Former County Resident Boosts Park Maintenance Fund With \$10

C. O. Norton, long time resident of Mills County and now operator of the Green Oaks Jersey Farm at Weatherford, this week boosted the county park maintenance fund when he sent in a \$10 contribution.

Enclosing his check with a letter to Ray Duren, Park Maintenance Fund chairman, he stated: "Please allow me to have a small part in having a nice place that the good people of Mills County can enjoy. The

people of Mills County were too good to me for me not to try to do some little something for them."

During the past week \$22 was contributed to the fund making a total of \$1,031 contributed by 99 interested parties, through Tuesday.

The following are added to the honor roll:
C. O. Norton
Walter Reeves

Of the 99, 76 contributed in the suggested amount of \$12 for a year, for a total of \$912. Twenty-three others contributed a total of \$119.

This leaves the drive \$169 short of the goal of \$1,200 which the committee hopes to raise for park maintenance on a year around basis.

Officials expressed the hope this week that this goal will be reached in the next week or two. The park maintenance fund is being established to insure upkeep of the park.

It has been pointed out that the park is a county-wide project and citizens from the entire county are invited to help in the upkeep program.

Checks may be made out to the Park Fund and presented to any member of the park committee or they may be turned in at Mills County State Bank.

W. P. Duren is chairman of the Park Board and Ray Duren is chairman of the park maintenance fund drive.

Plans Are Underway Here For Hospital Expansion

Dr. M. A. Childress announced this week that plans are underway for enlarging Childress Clinic and Hospital.

He stated that the architect had almost completed final plans which call for an addition to the hospital with eight more rooms that can take care of 16 more patients by placing two to each room. Estimated cost of the new addition is \$50,000.

The hospital at present has eight beds and in cases of emergency they have taken care of as many as 12 patients.

In announcing plans for expansion Dr. Childress stated that they have been running at capacity for several months. The hospital has been open a year.

With the addition of Dr. C. G. Cruzcosa Jr., to the staff and with the hospital beginning to do surgery the demand for more beds will be even greater than in the past.

Dr. Childress stated that the new wing will be added to the south end of present building and will be running east and west. It will include a new nursery, new nurse's station, eight rooms, four baths—one for each

Red Cross Drive Short Of Goal

Harold Yarborough, Red Cross Drive Chairman, has announced that the Red Cross Drive for Mills County is far short of its goal this year and he would appreciate it if the communities who have not reported would do so as soon as possible.

Since last report, Mt. Olive has turned in \$7.50 and Ratler \$10.03, making a total of \$403.48. This is far short of the \$1099.00 that was set for Mills County this year.

two rooms—and a day room that can be converted into bedroom when needed.

Present nursery would be converted into part of the surgery department.

The new nurse's station would be centrally located to serve the entire area better and faster.

Letters are being mailed out this week to Mills County citizens who helped finance the hospital telling them of the plans and explaining the program.

In addition to family financing Mills County residents will have an opportunity to invest in the new addition as they had when the hospital was built a year ago.

Letters extending an invitation to take part in financing the new hospital wing as an investment at 6 per cent interest were mailed out to a group of prospects Wednesday, Dr. Childress stated.

LESSON FOR LIFE—Noticed a recent article by Rabbi Robert I Kahn, which seems to point out pretty strongly that the fifty-fifty formula is a delusion for establishing a happy home. Here are some of his comments on the subject:

"Every once in a while, in counseling with young lovers who are planning a wedding and a wedded life, I hear a young voice say with such cocky assurance: 'Marriage is give and take; it's a 50-50 proposition.'

"But whenever I hear those words, I wince a little because what seems good logic is bad 'psychologic.' A marriage built on the idea of 50-50 is almost sure to fail because it involves too much bookkeeping. People who think along these lines tend to calculate whether they are getting their share. If I gave in yesterday, then you must give in today. If you get your way today, then I must get my way tomorrow.

"Proportions:—Marriage cannot be built on a 50-50 partnership. If both a husband and wife want to have a truly successful marriage, they must be more anxious to give than to get, more anxious to please than to be pleased. And if proportions must be stated, they should be 100-100.

"The Bible says this in the curious way in which it speaks of creation of the human race. In Genesis's first chapter, we read: 'Male and female He created them and He called their name 'Adam.' It is almost as though to say that a man or woman is not quite complete alone, that marriage is the fulfillment of self, therefore a man and woman are not 50-50 partners, but 100 per cent ones, and they shall be one flesh.'

"The Best Way:—That marriage begins best, therefore, in which a man says to a woman: 'I love you and I want you to be happy,' and in which at the same time she says: 'I want you to be happy.'

"Then, not through any mechanical formula of 50-50, but in 100 per cent concern for each other, they will create a happy home."

DO WE WANT RESPONSIBLE GOVERNMENT?—A national committeeman of one of the great political parties is quoted as saying, "The voter doesn't care whether government is responsible. The voter wants to know what it is doing for him." The judgment is a cynical one. But that does not mean that it is wrong, or can easily be disproven. Indeed, some of the most successful political figures of the last generation have followed the dictum almost exactly. And the present burden of debt and taxation, along with the steady decay of individual freedom, individual responsibility and basic individual morality is, in part, their monument.

What remains to be seen is whether the majority of voters have just drifted with a tide, or have not recognized it for what it is, or honestly "don't care whether government is responsible." If the last is the case, this country is done for, and the only thing to speculate about is when the final curtain will come down on what used to be called the American Dream. The one hope is that the voter will recognize that what welfare state government is doing TO him is a great deal more important than what welfare state government is doing FOR him—and will revolt before the last battle is lost.

FACTS ABOUT SCHOOLS—In view of aggressive efforts to pass federal aid-to-education bills, a statement made last September by Senator Goldwater, ranking minority member of the Senate Labor and Public Welfare Committee, deserves national attention:

"During the past 5 years, the Senate Labor and Public Welfare Committee has held many days of hearings on bills which would provide Federal aid to the States for the construction of schools. And yet, there has never been one State school officer, when closely questioned by members of the committee, who admitted that his State could not adequately take care of its own classroom shortage. This point is well illustrated by the fact that during the past 10 years, 500,000 classrooms have been built in the United States, 71,500 alone in the school year of 1957-58. . . . It is obvious that the States and local communities are doing an excellent job in maintaining the pace required to house adequately our growing school-age population and they are doing this job without the help of the Federal Government. It is also obvious that the States and local communities can continue to meet their school building requirements without any assistance whatsoever from the Federal Government."

A boy pupil in the South Bennett school was brought to a physician here for treatment yesterday at noon because of a snake bite on his foot, just above the great toe. The boy was at play with other pupils on the school grounds when the snake struck him, but they did not know what kind of snake. It must not have been poisonous, however, as he was not suffering to any extent. He was given attention by a physician and returned home.

J. W. Northington, who has been working near Fort Worth is visiting his family in this city.

UNCLE SAM'S NEW CENSUS ONE OF MANY WORLD OVER | U. N. BACKS NOBIS IN MANY OTHER CO

By HENRY CATHCART

Central Press Association Washington Writer

WASHINGTON—As the United States prepares for a centennial nose-count, most people are unaware that the world is about half way through the greatest census effort in history.

About 75 other countries are also involved in the census operation this year, and another 25 to 30 either have conducted a census or are making plans to do so.

The United States program is required by federal law, but many other countries are conducting theirs because of a United Nations sponsored effort to obtain statistics on world population.

The U. N. effort began five years ago and will continue for another five. It is urging all countries of the world—those who are not members of the U. N. organization, to count their people and obtain demographic statistics.

It is hoped that by 1965 there will exist for the first time sets of figures which to base such important conclusions as food consumption and requirements, health and medical, and the numbers of children and older people.

For many years, census-taking in the United States has been called "door-bell ringing." Now, with head counts going on in the home, the people over at the Census Bureau call these out-of-the-way counts "scratching the thatch."

PAYOLA HEARINGS—The congressional investigation of the disk jockey business is producing a new lexicon for the talking set who want to appear to be in the know.

Payola is an old Broadway show business word, but taken over by the TV-radio business and has now become universally accepted as meaning a kind of un-earned, untable payment to someone who is selling something for his own—namely time on the air.

As the hearings progress, other picturesque words crop up. "Exposure" was a term long used by insurance other salesmen to describe their contact work with prospective customers. To the disk jockeys it means playing a record and over again to boost its sales.

"Breakout market" is a term used to describe a metropolitan area which sets the popular music taste for the rest of the country. If a record is a hit in New York, it's pretty certain to be well across the country.

"Bombed record" is one which fails to sell—a "flop" in show business parlance.

Some of the bright talk is slated to become a part of "American" language, as payola already has.

PASSPORT NEW LOOK—The green-covered U. S. passport which has remained unchanged for decades is about to have a new look. And, with 733,000 of them issued last year, it's about time, says Frances Knight, director of the Passport Office of the State department.

The green cover will be replaced, probably by a plastic cover that is more durable and easier to handle. Size will be cut from 6 1/4 by 3 3/4 inches to the compact 5 1/4 by 3 1/4. The interior of the document will be streamlined.

One change probably will be to place the picture and identification pages opposite each other for easier and speedier identification.

Mrs. Knight hopes to have the new style passports ready for this summer's vacation rush.

FHA Girls Present Program, "Your Future In Homemaking"

By CONNIE POPE
An F. H. A. program was held in the Goldthwaite High School auditorium March 28. The president, Judi Reid, presided at the program, "Your Future in Homemaking."
Because a speaker was not available, the group pretended ten years had passed and they were back for a reunion. Some of the girls told how, in the past ten years, they had gotten an education, secured a job, and reared families. They also brought out points on how they managed to be with their families and take care of their homes, but still have a career.

Community News From Mullin

By MRS. JOHNNIE HOLLAND

It is with the greatest appreciation we wish to express our thanks to the people of Mills County for their kindness during the illness of Johnnie. Everyone was so nice to us we could never repay you for your kind deeds. We realize that he was a very sick man, and without your prayers and the work of the doctors and nurses at the hospital, also the medicine given him, he could not have made it. He is back home now, and while we know that he can never be well again, we are grateful for a job well done. We have bought a home in Mullin, and plan to move in the very near future. We would love for all of you to drop by and visit with us any time, and we would like your continued prayers for all of us.

While I was away I missed some of the big events of our community, but I would like to welcome into our community Mr. and Mrs. Albert Phillips and family from Oklahoma. They are busy now remodeling the building where they plan to move all their groceries to. Mullin seems to be moving forward, and we all like that. Several of our streets have been topped with caliche recently. They were impassable at times. This is all the results of the Mullin Clean-Up campaign backed up by a number of citizens in and around Mullin. The Junior play presented last night drew a rather large crowd, and from all reports it was a good play. It seems that the Junior Class really knows how to put things over in their favor this year. They have some good workers in the class. Ministers Barney Welch and Fred Kirbo are in Indiana where they are holding a re-

vival. Mrs. George Golightly of Hamilton visited here last Saturday with Mrs. Jewell Ivy and Mrs. L. J. Vann.

Mr. and Mrs. Charles Perry and family of Big Spring have been here visiting his parents, Mr. and Mrs. Tom Perry.

Mr. and Mrs. Bill Black visited last weekend in Houston with Billie Edward and family.

Mr. Albert Phillips has been in Oklahoma where he has been buying new fixtures for their grocery store.

Mrs. Gene Thomas and family and Connie Simpson of Odessa have been here visiting with their parents, Mr. and Mrs. W. H. Simpson Sr.

Mrs. Zella Irvin of May has been here visiting with her daughter, Mrs. Niles Wootten, and Mr. Wootten. Mrs. Wootten also visited recently at May with her grandmother, Mrs. Brewer.

Mrs. Charles Coburn and Teri of Crane spent the week here with her parents, Mr. and Mrs. Lindsey Kittle.

Mrs. Talmadge King received word last week that her father, Mr. Judge Nance of De Leon had suffered a severe heart attack. Mr. and Mrs. King have been spending quite a bit of their time at his bedside in the hospital at De Leon.

Miss Reba Lou Welch and a girl friend of Austin spent last weekend here with her parents and brother, Mr. and Mrs. Barney Welch and Richard.

REV. ALVIS A. BELL MOVES TO BELLVILLE

Rev. Alvis A. Bell has resigned as pastor of the Baptist Church of Mullin and will move to Bellville as pastor of a church there. He preached his last sermon at Mullin the past Sunday.

TEXAS CANCER FAMILY MEETS GOVERNOR—In Austin recently to kick-off the 1960 Texas Cancer Crusade was Bill Maulsby and his family from San Saba to meet Governor Price Daniel and other coworkers in the crusade. Maulsby is a five year cure from cancer and represents the more than 1,000,000 Americans alive today because they heeded the life-saving message of the American Cancer Society. Left to right are Governor Daniel, Maulsby, his wife, Sarah, Dr. David Todd of San Antonio, president of the Texas Division of ACS, and Texas Crusade Chairman Ben Culberson of Austin. Shown also are the Maulsby's three children, Delores, Brenda and...

Early everyone who fishes a bit of jettie fishing at time or another. In fact, a looksee at the jet-

ties along the Gulf Coast of Texas causes one to feel that jettie fishing is just about the most popular type. Thousands of persons—men, women and children—fish the many jetties along the Texas coast every day, month in and month out, summer and winter.

Bad weather seems to be the only deterrent.

It's a difficult kind of fishing because waves splash over the huge rocks to ice the tops in winter and to slick the mossy surface in the summertime.

It's invigorating fishing and a challenging sport for the fisherman who likes to eat drum, ling, whiting, gafftop, speckled trout, redfish, Spanish mackerel, jewfish and to battle with an occasional tarpon, shark, or other members of the salt-water species.

Thanks to more recent meth-

ods of jettie construction, these huge bulkheads now are being made with rocks laid flat. Some tops have been concreted for the convenience of the fishermen, as well as to strengthen the construction. This makes walking easier and lessens the danger of a crippling fall on the razor-sharp edge of these huge hunks of granite.

Once a jettie is built, it isn't long before marine life begins to attach itself to the big boulders. Moss, seaweed, and algae clinging to the rocks make good food for small fish, shrimp, mullet, eel, sand bugs and crab.

At the same time the crevices between the rocks are excellent hiding places for these same salt water residents. But they have to venture forth occasionally—and that's when the larger fish move in for the kill.

So the bait used by the jettie fishermen is usually shrimp, cut bait, mullet, squid, crabs and, of course, artificial imitations of the smaller marine life. Often used are plugs and spoons with bucktails.

A sturdy surfcasting rod with a heavy line and a strong reel, is the usual equipment. You never know what size fish will take the bait.

A cast of 30 to 40 feet is customary. Either the fish are feeding in close, or they are not interested, or are not there at all.

A light rod that's not too flexible will, of course, provide more fun, as it gives the fish a fighting chance. You'll lose some nice fish too!

Spinning reels are ideal. Our preference is the Norseman closed-face spinning reel with its adjustable drag and 15 lb. test monofilament line, or the Mitchell 300 reel. Both reels invariably accompany us to the Gulf for our bay fishing expeditions anyway.

However, a conventional reel equipped with star drag and 36-lb.-test braided line is the choice of many. Its greatest asset is the confidence it provides in the stronger line.

Most any reel that's not too heavy, yet strong enough to do the job, will serve your purpose. It's your first trip, take

along your heaviest fresh-water rig and try it. Then if you want to go in for heavier gear, you'll have a better idea of your needs.

In jettie fishing, as in surf fishing, if you can find the drop-offs, the places where the surf and the shallow water meet, you're in the most likely spot. It is in these areas, and where the currents come swirling round, that the big fish lie in wait for food to be washed to them.

But don't try to wait 'em out. Move around until you find them — trying one spot after another until success comes.

Your bait should be the natural bait of the area—or artificial lures similar in appearance or action. Here again we urge you to seek the advice of local tackle and bait shops. They know what the fish are hitting at the moment, and you'll save time by following their advice. It's usually very sound.

If you use live bait, put on a 3/0 or 4/0 hook, with a 2-foot wire leader attached to a 3-way swivel. Add a small sinker just large enough to enable you to drag the bottom lightly, and heavy enough to keep the current from moving it about too fast. Keep a tight line at all times.

If you use artificial bait, try jigs and spoons with bucktails, or hardware that resembles mullet or squid, and finally artificial eels. Artificial eels such as Doug English makes in Corpus are good bait.

Old timers start fishing the minute they reach a jettie, going up one side and down the other, casting a few times from one spot, then moving to another and another. This way they figure they cover nearly every rock or crevice where fish may be feeding.

Also they carry along a long-handled gaff for use where the waves are heavy and are splashing high on the rocks. But first they let the fish run until exhausted—holding the rod high to keep him out of the rock crevices. A lot of people lose fish by attempting to drag them onto the rocks. So work your way to the water and carry a gaff or a big stick.

For safety's sake—be sure your shoes are rubber-soled and rubber-heeled.

Those who fish the jetties at night are not so numerous — but they land some whoppers.

If you go in for night fishing, get you one of those miner's hats with lamp attached—or one of the new battery powered electric "headlamps." The Empire Headlight Lantern, made by the Metal Ware Corp. of Two Rivers, Wis., is ideal. It frees your hands for other uses than carrying a lantern. Best of all, the headlamp always shines where you're looking. And that's mighty important when you're feeling your way around moss-covered rocks.

If no luck — go try a little pier fishing. It's safer anyway, and lots easier.

Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

What a day was Thursday! It really went out like a storm. All day a strong wind blowing. A dust-filled air. A dusty sky. No sign of rain. Franklin only a dark, grey cloud. Sunday was a beautiful day. Mrs. Duncan, one of our church friends, had called me during the week and asked me to have dinner with her Sunday after church. She said she was asking a few other ladies. There were four of us. We had a wonderful time, and such a good dinner.

Just the Sunday before all the Belches and the Brileys were invited to the home of Mr. and Mrs. Gordon Ganzle after church. Gordon is manager of the White Auto Store at Fox near us.

Our Balm of Gilead trees are leafing out beautifully now. We treated them with Borexol to try to keep the web worms from bothering them this year. Joe Marsch, next door, has cut down his two trees just east of his backyard rock fence that were so full of worms last year. Also he has cut down his cottonwood tree. I'm glad they have. Not only will that reduce the menace of worms, but it will also reduce the menace of tree roots in my flower beds.

Friday was the day for Marie and her girls to come. When Grace started to school that morning, she asked me to mop and polish the kitchen and bathroom floors. I meant to do it if I could. But I had to change the beds and do three washings and cook dinner and make a cake and wash dishes and cut up two chickens and I decided I just must wash my hair and put it up—I just didn't see any other time to do it—and it takes me an awful long time. I was afraid Grace would get home

before I got those floors polished. I had just started on my hair and had my head all wet when the door bell rang. It was the census taker. Grace had filled out the questionnaire they had sent, but he wouldn't have that. He wanted me to answer questions. I told him I just couldn't do it then. He wouldn't leave. I told him I was not the lady of the house, that we didn't even live here, except for the school year, that our home was in Mills County. He then said, "Well, I'll come back."

I was just starting to roll up my hair when Grace got home. I'm sure she thought having the floors polished was much more necessary than washing my hair, but anyway there I was. Grace and Billy flew into a whirlwind spell of vacuuming, mopping, and polishing. So when our guests arrived a short time later everything was spic and span and in order.

The girls are Shirlee Smith of Moundville, Ala., and Gay Morrison of Wichita Falls. Both of them very sweet girls. The three of them had gone through Carlsbad Caverns before coming on to El Paso. After supper Grace took them up the Scenic Drive on Mount Franklin to let them see a beautiful view of El Paso at night. Today (Saturday) Grace took them to Juarez. Tonight the guests and Grace and I had supper with our mutual friend, Mrs. Hazel Martin and her teenage daughter, Susan, in their beautiful Cleo Vista home. Mrs. Martin's husband is a retired Colonel and is now stationed in Ascension Island. He has a job of following the missiles from Cape Canaveral. The Martins have lived in Germany and other places in Europe. Susan can entertain you by the hour just telling her life experiences. She has a soprano voice, and Friday night she sang in the El Paso High School Choir, composed of 700 voices from the different high schools of El Paso. And I found out tonight that her music teacher is Dorothy Hale, daughter of Chester Durham. Our guests will leave in the morning, stop at Van Horn for church, and on to Fort Stockton to spend the night with the Ralph Wilmeths.

SCHOOL BOARD MINUTES

REGULAR MEETING OF THE GOLDTHWAITE I. S. D. BOARD OF EDUCATION.

The Board of Education of The Goldthwaite I. S. D. met in regular session on April 4, 1960 and was called to order by President H. J. McKenzie with J. D. Harper as secretary and Walton Daniel, L. R. Rudd, O. P. Shelton and Dale Reid — members of board and answering present. Jesse Moreland was absent. Also attending was Supt. J. T. Jones, Prin. David J. Williams and Prin. Ray Standley. The newly elected trustees were present and set in as visitors. Elected were L. B. Burnham and Charles Conradt.

Members present had received copy of the March Regular Meeting Minutes along with the agenda of the meeting from Supt. Jones. The minutes were approved as written without change or correction and the board officers affixed their signatures as approval.

Bills and checks were studied and ordered paid upon a motion by Reid, a second by Shelton and a unanimous vote.

Each Principal was asked to report but neither had any reports to make however some criticism of Mr. David J. Williams having missed five English Classes was offered by Rudd but confuted by Mr. Williams. Source of the criticism was not revealed.

The next order of business was the canvassing of the election and declaring the results: —where-up-on the poll and tally list revealed that 335 people cast votes in the election who apparently were qualified voters and cast votes, according to tally sheets—as follows:
L. B. Burnham, 224 votes.
Charles Conradt, 192 votes.
W. C. (Bill) Sherwood, 152 votes.
Burl Holland, 89 votes.
R. L. Burdette, 1 vote (A write-in).

The reports appeared to be in order thus L. B. Burnham and Charles Conradt were duly declared elected and were so commissioned by President H. J. McKenzie.

Motion was made, seconded and voted unanimously that the board go into organizational procedures, whereupon Dale Reid and Charles Conradt were nominated for president of the board for the ensuing year. Upon open vote, Dale Reid who had been vice president for the past year was elected president.

Charles Conradt was nominated for vice president and upon open vote was elected by acclamation.

J. D. Harper was nominated for secretary and by acclamation was elected as secretary.

After the new officers were installed, H. J. McKenzie was invited to remain with us as a guest and accepted the invitation.

Supt. Jones submitted the resignation of Frank Keyser as Custodian of the elementary school and stated that he had had no applications for the job but told of the possibilities with Mrs. Emmitt Waskom and her two sons, Frank and Carl finishing the year for us. After the resignation was accepted by unanimous consent, L. B. Burnham moved that the selection of as good a person as possible be secured by Supt. Jones to perform the task. The motion was seconded by O. P. Shelton and upon vote, none opposed the motion thus it was declared carried. Supt. Jones told the board that he would submit his selection to the board in the next meeting for approval.

Motion made by Rudd, seconded by Burnham and voted unanimously to have the brake linings replaced on the 1951 School Car — stipulating that the work be done by Shelton Brothers. The motion carried and the car is to be so repaired that it will pass State Inspection.

Supt. Jones then spent some time explaining the Trustee Handbook on Policies & Procedures, The State Handbook for Trustees, the source of all school revenue, the budget of 1959-60 and the audits reaching back to 1952-53 school year and explained copies of all are available.

Letter From Brownsville

Things here now are quiet for the reason, I suppose, that Cortinas, with all his desperate courage, is afraid to come again into collision with either the Regulars or Rangers, as the two kinds of troops are generally installed here.

There has been considerable excitement in Matamoros dur-

ing the last two days: Cause, said to be fear that Cortinas is beginning to turn against his best friends and take the place, I suppose for the reason that he, being still in the taking humor, and afraid to try his hand on this side, intends trying it where there is much more chance of success. Come back Caravajal!

I have learned that Gen. Garcia left the day before yesterday with 60 men to give battle to his friend Cortinas and was badly beaten. "O te Brute!"

La Grange True Issue

The weather is beautiful and prospects for crops exceedingly cheering. The whole earth around us seems full of hope and promise to the tolling husbandman. May no rude winds or biting frosts destroy the good time coming. May corn be a "bit" a bushel and provisions of every kind cheap accordingly.

A new post office stamp has been invented by which the impression of the post mark is left not only upon the envelope enclosing a letter but upon every fold of the letter itself. This is effected by means of a steel die the letters and figures upon which are formed by a series of fine points which pierce the envelope and its contents in such a manner as to impart ineffaceably, the name of the post office and the date upon which the letter was mailed.

Dallas Herald—

We hear that the two abolitionists, Blount and McKinney, who made themselves obnoxious to the people of Dallas last summer and were summarily expelled from the country, have petitioned the legislature of Iowa and Wisconsin and demanded redress from the State of Texas. If they will return in propria persona and behave as they did before, they will be REDRESSED and no mistake.

— IT PAYS TO ADVERTISE —

FARM LEGISLATION FOR '60'S

The vague outlines of Washington farm legislation for the 1960's is beginning to appear dimly in patterns of controversy, and a better idea of what to look for next might be gained by glancing at what has happened in the past three decades.

Each of these three decades has been marked by different and distinct attitudes in Washington toward the problems of agriculture.

Going back to the 1930's, the decade of the Great Depression, there was an economic disaster that stifled the entire economy and pushed one out of every four farmers into bankruptcy. The problem then was strictly a dearth of markets instead of excessive production, and the Washington remedy was to plow up crops, kill little pigs and put the government into the cattle-

buying business. The beginning of the 1940's saw the technological revolution in farm production coming to the front, producing what at that time appeared to be huge surpluses. But there was war and post-war recovery that took up these apparent surpluses, with high prices encouraging maximum production. Prices went up from 38 per cent of parity in the 1930's to 123 per cent of parity in the 1940's.

But in the 1950's the vast increases in production again developed serious surplus troubles. Eventually, in 1955, a Democratic Congress gave the Republican Secretary of Agriculture the authority to flex price supports between 75 per cent and 80 per cent of parity for basic crops. This was done on the theory that since high supports had encouraged excessive production, lower supports

would cause farmers to reduce production.

The theory, however, has not been borne out by the facts, with total farm production continuing to set new record highs year after year.

This year, the best collective thinking of Democratic farm-minded congressmen perhaps is reflected in the "Family Farm Income Act of 1960" by Rep. Bob Poage (D.-Tex.). The bill is not expected to pass this session of Congress, but it indicates what

can be expected next time if the Democrats retain control in the House and Senate. It has two fundamental aims: First, to strengthen the income and security of family farms; second, to provide farmers with a variety of programs from which to choose. It is based on higher price supports with production

under strict controls. **CARADAN CEMETERY WORKING APRIL 8**

MRS. FRITZ TEICHELMAN
Hutto, Texas

HER FRUIT COFFEE CAKE BRINGS \$100 CASH PRIZE TO HUTTO HOMEMAKER

Key ingredient is Gladiola Hard Wheat Flour, says Mrs. Fritz Teichelman

Fruit coffee cake so light and luscious it's worth \$100—that's the top prize winner for April in the Baking-Recipe-of-the-Month contest sponsored by the Gladiola Flour people.

And the lady who created this delightful yeast bread variation is Mrs. Fritz Teichelman, Route 1, Hutto, Texas.

She is donating \$50, half her prize money, to the building fund of Immanuel Lutheran Church, West Taylor, Texas.

Praises Gladiola Flour

Baking delicious yeast breads is just one of Mrs. Teichelman's talents. Her favorite hobby is flower gardening, with emphasis on roses, and she's a whiz at quilting and crocheting.

Discussing her prize coffee cake recipe, which is printed on this page, Mrs. Teichelman says the key ingredient is Gladiola Special Hard Wheat Flour. "I discovered it about 20 years ago, and I often wonder how in the world I ever baked yeast bread without it."

GLADIOLA SPECIAL HARD WHEAT FLOUR

Smooth, Strong Dough

"Women who still use all-purpose flour for baking yeast breads just can't imagine how much whiter and lighter, and how much finer in texture, everything turns out with Gladiola Special.

"You know it's going to turn out right by the way the dough feels in your hands. It's smooth instead of sticky. It's strong, too, with a real 'bounce' to it. And when your baking's done, all that wonderful yeast flavor is still inside."

Contest Benefits Men-folks

Mrs. Teichelman, who has two married sons and five grandchildren, feels that men will benefit most of all from Gladiola's Recipe-of-the-Month contest.

"After all, it's the men-folks we're thinking of when we bake. And now, with another special recipe coming along every month, we can keep surprising them with new yeast bread ideas."

11 CASH PRIZES EVERY MONTH HERE ARE EASY CONTEST RULES

1. This monthly contest is Gladiola's way of stimulating the exchange of good yeast bread recipe ideas between you and your neighbors here in the Home Baking Heart of Texas. Anyone may enter except employees (and their families) of Fant Milling Co., its affiliated companies and its advertising agency.
2. Write down your favorite yeast bread recipe using Gladiola Special Hard Wheat Flour. List all ingredients, then explain briefly each step in the procedure.
3. Cut off the strip that says "Gladiola Special Hard Wheat Flour" from the folder enclosed in every bag. Send it—with your recipe — to Glad Times, Sherman, Texas.
4. Send in as many yeast bread recipes as you wish. Mail each recipe in a separate envelope enclosing a Gladiola strip as explained in Rule No. 3.
5. Each month's recipes are judged separately, with an independent graduate home economist as the final judge. Recipes received in April will be eligible for prizes to be announced in July.
6. For the outstanding recipe received each month, Gladiola will pay \$100. Half the prize money—\$50—goes to the winner. The remaining \$50 goes to the church of her choice as her special contribution.
7. Ten other yeast bread recipes will be chosen monthly for \$10 Honorable Mention prizes.
8. All recipes submitted become the property of Fant Milling Company, Sherman, Texas, with full publication rights. Recipes cannot be returned.

FRUIT COFFEE CAKE

Gladiola's Baking Recipe of the Month

Mrs. Teichelman's Fruit Coffee Cake

2 cups milk, scalded	1 teaspoon sugar
1/2 cup butter or margarine	1/2 cup warm water
3/4 cup sugar	3 eggs, well beaten
2 teaspoons salt	9 cups (about) sifted GLADIOLA Special Hard Wheat Flour
1 package active dry yeast	

Scald milk, pour over butter, sugar and salt in a large bowl and let stand until lukewarm. Dissolve yeast and 1 teaspoon sugar in warm water. Add dissolved yeast and eggs to cooled milk mixture. Stir in 4 1/2 cups of the flour and beat well, then add remaining flour to make a very soft dough. Stir well but do not knead. Cover and let rise in a warm place until double in bulk. Divide dough in half. With lightly floured hands pat each half into a greased 11 x 15-inch jelly roll pan. Let rise again until double in bulk. With floured teaspoon make four crosswise indentations in each pan; fill each with Fruit Filling, until golden brown. Makes 2 large coffee cakes; to make 1, use 1 package yeast, 2 small eggs and half of remaining ingredients.

FRUIT FILLING: Cook together until soft 1/2 lb. pitted prunes and 3 large pared and cored apples (or desired fruits). Beat together 2 eggs, 1/2 cup sugar and 1 tablespoon cornstarch. Stir into boiling fruit and cook until thick. Fill indentations.

SUGAR 'n' SPICE: Mix together 1 1/2 cups sugar, 2 teaspoons cinnamon, 3 tablespoons melted butter or margarine. Sprinkle on top of coffee cakes.

TOPPING: Beat together 1 egg and 1/2 cup light cream. Drizzle over spice mixture.

GIRL SCOUT SHOUT

MRS. HOUSTON DUREN
Girl Scout Chairmen, Leaders, Mothers and girls were busy last Monday, March 28, setting up tables and chairs, decorating for the Girl Scout Banquet in the American Legion Hall. The tables were decorated with the different colors of the Girl Scout uniforms. Brownie Troops 7 and 8, and Intermediate Troop 3 carried out the Easter theme with Easter Egg trees for their centerpieces.

Brownie Troop 9 decorated their table with place cards, black and gold Girl Scout Trefoils. Their centerpiece was an arrangement of wild plum blossoms with gold butterflies.

Intermediate Troop 5 used a Hawaiian theme of flowers and leaves for the centerpiece.

The Senior Troop 1 table was decorated with a small white trefoil with green trefoils for centerpieces.

Senior Troop 8, the Mariner Ship, carried out a nautical theme using ship place cards and a large white anchor for the centerpiece.

The program opened with Brownie Troop 9 and Intermediate Troop 3 in charge of the opening flag ceremony. The Pledge of Allegiance was given by the American Flag and both the Brownie and the Girl Scout Promises were given. This was followed by a devotional given by Intermediate Troop 5.

Mothers of each troop had prepared and brought the food for their table. Everyone enjoyed the food and fellowship. The following program was then presented:

Presentation of Cookie Sale Awards, by the Program Chairmen, Mrs. Johnny Head.

Songs from Mexico, Brownie Troop 4 (3).

Brownie Promise and Songs, Brownie Troop 7 (2).

Mariner Requirement, Ratings and Program Aide Bars, Senior Troop 8.

Achievements in Wing Scouting and Trail Blazing, Senior Troop 1.

The program closed with the Retreat of the Flags by Brownie Troop 9 and Intermediate Troop 3.

There were about 160 Girl Scouts and guests attending the banquet. This was a wonderful turnout, but we are looking forward to a still larger group in 1961.

Girl Scout House received a welcome gift of bowls and pitchers from Mrs. Ida Sevier this past week. We wish to thank her for her thoughtfulness, as we had very few bowls and no pitchers.

FLOOD WATERS SPRING FROM WINTER'S GRIP—R. S. Slawson finds his cornfield flooded in Maple Hill, Kan., after a week of mild temperatures turned a record winter snowfall into a new problem. Spring plowing seemed a long way off as eastern parts of the state and sections of Iowa, Nebraska and Missouri braced for a deluge in the fast thaw. Map shows Clarinda, where the Nodaway River was rising; Mercer, which saw the Weldon River rise six feet in one hour; Frankfort, under two feet of water, and Bristow, Lynch and Verdel, hit by a wall of water that rushed down from a huge melting ice gorge.

CLEAN ALL WOOLENS BEFORE YOU STORE THEM

Before storing those winter woollens be sure they are clean. This will help guard against moth damage and keep your garments looking better for a longer period of time. Examine all garments carefully and clean or wash as directed on the label.

Before washing, give special treatment to spots and stains. Also measure your knitted garments so they can be pulled back into shape after washing.

Moth-proof woollens before you store them. Dry cleaning kills all forms at the time of treatment, but does not insure permanent protection. Garments placed in sealed paper bags immediately after cleaning will be protected indefinitely.

You can moth proof washable woollens when you launder them. Directions for doing this are given in the Extension Leaflet

CARD OF THANKS
We wish to express our appreciation to the fine people of Goldthwaite and to the hospital staff for the fine care and the way we were made to feel at home among friends. For several weeks following an automobile wreck we were patients in the hospital there and we can never express our appreciation for the visits, flowers, food and many friendly things done for our comfort. Instead of being strangers, you made us feel that we were among friends and we will always have a warm spot in our hearts for Goldthwaite and its people.
Mr. and Mrs. Arthur Dooze Jr. 4-7-tfc.

CARD OF THANKS
With deep gratitude I wish to express my sincere thanks and appreciation to my friends and neighbors for the many acts of love shown me during my stay in the Brownwood hospital and since my return to Childress Hospital. The gifts, calls, visits, flowers, prayers and many other kindnesses are helping make my stay in the hospital pass more swiftly, for which I am very grateful, and also makes me realize the value of friends such as you. Sincerely,
Mrs. J. W. Weathers. 4-7-1tp

Questions And Answers About Social Security

Question: I have just learned that I should have paid social security tax on my employment income which has been over \$400 per year for past several years. Can I now and get social credits?

Answer: While you are responsible for paying the due, credit for self-employment income can be your social security tax only as far back as 1954, get credit for 1956, your turn for that year must be on or before April 15, 1960.

Question: I pay a yard a week. Must I pay the security tax on wages of small amount?

Answer: Yes. Domestic employees are covered by security if they receive \$50 in cash wages from employer during a calendar year. Such reports are necessary, and it is immaterial whether the employer or employer would prefer not to report is due if you do not report an individual as much as cash in a calendar quarter.

By MRS. ORA BLACK (Delayed)

Spring is making its appearance in many ways for the past. Fruit trees are blooming, the honey bees are sipping from the lovely blossoms, and at this time reminds me of one of McGuffey's poems, probably the second, which goes like this:

The lark is up to meet the sun
The bee is on the wing
The birds labor has begun
The fields with music ring.
The needed rain fell here
The night. Farmers will be busy for the next few weeks tending the fields and will be busy shearing sheep and goats.

Mr. and Mrs. Dick Hughes of Lake Hamilton, Arkansas, returned last Sunday at the C. Black home where they spent several days. While there they met several of their friends. A Casbeer spent the week-end with his daughter, Mrs. H. Brearley, and Mr. C. H. Black went to Austin Sunday for a visit with Dr. Turman and family. Mrs. Turman and sons returned with Mrs. Black and will visit here over the weekend, while Dr. Turman is in Washington. Mr. and Mrs. Dick Hughes accompanied Mrs. Black to Austin.

We enjoyed some very nice warm weather last week. Thursday night we received one half inch of rain and one inch Friday night, which we think was very beneficial. Some of the valley fields have seeps running but most of the farmers including W. W. Ratliff, Don Humphries, A. L. Crawford and William G., J. S. Ivy and O. A. Evans were busy plowing. Floyd and W. A. Daniel planted corn last Monday, and Hugh Nowell sheared goats. Mr. and Mrs. W. A. Daniel have been busy building a new goat shed and their grandson, Donnie, who is four years old has been helping them. The Daniels have been doing some quick cooking and making coffee at a campfire which they enjoyed. Alvin G. Tiemann spent last weekend with his parents, Mr. and Mrs. F. H. Tiemann. Mr. and Mrs. W. A. Elms were dinner guests last Sunday of Mr. and Mrs. W. B. Womack and son. Mrs. Ted Vance entertained a large group with a Standley Party Friday afternoon. Mr. and Mrs. Pearl Shipman were happily surprised when Mr. and Mrs. Blackburn Smith of Junction arrived at their home. Mr. Smith told them he was a cow buyer; he did not fool Mrs. Shipman. They all grew up together and had not seen each other in a long time. They had a very happy visit. Mr. and Mrs. Floyd Eldson of Anson spent a few days with Bob and Ruth Reynolds. Mr. and Mrs. O. A. Evans attended Sunday School at Mullin Sunday. They were dinner guests of Mr. and Mrs. W. A. Elms. On their way home they visited Bob and Ruth Reynolds and Mrs. J. H. Vaughan. San Saba Saturday. The Shipmans received a letter from their son, Walter D. Shipman of Dumas, stating they had all been on the sick list with measles and mumps. Mr. and Mrs. Elvis Hill announce the arrival of a son. This little fellow is a great-nephew of O. A. Evans. Mr. and Mrs. D. C. Ivy and Jerry were guests of Mr. and Mrs. J. S. Ivy Sunday. Mrs. Carl Evans visited Mrs. Pearl Shipman Wednesday. Craig Wesson and J. C. Creek visited at the G. K. Lynch home Friday afternoon. We are happy to report Mr. Lynch is able to enjoy company. Mrs. G. C. Price of Arlington, California, is visiting Mr. and Mrs. Luther Geeslin and Mr. and Mrs. V. T. Stevens. We are sorry to report that Mrs. W. L. Mason is a patient in an Eastland hospital. Mrs. O. Fisher and children of Brownwood, Mr. and Mrs. Hugh Nowell of Goldthwaite. Mr. Nowell, Mr. Fisher and son, Landrie, drove up in the Whatley pasture and just over the fence east of the Whatley place they found a bed of rattlesnakes. They killed seven snakes and the largest measured five feet and eight inches; second, third and fourth largest four and one-half feet, fifth four feet, three inches; sixth, four feet, two inches; and seventh, three feet and five inches.

STEP TO ETERNITY—A shoe and a coffee container lie near the remains of a two-engine private plane that crashed in Brentwood, Tenn., killing both men aboard. John Orman, head of a construction firm, and Sam Lindsey, an employee, died in the flaming wreckage.

They made a pile of snakes, when poured out of a sack on the ground. Landrie, age nine, said he sure did have a snake story to tell his classmates.
