Covers the trade territory of Ranger by being read in over 1,200 homes.

VOLUME I. RANGER, TEXAS, FRIDAY, JUNE 22, 1934 NUMBER 24

PLANS FOR PAGEANT ARE OUTLINED BY COMMITTEE ON FOURTH CELEBRATION

The committee selected to be in charge of the big Fourth of July celebration and March of Time pageant, met Tuesday afternoon and entered into a contract with F. C. McClung, director, for staging the pageant at Lillard field. The committee elected W. C. Hickey as chairman. Other members are A. N. Larson, Lions club; L. R. Pearson, Rotary club; Wade Swift, Elks club and R. V. Galloway, Chamber of Commerce.

The pageant will contain 20 episodes, depicting the history of the country, and particularly the west, from the time of the Indians through the present time. The program will be opened with an overture by the Lone Star and High School bands, according to present plans, followed by a dedication to the boys and girls of Eastland county by Rev. H. B. Johnson, pastor of the First Christian church of Ranger.

Practically all the episodes will be sponsored by a local organization, with the rural communities cooperating, so that the affair will not be strictly a Ranger celebration, but will be a celebration by the entire citizenship of this section of the county.

Following the dedication there will be a fireworks display after which the scenes of the pageant will be staged. The Lions club will be responsible for furnishing the Indians for the first episode and will contact the Colony community and ask them to furnish the people for the episode. T. J. Anderson has been named as chairman of the committee.

The second episode will be sponsored by the Rotary club, with the Alameda - Cheaney communities furnishing the characters who will act the part of Spaniards. F. D. Hicks was named as chairman of this episode.

The Colonial days period will be taken care of by the New Era club of Ranger, with Mrs. O. B. Denney as chairman.

The pioneer days episode will be sponsored by the Elks club, with W. N. McDonald as chairman and the Bullock community furnishing the characters to enact the parts of the pioneer settlers.

Staff will be asked to furnish the emigrant train, consisting of covered wagons, horses and men to take the part of the emigrants and to enact the episode. The Chamber of Commerce will sponsor this part of the pageant.

Annual Invitation Golf Tournament Dates Are Changed

A change in date of the holding of the fifteenth annual invitation tournament of the Eastland Golf and Country club from the usual July 4 date to Sept. 1-3 has been announced through the tournament committee composed of J. E. Lewis and W. I. Clarke.

Change of the date, C. A. Hertig, secretary of the Eastland club, said that the July dates conflicted with those of the Abilene tournament and the conceding of the Labor Day dates to Eastland by the Thurber club. Thurber this year is not presenting their annual tournament, but the support of the club to Eastland in the Labor Day tourney has been promised.

\$81,000,000 Loaned By Federal Land Bank of Houston

HOUSTON. — Loans totaling \$81,921,400 have been closed in the 12 months from June 13, 1933 to June 14, 1934, by the Federal Land Bank of Houston for itself and as agent for the Land Bank Commissioner, according to A. C. Williams, president. This amount represents 26,897 loans and is more than 16 times the total of loans closed by the bank in 1932.

Before loans can be made, Mr. Williams pointed out, the farms offered as security must be appraised by a land bank appraiser appointed by the Land Bank Commissioner, Washington, D. C.

The basis of appraisal in all cases is the normal value of the land for agricultural purposes and its earning power for agricultural purposes is a principal factor. Land bank loans may not exceed 50 per cent of the appraised normal value of the land mortgaged and 20 per cent of the appraised value of the permanent, insured improvements thereon.

Fort Worth Dairies Back-Yard Matters

FORT WORTH. — Quite a blow for "Cow-town," but "back-yard" dairies here apparently are doomed.

Some citizens, it seems, keep old Bossie in a barn out in the back-yard, selling milk to neighbors without a license or without complying with sanitation laws.

"It has to stop," Department of Public Health and Welfare Director A. H. Flickwir said.

ORGANIZATION IS BEGUN FOR HOUSING PLAN

WASHINGTON, June 20.—The organization which will administer the \$1,000,000,000 housing program to revive the construction industry was taking form today in advance of the signature of this latest emergency measure.

Harry L. Hopkins, federal emergency relief administrator, is to be named director of the program, the United Press was informed. Architects are being hired by prospective executives of the housing projects.

The bill sets up a \$200,000,000 insurance fund for building and loan associations, similar to the bank deposit insurance corporation, which was established last winter. The insurance fund is expected to handle the financing of at least \$1,000,000,000 worth of home repairs.

Morton Valley Revival Drawing Big Attendance

By The Pastor
The large open air revival at Morton Valley is now well under way and large crowds are in attendance from many neighboring towns and communities. A splendid interest is manifest thus far.

The call today, as clear as any bugle blast on the morning air is for a great spiritual conquest. God is calling to His people and the world is impatiently waiting for a great revival.

What could be more appropriate than for Christians to meet the pleasure mad, speed crazed and liquorized political and social world with the sword of the spirit manifest by the power of God and thus out our way through the shams, hypocrisies and sinful debaucheries of a fallen race and a Godless nation and lay again the foundations of a Christian civilization upon which to rear our children of the coming generations.

Some citizens, it seems, keep old Bossie in a barn out in the back-yard, selling milk to neighbors without a license or without complying with sanitation laws.

Grandchild of President to Visit Her Grandparents

FORT WORTH, June 20.—The president's newest grandchild, Ruth Chandler Roosevelt, six-weeks old daughter of Mr. and Mrs. Elliott Roosevelt, left here today for a visit with her grandparents.

Stolen Auto Is Quickly Recovered

Recovery in less than two hours of the car belonging to Howard McDonald stolen by two persons at the side entrance of the Butler-Harvey automobile agency in Eastland Tuesday afternoon was made by Steele Hill, deputy sheriff, six miles east of Eastland.

The car was stolen in the daylight by two persons who entered the car, started it and made a quick getaway. Reports of the theft were relayed to officers who immediately began working on the case.

Buddy Brothers To Royston City Hi

Buddy Brothers, backfield coach of the Eastland Mavericks and member of the high school faculty for three years, will next year be employed in Royston City high school as football coach.

Brothers has taken an active part in civic affairs during his stay in Eastland and favorable showings of many sport endeavors in which he engaged in have many times been attributed to him.

Brothers' resignation was tendered the school board May 9 at a meeting of the body.

PARKER QUILTS AS ENFORCER OF PRORATION

AUSTIN, June 20.—R. D. Parker, who served for 25 years as an employe of the Texas Railroad Commission and who of late had been in charge of proration enforcement in the East Texas field, was no longer associated with the commission today.

By what means Parker's services were terminated was a subject of controversy.

Agreement Reached On Grazing Bill

WASHINGTON, June 21.—An amicable agreement between Secretary of the Interior Harold L. Ickes and Secretary of Agriculture Henry A. Wallace as the Taylor grazing bill appeared to have been reached following a meeting of the two at the interior department today.

Now that Father's Day is over, it will be Mother's Day the rest of the year.

THREE SOUGHT IN JAILBREAK AT CLEBURNE

CLEBURNE, Texas, June 20.—Texas officers today sought three men who escaped from the Johnson county jail yesterday after slugging the jailer.

The fugitives were Carl Oldham, 22, serving two years for burglary; Pete Roden, 24, serving two years for forgery; Louis Bribble, 19, of Waco, who was being held for Waco officers.

The three men overpowered Jailer Ed England when he came to remove their dinner dishes. They beat him on the head until he was unconscious. Taking his keys, they fled.

Mrs. Mary Smith Capers, 73, Dies

GORMAN, June 20.—Mrs. Mary Smith Capers, 73, died at her home here, Thursday, June 14, 1934. She was born November 16, 1860 at Cole Springs, San Jacinto County, Texas.

On December 20, 1876 she was married to O. W. Capers, who preceded her in death about eight years ago. For more than fifty years she had made her home around Gorman.

Funeral rites were held Friday morning at 10 o'clock at the Weaver cemetery. Rev. J. L. Roden, pastor of the Gorman Baptist church, assisted by Rev. Ben Clement of Carbon officiated.

Speaking Date at Morton Valley Is Being Cancelled

Cancellation of the former announced speaking at Morton Valley Monday night has been made by county candidates as the date conflicted with that of a revival meeting being held in the community.

TIES SCHOLASTIC RECORD

AUSTIN, Texas.—Eugene Ennis, Mexican, tied a 12-year record at the University of Texas when he was graduated from the engineering department this year with a straight "A" in each of seven courses. Frank Kurz set the record.

Charge Girls Must Submit to 'Affairs' To Get In Pictures

LOS ANGELES, June 21.—Charges that young girls aspiring motion picture careers are forced to submit to "affairs" with studio courtiers were contained today in a grand jury report.

County officials made public the testimony of a feminine "bit" player that she and others who came to Hollywood are forced to surrender their charms and become "party girls" in exchange for assignments.

Call Meeting of H.N.C. Ex-Students

GORMAN, June 20.—A meeting of all officers and committees of the Hanks College ex-students has been called by Robert Palmer the president, to be held in Gorman July 4th. All of the plans for the reunion will be fully discussed. Every officer and committeeman is urged to be present at this meeting for all ex-students are anticipating a great reunion here in August.

W. D. May Taken To Penitentiary

FORT WORTH, June 21.—The gates at Leavenworth Penitentiary will close behind W. D. May, Handley farmer today as he begins 27 years on conviction in the \$72,000 postal robbery here in February, 1933.

Army Planning Massed Flight to Prove Its Ability

WASHINGTON, June 21.—Smartering under criticism heaped on it while it flew the air mail, the Army Corps is planning spectacular massed flight from Washington, Nome, Alaska, to "prove its flying ability," it was revealed today.

JULY FOURTH COMMITTEES FORM PLANS

Chairmen of committees appointed to take charge of the episodes of the March of Time pageant, to be staged at Lillard field at 8 o'clock on the night of July 4th, met in the office of the Chamber of Commerce Wednesday afternoon and heard F. C. McClung, director, explain the pageant and how it would be staged.

The chairmen of committees in charge of arranging details of the various episodes heard an outline of their work and were given instructions on securing the characters needed for the pageant.

In the meantime the general committee is busy with details of other features of the Fourth of July celebration, which is expected to include a fireworks display, a parade in the morning, soft ball games during the day, speaking by candidates, swimming at the Willows and many other features of entertainment that have been discussed and tentatively planned.

If the NRA, PWA, and other intialled bureaus are remembered for nothing more, they at least will have done a good service for crossword puzzle makers.

MCDONALD TO SPEAK MONDAY IN EASTLAND

C. C. McDonald of Wichita Falls, candidate for governor, will address Eastland county voters in the interest of his candidacy from the courthouse lawn in Eastland Monday night, June 25th.

Mr. McDonald, who is endorsed by Former Governor James E. Ferguson, to succeed his wife, Mrs. Miriam A. Ferguson, as governor of Texas, is recognized as one of the States most able men and a campaign speaker with but few equals and possibly no superior.

CLEANERS OF NATION LEAVE BLUE EAGLE

WASHINGTON, June 21.—To the many problems of the National Recovery administration today was added another—what to do with industries where price stabilization has been abandoned and which now claim they cannot pay code wages or maintain code hours.

The problems became more acute today when the cleaning and dyeing industry with 11,000 plants, 175,000 shops and 350,000 workers, announced withdrawal of its code. The laundry industry abandoned the Blue Eagle several days ago.

Both industries told a similar story. They wanted to continue under a code but could not because Administrator Hugh S. Johnson had taken price fixing away and had failed to enforce the trade agreements.

WAS TAKEN FROM OFFICERS AND HANGED

NEWTON, Texas, June 21.—A 38-year-old negro, charged with attacking a young white girl here, was lynched last night by a mob of 200 armed men who overpowered two deputy sheriffs, taking the victim to Orange for safe keeping.

The nude body of the negro, John Griggs, was found at 2 a. m. today in front of a box factory, where he worked. He had been hanged.

The deputies were halted on the highway 27 miles south of here. The officers were disarmed and a noose was thrown around the negro's neck as he sat in the officers' car.

The negro was jerked from the car. The officers were told to "get going." They said they drove away immediately.

Christian Revival Is Attracting Large Gathering

The largest crowd to attend the revival at First Christian church thus far greeted Evangelist G. Robert Forrester in his service Wednesday night.

This text, the preacher said, is a call to man's highest duty and his holiest privilege. Man's highest duty is to fear God and keep His commandments, and his greatest privilege is that of becoming a child of God through Jesus Christ.

Ranger Citizens Using Much Water During Dry Spell

Roy Jameson, city secretary, today said the consumption of water by Ranger residents had shown a big increase this month over previous months and that a much larger amount of water had to be pumped to fill the requirements of the consumers.

During the first 17 days of this month, he stated, more water was pumped than was pumped during the entire months of December, January or February, and the pumps have been running almost 24 hours of the day.

Thousand Bolivians Killed In a Battle

ASCUNSION, Paraguay, June 21.—A thousand Bolivians were killed last night in a battle which may prove the decisive point of the war. The battle raged along a 75 mile front in the Gran Chaco an official communication said today.

OLD BILL CIRCULATING CARSON CITY, Nev.—One of the first greenbacks issued by the federal government, dated March 10, 1862, and payable "At the Treasury of the United States at New York," for \$5, was among recent receipts of State Treasurer George B. Russell.

OLDEST BUCKEYE TWINS GENEVA, Ohio.—Edgar and Edison Stancliff, who have just turned 79, are believed to be Ohio's oldest living twins. A pair of 65, were former claimants to the title.

Ranger Citizens Using Much Water During Dry Spell

Roy Jameson, city secretary, today said the consumption of water by Ranger residents had shown a big increase this month over previous months and that a much larger amount of water had to be pumped to fill the requirements of the consumers.

Pipe Line Rates Will Be Probed

WASHINGTON, June 21.—The Interstate Commerce Commission today disclosed it was considering an investigation of pipe line rates in the southwest and midwest. The commission announced it had refused a petition of the Louisiana-Arkansas Refiners Association to suspend present rates as required by the Atlantic Pipe Line company, Shell Pipe Line Corporation, Stanolind Pipe Line company, the Texas Pipe Line Corporation and the Texas Empire Pipe Line company, Oil Administrator Harold L. Ickes had asked the commission to suspend the rates.

Child Is Killed By Lightning

EASTLAND, Texas, June 21.—Mr. and Mrs. J. M. Hudson, 1501 West Commerce street, received a brief message Tuesday evening, from their grandson, R. C. Dennington, who lives in Littlefield, that their little son, Billy, was struck by lightning and instantly killed last Thursday, and his little sister was badly burned by lightning but will recover.

Texas Liquor Is Very Explosive

DALLAS.—Texas liquor retains the explosive qualities of pre-repeal days. A home-made still blew up here and killed the owner. At Amarillo a gallon jug of "moon" exploded with such noise that both fire and police departments turned out. No fire resulted, but police seized 60 gallons of liquor. The owner got away.

EASTLAND ENGINEER WEDS

NEW YORK, June 19.—Maston Frank Mitchell, 33, an engineer, of 108 North Oak street, Eastland, and Miss Helen Perpetua Waters, 28, a nurse, of 117 West 79th street, New York, were married June 18 in the Church of the Holy Trinity. The couple procured a license to marry at the Municipal building Saturday.

SPRING SAVED PROSPECTOR

TONOPAH Nev.—C. R. Terrell, editor of the Tonopah Bonanza, is the authority for the statement that a hot spring in Long Valley, near Bishop, Cal., saved the life of a prospector lost in a winter blizzard. Terrell said the prospector stood 16 hours in the hot water while snow and cold winds blew overhead before rescuers found him. The editor added the incident occurred 17 years ago.

DOUBLE CALF BORN DEAD

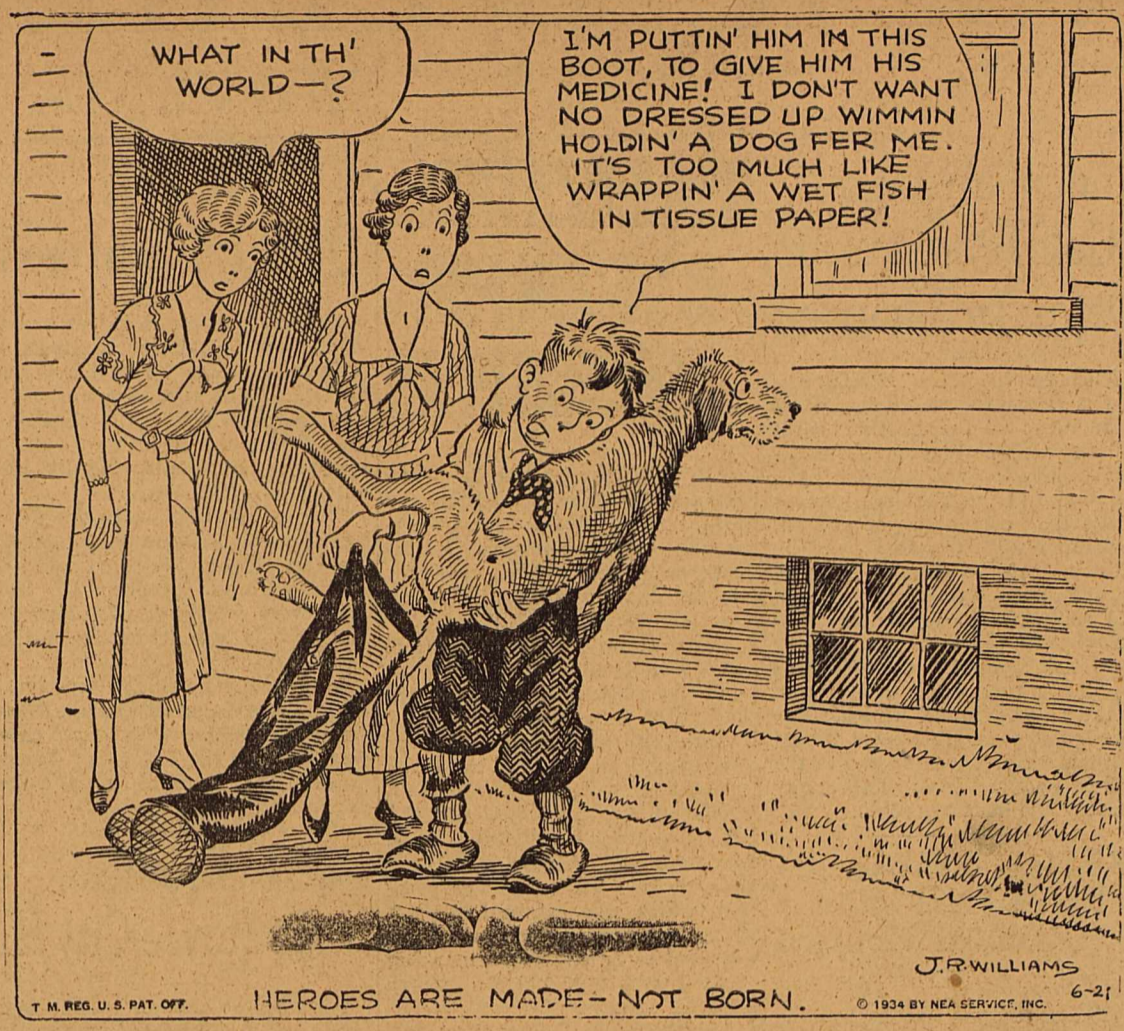

MT. PLEASANT, Pa.—A double calf was borne by one of R. B. Lowry's Guernsey cows. The offspring, born dead, had two bodies, tails and heads. There were eight legs, two of which protruded from the shoulders. Two ears and two eyes in their natural position. The other two ears were joined in the middle of the head. One pair of eyes extended from a middle socket.

SMALLEST CO-ED GRADUATE

FORT WORTH Tex.—Miss Gertrude Wiedman of Hufsmith, Tex., this spring became the smallest person ever to graduate from Texas Christian University. Twenty-years-old, Miss Wiedman wore a size 12 gown, size No. one shoes. She is fourfeet and four inches tall and weighs 85 pounds.

Born With Fifty Bone Fractures

A baby born with more than 50 bone fractures and who suffered two more in handling after birth is the patient in an amazing case in an Indianapolis, Ind., hospital. The child, Caroline Ruby Mercer, a month old on June 16, is shown here with her mother, Mrs. Hannel Mercer, Indianapolis. Physicians think the infant has a fair chance to live and grow into a normal youngster.

TESTIMONY IN POISON CASE IS RESUMED

PAMPA, June 21.—Testimony was resumed today in the poison-murder trial of the Rev. Louis Shockley when District Judge W. R. Ewing overruled a defense objection that an autopsy on the body of one of the alleged victims was obtained illegally. "As far as we have found, the objection is entirely original," Judge Ewing said. Defense attorneys contended when the body of W. T. Hudgins, who died Nov. 3, 1930, was secretly exhumed the night of March 10, the accused minister should have been notified. The state contends Shockley poisoned flour from which bread was made and consumed by members of the Hudgins family. Three died, allegedly from effects of the poison.

Cisco Gas Rate Being Considered

AUSTIN, June 21.—The State Railroad commission today took under advisement the controversy between the City of Cisco and the Community Gas company over rates charged in that city. The city is attempting to reduce the rate from 67 1/2 cents to 50 cents per 1,000 cubic feet.

SUNDAY SCHOOL LESSON

PICTURES OF SILVER By BEULAH K. HICKS

REVIEW OF QUARTER BOOK OF MATHEW "Thou art Christ, the son of the living God," are the words of the opening golden text of this quarter. Christ, the most wonderful character in the history of time. Christ, the mighty counselor, teacher and friend of the people, came to seek and to save that which was lost and to give His life in service for all.

Christ in an humble, unassuming way taught His disciples the great truths of life in this series of lessons. They began to follow him with the beginning of understanding in faith. From that time on His footsteps began the journey to Calvary. As He journeyed and left the footprints that shine in the sands of time today, His courtesy and mercy was evidence of His divinity. As the shadows of the cross deepened He taught, "Suffer little children, and forbid them not, to come unto Me, for of such is the Kingdom of God."

Of this great kingdom He taught that simplicity of faith likened to that of child was necessary, to enter into its joy and peace. He condemned selfish ambition and blessed the children giving them a place and value in this Kingdom of God.

This teaching of grace made many teachings of the law look hard and severe. We must forgive if we expect forgiveness; take more joy in giving than receiving; love God first of all and our neighbor as ourself. "The Son of Man came not to be ministered unto, but to minister and to give His life a ransom for many."

"Wherefore God hath highly exalted Him, and given Him a name which is above every name." His suffering on Golgotha's hill did not dim His courtesy or love. He commended His mother to John, opened the door of paradise to a hardened criminal, and yielded up His spirit in humility and suffering for mankind while all nature sympathized with great and fearful demonstrations. "He is risen" was the glad cry that rings through time in the hearts of men bringing comfort and strength to carry on. Women were privileged to carry the glad news and to see him first of all. That knowledge is a precious heritage for women forever.

Is Christ a real personality to you today or just some person to be read about in history? His gentle "fear not," and "peace be unto you" can gladden your heart if He is a welcome guest in your life today. He has need of you and your services in the carrying on of His kingdom today. A willing obedience. "Master, at thy word I will let down the net." Great worldly wealth is not promised but spiritual compensations of infinite lasting value, lasting throughout eternity. A blessed peace of soul, a wider

Licenses of Many Doctors Revoked

FORT WORTH, June 21.—The state board of medical examiners today revoked the licenses of 30 Texas doctors for the alleged use of narcotics for themselves and for illegal sale of narcotics. Another 35 were placed on probation the board president said after an executive session of the board. Names of the doctors were not disclosed.

Our National Dessert

By JOAN ADAMS Of The Kelvin Kitchen

Since Dolly Madison introduced ice cream at a presidential cabinet dinner at the White House in 1811, its popularity has grown until today it is considered our national dessert. And no wonder! It is deliciously cooling on warm spring and summer days. It is sweet, but not cloyingly so. It has such a wide variety of flavors, in fact, it forms a perfect ending for a meal. And what's more it is very simple to prepare, especially in an electric refrigerator.

The secret in using the electric refrigerator to make the same kind of smooth-textured ice cream that grandmother used to make in her churn-type freezer, lies in incorporating enough air in the mixture before it is frozen. This may be done in two ways, either by using a base of stiffly beaten egg whites or by adding whipped cream to a custard base. If this is done, and the mixture is frozen quickly, the result will be a delectably smooth, airy ice cream. The simplest method of making ice cream in your refrigerator is by using a meringue of egg whites and jelly as a base. We recently discovered this easy, practically failure-proof method in the Kelvin Kitchen in Detroit and are passing these recipes on to you. They are brought to you through the courtesy of Killingsworth, Cox & Co., local Kelvinator dealer, who will be happy to supply you with their refrigerator recipes.

Mint Ice Cream 3 egg whites 1 cup whipping cream 1 cup mint jelly Put the jelly and unbeaten egg whites in a bowl and beat to a stiff meringue. Whip cream to a thin custard-like consistency and fold into the meringue. Pour into Kelvinator super-fast freezing tray and freeze. Serves 8.

Strawberry Ice Cream 1 cup strawberry jam 3 egg whites 1 cup whipping cream Put jam and unbeaten egg whites into a bowl and beat to a stiff meringue. Whip cream to a thin custard-like consistency and fold into the meringue. Pour into Kelvinator super-fast freezing tray and freeze. Serves 8 to 10.

Cinnamon Ice Cream 3/4 cup milk 1/2 cup apple jelly 1 cup whipping cream 1/4 cup red cinnamon candies 3 egg whites Pinch of salt Milk which has been scalded. Cool. Dissolve cinnamon candies in place in Kelvinator super-fast freezing tray and freeze until it is the consistency of "mush." Put jelly and unbeaten egg whites in a bowl and beat to a stiff meringue. Whip cream until it holds its shape but will still pour and fold into meringue, then fold in cinnamon mixture. Freeze in Kelvinator super-fast freezing tray. Serves 8 to 10.

Chocolate Ice Cream 1 1/2 cups milk 2 squares of bitter chocolate 3/4 cup apple jelly 3 egg whites 1 cup whipping cream 1 teaspoon vanilla Pinch of salt Melt chocolate and add to milk which has been scalded. Add salt and cool. Put jelly and unbeaten egg whites into a bowl and beat to a stiff meringue. Whip cream to a thin custard consistency, add vanilla and fold into meringue. Fold in cool milk mixture, pour into Kelvinator super-fast freezing tray and freeze. Serves 8 to 10.

Couple Missing After Boat Ride CHICAGO, June 21.—Hope for the safety of a youth and girl who failed to return from a lake Michigan boat trip, failed today. An airplane, coast guard cutters and lake traders aided in a search for Raymond Gustafson, 24, and Miss Ruth Hatch, 25, a student residing with the Gustafson family. They had not been seen since they embarked for an all-day sail at 10 a. m. yesterday in the youth's 16-foot boat.

Sec. Perkins Has Hopes for Harmony In Steel Situation

WASHINGTON, June 21.—Secretary of Labor Frances Perkins, the dynamic woman entrusted by President Roosevelt to bring peace to the steel industry, today awaited an answer from plant owners on labor's peace proposals. She said she had placed the four-point offer before the American Iron and Steel Institute, both by mail and phone, but she had not received a reply "because they probably want to think it over." She denied there was a deadlock in negotiations.

One cow-hand said 'Give me a key to the front door—I'll be out late tonight'

Yes, this actually happened. One of the boys from a neighborhood ranch walked up to the desk at one of the West Texas Hiltons and said, "Give me the key to the front door, I'll be out late tonight." Of course, we explained to him that "the latch-string hung on the outside." Doors never locked, we tender, "Minimax" service twenty-four hours a day, three hundred and sixty-five days a year. Wherever you go, look for a Hilton

Democratic Ticket for County is Announced

Troop 8 on Hike
Scouts of Troop 8, Brownwood, with Junior Assistant Scoutmaster Lewis Winnebrenner, hiked to Boyson's Cut Tuesday afternoon for an all-night camp. The boys hiked back to town Wednesday morning. All reported having had an enjoyable time.

Eagle Badges Received
Eagle badges for Scouts Rex Lanford, Troop 35, Blanket; J. Herbert Ragdale, Troop 1, Brownwood, and Howard Adams, Troop 32, Olden, are now in the scout office and will be presented at next court of honor held at these places.

Safety First
This is the swimming season. Last week a scout received a severe head injury from diving into water that he had been misinformed about. He asked another boy for deep water, instead of investigating the water himself. Why not practice the safety rule, and never dive into unknown water? Investigate it yourself and not run the risk of someone being mistaken about the information they are imparting.

Another thing: This is a good time to be on the lookout for accidents that might come your way. The scout motto is "Be Prepared." Just the other day, near Dallas, three boys rescued a young lady from being drowned. She had gone under the third time when they made the rescue. After applying artificial respiration the patient was revived. Up to the present time the boys' names are unknown. We do not know whether they are scouts or not, but they were prepared and knew what to do when the emergency came. They evidently gained their knowledge by attending some life-saving instruction school or camp. Every boy, whether he is a scout or not, should learn how to make a rescue in water.

On to Camp Billy Gibbons
Camp slogan, "Every Scout a Swimmer." If you do not swim well, attend Camp Billy Gibbons and receive instructions under expert teachers. The aim of the camp this year is to see that every scout who registers for the camp will know how to swim before going back home.

CROSS ROADS

Mr. and Mrs. Campbell and daughter, Cora, visited in the home of Mr. and Mrs. F. E. Ferrell Tuesday evening. One hundred and thirty enjoyed the party at Mr. and Mrs. Campbell's Saturday night. Mr. and Mrs. Browning and daughter, Deal, are spending this week in Fort Worth visiting relatives and friends.

Miss Bertha Yardley visited Miss Eloise Pedigo Monday. Mrs. J. H. Ainsworth visited Grandmother Thomas Sunday. Mr. and Mrs. F. E. Ferrell and family and Mrs. J. C. Lockhart and daughter visited in the home of J. T. Walton. Mrs. Cam Lee spent the evening with Mrs. F. E. Ferrell Saturday. Mrs. Lockhart and Lenearl Lockhart are visiting relatives and friends in the community.

DESDEMONA

G. S. Bruce, who was recently appointed precinct democratic chairman, went to Eastland Monday and met with the chairmen from other precincts and transacted a lot of business connected with the approaching democratic primary. Charles Lee and John McKain went to Cisco Monday to resume work on the oil well they are drilling for Gallagher and Lawson. Miss Penelope Robert left Monday morning for Georgetown, where she went as the delegate from the Desdemona Epworth league to the summer assembly, which is being conducted at Southwestern Methodist university. She went to DeLeon where she joined a large party of young people from Ranger, Eastland, Gorman and several other places. The assembly sessions will close Saturday. J. B. Cook, of Gorman, visited here Friday. Miss Eunice Rudman, daughter of Mr. and Mrs. N. Rudman, left

Sunday for Gladewater, where she will visit for a week.

Mr. and Mrs. Plummer Ashburn and Mr. and Mrs. Dick Lewis attended the wrestling and boxing matches at Ranger Monday night. Mrs. A. P. Young and her sister, Mrs. C. C. Rhoades, were shopping in Gorman Thursday. Mrs. Roy Ashburn and Mrs. Ed Hufford were Ranger visitors Friday.

"Bud" Patterson and family, formerly of Desdemona but now of Marlin, came in Sunday and visited a few days with his brother, George Patterson, and family. They lived here for several years during the early twenties and have many friends here who will be glad to know they are planning to move back to this county and will likely live at Eastland.

Mrs. Joe Cook of Gorman was visiting her many friends here Saturday.

Mr. and Mrs. Alton Claborn and little daughter, Wynell, and baby, Betty, and Mr. Claborn's little sister from Okra, drove over to DeLeon to the picture show Saturday night. Mr. and Mrs. Fred Thompson, formerly of Desdemona but now of Burk Burnett, spent the week-end with Mr. and Mrs. Plummer Ashburn. Mrs. Ashburn returned home with them for a few days visit before going on to Lawton and Tipton, Okla., where she plans to visit friends and relatives.

Miss Tommie Marylee Boucher of Gorman visited Miss Letta Troy Huddleston Thursday.

Mr. and Mrs. I. N. Williams drove up to Ranger on business Saturday and while there traded cars and came home driving a Chevrolet coupe of the latest model.

Mr. and Mrs. E. H. Hufford visited in Gorman Thursday.

Mrs. A. T. Wilhite of Mentone visited her parents, Mr. and Mrs. J. R. Buchan, the first of last week and on Wednesday returned to her home, accompanied by her two children, who had spent a month here with the Buchans and also their other grandparents, Mr. and Mrs. S. T. Wilhite. Miss Lillie Buchan went home with her sister and will visit there a short time.

Mrs. Bill Parks drove over to Stephenville on business Monday.

J. T. Thompson, a pioneer settler here, came in from Harlingen and spent the past week with relatives and friends who were glad to see him and to know he was enjoying good health while living in the Rio Grande valley. Mr. and Mrs. Aldridge Wilcoxson came with him and also visited their many friends and relatives. These young people were among our most popular high school pupils.

Mrs. N. Rudman and two daughters, Miss Eunice and little Miss Sonoma, came down several days ago from their home at Wewoka, Okla., and will likely remain all this summer as Mr. Rudman is in charge of the work being done by the Pittsburg Pipe & Supply company. They are living in the house formerly occupied by G. W. Martin and family.

J. H. Rushing Jr. and Raymond Anderson drove up to Breckenridge on business Monday.

Mr. and Mrs. Style McEntire and baby and their mother, Mrs. J. E. Derrick, drove down to DeLeon Saturday night and visited Mr. and Mrs. J. S. Howell. They went in Mrs. Derrick's new Ford V-8, which she purchased while visiting her father at Bremond. On Tuesday night they drove over to Gorman and took Mrs. W. C. Bedford with them.

Mr. and Mrs. M. P. Williams and little grandson, Bobby Williams, visited at Ranger Saturday afternoon. Max Williams came home with them to spend Sunday.

Ed Hanson and son, Jack, went up to Eastland Monday and met the representatives of the Empire Southern Gas company, who paid the amount of the judgment secured some time ago on account of injuries sustained by Jack Hanson, who was severely burned when gas from a leak in a pipe exploded. Their many friends are congratulating the Hansons on getting such a prompt settlement.

Mrs. Neta Williams and daughter, Miss Doris Williams, of Olden, spent the week-end here with Mrs. I. N. Williams.

Many friends are delighted to learn that Mr. and Mrs. Monroe Glass and son, Donald, have moved from Lingleville to the Ben Holt farm, just a short distance east of town. They lived here a number of years before moving to Dublin two years ago and then to Lingleville.

OKRA

Mr. and Mrs. Ira Edwards and little daughter, Pauline, who have been visiting here have returned to their home in Longview.

Miss Vesta Hilton is home from Knox City where she has been employed for some time.

Miss Willie Pearl Amis of Eastland spent the past week with relatives here.

Mrs. Otto Adams is at Post visiting her father who is ill.

W. C. Nunnally is attending Howard Payne College, Brownwood. John Henry and Adkerson

Burns have returned from East Texas where they have been the past week.

The young people of this community were entertained with a party at the home of Mr. and Mrs. R. D. Maxwell Friday night. Rev. and Mrs. Fisher of Sipe Springs and her sister, Miss Pauline Means of San Antonio, were here Friday.

Mr. and Mrs. J. M. Stovall of Romney and Mr. and Mrs. C. Burns were at Temple Friday to attend the funeral of Mr. Stovall's father.

Mr. and Mrs. W. K. Haynes of Carbon spent Saturday night and Sunday with Mr. and Mrs. O. S. Brazzil.

Okra baseball team played Sipe Springs at Sipe Springs Sunday afternoon. Scores were 8 and 12 in Okra's favor.

Mrs. George Varner was a visitor in Rising Star Monday afternoon.

Miss Opal Burns spent Sunday night with Miss Edwena Hollaman.

Mr. and Mrs. J. W. Claborn and children and Grandpa Claborn visited Mr. and Mrs. Carl Baker of Strawn Sunday.

GORMAN

Mr. and Mrs. Mark Burroughs and son of Fort Worth were here over the week-end visiting her mother, Mrs. Slaton.

Mr. and Mrs. D. C. Norton and C. B. Stout were Glen Rose visitors Sunday.

Miss Dorothy Dean was in Waco over the week-end visiting her sister, Miss La Rue, who is a student in Baylor university.

Mr. and Mrs. Homer Abernathy were in Fort Worth Sunday visiting relatives.

Mr. and Mrs. Hutton and Mrs. R. L. English and son Bobbie, of Brownwood, were guests in the home of Mr. and Mrs. Luther Wright.

Mr. and Mrs. L. E. Moake of Fort Worth spent the week-end here in the home of her mother, Mrs. Ellen Oldham.

Mr. and Mrs. E. D. David were in Munday visiting her parents, Mr. and Mrs. Akers.

George Edward Epler, 6-year-old son of Mr. and Mrs. Barton Epler, was injured Monday morning when a large metal cistern fell on him. The child suffered a gash on his head and several bruises about his body.

Alton Grisham and Paul Ormsby spent Sunday in Waco visiting friends.

Mr. and Mrs. Davis Smith visited relatives at Gatesville Sunday. Mrs. Hamp Terry of Cross Plains is here visiting friends. Mrs. Terry is a former resident of Gorman.

Mrs. John Piening of Los Angeles, Calif., arrived last week for a visit here with her parents, Mr. and Mrs. W. L. Andrus.

Mr. and Mrs. T. O. Shelley visited with relatives at Whitney Sunday.

Miss Don Workman was home over the week-end from her work at Cisco. She was accompanied by Cherry Sue Hooker, who visited her grandparents, Mr. and Mrs. W. B. Hooker.

Mr. and Mrs. Frank Morrow and Mr. and Mrs. E. W. Underwood and little daughter, Ann, were Eastland visitors Sunday.

Mr. and Mrs. R. B. Ross have returned from a short visit in Abilene with relatives.

Mary Ann is the name given to the daughter of Mr. and Mrs. Cody Love, who was born Monday at the Blackwell sanitarium.

Mr. and Mrs. Preston Lightfoot of Blackwell are here visiting in the home of her parents, Mr. and Mrs. G. T. Gray.

Miss Lou Willford returned Monday to her home in San Marcos, after a two weeks visit here with her sister, Mrs. E. Y. Dabney.

Mr. and Mrs. W. J. Ormsby, sons Joe and James, and daughter Minnie Lee, are spending their vacation in Arkansas.

Mr. and Mrs. T. J. Lindley and little daughter, Jo, accompanied by Mrs. E. Lindley were in Morton Valley Tuesday visiting in the home of Mr. and Mrs. John Nix.

Mr. and Mrs. Leslie Wallace of Millsap spent Saturday here with relatives.

Mrs. L. G. Oden and daughter, Mary, of Fort Worth, are spending a few days here with her parents, Mr. and Mrs. E. Y. Dabney.

The Trades Day attractions here Monday brought a splendid crowd. Other than the usual Trades Day attractions, the candidates from both Eastland and Comanche counties were here to see the voters.

FLIES know NO BIRTH CONTROL
TWO FLIES (if they and their offspring live) will produce 5,598,720,000,000 FLIES IN ONE SUMMER.
Flies, mosquitoes and other insects are the most dangerous things that get in your home. They spread disease and death. Guard your health against these vile creatures. Kill them with FLY-TOX. **FLY-TOX**

CANDIDATES GET POSITIONS ON BALLOTS

Executive Committee Meets and Arranges Ticket for First Primary.

Places for candidates' names on the ballot for the democratic county primary on July 28 were drawn at the recent meeting of the county executive committee.

County Chairman Earl Conner Jr. announces the following as the official ballot. No precinct officers, other than county commissioners, are included here:

I am a Democrat and pledge myself to support the nominees of this primary.

For United States Senator—Joseph W. Bailey Jr. of Dallas county, Tom Connolly of Falls county, Guy B. Fisher of San Augustine county.

For Governor—C. C. McDonald of Wichita county, James V. Allen of Wichita county, Clint Small of Potter county, Tom F. Hunter of Wichita county, Edgar Witt of McLennan county, Maudy Hughes of Dallas county.

For Lieutenant Governor—Walter F. Woodull of Harris county, Ben F. Berkeley of Brewster county, John Hornsby of Travis county, R. M. Johnson of Anderson county, Joe Moore of Hunt county, J. P. Rogers of Harris county.

For Attorney General—Walter Woodward of Coleman county, William McCraw of Dallas county, Clyde E. Smith of Tyler county.

For State Comptroller of Public Accounts—George H. Sheppard of Nolan county, J. J. Jack Patterson of Dallas county, Dolph B. Tillison of Henderson county, Manley H. Clary of Tarrant county.

For State Treasurer—Dennis B. Waller of Trinity county, George B. Terrell of Dallas county, Kay Griffin of Tarrant county, Charley Lockhart of Travis county.

For State Superintendent of Public Instruction—L. A. Woods of Travis county.

For Commissioner of Agriculture—J. E. McDonald of Ellis county, Fred W. Davis of Travis county, K. Terrell of Floyd county, C. C. Conley of Willacy county.

For Commissioner of the General Land Office—J. H. Walker of Hill county, Walter E. Jones of Gregg county.

For State Railroad Commissioner—John Pundt of Dallas county, James L. McNeese of Dallas county, W. Gregory Hatcher of Dallas county, H. O. Johnson of Harris county, Lon A. Smith of Travis county.

For Associate Justice of Supreme Court—James W. McClendon of Travis county, John H. Sharp of Ellis county, H. S. Latimore of Tarrant county.

For Judge of the Court of Criminal Appeals—W. C. Morrow of Hill county.

Congress, 17th District—Oscar F. Chastain, Thos. L. Blanton, Carl O. Hamlin.

Chief Justice of the Court of Civil Appeals of 11th Supreme Judicial District—J. E. Hickman.

Plottorial Representative District 107—E. M. Curry, Cecil A. Lotief, D. L. (Donald) Kinnaird.

Representative District 106—E. A. Ringold, W. S. Adamson, Geo. A. Davison Jr., O. E. Lyleria, J. M. Nunn, J. M. Parker, Ed T. Cox, E. M. Threatt, J. Y. Jordan.

County Judge—C. L. (Clyde) Garrett, W. D. R. Owen.

District Attorney—Grady Owen, Milton E. Lawrence.

Sheriff—Virge Foster, B. B. (Brad) Poe.

Assessor and Collector—Tom Haley.

County Treasurer—C. F. (Uncle Charlie) Sheppard, John White, Mrs. Frances (Thornton) Cooper, Mrs. May Harrison.

County School Superintendent—B. E. McGlamery, Claiborn Eldridge, T. C. Williams.

County Clerk—T. M. (Turner) Collier.

District Clerk—P. L. Crossley. County Commissioner, Precinct No. 1—L. Y. Morris, V. V. Cooper, H. V. Davenport. County Commissioner, Precinct No. 2—T. G. Gray, N. C. (Newt) Crawley. County Commissioner, Precinct No. 3—R. O. Jacobs, E. L. (Lee) Burkhead, John E. Smith, A. N. Snearley. County Commissioner, Precinct No. 4—Arch Birt, L. H. Qualls, J. J. Honea, Birt Britain. County Chairman—Earl Conner Jr.

CARBON

The Methodist church of Carbon is planning a home-coming for the first Sunday in July. Let each one invite his friends to be present. All former pastors and former members are invited, dinner

on the ground, speaking and general get-together. We invite you to worship with us each Sunday. Come fill your place in the church. Rev. and Mrs. M. A. Walker accompanied Mrs. Walker's mother to Waco on a business trip Thursday of last week.

Steve and Jim Pointer of Joshua are guests of Melvin Walker Jr. The Missionary Society meets each Monday at 3:30. Next Monday is the last lesson in our mission study book on Eastern Women of Today and Tomorrow. A cordial invitation to come join and help this great work.

Mrs. Albert Acton of San Angelo visited her husband in the home of her sister, Mr. and Mrs. H. Hall from Friday till Sunday.

Mr. and Mrs. Jimmie Maners of Overton are visiting her mother and other relatives here while on their 10-day vacation.

Rev. M. A. Walker left Monday to attend the young people's assembly of Texas central conference, which meets at Georgetown each year. Miss Frankie Lou Garrett was the league delegate from Carbon. Rev. Walker will return home Saturday.

Mrs. Bert McGlamery of Eastland used the 11 o'clock preaching hour at the Methodist church Sunday and gave an instructive talk on missionary work.

The Church of Christ will begin their revival meeting Aug. 22, with Rev. Ernest Witt of Hallville doing the preaching.

Rev. H. F. Burns left for his home in Nashville, Tenn., Thursday after visiting his aunt, Mrs. Addie E. Kirk. Rev. Burns filled the pulpit at the Baptist church here on Wednesday night of the past week. Rev. Burns' son is employed by the Southern Baptist board as their artist for their Sunday school literature.

Mr. and Mrs. T. B. Garrett visited Homer Duncan and family Sunday.

Walter Reed of Abilene visited his cousin, Mrs. Dan Boatwright, Thursday night. Mr. Reed will be remembered as being in a serious car and train wreck in Abilene a year ago, but is now able to work as salesman for his former company.

Mrs. Moore Hines has returned to her home at Big Spring after a visit with Mrs. W. J. Hines and daughter, Miss Ida Hines.

Mr. and Mrs. J. B. White and baby were calling on friends in Carbon Sunday afternoon. Mr. White was once a teacher in Carbon but has been employed near Cisco the past year.

Mrs. W. T. Stubblefield visited her sister, Mrs. Minnie Love, in Ranger last week.

Walter Greer and family visited Mr. and Mrs. R. G. Morris at Sodney Sunday.

Mrs. Bill Vencil and two children of Girard are visiting her parents, Mr. and Mrs. W. S. Maxwell, her sister, Miss Maxine Maxwell, returned home after spending three months visiting Mrs. Vencil.

Mr. and Mrs. Dan Boatwright and Snookie were in San Saba Saturday.

J. A. Strickland, who lives seven miles south of town, reports his cotton in bloom and not suffering for rain, as they had a very good shower some days ago.

Mrs. Ingram Hines and daughter, June, of Hobbs, N. M., are due to arrive this Wednesday for a visit with Mrs. W. J. Hines and daughter, Miss Ida.

W. W. Speer and wife had a family reunion Sunday with all their children present and brothers and sisters. The children present were Mr. and Mrs. Guy Smith and Mr. and Mrs. Hugh Jennings of Abilene, Mr. and Mrs. C. C. Cawley of Ranger, Mr. and Mrs. Lawrence Owen and Woodrow Speer and wife of Carbon. Sisters present, Mrs. Pearl Lanier of Roswell, N. M., Mrs. Ada Armstrong of Amarillo, Mrs. Bertha Hudnell of the George Hill community, Miss Beulah Speer of Carbon; brothers, Jack Speer and wife of Carbon, Lee Speer and family of Sherman;

Mrs. Jessie Martin of San Francisco is happy because she has discovered the right, safe way to reduce—read her letter:

"I have taken Kruschen Salts a month and find great benefit. I have lost 14 lbs. in that time and would lose more if I stuck to a diet as I should. I take them every morning regular and hope others will profit by them as I have."

We have letters from men and women who have lost as much as 100 pounds of fat—from people who have reduced high blood pressure—from folks who have no more bloating or shortness of breath.

Kruschen helps stomach, liver, bowels to function properly—increases physical attractiveness all while losing unhealthily fat. Just take a half teaspoonful in a glass of hot water every morning before breakfast—get it at Paramount Pharmacy.

Fat Folks Lose Weight—Feel Fine

Lose Fat This Summer—Keep Cool—Look and Feel Younger

Mr. and Mrs. Martin of San Francisco is happy because she has discovered the right, safe way to reduce—read her letter:

"I have taken Kruschen Salts a month and find great benefit. I have lost 14 lbs. in that time and would lose more if I stuck to a diet as I should. I take them every morning regular and hope others will profit by them as I have."

Kruschen helps stomach, liver, bowels to function properly—increases physical attractiveness all while losing unhealthily fat. Just take a half teaspoonful in a glass of hot water every morning before breakfast—get it at Paramount Pharmacy.

also Mr. and Mrs. Cox of Rising Star. Lunch was spread in the open at Elm Hole with 45 present. Babe Wood and wife of Cross Plains and Neil Wood and family from Rising Star visited their mother Sunday.

W. J. Stacks had the misfortune of breaking his arm early Tuesday morning. He has been in ill health for many months and his friends regret this accident.

Mrs. T. E. Pope and Mrs. L. G. Powell spent Sunday afternoon with Mrs. Bonnie Smith.

We regret losing Mr. Thomas and family of this community who moved to their new home in Ranger.

Mrs. L. E. Puryear and children of Weatherford are spending the week with Mr. and Mrs. H. Brashers.

Rev. Sowart from Caddo preached at New Hope Sunday morning. Everyone enjoyed the sermon and the Father's Day program immensely.

Milton O'Rear and son from Strawn were in this community the first of the week seeing about their crops on the Raney farm.

Mr. and Mrs. D. W. Mitchell enjoyed a threshing supper with Mr. Gid Maddox and family mo-

and Mrs. H. L. Caraway Monday night. Mrs. J. M. Ware was seen driving her new car to Gorman last Saturday afternoon.

J. A. Caraway and son went to Breckenridge Monday. Mrs. J. A. Caraway and son shopped in Ranger Tuesday.

Wayne Satterwhite was seen in the White Flat community Tuesday afternoon.

W. H. Bradford started threshing at the home of Mr. and Mrs. G. A. Guess Monday.

Mr. and Mrs. Monroe Herring visited in the home of Mr. and Mrs. Roy Herring Sunday.

A. B. Gardhire started combining his grain in the White Flat community Tuesday.

Mrs. Buster Jennings of Breckenridge helped Mrs. Roy Herring cook for the threshing hands Tuesday.

Mrs. Lula Newnam and daughter of Caddo and Mrs. Ola Erwin of Ranger helped Mrs. G. A. Guess cook for the threshing hands Monday.

There seems to be an unusual demand for coins of all denominations, says Secretary Morgenthau. What's so unusual about that?

LONE CEDAR

A nice rain would be appreciated since the crops are in need of rain very much.

Will Vinson and family visited in the Joe Bailey home in Cisco Sunday.

Mr. J. E. Franklin and family of Eastland and Mrs. Ella Graves of Winters, Texas, visited in the R. A. Parker home Sunday afternoon.

Imogene Powell returned from Weatherford Saturday evening after spending two enjoyable weeks with Mr. L. E. Puryear and family. She also spent Saturday night and Sunday with Geraldine Smith.

Mr. Gid Maddox and family mo-

DIRT FARMER TERRELL AND HIS FAMILY TREE

Dirt Farmer George B. Terrell, M. C. is not "taking it lying down." He demands protection of his family tree. He has asked for F. D. R. and his administration "to develop some kind of procedure under the code so that we can stop these lawyers from practicing such legerdemain to purloin a man's name for the purpose of politics."

It will be recalled that Jefferson T. Baker, a Dallas lawyer, through court action changed his name to George B. Terrell "for business reasons," and then announced as a candidate for state treasurer subject to the action of the July primary. In bygone days the Terrells were very active. Indeed, in the pioneer days of the republic they had grown a large sized family tree.

Dirt Farmer George who clings to the constitution as it was, is proud of that relic of ancient times. Let him tell it himself:

"My grandfather was at the Court of St. James when Queen Victoria had just ascended the throne, and he was compelled to conform to court customs and had to wear knee pants. He brought back a cream-colored flowered silk suit with knee pants, and I remember that very well. It was very attractive and the people all over the country would assemble to look at this suit of clothes."

This grandfather of the dirt farmer was some man. He was attorney general of Tennessee and later of Texas. He was minister to England, France and Spain during the days of the republic of Texas and "he tried to get those countries to recognize the independent republic." George B. Terrell, erstwhile Jefferson T. Baker of Dallas, has the floor. He is a candidate for the state treasurer. Is he carrying a blue or a black or a bald eagle? If not—why or why not?

TEXAS JURORS ARE PUTTING AWAY HI-JACKERS AND MURDERERS

A Tarrant county jury sent to the electric chair O. D. Stevens, described by state prosecutors as "the master mind in a \$72,000 mail truck robbery at Fort Worth in 1933."

Stevens, however, was given the death penalty on a charge of murder growing out of the slaying of three men whose bodies were recovered from the Trinity river last year. Stevens is known as "the chief of the Handley gang." He is the owner of a very productive farm and posed as a simple-minded, law abiding citizen. A Walker county jury sentenced Raymond Hamilton to the electric chair. Now one of his pals, Joe Palmer, captured in Iowa, will be returned to the Huntsville penitentiary to face trial for the murder of Major Crowson, a prison guard.

A Dallas jury contributed to the future activities of the chief electricians who is slated to turn on the juice. Richard Rehm, a New York parole violator, shot to death a Dallas policeman, Luke Bell, on May 18. Rehm was sent to trial without delay. After hearing the evidence and the charge of the court, the jury gave Rehm the limit. Justice is said to travel with a leaden heel. This may be true, but it is "hitting" criminals everywhere in Texas and the popular slogan is, "make the punishment fit the crime."

EAST TEXAS TOMATO GROWERS CALL OFF STRIKE

There is peace in East Texas, the land where "love apples" grow. The modern name for the love apple is the tomato, which had its origin in Peru, the land of the Incas and their golden temples. In those ancient days it was the apple of love, but not a table offering. Spanish crusaders carried the love apples to Europe. For many years they were regarded as more ornamental than useful. Indeed, the physicians of that age declared that they produced cancer in the human frame or body.

Down on the Carolina coast for 100 years they were known as "Jerusalem apples" and the fisher folk planted them in their scanty flower gardens. Now a million cars of tomatoes the country over are shipped to the larger cities of America as well as the smaller cities and the Lord knows how many carloads local consumption calls for, speaking of the gardens and the patches given to the cultivation of early vegetables by the American people.

East Texas growers ended the strike with receipt of word that a Texas committee had arranged with Mississippi growers to get two cents a pound for their product. East Texas farmers began at once marketing hundreds of bushels which had been held in sheds at Jacksonville for the best prices available. Commissioner of Agriculture J. E. MacDonald of Texas made a temporary deal with the marketing committee of the Mississippi growers. Well, co-operation is the thing. Growers of two states came together and now the East Texas strike is off and peace reigns.

THIS HAPPENED IN TEXAS

A farmer who sold a carload of tomatoes for 10 cents a bushel at Frankston, Texas, was escorted from town by a group of officers after a mob had formed to protest the sale. Violence was prevented by the presence of the officers. It appears that the mob spirit is making rapid headway the country over. Low sellers in the tomato growing districts of Texas should beware. The mobster will catch them if they don't watch out.

Gold and silver and monetary standards are causing many a headache in various countries of the world.

One Natural and One Synthetic Terrell Running For State Offices

By THOMAS O. HURST
United Press Staff Correspondent
HOUSTON, Tex.—There may be something in a name after all. Take the name of Terrell, for instance. It is said that almost anybody can get elected to any office in Texas, if his name is Terrell.

At present there are two Terrells in high office in Texas and one more natural and one synthetic Terrell running for office. And with the forthcoming State Democratic primary only a few weeks off, the discerning voter is asking, "Who started the Terrell business in Texas politics?"

Three of the Terrells now before the public got their names from their fathers and one of them got his name from a district court. Railroad Commissioner C. V. Terrell, Congressman George B. Terrell and Candidate K. Terrell were born Terrells, and Candidate George B. Terrell of Dallas got a judge to change his name to Terrell.

What is there about the name of Terrell that would make a man change his name from Jefferson T. Baker to George B. Terrell before announcing for state treasurer?

There certainly must be something in a name like that if examples substantiate any possible answer.

The men who made the name of Terrell so powerful politically in Texas so that anybody named Terrell, almost, could be elected, are:

C. V. Terrell of Bowie county, state senator, treasurer and now railroad commissioner; H. B. Terrell of McLennan county, former legislator and comptroller; Chester Terrell of San Antonio, former speaker of the house; John J. Terrell of Wise county, former land office commissioner; George B. Terrell of Cherokee county, legislator, agriculture commissioner and now congressman-at-large; J. M. Terrell of Bowie county, former state senator, and A. W. Terrell of Austin, author of the Terrell election law and former minister to Turkey.

In addition to the apparent hereditary political domination of the Terrells in Texas, a Terrell wrote the law creating the primaries, a Terrell wrote the bill which built the state capitol and a Terrell created the job of railroad commissioner which another Terrell now holds.

A suggestion was made in the senate at Austin recently that all Terrells be prohibited from seeking office.

"Give the rest of us a chance," said Senator Pink Parrish of Lubbock, who has suffered defeat from the natural George B. Terrell in a race for congressman-at-large.

There are three families of Terrells, each of whose members have held several important state offices in Texas.

George W. Terrell, attorney general in Sam Houston's cabinet, was the first Terrell. He was minister to England, France and Spain, and four of his descendants apparently inherited the office-holding habit from him.

George B. Terrell of Alto, his grandson, was legislator for many years, state agriculture commissioner, and now is congressman-at-large. H. B. Terrell of West, George B.'s brother, started out as a state legislator and ended up as state comptroller. Shortly after H. B. retired as comptroller his son, Sam Houston Terrell, held that office. Not to be outdone, George B.'s son, J. T. Terrell, ran for office and was elected to the legislature.

The Terrell who is best known today is A. W. Terrell of Austin, author of the Terrell election law. He also wrote the bill under which the state capitol was built. He wrote the bill creating the railroad commission and today another Terrell, C. V. Terrell, holds the office of railroad commissioner which he created.

A. W. Terrell also was state senator for years and was ambassador to Turkey under President Cleveland.

Terrell, that magical political name on Texas Democratic ballots, certainly has had its effect.

Mrs. Arnold Rothstein Pens Dramatic Story

Things millions of men and women want to know will be revealed in Fox Film's latest release, "Now I'll Tell You," which will make its appearance on the screen of the Columbia Theatre on Sunday. The film stars Spencer Tracy. Advance reports indicate that Tracy is an absolute sensation in a role that perfectly suits his talents.

The screen play reveals a woman's sensational story—told for the first time with all its love and beauty, passion and heartaches. The film is kaleidoscopic in its revelation of the romance, drama, comedy, night life and sporting events of New York City during the past twenty years.

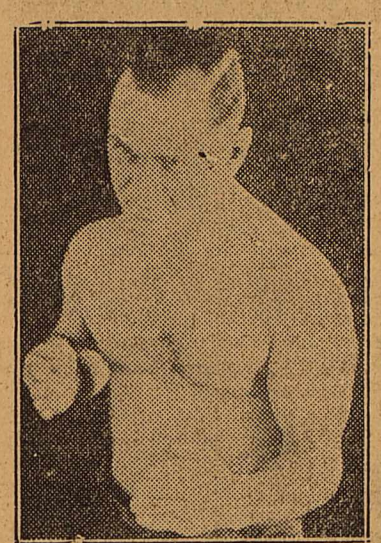

Helen Twelvetrees and Alice Faye head the cast in support of Spencer Tracy.

Science has gone to bat for the farmers of the country in a general war against the chinch bug—and it will be no sinch, either.

Fights On Monday Will Have Action

Pat Swanson, 180-pound grappler from Fort Worth, will return to Ranger Monday night to swap holds with Curley Bishop, 180-pounder from Waxahachie, who is no newcomer to the Elks arena. The bout will be for a two-hour time limit.

In the other wrestling event Si Holt, 140-pounder from Fort Worth, will mix it in a one-hour time limit bout with Red Rogers, 138 pounds, from Dallas. This promises to be a good, short bout, with lots of action.

A six-round bout between Bill Donowho, 140-pounder, of Ranger, and Brownie King, tough 138-pounder from Olden, will be on the boxing card.

Monday will be ladies' night again at the arena, with ladies admitted free with each paid, ringside admission. Ringside seats are in the first four rows, with the remainder of the seats going at 25 cents and general admission at 15 cents.

Tennessean Didn't Trust Traffic Light

MEMPHIS, Tenn.—L. H. Yancey came to a street intersection here, saw the traffic light showed green, and proceeded on his way—to a wreck in the next block. He was fined \$5 for reckless driving when it was shown that the red light at the intersection hadn't been working for days.

The next day he came to the same intersection, and as before, the light was out of whack. He parked right there rather than pass the light at \$5 a crack. Behind him the traffic piled up. Horns honked in a mighty chorus, but Yancey stood his ground until a reasonable time, then cleared traffic.

State's Efforts at Paying Bills Are Quite a Problem

By GORDON K. SHEARER
United Press Staff Correspondent
AUSTIN, June 21.—Texas' efforts to get out of the hole financially are reminiscent of those of the fabled cat. Every time the cat got a foot nearer the top, it fell back two.

As quickly as State Treasurer Charley Lockhart scrapes together a considerable sum to apply on the state overdraft, he calls in outstanding warrants. The state expenditures, however, pile up the overdraft faster than Lockhart can cut down the deficit. It has not been reduced below \$4,500,000 this year.

The latest call for outstanding warrants paid the state's expenses only up to March 12. It still is three months behind and now faces a period of slow tax receipts that will increase rather than decrease the deficit.

Treasurer Lockhart called in \$633,115 outstanding warrants for payment on Feb. 23. On March 10 he called in an even \$1,000,000. Another call for \$300,249 on March 31 sent the state treasury into April with a general fund deficit of \$5,243,637. April 16, ago to connect Ysleta with the Treasurer Lockhart had amassed \$643,170 to apply on the state debts, but in the meantime the state spent so much that it still remained \$4,969,220 in the red. Another payment of \$1,035,165 on April 30 reduced the deficit by less

than \$29,000 for new warrants had been sent out in the meantime for more than a million.

Another payment of nearly a million, \$981,691, on May 15 made a little more headway in overtaking the debt, which was reduced to \$4,493,652. In the next half month the state spent faster than it received money and the deficit jumped to \$4,633,465 in spite of a \$629,487 payment.

The latest state call for payment of outstanding warrants totaled \$183,097. It left the state general fund \$4,848,412 in the red. That the deficit this summer will again go above \$5,000,000 seemed unavoidable.

Toll Bridge Contract May Be Renewed

YSLETA, Texas.—Reports that the Mexican government had cancelled his concession for the Ysleta-Zaragoza international toll bridge across the Rio Grande for alleged failure to comply with provisions for construction of a concrete structure were denied by Alex Gonzales, county commissioner and owner of the bridge.

Gonzales said a Mexican official is expected to inspect the bridge in a few days and he feels confident that his period for making improvements will be extended. He built the 507-foot bridge across the Rio Grande five years ago to connect Ysleta with the Juarez lower valley trade area. Provisions for construction of the permanent type bridge to replace state spent so much that it still remained \$4,969,220 in the red. Another payment of \$1,035,165 on April 30 reduced the deficit by less

ESTATE WORTH \$4,217,984
CINCINNATI.—A valuation of \$4,217,984 was placed on the estate left by the late Col. William Cooper Procter, chairman of the board of the Procter and Gamble Company in a report filed in probate court here. Real estate was valued at \$204,490. The balance was made up of securities, with the largest single item 75,840 shares of Procter and Gamble stock, valued at \$2,635,440.

Jelly Making
 Jellies are made by cooking together certain fruit juices and sugar in the proper proportions. A good glass of jelly is clear, sparkling, transparent, and of a beautiful color. When slipped out of the glass, it holds its form and will quiver. It can be cut with a clean, distinct cleavage, retaining the clear surface and angles made by the knife. Tenderness and firmness are unmissable qualities.

Pectin is the essential jelly-making substance found in fruit juices. Pectin belongs to a group of substances known as carbohydrates. It is found in the cell walls of fruits. A combination in fruit juices of pectin, acid, and sugar in proper proportions is essential in order to make good jelly. The best fruits for jelly making are those which contain both acid and pectin. The pectin, the fundamental jelly-making quality, is found in most all fruits and some vegetables, notably the root tubers. Some fruits contain very much more pectin than others, and it is more abundant in slightly under-ripe fruit than in that which is fully ripe. It is generally believed that pectin substances occur in plants in three distinct forms: the parent substance, proto-pectin, or pectros, which is chiefly responsible for the hard texture of green fruit. During the ripening process or by boiling, this pectros, which is an insoluble substance, is converted into pectin, which is soluble. As the fruit becomes over-ripe much of the pectin is changed to pectin acid, which is practically insoluble and lacks jelling power. Boiling the pectin for a long time will change it to pectin acid. Therefore it can be readily understood why it is necessary to boil firm fruits to extract a juice rich in pectin, why over-ripe fruits are not suitable for jelly making, and why too long cooking or boiling of the jelly may result in failure. Fruits which are not over-ripe are most satisfactory for jelly making.

Test the juice for pectin and see if there is considerable pectin present. Pour into a glass one tablespoon of the fruit juice and add to it the same amount of alcohol, mix by turning the glass gently, then pour carefully into another glass. If the pectin precipitates in a solid mass or clot, it is usually safe to add a cupful of sugar to each cup of juice in making jelly. If the pectin does not collect in this manner, the amount of sugar should be decreased. The most usual mistake made in jelly making is the addition of too much sugar, the result being a syrup instead of a jelly. This test for the presence of pectin in fruit juice is not an accurate quantitative test, but simply indicates whether little or much pectin is present. From such a test it is possible with some experience to decide approximately how much sugar should be added.

Note: Alcohol is poison and care should be taken in its use.

Making Jelly At Home

Jelly making is no trouble at all and I know that I am to have a good product when I follow the method given at one of the club meetings. I have been making my jelly by this method for the last few weeks and missed so much by not knowing it earlier, stated Mrs. Bessie Kirbie, farm food supply cooperator of the Olden home demonstration club. I test the juice by the alcohol method to determine the amount of sugar to use, measure from three to five cups of juice, not more than five, heat to boiling and add equal amount of sugar, boil rapidly until the jelly drops off the spoon in flakes or sheets. The drops will be syrupy at first and then get heavy and two or three drops run together in one sheet. Four into sterilized jars or glasses. Fill to the top as jelly shrinks and there will be enough space left for the paraffin when the jelly cools. Rapid cooking keeps the jelly a bright color and the product clear. Slow cooking makes a strong and tough jelly.

Grape Catsup

The grape crop for the county promises to be large and the following recipe may be helpful to those who want to preserve grapes in many ways.

- 5 pounds grapes
 - 1 tablespoon cinnamon
 - 3-4 tablespoon pepper
 - 1-2 tablespoon salt
 - 2 1-2 cups sugar
 - 1 tablespoon allspice
 - 1-2 tablespoon cloves
 - 1 pint vinegar.
- Stew grapes over slow fire until soft, strain through sieve, add sugar, cinnamon, allspice, pepper, salt, cloves and vinegar. Boil until thick like jelly and bottle. This makes two pints.

HORSESHOES NOT LUCKY

CAMBRIDGE, Mass.—It won't be good luck for the thief if Joseph Barnatti, rugged blacksmith, lays hands on the fellow who robbed his shop of six pairs of horseshoes.

PLEASANT HILL

Mr. and Mrs. Roy Tucker spent the week end in Loraine, visiting Mrs. Tucker's mother, Mrs. Hardin.

Mr. and Mrs. A. A. Abbott spent Sunday with Mr. and Mrs. T. L. Lesater of Nimrod.

The young people Sunday school class spent Sunday with Mr. and Mrs. Henry Hines.

Mr. and Mrs. James Bone were shopping and visiting in Cisco Saturday.

James McKinnerney of Richland Springs is spending this week with J. R. McKinnerney.

Mae Taylor, Mildred Lamb and Garner Altom and Shannon Ramsey spent Sunday afternoon with Mr. and Mrs. Jewel Poe at Cisco.

Miss Clara Smith of Cisco and Mrs. V. Hackney of Denton spent Thursday with their sister and grand daughter, Mrs. Ervin Clark.

Mr. and Mrs. Charlie Clifton of Cisco visited Mrs. Clifton's sister, Mrs. Will McFalls, Friday.

Mr. and Mrs. Dan Wende and sons, Edward and Charles, Mr. and Mrs. Herman Reich and daughter Laverne, spent Sunday with Mr. and Mrs. Charlie Weiser and family of Ward community.

Mrs. Clarence Hastings and little daughters of Carbon visited Mrs. Hastings' parents, Mr. and Mrs. A. H. Lockhart, Saturday.

Mr. and Mrs. Leon Hale of near Carbon visited Mr. and Mrs. Lon Townsend Sunday.

Mr. and Mrs. J. B. Webb and daughters Mary Alice and Katherine and Betty Jo of Romney visited Mr. and Mrs. Ervin Clark and family Wednesday night.

Ray Nell and Juanita Tucker are visiting their aunt, Mrs. J. C. Carter of Yellow Mound this week.

Miss Florence Davis of Ballinger is the guest of Mrs. M. E. Kemp this week.

Several young people of this community attended Miss Lucille Sheridan's farewell party Thursday night in Ballard at the home of her parents. Games were played and dancing was enjoyed throughout the evening. Miss Sheridan left Saturday for Oklahoma City, where she will be in school this summer.

Mrs. Henry Hardin, who has been seriously ill for the past three weeks is slowly improving.

Mrs. J. R. McKinnerney and children visited her mother, Mrs. W. H. Maynard of Romney Sunday evening.

Mrs. Dee Moon has as her guest this week her parents of Plainview.

Miss Mildred Lamb visited Reba Tucker Saturday night. A number of young people attended a party at Mr. and Mrs. Johnny Triggs Saturday night at Nimrod.

Mrs. Carrie Sharpe of Cisco visited her brother, S. A. Lamb, Sunday evening.

Mr. and Mrs. Ed Railsback of Boyer and Mr. and Mrs. Jeff Railsback of Pampa were guests of Mr. and Mrs. J. K. Boone Monday night.

Mrs. Winnie Lineberger and children of Cisco were visiting relatives in the community Sunday.

J. G. Taylor of Romney spent Sunday with Avery and Aubrey Holt.

Misses Flora Bacon, Dorothy Tucker and Arlene and Margie Hines were visitors at Pearl Lamb's Sunday.

Mrs. R. L. Poe of Cisco visited her daughter, Mrs. Winford Tucker Wednesday.

Miss Francis Bacon spent the week-end in Cisco with friends and relatives.

Mr. and Mrs. Clay Anderson and children Betty Jo and Jack of Cisco visited Mr. and Mrs. J. K. Bone Monday evening.

Little Gilma Townsend celebrated her 10th birthday Monday evening with a party for her friends. Games were played of all kinds. She received many nice gifts. Refreshments of sandwiches and cake, and punch were served to the following guests:

Bobbie Grace and Danal Shirley, Dorothy Tucker, Geraldine and J. R. McKinnerney, Dorothy Louise and Burlington Clark, Jane and Claud Hooker, Laverne Reich, Billy Gene Ramsey, Elaine Almie, Learlee and Billy McFalls, Margie Ruth Hines, Billy Clayton Hardin and James McKinnerney of Richland Springs, and the honoree, Gilma Townsend.

Famous Bible Is Property of Dallas

DALLAS, Tex.—A Bible that once belonged to George Mifflin Dallas, vice president of the United States when Texas was admitted to the Union, and the man for whom the city of Dallas was named, has become the property of the Dallas Historical Society.

Dr. E. G. Eberle of Washington, editor of the Journal of the American Pharmaceutical Association, gave the Bible to the society.

Dr. Eberle, a former Dallasite, is recognized as a leading collector of objects connected with the Dallas family.

He donated the rare volume to the society through the G. B. Dealey, of the Dallas News and Journal, president of the society.

The Bible is an octavo volume, bound in calfskin and printed in London in 1810.

HE WAS UNCLOTHED GUEST

By United Press
 TOLEDO, O.—Henry Portman, of Columbus, knows how it feels to be stranded in a strange city without any clothes. When he ar-

rived as a guest at the Community House, his clothes were placed in a fumigator. When he went to get them the next morning they were gone. While Portman, practically unclad, continued to en-

joy the hospitality of the home, social workers hunted clothes for him.

ADMISSION AGE LGWERED
 KANSAS CITY, Mo.—The age for admission into the order of De Molay has been lowered to 15, Frank S. Land, secretary, has announced. The former minimum age for entrance was 16. The maximum limit will remain at 21, at

which age a De Molay automatically ceases to be an active member.

FORT WORTH, Tex.—Eighty-seven per cent of the buying and selling in the United States is done with checks, Dr. R. H. Montgomery of the University of Texas Economics Department, said. Even when money is used the greater part of it is paper money, which in a sense is a form of a check.

 RANGER, TEXAS TELEPHONE 447

Interest In State Races Begins To Grow As Campaign Warm

AUSTIN.—Jefferson G. Smith, Austin, is the first candidate for the 1936 Democratic primary election. His announcement breaks all early records.

Smith withdrew from the race for state school superintendent this year. His withdrawal left present state School Superintendent L. A. Woods without an opponent. A. M. Blackmon of McCamey, who contemplated the race, had previously withdrawn. Smith said he has not given up his candidacy but only postponed it two years.

Apathy of the governor's campaign promises to be broken soon. Taking a cue from Tom Hunter, who has forged to the front by sharp attacks on Attorney General James V. Allred, other candidates may be expected to get less polite and more antagonistic.

A. W. Von Struve, managing the Hunter campaign, admits that Hunter's hammer and tongs discussion has been a factor in his success. He says that his candidate has just begun along the line of such an attack. Other candidates as well as Allred are to be "attended to" as the election nears.

Whatever the reason, Hunter has the campaign record for "unmade" crowds, "exclusive of openings" and addresses at places which had reunions, conventions or anniversaries to draw a crowd, few of the candidates' addresses have attracted many hearers. Some have frequently addressed less than 100. One is said to have eight by count.

Polls are being taken weekly to guide Hunter's campaign. These, Von Struve said, back up Hunter's claim that he now is out in front. Next week his campaign will take a turn. He will begin a series of visits to 38 cities and towns, all with more than 10,000 population.

Sharp contrast is seen in the only two statewide judgeship races. W. C. Morrow, presiding judge of the court of criminal appeals, at no time had announced opponent. This is the more remarkable in view of the popular clamor for speeding procedure to stop the crime wave.

The place on the state supreme court, vacated by Judge T. B. Greenwood, developed one of the hottest races. It is a three-cornered one. Judge Hal S. Lattimore of the Fort Worth court of civil appeals is on the ballot for the place as "H. S." Lattimore. That little touch in the listing may mean votes. "H. S." is so similar to "O. S.", the initials of his father who has been uniformly successful in races for the court of criminal appeals. Another judge of a court of appeals, James W. McClendon, Austin, seeks the place. Judge John Sharp, present member of the commission to assist the supreme court, seeks it too. The ballot, through a notary's error, lists him as a resident of Travis instead of Ellis county.

The effect of Jefferson T. Baker's changing his name to George B. Terrell before running for state treasurer is dubious. Congressman George B. Terrell has denounced it and his many friends may agree that such "legal legerdemain" ought to be stopped.

Use of nicknames on the ballot is prohibited. J. J. Jack Patterson, Dallas, is listed as a candidate for comptroller. It was ruled two years ago when he ran for railroad commissioner that he could not run as J. J. (Jack) Patterson but could use the full name without a parenthesis on showing that it was his true name. J. P.

(Jimmie) Rogers was trimmed to J. P. Rogers in listing one of Harris county's two candidates for lieutenant-governor.

Dennis B. Waller, taking the place of his brother, Rex Waller, who was killed while he was a candidate for state treasurer, announces his campaign to vindicate the name.

Decision of the state democratic executive committee to take no action on negro participation in the primary probably means a large negro vote. Much of it is in counties friendly to C. C. McDonald's candidacy. The executive committee decision is in line with court decisions. How far individual counties will seek to discourage the negro vote is uncertain. Lily white ascendancy in the republican party in Texas in recent years has led to stronger efforts of negroes to get a vote in the democratic primaries.

Dental Work Is Clue To Crimes

FLORISSANT, Col.—With every other clue exhausted, authorities of Teller County have turned to the dental profession to help them in solving one of the most fiendish murders in the history of the region.

More than a year ago two small boys, hunting berries in the heavily wooded mountains near here, found the body of a young woman. Her skull had been crushed in. An attempt had been made to burn her body, but after the features had been made unrecognizable the fire had been extinguished.

She appeared to have been an attractive woman, about 25 years old, with dark blue eyes and brown hair. Her clothing that survived the fire and the careful manhandling of her fingernails convinced investigators she had been of a family in comfortable circumstances.

The sheriffs of nearby counties, who have the reputation of "getting their men," found the crime to be a difficult one to solve. Only one clue now remains.

The dental work of the woman was of high order. They believe that by printing a reproduction of the dental work in trade magazines they can establish the identity of the murder victim.

Inventors Hear a Talk on the NRA

OMAHA, Neb.—Former Gov. William E. Sweet, Colorado, addressed the National Inventor's Congress here today concerning the President's National Recovery program as it applies itself to their craft.

There is nothing in the act, Sweet said, which will take away any benefits from the genius who discovers something new of benefit to mankind.

Charles R. Miner, 74-year-old San Francisco engineer, was here to demonstrate a model of his proposed all-metal stratosphere dirigible, which he believes will be capable of negotiating 600 miles an hour in the upper regions. He has spent the past month in Washington trying to interest the government in his proposal. Miner holds the world's record for parachute jumping from balloons and recently was made a member of the United States military engineers.

Other inventors attending the Congress were greatly interested in Miner's activities. Among other "gadgets" on exhibition here are:

A glider garter for women, perfected by Ann Hebner, of Hollywood, Cal., which glides instead of merely stretching the elastic when the fair one does a flip-flop or high kick.

A safety bath mat invented by Mrs. Rose Franco, Warland, Mont., after an Eastern woman had done a nose-dive, sans all vestige of raiment, from her bathroom window after slipping on a cake of soap.

A device that slashes potatoes into hash brown cubes, or French fried, with one stroke, patented by Andy Hjert, Everett, Wash.

"A depression hurts some but it helps others," Dr. Montgomery explained to members of the Women's Club here.

For instance, he said, 25 commodities have not declined in price during the depression and some actually have gone higher.

PEONY SHOW DREW CROWDS VAN WERT, O.—Van Wert's third annual peony festival drew throngs from throughout Ohio and neighboring states. In addition to viewing the blooms crowds saw: a parade, a queen's coronation, jubilee children's party, queen's ball, Mardi Gras, with round and square dancing.

Finding Well Water Is a Problem In The Drouth Areas

WASHINGTON.—From all over the drought states come reports of wells going dry. Well owners have these questions confronting them: Will it pay to deepen these wells? Will it pay to dig, bore or drill new wells? If so, where?

To aid in answering these never fully answered questions, agricultural engineers in the U. S. Department of Agriculture point out some facts about wells. To begin with, they say, there is little to recommend the rather common use of a forked willow, hazel or peach stick or other so-called "witching" devices for finding water, although persons who have practiced hunting water this way, from their experience and observation of surface conditions, usually are better able to judge of the probabilities of ground water than is the average person.

Some midwest farmers report good results in digging inexpensive, emergency wells in sloughs or along old creek beds, where the grass grows green even in dry weather. Holes 10 to 15 feet deep and 4 to 5 feet in diameter have been found to fill with water over night, or at least to collect enough water to maintain the livestock necessary to conduct farming operations. One objection to such wells is that surface water will drain into them. For this reason

they are never wholly satisfactory, and unless the water is boiled or otherwise sterilized it is unsafe for household use. Tests for such shallow wells can be made with an ordinary posthole auger. By adding two or three feet of gas pipe at a time to the handle, considerable depths can be reached. If this test hole does not collect water, the farmer is not out much. If it does, he can curb the hole with drain tile or dig a larger well at the spot.

The federal emergency relief administration is considering listing the digging of new wells and the deepening of old wells as work projects, to be executed under the direction of the different State emergency relief administrations.

Valuable information on sinking permanent wells can be obtained from the United States Geological Survey or from state geological authorities. Results obtained in neighboring wells and evidences of seeps and springs are of assistance in locating water supplies. Seeps and springs are more likely to occur near the foot of slopes. Shallow wells located here usually are stronger than those higher up the slope or further out on the flats. Wells on hills or close to rock outcrops are not likely to yield plentifully unless they are deep.

If possible, wells should be sunk in sands or gravels, because they are generally good water bearing materials. Quicksand, clay, marl, and hardpan sometimes contain considerable water, but yield too slowly for satisfactory supplies.

Shale and slate are not good water bearers. Dug wells are sometimes deepened in dry times by sinking in the bottom one or more lengths of drain tile or vitrified sewer pipe of as large size as will go into the well. The tile should be settled by digging or scooping the material from within, care being taken not to undermine the old curb or casing. The top of the tile or pipe should be left 6 or 8 inches above the bottom of the old curb. An auger or a well point may be used to search for water at greater depth, if it is found necessary.

One advantage in sinking a new well in dry times is that labor costs should be less and, furthermore, any well which has plenty of water in dry years should always be a good well. No new well should be regarded as complete until a pumping test of some duration has been made to determine its sufficiency for the purposes of the farm and to make sure that it is not a mere pocket of water that has been tapped.

More information on wells and other sources of water may be found in the "Farmstead Water Supply" U. S. Department of Agriculture, Farmers' Bulletin 1448. This may be obtained from the Superintendent of Documents, Washington, D. C., for 5 cents.

From the radio description of the Baer-Carnegie fight, it seemed as though the sponsoring tire company won every round.

Mosquitos, says a scientist, can live 14 days without nourishment. But not the 14 days of your vacation.

State Lets Capitol and Grounds Run Down While Credits Are Not Kept In Businesslike Condition

By GORDON K. SHEARER United Press Staff Correspondent AUSTIN, June 18.—Texas would have a poor rating with a credit bureau if it were treated like the citizen who runs bills.

Take the matter of rewards. Clyde Barrow, Bonnie Parker and Ray Hamilton were so badly wanted that the state offered payment for them. Dead or alive the state wanted them. Clyde and Bonnie are dead. Hamilton has been captured alive. Have the rewards been paid?

Late last week they had not. The private citizen who insisted on having 3 per cent knocked off his bill if he paid it, would find that demand chalked up against his credit rating. But state employees, with the exception of a few, paid from special funds, have had to discount their pay warrants for many months in order to cash them.

When national guard appropriations became exhausted by Gov. Ross Sterling's use of citizen-soldiers in the East Texas oil field, I. O. U.'s with his signature and that of the then adjutant general were issued to owners of property used for national guard armories.

The legislature recognized justice of the claims for payment of the I. O. U.'s. It authorized their payment and made an appropriation for the purpose. Whether the legislature had the authority to take this action still is in litigation.

Texans returning from visits in other states complain of the "run-down" condition of the Texas state capitol and its grounds. Denver's spotless Colorado capitol, and Sacramento's beautifully kept capitol grounds frequently are cited in contrast.

Here is the alibi. Penurious legislatures have failed to provide a tenth of the amount architects estimated would be needed for proper up-keep of the capitol, which was the world's seventh largest building when completed.

B. E. Giesecke repeatedly has made estimates for the state board of control on costs to put the building in good shape. Legislators always postponed the repairs. The delay has run the needs to a staggering cost. "It would take about \$120,000 to replace the worn tiling on the capitol's acres of floors," Giesecke said in illustrating the cost involved.

Needed repairs and fireproofing were estimated at \$1,000,000 when a PWA loan for the purpose was proposed. Capitol grounds extend three blocks in one direction and two and a half in another. The area presents unusual gardening difficulties. It has a thin top soil over limestone. In wet weather the grass grows faster than four yardmen can keep it down with motorized mowers. In dry weather it burns out. Weeds grow on the area better than lawn grass. Attempts to keep pedestrians on the walks or scatter them so they do not tramp brown paths on the lawn seem futile.

Old Silk Dresses Are Still Wearable

MANCHESTER.—Silk dress manufactured before 1870 is sound today as they were then, whereas those made since that date are extremely short-lived. This, at any rate, is the discovery made by those who are getting up an exhibition here of women's clothes since 1650.

They have borrowed from the London Museum several gowns worn by royalty. The silk dresses belonging to Queen Victoria and dating before 1870 still are serviceable, whereas the silk dresses made for Queen Alexandra in the '80's of the last century are officially pronounced "untouchable" and must be kept in a glass case.

Dionne Family May Not Attend the Fair

NORTH BAY, Ont., June 19.—The Dionne family is attempting to break a contract to take the famous quintuplets to the world fair and may ask the Canadian government to act in the dispute, it was disclosed today by the 67-year-old grandfather of the infant girls.

He said the family was returning all money sent them. FOX MOTHER OF 15 PUPS ELKO, Nev.—What is believed to be one of the largest litters of blue foxes was reported here. A blue fox at the Gulid ranch gave birth to 15 pups, 13 of them are still living.

SHE ATE ALL-BRAN TWELVE YEARS WITH FINE RESULTS

Delicious Cereal Relieves Constipation

Read this very enthusiastic letter: "Something like eleven or twelve years ago, I began eating Kellogg's ALL-BRAN. When I started, it was called simply Kellogg's Bran, and I believe it was one of the first products of the kind on the market."

"My friends often laugh at my fondness for ALL-BRAN. It gives such a clean taste in the mouth, and I do not feel satisfied until I have had my ALL-BRAN."

"If the Kellogg Company should ever stop manufacturing ALL-BRAN, here is one who would be greatly disappointed."—Miss Amy Person, University Park, Iowa.

Science says that ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to further aid regularity. Also iron for the blood.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. How much safer than taking patent medicines—often harmful. Just eat two table-spoonfuls daily for most types of constipation. For serious cases, try it three times daily. If not relieved this way, see your doctor.

Sold in the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

Education Board Moves to Stop Juggling of Bonds

AUSTIN, Tex.—The State Board of Education has moved to stop Texas school districts from "juggling" their bonded debts.

Attorney General James V. Allred was asked to prepare blank forms on which the true status of interest, sinking fund accounts, tax income and levy, and a record of taxable values, may be recorded for each school district.

The data, sworn to by district officials, will be required of every school district asking the state board to buy its bonds.

It has been reported that many school districts have levied necessary taxes for bond retirement, but have collected only about 30 per cent of the revenue. Others have reduced taxable values by half to so reduce their income as to be unable to pay interest and sinking fund allotments due on district bonds.

Backed by legislative enactment, the State Board of Education has required a strict accounting of interest and sinking fund on only that part of bond issues held by the state school fund. Many districts have defaulted on

the portions of bond issues held by individuals.

One Dallas securities company, which has distributed over \$100,000,000 in Texas municipal obligations during the past 20 years, observed that "a number of communities are now seeking to willfully repudiate their obligations, demanding without justification that principal, as well as interest, should be reduced."

"They have purposely withheld payment of interest coupons and maturing principal where funds were available for payment, in an effort to drive the market for their obligations down."

"A number of communities have purposely increased their general operating expenses to a point where the full available taxing power is used for this purpose, leaving nothing for debt service."

"The property owners located in the repudiating districts are, therefore, being subjected to the maximum legal tax levies and the public officials are lavishly spending the full proceeds of collections without making any payments to its creditors," the manager of the securities company said.

The Board of Education is making an effort to preserve the credit of Texas securities on the bond market.

It now has a cash balance of \$1,476,000 to invest in short term U. S. Treasury certificates because refund bond offerings of \$941,000 have failed. Treasury

certificates will be preferred unless more desirable Texas securities can be found.

"Too much moratorium legislation," has been blamed for the alleged efforts of many school districts to avoid honest debts.

Two Theatre Teams To Play In Ranger

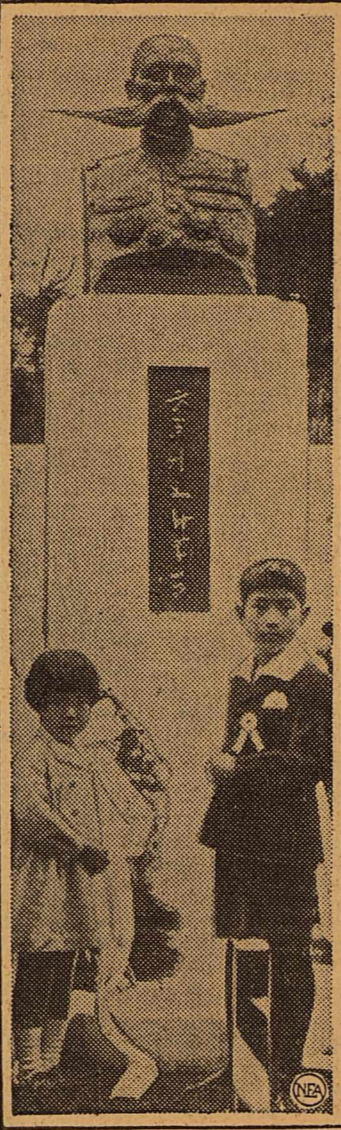

A soft ball team from the Lyric Theatre of Eastland will play a similar team worked up by the Arcadia Theatre of Ranger on the Ranger soft ball diamond Friday morning at 9 o'clock.

Manager B. E. Garner of the Arcadia and Manager John Burk of the Lyric have worked up considerable rivalry between the two teams and the contest promises to be one well worth seeing.

CHURCH-THEATER RAZED
ST. LOUIS, Mo.—Once a church, the 80-year-old Gayety Burlesque Theatre here is being razed to save paying taxes on a perennially losing venture. Originally it was the First Presbyterian Church of St. Louis.

GIBBONS BACK IN RING
MILES CITY, Mont.—Tommy Gibbons returned to a Montana ring—but not in the role of a heavyweight title contender. He served as the third man in the U. S. Treasury certificates because refund bond offerings of \$941,000 have failed. Treasury

Japanese Honor Aviation Pioneer

The most famous mustache in the world is perpetuated in bronze on this monument to Japan's aviation pioneer, the late Lieut. Gen. Gai-shi Magaoka, in Shiba park, Tokio. The grandchildren of the late president of the Imperial Aeronautic Society of Japan are shown as they unveiled the monument.

Experiments Show Vitamin A Needed To Preserve Sight

COLLEGE STATION, Tex.—Lack of Vitamin A may cause weak or defective eyes in babies, scientists at the Texas agricultural experiment station have suggested after experiments with pigs.

Two litters of pigs, all blind, were born in one week to sows that had rations deficient in Vitamin A.

One of the sows, which had not been given any Vitamin A, gave birth to ten pigs without any eyes. The other sow, supplied with Vitamin A before the birth of the pigs but not during the period when the eyes were forming, had a litter of 14 pigs with various combinations of eyes, but all blind. Some had only one eye, some had eyes smaller than usual, and some had normal eyes, but all were sightless.

Dr. A. B. Conner, director of the station, said the experiment may indicate that lack of Vitamin A in a mother's diet affects the nervous system of the embryo.

Fred Hale, chief of the division of animal husbandry, conducted the experiments.

Belled Buzzard Is Alarming Community

JOY, Texas.—A bold-headed buzzard which tolls the death of the plains creatures it feeds upon has been making life miserable for superstitious folks hereabouts.

How the buzzard acquired the bell it wears about its neck no one knows. But almost daily in recent weeks the scavenger bird has been "serenading" this community. There are those who say the tinkle of the bell portends something fearful.

The belled buzzard flies away with two companion birds, in formation something like the wasp-like pursuit planes of Uncle Sam's air fighters.

Plains dwellers know the buzzard's instinct for scenting death. The tinkle of a bell has acquired a gruesome note for them.

A New Banana War Forseen In Suit

EL PASO.—The Standard Fruit & Steamship Company of Mexico, Inc., filed suit in district court here against Juan C. Pena, Inc., to attach five cars of bananas shipped from La Candelaria plantation in Vera Cruz, Mexico.

The suit marked the re-opening of a banana war which apparently had been closed by a truce after several shipments of bananas were recently tied up in El Paso railroad yards by court orders.

PIGEON FLIES HOME
BOSTON.—Pigeons get homesick, too. "Tillie," a carrier pigeon, was sold by Richard Davis of Boston to W. S. Skinner of San Antonio, Texas. One day, not long afterward, "Tillie" reappeared at the Davis home here. It had flown some 1800 miles.

Sterilization of State's Insane Is To Be Revived

AUSTIN.—A revival of efforts to sterilize the insane can be expected at the next session of the state legislature. Surveys being made by the state board of control preliminary to drafting a state budget, show overcrowding of asylums, and increasing waiting lists for them.

Depression has had its effect in increasing the state's burden in caring for insane. Those who have ability to pay are required to assist in maintenance of insane relatives. Major Clark Wright, El Paso, former secretary of the control board, for more than a year has given his time to looking after this source of aid. But it has been found that many who formerly contributed no longer are able to do so; others have been forced to reduce their contributions.

Records of the state hospital, Wright said, show indisputably that insanity is hereditary. There are several instances of three brothers, all in state institutions. Other relationships show persistence of such strains. Relationship data is considered so important that it is the first taken by physicians.

Recent establishment of a state psychiatric hospital is counted upon in time to help reduce the asylum load. Its operation has been too limited to have reduced appreciably the demand for asylum care.

School Teachers to Get Degrees or Be Out of Employment

AUSTIN.—Several thousand school teachers in Texas must either desert their classrooms or turn to summer schools because of a state regulation making college degrees prerequisites for public school teaching certificates.

Among them are teachers who have stayed at their posts when salaries were at depression's lowest ebb, or else went unpaid entirely.

Statewide agitation to save the jobs of such class room "heroes of the depression" has failed.

The state board of education, at a recent meeting here, held that it could not alter or repeal the state law requiring college degrees. The board disclaimed responsibility for the law.

Senator George Purl, Dallas, has appealed to the board to rescind the penalizing order. Discard of those teachers "who have stayed on the job even at low salaries... would be a great loss to the schools and nothing short of a tragedy," Purl declared.

"If this wholesale discharge of teachers is permitted to take place, all of the friends of education in the house and senate combined will not be able to stem the tide of hidebound, narrow and sectional requirements circumscribed by the limited vision of the member who thinks he can prescribe by cold statutes our educational policies."

WEEDS "CURED" ILLS

HOWELL, Ark.—Potions brewed from weeds have cured the ill of Aunt Anny Curry, negro woman, during her 109 years. When she gets sick she goes out into the fields and pulls weeds, takes them into her house and boils some "tea." Every weed, she says, is a good medicine. The talent is in knowing what ills a particular weed is good for.

PRAISED MURPHYS

WORCESTER Mass.—The Murphys reigned supreme at the home of Attorney Charles S. Murphy, who is candidate for the Democratic nomination for district attorney, for an outing. The big event of the day was the talk by Adrian Cousine, a Frenchman, who spoke of fine qualities and virtues of the Murphys.

ETCC Members May Visit Mexico

DALLAS.—Plans have been completed for a nine-day visit in Mexico by members of the East Texas Chamber of Commerce.

A party of 200 will leave Longview by special train July 10. Special cars from Dallas, Fort Worth, Houston and intermediate points will join the train at San Antonio.

Charles F. Ashcroft, president of the regional chamber, and Mrs. Ashcroft will head the party of business leaders and their families.

"Mexico is a country of great potentialities for Texas," Ashcroft said. "This trip presents many possibilities for cementing international relations. We export many commodities from East Texas and in turn buy a large volume of merchandise from Mexico."

"Our trip is not primarily in the interests of promoting foreign trade, but we do feel that it will bring about a better understanding between the people of the two nations."

The visitors will spend five days in Mexico City, making side trips from the capital daily.

Not only East Texas Chamber of Commerce members but interested persons from all parts of the state are invited to apply for reservations on the train and in Mexico City hotels, chamber officials said.

Third Attack Group Will Be Inspected

GALVESTON, June 21.—Tactical inspection of the Third Attack group by a committee of representatives of the Eighth Corps Army area will be held here Friday, June 22, at Fort Crockett.

The inspection is an annual affair and is considered the most vigorous inspection on the year's calendar for the group men. The inspection will require nine hours.

Tactical efficiency of the group men in the air and on the ground will be surveyed. Flying and drill demonstrations and other military maneuvers will be rehearsed to show the proficiency of the unit.

In the air pilots will exhibit their flying prowess with a six-plane aerial review during which they will lay a chemical smoke screen, using simulated gas.

Officials at Fort Crockett said the public was invited to view the demonstrations.

HAD "RAT" TROUBLE

VANCOUVER, Wash.—County Clerk Oral Cain had "rat trouble" in her automobile motor. Her car behaved peculiarly on several occasions and after a second visit to a garage mechanic discovered a half-starved rat imprisoned under the hood.

SECOND ATTEMPT IS SUCCESSFUL

CLEVELAND.—Unsuccessful in a suicide attempt last year, Joseph Kahal, 55, tried again recently and succeeded. His body was found hanging to a rafter in the basement of his home.

AUTO STRIKES BROTHERS

SANDUSKY, O.—Three brothers, William, Charles and Frank Pankow, all farmers near here, were struck by the same automobile while walking in the road after dark, William died the next morning, while the two others

were critically injured. The driver of the automobile escaped.

NAZI TO REPLACE EAGLE

BERLIN.—The automobile trucks, motorcycles, post boxes, stamp automats and other equipment of the German postal service will be painted the red color of National Socialism in the future. And will bear the Nazi symbol instead of the Reich's eagle, as hitherto. The changeover will be made at once, but gradually, as the various equipment needs repainting; it will start in Berlin, Munich, and Nuremberg, the three headquarters of the party.

WHAT! YOU DIDN'T KNOW
KELVINATOR BUILT LOW PRICED MODELS, TOO? . of course they do!

MOST people have the impression Kelvinator builds only the higher priced models. They are generally agreed that Kelvinator is the finest—therefore, it must cost more. Happily, such is not the case, because a Kelvinator does not cost any more than other leading makes and the complete line of 17 different models includes a type and size for every home and every budget.

Any family, regardless of income, can enjoy Kelvinator electric refrigeration instead of having to be satisfied with a "second choice." Before you buy—see the low priced Kelvinator models. They have the same high quality of materials and workmanship that have, during the past 20 years, established Kelvinator as the finest in electric refrigeration. Low down payment and terms to fit your budget.

New Deal Faces A Test in F. D. R.'s Own Home District

HYDE PARK, N. Y.—The New Deal may be subjected to its most severe test in President Roosevelt's own home district—where he launched his political career as an outspoken New York State senator.

The test appeared certain to come at a special election called by Governor Herbert H. Lehman to fill a vacancy in the State senate from Mr. Roosevelt's ancestral senatorial district along the shores of the historic Hudson river.

President Interested

Mr. Roosevelt, it was understood, evinced great interest on his recent visit to the summer White House when informed his administration might become a major factor in the local campaigning.

Thus, the "New Deal" will be tested at the very polls which sent Mr. Roosevelt to the Legislature in 1911, several months in advance of the all-important congressional Republican state leaders believe that the nationally unimportant election "will show how much the political winds have changed in New York State" since the President's election.

Normally Republican

Because the district normally is Republican, Democratic leaders are hoping for a smashing victory, which they believe would aid "New Deal" tests at other elections throughout the nation.

Republican leaders, however, point out that a setback for the "New Deal" in Mr. Roosevelt's home section undoubtedly would have an effect on the congressional elections, especially those where the issue threatens to become a major campaign material.

The Republicans hope for an unusually heavy party vote in Hyde Park, the President's home village and polling place. Defeat of the "New Deal" in Hyde Park undoubtedly would be seized upon by Republican candidates as campaign material.

The vote in Hyde Park at the 1932 Presidential election went against Mr. Roosevelt. The district vote likewise went to Herbert Hoover.

FIRST STATE LIQUOR STORE
GRAND COULEE, Wash.—This city, alongside the site of the mighty \$63,000,000 Grand Coulee Dam, gained the distinction of having the first state liquor agency established in the state. It was established in a local drug store by the liquor control board as a curb on bootlegging that had been rampant among dam workers.

FIRST WEDDING IN 10 YEARS
BEATTY, Nev.—What was said to be the first wedding here in more than 10 years united E. N. Shirley of Yerington, Nev., and Miss Georgia Carpenter. The entire community turned out for the ceremony.

CONNEAUT, O.—The biggest lemon in this section, has just been brought from Florida by W. H. Hurlbert. It measured six inches long, five inches in diameter and weighed four pounds.

All the New Cars Are Racing Cars

It is almost breath-taking to realize that the cars of today, large and small, conceal a power plant that will hurtle them thru space at racing speeds—speeds at which a slip means wreckage and disaster. They do 85 miles an hour or more. Some have speedometers to show two-miles-a-minute.

"Sixty" is common highway speed—which means 88 feet per second—literally flying. Yet today's cars give you the thrill of motoring, the saving of time, the ease of travel and opportunity to "go places."

In racing and on the highway the most dangerous equipment is an unsafe tire. Traveling over the hot, hard surfaced roads—that under the sun reach temperatures hot enough to actually fry an egg—the tires become hot inside and out—and heat is the greatest enemy of tire safety and life. Firestone engineers 15 years ago anticipated the needs of today and have years of experience meeting the most trying conditions of racing—with such success that all the leading racing drivers buy Firestone tires. These men who risk their lives and stake their fortunes can't be induced, under any circumstances, to use other tires. Every one of the 33 cars in the recent Indianapolis 500-mile race was equipped with these tires, and they have been on the winning cars for 15 consecutive years. New records were set up this year under the sizzling sun—but not a single tire failed.

The important thing in tires is not how many plies they have, but how strongly they are held together. To do this job, Firestone uses the patented gum-dipping process, which soaks every cord in liquid rubber to protect every fiber against internal friction and to bind the tire into one strong and inseparable unit.

Rubber has advanced 442 per cent, and cotton 190 per cent, but fortunately for the motorist, tire safety can be obtained today at very low cost, for prices have not advanced in proportion to the advance of materials.

Woman, 109, Enjoys Puffing Cigarettes

BOSTON.—Dr. Marie De Bolivar Davenport's eldest child is 30 years older than her husband.

She is now married to husband No. 3, who is 63. The oldest of her 10 children by a previous marriage is 93.

Dr. Davenport, who claims to be 109, attributes her longevity to activity. She likes to travel, meet people, lecture, and read and study philosophy.

One of her favorite diversions is smoking cigarettes.

Spot on Jupiter is Larger

CLEVELAND.—The large white spot which appeared on the planet Jupiter late in April is growing larger, according to observations made by Dr. J. J. Nassau, director of the observatory at Case School of Applied Science.

The one game that has no play-off after a tie is the race to a railroad crossing.

Pick and Shovel Men Find Indian Fossil Bonanza

By ALFRED BERTHINET
United Press Staff Correspondent
NEW YORK.—Paleontologists and geologists, those historians of the pick and shovel, have discovered a fossil bonanza in the central provinces of India.

Neither the Gobi Desert, nor Wyoming, have any monopoly on dinosaurs, for according to the general report of the Geological Survey of India, Dr. C. A. Matley in charge of the Percy Sladen Trust Expedition has unearthed two broken ribs of a dinosaur and a portion of a scapula of anteorosaurus, another type of dinosaur. Both of these 20,000,000-year-old finds were obtained at Bara Simla, near Jabulpore.

In the Ghanda District near the village of Pijidura, Dr. Matley has secured many fossilized remains of reptiles hundreds of thousands of years old. These consisted of several fragments of dinosaurs' jaws, 85 vertebral centra, a number of ribs and broken limb bones. Giraffes do not live in India today, but the fossil evidence dug up by the scientists indicates that thousands of years ago they were to be seen here. The skull of one of the most perfectly preserved of our types of fossil giraffes, has been removed from the rock matrix, cleaned and has been developed, resulting in greater anatomical detail.

A number of new species of gastropods from the limestone beds of Quilon, Travancore State, have been collected. In northwest Baluchistan, Captain Bomford discovered fossil corals, and in Jabalpur fossil remains of fern-fronds were found, the latter proved to be a genus which has not previously been observed in India.

The Geologic Survey of India, situated at Calcutta, has traded a complete set of colored plaster-casts of the fossil anthropoid apes of India for similar casts of the remains of the recently discussed Pekin Man, which were forwarded from Peiping through Professor Davidson Black of the Peiping Union Medical College.

Interstellar Bandits Found

WASHINGTON.—Dr. P. W. Merrill of the Carnegie Institution's Mount Wilson observatory, and Sir Arthur Eddington of the University of Cambridge, are agreed that interstellar space is an excellent, but not a perfect vacuum, according to statements released by the pair.

"A few lone atoms—one or two hundred per cubic foot—roam restlessly about attacking passing light rays and robbing them of certain favorite vibrations," Dr. Merrill observed.

There are two kinds of known interstellar "bandits," calcium atoms and sodium atoms; the former stealing violet light and the latter yellow light. Although their demands are not heavy, the American astronomer contended, the effect of the petty thefts is so cumulative that in the spectra of certain distant stars the losses appear plainly visible as dark lines.

A most interesting fact is that the intensities of these interstellar lines are used as measures of the distance of the stars in whose spectra they appear.

Sir Arthur, in corroborating Dr. Merrill's observations, added that the most tenuous region in space is that where the sphere of one nebula sheds off into that of another. However, there is always some residual density to the extent of about one atom for every cubic inch.

Moles Are Killed By Poison Method

Absolute control of moles in garden and peanut fields has been reported to the county agent by G. I. McBee of Mangum. This was accomplished by inserting into the run at various points grains of corn coated with a strychnine poison, such as used in raven poisoning.

This poisoned grain is made by dissolving 1-2 teaspoonful of laundry starch in a little cold water, pouring slowly into 8 tablespoons of boiling water, stirring to prevent lumping. When thick like mucilage remove from fire and add 1-8 oz. of strychnine with 10 per cent saccharine mixed in and one teaspoonful of baking soda and stir rapidly; then add one tablespoonful of heavy corn syrup and stir to a smooth creamy paste. Pour this over one quart of corn and stir until grains are evenly coated.

This same mixture poured over wheat or milo makes a good poison grain for sparrows. Handle cautiously and keep in mind that you are working with a poison.

Man would be better off if he crawled around on his hands and knees, says a Youngstown, O., physician. Sure, he'd find his collar button sooner.

CHILD UNINJURED BY AUTO

BEAUMONT.—Parents of Edgar Lewis Wiggins, two years old, were frantic when they saw wheels of a 2,600-pound auto pass over his body. The child was rushed to a hospital. There he was pronounced uninjured.

PINE-BIRCH TREE CURIOSITY

LITTLETON, N. H.—A tree half pine and half yellow birch is growing along the State Ledge road in this town. It has only one base and has grown about seven feet high as one, then separates, making two different trees.

So many bombs have been found in Paris lately, you'd think that city was the capital of Cuba.

Hop Growers on Coast Are Facing A Slower Demand

SALEM, Ore., June 19.—The boom from legal beer subsidy, Pacific Coast hop growers today faced the 1934 crop with a large surplus, slow demand and prices moderate to low.

Just a year ago, spurred by legalization of beer and impending repeal, dealers bid against each other, running hop prices to 75 cents a pound, one of the highest marks on record.

Hops Fluctuated

Today hops fluctuated uncertainly between 20 and 30 cents with demand negligible. Failure of beer consumption to reach proportions originally estimated was blamed for the deflation.

Nearly all commercial hops are grown in the three Pacific Coast states, with greatest production in the Willamette and Rouge River valleys of Oregon.

On June 1 Oregon growers held 20,173 bales of hops from the year before, California 16,450 and Washington 6,172. H. A. Cornoyer secretary of the Oregon Growers Association reported. A year previous the holdings amounted to only 3,204, 2,715 and 1,224 bales respectively. A bale of hops, 200 pounds, is sufficient for 200 barrels of beer.

1934 Crop 85,000 Bales

Last year Oregon produced 100,000 bales, California 57,000, Washington 39,000. Cornoyer estimated the Oregon 1934 crop at 85,000 bales, with a decrease in Washington and slight increase in California.

Further decline in prices is due when the new hop crop goes on the market late in the summer, observers believed. The surplus now on hand will drop sharply in value before the influx of newly-dried hops, preferred by brewers.

INDUSTRIALISTS VISIT FAIR

NEW YORK.—A party of 20 German manufacturers have arrived here enroute to the Century of Progress at Chicago. The trip has been organized by the Leipzig Trade Fair, long visited by American business men, to establish and develop closer business relations between the United States and Germany. The German industrialists will visit Niagara Falls, Detroit enroute to Chicago and on their return will stop at Washington and Philadelphia. The Chicago visit, the third tour of its kind, is proving very popular in Germany.

HIGH ROADWAY PLANNED

RENO, Nev.—A highway soon to be constructed will climb to within 300 feet of the 10,800-foot Mount Rose near here. The road will be one of the highest in the United States. Engineers said on clear days the gilded dome of the California state capitol at Sacramento, more than 100 miles away, may be seen.

SISTER MARY'S KITCHEN

BY MARY E. DAGUE
NEA Service Staff Writer

SALAD meals are the order of summer days because they may be at the same time hearty and light.

The combination of meat and vegetables in hearty salads is fine for summer because it helps to effect a balanced diet. Fruits also may be combined with meats or fish with good results. The vegetable or fruit acts as a filler for the salad and supplies mineral content and ballast in the diet.

The following salad can be varied in several ways, as for instance. Neat cubes of veal and milklike pieces of carrots substituted for the beans and tongue.

Summer Salad

One and one-half cups cold cooked beans, 1 cup cold cooked ham, 1 cup cold cooked tongue, Bermuda onion, green pepper.

Cut ham and tongue in pieces the same size as the beans. Mix and add 2 tablespoons vinegar or lemon juice and 4 tablespoons salad oil beaten with 1-2 teaspoon salt and 1-8 teaspoon pepper. Cover and let stand on ice for an hour or longer. When ready to serve drain from dressing. Wash pepper and cut in rings, removing seeds and white pith. Peel onion and cut in slices. Let stand in iced salt water for ten minutes. Drain and separate into rings. Slice alternating slices of onion and green pepper one above another on a leaf of lettuce. Fill this little pepper and onion cup with the salad mixture and mask with mayonnaise.

Liver and Cabbage Salad

Liver and cabbage salad is unusual and delicious. You will need one cup diced cooked liver, 2 tablespoons minced cooked bacon, 1 cup diced celery, 2 cups shredded crisp cabbage, French dressing, mayonnaise, curly endive.

Marinate liver and bacon in French dressing for one hour. A few drops of onion juice may be added to the dressing if wanted. Remove all membrane and connecting tissue and cut in neat dice.

Two cups prepared sweetbreads, 2 cups shredded celery, 1-2 cup blanched and coarsely shredded almonds, 1 cup peeled and seeded white grapes, French dressing, mayonnaise, lettuce hearts.

Marinate sweetbreads in French dressing made with a combination of lemon juice and tarragon vinegar. Let stand on ice one hour or longer. When ready to serve drain from dressing and combine with prepared materials. Add mayonnaise to make moist and serve in nests of lettuce hearts garnish with thin slices of pimento-stuffed olives.

Tomorrow's Menu

BREAKFAST: Blackberries, cereal, cream, scrambled eggs, graham muffins, milk, coffee.

LUNCH: Summer salad, toasted muffins, strawberry tapioca pudding, milk, tea.

DINNER: Breaded veal cutlets, creamed carrots, stuffed tomato salad, cherry and rice pudding, milk, coffee.

Tree Rings Show Dry Eras in Utah

SALT LAKE CITY, Utah.—Drought periods have come at various times, often much more serious than the present, F. W. Muir, naturalist, said he learned from a study of trees.

A study of cross sections of cores bored into trees revealed drought cycles ranging from nine to 18 years in length, he said.

"The years 1843 to 1850 were particularly dry and stricken in Utah," he explained. "The trees show by their growth that in 1901 to 1905 we experienced another such period. We are likely to have wet years in the future as in the past. I firmly believe the present drought period is about passed."

Soviet Cuts Red Tape In All Its Bureaus

MOSCOW.—The Soviet government has declared war on bureaucratic "red tape."

Consequently, officials who cannot restrain their flair for report-writing soon may find themselves in jail or enroute to Siberia.

Thousands of reports, numberless statistical compilations, many of which accumulated dust without being read, were found to be choking the governmental machinery. Time and paper in great quantities were wasted each month.

So bad did the situation become that the council of people's commissars recently took notice of it.

Branding the writing of excessive reports as "one of the worst signs of bureaucracy," the commissars decreed that only really necessary reports should be made.

The commission of soviet control was ordered severely to punish all violations of the decree.

Boy Calmly Admits Drowning Girl

With hardly a trace of emotion, Floyd Ranker, Jr., 9-year-old Cleveland, O., boy, right, admitted to police that he lured 3-year-old Peggy Young, above, to the Cuyahoga river and pushed her in to drown, hurling rocks at her as she came to the surface. He said he was afraid Peggy would tell her mother he had mistreated her. Floyd also confessed, police say, that he pushed a 6-year-old boy into the river to drown in May, 1933, though he denied his guilt at that time. The boy will face a thorough psychiatric examination and charges of murder may be filed against him.

Del Rio Woman Tells Snake Story

DEL RIO, Texas.—Mrs. Bob Robinson, ranchwoman in the upper Devil's River country, swears by the latest "snake story."

Mrs. Robinson set a mouse trap to catch a most annoying "cake-eating mouse" in the kitchen at her ranch.

Next morning when Mrs. Robinson went to the trap she found it had caught an 18-inch rattlesnake.

"But that," said Mrs. Robinson, "is the least of the story."

In the rattler's mouth was the unwary "cake-eating" rodent.

Dry Weather Best For Killing Bermuda

Dry weather is still the best time we know of for killing Bermuda grass, as shown by a report to the county agent by T. J. Morris of Carbon. Mr. Morris shallow plowed this patch of Bermuda then kept running a spring tooth harrow over it until all of the roots had been pulled to the surface, thus completely killing out the grass. This demonstration was carried out several years ago but the method of control still holds good. It is a well known fact that Johnson grass may also be killed out in a similar manner.

Sensabaugh Named Successor to Smith

CISCO, June 19.—Dr. O. F. Sensabaugh, commissioner for Southern Methodist university, has been appointed presiding elder of the Cisco district of the Methodist church to fill out the unexpired term of Dr. C. Q. Smith, lately

elected president of McMurry College, Abilene, according to the weekly bulletin of the First Methodist church here. Dr. Sensabaugh served four years as presiding elder of this district in the early 1920's. He was appointed by Bishop H. A. Boaz.

RANGER, TEXAS, FRIDAY, JUNE 22, 1934

NUMBER 24

Aged Man Takes A Daily Swim Over Two Miles

FORT WORTH. — Sixty-four-year-old Ben Harris takes a two-mile swim in Lake Worth daily "just for exercise."

Some days, when he "feels the urge," he stretches his exercise to six miles. He is employed at the Lake Worth Casino and the Lake is convenient, he explained. "Nothing to it," he said. "I've been swimming for 55 years."

Harris once held the world's record for the 15 mile swim, he said. His time was four hours, forty-seven and one-half minutes.

Before coming here in 1917, he was a Red Cross life saver at Galveston, where he also dived for oysters in 100 feet of water "on the side."

Harris is the only Red Cross life saver here who is exempt from taking a yearly examination. He also was the first swimmer to pass the Red Cross examination in Tarrant county.

These multiple births have brought out the record of a woman in Poland who gave birth to 36 children at one time. Nothing is said about the father, probably because the children must have mobbed him.

Revival Opens at Christian Church With Enthusiasm

The revival meeting began Sunday at the Christian church and much interest is already being shown. The Evangelist who is to do the preaching arrived Monday afternoon and delivered his first message Monday night. A splendid Monday evening audience greeted him for his first message, and there was a warm and enthusiastic spirit in the service.

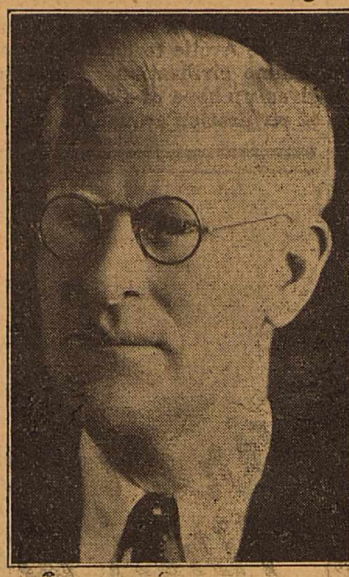

Rev. G. Robert Forrester, the Evangelist, stated that Rev. H. B. Johnson and his people had made splendid preparation for the meetings and for his comfort and entertainment.

12,000 In Ft. Worth Have No Bath Tubs

FORT WORTH. — There are some 12,000 persons in Fort Worth who can not enjoy singing in a bathtub. Reason: They have no bathtub.

Secretary Luther Meacham of the Fort Worth Real Estate board estimated 3,000 of the city's 40,000 "domicile units" have no bathing facilities. An average of four persons to the family makes 12,000 without plumbing equipment.

Conducting Revival

Rev. G. Robert Forrester arrived Monday to conduct a revival now in progress at the First Christian Church.

Officers Elected By Masonic Lodge

Elective and appointive officers of the Ranger Council No. 334, Royal and Select Masters, and of the Ranger Chapter No. 394, Royal Arch Masons, have been announced after an election held Thursday night, June 14.

The elective officers of the council are F. O. Buchanan, thrice illustrious master; D. L. Jameson, illustrious deputy; J. F. Donley, illustrious principal conductor of work; R. O. Bundick, treasurer, and B. C. Johnson, recorder. The appointive officers are B. E. Rigby, captain of guard; J. W. Harman, conductor of council; R. H. West, steward, and John McCleary, sentinal.

The elective officers of the chapter are F. O. Buchanan, most excellent high priest; D. L. Jameson, excellent king; J. F. Donley, excellent scribe; B. C. Johnson, secretary, and R. O. Bundick, treasurer. The appointive officers are A. W. Hubbard, captain of host; R. H. West, principal sojourner; J. W. Harman, master of first veil; R. E. Harrell, master of second veil; F. M. Moffett, master of third veil; J. F. Dreinhofer, royal arch captain, and John McCleary, guard.

Officers, both elective and appointive, will be stalled on Thursday night, July 12.

WOOSTER, O.—Forced to leave college by financial depression 60 years ago, C. W. Patterson, Findlay, O., business man, returned to Wooster College commencement June 11 to receive his Bachelor of Arts degree.

Proceedings In 11th Court of Civil Appeals

The following proceedings were had in the Court of Civil Appeals, Eleventh Supreme Judicial District:

Affirmed—George Callihan vs. Colorado National bank, garnishee, Mitchell; H. L. Barber vs. S. R. Smart, Palo Pinto; Mrs. Laura A. Wallace et vir. vs. August Neuman et al., Jones.

Stephens vs. Lee Dennis et al., appellee's motion for rehearing; Consolidated Gasoline Co. vs. Jarecki Manufacturing Co., appellee's motion for rehearing; The Dallas Joint Stock Land Bank of Dallas vs. T. E. Ballard, ind. exe., appellee's motion to dismiss appeal; Estate of Kate F. Morton, deceased, A. M. Ferguson, temp. admr. vs. A. S. Mauzey, relator's motion for permission to present oral argument on motion for rehearing.

Cases Submitted—A. J. Smith Jr. vs. Stamford Gin Co. et al., Jones; J. E. Lindsey et al. vs. Realty Trust Co., Haskell; J. A. Shipley et ux. vs. Frances Louise Wyatt, Howard; Panhandle & Santa Fe Railway Co. vs. Cadmus Brown, Fisher; Texas Life Insurance Co. vs. Mrs. Verna Plunkett, Baylor.

Cases to be Submitted Friday, June 22—John Bishop vs. Farm & Home Savings & Loan Assn., Taylor; A. T. Strong vs. C. E. DeLaney, Stephens; Texas Employers Insurance Assn. vs. Mrs. Marguerite Ritchie, Howard; Will M. Woods et al. vs. Eastland Building & Loan Assn., Eastland; The First National bank of Knox City vs. Wm. E. Boyd et al., Knox.

Baptist Revival Ended Sunday With Good Record

The revival meeting at Central Baptist church which has been in progress two weeks closed with last night's services. This proved to be one of the greatest revivals in the history of Ranger, the entire little city feeling its influence. There were souls saved from the first service and continued through the last service. All Central cooperated in making this a reaping season.

The prayer bands under Morris Jefferies were a great aid in preparing all hearts for the evening messages. These bands were largely attended and splendid programs were rendered each evening.

The music under Robert Maddox was composed of old time gospel hymns and the great congregation sang them with a spirit thru every service.

The day services were given to quiet soul-talks and were spiritual food for those attending. Every night service was largely attended from the beginning to the close of the meeting.

Rev. Dunlap was faithful in preaching the whole gospel as Baptist believe it. He stayed close to God's Word, and preached it in all its purity.

Yesterday was the best day of the revival in both attendance and interest. The Sunday school reached 315 in attendance. Services were held in various departments and conversions were had in a number of departments.

At the morning hour Rev. Dunlap preached on "Heaven" depicting glories of the heavenly home. Seven came accepting Christ and one by letter. At the evening hour the pastor spoke on the "Baptism" upon the invitation eight came forward for membership, four upon profession and four by letter. The evening service was used largely as a baptismal service, 49 being baptized.

The results to church meeting are: Additions to church by profession for baptism, 71; additions by letter, 17; additions by statement, 3, making a total of 91 additions to church.

Those making professional but not joining church 23 making a total of 114 taking a standard for Christ during the revival.

Central is rejoicing in an old time revival of oil time religion.

PWA Planning To Put Millions Into Circulation

WASHINGTON, June 18.—The Public Works Administration, already credited with re-employment of 2,000,000 workers planned to put additional millions in circulation today in a new drive for national recovery.

Diminished by allotment which exhausted the original \$3,300,000,000 of PWA purse was expected to be replenished to the extent of \$500,000,000,000 as a result of congressional approval of the deficiency bill.

Such a fund, if authorized by President Roosevelt, would permit grants to political sub-divisions for public works amounting to about \$350,000,000. The measure allows the RFC to hold \$250,000,000 of bonds offered to PWA as securities for previous loans.

Man Wants Term In County Jail

AMARILLO, Texas.—A self-acused vagrant is spending 23 days in the Potter county jail because of the willingness of Justice J. V. Pottinger to grant the man's wishes.

The man explained to Justice Pottinger he had "been on dope," was a vagrant and wanted to be locked up where he couldn't get to the "stuff."

The justice obliged with a \$50 fine and costs, which it will take 23 days to "lay out."

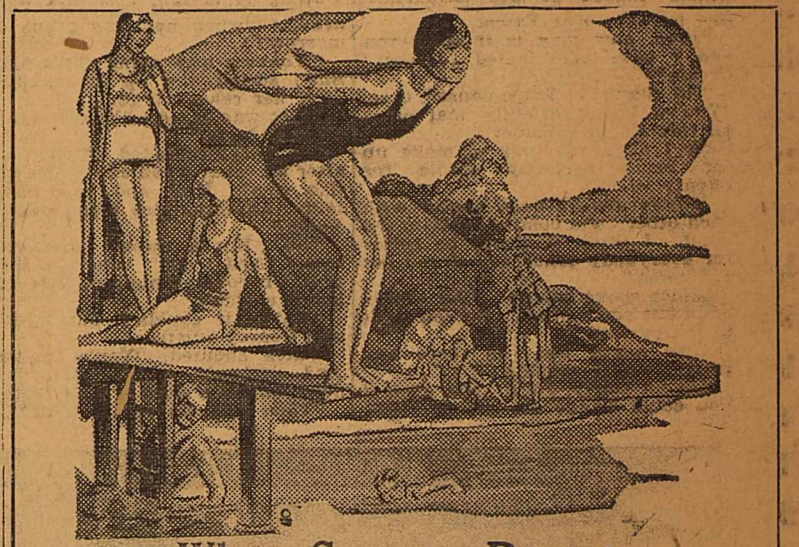

There seems to be an unusual demand for coins of all denominations, says Secretary Morgenthau. What's so unusual about that?

President Plans Short Vacation

WASHINGTON, June 19.—Congress has only a 24-hour start on President Roosevelt in getting out of Washington. The president's plans unchanged due to success in adjourning congress, will leave tonight for New Haven where Yale University will award him an honorary degree.

He will return to Washington later in the week. He plans to leave June 30 on his trip to Hawaii.

Any light but white will make a person nervous, says New York University scientists—red especially, if it stays on too long.

WILLIAMS HARDWARE COMPANY 311 MAIN STREET RANGER

County School Superintendent Applies For Aid

Application for state aid for Eastland county schools which had among their pupils during the 1933-34 term pupils who had been transferred from other schools, has been made by the county school superintendent.

The amount of tuition due from the state is \$4,121. Laws of the state education system have it that schools that are able shall pay tuition of students transferred to other districts, but if their financial status makes the matter impossible then the state pays. The only schools in the county that were able to pay tuition for their students transferred were Reagan, New Hope, Long Branch and Grapevine.

When warrants for the money has been issued by the state City will receive \$754; Ranger \$482; Eastland \$243; Rising Star \$472; Carbon \$477; Gorman \$236; Pioneer \$731; Morton Valley \$281; Alameda \$150; Okra \$84, and Union, in Callahan county, will receive \$126.

Breck Man Owns Old Powder Horn

BRECKENRIDGE, Texas.—A 175-year-old powder horn, made from a cow horn in the Revolutionary war days, has been put on display here by Albert F. Goff. The horn has been handed down through the generations to the eldest son of each family. On it is written: "Made at Fort Edward, North Carolina, Nov. 5, 1857, by Jacob Gay."

POISON IVY

And POISON OAK, burns or irritations are quickly healed by using the combined BROWN'S LOTION and BROWN'S LOTION SOAP treatment. Itching is stopped immediately. BROWN'S LOTION is 100 per cent active as an antiseptic and germicide. For sale and guaranteed by Oil City Pharmacy.

Marine Corps Will Recruit 1,000 Men

NEW ORLEANS.—Col. William C. Harlee in charge of replacement activities of the U. S. Marine Corps in the Southern states, on his return to the Marine Corps Headquarters in New Orleans from a trip to Washington, announces that the Marine Corps has allocated to the Southern area under his charge 600 of the 1000 Marine Corps vacancies recently created by Congress.

The Marine Corps District of New Orleans, with office and examining rooms at the City Hall Annex, has been assigned 200 of these vacancies for Louisiana, Texas, Oklahoma, Arkansas, and Mississippi.

The remaining vacancies are assigned to the Marine Corps Districts of Macon, Ga., which includes Alabama, Tennessee, and Georgia and to the District of Savannah, Ga., which includes Virginia, North Carolina, South Carolina, Florida, and part of Georgia.

Most of the vacancies will be filled from waiting lists of qualified applicants.

Applicants must be graduates of high schools or have equivalent or superior education, must be over 18 years old and over 66 inches tall. Evidence of educational and physical qualifications and also of character and standing in home community must be submitted by mail before applicants are admitted to the examining offices.

Until the recent act of Congress furnishing funds to maintain the Marine Corps at its normal strength only a small part of the qualified applicants on the waiting lists could be accepted.

The South has been favored in the allocation of men to be accepted in the Marine Corps because of economy in their transportation to the training station at Parris Island, S. C., where all men accepted east of the Rocky Mountains are sent for first training. Heretofore the vacancies were evenly distributed throughout the country according to the population of the states giving the South only a meager share of the few vacancies.

HUDSON and TERRAPLANE

PRICES REDUCED UP TO \$50

NOTHING CHANGED BUT THE PRICES

THE identical Terraplane and Hudson models that have swept ahead of the automobile industry in sales gains this year can be bought today at sharply reduced prices.

At these new reduced Terraplane prices you get the BIGGEST car in the lowest price field, 15 ft. 10 in., bumper to bumper... the only fully advanced styling in the lowest price field... the most famous performance record of ANY stock car, backed by official A.A.A. certificates. On the Hudson 8, compare the price... then compare the horsepower, the ruggedness, the economy, the style! 108 and 113 horsepower! Performance that challenges all other Eights! Economy that challenges ANY 8 to deliver more power from less gas!

Get the most for your money with a new Terraplane or Hudson! Don't take our word for it. Don't take the word of thousands of satisfied Terraplane and Hudson owners. The wheel is waiting for you—you be the judge!

PINE AND MARSTON REPAIRING — WASHING — GREASING

SISTERS UNDER THE SKIN starring Elissa Landi... FRANK MORGAN - JOSEPH SCHILDKRAUT... COLUMBIA PICTURES.

WHAT HAS HAPPENED John Hunter Yates resigns as president of his huge corporation to enjoy the remaining years of his life...

"So please, please... don't ask me to be logical. I only want to be honest." (Posed by Elissa Landi and Joseph Schildkraut.)

It still wouldn't be any good. You're asking me to marry you because you think that'll hold her. It didn't hold us, did it? And however much I've failed as a wife, at least I've never loved anyone else...

Broadway electric lights told a tragic story. On a theatre marquee glistened this tale: OPENS TOMORROW BLOSSOM BAILEY IN A NEW PLAY "BOY AND GIRL"...

What with the Canadian quintuplets and the Iowa quadruplets, can't the A.A. do something about this overproduction?

BLACK-DRAUGHT "Such a Good Laxative," Says Nurse Writing from her home in Festus, Mo., Mrs. Anna LaPiano says: "I am a practical nurse and I recommend to some of my patients that they take Black-Draught, for it is such a good laxative..."

Beer Boycott Said To Be Effective

FORT WORTH.—Members of the Morris Sheppard chapter of the W. C. T. U. here say their boycott against beer-selling merchants in Rosen heights residential sector has been highly successful.

that they would patronize no merchant who sold beer.

"Most places that sell beer have signs up," the president of the chapter said. "If we don't see any sign we always ask them point blank: 'Do you sell beer?' If they do, we walk right out. Consequently there is no beer in Rosen heights."

We may have streamlined automobiles and streamlined trains, but there's the same wreckage after a crossing crash, anyway.

Are your Tires worn to THE DANGER LINE SAFETY INSPECTION FREE "DRIVE IN" In summer, smooth tires soon wear dangerously thin—become weak—quickly reach "the danger line." Your risks increase—from cuts, punctures, sudden blowouts. Don't risk your neck on hot roads with "danger-line" tires when safe new Goodyear cost so little. Let us inspect your tires for safety—now!

SMASHES SPEEDWAY RACE RECORD! —and then he smoked a Camel! BILL CUMMINGS FOUGHT OFF a fast field of daring drivers for over 4 1/2 exhausting hours of nerve-racking, record-breaking speed to take the 500-mile classic at the Indianapolis Speedway.

TRY THIS EXPERIENCE in increasing energy quickly when worn out! If you have ever tried to clock 300 or 400 miles in one day's drive you can imagine the terrific output of energy a racing driver crowds into "the 500" at Indianapolis. As Bill Cummings said himself after the race: "For 200 grueling laps...I had to average 104.863 miles an hour, the new world's record for 'the 500'...sometimes hitting it up to over 2 miles a minute...to win. 4 hours and 46 minutes of this wrings the vitality out of a man. I felt pretty well played out at the end of the race. My mechanic and I turned to Camels for the first luxurious smoke that always chases that tired feeling away. Any time I'm 'all in' I know that Camels will give me a 'lift' in energy. I smoke them steadily, too, because I know that Camels will never jangle healthy nerves."

V. V. Cooper Announces Candidacy For Commissioner Precinct No. 1

V. V. Cooper of Ranger, former commissioner from Precinct 1, has announced his candidacy for that position, subject to the action of the democratic primaries of July 28.

Mr. Cooper served as commissioner from the precinct during the period when there was more activity in the county in building roads and other permanent improvements that were voted and carried out by the commissioner's court.

When he first went into office \$4,500,000 had just been spent on public roads in Eastland county, including the building of Highway 1 through the county. The roads were not in a completed state and \$260,000 in warrants were issued by the commissioners court to complete this road work in order that they might be taken over by the state highway department.

During the oil boom the rural roads had been neglected until many of them were in bad condition. When he went into office he put them back on their proper roadbeds, reshaped and rebuilt them, giving the precinct a good system of rural roads.

The bridge over Colony Creek at Merriman, a concrete span that cost \$6,000, was constructed under his administration. He personally supervised and constructed an 80-foot span over Lake Eastland, a project that was completed for \$3,500 and a bridge of the same type over Colony Creek at Panhandle, which cost the same as the Eastland Lake span.

In addition to this road work there were 550 small bridges and culverts installed along the rural and state roads that were completed under his administration, a total of approximately 300 miles of such roads being relocated and rebuilt, local labor being used and reasonable wages being paid for all the labor.

The former commissioner has always stood for a reasonable wage for labor and has always used local labor in the construction and maintenance of the roads of the county.

In addition to building and maintaining the rural roads, he saw to it that every schoolhouse in the precinct was on either a highway or a lateral road, and at least once each year the county grader and tractor crews were instructed to blade the grounds of these rural schools as they were working in the vicinity, thereby aiding these rural schools in maintaining

Galveston Faces Vegetable Shortage

GALVESTON.—Galveston county truck and fruit crops and pastures have been hard hit by the drought, according to farmers here and a general shortage of most products is feared.

Galveston Island watermelons and cantaloups, due to reach the market around June 20, will be almost a total loss unless rain is received within the next few days.

The only farmers who have escaped the effects of the drought here are those who have their own irrigation systems.

The gulf coast fig crop is now in a critical condition, it was reported and unless the drought is broken it is expected that production will be limited to about 1,000,000 pounds instead of the 3,000,000 to 4,000,000 expected.

Excessive heat and dry weather brought the local strawberry season to a close earlier than usual this year. Young berries are now ripening but the crop will be short if dry weather continues, farmers said.

Other fruits also are suffering from lack of moisture.

their grounds and helping to keep them in good condition. This was done because it was realized that the patrons of the schools were taxpayers, and just as entitled to receive this recognition as those who used the roads and highways.

It was during the administration of Mr. Cooper that the county courthouse was built, and bond issue being submitted to the voters of the county upon presentation of a petition, properly signed, to the commissioners court. The commissioners selected the architect, awarded the contracts and kept a close supervision over the work at all times. When the building was completed, the sidewalks installed, the grounds landscaped, grass and trees planted and the shrubbery arranged about the building, it was found that a saving of more than \$1,000 had been made possible through the efforts of the commissioners out of the \$300,000 voted for the purpose.

When Mr. Cooper went into office the City-County hospital had been built, but had never been opened. It was due largely to his efforts that the project was completed and kept open throughout the remainder of his term.

Mr. Cooper is seeking the office of commissioner of Precinct No. 1 by strong solicitation of the citizens of the precinct because of his past record as a commissioner, and the many constructive projects for the good of the entire county that were originated, planned and carried out during his term in office, as he was actively engaged in each of the movements, and, if elected, plans to become just as keenly interested in the good of his entire district as he was during the years he served the people of his precinct.

State Auditors Say Relief Distribution Is "Questionable"

AUSTIN, June 18.—State auditors today said it was "questionable if relief funds have been fairly distributed over the state" after completing a report on Texas relief for three months ending Feb. 28, 1934.

The report showed the amount expended for direct relief per destitute person varied by population groups.

"Due to the fact that relief applications from counties are not all compiled on a uniform basis and are inflated in many instances, it is difficult to allocate relief funds so all relief subjects over the state will receive the same proportionate amount of their needs, it was pointed out.

An oral of \$6,413,791 was allocated and advanced to Texas counties for relief during the three months.

Bill Cummings Plans Active Race Season

Fresh from his victory in "the 500" at the Indianapolis speedway, Bill Cummings is already busy with plans for carrying out a strenuous program of racing for the balance of the season at the various tracks. For nothing dims the ardor of this youthful veteran for the motor racing game!

Discussing his victory after the race, Cummings said, "thirty-three drivers started the Indianapolis classic this year . . . scorching the bricks over that 2½-mile track. For 200 grueling laps . . . nearly five hours of it . . . we kept up the blistering race. I had to average 104.863 miles an hour, the new world's record for 'the 500' . . . sometimes hitting it up to over two miles a minute . . . to win. Four hours and 46 minutes of this wrings the vitality out of a man and you can bet that I felt pretty well played out at the end of the race."

Cummings' first request after the race was for a Camel. "Any time I'm 'all in,'" he explained, "Camels give me a 'lift' in energy. I smoke them steadily."

In view of the known preference for Camels of champions in various fields of sports, such as Cummings, Ellsworth Vines Jr., Bill Horn, winner of the Gold Cup Speedboat event, Miss Helene Madison, Olympic champion swimmer and holder of many world swimming records, and others whose endurance and energy is constantly tested to the limit, Camel advertising now stresses the "energizing effect" in Camels which has been experienced by millions of smokers, and recently confirmed by scientific studies carried out in a famous New York research laboratory.

Lady Says CARDUI Eased Pain In Side

Cardui helped an Oklahoma lady, as described below, and many others have benefited in a similar way. . . . "I had a hurting in my side every few weeks," writes Mrs. Bill Stewart, of Dewar, Okla. "I had heard of Cardui and started taking it. It stopped my hurting and built up my strength. I took 11 bottles and I sure felt better." Try Cardui for pains, cramps, nervousness due to a run-down condition. Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

Bank Deposits Bill Is Signed

WASHINGTON.—President Roosevelt Saturday signed a bill providing for a one year extension of temporary insurance of bank deposits and raising the amount guaranteed in full from \$2,500 to \$5,000.

The permanent law would guarantee deposits up to \$10,000 and partially insure bigger accounts. Under a compromise between the House and Senate on bank "payoff" legislation, the law will authorize the Reconstruction Finance Corporation to lend more liberally on the assets of closed banks, or purchase them.

Jesse Jones, RFC chairman, estimated to congressional conferees the corporation had a fund of \$1,000,000,000 available for this purpose, but indicated it would be used cautiously.

Other provisions of the law will: Authorize the RFC to lend \$250,000,000 to the Federal Deposit Insurance Corporation on demand of the latter.

Give banks until July 1, 1937, instead of July 1, 1936, to become members of the Federal Reserve System in order to remain in the Deposit Insurance Corporation.

Extend the deposit insurance to Hawaii and Alaska.

Olden H. D. Club Met Last Friday

Olden Home Demonstration club met Friday, June 15, with eleven members present. Miss Ruth Ramsey was present and helped some more of the ladies to get their foundation patterns.

Cakes were brought to the meeting and judged, Mrs. Josie Gullett having the best.

The cakes were then served with an iced drink. Meeting was brought to a close at 4:15, everyone saying they had had a nice time.

Try this new wonderful face powder. 50c and \$1.

Oil Price Cut Is Feared As Well In Cherokee Comes In

HOUSTON.—Will the discovery well in southern Cherokee county bring into production another vast East Texas field that will further reduce the price of oil, which at present is held up shakily by extreme proration measures? And how big is the new Rusk oil pool? These are two questions that are causing worry to the oil industry and considerable expense to oil operators since Dick Young and T. J. Wood brought in a wildcat well near Rusk recently.

The oil men are sure of one thing. That is that another field anywhere near the size of the East Texas field would be a serious blow to the oil business. Another field of that size would transform the petroleum industry into a highly competitive, low-profit business that would demand more stringent supervision than that offered by the state railroad commission or the proposed, but now tabled, federal oil control bill, operators agreed.

Geologists, paleontologists, petroleum engineers and old-style "well men" who believe drilling is the only solution to the oil problem, hesitate when asked to forecast the type of field struck by the Houston operators. They reluctantly admit, however, the only answer to these questions is some 5,000 feet under ground in Cherokee county. Very little is known of the Wood-Young well. And very little oil has been produced from the well. But that which has been produced tested 40 degree gravity and is the same greenish, foul-odored oil that comes from the Woodbine sand of the East Texas field, where nearly one-fourth of the nation's daily oil supply is produced.

The experts said the field could be of any size, since only two directions are limited—the south and the west.

The Cranfill & Reynolds company drilled a dry hole to 5,170 feet five miles west of the discovery well. The Mustang Oil company drilled five miles south of the discovery, found the Woodbine at 5,178 feet, but reported the well dry.

Recent surveys made by geologists shows the trend to be north and northeast. Operators said the Young-Wood well conceivably could be the southwest corner and the field could exceed the size of the East Texas pool, the largest yet discovered.

PASTORS' PRAYERS ARE ANSWERED

BELLEFONTAINE, O.—Ministers who prayed for rain here were rewarded the next morning by fierce lightning and thunder which brought a pelting rainstorm.

FROWNED ON NUDE ART

Resinol

"In over 100,000 miles I have experienced no motor trouble in my Fords."

"On a 475-mile trip I averaged 18 to 19 miles per gallon of gasoline in my Ford V-8."

"To date, I have driven 29,000 miles in my Ford V-8 without a cent of repairs."

"We drove a round trip of 600 miles and used exactly 26 gallons of gasoline."

"I have not spent five dollars for repairs on the five Fords I have owned."

"I have driven my Ford V-8 car 2600 miles and used only 128 gallons of gasoline."

"Our experience (with a fleet of cars) shows the Ford V-8 is the most economical."

We went direct to owners for facts about Ford V-8 Economy

THERE'S one sure way to get the facts about motor-car economy. And that's to ask the man who drives the car. He hasn't anything to sell and you can depend on him for a straight-from-the-shoulder, honest answer.

We asked Ford V-8 owners for the facts and received 53,448 letters and post-cards. They showed a total of 417,161,640 miles. 91.7 per cent reported complete satisfaction—a truly amazing percentage for any automobile.

34,954 of these Ford V-8 owners had driven their cars 272,815,970 miles without a single penny for repairs. Many of them reported twenty, thirty and sixty thousand miles with-

out trouble or replacements of any kind.

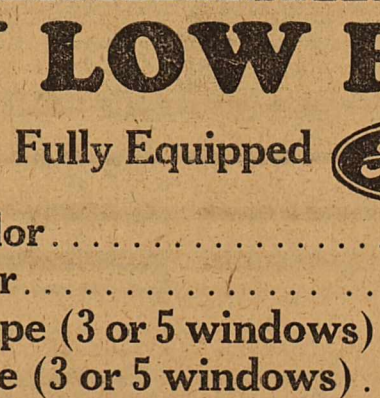

Owners' figures on gasoline mileage are further proof of the economy of the Ford V-8. One owner in every four averaged 18, 19 or 20 miles a gallon. 18,420 averaged 15, 16 or 17 miles.

Where mileage was less than that it was usually due to continuous driving at high speeds, lack of proper care of the car,

extra-heavy loads, or many miles of traveling over mountains or in crowded city traffic. Where you drive and how fast you drive has a great deal to do with gasoline mileage.

This data on gasoline mileage is for the 1933 Ford. The New Ford V-8 of 1934 does considerably better than that because of the new dual carburetion, waterline thermostats and new engine refinements. At the same time its power is even greater.

We invite you to drive the Ford V-8 and let it tell you its own story of performance, comfort, safety and economy. You save when you buy and you save every mile you drive.

THE 'NEW DEAL' CONGRESS IS ON WAY HOME

WASHINGTON, June 19.—The 73rd congress which enacted the framework of President Roosevelt's new deal went home today. The end came undramatically at 11:45 last night to the congress which had vested the president with powers greater than any ever held by a peace-time executive.

Today congressmen and senators, most of them seeking re-election, were trekking homeward, anxious to learn what the country had to say about the new course which they have charted for the nation. And the nation, with congress out of the way, was at liberty to start the business recovery which so many have said would begin as soon as it was known just when the law-making would cease.

GRAPEVINE

GRAPEVINE, June 19.—There was a large crowd attended the musical program and candidate speaking at Grapevine last Tuesday night. Mrs. J. M. Mitchell spent Thursday afternoon with Mrs. N. B. Grey.

Mrs. T. E. Seabourn and children visited Mrs. J. M. Seabourn Sunday. Jimmie Mae and Billie Faye Mitchell spent Thursday with Muriel Grey.

"Old Rip" Going To World's Fair

"Old Rip," famed horned frog of Eastland which was placed in the cornerstone of the old courthouse and removed 31 years later, will be sent to Chicago in the next few days to be exhibited in Robert L. Ripley's Believe It or Not Odditorium on the World's Fair grounds, W. M. Wood, who has control of Rip, said Saturday morning.

Other trips taken by Rip include one to the East, at which time he was presented to President Coolidge.

When you are suffering, you want relief—not tomorrow—not next week—but right away. DR. MILES' ANTI-PAIN PILLS relieve in just a few minutes—less than half the time required for many other pain-relieving medicines to act.

Next time you have a Headache, or Neuralgia, or Muscular, Sciatic, Rheumatic, or Periodic Pains, just take an Anti-Pain Pill. Learn for yourself how prompt and effective these little pain relievers are. You will never again want to use slower, less effective, less palatable medicines, after you have used DR. MILES' Anti-Pain Pills.

National Labor Board Is One of NRA's Busiest Children

WASHINGTON.—On Aug. 5, 1933—six weeks after the recovery act was passed guaranteeing freedom of collective bargaining to labor—the National Labor Board was created to "pass promptly on any case of hardship that may arise from interpretation, or application, of the President's re-employment agreement."

Applications For Cotton Tags Still To Be Received

The Agricultural Adjustment Administration announced today that applications for identification tags for cotton ginned prior to June 1, 1934, which is exempt from the tax provisions of the Bankhead control act, will be received after June 15.

In a previous announcement, holders of old cotton were asked to make these applications prior to June 15. Applications may be made by letter or on the government form, through the county agent.

These instructions are issued as a result of numerous inquiries by telegraph and telephone in order to assure persons interested in the cotton business that all old cotton will be tagged as soon as it is physically possible to accomplish the task and that taggers will act on applications even though the applications are filed after June 15 and are not on government forms.
