Foster looking for support re-opening radio station

Walton Foster spoke to the Sonora Downtown Lions' Club last Tuesday concerning the Sonora radio station - KHOS-AM and KHOS-FM - which was recently closed down.

Foster told the Lions that with their support he hoped to be able to bring the station back on line. He also asked the members to give him any clues or hints as to what could be done better or where the station failed.

The station was closed down at the end of January. Foster closed the station because it was not making enough money to break even.

Foster said he will gauge the amount of support in Sonora to see if there is enough to bring back the radio station, at least on a break even basis.

Foster said it was with the help of the Lions' Club that the station first came onto the air.

He also commented that his company is seeking to get the station's license back and that the procedure to get a license has gotten easier.

Part of the process is determining a need, community support and many other such items. Foster said he will try to determine those needs, even though it is not required by law anymore.

One of the members commented that the station should look to capture traffic off the highways with a mix of music instead of just one type. The man said this could help to bring people into Sonora to eat, stay the night and could boost the economy.

Other comments included bad reception of the AM band which was easily lost a few miles outside Sonora; a better format of music; and more contact with the radio personnel.

Foster will be running a survey in this issue of the Devil River's News to determine what people in Sonora would like to hear. Included in the survey are such items as types of music, network news and agricultural reports, sports broadcasts. The survey can be found on page 4. Another related article can also be found on page 2 of this issue.

Foster said he has received a lot of telephone calls and letters, expressing concern about the station closing. He said he hopes to get a good response from the survey.

Not pictured are Vicky Romero also employed at the Senior Center and Pauline Thormahlen who is employed at the Sutton County Library.

Green Thumb assigns four in Sonora

Green Thumb has assigned four enrollees in Sutton County to positions at the Sutton County Library and the Sutton County Senior Center. Pauline Thormahlen works at the library. Victoria Romero, Ernestina Sanchez and Leonor Dominguez work at the Senior center. All are dedicated, lively workers who are highly praised by their supervisors.

Green Thumb began its third decade of service in Texas in 1990. The 20 year old program, operated under an agreement with the U. S. Department of Labor's Employment and Training Administration, provides part-time

work and opportunities for workers 55 years of age or older. The program is sponsored in Texas by the Texas Farmer's Union.

These Green Thumb workers are among 1,000 older Texans working with government and non-profit agencies in 117 counties. All must be legal residents with annual incomes which do not exceed 125 percent of federal poverty guidelines. Each Green Thumb enrollee works an average of 20 hours per week. Enrollees are encouraged to enter the competitive labor market. Older workers bring maturity, stability and a wealth of experience to the workplace.

Blood drive to be held March 20

United Blood Services will be in Sonora, Tuesday, March 20, to accept voluntary blood donations. The blood drive, from 9:00 a. m. to 6:00 p. m. at Sonora First National Bank, is sponsored by Graham Resources. We will also be taking replacements for Paul Rioux.

"There is absolutely no risk of getting AIDS or any infectious disease by donating blood," said Paula Kennemen, Director of Community Relations of United Blood Services. Only sterile and disposable equipment is used during the donation process. Everything, from the swabs to the blood bags to the needles, is used just once and then thrown away.

United Blood Services is the nonprofit community blood provider, serving 21 hospitals throughout the West Texas area.

Since blood cannot be manufactured or synthesized and red blood cells can only be stored 42 days, a safe and adequate supply of blood must be available to meet the needs of area hospital patients. Currently, more than 1,600 units of blood must be collected each month to meet area demands.

Blood used by patients in the United Blood Services system is

CLARIFICATION

The December 28, 1989 edition of the Devil's River News stated: MARCH: Sutton County Grand Jury indicts 14 for drug sales in Sonora; police roundup included eight Hispanics and six Anglos following a four-month undercover drug-buying operation. Among those arrested was Sonora restaurateur Eriberto "Beto" Duran. His trail is scheduled for Jan. 16. The Devil's River News recognizes that there are at least two people known as "Beto" in Sonora, Texas. Beto Bernal is the person who was indicted as stated therein. "Beto" Duran has never been indicted or arrested for any drug offense or any other felony. We apologize to Mr. Duran, his family and friends for any statement which could be taken to hurt his reputation.

Healthcare

Are you really listening?

by Scott Gilmore

Think back to the last conversation you had. Do you remember what you said better than what you heard? If so, you may have developed some poor listening habits. Not listening may cause stressful conflicts and misunderstandings.

You can avoid misunderstandings, make better use of your time and improve relationships with your family, friends and co-workers by becoming a better listener. Here are some suggestions:

*** Be receptive.** Listen with a clear head and an open mind.

*** Be physically attentive.** If you've ever tried to talk to someone who was staring out a window, you know how unimportant such behavior made you feel. When you are listening, SHOW that you are interested.

Make eye contact. Use non-verbal signs such as a nod of the head to let the speaker know you're with him/her.

*** Concentrate on what is being said.** Minimizing distractions will help keep your mind on track. Avoid glancing around the room. Try to anticipate and summarize what the speaker is saying.

*** Listen with your eyes.** Relying on words alone can be like trying to work a jigsaw puzzle. Only by listening and observing attitudes, facial expressions and body movements can you get the whole message.

*** Don't interrupt.** You'll hinder communication if you stop the speaker before he/she is finished talking. You can't be a good listener if you're thinking about what you're going to say next or if you interrupt to finish the speaker's sentence.

HUD reforms tighten FHA loan rules

by Wayne Munn, Realtor

The U. S. Department of Housing and Urban Development, (HUD), announced recent policy changes in a direct attempt by HUD to curtail defaults on assumed single-family FHA loans by ensuring that a borrower who assumes such a loan is financially able to meet its payments.

The changes affect FHA-insured home loans originated on or after December 15, 1989. Two of the FHA policy changes of particular interest and concern are as follows:

1. Mandatory creditworthiness verification by HUD or a direct endorsement lender of anyone who assumes an FHA-insured loan.

2. A ban on virtually all FHA-insured loans to private investors.

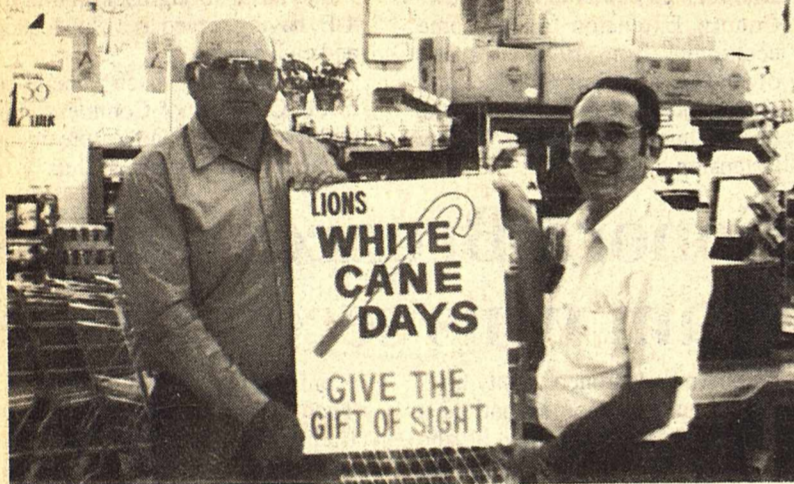

Under previous HUD rules dating to 1987, lenders were required to perform creditworthiness checks for FHA loan assumptions involving owner-occupied homes if the loan was assumed within 12 months of its origination or when a homeseller sought to relieve himself of joint liability for the loan during the first five years of its assumption. A homeseller

previously could let a buyer assume his FHA-insured loan with no creditworthiness review required, provided the loan was at least 12 months old and the seller agreed to remain liable for the loan payments. Those rules still apply for loans originated prior to December 15, 1989--the new rules affect only those loans originated on or after that date.

Under previous HUD rules governing the assumption of FHA-insured investor loans, credit checks were required if the loan had been issued the previous 24 months, if the seller (investor) wished to remove his liability for the loan, or at the lender's discretion. Those rules still apply for mortgages originated before December 15, 1989.

Investors are not allowed, however, to assume FHA-insured single-family mortgages issued on or after December 15, 1989, according to the new HUD policies.

Westside Lions set White Cane Day

Westside Lions of Sonora has set March 31 as White Cane Days for Sonora. March is nationally acclaimed White Cane Days month for Lions.

In 1925 Miss Helen Keller challenged the Lions of America to band together to serve the blind and needy with impaired vision. This wonderful woman with multiple handicaps called her inability to see the greatest of her limitations.

One of the first great steps of Lionism was the White Cane which makes the blind person more mobile. It (the White Cane) was proposed in 1927 by Lion George Bonham, then president of the Peoria, Illinois, Lions Club. It became not only a symbol stating that the user was blind but

also a tool of sight-by-feel for the blind and near blind.

The concern of Lionism for those with failing or lost sight grew as Lionism grew. But the cost of the new deeds of sight serving are a constant challenge of Lions Clubs financial reserves.

West Side Lions Club endeavor to help those in need in our community and in Lions District 2A1.

We have already distributed our collection centers and our drive will target March 31. When we will be out in force handing out our White Canes and asking for your support.

Please contribute to the Westside Lions White Cane Days and give the gift of sight!

Radio Station?

Dear Editor, Please accept my sincerest thanks for your article of February 8, 1990 and follow up editorial February 15, 1990 concerning the "sign-off" of KHOS and KHOS-FM.

Your pledge of support is extremely important and the space you provided has illicitly many comments, verbal and written. I addressed the Lions Club meeting on March 6 to attempt to determine if there is enough support in the community to enable us to commence broadcasting once again.

Elsewhere in this newspaper there is an advertisement that I hope everyone will complete to indicate whether that support is such that we would at least break even on our operating expenses, somewhat like listener supported KERA-TV.

We have all been the victims of a poor economy but working together, we can look forward to better times.

School Finance

by Charles Russell

The current legislative session which convened on February 27 is in the process of developing a school finance plan that hopefully will provide Texas adequacy, equity, and excellence in its public school system. The bottom line responsibility of the finance plan will be to ensure that all local school districts have access to an equal amount of funds necessary to provide their students with a quality education.

Everyone seems to agree on how important public education is to our society and the future of our state. Legislators are vocal in support of education, but many of them, including the governor, do not feel that money will solve the problems of inequity among the school districts in Texas. They are somewhat vague about what the solution is, but they insist that adequate funding is available without some type of state tax.

The problem with this line of thinking is that something must be done with the funding system before May 1 in order to meet the deadline set by the Supreme Court decision. The legislature must devise some type of school finance package that the courts will accept as being equitable or, at best, moving in that direction.

My concern is that the legislature will develop a plan that, once again, places the burden of raising additional revenue on local property owners. I have little doubt that such a plan will equalize from the bottom up as

well as the top down. The wealthier the school districts, the less state money they will receive -- the poorer the school district, the more state money they will receive.

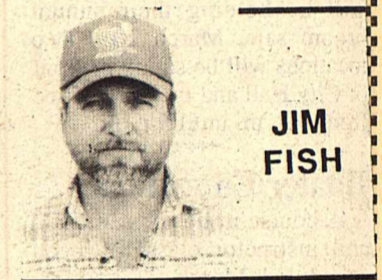

Regardless of what the governor believes, adequate funding is a very distinct advantage in creating a quality school system. Sonora has been fortunate to have that advantage and it shows distinctly in the calibre of our teachers, the environment that is influenced by our facilities, and the various quality extra-curricular activities that provide enrichment for our students. There are underfunded school districts that have quality schools just as there are adequately funded districts that have inferior schools, but by and large, the better school systems have adequate funding.

If the school finance plan calls for additional revenue to be raised, it is imperative that the legislature does not place the burden solely on the local property owner, as was the case when the mandates from H. B. 72 were implemented. The responsibility of paying for quality education across the state must be shared by all of the people.

If state lawmakers are really sincere about the importance of public education, then they need to accept the responsibility of paying for it. In an election year, they will surely be a measure of the courage.

Turn the Lights Down Low

by Jim Fish

Looking in the mirror is not a good idea the first thing in the morning. Disheveled hair, funky teeth and half-closed eyes are the norm for me. Passing concern is given the 900 x 20 spare tire hanging around my middle.

Graying hair, increasing freckles and other affects of aging have greeted me every morning for some ten years now. I usually keep the light dim. I've never been self-conscious of my weight and have regarded the symptoms of aging as nothing more than the normal turn of the clock. My health has always been very good and most of my attention, attempts at self improvement, has been focused on my ageless inner-self. I have directed my efforts toward the development of strengths to confront fears, doubts, certain insecurities and my worst enemy (guess who). This morning was different.

Today, the gap between the person I project physically and the image I have of the inner-me widened considerably. The person I saw in the mirror and the one that resides within no longer resemble one another. Knowing that youth is the cost of wisdom provided little comfort.

Depression clouded the day until an old friend came to mind. Max Ehrman was deceased long before I was born, but he left a gift. Desiderata speaks for itself.

Go placidly amid the noise and the haste, and remember what peace there may be in silence.

As far as possible, without surrender, be on good terms with all persons. Speak your truth quietly and clearly; and listen to others, even to the dull and ignorant; they too have their story.

Avoid loud and aggressive persons; they are vexatious to the spirit.

If you compare yourself with others, you may become vain or bitter, for always there will be greater and lesser persons than yourself.

Enjoy your achievements as well as your plans. Keep interested in your own career, however humble; it is a real possession in the changing fortunes of time.

Exercise caution in your business affairs, for the world is full of trickery. But let this not blind you to what virtue there is; many persons strive for high deals, and everywhere life is full of heroism.

Be yourself, Especially do not feign affection. Neither be cynical about love; for in the face of all aridity and disenchantment, it is as perennial as the grass.

Take kindly the counsel of the years, gracefully surrendering the things of youth. Nurture strength of the spirit to shield you in sudden misfortune. But do not distress yourself with dark imaginings. Many fears are born of fatigue and loneliness.

Beyond a wholesome discipline be gentle with yourself.

You are a child of the universe no less than the trees and the stars you have a right to be here.

And whether or not it is clear to you, no doubt the universe, unfolding as it should. Therefore be at peace with God, whatever you conceive Him to be.

And whatever your labors and aspirations, in the noisy confusion of life, keep peace in your soul.

With all its sham, drudgery and broken dreams, it is still a beautiful world. Be cheerful. Strive to be happy. (Copyright 1927 Max Ehrman. All right reserved. Copyright renewed 1954 by Bertha K. Ehrman.)

Helpful Facts On Getting Information From The Federal Government

Forty thousand copies of a new guidebook have been distributed free of charge to editors and reporters, federal and state legislators, public interest groups, libraries, attorneys and others. It's entitled "The Handbook on How to Use the Freedom of Information Act: Holding the Government Accountable for its Actions." It contains information on the importance of the law and its benefit to society as well as clear, easy-to-understand instructions on how to use the

Freedom of Information Act (FOIA).
The booklet was published by the Church of Scientology, which has successfully used the FOIA to expose government secrecy and find and correct government corruption, including alleged IRS "hit lists" of citizens targeted for political reasons, according to the Church.

You can get a copy of the handbook for \$4.50 from the Church of Scientology Western United States, 1404 N. Catalina, Los Angeles, CA 90027.

Project Graduation

The Community Action Team is asking Sonora to show its support of our local youth in its celebration of Project Graduation. Project Graduation is an all-night, alcohol-free party to be held after graduation at the city pool. Seniors and juniors will report to the pool area, where they will be "locked in" to a night of partying. Plans include an all-night D. J. "pumping out the music;" a casino where "games of chance" can be played with play money; use of the pool area with contests including diving contest, swimming relays, and maybe even watermelon rescuing contests. A midnight meal, breakfast, and lots of snacks will be on hand to feed the kids. Before breakfast, an auction is being planned, so that the kids can spend the "money" that they won in the casino on donated items.

We need community support in the way of volunteers and donations of either money or prizes. If your club or organization would like to cook, or deal in the casino, or donate money or prizes... we need your help. If you or your company would like to donate prizes that kids might like, or cases of drinks or snacks... we need your help. March 11-17 recognized as Employ Older Worker Week

Recognizing the importance of meaningful employment for senior citizens, Texas Department of Economic Development Executive Director, O. P. Bobbitt, proclaimed March 11-17, 1990, as EMPLOY THE OLDER WORKER WEEK in Texas. Bobbitt further urged "all employers and co-workers of older workers to acknowledge the value of their accomplishments and achievements in the workplace."

The annual event focuses special attention to the growing and valuable resource of seniors as a source of experience and dependability for both public and private sector employers.

Green Thumb, Inc., a Senior Community Service Employment Program, funded by the Department of Labor, and sponsored by Texas Farmers

Union, assists older workers with training and part-time employment through assignment to local non-profit organizations. Operating in 117 rural Texas counties, Green Thumb enrolls more than 1,000 seniors to provide needed manpower services in such areas as senior centers, day care and headstart programs, schools, public works, weatherization, libraries, and municipalities.

Texas Farmers Union President, Joe Rankin, invites employers "to utilize an abundance of talent, resourcefulness, and experience by hiring senior Texans." "During Employ the Older Worker Week, and every other week, employers should hire the reliability and dedication of an older Texan and see firsthand that Ability is Ageless!" Rankin concluded.

Medicare open enrollment in progress

Between now and the end of March, eligible people can sign up for Medicare medical insurance according to Franklin H. Upp, Social Security Manager in San Angelo. The open enrollment period is set aside each year to allow people to change their minds if they did not previously choose to have the medical insurance portion of Medicare, or to drop it.

The medical insurance part of Medicare helps pay the costs of physicians' services, outpatient hospital services, durable medical equipment, and certain other medical items and services not covered by Medicare hospital

insurance. For people who enroll now, medical insurance protection starts July 1, Upp said. The basic premium rate this year is \$28.60 a month, and it increases by 10 percent for each year an eligible person chooses not to enroll.

Questions about Medicare can be answered by calling the Medicare toll-free phone number, 1-800-888-1770. To sign up for medical insurance or get other Social Security information, people should contact Social Security, Upp said. The San Angelo Social Security Office is located at 2214 Sherwood Way. The phone number is 949-4608.

PSYCHOLOGY

Few things are as much fun, or as tiring, as an afternoon of shopping. It's never a good idea to start housework or dinner the moment you walk into the door. Relax. A soothing cup of hot tea during this pause can both help you recreate the joy you had shopping, and collect your thoughts for the joy of creating a special dinner for your family.

Two cases of rabies reported in the city

by Patti Strauch

Two cases of rabid skunks in Sonora in February and March are a cause for concern. According to Guy Moore with the Texas Department of Health, conditions are ripe for a rabies outbreak. Wild animals such as possums and skunks are coming closer to homes this time of year, also many dogs and cats in Sonora are not vaccinated.

Moore, who is a zoonosis control specialist, stated, "That's

why it is so important for people to have their pets vaccinated. A rabies shot is the No. 1 barrier for keeping this disease from being spread."

The Texas Department of Health plans to conduct a community companion animal survey/census in Sonora. This census will gather information on population, pet numbers and animal control activities. When it is completed, the information will benefit community health and well-being.

It's Your Money

By A.W. Bishop

How's your credit standing? If you pay cash for purchases, never borrow money, and generally keep a low financial profile, chances are that you don't have a credit standing at all. Not that you're a bad credit risk--there just may be no records about you. Some people like to live that way, but most prefer the option of credit when they need it. What do lenders look for?

Credit worthiness is measured by character, capacity and collateral. Your willingness to pay, generally determined by experience and stability; your capacity to pay whether you have enough money to meet the bill; and your other assets (collateral).

What are elements in a good credit standing? Generally, evidence of financial good faith including history of checking and saving accounts. Also, a retail or bankcar charge account, with bills paid on time. In the beginning you may need a co-signer, and initial credit limits may be low; however, good payback record will earn you higher limits. Remember that minimums must be paid each billing period; higher payments even payment in full--may be made as you wish.

Your experiences with utility companies may become part of your credit history, too. The phone company and power company are in effect, offering credit when they install service in your home.

Even if you don't need credit now, it's advisable to establish credit record so you can get it when you need it.

Gray to speak at Gospel Meeting

Leonard M. Gray will be the speaker at the Gospel Meeting to be held March 18-21 at the Church of Christ.

Leonard M. Gray, was born in Silver, Texas, graduated from Abilene Christian College in 1950. He is married to Marguerite and is the father of four children and eight grandchildren.

They served as missionaries in southern Africa for some fifteen years and he has preached in many countries of the world.

In 1970, he helped to begin the White's Ferry Road School of Biblical Studies in West Monroe, La. where he taught for five years. In 1975, he was invited to direct the Bear Valley School in Denver, Colorado. He served as director of that school for the next 8 years.

He and Marguerite have worked in meetings, seminars and workshops in all parts of the United States and many foreign countries.

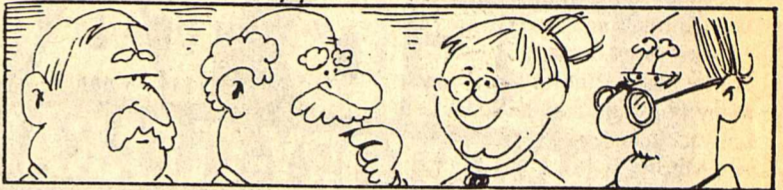

In October of 1983, Leonard moved to California to serve as pulpit evangelist for the Rancho Cardova church in Sacramento.

In September 1987, he began working with World Christian Broadcasting. Owned and operated by members of the Lord's church—this program broadcasts in 8 languages to nearly half of the earth's population.

Retiring from this work January 1, 1990, Leonard and Marguerite are now involved in gospel meetings, workshops and seminars wherever needed.

Southwest Texas Electric Co-op. announces youth tour plans

Area teenagers have a chance to be in Washington, D. C. in June for a first-hand glimpse of the political process. The Government-in-Action Youth Tour program is sponsored locally by Southwest Texas Electric Cooperative. Youths, 16 to 18 years of age, can earn an expense-paid trip to the nation's capitol by winning the Youth Tour contest competition.

Each contestant will be required to submit an essay not to exceed 750 words on the subject: "History and Organization of Rural Electrification." Persons living in the following school districts are eligible: Schleicher, Sutton, Reagan, Menard, Crockett Counties and Iraan-Sheffield School District.

Local winners will join other co-op-sponsored youngsters for the June 7-19 adventure. Being a

Youth Tour participant in Washington, D. C. is special. The Texans will visit their respective Congressman. A wreath will be placed at the Tomb of the Unknown Soldier in Arlington National Cemetery. A special tour of the White House and a possible meeting with the President are scheduled.

Other Tour highlights include visits to Mt. Vernon, the National Archives - home of the original Declaration of Independence, the Constitution and the Bill of Rights, the Smithsonian Institute, the Bureau of Engraving and Printing the FBI Building and many other famous monuments and memorials.

For more details about the Youth Tour program, contact Southwest Texas Electric Cooperative, Box 677, Eldorado, Texas 76936 at 915-853-2544.

NOTICE OF TARIFF CHANGE TO CENTRANET® SERVICE

GTE Southwest Incorporated gives notice of its proposed tariff changes to CentraNet® service, which is a Central Office-based service that provides PBX-type features to multi-line business customers and is currently being offered in all company wire centers where such facilities exist to provide the service.

The Public Utility Commission of Texas approved a generic tariff for CentraNet® service up to 100 lines in Docket No. 7652. The proposed tariff revision would establish specific rates for CentraNet® service involving 101 to 400 lines. Other proposed revisions involve the rate applicable to changes, additions, or deletions to the data bases and a new rate is proposed for additional trunks.

The names of the three CentraNet® packages have changed from Standard, Premium, and Deluxe to CentraNet® 1000, CentraNet® 2000, and CentraNet® 3000, respectively. Direct Call Pickup has been added to the three CentraNet® packages while Multiple Call Park and Shared Speed Call 30 have been added to CentraNet® 2000, and Speed Call 30 and Call Forward Busy/No Answer Split have been added to CentraNet® 3000. Flexible Night Answer and Automatic Route Selection also have been added as new optional features.

The proposed changes and new service offerings have been assigned Docket No. 9251, and pursuant to Section 43(d) of the Public Utility Regulatory Act will become effective June 23, 1990. Rates for service will be applicable to customers who subscribe to the service as well as existing customers. Therefore, there will be no effect on any other rates of the company. The company's gross annual revenues will increase by approximately \$39,600, or less than one percent annually.

The proposed rates are on file with the Public Utility Commission of Texas, and are available for public inspection at the offices of GTE Southwest Incorporated. Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission. The deadline to intervene in this docket is 3:00 p.m., April 9, 1990.

A request to intervene, participate, or for further information, should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas, 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf.

Notice of Rate Change Request

The Lower Colorado River Authority (hereinafter "LCRA") has filed an Application for Authority to Change Rates with the Public Utility Commission of Texas and the City of Austin. The effective date of the proposed changes, which involve the LCRA's 44 wholesale customers, the 62 retail customers throughout LCRA's service territory, and 2 wheeling customers, is April 12, 1990.

For the period ending October 24, 1991, the proposed changes are expected to result in a system-wide annual revenue increase of \$34,334,929 which is a 12.0% increase when compared to the fully adjusted total operating revenues for the test year ending September 30, 1989.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas, 78757.
