## Reining, Roping, Barrel Racing Show Quarter Horse's Ability

(Editor's Note: This is the fourth in a series of articles on the development of the Quarter Horse written by James Hunt and Ralph P. Mayer. This week's article traces the rise of the AQHA and describes the intricacies of showing and judging Quarter Horses.)

The American Quarter Horse Association was established in 1940, the purpose of collecting, recording and preserving the pedigrees of Quarter Horses, to publish a Stud Book and Registry, and to stimulate interest in the history, breeding, exhibiting and racing of Quarter Horses. And, of course, the purpose was also to improve the breed.

The American Quarter Horse Association, formed in 1946 for the purpose of keeping records on the Quarter Running Horses, established the Register of Merit, a standard of recognition for outstanding achievement. In 1950, when the American Quarter Horse Association, the American Quarter Horse Association and the National Quarter Horse Breeders Association merged to form one organization under the name of The American Quarter Horse Association, the Register of Merit was adopted for using horses as well as racing horses. Under this system points are awarded for various performance classes such as will be held in Sonora on September 12. These classes will be reining, cutting, roping and barrel racing. There will be both junior and senior classes. Any horse up to the age of four years is eligible to participate in junior classes. Horses five years old or older must participate in the senior classes.

In the reining class a definite pattern is performed. This pattern was developed to show the horse's maneuverability in action and his response to the bit or hackamore. The judge judges each successive stage of the pattern and the total score is added up. The horse is judged on his ability to run, stop and back up, then on his ability to change leads in figure eight patterns and finally his "manners" or how quickly he quiets down after performing. Some of the faults against the horse are opening the mouth excessively, breaking gaits, refusing to change leads, anticipating signals, stumbling and falling, bouncing or sidwinding, stopping and backing sideways. Although it is the horse that is being judged there are several faults against the rider, such as changing hands on the reins, holding on with free hand, losing stirrup, two hands on reins at any time and cueing or coaching the horse in any manner (unnecessary talking, petting, purring, quirting, jerking reins, etc.)

In the roping class time is not a factor as in the rodeo area. The horse is being judged on his ability to catch and follow the calf, stop quickly when calf is caught and keep the rope taut while calf is being thrown and tied. The quietness of the horse, both behind the barrier and after the completion of the roping are taken into consideration. A time limit of two minutes is allotted each roper and it is not to the horse's discredit if the roper fails to catch his calf the first loop. As many loops as are necessary may be thrown by the roper as long as he carries two ropes with him. The reason for this is to show that the horse will work trailing a rope.

In the barrel racing class, time is the main factor. The cloverleaf pattern was designed to test the speed and maneuverability of the horse and the quicker he can cover the course the better the performance. Some of the things he can be disqualified for are knocking over a barrel or barrels and not following the prescribed course. Next week we will take up the cutting contest, as it is the most exacting and colorful of the per-

formance classes and needs a little more explaining.

## Brodhead Memorial Placed In Hospital

The projects committee of the Hospital Auxiliary, consisting of Mrs. H. M. Smith, Mrs. J. E. Eldridge and Mrs. J. F. Howell, recently placed "The Seine Madonna" by Toby Eward Rosenthal in the reception room of the Hudspeth Memorial Hospital.

This picture is a copy of a painting done by an American born figure painter who lived from 1848-1917, but studied and painted in Munich, Germany. It was made possible by a gift to the memorial fund by the Central Elementary sixth grade students and their teacher, Mrs. Emerald Smith, in memory of Superintendent E. A. Brodhead.

Another memorial gift recently placed in the hospital by the auxiliary is a patient lifter to be used in helping patients who are unable to lift themselves.

Miss Addah Wardlaw returned recently from a six week's visit with her brother-in-law and sister, Mr. and Mrs. Bill Stallworth in Maracaibo, Venezuela. She returned by way of Kingston, Jamaica and Miami, Florida.

**Two Chevy middleweights prove their rawhide stamina!**

## Top hands on high-country hauls!

Ask any trucker who's been over Wolf Creek Pass, 10,850 feet up in the San Juans: a 9-mile pull to the summit and low gear all the way down. Mr. C. H. Phillips of Alamosa, Colorado, has a 6403 and a 6503 Chevrolet truck that are up over this route the year round, taking sheep and beef to pasture, later marketing the stock in Denver. In less than a year, his Chevy middleweights have averaged about 50,000 miles of this kind of treatment—and they're going stronger than ever!

Watch Chevy trucks at work out in range country. It's a sight to see the way they pack into high-up mountain pastures and handle through brush and rock like a cowman's favorite cutting horse. Take any truck work for that matter. Chevy middleweights probably handle a bigger variety of jobs than any trucks alive. About anything you name, including work that used to be reserved strictly for bigger rigs. When a truck's built the way a Chevy is, lean-muscled and rawhide-tough, it takes to ugly trails the same way most trucks roll over the highway. It just keeps going, without a big to-do, but looking good every mile of the way. How they do it is your Chevrolet dealer's department. He'll be glad to supply details and specifications on the type of models you need.

In Double Ring Ceremony August 15**

Miss Edwin Fern Hawkins, daughter of Mr. and Mrs. James Edwin Hawkins, and Joe Thomas Friess, son of Mr. and Mrs. Harold Friess, were united in marriage Saturday in the First Methodist Church with the Rev. Doyle Morton performing the double ring ceremony.

The rainbow wedding ceremony was performed by candle light in a church decorated with palms, seven branch candelabra with an arch marking the center of the rostrum. Roping of salal and rainbow asters outlined the candelabra and arch. The pulpit, covered in white, was topped with a large arrangement of rainbow asters and garlands of salal. Family pews were marked with satin bows and asters.

Candlelighters were John Paul Friess, brother of the bridegroom, and Tom Glascock. Junior attendants were Nancy Lynn Hawkins, sister of the bride, flower girl; Joe Wallace, ring bearer,

and Debbie Ellege, Trouba Teaff and Evelyn Jane Lowe, rice girls. Miss Kay Gray of San Angelo was soloist and Mrs. Reed Jennings, organist.

Given in marriage by her father, the bride wore a dress of white bouquet taffeta fashioned with a soft, scooped and scalloped neckline, re-embroidered with a moon lace and seed pearls. Three-quarter-length sleeves were shirred and caught with a self-fabric rose.

The parried bouffant skirt featured side puffs caught with self roses, and ended with a chapel-length train. Her head-dress was a half-circlet of alencon lace and seed pearls holding a waist-length veil of crystal tulle.

She carried a crescent bouquet of white roses and stephanotis.

The bride's sister, Miss Mary Cill Hawkins, was maid of honor and bridesmaids were Miss Nancy Rink of San Angelo, Miss Alice Lee Daughtry, Miss Carolyn McLaury and Mrs. Turney Friess. Their dresses featured full puffed sleeves, full skirts and low scooped necklines, made of silk organza with satin trim. The colors were blue, champagne, yellow, rose pink and pale pink. Their colonial bouquets and accessories matched their dresses.

Turney Friess was best man and Jack Shuls of Rising Star, Freddy Fields, Butch Baker and Rodney Davis were groomsmen. Ushers were Pascal Allison, John Ed Nevill, Wallace Anthony, Tommy Ray Adams and Jack Baker.

The wedding reception was given in the fellowship hall of the church.

A graduate of Sonora High School, Mrs. Friess was a member of the Library Club and Student Council. She served as Rainbow worthy advisor and cheerleader for two years.

Her husband, also a graduate of Sonora High School was a student at Tarleton State College.
