## Goldthwaite Ex-Students, Teachers Homecoming Saturday, Nov. 26

Robert Burdette, president of the GHS Homecoming Association, has asked that all officers, chairmen and committee members as well as all interested persons meet at the high school library on Tuesday night, November 23, at 7 p. m., for the purpose of making final plans for the annual Homecoming.

The Homecoming for all Goldthwaite High School "Exes" will be held at the Elementary School lunchroom on Saturday night, November 26, following Thanksgiving Day. All local people should consider themselves a committee of one to invite all "Exes" to this Homecoming.

Festivities will begin at 5:00

p. m., when the registration committee will be on hand to welcome all returning "Exes."

Last year, the main complaint from visitors was that so few local people were present the past several years. So this year, let's all gather up our families, friends (and food) and make this Homecoming the very best ever.

Supper will be served from 6:00 to 7:00 p. m., in the lunchroom. After the covered dish supper, a short program will be presented and following this the business meeting will be held after which everyone may visit and enjoy meeting old friends and classmates of former years.

**PARK IMPROVEMENTS**—Want to mention again the marked improvements taking place at Mills County Park.

If you haven't been by there in recent weeks, then it is time you drive down there in the near future and have a look for yourself!

A lot of water has "run under the bridge," or through the park so to speak, in the past 10 months since the drive for park maintenance got underway.

Everyone who had a part in making the year around up-keep program possible can be proud of what has been accomplished.

In addition to the general up-keep with mowing the grass and weeds and changing the drive-ways and parking area in recent months, there is something additional.

In the past 30 days the city crews under the supervision of W. C. Barnett, city manager, have done a big job in connection with re-shaping the hillside on the South near the Legion Hall. This will make it possible to plant grass, shrubs and carry out the general landscape program in that area. Also it will provide better parking facilities for those gathering at the Legion Hall.

Members of the Legion have also taken keen interest in making additional improvements at their home. In addition to concrete sidewalks and curbs plans call for steps to be constructed North of the Legion Hall, down the hill into the general park area.

The overall project is something to look at, especially if one considers the park area in terms of what it looked like a few years ago when the Lions Club used to sponsor an annual "work day" to try to clean up the weeds and trash in the picnic area.

According to reports the Garden Club is also moving ahead in its project of landscaping the park. This should make some headway during the next few months.

Again I would urge all those who are interested, or had a part in it by contributing to the park fund, to go see what a nice park we have.

**ELECTION TIME IS OVER**—The Presidential election is over and now we can all settle down and start concentrating on something else.

I'd bet that for the next few weeks the weather is going to get a good "working over" as a subject for conversation. And why shouldn't it. This time of the year when you would expect some changes in the weather,—couldn't be a better time to catch up on talking about the weather.

Everyone couldn't possibly be happy with the election outcome, because they didn't all vote alike. But, as is the custom under our system of government, all will make the best of it.

As I said before the election, the average person will just keep on working and try to make a living, regardless of which side or party wins the national election.

And, the political promises that are made during a campaign, whether national or local, shouldn't be taken too seriously or someone may be placed in a mighty awkward position.

The average citizen must keep one thing in mind. Candidates have a habit of talking about, or telling the people, something they like to hear, or things that are nice to listen to. It's soothing.

☆☆☆

**FOOTBALL SEASON IS OVER**—Yes the 1960 football season for GHS is over and now there too we can settle down and do one of several things.

One, worry about what might have been. Two, start making plans for the future—there is always another year. Three, concentrate on the basketball season which is here. Football wise, this just wasn't our year.

**BALANCED DIETS HELP GUARD AGAINST COLDS**

Changing temperatures, fatigue, too much food or not the right kind, tension and excitement, all are factors in lowering body resistance to the common cold.

Food makes a difference. It is important to start family members with a good, wholesome breakfast every day. Then follow through with wholesome, balanced meals at noon and at night. Plan to eat at regular times as much as possible and reserve the sweet or rich foods for mealtime dessert. Keep in-between refreshment snacks light and nutritious. Fruits, fruit juices, crisp, colorful vegetables served with special dips can be just as tasty and appealing as rich, heavy foods.

**Hints On Establishing Native Grasses On Old Fields**

Probably the controlling factor in establishing grass is moisture. As this is a situation with which we must live, the establishment of grass depends to a great extent upon our management through planning. One of the biggest wastes of money has been through seeding costly grass seed where preparation had not been planned prior to planting.

Proper native grass planting can be achieved on tillable land through the following steps:

1. Secure native grass seed within a 200 mile radius. As this is the native seed harvest

season, now is the time to locate the source. This can be done by checking with your seed dealer or SCS technician.

2. Prepare seedbed early and prior to seeding date. If soil has tendency to blow or crust, it is best to grow a litter producing crop the season prior to planting. This litter crop should be clipped at a date to prevent its seeding. If a clean seed method is used, have land prepared as if small grain were to be planted. Allow time between last disking and planting for settled seedbed.

3. Plant early; February is a very good time. These native seed require a fluctuation of temperatures to break their dormant period. Also our seasonal climatic calendar shows April, May and June to be higher in rainfall to give rapid initial seedling growth.

4. Be prepared to carry out weed control program. Usually, by clipping or using 2-4-D chemical in the early part of

**Copperas Cove Game Receipts**

Supt. J. T. Jones has announced the receipts for the Copperas Cove-Goldthwaite football game as follows: total receipts, \$452.50.

Expenses amounted to \$50.60, leaving a balance of \$401.10, with each team receiving \$200.95 for their share.

June one treatment is sufficient.

5. Plan for complete deferment from these native grass seedling until after frost.

Results have been approximately 90% successful on areas where the above could and has been performed.

For assistance in planning future native grass seedings on your particular farm or ranch, contact your local Soil Conservation District Supervisor or the Soil Conservation Service office.

The annual Range Field Day sponsored by the Brown-Mills Soil Conservation District and Mills County State Bank was held last Thursday. Approximately 30 people made the tour. Although the weather was disagreeable, stops were made on the Ray Stanley, Lee Hendry and Wilson Head farms.

Discussions were held on plant succession, the economical reasons for proper harvest of grass and the benefits derived from deferments or resting of rangeland.

The tour was concluded with a barbecue meal furnished by Mills County State Bank.

Eleven boys and their sponsors from the First Baptist Church of Goldthwaite attended the Regional Texas Baptist Royal Ambassador Rally Saturday, at Howard Payne College, Brownwood.

After hearing a message by the Rev. B. P. Emanuel, Southern Baptist missionary to Japan, and touring the Howard Payne campus, the group attended a football game between Howard Payne College and Southwest Texas State College.

The Brownwood meeting was the third of four rallies which are expected to attract around 6,000 persons throughout the state, said Robert Chapman, state RA director.

"The whole idea is to get Royal Ambassador boys on a college campus so that they will have some idea of what college life is like," Chapman said.

Clementine Wilmeth Briley Writes From Temporary Home In El Paso

By CLEMENTINE WILMETH BRILEY

The Election was very exciting. It had its triumphs and its heartbreaks. I wept with Pat when Mr. Nixon was making his speech, saying he would go along with Mr. Kennedy.

We went to Clouderoft Sunday. It was cool and cloudy and rainy. Not a very fit day. But El Pasoans feel that they must go to Clouderoft to see the leaves and the trees. We went to church at Almogordo. After church we went to the home of Warren and Bernice Clendenen. Bernice is the daughter of Mr. and Mrs. Herbert White of San Angelo. The White place joined ours at Ebony. So we children grew up together. And now our children are friends. We took our dinner, expecting the Clendenens to join us in a picnic dinner at Clouderoft. Since the weather was so inclement, Bernice insisted that we eat dinner at their house. She and her family had attended the early morning church service, so she had dinner just about ready. With hot biscuits just ready to go in the oven. We brought our dinner in and we ate in the dining room of their pretty new home. Since Monday was my birthday, we took my white coconut birthday cake with the candles on it. And they sang Happy Birthday to me on my 80th birthday.

After dinner we all went to Clouderoft. It rained on us mildly all the time we were there. But we got out and walked through the forest some. Some of the aspen leaves were still pretty, but the scarlet of the oaks was brown from frost. The pine, the spruce, and the fir—were so beautiful, it was worth the trip up there just to see them. On the way back we stopped at a roadside place to get some of those good New Mexico apples.

My sister writes me that her husband, John Bateman, a cardiac patient, is having the time of his life helping TCU celebrate her first 50 years in Fort Worth. He and eight other living mem-

bers of the 1910 football team were introduced on the field in pre-game ceremonies October 9. He was in the 1910-11 graduating class. The first to graduate in Fort Worth. At the time of his graduation, he was an honor graduate, manager of the football team, and a member of the debating team. His wife says he is in his seventh heaven and is holding up remarkably well.

My sister also tells me that her son, Dr. John Robert Bateman, who is with the U. S. Air Force at Paris, France, was sent to the Congo Sept. 1. They were somewhat upset about it, but he wrote there was no danger, and he had asked for an exten-

Mrs. Dorbandt Hosts Mullin H. D. Club

The Mullin Home Demonstration Club met in the home of Mrs. Janie Dorbandt November 10 with ten members and one guest present.

sion of time over there. He got to go with the ambassador on a plane to pick up the body of that Mr. Taylor, the news reporter, who was killed by a stray bullet over there. And while on that trip he met some friendly Congolians who took him into the interior. He was at Leopoldville. He came back the last of October. His wife had told him not to come back without Tom-Toms, a spear, and some bongo drums. She said he brought back many, many souvenirs. So we suspect she got what she asked for. She also said John Robert brought back many pictures and a wonderful love for that country and its people.

Leader, gave a very interesting demonstration on preparing and serving a nutritious meal. Miss Baskin was assisted by the hostess, Mrs. Dorbandt.

The recreation period followed, led by Mrs. S. M. Casey.

Next meeting will be November 17 with Mrs. W. T. Lee.

## Post Office Helps Count Livestock

Rural mail carriers from the Goldthwaite post office are leaving livestock survey cards along their routes starting this week.

"Information reported on these cards is used to set the yearly inventory of livestock and poultry on Texas farms," Postmaster Fairman explained.

In distributing the cards, rural carriers pick boxes at random along their routes.

"This means that not every box will get a card," Mrs. Fairman said. "For this reason, it's important for everyone who gets a card to return it filled out so that USDA can get a true sample of the State's livestock holdings."

Carriers assisting with the survey are: Ed Thornton, Route 1, Julian Evans, Route 2 and Delmar Sears, Route 3.

Facts and figures secured in this survey are the basis for the Texas and National pig crop report and inventories of livestock and poultry on farms as of the first of the year. Stockmen and many others use this information in making business decisions.

Survey results will be widely distributed through Texas Crop and Livestock Reporting Service releases, newspapers, farm magazines, radio and television. "This annual survey has been a joint undertaking of the Post Office and the Agriculture Departments since 1942," concludes Postmaster Fairman.
