WILSONS MESSAGE WAS READ TODAY

Washington, Dec. 2.—General recommendations on the cost of living, labor unrest, radicalism and readjustment of the nation to peace-time basis were the features of the president's annual message to congress delivered today. The peace treaty, the president told congress, will be discussed in a separate message later, as will the railroad question. For the second time only, since the president established the practice of addressing congress in person, his message was read by clerks.

The president's principal recommendations were the establishment of a budget system for national finances, reorganization of the taxation system with simplification of the income and excess profits taxation methods, readjustment of the tariff system so necessary to meet changed world conditions and make the system conform with the fact that the United States is the "greatest capitalist in the world" recognition and relief for veteran soldiers of the World War.

War particularly in the way of government farms as proposed by Secretary Lane; proper measures to foster the dyestuffs industry built up during the war to keep the United States independent of foreign supply; an enlarged program for rural development in recognition of the farmers' part in the war—measures which "will remove the causes of the political restlessness of our body politics."

At this point the president made his most extensive reference to the peace treaty by saying the causes for unrest "are superficial rather than deep-seated" and they "arise from and are connected with the failure on the part of our government to arrive speedily at a just and permanent peace permitting a return to normal conditions, from the transfusion of radical theories from seething European centers pending such delay, from heartless profiteering resulting from the increased cost of living, and lastly, from the machinations of passionate and malevolent agitators. With the return of normal conditions this unrest will rapidly disappear."

DROUTH RELIEF FUND

Austin, Texas, Dec. 2.—There is now \$11,538.83 in Texas Drouth Relief fund, according to a report submitted to the governor by F. C. Weinert, administrator.

This fund came into being during the three-year drouth which brought sections of Texas to the verge of want and starvation, and a total of \$27,146 was donated, upon appeal by the governor and others, to be loaned to drouth sufferers without interest. Of this amount \$272,955 was allotted.

A balance of \$4,530 was left on hand June 21, 1919. Since that time a \$20 contribution has been received and \$7,023 has been repaid by those to whom it was loaned.

Mr. Weinert said in his report that conditions in the drouth district have materially improved, but people there went near to bankruptcy that they have not yet recovered, and that while many are anxious to repay the money they borrowed from the fund they cannot do so until they have recuperated further. All requests for additional time in which to repay the fund have been granted by the administrator.

The disposition to be made of this fund and additions made to it by payments has not been decided upon.

SENDS SHARP NOTE TO MEXICANS

Washington, Dec. 1.—The American note to Mexico, signed by the State Department, is a sharp note to the Mexicans. It is a note of protest against the Mexican government's conduct in the case of the American consul, Jenkins. The note states that the Mexican government's conduct is a violation of the principles of international law and that the United States government is determined to protect the rights of its citizens.

Washington, Dec. 1.—Renewing its request for the immediate release of Jenkins, the latest American note to Mexico made public here arraigns the Mexican government's conduct in severe terms and characterizes it as a studied attempt to ensnare the American consul agent in the intricacies of legal proceedings. No ultimatum was served and no indication given of what the American government's course would be if Jenkins is not immediately released.

REPORT JENKINS RELEASED
El Paso, Texas, Dec. 1.—An unverified report was current here today that Jenkins had been liberated. Andrew Garcia, consul general for Mexico here, had heard the report, but no verification had been received.

A THANKSGIVING DINNER

It was at the Old Ladies' Home given by the missionary societies of the city, with Mrs. George Matthews chairman. There were a number of ladies representing the local churches present and assisting in serving the dinner. There was everything that goes with a turkey dinner, and the dear old ladies of the Home, with their faces lit up with joy, enjoyed the meal.

In addition to the dinner there were nice and useful things sent in by a number of friends which will add to the comfort and pleasure of these dear old souls for days to come. The occasion was so happy, not alone to those good old people but also to those who contributed toward this Thanksgiving dinner, that it is thought by many that it would be a good thing to do if more frequently the citizens of the town would visit at the Home and bring to these aged and worthy folks tokens of love and things that would add to their comfort and make their declining days happy.

J. D. Davis of Douglass was in town Sunday on business.

A LETTER OF INTEREST TO WOODMEN OF THE WORLD.

To The Sentinel.

As I was the only Nacogdoches county Woodman of the World who attended the referendum meeting of the W. O. W. held at Waco on October 31, 1919, to discuss the new rate and the issue on the certificates, effective December 31, 1919, I have been asked by a number of the members of our order as to the advisability of discontinuing the payment of dues, and the surrender of certificates of membership.

There were something over thirteen hundred delegates present, composed of Woodmen members of the Woodmen Circle, and resolutions were passed declaring it to be the sense of the convention that the proposed increase of rates and lien on certificates was wholly unnecessary.

Other resolutions were also passed condemning the contemplated increase of fifty percent in fraternal salaries.

Able lawyers were employed and instructed to co-operate with attorneys from other states for the purpose of defeating, if possible, the increase in rates and the increase in salaries. The attorneys thus employed will use their best judgment in handling this important matter, and there are very good prospects of success.

For the present it is earnestly hoped that every member of the Woodmen of the World and the Woodman Circle will continue to pay the assessment necessary to protect their insurance now in force. Even if we should lose and the new rates became effective, we will have an opportunity within two years to elect delegates to the next sovereign convention and instruct them to reduce our rates to the present basis, and the extra amount collected from the membership, in the meantime, would only strengthen our financial condition.

Fraternally yours,
R. B. Walthall.

GOVERNMENT TO SEIZE AND OPERATE COAL MINES

Washington, Nov. 29.—Seizure of coal mines where owners do not show a disposition to cooperate in increasing production and use troops to protect all miners who desire to work has been decided upon by the government in an effort to end the bituminous coal strike, it was officially stated today. In mines seized by the government the 14 percent wage advance agreed upon by the cabinet will be put into immediate effect, it is said. These plans of the government were agreed upon by the cabinet last Wednesday, officials said so as to meet the situation resulting from a refusal of the operators or miners, both, to agree to the government's wage increase proposal. Cabinet officers expected many mine owners to put into effect voluntarily the 14 percent wage increase. Whether the mines of those refusing to do so would be seized was not made clear, but it was said was no general plan for government control, and that each individual case would be decided on its merits.

Villa, the ally of Angeles, will start immediately upon a campaign of reprisal. Chihuahua City being his objective point, it is said. THE CHRISTMAS SEALS

The spirit of Christmas comes first to Texas with the coming of Santa Claus on the Red Cross Christmas Seal, which will be on sale in this city and county next Monday, December 1. The gift which the jolly old Saint Nick brings to the people is that of good health.

Organization of counties all over the state has been practically completed, announces Campaign Director O. M. Lowery, and a tremendous and successful Seal Sale is expected. Nacogdoches County has completed its organization, and workers in the cause of good health are now being enrolled by Mrs. George S. Barham, county chairman, who expects to raise the quota assigned to the county. The money which is raised in this city and county will be used wholly and exclusively for health, especially in the fight against tuberculosis, from which disease there were 4,651 deaths reported in Texas last year.

Ninety percent of the money raised in Texas will remain in the State for anti-tuberculosis and health work by the Texas Public Health Association and its many affiliated organizations, much of it being spent for local work. The other ten percent will go to the American Red Cross and the National Tuberculosis Association for their health program, and part of this money will therefore, revert to Texas.

Local workers throughout the county will give the people of Nacogdoches county an opportunity to buy the little seals of good health, with their Christmas and New Year greeting. They are very attractive little stamps and will fittingly decorate letters, packages and parcels. They radiate Christmas cheer, and each represents a penny's worth of good health for Texas.

Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. CALOMEL

Calomel is a dangerous drug. It is mercury—quicksilver; and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work.

Take "Dodson's Liver Tone" Instead!

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

WEEKLY SENTINEL

BY GILES M. HALTOM

PEOPLE HAVE BEEN ROBBED ENOUGH.

It is probable that the government will take charge of the coal mines and dictate all prices from the mine to the consumer, allowing a reasonable profit only. If the scheme works well will the people of the country ever allow themselves to be robbed by the coal barons again? No one has a right to monopolize a common necessity and amass millions out of the needs of the poor. If the war has taught us a better and fairer system the people ought to insist that such system be continued. Treat the big interests fairly. Give them a reasonable profit and then hold them to it. When the public discovers that it doesn't have to be fleeced by the railroads, the coal barons, the big packers, the food gamblers, the grain speculators and the steel trust, the paper trust, the oil trust and the thousand and one other big combines, that is going to be a new day for the United States. When you vote for a candidate for congress next time don't vote for a man simply because he wants to go, or because he can make a spreadeagle speech. Don't vote for a man because he belongs to some particular party. There are just as many slippery eels in one party as the other. There isn't a cent's worth of difference. But vote for a man who is sound and honest along these important lines; who will not let all the grafters and grabbers slip back into their old places now that the war is over.

A tactful woman is one who can boss her husband and make him like it.

Generally speaking, a demagogue is an orator who is lined up with the opposition.

Sometimes a man thinks he is popular, when he has merely been selected as the goat.

Children find some satisfaction in school work when they can bring home a problem their parents can't solve.

It may be hard to convince a healthy man that health is more important than wealth, but a sick man understands it.

The administration has our permission to hit those coal barons so hard and knock them so far that their eyebrows would have to come back by mail.

The weather clerk played it low down on us last night by forecasting drop in temperature to 16 or 20 degrees above zero and causing all prudent householders to take the trouble to cut off the water, but at that "it's better to be safe than sorry."

A LETTER OF APPRECIATION

Our hearts were made glad by the ladies of the missionary societies of the city of Nacogdoches by preparing and serving at our home a dinner fit for kings on Thanksgiving day, October 27th, 1919, and we shall long remember the good ladies who contributed and made possible this wonderful feast for us; also for the many nice presents sent to us by those who feel an interest in those who are not situated where it is possible for them to provide from their own personal means the things which were brought to us. The devotional half hour conducted by Bro. Westbrook was enjoyed beyond words of expression; and those beautiful songs will long be remembered, together with those who rendered the same.

Though situated as we are, how wonderful it is to live in a city and county made up of such a fine citizenship.

When you come to see us we will tell you more of our appreciation.

SUFFERED SINCE HE WAS A CHILD

Can Hardly Realize How Miserable He Was Before He Took Tanlac.

"I feel so fine and well now I can hardly realize how miserable I was before I started taking Tanlac," said J. F. Melcher, of 319 West Ninth street, Houston, Texas.

"I had a weak stomach ever since I was a child," he continued, "and had to be particular about everything I would eat, for the least little thing would upset me and cause me no end of suffering. My system seemed to be full of malaria and I would come down with fever every year. I could hardly sleep for nervousness, was constipated and would feel so tired, worn out and drowsy all day long that I wasn't fit for a thing.

"I took plenty of medicine, but it did me no good. Finally I tried a bottle of Tanlac and found I was improving on it. Since taking Tanlac I can eat most anything I want and have no trouble digesting my food, my nerves are steady and I sleep like a log at night. I am stronger and better than I have been in a long time and I never get tired, no matter how hard I work. Tanlac is a great medicine and I can't praise it enough for the good it has done me." Tanlac is sold by all druggists.

OCTOBER REPORT OF TEXAS PIPELINES

(By Associated Press) Austin, Texas, Dec. 3.—Pipeline companies during October owned and held 8,284,357 barrels of oil and held 2,827,196 barrels for others, according to a statement issued by the Texas railroad commission. Barrels gathered numbered 5,886,089.

In issuing this statement the commission called attention to the fact that a majority proportion of the oil held by pipelines was owned by them, and that detailed files of their offices show that most of the oil rendered as "held for others" belonged to subsidiaries of the pipeline companies. The statement continued: "It is significant that although the pipelines are common carriers and have filed their tariffs, and although it has cost the federal government great effort to impress upon pipelines a common carrier character, very few producers avail themselves of their privileges of reaching an independent market by using the pipelines of this state.

"The railroad commission of Texas is doing all in its power to see that the independent shipper may use these common carriers on fair terms and without discrimination, but so far few have availed themselves of their privileges."

Total storage capacity of Texas pipelines is 17,455,491 barrels, and during October unfilled storage capacity was 6,343,957 barrels.

SHE HOLDS THE CHAMPIONSHIP RECORD

Miss Anna Huber, a Texas girl, now Mrs. Anna Sessions, has made a record of which all of her sex may feel proud. She is now in the \$6000.00 a year class. After finishing a course in Byrne Shorthand in the Tyler Commercial College—Tyler, Texas, some years ago, she started out as a stenographer at \$12.00 a week. Her work was so satisfactory that she gradually gained promotion until she became Manager of the World Film Corporation at New Orleans. This position she held for four years. When the Company recently reorganized its business and opened their big Southwestern Office at Atlanta, Georgia, this T. C. C. girl was elected to the position of Manager at \$6000.00 a year with twenty office employees under her charge and eight traveling salesmen. We believe this makes her the champion so far as salary and responsibility is concerned of the Tyler Commercial College girls that have entered upon a business career. Mrs. Sessions likes her work and says \$6000.00 a year comes in nicely in buying shoes and clothing at the present high prices for herself and daughter. She finds the work in the big business office pleasant and interesting and says she can't see why any woman should lose her feminine tact and adaptability because she is a business woman. Mrs. Sessions states with pride that it was her knowledge of the Byrne Shorthand, obtained in her three months stay in the Tyler Commercial College of Tyler, Texas, that gave her the basis of her start into her wonderful business career. Mrs. Sessions is only one of the many girls who have attended the T. C. C. at Tyler that have made wonderful records in their business careers. The success of Mrs. Sessions should be an inspiration to other Southern Girls who have the desire and ambition to rise in the world; to earn their own money, win their independence, and live the lives they would like to live.

S. MINTZ

THE TALE OF TWO CITIES

by Arthur Francisco Wilkinson

Many years ago when the Mexicans were roaming and plundering the country west of the Sabine a Mexican by the name of Y-Barbo erected a stone fort 93 miles southwest of Shreveport just east of the Bonita stream. Soon other settlers came and built huts around the fort. As time rolled by the hill east of the Bonita became dotted with small houses. The little place grew slow but sure. At times the little place looked like it would fall into the hands of the enemy, but being a people of fighting blood they always held their own.

Many years later a Mr. Jones of some distinction, built a little hut 20 miles southeast of the fort built by Y-Barbo, just a few miles beyond the Angelina.

The former named his village Nacogdoches, the latter Lufkin, who was to become the rival of the former.

Little by little the two cities grew. Little by little they began to learn of each other, but the more they learned the less they cared for each other until the merchants had agreed to dispute over whose town was the larger. This dispute amounted to little, but it started the ball to rolling which continued to roll for many years to come.

As time went on the rivalry grew worse and worse. The two cities often met to take part in the sport of horse racing, boxing and sometimes fighting.

When baseball became the game, the two cities were forever trying to beat the other at the game. The game often ended by fighting of men, and slapping and hair-pulling or girls.

When these baseball fighters became the leading men and women of the two cities, football was the leading game. Just as you would expect Lufkin longed for the scalp of the Nacogdoches football squad. But this, she never enjoyed but once. This happened early in the season of 1915. The game left a bitter taste in Lufkin as well as in Nacogdoches. The manly coach of Nacogdoches went forward, on the same day and matched a game with Lufkin which was to happen in 'Doches on Thanksgiving.

The papers began to boost at each other, and the rivalry of the two cities arose to the highest pitch. On the evening of Thanksgiving 3000 'Doches people met the Lufkin train which brought eight hundred people whose hearts never doubted. During the snappy game that followed, each people looked upon their players and longed to see them put the ball over the opposite line. But Lufkin received this joy and pleasure only once.

Another thing worthy of mention is the fact that Lufkin bragged of her goal line not being crossed that season. But during this game it was crossed and recrossed time and again. The game finally ended in peace, and while the 'Doches people rejoiced a many sad hearts made its way back across the Angelina.

When the players of Lufkin bowed to the yoke of the 'Doches they smiled and said "As we had to lose we are glad it is to you. You are good, clean players". These words were enough. 'Doches saw in her face true sportsman-ship which few men possess, a love that can lose. This sealed the love between the two peoples and capped the climax of the Tale of Two Cities.

CURE FOR PROFITEERING.

The profiteering, looting and robbing of each other by the people all over the world is the legitimate child and direct offspring of human greed and selfishness. It has occurred to us many times that the ministry, the parents and the teachers are not doing their full duty in helping to turn out a product.

"Young America" that we may be proud of, and we have a sneaking notion that that class also comes the editor, for his writings do... the homes of millions all over the land, and sows seeds, or should sow seeds, in fertile soil which should bear good fruit in the years to come. Probably we are just like the ministers, the teachers and the parents—have so many other things to attend to that the seed sowing is left until tomorrow which never comes. As the Mexicans say "Manana."

Look around you at the young men and young women of today and compare them with those of half a century ago, and you cannot help but say something is needed. What is it?

We can think of nothing else just now better than that the parents must take their task to train youths in the paths it should go more seriously than they do, and commence rigid moral training in infancy. "As the twig is bent so will the tree grow." And the teachers and ministers and editors should help the parents, to the end that the next generation shall be one of better men and women than is the present. We have all got to acknowledge that in point of honor, honesty, integrity and morality, especially the latter, we need considerable fixing. Not that there's not plenty of those estimable qualities yet on hand, but, by the ever-living gospel, they have shrunk during the past half century, even as does the promise of a politician shrink after election is over, or a trust-made suit in a rainy season.

The great need is moral training. We used to get it in the home, in the school and in the church, but they seem all to have gone into the business of making money, and have no time to bother with such trifles as moral character. The world needs today, more than anything else, not laws, which any keen mind can laugh at; not policemen, which every boy is taught to dodge; not courts, which are the world's great uncertainties; not technical education, which fits as well for crime as for virtue, but the world needs the one product which the church alone can furnish when it is onto its job, men of moral backbone, who can stand on their feet, as Jesus did when tempted, and say, and mean it, too, "Get thee behind me, Satan." Build walls of laws about evil men and they will grin at you over them. In proportion as the hearts of men are right do they need less laws. The only cure for outside dishonesty is truth in the inward parts.

So, let us preach less of shivering shades twanging impossible harps from Alpha to Omega, pearly gates and golden cobbles, of clovenhoof devils with sawteeth, spitting red fire and language, and appeal more to the hearts of men, to the inherent goodness that is to be found in every man and every woman, preach the Fatherhood of God and the Brotherhood of Man, and pay special attention to the little children, "for of such is the kingdom of heaven."

This agreement, which it is hoped will solve the Adriatic problem, was prepared in Paris by the American, French and British peace representatives for submission to Italy, according to private advices received here.

Polk and Clemenceau are declared to have already signed the agreement, and it is understood Great Britain is prepared to sign, upon which the agreement will be handed the Italian plenipotentiary in Paris. The nature of the proposal is not stated, but it is said to have been framed with the view satisfying Italy.

Ford
THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3 1/2-inch tires front and rear, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

PINCH OF COAL MAY CAUSE DRASTIC ACTION

Washington, Dec. 1.—The pinch of the coal shortage promised tonight to force administration to take measures to avert an actual famine. MINERS AND OPERATORS HOPELESSLY OPPOSED

Washington, Nov. 28.—With wage negotiations conference disbanded without accomplishing anything further than bring down on the heads of government officials criticism from miners and operators alike, nobody in Washington today seems to know or, if they knew, would say what the next step would be in the effort to provide the country with a coal supply and head off the threatened fuel famine.

WEEKLY SENTINEL

BY GILES M. HALTOM

A GREAT STEP FORWARD

A recent Sunday paper had a half-page illustration showing the distillers firing their whiskey bottles over the breastworks at all mankind, and in the background the poorhouses, penitentiaries and insane asylums created and kept up by the liquor traffic. It told an awful but very true story. Now that the distilleries have been put out of business by the United States government, and no more of the accrued stuff is to be manufactured, the country has taken a great step forward in civilization, morality and right, and it will never step back into the mess and wrongdoing it was in before. Now the illicit distillers are springing up, and "moonshiners" will be plentiful, but by the time a few of them land in the penitentiaries they have builded for others it will be different.

The nation has broken and forever destroyed big whiskey cannon. The best friend of the poorhouse, the asylum, the penitentiary and the morgue is, at least no longer the partner of the United States government.

Never again will this nation, in consideration of a few million dollars, permit wholesale and retail poisoning of its citizens and ruin of families.

Out of the war has come whiskey's end. And no matter what the war costs or what lives it takes, it will cost less and will kill fewer than whiskey would have cost; and killed had it continued its reign in this country.

HERE'S ANOTHER ONE

All state papers are a liberty to copy without credit, not overlooking the Lufkin date line, for it's here where the unusual as well as the usual happens.

Luther Largent, a young man employed at the Lufkin Bottling Works, and who was born and reared here, enjoyed his first ride on a railroad train Thursday afternoon, when he attended the football game at Nacogdoches. Inasmuch as the young man had heard train whistles all his life, had seen them come and go, but had never ridden one of the things, the very fact that Lufkin lost the game to Nacogdoches at the very time this young man saw fit to ride the rails, creates a lurking suspicion that possibly this one fact in some way served to queer our luck, and the matter is being looked into by some for those who carried a lot of "swag" up that way—and failed to bring it back. If it can be established that this incident had any bearing on the game, injunction proceedings will be sought, in order that the verdict of the referee shall be set aside or held in abeyance until passed upon by a high tribunal, but which court of last resort would be available is not known. Inasmuch as all acting judges of the higher courts are swamped with pressing business at the present time, it has been suggested that the executive having the appointive power, select special judges for this particular case. If this could be arranged, the writer hopes that Messrs. Oscar Matthews, manager of the Nacogdoches Grocery Company, be one of the judges named, G. R. Thompson of Lufkin another, and these two select the third man.

But that does not complete the story. Young Largent, before boarding his first railway train, availed himself of the opportunity and soared aloft in an airplane that was doing stunts in the city on the day mentioned. Encountering no difficulty in this ethereal pastime, far above the crowd's ignoble strife, the city's tumult and dust and din, he naturally felt no hesitancy in falling in behind a railroad engineer sitting in his cab with nothing but the ground and the earth nearby to use for a running board. Can you beat it?—Lufkin News.

No matter what college a man attended, his wife is apt to play quite a part in finishing his education.

No matter when a woman begins to pack her trunk, she won't finish the job until nearly train time.

Sometimes there is a lucky man who isn't henpecked until his daughter is old enough to attend to it.

The art masterpieces were produced centuries ago; the greatest books are old books, and are the oration. But the greatest

business men are living today. The commercial chiefs of old were amateurs compared with their competitors of today.

Why isn't the average woman as capable to conduct a business establishment as a man? A woman can put the whole earth in a trunk or a refrigerator, and no man can do that.

People think they are mighty smart, but the clairvoyants continue to find plenty of raw material. Raw is right.

Congressman John C. Box of the Second Texas district is the only democratic member of the house who didn't miss a roll call during the recent special session. Only one other member of the house holds a like record—a republican from Ohio. Judge Box, who is a member of the committees on immigration and naturalization and the alcoholic liquor traffic, is now in New York on official business and will likely be absent most of the time during vacation. It is gratifying to know that our congressman is on the job at all times.

Nacogdoches is a coming county in an educational way. Supt. G. B. Layton reports that many schools have received state aid, among which Woden heads the list for the amount she received, \$800.00 was given to that vicinity. The other amounts ranged from \$100.00 to \$50.00 each. Some eight schools received state aid. In the meantime Nacogdoches continues to forge ahead sweeping every thing before her. None can rival her—not even the boastful Lufkin who de lights in trying to impress a real city with an unexperienced football team and loud brass band. The score was just 37 to 6, which of course, was enough.

MEXICO WILL BE CALLED FOR SHOWDOWN ONCE FOR ALL

Washington, Dec. 1.—Although denial from Mexico City of reported fighting between the followers of Carranza and Obregon serve to ease the tenseness of the relations between Mexico and the United States, the State Department today had not altered its determination to enforce its demand for the prompt release of Consular Agent Jenkins, held on a charge of conniving with his bandit captors.

On top of the already delicate Mexican situation was the report of the murder of another American, W. M. Wallace, an oilman, who was shot down by Carranza soldiers. This combined with the Jenkins case, was expected to spur the State Department to strong diplomatic action against the mistreatment of American citizens. Mexico probably will be called upon for a showdown once and for all if repeated killings and molestations of American citizens continue and American Consular Agent Jenkins remains in prison on what American officials believe are trumped charges.

Mr. Fred A. Guthrie and Miss Pearl Deags, both of Lufkin, were joined in Matrimony at the courthouse about 2 Saturday afternoon by Justice F. D. Huston. Lufkinites seem to have acquired the commendable habit of coming to Nacogdoches for their conjugal tie-ups, realizing that the ceremony will have no leaks when performed by our officials and ministers.

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.

THE SCORE WAS 37 TO 6 IN FAVOR OF 'DOCHES

Proudly, with bands playing and gorgeous colors flying, the Lufkin delegation came up Thursday 600 strong on a special train to wipe out the 'Doches lucky 'leven. Never did any town send up a better representation, a crowd to be admired, or one calculated to envy of their antagonists than the folks who came from Lufkin. Quite, dignified, and well-behaved, they were indeed very much appreciated by this city.

But they just could not play football—that was something out of their line. Their manifest confidence and thinly veiled arrogance made them objects of pity rather than criticism. The first thing pulled by them on arriving at the gridiron was to try to impress 'Doches with the loudness of their band, striking up several ragtimes which, however, before the end of the game, became as doleful as funeral dirges. With reference to the band it may be mentioned here appropriately that the most conspicuous thing about it was the way it melted away as the game progressed. At the end of the game not a single musician was to be seen flying Lufkin coors. The earth had apparently swallowed them up.

After the commencement of the game both teams were worked up to fever heat. And the game went off with a crash. By sheer accident, the first quarter Lufkin made one touchdown. This was followed by a loud crash from their rasping band; but this was the last time that band got to play because it rejoiced. From then on it played because it wept. This touchdown nerved the 'Doches team to greater efforts; they leaped forward with inimitable vigor and from then on a vertible circle was played around the Lufkinites.

It is well to take one by one the manner in which the 'Doches boys contested their antagonists during the game. Herman Sullivan established himself as the 'Doches star. Making three touchdowns during the game, he was loudly applauded by his admiring fans. Herman bucked the line in all his touchdowns, and mightily were his lunges when he would start for the goal. No one could blame the Lufkinites for flinching when this mighty 'Doches fullback rushed at them. Herman Sullivan made the first touchdown in the first quarter by a straight buck; in second half Lufkin tried to knock him out, but he made another touchdown, making three before the end of the game. A purse of \$20.50 was given him by admiring friends after the game.

Capt. Sherrill Sullivan, the most famous player of the field, being so closely watched, was not able to start the least move without having the whole of Lufkin's team upon his back. Consequently, Sherrill made no plays worthy of mention. His name ruined him in the game. Lufkin feared him and closely guarded him, rendering him unable to do anything.

Floyd Woodlan evinced the 'Doches spirit with great energy. Fighting with unparalleled vigor through the game, worried considerably by Lufkin's so-called lucky Jew, he made one touchdown in the last quarter after two downs in 60 yards. He did some fine tackling also.

Max Goleb, quarterback, making one touchdown in third played in splendid form, he quarter. Max got excited in first quarter and fumbled, giving Lufkin the opportunity to make her first and only touchdown. Max played well as a whole.

Tucker Mast played one dropkick goal, scoring 3 points from a 25 yard kick. Tucker made no fumbles, but in the third quarter made an exceptionally brilliant interception of one long pass.

Frank Shofner, lineman, made one punt, recovering, however, the ball in the first half. He tackled fine; none could stand before him.

Eugene Muckleroy carried the honors as the best lineman in the field and worked in conjunction with Shofner, making some extremely fine tackles.

Eldridge Gaston played center in the offensive and fullback in the defensive, taking

"Knew we'd get together"

—Ches. Field

HERE'S where the particular smoker meets the particular smoke—Chesterfield.

Particular is right! Not only do we use the four choicest varieties of Turkish tobacco—Xanthi, Cavalla, Smyrna and Samsoun—but to these we add the rich, sun-ripened leaves of specially choice Domestic tobacco.

Fine as these tobaccos are, it's the exclusive process by which they are blended that gives to Chesterfields that satisfying body, that mellow richness which makes a smoke mean something.

Chesterfields certainly do satisfy as no other cigarette has satisfied you before—and to top it off, they are packed in a glassine paper package that preserves for you all of that delicious flavor.

Herman Sullivan's place occasionally. Eldridge made some fine punt interceptions and did some good tackling in the defense. However, he made some fumbles, passing two balls to wrong persons. He made no touchdowns.

C. B. Davis made a great name as a lineman, working heroically to keep up his part of the game. C. B. did some fine tackling, winning some good cheers.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Doesn't hurt a bit. Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

"Buffalo Bill, where do you get saddles and pads for your Rough Riders?"

From Waco, Texas, made by Tom Padgett Co.—Forty eight years in business—they don't hure your horse. (Padgett's ad has been carried by the Haltom papers for forty years.)

Roby Thompson showed Lufkin's Martin up in poor clothes. Martin was no match for Thompson. Thompson played fine as lineman.

Raymond Hagan took care of the much boasted Lufkin blacksmith, who was reputed to be second only to Samson in strength. Raymond went after the blacksmith with pep, and the result was that before the end of the game the strong-armed smith was carried from the field. Raymond did some exceptionally fine playing, winning the admiration of all.

Little Jesse Summers played well in the first quarter, but was later strategically replaced by Hagan, who, as before stated, acquitted himself nobly. Jess made some good tackles.

At the end of the game the Lufkin grandstand was entirely deserted. The band had entirely faded away, and nothing but the happy yells of the 'Doches boys could be heard. The Lufkin delegation went quietly away vanishing like ghosts in the thickening gloom.

In the meanwhile, 'Doches has proved herself to be a formidable antagonist. Her reputation for brilliancy in everything has been upheld gloriously. There are more fields for her to conquer.

Why not the East Texas championship? Let that be from now on our battle cry. On to Tyler or Marshall, whoever it may be. E. S. has spoken!

Notice Automobile Owners
Automobile license fees for 1920 are due and payable now. You cannot drive your car after January 1st without violating the law unless you display the 1920 seal. Here is what the State Department says about the matter: "1920 motor vehicle license shall be obtained before January 1, 1920. The operation of a car after that date without the 1920 seal is a violation of the law." I have the seals and receipts allotted by the Highway Department for the county in my office and urge all owners to get their seals this month to comply with the law which will greatly relieve my office during the month of January when tax-paying makes me very busy. Pay now when you can get better service and be prepared to comply with the law when it shall be necessary for you to display the new seal.
Respectfully,

BIG SUPPER GIVEN THE FOOTBALL BOYS

Never was a more sumptuous feast set before boys than was given to victorious 'Doches football team at the Lone Star Bakery Friday night by Mr. James & Speis. And the boys enjoyed it, too. Laughing, joking, praising the tempting viands set before them for their delectation they indeed made a happy picture.

And among the happiest of the ones present was Mr. Speis, smiling a broad smile which indicated his genuine satisfaction over the great victory. Mr. Speis impressed himself upon all present as a man really and truly 100 percent Nacogdoches in everything.

At the conclusion of the supper, the happy and appreciative boys gathered around Prof. L. B. Davis and vigorously cheered Mr. Speis, who was responsible for their happiness, and the Lone Star Bakery.

Those present were: Coach T. H. Hunt, Prof. L. B. Davis, Capt. Sherrill Sullivan, Herman Sullivan, Floyd Woodman, C. B. Davis, Eldred Gaston, Robby Thompson, Jesse Summers, Carson Sullivan, Elmer Summers, Max Goleb, Eugene Muckleroy, Raymond Hagan, Frank Shofner, Burk Summers, Tucker Mast, Edwin Gaston, and Melton Smith.

"The boys, Mr. Speis, appreciates this spirit of interest you have taken in them more than you can possibly imagine—may the Lone Star Bakery and you live long and prosper," was effectively the comment made by Prof. L. B. Davis. Prof. Hunt representing also the boys, expressed the profoundest appreciation.

MEXICANS THINK RELATIONS WITH U. S. UNAFFECTED

Mexico City, Nov. 28.—Belief that the relations of friendship existing between Mexico and the United States "cannot be affected unfavorably" by the former's refusal to take steps looking to the release of William O. Jenkins, consular agent at Puebla, was expressed in a note replying to the American demand for Jenkins' liberation sent by the Mexican embassy late yesterday. After reviewing the case the reply pointed out that the judge at Puebla who ordered Jenkins' detention had acted within his powers and the latter had waived his legal rights in refusing bail. Little surprise was caused by the attitude assumed by the Mexican government, as the statements of officials during the last week reflected a sentiment adverse to acceding to the American demand.

Was Restless With Pain
E. W. Kitt, R. F. D. 2, Box 9, Shorters, Ala., writes: "I took Foley Kidney Pills as I was restless at night with pains in my back and side, and they did me good. I can truthfully say Foley Kidney Pills is the medicine for kidney trouble." They relieve rheumatic pains, stiff, swollen joints, lameness, soreness.

JUST IN TIME

Some Nacogdoches People May Wait Till It's Too Late.

Don't wait until too late. Be sure to be in time. Just in time with kidney pills. Means curing the backache, the dizziness, the urinary disorders, that so often come with kidney troubles. Doan's Kidney Pills are for this very purpose. Here is Nacogdoches testimony of their worth.

Frank Clappitt, Mount St., says: "I can endorse Doan's Kidney Pills as a reliable remedy. A few years ago my kidneys caused me considerable trouble. My back was weak and lame and I felt dull and tired mornings. My kidneys didn't act right at all. I heard of Doan's Kidney Pills and tried them. Doan's were just what I needed and I continued their use until I was free from all signs of kidney complaint." 60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Eight Children Had Croup

"I have eight children and give Foley's Honey and Tar to all of them," writes Mrs. P. Rehkamp, 2404 Herman St., Covington, Ky.; "they all were subject to croup." It loosens mucous and phlegm, stops that strangling cough, makes easy breathing possible and permits quiet sleep. Contains no opiates. Children like it.

FRIGHTFUL RAVAGES OF TUBERCULOSIS IN TEXAS

Austin, Texas, Dec. 2.—"Eleven counties of Texas wiped of the map in 1918," would make a very startling headline for the newspapers," declared D. E. Breed, executive secretary of the Texas Public Health Association, "and the people would be thrown into a panic by it."

"Yet in 1918 the ravages of tuberculosis claimed the lives of more than the combined population of Bailey, Cochran, Crane, Hockley, Lamb, Loving, Moore, Reagan, Newton, Winkler, and Yoakum counties, and the people of the state are not yet awakened to the great need of stamping out the disease which costs Texas thousands of lives, millions of dollars, and an inestimable amount of suffering and unhappiness every year."

With clinics, preventoria, summer camps, public health nurses, children's hospitals, dispensaries, Modern Health Crusades among the children, health surveys, field workers among Mexicans, negroes and all races and classes in the state, the Texas Public Health Association and its local affiliations have been for eight years waging war on the "White Plague."

The sale of Red Cross Christmas seals, which began December 1 and will last until December 10, will provide for the 1920 fight against tuberculosis, and for other health work in Texas. Ninety percent of the \$200,000 raised in the state will be used in Texas for anti-tuberculosis work. The other ten percent will go to the National Tuberculosis Association and the American Red Cross.

Cunningham is well known in this city, having been pastor of the Presbyterian church at this place for several months. In conversation with him we learned that 19 years ago today he landed in this section of the country from Missouri, his native state. He first located at Homer, La., and said at that time he could have bought thousands of acres of land in that section at \$1.50 per acre. Some of this land, the Shaw tract, is now worth thousands of dollars per acre, and is one of the greatest oil fields in the country.—Timpson Times.

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, the hearing is impaired, and the inflammation can be reduced and the tube restored to its normal condition, hearing will be restored forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.
