Mexican Settlement Grows More Urgent

With every passing week and month it becomes more desirable to settle the controversy with Mexico over the expropriated oil fields taken from American control.

Both countries would profit from settlement; neither profits from the present chaotic situation. But beyond that, there are definite reasons why both countries are losing out by the delay.

Here are some simple and powerful reasons why each country is losing out by inability to adjust this matter:

UNITED STATES: Export trade to Mexico has taken a terrific dive. Exchange by Mexico of oil for German machinery and manufactured goods is eliminating a natural and valuable market and turning it over to foreign countries which are certain to use it as an entering wedge for their political philosophies.

Further, the unsettled condition of relations with the nearest of all the Good Neighbors is a bad example. The whole of natural and cordial relations with across-the-river neighbors is being upset.

MEXICO: The trade into which Mexico is being pitchforked is an unnatural and unsatisfactory one, providing no needed foreign exchange. Evidence of the political penetration which accompanies it is already seen in anti-Jewish riots, Fascist-type expulsion of newspaper correspondents.

Political opposition is beginning to arise as business grows slacker.

The U. S. silver-buying policy, on whose tax proceeds the whole Mexican budget is based, is in danger. It is under attack as a general policy, quite aside from its Mexican implications. It might be abandoned when the present law expires in June.

While even friendly Americans are unable to defend Fascist-like expulsions like that of the New York Times correspondent, unfriendly ones are already demanding "strong measures," and delay feeds their fires. One New York paper insists that "A lot of Americans are saying: 'Why not just go down there and take over Mexico?'" A Wall Street lawyer is organizing a petition to "use our whole armed might" to get back the seized oil wells. A congressional investigation of American-Mexican relations is being demanded.

Those in both countries who want decent, normal, friendly relations are handicapped by delay, which helps extremists in both countries.

Anything can be settled, given the mutual will to settle it. It is time that responsible officials on both sides of the border recognize that delay is doing infinite harm to both countries. No effort should be spared to settle not only this controversy, but set a precedent that will open the road for progressive development on solid ground for the future.

• SO THEY SAY

Father Says

(Boys Town Times.)

One of the most roundly abused words in the language is "Happiness." The abuse is not in the way the word is used, but in the way in which it is interpreted. It is the burden of many an idle wish, an oft-conveyed greeting. It seems to be the most sought after, and the most infrequently found quantity in human experience.

Happiness is not to be found in the satisfaction of every desire or the fulfillment of every whim. A perusal of the newspaper columns will indicate that this is not the case. True happiness is not to be found either in the satisfaction of desire or in the pursuit of pleasures.

Still, there is a very definite place for it in the scheme of things. This is indicated by the many approaches to it found in the natural order. There is a deeply implanted desire of it in human nature. The pursuit of it is spoken as one of man's inalienable rights.

The fact is that unalloyed happiness is not to be found in life as we know it. Furthermore, the stress of the economic situation under which we live, furnishes many false leads in our pursuit of it. High pressure advertising methods multiply the number of things considered essential to it. Questionable means of appeal intensify the urge toward it. Commercialized and often demoralizing forms of amusement hold out tantalizing promises of it.

In the search for happiness, as in all of our mental life, we need to make a distinction between that which is desirable and that which is necessary. We must continually adjust desires to possibilities. There is little use in crying for the moon. There is no use in nursing wishes and dreams which we cannot hope to see realized.

Much unhappiness, and many phases of delinquency arise from a failure to adjust wants to capabilities. Most of it could be averted by sensible training in early life.

Children need to learn that there is a vast difference between wanting a thing and getting it. They need to learn that many things which appear as desirable are not really so. Adults must continually be making selections and rejections in their desires. For the youngster, these must be made by the parents, and the reasons for them carefully explained. The pursuit of happiness is an all inclusive term. It embodies the physical as well as the social urges. It acts as a powerful drive in the quest for achievement. It can be utilized to the child's advantage by careful direction, and it can be a telling factor in his downfall.

The urge is fundamental. It will find expression in some way, good or bad. In the case of children, parents will determine which.

• BRUCE CATTON IN WASHINGTON

WASHINGTON, Feb. 2. — A number of officers in the U. S. Navy are rather anxiously awaiting the return from Colombia of Capt. Lawrence Reifsnider, U. S. N.

Captain Reifsnider has been named head of the U. S. naval mission to Colombia, and he's down there now looking over the ground—or possibly the water. When he comes back and makes his report, certain officers will be detailed to go back down there with him and serve on the mission.

In many ways a job on a naval mission is a coveted assignment. The officer's pay from the U. S. Navy goes on as usual; meanwhile, the country to which he is assigned also pays him a salary—usually 110 per cent of what his American pay is. So while the assignment lasts he draws double pay, and in addition is considerable of a big shot.

The navy is glad to send out missions. They don't give the navy any special tie-ups with the foreign countries involved, but they do serve to cement good relations. Also, they usually result in orders for American goods. The officers don't serve as salesmen, but naturally they tell their hosts, in reply to questions, that the U. S. Navy uses so-and-so's guns, such-and-such electrical equipment, and so on. The orders usually follow.

Not all officers are crazy about the foreign assignments. The pay is good, but the living expenses are high. A good deal of rather high-class entertaining is involved; in the end, many of them wind up worse off financially than when they started.

The Colombia mission brings the number of South American countries which the navy is tutoring up to four. Capt. Toussaint Beauregard, descendant of the famous Confederate general, is head of a mission to Brazil. He could tackle most any mission, by the way; speaks Portuguese, Spanish, French and German. Then there's Capt. Bruce Canaga heading a mission to Peru and Capt. Guy Baker serving as naval adviser in the Argentine.

CRONING CELEBRITY.

EVEN as in New York, Washington society is moaning low these days.

Well, part of it is, anyhow. A very ornamental and talented part, too — Mary de Sibour, who has gone and hired out as a torch singer in one of the capital's floosier hotels.

CHAMP CHECK SIGNER.

HELEN B. SMITH must be the world's champion check signer.

An employe of the Treasury Department, where she has worked 35 years, Miss Smith puts in eight hours a day, five and one-half days a week, doing nothing but signing checks. Last year she signed upwards of a million. They go mostly to people who have loan-

ed money to Uncle Sam.

One doesn't, however. The monthly pay check drawn by President Roosevelt is signed by Miss Smith.

She likes her job, says she never gets writer's cramp; has a trick of holding the pen loosely and wearing a rubber guard on the most used finger.

Texas Today

Title to Padre Island, fabulous strip of sand paralleling the Texas coast from Port Isabel almost to Corpus Christi, site of legendary "lost" cities, vanished ranching glories, scene of conflict during the Civil War and potential empire of oil, once more has been taken into court.

The legal structure surrounding titles to several parts of the island is expected to be examined thoroughly as a sequence to a decision by Judge A. M. Kent of the 103rd district court at Brownsville last December, approving title of several claimants in court, and reopening the case by setting aside a decision of the same court in 1928.

The judgment was set aside and a new trial granted on motion of Merrill W. Staples and the widow of Joseph G. Bowen. Immediately afterward the heirs of Juan Jose Balli, one of the original grantees of the island; George W. Warren of Bristol, Cal., and Gilbert Kerlin, New York attorney, filed answers and cross actions claiming practically all of Padre Island as against

all other parties in the suit.

The claim of the Balli heirs hinges largely on records in the archives of Matamoros, and center around one transaction. These parties to the suit contend that on Jan. 19, 1830, Juan Jose Balli, who owned half the islands as grantee, and another seventh through the will of his uncle, Padre Nicolas Balli, sold his interest in the island to Santiago Morales for \$700.

They also claim that soon after the sale "Morales went into court and sought return of his money, and that Balli went into court and returned the money and was given a receipt and Morales released all claim to the island."

The Balli heirs and those associated with them in the present action contend that the Balli title to the island has remained undisturbed and that the other title holders, except for a few small parts, came through sales made by Morales about 1845, which sales, they contend were not supported by any title.

The cancellation proceedings on the Balli-Morales sale are in the archives at Matamoros, attorneys state.

The Balli heirs also claim that Juan Jose Balli lived on the island from 1830 to his death in 1853, and remained in possession of the island, living with his family most of the time at a ranch called Santa Cruz.

Outcome of the suit will be watched with interest in view of contentions of former Land Commissioner McDonald and ex-Governor James V. Alfred that the state has a claim to part of the island.

The interest of Gilbert Kerlin, New York attorney, in the case is recent. He purchased a number of interests of Balli heirs, including in some instances the conflicting

claims of different groups.

At present the island is under lease to an oil company.

The present legal action grew out of the claim of Staples, who lives in Mobile, Ala., that he had not had a chance to be heard in the title judgment case. Staples owned an undivided one-fourth interest in 1,455 acres.

He was cited by publication, but did not appear by attorney at the trial. Under the law he was given two years in which to file a bill of review to have the case reopened.

Staples sold his interest to Joseph G. Bowen, also of Mobile, in March, 1929.

When Bowen learned of the judgment he and Staples filed for a new trial June 6, 1930, three days before expiration of the legal limit which they could take such action. Bowen died in 1930.

The case never was called for hearing. The explanation given for this is that when the judgment was given in 1928 the judge wrote "off" on the sheet and it was taken from the docket. No new docket sheet was made out and the case was never called.

The present action was entered October 24, 1938. Motion was set for trial, Dec. 23, before Judge W. R. Block of Hidalgo county. He was unable to hold court and the parties agreed to hold the hearing before Judge A. M. Kent. Date for the new trial has not been set.

Much of the fantastic history of Padre Island is expected to be brought out in the trial and it is considered likely that "lost cities" will be placed and identified, and much else explained.

Probably the outstanding figures in connection with the island during its written history are Padre Balli, his nephew, Juan Jose Balli, John V. Singer and his wife, Johanna Shaw Singer, and Pat Dunn.

John V. Singer moved to the island about 1850 and lived there until 1865, establishing a sort of city.

Singer acquired title to a major part of the island, but this title came through the transfers from Santiago Morales, which titles, the Balli heirs contend, are not valid.

The Singer family lived on the island until forced away by the Civil War. Singer, whose brother, Merritt Singer, invented the sewing machine, brought the first one to Texas.

Remains of an old ranch headquarters on the island, presumably the Singer home, were uncovered several years ago by a group of Brownsville people.

Pat Dunn of Corpus Christi moved to the island at the northern end in 1879, buying part of it and gradually acquiring additional lands, some by purchase, some by living on it.

There are two court decisions which the present holders of the island contend establish their claim.

The first was in federal court at Laredo in 1902, when an agreed judgment was entered giving the major part of the island to Pat Dunn. The agreed judgment was entered after a suit by some of the heirs of Nicholas Brisante, who had purchased some land from the Balli heirs.

In the 1902 judgment, Dunn, his Corpus Christi attorneys, Welch & McCampbell, Mrs. Henrietta M. King and Mrs. Pauline B. Wells obtained title to the island. Staples obtained an undivided one-third interest in part of the Dunn lands.

The one-third interest was not recognized in the 1928 judgment in civil district court at Brownsville, which has led to reopening of the case.

The suit is expected to bring to light, in addition to the many sales by persons who thought they had a legitimate title to the island, many "sales" by swindlers who indulged for years in the game of "selling Padre Island." For a time it was something like selling Brooklyn Bridge.

The Town Quack

Our neighbors over at San Angelo are getting ready for their big annual spring rodeo and fat stock show. Staging the rodeo at the time they do each year, their only competition in this part of the country is the Southwestern Exposition at Fort Worth. Angelo meets just ahead of Fort Worth and entertains the citizens of a large territory. Midland rodeo fans will do well to cultivate in a big way the audience over at Angelo, just as at Fort Worth. The San Angelo rodeo boosters will make an advertising trip March 1 and 2, stopping at Midland, the show itself being March 3-6. Already they are wearing their rodeo regalia, through sponsorship of the junior chamber of commerce.

Although the Midland rodeo won't be held until September 2, 3 and 4, it would be a good time for a mounted delegation to truck their horses over to Angelo and ride in the street parade, carrying banners that read "see you at Midland September 2-4", or something of that sort. The publicity committee is ready if the rodeo committee is.

If the ground hog didn't see his shadow today, it was because he forgot to crawl out of his hole. Anyway, I wouldn't believe it if he had said winter was over. We had spring time a little early last year, and then had winter when spring should have come, so we didn't get to eat any home grown peaches.

A north Texas state representative by the name of Harrell would abolish the state game commission and substitute a game commissioner working with an advisory board of

for **Head COLD** Discomforts

ARE you at the mercy of a sniffling, sneezy, smothery head cold right now? Cheer up! A little Mentholatum, applied in each nostril, will soothe the irritated nasal membranes, help check the sneezing and relieve the stuffiness. Also rub Mentholatum vigorously on the chest and back to stimulate sluggish circulation. You'll be grateful for Mentholatum's effective relief.

Greasewood Club Meets at Home of Mrs. Tyson Midkiff

Greasewood home demonstration club held an all-day meeting at the home of Mrs. Tyson Midkiff, 106 South A street, Wednesday.

During the morning Miss Alpha Lynn, home demonstration agent, gave a demonstration of refinishing floors. She worked on refinishing a table of Mrs. Midkiff's which is about 62 years old.

"A chili and beans" meal, which had been brought in covered dish fashion by those attending was served at noon to 13 women.

In the afternoon Mrs. M. D. Rutherford led a program on "Signs of a Wholesome Personality." She was assisted by Mrs. Ray Hargis, Mrs. Frank Midkiff, and Mrs. Dick Midkiff.

Afterward, the group visited the A&M Meat Packing plant east of town, as recreation.

Present were four guests, Mrs. D. O. White, Mrs. J. R. Norris, Miss M. Elizabeth Wilson and Mrs. Lige Midkiff, one new member, Mrs. S. A. Debnam, Miss Lynn, and the following other members: Mmes. Ray Hargis, John Hargis, Dwight McDonald, Paul McDonald, Frank Midkiff, Warren Skaggs, M. D. Rutherford, Dick Midkiff, T. O. Midkiff, and the hostess.

Mrs. Rutherford will be hostess to the group at her home on the Proctor ranch at the club's next meeting March 1.

Valentine Bridge Party Is Courtesy For Slam Club

The Valentine spirit definitely dominated appointments for the party with which Mrs. E. M. Bryan complimented the Slam club at her home at the Atlantic Tank Farm Wednesday afternoon.

Talies and score cards, and prizes for the day's bridge games were in Valentine theme and so was the party plate served at tea time.

Playing awards went to Mrs. Morris Bridges for high score, to Mrs. R. L. Bailey for second high, to Mrs. J. C. Moore for low score, and to Mrs. O. J. Battell for travel prize.

Others present were: Mmes. Harry Roberts, Joe Dobson, Wood Taylor, Theo Ferguson, Ed Jones, W. G. Attaway, C. P. Pope and the hostess.

Next week the club will meet with Mrs. Wood Taylor, seven miles east on the highway.

Mrs. B. W. Recer Presents Discussion At Club Meeting

"American Furniture" was the topic of study at the regular meeting of the Home Art club with Mrs. Garth Neill, 1408 W. Ohio, Wednesday afternoon at 3 o'clock. Mrs. B. W. Recer gave the lesson discussion.

The following program committee to report on a study program for next year was appointed: Mrs. N. W. Eigham, Mrs. Guy Breneman, and Mrs. Paul Filson.

Refreshments were served at tea hour to one guest, Mrs. Duna-gan, one new member, Mrs. T. J. Potter, and the following other members of the club: Mmes. Recer, H. L. Albrecht, Breneman, Iris N. Bounds, Eigham, J. B. Mills, Eula Maloney, John Dunagan, E. C. Girdley, Ernest Neill, Paul Filson, and the hostess.

The club will meet with Mrs. H. L. Albrecht, 1910 W. Indiana, two weeks from yesterday.

Modern Study Club Observes "Fine Arts Day" at Meeting

Modern Study club observed "Fine Arts Day" with a program meeting at the home of Mrs. J. H. Rhoden, 1007 W. Texas, Wednesday afternoon at 3 o'clock.

Mrs. J. M. Haygood was leader for the program which consisted of four discussions and three brief papers and articles.

Mrs. J. M. Hills discussed "A Rare Picture and Its Story." She used a copy she has of one of Michael Angelo's early originals.

Mrs. Hamilton McRae's paper was on "Antique Glassware."

Mrs. F. C. Cummings read a paper on "Types of the Classical Dance."

The roundtable on current events in Fine Arts included brief papers or articles on "Painters" by Mrs. S. S. Stinson, "Chinaware" by Mrs. F. R. Schenck, and "Painting" by Mrs. Haygood.

Initiation services were held for two new members, Mrs. Ed DeLoach and Mrs. Ronald K. DeFord.

Members present were: Mmes. R. H. Biggs, P. F. Bridgewater, P. C. Cummings, J. M. Haygood, J. M. Hills, T. S. Jones, L. W. Leggett, H. E. McRae, F. R. Schenck, J. W. Skinner, S. S. Stinson, Fred Turner, Ronald K. DeFord, Ed DeLoach, and the hostess.

Robyn Junior Music Club Hears Piano And Violin Numbers

Robyn Junior Music club met at the Watson studio, 210 W. Ohio, Wednesday afternoon with about 22 members and several guests present.

Edith Rae Collins and Jean Walsh were at the attendance card.

Birthday greetings were extended to Lois Dee Eiland and Miss Lydie G. Watson.

The following program was presented:

Piano solo — "The Gazelle" (Krentzin) — Alberta Smith.

Piano solo — "Little Fairy Polka" (Strebbog) — Lois Dee Eiland (on ninth birthday).

Violin — "The Ten Soldiers" (Jahn)—Edward Clark.

Piano solo — Sonata, Opus 6 No. 36 (Clementi) — Elaine Hedrick.

Talk — Biography of Mozart — Eileen Eiland.

Piano — "Londonderry Air" (Arr. by Williams) — Margaret Mims.

Violin solo — "La Cinqumtaine" (Gabriel-Marie) — Charles Barron.

Piano — "Valse Aragonaise" (Thome) — Pauline Wingo.

Piano — "Starry Skies" — Billie Ann Hill.

Elaine Hedrick presided as president and Charles Barron, secretary, read the minutes of the previous meeting.

Club visitors were: Monta Jo Glass, guest of Marjorie Barron; Paula Dean Wilson, guest of Roxie Ruth Friday; Helen Rose Volmer, guest of Ann Ulmer; and Nadine Clements, guest of Edith Rae Collins.

Next program of the club will be a "pop" program with numbers being played extemporaneously.

Sans Souci Club Meets at Log Cabin Inn

Mrs. R. T. Mobley was hostess to the Sans Souci club with an afternoon bridge at Log Cabin Inn Wednesday. The group assembled at 2:30 o'clock and three tables of bridge furnished diversion until tea time.

Prize packages, wrapped in blue and gold, went to Mrs. Roy Downey for high score and to Mrs. L. A. Tullis for cut. Tallies repeated the chosen color theme.

At the refreshment hour, tables were covered with cloths, hand-blocked, in Mexican colors and appointed with a service in Mexican pottery. A party plate was served.

Present were one guest, Mrs. Jack Cecil, and the following Sans Souci members: Mmes. E. W. Cowden, W. H. Street, Rea Sindorf, Lester Short, J. B. Richards, H. D. Dickson, L. A. Absher, W. P. Thurmon, Bert Hofer, L. A. Tullis, Roy Downey, and the hostess.

Club Group Is Favored With Bridge-Luncheon

Mrs. W. M. Smith entertained her bridge club group with a one o'clock luncheon at the Log Cabin Inn Wednesday, followed by bridge games at her home.

The luncheon table was attractively decorated with mixed blossoms and places were laid for eight.

Present were: Mmes. Ross Williams, Paul Davis, Chappel Davis, John Ward, H. J. Kemler, Barney Greathouse, a club guest, Mrs. Walter Smith, and the hostess.

Mrs. Johnston Reads "Live Oaks" Before Play Readers Club

Choosing Mazo de la Roche's drama "Live Oaks," Mrs. Bob Johnston read the play at the meeting of the Play Readers club with Mrs. Jack Hawkins, 205 North H street, Wednesday afternoon.

Two guests were present, Mrs. Edwards and Mrs. B. K. Buffington.

Members attending were: Mmes. E. H. Barron, R. M. Barron, Bob Johnston, W. Bryant, De Lo Douglas, W. L. Haseltine, Wade Heath, Wallace Irwin, Chas. Klapproth, W. L. Miller, W. T. Schneider, W. B. Stowe, Fred Wilcox, and the hostess.

Town Hall—

(CONTINUED FROM PAGE ONE)

says China did. Dr. Park's belief in the matter is shown in his advice to his audience to search public opinion in America as shown by editorials and find that the consensus of opinion is that Japan staged the incidents leading to the war outbreak.

"Reasons" Fallacious.

He discussed the Japanese "reasons" for entering China and pointed out the fallacy of each. As to need of people for more room, he said Japan had been crying for years for more children, as to food, he asserted that Japan had never had a food problem for it won its living from the sea. As to need of raw materials, he set forth his belief that a nation should make the most of its own resources before resorting to banditry and robbery for additional material. As to helping China to "set her house in order," he declared that it was the growing unity of China that sent Japan into the country to destroy it.

Under all, the fundamental reason for the war, he proclaimed, was that the masses of people in Japan were rising against the militarists and war was declared to distract them. "Trouble abroad—the easiest way to choke democracy at home," was the speakers' terse comment.

Who Wins?

What will happen if China wins the war? The position of the democracies might be strengthened for China might be a bulwark against both Japanese militarism and Russian governmental forces, he pointed out.

What will happen if Japan wins? Will China absorb the conqueror as she has always absorbed her conquerors heretofore? Dr. Park puts not too great faith in this solution for there is now a spirit of nationalism in China and there is the machine power which never existed in previous periods of conquering. These two, he believes, would work against such absorption.

Turning to the industrial significance of the situation, Dr. Park pointed out that Japanese have kept the Oriental standard of living but have acquired Occidental methods of production. This enables them to undersell the western nations. If the Japanese conquer China and use Chinese cotton and Chinese cheap

FEMININE FANCIES

By Kathleen Eiland

Most delightful design in kitchen furnishings that we've seen in a blue moon was noticed in a Midland home recently. The sink chair, waste basket, and garbage can in a gorgeous shade of red burnt-orange is the official name, perhaps, were all triangular in shape to allow them to be fitted into odd corners. Just another expedient of modern furniture-makers to utilize all space.

We do have qualms, however, as to the comfort of the chair.

Tennessee has some legislators that unmarried women should vigorously applauded. For example the one who has announced intention of introducing a bill into the legislature which would tax old bachelors—and put the sizeable sum of money derived thereby into a "pension fund for old maids!"

Now that, we think, is really using the tax money in a way to bring happiness to the worthy and deserving. And why shouldn't the bachelors be willing to shed sweetness and light (via the pocket-book route) to their comrades in single blessedness?

More power to the bill!

It was rather a shock to hear a well-known lecturer accusingly tell us that the very modest pair of silk hose we were wearing meant the life of three innocent Chinese!

Not being by nature bloodthirsty, we were considerably taken aback by this revelation of our brutality and wanted to know how and wherefore.

It seems the reasoning is this: The average pair of dollar hose contains approximately 10 cents worth of raw silk which, exported by Japan gives that country the money for three bullets which can kill three men. Ergo, the hose mean three lives. From what we've heard of Oriental inhumanity, however, we'd say that it might be about as reasonable to expect that it would take three pairs of hose (or the bullets therefrom) to kill one Chinese.

However, that may be, the illustration is a telling one when an effort is being made to rouse women against wearing hose made from Japanese silk.

Mrs. Johnston Reads "Live Oaks" Before Play Readers Club

Choosing Mazo de la Roche's drama "Live Oaks," Mrs. Bob Johnston read the play at the meeting of the Play Readers club with Mrs. Jack Hawkins, 205 North H street, Wednesday afternoon.

Two guests were present, Mrs. Edwards and Mrs. B. K. Buffington.

Members attending were: Mmes. E. H. Barron, R. M. Barron, Bob Johnston, W. Bryant, De Lo Douglas, W. L. Haseltine, Wade Heath, Wallace Irwin, Chas. Klapproth, W. L. Miller, W. T. Schneider, W. B. Stowe, Fred Wilcox, and the hostess.

Club Group Is Favored With Bridge-Luncheon

Mrs. W. M. Smith entertained her bridge club group with a one o'clock luncheon at the Log Cabin Inn Wednesday, followed by bridge games at her home.

The luncheon table was attractively decorated with mixed blossoms and places were laid for eight.

Present were: Mmes. Ross Williams, Paul Davis, Chappel Davis, John Ward, H. J. Kemler, Barney Greathouse, a club guest, Mrs. Walter Smith, and the hostess.

Town Hall—

(CONTINUED FROM PAGE ONE)

says China did. Dr. Park's belief in the matter is shown in his advice to his audience to search public opinion in America as shown by editorials and find that the consensus of opinion is that Japan staged the incidents leading to the war outbreak.

"Reasons" Fallacious.

He discussed the Japanese "reasons" for entering China and pointed out the fallacy of each. As to need of people for more room, he said Japan had been crying for years for more children, as to food, he asserted that Japan had never had a food problem for it won its living from the sea. As to need of raw materials, he set forth his belief that a nation should make the most of its own resources before resorting to banditry and robbery for additional material. As to helping China to "set her house in order," he declared that it was the growing unity of China that sent Japan into the country to destroy it.

Under all, the fundamental reason for the war, he proclaimed, was that the masses of people in Japan were rising against the militarists and war was declared to distract them. "Trouble abroad—the easiest way to choke democracy at home," was the speakers' terse comment.

Who Wins?

What will happen if China wins the war? The position of the democracies might be strengthened for China might be a bulwark against both Japanese militarism and Russian governmental forces, he pointed out.

What will happen if Japan wins? Will China absorb the conqueror as she has always absorbed her conquerors heretofore? Dr. Park puts not too great faith in this solution for there is now a spirit of nationalism in China and there is the machine power which never existed in previous periods of conquering. These two, he believes, would work against such absorption.

History of Midland County Heard by Clubwomen's Group

Routine business including the hearing of reports from standing committees opened the meeting of the Woman's Wednesday club with Mrs. J. M. Caldwell, 223 South H street, Wednesday afternoon.

Mrs. J. M. DeArmond led a parliamentary drill.

A committee for submitting a series of programs for next year was appointed, consisting of Mrs. M. C. Ulmer, chairman, Mrs. W. E. Ryan, and Mrs. R. C. Conkling.

Mrs. Ulmer presented the afternoon's program which was an interesting history of Midland county.

Two visitors, Mrs. Louis Gayer of San Angelo and Miss Mary Pemberton of Denver, were present.

Members attending were: Mmes. R. C. Conkling, Elliott F. Cowden, J. M. DeArmond, E. Eric Payne, John Perkins, W. E. Ryan, M. C. Ulmer, W. T. Walsh, W. G. Whitehouse, and the hostess.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

If the 16 miles of kidney tubes and filters don't work well, poisonous waste stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait. Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 16 miles of slinky tubes flush out poisonous waste from the blood. Get Doan's Pills.

Lion-Rotary

CONTINUED FROM PAGE ONE

different system of offense than has ever been seen in the Permian Basin, or any other Basin for that matter. It is impossible to say just what effect this style of offense will have on the man-to-man defense as used by Coach Conkling.

Percy J. Mims, strict adherent of the Rugby type of basketball, was named assistant coach.

Strongly denying that any "ringers" were being imported by Rotary for tonight's tussle, Coach Barron said this morning that although officials of Rotary International had volunteered to send several players from Chicago by plane, he had insisted that there be no proselytizing and that only Simon-pure eligibles would be started in tonight's tussle. His starting line-up, as announced by Assistant Coach Mims, is as follows: Harry Gossett and Clint Lackey, guards; Fred Fromhold, center; George McEntire and Tom Sealy, forwards. Mims indicated that a second team composed of Fred Wemple, Bill Mann, Raymond Upham, John Howe and Lester Grant might start the tilt if Coach Barron changed his plans at the last minute. A likely list of reserves was also announced.

Coach Conkling announced a shift in his starting line up this morning after it was learned from reliable sources that the Rotarians planned to take several Lions club stars "out" by undivulged methods in the first period. Brass knucks were mentioned. Barring last minute changes, something that Coach Conkling has never been known to do, the starting line-up for Lions will be as follows: Butler Hurley and Dr. John B. Thomas, guards; Berte Haigh, center; Claude Crane and Duke Kimbrough, forwards. The second team is composed of Bud Taylor, Alau Steie, Bill Holmes, Curt Inman and George Philippus. Reserves are numerous on the Lions squad.

Two ambulances will be stationed at the gym this evening, and it is predicted that both will be in use almost constantly. That is the kind of a game that is being talked. It is understood that tackling will not be barred. Officials of the two clubs declined to divulge the name of the referee until game time for fear of mob violence.

At a secret workout of Rotary last night, it was said by one who managed to slip by the gate that the only basket made during the entire evening was when John Thomas climbed upon the shoulders of Fred Fromhold and scored the two points. Lions failed to score in an afternoon workout yesterday. It must be stated that information pertaining to the workouts is not official.

Last minute reports from both clubs said that several players would be unable to compete this evening because of rheumatism brought about by the change in weather.

Anyway the boys are going to have a lot of fun at the gymnasium this evening and club officials assure the fans of having even more fun.

Ritz Film Sunday Pictures Life of Hollywood Newcomer

Several years ago a young lad hard with the hardness of the sidewalks of New York's East Side, responded to a sudden impulse to wander! He had few funds, little equipment with which to earn, so it took him a long time to get to California and the fruit ranches.

There he did as hundreds of others, their fortunes no better than his, were doing. He became an itinerant picker of fruits and vegetables, starting the south, following the crops northward as they ripened. He stuck by this for several months and then New York called to him again.

Fate and a lot of nerve carried him, by relays, as far as Nebraska. There the going became too tough. He abandoned the rails, spent all of his remaining funds for bus fare home. That trip was one of the best investments John, then known as Jules, Garfield ever made. But of course he did not realize it at the time.

Today John Garfield, sensational Hollywood newcomer, with a Warner Bros. screen contract in his pocket, is being starred in "They Made Me a Criminal," which is showing at the Ritz Theatre Sunday and Monday. The picture was filmed on location on a date ranch in the California desert near Palm Springs.

There's where coincidence enters and another circle turns. In "They Made Me a Criminal" Garfield is an itinerant fruit picker, traveling about by bumming his way.

Expenses All Cowboy Wants for Appearance

BIG LAKE --Pay a cowboy's expenses, and he's ready to travel.

J. Elison Carroll, livestock man and one time national champion steer-roper, was invited to participate in the "Parade of Purebreds," part of the program at the Fort Worth Fat Stock Show, March 10-19.

"Go? Of course, I'm going," he exclaimed. "Why they've offered to pay my wagon yard expenses. Be a waste of money not to go."

Carroll, 76, was selected as one of the five men who could best represent the cowmen and cowboys a half a century ago. He used to work cattle in Oklahoma with Will Rogers and Tom Mix, before either had any ideas of acquiring fame as movie stars.

The old steer-roper "leans to the opinion" that the prettiest thing on earth is a woman. The second prettiest thing is horse. The third is a cow.

"And when you paint a woman riding a horse chasing a cow, you've got a picture that'll do to hang in any man's bunkhouse," he asserted.

Survey Promised On Local Needs of Larger Postoffice

Inspector from the postoffice department will visit Midland soon to conduct a survey and submit a report giving up-to-date information on needs of a larger postoffice building here, according to a letter from S. W. Purdon, fourth assistant postmaster general, to Congressman R. E. Thomason of this district, copy of which was received by The Reporter-Telegram today.

No funds are available at present for a project of this nature, the official said, but both the postoffice and treasury departments will keep the matter in mind for action when any funds become available. Congressman Thomason was told.

FOR TREATMENT.

Bee Holmes was admitted to a Midland hospital Wednesday for treatment.

PATIENT DISCHARGED.

J. A. Tuttle, ill in a Midland hospital for several days, was discharged from a Midland hospital today.

IS ADMITTED.

H. W. Johnson of the Atlantic Pipeline company at Royalty has been admitted to a Midland hospital for treatment of a broken wrist.

WOMEN GOLFERS TO MEET.

Members of the Women's Golf Association will meet at the Country Club Friday at 12:30 o'clock for luncheon. In the afternoon bridge games will open at 2 o'clock, all women of the town being invited to attend.

HAS TONSILLECTOMY.

Mrs. J. N. Woody of Stanton underwent a tonsillectomy at a Midland hospital today.

ARE DISCHARGED.

Recently discharged from Midland hospitals were Mrs. J. M. Watt's, Mario Hejl and Walter Johnson, and Miss Nellie Ingle.

IN HOSPITAL.

Mrs. W. L. Simmons was admitted to a Midland hospital recently for treatment.

IS IMPROVED.

W. F. Hejl, ill at his home here, is reported improved today.

TO EL PASO.

Geo. Barham, Charles Pickering, W. C. Boring went to El Paso on a business trip by plane today.

FROM KENTUCKY.

Ray Miller has returned from Kentucky where he has been for some time.

Peasant Girls Go to London

LONDON (UP) — Hungarian girls are the latest fashion in servants for British homes.

Three thousand are working in the country and others are arriving daily.

Berlin's officially expressed wish that all German girls in service abroad should return home, due to the shortage of female labor, is expected to take full effect here shortly. Of the 20,000 in Britain, it is estimated, 8,000 will give up their jobs speedily.

Hungarians are the most popular candidates for the vacancies. They far exceed in number the newcomers from Czechoslovakia, Jugoslavia and Rumania.

An agency now exists in Netley Hill-Gate which deals exclusively in placing Hungarian servants.

Another large agency in Haymarket, which formerly placed thousands of German and Austrian girls, has added two Hungarian interpreters and has reorganized its organization with new headquarters in Budapest.

Most of the Hungarians coming here are said to make excellent servants. They are, in the main, sturdy peasant girls, who like hard work, cook well and are loyal and truthful and are fine needlewomen.

Few Hungarian girls can speak a word of English and hardly one employer in a thousand can speak Hungarian, and because the girls are brawny peasants, they eat nearly twice as much as the average English servant.

They are far from economical. Butter, eggs, cream, poultry and vegetables are remarkably cheap in their native Hungary and the way they use these in the kitchen has alarmed the unprepared Englishman.

They do not like strict discipline, it is said. They often refuse to work in an officer's home because they dislike any semblance of "military rule."

Congratulations to:

Mr. and Mrs. J. C. Owen on the birth of a son in a Midland hospital Wednesday night. The baby weighed 7 pounds, 2 ounces.

STOP Coughing and Stop It NOW

Enjoy A Good Night's Rest

BUCKLEY'S MIXTURE certainly makes short work of relieving those stubborn old hang-on coughs and colds that other cough remedies fail to bring, according to Mr. H. A. Allen.

Mr. Allen says: "For years I suffered every winter with a terrible cough. I have had many sleepless nights and coughed until tears ran, and my stomach ached. I started again with the same old cough this year, but after a few doses of BUCKLEY'S MIXTURE my cough was gone."

You can't go wrong on BUCKLEY'S. Buy the largest-selling cough medicine in all old Canada. One or two doses and stubborn tough hang-on coughs are often on their way. And it's only a few cents at druggists everywhere. Money back if not delighted. City Drug Store, Taylor Pharmacy (Adv.)

Two Local Boxers in Finals At Big Spring Ring Tonight

District Golden Gloves fighters go into the finals at Big Spring tonight, with two Midland youths still in the running. Last night's fights drew heavy crowds and Ray Simmons, promoter, was highly pleased with the interest shown by fans from over a large area. Midland had about 100 fans.

Jack Childress, quiet and polite Ritz-theater operator dropped his modest manner and put up a fast scrap to win a decision over Curtis Miles of Odessa at Big Spring last night and is a strong hope to be one of the finalists when tonight's engagements are over. Bob Dozier, youthful son of Mr. and Mrs. Ed Dozier, also is in the run-off and is expected to offset his inexperience with dogged determination to win in the district finals.

Tonight's entertainment starts at 8 o'clock in the Big Spring municipal auditorium. Last night's results follow:

Yanez (108 pounds) of Big Spring won a decision over Bobby Lambeth (111) of Grand Falls, full three rounds.

Bob Weaver (113) of Kermit won a decision over Preacher Yanez (110) of Big Spring, three rounds.

Jimmy Harrison (116) of Colorado won a decision over Ted Shakwitz of Kermit (118), three rounds.

Edgar Griggers (118) of Kermit won a decision over Gene Gibson (117) of Grand Falls, three rounds.

Jack Childress (127) of Midland won a decision over Curtis Miles (129) of Odessa, three rounds.

Lloyd Gibson (126) of Grand Falls won a technical knockout from Dixler Jay (126) of Monahans in the third round.

Ellis Read (135) of Big Spring won on a technical knockout from Allen Stepp (133) of Big Spring at the end of the second.

Wayne Cox (133) of Grand Falls knocked out R. M. Rhodes (130) of Kermit in 33 seconds.

Richard Gibson (146) of Big Spring knocked out Marshall Van Zant (146) of Lamesa in the second round.

Jess Harnes (156) of Odessa knocked out Clyde Garner (152) of Monahans in one minute and 14 seconds, first round.

C. J. Seales (159) of Monahans won a decision over Odell Wallace (159) of Big Spring, three rounds.

Roland Terrell (155) of Monahans won a decision over Kilder Roet

France's Vital African Ports Are Enlarged

By HERBERT G. KING
United Press Staff Correspondent

PARIS (U.P.)—Unless international events prevent it, the execution of the African ports development plan this year promises to be of vital importance to France.

Progress in 1939 is expected to increase greatly the purely commercial value of French colonies in Africa, but also will do a great deal to consolidate France's position from a military standpoint.

This year's plan concerns six ports: Dakar (Senegal), Conakry (Guinea), Abidjan (Ivory Coast), Pointe Noir (Gabon territory in French Equatorial Africa), Manjunga (Madagascar) and Djibouti (French Somaliland).

Kakar, the outlet for a hinterland of exceptional commercial value, also an inexhaustible pool of native manpower, already is a port of considerable importance. It has more than 4,000 square yards of quays, an inner port accommodating ships of 35 feet draft, covering an area of 700 square yards, and mazzout pumps capable

Baylor's Engagement With Porkers to Make or Break Championship Chances

WACO, Feb. 2.—The Baylor Bears will be out to stay in the running for the Southwest conference basket ball title this week-end when they invade Fayetteville for a pair of crucial games with the in and out Arkansas Razorbacks.

The series with the porker five will either make or break the Bruins' title hopes, as a double loss to the Arkansas crew would give the Bears three setbacks in the campaign and would practically eliminate them from the championship picture.

To stay in the thick of the fight for the top honors of the loop, the Bears have got to come out of the tussles with at least an even break in the two game series, while a couple of wins would put them right on the heels of the fast stepping SMU Mustangs.

At the present time, the Bears are perched in second place in the loop standings, only a full game behind the league leading Mustangs. If the bears can clear the Porker hurdle, then the Baylor-SMU game the following week will have a great bearing on the outcome of the fight for the first place honors.

"The Porkers, with only one win to their side in four starts, will be out

to knock the Bears from their runner-up spot. It has been two weeks since the Razorbacks played their last tilt with Texas and since then they have had plenty of time to plan a defense to stop the scoring tactics of the young Baylor sophomores who have taken on Rice, Texas, and TCU during the past two weeks.

The Arkansas five have played in and out ball all year and in their last outing turned in an impressive win over Texas in Austin. On the other hand, the Bears, who are leading the way in the offensive play of the conference with an average of 42 points per game, have come back strong after dropping their only setback to the Texas Longhorns and should be in top form for the Arkansas invasion.

But anything can happen in the Ozarks and the big question mark of the series is whether Coach Wolf's sophomores can play two straight games on successive nights without faltering before the wild offensive play of the Porkers.

Joe Terry, great soph forward who has missed the Bears' last four games, resumed his place on the varsity five the first part of the week and should be ready to go in the opening tilt Friday night.

Ninety Per Cent of Midland School Students Pass at Mid-Term Reports

483 ON HONOR ROLL

Reports from the various schools of the Midland system show that 99 per cent of the pupils taking the mid-term examinations passed in their work for the first semester, and that 483 pupils won distinction on examinations in their respective grades. In the high school, 29 pupils were totally exempt and 187 were partially exempt. In order to be exempt from taking the examinations, pupils in the high school must average 90 on the six weeks reports, 85 on six weeks quizzes (examinations), and 95 on department for the semester.

The distinction lists are in three groups: Those making all A's on examinations (Summa Cum Laude et Honore); those making half A's and half B's or better (Summa Cum Laude); and those making better than a B (Magna Cum Laude). The first group corresponds to a grade of 95-100; the second grade, from 90-95; and the third group from 85 to 90.

The high school exemption list follows first. The distinction lists on examinations follow by schools:

SENIOR HIGH SCHOOL MID-TERM EXEMPTION REPORT

Number of reports, 456.
Per cent passing in all subjects, 91.57.
Per cent passing in as many as three subjects, 91.44.
Number exempt in all subjects, 29.
Number partially exempt, 187.
Total, 216.

Those exempt in all subjects:

of handling 1,000 tons of oil an hour. Planned improvements, however, will add an outer port with ample room for three of France's new 35,000 ton cruisers and a new set of oil pumps.

Breakwater for Conakry

Nearly 400 miles south of Dakar is the port of Conakry, the capital of Guinea. It has a small but well equipped modern port, with a 300 yard quayside. A fund has been appropriated to construct an outside wave breaker.

Still farther south there is the lagoon-studded line of the Ivory Coast with its crescent of precious timbers sweeping down to the water's edge. Because of the line of lagoons along this coast in unbroken succession, there is no possibility of developing a natural port and the large coastal town of Bingerville has had to be content until now with makeshift arrangements for shipping.

French engineers, however, have succeeded in solving the problem in an ingenious manner. To the west of Bingerville is the large lagoon of Abidjan, almost separated from the ocean by a line of high sand dunes. The present plan, already under way, is to remove the sand dunes, thus opening the lagoon directly to the sea. This future port will have sufficient depth to accommodate the largest ocean going vessels. The total cost will be in the neighborhood of \$6,000,000.

The port of Pointe Noir, in French Equatorial Africa, also is in line for important improvements. A long jetty has been finished and it's hoped that 1940 will see the completion of more than 800 yards of quays and docks. The total cost will exceed \$2,000,000.

On the eastern coast of Africa, the important port of Djibouti at the entrance of the Red Sea has seen its trade greatly increased since the occupation of Ethiopia by Italy. Partly at Rome's request and partly for reasons of strategy, French authorities have been greatly expanding facilities of this point.

Work is being carried on on a new 530 yard quay and on the development of the railroad facilities. Money spent on Djibouti does not figure on the colonial surplus list. Due to a substantial surplus from port and other dues, the port is able to pay for its own work.

Large Geological Collection Held

CORPUS CHRISTI (U.P.)—Possession of the largest privately assembled geological collection in the south, that of the late Dr. F. C. Stamm of Corpus Christi, has been presented to the Texas College of Arts and Industry, Kingsville. The college will retain the collection intact for the benefit of South Texas students and other interested persons.

The collection contains approximately 10,000 pieces from all parts of the United States and many sections of the world. It was assembled by Dr. Stamm over more than 70 years. It covers the general field of geology and includes fossils, crystals, semi-precious stones, volcanic formations, cave formations of many eras, petrified oyster shells, sandstone, dairy crosses and one of the largest geodes found in this country.

Classification of the collection will take several years, college officials say.

Dog Rides "The Rods"

BUTTE, Mont. (U.P.)—William J. Blondino has an Australian shepherd dog which he has trained to "ride the rods." Whenever Blondino decides, not always by necessity but often by choice, to take a ride on a freight train, the dog leaps onto his pack and sticks there regardless of whether his master is riding the rods or clinging to brakes or mounting the "grab irons."

Luxurious Jail Saves Court Cost for City
 MARYVILLE, Cal. (AP) — This city has found that a luxurious jail is a real money saver in court costs. John Samuel Chadderton, arrested on a charge of vagrancy,

pleaded not guilty, which would mean that he would have a jury trial.
 However, after passing a few hours under the pleasant jail conditions, he found them so much to his liking that he decided to plead guilty and stay awhile. Unfortunately for his hopes, however, the court, after accepting his plea, suspended his 90-day sentence on condition that he get out of town at once.

Human Behavior Held Ruled by Six Urges
 NEW BRITAIN, Conn. (AP) — Six urges govern the human behavior, according to Dr. Lester Kirkendahl, Connecticut Teachers' College psychologist. He enumerated: desires for psychical satisfaction, success, recognition, security, love and adventure.
 Declaring all behavior purposeful, Dr. Kirkendahl said: "We can help a person with his problems only if we learn to apply sympathy—that is, if we can identify ourselves with the individual. This can be done only if we want to sympathize and to understand by recalling our own experiences and our feelings in connection with these experiences, and many of us have no conception of certain problems because we have never experienced them and we have never really attempted to comprehend."

Musical reading, "Fishing"—Mrs. F. C. Cummings accompanied by Mrs. Lee Cornelius. Ode—"Scotland's Burning"—Mr. and Mrs. Geo. Ratliff, Mr. and Mrs. J. V. Stokes, Mr. and Mrs. J. M. Johnson, Raymond Weaver, Mrs. Henry Butler.

Group songs—"A Good Old Cow," "Old MacDonald Had a Farm," and "The Mule."

Male quartet in costume—"Abdul, the Bulbul Amerer," John R. Crump, R. Z. Dallas, Lee Cornelius, F. C. Cummings.

Sterling Antelope May Be Used to Re-Stock Ranches

AUSTIN, Feb. 2. (AP)—Antelope on the Brennan estate near Sterling City, if removed from that property, would be used to restock other suitable areas in Texas and "for no other purpose," Will Tucker, secretary of the Game Commission, said.

Tucker's statement was in answer to a report said to have been circulated in Sterling City that the commission was planning to sell 200 to 300 head of the animals to New Mexico at \$20 a head.

"It is the attitude, disposition and intent of the commission," Tucker said, "not to remove any antelope from Texas. New Mexico already has more antelope than Texas."

Tucker said the commission was considering a request of sportsmen to distribute the herd, one of the state's largest, on West Texas tracts.

There is a closed season on the animals in this state and the commission has ordered a thorough study of their habits to determine, if possible why the animals had not propagated as numerous as had been expected.

Game wardens have reported some ranchmen blamed eagles and mountain lions for lack of large increases in the herds.

Sterling Wants Stocks

Pat Close, district game warden with headquarters here, who includes Sterling county in his territory, said last night that ranchmen in Sterling and adjoining counties had been seeking for some time to get "real stocks" of the Brennan antelope when distribution is made.

Close had not heard of the purported New Mexico deal but recalled recent discussion of possibilities of using New Mexico equipment to net the wily antelope.

The report of imminent distribution of the herd was taken up by officials of the Toms Green county unit of the Texas Wildlife Federation and the Bob White Club, San Angelo sportsmen's organization. Both of the organizations had interested themselves in efforts to hasten the distribution in view of the fact that the Brennan estate managers wish the antelope taken off their range.

Chez les Amies Club Members, Husbands Have Supper Party

Chez les Amies bridge club entertained for members and their husbands with a spaghetti supper at Log Cabin Inn Wednesday night. Specially honored guests were Mr. and Mrs. Robert L. Clarke who will leave soon to make their home in Denver, Colorado.

Place cards, featuring the Valentine motif, marked covers for sixteen guests.

Two white vases of godetia, cerise in color, and white tapers marked the table decorations.

When club husbands had been duly introduced, guests were seated, and a three-course dinner was served.

Mrs. A. Van Kampen was presented with a birthday surprise package and Mrs. Clarke was presented with a farewell gift from the club.

The remainder of the evening was spent in bridge and other entertaining games.

Present were: Mr. and Mrs. W. L. Miller, Mr. and Mrs. W. B. Stowe, Mrs. Bill Collins, Mr. and Mrs. A. Van Kampen, Mr. and Mrs. W. P. Thurmon, Mr. and Mrs. Robt. L. Clarke, and Dr. and Mrs. J. M. Devereux.

HUNTSVILLE, Feb. (AP).—Robert Lacy Cash, serving a life sentence for slaying Harry Leon Helfman in Dallas, escaped the second time today.

LUNCHEON POSTPONED

Regular bi-weekly luncheon meeting of the Midland Geological Society, originally scheduled for tomorrow, has been postponed until Friday, Feb. 10.

Would Hold Up Sale Of Leases Pending Creation of Board

AUSTIN, Feb. 2. (AP)—A proposal which would withdraw from sale or lease all public school lands until the Legislature could create a new board to control such matters was recommended by committees in both houses and received Gov. W. Lee O'Daniel's approval as emergency legislation.

Submitting the matter as an emergency, the governor said: "I am prompted to urge the immediate passage of this legislation by reason of the fact that the laws of this state pertaining to the sale and lease of public free school lands, particularly with reference to vacancies, are inadequate to protect the best interests of the permanent school fund and the tax-paying citizens of this state, and for the further reason that the legislation for the purpose of correcting the evils now existing in the present laws."

The governor's recommendation followed a suggestion from Land Commissioner Bascom Giles that a new commission, to be known as the State Land Board, be created to replace the old board for mineral development.

Odessa Cafe Man Tells Rotarians of Early Experiences

John Zotos, restaurant proprietor at Odessa and a member of the Rotary club there, gave a classification talk at the Midland club today, giving interesting points of his life from his boyhood in Greece up to the present time.

He told of his early struggles for an education, being one of several children in a poor family, of his decision to leave home and learn a business, of his early employment at Constantinople, Turkey, his progress as a cafe and hotel employe and his later decision to travel.

Landing in New York in November 1910, he traced his various jobs there, later in Ohio, Kentucky and West Virginia, then to Fort Worth and Dallas and finally to West Texas, he having been in business at Odessa for several years.

His speech brought out the rigid principles he learned before coming to America which have helped him in business and in his relations with other business men.

Fred Wemple was in charge of the program. Visitors included J. W. Bateman and O. D. Dillingham of Abilene, Rev. J. T. McKissick of Cisco, Dr. Walter B. Lange of Washington and Carlsbad, Stony Ball of Lubbock, Allen Cox of Big Springs, Rev. H. D. Bruce and Frank J. Taber of Midland.

Oil News—

(CONTINUED FROM PAGE ONE)

lished potential of 1,226.24 barrels daily after acidizing pay between 4,500 and 4,515, total depth, with 10,000 gallons. Oil is 29.2-gravity, and gas-oil ratio is 952-1.

All lime was recovered of core from 4,430.48 in Richmond Drilling Company and Wright & McMillen No. 1 Bryant-Link Company, western Andrews wilicat. It is coming ahead today below 4,448.

Ector Wildcat Swabs Oil

Two and one-half barrels of fresh oil hourly was swabbed through tubing by Conoco No. 1-8 Wildcat, Ector wildcat between the Goldsmith and North Cowden pools, while testing at 4,350 feet. It had drilled previous, white crystalline lime, said to correspond to the pay horizon of the Goldsmith pool, from 4,330-50. Operators plan to deepen to 4,365 and make another test. The well had swabbed only five barrels of new oil in 20 hours at 4,300 feet.

Barnsdall Oil Company is moving in rotary to No. 1 Buchanan, northwest Harper pool test in Ector. It is 330 feet out of the southeast corner of section 16, block 44, township 2 south, T. & P. survey.

J. W. Tripplehorn (formerly Seaboard) No. 1 Munger & Nix, Andrews strike west of the Fuhman pool, pumped 146.28 barrels of 31.8-gravity oil on 24-hour test this week. The well recently was taken over by Tripplehorn, who will pay

Seaboard a 1/16 override, with Seaboard to retain deep rights. Gas-oil ratio of the well is 300-1. It had been temporarily abandoned June 15, 1938. Well is bottomed at 4,526, topped pay at 4,445, and was acidized with 1,000, 3,000 and 6,000 gallons before it was temporarily abandoned. Location is the center of the northeast quarter of section 1, block A-41, public school land.

Anhydrite Top Low

Anhydrite was topped at 1,225 feet, datum of plus 1,436, by Great Western No. 1-B University, Dunes pool test in eastern Crane. On the market it is approximately 70 feet low to Great Western No. 1 University, drilling well a half mile to the west. No. 1-B University today is drilling at 1,235 in anhydrite, while No. 1 University had reached 3,070 in lime.

Magnolia No. 1-18 University, southwest of the pool is drilling at 2,755 feet, carrying 2,500 feet of water in the hole encountered from 2,718-25.

Standard No. 1-4 University, northeast of the pool, is drilling at 3,629 in gray lime. Magnolia No. 2-6 University had drilled to 3,090 in lime, while Wasomes No. 1 University is drilling at 2,655 in anhydrite. Phillips No. 1 University had passed 762 in red shale.

Standard No. 1-4 University, northeast of the pool, is drilling at 3,629 in gray lime. Magnolia No. 2-6 University had drilled to 3,090 in lime, while Wasomes No. 1 University is drilling at 2,655 in anhydrite. Phillips No. 1 University had passed 762 in red shale.

Standard No. 1-4 University, northeast of the pool, is drilling at 3,629 in gray lime. Magnolia No. 2-6 University had drilled to 3,090 in lime, while Wasomes No. 1 University is drilling at 2,655 in anhydrite. Phillips No. 1 University had passed 762 in red shale.

Standard No. 1-4 University, northeast of the pool, is drilling at 3,629 in gray lime. Magnolia No. 2-6 University had drilled to 3,090 in lime, while Wasomes No. 1 University is drilling at 2,655 in anhydrite. Phillips No. 1 University had passed 762 in red shale.

Standard No. 1-4 University, northeast of the pool, is drilling at 3,629 in gray lime. Magnolia No. 2-6 University had drilled to 3,090 in lime, while Wasomes No. 1 University is drilling at 2,655 in anhydrite. Phillips No. 1 University had passed 762 in red shale.

U. S. Polo Group to Play Great Britain For Westchester Cup

NEW YORK, Feb. 2. (AP)—The United States Polo Association, through Chairman Robert E. Strawbridge, Jr., formally accepted the challenge of Great Britain that will put the famous Westchester cup on the line again for Anglo-American mallet strife.

The three-game series, renewing a competition started in 1886, will be played early in June on the Meadow Brook Club's famous international field. The exact date will be announced later.

Prison Doctor Held For Narcotics Sale

HOUSTON, Feb. 2. (AP)—Federal narcotics agents, investigating reports of narcotic being circulated in prison, arrested Dr. George R. Taylor of Angleton, Texas prison system physician, on a charge of violating the federal narcotics law.

Arranged before United States Commissioner W. P. Carothers, Dr. Taylor pleaded innocent and was released on \$1,500 bond.

The charge against Dr. Taylor alleged the sale of \$50 worth of narcotics.

Joseph Bell, supervisor of the bureau of narcotics for Texas, Louisiana and Mississippi, said an undercover agent had purchased narcotics from Dr. Taylor on a road near the Ramsey state prison farm near Angleton.

Dr. Taylor is physician on the Clemens, Rieve, Ramsey, a and Darrington prison farms in South Texas.

Hearing Called to Equalize Allowables

AUSTIN, Feb. 2. (AP)—Lon Smith, chairman of the State Railroad Commission, announced a hearing would be held here Feb. 20 to adjust inequalities in allowables of Texas oil fields.

"Quite a few fields have received increases in allowable by special permits and the commission believes some of these allowable are out of line with the general program of allowables for Texas fields," Smith said.

"The purpose of the hearing will be to remove inequalities," he said. The hearing would not consider shutdowns of Texas fields or the general state production and allowable. Under a commission order which extends through March, the state's field are being shut down on Saturdays and Sundays.

Hereford Sale at Sweetwater Today

SWEETWATER, Feb. 2.—Forty-three choice Herefords from the herds of Walter L. Boothe and G. E. Bradford are to be offered at auction Thursday afternoon, beginning at 2 o'clock, at the Bradford ranch on Highway 70, south of here.

Cattle originating from the first 50 top cows shipped from the Guggel and Simpson herd to Texas are included in the sale Thursday. Only straight Guggel & Simpson bulls have been used by the two men.

Seaboard a 1/16 override, with Seaboard to retain deep rights. Gas-oil ratio of the well is 300-1. It had been temporarily abandoned June 15, 1938. Well is bottomed at 4,526, topped pay at 4,445, and was acidized with 1,000, 3,000 and 6,000 gallons before it was temporarily abandoned. Location is the center of the northeast quarter of section 1, block A-41, public school land.

WPA Projects Of \$1,759,442 Are Announced

4906 Workers to Be Given Employment In New Allotment

SAN ANTONIO, Feb. 1. — Approval of forty-seven Works Progress Administration projects, involving expenditures of \$1,211,180 in Federal funds, and \$547,632 supplied by local governmental agencies, was announced today by Stearns S. Tucker, deputy state administrator.

Projects approved, with amount of Federal funds, sponsors' funds, and number of workers to be employed, follow:

AUSTIN COUNTY — BELLVILLE — Supervise and coordinate recreational activities throughout the city and county; Federal funds, \$98,811; sponsor's funds, \$39,068; workers, 277.

BEXAR COUNTY — ALAMO HEIGHTS — Lay 445 feet of sanitary sewer laterals connecting to main line on Parked Boulevard; Federal funds, \$783; sponsor's funds, \$205; workers, 15.

BRAZORIA COUNTY — WEST COLUMBIA — Construct 762 feet of storm sewer on Brazos Street; Federal funds, \$823; sponsor's funds, \$1,761; workers, 17.

BROOKS COUNTY — PALFURRIAS — Reconstruct athletic bath house, construct curbs and walks at Palfurrias School; reconstruct bus garage and sanitary facilities at East Ward School; Federal funds, \$17,965; sponsor's funds, \$4,866; workers, 80.

BURNET COUNTY — BERTRAM — Widen and asphalt streets throughout town; Federal funds, \$22,798; sponsor's funds, \$17,478; workers, 51.

CALLAHAN COUNTY — COUNTY — Clear, grub, fence, drain, gravel 10.3 miles of farm-to-market road north of Putnam; Federal funds, \$29,474; sponsor's funds, \$14,951; workers, 76.

CHEROKEE COUNTY — WELLS — Construct curbs and walks on school grounds, gymnasium floor, roof and shower bath facilities, extension to vocational building; repair windows and landscape grounds; Federal funds, \$16,339; sponsor's funds, \$2,999; workers, 74.

CHILDRESS COUNTY — COUNTY — Construct bridges and drainage structures on farm-to-market road in precinct 1; Federal funds, \$9,451; sponsor's funds, \$2,174; workers, 45.

COLLEMAN COUNTY — COUNTY — Clear, grub, fence, drain, gravel 48.72 miles of farm-to-market roads in precinct 4; Federal funds, \$66,933; sponsor's funds, \$17,737; workers, 171.

DALLAS COUNTY — VICKERY — Construct school teacherage, football field, stands and night lighting system, and landscape grounds; Federal funds, \$7,700; sponsor's funds, \$7,700; workers, 83.

ELLIS COUNTY — COUNTY — Construct stilling well to house water stage recorder at State Highway 114 crossing of Elm Ford of Trinity River near Carrollton; Federal funds, \$777; sponsor's funds, \$1,147; workers, 14.

WAXAHACHIE — Asphalt streets throughout city; Federal funds, \$7,730; sponsor's funds, \$3,253; workers, 54.

FRATH COUNTY — ALEXANDER — Construct curbs, fence, walks, and landscape grounds of high school; Federal funds, \$3,461; sponsor's funds, \$1,277; workers, 33.

GRAYSON COUNTY — COUNTY — Clear, grub, fence, drain, gravel 6 miles of farm-to-market road through Tioga; Federal funds, \$46,369; sponsor's funds, \$23,926; workers, 146.

HALL COUNTY — COUNTY — Clear, fence and drain 32 miles of farm-to-market roads in precinct 3; Federal funds, \$13,232; sponsor's funds, \$2,265; workers, 67.

HARDEMAN COUNTY — COUNTY — Clear, grub, fence, drain, gravel 6 miles of farm-to-market road near Goodlett; Federal funds, \$15,722; sponsor's funds, \$10,664; workers, 87.

HARRIS COUNTY — COUNTY — Clear, grub, fence, drain, gravel 4.5 miles of farm-to-market road extending southwest from Quannah; Federal funds, \$14,182; sponsor's funds, \$6,040; workers, 102.

HIDALGO COUNTY — McALLEN — Construct 27,900 feet of sanitary sewer lines throughout city; Federal funds, \$33,382; sponsor's funds, \$7,864; workers, 93.

JACKSON COUNTY — COUNTY — Clear, grub, fence, drain, gravel 12.3 miles of farm-to-market roads near Edna; Federal funds, \$8,498; sponsor's funds, \$5,331; workers, 31.

JONES COUNTY — ANSON — Construct concrete swimming pool, bath house, parking area, toll house and 9-hole golf course in municipal park; Federal funds, \$43,953; sponsor's funds, \$17,242; workers, 120.

LAMAR COUNTY — COUNTY — Clear, grub, fence, drain, gravel, lay sledge stone base on 2.8 miles of farm-to-market road from Chiocta west; Federal funds, \$38,771; sponsor's funds, \$9,645; workers, 174.

LAVACA COUNTY — COUNTY — Clear, grub, fence, 11 miles of Highway 111 from Youkum to Big Brushy Creek; Federal funds, \$15,181; sponsor's funds, \$3,606; workers, 66.

LUBBOCK COUNTY — LUBBOCK — Construct 9,396 feet of sanitary sewer lines throughout city; Federal funds, \$6,131; sponsor's funds, \$3,843; workers, 68.

MEDINA COUNTY — COUNTY — Elimination of insanitary devices in rural and suburban areas where sewer systems are impractical; Federal funds, \$4,922; sponsor's funds, \$4,800; workers, 24.

NACOGDOCHES COUNTY — COUNTY — Clear, grub, fence, drain, gravel 15.2 miles of farm-to-market roads in precinct 2; Federal funds, \$58,487; sponsor's funds, \$10,545; workers, 194.

NEWTON COUNTY — COUNTY — Clear, grub, fence, drain, gravel 3.52 miles of Haddon's Ferry Road in precinct 3; Federal funds, \$8,443; sponsor's funds, \$1,497; workers, 80.

PRESIDIO COUNTY — COUNTY — Construct relocation of U. S. Highway 67 through Shafter to eliminate dangerous crossings of Cibolo Creek; Federal funds, \$21,325; sponsor's funds, \$19,579; workers, 119.

RUNNELS COUNTY — Elimination of insanitary devices in rural and suburban areas where sewer systems are impractical; Federal funds, \$9,972; sponsor's funds, \$8,230; workers, 20.

RUSK COUNTY — NORTON — Construct concrete school combination auditorium-gymnasium; Federal funds, \$12,600; sponsor's funds, \$6,058; workers, 51.

SAN ANGSTINE COUNTY — COUNTY — Clear, grub, fence, drain, gravel 9.02 miles of farm-to-market road in precinct 1; Federal funds, \$29,333; sponsor's funds, \$10,015; workers, 100.

SAN BABA COUNTY — COUNTY — Clear, grub, fence, drain, gravel 14.9 miles of farm-to-market roads near San Augustine; Federal funds, \$37,200; sponsor's funds, \$9,012; workers, 124.

SAN SABA COUNTY — COUNTY — Clear, fence, drain, gravel farm-to-market roads in precinct 1; Federal funds, \$37,611; sponsor's funds, \$28,136; workers, 177.

SHELBY COUNTY — COUNTY — Clear, grub, fence, drain, gravel 5.13 miles of farm-to-market roads in precinct 2; Federal funds, \$11,458; sponsor's funds, \$2,041; workers, 108.

STEPHENS COUNTY — COUNTY — Grub, fence, drain, gravel, cut hills on farm-to-market road near Caddo; Federal funds, \$56,208; sponsor's funds, \$25,734; workers, 144.

TYLER COUNTY — COUNTY — Clear, grub, fence, drain, gravel 14.4 miles of farm-to-market roads in precinct 4; Federal funds, \$37,395; sponsor's funds, \$15,169; workers, 91.

TYLER COUNTY — COUNTY — Clear, grub, fence, drain, gravel farm-to-market road near Spurger; Federal funds, \$7,078; sponsor's funds, \$2,502; workers, 101.

VICTORIA COUNTY — VICTORIA — Construct 3,140 feet of storm sewers, surface with asphalt sprinkled gravel on Hummel Street, Constitution and Goldman Road; Federal funds, \$33,068; sponsor's funds, \$11,755; workers, 80.

WHARTON COUNTY — COUNTY — Clear, grub, fence, drain, gravel, shell surface 1.93 miles of connecting road between State Highway 60 and Old Rock Road southeast of Wharton; Federal funds, \$3,819; sponsor's funds, \$4,456; workers, 35.

WILLIAMSON COUNTY — COUNTY — Repair 2 low water bridges across North San Gabriel River west of Georgetown; construct new low water bridge west of Round Rock; Federal funds, \$55,276; sponsor's funds, \$30,796; workers, 235.

WILSON COUNTY — COUNTY — Elimination of insanitary devices in rural and suburban areas where sewer systems are impractical; Federal funds, \$10,972; sponsor's funds, \$6,900; workers, 29.

YOUNG COUNTY — OLNEY — Asphalt streets throughout city; construct 10,726 feet of curbs and gutters; Federal funds, \$13,167; sponsor's funds, \$14,858; workers, 72.

STATEWIDE — For flood and drainage control, clear, grub, excavate channel in Tres Alacios Creek from Highway 12 in Wharton County to Highway 35 in Matagorda County; Federal funds, \$99,450; sponsor's funds, \$73,962; workers, 291.

CHILDREN SEEM TO LEARN MORE UNSUPERVISED

BERKLEY, Cal. (U.P.) — A seven-year test of 200 school children has convinced Dr. Harold Ellis Jones, director of the University of California's Institute of Child Welfare, that the classroom is not the best system for the education of youth.

The final conclusion is that in the nursery, for example, where the child is perfectly free, he learns by being active.

The well-behaved classroom, on the other hand, has a tendency to retard mental processes and especially to arrest originality.

The group of children, which has served for the experiment, was chosen seven years ago when they were in the fifth and sixth grades. They are now ready to graduate from high school.

With all due allowance being made for the fact that they may have become slightly self-conscious because they knew they were being used for psychological study, Dr. Jones declares there is nothing in their behavior to indicate that it has in any way affected their normal development.

"One of the interesting phases of the study," Dr. Jones said, "was a clubhouse which we maintained near the school grounds and which was enthusiastically patronized by

members of the study group.

"They flocked there to read, to play checkers, to lounge about, and to do nothing. We found this free play situation an extraordinarily interesting one and most informative as to factors which are important for social adjustment."

Paralyzed Boy Saved by 'Lung,' Parents Made

LONDAON (U.P.) — A father and mother have saved the life of their son after doctors had all but abandoned hope.

For nine days and nights they took turns operating a special apparatus which enabled the boy, who was stricken with infantile paralysis, to breathe.

Gordon Bennett, 9, contracted the disease last August. Recently the paralysis spread to his lungs.

A swinging apparatus, which operated by levers, expanded and contracted the lungs, was constructed and the boy's parents volunteered to work the machine.

Day and night they worked. At last their efforts were rewarded. Gordon's lungs became strong enough to allow him to be removed from the machine. He is well on the road to recovery now.

Smaller Feet Found to Exist Among Police

ENID, Okla. (P) — A Dallas, Tex., chiropodist has gone on record with the statement that policemen's feet are too small.

Dr. W. Lee Austin, here as a speaker to the semi-annual convention of the Oklahoma Podiatry Association, said many patrolmen suffer because their feet are not large enough for their weight and the hard pavements they pound.

"The size of policemen's shoes has come down in recent years," Austin asserted. "The officers now are in a class with doctors, lawyers, and professional men."

The chiropodist conferred with Glenn Nixon, acting police chief here, and learned that no member of the Enid force wears larger than a size 10 shoe. Austin observed:

"With development of radio and its use in law enforcement, the old

YOU CAN BURN A LIGHT FOR ONE CENT A NIGHT!

Burn a Light All Night For Safety-Convenience

Keep a light burning on the porch or inside your home for the safety and convenience it brings. Light is a protection against sneak-thieves and prowlers who usually avoid lighted homes. A light inside the house also is convenient when you get up to see if the baby is covered, or want to avoid sharp-cornered chairs that invariably get in the way.

Give Reddy Kilowatt the job of being your constant and never-sleeping watchman. Your electric rate is so low that his wages for burning a 25-watt bulb from bedtime to daylight are a penny or less.

Winnipeg Seeks Modernization Of Fire Forces

WINNIPEG, Man. (U.P.) — Following the death in Winnipeg of a mother and her five children in a midnight blaze that destroyed their residence, agitation is underway for establishment of a metropolitan type fire department.

Proponents of the scheme point out that several of Winnipeg's poorer outlying communities, such as the St. James district in which the blaze mentioned occurred, are only serviced by poorly equipped rural brigades.

They add that a centralization of control in addition to bringing more up-to-date fire equipment to the scene would also add immeasurably in welding the various fire halls into an efficient unit. Costs, they added, would be no more than under the present system.

It is generally expected that the suggestion as well as the proposed institution of a metropolitan police force will be brought before a commission for study and report.

Sponsors Plan To Seat More In Sugar Bowl

NEW ORLEANS (U.P.) — If the Midwinter Sports Association is "happy to announce" a Sugar Bowl sell-out next year, it is likely to mean 60,000 or 75,000 seats.

It was a mingled feeling of satisfaction and regret that the committee members had when they

adage "all policemen have big feet" should be changed to "all policemen have big ears."

Citizenship Sought at 82

FORT BRAGG, Cal. (U.P.) — Mrs. Kaisa Gerberg has taken out her naturalization papers at the age of 82. She was born in Finland in 1856 and had been in this country for 50 years. She wants to cast her ballot as an American citizen.

Gov. Richard W. Leche offered to take \$20,000 worth of bonds as the share of the state. Future proceeds of Sugar Bowl games would retire the issue.

As Tulane stadium is privately owned, a committee met with the Sugar Bowl committee to discuss greater seating capacity.

There was a general discussion and the committee announced it would meet later.

That appeared to be almost a necessity. Restaurant and hotel owners, overjoyed at the business Texas Christian University and Carnegie Tech brought into town are ready to buy bonds without any immediate disposition of the cash in sight.

Highway deaths in the United States will stand at an all-time record low for the year 1938.

GERMANY'S NATIONAL SOCIALIST LEADERS UNDER THIRD REICH

Joseph Goebbels

JOSEPH GOEBBELS: Lame, dwarf-like, the propaganda minister is among the best educated and most cultivated of German leaders. His mind is Machiavellian, devious, clever. . . a student during the war, he attended eight universities in turn, and has never held a job except that of professional political agitator. . . his post-war effort to earn a living by free-lance writing failed, and he turned to political agitation with Hitler in the Ruhr during the French occupation. . . he has made himself an artist working in the medium of the raw prejudices and feelings of the masses. . . Whether Goebbels' status in the Reich has been jeopardized by a reported mixup with the husband of a movie actress, cannot yet be determined.

Hermann Goering

HERMANN WILHELM GOERING: Born of an aristocratic family, technically an "old army" officer, but always considered a bit of a maverick. . . as a young flyer, front-line ace. . . always impatient of restraint or routine, always seeking the dramatic gesture. . . became a Hitler man, "hide and hair," and was shot down at Hitler's side during the "beer-cellar putsch" in Munich in 1923. . . these and war-time wounds still trouble him. . . As an organizer of the Hitler Storm Troops he marched into the Reichstag in 1932 and took over the gavel from Socialist Clara Zetkin. . . helped steer the Nazi regime through its early days. . . less than enthusiastic about the anti-Jewish movement, but at least until recently regarded as the No. 2 Nazi.

Heinrich Himmler

HEINRICH HIMMLER: Head of all German police, including the dreaded Gestapo. . . little is known of Himmler except that he is and always has been 100 per cent for Hitler. . . trained as an army officer, he found no place in the post-war army or civil life. . . joined the Hitler movement early and was an aide during the beer-cellar putsch. . . became the Nazi business manager for Bravaria. . . organized the Elite Guard and became its head over Goering's opposition. . . developed a secret service unequalled since Potche. . . believed to have complete dossiers on all suspected persons in Germany, and to have organized the preparatory work in Austria and Czechoslovakia that preceded the occupation. . . ruthless and efficient, some regarded him as a possible successor to Hitler.

Dr. Walther Funk

DR. WALTHER FUNK: In complete control of wages, prices, finance, currency, and foreign trade. . . Funk is the apostle of the "new economics" which are to realize the "Socialist" part of the National Socialist title of the Nazi party. . . 48, a former newspaper writer, he was formerly assistant to Goebbels in the propaganda department. . . a firm believer in regimented economy and barter in foreign trade, he has gradually risen in Hitler's esteem. As Dr. Schacht began to run out of rabbits, he has conducted important trade missions to Turkey and the Balkan countries to increase German barter trade abroad. . . though charged with a vital task, he is less a popular figure than other leaders.

Baldur von Schirach

BALDUR VON SCHIRACH: Youngest of the Nazi leaders, at only 32, von Schirach, boyish in manner, is leader of 6,000,000 German young men and women. . . has been credited with desire to substitute "the old German paganism" for Christianity. . . but denies it, though asserting that of the Bible is not fit for youthful minds. . . because of his position as trainer of the earlier stages of German youthful development, his influence may grow as these "graduates" mature, and as older leaders die off. . . Von Schirach has insisted that "the Hitler youth is not only the most obedient youth in the world, it is the most independent."

Julius Streicher

JULIUS STREICHER: Thick muscular, violent of speech. . . Streicher has based an entire career on Jew-baiting. . . since he joined the Nazis 15 years ago, his anti-Jewish propaganda work in Nuremberg where he was the early Franconian Nazi leader, has spread throughout the movement. . . likes to carry and gesture with a riding whip. . . son of poor parents, he was a teacher when the war called him to service. . . afterward started his paper "Der Stuermer," and was also at Hitler's side during the "beer-cellar putsch" in Munich. . . even Hitler has at times compelled the fiery Streicher to modify his anti-Jewish strictures. . . but he is still one of the few who can call Hitler by the German intimate form of address, "du."

Free Goal Hits 10 Pct. Higher Than in 1924

WOOSTER, O. (U.P.) — College basketball players have increased their skill at the free throw line more than 10 per cent in the past 15 years, according to a study of 6,527 free throw attempts by Wooster College and opposing teams since 1924. . . The statistical compilation disclosed the proportion of successful free throws was 51 per cent of the trials in the 1923-24 season and 57.1 per cent in 1937-38. . . Ten number of free throws awarded the college fives has more than doubled in the 15-year span. Coach Moses Hole of Wooster believes the evolution of the fast floor break is responsible for the increase in fouling. . . Of the 6,527 free throws, Wooster received only 21 more than the opposition in the 246 games played.

Milk Drinking At Work Gains

GENEVA (U.P.) — Two and a quarter million thirsty workers in 7,000 British factories are drinking milk at the rate of 8,500,000 gallons a year. . . That is one of the many facts reported in the League's survey of national nutrition policies. . . Britain's milk - in - industry scheme has shown excellent results on the health of workers who "down tools" for a few minutes every day while they drink milk. . . The factories using the scheme report far fewer absences, and milk retailers report no adverse effects on their sales. Cheap milk is also provided for hundreds of thousands of poor school children. . . The league's survey reveals that governments all over the world are becoming increasingly nutrition-conscious. . . More governments are following the example of the United States and Norway, in helping the farmer's economy and

building the poor man's health, by buying up surplus stocks of high-value nutritive foods and reselling at lower prices. . . Throughout Europe and the Americas especially, governments are conducting campaigns for more milk, and cheap milk, for the poor. . . Norway, for example, last year allotted \$210,000 for the provision of cheap milk and \$57,000 for meat and bacon, for low-paid workers and their families. Hungary is placing nearly \$500,000 at the disposal of the Home Office to provide free milk for mothers and babies. . . In France the national milk propaganda committee distributes milk to school children in 367 centers, while more than 200 special milk dispensaries provide free milk for thousands of children up to the age of 3, each one being card-indexed so a record may be kept on the effects of the government's diet. . . More and more countries are setting up national nutrition committees which are concentrating on nutritional education, and their efforts are beginning to take effect, also in the improvement of food production. . . The Dutch, for example, annually are training 30,000 girls of all classes, in nutritional science, while in France the national childhood committee is telling even girls how to rear a baby.

Driver Misinterprets Detour . . . SANTA CRUZ, (U.P.) — E. Takada, Filipino, was denied a driver's license here. After first shocking examination officials when they asked him if it was all right to drive after drinking, by replying, "Oh, sure," they finally became convinced something was wrong when he was shown a "detour" sign and asked to explain what it means. "That means drive slow," he hazarded. It developed he could neither read nor write English, although speaking it fluently. . . In the interest of increased protection to the motorist, a non-pickable lock, which it is claimed can be opened with no other instrument than the owner's key, is being placed on the market.

Reduced Purse For Cleveland Open Probable

CLEVELAND, O. (U.P.) — The Cleveland Open golf championship, played last year for \$10,000 top money, probably will be played

this year with the first prize reduced to \$7,500. . . E. B. Odenkirk, tournament chairman last year, has recommended reductions in costs to wipe out the \$6,264.03 loss incurred in 1938 when "Slammin'" Sammy Sneed won the meet. . . With Odenkirk's proposals, another tournament would cost \$12-\$10,85, slightly less than last year's income.

Sun as Source Of Cosmic Rays Seems Unlikely

SWARTMORE, Pa. (U.P.) — A theory of some scientists that cosmic rays are given off by the sun has been disputed by Dr. W. F. G. Swann, director of the Franklin Institute's Bartol Research Foundation. . . The scientist's statement was based upon a series of balloon flight experiments conducted for the foundation by Dr. Thomas H. Johnson. . . Six balloons carrying recording instruments and a miniature radio transmitter were sent up to an altitude of 70,000 feet in day and night experiments. . . Recordings of cosmic rays showed their intensity to be alike in night and day, Dr. Swann said, indicating that they emanate from some source outside the solar system, possibly from some distant flaming stars.

Sports Become College 'Must' To Win Degree

HIRAM, O. (U.P.) — "De-emphasis" has no place on the Hiram College athletic program—at least, insofar as the sports endeavor concerns the individual student. . . Hereafter, men students, to be eligible for graduation, must pass tests of skill of several branches of athletics. . . "We want to be sure that every Hiram man has enough skill, knowledge and interest in sports to give him a rounded college career and to establish habits that will help to keep him fit throughout life," explained Herbert C. Matthews, physical education director, when the new graduation requirement was announced. . . Within certain limitations, the student can choose the sport in which he wishes to qualify but he must include some team competition like football, basketball or volleyball and individual sport like tennis, fencing, golf, or wrestling. . . The requirement also includes both indoor and outdoor sports. . . Four semesters of active participation will be required.

Entries Filed For Canadian Derby in 1941

WINNIPEG, Man. (U.P.) — International interest has been evidenced in the Winnipeg Jockey Club's \$5,000 Canadian Derby to be run in 1941. . . More than 85 entries have been received for the turf classic, including many blooded lines in the United States, England and Canada. . . Entries from Montreal and Vancouver have been registered here, Alberta has forwarded 37 entries, British Columbia 14, Ontario 15, Manitoba 16, Saskatchewan 5 and Quebec 2. . . Preliminary registration includes such outstanding sires as Reigh Count, Haytime II, Stand Pat, Brooms, King Salmon, Royal Stable, and others. . . Reigh Count won the Kentucky Derby several years ago; Haytime was imported from England by W. H. Wright and King Salmon is still standing in England. The horse is blooded with Blenheim II—sold in the United States for \$250,000.

New Fire Bomb So Light Plane Can Carry 2,000

LONDON (U.P.) — A new type incendiary bomb, which is so light that one large bomber could carry 2,000 of them, was described by A. R. Astbury, technical adviser to the Home Office, at a London conference on air raid precaution materials. . . The "Kilo-electron" incendiary bomb which he described makes use of the inflammable metal magnesium. Ten or 20 of the bombs would be released from a plane at the same time, and they would fall at the rate of 250 feet a second, spreading apart as they fell. . . "It has been calculated," he said, "that one large bomber flying in a straight line at 200 miles an hour at 5,000 feet or more and releasing 20 bombs per second over an area containing 15 per cent buildings might be able to start a fire over 60 or 70 yards."

Prunes and Raisins Clash . . . SAN JOSE, Cal. (U.P.) — California always has an excess production of prunes and welcomes any suggestion that will dispose of them. The last one comes from the California Dried Fruit Research Bureau, which was found that chopped prunes improved the texture and richness of mince-meat, without, however, reducing the amount of raisins—as California also has raisins to sell.

build and has cost about \$100,000,000. Naval works alone cost \$57,000,000. . . The heaviest guns in existence, in well camouflaged emplacements, guard the base and the anti-aircraft defenses are described as unparalleled. . . Up till now Britain could not have operated its heaviest units in eastern waters because of the lack of a suitable base for maintenance. Now the British Navy can operate with as great a safety and in as great strength in the East as in home waters.

In order to cut down on the number of serious accidents to passengers in automobiles, safety belts are now being placed on the market.

IT'S HERE! The NEW Firestone CHAMPION TIRE
with the NEW Safety-Lock Cord Body and NEW Gear-Grip Tread

Stronger Cord Body
More Non-Skid Mileage

Plus FAMOUS TRIPLE-SAFE CONSTRUCTION

FLOYD ROBERTS
1938 National Race Champion
Champion race drivers, whose very lives and chances of victory depend on tire safety, know tire construction and that is why they select and buy Firestone Tires for their racing cars.

FIRESTONE triumphs again! This time with the new Firestone Champion, the tire that sets the safety standards for 1939. This new tire provides a combination of safety features never before built into a tire. It is a completely new achievement in safety engineering.

From the experience gained on the speedways of the world and in the Firestone laboratories, Firestone engineers have developed a revolutionary new type of cord body called **Safety-Lock**, which provides amazingly greater strength. This outstanding achievement makes possible the use of a thicker, tougher, deeper tread which assures much greater non-skid mileage. Because of this new Safety-Lock Cord body and Gear-Grip tread, the modern streamlined Firestone Champion Tire establishes completely new standards of blowout protection, non-skid safety, silent operation and long mileage.

The Firestone Champion Tire embodies the famous Firestone Triple-Safe construction — you get the exclusive and patented Firestone construction features of Gum-Dipping, two extra layers of Safety-Lock cords under the tread and Gear-Grip tread design. Never in all the history of tire building has there been such a triple-safe combination to protect you against the dangers of blowouts, punctures and skidding.

Come in today and equip your car with a set of new Firestone Champion Tires — the only tires made which are safety proved on the speedway for your protection on the highway.
