

Willene Garlitz Wins Football Contest

Willene Garlitz of Eldorado took first place in the Devil's River News this week, winning the \$20 first place prize money. She was one of 10 entries missing three games as the tie breaker had to be used to separate the winners. Kelly Ward took second place prize of \$10, while Mary Gallagher took \$5 for her third place effort. The Garlitz and Ward entries were two of only seven in the

entire contest that correctly picked Eldorado to win the tie-breaker game over Menard. Others missing only three games were Jesse Martinez, Elva Martinez, Wade Hopkins, Dora Mata, Hazel McClelland, Tommy Thorp and Winnie Allen. The games most often missed were Houston over Arkansas, Colorado over Missouri, Cincinnati over Houston and St. Louis over Philadelphia.

Heart Assn. Schedules Walkathon

The Sutton County Chapter of the American Heart Association will hold its first annual Turkey Walk on Saturday, Nov. 11 according to Rev. Jim Miles, Division President.

Co-charman of the event are Harold Miller and Special Events chairman Charles Russell.

The purpose of the walkathon is to raise money to combat the nation's number one killer, cardiovascular disease.

Walkers may pick up registration forms at local businesses or at the school.

They will then need to solicit "pledges" on a per mile basis. The recommended pledges are 25 cents to \$1 or more per mile.

The course is a closed one, and no one will walk more than 16 miles.

Those walkers turning in \$50 or more in pledges will receive a certified redeemable for a turkey at the Branding Iron Smoke House.

Marchers will gather at 9 a.m. in the parking lot of the First United Methodist Church.

Refreshments and Sag Wagons will be furnished.

All residents of the county are urged to participate in this worthwhile cause either by walking or by pledging to the walkers.

Mrs. Lois Duncan, librarian, sorts a few of the new books now available at the Sonora library, temporarily located upstairs at City Hall. Mrs. Duncan reminds library visitors that there is an elevator in service for those unable to climb the stairs. Library hours are from 9 a.m. to 12 noon and 2:30 p.m. to 4:30 p.m. Monday through Friday.

Sonora Library Adds New Section of Books

A new section has been added to the Sonora Library which will help people who have trouble reading regular size print.

The large-type printed books are on loan from Abilene for the next five months.

A few of the well-known titles are "Where Eagles Dare," "Bride of

Pendoric," and "Breakheart Pass."

Another addition to the library is the Spanish language novel section. Sonora children also have access to a large selection of books for all age groups and interests.

A popular paperback section now contains 500 volumes, and Sonora librarian, Mrs. Lois Duncan, invites donations of books to add to the collection.

Deadline Nears To Vote Absentee

Voter turnout has been slow in absentee voting, according to Sutton County Clerk Erma Lee Turner, although 45 persons had either voted or had ballots mailed to them by newstime Tuesday.

The deadline for voting absentees is 5 p.m. Friday, and anyone planning to be out of town during the election hours of 7 a.m. to 7 p.m. next Tuesday should report to the County Clerk's office in the Courthouse.

A detailed election summary will be included in this week's West Texas Sunday Shopper.

Woman's Club Sets Luncheon

The Sonora Woman's Club is holding its fall luncheon and food sale, Monday, Nov. 6 in the basement of the Methodist Church.

The food sale will begin at 10 a.m. and the luncheon will be served from 11 a.m. to 1 p.m.

The menu will include: (Mrs. J.F. Howell's) chicken tetralini, seasoned green beans, broiled peach halves, pumpkin cake (with whipped cream), angel biscuits, and tea or coffee.

The \$3 per person fee will be used for the library building fund.

We welcome take-out orders on the day of the luncheon, just call the Methodist Church.

To make advanced reservations anytime before Monday, call me at 387-2628.

We greatly appreciate the fine support that Sonorans have given the library in the past, and look forward to continued support through this next year.

Energy Speculation Leaves Question Marks

by Wes Burnett

A hint of the future for Sonora and Eldorado is easy to spot...just sit at one of our restaurants any early morning and listen to the petro talk.

"Well, drilling could really pick up here..." one water transport driver is heard to say... "yeh, but where are the rigs going to come from?" asks a welder, who has heard there is a shortage of rigs.

Or another is overheard repeating a story that no, there's not going to be any more drilling than right now, simply because in 1985 the prices of natural gas are going to be deregulated...and a lot of folks are waiting until then to drill.

I suppose the whole point of this opening to Part II of our energy story is to show that for every "expert" you talk to in the energy business, there is a different idea about what the new energy bill will do to the drilling activity in this area.

We track down rumors on this subject frequently...example: "did you hear that X Drilling Co. is going to start drilling 300 wells next month?"

A call to our friends at X Drilling Co. reveals that yes, there is a plan for additional drilling, but the company does not have any set schedule for completions...

It is no doubt that the very nature of the petroleum business fosters these stories...and some of it is just plain gossip.

But the fact remains that Sonora and Eldorado are the center of this activity...we have an abundance of petroleum servicing companies and their people...and there is still some uncertainty as to the amount of natural gas drilling to be done here.

There is no uncertainty about drilling and producing natural gas in this eight county area...the question is how much?

The answer to that question lies buried in the recently passed natural gas regulation bill, which congress in all its wisdom has sent to President Carter for his signature, which at presstime was still sitting on his desk.

All this fuss and hurry, hurry, we have to have an energy bill...and now we wait.

Frankly, we've been told by our Washington, D.C. sources that the President is waiting to sign so that the bureaucrats in the energy department can figure out a way to write the regulations to support this monster.

I do not envy the clerk who has to tackle this impossible task. More than likely the bureaucrats will rush through the regulation procedures, just as congress did on the final version of the bill, and we'll be stuck with two sets of massive problems: a bill that can't be read by ordinary folks and regulations that escape explanation.

Try these definitions on for size and just imagine the regulations which will follow:

[the following is an exact quote from the actual bill passed by congress]

(5) Marker Well- (A) General rule.- The term "marker well" means any well from which natural gas was produced in commercial quantities at any time after January 1, 1970

and before April 20, 1977.

(B) New wells.- The term "marker well" does not include any new well under paragraph (3) (A) but includes any new well under paragraph (3) (B) if such well qualifies as a marker well under subparagraph (A) of this paragraph.

(6) Reservoir.- The term "reservoir" means any natural accumulation of natural gas, crude oil, or both, confined-

(A) by impermeable rock or water barriers and characterized by a single natural pressure system; or (B) by lithologic or structural barriers which prevent pressure communication.

There is more...much more...too much more...in fact, there are 10 pages in all of strictly definitions.

But we have faith in our petroleum industry...they will somehow muddle through all the red tape and all the complicated regulations and procedures...and they will continue to produce that precious energy commodity this nation needs and demands.

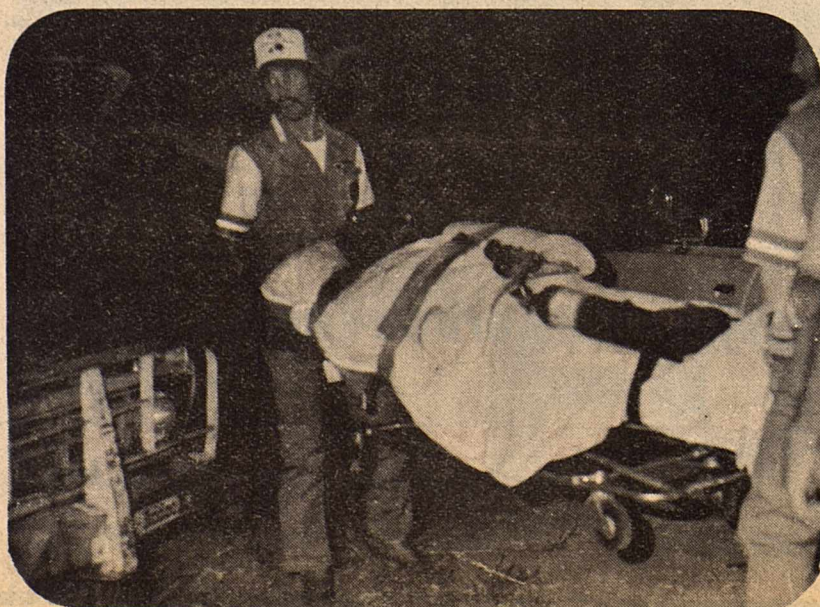

And there will continue to be a big demand for our natural resource for a long time...and that's why we believe the future for Sonora and Eldorado is bright.

We are on top of one of the nation's largest known gas reserves...that is a fact not denied...and someone is going to drill and produce that energy...at some given price...at some point in time.

Next week...when will that time arrive?

Roland Blanchard, 102 Tom Green, received internal injuries and lacerations as a result of a one-truck accident Monday evening four miles north on the Miers Road. Blanchard's truck was southbound when it left the road on a curve, skidded through a fence and turned over once. Texas DPS officer Dwight Hardin's investigation into the accident is continuing and no-charges have been filed at presstime. Pat Campbell, Sutton County EMS, carries Blanchard to the ambulance following the accident, which occurred at approximately 8 p.m. Monday and Blanchard was admitted to Sonora's Lillian Hudspeth Memorial Hospital. At presstime he was still a patient at the hospital.

With teeth glowing in the dark, "count dracula" jumps from his "coffin" to "pounce" upon unsuspecting visitors to the second graders' Spook House during last Friday's Halloween carnival in Sonora. Sonora school teacher Charles Russell takes his turn in the "box."

Reflections...

by Rev. Jim Miles
 Last Friday's Halloween Carnival seems to be, through the eyes of this observer, an overwhelming success.
 The street between Westerman Drug and Bronco Pharmacy was literally packed with people visiting, frequenting booths and consuming goodies.
 From the parade to the clearing, from the household sponge toss to the spook house, all went well. There are many people who should be commended for their efforts: the school and its staff's internal planning and participation "put it together."
 The parents of the children worked tirelessly in the events.
 The businesses supported the project.
 The city crew was seen busily clearing the area at midnight.
 Finally, the residents of Sonora supported the entire effort.
 It was a lot of work—but the sparkle in the eyes of our youth make it all worthwhile.

Girl Scouts Add New Line For Cookie Sales

What has become an annual American tradition—Girl Scout cookies sales—will begin in this community on November 3 for the next 2 weeks by all Girl Scout members taking orders door-to-door.
 This year a delicious new Girl Scout cookie is being sold. Country Oats and Nut Crisps are golden cookies made without artificial flavors, colors, or preservatives.
 Country Oats and Nut Crisps may be ordered in addition to the existing line of Girl Scout favorites: Cheddarette crackers plus Savannah, Thin Mint, Chocolate Chip, Scoot-Tea, and Chocolate and Vanilla Creme cookies.
 Cookies sell for \$1.25 per box.
 Every penny earned by cookie and other product sales remains in the community in which it is raised, and is used to benefit girls.
 The funds help local girls participate in national and international Girl Scout events, to purchase equipment and property in their behalf, for camps and other council and troop activities.

Ministerial Alliance Conducts Survey

Some 70 million boxes of cookies are expected to be sold nationally this year by more than 2.5 million Girl Scouts.
 The first nationally-franchised cookie sale was in 1936.
 If you do not know a Girl Scout you can contact Lou McMillian 387-2198 for your cookie order. Please help by supporting your Sonora Girl Scouts.
 In order to more adequately serve the City of Sonora and Sutton County, the Ministerial Alliance and the churches they serve will attempt to call on every home during the month of November.
 They will seek information designed to assist these churches in ministering to the needs of their community.
 Those churches which are to be conducting this survey are the Church of the Good Shepherd, Saint John's Episcopal, Sonora United Methodist, Saint Ann's Catholic Church Lutheran, and First Baptist.
 The Alliance asks that you be both co-operative and patient when a representative calls at your door.

Garden Club Sets Meeting

The Sutton County Garden Club will meet Thursday at 7:30 p.m. at the HNG Building.
 Rita Hale will speak to the group on African Violets.

Editorials

In the closing hours of the 95th Session of Congress, the House of Representatives passed and the Senate agreed upon H.R. 11545, the Meat Import Act.

This bill has been pushed for four years by the Independent Cattlemen's Association and other cattle groups.

Unfortunately the bill has been threatened by a presidential veto.

Mr. Carter's veto would be one more in a long line of nails in his 1980 electoral coffin.

For a man with an agricultural background, the President's insensitivity to the needs of the ranching and farming industry is unparalleled.

The ranching business needs this bill—not to guarantee them a profit—no group deserves that action—but to guarantee them the opportunity to make a reasonable profit, founding principal of our unwritten law of free enterprise.

23,000 Jobs Lost to Texans!

In testimony given by officials of the Texas Industrial Commission to the Texas House and Senate, it was revealed that in the past five years Texas lost 25 industries to surrounding states...a loss of 23,000 jobs and over \$4 million in local city and county taxes!

The reason? Texas couldn't compete with surrounding states in the vital area of financing. This situation can and must be corrected.

A very important amendment to the Texas Constitution will appear on this November's election ballot. It's Amendment Two—Jobs for Texans, and it will allow political subdivisions such as cities and counties to issue revenue bonds for the purpose of creating jobs.

The passage of this amendment will not mean any additional tax burden. Statutory legislation was passed safeguarding the taxpayer against additional taxes...no taxes can be used to repay the bonds.

The industrial project must pay for itself totally from the lease of the facilities.

Furthermore, city and county governments will suffer no loss of tax revenue because no tax exemptions can be granted to the industry.

No land can be taken through "eminent domain" for the purpose of an industrial project.

What "Jobs for Texans" will do is allow local governments to decide their individual economic future. It will allow both the banks and the citizens to participate in building a better future for their community through the purchase of these bonds.

A vote for Amendment Two—Jobs for Texans puts the decision in the hands of the people...and that's what our system is all about.

When the "Jobs for Texans" Amendment is passed, Texas cities and counties can compete on a nationwide basis in attracting industry.

Amendment Two—Jobs for Texans will allow cities and counties the power to put people on the job rolls and off the welfare rolls.

When "Jobs for Texans" passed both the House and Senate, there was not a single vote in opposition.

The need for this amendment is very clear...building industrial activity is to everyone's benefit in your community!

Vote YES in November for Amendment Two—Jobs for Texans.

Hospital Joins Attack On Costs

Lillian M. Hudspeth Memorial Hospital of Sonora has announced adoption of a resolution joining the state and national attack on rising health care costs.

Francis Burt, Administrator of Lillian Hudspeth Memorial Hospital in making the announcement said, "we have been working diligently for a long time to hold down the cost of hospital care."

This resolution indicates

our strong desire to reassess our current operating and capital budgets to determine which expenditures can be reduced without sacrificing the quality of care."

The hospital industry's program to control costs is known as the Texas Voluntary Effort.

This is a part of a national effort which commits hospitals to reduce the national rate of cost increase by two percent a year for two years.

The wedding took place among the pine trees at La Junta Guest Ranch, Ruidoso, N.M. at 11 a.m. on October 14. The Rev. Ken Cole performed the traditional wedding ceremony.

by Mr. Brad Forst, of Tulsa, Oklahoma who served as best man.

The bride was gowned in a floor length bright pink and orange homespun dress from Bolivia. Her flowers were in her chosen colors of the wild flowers of the area.

Following the wedding reception the bride and groom flew to Phoenix, Arizona for a short honeymoon trip.

Mrs. Vandiver attended the Radford School for girls in El Paso, and graduated from Sonora High School. She then graduated from Texas

Tech University with a BBA degree in marketing.

Mr. Vandiver graduated from the New Mexico Military Institute and then graduated from Rice University with a BA in history. He received his juris doctor from the University of Tulsa. Passing the New Mexico bar examination, he was sworn in as an attorney before the New Mexico Supreme Court just two days before the wedding. He is practicing law with the firm of Losee, Carson and Dickerson, P.A. in Artesia, N.M. where the couple will make their home.

Eagle Band Scheduled For Marching Contest

by Jym Trimble

All week long, that "Go in" Band from Eagle Land has worked hard in preparation for Saturday's marching contest.

The event will be held at Brady Bulldog Stadium as the E.H.S. band attempts to qualify itself

for another Sweepstakes trophy.

Wayne McDonald, band director, had a quick two-worded answer when asked if they would get a "one"; "It's doubtful."

A "one" designates a superior rating and is the highest attainable mark.

"Mr. Mac" as he is known to students, is currently in his 13th teaching year at E.H.S.

He also has 28 "one's" in marching contest.

He added the band has a few bad sections that seem to be holding it back.

"It's just a matter of working and hoping we can get our show together."

If the band should receive a "one" rating, it will be the first step toward a Sweepstakes trophy. However, the band must perform in sight reading and contest as well, receiving a "one" in both of those also before taking the Sweepstakes.

Cavaness-Doan Announce Engagement

The forthcoming marriage of Becky Cavaness to Jeff Doan was announced by the bride-elect's parents, Mrs. Jane Archer and Mr. Milton Cavaness. Parents of the prospective groom are Mr. and Mrs. Clayton Doan of Sonora.

The bride elect is a 1978 graduate of Sonora High School and is presently employed at Tedford Jewelry. Her fiance is a 1976 graduate of Sonora High School and is employed at the Republic Supply Co.

The couple plans a January 6 wedding at the Church of the Good Shepherd.

Mr. and Mrs. Ervin Willman will be honored in celebration of their 50th Wedding Anniversary at the Methodist Church Sunday from 3 p.m. to 5 p.m. The Willman's were both born in Mason and married in Brady Nov. 3, 1928. They moved to Sutton County in 1934. They have one daughter, Mrs. Peggy Sharp, and two grandchildren. All friends are invited. No gifts, please.

Eagles Prepare For Hawks

by Jym Trimble

After an awesome defensive attack last Friday night, the Eldorado Eagles are well-prepared for a District 9-A bout with the Wall Hawks.

Head coach Mike Williamson has prepared the team by making adjustments in the offense and defense to meet the Wall attacks.

Williamson reports the

only major adjustments are the addition of Charlie Bradley and Keith McCormack to the starting lineup.

Wall, 1-6 on the season, plays out of a veer offense. Coach Williamson adds that in order to win the game the Eagles must stop the Hawks' running attack.

Reminiscing over last week's surprising victory over Menard, Williamson commented the entire offensive line deserved credit.

The "Mean Green" offensive line consists of Don Garlitz, David Buitron, Todd Swift, David Hill, Wayne Gibson and John Cheatham.

He added the outstanding back of the week was Sam Whitten.

Defensively, Williamson gave credit to Swift, Cheatham, Whitten, Kurtis Homer, Hill, McCormack, Tommy Martinez and Joel

Robledo. "All of these gave us an outstanding effort that made the victory possible. All around, I'd say John Cheatham deserved credit as the outstanding player of the week," Williamson commented.

When asked whether or not they would beat Wall, Williamson answered confidently, "Yes."

The Hawks stand at 0-2 in district play, while the Eagles are 1-1.

Should the "Mean Green" topple Wall, a victory over Junction the following week in Eagle Stadium would almost assure the Eagles the district crown.

Coach Williamson feels that "it's definitely possible for us to take the 9-A crown. Junction hasn't been beaten in 9-A play, but I feel we can do it."

The game starts at 7:30 p.m. with the Eagles playing at Hawk Field Friday.

Why Tom Loeffler Is Our Best Choice For Congress.

Texan Heritage

- Fourth-generation Texan, born and raised in the Hill Country
- Former high school football star, attended University of Texas on football scholarship, then earned law degree there
- Working rancher
- Practicing attorney

Washington Know-How

- Served as Chief Legislative Counsel for Senator John Tower
- Deputy for Congressional Liaison for Federal Energy Administration
- Special Assistant for Legislative Affairs for President Gerald Ford
- Has the knowledge and experience to be an effective representative right from the start!

Freedom To Fight For Us

- His legislative know-how allows total independence to fight for our best interests
- Not beholden to liberal Democratic leadership in the House—will not have to "go along to get along"

The Choice Of Leaders And Laymen Alike

- Has gained respect and support of the working man, farmers and ranchers, small businessmen and homemakers
- Has broad-based financial support from more than 1,700 contributors
- Has the endorsement and active campaign support of Ronald Reagan, John Connally and President Gerald Ford

Why Nelson Wolff Cannot Best Represent The District.

"Freshman" Congressman

- Without Washington experience, would be powerless to do other than add one more vote in favor of national liberal policies of Tip O'Neil
- Has repeatedly aligned himself with Carter administration policies—inescapably tied to them

Liberal Programs And Policies

- Supporter of George McGovern and Caesar Chavez
- Supports continuation of O.S.H.A. and the Environmental Protection Agency
- For new Department of Education—continuation of new and expanding bureaucracy
- Supports unworkable and unrealistic predator control program
- Against B-1 Bomber program
- Favors increased corporate profits taxes
- Has "written off" Texas oil and gas industry

The Hand-Picked Candidate

- In 1974, and again in 1978, is the hand-picked candidate of a group of "Big 10" San Antonio powermasters
- Receives support and financial aid of Big Labor

Believes He Can "Buy The Office"

- Financial reports show this wealthy Democrat has spent over \$200,000 of his own and his family's money in effort to "buy" the office of Congressman with massive advertising

That's Why Tom Loeffler Is Our Best Choice For Congress!

Work for, vote for, support the choice of Ronald Reagan, John Connally and Gerald Ford!

TOM LOEFFLER
Our best choice for U.S. Congress.

Paid for by Friends of Tom Loeffler and Tom Loeffler for Congress Committee

Band Going To Contest

The "Mighty" Bronco Band will be one of 30 area Bands that will compete in the annual U.I.L. Marching Contest. The competition begins at 9 a.m. with the Class B

Bands, followed by the Class A Bands.

At 1:30 competition starts for the AA Bands. The Bronco Band marches at 3 p.m. at the Brady football field.

Second Thoughts...

by Tom Driskell
The demise of the railroad spur into Sonora was viewed with considerable apprehension, which has only grown with the passing days. Small, comparatively isolated, communities which are in areas that do not provide sustenance for their population must necessarily view with stark alarm the disappearance of competi-

tive balancing effects from their transportation costs. Put on its least pleasant terms, it means that your cost of living and mine is dependent on the mercies of the Organization of Oil Producing States and the Teamster's Union.

Neither is noted for their benevolence nor mercy, so great expectations in any field but

inflation are hardly warranted.

Worry about those things we cannot do anything about is not an endeavor that produces many benefits, unless you consider stomach ulcers a benefit.

It would seem therefore that we should confine our activities to those areas in which something can be accomplished.

The railroad is gone, and in its wake, we are left with a great void and a few esthetic eyesores.

What should be done? There are several alternatives.

A Wall, a la Berlin, might be built. Admittedly there may be individual reasons to segregate south and southeast Sonora, but they will hardly pass the test of significance.

A far more beneficial alternative is to facilitate restoring the flow of the town's traffic in an unchaotic manner.

Before the railroad came, Sonora had been laid out in an orderly manner, and there is not detectable reason why order should not be restored.

The town could certainly use a Water Street that runs from the Schoolyard to the north city limit, a

straight Ranch Road 1691 that intersects Highway 277 South, and an East 2nd Street that goes straight to Glasscock or on to Highway 277 South. Northeast 3d street could be continued, as it was to Water Street or possibly one block farther.

Such a program would require the removal of the depot from its present location, and in terms of the desired result, it might be a beneficial move.

Recognizing that the traditionalists would retain the depot it is proposed that it be retained by taking color pictures of it and a mural be produced or the municipal museum or for city hall.

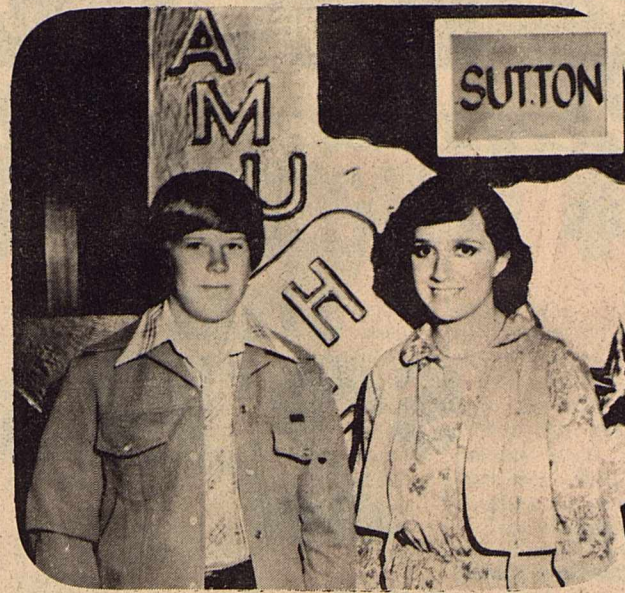

Santa Fe depots when viewed esthetically and architecturally leave the

impression that they were constructed using plans pilfered from the horse cavalry of an earlier century and intentionally misread.

Remembering the attempts to heat the old building in my childhood, a parallel must be drawn to Robert W. Service's character's remarks when his friends opened the door of his crematory.

It may be a sensitive question to some, but it is sincerely hoped that the city fathers, along with their consideration of the elasticity of monetary resources, give a fair shake to restoration of the pre-railroad streets with the resultant highly remunerative building sites which are so sorely needed.

Surber, Van Hoozer Named Gold Star Recipients

Surber and Van Hoozer

A group of special youngsters from Southwest Texas lined up here last week to receive the most coveted 4-H award.

Gold Star Award recipients from 19 counties representing Texas Agricultural Extension Service District 13 were honored during a noon luncheon Saturday.

Among the honorees were Sutton County Gold Star winners for 1978. Receiving their Gold Star award from Rep. Bennie Bock II were Tammy Van Hoozer and Rex Surber of Sonora.

Also attending the luncheon were Mr. and Mrs. Calvin Van Hoozer, Mr. and Mrs. J.C. Surber and Sarah Mahon, County Extension Agent.

Keep an outstanding person in this important job.

JOHN POERNER has demonstrated his integrity and ability in more than 10 years of dedicated public service.

JOHN POERNER

Railroad Commissioner of Texas

Pd. Pol. Ad. to elect John H. Poerner - Railroad Commission, Ed Ingram, treas., 1037 Brown Bldg. Austin, Texas 78701

Rhodes Backs Loeffler

U.S. House Minority Leader John Rhodes, campaigning for candidate Tom Loeffler in San Angelo and San Antonio, told an Alamo City press conference that Loeffler's prior Washington experience may translate into gaining a seat on the prestigious and powerful House Appropriations Committee.

Rhodes noted that an Appropriations assignment carries "clout" in the House—influence that other committees do not have.

In the Congress, the Appropriations Committee is the body which decides how much, when and where money is to be spent in all areas of the government. Historically, members of House and Senate Appropriations Committees have always been able to insure their districts are first in line with respect to government priorities.

For many years, Texas' George Mahon served as Chairman of the powerful House Committee, but this will be his last term as he retires from congressional service.

Rhodes said that "a post on Appropriations is not ordinarily entrusted to freshmen Member of Congress, since House leaders usually want the Member to first prove himself."

"Tom Loeffler doesn't have to prove himself to us," Rhodes stated, "because when he represented President Ford, we had to deal with him every day—and when you work as closely with a man as I did with Tom, you come to know his abilities."

"We know Tom has what it takes," Rhodes added, "and as ex-officio Chairman of the Committee on Committees, I intend to support Tom for a spot on the Appropriations Committee—Texas needs an aggressive member on that body, and Tom's the one to fill the job."

As Minority Leader, former member of the Appropriations Committee and influential member of the Committee on Committees (the body which makes committee assignments) Rhodes' opinion will carry a great deal of weight when committee assignments are made in January.

Rhodes noted that Loeffler is friend to many of the Members he will serve with in the next Congress, an asset which means "he will start out far ahead of other freshmen, particularly since we're talking about both Republicans and Democrats that know and respect Tom."

YOUR FAMILY FINANCIAL CENTER

The future of Texas is in your hands.

Bill Clements is a part of this great state. Texas has a great future, but that future is only as bright as the man who's in charge. The time has come to elect a proven businessman, a leader, and not just another politician.

We must control inflation and taxes.

Bill Clements knows how. With less government in Austin, not more. With reorganization and sound planning as alternatives to increased spending. With the elimination of unnecessary and excessive taxes.

We must solve our energy problems.

Federal control of Texas' gas and oil will destroy our state's economy for the benefit of the East and the North. Clements will fight that. He'll fight for an energy program of increased production. He's well qualified because he's worked in the energy business all over Texas and around the world.

We must improve state-wide education.

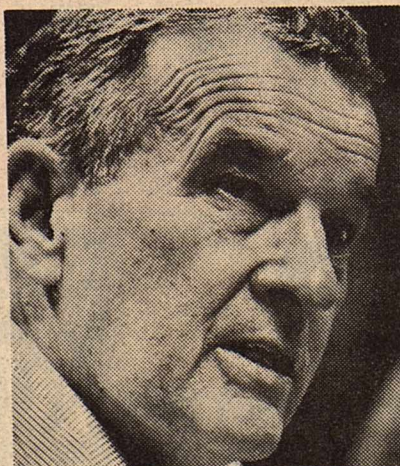

The Texas state education system ranks in the lowest third in the nation. Bill Clements will change that. As chairman

of the Board of Governors at Southern Methodist University for eight years, he has been an innovator in education. He knows the children of Texas are our most valuable resource.

We must have a strong spokesman in Washington.

Washington doesn't understand farmers, ranchers, or Texas. Bill Clements is one person who can do something about it. He knows Washington. And, Washington knows him. As Deputy Secretary of Defense he managed the Defense Department for four years starting in 1973, and was responsible for the Pentagon's \$100 billion a year budget and 3,000,000 employees.

He commanded respect—the one thing Texas demands now more than ever.

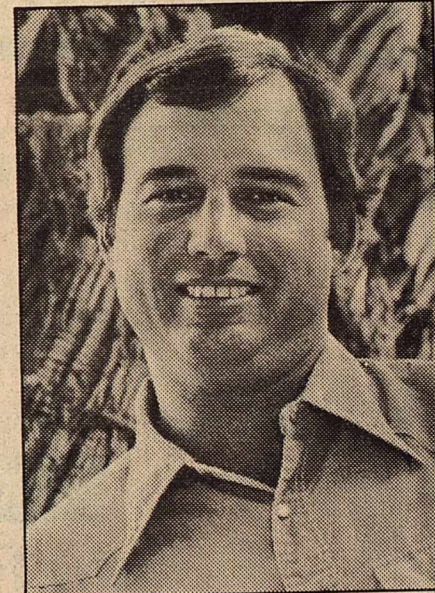

BILL CLEMENTS

A great governor for Texas.

Pol. Adv. Paid for by Thomas Morris, authorized by Clements for Governor Campaign Comm., Tom Rhodes, Treasurer, 1901 N. Akard, Dallas, Tx.

Tom Loeffler is our best choice for Congress!

★★★ Texan Heritage ★★★

Tom Loeffler is a fourth-generation Texan, born and raised in the Texas Hill Country. He has the solid values and uncompromising character of this land and its people. A former Mason High School football star, Tom went to the University of Texas on a full four-year football scholarship, then earned his law degree there. Today, he is a working rancher in addition to his law practice.

★★★ Washington Know-How ★★★

Tom Loeffler was chosen to serve as Chief Legislative Counsel for Senator John Tower, then was appointed Deputy for Congressional Liaison for the Federal Energy Administration, and finally, served as Special Assistant for Legislative Affairs for President Gerald Ford. He has the experience, the day to day knowledge of how our government runs and is run, to be an effective representative right from the start.

★★★ Freedom To Fight For Us ★★★

Tom's wealthy Democratic opponent would be a "freshman" congressman, if elected—dependent on the liberal Democratic leadership of the House. He would be powerless to do other than add one more vote in favor of national liberal policies, as orchestrated by Speaker of the House Tip O'Neill of Boston.

Tom Loeffler has the knowledge and experience in legislative affairs to be free to pursue the best interests of the people of the 21st District.

★ The Choice Of Knowledgeable Leaders ★

Tom Loeffler has gained the respect and support of the working man, farmers and ranchers, small businessmen and homemakers. He also has the endorsement and active campaign support of such knowledgeable and respected leaders as former President Gerald Ford, former California Governor Ronald Reagan and former Texas Governor John Connally.

Work for, vote for, support the choice of Ronald Reagan, John Connally and Gerald Ford

Sutton County Ranch News

Meat Import Law Carter Urged to Sign

Over 250 lambs of 4-H Club members were sheared Saturday at Sonora Livestock Sales. The shearing is in preparation for the upcoming Sutton County show in January.

Both consumers and cattlemen will suffer if President Carter does not sign into law the recently passed amendments to the Meat Import Act, the Texas and Southwestern Cattle Raisers Association said.

John B. Armstrong, president of the 14,000 member beef producer group, has urged the President to sign the legislation. Armstrong said that failure to do so would thwart the will of Congress and stifle the cattle industry's rebuilding of the basic herd, after four years of liquidation as a result of adverse economic conditions.

"Cattlemen have been supporters of efforts to curb inflation," Armstrong said. "We are urging the President to sign this bill, which actually is anti-inflationary."

In support of his position, Armstrong referred to Library of Congress studies which show the

import legislation would provide stability benefiting both the public and the cattle industry. The amendments would help assure more dependable supplies of quality beef at reasonable prices for U.S. consumers.

The new legislation includes a counter-cyclical import quota formula, under which imports will increase when domestic beef output declines cyclically, and will decrease when U.S. beef production becomes excessive.

The legislation also defines more precisely the circumstances under which the President may increase meat imports beyond quota levels.

"We are already dependent on other countries for our oil supplies," Armstrong said. "The last thing we want to do is become dependent on foreign meat as well. Failure to make this new bill law eventually can have the effect."

the exact opposite is true.

"Over the 10-year cattle cycle, total imports would not be reduced," Armstrong said. "In fact, during the next few years, when domestic beef output will be decreasing cyclically, imports will increase—helping to moderate prices to consumers."

production. Obviously, beef trade is not now a two-way street.

"It's obvious to cattlemen in Texas and elsewhere that the exporting nations want to go on dumping their periodic surpluses in our market. They want our market to be the relief value for the

whole world—at the expense of U.S. cattlemen and, ultimately, the U.S. consumers," he said.

Armstrong pointed out that the elected representatives of the people in Congress have shown they want to put a stop to excessive foreign dependency.

"Late, as part of the cycle in an agricultural business like ours, U.S. beef production will likely become burdensome again. At that time, imports will be decreased. The supply and price stability which will result from HR 11545 will benefit consumers as well as cattlemen."

Armstrong said that criticism of the bill by foreign nations was to be expected. "What these foreign critics fail to mention is that we already import beef, by far, than any other nation.

In fact, our imports account for 30 percent of all beef involved in world trade. Under our import law, we guarantee beef exporting nations a substantial share of our market, year after year.

"On the other hand, most countries—including beef exporting countries which are now criticizing us—put up trade barriers which shut out competitive beef.

Because of those barriers, we in the U.S. export only two-tenths of one percent of our beef

The bill (HR 11545) was passed by substantial majorities in both houses of Congress in mid-October.

Cattlemen are concerned that critics are making last-ditch efforts to head off the legislation by putting pressure on the President to exercise his veto.

The critics claim the legislation will reduce imports and raise prices to consumers. But cattlemen, backed up by independent studies, say

Questionnaire to be Mailed to Ranchers

From mid-November to early January, many Texas farmers and ranchers will receive a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service or will be personally interviewed by the Service's field staff.

Accurate estimates have always been of great importance to producers and are even more important in light of the supply-demand situation

facing agriculture today.

Data collected in this survey will provide an accurate picture of agriculture for each county and for the state of Texas.

Each farmer or rancher receiving a questionnaire is urged to fill it out carefully and return it promptly to the Agricultural Statistician in Austin.

Individual reports are confidential and used only for state and county estimates.

Most newspapers pick Hill over Clements

"John Hill may be the best candidate for governor in decades. Judging from his record, he should win easily over his Republican opponent, whose chief qualification is money. Unlike his opponent, Hill is not given to outrageous promises, intemperate personal attack or underhanded tactics. He will work hard for the best interests of the state and its people."
— Austin American Statesman

"The more Mr. Clements has explained his blunt viewpoints — even those views we could agree with — the more he has raised doubt as to how effective a bulldozer could be in Texas government. Conversely, John Hill has grown in our evaluation as a man who not only is the best state attorney general in recent history, but also is a man with the intelligence, savvy and ability to serve Texas well as governor."
— Abilene Reporter-News

"We believe Hill will bring vitality and leadership to state government. Hill is not an advocate of big government. Nor is he a free spender. He has pledged that no new taxes will be levied if he is elected. His anti-inflation program is the kind of fiscal conservatism Texans can accept gleefully."
— Corpus Christi Caller

The Sonora Broncos have been going through daily workouts in preparation for the start of District 7-AA action Friday night against Kermit. The game could

decide the district championship. Sonora is 5-0-1 on the season, and Kermit is 5-1-1.

Broncos Start District With Kermit Yellowjackets

With the memory of last-minute losses the last two years, the Sonora Broncos begin their District 7-AA schedule Friday night, taking on the Kermit Yellowjackets at 8 p.m.

Last year the Kermit squad scored with three minutes left in the game to down the Broncos 7-3, and in 1976 the Yellowjackets kicked a field goal with only seconds remaining to snatch a 17-14 victory.

The 'Jackets' are the defending district champions, advancing to the regional game of the state playoffs. But for a change the Broncos are the favorite going into the contest.

The Kermit squad is now without leftover talent, though as their 5-1-1 record against a schedule primarily of AAA schools will attest.

Alfred McGilbra, a two-time all-district selection, is the big hoss for

the team. He is the fourth-ranked rusher in the district, picking up 428 yards on 117 carries and three touchdowns.

McGilbra has also connected on two halfback passes for two touchdowns, a play the Yellowjackets would not think twice about using.

Todd Ethridge has also proved to be a steady back, gaining 409 yards on 81 carries.

Brent Barrs will line up at quarterback. The signal

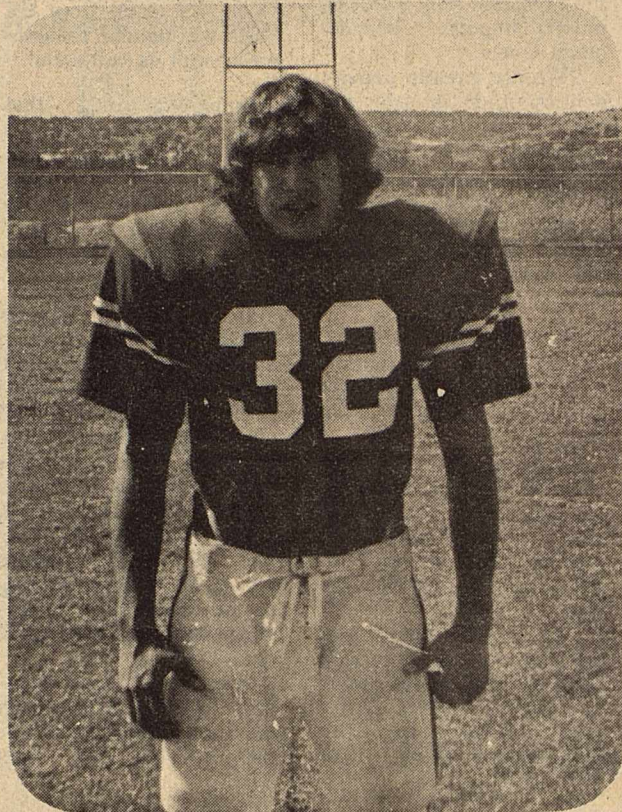

caller has rushed for 252 yards and passed for another 301 stripes.

Offensively, coach Earl Overton runs a Houston veer offense and mixes in a five-or six-man front on defense.

Bronco head coach Jerry Hopkins doesn't figure his charges to win the game easily, commenting "the team that plays most consistently will probably win."

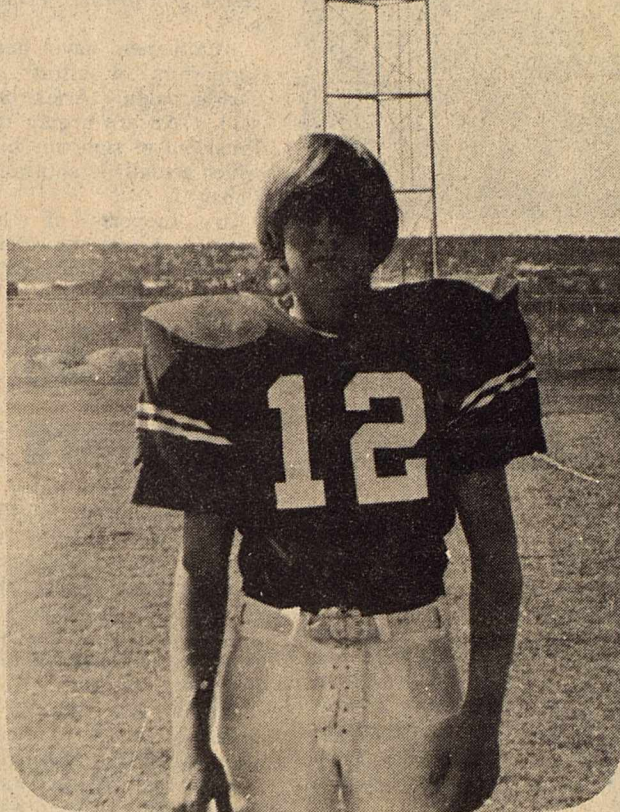

cont. page 6B

Meet The 1978 Sonora Broncos

Rickey Wright

Rickey Wright is a 16-year old junior for the Broncos. At 5-8, 150 pounds he plays strong safety and halfback. He also plays basketball. Rickey is the son of Donald and Mary Lou Wright and has lived in Sonora 11 years.

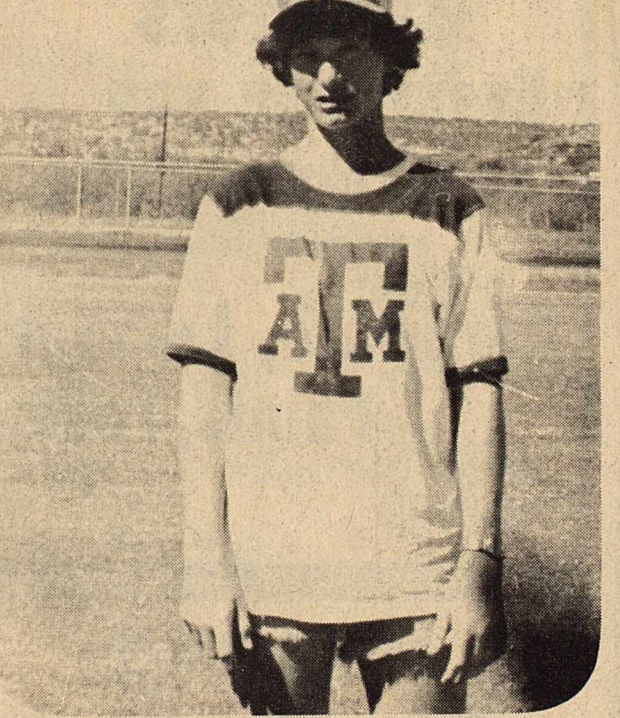

Johnny Doan

Johnny Doan is a 5-10, 150 pound free safety and quarterback. A 16-year old sophomore, he also plays basketball and golf. Johnny is the son of Dayton and Melba Doan and has lived in Sonora five years.

Peter Gomez

Peter Gomez is the 16-year old son of Pete and Irene Gomez. A junior, he plays guard and noseguard at 5-6, 135 pounds. He has lived in Sonora 16 years and is also a member of the golf team.

Lee Burch

Lee Burch is a student trainer for the Broncos. A 15-year old sophomore, he is also a member of the tennis team. Lee is the son of Mr. and Mrs. Jack Burch and has made his home in Sonora for 11 years.

Robert Brown,

Eagles Fired By DRN Sporting Chance

by Jym Trimble
Thursday, Coach Mike Williamson cut an article out of a local newspaper and posted in on the team bulletin board.
Enraged by what was written, Coach Williamson said he would never do so much as to receive a haircut in that town again. Destined to prove everyone wrong, Coach Williamson led his team out on the field Friday night. The result: a shocking victory over highly rated Menard.
What did the Eagles want to prove?
That they are not losers; moreover, that we do have school spirit. It was stated that "History proves that too much of the time the players have their minds

on the celebration instead of the game. Menard 21-7." Well, don't let history fool you.
Coach Williamson attributed the victory to the hard work of the team and the team as a whole. This was also Coach Williamson's first victory in Eagle Stadium. The Eagles also snapped a two year losing streak in Eagle Stadium.
Coach Williamson also adds that next weeks opponent will be just as tough, and that the players will work just as hard. Lookout Wall; because here come the Eagles.
And by the way, Coach Williamson said he would continue to get his hair cut in Sonora.

Colts Blast Big Lake

by Albert Chavez
It looked like somebody forgot to tell Sonora that Big Lake was having its Homecoming week as the Sonora eighth grade scored a 12-0 victory over the home team Owls.
Sonora, led by a powerful running attack, hit the scoreboard first on a ten-yard run by fullback David Buitron.
The two-point PAT failed, and Sonora led 6-0 with a little bit over four minutes left in the first quarter.

The Sonora defense held Big Lake to minus seven yards on the Owls first possession.
Sonora then received the punt, and Buitron got a nice return to set up Sonora's second touchdown.
Sonora, on Big Lake's 30-yard line, moved five yards in two plays but on third and five, quarterback Albert Chavez handed to halfback Chris Reynolds who scooted 25 yards around right end for Sonora's second TD.

Sonora then tried the two-point PAT, only to miss by a matter of inches.
Big Lake ran out the clock, and Sonora went into halftime with a 12-0 lead.
Big Lake received the second half kickoff and returned it to the Sonora 45-yard line.
It looked like Big Lake caught fire as they hurriedly moved to the Sonora 15-yard line.
Sonora's defense stiffened and held Big Lake to

what was to be the Owls only threat of the night.
From then on it was all Sonora both offensively and defensively.
The Sonora defense held Big Lake to about 60 yards total while the offense gained most of their yardage via the ground ways.
Eddie Vallejo, Reynolds and Buitron led the Sonora offense, while Zeke Duran, Fermin Sanchez, Curtis Lipham, Buitron and Philip Kemp frustrated Big Lake on defense all night long.

Seventh Grade Topples Reagan County

by Coach Charles Adams

The seventh grade Colts rolled past the Big Lake Owls to the score of 28-8. It was another fine team effort by the entire squad. The Colts took the opening kickoff and drove 65 yards in 13 plays to put the first points on the scoreboard.

The TD came on a three-yard run by Tino Martinez.

The extra point try failed as Jeff Brittain's kick was wide to the right.

The Colts kicked off and held Big Lake and forced a punt.

Wendell Yarborough returned it 25 yards to the Big Lake 35-yard line. The Colts drove to the 10-yard line and fumbled.

The Colts forced another punt, and this punt was returned by Drew Wallace for 35 yards to the Big Lake 35-yard line.

On first down quarter-back Brittain passed to right end Mike Poloczek for the TD.

On the extra point Yarborough passed to Terry Vickers for the two points.

This made the score 14-0 at halftime in favor of the Colts.

The Colts kicked off the second half, and Big Lake fumbled on their third play. The Colts took over at midfield.

Three plays later Brittain passed to Yarborough for a 25-yard touchdown.

It was a good effort by Yarborough catching the ball as it bounced off two Big Lake defenders.

The try for extra points failed as Brittain was stopped short of the goal line.

The Colts forced a punt after the kickoff, and the second offense drove the ball 65 yards for the final

tally of the game.

It came on a 14-yard bootleg run by quarterback Wallace.

The Colts showed a little razzle-dazzle as Wallace passed to Jimmy Vaughan who passed to Larry Jennings for the two points.

The entire offensive line was noted for their good play.

The line is Houston Powers, center; Ronnie Pollard and Jerry Jimenez, guards; Adam Hernandez and Rodney Jones, tackles; and Eugene Gonzales and Mike Poloczek, ends.

On defense Jones, Terry Vickers, and Hernandez played very gutsy also.

The Colts collected a total of 356 yards and 12

first downs.

The rushing totals were Yarborough, 73 yards on seven carries; Wallace, 66 yards on five carries; Thomas, 45 yards on nine carries; Martinez, 41 yards on seven carries; Brittain, 22 yards on four carries; Vaughan, 19 yards on four carries; Hulsey, 10 yards on two carries and Vickers, two yards on two

carries.

On the receiving end Poloczek had one catch for 31 yards; Vickers, two for 18 yards; Yarborough, one for 25 yards; and Jennings, one for three yards.

The Colts play again here Thursday at 4:30 p.m. against Junction.

The Colts are now 3-3 on the year.

Counselor's Office Active

The Sonora High School Counseling Office has been a pretty active place in the past weeks. On October 24 the juniors took their PSAT (Preliminary Scholastic Aptitude Test).

This test is similar to the SAT test that seniors take for college entrance requirements and gives the juniors an idea of how they will score on college entrance exams taken next year.

It is also the National Merit Scholarship Qualifying Test. Top scorers across the nation will be honored as Merit Scholars and will receive thousands of dollars in scholarships.

This is an important test, and many juniors spent more time preparing

for the test hoping to qualify for some of those scholarships and the prestige of being named a Merit Scholar.

Twenty-two juniors and seniors attended a College Technical school program in San Angelo on October 24.

Central High School's counseling department coordinated the evening and brought together representatives from 40 to 50 colleges, universities, junior colleges, business schools, trade/technical schools, and armed forces recruiters.

Students who are undecided about their futures have a unique opportunity to compare programs and offers from many different angels. Our students who

attended felt the evening was very worthwhile and had many of their questions answered.

Now is the time that seniors should be making their applications to the larger colleges. The representatives from the southwest conference schools say October and November are the months that housing applications and admissions forms should be sent in.

Smaller colleges, where housing is not so critical, say that Spring applications are still sufficient.

The counselor's office has current bulletins for most Texas schools. If a student is in doubt about admission requirements and deadlines, the counselor can assist him.

Mrs. Jeryl Fields is the school counselor and has done an excellent job not only in assisting Sonora students in making career and educational choices but in helping students with personal problems.

She received her BA from Texas Tech in English and Spanish and has five years' teaching experience. She received her master's degree in guidance and counseling at Angelo State University and has been counselor in Sonora for four years.

Anyone with questions concerning the counseling program and its services is invited to come by Mrs. Fields' office at Sonora High School at any time or call her at 387-2124.

cont. from page 4B

Injury-wise the Broncos should be in good shape according to Hopkins.

Wayne McLaughlin, the district's leading rusher, scorer and punter, will be back in action after missing the Broncos' last game with an ankle injury.

Manuel Lopez, out since the second game of the season with a broken leg, may suit up but probably will not be able to play until next week.

David Sanchez also has a hand injury, but should be ready to go by game time Friday.

Sporting Chance

This week was really great, at least compared to last week. I hit 14 of 20, bring my season count to 119 of 160 for a .744 percentage.

Since I was a little more respectable this week, things have improved somewhat. My wife has dropped her divorce suit in favor of a trial separation, my dog didn't have rabies (he just ate a bar of soap on the bathtub) and the bank decided to let me keep my house for at least another week.

I did get every Southwest Conference game right last week, but the pros gave me fits again. Maybe all that will change this time around.

Sonora vs. Kermit

If the Broncos didn't have the superior team, the memory of last-minute losses the last two years should be enough motivation. Sonora 24-10.

Ozons vs. Crane

This should be a runaway, but the Golden Cranes have had trouble getting by weak teams-but they haven't played anybody this week yet. Crane 42-7.

Wall vs. Eldorado

The Eagles finally got another win last week, but everyone knows Hawks are craftier than Eagles. Wall 19-6.

Fort Stockton vs. Pecos

The last time the Panthers won district, some gal named Eve discovered fig leaves. It's about time. Fort Stockton 21-20.

Arkansas vs. Rice

The Razorbacks gave a lot of presents away on their road trip, but they're not so neighborly back home in the Ozarks. Arkansas 34-17.

Texas Tech vs. Baylor

The Bears have some momentum after winning their last two outings. Baylor 24-21.

Houston vs. TCU

The Cougars should be glad to have a breather after facing A&M, SUM and Arkansas. The only danger is they're looking ahead to Texas. Houston 42-10.

Southwest Texas vs. Angelo State

The Bobcats have a knack for losing big games and especially homecomings. One year my dear alma mater spoiled three other teams' homecomings only to lose their own. Angelo State 21-14.

Houston vs. Cleveland

If the Oilers had their biorhythms charted, they would have been at rock bottom last week. They haven't got any place to go but up. Houston 24-21.

Miami vs. Dallas

The Cowboys house has been like the three little piggies--one puff and it falls down. They better find a few bricks. Dallas 17-13.

Other Picks...

Okalhoma over Colorado, 34-21; Penn State over Maryland, 14-13; Notre Dame over Navy, 21-17; St. Louis over New York Giants, 28-17; Atlanta over San Francisco, 27-10; Pittsburg over Syracuse, 14-6; Philadelphia over Green Bay, 17-16.

Deadline Near on History Books

Time is running out for you to purchase copies of the Sutton County History Book. Orders can only be taken until the book goes into publication.

All family history stories have already been submitted to the publishers, so that is not too far in the future.

This is an opportunity that will never come again--an opportunity to own a book containing stories of your family's and friends' lives as well as the history of Sutton County.

There will be no books available after publication. If you do not order enough books now for each member of your family to have their own personal copy, you will regret it later.

One copy just will not be enough in most cases. As each child or grandchild leaves home, they will want to take a copy of their history and heritage with them. Don't let them be disappointed. Think ahead and order books for everyone.

The Sutton County History Book is selling for \$23.00.

Order yours today by contacting the Sutton County Historical Society, P.O. Box 1145, Sonora, Texas 76950, or call Alice Hardy at 387-2781, Mabel

VanderStucken at 387-3195
Velma Hunt at 387-2103,
or Harva Cooper at
387-2582 for more information.

S.S. Rep Slates Visit For Sonora

Garland Gregg, representative of the San Angelo Social Security Office, has scheduled his November visit to Sonora. He will be at the County Courthouse on Thursday, November 16th between 9 and 10:30 a.m.

Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time.

Persons who are unable to meet with him are encouraged to call the office in San Angelo. Residents of Sonora may call toll free by dialing "Operator" and asking for "Enterprise 2058".

If you meet your Medicare medical insurance \$60 deductible in the last three months of the calendar year, you can carry it over and will not need to meet the deductible for the following year.

Bronco Bits

by Annabelle Gonzales

The Halloween carnival brought fun and excitement for children as well as adults last Friday night.

The SHS students would like to announce that the Halloween carnival was a success. The SHS students put in a great deal of hard work and effort to set the carnival up. They would like to thank the public for their cooperation.

Cody Gold, a sophomore, was crowned as the Halloween Queen for the 1978-79 school year. Other girls who were nominated for the title were: senior, Lorraine Creek, junior, Mary Lynch; and freshman, Linda Duran.

The Broncos have been open for the last two weeks, but have been working hard. They will play their first district ballgame against the Kermit Yellowjackets this Friday in Sonora. Go out to Bronco Stadium and support the Broncos.

Students have to be sure to yell and back the cheerleaders at the pep rally this Friday. Show them that you've got pride and spirit in your school and football team.

Speaking of pride and spirit, the J.V. football team demolished the Reagan County Owls last Thursday night, 33-0. The J.V. will play the Junction Eagles this Thursday night following the Junior High games.

The Mighty Bronco Band will be traveling to Brady this Saturday, Nov. 4 to participate in the U.I.L. Marching Contest. We will wish the band luck. They would appreciate your support if you are able to attend.

Thought for the week: "Speak when you're angry, and you'll make the best speech you'll ever regret."

Energy Bill Overloads RRC

New federal legislation points to a monumental and costly administrative task and may force the Texas Railroad Commission to abandon an energy conservation policy that promises to save nearly 600 billion cubic feet of natural gas by the end of 1985.

These are major conclusions reached by Railroad Commissioner Jon Newton in a paper, "A Response to the Natural Gas Policy Act of 1978." Newton presented the paper earlier this week before the closing session of the annual meeting of the Independent Petroleum Association of America in Houston.

Newton described the just-ended congressional battle over the gas bill as "the nation's most prolonged and bitter confrontation over national policies on energy." The three members of the Railroad Commission and the IPAA were in the vanguard of the opposition forces.

"The Railroad Commission is now faced with the monumental task of attempting to make the Natural Gas Policy Act function administratively in such a way that the producer, the gas industry and the consumer will achieve whatever benefits are possible," Newton explained in referring to a number of state determinations that the legislation prescribes.

Nevertheless, the Texas

official disclosed, "the reality of the situation is with us and we (at the Commission) have started to make the best of it." More than a month ago Railroad Commission officials began discussions with the leadership and staff of the Federal Energy Regulatory Commission on the formulation of rules and regulations to implement the gas policy act, he reported.

But, Newton emphasized, the Texas commission has neither the technical nor administrative manpower to handle "the anticipated load of paperwork" and other duties that will be unleashed on the expected Dec. 1 effective date of the gas act.

"Our early estimate leads us to believe that our requirements will be in excess of \$1 million per year," Newton related in citing the Commission's need for additions to its legal, engineering and clerical staffs.

"We should have a better fix on this before the (Texas) Legislature convenes in January (and) we plan to request for emergency funding," he said.

Newton cautioned there is no assurance the Railroad Commission will receive adequate appropriations from the Legislature to function properly under the gas policy act and that the producers "won't have any better luck with the

FERC," which, he reported, has been unable to fill 50 professional positions and will soon need another 200 people.

Newton said the Railroad Commission plans to issue a preliminary set of procedural and substantive rules to implement the gas policy act about Nov. 1 when the FERC is expected to publish initial rules and regulations.

"Our goal is to have the mechanism ready to process the anticipated load of paperwork soon after the effective date of the bill..." he related.

Noting that the Texas attorney general and others will test the constitutionality of the gas bill in court, Newton said the Railroad Commission "has traditionally not handled this kind of litigation...I see the Railroad Commission's responsibility as being something different. I do not feel that we can close our eyes and pretend the act doesn't exist while we await the outcome of that litigation."

Refusal of the Railroad Commission "to carry out our responsibilities under the act," maintained Newton, would bring Texas' oil-and-gas based

economy to a dead halt.

Turning to another new piece of federal energy legislation, Newton said the Powerplant and Industrial Fuel Use Act, or federal coal conversion bill, could impact adversely on Texas industrial and other energy consumer.

The conversion act could create the paradox of transporting Texas produced gas to other states while importing coal from some of the states and more oil from foreign land to fuel the Texas industrial complex.

Moreover, observed Newton, if the Railroad Commission continues its Docket 600 order, "we will succeed in diverting significant quantities of natural gas out of Texas into the hands of electric powerplants and industrial facilities in other regions of this country," to the competitive disadvantage of Texas' electric utility industry and industrial signmen.

gas without an exemption from the Railroad Commission.

Newton said the new gas act is expected to trigger the export of an additional 1.5 billion cubic feet of gas per day from Texas.

"It is almost certain to be used as a boiler fuel... primarily in California," the Texas official said.

Any portion of Docket 600 that survives the federal boiler fuel legislation will do so because it is more restrictive than the federal bill, he predicted.

"That, in my opinion, will not be in the best interest of the State of Texas," Newton appraised.

Hence, he maintained, "these developments warrant the Railroad Commission reexamining Docket 600 in light of the Powerplant and Industrial Fuel Use Act of 1978 and considering withdrawal of that order."

"Such an action would result in the same standards being applied to Texans as are applied to the rest of our nation."

"To do otherwise, would place an unfair burden on our state."

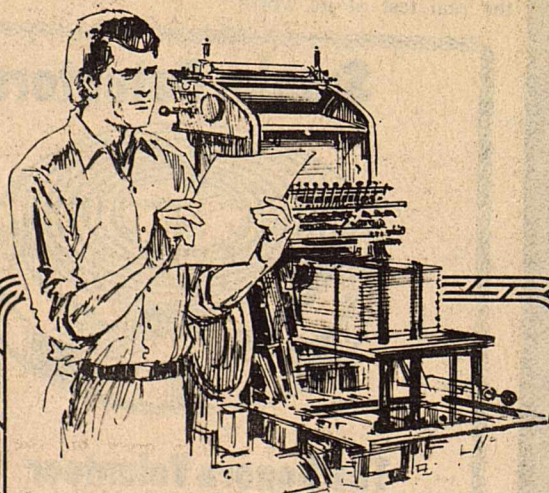

A popular attraction at the Halloween carnival last Friday in Sonora was the "bucking barrel" and young Tommy Shepherd finds out just how tough the ride is.

Permits to Drill Drop This Year

Applications for permits to drill oil and gas tests in Texas totaled 15,779 in the first 9½ months of 1978, compared with 18,675 in the same period in 1977. Applications to drill, deepen, plug back and for service wells in the 1978 period amounted to 18,598 against 21,730 in the year-earlier period, the Railroad Commission's Oil and Gas Division reported in a preliminary summary.

The report showed 799 applications to drill new oil and gas tests were filed from Oct. 1 through Oct. 15, 1978. Applications to drill oil and gas tests totaled 955 in the year-earlier period. The report also showed 14 oil discoveries and 41 gas discoveries were completed in Texas in the Oct. 1-15 period. Oil discoveries included five in West Central

Texas, two each in the Southeast Texas, Midland, Lubbock and North Texas areas and one in deep South Texas. Gas discoveries included 19 in deep South Texas, six in the Southeast Texas area, four in the San Antonio area, three each in the Refugio area, West Central Texas and North

Texas areas and one each in East Central Texas, East Texas and the Panhandle areas. The Oil and Gas Division listed 11,279 oil, gas or service well completions in the first nine and one-half months of 1978, up from 10,340 a year ago. There were 302 oil

completions in the first half of October 1978 against 351 in the same period last year. There were 206 gas completions in the 1978 period against 227 in the year-ago month. In the Oct. 1-15 period, 109 exploratory and field tests would up as dry holes.

November Allowable 100%

The Railroad Commission has set the statewide Texas oil production allowable for November at 100 percent of market demand with the exception of 11 fields that are assigned lower permissive flow rates for conservation purposes. November will be the twenty-first consecutive month Texas oil allowables have been pegged to the maximum market factor

and the 77th time since the Commission went to the 100 percent allowable for the first time in April 1972. The oil allowable on November 1 is estimated to average 3,363,260 barrels daily with actual production estimated at 2,829,000 barrels daily. Chairman Mack Wallace and Commissioner John H. Poerner ordered the continuation of the 100

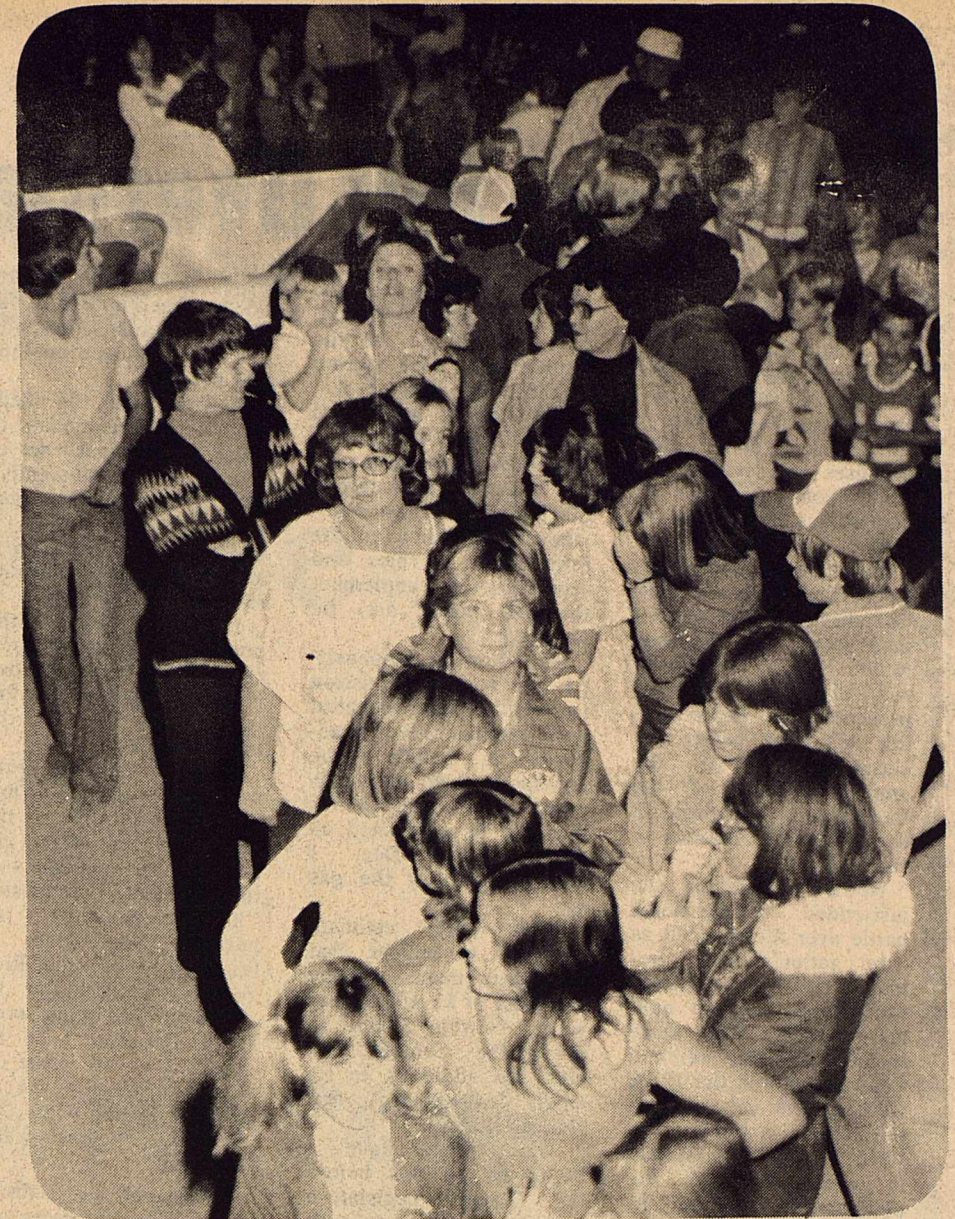

percent market demand factor at the monthly oil and gas proration hearing that drew a larger-than-usual turnout of industry representatives and observers. Commissioner Jon Newton was in Washington to attend conferences pertaining to the recently enacted Natural Gas Policy Act of 1978 and its implementation.

Oct. 15, Oil Hits 3.5 Million

Average calendar day allowable of Texas oil production as of October 15 totaled 3,629,610 barrels, the Railroad Commission's Oil and Gas Division reports. This legal rate of flow from 182,204 wells on

allowable schedules compares with 3,580,437 barrels daily on October 1 when 181,425 wells were listed. Texas oil allowable in October 1978 is pegged statewide to a 100 percent market demand factor.

Estimated actual production in October is approximately 2,836,000 barrels daily and compares with actual production of 2,986,996 barrels daily in the same month last year. The Commission lists 9,149 oil fields in the state on Oct. 15.

The young of all ages stood in line patiently (and some not so patiently) last Friday at the second graders' Spook House during the Sonora's Halloween carnival.

Natural Gas: No Solution At All

by Sen. John Tower

What price would you be willing to pay for an assured supply of energy?

Or a winter free of dire warnings about insufficient heat for the home and fuel for the factory?

What price would you consider justified for the knowledge your family would be warm and your job secure? Questions of energy supply are of less immediate concern to most Texans because energy here is plentiful. Texans pay a high price for their natural gas, electricity, and other energy forms, but most of us take for granted an assured supply.

But ask these questions of people in the Ohio River Valley or in other midwestern states who suffered through last winter's cold, worsened by crippling natural gas shortages. The answer from most would likely be: we will pay more if it will assure supply.

Supply and price were precisely the issues involved in the summer-long tug-of-war in Congress over a compromise version of the President's natural gas plan.

In that tug-of-war, we all lost.

By approving the conference committee report on natural gas, the Senate proved it still does not understand the nature of this country's natural gas problem. It is one of supply—first and foremost.

Price means nothing without supply. Assure the supply, and the price will stabilize through marketplace mechanisms. It's that simple.

Any natural gas solution, if it is to work, must point this country in the direction of increased development incentives to increase supplies. Unfortunately, the Senate passed a plan pointing us in the direction of higher prices, with no real assurance of more supply.

In fact, passage of this measure could very likely mean paying more for less, particularly in Texas.

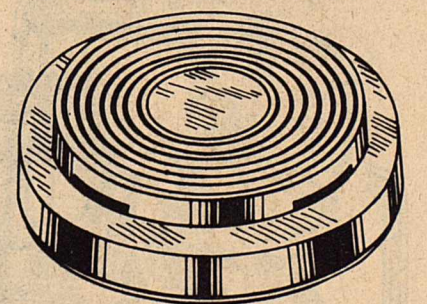

Though a deregulation measure in theoretical terms, it virtually assures that the regulation responsible for present shortages will continue. And for the first time, ensnaring federal regulation will work its injustices on Texas intrastate gas producers. The bill's administrative requirements alone were sufficient justification for its defeat. Establishing 17 or more different pricing categories for wells, with the need then for hundreds or thousands of new federal bureaucrats to administer a well-by-well pricing approval process, the compromise measure promises a regulatory burden of staggering dimensions.

The state and federal agencies responsible for administering the new measure, if it is finally signed into law, will be in an uncomfortable position: between a rock and a hard place.

The Texas agency responsible terms the compromise bill a "devastating administrative burden." The federal regulators will be expected to make the law work with minimal delays. But at the same time, they will be under great pressure to insure that not one cubic foot of gas from any of the 11-12,000 new wells drilled yearly receives a price greater than the law permits. It will be a thankless job and a costly one, for which government and industry—and ultimately the consumer—will pick up the tab.

But for all the cost, the compromise gas measure insisted upon by the Administration likely will do little, if anything, to increase overall gas supplies. And that was the real test of its worth.

Common Sense For Congress Means

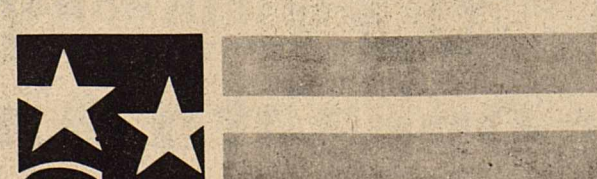

NELSON WOLFF

Nelson Wolff supports:

-  A plan to cut taxes, control spending, and balance the federal budget by 1982.
-  Reform of inheritance tax laws for small businesses and agricultural land.
-  The Bentsen bill to stabilize beef imports and prices.
-  The modernization of both conventional and nuclear military forces.

Nelson Wolff proposes:

-  A \$104 billion tax cut over three years (two-thirds for individuals; one-third to stimulate investment in the private sector)
-  A \$53 billion savings in the federal budget by cutting waste, inefficiency and fraud
-  A balanced budget by 1982 and a constitutional amendment requiring Congress to balance the budget by 1982
