### Behind the Scenes in Washington

**EDITOR'S NOTE:** This is the first of five articles on the rapidly increasing "big industry" that is the federal government. These special columns are to substitute for Rodney Ditcher's "Behind the Scenes in Washington" while Ditcher is on vacation.

BY WILLIS THORNTON

**WASHINGTON, Sept. 13.**—The federal government today is by far the biggest single employer of labor in the country. The total number of civil employees in the executive branch is 850,000. The monthly payroll is \$128,000,000.

That figure excludes the military and naval services; another 250,000 and the temporary employees on CCC, WPA, and similar projects (another 2,000,000). It includes only the employees of the "business organizations" of the government, the regular and emergency bureaus, in and out of Washington.

How fast the government ought to go into "business" that is, into the production of goods and services that might be produced through private enterprise, is one of the basic problems in the world today. Every country in the world is floundering with some remarkable changes of front.

It is attaching this problem.

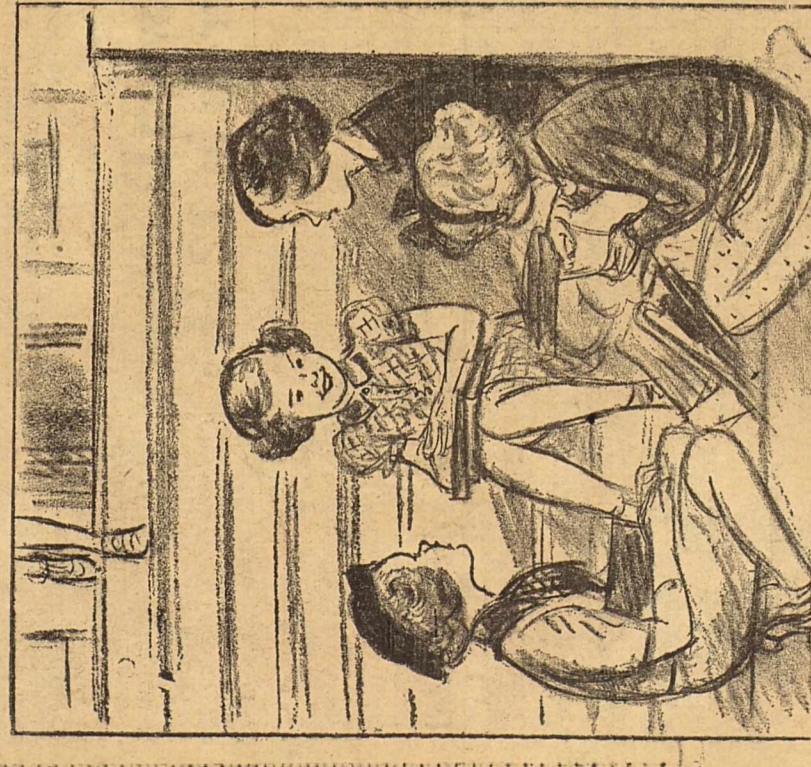

The purpose of this and succeeding columns is to try to draw the fine line between government and private enterprise. It is simply to show some of the ways in which the government is already "in business."

Near All-Time High.

THE rise of the federal government is already "in business."

### When And If The West bound Special Leaves

THAT FREIGHT SUPPOSED TO GO WITH IT?

### Letters To Editor

In the third article it was shown that the Fugoda Swimming Pool and 47 acres of land could be purchased for \$23,000. It was outlined why this price was considered reasonable. It was indicated that Midland people might not wish to have their park at any other spot, due to the fact that there was no other spot in Midland county, where it beautiful swimming pool, and this is convincing them that this was indeed a most desirable city in which to live. It was particularly emphasized that the opportunity to acquire this location could not last long, and that unless some very definite action was taken soon, it would be forced to play "Pass in the Corner" in a little park somewhere in the back-yards of Midland.

In the next article some odd questions will be answered, such as: Midland acquire this park without cost to its citizens and taxpayers?

2. What three cities in Texas have been singled out by a prominent National Authority, as having the greatest chance in this state for rapid growth and progress in the past year, and which of these three have contributed most toward the present era of prosperity in Midland?

4. Why did a certain President of the United States throw the first bath-tub over in the White House, and what was the result?

What is considered the most important and useful thing ever invented?  
6. What race of fishermen can't swim and never take a bath?  
More later.  
J. H. Kendrick.

### Large Crowds See Fight Pictures

Many people were turned away from the Ritz theatre yesterday and last night because there were not enough seats to accommodate the tremendous turnout to see the double-barrelled program of entertainment. Jean Arthur, Edward Arnold and Reginald Denny, in "The Sign of the Cross," and "Easy Living," Joe Louis and Tommy Farr gave the crowds a thrill as they slammed each other about in the championship fight picture. Many a dispute has started over the question of Louis winning the answer is on the screen, see for yourself.

### Talented Cow Doesn't Neglect Her Milk Duty

LANCASTER, O. (AP) — Queenie, a 5-year-old Dutch Beland short-horn cow owned by Deless Wilke, a farmer near here, can do 20 or more tricks, among her tricks, she included the top of a case, crossing her feet on a small box, lying down and snoring, kissing Wilke, wearing an assortment of hats, spectacles, smoking a pipe, and sitting at a table. She also gives five gallons of milk daily.

most employees and the biggest pay-off.  
NEXT: The biggest communications business in the country, the U. S. postoffice, a government-guaranteed, monopoly on the business of carrying letters and mail.

Teacher Assignments For Next School Term Given

The 1937-38 sessions of the Midland public schools opened this morning at 9 o'clock with appropriate programs at the various buildings.

The program for the day after the opening exercises, consisted of enrollment for Tuesday. Pupils were enrolled and classified this morning, and the afternoon and work assigned for the next day. All pupils of high school grade were assigned to the New North school district, and pupils of the high school grades, and the low and high sixth grades, and the low and high fifth grades, and the low and high fourth grades, and the low and high third grades, and the low and high second grades, and the low and high first grades, and the low and high kindergarten, were assigned to the South Elementary School.

Following is the tentative assignment of teachers to buildings, to be made final by the city superintendent. Miss Catherine O'Dell, chemistry. Senior High School. Miss Ruth Carden, 11-A home-room, senior and junior English, and mathematics.

Dormitories at Texas U. Filled

AUSTIN.—Dormitories at the University of Texas for both girls and women have been completely filled to capacity as are sorority and fraternity houses, accommodating some 7000 students. Cooperative houses for both boys and girls are likewise filled, and most of the large rooming and boarding houses have reservations filling them. The census of men and women attending each college has on file hundreds of rooms that have been inspected and found satisfactory, all within a radius of 12 or 15 blocks from the campus. Rates for living quarters and board in the university community range from the average of \$6 per per month for men in the graded cooperative houses for men to the more elaborate dormitories and boarding houses for girls. Last year board to 946 girls at prices ranging from \$30 to \$50 per month. The average charge for sorority houses and boarding houses at rates ranging from \$25 to \$40 per month and 252 at rates from \$45 to \$52 per month. For the students interested in obtaining housing accommodations and board as inexpensively as possible, the cooperative house plan has proved a boon for women who operated under this system with university supervision, at an average cost of \$16 per student per month for men and \$20 for women. In these houses, each student resident
