in Moscow and Peking show a willingness to talk about the matter.

Second, and perhaps of more practical value, the Formosa waters become too rough after mid-September to permit any large fleet to attempt to land.

Besides, in the thinking of some, the Communists have achieved their goal. If the thinking of these persons is correct, the Communists wanted to deflect world attention away from the Middle East where American and British troops are still stationed.

Scientists have found that if you count the number of chirps in 15 seconds and add 40 the result will be the temperature in fahrenheit. It will be accurate to one degree or two.

The cricket's song is an easily distinguishable "treat treat treat." They make the problem simple, too. They sing in three or they don't, and you don't have to worry about counting the chirps of three of them, unknowingly.

LOCAL BEAUTICIANS ATTEND CLINIC AT TEMPLE SEPT. 23

Mrs. Ola Mae Wilkey and Mrs. Carolyn Hurst attended an all-day Beauty Clinic at Temple last Sunday. The clinic was held at the Kyle Hotel under the supervision of Vernon Isbell, nationally known hair and beauty stylist.

This clinic was for the purpose of hair cutting and hair styling only and Mrs. Hurst served as the model for Mr. Isbell in the demonstrations he gave during the day. In the evening Ola Mae and Carolyn took the private lessons which were offered in the advanced course of hair cutting and hair styling.

Mr. and Mrs. Charles Denard and children of Fort Worth were guests of their mothers, Mrs. Clyde Faulkner and Mrs. Hugh Denard, and other relatives here Saturday.

Sunbeams Visit Eagle Office Monday

A number of Sunbeams from the First Baptist Church of Goldthwaite, accompanied by their sponsors, Mmes. F. W. Lewis, Hawley Jernigan and Miss Betty Bramblett visited the Eagle Office Monday afternoon to see how a newspaper is made. After watching the press in operation for some time the linotype operator gave each youngster a slug with his name printed on it. The children printed their names on scratch pads and a few of the boys decided to be reporters.

The following were present: Byron Harper, Jeanne Breeding, Gary Page, Gaylon Jernigan, Frances Hammond, Erma Flores, Ronnie Aldridge, Stony Taylor, Donna Cobb, Brenda Rind, Rebecca Berry and Danny Spradley.

Sophomore Class Elects Officers

The Sophomore Class of Goldthwaite High School met and elected the following officers for 1958 and 1959: President, Loretta Manuel; vice-president, Jimmy Ward; secretary, Ronny Laughlin; treasurer, LaJuana Denman; reporter, Jackie Todd.

Mr. Max Blansit is the class sponsor and room mothers are Mmes. Victor Williams, Lloyd Reynolds, Herbert Faulkner, O. O. Smith, George Denman Jr. and Hobson Miller.

Senior Class Elects Officers

The Goldthwaite Senior Class of '58-'59 met Tuesday, September 16, and elected class officers and room mothers for the year.

The officers elected are: Barbara Burns, president; Gene Elliott, vice-president; Benna Reid, secretary; Linda Ward, treasurer; and Shirley Morgan, reporter.

Room mothers are Mesdames L. J. Ward, John Elliott, Oran Carothers, Delton Barnett and E. O. Shepherd. Mr. L. J. Ward had the honor of being elected as room father.

Mr. D. J. Williams and Mrs. George Reese are the class sponsors.

Center City Club To Have Benefit Party

The Center City Home Demonstration Club will sponsor a party in the home of Mrs. Jack Elms Saturday night, October 4. The purpose of the party is to raise money to buy shrubs for landscaping both churches. Everyone interested in this plan is urged to attend.

Next meeting of the club will be October 9, at the Fellowship Center, with Mrs. Herbert Coffman, hostess.

Mr. and Mrs. Chester Berry, Fort Worth, and Joe Warlick of James Connally A.F.B., Waco, were guests of Mr. and Mrs. John Warlick, Wanda and Gary, Sunday.

MR. AND MRS. PRENTICE WAYNE BARNETT

Anna Collier And Prentice Barnett Exchange Vows In Church Ceremony

The First Methodist Church of Goldthwaite was the setting Friday morning, September 12, at 10 o'clock for the wedding of Miss Anna Louise Collier of Austin and Prentice Wayne Barnett, also of Austin.

The bride is the daughter of Mr. and Mrs. Leonard Collier of Goldthwaite and the bridegroom is the son of Mr. and Mrs. W. C. Barnett, also of Goldthwaite.

The impressive double ring ceremony was read by Rev. George B. McCrary, pastor of the church, before an altar decorated with greenery and baskets of white gladioli and white chrysanthemums.

Traditional wedding music was presented by Lathon Jernigan, organist, who accompanied Edward Waddill, soloist of Austin as he sang "The Lord's Prayer" and "Because."

The lovely bride, given in

marriage by her father, wore a ballerina length gown of corded lace over white satin with an overskirt of lace and net. The bodice featured a sweetheart neckline and three quarter length sleeves. Her elbow length veil of illusion was attached to a seed pearl tiara. She carried a white orchid surrounded by blue chrysanthemums and stephanotis in a cascade arrangement, showered with white satin ribbon tied in double lovers knots.

Her traditional something old was pearl ear rings; something new, her gown; something borrowed, her veil; something blue, a garter. Her only jewelry was a solitary pearl.

Miss Dorothy Manuel of Austin was maid of honor. She wore a street length dress of sky blue podeswa and carried a cascade bouquet of light pink chrysanthemums and stephanotis.

W. C. Barnett was his son's best man. Charles Collier, brother of the bride, and Robert Jordan ushered.

For her daughter's wedding Mrs. Collier wore a silver gray lace dress over silver gray satin with white accessories and a white glabella corsage. The groom's mother wore a beige dress with matching accessories and a corsage of rose glabellas.

Immediately following the ceremony a reception was given by the bride's parents in the Fellowship Hall of the church. The refreshment table was laid with a white net over white taffeta cloth festooned with blue satin ribbon bows and centered with a beautiful blue and white floral arrangement in a silver and crystal epergne, a gift to the bride. Miss JoAnn Jones ladeled punch and Mrs. Elizabeth Hiller, aunt of the bride, served the three tiered white and silver cake, which was topped with a miniature bride and groom. Miss Norma Royce Letbetter registered the guests and Lathon Jernigan presented musical selections.

For a wedding trip to South Texas the bride wore an empire dress of sky blue jersey with patent accessories and an orchid corsage.

Both the bride and groom are graduates of Goldthwaite High School and the bride is a graduate of Tarleton State College. Mr. Barnett attended Tarleton State College and the University of Texas.

The couple is now at home at 406-A East 15 Street, Austin.

Mr. and Mrs. George Willis and son, Tommy, and Tommy's friend from Comanche spent Sunday with Mr. and Mrs. D. A. Hamilton.

Conservation District Election Scheduled Next Tuesday

Station, (Spec.)—Zone 5 voters will elect a farmer or ranchman as their supervisor and representative on the Soil Conservation District Board for the next five years. Time and place for the October 7 balloting will be announced locally, says Pittard.

The specialist points out that the soil conservation districts are sub-divisions of the State of Texas and are governed by locally elected farm and ranch landowners. The districts play a major role in local soil and water conservation programs. Through their technical assistance, equipment, leadership in small watershed projects and many other services are provided to the cooperating landowners.

It is because of the great importance of the districts and the supervisors who direct their programs that Pittard urges all eligible voters to participate in the October 7 election.

Local county agents or soil conservation district supervisors can supply information on the election and also on how a farm or ranch owner may become a district cooperator.

Bond Sales Are Going Strong Here

"Savings Bonds sales for the first eight months of 1958 totaled \$152,603," Mr. W. P. Duren, Chairman of Mills County's Bond Committee, reported today. "Our county has now reached 71.6% of its 1958 goal of \$213,000. August sales were \$7,253."

Texas sales through August 1958 were \$118,503,413 which was 5% greater than the same period in 1957.

"Every American investing in U. S. Savings Bonds gets an extra dividend—the satisfaction of knowing that his savings are strengthening America's Peace Power," stated Mr. Duren, County Chairman.

INDIAN DEPREDEATIONS

The Sherman Patriot has news from a reliable source that the Indians are again committing depredations on the frontier. On the head of Denton and Clear Creek, several families have been murdered and most of the stock killed or carried off.

From the Jefferson Herald—"The mail rider on the route from Fort Arbuckle to Gainesville, Texas, was recently pursued by a party of Comanches, but after giving him a pretty close race for several miles, he succeeded in making his escape unhurt.

From the Galveston Civilian—"The Sexton's report of the city of Houston, from 1st to 9th inst., gives one third of the deaths from delirium tremens. This is no unusual proportion of the deaths from intemperance in many places. No disease kills more; but no panic is produced

by this fatal malady."

Preston Hay, of the Crockett Argus, stands up manfully for the Austin Clique. Heaven knows they need help, Preston. But keep truth upon your side.

The Houston and Texas Central Road is pushing ahead bravely. It is now in good running order to Hempstead, fifty miles. The next thirty-five miles is recognized as the worst part of the road.

Judge J. K. Evetts To Attend Conference

District Judge James K. Evetts of Belton, whose 27th Judicial District includes Mills County, will attend the annual conference of Texas Judges, Oct. 9-10 at Laredo.

Judge Evetts will join some 190 other members of the State Bar's judicial section to work out mutual problems ranging from needed improvements in criminal law to court-sponsored marriage counselling.

Headed by Chairman Tom J. Ranfro, Associate Justice of the Fort Worth Court of Civil Appeals, the section is comprised of some 250 judges of appellate and district courts and county courts-at-law. Judge Evetts is immediate past chairman of the judicial section and is currently its secretary-treasurer.

The two-day program will include some 30 addresses and panel discussions involving problems common to the judiciary. The annual banquet Friday night will feature an address by Associate Justice W. St. John Garwood of the Texas Supreme Court, Austin.

Self Culture Club Meets September 25

The Self Culture Club held the first meeting for the new club year, Thursday afternoon, September 25, in the home of Mrs. Harold Yarborough, with Mrs. J. A. Hester co-hostess.

Mrs. Hester, president, presided at the business meeting and Mrs. Ray Duren was director for the following program:

CLEANING
VARNISHED SURFACES

Are some of your varnished pieces dull looking, sticky, or soiled? If so, here's a "face-lifting" and cleaning suggestion:

- 1 quart hot water
- 1 tablespoon gum turpentine (to cut the dirt)
- 3 tablespoons boiled linseed oil or lemon oil (to lubricate, feed and polish the wood).

Keep the mixture hot in a double boiler while you work. Dip a soft cloth in the solution, wring out excess moisture and apply to furniture or other varnished surfaces doing only one part of the piece at a time. Rub the wood, keeping moisture away from the joints as much as possible. Fine steel wool may be used to rub the solution on badly soiled surfaces. Wipe the surface immediately with a dry cloth. Polish with a woolen cloth.

This method was tried in a Home Demonstration Leader Training meeting last spring. It proved successful.

CHECK LABELING
ON MAN-MADE FIBERS

Fabrics of man-made fibers rate high in popularity with today's homemakers. Their so-called easy-to-care-for-qualities are in great demand. However, unless you read the labels and interpret them as the manufacturer intended, you may be expecting too much from some of the fabrics.

Here are interpretations from manufacturers of labeling terms often used with reference to these fabrics:

*Wrinkle-resistance, a term

often used, should not be confused with wrinkle-proof. Manufacturers remind us that no fabric is wrinkle-proof.

*There is a difference between permanently and durably pleated fabrics. Nylon can be permanently pleated. Fabrics of orlon and dacron can be durably pleated. Manufacturers tell us that after 10 to 15 washings, it is best to take garments of orlon and dacron to cleaners for repleating. Pleated garments of these fabrics will require more careful handling and will perhaps be more expensive in the long run.

*Altering nylon fabrics may present problems. Once creases and pleats are set in 100% nylon they are very hard to remove. In buying a dress where alterations are necessary, choose the larger size. It is easier to take in seams than to let them out.

*Fabrics of man-made fibers are often labeled moth-resistant. However, moths are attracted to some dyes or finishes on the fabric and to some blended fabrics. For example, if dacron is blended with wool, the moths will be attracted as always to the wool.

*Directions for pressing are often misinterpreted. Most man-made fibers require little pressing—IF they are drip-dried. They must be ironed as usual if they are wrung or twisted after rinsing.

Check the label or tag to determine washability of the fabric. If the garment is not labeled washable, or if the shoulder pads or finishes of the garment are not washable, have it dry-cleaned.

A final reminder—When buy-

Several showers fell here last week, amounting to one inch. Willie Hightower and Lewis Hale, former residents of this community, who now live on the Lometa Highway reported that the rain in their vicinity amounted to downpours. They had planned to sow grain but maybe they will go fishing now.

Mr. Eieu of Blanket was at the Nowell place gathering some of his goats that had strayed. The goats broke down the fence and were scattered on the highway and roads. He would appreciate it if anyone seeing some stray goats would notify him.

Mr. and Mrs. Walker Berry were recent guests of Mrs. J. H. Vaughan.

Mr. and Mrs. W. O. Oden visited Mr. and Mrs. Arthur Griffin and Joe Thursday night.

Mr. and Mrs. O. A. Evans attended church at the Church of God in Mullin last Saturday night, Sunday and Sunday night, and heard the new pastor preach.

William G. Crawford and the Carl Evans Brothers attended the football game at Mullin Friday night. They reported it was an interesting game.

Ronald, Wayne and Steve Ratliff attended the show Friday night.

Mrs. Ted Vance and Mr. and Mrs. J. C. Creek visited Mr. and Mrs. Jackie Creek and children at Austin Thursday. Jackie is in the air force.

Mr. and Mrs. O. A. Evans received word that Omer Hill was a surgical patient in a Dallas hospital. He is a former resident of this community and we hope for him a speedy recovery.

George and Pearl Crawford visited Mr. and Mrs. A. L. Crawford and William G. Friday afternoon.

Mr. and Mrs. Jim Smith were guests of Mr. and Mrs. W. O. Oden Friday morning.

Mrs. J. D. Roberson and Joyce visited Mrs. Hugh Nowell Wednesday.

Mr. and Mrs. W. P. Oxford and sons visited Mr. and Mrs. W. W. Ratliff and sons Wednesday night.

Mr. and Mrs. George Crawford, Roger and Lajolce and J. C. Crawford of Burnet visited Mr. and Mrs. O. A. Evans last Saturday evening. They were on their way to Cisco to see a ball game. George Wayne Crawford, a student was one of the players.

The Creek reunion at Eanes Lake, Comanche, was a happy occasion. J. C. Creek and George

ing fabrics of blended fibers, always read the labels for percentages of fibers used. The predominating fiber will largely determine the wearing qualities and care of the fabric.

H. D. Council officers and council and club committee members be sure to remember the training meeting to be held at the Youth Center October 9 at 10:00 a. m. by Miss Bonnie Cox.

Creek were the two oldest members present. Others present were Mr. and Mrs. Ten Vance, Mr. and Mrs. J. C. Goddard, sisters of Mrs. Creek. They enjoyed visiting the old Comanche Log Courthouse.

The Long Hunting Club members attended the barbecue supper at Pecan Wells.

RACHEL ELDER VISITS
HERE AFTER TRIP TO
NASHVILLE, TENNESSEE

Miss Rachel Elder of Austin and Miss Betty Fudge of Three Rivers spent the past weekend in the home of Mr. and Mrs. C. L. Elder and son. Rachel had just returned home from Nashville, Tennessee, where she visited friends who are members of the famous softball team, "The Red Aces."

These girls have been Tennessee's State Champions for four consecutive years. In 1958 they won the South Atlantic Regionals. Four of the team are All American basketball players. One of them was named the most valuable player in South America and in the World Tournament held in Moscow, Russia, according to announcement by Miss Elder and several others have been named to The Hall of Fame in various sports.

Mrs. Bertha Weathers has returned home from a visit with her daughter, Mrs. W. H. Dodson, Mr. Dodson and son, Gary, at Hobbs, New Mexico. She also visited with another daughter, Mrs. T. A. Woodley, Sp/2c Woodley and girls, who have just returned from Germany. Her granddaughter, Wannell, returned home with Mrs. Weathers and will visit here until her family come for her.

Clementine Wilmeth Briley Writes
From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

We were happy to hear from Mrs. Edna Dwyer yesterday (Thurs., Sept. 25). She has been staying with Miss Cora Posey at Indian Creek since Sept. 11. Miss Cora is home from the hospital after suffering a broken hip. Edna says they are just doing fine. Miss Cora can go all over the house in her wheel chair, and she helps cook and dries dishes. And between the two they keep the chatter going.

Mrs. Dwyer says Mrs. Cecil Egger's mother, Mrs. Smith, has had a bad heart attack and is still in a Brownwood hospital.

We were in hopes Mrs. Dwyer would tell us of good rains at home but she didn't even mention rain. But she said she had to cut her letter short as Elmer Posey had come with the mail,

and she wanted him to mail her letter.

El Paso is getting to be a rainy city. It rained Monday, rained last night, and tonight it is thundering and raining again, and today we've had a cool norther.

Texas Western College has enrolled 3,574 pupils. And we can remember that two of them are Tilmon Kirby of Goldthwaite and Carroll Welch of Brownwood. Carroll is the son of Mr. and Mrs. D. Welch of Brownwood, and is an old Ebony boy. Carroll teaches at Clint, but is taking some work from Texas Western.

Billy has made the football team. Johnny takes Spanish after school Tuesdays and Fridays. He was counting for me in Spanish last night.

John seems to be improving under the doctor's care, though I never have been able to get him to take it, according to directions. He better, sleeps like a baby, has been working out yard again.

I was frying chicken week when hot grease all over my right hand was a bad burn.

A letter today from granddaughter, Marilyn, field of Port Lavaca and Dan Vinzants moved to the latter part of August. He is assistant minister in Church of Christ there. Minister there is Bro. Harlow whom I met in Goldthwaite summer. Carol Jean is taking third grade in the school. A lady is keeping baby for her.

Mrs. J. A. Weather's Dallas is a guest of her daughter, Mrs. C. A. Womack and Womack.

OUTDOORS IN TEXAS

good cover, or just lying flat out in knee-high grass is enough to fool any goose. Don't listen to them. These hunters may bring down a few geese, for there are foolish birds, just as there are unwary people, but most honkers won't be fooled easily.

Texas' great rice, corn and wheat fields compare favorably with the miles-long Mississippi sand bars. Wild geese come to them to feed and rest, just as they do on the bars. So why not follow the example of expert goose hunters and hunt their way? Many experienced Texas sportsmen already do. For those who don't, and for beginners new to the game, a few tips might be helpful.

Be sure the site you select is a field, or bar, that has something to attract geese—grain, green grass, or is strategically located near a popular flyway (geese rest often on their way to distant points). Local people can help you find a good spot. The Chamber of Commerce can guide you to free, or leased, grounds that are good.

Get to your chosen location well before daylight and dig a pit that is at least 6' long x 4' wide x 4' deep (if two are hunting). Scatter, or camouflage, all excavated dirt or sand. Otherwise, geese will avoid you.

Next, stake out your decoys. Use about a dozen—two dozen are better—and don't bunch them. Place two here, three or four there. Try for natural ap-

pearance. Flat tin decoys once were the goose hunters' standby. But they were heavy and hard to carry. In recent years these clumsy dummies have been replaced by decoys printed in natural colors on stiff, waxed cardboard. They come folded flat, and are lightweight, take little space to carry, and are three-dimensional when set up.

Also very effective are the new inflated rubber birds, and the plastic jobs. Both of these, however, are more expensive.

Once your decoys are staked out around the pit (over an area of about 20' x 30') you are ready for business. Nothing else for you to do but sit and wait for daylight.

In goose hunting only shot-gauges are legal to use. All the standard gauges—.410, .16, .12, .20, or .10, according to your preference. Off-size gauges also are legal if smaller than the .10. Most goose hunters prefer the 12-gauge because of its heavier load and larger shot pattern. Shot size should be no smaller than No. 2. And, by all means, use high-power, or express loads for top efficiency.

A goose caller is not necessary. However, it's an asset if you know how to use one. But— if you aren't experienced at calling geese, your amateur efforts will scare away birds rather than bring them to you.

Another thing to remember, when you hear a flock of honkers in the distance they probably are out of sight. Duck down in your pit quickly. Don't wait until you see the flock coming toward you. By that time the sharp-eyed birds very likely will have spotted you standing in your pit, and will swerve away, or pass high overhead. And once you are down out of sight, stay there. Don't get excited and stand up before the birds are within range. Stay hidden until rustling wings tell you they are just overhead. Don't be uneasy. You will have more than enough time to place the three shots allowed you before the geese are beyond range.

And don't get careless and kill more birds of any one kind than your legal limit. Learn the difference between species, so you can identify the bird you are shooting at before you pull the trigger. It's a little trouble, but worthwhile if you want to avoid game warden unpleasantness.

When the shooting is over it is time to think about getting your bird to the table in the best possible shape. A tasty bird can be ruined in the handling and cooking. Suggestions on the preparation and cooking

EGG LICENSES OVERDUE FOR MANY

September 1, 1958, marked the deadline for Texas egg industry to secure 1959 licenses required under the Texas Egg Law, and some 1500 firms who haven't complied face possible cease-business action by Texas Department of Agriculture inspectors.

About one-third of Texas egg

dealers, wholesalers, processors and brokers required by law to be licensed before doing business failed to make application for renewal or initial license by September 1, when 1958 licenses expired. Licensing for the 1959 period began August 1, and all licenses issued prior to August 1 were valid only for the remainder of the 1958 licensing period just ended.

Whereas total 1958 egg business licenses issued up to July of this year were more than 4500, applications for 1959 licenses received up until September 15 totaled below 3,000. This lag in applications is partially due to the relative newness of the licensing law which first became effective a year ago.

Egg firms which have not made application for 1959 licensing should do so immediately to avoid any difficulty in their operations. Licenses can be obtained by writing to the Texas Department of Agriculture, Capitol Station, Austin 11, Texas.

TEXAS ROSE BUSINESS BOOMS

Business is booming in the Texas rose belt. The area around Tyler is Smith County, known everywhere as the "Rose Capitol of the World" is covered with countless acres of field-grown rose bushes numbering into the millions.

Evidence of the growth of this important agricultural industry is borne out in the increasing volume of rose field inspections conducted by Texas Department of Agriculture nursery inspectors. The latest inspection period from August 15 through September 5 of this year required 11 inspectors to cover 2,034 acres in Smith County containing some 19,623,000 rose bushes.

If you haven't already started on the project, better get busy sighting in that deer rifle for this fall's shooting. Every year we warn hunters against going out with a gun that hasn't been "trained in" for the season's shooting. And every year hunters come back with their shirt tails cut off for missing a big buck.

In some areas it is difficult to find a place to target a big rifle. Around most of the large cities, however, there are shooting ranges where for a fee you can lay a few shots in the bullseye. If you decide to go to the country, however, be sure you get permission of the land owner before blasting away. He may not like to have shooting on his place by someone thoughtless enough not to ask.

There'll be quite a few new guns and calibers on the market this fall. Also some changes have been made in ammunition. For instance, Winchester has introduced a new 20-gauge magnum bird load, comparable in pattern and energy to a 12 gauge load. The new 2 3/4 inch shell is loaded with 1 1/8 ounces of 7 1/2 shot. Previously the shell has been loaded with 2's, 4's and 6's for waterfowl and pheasant shooting.

Another new gun on the market this year is the X-5 Lightening by Ithaca. It is a semi-automatic 22 built along mod-

ern streamlines and is sure to become a favorite among those who have been shooting Ithaca shotguns for years.

This new model, the first rifle by Ithaca, is built to Cadillac specifications. It handles easily, has a ruggedness not found in many rifles and is equipped to handle either 7 or 12 shot magazines.

Ruger also has announced a new 22 caliber frontier model. It is in the competitive field of the Colt single action 22 and the new Double 9, of Hi-Standard. The new Ruger, Bearcat by name, has some of the appearance of the original Remington Police 36, and the Colt Model of 1849. It looks more like a gun of the old west than the others.

Ruger now claims to be the largest manufacturer of single action pistols. In addition the company also has a very interesting line of semi-automatics.

Hunter's Handbook Out

With the approach of the big game hunting season in Texas and elsewhere it is fitting that we give some thought to the handling of trophies. The average man who sits at the desk 50 weeks a year can't be expected to know too much about the dressing out of wild game, or preserving a head for mounting.

Major B. J. Brewster, who is the wildlife management co-

ordinator for the Red River Arsenal at Texarkana, thought of this. Accordingly he has written a book telling how to handle your prospective trophies. He got his inspiration while visiting in the taxidermy shop of Kelton S. Tillery of Fort Worth.

Major Brewer was looking over some of the trophies shipped to Mr. Tillery. Most of them had been badly handled and had major things wrong with them to prevent perfect mounting.

It was then that he was inspired to prepare a handbook for field instruction in the care of trophies. There are many library books on the subject, but none small enough to carry in a parka pocket, to provide directions on the spot.

Major Brewer points out in his pocket size manual that two things make the difference between poorly mounted trophies and a piece of art. First, is the proper care of the trophy from the moment it is killed or caught; second, the use of a skilled taxidermist for the finished product.

He takes up the various subjects, such as caring for big game heads, skins for making rugs, animal full body mounts, half mounts, fish and birds and then gives you a few simple rules to remember. Major Brewer's book is well written and well illustrated. It certainly is worth the dollar price.

Time To Hunt America

Hunt America Time is a new plan of the Izaak Walton League of America to promote better relationship between landowner and sportsmen. The theme of the program is "Respect Private Property — Save Public Hunting." How well the program gets organized in Texas remains

to be seen. The principle of it, however, is the only thing that can save public hunting as such.

It must be remembered that more than 80 per cent of the harvested game each year is taken on land belonging to someone other than the hunter. In Texas this percentage may be even higher.

The game belongs to the people, but the land belongs to individuals. If they fail in providing cover and feed for wildlife, there will be no harvest. On the other hand, if landowners treat their wildlife as a crop, it can be profitable to them financially, and provide recreation for the millions who like to hunt.

The pledge in the Hunt America Time program is (1) to be law abiding; (2) to respect the rights and property of others; and (3) to be careful with fire and firearms.

If you are interested in more details on this program, write to the Izaak Walton League, 1326 Waukegan Rr., Glenview, Illinois.

Knife Making Booklet

W. D. "Bo" Randall of Orlando, Fla., is a man who has literally carved his way to fame. He is a knife maker.

It all started as a hobby with

him. Suddenly his hobby came a growing business. Today he sells outdoor knives over the country. He says other people should make it as a hobby, too, so he has prepared a little handbook on making which he sells for cents. Might be worth reading.

NEWS from
YOUR
COUNTY AGRICULTURAL AGENT
TEXAS A. & M. COLLEGE EXTENSION SERVICE

BY GEORGE G. REESE

Perennial Sweet Sudangrass — Mills County has some real good temporary pastures this year and one of the best that I have seen is on the Loyd King ranch, that is located south of Goldthwaite. Mr. King planted one acre of Perennial Sweet Sudangrass in rows around the first of May. When it was one-half knee high he started grazing it with 20 head of buck lambs. He grazed this 20 head until the first of June, at which time he started adding sheep until he now has 40 head on this one acre of temporary pasture. Last week it was still about two feet tall and providing a large amount of green feed for his sheep.

Mr. King states that he has had this one acre of temporary pasture seeded to King Ranch, Buffle, annual Sudan and Sweet Sudan in the past years but this Perennial Sweet Sudangrass is providing much more grazing than any of the other grasses that he has tried.

Perennial Sweet Sudangrass is a synthetic tetraploid of the Sorghum species developed by the Texas Agricultural Experiment Station after 15 years of breeding and selection. Unlike Johnsongrass, the rootstocks are short and thick and do not penetrate deeply into the soil. They are more weakly perennial in habit and are not difficult to eradicate. Perennial Sweet Sudan is easily established, productive the first year and a valuable addition to our pasture grasses. It should not be grazed too closely, since, like Johnsongrass, the stand can be damaged or destroyed by overgrazing.

The root system appears to be efficient in maintaining vigorous and renewed growth for pasture throughout the growing season, even under dry conditions.

Analysis shows the sugar content of the stalks is somewhat higher than Sweet Sudangrass. Each plant will produce many stalks, or tillers, under favorable conditions and thin spacing. When grazed or cut back, new tender shoots are put out from the crown or rhizomes.

Calf Tour—The annual Mills County Calf Tour was held last Saturday. There were thirty-nine people on this tour. Stops were made at twelve different feeding pens. The calves were paraded before the people at which time the calves were discussed. Mr. J. C. Dibrell of Coleman and Mr. Walter Hill from Comanche also attended the tour. These are two Hereford breeders, that we have fed calves that were out of their herds.

The calf tours can give a large amount of encouragement to the boys and girls that are feeding calves. These boys and girls feel that people are interested in what they are doing and this tends to make them

work harder on their projects. The people that attended this tour saw some real good prospects for the Winter and Spring livestock shows.

Turkeys—Wednesday, the turkeys were selected and banded that will be exhibited at the State Fair of Texas at Dallas. An exhibit consists of 4 hens and 2 toms. These turkeys will be shown in the Market Show and they are selected for body conformation, feathering and finish. Each entry must be uniform in order to have a chance of winning. Mills County has exhibited the grand champions in this Show for the last two years. Ella Ruth Clary, Wanda Soules and Jimmy Soules will have entries this year in Dallas.

Fall Planting Time Is Here!

You can SEE why a McCormick® drill seeds more accurately.

Look closely at the fluted feed on a McCormick grain drill. Notice that the feed roll turns freely on a full-length bearing. This prevents binding or wobbling—assures precision seeding even after long use. Take off one of the blades on a McCormick double-disk opener. Notice the exclusive front seed delivery. Seed is carried to the bottom of the seed trench by the movement of the disk. This guarantees even depth planting at any speed. Look closely at a McCormick drill, and you'll find dozens of little differences in design that make a big difference in accuracy, dependability, and durability. GREED

Who fed the wilderness with which thy fathers knew? Who might prove thee, that the good at thy latter end shall remember thy God: for it is he that he may establish a name which he swears to his fathers, as is this day."

commandment. They so much wanted that which was denied them that they were willing to sin against God to obtain it.

Many sins stem from this basic principle of wanting what belongs to another. This is true through all the degrees of theft and embezzlement to the nation-wide aspect of aggressive war. All are based in covetousness.

Two questions need to be asked. Can man rid himself of greed? Can he reach into his heart and tear out that which causes so many other sins to come to fruition, in his life?

Can he of his own power shake off the chains of bondage of selfishness and greed?

All of man's experience answers no to that question. In his own strength he is helpless and inadequate.

The second question is: Can God rid man of greed?

Here we find a glorious and victorious answer in the affirmative.

The natural man is selfish, but the regenerated man finds a power dwelling within him which frees him from bondage of greed and makes it possible for him to live his life after the pattern of God.

It makes it possible for him to abstain from a life of greed and to move over into the positive realm of giving to others who are in need.

May God help us to pay attention to Timothy 5-6 — "But she that liveth in pleasure is dead while she liveth."

**Social Security
Representative's
Visits Scheduled**

A schedule of visits during October, November, and December to the communities serviced by the Temple office of the Social Security Administration has been released by Maurice M. Chastain, District Manager.

The social security representative will be available to answer questions about the provision of the law, and he will assist persons in making application for old-age, survivors and disability insurance benefits, Chastain stated.

According to the schedule, the representative will be at the Dept. of Public Welfare in Goldthwaite on Fridays between 8:30 a. m. and noon on Oct. 2 and 24; Nov. 7 and 21; and Dec. 5 and 19.

Persons past retirement age are reminded that they need not stop working altogether to receive payments under the provisions of the Social Security Act. Benefits may be paid during all months of a year in which a person does not earn more than \$1200, and benefits may be paid for some months of a year in which the worker earns over \$1200, but no more than \$2080. Persons who are planning to make application in the near future are advised to contact their representative now.

For an answer to any particular question, or for an appointment with the social security representative, you should write to the Social Security Administration, 415 First National Bank Building, Temple.

Words of the Wise

A habit cannot be tossed out the window; it must be coaxed down the stairs a step at a time. —(Mark Twain)

**Questions And
Answers About
Social Security**

Question: What can I do to make sure I get my first social security check soon after I make application?

Answer: You can speed up delivery of that first check by contacting your social security representative two or three months before you plan to retire. By so doing, you can find out exactly when you should file your claim and what documents you will need to present. By having everything you need with you when you file, your claim will be processed without undue delay and you can be sure that the postman will be at your door soon after you file.

Question: Our son was killed in 1949. He was our main support at the time but we were told by the social security representative that we could not collect his social security because he left a widow. Has the law been changed since then?

Answer: Yes, the 1958 amendments changed the law so you may now be eligible even if your

son was survived by a widow or child. Contact our representative on his next visit to Goldthwaite and discuss this with him.

Mr. and Mrs. Hugh Owens accompanied by Mrs. Owens' sister, Miss Ruth Taylor of Richland Springs, were vacationing last week in Carlsbad, N. M.

**MILLS COUNTY
STATE BANK**
GOLDTHWAITE, TEXAS

AUSTIN, Tex.—Through the summer campaigns "economy in government" were words that rustled about as harmlessly as an evening breeze.

But with the approach of winter and down-to-the-lick budget-making time, the same words have the cutting edge of a blue norther.

Gov. Price Daniel stuck a pin in any last rosy hopes that "things might not be too bad." He sent back the money requests made by heads of state departments for 1959-61, saying they were "wholly unrealistic."

Governor Daniel had been the last major hold-out against predictions of a major money crisis. Other state officials had been crying doom and foreseeing a shortage of up to \$140,000,000 for months.

Governor Daniel took note of

A tung oil, lead-free pigmentation formula with excellent coverage and hiding power. Makes a durable, attractive finish. Fume and mildew resistant. Easy brushing and non-sagging. The unusual whiteness of this product is due to delicate clarity of pure American tung oil used in the formulation.

Special \$5.00 gallon
"Tung Oil Makes The Difference"

these predictions in asking department heads to re-examine their budgets, eliminating any non-essential items. A deadline of Oct. 8 was set for the new requests.

As originally submitted, the requests would require a \$272,000,000 increase in spending.

"I think and hope this decline in state revenues is a temporary condition," said the governor, "but a realistic approach . . . requires that 1960-61 requests should not exceed the 1958-59 level unless absolutely essential."

DEFICIT SOON—A further glum note was the state comptroller's forecast that the general revenue fund would run dry in October.

And it probably won't be a temporary thing, according to Comptroller Robert S. Calvert. Almost every spring the state has a seasonal shortage just before the April deadline for franchise tax paying.

Calvert said this deficit may continue until September, 1959, and bring a return of some of the squeezes of the 1930's. During those years state employees had to pay a discount of from one to five per cent to cash their pay checks since the banks that cashed them had to hold them for some time waiting for the state to get the money to make them good.

Calvert said the general revenue fund began the new state fiscal year in September with a \$13,000,000 balance. This is not a very big kitty for the government's billion-dollar-a-year operation.

HARD DECISION—Education Commissioner J. W. Edgar is the man in the middle on the controversy over accepting federal aid for Texas schools.

Dr. Edgar has until the end of this week to decide whether to recommend to the State Board of Education that Texas participate in a new federal school aid plan. This program, prompted by national defense concerns, is designed to help step up training of mathemat-

icians, scientists and teachers. Edgar's decision must be made in the light of the recent recommendation by the Hale-Aikin Committee, a group of influential citizens and lawmakers, that the state stop taking some federal funds it is already getting—for school lunches and vocational training.

On the other hand, Senator Ralph Yarborough, a Congressional sponsor of the new aid plan, is strongly urging that Texas take advantage of it. Others who agree declare that to stay out would mean Texas schools would lose millions—some of it paid in by Texas taxpayers.

GENTLE REMINDER—Uncle Sam still wants you—to register, at least.

This reminder comes from State Selective Service Headquarters which says many young men, usually through misunderstanding, are failing to register on time.

All males must register on their eighteenth birthdays—or within five days afterwards—even if they're in National Guard or have already been in service.

Texas draft quota for November will be 556 men, according to the state director, Col. Morris S. Schwartz.

Advertising "Major Step"—Proposal to use tax money to advertise Texas got a boost from one of the state's best-known economists, the director of the University Bureau of Business Research.

Dr. John R. Stockton called the advertising plan a "major step in a program to promote the continued growth of the state." Continued industrial expansion is essential, said Dr. Stockton, since Texas no longer enjoys its position of world leadership in oil production.

Of the recent recession, the BBR director called it "V-shaped"—a quick, sharp rise, just "a gap between rising trends."

State Sues Oil Companies—Atty. Gen. Will Wilson has filed anti-trust suits against three oil companies engaged in refining and selling gasoline to retailers in the El Paso area.

Standard of Texas, the Texas Company and El Paso Natural Gas Products Co. are charged with illegally agreeing to fix prices. Wilson said a court of inquiry confirmed reports that gasoline prices were artificially high in El Paso. He said major brands had been selling for 34 cents a gallon in El Paso compared to 21 cents for the same product in Juarez, across the border.

Final Rites For A. F. Locklear Are Held In San Saba Saturday Afternoon

Funeral services for A. F. (Jock) Locklear were held in the Gymnasium of San Saba High School, Saturday afternoon, September 27, 1958, at 3 o'clock. Services were conducted by Melvin Harblson of Fort

Worth, former minister of the San Saba Church of Christ and Dr. R. C. Tennison, pastor of the First Baptist Church of San Saba.

Mr. Locklear was born August 31, 1906 in San Saba County, son of the late Travis Locklear and Mary Taylor Locklear. He passed away in Methodist Hospital, Dallas, September 25, 1958, at 4 p. m. after four weeks illness. He was Principal of San Saba High School and started teaching in San Saba High School in 1929. He was a member of the Church of Christ, American Legion and Masonic Lodge. He was preceded in death by his parents and a brother, Homer Locklear.

On December 21, 1932 he was united in marriage with Marjorie Owen at San Saba.

Survivors are the wife, Mrs. Marjorie Locklear of San Saba; a daughter, Mrs. Wayne Robertson of Dallas; one son, Ward Locklear, San Saba; a sister-in-law, Mrs. Frances Locklear, San Saba; two nephews, Bill and Richard Locklear of San Saba; a son-in-law, Wayne Robertson of Germany; a number of other relatives including an uncle, Clabe Locklear of Goldthwaite, and a multitude of friends.

Funeral arrangements were under the direction of the Howell-Doran Funeral Home of San Saba with Masonic graveside rites in San Saba City Cemetery.

Mr. and Mrs. C. Locklear, Mr. and Mrs. J. Cecil Williams, Mr. and Mrs. Sonny Robbins and Mr. and Mrs. Glenn Miller, all of Goldthwaite, were among the out of town relatives and friends attending the services.

as Department of Corrections has been getting applause from all sides.

State Auditor C. H. Cavness, whose official reports frequently jab at flaws in state agencies, acclaimed the system for having progressed from "one of the worst in the nation to its present and recognized position as one of the nation's best." He paid tribute to the general manager and board for having achieved this without "an appreciable increase in the cost per inmate per day."

Also, Governor Daniel took note of the recognition paid Gen. Mgr. O. B. Ellis in his election to the presidency of the National Congress of Corrections.

Short Snorts—Two good-paying state jobs are standing vacant. They are for an \$11,500 program examiner and a \$10,000 finance examiner for the Commission on Higher Education. But the Commission director says the salaries are less than terrific for the type men needed . . . Not since 1889 have there been so many cotton rats and mice loose in Texas, says the State Health Department. What is worse, the upcoming cold weather may cause many to enter homes in search of food. . . Texas Employment Commission reports that 3,817 Texans were involved in work stoppages over the state as of Sept. 1. Most of the strikes involved construction work.
