SIXTIETH YEAR

Sonora, Texas, Friday, September 15, 1950

FORTY-EIGHTH WEEK

Three-Day Race Meet Here Oct. 6, 7, & 8

A three-day racing meet, Friday, Saturday and Sunday, October 6, 7, and 8, will be sponsored at the local track by the Sonora Park Association. Also on the program are roping Friday and Saturday nights and winding up Sunday afternoon, after the races, with a team matched roping between Walton Poage and Tom Powers against Cliff Lowrey and James

Leonard. This match will start Friday night, Oct. 6, be continued Saturday night and finish Sunday afternoon.

Several jackpot ropings are also on tab for Friday and Saturday nights, with \$5 and \$10 entrance fees.

R. M. McCarver, secretary of the association, said he planned to send out 200 applications to own-

ers.

A special section of reserve seats, running ninety-six seats on each side of the finish wire, is being roped off this week. The grandstand is being painted and reserve seats branded with number and letter of the row. Price for a reserve seat to all three days of racing and both nights of roping is \$10 according to Joe M. Vander

Stucken, ticket chairman.

Vander Stucken said Wednesday that neither businessmen nor business houses will be asked for donations for this meet. Reserve tickets may be bought at the First National Bank.

The minimum purse offered in the races is \$150, and from five to seven races, ranging from 3/30 yards to 3/4 mile are planned.

Caldwell Funeral Held Sunday

Last rites for Mrs. Sarah Caldwell, 89, were held here Sunday afternoon at the First Methodist Church. The Rev. W. H. Marshall officiated and interment was in Sonora Cemetery. Mrs. Caldwell died Saturday morning in a San Angelo hospital.

Mrs. Caldwell is survived by two daughters, Mrs. John McCabe of New York City, and Mrs. Hazel McDaniel of San Antonio, three sons, James R. Caldwell and L. R. Caldwell, both of Sonora, and W. E. Caldwell, formerly of Sonora and now living in San Angelo. Mrs. Caldwell is also survived by a brother, R. S. Robertson of Meridian, 17 grandchildren, nine great-grandchildren and one great-great-grandchild.

Will Perry Dies Here Suddenly

Funeral services for William Henderson Perry, 81, who died here Sunday night, were held Tuesday afternoon at 4:30 o'clock from the First Baptist Church.

Mr. Perry died about 11 o'clock Sunday night at the home of his niece-in-law, Mrs. W. E. Wallace. He and Mrs. Perry had just retired when he complained of a pain in his shoulder. Death, attributed to a heart attack, came a few minutes later.

Born April 7, 1869, in Burnet County, Mr. Perry married the former Miss Lucy Howton on Nov. 4, 1900. They moved to Sutton County in 1906 and lived here 40 years, moving to Uvalde in 1946.

In addition to his wife, Mr. Perry is survived by two daughters, Mrs. J. J. Smith, Uvalde, and Mrs. Pansy Davenport, Bisbee, Ariz.; five sisters, five brothers, six grandchildren and one great-grandchild.

The Rev. J. E. Eldridge officiated and interment was in Sonora Cemetery. Pallbearers were Wilvie Smith, Wayland Smith, Jack Davenport, W. L. Davis, Norman Perry and Bill Smith.

Sonora Takes On Robert Lee Steers Here Tonight In Season's Opener

The Sonora Broncos open their 1950 season here tonight against the Robert Lee Steers, 1949 district champions. Robert Lee, coached by Charles Dennis, brings a seasoned squad of 25 including eight veterans, to Sonora for the opener.

Donnie Duncan will call signals at quarterback, with Bobby Hood and Donald Hamilton doing most of the ball carrying. Ronnie Baker, a lefthanded passer and Donald

Mauldin are also in the backfield. Lettermen in the line include Jerome Sheppard, Jiggs Lofton, Copey Davis, Tommy Kirkpatrick and Bud Austin.

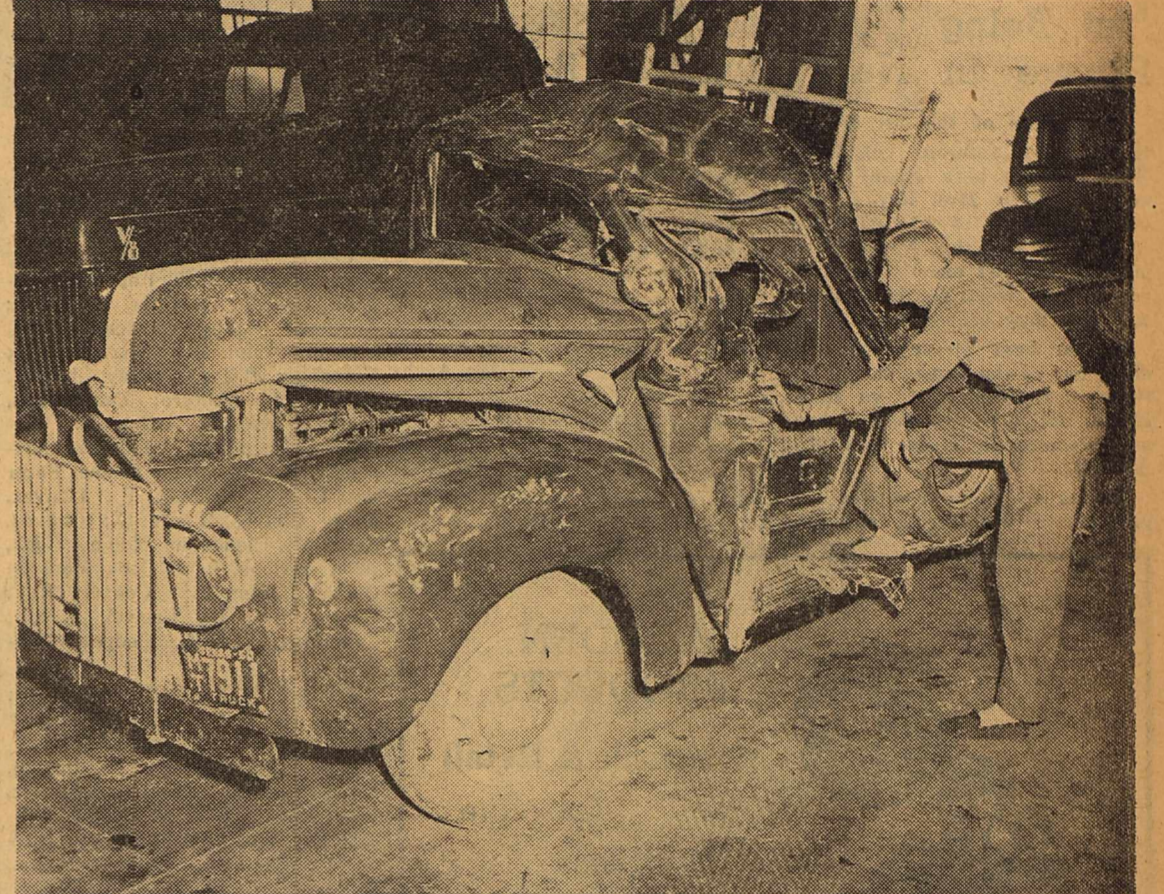

Coach Billy Willard refused to make any predictions about the outcome tonight. He will field one of the heaviest teams Sonora has had in several years, but pointed out that the team is slow, and although it has been working out

well, it still needs a lot of conditioning to gain speed.

The backfield will average over 155 and the line over 180, Willard said.

Halftime activities will feature music and drill by the Bronco Band, directed by H. R. Hay, and the Robert Lee Band.

Lineups were not available at presstime, but programs will be sold at the game.

TWO INJURED - Two Sonora girls, Nancy Neill and Joy Maxey, were injured last Tuesday night when the pickup (above) overturned 5 miles west of Sonora on the Ozona road. Miss Neill received a back injury and will be in a cast for two or three months. Miss Maxey suffered a broken shoulder which is also in a cast. Oscar Drennan, Sonora Motor Co. employee, inspects demolished cab of truck owned by Miss Maxey's father, Jess Maxey. On running board is a torn moccasin, mute evidence of the near-tragedy. Both young ladies are students in Sonora High School.

4-H Club Names Jan. 20 Show Date

The Sutton County 4-H Club met Wednesday night and set the date of their Sutton County 4-H Club Show for Saturday, January 20, 1951.

The show is sponsored by the Sonora Lions' Club and it has been held on Tuesday for the past two years because that is the Lions Club regular meeting day, but this year the show will be held on Saturday so that it will perhaps attract a larger crowd, and will not interfere with the club members school work.

The following rules were discussed and approved by the 4-H Club for their show:

1. All exhibitors must attend all 4-H meetings unless they are excused by the County Agent.
2. Accurate records of expenses and income must be kept and a record book must be turned in before members are eligible to show their animals.
3. All fat animals must be passed on by a sifting committee before they are eligible to show. Members will not be permitted to sell or show unfinished animals.
4. One lamb only may be sold by each member. Members will draw for position on sale list.
5. No calves will be sold through the auction sale, but prize money will be awarded all calf exhibitors.
6. All exhibitors must personally own, feed, and care for their animals.
7. Any 4-H Club member caught defacing or destroying any part of the 4-H Club buildings will be

Huling Rites Held Tuesday In San Angelo

Funeral services for J. Marshall Huling, former Sonoran, were held Tuesday, September 5, from the First Baptist Church in San Angelo. Mr. Huling died in his sleep Saturday night.

Services were conducted by the Rev. B. O. Wood, pastor of the First Presbyterian Church, assisted by the Rev. James B. Leavell, Baptist pastor. Burial was in Fairmount Cemetery.

Mr. Huling, widely known cattle feed manufacturer and dealer, was born and raised on a stock farm near Blair, Oklahoma. He studied engineering at the University of Oklahoma before moving to San Angelo in the spring of 1920.

There he studied at the San Angelo Business College and after graduation, returned to Oklahoma to farm.

He moved to Sonora in the fall of 1929 as local manager for the Anderson-Clayton Co. Later he was representative for the Bay Chemical Co., manufacturers of a dicalcium phosphate mineral.

After the firm quit manufacturing this product, which Mr. Huling felt to be salable, he decided to begin the manufacture of a similar product and opened his own plant in San Angelo.

Survivors include his wife, the former Miss Mora Nell Stokes of Sonora, two sons, Gerald and J. M., both associated in the business in San Angelo, a daughter, Monette, his parents, Mr. and Mrs. James M. Huling of Blair, Oklahoma, two brothers and two sisters, and three grandchildren.

Soil Conservation News

Prepared by SCS Personnel

This time of the year usually finds ranchers in the Edwards Plateau Soil Conservation District making preparation for the planting of oats or other small grain crops. This has been a cropping practice followed in this area for many years. Continuous cropping with small grain from year to year without returning anything to the soil has seriously depleted the fertility and consequently production of cropland in the area.

During the last two years many ranchers cooperating with the District have started a new practice of planting a legume crop to help build up soil fertility, break up hardpans or plowsoles, and improve the physical texture of the soil.

Many fields under a continuous one crop system have developed plowsoles. This plowsole is a compacted layer, usually only several inches below the surface, caused by plowing at a certain depth year after year. This compacted layer becomes very hard and will not allow water to penetrate into the subsoil. This cuts down greatly the amount of water taken in by the soil and therefore crops suffer from the lack of moisture.

Hubam and Madrid clovers are legumes that do a good job of breaking up this plowsole. They have large tap roots that will penetrate this compacted layer and allow water to go on down into the subsoil. They are also very effective in adding organic matter and nitrogen to the soil.

Besides being soil building and soil and water conserving crops these two legumes also furnish lots of grazing during the spring months. If cropping systems can be worked out to where a clover will be included once every three or four years in the rotation along with the yearly practices of Contour Farming and Crop Residue Management, it will go a long way towards curing the ills that affect cropland in the District at present.

During the past two years District cooperators have planted approximately 600 acres of various soil building crops in working out sound conservation cropping systems. An additional 300 acres is being planted this fall to further improve cropland in the district.

Aldwell Bros., Gordon Stewart, Ben Mittel and Harold Friess have completed their planting of Hubam Clover, while J. A. and J. W. Sykes, John Cauthorn, Dave Locklin and Robert Halbert are planning on using Hubam this fall also.

Stanton Bundy has already planted his Sunflower Field to Madrid Clover, and Thomas Espy and Robert Halbert are preparing to plant fields to this excellent long lived plant.

The Ranch Experiment Station is also preparing to re-plant its South Field to Australian dry land alfalfa in an effort to find more legumes adapted for use in the Edwards Plateau Soil Conservation District.

Mr. and Mrs. Bob Doran returned from Belton this week after enrolling their daughter, Roberta, in Mary Hardin Baylor College.

delegates to San Angelo for the Oct. 25 area meeting. It is planned to organize a Girl Scout Area Council consisting of Reagan, Irion, Tom Green, Concho, Crockett, Schleicher, Sutton, Kimble and Mason Counties.

Livestock Show To Select Three Best Lambs

The Sheep and Goat show at the '51 San Antonio Livestock Exposition will select three Fat Lamb champions instead of a single Grand Champion Fat Lamb, according to an announcement made by Mark Browne, livestock chairman.

The Feb. 16-25 Alamo City show this year will award high honors to the champion Fine Wool, Southdown and Crossbred instead of an individual Grand Champion award, Browne stated.

"The ruling by the executive committee of the show will distribute premium awards more equitably and will allow the winner of each division to secure a good price for his lamb at the auction sale," Browne said.

Under the new ruling the winning Fine Wool lamb of the Boys' show will be matched against the winning Fine Wool lambs of the Open Show to determine the Champion Fine Wool lamb of the entire show.

The same procedure will be followed with Southdowns and Crossbreds.

J. A. Gray, Extension Service, San Angelo, has been selected as superintendent of the Sheep and Goat show. He will be assisted by Bill Oliver, vocational agriculture teacher, Kerrville, and C. E. (Gene) Turnbow, livestock representative, Alamo National Bank, San Antonio.

Total premiums for the sheep and goat show at the San Antonio Exposition now total \$6,400 including association specials.

Premiums offered by San Antonio for all standard breeds of livestock now total \$48,000. Deadline date for livestock entries is Dec. 15. Premium lists are available from James F. Grote, secretary-manager, San Antonio Livestock Livestock, P. O. Box 1746, San Antonio.

INSPECTION OF SCHOOL BUSES, CARS SET SEPT. 21

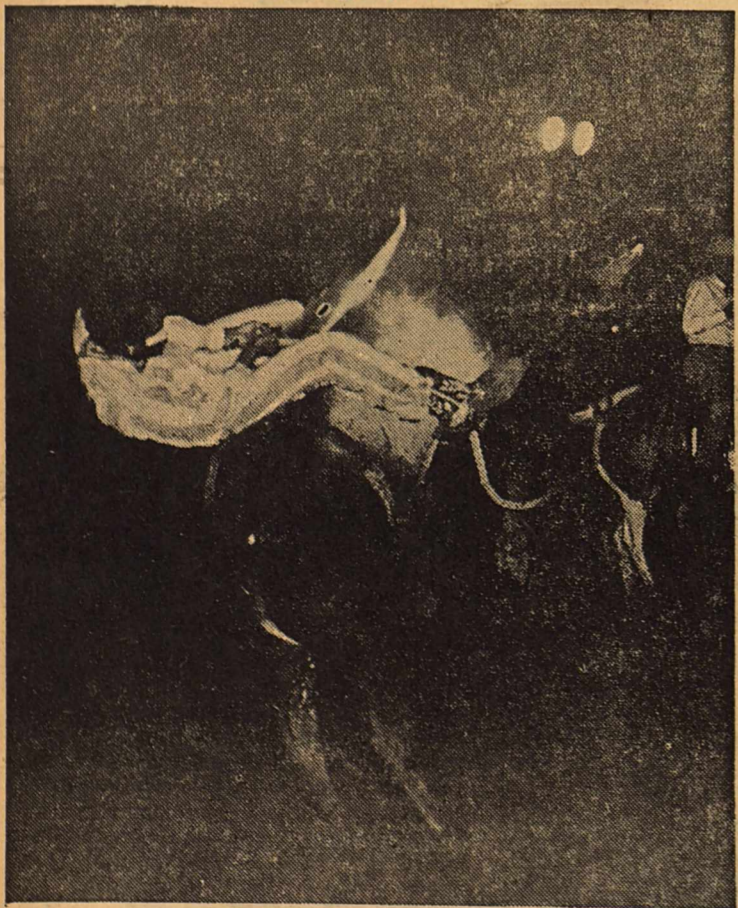

Inspection of the school buses and private cars to be used this year as school buses will be held Thursday afternoon, September 21, at 1 o'clock, according to Supt. E. A. Brodhead.

Brodhead said a State Highway Patrol inspector will make the inspection in the street on the north side of the campus. Owners of cars wishing to qualify must bring their cars with them, Brodhead said.

Mr. and Mrs. W. J. G. Dullnig are moving to Hondo to make their home.

Action like this will be commonplace at the 19th Annual Texas Prison Rodeo this year. Proceeds from the show go to the prisoners' Educational and Recreational Fund. The rodeo will be held in Prison Stadium at Huntsville, Texas, on October 1, 8, 15, 22, and 29th.

Officers Named For Girl Scout Council

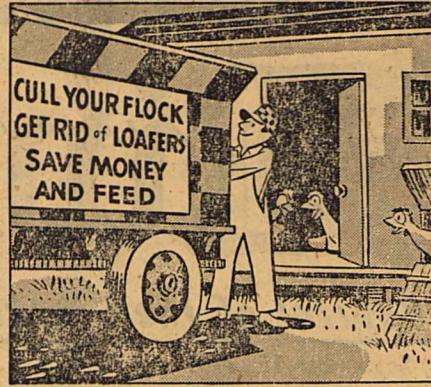

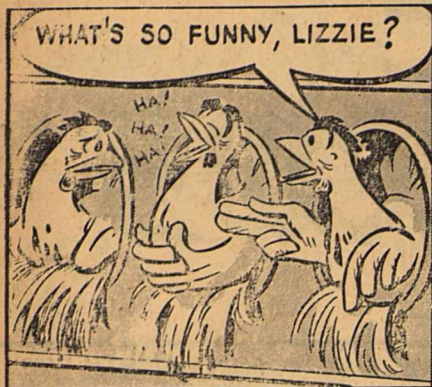

The final meeting of the 1949-50 Sutton County Girl Scout Council was held Wednesday night. Mrs. Duke Wilson, retiring president, received final committee reports and a report from the nominating committee.

Officers elected for the coming year include Mrs. Curt Schwiening, president; Mrs. Dorothy Baker, vice president; Mrs. Alfred Schwiening, Jr., secretary; Mrs. Travis Glasscock, organization chairman; George H. Neill, finance chairman; John Eaton, camping chairman; E. A. Brodhead and Mrs. Dan Cauthorn, advisory board; Mrs. Stewart Phillips, program chairman; Mrs. Harold Garrett, registration chairman.

Leaders report that the Girl Scouts and Brownies of the county have a well equipped building and plenty of money with which to carry on the program. What is needed, they said, is the cooperation of more people, especially of mothers of girls of the Brownie and Girl Scout age.

The council is planning to send

List Being Compiled For Memorial Plaque In New Hospital Building

Corrections of the list of Sutton County veterans of World War II have been made in the master file by Mrs. Roy E. Aldwell, chairman of the memorial committee, but the News is reprinting the list exactly as it appeared last week so that further mistakes may be reported.

If you have already called in about one of the names on the list, there is no need to do so again. If you notice a mistake and have not reported it, please call Mrs. Aldwell.

Names are being compiled preparatory to erecting a memorial

plaque in the Lillian M. Hudspeth Memorial Hospital. The plaque will be placed near the main entrance.

Taxes and Waste In Government Worry Texans

By JOHN REDDITT
State Chairman
Texas Economy Commission
(Editor's Note: This is the second in a series of articles on the Texas Economy Commission.)

You who are worried (or should become worried) about the ever-increasing demands for taxes to run your Texas state government, you have three choices before you:

- (1) Pay more taxes and grumble about it.
- (2) Pay lower taxes and undergo a reduction in public services. And grumble some more.
- (3) Examine your state government for inefficiencies and waste then, on the basis of your findings, improve service without increasing taxes, or lower taxes without cutting service.

The first and second choices appeal to no one. The third choice clearly is the one to make. The Texas Economy Commission has undertaken to make the third choice. But our eyes are open to certain pitfalls that must be avoided if we are to succeed in bringing economy and efficiency into our government.

THIS REQUIRES some explaining. In 1929, the Legislature created the office of State Auditor and Efficiency Expert to look into the government. This new office, after nearly a year of study, reported that inefficiency, waste and disorganization were growing as the government's expansion continued unrestrained.

Alarmed, the Legislature named a joint committee of both its house to give thorough study to the problem. This committee employed an impartial, professional staff of experts in government management, Griffenhagen and Associates, who had been doing this sort of thing successfully for a generation.

The Griffenhagen firm made an exhaustive study and presented a detailed report calling for extensive reorganization of the government.

One hundred and thirty-one more or less independent state agencies would have been consolidated in two executive branches: one with six "departments having administrative functions," and the other with 14 "departments rendering direct public service."

This was logical. It was efficient. It brought order and responsibility under economical control. And it fell flat in the Legislature.

WE NOW KNOW WHY it fell flat. We know why the past two decades have brought more disorganization, more inefficiency and waste into our state government. There was not enough popular demand for a change.

The people had neither opportunity to study the problem or to face them, nor opportunity to examine the proposed reforms. Lacking this information, they did not demand passage of the reforms. Lacking this demand, the reforms were not made.

Today we have, not 131 separate state agencies, but nearly 200. In 1930 the Texas state government spent \$103,100,000. In 1949, \$165,700,000. This year the state is spending \$500,000,000. That's half a billion dollars!

This amounts to \$1,970,000 per day, including Sundays and holidays, seven days a week! What's more, this vast sum is spent, not through logically and carefully controlled means. It is spent out of more than 230 separate, disconnected checking accounts. Many of these accounts are earmarked for special purposes and no other purposes. Thus, if some accounts should have a surplus while other accounts are exhausted more taxes must be raised to replenish the exhausted accounts. That's silly, I know. But that's how it is.

WE KNOW THAT a new structure of efficient and economical public service, provided through intelligent taxation, cannot be erected without the public's understanding of its need.

The people of Texas, through this series of newspaper articles, through public discussion and debate, through their local county branches of the Economy Commission, will be advised of and take part in every stage of the Economy Commission's work. If you don't like a certain recommendation that has been submitted to you, and if you come up with a better suggestion, the substitution can be made.

Then the revised recommendations will truly be your recommendations. You will know what is needed. The Legislature will know what you want, and you, by your own effort and understanding, will succeed.

The next article in this series will discuss how the Economy Commission operates at the local level close to every Texas home. The writer will be Mrs. Charley Ward of Louise, state vice-chairman of the Texas Economy Commission.

MMES. CUSENBARY, PRUGEL HOSTESSES TO W.S.C.S.

Mmes. A. E. Prugel and W. R. Cusenbary were co-hostesses at the Cusenbary home when the Women's Society of Christian Service met Wednesday afternoon.

The worship program was in charge of Mrs. W. L. Davis, and Mrs. Dee Word was the program leader. Subject of the program was "Health Through the Brotherhood of Nations."

At the business session, Mrs. W. H. Dameron reported on the program for the coming year. There will be an advanced meeting on Monday evening at the First Methodist Church to discuss the study course. This meeting is to be held in connection with the meeting of the Wesleyan Service Guild. The regular meetings for the coming year of the W.S.C.S. will start the first week in October. Topic for next year will be "Christian Vocation."

Attending the meeting were Mmes. M. E. Genrich, O. G. Babcock, Herman Smith, E. E. Sawyer, E. A. Broadhead, Robert Kelley, Dameron, E. D. Shurley, Rose Thorp, Annie Sharp, Davis and Word.

Cusenbary Named Sutton County To Commission Has Postal Deficit By Governor

W. R. Cusenbary of Sonora has been appointed a member of the Texas Economy Commission by Governor Allan Shivers. Gov. Shivers has asked Cusenbary to organize Sutton County into a group to function with the State Association. The Commission was organized June 30, 1950 in Austin under the Texas law as a non-profit organization, and Cusenbary urged that the county group organize as soon as possible in order to meet with the state group this fall.

The purpose of the Commission will be to investigate the present organization, functions, operations and procedures of all departments, agencies, boards, commissions, institutions, independent establishments, and instrumentalities of the executive branch of Texas State Government. The Commission will analyze inter-relationships, over-lapping and duplicating functions, internal organization, methods and cost of operation, personnel and operating policies. Also the Commission will study and consider the changes required to minimize expenditures and increase efficiency of operations, eliminate duplication, modernize techniques and procedures, and define, limit and co-ordinate activities.

Finally, the Commission will not usurp the legislative prerogative of deciding what services the state government should provide the people of Texas but will be instructed to confine itself to questions of how those services may be best administered.

Sutton County Has Postal Deficit

WASHINGTON (Special) — For taxpayers of Sutton County the \$558,000,000 deficit of the Post Office Department in the Federal fiscal year which ended June 30 will mean approximately \$108,000 in terms of general Federal taxes, according to a study released here today by the Council of State Chambers of Commerce.

The study explained that this figure is Sutton County's proportion of Texas's share of the overall loss sustained by taxpayers through the failure of the Federal Government to run the Post Office within its income.

The Council's study showed that except for a few scattered years the Post Office has been doing business at a loss for 60 years. Since the end of World War II these losses were found to total \$1,758,044,299 which means roughly an extra tax of \$12 for every man, woman and child in the United States.

Support for an effort in Congress to cut \$28,107,000 off the \$555,000,000 postal deficit expected this year was urged in the study. It recalled that in expectation of this cut Postmaster General Donaldson in April ordered such economies as a reduction from two to one in the number of mail deliveries daily in residential areas, fewer mail box collections etc. But the House of Representatives recently voted against these economies. Whether they will stick remains up to the Senate.

In addition to this 28-million-dollar saving, they study urged the Hoover Commission recommendations for putting the Post Office on a business-like basis be carried out.

Looking for a Money Saver?

Better Buy Buick!

YOU CAN SEE here how smart it is—don't have to be told that it's the most quickly identified car on the road today.

You probably know that the engine under that broad bonnet is a Fireball straight-eight valve-in-head engine and a lively stepper in any company.

You can check the abundance of its room by the simple expedient

of taking the family and trying out its spaciousness at the nearest Buick dealer's—and a very few minutes on the open road will satisfy you that all-coil springing, low-pressure tires and Buick's torque-tube drive really do produce a ride that is matchless for its soft comfort.

BUT RIGHT NOW, it may be that the money angle is the thing uppermost in your mind, and on that we'd like to make two points:

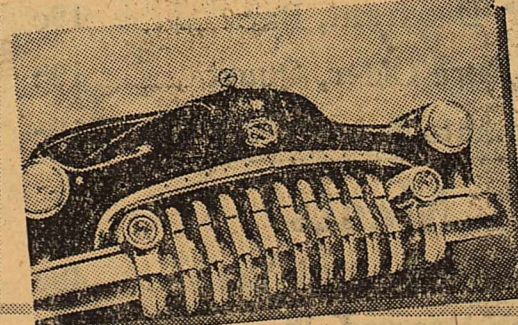

All our records go to show that this is the most economical Buick ever built. It is easy on gas, on oil, on tires, on upkeep.

And if you choose it with

Dynaflow Drive,* it immediately eliminates all chance of friction-clutch repair and replacement—not to mention greatly reducing rear-axle and transmission maintenance.

Best of all, your initial outlay is a highly favorable one—whatever Buick you buy. For these brawny straight-eights—built rugged and solid for durable service—are priced at a level that makes them a standout buy in any price class.

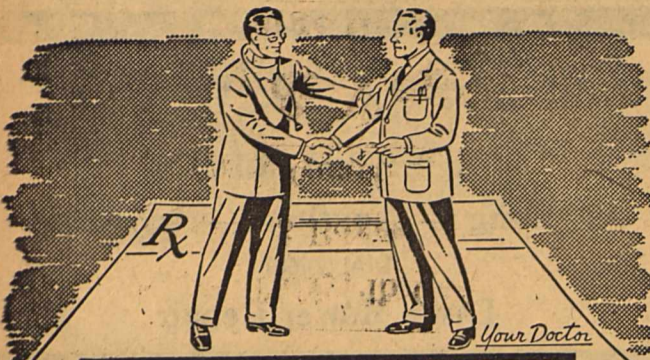

Yes, better buy a Buick. Your dealer will be glad to demonstrate, glad to work out all the arithmetic of a deal. See him right away and get an order signed.

FOUR-WAY FOREFRONT—This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.
