Il Duce Declares Italy Ready for War

Oil Seizures Climax 20-Year Strife Over 'Black Gold' Below Rio Grande

Mexican oil has been more or less of an international headache for more than 20 years. With the government moving rapidly to take over valued at around \$200,000,000, a crisis has been produced which is the latest of a long series centered on the rich Mexican oil fields.

American oil interest in Mexico, considerably less valuable than British, have been decreasing for more than a decade. But they are still extensive.

Three great American companies, Standard of New Jersey, Standard of California, and Sinclair, have interests in nearly 5,000,000 acres of Mexican oil lands, and maintain refineries, pipe lines, storage tanks, railroads and other equipment. They are survivors of many companies which crowded into Mexico from the United States when the oil boom came to that country 25

American Discoveries. The Mexican oil fields were discovered, for practical purposes, by

and Charles A. Canfield began exploration, and blew in their first practical well in 1904, near Tampico. Lord Cowdray and his Dutch Shell interests were close on their

The present phase of the problem began in 1917 when a new constitution was adopted by Mexi-co declaring for the nationalization of petroleum resources.

The World War had dislocated world oil markets by withdrawing the Russian fields from produc tion, and the rush for oil that followed the war boosted the impor-tance of the Mexican fields uning 25 per cent of the world sup-

Pleased by Vote for TVA Probe

"We got it!" Senator H. Styles Bridges of New Hampshire, left above, seems to be saying to Utah's Senator William H. King after the U. S. Senate voted for a \$50,000 joint congressional investigation of the Tennessee Valley Authority. Bridges and King, both bitter opponents of TVA, didn't manage to push through their own version of the investigation resolution, but seem to be happy about the compromise measure which was adopted and sent to the House for concurrence. Five senators and five representatives would conduct the inquiry, under the resolution.

health officer, this organization has made long strides toward combat-ting the dread disease in both children and adults. He lists the Tu easy to cure" is the Texas Tuber-culosis association's tag line for the with other agencies on May Day

> miliarity breeds contempt' phorism which has been for years; in the case of tube losis the opposite is true. Intim association between tuberculos and the human race for five thou sand years has bred in the huma race a most wholesome respect f his intruder in the family cir Tuberculosis, known as phthisis 3000 years B. C., for almost 4900 years was known as a hereditary sease which was a doubtful birth right of the child; only during the cast few years has the true infectious nature of the disease been known. Now it is known that it i spread by contact with the germ which causes the disease.

> "Since early in the twentieth century the National Tuberculosis association and its component parts which include the Texas Tubercu losis association, has been waging relentless warfare against this one disease. With great breadth of view in its high purpose, this associa tion has cooperated with all health agencies. Today in Texas the state May Day committee is proud to include the Texas Tuberculosis sociation in its membership.

"The activity of this association s truly in the interest of the child Despite the decrease of the annua death rate from 200 per 100,000 ir 1900 to 56 per 100,000 at the present ime, this state still saw the death of 4,000 Texans, approximately sin hundred of these being children Tuberculosis still maintains its po-

sition as the leading cause of death between the ages 15 and 45.

"The Texas Tuberculosis association is stressing the fact that 'early tuberculosis is hard to diagnose but case to care advanced tuberculosis." easy to cure; advanced tuberculo is easy to diagnose but hard cure.' This leads to the conclusion that advantage should be taken every possible means to obtain early recognition. The most effective methods of diagnosis are the tuberculin test and the X-ray in the

hands of competent physicians. "Tuberculosis is being cured in climates. The great need of Texas s provision for treatment, as there are only one-half enough beds in the state to meet the minimum requirements for cure.

'In fifty-five counties volunteer Tuberculosis associations affiliated with the state and national associations are now active. Your cou ty may have such an organization upon application to the Texas T berculosis association. Such an o ganization will be definitely of ber efit to the children of your com

FOY PROCTOR & W. A. YEAGER

Should Be Re-Elected to the Board

NOTICE

MIDLAND, TEXAS, MARCH 28, 1938.

In connection with the forthcoming School Board election, I have been asked whether I am a candidate for election to the Board. I want it definitely understood that I am not the Simpson whose name will appear on the ballot, and any rumor that I am a candidate is incorrect.

In Order That The Public May Be Informed

A co

There has been considerable controversy in the campaign for election of Trustees to the Midland Independent School District regarding an audit of the finances of the District as of August

The following is complete Certification made by Nolan C. Phillips and Company in connection with an audit of the Tax Collector's office of the District:

> Nolan C. Phillips & Company Certified Public Accountants Waco, Texas March 25, 1938

Board of Trustees Midland Independent School District Midland, Texas Gentlemen:

We have completed an examination of the records and accounts of the Collector of Taxes for the Midland Independent School District for the period beginning September 1, 1936 and ending August 31, 1937. Our report and findings are submitted here-

The receipts of this office being derived entirely from taxes and appurtenances, our examination was restricted to the preparation of rolls, collections and accounting for receipts.

All receipts as evidenced by the duplicate of the receipt issued were traced onto the collector's cash books and into the depository. Test checks of postings to original and delinquent rolls, were made to determine the accuracy of the records. The 1936 roll was reconciled to within a small difference of the original roll, through the detail listing of unpaid items on the roll as of March 8, 1938. From these investigations we are of the opinion all receipts have been properly accounted for.

Approximately one hundred taxpayers owing \$10.00 or more as shown by the 1936 roll, were addressed, requesting verification of the amount due. In response a large number replied and in each instance the amount indicated on the tax roll was

The total receipts for the year was \$78,949.89 and accounted for by being deposited with the depository to the following accounts.

> Local Maintenance 55,454.91 Interest & Sinking Fund No. 1 7,895.00 No. 2 No. 3 3,947.54 No. 4 11,638.85 Undeposited Total 78,949.89

The foregoing distribution was verified by applying the ratios of the annual tax levy to the total collections for the year, and no exceptions are

As of August 31, 1937, the total delinquent taxes on the rolls for 1932 to 1936 inclusive, was \$46,077.85, the amount on each roll is shown herein. The collection on the 1936 roll, a greater percentage than experience on any previous roll, for the same period of time. On an assessed roll of \$70,-717.54 collections aggregated \$61,196.86 or 86.54%The percentage of total taxes paid from September 1, 1936 to August 31, 1937 was equivalent to 107.66% of the 1936 roll. The percentage of delinquent taxes for the past several years on August 31, 1937 wa

when requested was of material assistance and is greatly appreciated. Should you desire any additional statements, schedules or information pertaining to any phase of this report, we shall be glad to furnish same upon

of Mr. Pratt in the furnishing of records and data

request.
WE HEREBY CERTIFY that we have examined the records of W. I. Pratt, Tax Assessor and Collector of the Midland Independent School District, for the period beginning September 1, 1936 and ending August 31, 1937, and in our opinion, all receipts have been properly recorded and duly accounted for.

Respectfully submitted,
NOLAN C. PHILLIPS & COMPANY
By: Nolan C. Phillips (Signed)
Certified Public Accountant

In addition to the Certificate there are five pages of data supporting the Certification which it is considered unnecessary to include herein.

It is quite evident from the foregoing that this audit did not cover the entire income of the Midland Independent School District NOR DOES IT SHOW HOW A SINGLE DOLLAR OF THE TAX PAYERS' MONEY HAS BEEN SPENT, and does not purport to be a complete audit of the Midland Independent School District.

This article is published in support of a statement made in behalf of the candidacy of:

W. B. SIMPSON
