Goering Has a New Title: Family Man

Field Marshal Herman Goering, who, since the displacement of Dr. Hjalmar Schacht, is now virtually economic dictator of Germany, smiles happily as, with Mrs. Goering and their daughter Edda, he celebrates his 46th birthday in Berlin.

Between 4,000 and 12,000 Are Said Victims of Earthquake

SANTIAGO, Jan. 26 (AP)—First government reports today gave more than 4,000 dead and the total may go above 12,000 in an earthquake that spread ruin through central Chile Tuesday night.

The government communique was the first official tabulation of death and damage and it was far from complete. Estimates of 12,000 dead came from aviators who flew over the devastated area.

The communique confirmed the report the ancient city of Chillan was destroyed. More than 300 were killed when a theater collapsed and the total of dead in Chillan was placed between 3,000 and 4,000.

Sixty per cent of Concepcion, famed tourist city, was destroyed. Scores of other towns were also hard hit.

SANTIAGO, Chile, Jan. 26 (AP)—A violent midnight earthquake Tuesday night was believed today to have caused thousands of deaths in a destruction which reached from north of Valdivia, 450 miles south.

An aviator flying over Chillan, a city of 40,000 population, 220 miles south of Santiago, reported the almost complete destruction of that historic town.

The dead were being buried in trenches in the streets, he declared and only three houses in 144 blocks appeared habitable.

Other unconfirmed reports told of 3,000 killed in Concepcion, a city of 77,000, 250 miles south of Santiago.

Cauquenes, a city of 6,500 population noted for its mineral springs, 200 miles south of Santiago, was officially reported largely destroyed. Its inhabitants were camping in the streets, but the number of casualties was not known.

Midland Must Not Have Been as "Dry" as Writer Says If He Was Able to See Oil Derricks in All Directions From City

Editor's Note: The following article was written for the Chicago Herald and Examiner by Louis Sobol, noted writer of the "New York Cavalcade" column.

By Louis Sobol. MIDLAND, Tex., Jan. 26.—Why this town of 5,000 people should have two skyscrapers is none of my business. The bare fact is, it has—and the voluble young man in the drug store of the Hotel Scharbauer (200 rooms, baths and showers) explained it in his own way. "You take this city," he said, "and the folks don't seem fancy dressed, do they? Well, we've got more millionaires than any city (he persisted in calling it "city") its size in the United States. We've got," and he slowed his speech so that I might be properly impressed—"Twenty-six millionaires. Yessir, twenty-six—and no puny, scrape-the-corner millionaires, what I mean—some of those men you see in the lobby there are worth from five to twenty million dollars."

THAT DIDN'T explain the skyscrapers—not the two elaborate picture houses, but it didn't detract from the uniqueness of this town which reeks constantly of oil. Oil which hangs heavy and penetrating—and to the right and left of us. Derricks studied the landscape like miniature Eiffel towers. Not far from here, Josh Cosden made his many millions—the same Josh who devoted some of his money to angling Broadway shows—and many a quiet, unassuming fellow, reading

Barcelona Is Occupied by Insurgents

Resistance Falls Before Troopers Of General Franco

HENDAYE, France, Jan. 26 (AP)—The insurgent command announced its armies began at noon today their unresisted occupation of Barcelona. It was the greatest prize of Generalissimo Franco's followers since the Spanish civil war began.

Dispatches from insurgent field headquarters said legions which yesterday surrounded the capital of the government of Spain had marched through palm-lined streets of the city proper.

The metropolis, with a wartime population of more than 500,000 was reported to have fallen with no serious fighting.

Meantime ministers of the republican government fled to the Northern Girona province, near the French border, where they were spread through several towns.

HENDAYE, France, (At the Spanish Frontier), Jan. 26. (AP)—Spanish insurgents laid a ring of shellfire and steel about Barcelona. Last night and met a challenge that the city would be defended "inch by inch street by street, house by house" as a demand was made for surrender of the 2,000,000 inhabitants.

The Barcelona radio station defiantly broadcast the challenge to a finish fight as the Spanish press agency in London reported that Socialist and Syndicalist trade union organizations had decided to hurl the joint declaration in the face of General Franco's troops.

Although the escape of the 2,000,000 inhabitants, refugees and defenders was cut off by troops at the southern outskirts, by converging hordes of London reported that Socialist and Syndicalist trade union organizations had decided to hurl the joint declaration in the face of General Franco's troops.

"The taking of Barcelona will not be an easy matter. The population of Barcelona is nearly as great as that of London and the city will be defended inch by inch, street by street and house by house.

"Every man and woman is fiercely determined not to yield a step before foreign (Italians and Germans assisting Franco) invaders."

Insurgent airplanes, which for days have been bombing Barcelona almost ceaselessly, today dropped hundreds of leaflets calling upon the city to surrender to save its estimated 2,000,000 inhabitants from a destructive attack.

An insurgent army was halted in the southern outskirts for a "knock-out blow," while insurgent announcements said other armies were rushing to reinforcements from the west and northwest.

Bomb and shell-shattered buildings in the port section were in flames.

Deadline Nears for Paying State Tax On Employes' Wages

According to a statement made here today by H. H. Rumph, district supervising examiner of the Texas Unemployment Compensation Commission, unless contributions for 1938 are paid to the Commission before midnight of January 30, they will not be credited against the employer's Federal tax.

Mr. Rumph was notified of this by Orville S. Carpenter, chairman director of the Commission.

"This is in accordance with the Federal law under Title IX of the Social Security Act and is not a ruling of the Commission," Mr. Rumph said.

"If the contributions are not received by the Commission by this date, the employers must not only pay the 27 percent contribution to us but they also must pay the Federal Excise tax in full."

Mr. Rumph stressed the importance of employers including all salaries up to and including December 31, 1938, in their reports to the commission for the year 1938 in the employer's reports.

Under the law, the State collects payroll taxes monthly and the Federal government collects them yearly. If an employer pays his State taxes before the Federal taxes are due, then he is permitted to deduct the amount of tax paid the State from the Federal tax.

This deduction or credit is allowed, however, only where the State tax has been paid before January 31.

FRANCE cannot permit anyone to touch the empire she founded with her blood," Bonnet declared before a cheering chamber of deputies.

The speech concluded two weeks of foreign affairs debate just after the government had called 80,000 young men, six months ahead of schedule, for service.

BUDAPEST, (UP)—Policemen stationed at important traffic centers here are required to speak several languages with fluency.

Budapest, a cosmopolitan city, hopes to make all visitors feel at home.

Full House Certain--

300 EXPECTED AT CC BANQUET TONIGHT

Principal Figures at Annual Banquet Here Tonight

Speaker

Principal speaker for tonight's banquet of the chamber of commerce is Myron G. Blalock, widely known Houston attorney and co-chairman of the national democratic executive committee.

President

Culminating two years of service as president of the Midland chamber of commerce, Marion Flynt, automobile dealer and civic leader, will retire officially this evening as new officers are elected.

Local Host

Personal friend of the guest speaker, Fred Wemple of Midland will introduce the Hon. Myron G. Blalock at tonight's banquet. Messrs. Wemple and Blalock have been associated in affairs at the state capital.

Toastmaster

Master of ceremonies at the chamber of commerce banquet tonight will be Mayor M. C. Ulmer, named by the board of directors to conduct the program and introduce visitors from neighboring towns and cities.

M. G. Blalock Guest Speaker For Affair

Election of All Directors to Be Made by Members

Approximately 300 citizens of Midland and neighboring towns and cities will meet in a goodwill session this evening at the Hotel Scharbauer Crystal ball room, the occasion being the annual banquet of the Midland chamber of commerce.

An informative and inspirational address will be given by the Hon. Myron G. Blalock, guest speaker, who is a widely known attorney of Houston and Marshall and a prominent figure in national and state democratic circles. A friend to this section on numerous occasions, in gaining contacts with high officials, Mr. Blalock was invited here because of his recognition as an able speaker and his keen interest in development of the southwest. He is attorney for several large oil companies and also operator in Louisiana and East Texas fields.

Opening at 7:30 o'clock, the banquet will be attended by from 25 to 30 citizens of towns near Midland, the goodwill gesture being a feature here annually.

Musical numbers will be interspersed in the program, the business of the session to include election of directors for the year and delivery of President Marion Flynt's report. Accomplishments of the chamber of commerce will be in printed form, passed out at each place, to save time on the program.

Mayor M. C. Ulmer will be toastmaster and Fred Wemple will introduce Mr. Blalock.

Tickets, placed on sale early in the week at the chamber of commerce office, are \$1.00 each and a few were available at noon today. Reservations may be made at the chamber of commerce, telephone 39, until the 300 are sold.

Twenty-Two McMurry Chanters to Sing Here Tonight

Twenty-two members of the McMurry Chanters, accompanied by their director, Mrs. Robert B. Wylic, are expected to arrive here by bus late this afternoon.

They will present a musical program in the auditorium of the First Methodist church this evening at 7:30 o'clock. There will be no admission charges and the public is invited to attend.

A farewell offering will be taken. A diversity of selections will mark the program which will include solo and other numbers as well as choruses. Among the scheduled numbers are such as the "Toreador's Song" and the "Pilgrim's Chorus," the "Rosary," "Love's Old Sweet Song," "Sweet and Low," "I Feel Thy Angel Spirit," and "Ho, Mr. Piper."

Members of the group will be entertained overnight in Midland homes and will be given supper and breakfast.

They will appear in a brief program at the high school Friday morning and then go to Odessa, next stop on their 10-day tour.

Girls of the chorus will be presented in Colonial costumes.

Persecution of the German Jews Only Starting, Declares

BERLIN, Jan. 26 (AP)—Julius Streicher, German's number one Jew-baiter, warned German Jews last night at a huge anti-Semitic rally that the burning of synagogues and plundering of Jewish stores last November was "just a little test."

"Those who believe that the Jewish question already is solved are mistaken," shouted Streicher.

Meanwhile George Rublee, American director of the intergovernmental refugee committee, was struggling to reach some sort of an agreement with Nazi officials.

"I proclaim before you," said Streicher, "that solution of the Jewish question has only begun. I say further that whether it will be solved is written in eternity."

"The Jewish question is no question of the moment, no localized question. It is a question of the whole world, one which comes out of eternity."

"And if there still be one single Jew free on this earth and able to conduct himself according to his in-born instincts, the Jewish question still would not be solved."

HERE FROM DEL RIO Harper Sparks, city editor of the Del Rio News, is in Midland for a few days. Mrs. Sparks and their two children have been here for ten days visiting her mother, Mrs. H. E. Lewellen.

Business Men to Tour County, See Extension Work

Sponsored by the Midland Rotary club, a tour of Midland county farms and ranches will be made Friday by a group of business and professional men, viewing projects of soil conservation and extension work.

The delegation will leave Hotel Scharbauer at 10 o'clock Friday morning, putting in four hours on the tour of inspection.

Here today to confer with County Agricultural Agent S. A. Debnam and to make the tour Friday, are C. Hohn, soil and water conservation specialist; R. M. Burnham, state performance supervisor; and A. L. Smith, extension animal husbandman, all of College Station.

Projects to be inspected will include trench silos, water facilities, terracing and contouring and calf feeding, all of which have been developed highly in recent months on farms and ranches of the county.

Transportation was being arranged today and it was expected that 50 to 75 business men will be in the party.

New Committee to Probe Government Set Up in State

AUSTIN, Jan. 26 (AP)—The senate today set up a general investigating committee with broad powers to inquire into all phases of state government.

Investigators are empowered to report their findings at regular or any special session.

Lieutenant Governor Coke Stevenson said he will name five members soon.

Representative Brown, Jacksonville, introduced a measure which would permit the board of education to set a higher per capita appropriation for public schools.

The board would determine the amount needed to keep schools running six months and the tax board would be required to boost the property tax rate to supply the amount provided in the rate exceeding 35 cents on \$100 valuations.

House foes of relegalization of horse racing were defeated 71-56, in an effort to transfer the relegalization bill from the state affairs to the agriculture committee.

Italy Is Warned by Bonnet to Keep Her Hands Off Colonies

PARIS, Jan. 26 (AP)—Foreign Minister Bonnet gave Italy a solemn warning today to keep hands off the French colonial empire while on south France's Spanish border Italian troops were aiding in the insurgent conquest of Barcelona.

"France cannot permit anyone to touch the empire she founded with her blood," Bonnet declared before a cheering chamber of deputies.

The speech concluded two weeks of foreign affairs debate just after the government had called 80,000 young men, six months ahead of schedule, for service.

BUDAPEST, (UP)—Policemen stationed at important traffic centers here are required to speak several languages with fluency.

Budapest, a cosmopolitan city, hopes to make all visitors feel at home.

Ranch Management Is Discussed by Grant at Rotary

Discussion of ranch management was made at the Rotary club today by Lester Grant, manager of the McElroy Ranch Co. He told of purchase of the ranch by the syndicate he represents, in March 1927 for \$2,500,000 cash, and of the methods used in improving its operation.

"The ranch has two chief interests, oil and cattle. The oil is produced by the Gulf Oil Corporation, there being now 227 wells with allowable production of approximately 5,000 barrels daily on proven territory comprising about 12,000 acres.

Protraction hearings, vacancy and tax problems as they affect management of the ranch were discussed.

Referring to the cattle business, he said the ranch has about 140,000 acres, with 96 sections leased from the University, on which are run approximately 3,000 head of cows.

The ranch is cut into eight large pastures, seven somewhat smaller, four still smaller and six traps, with 22 windmills and six surface tanks. Ninety miles of fence enclose the ranch, with cross fences running the total to more than 200 miles. Grazing has been cut to about 15 or 16 cows to the section, rather than to follow the old methods of over-stocking. The fee land is chiefly in Upton county, most of the leased land in Crane, with small areas in Pecos and Erbe counties.

Smaller pastures and use of automobiles has reduced the number of men employed, the average staff comprising the manager, the foreman, the bookkeeper, three cowboys, a windmill, a cook and a helper.

The other portion of the Rotary program was a talk by the Rev. W. E. Mann on the value of the Rotarian Magazine. Using the January issue as an example, he reviewed briefly some of the fifteen articles, any one of which he declared to be worth the \$1.50 per year charge.

Myron G. Blalock, visiting Rotarian from Marshall, made a brief, humorous talk on "management" of his Shady Oak farm in East Texas.

Fred Wemple announced the "Debnam Day" tour which the club will conduct Friday to see ranch and farm extension projects in the county. Leaving the Hotel Scharbauer garage at 10 a. m., the party will return by 2 p. m., lunch to be served at noon at a point twenty miles southeast. Luther Tidwell, general chairman, announced that Clarence Scharbauer, Percy Mims and Herbert Fox will have charge of attendance; W. B. Simpson, J. E. Hill, L. G. Mackey and E. H. Barron, transportation. From 50 to 75 will be in the party, it was expected, with extension department officials, newspapermen and other guests present.

Following today's luncheon, several Rotarians accepted invitation to visit the new manual training department of Midland high school, Superintendent W. W. Lackey's invitation having been extended by W. R. Upham.

Former Senator of New Jersey Dies

PORT DEPOSIT, Md. Jan. 26 (AP)—Joseph France, former senator and candidate in 1924 for the republican nomination for president, was found dead in the bed in his home today. A physician said he apparently had died of a heart attack. He was 66.

Ordovician Test Staked Today On Community Acreage in Crane

The Sandhills Ordovician pool of western Crane today gained location for another deep test as drilling was authorized for Sinclair-Prairie Oil Company et al No. 3 Tubbs-Community. The well will be drilled 330 feet out of the southwest corner of section 3, block B-27, public school land. It is a diagonal northeast offset to Gulf No. 9 Waddell, large Ordovician producer. Five companies have united their acreage in section 3 for the drilling of the community test.

They own leases on the entire section except the south half of the northwest quarter, which is owned by Penn and Cranfill. Sinclair-Prairie has a two-sevenths interest in the test. Shell also has two-sevenths, and Tide Water, Standard of Texas and Skelly each have one-seventh.

Gulf No. 10 Waddell, south offset to No. 9 Waddell, is drilling at 1,118 feet in anhydrite, while Gulf No. 16 Tubbs, an east offset to No. 10 Waddell, has erected derrick. Gulf No. 5 McKnight, scheduled Tubbs pay test farther southeast, is building rig.

In the Dunes pool, eastern Crane, Great Western No. 1 University is drilling at 2,880 in anhydrite; Magnolia No. 2-6 University had reached 2,920, also in anhydrite; Phillips No. 1 Soderer (University) is spudding today.

Payton Lease Sold. It was reported today that R. G. "Tex" Patillo, of McCamey, had purchased from Humble Oil & Refining Company 60 acres in the Payton pool, near the Pecos River in southeastern Ward. Lease is on Winter Garden Irrigation and Farming Company fee, and it covers the southwest 80 acres of section 33, block 1, H. & T. C. survey. Humble already has completed 33 producers on the lease, which Patillo will take over. He paid

Humble \$30,000 cash and also will pay a 1/16th override. Patillo also will have the deep rights under the lease.

Andrews Failure Plugged. Rogers & Rogers No. 1-B University, Andrews wildcat south of the Fuhrman pool, has been abandoned at total depth of 4,451 feet in lime. Last core from 4,431-51, showed full recovery of lime bearing sulphur water.

South of the Emma pool in Andrews, Atlantic and Standard No. 4-B Cowden, is drilling at 2,355 feet in anhydrite and lime.

In west central Andrews, Richmond Drilling Company and Wright & McMillen No. 1 Bryant-Link Company is drilling at 3,875 feet in anhydrite.

Honolulu No. 1-18 J. E. Parker, central Andrews test, is drilling unchanged at 4,762 feet in lime.

Sinclair-Prairie has staked location for No. 1 Pay Holt, 440 feet out of the southeast corner of section 1, block A, public school land. It is nearly three-quarters of a mile west of production at the north end of the North Cowden pool in northern Erbe.

Amerada Riley Shut In. The largest West Texas producer north of Andrews, Amerada Petroleum Corporation No. 2 T. S. Riley, in the Seminole pool of central Gaines, was shut in today with storage filled. On last gauge, it flowed 1,554 barrels of oil in seven and one-half hours, through open 2 1/2 inch tubing and two 3-inch flow lines off 5 1/2-inch casing. The well, credited with discovery of a new, deep pay for the pool, is bottoned at 5,224 feet in lime and has been acidized with 7,000 gallons. It is 660 feet from the south, 1,930 from the east line of section 229, block G, W. T. R. R. survey.

Texas Pacific Coal & Oil Company has staked location for No. 1 (See OIL NEWS, page 8)

Salazar Gets Death Sentence For Slaying Miles Farmer

SWEETWATER, Jan. 26.—Frank Salazar, 23, last night was found guilty of the murder of Paul Kennedy, 43, Miles farmer, last Dec. 15, and was assessed the supreme penalty — death in the electric chair in the state penitentiary at Huntsville—by a jury of Nolan county citizens. The verdict was returned 10 minutes after the case had been given the jury.

Eugene F. Mathis, defense counsel, informed Judge John F. Sutton that he would file a motion for a new trial. Date for the hearing of the motion was fixed for 10 o'clock Tuesday, Jan. 31, in Sweetwater. Mathis has two days in which to file this motion.

Salazar became the first man in the history of Nolan county to get the death penalty, court officials said.

When the verdict was read the prisoner slumped lower in his chair and dropped his head. He never raised his eyes during the time Judge Sutton polled the 12 jurors regarding their decision and when he was removed from the courtroom to the jail on the floor above, the Mexican's head was bent and his shoulders sagged. He had been calm and deliberate throughout the three days of the case.

Wilma, 16, daughter of the murdered man, showed no emotion when the verdict was read. She was the state's principal witness and had

Salazar Gets Death Sentence For Slaying Miles Farmer

once remarked that Salazar had been "infatuated with her." Sitting beside Wilma was her 10-year-old sister, Imogene, who corroborated Wilma's story of being carried from the house by the defendant the night of Dec. 15, when the state claimed Kennedy and his 33-year-old wife were slain. Wilma was with the Mexican three days later in Austin when he was arrested.

As the afternoon session opened, District Attorney O. C. Fisher attempted to put into the records evidence that 32nd District Court had jurisdiction in the case by offering court papers showing the case had been sent to Sweetwater from San Angelo on a change of venue.

Mathis objected and said the case had been closed by both the state and defense and stated further that should this be done he desired to open the case for further testimony. After a recess of an hour, during which time it was determined such evidence was not necessary, Mr. Fisher withdrew the papers and arguments proceeded.

George Outlaw, former district attorney here, opened the arguments for the state. He was followed by Mathis for the defense, then Truett Barber, 32nd District attorney, Chas. Nnun and Zonie Steakley of the defense, and Fisher concluded.

Ten minutes later the jury was back in the courtroom with its verdict.

By JOHN T. FLYNN
NEA Service Staff Correspondent

That the farm program of the administration is marked for the scrap heap has been known by observers who have surveyed the nation during the past year. It has also been apparent that it would be succeeded by an adventure in price maintenance for farm products through the application of the two-price system.

Now a group of senators representing both parties and, indeed, both wings of both parties, comes forward with a new farm bill which will be pressed upon Congress. This bill embodies the two-price idea.

Last fall during the political campaign, when discontent raged high in several states, Senator Vandenberg went to Kansas and preached the doctrine of "An American Price on the Homestead of the Free."

ELIMINATION OF DETAIL

The new plan proposes to get rid of the immense amount of red tape and hard conditions which the AAA imposes on its beneficiaries. This plan is to pass out the money without forcing the farmer to do very much.

The program is to divide the crop into two parts. One part represents the part of the crop which the farmer sells on the domestic market. The other is the part which will be sold abroad.

On the domestic crop the farmer will be guaranteed a price covering cost of production and this price will be insured to him by compelling dealers who buy it from him to pay the cost of production. The cost of production will be determined by the Secretary of Agriculture. And if he decides, for instance, that the cost of producing wheat is a dollar a bushel, then no dealer or processor will be permitted to buy wheat from the farmer at less than that figure.

The part of the crop to be sold abroad will go into warehouses and the warehouse receipts will be made available to the government. The government will sell it abroad

for anything it can get and account to the farmer. This, to call it by its correct name, is plain dumping.

TWO CROP CONTROLS STAY

The soil conservation plan of the present farm program will be retained. The Commodity Surplus Corporation, a scheme to buy up surplus parts of all sorts of crops to keep the price up, will also be kept.

There seems to be ample evidence that something like this is to be the next phase of farm legislation. The only thing that can be said for it, compared with the AAA program, is that it does not attempt the morally and socially unjustifiable plan of subsidizing crop reduction.

It is not a new plan. It has been tried in various countries in various ways. It always breaks down.

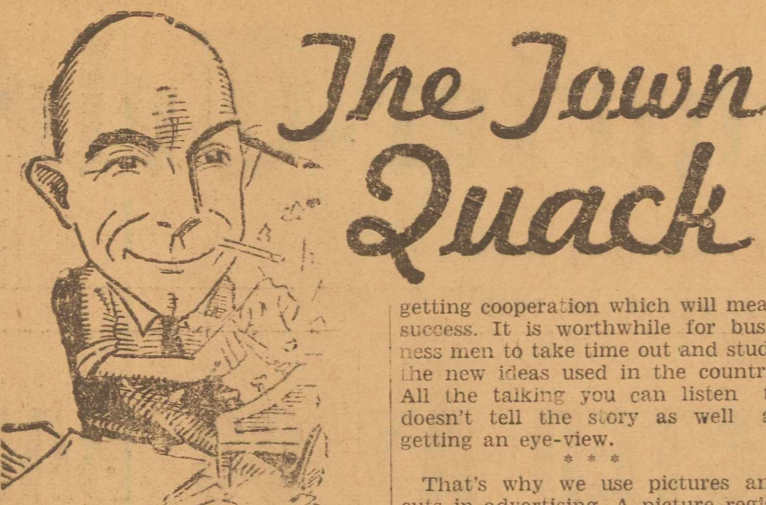

However, anyone who thinks he knows how to solve the farm problem is entitled to a try at it. Everyone else has failed so far.

Number of Cases of Chicken Pox Found Among Children Here

A number of cases of chicken-pox have been discovered among Midland school children. In view of this condition, health authorities are bringing to the attention of Midland citizens some facts about the disease.

Chicken-pox, an acute contagious disease occurs usually in children only. It is almost without mortality and is seldom followed by complications. The incubation period is from ten days to three weeks. Though the cause is unknown, the disease is highly contagious.

It begins with a slight fever and often headache. The following day small vesicles (blisters) containing clear fluid and surrounded by a little red area appear in variable number on the back, trunk, face and limbs. In some cases there are also sores

A Frankenstein character may be the man to whip Joe Louis, but I'd hate to put up anything in the way of a human to absorb that right hook and expect to go on with the fight.

Big Spring civic leaders were here yesterday advertising the three dances they will have there Saturday night for the President's Birthday Ball. They are making a big thing of it.

Rotarians plan to become eye witnesses to the soil conservation and extension work projects Friday, making a four hour tour of projects on Midland county ranches and farms. Much is being done to improve ranch and farm methods these days, and the county agent is

in the mouth. By the second or third day, the fever disappears and the child feels well. The blisters become filled with a thicker fluid, break open and dry into scabs. These fall off in two weeks, leaving no scars unless scratched.

Vaccination with the fluid in the blisters has been suggested and found to decrease the incidence in those exposed to infection. The only other preventive measure is isolation of exposed children.

In the treatment, care should be taken to keep the child from scratching the pustules. A soothing lotion should be applied. Baking soda baths may help to relieve the itching.

TEXAS STATE DEPARTMENT OF HEALTH LAWS PERTAINING TO CONTROL OF COMMUNICABLE DISEASES IN SCHOOLS.

RULE 15: Quarantinable for school purposes. Persons suffering from measles, whooping cough, mumps, German measles and chickenpox, shall be required to be barred from school for twenty-one days from date of onset of the disease, with such additional time as may be deemed necessary; and may be readmitted on a certificate by the doctor attesting to their recovery and non-infectiousness.

It is the forest that has been felled once that is most difficult to get through, for there a secondary growth of low-ebbing shrubs and vines mingles with the taller trees.

getting cooperation which will mean success. It is worthwhile for business men to take time out and study the new ideas used in the country. All the taking you can listen to doesn't tell the story as well as getting an eye-view.

That's why we use pictures and cuts in advertising. A picture registers more than the words.

The NEA feature service, from which the Reporter-Telegram gets its news pictures, comics and features, is speeding up the service by establishment of a branch at Dallas, with air mail connections from all parts of the country, rather than to have to serve the southwest from Cleveland, as in the past.

The chamber of commerce banquet comes off tonight. If you didn't buy a ticket, phone Bill Collins now and see if there is a seat left. Every citizen should be interested in this annual meeting, laying the ground work for activities of the next twelve months. The Hon. Myron G. Block, principal speaker, has come quite a distance at invitation of his Midland friends and will be well worth hearing.

By PAUL HARRISON
NEA Service Staff Correspondent

HOLLYWOOD—All over the lot: A few months ago Merle Oberon and David Niven were thought to be altar-bound, but the situation altered itself. Now Miss Oberon and Niven stand before Joseph Benton North on the "Wuthering Heights" set, being married in the best movie manner. It's their Goldwyn wedding.

On the sidewalks watching the shooting is Goldwyn's London associate, Alexander Korda. At the same time the publicity department is reading a cable from a London newspaper asking if there is anything to the report that Miss Oberon and Korda are going to marry. The answer cabled back is "No."

The man performing this ceremony is probably the most experienced in his line, Joseph Benton North's mother wanted him to be a clergyman, but he was determined to be an actor. So he compromised to the extent of becoming the screen's busiest portrayer of ministers, priests, vicars and bishops.

Besides appearing merely as a church official in scores of pictures, he has officiated in at least 50 weddings. He knows several of the rituals by heart, but usually only has to intone the first few lines before the scene fades in on pealing church bells.

Paramount hired the Don Cossack choir to appear and sing in "Hotel Imperial." The choir was organized in a prison camp in Constantinople during the Russian revolution and was made up entirely of Cossacks. It still is, with a few exceptions, but that doesn't satisfy Paramount. The studio has hired a crew of extra make-up men to make the Cossacks look like Russians.

AULD LANG SYNE
Strolling around the KRO lot with Bill Carr, veteran prop man, while he reminisces: "Twenty-five years ago a company might have 75 actors and a crew of three—just a director, cameraman and prop man. And sometimes the prop guy had to play bits in the pictures."

"I did everything in those days, even building sets each morning and tearing 'em down at night. With a little help from a boy, I'd put up and strike maybe 12 or 18 sets a day. And now it may take dozens of men a week or two just to build an elaborate set."

"Up on the old Universal lot, I had to strike all the sets each night because there wasn't any roof on the studio. There wasn't any night shooting, either, because the studio had only six electric lights and they were all in the accounting department."

We passed the open doors of a big sound stage and glimpsed workmen dressing a fancy bedroom set. Carr chuckled.

"These things weren't much trouble in the early days. If they just wanted a plain bedroom I'd toss up a couple of painted canvas walls and put in an old iron bed, a chair and washstand. If they wanted something extra special we'd grab the camera, boiler to the cast and go across the street to where some people name Short lived. Gertrude Short had a big bedroom with lots of windows and

Improvements at Country Club Continue; New Professional, Frank Taber, Hired

By F. A. STACY.

They want a story for the paper about the happening at the Midland Country Club. It seems that so much is buzzing that it is almost front page news.

Lets see now... first off they have gone out and hired a pro at great expense, and have gotten one of the foremost golfing professionals of the state to run the new grass green course as it should be, to plant the grass and put the new course in order as a new course should be handled, and we all think it was a wise choice. The pro, Frank Taber, of Scotch descent, comes from Gladeview and San Angelo. Frank came to San Angelo as pro at the Country Club and then planned and built his own course there. He had perhaps the best kept greens in this section, and his greens at that course are still very fine putting surfaces.

This club needed most of all, a man experienced at growing putting surfaces on grass greens, and perhaps out of the entire state no one is more familiar with exactly that than Frank Taber. He has the putting surfaces on his own greens in San Angelo to prove it. Frank has been the professional at Gladeview over in East Texas the past year but he wanted to get back to West Texas, and he has been hired and will report to Midland on the first of next month. Frank has the reputation of being one of the foremost teachers and is quite a golfer to go along with it. Pat Ruckman, assistant superintendent of production for Humble, recently of East Texas, was high in his praise of Frank Taber and his work at Gladeview.

The ditches will be dug, and the pipe laid for the water line covering the golf course this coming week. Frank Johnson has been out every afternoon measuring and driving stakes and helping to plan the pipe layout. Frank isn't the only man on the committee, but he has done a whale of a lot of work, and is still as busy as the one armed paper-hanger with the proverbial itch.

Even the West Texans are prone to think that this soil is bad simply because it takes water to make

birds-eye maple furniture. If we came early in the morning, Gertrude would hop out of bed and turn the room over to us for \$3 a day.

LOSE IT GENTLY, PLEASE
You never can tell by the screening of a scene how difficult its shooting might have been. In the new Torchy Blane picture you'll see Glenda Farrell breezing into the office of Barton McLane and slamming the door behind her. Looks easy but it wasn't.

The door was a heavy one and it banged shut with noise enough to blow out the tubes in the sound apparatus. When Miss Farrell tried to close it more gently, the effect of her entrance was spoiled.

So the door was completely silenced with rubber buffers, and a lighter door, complete with frame, was set up by workmen just out of camera's range. Next time Miss Farrell slammed the door hard, a prop man slammed the dummy door lightly. Worked fine.

Several big oil men have indicated that they will make donations, and quite a few have been very generous with pipe and equipment to do the work with. Tripp over in Odessa gave the club a very nice deal in the dirt work, and another story will be written thanking the various generous folks for their help.

Remodeling and refurbishing inside the club, being done by women members, is being rapidly completed and all work will be done in the near future.

Some money to aid in completing the program was made at a party given by them at the Country Club last Saturday night.

Work on the laying of the pipe and the landscaping is the work at hand for the moment, and that is going ahead full tilt. Things must be taken in order.

Indians Assert Cobra Always Verifies Kill

BEDAGAMA, Ceylon (U.P.)—A cobra attended the inquest here of a man it had biten, at least that is what natives believe.

While walking home one evening the man accidentally trod on the snake, which bit him. He ran the rest of the way home, about a quarter of a mile, and there collapsed and died.

During the inquest, which was held in the house the following evening, a cobra was noticed crawling about outside. Villagers caught it and showed it to the coroner, saying that it was the same one that had killed the man.

They explained that an injured cobra will often not be content with biting the person who injures it but will follow him about after he has escaped the first time. It will lie in wait and attack him again.

Kansas Guards Museum Horse Of Custer Fame

LAWRENCE, Kas. (U.P.)—Comanche, the horse that survived the Custer massacre, is going to make its last stand at the University of Kansas, according to Marvin Goebel, student editor of the campus Daily Kansan.

"Custer made his last stand in Montana, but Comanche is going to make his in Dyer's Museum, and any attempt to remove him for a frontier celebration will be vigorously protested," Goebel said.

At Hardin, Mont., a group of citizens has announced plans for a ceremony on June 25, in which the triumphant return of the museum horse would be a highlight of the 63rd anniversary celebration.

Dr. E. H. Lindley, chancellor of the university, said he had not been informed of any plans to remove the horse and emphasized that nothing could be taken from the campus museum without permission of the board of regents.

Dr. Lindley said that he would not sanction the removal of Comanche at least until he was informed more definitely about the celebration.

Goebel said he intended to start a movement to "keep Comanche at K. U."

The horse was the mount of Capt. Keough.

Woman, Born Blind, Sees After 63 Years

SEATTLE (U.P.)—Born blind, 63-year-old Mrs. Mary Olthof has gained sight through a delicate operation—sight that she can scarcely find words to describe.

To the Hildeburg, Holland, woman, the gift of sight cannot be valued.

"I am poor," Mrs. Olthof said. "Maybe you give me \$1,000,000 for what I got. Never would I trade."

"I see my children and my grandchildren so big now, when all the time I think of them as babies. Six feet like giants they are."

Her first request, after seeing her children, was to look at a cow. "Now I have seen my children and a cow. I thought, now I am happy."

A coincidence, perhaps, but C. E. Jackson, son of A. C. Jackson of the Center community near Abernathy, lives at 14 North Jackson street, Altus, Jackson county, Okla.

Mail Carriers Drive Huskies On Into Arctic

CHURCHILL, Man. (U.P.)—Dog team racing in Manitoba may be a thing of the past, but there are still men—and dogs—capable of standing up to the rigors of a northern winter.

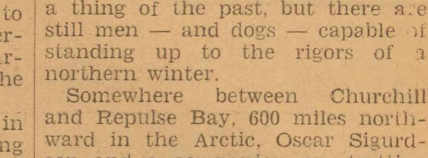

Somewhere between Churchill and Repulse Bay, 600 miles northward in the Arctic, Oscar Sigurdson and a companion are trotting behind their teams of huskies and keeping careful watch over a heavy load of Arctic mail.

The two men left Churchill on Jan. 5, and plan to mush to Eskimo Point, 180 miles north of Churchill, where the mail may be taken over by relay drivers from the R. C. M. P. if weather gets too severe.

Ultimately, however, the letters and packages will be delivered to their destinations at Churchill, Baker Lake, Wager Inlet, and Repulse Bay.

ARE YOU Weak, Pale?

Houston, Texas—Mrs. Emily Plaster, 3105 Schuler St., says: "A relative was so weak and nervous she could hardly get around. Dr. Pierce's Favorite Prescription strengthened her so well. Not long after using it she was as well as ever." Buy it in liquid or tablets at your drug store today. See how much calmer and stronger you feel after using this tonic.

**Good Eyesight
And Vitamin A
Linked in Text**

NEW YORK (U.P.) — Columbia University scientists have found that ability to see in bright light as well as in dim light is impaired by the lack of vitamin A. Prof. Selig Hecht has reported.

Using a new instrument — an arrangement whereby a part of the retina of the eye is exposed to bright light for three minutes and then measured for its sensitivity in the dark by means of a violet light on the retina. Hecht said 110 normal people were tested.

He said no difference resulted from sex but that young people were much more sensitive to light than other people.

"In experimenting with subjects lacking in vitamin A either through a dietary deficiency or an organic illness," he said, "we found that an insufficient supply of the vitamin prevented them from seeing in light apparent to normal persons and delayed their process of adjustment when they entered a dark room from a brightly lighted one."

He said a person entering a darkened room may need 1,000,000 more times the light to see than he will after being in the room half an hour.

**Both Quintets
Fool Referee,
Confuse Goals**

PIQUA, O. (U.P.) — Steady followers of basketball often have witnessed an individual player becoming confused and shooting for the "wrong" basket, but even the most faithful were astonished here when all the players and the referee in a Piqua-Covington high school game pulled a "Corrigan."

It happened this: Covington took the ball out-of-bounds after a time-out period. The Piqua five raced in to defense positions at one end of the floor and the Covington cagers, supposing their opponents knew their business, began to pass the ball toward that basket. The goal happened to be the "wrong" one for Covington.

For several seconds the two teams battled furiously unchecked by the referee. Covington was attempting to score points for Piqua and Piqua was attempting to prevent the scoring. Meanwhile, the spectators were aware of the contradictory situation and set up a wild clamor to call attention to the players and Referee Mac Hummon to the unusual proceedings.

Hummon, who had supposed the play was orthodox, then corrected the mixup and Piqua went on to win.

An airplane travels 10 to 14 miles in writing a two-word name on the sky.

**Chinese Author
Will Be Speaker
For Town Hall**

The third speaker in the Town Hall series for this year will be presented in the Crystal ball room of Hotel Scharbauer Wednesday evening Feb. 1. The lecturer will be Dr. No-Yong Park, Harvard scholar, author, lecturer on Oriental questions, and a prize-winning student in international relations.

Of Dr. Park's books, "Retreat of the West," Pearl S. Buck, wrote that "it must be a required reading for the white race."

The Chinese author comes highly recommended as a stimulating and charming platform speaker.

**Oriole Pitcher
Of '90s Ranked
As Artist Now**

CEDAR RAPIDS, Ia. (U.P.) — W. L. (Bill) Hoffer, national champion baseball pitcher of the '90s, is gaining a reputation as an artist.

For years he has had the hobby of copying famous masterpieces or drawing baseball scenes, and his work is said to represent considerable skill.

Hoffer gained fame as a member of the Baltimore Orioles, who won the national baseball championship in 1894, 1895 and 1896.

He has never taken formal lessons, but his works resemble finely drawn steel engravings, rather than the product of a hobbyist. Sometimes it takes him months to complete a picture.

"In pen and ink drawing, one misplaced line can change the entire appearance of a picture," he said. "I remember that this was particularly so in the case of the Charles Dana Gibson drawings. I studied them a lot just to see what made them popular."

**Chukor Quail Will
Be Raised at School**

KINGSVILLE (AP) — Chukor quail, a large hill-country partridge imported from India, will be propagated at Texas College of Arts and Industries with the purpose of furnishing South Texas hunters with a new and larger game bird.

It is estimated that by 1944 the chukors will be plentiful enough to open the season to hunters in the areas stocked.

The project, the largest in the nation outside of Alton, Ill., where a similar plan is operated by Dennis Hart, wild life specialist, will start at Texas A. and I. with 12 pair of birds.

Hart recently inspected this area with Joe C. Brown, college farm manager who will have charge of the program, and pronounced the country ideal.

About three times the size of native bobwhite, the chukor is brilliantly hued, runs in coveys, and flushes with great speed. In captivity the hen will lay from 50 to 100 eggs a season.

Edwin Flato, Corpus Christi, business man, interested college authorities in the program and donated money for equipment.

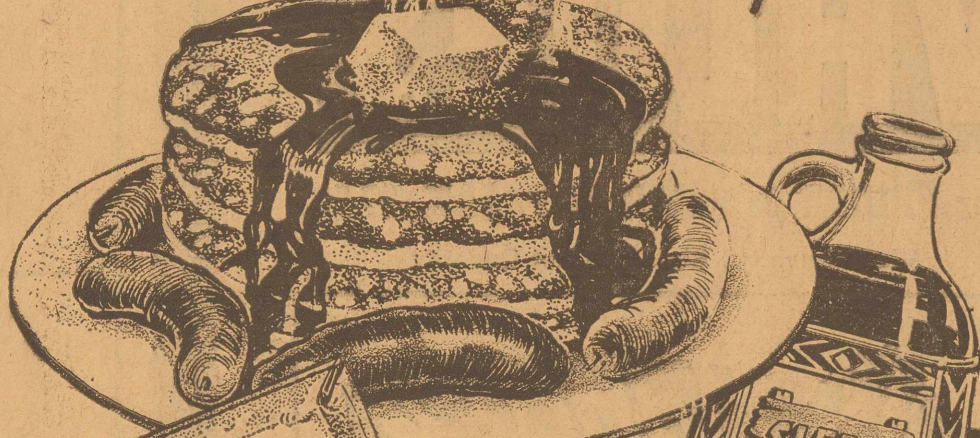

Babies Lent To University.

BERKELEY, Cal. — Live babies instead of case records will be used hereafter by the household economics class of the University of California. Parents were so anxious to co-operate in the course that after 50 little boys and girls had been selected, 70 other applications had to be rejected.

Stamps Exceed Taxes

SPRINGFIELD, O. (U.P.) — Collection of personal property taxes last year in the tiny corporation of Clifton was an expensive proposition for the county, officials have learned. The cost of the 3-cent stamp to mail tax proceeds amounted to three times what the community received as its share.

"M-m-m Boy! What a Combination!"

10 Knockouts Feature First Night GG District Tourney

By Staff Writer.

Johnny Pickering, Midland flyweight champion, will return to Big Spring tonight for his second fight of the district tournament. He won by a knockout in his first fight last night.

BIG SPRING, Jan. 26. — Ten knockouts out of 15 matches featured the first night of the second annual Golden Gloves tournament here last night before a boisterous crowd of 1,000 persons.

The first fight of the evening ended in a knockout and the others followed in rapid fire order. Throughout the boys fought at a whirlwind pace and there was not a dull bout during the evening.

Second round eliminations will be held tonight, the finals next Wednesday and Thursday nights.

Midland boys did quite all right by themselves during the fights, coping two of three decisions.

Hyson "Dummy" Smith, Midland entry in the light heavyweight division, was one of the quickest losers of the night when he was battered to the floor for the count of 10 by Dean Barnes of Lamesa in 23 seconds. Smith started the fight by rushing Barnes to the ropes with a series of lefts but left himself open for a terrific left hook to the chin that put him down.

Little Johnny Pickering, Midland flyweight champ, fought in the first battle of the night and proved he carried a lot of power in his right hand for a 108-pounder by scoring a knockout over Junior Collins of Lamesa. Pickering took the first

two rounds by some very aggressive fighting then wound up in the third by breaking Collins' nose in two places and putting him on the floor for the full count.

Jack Childress, Midland featherweight, ran into a tough nut to crack when he met Hardison Almon of Colorado but got the unanimous decision of the judges for a decision. Childress hit the Colorado boy with everything except the ring posts but Almon just wouldn't go down. The Midland boy scored throughout the fight with hard lefts and rights but could never get over his ko punch.

Childress and Pickering will return to Big Spring next Wednesday night for final matches. Childress is slated to meet Bobby Martin of this city while the opponent of Pickering is not known yet.

In the second fight of the evening Preacher Yanez of Big Spring knocked out Gail Hall of Lamesa in the third round. Both were bantamweights.

Jim Harrison of Colorado, bantam, scored a knockout over Charles Berrier of Big Spring in the second round after he had beaten the local boy to the floor four times.

Ellis Read, lightweight champion of the tournament last year and competitor in the same division this year, scored a knockout over Dale Simpson of Colorado in the second round.

Ortha Torres of Lamesa, after being knocked down in the first round, came back to put Bill Neidhardt of Monahans on the floor three times during the second and third rounds to gain a decision. Both were lightweights.

Jess Spinks of Stanton, welterweight, battered P. R. Yanez to the floor four times in the third round, the last time for the count of 10, to get a win.

Richard Gibson of Big Spring, welterweight, scored a knockout over Charles Smith of Lamesa in one minute, 11 seconds of the first round when he slipped over a right uppercut to Smith's chin.

Marshall Van Zandt of Lamesa then came through with a knockout in the second round over Ollie Deal of Big Spring. Both were welterweights.

L. E. Baker of Lamesa, welterweight, scored a decision over Joe Wheeler of Big Spring in three rounds.

Joe Henderson of Big Spring, middleweight, got a decision over Bill Miller of Colorado.

Odell Wallace of Big Spring scored a knockout in the first round after 1 minute, 13 seconds over Earl Forest of Lamesa. Forest was down twice before taking the full count.

Alton Bostick of Big Spring got a decision over Hobart Gatliff of Big Spring, after knocking the latter to the floor twice for shorts counts. Both were middleweights.

In the final bout of the evening, J. B. Curry of Lamesa battered Normal Ogg of Big Spring to the floor with a series of crushing rights in the first 35 seconds. Ogg was out completely for several minutes after the fight ended.

Areas at Odds Over Canadian Defense Fund

OTTAWA, (UPI) — Defense appropriations are expected to promote some lively discussions in the House of Commons when estimates are presented to Parliament.

It is not the amounts, which

Louis Scores Technical KO Over Lewis in First Round

By SID FEDER.

MADISON SQUARE GARDEN, NEW YORK, N. Y., Jan. 26. (AP)—A ruthless smashing killer with as much mercy as a bombing plane, Joe Louis blasted John Henry Lewis into submission in less than three minutes last night to defend successfully his world heavyweight championship for the fifth time.

The most dangerous puncher since Dempsey, Louis about tore the head off the challenger with vicious right hooks as he battered John Henry all over the ring almost from the first second on. Joe dropped him for counts of two and three, and then smashed him to the floor again.

There John Henry lay, helpless and goggle-eyed, as Referee Arthur Donovan counted five, before deciding to halt the contest, with Louis the winner and still champion by a technical knockout in 2 minutes, 29 seconds of the first round.

The champion, a 1 to 10 favorite to keep the title in this first all-negro heavyweight championship in the United States history, followed the course of campaign he had planned.

He wasn't fooled by the vaunted Lewis' boxing skill, and he went right out to complete the evening's chores as quickly as possible, against a man who is his personal friend everywhere but in the prize ring.

In a Hurry.

How well the crushing fists of the stolid slugger succeeded is evidenced by the fact that the knockout came in one of the fastest times in heavyweight ring history. Available records show the only faster finish was registered by the brown bomber when he annihilated Max Schmeling in 2:04 of the first round of their bout last summer.

Louis entered the ring scaling 200 1/4 pounds, to the challenger's 180 3/4, but he didn't need that particular advantage or any other besides his mighty punching artillery.

Apparently willing to believe the stories of the boxing skill of Lewis, who is still recognized in National Boxing Association territory as light-heavyweight champion, Joe sparred cautiously for the first ten or 15 seconds, leading only with a light left

Suddenly he leaped forward as the crowd of 17,350, who contributed to a gross gate of \$102,015.43, roared. He drove the challenger into a neutral corner and smashed over a fearful right hook full to the jaw. That punch marked the beginning of the end, for, although John Henry took it without falling, his knees sagged and his eyes became glassy.

From that point, it was just a question of how much more he could take. Another smashing right swing dropped him for the first time. He was up at the count of two, and later, in his dressing room, he was unable to say why he didn't take the full nine-count.

"I felt funny all of a sudden," he explained—which may be another form of describing how the roof falls in when Louis send his "death in the evening" toward a rival.

On arising, Lewis tried to keep out of firing range, but Joe was in on him like a bolt of lightning. Two more rights and some three or four left hooks draped John Henry over the bottom ropes, where he swayed, until the count reached three.

He countered Louis' next charge with a hook to the body, the only clean blow he landed, and then was battered along the ropes, helpless and defenseless, before the final right rocked him to the floor, near a neutral corner.

John Henry later said he was in full possession of his faculties and could have arisen and continued, but to all observers it appeared Referee Donovan did well in stopping the fight right there. Another of those rocket-like rights might have done him more than slight injury.

Louis' dressing room was packed immediately after the bout. "It was an easy fight—I just worked up a light sweat, and that was mostly from the lights," the champion said.

So quiet was the confidence in Louis that his managers and promoter Mike Jacobs already have been talking about his program for the rest of the year.

As matters now stand, it is likely he will meet Bob Pastor in March. After that, possibly in June, he may meet Tony Galento, who was on hand tonight and who shouted he could "lick both dose bums."

tions protecting the city of Saint John and in an establish air squadrons and anti-aircraft defenses around the harbor.

Some sources assert the airfields under construction in Nova Scotia are for the use of heavy bombing planes which the Canadian aircraft manufacturers will turn out for the British government.

Reports state that west coast leaders are asking for a submarine flotilla to guard the harbor of Victoria, on the lower tip of Vancouver Island, and Port Alberni on the northern point.

Western defense experts lately have turned from recommendations for more adequate air defense in favor of naval strength.

Port Alberni, however, is not as vulnerable. The only possible solution in the event of war and an attack by sea is a submarine flotilla to patrol the straits of Juan de Fuca, the entrance to Victoria harbor.

Some dependence is placed on the Pacific fleet of the United States navy. Strategists claim the first move of an aggressor with ambitions toward the United States would be to sever connections between the States and Alaska.

Both the Pacific and Atlantic coastal provinces have made urgent representations to the Dominion government for emphasis on defense preparations.

Projects are under way in Nova Scotia to provide airport facilities for bombing and fighting planes and other measures calculated to protect the important port of Halifax. The government of New Brunswick has asked the government to modernize the fortifica-

tioning the city of Saint John and in an establish air squadrons and anti-aircraft defenses around the harbor.

Although we have a fairly accurate estimate of how much gold has been mined in modern times, we have no way of knowing how much of that gold has gone back to Mother Earth.

Boy of 7 Sees World Really Topsy-Turvy

DECATUR, Ala. (U.P.)—The world is really upside down to Jimmie Peebles, 7-year-old Hillsboro, Ala., school boy.
 When Jimmie reads a book, a newspaper or magazine, he holds it the wrong way. When automobiles pass along the street, they seem to have their wheels in the air. He thinks persons would look natural if they walked on their hands.
 At least that's the way Jimmie explained his predicament to an eye specialist in Decatur, where he was brought for treatment.
 The optometrist examined Jimmie's eyes and found vision normal. He said the lad is bright for a boy of his age. To test Jimmie, the doctor had him read a comic page. Jimmie read very well for a second grade pupil, but he held the paper upside down.
 Jimmie's school teacher discovered his condition when she noticed him holding his reader upside down. It was easier to read that way, he said.
 Then she tried the blackboard, and Jimmie read much more readily when it was inverted.

Dean Censures 'Rote Teaching' Of Youngsters

STATE COLLEGE, Pa. (U.P.)—Children believe rules are made only to be broken, contends Dr. Maron R. Trabue, dean of the School of Education at the Pennsylvania State College, and for that reason present training in teaching elementary grade students to write and talk often causes them much pain.
 An arbitrary rule by a teacher to do things thus-and-thus and not so-and-so often bewilders the child because the youngster has no personal realization why things should be that way. Dr. Trabue says. Thus a prejudice against an incomprehensible rule is built up in the child's mind.
 He objects to gibberish rote classes in schools, classes which teach the children nothing and bore them with meaningless shibboleths. The educator believes that if a pupil is doing something that is really important to him, he will normally wish to speak and write correctly, welcoming constructive suggestions. Repeated experiences with particular words or commands soon reveal to him the value and significance of knowing a rule that will be helpful to him, and the need for a definite practice in its application.
 It is absurd to expect that verbal statements memorized for one purpose in school will result in skills that will function effectively for other purposes in later life," he said.

Kansas City Motorists See "Horrors Chamber"
 JEFFERSON CITY, Mo. (U.P.)—Col. B. M. Casteel, superintendent of the state highway patrol, has commended Mayor Bryce B. Smith of Kansas City for installing a "chamber of horrors" as a traffic safety measure in Kansas City.
 "Such pictures, showing the results of auto accidents should be viewed by every driver. I think it would be a good idea to make it compulsory for every driver involved in an accident to see such pictures," said Casteel.

FEMININE FANCIES

By Kathleen Eiland

For all the wars, strikes, strifes, and political dissensions which are making headlines these days, we still believe the world is getting better.

One reason—things like the following: The Hatfields and McCoys of West Virginia, who were deadly foes in a feud a generation ago, have decided to transfer their battlefield to the gymnasium. With a line-up of loyal clan members on either side, the Hatfields and McCoys will shoot goals (instead of each other) in their newest test of prowess—a basketball game.

there'd be some real progress on this terrestrial sphere.

It's coming to the point where sophistication is a little too sophisticated or something when Midland stores display neat little cardboard containers of dirt for sale. Yes, the word was dirt, d-i-r-t!

Another of those small extravaganzas which we enjoy out of all proportion to their value is that of buying ten cent soft drinks—when we know perfectly a nickel coke would quench our thirst as well.

A nice idea for brightening up dark-colored frocks is to make a wide belt and cuffs of three colors of grosgrain ribbon. Some touch of the colors might be used on a self-material collar. Or the entire collar could be made of the ribbon, if desired.

For a dress with that certain something, we recommend one in navy with white embroidery birds applied in a line from hem up to waist line with two of their snowy mates in graceful flight across the left side of the blouse front. The single accent of contrasting color is found in a read leather belt.

Young Musicians' Numbers Are Well Received by Club

Two numbers by high school students, a bass selection by Fred Gordon Middleton and a chorus by high school girls, were features of the open meeting of the Civic Music club at the North Ward auditorium Tuesday evening.

"Romantic and Modern Germany" was the "land" visited by the club which this year presents its programs in the form of a musical tour of the world.

Following is the program: Roll Call—A German word and its meaning. National Hymn—Unison. Romanticism—Mrs. De Lo Douglas. Piano—"Arabesque," Schumann.

The program had been postponed from Tuesday night until Wednesday because of the band concert at the high school on Tuesday. This

"Every Winter had Terrible Colds" Nurse's Grateful Letter

"I want to thank you for the wonderful cough medicine, BUCKLEY'S MIXTURE. I bought the first bottle last winter, for the old gentleman whom I am taking care of. For he had had terrible colds every winter. The first dose helped, and after the third dose he was gone—it does such quick work." Mrs. C. Davis.

Fine Arts Club Hears Four Papers On Germany, Austria

An interesting program, concerning as it did situations in Europe which have a bearing on the United States, was presented at the meeting of the Fine Arts club with Mrs. R. C. Tucker, 608 N. Marienfeld, Wednesday afternoon at 3 o'clock. "Germany and Austria" was the subject.

A quartet of papers was presented by members on the various phases of present and recent-past conditions in the two countries.

Mrs. W. H. Gilmore's paper was on "Hitler's Rise to Power." "Nazism in America" was described by Mrs. George Kidd Jr. and Mrs. Lem Peters read a report on "Flegitimacy in Germany." Mrs. Fred Wilcox discussed the Jewish Situation in Central Europe.

Mrs. Fred Fuhrman, club president, appointed Mrs. A. P. Shirey and Mrs. Peters to work with the City-County Federation on the project of a director for Girl Scout and recreation work.

Mrs. Chas. Brown reported on the last meeting of the City-County Federation.

Present were Meses, Elliott H. Barron, T. Paul Barron, Chas. Brown, L. G. Byerley, Alden Donnelly, Fred Fuhrman, W. H. Gilmore, J. Howard Hodge, George Kidd Jr., Lem Peters, A. P. Shirey, Harvey Sloan, Miss Lydia G. Watson, Meses, J. M. White, Fred Wilcox, L. A. Absher, Curtis Gilmore, O. J. Hubbard, Tom Sloan, and the hostess.

Committees for PTA District Meeting Are Appointed

The following chairmen and committees to arrange for the district PTA conference to be held here in April were appointed by Mrs. D. R. Carter, district vice president, in session with Mrs. Glenn Brunson, Junior High PTA president, and Mrs. L. G. Byerley, PTA City Council president, preceding the meeting of the City Council this morning at the high school. Other chairmen and committees will be announced later.

Mrs. Glenn Brunson was named general chairman of the conference with Mrs. R. W. Patteson co-chairman.

Committees announced included: Publicity, Mrs. Don Sivalls chairman, Mrs. Paul Barron, Mrs. T. C. Bobo; publications and exhibits, Mrs. R. E. Gile, chairman, Mrs. John Casselman, Mrs. Bernard K. Burlington, music, Mrs. De Lo Douglas, chairman, Miss Scott Price, Miss Frances Gillett, Miss Geraldine Dabney; registration committee, Mrs. H. Rabun, chairman, Mrs. W. L. Sutton, Mrs. R. D. McBrian, Mrs. H. R. Braezeale; badge and information committee, Mrs. S. A. Deban, chairman, Mrs. Jack Cash, Mrs. W. B. Preston; decorations, Mrs. Percy Mims, chairman, Mrs. Iris N. Bouns, Miss Fay Houge, Miss Leta Legg; in charge of pages, Mrs. A. Van Kampen; hospitality, Mrs. Joe Haygood, chairman, Mrs. Fred Wemple, Mrs. Geo. Glass, Mrs. D. W. Hamilton, Mrs. Bill Wrege; homes and transportation, Mrs. O. J. Hubbard, chairman, Mrs. C. A. Ponder, Mrs. R. Chanster; in charge of the dinner for the board of managers, Mrs. L. G. Byerley and members of the City Council of PTA.

At the council meeting this morning, bylaws were read and approved and the committees read.

Mrs. Byerley presided at the meeting which was attended by approximately 16 women.

Putter "Can't Miss"

LONDON (U.P.)—Prof. A. M. Low, who has never played golf, has invented a putter with which a player cannot miss. Its secret is small lamp fitted to the shaft of the putter which shows a red light if the player does not move his club in a straight line with the ball and hole.

for the mammoth Historical pageant held there from July 17 to 20, 1938.

The third set commemorates the Iowa Territorial Centennial, 1839 to 1938.

Boraker said he started his wooden nickel collection hobby four years ago.

Style Gets Into Print

THIS gay print frock, with colorful flowers on a black background, is the perfect pick-me-up for the slightly faded winter wardrobe. It's of softest silk with a velvet ribbon outlining the slender lines of the bodice.

Army Reserve Again Included in Texas

FORT SAM HOUSTON, Texas. (U.P.)—After a lapse of 18 years the national defense forces of the United States again include a regular army reserve, says a statement from the Eighth Corps headquarters. Not since June 30, 1920, has the War Department carried on its records a regular army reservist. The new regular army reserve came into being July 1, 1938, in accordance with an act of Congress passed April 25, 1938.

The regular army reserve of today,

Annual District Boy Scout Rally Slated In Odessa Feb. 11

The annual district boy scout rally for the Midland-Odessa district was set for Sat. Feb. 11 at Odessa in the city park. The contests will start at 1 p. m. and run until 5 o'clock then all scouts will prepare their supper which will be cooked there on the grounds then after supper all the troops will take part in a big campfire program. About 180 scouts of the five troops will take part in the contests and program. Troops entering the competition will be troop 55 of Penwell, last year's winner at the council round up in Big Spring, troops 58 and 59 of Odessa and troops 52 and 54 of Midland will take part in the scout activities. The contests scheduled will include scout pace race, signaling, first aid, fire by friction, tug of war, obstacle race, antelope race, fire by flint and steel, and chariot race, and a mystery event to be staged by the judges.

In addition to the contests of the athletic type there will be staged a contest by patrols on marching, a contest on drilling and drilling used in presentation of troops. This added contest is expected to be very interesting and stimulate a lot of patrol activities.

The rally events were arranged in a meeting of all the scoutmasters of the district at Odessa last night in the first of a series of monthly meetings arranged for the scoutmasters of the district. Much time was taken on the discussion of troop activities, hikes and games for all occasions.

The scout activities for scout anniversary week were discussed and a court of honor set for the Midland scouts for Wednesday, Feb. 8, and for Odessa scouts on the Friday following. The first aid contest was discussed but date to be held was not set but probably will be held about February 18.

a revival of the "Minute Men" of the Revolutionary War, will provide the regular army with immediate reinforcements in emergency as the "Minute Men" of 1776 furnished the Continental Army with trained reinforcements in the Revolutionary War.

Within four years it is expected that the regular army reserve will number 75,000 trained men as its ranks are open only to former soldiers of the regular army under 36 years of age at time of enlistment in the reserve and whose services in the Regular Army were terminated by honorable discharge after at least one year of continuous service.

To assure that the reservist will not have forgotten his army training he must enlist in the reserves within three years of his last discharge from the regular army. This new formed regular army reserve is expected to prove popular with men who leave the active ranks of the regular army to return to civil life but who desire to continue their connection with the army.

Unlike the 1920 reservist, who re-

PERSONALS

Mrs. Morris Zimmerman of Stanton was in Midland Wednesday.

ceived no pay, the regular army reservists of today receives an enlistment allowance of two dollars a month payable at four-month intervals. In return the reservist has only to keep the War Department informed of his address.

The civil pursuits of the reservist are in no way interfered with as he is not required to undergo any further training and only in the event of an emergency declared by the President of the United States is he subject to call to active duty. Even in the event of such call the reservist stands to gain. The Congressional act creating the regular army reserve provides that each reservist called to active duty is found physically qualified and is accepted for such duty will receive, in addition to his two dollars monthly enlistment allowance, an additional lump sum at the rate of three dollars a month for each month he has served in the Regular Army Reserve, the total not to exceed \$150.00. If accepted, the reservist immediately enters upon the full pay and allowance status of a soldier of the regular army.
