## Bronco Bandsmen In Spotlight At ACU Camp

Seventy-two members of the Jr. High and high school band attended the Eighth Annual Abilene Christian University Band Camp. Sonorans proved to be as competitive on their individual instruments as they were on the sports field.

600 students from cities as far north as Dumas, as far west as Monahans, as far east as Mineola, and as far south as Harlingen, made up the music camp.

Sports events in the high school camp saw Lee Burch place first in tennis with Armando Martinez and Nora Galindo both placing third. In bowling Martinez was first and Cody Savell second.

Basketball winners from Sonora were Savell, second and David Creek, third. Craig Cooper placed second in racketball. Marche Lane won second place for her poem entitled "The Only Rating" (or "A Song to be Sung by Nervous Band Members").

Anna Martinez was first in essay writing with her essay entitled, "My Band Director".

Winners in the junior high camp were Martinez, first in tennis and Steve Jennings, third in that event. John Blankenship placed first in 8-ball (pool) as did Donna Kellogg.

In ping-pong singles Martinez was first, Julie Stewart, second, and Shelly Hughes, third.

Shelley Hughes and Julie Stewart were also second in the doubles division. Laura Cayce and Sandie Wright were third place winners.

In racketball competition Gina Thompson placed second. Armando Martinez and Randy Mounce were first in tennis doubles.

The Sonora Dancers consisted of Shelley Hughes, Anna Martinez, Armando Martinez, Gina Thompson and Sandie Wright, placed first in the talent show.

Kathryn Parker won second place in the essay writing contest.

Special awards at the A.C.U. camp were presented during the final concert.

Anna Martinez was awarded outstanding flag

girl. Sonora's team of flag girls consisting of Debbie Parrish, Shelley Hughes, Tonya Ridgeway and Gina Thompson, were also named the outstanding team.

Edmond Martinez was named outstanding stage band student; Armando Martinez, outstanding musician of the over-all camp; Anna Martinez, outstanding twirler, and the Sonora Band was awarded the all sports trophy.

Accompanying the band students to camp were Mr. and Mrs. Ed Martinez.

### Museum Looking For Wood Heaters

Before natural gas became so available, many of Sutton County's buildings got their heat from iron Army wood heaters.

"We think there were as many as eight of these in Sutton County and Ft. McKavett," historian and Miers Home Museum director John Eaton comments.

Eaton is trying to find some of these Army wood heaters for display at Ft. McKavett and hopes that someone reading the Devil's River News will know where one or two is located.

There were a variety of fronts on the heaters.

"Some were used in the Sutton County Courthouse," Eaton adds, "until they switched to natural gas."

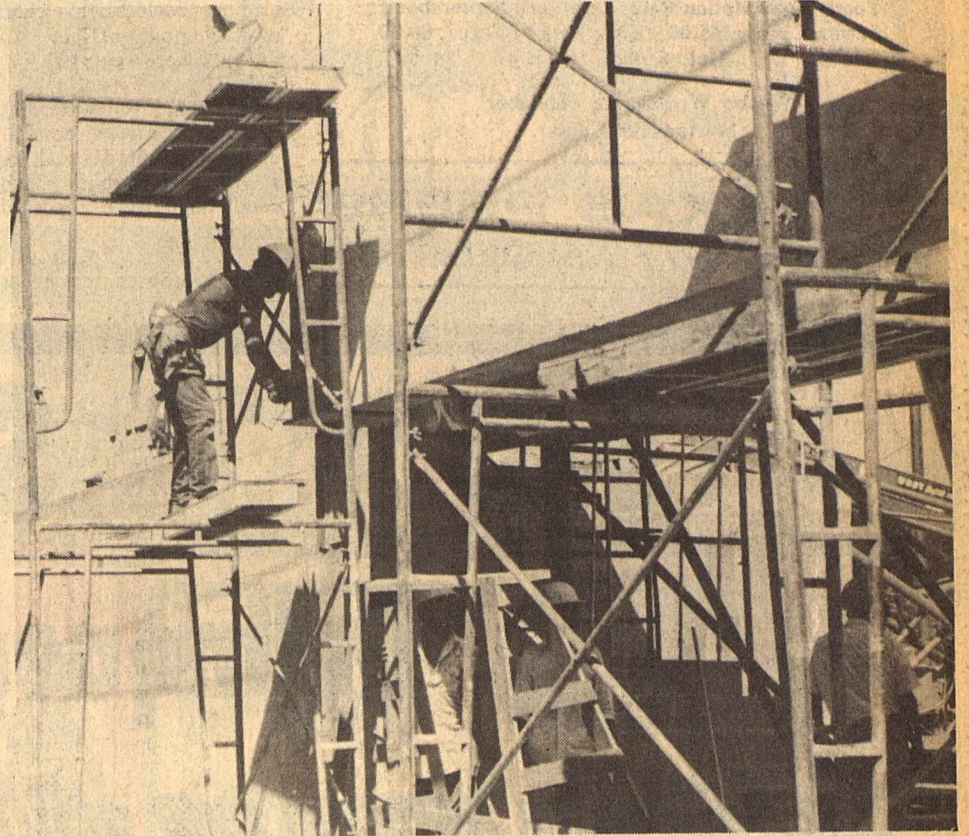

If you know where one of these Army wood heaters is, please contact John Eaton at 387-2683.

### Little Miss Contestants Being Sought

Persons who are interested in entering their child in the Little Miss Sutton County Contest, held in conjunction with the Sutton County Day Celebration, are asked to call Rita Hale at 387-3996.

Girls entering must be 3-5 years of age and pay an entry fee of 50 cents.

The contest will be held Saturday, August 20 at 10:15 a.m., on the courthouse lawn.

The walls are going up at the new 1st National Bank building on the lot between Poplar and Main downtown. Special care has been taken to protect the pecan trees. The bank building is expected to be complete by November.

### June Bond Sales Told

June sales of Series E and H United States Savings Bonds in Sutton County were reported recently by County Bond Chairman George H. Neill. Sales for the six-month period totaled \$8,588 for 34% of the 1977 sales goal of \$25,000.

Texas sales during the month amounted to \$24,027,340, while sales for the first six months of 1977 totaled \$140,919,165 with 51% of the yearly sales goal of 276.9 million achieved.

### Athletic Physicals Sunday

Physical examinations will be given to all male high school athletes Sunday, July 31 at the new gymnasium.

All boys who will play varsity football should be at the gym at 2 p.m. Junior varsity players should be there at 2:45 p.m., and all other boys who plan to take part in any school athletic program during the year, should be present at 3:15 p.m.

### Scouts Awarded In Honor Ceremony

Boy Scout Troup 19 conducted its Court of Honor Monday evening with 10 Troup members receiving awards.

Louis Humphreys was awarded merit badges for Indian Lore, Swimming, Pioneering and Home Repair.

Myron Halford received swimming, canoeing and cooking badges.

Sammy Nations earned canoeing, swimming and pioneering awards.

Wallace Nations received canoeing, swimming, pioneering and the mile swim awards. Wallace was the only scout at the recent camp to earn the mile swim badge.

John Mitchell was awarded the canoeing, swimming and pioneering badge.

John Reppond received canoeing, swimming and pioneering awards.

Don Glass earned the canoeing, swimming and cooking badges.

Mike Glass received the reptile study and leather work badges.

Gary Robinson earned the cooking and leather work awards.

Thirty seven scouts, parents and guests attended the Court of Honor, which featured a bar-b-q cook-out.

Boy Scouts meet every Monday evening at 6:30 at the Scout Hut, located off Water St. on Pecan. John

Reppond serves as Scoutmaster and Don Glass is assistant Scoutmaster.

### ONLY 22 Days to go

- \* Rodeo
- \* Dances
- \* Contests

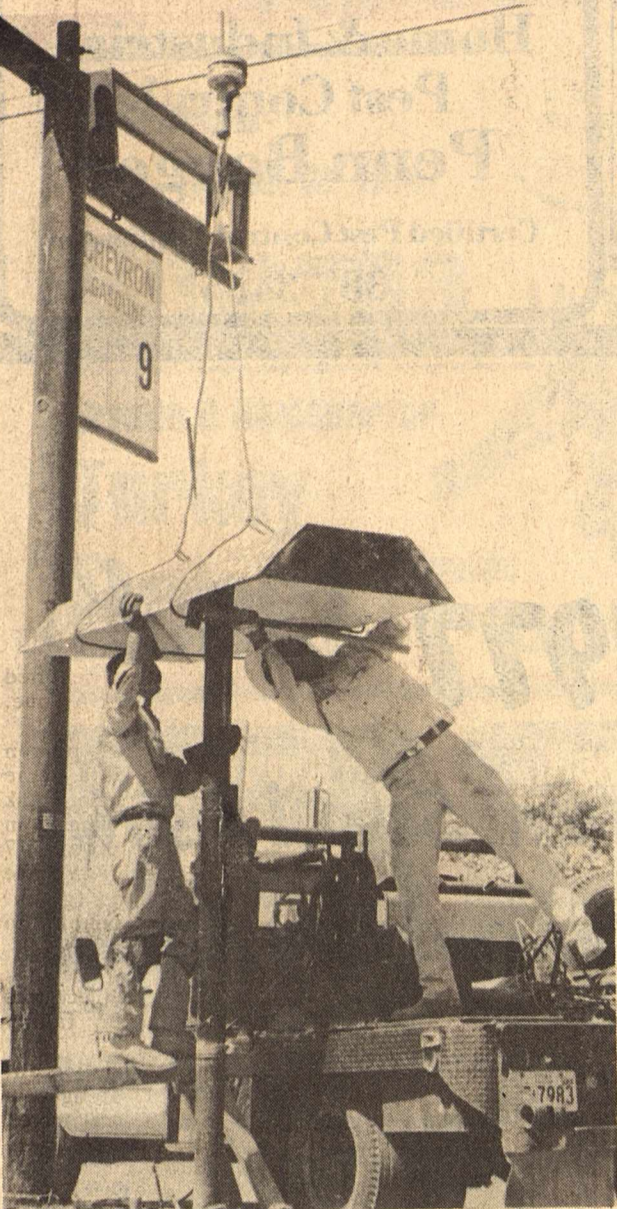

### SUTTON COUNTY DAYS

August 19 and 20

### Seven Girls Vying For Sutton Co. Day Queen

Seven girls are trying for the crown of Sutton County Day queen. These girls are selling tickets to both performances of the rodeo to be held in conjunction with Sutton County Days. The girl that sells most tickets will be crowned at the beginning of the rodeo performance scheduled for August 20.

Representing the Sonora Volunteer Fire Department is Jamie Condra; Petroetts, Nancy Mooney; Kappa Gamma Sorority; Trina Powers; Chamber of Commerce, Janice Grider; West Side Lions Club, Abby Sanchez; Downtown Lions Club, Jane Wallace; and the 4-H Club, Paula Friess.

Damaged gas pump, sign and light fixtures at the Hurry-Up are dismantled Monday after an early Sunday morning accident.

### Gas Pumps Victim In Truck Mishap

Last Sunday at 4:30 a.m., Sonora's Robert Brown was notified by the Sutton County Sheriff's Dept. of an accident at Brown's Hurry-Up Ice and Food Store on Hwy 290 West.

"A young man," he was told, "has run over your gas pumps."

It seems that a driver of a rig moving truck pulled up to the Hurry-Up's gas

pumps to get water...and as the driver pulled away in the truck, the rig trailer ran smack over the gas pumps, bringing down the sign, light fixtures, pumps and all.

"Fortunately," Brown comments, "the electricity was turned off so there was no gas spilled and therefore very little danger involved."

Brown adds that the normal operating procedure at the store is to turn off the electricity at closing time, which shuts down power to the pumps.

New pumps were to be installed today, and Brown expects to be pumping gas no later than this week-end.

### Ralph Wienhold To Preach At Church of Christ

Ralph Wienhold, Jr., minister of the Alvin Church of Christ, will bring the message at the local Church of Christ, Sunday, July 31.

Mr. Wienhold served as minister of this church some years ago. His father, Mr. Ralph Wienhold, Sr., is now serving the local church.

Visiting here with Mr. Wienhold will be his wife, Jeanette and children, Melody and Scott. They are anxious to meet old friends and acquaintances and invite all to make a special effort to attend the Sunday services at 11 a.m., and the evening service at 7 p.m.

### Baptists Set Bible School

The First Baptist Church of Sonora will hold their annual Vacation Bible School August 1-5. The school will begin each morning at 8:30 and dismiss at 11:30.

Mrs. Robin McAnally

and Mrs. Clayburn Stewart will be school directors and the Rev. Clifton Hancock will be the school principal.

All children ages three years through the sixth grade are urged to attend.

## \$945,700 Awarded In Law Suit

A San Angelo jury setting in U.S. District Court July 19 in San Angelo returned a verdict of \$945,700 for two West Texas men.

The suit resulted from

injuries sustained in an oil well company operation occurring on June 21, 1973.

Jerry Ellis, 30, of Brownwood, who claimed

multiple injuries, was awarded \$856,000 by the jury.

John Mathews, 26, of Colorado City, was granted \$89,700.

The two men successful-

ly alleged that a Chixson swivel joint, manufactured by FMC, Corporation of Los Angeles, California, was faulty and responsible for the injuries received while fracturing a well in Sutton County.

Tom Webb and Sam Sparts of San Angelo, who represented the two men, originally filed a suit for \$1,125,000.

The case was tried by U.S. District Court Judge Albert Woodward.

The verdict is believed to be a record in West Texas.

## Huge Oil Reserves Remain Undiscovered

Some 300 billion barrels of oil lying within the nation's borders must remain there because of unrealistic oil prices, a noted petroleum economist contends.

In an article in the current issue of the magazine Petroleum Today, J.J. Simpson, senior petroleum economist, Citibank, New York, says the oil is not being produced because the government-imposed ceiling price on domestic crude makes it unprofitable to use costly enhanced recovery methods.

The techniques referred to by Simpson are those used to produce oil that cannot be extracted by conventional means. They include waterflooding of wells, steam and inert gas injections, and the use of chemicals.

In his article in the American Petroleum Institute publication entitled,

"Give Us 300 Billion Barrels," Simpson points out the use of enhanced recovery would require a \$2 to \$25 increase in the cost of a barrel of oil, depending upon the technique used.

He also cites a Federal Energy Administration study estimating that the use of enhanced recovery to retrieve 30.5 billion barrels of oil would require an additional investment of \$150 billion or \$4.92 per barrel.

Simpson says that raising this capital would be difficult because price controls have made other ventures appear more profitable and less risky.

"Freeing oil and gas prices would provide some of it," Simpson writes. But he adds that the remainder would have to be borrowed from the capital markets.

"However once it has been shown that a project

can pay its own way--and not adversely impact the oil company's financial position--the money would become available."

"And, of course," Simpson concludes, "the sooner an economic climate that encourages the application of enhanced recovery techniques is provided, the better off American energy consumers will be."

### Wanda Cook Joins KVRN Radio Staff

Mrs. J.D. (Wanda) Cook assumed the duties of account executive for the local radio station July 11.

She has been secretary at Sonora High School for the past several years. The school is now taking applications to fill the vacancy left by her.

### City Tax Rebate Shows 38% Increase In Sales

State Comptroller Bob Bullock said July 15 that city sales tax rebates to date for 1977 are running a healthy 20.3 percent ahead of last year.

Bullock said his office mailed rebate checks Friday totaling \$23.6 million to 868 Texas cities for their July share of the one percent city sales tax.

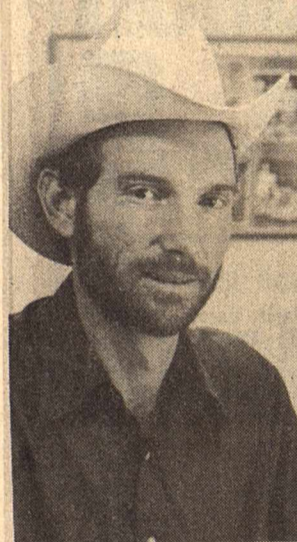

Included in this amount was a net payment of \$14,833.68 to the City of Sonora. Total payments of tax rebates to the City for 1977 are \$82,208.38 with a

38% increase over last year at this time.

The July checks boost to \$190.7 million the total that has been rebated to Texas cities for the first seven months of this year. This compares to \$158.6 million for the same period last year.

"These rebates are just another sign of the strength of the Texas economy," Bullock said.

He also noted that state sales tax collections in Texas are registering a bigger percentage increase than any other state.

What was a few weeks ago just a stubble now is looking like a mighty-fine set of whiskers on Herbert Jones' face. Jones says he expects to win the best groomed beard category of the Devil's River News sponsored Sutton County Days Beard Growing Contest. Jones wants to know what he'll win... prizes will be announced in next week's Devil's River News.

### San Antonio Couple Wed In Candlelight Ceremony

St. Andrew's United Methodist Church in San Antonio was the setting Saturday evening for the candlelight wedding of Miss Randa Gail Bond and Edgar George Cheate. The Rev. Milton Dare officiated at the ceremony.

The bride is the daughter of Dr. and Mrs. Frank L. Bond of San Antonio and the granddaughter of Mr. and Mrs. Frank P. Bond of Sonora and Mr. and Mrs. Walker H. Barnebey of San Antonio.

best man was Frank Cheate of Phoenix, Arizona. Groomsmen were Warren Grimes and David Cantu of San Antonio, Ben Weber of Castroville, and Kurt Weber of Hondo. Ring bearer was Walker Bond, brother of the bride.

Ushers were Kirk Bond and Ford Bond, brothers of the bride.

Following a reception at The Gazebo at Los Patios in San Antonio, the couple left on a wedding trip to Cancun, Mexico. They will reside in College Station.

The bride is a graduate of Texas State College in San Marcos. Mr. Cheate attends Texas A&M University.

The bridegroom's parents were hosts for the rehearsal dinner.

### Bridge Tournament Winners

Twelve tables of players attended the Eldorado Duplicate bridge tournament last Thursday.

Winning overall high were Pug Scott and Sally Sheen of San Angelo, first; Bobby Barber of San Angelo and M.H. Callan of Menard, second; and Mr. and Mrs. Frank Tillman of Ozona, third.

Winning high north-south were Mr. and Mrs. Frank Tillman first; Mrs. M. Hickox and Mrs. Albert of San Angelo, second; Melissa O'Harrow and Sue Barber, third; Lola Lusby of Big Lake and J.E. Coles of Iraan, fourth.

Winning high east-west were Pug Scott and Sally Sheen, first; Bobby Barber and M.H. Callan, second; L. Capehart and Mrs. Thomas of San Angelo, third; Tom Peaslee of Sonora and Billie Porter, fourth.

The club will meet Thursday night at the regular time of 7 p.m.

Maple syrup and maple sugar are exclusively North American products.

### Mrs. Hite Host To Chaos Club

The Chaos Bunko Club met Monday night at the fire hall with Mrs. Molly Hite serving as their hostess.

Cake, sandwiches, and lemonade was served to Mmes. Curtis Weant, Bill Jolly, Lila Mae St. Claire, Walter Walicek, Rodney Knight, J.D. Mirike, Scooter McMinn, Allen Hearn, and guests Mrs. Ann Goodwyn, Ms. Nora Cahill and Miss Kim Jolly.

Mrs. Hite was winner of the bunko prize; Mrs. Walicek, high game; Mrs. St. Claire, second high, and Mrs. Mirike, low.

### New Arrival

Mr. and Mrs. Jerry Jackson are parents of a son, Jerry Dean Jackson, III, born July 18 at the Schleicher County Medical Center in Eldorado. He weighed 7 pounds, 2½ ounces.

Welcoming the baby are two sisters, Bonnie, 9 and Julie, 7.

Grandparents are Mr. and Mrs. L.T. Barina of San Angelo, Mrs. Irene Brunson of Temple, John H. Brunson of Ferndale, Washington, and Mr. and Mrs. Don Luce of London.

### Community Calendar

Visiting friends in Sonora last week were Mr. and Mrs. Earl Lomax. Thier daughter and granddaughter. The Lomaxes are former Sonorans.

### BIRD Facts & Fancies

The ostrich, the world's largest non-flying bird, has a variety of talents. Not only can it kick like a mule, but also hisses like a snake.

Though most birds are smaller than man, our feathered friends are 75 percent stronger, proportionate to their size.

Cecil Westerman  
Would Like TO Be YOUR Pharmacist

## Gosmic Signs

#### AQUARIUS

(January 20 - February 18) Someone may give you a surprise invitation for this evening. Your desire for glamour will be gratified.

#### PISCES

(February 19 - March 20) You may brood over your life, fate and the bad deal you think you have had from the beginning. This is foolishness. Live for today.

#### ARIES

(March 21 - April 21) Do nothing to show your contempt for someone who has been a good friend.

#### TAURUS

(April 22 - May 21) You may spend the day having fun. You must be wary of what you do. You will get into trouble if you go to excess today.

#### GEMINI

(May 22 - June 21) Look your best; make a fine impression. You can date on the friendship shown you. Talk to a neighbor tonight—confidentially.

#### CANCER

(June 22 - July 23) A gift may be given to you. Don't misuse it. Avoid any selfish actions. Trouble will result if you follow those impulses that are wild and unrealistic.

#### LEO

(July 24 - August 23) You are somewhat torn. You are standing at a turning point and you consciously feel it.

#### VIRGO

(August 24 - September 23) Someone a little older than you may try to run your life. You may show bitterness over this. You need this help, and you will continue to get it.

#### LIBRA

(September 24 - October 23) Be your kindest and make someone else happy. Be grateful for all that has been done for you.

#### SCORPIO

(October 24 - November 23) This is a good time to stick to your life of "do's and don'ts." Avoid any risky activity.

#### SAGITTARIUS

(November 24 - December 23) Take a slight risk, but don't expect too much reward.

#### CAPRICORN

(December 24 - January 19) You may be involved with a fine group of companions, but you may consider leaving them. You would be making a big mistake to leave.

## Sonora Minister Speaks

**The Desire of All Nations**  
Haggai 2:6,7; for thus saith the Lord of hosts; Yet once, it is a little while, and I will shake the heavens, and the earth, and the sea, and the dry land; And I will shake all nations, and the desire of all nations shall come: and

I will fill this house with glory, saith the Lord of hosts.  
What is the desire of all nations today? It is the desire for more truth, a hunger for the meat of the word of God.  
Amos 8:11 Behold, the days come, saith the Lord

God, that I will send a famine in the land, NOT a famine of bread, NOR a thirst for water, but of hearing the words of the Lord.  
In Christ's sermon on the mount, he told how to fill that hunger and desire.  
Matt 7:7,8 ASK, and it shall be given you, SEEK,

and ye shall find, KNOCK, and it shall be opened unto you:  
For everyone that asketh receiveth; and he that seeketh findeth; and to him that knocketh it shall be opened.

## Scientists Study Range

Scientists are searching for the beef breed that can best utilize the forages available in South Texas. Here (left to right) Albert R. "Buddy" Jenkins and Dr. Stewart Fowler brief Pat Phillips and Dr. Pete

Winn on the merits of the breed, Barzona (background), which is being studied at the ranch. Phillips and Dr. Winn teach at Southwest Texas Junior College and use the Experimental Ranch annually for field trips.

## TS&GRA Sponsors Lamb Evaluation Clinic

Sheep Producers, Lamb show judges and lamb packers all had an opportunity to compare notes during the recent lamb evaluation and judging clinic at San Angelo.

The two-day affair, sponsored by the Texas Agricultural Extension Service and the Texas Sheep and Goat Raisers' Assn., offered each group an opportunity to discover just what the other groups wanted in a lamb. It was apparent that not everyone was riding the same rail, though the tracks do appear to be converging.

TS&GRA executive secretary Bill Sims says such clinics can help promote and hurry that convergence. Exposing differences between show ring selection and packer preferences, he explains, "can sober an old boy up real fast."

Sims adds that since lamb grading standards became accepted less than a decade ago, show selections have tended to promote

"poorer" lambs. Such lambs fall at the low number end of the yield grade scale and have little if any external body fat, the textbook example of a "lean" animal.

These specifications would theoretically please the housewife, who has traditionally called for economical meat and a minimum of wasted fat. Unfortunately, leanness can be carried too far, and Sims says show judges have now begun to set their sights on a more balanced carcass.

Texas A&M meat specialist Gary Smith, speaking at the lamb clinic, told participants that a certain amount of external fat is necessary to meet lamb carcass marketing realities.

"A lamb slaughtered in the San Angelo area," he said, "won't be eaten in the San Angelo area—it will be eaten somewhere like Philadelphia, Boston or New York." Meanwhile, it will spend as much as a week to 10 days enroute or in storage.

Under such circumstances, an extremely lean carcass will end up discolored and dry, due to loss of moisture. Smith explained that a covering of fat functions as a shield to prevent such moisture loss and discoloration.

Sims says the inclusion of such information in the lamb clinic program indicates that, "Hopefully, judges are leaning toward a lamb with a desirable yield grade, not necessarily a low grade number."

The popularity of carcass shows has also helped smooth the way for a meeting of the minds on desirable lamb qualities, he adds. Such shows, he feels have helped bring judging trends out of the "too poor" rut by demonstrating graphically how undesirable an extremely lean carcass can become in a very short time. "These carcasses are exhibited for a while after judging, and it hasn't taken some of the lean ones too long to turn blue, so you can imagine what they would have looked like by the time they hit the East Coast."

## Philosopher on Presidential Libraries

Editor's note: The Devil's River Philosopher on his bitterweed ranch on the Dry Devil's River thinks he has foreseen a problem for this country.

Dear editor:

There's a future problem facing this country the people ought to be giving some thought to. It's Presidential libraries.

Although Gerald Ford served only two years, plans are now underway to build a Presidential library for his papers. Ground was broken recently for a library for

John Kennedy. The Harry Truman library was built several years ago. The Lyndon Johnson library was completed a few years ago and is now crammed with millions of Presidential papers and other odds and ends. There's some random talk of building one for Richard Nixon.

Stop and think about this. If every President has to have a library when he leaves office, and if this nation endures for 1,000 years, do you realize how many libraries that's going to be? One hundred

and twenty-five, if we have a retiring President every eight years.

Actually it'd be more than that, counting one-termers, future resignations, possible impeachments, etc., plus the libraries already built. Ought to come to over 150 at least. That is a passel of libraries, and they're going to get crowded, especially if one city winds up furnishing say 10 or 15 Presidents. It might take a Constitutional amendment saying no two Presidents can come from the same town

and still have a library.

Therefore I have an idea. Let's head off this library crisis before it gets out of hand. The thing to do is to build one huge pyramid in about the center of the country and put all past and future Presidents' papers and stuff in it, down to the last inaugural hat, pipe, bottled ship, First Lady's dresses and secret agreements with foreign countries.

Now nobody knows for sure how the Great Pyramids were built, but somebody in the military-industrial

complex, if given a costplus contract, ought to be able to get the hang of it. Egypt, where they are, would be a great place for junketing Congressmen to visit to study the things. They could come back by way of Paris.

If this country doesn't want to be over-run with Presidential libraries, we'd better get that U.S. pyramid started. It's more serious than you may think. There're plans afoot now to build libraries for ex-Congressmen. Will state Legislators and Justices of the Peace be next?  
Yours faithfully,  
J.A.

## Krueger Introduces Tough Import Inspection Law

Legislation calling for tougher inspection of imported beef and more specific labeling for consumers was introduced in the House last week by U.S. Cong. Bob Krueger of Texas.

If adopted, the bill will significantly upgrade meat inspection standards and provide consumers with more labeling information on meat than ever before.

"Currently, imported beef is not even labeled as such, does not always meet health requirements of domestic beef and is cutting into the beef market of domestic cattle raisers," Krueger said.

More than a quarter of a million cattle were imported into the U.S. from Mexico alone last year, most of them undergoing only random inspection by the U.S. Dept. of Agriculture.

"My bill will require that every fourth carcass be inspected by U.S. inspectors, and it calls for a 30-day quarantine on imported cattle to determine if herds are carrying brucellosis, which has been spreading at a dangerous rate to American beef herds," Krueger said.

Brucellosis is a common disease among Mexican cattle and it causes cows to abort their calves.

Krueger said his bill will cost taxpayers no additional money. "It calls for the foreign importers to absorb the costs of additional inspections in the U.S. and my bill carries a provision that allows us to impound cattle if inspection costs have not been paid," Krueger said. The bill will also apply to

labeling of all processed meats, be they canned, cooked or frozen meats sold to retailers.

"The inequity in inspection standards have left domestic beef producers in the strange situation of having to deal with regulations that favor foreign beef producers. My bill will correct that, yet still allow the free market system to function," Krueger said.

## Latest Count Shows 35 S' worms

The 1977 Texas screwworm case count reached 35 today with lab identification of four samples collected by Kinney County rancher M.M. Nelson of Brackettville, reports a U.S. Department of Agriculture (USDA) official.

Dr. M.E. (Cotton) Meadows, Jr., director of the Animal and Plant Health Inspection Service (APHIS) Screwworm Eradication Program, says these are the first screwworms identified since July 6. On that day maggots Walker Epperson took from a Edwards County goat near Rocksprings were proved to be screwworms.

By July 20 of 1970, best previous year in history of the APHIS program, the Texas case count was 62. A year ago it was 5,554.

Nelson collected the current samples on his Rafter L Cattle Co. ranch 22 miles northeast of Brackettville. On July 15 he took maggots from the head of one sheep and the flank of another; the next day he found worms in the shoulder of a cow; and on July 17 the fourth sample came from an infested brand injury in a bovine.

## Beef Referendum Fails in Voting

O.J. Barron, Jr., chairman of the national Beef Development Taskforce (BDT), issued a statement today conceding that the Beef Referendum fell short of the necessary two-thirds affirmative vote.

A preliminary count from county ASCS offices indicates that over 100,000 producers, or about 55% of those voting, supported the program.

The BDT, a broad-based group comprised of leaders from nearly every producer organization in the U.S., has worked over three years for the industry self-help program.

"Never before has a cattle industry program received so much favorable publicity and editorial support."

"Yet a few self-serving people chose to shoot it down with unfair and misleading statements. In this case, a minority won."

"For all cattlemen, who think that the cattle business should and could be better, I would like to thank the more than 10,000

volunteers who unselfishly devoted their time, energy and finances toward helping their fellow cattlemen."

"Their efforts were not in vain. For we have a new unity of our industry and we have learned much that can help us in the future. We have pinpointed many problems. We have uncovered new leadership. We have learned how to make our voice heard in Washington."

As we look to the future, we hope that leaders in our industry, who are dedicated to a better future for all cattlemen, will not be too discouraged.

"Also, we hope that other organizations which opposed this self-help program but claim to support research and promotion for commodities, will join with us now in searching for workable solutions to cattlemen's problems."

"We must continue our search for a way to stabilize our industry, to increase profits for all cattlemen and to build a better future—together."

**HNG Oil Co.**, Sawyer (Canyon), Wallace "75" no. 1, 12 miles southeast of Sonora, 5,150'.

### Industrial Production Up

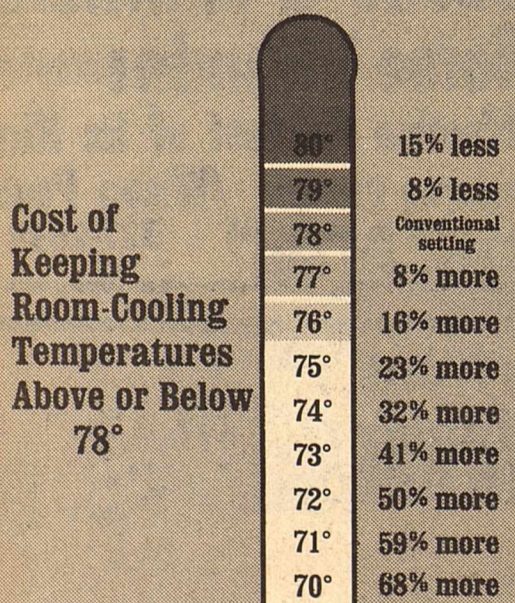

Industrial production in Texas edged up in May at a 5.4-percent annual rate, seasonally adjusted. Preliminary figures show total output 5.2 percent above a year earlier.

Strong drilling activity and a small increase in crude oil production accounted for the overall rise in mining output. Since February, crude oil production has risen three consecutive months.

# Drilling Permits Increase Again

Applications for permits to drill oil and gas tests in Texas totaled 12,364 for the first six and a half months of 1977, up from 10,349 for the same period in 1976.

Year-to-date applications to drill, deepen, plug back and for service wells totaled 14,484 against 12,270 a year ago, the

Railroad Commission's Oil and Gas Division reported in its semimonthly drilling report.

The report showed 16 oil discoveries and 30 gas strikes were completed in Texas during the July 1-15, 1977 period.

Oil discoveries included six in Southeast Texas, two each in the San

Antonio and Panhandle areas, three in Deep South Texas, and one each in the Refugio, West Central Texas and Lubbock areas.

Gas discoveries included 10 in Deep South Texas, six in Southeast Texas, four each in the San Antonio and Refugio areas, two in the San Angelo area, and one each

in the East Central, East Texas, Midland and Panhandle areas.

The Oil and Gas Division listed 7,112 oil, gas or service well completions for the year to date, up from 6,477 a year earlier.

Of the 4,401 oil completions so far in 1977, 344 were discovery wells. A

year earlier there were 3,965 oil completions with 302 listed as oil discoveries.

Gas well completions this year total 2,335 of which 439 are discovery wells. For the same 1976 period, Texas had 2,245 gas well completions including 482 discoveries.

The report shows 913

drilling applications for the latest two-week period and logs 459 oil, gas and service well completions.

There were some 306 oil and 137 gas well completions since the last semimonthly drilling report. In the July 1-15 period, 141 exploratory and field tests wound up as dry holes.

# Congressmen Attack Fed Rules

Special hearings will be called to study Congressional charges that overzealous federal regulations have endangered construction of a "crucial" offshore oil port in the Gulf of Texas, two congressmen announced today.

The hearings will be called by Congressman Jack Murphy, (D-N.Y.), Chairman of the House Committee on Merchant Marine and Fisheries, Texas Congressman Bob Gammage and Bob

Krueger announced in a joint statement.

Krueger and Gammage, after visits during the past week to the coastal area near which the port is scheduled to be built, urged Murphy to call the hearing before the Merchant Marine and Fisheries Committee.

Their allegations that federal regulations governing operations of the port--Seadock, Inc.--are too stringent are expected to receive strong backing from Texas residents and

corporations involved in plans for the superport.

"There is no port in the United States that can accommodate a super tanker, and Seadock, Inc. stands to create 150,000 jobs nationwide.

It is unreasonable that the Department of Transportation and the Department of Justice have initiated such stringent regulations that the very companies willing to invest in this most crucial endeavor have had to withdraw," Gammage and

Krueger said.

The two Texas congressmen said they have urged Murphy's specially called hearings to center on what they called "unreasonable and unjustifiable" regulations pertaining to restrictions set forth in the license for Seadock, issued by the Department of Transportation, as well as corporate liabilities demanded by the Justice Department in connection with antitrust law.

"We fully understand the Justice Department's

general concern over joint corporate ventures of this size," Krueger and Gammage said, "but requiring corporate liability of the companies involved is an overzealous attempt to punish companies which, in this instance, are willing to invest major capital in a project that will do major good, not just for the economy of Texas, but for the entire nation.

"Texas has 45 percent of the nation's oil refining capacity, and it is illogical

that the state does not have an off-loading center for crude oil carriers," Krueger and Gammage said.

The most recent corporations to withdraw from the project because of the regulations are Gulf, Exxon and Mobil Oil, leaving only six of the 13 corporations once involved, still in the project.

Krueger and Gammage said they will present evidence to Murphy's committee that federal regulations have been unnecessarily stringent.

## Damoclean Sword Hangs over U.S.

The nation's oilmen have long been aware of the energy crisis that has been hanging over the U.S. like a Damoclean Sword.

They not only have been warning the nation of the impending crisis for years, they also have been setting a good example by substantially reducing consumption of energy in their own operations.

For example, in refineries, which use about 70 per cent of the energy expended by the industry, better maintenance, operational efficiency, and more than \$1 billion in capital improvements have resulted in a 13 per cent decrease in energy consumption since 1972.

To cite some instances highlighted in the current issue of Petroleum Today:

--At Suntech's Applied Physics Laboratory in Newton Square, Pa., a 20-year-old building has been made more energy-efficient through redesigned air and lighting systems. Old metallic awnings have been replaced with solar panels which contribute to space and water heating and provide the lab a test-bed for solar energy experiments. Result: Since 1973, the Suntech Physics Lab has cut its energy use in half, and won the Federal

Energy Administration's 1975 Excellence Award.

--The latest available conservation concepts were embodied in plans for Texaco Inc.'s new headquarters building in Westchester County, New York.

As one oilman put it, "We must practice what we preach. One oil truck doing 70 on the highway can obliterate months of effort trying to encourage the public to conserve energy."

Natural gas does far more than heat your home!

## GAS FIRES THE BRICK THAT OUR CONSTRUCTION INDUSTRY WILL NEED TO BUILD A STRONGER ECONOMY.

As the building industry goes, so goes much of our economy. And the benefits of construction starts are all the greater when locally manufactured materials are used. Because more of the money stays at home to create more jobs.

Brick manufacturers in the Lone Star service area employ more than 10,000 people in making, distributing and selling brick. Many of these jobs depend directly on natural gas as the most efficient and economical source of heat for firing the brick.

Temperatures in the kilns run as high as 2,600 degrees F. the year around, and this takes a lot of gas. Brick plants served by Lone Star require more than 1.6 billion cubic feet annually. Now, with so many jobs at stake in this one industry alone, future gas supplies must be considered.

The risk is that companies in energy-short areas of the nation could wind up with the lion's share of these reserves as they are developed.

Buying enough gas to last this area far into the 21st century adds up to one inescapable fact. Both you and Lone Star will have bigger gas bills, because Lone Star cannot make the purchases without a fair return on the necessary investment.

But we're ready to invest in this area's future. If you are.

It's time to build job security.

Vast basins of natural gas, yet untapped, are crossed by Lone Star's pipeline system. A fact that puts Lone Star in one of the most favorable buying positions of any gas company. But, with steadily rising prices, the new gas will be expensive.

Lone Star Gas Company  
Working energetically for your area's future.

The Singing Payne Family of Abilene will be in concert here July 30 at 7:30 p.m., at the Fire Hall. They are being sponsored by the Trinity Baptist Temple of Sonora. The family is active members of the Trinity Baptist Church in Abilene. The Rev. Gaylan McClellan, Pastor of the Trinity Baptist Temple, extends an invitation to the general public to attend the concert.

### Philosopher Defends Financial Experts With Tangled Finances

Editor's note: The Devil's River Philosopher on his bitterweed ranch on the Dry Devil's River examines a peculiar problem this week which he claims isn't peculiar.

Dear editor:  
Newspaper and maga-

zine columnists have been having a good time snickering at the director of the Office of Management and Budget, Bert Lance, because, while his job is to help bring sound business principles to the Federal government, his own personal finances are

in a mess. He owns three homes, including a 40-room mansion, and while his net worth on paper is over 2 million dollars, he has debts of over 5 million. Also, he has 200,767 bank shares, which are now worth a lot less than he paid for them with borrowed money.

How, the columnists are saying, can a man with that much trouble with his own finances be expected to do much for the government's finances?

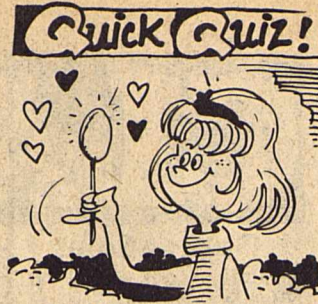

That has nothing to do with it. Once more the columnists have missed the boat. For example, how many agricultural experts do you know who could make a living farming? How many economists have you heard of who got so smart about predicting economic trends they went into the stock market on their own and got rich? How many weather forecasters have been caught in a rain without an umbrella? How many Congressmen can write a bill without the help of their hired staff? How many politicians can write their own speeches? How many school admini-

strators can speak correct English? Is Jimmy the Greek willing to bet his money on all the odds he's always giving out? Can the presidents of the big car companies make a car the muffler won't fall off? How many philosophers can follow their own philosophy, if they've figured out what it is? How many parents would be comfortable if they thought their kids were going to do everything they did when they were young? Or even now? How many editors...I'm running out of space.

Sure, Bert Lance's personal finances seem tangled, but his financial statement shows liabilities of over 5 million dollars and assets of nearly 8 million, for a net worth on paper if nothing goes wrong of 2 1/2 million, and while that's a lot of debt and may be a little shaky, have you ever stopped to think what the Federal government's financial statement would look like?

Personally, I don't believe I want to know and I doubt if you do. No sense in all of us losing sleep.

Yours faithfully,  
J.A.

1. Lollipops were named after (a) the inventor's daughter (b) a popular race horse?  
2. The sugar in candy is (a) a source of quick energy (b) the major cause of obesity in children?

ANSWERS: 1. (b) Though lollipops had been around since the 1850s, they didn't get their name until the turn of the 20th century, when Lolly Pop was a track favorite. The stick was pushed into the candy by hand until 1908 when the first machine turned out 40 lollipops a minute.  
2. (a) The National Academy of Sciences in Washington, D.C. says that the sugar in candy is a good source of quick energy. That means that the candy bar you child buys from his lunchroom's vending machine does more than taste good. As for obesity, doctors at the famed Mayo Clinic say that it is not

the sugar consumption but the lack of exercise that is the major cause of obesity in children.

### My Band Director

By Kathryn Parker  
(Editor's note: Miss Parker placed second with her essay entered in Competition while attending ACU Band Camp.)

My Band Director is really great! His many different personalities are always ready to help you with anything, music problems, personal problems, and even when you need a good laugh he's always there. He can make jokes about himself and about other people. But then when he needs to be, he can be very, very serious.

Mr. Martinez isn't like other people who give the impression that they know everything about everything. He can admit that he's wrong when he is. He is not a sissy either, when a tire needs changing he's always the very first one to find the jack and the spare tire. On Band trips he tells jokes, sings songs, and gloats over ribbons and trophies just like the rest of us.

He's great on the platform, too. He directs, plays music, and dances a little bit, too. He keeps 5 concert Bands going strong; not to mention 2 stage Bands. Whenever you see Mr. Martinez there are always a few, or sometimes a multitude of kids around him fighting to be the first one to talk to him.

He directs a band that's on the field from the sidelines just as well as he directs when they're in the Band Hall. He gives just as much praise to his Beginners Band as he gives to his High School Band. To "Mr. Marty" as I call him, we're all equals.

Mr. Martinez has his bad points too, but there are so few you couldn't even use half of a page to tell about them, so I'm not going to say anything else about him; but leave you with the thought that in my eyes "He is the GREATEST Band Director of all times."

### Dee's Notes

THE WAY THINGS are looking now, it appears that Aug. is going to be a busy month in Sonora, at least. Some of the events planned include the Men's Partnership Golf Tournament to be held Aug. 6-7. A capacity crowd is expected with 64 teams already entered.

THEN TOM Glasscock will be in charge of the stock for the Rodeo that is to be held in conjunction with Sutton County Days, sponsored by the Jaycees. The Chamber office will serve as registration place for participants. Entries will be taken here Aug. 18 from 9 a.m. to 7 p.m., at which time the books will be closed.

OUR QUEEN CONTESTANTS are selling tickets to the rodeo, and any chamber member who might like to purchase tickets, we have some at the office—to assist Janice Grider, the Chamber candidate. Of course, tickets will also be available from each of the Queen contestants who are being sponsored by various non-profit organizations—so the selection is up to you!

NEXT WILL be school opening with the school calendar showing Aug. 22 as opening date. Several area schools have changed school opening dates, with total class days lowered to 175. No official action has been taken here as yet, since this requires Board action.

CHAMBER DIRECTORS plan to meet Monday, Aug. 1 at Sutton County Steak House for their regularly scheduled noon monthly meeting. We do need to know if a local person or firm is interested in catering the Sept. banquet...so give us a call before Aug. 1.

CALLS FOR HOUSING continue to occupy much of our time. Cardinal trucking employees from Big Lake were over Sat. looking the housing situation over. They have offices at Shurley Enterprises and several mobile home spaces have been rented from J&V Mobile Home Park, but there are others who do not have

mobile homes.

THE REV. MR. TOM SHIPP, 59, died suddenly in Dallas last Friday. Some of us remember him quite vividly as he conducted services here on the courthouse lawn during Sonora's Diamond Jubilee celebration in 1965. A dynamic personality, lives were touched by his ministry. His 39-member church—which began in his home—grew to a membership of 8,000 (Lovers Lane Methodist Church, Dallas). He was particularly renowned for his work with AA, and Sonora AA members were instrumental in bringing him here. The late Mr. Joe Brown Ross and I discussed Tom Shipp's closing remarks that night as he firmly held the Holy Bible in his hands and said "You ask me how you should live, my friends? You'll find all your answers right here!" And though others have said the same thing many times, somehow Tom Shipp left no doubt—you knew he was right and where he had found answers for his lifestyle. A tribute to one of the great men of God...we regretted to hear of his untimely passing.

CONGRATULATIONS to Norman Rousselot who has been elected Vice President of the Texas Sheep & Goat Raisers Association. They have gained a top-notch executive and a person who will render an outstanding performance. Most of us can testify to this as evidenced by the manner that he has served Sonora as Mayor for the past several years.

MUSCULAR DYSTROPHY personnel want to set up a pledge center here in connection with the Jerry Lewis Telethon Sept. 4, which begins at 9 p.m. and continues to 4:30 p.m., Sept. 5. They will install phones but need a place and sponsor for the 20 to 24-hour period. If any organization or group of women are interested in this service, you are asked to call 817-923-8819 collect (the office is in Ft. Worth).

REVIVAL SERVICES are being conducted nightly at 7:30 at the Church of God of Prophecy this week

and will run through Sun. night. Arlene Bales of Wichita Falls is the guest speaker, according to the Rev. Mr. Kenneth Cook, pastor of the church. You are invited!

LOT FOR SONORA school's vocational building has been cleared and construction should begin soon. The Manse for Church of the Good Shepherd, Presbyterian, is progressing...and what about the walls of First National Bank?...new bldg. looks interesting, doesn't it?

NOTE: Dutch So. African minister, Bertie Greeff, his wife Elaine, and their son, Clinton, all of Capetown, will be at the Tom Nevill home Saturday night to share what God is doing in South Africa. You are invited to fellowship—7:30 p.m.

CITY MANAGER Bob Nevill has been very occupied with city budget which will be presented to the Council in August. City Council meets Monday, Aug. 1, and a special meeting is scheduled later for councilmen to study the budget. Money talk reminds us...we hear councilman Jack Kerbow has a rich son! Congratulations, Bruce and Jessiel! (we count you as friends!)

FOR WHAT IT'S WORTH...A woman was so wearied by the long-winded account that an invalid gave of his illness that she fell asleep, to awaken and hear herself say: "And did you die?" HAVE A GOOD WEEK!

### SS Representative

#### Sets Aug. Visit

Peter Gonzales, social security representative for the San Angelo Social Security office, has scheduled his August visit to Sonora. He will be at the County Courthouse on Thursday, August 18 from 9 a.m. to 10:30 a.m.

Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time. Persons who are unable to meet with him are encouraged to call the office in San Angelo.

### Scouts To Leave For Jamboree

Forty Scouts and leaders of the Concho Valley Council, Boy Scouts of America will leave Thursday, for the Ninth Boy Scout National Jamboree to be held August 3-9 at Moraine State Park, PA, according to James Young, chairman of the Council Jamboree Committee.

The Jamboree Troop of thirty-six Scouts and four leaders will travel by chartered bus from San Angelo for Dallas at 8:00 A.M. from the Boy Scout service center. In Dallas they will join other Scouts from across Texas to fly by chartered Jets to Washington D.C. for four days of sight-seeing prior to the Jamboree. Included in the Washington tour will be visits with Bob Krueger, their Representative in the House, the Smithsonian Institute, FBI, the Capitol, Arlington Cemetery and the Marine Corp Barracks.

The Troop will arrive at the Jamboree site on Monday, August 1, to set up camp and visit the pre-Jamboree exhibits. The youth will participate along with some 35,000 others in the grand opening campfire on August 3. Some 324 foreign Scouts will join the group in six days of activities and fun. Activities at the jamboree include competitive events, pageants, merit badge midway, religious services for all faiths, Arts and Science Fair, waterfront activities, a national cooking and baking contest, and Awareness Trail, fireworks, campfires, and

a special Brownsea Island camp of 70 years ago!

In addition, they will see Bruce Jenner, U.S. Gold medal winner of the 1976 Olympics decathlon event, Christy Moller, America's Junior Miss of 1977 and Becky Reid, the reigning Miss Teenage America and Dottie West, western recording star.

A tired but excited group of youth will return to San Angelo from the Jamboree on Wednesday, August 10.
