## Agreements Signed Tuesday For 6 Dams On Devil's River

Project agreements for six flood prevention dams on Dry Devil's River were signed this week. The construction cost of the six structures is estimated at \$600,000.

The project agreements, signed by representatives of the five local sponsoring organizations, definitely earmark construction funds for the six dams. Contracts for construction must be awarded

before December 31, 1959.

Only two structures now remain to be covered by project agreements on Dry Devil's River: Site 1 on the R. D. Johnson ranch, and Site 3 on the Ben Mittel ranch. Funds are expected to be available to start construction on these sites next spring.

Project agreements were signed by Judge J. W. Elliott and F. L. McKinney representing Sut-

ton County; Joe B. Ross and Frank Bond for the Edwards Plateau Soil Conservation District; and Alfred Schwiening and R. M. McCarver representing the City of Sonora.

Judge W. R. Bearce and Patton Enochs represented Schleicher County, and Forrest Runge and B. E. Moore signed for the Eldorado Divide Soil Conservation District.

## Cage Bros. Low Bidders On Lowrey Draw Site 11

Six bidders were represented Tuesday when bids for the construction of a floodwater retaining structure at Site 11 on Lowrey Draw were opened.

Cage Bros. of San Antonio were the apparent low bidders with a bid of \$226,200.25. The highest

bid read was \$254,459.15.

The dam at Site 11, on the W. A. Miers ranch, is a large structure containing 294,953 cubic yards of fill. It is to 47 feet high, and at spillway level will impound 5,189 acre feet of floodwater.

The dam will be blanketed on both sides with some 110,000 cubic yards of rock which will be taken from the 400 foot emergency spillway.

Bids for Sites 12 and 13 on Lowrey Draw will be opened July 10. This will place all of the five structures planned for Lowrey Draw under construction.

Best single fleece of wool in this year's show was that exhibited by D. L. (Dave) Locklin. Locklin showed the Grand Champion Fleece and the Champion Yearling Ewe fleece.

## Devil's River Philosopher Finds Good Reason Finally For Going Ahead And Conquering Space

Editor's Note. The Devil's River Philosopher on his bitter-weed ranch on Devil's River must have some bills he can't pay, his letter this week indicates.

Dear editor:  
From time to time I have poked a little fun at all the excitement some people work up over exploring outer space. I've been

contending that when we finally get a man out into space, he may find there's nothing out there, at least nothing half as interesting as what he already had on earth, and all that money we're spending may be in vain.

But now I wish to revise my opinions a little. After long thought and meditation, I have figured out a reason why we

ought to go ahead and explore space.

I thought of it the other afternoon while I was reading a newspaper the day it's published, it's not worth reading, but I've found you can wait two or three days and read it and sometimes get more out of it than you could the day it was printed, especially if you've read another one or two in the mean time and subsequent reports have corrected the earlier ones.

According to this article, nobody knows how much money the world owes. They have a pretty good idea what a given country owes, nationally, but nobody has figured up all the debts of all the states, all the counties, all the cities and towns, all the school districts, water districts, etc. And also, nobody has figured up how much individual families owe. But everybody agrees if you added up all of it, the figure would be overwhelming, flabbergasting. In fact, some people are contending the world if it keeps going in debt will wind up bankrupt.

Now here's where exploring space come in. I'm not a lawyer, but I understand that when a man goes bankrupt, and wants to settle his debts by pleading bankruptcy, he has to at least find a court that's solvent to hear his plea.

If we can just find a planet out in space that's solvent, to take the world's bankruptcy plea to, that's just what we're looking for.

Instead of feeling our way into space, we'd better get out there in a hurry.

Yours faithfully  
J.A.

### YEARS PAST

Dr. A. L. Taylor, formerly of Temple, Texas, believing in the superior climatic conditions of the Sonora country for consumptives and those suffering with pulmonary diseases, contemplates building at Sonora a sanitarium with twelve sleeping rooms and all modern improvements that will cost about \$5,000. Dr. Taylor believes that an institution of this kind will pay good interest on the investment and will increase the revenue of Sonora institutions at least \$500 a month. Dr. Taylor has a large acquaintance professionally and privately throughout the states and is constantly receiving communications from physicians wanting to send patients to the Sonora country. R. W. Calahan will donate the land and substantial action in this matter may be looked for shortly.

## YOUR MINISTER SAYS

By Rev. Allan Guthrie  
**"DO YOUR BEST TO PRESENT YOURSELF TO GOD AS ONE APPROVED..."** (II Timothy 2:15).

We have heard it said of an athlete, "Aw, he plays to the grandstand." We know what this means. He tries to show off. He plays, not to help his team win, but to "be seen of men." We

don't like that kind of playing. Is it wrong, then to seek approval? Well, it depends on whose approval we seek. Many mother, wife, father, or friend stays true to ideals because of a devotion to a loved one. That isn't bad. It is very effectively good.

Is there any higher goal than seeking God's approval? Jesus could face the cross, knowing that His Father approved, and He could pray, "Not my will, but thine." What in this life is worth struggling for? Why, God's approval, of course. We can give that aim the best within us. Maybe we can't always attain it, but we can do our best. It is only our best that God approves.

## YEARS PAST

Henry Liebfried, who has for a long time been in the employ of C. T. Word and Son, was in Sonora Thursday and on his way back to the ranch Thursday evening attempted to drive through the draw in the Barksdale pasture, six miles below Sonora. The heavy rains had put the crossing under water. As usual with water in the draws these crossings are treacherous, and as Henry was driving an extra horse it made the attempt more dangerous, as the fence is very close to the road. The horses got tangled up and Henry plunged into the water to cut them loose. While doing so one of the horses pawed him and he sank down. He recovered and managed to get out, but went in again to cut the horses loose. This time he was numbed and would probably have drowned had not Carter Johnson happened along at that time. Mr. Johnson went in and brought him out, and realizing his dangerous condition brought Liebfried to town for attention. He recovered after a few hours. One of the horses was drowned.

**HIGH LIGHTS AND SIDELIGHTS FROM THE STATE CAPITOL**

AUSTIN, Texas—When tax bills finally were passed by both the Texas House and the Senate, it was not dollars, but ideas that delayed agreement.

House bill was designed to raise about \$150,000,000 over the next two years; Senate bill, about \$160,000,000. Big difference was in where the money would come from. House bill was divided evenly between selective sales taxes and taxes on natural resources and corporation franchises.

Senate, which heard a long string of witnesses on the dangers of shutting prosperity-making industries out of Texas, changed the ratio. In its version, natural gas and corporations pay about 18 per cent of the tab; selective sales taxes, 82 per cent.

Senate voted a 15-15 tie on its bill, with Lt. Gov. Ben Ramsey breaking the tie in favor of the bill.

Named to a free conference committee to adjust differences were Sens. R. A. Weinert, Seguin; Dorsey Hardeman, San Angelo; Charles F. Herring, Austin; Jimmy Phillips, Angleton; Bruce Reagan, Corpus Christi. Also Reps. V. L. Ramsey, Beckville; W. T. Oliver, Port Neches; Don Kennard, Fort Worth; Alonzo Jamison, Denton; George Cook, Odessa.

HOW THEY STACK—These items were hit, in varying degrees, by the House and Senate bills that went to conference committee:

CORPORATIONS — Senate, raise \$10,800,000 by hiking the franchise tax from \$2.25 to \$2.75 per \$1,000 capitalization. House, raise \$12,000,000 by a new two-factor tax on interstate corporations.

NATURAL GAS — Senate, raise \$8,000,000 by increasing the production tax from 7 to 8 per cent. House, raise \$36,500,000 by lowering production tax to 5 per cent and adding a 5 per cent severance beneficiary tax.

MOTOR VEHICLES SALES—Both houses agreed on increasing sales tax from 1.1 to 1.5 per cent to bring in an additional \$3,000,000.

CIGARETTES — Senate, raise

\$31,500,000 by boosting tax 3 cents a pack. House, raise \$10,500,000 (estimated) by a 1 cent a pack increase.

UTILITIES — Senate, increase the tax on water, gas and electric utilities by 20 per cent, for an estimated \$2,600,000. House, increase all other utilities to the telephone company rate of 2.3 per cent, for an estimated \$8,000,000.

ALCOHOLIC BEVERAGES — Senate, increase liquor tax from \$1.40 to \$1.65 a gallon, to raise \$2,000,000. House, increase it to \$2.25 a gallon for \$7,000,000.

Wine, Senate increased tax by 20 per cent, for \$201,000. House doubled it for \$1,000,000.

Senate also tripled fees for selling beer and wine, doubled permits for liquor selling, for an estimated \$1,600,000. House bill does not include this.

TOBACCO PRODUCTS—Senate, would tax all such products except snuff, by 12.5 per cent, to raise \$5,400,000. House tax is twice this.

SULPHUR—Senate voted to retain present rate. House would reduce from \$1.40 to \$1.03 per ton. There is disagreement as to whether production increase would offset the tax increase in total revenue received.

THEATER ADMISSIONS — Both Senate and House lopped this by about \$120,000 a year.

SOUND EQUIPMENT — Senate added a 2.2 per cent sales tax on radios, televisions, hi-fi and stereophonic sets for an estimated \$3,200,000.

BOATS — Senate added 1.5 per cent sales tax on boats and motors for an estimated \$3,200,000.

SHORT SNORTS — Radar traps must be test-checked for accuracy before a speeding ticket is valid, the Court of Criminal Appeals has held. Expert testimony in the case before the court had contended that as much as a 20 per cent error can occur if the radar machine is not set up properly. . . Lt. Gov. and Mrs. Ben Ramsey's new daughter, Mariben, born June 8, officially became "princess of the senate" a record time. By unanimous vote, the honor was bestowed when she was just one day old.

Visiting ministers included, besides those mentioned above, the Reverends D. C. DuBose of Eldorado, Westbrook and Taylor of San Angelo, A. C. Trowbridge of Sherwood, Kenneth Green and Westbrook of Grape Creek, and J. R. Musick of Abilene.
