HILTON BYBEE TO ENTER PLEA OF INSANITY

THROCKMORTON, Texas, April 5.—Attorneys for Hilton Bybee indicated today that he may enter a plea of insanity on charges of robbery with firearms.

When the case was called to trial at 10 a. m., application for change of venue was filed on behalf of Bybee by John L. Smith, one of his attorneys.

Smith said he acted for Bybee because "after observing the appearance and demeanor of the defendant he was of the opinion that Bybee was insane and of unsound mind and incapable of making this application."

Bybee, who escaped from Eastham prison farm several months ago and who more recently escaped from the Houston county jail at Crockett, is charged in connection with the robbery of a filling station near Woodson.

Ruling on the change of venue motion was expected later today. The motion was opposed by District Attorney H. F. Grindstaff.

Chief of Police Asked to Donate To Barrow Reward

Chief of Police Jim Ingram is in receipt of a communication from George A. Smith, secretary-treasurer of the City Marshal and Chief of Police Union of Texas, urging him to join the other members of the organization in donating \$2 toward a reward for the capture or death of Clyde Barrow, notorious bad man.

The communication reads: "Your executive committee instructs me to communicate with all our members asking them to contribute \$2 each that a suitable reward may be offered for the capture of Clyde Barrow.

"If you will donate that much for that purpose, please mail same to me by return mail that the reward may be offered at once."

Chief Ingram said that the organization had some 600 members and he felt sure each would send in their share of the reward immediately.

A reward of \$500 was offered by Gov. Miriam A. Ferguson, \$1,000 by the state highway patrol and the reward from the marshals and chiefs of police will bring the total to \$2,500 or \$3,000, it is believed.

Desdemona Lady Injured When a Cooked Exploded

Mrs. Ed Parks of Desdemona, was seriously injured in an explosion of a pressure cooker and was rushed to the West Texas Clinic and Hospital in Ranger for treatment Tuesday afternoon.

Reports this morning from the hospital said that she was in a serious condition, but that she was doing as well as could be expected.

No details of the accident were known in Ranger other than that she received severe injuries when the cooker exploded.

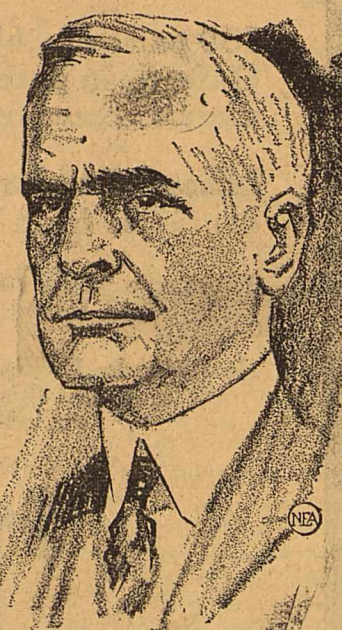

Capture of Green Important Link In Dillinger Quest

ST. PAUL, April 4.—Capture of Eugene Green, machine gunning gangster and a woman companion was seen today as an important development in the search for John Dillinger, fugitive Indiana desperado.

Department of Justice agents, shrouded operations with their usual cloak of secrecy, but from Washington came an announcement the wounding of Green and capture of his red haired companion was an important development.

WASHINGTON, April 4.—John Dillinger was identified today as one of the two men who shot their way out of a St. Paul apartment Saturday, J. Edgar Hoover, head of the division of investigation, announced.

CORDELL HULL Secretary of State

BY WILLIS THORNTON
NEA Service Staff Correspondent
WASHINGTON.—A man of great natural dignity, a sweetly reasonable manner, and infinite patience, Cordell Hull, carries on his slender and slightly stooped shoulders the burden of the relations of the United States to other countries.

A volunteer captain of infantry during the Spanish-American War, Hull later became a Tennessee circuit judge and then served for many years in Congress.

He was for several years chairman of the Democratic National Committee, and it is almost forgotten that he was the author of the federal income tax legislation in 1913, and the inheritance tax law of 1916.

A senator when the present administration took power, Hull was chosen as secretary of state. He emerged from the London Economic Conference of last year as the only statesman present who loomed larger at its end than at its beginning, and as chairman of the American delegation to the Pan-American conference at Montevideo, he has patiently gained a measure of success from a situation that looked hopeless for progress in Latin-American understanding.

Quietly, the most far-reaching changes in American foreign policy in many years are being engineered under Hull—a policy of non-dominance co-operation with South America, and of mutually advantageous agreements with other neighbors, such as the long-remembered recognition of Russia.

In addition to responsible supervision over all diplomatic and consular services and their conduct of official and trade relations with foreign countries, Hull is on the governing board of the Pan-American Union, unofficial good-will organization of the Americas; a member of the Foreign Service Buildings commission, which supervises American diplomatic and consular property in foreign lands; a member of the Smithsonian Institution, and of the Chicago World's Fair Centennial Commission.

Hull is 62, tall and slender, slow-spoken and hesitant with words, with a sad-eyed nobility and a distinction of bearing.

He lives at a hotel within a few blocks of the State Department with his wife.

Second Quarterly Conference at Staff On Saturday Night

Notice has been sent out by mail to some of the officials of the various churches of the Ranger circuit that the second quarterly conference will be held on Saturday night at 7:30 o'clock instead of on Friday night as previously announced through the press.

The presiding elder, Dr. C. Q. Smith, will preach. Everyone is invited to come and hear him. The members of the conference are urged to be present.

The trustees from each church will be called upon to make a report on church properties. The Sunday school superintendents will be called upon for reports on the Sunday schools in their charge.

All stewards are urged to be present.

Bill Smith Most Popular Athlete In University of Texas

AUSTIN, April 4.—Bill Smith, of Cisco, 1933 football captain, today was University of Texas' most popular athlete by student vote.

Smith polled 1,790 votes, compared to 655 given Pat Ankenman, Houston shortstop on the University of Texas baseball team, and 432 for Alexander Cox, 1934 track captain from Corpus Christi.

Allen To Enter Plea of Guilty

E. V. Allen, who received a death penalty, which was later commuted to life imprisonment for robbery of a bank at Carbon, Wednesday, in Fort Worth, decided that he would plead guilty when the case in which he faces charges of robbery goes before the court.

The decision not to contest the case was made, it is believed, because of the present attitude of the public against criminals which might result in Allen being assessed the death penalty.

HUGE SEA LION HONORED

ROCKAWAY, Ore.—A Gargantuan sea lion, a large hole gashed in its side, crawled painfully from the Pacific ocean here to die. Observers found the animal 200 feet from the water's edge. It was one of the largest such animals seen here and was buried with honors.

PLOT PROBE TO BE SHORT IS RAINY'S GUESS

WASHINGTON, April 4.—Speaker of the House Henry Rainey, calling the Wirt "brain trust plot" charges "silly," said today that the Indiana educator "can't name a man in the government who is fomenting a revolution.

Rainey predicted the house special committee investigating into the "red" plot charges of Dr. William Wirt probably would last only a few hours.

"He hasn't got any informants," Rainey said. "The whole thing is too silly for words.

"If all Wirt has is what he has given out, namely that men like Secretary of Agriculture Henry Wallace and other key men are allegedly leaning to communism, the investigation will end almost immediately."

Sale of Beer In Dry Counties Is Still Against Law

AUSTIN, April 4.—Adoption of a 3.2 per cent beer amendment to the state constitution last Aug. 21 does not permit legal sales in territory previously dry by local option, the court of criminal appeals ruled today in two cases.

The cases were appealed from Mitchell and Dickens counties.

"We hold," Judge O. S. Lattimore wrote, "that in counties and subdivisions thereof, in which the sale, etc., of intoxicating liquor has been forbidden by local option elections prior to taking effect of section 20, article 16, of the constitution of Texas (Aug. 21, 1933), and in which by no subsequent election has the sale, etc., of wine and beer of not more than 3.2 content been legalized—that the sale of such liquor is a felony and hence the county court has no jurisdiction of prosecution for the sale thereof."

'Cycle Mounties' Aid In Search

Patrolmen Ernest Daniel and Morgan Myers of Eastland were on duty Sunday afternoon, Sunday night and Monday patrolling highways in and near Mineral Wells in cooperation with patrolmen stationed in Mineral Wells in the intensive search for slayers of the two persons wanted in connection with the shooting of two State highway patrolmen near Fort Worth, Sunday.

Sunday night two of the patrolmen while riding west of Mineral Wells, came upon a yellow wire wheel Ford V-8 sedan parked by the side of the highway that resembled the car used by the suspected slayers of the two patrolmen, thought to have been Clyde Barrow and Bonnie Parker.

The driver of the car had stopped on the highway to take nocturnal rest and 35 gallons of alleged whiskey was found in the car. When questioned the driver said he was from Ranger. He was arrested and placed in the city jail, Mineral Wells, and held in connection with a charge of evading federal taxes on the liquor until a federal officer arrived from Fort Worth taking the pickup car and evidence to Fort Worth.

Pecan Growers to Meet at Gorman Tuesday, April 10

Two features of particular interest to pecan growers will be brought out at Gorman Tuesday, April 10, when the Brazos Valley Pecan Growers Association opens its annual spring meeting at the Ritz Theatre at 9:30 a. m. The visits to the Kirk and the Dr. Blackwell native groves which are being developed, will bring out the principles of thinning, topping, budding and grafting. Visitors will have opportunity to witness these jobs in their various stages of development.

The visit to the Dallas Jobe orchard will bring out the possibilities of a planted orchard on upland sand. This orchard is also interest with fruit trees which have been a paying investment before the pecan trees required the space occupied by the fruit.

Owners of native pecan timber will find it to their advantage to attend this meeting and pick up all possible information relative to the development of the native groves. And every owner of Eastland county farm land will find some points of interest suggesting the possibility of planting a grove that will in time make the owner independent.

There will be a number of outside pecan people and Eastland county folks are urged to turn out and aid in welcoming the visitors, according to J. C. Patterson, county agent.

The program for the meeting is as follows:

Invocation, J. L. Roden.
Address of Welcome, J. W. Cockrell; J. C. Patterson, County Agent, Eastland County.

Why I Selected Gorman for My New Pecan Orchard, J. L. Raney, San Angelo Pecan Nursery.
Pecan Rosette Control, J. H. Burkett, Clyde.
Lunch—25c.
Tour of Local Orchards, led by Dr. G. T. Blackwell, D. J. Jobe and John Kirk.
Demonstrations: Topping, budding, skin budding and grafting. Instructors: W. S. Price Jr., Chas. Denny, J. H. Burkett, O. S. Gray, and Ross R. Wolfe.
Business Session.

Insull's Attorneys Making New Fight

ISTANBUL, Turkey, April 5.—Samuel Insull puffed at Turkish cigarettes and read the London newspapers today while his lawyers, armed with \$10,000 from London fought on for his freedom.

Despite statements of attorneys that they mean to extradite Insull to the United States for trial no matter what his lawyers do, the attorneys found new grounds for appeal.

They protested to the supreme appeals court that his arrest was illegal and the order on which it was made. They demanded his release on bail.

Liberty Bonds May Be Exchanged For U.S. Treasury Bonds

WASHINGTON, April 4.—The treasury department is today offering for subscription a series of 10 and 12 year three and one-fourth per cent treasury bonds in exchange for fourth Liberty bonds which have been called for redemption on April 15, 1934 and for treasury notes of series A-1934, maturing May 2, 1934.

The offer is confined to exchange subscriptions—cash subscriptions will not be received. The issue will be limited to the amount of called fourth Liberty bonds and treasury notes of series A-1934 tendered in payment and accepted.

INSULL IS IN LAST STAND IN FREEDOM FIGHT

ISTANBUL, Turkey, April 4.—Samuel Insull, despairing, but still fighting extradition, moved to replenish his empty war chest today, unknowing that Madame Zehra Couyoumjoglu, mystery beauty, had tried to land here to aid him and had been turned away.

Calling on the remnants of his \$100,000,000 utilities fortune to save him, Insull through his lawyers, cabled to London for \$10,000. It was revealed that when he landed here he had but \$8.20.

He kept up his spirits by conferring with his attorneys on plans to defeat plans of the Turkish and American governments to send him to the United States for trial.

The lawyers gave him some hope but all government and judicial authorities seemed agreed he had made his last stand and lost.

While Insull conferred with his lawyers, Madame Couyoumjoglu tried to land here and was told to keep on to Athens.

Eight Counties Represented at CWA Meeting

BRECKENRIDGE, April 5.—Following an address of welcome from Judge Earl Conner of Eastland Wednesday morning, 65 representatives of relief officers of this district began an all-day study of government instructions.

"Where do we go from here?" has been the question the millions of relief rolls have been asking all comers. The federal government announced all CWA projects would cease and that another relief setup would take its place by mid-April. Workers gathered in Breckenridge today from Stephens, Eastland, Callahan, Shackelford, Jones, Taylor, Palo Pinto and Parker counties expected to get the "drift" of this new relief system.

Definite instructions in correct systems of auditing, case-working, relief-handling were given all day.

F. H. Bushick Jr. in Charge

The meeting today was under the guidance of F. H. Bushick Jr. Director Bushick has 16 counties for which he is responsible and is in close touch with the state and national relief policies. W. K. Jackson of Eastland acted as secretary.

The new system of relieving hard-pressed families will not consist of roadbuilding or construction, it is generally conceded.

Rehabilitation of families, making relief count for permanency, is the object toward which the government now looks. "What can the government do to save men and families from forever holding on the dole?" This is a question the nation is asking itself, and that Federal Relief Director Hopkins will attempt to solve in the set-up that supplants the CWA.

Of interest to Eastland and Stephens counties, where abnormal hundreds of families who once earned a livelihood from oil activities, are now living in shacks and destitution, is the prevailing view that a special relief situation will, and can, be worked out to enable these stranded families to become self-sustaining.

President Roosevelt and Federal Relief Dispenser Harry Hopkins are on record as favoring a permanent rescue of oil-stranded families, of similar thousands who live in worn-out mining centers, and industrial mal-adjustment generally. The heads of many of these families are too old for a return to industry predicated on any form of recovery.

The 65 men who were gathered in the meeting at the Stephens county courthouse in Breckenridge Wednesday were:

Stephens County—W. P. Woods, Mrs. Bertha Plath, Mrs. Lucile Thorpe, Mrs. Anna Darden, W. W. Byers, John W. Monk.

Callahan County—E. E. Cook, Mrs. L. Boase, Mrs. Ira B. Jackson, Blanche Jones, B. L. Russell Jr.

Eastland County—Earl Conner, H. E. Driskell, E. Mayer, M. E. Kowalski, J. F. Gilbert, E. R. Trimble, Florence Mercer, Agnes H. Doyle, Hunter George, W. K. Jackson, Fleming Waters.

Jones County—James A. Davis, J. R. Jones, W. B. McPherson, Mark L. Putman, A. T. Anderson, B. F. Bailey, Mollie Tankersley, Lenore Christian.

Palo Pinto County—C. M. Smith, J. E. Quarles, Mrs. E. E. Smart, Wade C. Smith, Richard Halbert, M. A. Howell, Wann Dotson, Neva Love Thomas, Johnnie Watson, J. A. Hart.

Parker County—F. E. Malone, G. A. Holland, Ruth Nunnally, Edwin E. Malone, Grace Miller.

THREE BODIES RECOVERED IN SALINE CREEK

Flood Toll In Oklahoma Reaches 16 Known To Have Drowned

MENARD, Texas, April 5.—The bodies of three persons were recovered today from flood waters of Big Saline creek, 20 miles southeast of here in Kimble county, by Sheriff Cecil Walston.

They were identified as Mr. and Mrs. W. F. Carroll, ranchers, and Joe Walsh Jr., a young ranch hand.

A waterspout at the head of the creek caused a wave of water to engulf the ranch home, situated in the creek bottom, about midnight.

Sheriff Walston said the drowning also of Mrs. D. D. Teal of Menard at an overflowing creek near Llano had been reported here.

CLIFTON, Okla., April 5.—Rescue workers in the Washita valley flood area recovered nine bodies today of the 16 persons listed as among drowned or missing, as clearing skies and receding waters aided their gruesome task.

The bodies, yielded by the debris of the \$1,000,000 flood, which swept through bottom lands of two counties, were those of Mrs. Arthur Adams, 34, and three of her daughters; Mrs. L. L. Fenter, a son and daughter; Mrs. Lawrence Taylor, and as mall unidentified girl.

All the bodies were found in debris and driftwood in the river bottoms below Hamon. The bodies were found scattered along the river from one to two miles below their homes.

Broadway America Convention Will In Dallas May 8th

DALLAS.—The convention headquarters of the seventh annual meeting of the Broadway of America Highway association, today announced that delegates to the forthcoming convention would travel to the convention city in two motorcades.

J. H. Greene, manager of the Chamber of Commerce, Colorado, Texas, will lead a group of good-roads enthusiasts from San Diego, Calif., the western terminal of the route.

R. A. Jones, Hot Springs National Park, Ark., will head a group leaving Knoxville, Tenn.

Both motorcades are expected to reach Dallas, the convention city on the evening of May 7, prior to the opening of the convention on May 8.

With touring bureaus throughout the nation calling for literature and maps of this scenic route, the officers of the association expect a heavy flow of traffic this summer.

Before the close of 1934, the Broadway of America will be 100 per cent paved, from Broadway, New York to Broadway, San Diego. This, it was pointed out will be the first all-paved Transcontinental highway in the United States.

Eastland County Singers To Meet Saturday, Sunday

The Eastland county singing convention will hold its second regular quarterly meeting Saturday night and Sunday in Olden, according to announcement made by J. M. Smith of Eastland, president.

The convention will be held in the Olden Baptist church and will convene at 8 o'clock Saturday night. The Sunday morning session will open at 10 o'clock sharp. The afternoon session will be concluded at 4 o'clock.

President Smith states that a good attendance with a large number of out of county singers, is expected. A good program as usual is being arranged.

New officers for the convention will be chosen at the Olden meeting. Present officers are, J. M. Smith, president; Stanley Webb, Romney, vice president; Maurice Vaughn, Mangum, secretary.

Officers of the convention state that visiting singers from out of the county will be taken care of over Saturday night.

Quake Rips Furrow in Earth Crust

Earthquake cracks as wide as 14 inches were left by shocks that rocked the vicinity of Kosmo, Utah, at the northern end of Great Salt Lake. Geologist Frederick A. Pack and his wife are shown here, their car spanning one of the cracks, which extend for miles. The shocks threw water from the lake more than two miles beyond its natural borders.

CAMPUS SMOKING WAR
SEATTLE. — University of Washington co-eds would like to have a valid reason why they can't smoke on the campus. Dolly Drescher, 1933 junior queen, appointed 18 co-eds to see if the ban can be lifted. She termed the rule "hypocritical," adding that since women smoke in sorority houses and on streets that "they should have equal rights with men on the campus." She said the committee was somewhat divided on the controversy.

COVER TIED UP TRAFFIC
DETROIT. — Speeding fire trucks, police patrols, and many a pretty calf have caused traffic tie-ups here, but it remained for a loose manhole cover to give a corner traffic cop his busiest half hour. The heavy disk jammed against the bottom of a street car on a busy thoroughfare. When the motorman was able to release the

manhole cover several minutes later, the street was clogged with automobiles.
WOOD PULP EXPORTS UP
STOCKHOLM.—The export of wood pulp from Sweden set a record in 1933. Thus 1,600,000 tons of chemical cellulose were shipped abroad, which is several thousand tons more than the previous record export of 1929.

MOVIES INTRIGUED COPS
RACINE, Wis.—Chief of Police Grover Lutter has informed the department that no policemen are to go into a moving picture theater while in uniform, or on duty, unless they enter "strictly on business." Chief Lutter said that he was forced to take this course of action because there have been too many recent complaints of policemen "taking in the movies."

AEROGYMNASTICS SAVE MAN
SALT LAKE CITY. — "Aerogymnastics" ability of Elmer Anderson, 53, painter saved his life when a ladder he was working on collapsed. Anderson managed to grasp a two-inch ledge long enough to twist his dangling body in the direction of a wider projection, 20 feet below. His drop to the lower projection saved him from falling 100 feet to the ground.

Two Eastland boys, Kevie Wolf and Robert Williams Martin, who are attending North Texas Agricultural college at Arlington, recently appeared on the college honor roll, Wolf having attained a total of 34 grade points and Martin a total of 29, according to an announcement by Dean George L. Dickey of the college.

Evidence Sought In Slaying of McNabb

MARSHALL, Texas, April 5.—County Attorney Benjamin Woodall of Harrison county returned to East Texas today with prison records and pictures, confident he would make progress soon in running down the slayer of Wade McNabb, Eastham prison farm trusty, killed while out on furlough.

EASTHAM PRISON FARM
April 5.—Tom Cagle, convict here, marked by the slayers of Wade McNabb for a similar fate, once he is outside the prison walls, has no fear, he told Manager Lee Simmons of the Texas prison system, today.

"I'm not worried," Cable said. "I'm not afraid. You get me out of here and I'll take care of myself."

One Bank Robbed Another Attempt Is Frustrated

MARBLE FALLS, Tex., April 5.—The Home State Bank of Marble Falls was robbed today of \$9,000.

The bank had been closed during the noon hour. The loss was discovered by Assistant Cashier Ernest Tyler when he returned from lunch.

Finding the bank door open, he investigated and missed the money. A black sedan was reported to have been seen leaving the bank shortly before the robbery was discovered.

BISHOP, Tex., April 5.—Two machine gun bandits were routed in a gun battle at the First State Bank today by the cashier and his assistant. No one was injured. The bandits held the trigger down on the machine gun while the bankers emptied their two automatics.

DECORATED CCC MESS HALL
CHARLESTOWN, R. I.—The civilian conservation corps mess hall here is perhaps the most artistic in the country. Alexander Krupka, 19, an amateur artist, with the aid of his fellow workers, has painted murals depicting the camp life. He had some of the boys pose for him while he chalked the outlines on wallboard, later painting them in several colors. One shows two men hauling heavy logs, while another pictures a few before an open log fire in the fireplace.

INCREASED TAX ON INCOMES IS SOUGHT

WASHINGTON, April 5.—Increased taxes on incomes in the middle and higher brackets appeared certain today as the senate struggled to make up time after several days, speeded consideration of the \$330,000,000 revenue bill.

Democratic leaders said the bill might be passed by the senate today and sent to conference with the house.

As debate continued under agreement to limit speeches to 30 minutes on the surtax amendment, a controversial and involved feature of the bill compromises were proposed to hasten enactment.

MAN WANTED FOR 50 YEAR OLD MURDER REPORTED IN MEXICO

KERRVILLE, Texas.—Request to District Clerk G. M. Doyle of Kerr county from the state board of pardons and paroles concerning the case of Hamp Johnson, disclosed that Johnson, missing for more than 50 years, was alive and residing in Mexico.

His daughter, applying for a pardon for him, said he was somewhere in that country.

In 1880, Henry Spray was shot and killed here, and Johnson charged with murder. On account of feeling here, the case was tried in Kendall, an adjoining county.

Old-time residents recall that pending appeal after Johnson was convicted or while he was being transferred to prison, he escaped or disappeared to be heard of no more until now. His age is now 84.

COTTON CONTROLLED BILL ENACTED BY SENATE

A showdown came at last on the Bankhead bill when the senate approved the application of a 75 per cent tax on the value of all cotton in excess of 10,000,000 bales that may be ginned from this year's crop. Many amendments were tacked on the bill. Many critics of the measure declared these amendments would prevent enforcement but Bankhead, the Alabama senator and co-author, predicted the senate conference committee would straighten these out. It was a close vote—46 for to 39 against. Only one senator from a state that produces any considerable amount of cotton opposed final passage. He was Josiah W. Bailey of North Carolina—one of the great textile manufacturing states of the sisterhood. A blind senator, Thomas Pryor Gore of Oklahoma, was paired against the bill.

Forty years ago Thomas Pryor Gore was a voting citizen of Corsicana, Texas. He was one of the foremost orators of the populist party. He insisted that all money should be sent from the government printing press. He demanded that the people should strangle "the money wolf of Wall Street." Then he moved to Oklahoma and became a democrat.

Texas is the greatest of all the cotton producing states. Its senators voted for the amended bill. Now cotton control will be given the acid test for the first time in the history of the republic. "That other Bailey," meaning Josiah W. of North Carolina, and Thomas Pryor Gore of Oklahoma in the beginning of his career a most radical of all the populists, are in the lookout chairs.

Competition by the government with the business enterprises of its citizens will do much harm if continued. The development of this country has been due to the initiative and energy of its citizens—not to the politicians.

Arcadia Gets "Fashion Follies" Friday

Warner Bros. were so pleased with the acting of Verree Teasdale, the pretty girl with the ostrich feathers, that they awarded her a long term contract. In "Fashions of 1934" she sings the song hit of the picture, "Spin a Little Web of Dreams," and we know her lovely voice will win her many admirers. The new picture comes to the Arcadia Friday for a two-day run.

'HOPPER INVASION FEARED KLAMATH FALLS, Oregon.—Hordes of warrior grasshoppers will invade rich lands in this area unless congress appropriates funds with which to eradicate the pests, County Agent C. A. Henrerson predicts. Principal infestation in this state lies in the Klamath basin.

Black-Draught For Gas After Meals

"About five years ago, I suffered at my stomach quite a good deal," writes Mr. M. H. Venable of Persia, Tenn. "I would smother, have a lot of gas, and bloat. A friend asked me why I didn't take Black-Draught. I took little doses after meals and my stomach trouble was over and has not come back. Now I only take a dose every once in a while."

Children like the new, pleasant tasting SYRUP of Black-Draught.

products listed as basic agricultural commodities in the Agricultural Adjustment Act as it now reads. The plan as now being considered would therefore be applicable only in the event that proposed amendments to the Act, making peanuts a basic commodity are passed by Congress.

A modification of the plan, also under consideration, would be directed wholly toward market protection, with allotments based on a flat percentage of acreage and prospective production in 1934, instead of upon acreage and production during a selected base period. The allotments would be made, as in the plan formerly discussed, from the amount of the 1934 crop which could be used for cleaning and shelling without endangering the minimum price schedules in the marketing agreement. The allotments would be made by counties and pro rated among growers in each county. This plan, it is pointed out, would not penalize growers who have already made plans to plant peanuts in 1934, as they have done in a large portion of the peanut region.

Under either plan, minimum prices would be paid only for the allotted proportion of the crop, and the surplus would be used for oil, or purposes other than cleaning and shelling.

U. S. Salaries Are Surprise to British

LONDON.—Salaries paid to British heads of huge industrial enterprises do not approach those received by United States giants of business.

The chairman of Imperial Chemical Industries, Sir Harry McGowan, who controls the destinies of 60,000 employes, and nearly \$400,000,000 of invested capital, is reported to be the highest-salaried industrialist in Great Britain.

Sir Harry's salary, estimated at \$125,000 a year, is only pin money compared to the big emoluments of the boom years in the United States, when the Bethlehem Steel head, E. E. Grace, drew as much in salary and bonuses as \$1,623,750.

Montagu Norman, governor of the Bank of England, who probably has dealt with more millions than any banker, draws less than \$25,000 a year. Up until a year ago, he received only \$12,000.

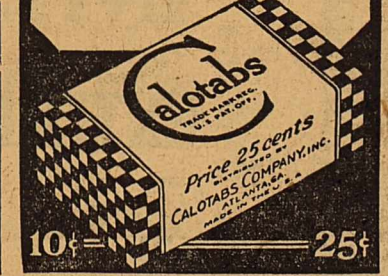

As Prime Minister, Ramsay MacDonald is paid only \$25,000 a year compared with \$75,000 received by the Archbishop of Canterbury and \$50,000 by the Lord Mayor of London.

RUBBER TAPE MEASURE SHOULD TAKE LIAR PRIZE PORT ISABEL, Texas.—A rubber tape measure for the most precise angle is being considered as a prize suggestion by the Valley Tarpon rodeo committee for the "best" or worst, liar of the contest. The prize will be awarded during the tarpon rodeo, Aug. 8 to 12.

REFORESTATION BIG NEED MONTREAL.—Reforestation of depleted forests is one of Canada's greatest needs, according to Prof. T. G. Buntong, of the McGill university department of horticulture. Professor Buntong declares that the dominion's existing forests will last only 60 to 70 years.

Peanut Industry Protection Plans Being Considered

Measures for protecting the peanut industry against low returns which may result from increase in production, are under consideration by the Agricultural Adjustment Administration, it was announced today.

The control board set up under the recently established marketing agreement for peanut millers, has requested the Administration to adopt, as early as possible, some program for control of production or marketing. Relatively favorable prices brought by the 1933 crop, and the release of labor and equipment from production of other crops in the South may, it is feared, bring about increased production, a surplus, and low prices, unless some protective steps are taken.

One plan, tentatively approved by the control board, would be to determine the amount of the 1934 crop which could be moved into cleaning and shelling channels without danger to the minimum price schedules established in the marketing agreement, and to apportion the growing of this amount among States, counties, and individuals on the basis of acreage and production in a base period to be specified.

Under this plan millers would be permitted to purchase, for cleaning and shelling, only peanuts grown under such allotments. Peanuts from farms without allotments, or peanuts grown in excess of allotments, could be marketed only to be crushed into oil, or for other purposes than cleaning and shelling, and would therefore bring approximately oil prices.

In its present form this plan includes production control features that can be applied only to

Whose Fault?

When a Child Won't Study

"Kept after school!" And it isn't the child's fault, or the teacher's. His mother is to blame. How can a boy get his lessons when his senses are dulled day after day by dosing with sickening purgatives? When a child's bowels are stagnant they need help, of course. But not some drastic drug to upset the stomach, perhaps weaken the entire system, or form the laxative habit. On the right, parents will find a pure California Syrup of Figs, the happy solution of this problem:

Here's a boy who gets good marks, has time and energy for play. He is never ill, hardly ever has so much as a cold. When he does show any symptoms of being sluggish, his mother knows just what to do. She gives him a little California Syrup of Figs—and that is all. It's a natural, fruity laxative that is agreeable to take, and its gentle laxative action comes from senna. Parents are urged to use just pure California Syrup of Figs. Be sure bottle says 'California'.

Mrs. Bi Seed and baby of Eastland visited her uncle, John O'Rear, and Mrs. Annie Daniel. Sherr, Stover visited his parents, M and Mrs. S. T. Stover from Thursday to Saturday. He is now tending the Baptist seminary at Fort Worth.

The revival services at the Baptist church closed Sunday night with splendid service and the baptism of five members. The song services were led by Rev. Ading of Fort Worth, with Mrs. Addison as pianist. Rev. Z. C. Charless, pastor, did the preaching.

Of Kountze was an Eastland visit Sunday afternoon.

Mad Mrs. Ed Hufford and two children moved over from Goin Saturday and are now living at the Ted Ashe home. As the have lived at Gorman a long time they already have a number of friends who are glad to welcome them here.

Friends of Dale Keith are congratulating him on winning honors in our places in athletics in the city track meet.

Mrs. R. L. Black returned Saturday from Comanche, where she spent a week with her daughter, Mrs. Eilan Fagan.

Mrs. Plummer Ashburn and Miss Pace Roe were in Eastland Sunday afternoon.

Mrs. Pritchett of Ranger is the guest of her daughter, Mrs. Gifford Acrea, this week.

Mr. and Mrs. M. P. Williams moved up to Ranger Saturday and brought home their son, Max, for the week-end.

Mr. and Mrs. W. H. Davis drove up to Ranger on business Friday.

Mrs. V. C. Moser and little son, Dan, of Lometa, came Sunday for a visit with her parents, Rev. and Mrs. Z. L. Howell. The two sons, William and Robert, who are attending S. M. U. at Dallas, were also here for a few days with their parents, Rev. and Mrs. Howell.

Dr. J. M. Wright drove up to Ranger Sunday afternoon.

Mrs. Betty Vestal left Friday for Fresno, Calif., after a month's visit here with her father and step-mother, Mr. and Mrs. W. C. Bedford. She stopped in Cisco for a few days with her aunt, Mrs. D. K. Scott, and with Mrs. R. V. Logan.

John Hammond of Comanche came up Tuesday to have charge of the Sanitary market while G. S. Bee went on a fishing trip.

Mrs. S. E. Ritchey and son of Gman were visiting friends here Sunday afternoon.

Mr. and Mrs. Bill McKain and the son, of Kilgore, spent a few days here last week with their parents, Mr. and Mrs. John McKain and Mr. and Mrs. G. S. Bruce.

Mrs. Dewey Jones, Mrs. R. L. Mack and Mrs. Ellis Rouse drove over to Rising Star Tuesday and attended the Baptist workers' council.

Mrs. W. E. Barron was guest speaker at a delightful luncheon at the Methodist church at Eastland Wednesday. The occasion was "guest day" of the missionary society and was attended by a large number of members and visitors.

Our whole town was shocked Monday to hear that Mrs. Ed Parks, who lives two miles east of town, had been seriously burned when her steam pressure cooker exploded. She was rushed to the West Texas Clinic and Hospital at Ranger, where her condition is still very critical. Hosts of friends are hoping she may recover.

Many friends here were sorry to learn of the death of Mrs. R. B. Elliott at her home in Barnsdall, Okla., a short time ago. Mrs. Elliott was the mother of Mrs. P. M. Kuykendall and often visited here before Dr. and Mrs. Kuykendall moved to Ranger. She was loved by all who knew her. Mrs. Kuykendall has the sincere sympathy of hosts of Desdemona friends.

The attractive home of Mr. and Mrs. Roy Ashburn, two miles west of town, was the scene of two very enjoyable gatherings last week. On Tuesday afternoon Mrs. Ashburn, assisted by Mrs. C. M. Bratton, entertained the "21" club, and on Saturday Mrs. Ashburn and Mrs. U. N. Williams gave a noon luncheon and bridge party. Both of these occasions were notable for the attractive decorations and appetizing refreshments. Mrs. Cecil Williams of Olden, who formerly lived here, was a guest at the luncheon.

On Monday afternoon of last week Mrs. W. E. Barron was hostess for the social meeting of the Methodist Missionary society. The home of Mrs. Barron was attractively decorated in spring colors. Games and contests were all suggestive of Easter and were much enjoyed as were also the refreshments served by the hostess.

Mrs. Winfield Callagher is receiving the sympathy of her many friends because of the death of her father, Dr. J. H. McCoy, who passed away at his home in Tahoka, a short time ago. Dr. McCoy was a leading physician here during the boom days and hosts of friends are sorry to hear of his death.

Cattle Brands Will Adorn Stone Walls Of Reunion Building

STAMFORD, Texas. — Cattle

brands of the southwest, representing ranches of the past as well as ranches now in operation, will be engraved upon the stones which will form the walls of a headquarters building and bunk-house for

the pioneer cowboys to be erected on the Texas Cowboy Reunion grounds here.

This unique feature of the cowboy building was decided upon at a meeting here Monday of the di-

rectors of the Texas Cowboy Reunion association, an organization made up of cowhands who saw service in the saddle at least 35 years ago. John Gist, pioneer cattlemen of Odessa, president of the

association, presided at the meeting.

Completion of the first unit of the building at a cost of approximately \$6,000 before the 1934 session of the Texas Cowboy Reunion

to be held here July 2, 3 and 4, was decided upon by the directors. Stamford already has raised \$2,200 and plans to increase its quota to \$2,500 to apply on the building.

LONDON.—Rams inhumanity to man will cease soon. Itchy woolen underwear is out.

A new process has been perfected which spares the embarrassed blushes of those unfortunate caught scratching themselves in public, and also relieves the discomfort to the tender epidermis of the old-style woolens worn next the skin.

A new treatment of fabrics, which it is claimed renders them unshrinkable as well as non-itchable, also adds luster to the material, and can be applied with equal facility to loose, seamed wool, tops, or to knitted fabric.

The method is being kept secret for its discoverers and fellow members of the Wool Industries Research Association, who hold

'Wild Horses' Cause Deaths In Texas Health Officer Says

AUSTIN.—A herd of wild horses was responsible for approximately 1,000 deaths in Texas last year, according to Dr. John W. Brown, state health officer. Under the hood of the automobile are four to 100 horses. Whether these are tame or wild and dangerous to human life depends to a large extent upon the drivers. Pedestrians, also, must be "safety minded," if the number of lives lost in fatal automobile accidents is reduced.

In cities, hundreds of thousands of people in the aggregate deliberately and habitually throw caution to the winds by jay walking, by crossing streets at all points but at intersections, by dodging around street cars and even by deliberately disregarding traffic signals. And highway walkers also are more likely to move with, rather than against traffic, which of course results in greater risk, especially at night.

The automobile driver himself, intoxicated by the joy of effortlessly stepping up his machine to an excessive speed, and in hundreds of other ways violating the rules and the ethics of the road, makes of this magnificent invention the Frankenstein it has so sadly turned out to be.

It needs to be more emphasized upon the average brain than it is today, that all the healthful living in the world is of no avail when one either as a driver or as a pedestrian takes chances with the automobile and loses. Moreover, proper water and milk control, as well as the many other safeguards to health and life, mean absolutely nothing to a dead man killed by his or another's automobile.

Fifteen thousand, out of more than ten million, voted against Mussolini's candidates in his recent plebiscite. They immediately went into hiding.

First Lady's Visit Cheered Islanders

SAN JUAN, P. R.—The visit of Mrs. Franklin D. Roosevelt, Miss Lorena Hickok, Federal Emergency Relief investigator, and the agricultural mission headed by Assistant Secretary of Agriculture Rexford Guy Tugwell, gave a tremendous hope to Puerto Ricans.

"The conscience of America in Puerto Rico," Sen. Luis Munoz Marin called Mrs. Roosevelt.

Every interest in the island presented its troubles and its proposals to this group Thousands of individuals went to Mrs. Roosevelt with their problems.

Governor Pleased
Gov. Blanton Winship said "nothing better could have happened to Puerto Rico than this visit."

The hope of the Puerto Ricans

is not for a benevolent paternalism, or for charity, but for aid and encouragement in working out their own problems.

For the first time, young political leaders feel that they can strike out boldly to attack the economic problems of the island, for they believe they have the interest of Washington.

Tobacco Plan
A plan for the tobacco industry already is under way.

Chief Forester F. A. Silcox, who was a member of the Tugwell mission, is enthusiastic about reviving the forestry industry of the island. He found fine cabinet woods of many varieties, only one of which competes with continental lumber.

Assistant Secretary Tugwell particularly is interested in a homesteading and sugar stabilization plan which was being debated in the insular Senate at the end of his visit. This proposal, that the insular government buy

the bankrupt United Porto Rico Sugar company, with its 31,000 acres and five centrales, to provide a basis for homesteading, was singled out for special study by insular and continental agricultural leaders.

Credit System Studied
Reorganization of the credit system, to divorce credit control from the big sugar companies and to reduce interest rates, is being studied.

With prohibition repealed, and with the beauties of the island called to the attention of the continental public, the islanders hope that Puerto Rico will become a winter and summer playground, since its range of temperature is very narrow, and it never gets as hot here as it does in most parts of the United States.

Hoboes ave adopted a code for a four-day. It must be for a six-day week, so they can rest on Sunday.

Woman Breaks Arm In Fall to Pavement

A Mrs. Roush, who has recently come to Ranger from North Dakota, slipped and fell Thursday afternoon in front of the A. and P. Store in Ranger and broke her left arm.

INSECTS TO CELEBRATE PARIS—More than 30 million insects will take part in the 300th anniversary celebrations next year of the famous French museum of the Jardin des Plantes. This museum was founded by Guy de las Brosse, physician to Louis XIII, who succeeded to the French throne following the assassination of his father, Henry IV. The director of the museum, Paul Le-moine, has announced that 500 of the world's leading scientists will

be invited to participate in the celebration, and that they will be shown the museum's valuable collections, which he couples with those of the British Museum as being among the finest in the world.

RATS STOLE SILVERWARE
OROVILLE, Cl.—When trade rats carried away a set of false teeth from a cupboard bowl, F. M. Wallace thought the limit had been reached. He didn't expect they would carry off the silverware as well, he said. Near the chimney in the attic of his home Wallace found three spoons, three knives, two forks, and a collection of sunflower seeds. How the rats managed to carry the silverware into the upper part of the house was a mystery.

DRY TOWN TO GET LIQUOR PHILOMATH, Ore.—Beer is being sold for the first time in the historic town, founded by the United Brethren Church. The char-

ter under which Philomath was incorporated many years ago forever barred the sale of alcoholic beverages and provided that any property on which they were sold should immediately revert to the city. The Oregon liquor Control act repealed all conflicting provisions and ordinances of city charters.

RANGER IN 1925

In 1925 crime, fires, explosions and other excitement that had prevailed in Ranger during the early boom days quieted down quite a bit, but the year was not without its outstanding events, among which were the murder of Jim Daniels, Ranger policeman, two nitroglycerin blasts on the outskirts of the town, a couple of kidnaping attempts and several fires.

Jan. 9 the G. C. Barkley warehouse in Ranger burned to the ground. Later in January a cleanup drive against crime was started and the first move resulted in the arrest of five women and two men on vagrancy charges.

Feb. 2 the commissioner of banking ordered the Peoples State Bank closed.

On the morning of Feb. 8, at 6:10 o'clock, Jim Daniels, night patrolman, was shot to death on Homer street, between Cypress and Page streets, as he was on his way home. A manhunt resulted in which arrests were made and the body was exhumed to determine the calibre of the pistol used to kill him. A reward of \$1,000 was offered by the city and a number of citizens cooperating in an attempt to stop crime, but no one was ever sentenced for the murder.

Feb. 9 the "White Way" was opened along Main street. Feb. 15 the Ed Maher home was burned, with little saved. Feb. 23 a report was made that an attempt was made to kidnap Mrs. Dell F. Woodel and Mrs. Leonard Nolly. June 22 a similar attempt by a man and a woman was made against Bertha Deere, 14. Both attempts were unsuccessful.

April 20, 11 men were seriously burned when a gas line being repaired burst and ignited. None of the injured died. April 24 a new oil boom was predicted and after considerable drilling, on May 28, fire broke out in two wells near Ranger, seriously burning H. F. Chriswell, driller. June 5 Pat McGonical was burned to death trying to save his 3-year-old daughter, Patsy, from the flames in their home. The girl also was burned to death, and Mrs. McGonical was badly burned, but lived. June 8 Oris Wheeler, 16, died from burns sustained in a gas explosion in the West Texas Produce company building. Five others were burned.

June 16 the Texas Drug Store was burned and the Paramount hotel was damaged by the fire and smoke.

On June 30 W. H. Lassater, night operator of the Texas & Pacific railway, was held up by a hijacker and the office robbed of \$99. The bandit escaped. Early in May jake sales had become prominent and on July 1, the grand jury blamed the crime wage in Ranger on these jake sales.

July 20 the entire city was rocked by a gigantic nitroglycerin explosion at the warehouse of the Independent Torpedo company, two miles north of Ranger on the Caddo highway. No one was in or near the building at the time and no deaths occurred. It was blamed on hunters who built a fire near the building. But when, on Dec. 11, the building that replaced the blown-up warehouse was again demolished in a similar explosion which again rocked the town, it was thought to be vandalism.

The year 1925 ended quietly, though murders, explosions and fires had caused considerable excitement throughout the year.

Local Theatres to Have Appreciation Week

Arcadia Theatre Joins In Appreciation Week Program

The Arcadia and Columbia theatres of Ranger operated by Paschall Theatres, Inc., join hands with theatres all over the state to in some measure thank their loyal patrons for continued support throughout the past year.

To this end the Arcadia and Columbia theatres proudly present Appreciation Week, with unusual bookings. The entertainment during the week, April 7 to 13 inclusive, is in our opinion outstanding.

The attraction chosen to start Appreciation Week with is "Fashion Follies of 1934," and is one of the outstanding musical pictures of the year. The cast includes Bette Davis, Warren Williams, Veree Teasdale, Frank McHugh and Hugh Herbert. This picture moves out after Saturday to make room for Frances Dee and Gene Raymond in "The Coming Out Party."

This picture deals with the big coming-out parties given debutantes and is very good. Alison Skipworth, Nigel Bruce and Harry Green are also in the cast. The picture Monday is the "big show" of Appreciation Week. It is the one and only Will Rogers in his newest picture, "David Harum."

Following the two-day run of the Rogers vehicle, "Search for Beauty," with Buster Crabb, Ida Lupino, Robert Armstrong and James Gleason move in for a two-day run beginning Wednesday. In addition to the above cast the 30 winners in the International Search for Beauty contest will be seen. The picture contains plenty of music, dances and beautiful girls. A brand new release has been secured for Friday of next week, which is the last day of our Appreciation Week. It is Katherine Hepburn in "Spitfire." Following Miss Hepburn's sensational performance in "Morning Glory" and "Little Women," the management of the local theatres feels hundreds of theatre-goers are anxiously awaiting her newest effort.

In deep appreciation we thank you and assure you for the coming season a year brimful of stellar attractions.

ELECTION ORDER
Be it ordered by the Board of Trustees of the Ranger Independent School District that an election be held at the City Hall, in the Town of Ranger, in said Ranger Independent School District on the 7th day of April, 1934, for the purpose of electing two School Trustees for said Ranger Independent School District. G. D. Chastain is hereby appointed manager of said election, and he shall select two judges and two clerks to assist him in holding the same and said election shall be held in the manner prescribed by law for holding other elections.

The returns of said election shall be made to the Board of Trustees of said Independent School District in accordance with law.

A copy of this order signed by the president and attested by the secretary of this board shall serve as proper notice of said election, and the president shall cause notice of said election to be given in accordance with law.

In testimony Whereof, witness the signatures of the President and Secretary of said Ranger Independent School District and the seal thereof hereto affixed, this 14th day of March, 1934.

L. H. Flewelling, president of board of trustees, Ranger Independent School District.

Attest: R. S. Bales, Secretary of Board of Trustees, Ranger Independent School District.

Thomas Jefferson Democrats to Meet At Houston Apr. 13

HOUSTON—Democrats of Texas will come here April 13 to a dinner honoring Thomas Jefferson, party founder.

Achievements of the past year under the leadership of President Roosevelt and Vice President Garner will be reviewed and rejoiced at the gathering here, said J. E. Hoey, chairman of the statewide advisory committee in charge of the dinner.

"We want it understood clearly," said Joseph, "that this is an occasion in which all democrats should participate."

Young Democrats of Texas are sponsoring the dinner.

Members of the advisory committee of which Josey is chairman include:

Tully Garner of Houston, son of the vice president.

Former Governor James E. Ferguson, former Governor W. P. Hobby.

Galveston—W. L. Moody Jr., George Sealy.

Gonzales—Mrs. C. E. Mayfield, Senator Willie Hopkins.

Austin—Polk Shelton, Julian Weslow, Frank Scofield, Henry Brooks, Paul Wakefield, Sidney Burleson, Mrs. J. M. Loving.

Fort Worth—Judge Dayton Moses, Seward Sheldon, N. D. Davis, John T. Jones, Amon G. Carter.

Dallas—John W. Carpenter, Mrs. Rue O'Neal, J. J. Taylor, William Bacon, H. Kittrell, Judge Robert Knight, Judge Nelson Phillips, Charles L. Wakefield, Harold Young, Murrell Buckner, Cullen Thomas.

Beaumont—Harry Phelan, R. C. Miller, Judge Beaman Strong, Jim Mapes.

Wichita Falls—Judge A. H. Carrigan.

Kilgore—Tom Foster, Carthage—Senator Margie Neal, Tyler—Tom Pollard.

Port Arthur—Allan Shivers, W. H. Gilliland.

Cisco—Will St. John. El Paso—Richard M. Burgess. Texarkana—Mrs. N. P. Sanderson.

Dalhart—John L. McCarty. Waco—Miss Kate Friend. Cent—W. L. Davis. Henderson—Jim Young.

Congress again has insisted on being independent— independent Democrat and independent Republica.

MESSAGE OF APPRECIATION!

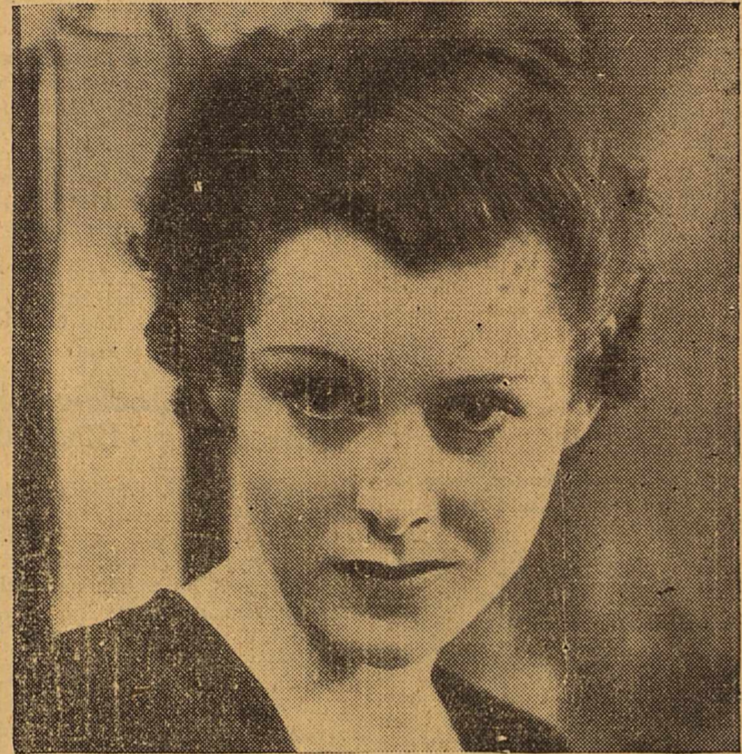

Theatre-goers of Ranger through their loyal support in the past year have made us very happy and put us in an appreciative mood. Therefore, the Arcadia and Columbia theatres of the city, operated by Paschall-Texas Theatres, Inc., together with theatres throughout the state are celebrating APPRECIATION WEEK, beginning April 7 and continuing for seven days.

As you glance over the theatre advertisements you will note outstanding attractions for that week. We believe these especially booked shows to be the best entertainment obtainable at this time.

May we thank you again for your support and assure you of continued outstanding entertainment for another season.

Appreciation Week Feature

WILL ROGERS as "DAVID HARUM"

Secured as the outstanding hit of Appreciation Week, Fox Film's latest release, "David Harum," starring Will Rogers, will make its appearance on the screen of the Arcadia theatre on Monday. Because of the nation's friendly interest in the humorist-philosopher, letters pour into his home regularly, suggesting a particular story of theme or character for his next picture. More suggestions urging him to play "David Harum" were received than all others combined. It was virtually in response to the command of the theatre-going public that Fox Film produced this story.

Its typical American theme deals with a shrewd horse trader. Because of the coldness with which he barter, and his uncanny method of outwitting people in business dealings, his reputation is none too good in the small town in which he lives. A young man who has come to work in the bank owned by the horse trader, learns that his employer really has a soft heart, and that his hardness is only for those who deal unfairly. The young man has fallen in love with a wealthy girl, but hesitates to propose marriage because of his poor financial standing. The horse trader, who is interested in the boy, tries to help the romance along, but gets nowhere. When the young girl comes to him and requests him to enter her horse in a forthcoming race, he advises the boy to place all his savings on the horse. The hilarious method by which the horse trader brings the horse home a winner is said to bring the film to a happy and amusing conclusion.

The large cast in support of Will Rogers displays an array of impressive names that include Louise Dresser, Evelyn Venable, Kent Taylor, Stepin Fetchit, Noah Beery, Roger Imhof, Frank Melton, Charles Middleton, Sarah Padden and Lillian Stuart.

James Cruze directed from Walter Wood's screen play, which was adapted from the novel by Edward Noyes Westcott.

Cotton Supply and Demand Depend on Reduction Success

AUSTIN, Tex.—For the time being, usual supply and demand figures are overshadowed in importance in the cotton market by the uncertainty surrounding the adoption of a permanent cotton policy in the United States, according to Dr. A. B. Cox, director of the University of Texas Bureau of Business Research, and well-known cotton expert.

"It is generally recognized that cotton dominates the agriculture of the South, but its predominance in the commercial and industrial life of the region is not generally appreciated," he said. "Drastic curtailment of cotton acreage as a permanent policy must inevitably cause far-reaching changes in sources of employment in the cotton region. Thousands of agricultural laborers, especially negro and Mexican cotton choppers and pickers, will be forced immediately on relief rolls and will stay there until a comprehensive plan of rehabilitation can be worked out. It will likewise throw out of employment thousands of unskilled and skilled workers at gins, cottonseed oil mills, cotton compresses, and many other industries and trades dealing directly or indirectly with cotton. If restriction of cotton acreage is to be a permanent policy, then the Government must be prepared to set up thousands of subsistence farms throughout the Cotton Belt.

"Acreage released from cotton will in the main be planted to food and feed crops which in the long run will tend to cut off one of the Middle West's best markets for those things on the one hand and create a labor condition which will attract manufacturing enterprises from the north and east. The ultimate influence of drastic cotton acreage reduction program will transfer its influences throughout the country, especially to the Corn Belt and the manufacturing East."

In his monthly cotton balance sheet, Dr. Cox said: "Total supplies of cotton in the United States March 1 amounted to 11,969,000 bales, compared with 13,634,000 bales a year ago, 14,337,000 bales two years ago, and 8,345,000 bales four years ago. The decrease in the supply of cotton in the United States and of American cotton in European ports and afloat to Europe was 1,603,000 bales.

"Calculated changes in the index price of cotton based on these changes in supply indicate an advance of 221 points in the price of New Orleans spot cotton over this time last year. When changes in the index number and the spinners margin are put into the price calculation, the calculated cents price of New Orleans middling 7-8 inch spot cotton is 9.65 cents. Measured in gold content, the dollar has declined 40 per cent whereas the price level has advanced only 23 per cent. Cotton, because it is an important export commodity, should rise faster than the general price level where the advance is due to depreciating value of currency. However, if it should advance to the full limit of the depreciated dollar, the price would be only 11.62 cents. The Bureau of Business Research supply-price chart indicates a price between 9.50 and 10 cents. Forces outside ordinary statistical calculations of supply and demand such as the Bankers' bill are influencing cotton prices."

Seascapes Painted On Women's Nails

LONDON.—Shades of Conrad, Massfield, and the men who went down to the sea in ships! Now the sea will come up to the men on nails—on women's fingernails!

The latest craze in feminine adornment in London started with the painting of miniature seascapes on fingernails. It has since spread to landscapes and miniatures of all descriptions.

A young British painter, Stanley A. Burchett, who was formerly in the Grenadier Guards, started the new fingernail fashion by accident. While painting a garden scene recently, he stopped his work to satisfy a little girl who wanted "a teeny picture for herself."

Burchett quickly painted it on her fingernail. The child's mother was so attracted by the result that she commissioned the painter to decorate her nails. Since then the innovation has spread among stage and society leaders.

One well known woman appeared at a fashionable race meeting with her host's horse and jockey, complete even to racing colors, painted on her nails.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks pink, don't swallow a lot of salt, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul. Your skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute. 25-cent drug stores. ©1931 C. M. Co.

Marriage Licenses Are Not Called For

KERRVILLE, Texas.—Five thousand persons, half that many couples, whose marriage licenses were issued in Kerr county, have failed to reclaim them after they were filed.

County Clerk John R. Leavell has a filing case full of uncalled-for marriage certificates. They date back to 1856, the year the county was organized. License No. 1, issued in 1856 to George H. McAdams and Cynthia Melinda Meadows, never was reclaimed after filing.

STOCKHOLM.—The Swedish royal board of telephone, telegraph and radio showed a net surplus in 1933 of 30,073,000 kroner, or some 3,000,000 kroner more than in 1932.

Huey Long Wants To "Smash Jaw" of Much Smaller Man

WASHINGTON, April 5.—Senator Huey P. Long offered today to "step outside" the senate finance committee room and "smack" the jaw of Edward Rightor, attorney for D. D. Moore, whose appointment as internal revenue collector Long is opposing.

Long threatened Rightor just before Col. E. R. Bradley, famous Kentucky sportsman, and jockey, contributed \$5,000 to Long's campaign for governor of Louisiana in 1928.

Long became angered when Rightor referred to a New Orleans race track as "your track."

"That's an infamous falsehood," Long shouted angrily, jumping to his feet. Rightor, a smaller man than the senator, bristled with anger and rose to say:

"Your statement that that was an infamous falsehood is ridiculous, and you wouldn't say it if there weren't half a dozen policemen around here."

Long moved a step nearer the attorney and shook his first, declaring: "We'll just step outside and I'll smack your jaw."

SAMUEL INSULL STILL FIGHTING EXTRADITION

ISTANBUL, April 3.—Samuel Insull, fighting to the last, today appealed to the Turkish supreme court to save him from extradition to the United States to face trial for fraud.

The appeal was made on two grounds: 1. That the decision of the court concerning extradition is subject to appeal to higher courts. 2. That Insull's imprisonment before a final decision was pronounced, was illegal.

The first ground of appeal has been considered by the government and rejected. Legal experts here seemed convinced the appeal on the second ground would fail also.

Insull was transferred last night from his room in the detention house to the detention house hospital.

It seemed certain, however, that Insull would win some delay.

Texas Planning A Larger Exhibit At World's Fair

AUSTIN, Mar. 31.—Plans for a larger and more general Texas exhibit at the Chicago Century of Progress exposition this year were announced today by L. E. Snively, chairman, after a session of the Texas World Fair commission.

A finance campaign will be carried on during April. Exhibits will be gathered in May. The exhibits will be ready for the opening of the fair on June 1.

It is planned, this year, to make the exhibit represent the various sections and interests of the state. Particular stress is being laid on the plans for this year in view of Texas' proposed centennial in 1936.

RIOTS SPREAD OVER MINING AREA OF U. S.

Rioting, picketing and widespread shutdown in coal mines over the country today followed the order of Gen. Johnson, National Recovery Administrator, for an immediate seven hour, five day week for the industry.

At Uniontown, Pa., and nearby mining towns in the heart of the Southwestern Pennsylvania soft coal fields, miners returned after 24 hours of disorder.

In Illinois 40,000 union miners were thrown out of work by the shut-down of nearly three fourths of the mines, while operators met to find a means of meeting the confusion caused by the order. Pickets patrolled mines in the Fairmont mining district in West Virginia and held operators at a standstill because the new wage agreement between the operators and union men had not been put into effect.

Texas Teachers Are Urging More Taxes

FORT WORTH, March 31.—Executive committeemen of the Texas State Teachers association urged the creation of a state tax commission, enactment of a state income tax and expansion of sales taxation as a means of bolstering revenues for public schools.

The tax proposals were adopted on recommendation of the association sub-committee on financing public education in a meeting here today.

The proposed tax commission would be authorized to evaluate corporate properties for tax purposes and equalize assessment rates on all forms of property on which a state tax is levied.

COTTON GINNINGS UP
EL PASO.—Cotton ginnings in El Paso county in 1933 totaled 33,007 bales, compared to 28,208 bales in 1932, according to Special Agent Oscar G. Williams of the Department of Commerce.

Fifteen thousand, out of more than ten million, voted against Mussolini's candidates in his recent plebiscite. They immediately went into hiding.

25 YEARS IS MANDATORY IN ROBBERY CASE

FORT WORTH, April 3.—A federal court jury today found O. D. Stevens, W. D. May and M. T. Howard guilty of the \$71,000 Texas and Pacific railway station mail robbery here on Feb. 21, 1933.

The verdict was reached after less than two hours actual deliberation. The trio also was found guilty of conspiracy to rob the mails. Conviction in the robbery carried a mandatory 25-year sentence and the conspiracy is punishable by a maximum of two years in prison or a fine of \$10,000 or both.

Joe Martin, fourth defendant, was found guilty on the charge of conspiring to rob the mails. Johnnie Carson, now serving a 10-year federal prison sentence and who testified for the government, had pleaded guilty. Federal Judge James G. Wilson announced sentences for May, Stevens, Howard and Martin would be pronounced Saturday at 9 a. m. Carson will be sentenced today to permit his return to the federal penitentiary where he is serving a term under the Dyer act.

Five other defendants in the case, including the wives of the three men found guilty of robbery, were released on instructed verdicts of not guilty.

Telegrams Urging Credit for Small Business Are Sent

Telegrams were sent out Friday night to President Roosevelt, Senators Sheppard and Connally and Congressman Thomas L. Blanton, urging expansion of credit for the small business man. The telegrams were sent out by John Hassen, chairman of the finance committee, Dr. P. M. Kuykendall, president and W. C. Hickey, secretary of the Ranger Chamber of Commerce.

The telegrams read: "Feeling that no greater benefit can be added to the recovery program than for arrangements to be made whereby the small industrial and commercial business can obtain additional working capital, whereby they can maintain their business and add more in their employment and also due to the fact that this section has not had benefits of banking facilities for the past three years, we hope that you will support pending legislation that will make this possible."

Connally Expects To Support Bill For Small Loans

Last week John Hassen, chairman of the finance committee of the Chamber of Commerce; Dr. P. M. Kuykendall, president, and W. C. Hickey, secretary, sent telegrams to Senators Sheppard and Connally and Congressman Thomas L. Blanton, urging them to support legislation which would provide for loans to small business men and firms at a small rate of interest.

Today the Chamber of Commerce is in receipt of a telegram from Senator Tom Connally, in which he states that he expects to support such legislation when it comes up in the senate.

The telegram from the junior senator from Texas reads: "Your telegram received. Feel a bill will be enacted at this session providing loans for small industries and expect to support same."

Signers of Keel's Bond Made Known By County Officers

The names of those who signed the bond on which L. C. Keel of Ranger, who was charged with the robbery of the national guard armory on Feb. 19, were revealed today by Eastland county authorities.

There were four signers of the bond, which was for \$1,000 each on charges of burglary and theft, according to the officers. The list includes W. H. Sprager, whose address is not given; T. H. Sparks of Ranger; W. B. Starr; of Cisco, and J. W. Parrish of Ranger.

The 88th district grand jury is now in session in Eastland, and a large number of witnesses have been summoned. No report of the findings of the court officers, as yet, though it was understood earlier in the week that the L. C. Keel case might be taken up for consideration at this session of the grand jury.

Keel's bond was signed and approved Saturday morning and he was released from the Eastland county jail, where he had been since the time of his arrest in Ranger on Monday night, March 19.

DOG TAX AND DEATH HAMILTON, Bermuda.

A unique plea for not getting a dog license recently was entered here. "Your Honor," the man stated, "my dog is so old and decrepit that I momentarily was looking for his death, so I did not take out a license." The plea failed. The dog owner was fined ten shillings.

EASTLAND CHAMPS OF MEET; CISCO WINS TRACK EVENTS

By S. McDANIEL DOSS

Cisco by a small margin over Eastland won the county interscholastic league class A track and field meet held in Eastland Saturday. Though Cisco was winner of the athletic events, little was the comparison in points amassed by Eastland, all round champions in the A division. Cisco was second in the all round championship followed by Rising Star, who this year have made an admirable stand both from interest manifested by the school and the showing their contestants have made.

John Garrison, topic of discussion during last year's football season, emerged at the conclusion of the meet as high point man with a total of 17 points to his credit. Bill Rutledge of Cisco was second with 12½ and Sentell Caffrey, also of Cisco, third, with 12.

Livingston of Scranton was high point man in the B division with 17 points, Bailey of Scranton, second with 13 points and Keith of Desdemona third with points which totaled nine. In the rural division, Ramsey of Flatwood made the exceptional amassment of 18 points.

As recorded by the recording secretary of the meet, the following is the record of points of the various school which took either first, second, third or fourth position in the track and field events: Class A—Cisco, first, 58½; Eastland, second, 48¾; Gorman, third, 39; and Rising Star, fourth, 1¾. Class B—Scranton, first, 61½; Olden, second, 2; Alameda, third, 20; and Carbon, fourth, with 15½. In the rural division Flatwood won first place and Bullock second with three points.

120-yard high hurdle, Class A—Marshall Coleman, Eastland, first, time 17.8 seconds; Bates, Cisco, second; Ivie of Cisco, third, and Hall of Cisco, fourth. Class B—Gullett of Olden, first, time 20.7 seconds; Bailey of Scranton, second; Shirley of Carbon, third, and Belew of Scranton, fourth.

100-yard dash, Class A—Boaz, Gorman, first, time 10.1 seconds; Garrison of Eastland, second; Beasley of Cisco, third, and Morris of Gorman, fourth. Class B—Livingston of Scranton, first, time 10.5; Underwood of Alameda, second; Ramsey of Flatwood, third, and Belew of Scranton, fourth.

880-yard run, Class A—M. Morris of Gorman, first, time 2:12.3; C. Chastain of Rising Star, second; Wiesen of Ranger, third, and Johnson of Cisco, fourth. Class A—D. Keith of Desdemona, first, time 2:14; A. C. Gibson of Olden, second; M. Bailey of Scranton, third, and J. Hart of Alameda, fourth.

220-yard low hurdles, Class A—Coleman of Eastland, first, time 26.5; Groce of Cisco, second; Awalt of Gorman, third, and Ivie, fourth. Class B—Shirley of Carbon, first, time 27.4; Ramsey of Flatwood, second; Bailey of Scranton, third, and Gullett of Olden, fourth.

440-yard dash, Class A—Garrison of Eastland, first, time 53.6; Beasley of Cisco, second; Thomas Graves of Cisco, third, and Theron Graves, Cisco, fourth. Class B—Livingston, Scranton, first, time 52.6. The time in which Livingston ran the 440 was considered practically the highlight of the meet as he bettered by two seconds the official class B state record. Second in the event was J. Melton, Alameda; G. Bailey of Scranton, third, and R. Britt of Olden, fourth.

220-yard dash, Class A—Garrison of Eastland, first, time 22.9; Beasley of Cisco, second; Boaz of Gorman, third, and Morris of Gorman, fourth. Class B—Livingston of Scranton, first, time 22.9; Ramsey of Flatwood, second; Bailey of Scranton, third, and Keith of Gorman, fourth.

1 mile run, Class A—Pittman of Gorman, first, time 5 minutes, 22.6; Lane of Eastland, second; Rushing of Rising Star, third, and Porter of Ranger, fourth. Class B—A. Merritt of Alameda, first, time 5 minutes, 38.4 seconds; C. Hunter of Olden, second; Connell

of Olden, third, and Whisenant of Olden, fourth. Mile relay, Class A—Gorman, first; Cisco, second; Rising Star, third, and Eastland, fourth. Time, 3 minutes, 43.2 seconds. Class B—Olden, first; Scranton, second; Alameda, third, and Carbon, fourth.

Pole vault, Class A—Awalt, of Gorman, Garrison of Eastland tied for first position, height 10 feet; Rutledge of Cisco, third, and Coleman of Eastland, fourth. Class B—Ramsey of Flatwood, first; Bailey of Scranton, second, and McDaniel of Carbon and Belew of Scranton, tied for third position.

Broad jump, Class A—Tully of Eastland, first, distance 19 feet, 10 inches; Rutledge of Cisco, second; Beasley of Cisco, third, and Collins of Eastland fourth. Class B—Ramsey of Flatwood, first, distance, 20 feet, 2 inches; Belew of Scranton, second; Bradshaw of Scranton, third, and Cantwell of Bullock, fourth.

Discus, Class A—Rutledge of Cisco, first, distance 93 feet; Awalt of Gorman, second; Caffrey of Cisco, third, and Gary of Eastland, fourth. Class B—Bailey of Scranton, first, distance 110 feet, 3 inches; Patterson of Olden, second; Livingston of Scranton, third, and Starr of Scranton, fourth.

High jump, Class A—Overton of Gorman, first, height 5 feet, 10 inches; other contestants, Chaney of Eastland, Groce of Cisco, Chastain of Rising Star, and Horton of Eastland, tied for second place. Class B—Bradshaw of Scranton, first, height, 5 feet, 7¾; Keith of Desdemona, second; Shirley of Carbon, third, and Belew of Scranton, fourth.

Shot put, Class A—Caffrey of Cisco, first, distance 44 feet, 5 inches; Gary of Eastland, second; Rutledge of Cisco, third, and Britt of Ranger, fourth. Class B—J. Love, Alameda, first, distance 4 feet 2½ inches; M. Bailey of Scranton, second; R. Cantwell of Bullock, third, and E. Howard of Alameda, fourth.

Javelin, class A—Caffrey of Cisco, first, distance 135 feet, 4 inches; Gary of Eastland, second; Johnson of Cisco, third, and Awalt of Gorman, fourth. Class B—Watson of Carbon, first, distance 125 feet, 7 inches; Bradshaw of Scranton, second; Britt of Olden, third, and Starr of Scranton, fourth.

Officials will announce in a few days the total points recorded to the credit of the various schools. According to those in charge of the meet, the meet was a decided success and enjoyed favorable weather and co-operation of many connected with the meet.

Occupying the attention of interscholastic league officials, the district meet to be held Breckenridge, April 6 and 7.

Court of Honor to Be Held on Friday

A court of honor for Troops 10 and 10 of Ranger and Troop 32 Olden is to be held at 7:30 p. m. Friday night, April 6, at the Mason hall in Ranger, meeting place of Troop 10. The court of honor will be held at 7:30.

All scouts who have taken tests have been urged to have their test cards signed before Friday and to have them at the court of honor Friday night.

ON HONOR ROLL

WACO, Texas, March 31.—Richard Osgood Hunter of Eastland, senior in Baylor university made the university's honor roll for the winter quarter, according to an announcement today by D. W. S. Allen, vice president and dean. To achieve this distinction it is necessary for a student to make a grade of B plus, equivalent to a percentage of 86 on all courses taken. Even though making the roll requires personal letter of congratulation from the dean.

Young Hunter is the son of M. and Mrs. F. O. Hunter of Eastland.

CWA Adult School To Be Continued

The federal adult school, which has been holding nightly sessions at the high school and afternoon sessions at the ward schools, did not close with the closing down of the CWA activities, it was announced in Ranger Saturday, but will be continued on the same schedule, until May 1, and probably longer.

George H. Fern, state director of Emergency Education program for Texas, was in Ranger last week and reported that the federal school at Ranger was among the best organized schools of its kind in the state.

Ranger should be justly proud of such a record, coming from the state director.

There are 22 teachers in the federal school doing instructional work. The curriculum consist of courses in general cultural work, homemaking, business administration, practical electricity, music, public speaking, and vocational work. More than 200 students have enrolled for work in the school during the second term, which ends May 1.

Ranger First One Act Play Contest

Ranger took first position in the re-enactment of the one-act play contest which were presented in Eastland last Friday. Eastland was second and Cisco third.

The plays were represented because of a protest by Cisco based upon, they stated, the irregularity of scheduled dates for the plays and when the official arrived were unaware of it and unprepared.

In the former and initial contest Rising Star took one of the three positions but in the latter contests were non-victorious. It is said that Rising Star were in non-observance with the rules of the interscholastic league in the presentation of their play when a gun was fired during the procedure of the play.

Certificate For Cotton Reduction Being Prepared

Certificates of performance for the 1934-1935 cotton acreage reduction contracts are being prepared by the cotton section of the agricultural adjustment administration and contracting producers will be required to execute this evidence of compliance during the summer, after cotton has been planted and before the second rental payment is made.

The certification of performance, it was announced by the cotton section, will consist of a determination, by the workers engaged in preparing such certificates, of compliance on the part of a contract signer with the terms of the contract and the administrative rulings relating to the contract.

In addition to the formal terms of the contract such as the correctness of the description of the farm covered, the acreage planted to cotton in 1934, the acreage marked as rented acres, the average productivity of planted and rented acres and other sections of the contract, the certification of performance also will concern itself with the landlord-tenant relationships.

An effort will be made by the agricultural adjustment administration through the certification of performance to determine whether the express policy of preventing undue economic dislocation by displacement of tenants or share croppers is being followed by contract signers.

Included in the matters that will be certified will be the following: The number of tenants of the farm in 1933 as compared with those in 1934 and the reasons for change, if any.

The use of rented acres by tenants for the production of home supplies. Consideration of any complaints by landlords or tenants that the other party to the farm lease is using the government program for acreage adjustment to work a hardship on either party in violation of administrative rulings and public policy.

The cotton section of the agricultural adjustment administration pointed out that full responsibility for performance rests with the contracting producer and that government agents engaged in investigating compliance with the contract will check all facts.

Any contract which can not be certified for performance is subject to cancellation under paragraph 9 of the contract.

Barefooted Boy Won County Track Meet

WEIMAR, Texas — Barefooted Howard Criswell, Sheridan school boy, won the Colorado county junior rural championship in a track meet here against youths in spiked shoes.

Howard's bare feet led the way in many events. He won two dashes, the broad jump and a leg of the 440-yard relay to accumulate 17 points and first honors.

His brother, who wore shoes, was runner-up with 13 points.

LOOK OUT FOR THESE SYMPTOMS OF CONSTIPATION

et Relief with Kellogg's ALL-BRAN

Headaches, loss of appetite and energy, sallow complexions, and leanness are often warning signs of common constipation. Unless checked, constipation may impair health.

Today, you can usually get rid of common constipation by eating a delicious cereal. Laboratory tests show that Kellogg's ALL-BRAN provides "bulk" and vitamin B to aid regularity. ALL-BRAN is also a good source of blood-building iron.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Inside the body, it forms a soft mass. Gently, it clears the intestines of wastes. How much better than taking patent medicines.

Two tablespoonfuls daily will overcome most types of constipation. Chronic cases, with every meal. If seriously ill, see your doctor. ALL-BRAN is not a "cure-all."

Enjoy ALL-BRAN as a cereal, or use in cooking. Appetizing recipes in the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

Garden and Yard Hints From Club Women of County

PROCESSED CHEESE—USE SKIMMED MILK

Take three gallons of separated milk when it is curdled. Heat to temperature of 100 degrees F., stirring most of the time. This makes the ordinary cottage cheese. Hold at this temperature for 30 minutes and continue stirring. Squeeze drier than customary for cottage cheese. Take half cup of butter, salt to taste (about half teaspoonful), 1 tablespoonful soda and mix thoroughly into the cottage cheese. Let stand 2 hours. Add 1 cup sweet cream and put all into a double boiler and heat while cooking until a smooth consistency has been formed. Remove from the fire and add half cup of sweet or sour cream to which has been added cheese coloring as desired (about 1/4 to 1/2 teaspoonful). Beat until smooth and turn into buttered dish to mold.

This complete process must be finished within one day. The cheese should season for about 5 days. It may be covered with paraffin wax if to be kept. This cheese is mild cheese with very little flavor and for that reason needs an added flavor. Pimientos, caraway seed or a small amount of strong flavored cheese melted and added, give a good flavor. A small size can of pimientos, or a quarter pound of strong flavored cheese, gives an excellent flavor.

New CWA Program Is Explained By County Relief Head

H. E. Driscoll, county relief administrator, states that the teachers' project in Eastland county had been discontinued as per instructions from Austin headquarters. This ruling affects 61 teachers from Carbon, Cisco, Gorman, Ranger, Romney and Scran-ton.

Announcement was also made by Mr. Driscoll that the county sanitary project under county sanitation supervisor Fleming S. Waters had been discontinued until at least April 16.

Mr. Driscoll says: "Effective with close of all business as of March 31, midnight, all past methods in handling payrolls and payment of direct relief accounts have been changed and today this office received new instructions from Austin as to future methods in proper performance and auditing and accounting procedure with the closing down of CWA activities. It was found necessary to what we hope is only temporary a dropping from our office personnel throughout the county 16 employees whose particular duties in the past were necessary to carry on CWA accounting and other departments. In order to further economize on office operation that switch board at the main office in Eastland was taken out. However phone service is available direct and is still No. 81."

Mr. Driscoll states that the citizenship should know what the situation is now and states further, "There seems to be a mistaken idea prevailing throughout the county as to the nature of the program which is before us. We would like for all to know and keep in mind definitely that the program is one of relief and not of employment. When and if work is resumed those who are employable on our rolls can be worked up to the amount of their budgetary requirements only and that all must realize fully that the program is one of individual rehabilitation and we accordingly, within the next two weeks, hope that we can establish in the minds of the citizenship generally the fact that relief is what we are primarily interested in just as the name Texas Relief Commission implies."

Two employees were dropped from the office personnel stated Mr. Driscoll "with instructions according to the policies of the administration." Mr. Fred Davenport was given notice that a successor to his position would be named due to the fact that he was related to County Commissioner Henry Davenport. H. I. Owen was also notified in like effect because he was a relative of Grady R. Owen, District Attorney.

Texas Executives of B. & L. Will Meet

FORT WORTH—Texas building and loan association executives will meet here April 9 and 10 for the annual convention of the Texas State Building & Loan League. James Shaw, former state banking commissioner and now regional manager of the Federal Home Owners' Loan Corporation will be one of the principal speakers. H. Y. Walling of Houston is president of the organization.

PLANS F.D.R. BID SALT LAKE CITY.—President Roosevelt will be invited by the Chamber of Commerce here to visit Utah's famous national parks en route to Hawaii.

First Awards To Wards For These Smart New Packages

WARDS WINNERS IN RECENT NATIONAL PACKAGING EXPOSITION—Montgomery Ward & Company's Bureau of Design proves that even the most prosaic products can be made inviting by modern packaging. Shown above are Ward's four first prize winners in the 4th Annual Packaging Exposition under the auspices of the American Management Association. The Exposition was a feature of the National American Show held at the Hotel Astor, New York City, March 13 to 16.

At the American Management association's recent competitive exhibition for the Irwin D. Wolf Award for the most effective package developed and placed on the market between Jan. 1, 1933, and Feb. 15, 1934, Montgomery Ward & Co. added further proof to the fact that this company's products are becoming notably outstanding not only in quality but also in styling and packaging.

Recognizing that the demand today is for style and attractiveness of presentation as well as for quality, economy, and intelligent, efficient service, Wards, early in 1933, established a bureau of design. This bureau's job is to review the designs of thousands of Wards products.

Wards new package designs have already won public commendation, but this recent national recognition further attests to their attractiveness. Wards entered packages in seven groups and won first prizes in four of these groups. In the group of glass containers, Wards won first prize with their newly designed cod liver oil bottle. In the canister group, Wards won

first award with the effectively packaged boric acid. In the wood group, Wards set first award with their new drill set wood container, and in the tube classification, Wards recently designed brushless shaving cream tube won first prize.

The Fourth Annual Packaging Exposition under the auspices of the American Management association was a feature of the National American show held at the Hotel Astor, New York city, March 13 to 16.

The jury of award consists of: Prof. Ralph Alexander, School of Business Columbia university; Mr. Richard F. Bach, director of industrial relations, the Metropolitan Museum of Art; Mr. Alon Bement, director, National Alliance of Art and Industry; Mr. Fred G. Cooper, artist; Miss Katharine Fisher, director, Good Housekeeping Institute; Mr. W. Gordon Lathan, president, Fort Orange Paper company; Miss Harriet Sartain, dean, Moore Institute of Art, Science and Industry; Miss Marion Taylor, president, the Fashion group, and Mr. Walter D. Teague, products designer.

Sunday School Lesson The Child and the Kingdom

Text: Matt. 18:1-4; 19:13-15 The International Uniform Sunday School Lesson for April 8.

By WM. E. GILROY, D. D. Editor of Advance

Jesus is unique among world teachers in the simplicity with which he expressed and illustrated the deepest things. When the disciples came to him asking, "Who is the greatest in the kingdom of heaven," Jesus perceived their false perception of the kingdom and their wrong notions of greatness. He found it necessary to teach them the lesson of humility, and he did it in a very concrete way.

Calling a little child to him, he set this child in their midst and said, "Except ye be converted and become as little children, ye shall not enter into the kingdom of heaven." How puzzled the disciples must have been, and how their minds and consciences must have been aroused as Jesus added that the greatest in the kingdom of heaven was the one who should humble himself like a little child! To illustrate the nature of this humility Jesus linked it with lowly service.

The achievement of a man's life, his greatness, and the measure of his success are not determined by the approval that he wins from the great, but by the spirit in which he serves those who need his help. To do something for a little child is greater than anything else, and to offend a little child is to do something so tragic that it were better that one had been cast into the depths of the sea with a millstone around his neck.

It was in the same spirit that Jesus spoke of the spirit of his religion, the gospel of God's grace surrounding men and seeking to bring them back when they had gone astray. Here he used the figure of the shepherd with the hundred sheep, concerned more about the one sheep that he had lost than about the 99 who were safe in his keeping.

How little either the world or the church has learned these lessons! How careless we are in society, of the lowly, the poor, and the needy, the down-trodden, and the oppressed! And yet the slum has in it the power to destroy the city. It is from the lost and neglected areas of our city life that there come the bandits and the thugs, who war against society, who kidnap those from higher classes, who rob and raid banks, and who give to all of society insecurity.

Would it not be better if we took the way of Jesus and paid more attention to the lost and the neglected? Even in the church how little we have learned the lesson! It is a great thing to nurture the young and keep them in

the fold of the church so that none may go astray, but we lack the quality of a good shepherd if, when the young go astray, we can disregard their wandering.

The attitude of Jesus toward the children was more fully and beautifully emphasized in his treatment of them, when his disciples rebuked the mothers who had brought their little ones that Jesus might bless them.

Jesus had witnessed the concern and fussiness with which the disciples were sending the mothers away, and he interposed with the gracious words that Christianity has written so beautifully as an ideal for all the world, "Suffer the little children to come unto me and forbid them not, for of such is the kingdom of heaven."

The power and strength of the church, the power and strength of the nation are determined by the attitude toward little children. No institution can be great that despises the life of those upon whom its future depends.

CCC Workers Build Cross on Mt. Whitney

INDEPENDENCE, Calif.—Plans to erect a giant 100-foot cross on the highest pinnacle of Mt. Whitney, tallest mountain in the United States, were announced today.

Local business men said members of the CCC camp here headed by Capt. Roscoe Saunders volunteered to aid them in setting up the cross.

The cross will be done some time this summer, as Mt. Whitney is virtually unscalable in winter and spring because of its extreme slopes.

The CCC workers now are constructing a lateral road up Lone Pine canyon to Hunters Flat at the base of Mt. Whitney. Using this road, it will be possible to carry materials for construction of the cross much closer to the sides of the mountain than now.

A New York woman has shaved her head and will wear colored wigs to match her gowns. Now other women won't get much satisfaction out of saying her hair is false.

Cement Production Is Still Growing

AUSTIN.—Production of cement in Texas during February totaled 230,000 barrels, against 195,000 in January and 197,000 in February, 1933, gains of 44 and 42 per cent respectively, according to the University of Texas Bureau of Business Research. Shipments of 273,000 barrels were 3 per cent above the 264 barrels in January and 35 per cent above the 203,000 barrels during February last year. Stocks at the end of February stood at 492,000 and were 23 per cent below those of the corresponding date a year ago.

United States production during February at 4,168,000 barrels represented an increase of 10 per cent over January and 50 per cent over February last year. Shipments of 2,952,000 barrels showed a decline of 22 per cent from January but a rise of 30 per cent over February a year ago. Stocks of 20,672,000 barrels were 6 per cent above January but 7 per cent below February last year.

Capacity operated in plants throughout the country was 20.2 per cent in February, against 16.6 in January, and 13.4 in February, 1933.

Cardui Good For Run-Down Condition

"I have found Cardui a good medicine to take for a run-down condition," writes Miss Hazel Authement, of Houma, La. "I had pains in my sides. This made me nervous, and I felt I should take something for this trouble. I was with my sister. She was taking Cardui, so I took it, too, and found it very helpful. I am glad to recommend it to others."

Cardui is safe and wholesome for women of all ages. At drug stores.

Again we ask you to Check HUMBLE

Get your Consumer Check Card at any Humble Station

For the second time this year we ask you to check Humble products. We want you to test them thoroughly in practical, every day use and then tell us frankly—on a Humble Consumer Check Card—what your experience with Humble products has been. Humble's "Consumer Checks" are made four times a year in order that we may give you products which your experience tells you are satisfactory for your needs. We asked you to check Humble on January first, and we will ask you to do this again on July first and October first. ● Humble products are continuously improved. Laboratory tests and scientific tests made in actual use tell us that Humble products are second to none. But we are not satisfied until you say "approved!" because we feel that we should be guided in the improvement of Humble products by the experience of the practical buyer, in whose service Humble products are manufactured and sold. ● The second consumer check period will last ten days, April 1 to April 10. During this time, all Humble service stations will distribute Consumer Check Cards to Humble customers. We cannot too strongly urge you to fill out your card and drop it in the mail (no postage necessary). We are sincere in our effort to give you the right product at the right price with the right kind of service.

HUMBLE OIL & REFINING COMPANY

The Humble Company stands squarely behind the President's Program for National Recovery. All Humble products are manufactured and sold in strict compliance—letter and spirit—with the code of Fair Competition for the Petroleum Industry. We believe that this Code is fundamentally sound; we believe that the public wants every industry to realize a fair and reasonable profit from its operations in order that Code schedules of wages and employment hours can be maintained; and we believe that the majority of thinking people will support with their patronage any organization which takes a firm stand for those governmental policies which have already proven their usefulness. Every Humble Service Station is one hundred per cent N. R. A.

Judge Carl Hamlin Answers Letter of Sweetwater Man on Compensation

Judge Carl Hamlin of Breckenridge, candidate for Congress to succeed Thomas Blanton in the 17th District, Saturday made public a letter he has written to R. M. Simmons of Sweetwater, who last week wrote Judge Hamlin and asked that jurist to explain to him the full details of the compensation matter referred to.

Mr. Simmons wrote the following letter to Judge Hamlin:

Dear Sir: March 15th, 1934.

Judge Carl Hamlin, Breckenridge, Texas.

It is being circulated in this portion of the 17th Congressional District, that you, as an ex-serviceman of the World War, are drawing compensation from the Government on the basis of being totally disabled. Being interested in finding out the exact status of this matter, I would appreciate your writing me the true facts in reference to your physical disability, the amount of compensation that you are now drawing, or have ever drawn, the nature of your disability and the rating given you under the law by the Veterans Bureau and such other facts in connection therewith as you might deem necessary.

I would very much appreciate this information from you so that I, as a voter, may be able to use my ballot intelligently. Assuring you that I will appreciate a prompt response, I am,

Yours very truly,

R. M. SIMMONS.

Following is Judge Hamlin's reply as mailed to Mr. Simmons:

March 16, 1934.

Mr. R. M. Simmons, Vice Pres. and Gen. Mgr., Sweetwater Cotton Oil Co., Sweetwater, Texas.

I am just in receipt of your letter of March 15th and thank you for your interest in seeking to ascertain the true facts in reference to my physical disability as an ex-serviceman of the World War. The amount of compensation I may be drawing, or have drawn, therefore, and I intend to give you the information requested.

So that you may understand the nature and extent of my physical disability, may I say that when I entered the military service at the beginning of the World War I was in splendid health. The medical records in my case, however, show that within sixty days after my honorable discharge (Nov. 1919) from nearly two years active service, I suffered with kidney stones, which, according to medical science, could not have formed in so short a time from date of my discharge. During the period of nine years that I continued to suffer with this affliction, I was compelled to undergo extensive medical treatment and two major operations—the last one being on Nov. 20, 1928, for the removal of my right kidney, which was necessary in order to save my life.

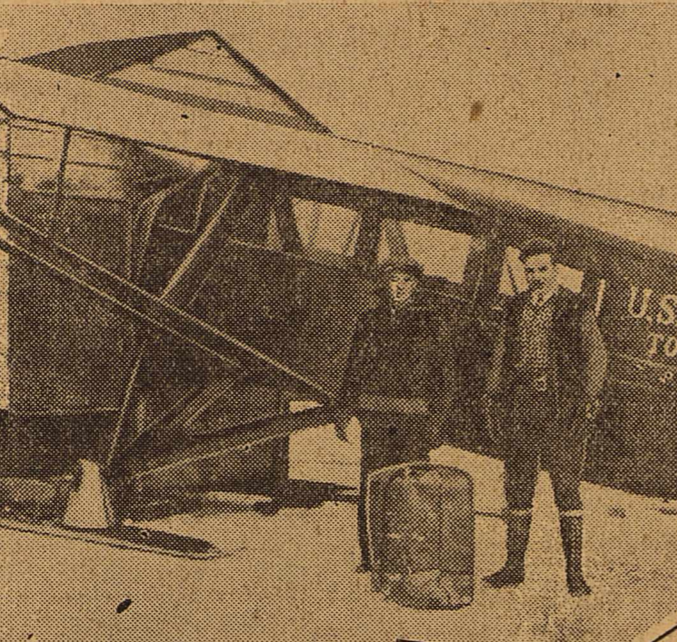

Up until Nov. 1, 1928, when I was informed that an operation for the removal of my kidney would be necessary, I had never made application for compensation as an ex-serviceman. I was also entitled to the necessary medical, surgical, and hospital expenses in which I was compelled to incur, but I personally paid for all such, although I could ill-afford these expenses for at the time I was discharged from the army I had lost what law practice I had when entering the service, and my sole claim to wealth consisted of \$200, which I had saved while in the military service by purchasing Liberty Bonds. During the next five years in which I spent so much money seeking to cure my disability, I was also raising a family with the result that at the time I entered the hospital for my last major operation I was in debt over \$1000 and cents for what I had already paid, or obligated myself to pay, for medical and surgical services out of my own limited resources.

I am happy to say, however, that since my kidney was removed in November, 1928, my health has been so good that I am now able to secure any new life insurance for the protection and education of my small children.

Now as to the compensation I have drawn. On Nov. 1, 1928, I first made application for compensation, but it was not until Jan. 25, 1929 (more than two months after my last operation) that I was notified my claim had been allowed. I was then informed that under the law I was entitled to compensation for a back period of twelve months, prior to date of my application, due to the fact that my disability had existed for many years before that time. I make this explanation so there will be no misunderstanding as to how I happened to be awarded compensation apparently a year before I made application for same.

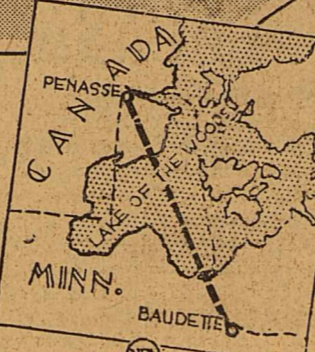

From Nov. 1, 1927, to Nov. 19, 1928, I was rated under the law as 25 per cent disabled and awarded \$25 compensation per month. From Nov. 20, 1928, to Dec. 31, 1928, I was rated as totally disabled for the two weeks I was actually in the hospital during my operation, and awarded \$47 compensation. After my operation and loss of my kidney my disability then became definite and permanent, and was rated under the law as 40 per cent, and I was awarded \$40 per month compensation. From this date on my disability has always been rated under the law as 40 per cent. On March 9, 1929, pursuant to the provisions of the Emergency Officers' Retirement Act, of the 70th Congress, passed May 4, 1928, I, being eligible thereunder with a permanent disability of 40 per cent, was placed upon the Emergency Officers' Retirement roll and awarded retirement pay of \$150 per month, which was on June 30, 1932, reduced to \$127.50 and again

Rapid Expansion Of Oil Markets Traced In Survey

AUSTIN.—It is in the perspective of the major trends and movements in the oil industry as a whole that certain recent developments in the oil industry of the United States, which are of major interest and concern to Texas, can best be understood, according to Elmer H. Johnson, regional economist in the University of Texas Bureau of Business Research. With this premise in mind, Mr. Johnson has in his monthly analysis of the petroleum industry for the Texas Business Review, traced the rapid market expansion, the rapid growth of supply, the beginnings of restriction of output, and other principal trends.

"Prior to 1900 the petroleum industry was dominantly a kerosene industry with lubricants as important associated products," he explained. "At the close of the World War the petroleum industry had become a gasoline industry, but with kerosene and lubricants as very important associated products. Since 1920 the gasoline industry has grown greatly and the fuel oil market has developed to one of importance. The advances made by oil products and natural gas are reflected, of course, in the reactions of the coal industry to these newcomers in the power and fuel industry.

"While these developments have been occurring, rather sharp shifts have been taking place in the large outlines of the production of crude oil. Up until around 1925 production of crude oil, in the main, was only keeping up with the rapidly increasing markets for oil derivatives. In the meantime, however, wider geographical exploration was being carried on, and particularly there came to the forefront in oil exploration the successful use of refined technical and scientific applications. In conjunction with these movements there came in rather quick succession the discovery of a number of major oil fields. And in regard to the share contributed by major fields, it is worthwhile to emphasize that in 1933 15 major fields produced at least 54 per cent of the total oil for the United States. At the same time, epoch-making improvements were being made in refining technique whereby a barrel of crude was made to yield a larger quantity of gasoline.

"Thus were dispelled the fears of rapid exhaustion of the oil resources of the United States. At

the same time there began to arise the actualities of large production from the new countries, and of a return to large production in Russia.

"Almost overnight the oil industry was changed from one of scarcity of crude oil to one of abundance—and then came a whole series of attempts to limit and to restrict production. Since the war oil has become a commodity of vital economic and political importance. World conferences have attempted to deal particularly with the problem of its over-production. Conservation policies at last began to get a hearing. Then more recently the possibilities of synthetic products—by hydrogenation, low-temperature carbonization, etc.—have appeared on the scene. Coal, with the aid of these new processes, can be used as a raw material for the manufacture of petroleum products, and thus our supply of these essential commodities is extended far into the future.

"Since the discovery of the gigantic East Texas fields in 1930 attention very generally has been monopolized by the various major problems that come to the oil industry with East Texas. World-wide readjustments in the oil industry are the scramble for oil properties.

"Many months ago the area limits of the great East Texas field were fairly definitely marked out, and that section ceased to be a great hunting ground. Oil exploration did not cease elsewhere, however, even in spite of the depression. For more than a year a rather intensive exploratory program has been carried out—and, due to the great reserves concerned, a large share of these operations have been made in the various Texas regions. It may also be noted that oil exploration has been proceeding rather intensively in other parts of the world, and particularly in Russia. It may be said that the search for crude oil supplies has been going on almost as intensively as has been the search for markets for its products. In addition, as a part of the world-wide movement making for greater decentralization of industry, refining centers are being built to serve markets in various parts of the world outside the United States. This latter development has not only tended to decrease exports of oil products from the United States; it has also been a factor in accentuating various competitive forces in the oil products from the United States; it has also been a factor in accentuating various competitive forces in the oil industry.

"More recently still, there has

Human Fear Is Felt By Snakes

SALT LAKE CITY, Utah.—Disclose no fear and treat snakes "like a brother" and they won't bite, Hans Anderson advised.

Anderson should know, too. As professional reptile catcher, he has handled 10,000 snakes which he captured in Arizona, Utah and Nevada for sale to circuses and zoos.

"Fear emanates from the human body in waves, similar to those of the radio," Anderson explained. "These waves are felt by the snakes, making him realize that you are afraid. When this happens, the snake generally is ready to strike."

Upon discovering a snake, regardless of its kind or size, the reptile catcher slips a forked stick over its head, picks it up between his fingers and all is well—provided his nerve doesn't give out.

Anderson then drops the reptile into a hurlay bag and takes it home with him. He ships the snakes to zoos and circuses in tightly screened cages.

He has been bitten three times in his life, he said. Each time was in a moment of excitement. No serious effect resulted, however.

Outstanding Options Expire On May 1st

Cotton producers holding approximately 14,500 cotton option contracts were reminded today by the Agricultural Adjustment Administration that these options must be exercised by May 1 or the proper arrangements made for an extension. It is estimated that outstanding options are for approximately 90,000 bales of cotton.

According to the terms of the cotton option contracts, the option expires unless it is received for execution before May 1, 1934, or unless a formal request is made for an extension. This formal request must be made on a form provided by the Agricultural Adjustment Administration (Form C-5-B) which has been furnished each option holder, and which specifies the conditions under which the option may be extended.

If an extension is obtained by the option holder, it is provided that the purchase price of 6 cents per pound is to be increased at the rate of 40 cents per bale per

month the contract is carried after May 1, 1934. This is to cover the carrying charges on the cotton.

Ranger Day Is Named At Arlington Downs

W. C. Hickey, secretary of the Chamber of Commerce, has received a letter from Jack H. Hott, manager of the Fort Worth Chamber of Commerce, informing him that Friday, April 6, has been designated as "Ranger Day" at the Arlington Downs race meet, which is now in progress.

The midgets of Hungary have organized and are demanding racial purity for themselves. And that's no small matter.

A driver in Bridgeport, Conn., was fined when his automobile threw mud on a pedestrian. Mud-slinging is reserved for politicians.

Chicago teachers, still waiting for their pay, have received another cut. That leaves them owing the city.

Arizona Indians Set Traps for Eagles

FORT APACHE, Ariz.—Eagle feathers, at one time the most sacred possession of the Apache Indian no longer are sought by tribesmen in this section.

Bill Maupin, chief of the Indian police on the reservation, recently revealed that the Redmen have turned to trapping the eagles to protect their turkey flocks. The eagles have been killing turkeys in great numbers.

Reverting to tribal customs the Indians tie a lamb in plain view and set a large number of traps about. As the birds alight to make a kill, they often are given something more serious to think about.

Chief Maupin told of recently seeing a flock of nearly 500 eagles soaring over a lamb bait. This is almost unbelievable but nevertheless true.

— what it means

—to keep on hand 350,000 bales of Turkish tobacco to add something to the taste

So important is Turkish tobacco in the Chesterfield blend that we maintain a modern up-to-date tobacco factory in the far-off city of Smyrna.

Turkish tobacco adds something to the taste and aroma of a cigarette that no other tobacco can give.

It means something that Chesterfield always has in storage upwards of 350,000 bales of this aromatic Turkish leaf.

This Turkish tobacco is blended and cross-blended with ripe mild home-grown tobaccos to give Chesterfields a taste and aroma that is not like other cigarettes.

Everything that money can buy is used to make Chesterfield the cigarette that's milder, the cigarette that tastes better.
