O give thanks unto the Lord for He is good; for his mercy endureth forever. — Psalm 107-1.

Thanksgiving Day is a time for reflection and holy remembrance. It carries us beyond the temporalities of the day and reminds us of blessings that are unaffected by passing whims of fortune. We do well to bear in mind the whole scheme of the universe which God has wrought for our advantage. He has set the sun in the heavens to give us warmth and light. He has provided the cattle on the hillside, the fruitful trees, the ripening fields of grain. He has made our world beautiful, everywhere apparent in the wonder of mountains and rolling fields, in the restfulness of wooded haunts and flowing streams, in the flow of golden sunsets and mystery of evening stars. He has provided companionship of friends, the warmth of love and affection, and all those intimate personal satisfactions which enhance the joy of living.

# County, Area Highway Work Is Included In New Project

Reconstruction of an Eastland County highway and extensive work in adjoining counties on highways which transverse this county are included in the new \$350 million State Consolidated Highway Program, it has been announced here.

District Engineer E. M. Pritchard has announced projects as follows in his nine county district:

In Eastland County, reconstruction of U. S. 133 is planned from the south city limits of Cisco, south to Romney.

Complete reconstruction of U. S. 183 from U. S. 130 in Breckenridge, south to Farm Road 1032 is planned for Stephens County. Also on U. S. 180, additional surface is planned from the Shackelford Co. line to a point 6.7 miles east; and on two miles of this highway in Breckenridge.

In Comanche County, reconstruction of State Highway 16

is planned from US 67 south to the Mills County Line and additional surface and paved shoulders is planned on State 6 from Eastland County Line, southeast to St. 16 in De Leon. Also in Comanche County additional surface will be applied on St. 36 from FM 1476, southeast to the Hamilton County Line.

In Brown County reconstruction is planned on US 84 from East City Limits of Bangs to Bluffview Drive in Brownwood a total of 7.2 miles; and on St. 279 from Callahan County Line South to 3.4 miles South of Cross Cut a distance of 6.9 miles.

In Coleman County, reconstruction is planned on US 84 from the Taylor County Line Southeast 4.7 miles.

US 281 in Lampasas County is to be reconstructed from North of Lampasas, North to FM 1690 and the approaches on the railroad overpass North

of Lometa on US 183 will be widened.

Funds for purchase of right of way for reconstruction of US 87 in McCulloch County from FM 2023 near the south City Limits of Brady, South to the San Saba River were provided.

In Mills County reconstruction is planned on US 84 from the Brown County Line, Southeast to Mullin; and bridges and approaches are to be widened on U. S. 84 east of Goldthwaite and on U. S. 183 south of Goldthwaite.

Funds were also included in this program for certain other projects which have been previously approved and on which planning has already started.

Pritchard said the total cost of all the projects as programmed for this District is \$8,347,500.

The Texas Highway Commission approved the two-year program, described as one of the most important in the history of the Texas Highway Department.

State Highway Engineer D. C. Greer said the 1967-1968 program includes work on 9,469 miles of roads under the Department's jurisdiction and called it one of the "most meritorious programs ever formed by the Department."

He stressed the program's many safety features, the protection of investment previously made from highway user tax funds and the immediate benefits that will add to the safe and efficient movement of traffic over the Texas highway system.

The Commission approved projects to cost \$337.9 million, with \$12.7 million being held in reserve for future assignment. The ultimate program will approximate \$350.6 million.

The program includes 1,809 miles of construction and reconstruction on highways that carry U.S. or State numbers at an estimated cost of \$262.8 million.

It also includes the state's portion of the cost of 587 miles of right of way on U.S. and state-numbered highways at an estimated cost of \$19.3 million.

Betterment work for the improvement of travel conditions and protection of investment and state-numbered highways is included in the program at

an estimated cost of \$24.1 million.

Also covered is betterment work on 3,930 miles of existing Farm and Ranch to Market Roads at an estimated cost of \$31.6 million.

Considering all features and types of roads covered in the program, some 1,900 miles which will cost an estimated \$174.7 million to complete, fall in the category of highway safety.

This covers widening of the existing lanes, construction of additional lanes, paving of shoulders, widening of structures, grade separations, barrier fences and guard fences.

The safety projects included in the program take on added significance considering a recent report showing a decrease in traffic accidents and deaths on U.S.-and State-numbered and Interstate highways.

A third-quarter report by the Department of Public Safety showed 94 fewer deaths on U. S. and State numbered and Interstate Highways as of last October 1 than in the same period in 1964. Fifty-seven fewer accidents were reported.

The program's safety projects, by types of work, include:

Widening pavement, reconstruction and widening of grading, structures and surfacing on 1,463 miles at an estimated cost of \$98.7 million.

Construction of additional lanes or 295 miles at an estimated cost of \$59.5 million.

Construction, improvement and or stabilization of shoulders on 122 miles at an estimated cost of \$3.3 million.

Construction, reconstruction and widening of structures on 15 miles at an estimated cost of \$6.1 million.

Grade separations on seven miles at \$6.8 million.

Barrier fences, guard fences, signing and miscellaneous projects on 14.8 miles at \$159,000.

## Why more motorists switch to the Tiger when it gets cold.

Many cars that ran just fine all summer get into trouble when ear-muff time rolls around — stalling at stoplights and coughing and chugging halfway into town. That's when a lot of people switch to the Tiger. Winter-formula Enco Extra gasoline is blended to match the weather conditions in your area — including a special

additive to help guard against icing. Result: easier starting, faster warm-up and a lot less worry about stalling. You'll like the way new Enco Extra behaves on the open road, too. It's the High-energy gasoline with the: (1) cleaning power; (2) firing power; (3) octane power to help preserve the performance of new

cars and restore lost power and mileage to many older cars. Switch to the Tiger and get that nice warm feeling. Happy Motoring!

# Eastland By-Pass Hearing Set Dec. 10 In Courtroom

A public hearing on the proposed by-passing of Eastland by Interstate Highway 20 has been announced by the Texas Highway Department for Friday, Dec. 10, at 10 a. m. in the County Courtroom in the Courthouse.

All interested persons are advised that the construction of Int. Highway 20 from 2.5 miles east of the east city limits of Cisco, east to one mile east of Eastland is being planned by the Highway Commission.

Preliminary drawing plans and sketches showing the revised improvements and geometrics are on file at the Resident Engineer's Office at Eastland and at the County Judge's office in the courthouse, Resident Engineer R. P. Haun has announced.

The revised drawings include frontage roads as requested by the delegation of Eastlanders who appeared before the Highway Commission in July. The announcement does not mention an interchange for the Bassett St. crossing.

The contemplated location will by-pass the City of Eastland and in general, follow the Base Line County Road

to a point just west of State Highway 6. It will then continue in a Northeasterly direction to the junction of U.S. Highway 80 and F. M. Highway 570. This hearing is to present to the public, revised geometrics and design of additional frontage roads as proposed by the Texas Highway Department and previously requested by the City of Eastland, the announcement says.

## Bluebird Group Meets Thursday

The Busy Bee Bluebirds held their regular meeting Thursday, Nov. 18, from 3:30 to 5 p.m. at First Methodist Church.

Mrs. W. C. Tipton was director of activities for the meeting. The girls made bouquets of carnations or Keweenaw.

(Attending were Shirley Falls Sue Tipton, Melody Bethany, Delinda Anisworth, Vicki Duval, Susie Hamilton, Debbie Higginbotham, Rhonda Squyers, and Marilyn Huckaby.

Mmes. Owen Falls, Richard Bonney, and W. C. Tipton are leaders. The group meets on the 1st and 3rd Thursday of the month.

## Report On Cover Crops Is Urged By ASCS Office

The Eastland County Agricultural Stabilization and Conservation Service has urged farmers to report cover crops when seeded, by signing and sending in approval. If you have an approval and will not plant the cover, please report this to the ASCS office, in order that the costshare funds can be made available to your neighbor, Office Manager J. G. Meredith said.

The earlier you report, the earlier the cost-share can be paid, according to Jesse Meredith, office manager. If a farmer's full peanut history is not already protected by picking and threshing 75 per cent of his allotment in 1963 and 1964, and he will fail to pick and thresh 75 per cent of his allotment in 1965, he may file a request for waiver of this provision stating the abnormal condition and on approval, his history will be preserved. His 1966 allotment will be affected if the 1965 history is not protected.

Farm program legislation recently approved by Congress and signed into law, provides a program for voluntary participation on the following programs:

Wheat and Feed Grain—price support, diversion and certificates very similar to the program for 1965.

Cotton—price support and division payments with a provision for sale and lease of allotments (this part of the program depends on the outcome of the referendum on Nov. 23).

Cropland Adjustment—retirement of land for five to ten years that is devoted to allotment and other surplus crops.
