

As Hitler Shouted Warning

Once again Adolf Hitler's words echo 'round the world. Der Fuehrer, pictured addressing the Reichstag in Berlin, insists "the wealth of the world must be divided by force or by equity." In which direction do Nazi ambitions currently head? Toward the Balkans? Africa? South America? Seated above and behind Hitler in the radiophoto is Field Marshal Hermann Goering.

Administration Foes Pushing Fight Upon Our Foreign Policy

WASHINGTON, Feb. 3 (AP)—Critics of President Roosevelt's foreign policy carried to the country last night their fight against what they called "secret and unneutral acts" likely to lead the United States into war against totalitarian countries.

Nine Republicans on the House Foreign Affairs Committee issued a manifesto declaring the people, "irrespective of party, are opposed to being committed to any war program through secret diplomacy."

The statement was the latest development in a furious argument which began when it became known the President had approved the sale of privately manufactured American warplanes to France as part of a definite policy of helping the democratic states of Europe to arm.

Some Approve Act

Other Republicans and some Democrats criticized the President, while administration supporters approved his act. Secretary of the Interior Ickes declared there was no danger of the United States going into a foreign war.

Ridiculing former President Herbert Hoover's statement that the Roosevelt foreign policy raised dangers of war, Ickes said:

"I know of no one in any responsible administrative post who is not ardently for peace for this country. We have to make allowances for Mr. Hoover. He is a disappointed, broken-hearted man and naturally can't find anything except to criticize."

Meanwhile, Germany's announcement she intended to double her submarine fleet created a stir of interest here, especially since it came at a time when the Reich was aroused over President Roosevelt's foreign policy.

While expert observers were studying the meaning of this, the House appropriations sub-committee made progress with a bill providing money for the military needs of the government in the coming fiscal year.

The committee discussed the technical aspects of the problem with President Roosevelt. As when he disclosed his foreign policy to the Senate Military Affairs committee on Tuesday, Mr. Roosevelt pledged his visitors to secrecy. Rep. Snyder (D-Pa.), chairman of the sub-committee, said it was "a very ordinary and friendly discussion of the situation," which included no broad outline of foreign policy.

Snyder also asserted that selling planes to France would not delay the expansion program designed for the army air corps. The French planes would be completed by September, he added, and their production would give American aircraft manufacturers needed experience in turning planes out "rapidly and efficiently."

CONTINUES ILL.

Gene Rogers, small son of Rev. and Mrs. E. M. Rogers of Smith's Chapel, continues ill with pneumonia in a Midland hospital.

Car and Truck Collision Is Fatal to Man

Jack Holmsley Dies In Hospital After Crash Early Today

Jack Larremore Holmsley, 38, Midland resident for the past 35, met almost instantaneous death early this morning when the car which he was driving collided into the rear end of a truck being driven by L. W. White, Odessa.

Details of the accident were meager today. Both Holmsley and White were coming from Odessa to Midland, the car apparently having struck the truck directly in the rear. The accident occurred on highway 60 just opposite the Midland airport, near the scene of a half dozen accidents in the last couple of years.

Holmsley received a fractured skull and other head injuries and succumbed only a few minutes after he had been taken to a local hospital for treatment. An ambulance was called immediately after the accident but the injured man never regained consciousness before his death. White escaped unhurt.

Funeral services were to be held at four o'clock at the Ellis Funeral Home this afternoon with interment rites to be held in Comanche, where Holmsley was born, tomorrow afternoon at three o'clock. Rev. W. C. Hinds, pastor of First Methodist church, officiated at the funeral service.

Holmsley was a graduate of Midland high school and Terrell Military college. He was a member of the Student Army Training college during the last few months of the World War. Since that time, he had made his home here. Until about one week ago he had been employed at Camp Broadway Gardens.

Deceased is survived by his widow, his mother, Mrs. W. L. Holmsley, and a brother, Bill Holmsley, all of Midland, and another brother, Tom Holmsley, of Wichita Falls.

Pall bearers for the funeral services this afternoon were Holt Jowell, Lenton Brunson, J. B. Hoskins, Henry Wolcott, Homer Ingham, Horace Rankin, and Orin Collins.

"City" Title for Midland Defended By New York Man

Editor's Note: The following letter was written by Augustus Flaherty, of New York City, to the noted columnist Louis Sobel following an article written about Midland by the columnist after he had spent the night here.

Dear Louis:

Your observations from the deep South and Southwest, as you dart along in your corsean rambler, are like a breath of fresh air after so much of the sameness from New York's night spots in your recent columns. Your glints from the wide open spaces of Western Texas are of unusual interest because I know this territory well.

I think you are "off side" in paning the glib young man in the hotel drug store in Midland for his persistence in referring to his town as "this city." He was speaking with authority as well as showing local pride. The Columbia Encyclopedia, page 1169, lists Midland as a city of 5,484 population. The Rand McNally Commercial Atlas also confirms this information. Webster's International Dictionary defines a city as a municipal corporation occupying a definite area and subject to the state from which it derives its powers. The question of population apparently does not enter into the subject.

The young man was also on safe ground when he spoke with pride of the number of millionaires in Midland. Thirty years ago this little city was noted as the home of numerous millionaire cattle barons. The more recent oil boom evidently has caused a considerable increase in the number of big moneyed citizens. I might suggest a bit of restraint in the use of ridicule in dealing with the native Texans, for while he is slow to anger, it is well to have a good running start once he is aroused.

I observe that "Cavalcade" is defined as a person or procession of persons on horseback. In your present automobile scout across the continent I am wondering if you are treating your horse to a rest in the rumble-seat or have it tethered at 42nd Street and Broadway.

Give us some more skits about your poach, Whiskey. I particularly enjoyed the one about the trees up in Connecticut that he left so reluctantly when it was necessary to create him and ship him to Hollywood.

Happy Landings!
Very cordially yours,
Augustus Flaherty.

Eight Firemen Die In Burning Fire

SYRACUSE, N. Y., Feb. 3 (AP)—The plight of eight firemen buried for more than five hours in the fire-scarred ruins of a five story office building was described as rescuers as "hopeless" today when the structure's two remaining walls fell in.

Two hundred men sought to reach the firemen with picks and shovels.

Glasscock Test Is Started by Petty South of Main Pool

BY FRANK GARDNER.

First wildcatting activity in several months for Glasscock county was seen today with the announcement of a test in the northern part of the county, south of production in the main Howard-Glasscock field. It is the J. R. Petty No. 1 Joe Blake 990 feet from the north, 330 from the west line of the east half of section 163, block 29, W. & N. W. survey. Spudder has been moved in to the location, and test is scheduled to go to 2,500 feet. It is about one-half mile east and slightly south of a 2,625-foot failure drilled by F. H. E. Oil Company.

Very slight oil showing was logged from 3,563-75 by Standard of Texas No. 1-14 University, extension test a mile northeast of Dunes production in eastern Crane. It is drilling ahead past 3,575 in lime. Great Western No. 1 University is drilling at 3,125 in lime, while the same company's No. 1-B University had reached 1,345 in anhydrite. R. H. Henderson No. 1 University is drilling at 700 in red shale; Phillips No. 1 University is drilling the same formation at 558 feet; and Magnolia No. 2-6 University is drilling at 3,100 in lime. Southwest of the pool, Magnolia No. 1-B University is drilling at 2,767 feet in anhydrite, carrying 2,500 feet of water.

Magnolia No. 12 W. P. Edwards, mile southeast outpost to the Wadell pool of northeastern Crane, killed gas with which it had blown out at 3,129 feet by pumping in mud and now is moving in rotary to replace standard tools. Gas at total depth had tested 9,500,000 cubic feet daily. Lovington Acreage Sold.

Sale of 180 acres of semi-proven acreage in the new Lovington pool of Lea County, N. M., for substantial cash and oil payment was reported today. Repollo is said to have made the purchase from J. E. Simmons of Lovington, acquiring the east half of the southwest quarter, the west half of the southeast quarter, and the west half of the west half of the east half of the southeast quarter of section 10-17S-37E. The tract lies southeast of the proven portion of the pool.

Repollo No. 1-182 State, easternmost producer in the pool, flowed 84 barrels of oil in 10 hours when opened after a nine-hour shut-in. It is bottomed at 4,760 feet in lime and has been treated with 2,500 gallons.

Wight Pulling Tubing.

Conoco No. 1-8 Wight, Ector wildcat between the Goldsmith and the North Cowden pools, is pulling tubing to deepen from 4,350 feet after swabbing only three and one-half barrels of oil during the last 24-hour period. The previous 24 hours, it swabbed 26 barrels of oil, but some of the production represented circulating oil used while drilling in.

West of the north end of the North Cowden pool, Sinclair-Prairie No. 1 Fay Holt, bottomed at 240 feet, is waiting for 250 sacks of cement to set around 10 3/4-inch pipe at 231. Sinclair-Prairie No. 3 Hugh Corrigan, east side test, is drilling at 3,693 in anhydrite and 37P.

Atlantiac No. 3-D Utex, in the Jordan pool, rated daily production of 1,563.56 barrels of 36-gravity oil with gas-oil ratio of 672-1, following 760-quart nitro shot in pay between 3,410 and 3,650, total depth. Andrews Failure Plugging.

Honolulu No. 1-18 Parker, Andrews failure, corrected total depth of 4,798 to 4,803 by steel line measurement and is plugging to abandon. It had encountered three barrels.

(See OIL NEWS, page 6)

Brownwood Officer Slain, Fugitive From Jail Sought

STEPHENVILLE, Feb. 3 (AP)—A badly wounded gunman sought as the slayer of policeman Jack Fuston in Brownwood last night was captured by a posse today at noon when he leaped from an automobile and attempted to flee into the brush between Stephenville and Dublin.

A posse of citizens and officers sought the slayer who left a trail of blood after two companions of the slain officer had riddled his automobile with bullets.

Officers went to the camp on a tip given by W. T. Haley, Jr., who escaped the Palo Pinto county jail with the suspect. The two used a soap pistol in making their escape from the jail.

Insurgents Promise Pardon to Loyalists Who Give Selves Up

PERPIGNAN, France, Feb. 3 (AP)—An insurgent promise to pardon government soldiers Thursday lightened the task of French officials struggling to care for tens of thousands of Catalonia refugees who fled before the insurgent advance in Northeast Spain.

Word of such a promise made by General Count Francisco Gomez Jordana, insurgent foreign minister, seeped through the horde of homeless, fear-stricken refugees with the result that many agreed to be sent into insurgent territory.

French officials said almost one-fourth of the estimated 4,000 government militiamen who have crossed into France agreed to go into insurgent territory by way of Hendaye.

(From Burgos the insurgents broadcast an appeal to Madrid offering "bread, pardon and justice" to those who surrendered. They told Madrilenos that Barcelona was "joyous" after its fall to the insurgents.)

Gomez Jordana's promise, published in French border newspapers, followed the general lines of a statement insurgent General Fidel Davila made after the fall of Barcelona.

Davila then said the insurgents did not wish to persecute civilian refugees nor the retreating government army. He asserted, however, that Generalissimo Franco was "reserving punishment for those responsible for the revolution."

Meanwhile the government at Figueras prepared for further resistance. Observers returning from the temporary capital said official statements indicated the civil war was far from over.

Narcotics Traffic Toughest Problem Of State Officers

AUSTIN.—Illegal trafficking in narcotics is one of the biggest problems facing enforcement officers in Texas as well as other states, according to Captain J. B. Wheatley, veteran Texas ranger who heads the comparatively new narcotic section of the public safety department.

"There is no such thing as a 'small-time' narcotic offender," he tersely declared, pointing to a newspaper account of the apprehension of a band of addicts and peddlers described in that manner.

The old-timer, who served many years along Texas' crime battle fronts before his selection as chief of the narcotics enforcement section of seven inspectors, said that addicts and peddlers, "whether they use or sell a fraction or an ounce of dope" are the backbone of the narcotics market.

Wholesale distributors, Captain Wheatley continued, remain stymied without the thousands of channels for marketing their smuggled quantities of heroin, opium or morphine.

"If an addict or peddler disposes of one cigarette of marijuana or one grain of 'white' narcotics at a time they contribute largely to the support of the wholesale dealers," he said.

Then, too, addicts without funds obtain the required money for supplying their needs from sales of stolen articles. Captain Wheatley estimated that 50 percent of minor thefts are committed by dope addicts. Major criminals, too, find nerve to commit their heinous offenses under the influence of narcotics.

He described illegal narcotics distributions in Texas as "alarming," but declined to specifically locate distribution centers except to say: "You'll find the greatest number of peddlers and addicts where there are oil booms and large payrolls."

Chicago's Crazy Quilt

Buses and automobiles, stalled at fantastic angles, choked Michigan Boulevard as Chicago was paralyzed by a howling blizzard, most furious of the winter.

House Favors Bill To Borrow Cash To Pay Age Pensions

AUSTIN, Feb. 3 (AP)—A bill authorized the old age pension administration to borrow an additional \$900,000 to meet the present financial emergency was passed in the house today by a vote of 118-5.

Advocates expressed confidence they could obtain senate approval next week.

Senior High PTA to Sponsor Food Sale

Senior High PTA will sponsor a food sale Saturday at the M System grocery. The sale will open at 8 o'clock in the morning.

Proceeds will be used to pay for Senior High PTA's portion of expenses for the PTA convention meeting here in April and to assist with the open house observing the opening of the new gymnasium.

Contributions, other than through purchase of food, will be welcomed. Assisting in selling will be Mrs. Orlis Kelly, Mrs. E. D. McBrien, and Mrs. E. H. Griswold.

Former Senator Steiwer Dies in Washington Today

WASHINGTON, Feb. 3 (AP)—Frederick Steiwer, who served 11 years as a republican senator from Oregon died here today at the age of 55.

He resigned near the end of his second term in the senate last year to practice law here. He had been in ill health for three years.

Japanese Submarine Sinks With 40 Aboard

TOKYO, Feb. 3 (AP)—The first class Japanese submarine, I-63 sank in Bungo Channel where the water averages 330 feet in depth with probably 40 men aboard yesterday morning, the admiralty announced today.

Rescue operations were begun at once.

The vessel sank after a collision with another submarine during maneuvers in the strait between Kyushu and Shikoku Islands, 400 miles southwest of Tokyo.

TO VISIT SISTER.

Miss Althea Hines left this afternoon for San Angelo to visit her sister, Mrs. Robt. E. Stone.

Allege FDR Said Frontier Is in France

"Deliberate Lie" Is Explanation Given By Roosevelt Today

ROME, Feb. 3 (AP)—The United States embassy today asked the Italian government for an explanation of bitter personal attacks on President Roosevelt published in the fascist press.

The attacks were a part of the intense hostile press campaign provoked by the president's meeting Tuesday with the senate committee which quoted him as saying the frontiers of the United States were in France.

The campaign continued today with Virginia Gayda, fascist's chief newspaper spokesman, writing "since Roosevelt wants to push his offensive into the heart of Europe it is natural that defense to counterbalance it be extended up to the Rio Grande."

President Roosevelt termed a "deliberate lie" today a statement declaring he had said the American frontier is on the Rhine.

The president, at his press conference, described as a lie the report he had asked whether the American frontier was in France.

He declared some reports had given an erroneous impression of this nation's policy, adding that most of them had been manufactured by some legalistic and newspaper-owner agitators.

This nation's foreign policy, the president said, has not changed and would not be changed. He reiterated it would be opposition to any entangling alliances.

He said this nation is in sympathy with each and every effort to reduce or limit armaments.

Banquet Will Honor Visiting Bishop at Church Here Tonight

Plans are being made to serve 100 men at the banquet to be held in the Methodist annex at 66 o'clock tonight, honoring Bishop Ivan Lee Holt.

Mayor U. C. Ulmer will be toastmaster.

The Bishop outstanding among leaders of the Southern Methodist church, was elected bishop at the general conference at Birmingham, Ala., last May. He is in charge of four large conferences.

Following the banquet, Bishop Holt will preach at the Methodist church, the services opening at 7:30 o'clock.

The public is urged to attend and hear the visitor who is said to be a logical, forceful, and eloquent speaker.

Tom Mooney Asks Wife for Divorce

SAN FRANCISCO, Feb. 3 (AP)—Mrs. Rena Mooney said today that Tom Mooney, pardoned recently after serving 22 years in prison, had demanded she divorce him.

In the Spring, Will Hitler's Fancy Turn to Thoughts of Balkan Conquest?

Eyes turn again to the Balkans this spring, the Boiling Balkans which lie directly on the line of German commercial, ideological, and perhaps territorial expansion.

Hitler's assurance, in his speech to the Reichstag, that Germany will insist on "her share of the world's riches" raises the question of whether any of that share may be sought in the rich countries to the southeast on the Berlin-to-Bagdad axis.

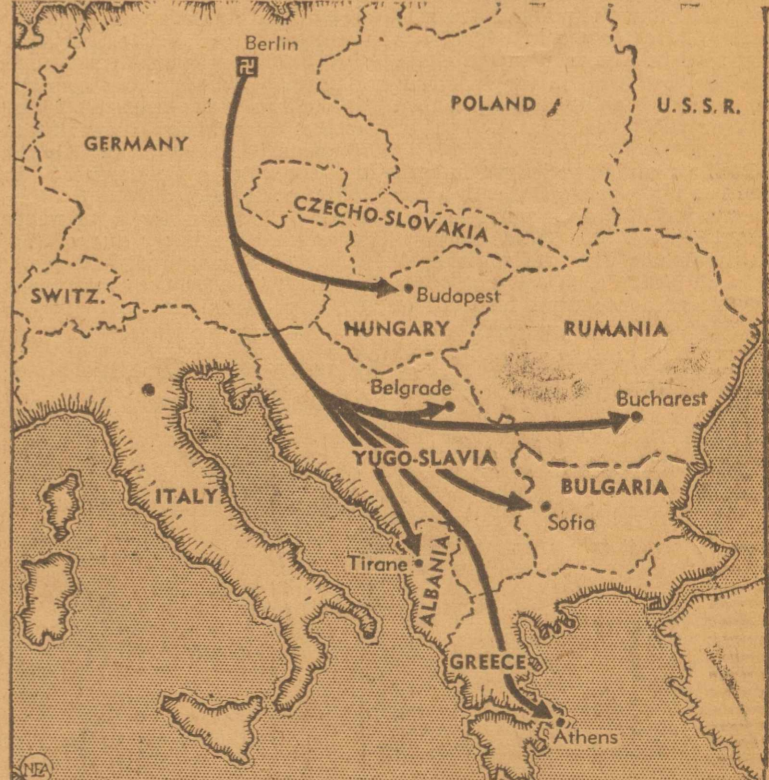

These little-known countries, seldom visited by the regular European correspondents, have just been traveled by Melanie Pfau, wife of a famous correspondent. In five stories she tells what these countries are like, and what people there are thinking as they view an uncertain future. Here is the outline of the Balkan series, first of which is printed below:

(1) Hungary, where a whole people buzzes with frantic armament plans, and nobody seems to know just why, except that they are "going somewhere" soon.

(2) Rumania, a dictatorship with the king as dictator, which wants to remain independent, but which is rapidly falling under German influences as Germany buys her goods. Don't mention Mme. Lupescu.

(3) Greece, ancient land now under British influence, and Bulgaria where a railroad minded king rules a progressive land.

(4) Albania leaps from feudal to a modern society, and everywhere you meet "quaint natives" who used to live in Chicago.

Berlin to the Balkans—will the swastika follow the arrows?

(5) Yugoslavia, a rich country that has its own "minorities problem" and is using stern measures to cope with it.

The first of Mrs. Pfau's articles appears in Sunday's issue of the Reporter-Telegram.

The Visit of Dr. Aranha An Opportunity for U. S.

By WILLIS THORNTON.

The choice of Dr. Oswaldo Aranha as Brazil's representative in forthcoming conferences at the White House is a happy one. The United States welcomes Dr. Aranha, not en route to the U. S., as a friend, not only a proved friend of our country, but a friend of democratic government, for which he has fought unceasingly in his own country.

Dr. Aranha is a man of delightful personality which won him hundreds of personal friendships when he was ambassador to Washington from Brazil. He is a fast thinker and a hard worker, one to whom President Roosevelt should be able to talk understandingly and on equal terms. They can not fail to find a great deal in common in the fact that Dr. Aranha has been in Brazil one of the leading bulwarks against Fascist influences in that country, a devoted friend of democracy and orderly procedure, and in every way one of the most distinguished of Brazil's sons.

The White House conferences between Dr. Aranha and President Roosevelt and other U. S. officials should give direct evidence of the intention to carry forward in deeds the words of the Declaration of Lima and the resolution of the Americas to preserve a free system of trade against private and discriminatory deals between special countries.

Without excluding any other countries, or in any way barring them from legitimate trade with Brazil, there are many ways in which greater trade and closer co-operation between Brazil and the United States may be stimulated. In many important commercial respects, Brazil with its coffee and rubber, cacao and manganese, tin and diamonds, all lacking to continental United States, is complementary to U. S. economy, while the rise of a manufacturing economy, the building of railroads and roads, and the general rise in standards of living offers plenty of opportunity for the United States to furnish a large share of manufactured goods necessary to the upbuilding of Brazil.

Brazil has been traditionally friendly to the United States, and this visit of Dr. Aranha offers an opportunity to see how the two nations may be of greater service to one another.

As in later talks expected to follow with representatives of other South American countries, there is no longer any wish for diplomatic or commercial "victories." The need today is to apply intelligence to find ways in which each country may help the other. Then there will be no lack of by-products of understanding and amity.

Texas Today

Three Texas ministers are the elected heads of the three largest Baptist bodies in the world, and it is not entirely a geographical accident.

There are 12,500,000 members of the denomination, loosely joined by the fraternal bonds of the Baptist World Alliance. Dr. George W. Truett, pastor of the First Baptist church of Dallas since 1897—the year he was graduated from Baylor University at Waco—has been president of the Alliance since 1934.

Southern Baptists number 4,000,000 members. Dr. Lee R. Scarborough of Fort Worth, president of the Southwestern Baptist Theological Seminary, is also president of the Southern Baptist Convention.

There are 600,000 Baptists in Texas. The Baptist General Convention of Texas is the largest Baptist state organization in the world, and its president is Dr. J. Howard Williams, pastor of the First Baptist church of Amarillo.

From the strictly human standpoint, the presidency of any Baptist body requires the skill and strength of a bronco buster and the suavity of an ambassador. Baptists, historically and actually, are undefiled democrats in the church government. They are individually independent and often distressingly outspoken, but the power is the majority vote after the individual has said his say. The man in the chair, like the cow hand in the saddle, is judged by his ability to keep a firm rein on the proceedings.

Baptists and especially Southern Baptists make it emphatically clear their world alliance is purely a fraternal organization. It has no power to dictate what its units shall or shall not do. It can not tell a Baptist preacher what he shall or

shall NOT preach. No Baptist really thinks those things more actual than Dr. Truett; nevertheless, his leadership is real and potent.

Baptists of all kinds agree on at least two doctrinal points. First is the individual's freedom to worship as he pleases, and closely related is the doctrine of absolute separation of church and state.

In these days of totalitarian governments they are increasingly aware of their convictions along those lines, and NO more consistent voice is raised throughout the world for religious freedom than that of George W. Truett. He seldom speaks a word—and his engagements amount to hundreds in a year—without sternly reminding his audiences that preservation of democracies and world peace is dependent upon freedom of worship and utter separation of church and state. He is as well known to remote congregations in Rumania as he is in his own home state, but wherever he goes he heralds religious freedom. Just now he is especially concerned with the conditions of the Rumanian Baptists and the alliance has protested through him certain measures which it believes curtail religious freedom there.

Both Truett and Scarborough first became known in their adopted state as flaming evangelists. Truett's talents led him to a pastorate; Scarborough, educated at Baylor, Yale and Southern Baptist Theological Seminary, is educator and author as well. Since 1915 he has been president of the Southwestern Seminary, where his career as a teacher started in 1908. He was chiefly instrumental in bringing about the construction of two badly needed buildings for Simmons College (now Hardin-Simmons University) of Abilene; and three large buildings at the seminary. He directed the Southern Baptist campaign for a 75 million dollar fund a number of years ago. A man of almost prodigious energy, he found time between his preaching, his administrative duties, his

Cornerstone Opened After Fifty-one Years

MARLIN (P)—Articles placed in the cornerstone of the Falls county courthouse here 51 years were removed recently during razing of the old building which will be replaced by a \$200,000 structure. The relics were copies of the Houston Age of Saturday, Sept. 11, 1887, and of the Marlin Weekly Ball of Thursday, Sept. 9, 1887; a Belgian five centime piece, minted in 1870; a New Testament; plans of the courthouse drawn by E. T. Heiner of Houston; rosters of the Marlin Masonic Lodge and of the Marlin rifles of 1887. Col. Dan McGary was editor of the Houston Age at the time.

READ THE CLASSIFIEDS.

All They Want Is to Be Left Alone

fund raising and teaching to write a dozen or more books. The latest details a preaching mission into Latin America—"A Blaze of Evangelism Across the Equator," he named it.

It is not unusual for attendance at the Baptist General Convention of Texas to exceed attendance at the southwide sessions. While the convention has nothing to say about what individual churches may do, it has much voice in the conduct of the many schools, hospitals and similar institutions owned and operated by the denomination in this tremendous state. The president of the convention and the secretary, of its executive board have a great responsibility. Williams, drafted by the Amarillo church after a productive term as executive secretary, was in turn re-drafted by the convention as its president at the last convention. Dr. R. C. Campbell of Dallas, the executive secretary, came to his position from Lubbock's First Baptist church. On one occasion recently, he was called as pastor of an important church but the executive board refused to let him go; they kept sending his resignation back to him until they finally wore him down. You can find him on the job any day but Sunday, when he preaches, at the Baptist executive offices in the Burt Building, Dallas. Folks up there say Brother Campbell is a work horse.

Announcements

SATURDAY

Story Hour will be held in the children's library at the courthouse Saturday morning at 10 o'clock.

Midland county museum in the courthouse will be open Saturday afternoon from 2:30 o'clock until 5. The public is invited.

Senior High PTA will sponsor a food sale at the M System grocery Saturday from 8 o'clock in the morning on.

First Month Finds Business Holding Steady Over Nation

Babson Reports Activity Twenty Per Cent Above Same Period Last Year, Despite Foreign Developments and Scare of War

Copyright, 1939, Publishers
FINANCIAL BUREAU

BABSON PARK, Florida, Feb. 3.—Despite the latest war scare, business is running along at the same level as a month ago. Because the sharp gains of the Fall have not continued, however, many people are disappointed. They have asked me if I am just as optimistic as I was on New Year's Day. My answer is "Yes." The domestic picture is the same as it was a month ago. Recent foreign developments are unsettling, but the basic European situation has not changed.

Business finished up the old year at 100 on my Babson-chart. It closed January at the same figure. The current comparison with a year ago, however, is much more cheerful. The December gain was 15 per cent, while January showed a 20 per cent jump over the level of twelve months ago. Last year at this time we were still going downhill. Hence, if business holds steady for a few weeks more, and then begins a substantial pick-up, my forecast of a 25 per cent gain for the first quarter will have been fully justified.

STEEL AND AUTOS DOWN

Currently, most industries are moving along in fairly good shape. Steel operators, around 50 per cent of capacity, are 13 points lower than their December high of 63 per cent. Automobile assemblies of 90,000 per week are also down from their peak, but are 50 per cent ahead

of the 1938 level. Textile mill activity is substantially higher. So are freight carloadings, after making allowance for the usual drop at this season. Coal mining and crude oil output are approximately the same.

Electric power consumption is breaking all records this Winter. Many people cannot understand why this is so in view of the fact that business is not breaking any records. The reason is that there are more household appliances in use today than ever. Rates are steadily dropping, thus encouraging the purchase of more and more refrigerators, ranges, etc. Yet, only a small number of homes are completely "applianced." Here are the figures: refrigerators, 52 per cent, ranges, 9 per cent, and water-heaters, 2 per cent. With a firm control over all costs, except taxes and labor, the utility companies have an interesting year ahead!

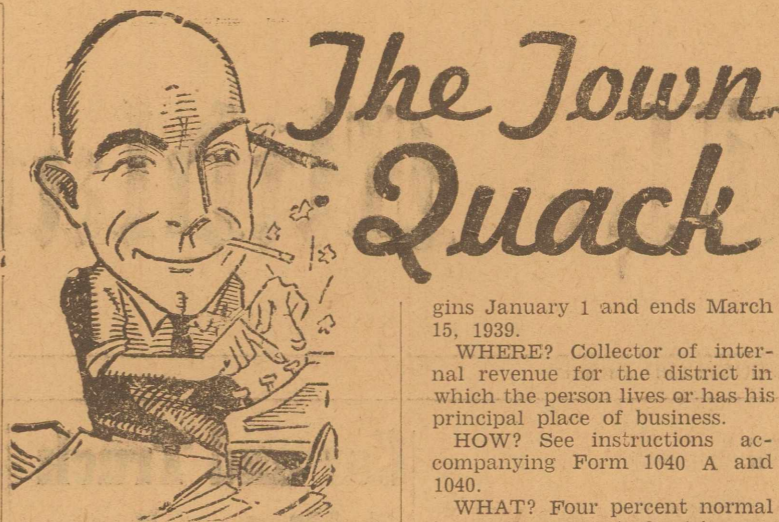

BUILDING STILL INCREASING

Building, however, is the real work horse in the present business situation. New contract awards are way ahead of the year-ago levels and are at the highest point in many years. As a result, the lumber "cut" is very heavy; cement and brick sales are good; and orders for structural steel are popping operations in the whole steel industry. Moreover, I expect building to hold these big gains this year, thus stimulating activity in the twenty-six allied industries.

January retail trade was, of course, was off from the Christmas peak; but it held close to the relatively high volume of January, 1938. Much of my hope for a good year is pinned on retail sales. Naturally, we cannot have higher factory activity, more jobs, and bigger payrolls if goods do not move briskly across store counters. In this connection, I want to warn merchants and other business men: You cannot expect to get your full share of the 1939 pick-up if you do not push your advertising. The time to spend money on your promotions is NOW rather than when business is booming!

RAILROADS OUT OF "DOG HOUSE"

The railroad situation is better. Expenses have been slashed drastically. There has been an encouraging pick-up in freight carloadings since last Summer. The combination of these two factors has allowed many roads to pay all bills including interest on their bonds and still have a little money left

For once in my life, I'm going to try to be useful. It has been said that more citizens of Midland pay income tax, according to population, than in the average city or town. The time is nearing for filing of the income tax returns and making payments to the internal revenue collector, consequently I am going to quote the collector's "income tax in a nutshell." Beginning Sunday, the Reporter-Telegram will publish a daily article on computing income tax. Don't miss a one of them. Clip them out and you will be able to handle your report more easily.

WHO? Every single person or married person not living with husband or wife who had net income of \$1,000 or more or gross income of \$5,000 or more, and generally, husband and wife living together, who had an aggregate net income of \$2,500 or more or an aggregate gross income of \$5,000 or more, must file returns. If in doubt, obtain form and printed instructions from collector of internal-revenue.

WHEN? The filing period be-

over. Consequently, such carriers are beginning to buy new locomotives, freight cars, rails, and the like. A real burst of railroad buying might boost business into a prosperous period quicker than any other development.

The mining business looks a little uncertain to me. Last week I spoke about the failure of raw material prices to rise. This should help business, but temporarily it is tough on the mining regions. I cannot foresee any sharp gains in metal prices in the near future. They await more monetary inflation. Actually, the wind seems to be blowing toward a reduction in the 65-cent government price for domestically-mined silver. I am not a mining expert, but this might benefit, rather than hurt, the copper and lead business.

NO CHANGE IN OUTLOOK

SUMMARIZING: The recent developments on the domestic business front have been satisfactory. The first month of 1939 was the best January in nine years, excepting only 1937. Not one of the favorable factors which led me to predict a good year has changed. The European situation is no worse than a month ago; it simply is coming to a head. If business men keep their perspective and do not suddenly get a new "fear" complex, I see no reason why business should not continue to improve.

Crescendo Junior Music Group Meets With 19 Present

Crescendo Junior Music club met at the Cornelius studio, 705 W. Ohio, Wednesday afternoon with 19 members, including a new member, Suzanne Schouten, in attendance.

New and unfinished business was discussed. Jane Butler and Patsy Butcher were appointed on the program committee and Mary Nell Casselman on the social committee.

A party was planned for Friday night at 7:30 o'clock. Joyce Dameron presented a piano solo, "The Curious Story." Virginia Ann Duncan played "The Wooden Soldiers on Parade."

Norma Jean Stice presented a reading.

Mrs. Cornelius read stories on

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germladen phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Three Entertain with Dessert-Bridge at Country Club on Thursday

Mmes. Crabb, Payne, Kimsey Are Hostesses to 29 Tables in Largest Party Given Here This Season

Most important bridge affair scheduled here in weeks and first of the year's large parties was the dessert-bridge of 29 tables with which Mrs. R. C. Crabb, Mrs. L. L. Payne, and Mrs. R. E. Kimsey entertained at the Country Club Thursday afternoon at 1:30 o'clock.

The Valentine theme and Valentine colors brought a touch of brilliant gaiety to appointments for the occasion.

Roses and snapdragons were used in the clubrooms, while individual corsages of red roses and snapdragons formed the centerpiece for each table at the dessert hour. A red and white Valentine plate was served.

Heien Margaret Crabb, attired as a Valentine, served as cigarette girl during the afternoon.

Prizes for the bridge games were wrapped in Valentine colors.

Winners for the afternoon were Mrs. W. B. Harkrider, holder of high score; Mrs. Jas. H. Chapple, holder of second high; and Mrs. Glenn Lewis, who received the draw prize.

The invitation list follows: Mmes. A. E. Lynch, W. J. Coleman, E. C. Hitchcock, F. C. Cummings, J. R. Martin, R. C. Conking, Glenn Lewis, Pat Riley, Butler Hurley, L. C. Link, J. W. Skinner, Don Davis, Elliott Barron, M. A. Park, Hal Peck, J. E. Simmons.

Mmes. Don Stookey, L. A. Absher, S. H. Hudkins, John E. Adams, B. F. Nysewander, W. G. Whitehouse, J. H. Rhoden, W. M. Schrock, J. L. Bruns, Cecil King, Wallace Irwin, W. W. LaForce, O. L. Wood, H. J. Summy, Franklin Peters, W. B. Stowe, J. J. Black, J. L. Greene, C. A. Bradley of Odessa, Fred Turner, Bill Collins, Gordon Bird, Frank Fulk, W. F. Knight, R. I. Dickey, Paul Barron, Ralph Coohey, Jim Moore, Geo. Bennett, Tom Parker, M. L. Weatherall, Roy Downey.

Mmes. Jas. H. Chapple, Joe Ballantray, F. P. Winger, A. B. Cather, I. E. Daniel, T. D. Kimbrough, Donnelly, Galbreath, Chas. L. Klapp, R. W. Hamilton, Carter, Paula Vogel, Allan Hargrave, W. A. Street, Barney Greenhouse, R. T. Mobley, L. G. Mackey, Vaughn Maley, Pat Ruckman, R. Z. Dallas, Dalas Dale, H. D. Dickson, Clyde Cowden, Miss Mary Pemberton of Denver, Colorado.

Mmes. F. H. Schouten, Harry Prickett, H. A. Hemphill, Stanley Erskine, B. K. Buffington, J. R. Crump, Martin Duval, R. W. Paterson, W. L. Crothers, W. L. Miller, Curtis Inman, Oliver Haas, S. P. Hazlip, P. A. Nelson, Karl Ratliff, Miss Dorothy Henderson, and Miss Marian Meaders of Fort Worth.

FEMININE FANCIES

By Kathleen Eiland

Nothing can be predicted safely as regards West Texas weather—except that it is going to be unpredictable.

Just as we get really into the task of planning spring clothes, Old Man Winter swoops down with a 19-degree norther.

Well, there probably wouldn't be much fun in life if there were no surprises, though we still believe we could do without surprises that come in the form of blizzards.

It's getting to the point where "dinner from a can" is quite literally possible. What with such dishes as spaghetti and meat balls, green beans cooked with potatoes, and baked apples all obtainable in cans ready to open at a few minutes' notice, all the housewife needs do to plan her menus is to take a leisurely look over the shelves of a grocery store.

And we've never ceased marveling why, when fresh vegetables of a dozen different kinds are procurable all through the winter it seems still just as difficult to plan appetizing meals as when aforesaid f. v's. were few and far between.

Have you noticed that gold is one of the popular colors in piece goods, especially in the novelty materials this year? And no wonder, for gold is an attractive color, one with

Brides' Circle Hears Talk by Mrs. Prothro

The Brides' Circle of the Methodist WMS met with Mrs. Marvin Douglas as hostess at a home with Mrs. John W. Rhoden Jr. Thursday evening.

Mrs. W. C. Hinds and Mrs. J. M. Prothro were visitors, the latter being guest speaker.

Opening prayer was offered by Mrs. Prothro after which she spoke on some of the first missionary work done by the church.

The evening's scripture selection was read by Mrs. Ernest Nance.

The meeting was closed with unison repetition of the Lord's Prayer.

Refreshments were served at the close of the program to the visitors, Mmes. Jesse Lee Barber Jr., Kyle Cross, Edwin Ferrel, Ernest Nance, Alvon Patterson, H. O. Ponder, John W. Rhoden, C. A. Roark, the sponsor, Mrs. T. L. Morgan, and the hostess.

warmth and life and, we almost said, glamour.

We notice that up North, some big bakeries are spraying their bread pans with butter, rather than buttering them in the old way by hand. They find it more efficient.

Wish they manufactured butter-sprayers in small-family size. We'd be tempted to squander a few pennies on one. If there is one thing about cake baking that is worse than another, it is having to get one's fingers greasy and a cloth ditto buttering the pan.

Principles of Good Preaching in the Olden Days Discussed by Teacher

Editor's Note: The following discussion of this week's Sunday school lesson is printed here through courtesy of J. Fred Cooke, teacher of the Business Men's class of the Methodist church.

There was good preaching then because the Professors prayed—it is in accord, they came together and was good because of its effect upon such a mental and heart attitude.

1. Those who professed the new name at that time wired to heaven. They did not broadcast a message, but got on a line which led from the upper room directly to the Throne of the Father. They spoke to the divine parent thus: "Jesus said that thou didst promise to send the Holy Spirit to comfort us in our

loneliness while he was away preparing mansions in the sky. Will you not fulfill that promise now; for we are so very lonely without him?" Our hearts were overwhelmed with sorrow when they took Him to trial. Then when we saw Him faint under the cross which He bore our hearts were almost broken. When He was hanged upon the cruel tree we fainted and fell away, and went to our fishing tasks. But Father our faith was quickened on that beautiful first day of the week. For He came from Joseph's new tomb and went about to find us. But before disappearing in a cloud from the Mount of Olives He told us to pray for some one who would comfort and lead us into all truth. But our hearts are still sad because the Holy Ghost has not yet come. They must have felt similar to Isaac Watts when he wrote several years ago:

"Come Holy Spirit, Heavenly Love With all thy quickening powers, Kindle a flame of sacred love In these cold hearts of ours."

Some say "they can not pray." Like the wicked man who said such words to a Christian worker, however when the hailstones commenced breaking through the roof he got under the bed and asked God's mercy and help, promising to be better. Like the old man, Sir Philippi, was known as a bad Mexican. But when the storm was approaching, he stood with hat off for an hour asking God or holy men to help him.

Sure a Christian can pray. Even a sinner can offer thanks to God that He hasn't destroyed him in his sins; and he can thank the Heavenly Father that there is still oxygen in the air that preserves his life daily. The sinful man should thank Divinity at the table for food, life, health, raiment, shelter, friends, home country, peace and plenty. (If they have plenty). All should pray, even the little children should call in their simple language to the Heavenly Father. For

"Prayer is the simplest form of speech That infant lips can try; Prayer the sublimest strains that reach The Majesty on high. Prayer is the contrite sinner's voice Returning from his ways; While Angels in their songs rejoice, And cry, 'Behold he prays.' Prayer is the Christian's vital breath, The Christian's native air. His watchword at the gate of death; He enters Heaven with prayer."

2. The professors of the name of Christ were in accord. There were not any who attended that upper room meeting who said, "That will never do." They were all talking to a common Father about one thing. That was the promise Jesus told them of. (Concerning the coming of the Holy Spirit). They were in love with one person and that made them at peace with themselves.

We should be glad that the churches are not now at arms with each other like they were many years ago. Like an old fellow of whom a Midland pastor spoke. He said that this man while speaking in public back in those times, first, talked about the Presbyterians; then about the Episcopalians; then jumped on to the Methodist with front and hind feet. He intended that the Baptist should get the worst tongue lashing; but wasted his volubrious sentences on a climax against the Methodist. Then said he: "What—what—what shall I say?" One from the crowd said, "It don't matter what you say—just give 'em blankie—kity—blankie." Let us hope that such church

arguments and fuses have gone from our fair land never to return. We have an illustration of good will in our city. This week the women's auxiliaries of all churches met with the women of one church. Could there not be a mother, sweet-heart, and sister club organized on international proportions to prevent war and promote good-will among all nations?

To leave out of consideration the power which the common people wield, if the various countries' representative officials would quit talking and acting from a selfish point of view and be willing to give and take, they of their own preference, could create harmony, accord and world peace.

3. There was good preaching. The crowd came. No preacher can preach so fluently, nor present the sacred truth so well to a small gathering, as he can to a filled auditorium.

In compliance with such a demand for a full house, we the people should see that these churches in this country have capacity congregations consecutively. We should enter into His house with thanksgiving and into His courts with praise. Be like David of old who said, "I was glad when they said unto me, Let us go into the house of the Lord." The more people who are working together, the more good, not proportionally, but above proportionally can they do. For one can chase a thousand and two can put ten thousand to flight. Then if three can do ten times as much as two and so on up the scale. Then a few hundred could turn the world upside down. Allow the writer to exhort you to be as faithful as the writer is on the Sabbath day.

4. The leaders of the Pentecost experience upheld the one who was delivering the message. "For he arose from among the Eleven." It is not always the case in our country that ministers are upheld. The writer knew a minister who walked into a store and someone told a vulgar circumstance. The clergyman walked up to him, and said, "If you don't have respect for God's prophets, to please regard with esteem, God." Another minister in a barber shop heard some one say that since there are no ladies he would tell a shady story. The churchman said, "You had better not for I will have

white hand with many smaller hands upon it with all fingers pointing upward to the Father's House. Like a light shining out of the darkness, while the farther one travels in it the brighter and more illuminating it grows; glowing in time of trouble in the valley, and becoming glorious at the end; lighting up the passage o'er the dark river.

The Spirit-filled homily led three thousand to attach themselves to the church in one day. And when they formally chose the meeting there were five thousand added as its immediate result. However that revival has never come to an end. Is this a little institution you are called upon to join? Not for Jerusalem was its type. The temple was in Jerusalem. The ark the embodiment of redemptive symbol was there. The original and authorized copies of the law were there. (The original was written by the finger of God on Mount Sinai). The altar of sacrifice, and the imposing paraphernalia of the Jewish religion were in Jerusalem. It was the metropolis of the Godly state. David lived in Jerusalem. Most of the prophets taught and predicted there. It was there Christ preached; was tried, crucified and buried. Then rose from the dead at this place and ascended. The first gospel sermon was preached in Jerusalem. And they were the first converts. The Holy Spirit came down in this city. The commission was go—beginning at Jerusalem.

The young man tried to measure Jerusalem. Most of the prophet said he couldn't. But Jerusalem perished as a type and the church took its place. The church is now the center from which diverges the influence of revealed religious truth. Hence 'tis not strange that no young man nor even the sage could measure the walls of the city of Jerusalem for its walls are inclusive of the temple and the temple includes God. Come Sunday morning and join this ancient but ever modern church.

A headlight tester that is said to meet all the standards established by legal requirements has been announced by a leading manufacturer.

5. Surely it was wonderful preaching, because it made them feel in their conscience that they wanted to the better. It touched the heart and emotions. It caused them to ask the question "What must we do?" Like the teacher who said: "If you can teach in such a way as to induce those in front of you to snap back with a question, then you are doing good." When these questions were asked the speaker also told the hearers what to do. Like the young man's question to Dr. Bushnell: "Do you believe the West Minister's Confession?" said the youth, "Yes," replied the preacher. "Then you don't believe the Thirty Nine Articles." "Yes," replied the Minister, "I believe they also."

"Well," said he, "you surely don't believe the Augsburg Confession?" "Yes," said the clergyman, "I believe that and more." Meaning that he believed in God and the Bible. The elder man so spoke and led the young man that he became the world's greatest Sunday school leader in the years to come; Henry Clay Trumbull.

The church with its influence, and ministry is like a large snow

Needlecraft Club Members Meet at Johnson Home

Six members of the Needlecraft club, in addition to the hostess, were present for the meeting at the home of Mrs. Alvin Johnson, 103 South L street, Thursday afternoon.

"Chatting," crocheting, and various kinds of needlework furnished occupation for the group until the tea hour.

A refreshment course was served to: Mmes. O. R. Jeffers, Geo. Phillips, Niles Winter, A. W. Wyatt, W. M. Ford, M. L. Wyatt and the hostess.

HAS BABY A NASTY COLD?

Relieve the Misery As Most Mothers Do

Rub baby's back, chest, and throat with Vicks VapoRub and tuck him deep into bed. What a comfort to know that VapoRub goes to work right away to relieve the misery of his cold without "dosing"—without risk of stomach upsets. And what a comfort to know that long after restful sleep comes, VapoRub will still be working—two ways at once—direct through the skin like a poultice, and direct to the irritated air-passages with its medicated vapors. You'll find that, often by morning, the worst of the cold is over.

YOU CAN BURN A LIGHT FOR ONE CENT A NIGHT!

Burn a Light All Night For Safety-Convenience

Keep a light burning on the porch or inside your home for the safety and convenience it brings. Light is a protection against sneak-thieves and prowlers who usually avoid lighted homes. A light inside the house also is convenient when you get up to see if the baby is covered, or want to avoid sharp-cornered chairs that invariably get in the way.

Give Reddy Kilowatt the job of being your constant and never-sleeping watchman. Your electric rate is so low that his wages for burning a 25-watt bulb from bedtime to daylight are a penny or less.

JUNIOR HIGH SCHOOL NEWS

Written by students of John M. Cowden Junior High School, under direction of Miss Louise Latham

THE JUNIOR HIGH SCHOOL LIBRARY.

In the Junior High School there is a library, completely catalogued and indexed, which was formally opened during the fall of 1937. At the present time it contains some forty-five hundred volumes, representing two hundred different book titles. The library was established by Mrs. Harry Tolbert, and under her supervision a program has been worked out by which each student is given an opportunity to cultivate a taste for reading in general and which, in the majority of cases, leads to a taste for the reading of the best types of literature. During the day every student is given the opportunity to exchange books and, on an average, a book a week is issued to each pupil. A very few students do not care to read, but in many cases more than a book a week is read by the children who avail themselves of the library privileges. Mrs. Tolbert is assisted by student librarians from the sixth and seventh grades. Three librarians are used each period and the boys and girls who have the assignments not only get excellent training in library work but become very efficient in their tasks. The library is not only a very necessary and beneficial asset to the schools, but it is, perhaps, more universally enjoyed than any other unit in the system.

The Junior High School students always welcome visits from the patrons of the schools and especially do they appreciate a visit from one who is interested in this phase of their work, and who will take time to enjoy an inspection of what they feel is the most pleasing part of their program.

THE WEEKLY ARGUMENT.

Girls Should Take P. E.

(By John Sindorf.)

I believe girls should take physical education because they are indoors so much of the day. About the only place they can really be out of doors is at school. If girls do not take P. E. at school they will be abso-

lutely ignorant to the world of sports, and will miss the pleasure and excitement of our modern games in which the whole world is becoming so interested.

All of the games used in P. E. activities require speed, skill, fast thinking, and many other important factors that are good for both boys and girls.

In these days women are stronger physically, and enter the field of athletics more and more each year—for example Helen Jacobs, a tennis champion, and Babe Didrikson, an Olympic star. When a girl is looking for a career, she might as well look to sports as opera. The above mentioned champions are proud of their careers, and I suspect are envied by many of our American girls.

Any girl who doesn't appreciate the privilege of taking physical education as it is scientifically taught in our modern schools is just a few laps behind in being a Miss America of 1939.

They Should Not.

(By Lucille Williams)

I do not think girls should be required to take physical education. They are not so strongly built as are boys; thus there is a danger in a possible injury where strenuous exercise is taken.

Too, such exercise develops the muscular tissue of the body, and girls would eventually look more masculine than feminine. They would become husky and rough looking. Such is not necessary, for a few girls are required to do a man's work, and have no use for the muscular tissue of a prize fighter. Aside from the danger of injury to the elements, wind, sun, etc., causes a rough, ruddy skin which is certainly not prided by any female nor admired by those who have to look at her.

We usually think of girls being more interested in the finer arts. If some talented young lady should wind up with a broken finger or two, or enlarged joints, after a seige of

baseball, there goes her future as a pianist or a violinist.

A certain amount of mild exercise for girls is all right. But as for the strenuous kind on the equal with boys, it is, to my mind, purely ridiculous from the standpoint of health and feminine charm.

Self Respect.

(By Nancy LaForce.)

Self respect means that regard every person's life is as essential as his own. It is an essential for a job and who appears covered with self respect, nine times out of ten will be the first one picked out of a group of applicants. A person with self respect is usually neat and clean to the extent of looking as though he can not be pushed aside or stepped upon by the hardships of life.

In all parents' lives there is a time when he or she fears for the child that they are putting out into the world on their own. If that child has been taught self respect, and that respect is deeply rooted, there is nothing to fear. The boy or girl will hold his or her own in the world, and will in most cases be free of the tarnish that so accompanies our modern way of living.

STUDENTS VIEWS.

Our President as a Humanitarian

(By Buddy Davidson.)

As most of us know, at this time each year there begins the "March of Dimes" on Washington. That is thousands of people send dimes to the President for use in his campaign against infantile paralysis. The founder of this system is our President, Franklin D. Roosevelt. This campaign has become so widely spread that a recent report shows at this early date the fund for this year has already passed forty thousand dollars.

One of the movie stars, Norma Shearer, recently signed a contract with a radio company for five thousand dollars a program. She in turn pledged her money from each program for the infantile paralysis fund. She has already made three appearances. So last week the President received a check for fifteen thousand dollars. In my opinion this money started by the President is one of the most humane efforts ever made by man. Long after President Roosevelt is dead, the campaign will continue and grow. So while most men are forgotten, he will be remembered for countless years as a great humanitarian. Parents whose children have been cured of the dreaded disease, and the children themselves will revere his memory as all people do the memory of such men as Pasteur and others of his kind.

JUNIOR HIGH GYM ACTIVITIES.

(By James Hill.)

Every Saturday morning from nine until twelve o'clock, the gym is open for Junior High boys to play basketball, box, wrestle, or any other activities which they might like to do.

The first two Saturdays we played only basketball, and boxed some. Either Mr. Freels or Mr. Kimbriel will be there every Saturday. The boys of Junior High think it is very nice to have this privilege.

ART APPRECIATION COLUMN.

"The Barefoot Boy"

(By Mary Francis Carter)

Famous old poems, old paintings, and old songs are always the best loved. For instance, the famous old poem, "Barefoot Boy" was brought to my mind this week when a picture called "Barefoot Boy" showed at a local theatre.

The author of the poem, John Greenleaf Whittier, is one of the most human of all American poets. For he was once a barefoot boy himself. He was a great lover of nature. He fished in the streams, he hiked the roads, and was a very carefree boy. He went to school in winter and worked on a farm in summer, but always found time for his best friend, mother nature. He loved every little thing about the woods, the smell of the tree, the grass, the streams and the animals and birds.

Whittier was typical of the American boy of today, with his pantaloons torn at the knees, and his old straw hat ragged and frayed. His face was tanned from being in the sun so much, for he was never happier than when fishing in the stream or hunting in the woods.

So in his poem "The Barefoot Boy" he has immortalized his own boyhood days as well as giving to us an everlasting picture which symbolizes the typical American boy.

WHO'S WHO THIS WEEK.

(By Thelma Jo Brown.)

Lucille Morren has lived in Midland seven years. She went to South Ward until she was in the fifth grade, and has been in Junior High since then. Lucille is also an honor student.

In our P. E. classes she is one of the best. Not only is she a leader among her schoolmates, but is one of the best girl ball players in Junior High. Her classmates all like her, and look to her as an example. The teachers can always depend upon Lucille to have her lessons right up to par.

She has many friends, and all who know her enjoy her friendliness and good fellowship. She is also a student assistant in the Principal's office, having worked in the office all of this year. Mr. Gilbreth, like all the other teachers, is well pleased with her. We really should be proud that we have girls like Lucille in Junior High.

LAND MARKS

The First Baptist Church.

(By Martha Jane Preston.)

The First Baptist church in Midland was organized in the little school house on Baird Street on January 10, 1886 with twenty charter members. Rev. S. B. Callaway was the first pastor. And J. H. Barron, the father of our present county Judge, Elliott Barron, was the first clerk.

The first church building was located on the corner of Marianfeld and Illinois Streets. In May 1892, the building was moved to the present location. Of the charter members Mrs. Barron is the only local member living. It was she who was so kind as to give me this interview as this Midland landmark. The

only other living member is Mrs. E. West Moreland.

Mrs. Barron has all the records of the first organized Baptist church. I give the charter members to you as follows:

- Mrs. C. W. Craft
 - Mr. and Mrs. J. J. McCullough
 - Mr. and Mrs. F. M. Waddell
 - Mr. and Mrs. J. H. Barron
 - Mr. R. Y. Barron
 - Mrs. M. E. Palmer
 - Mrs. Amy Willingham
 - Mrs. M. F. Stanfield
 - Mrs. E. J. Morris
 - Mrs. E. West Moreland
 - Mrs. John Tolbert
 - Mrs. Sallie McKinzie
 - Mr. John Barron
 - Rev. and Mrs. Callaway.
- Pictures of the old school house and the original church building are in the county museum if any of you wish to see them.

FORMER STUDENTS GLAD TO BE BACK.

Bobby Bruce says,

"I am very glad to be back in Midland with my old friends. I have come to school in Fort Worth since October. I made many friends there, but I think there is no one who could make one forget his old friends. All I have to say is that I am glad to be back. I just hope I can stay back."

Janell Bruce says,

"I am surely glad to be back in Midland. Upon arriving here Sunday night, I could hardly close my eyes as I was so excited over getting to see all of my friends and being back in school here. The schools in Fort Worth are all right, but Midland schools are better."

P. E. ACTIVITIES.

(By LaGrant Daugherty.)

The P. E. classes of Junior High are doing fine in the exciting game of schlag ball. We started a tournament, in which the two boys' teams played the two girls' teams. The two losing teams will play for third and fourth places. The two winning teams will play for first and second places. All winning teams will play for the championship of Junior High. They will play from 12:30 until 1:00 o'clock.

Basketball is our next activity. Mr. Kimbriel gave a talk to the boys and girls on the fundamentals of basketball. The girls will continue schlag ball for awhile. The boys will play basketball. Basketball is a very exciting game, and I think we shall like it very much.

TO A PATRIOTIC AMERICAN.

Each Sunday night at the appointed hour the air is filled with the familiar rapidity of dots and dashes of a wireless code. Then comes the super animated greeting, "Good evening Mr. and Mrs. America." This is the salutation of the man, Walter Winchell, who calls himself "Your New York Correspondent." I do not wish to disagree with Mr. Winchell as to his personal choice of title. But in my proposed view of discussion, I should like to entitle, hall, and dub him "Mr. Patriotic American."

It does seem plausible that a first opinion might characterize him as Public Gossip Number one, but to me he is not. His program proper is to amuse the great American public by filling their ears and saturating their over-worked curiosities with inside information on other people's business. How true it is that the majority of our populace revels in it!

On the other hand are there not many of Mr. Winchell's listeners who go beneath the crust of the apparent, and see and feel the realness of the man who speaks, even implores, while the world listens? His every comment tends toward glorifying our great United States, and in expressing the pride and gratefulness that he feels in being a citizen within its boundaries. No red blooded American could listen to his final comments as he goes off the air "with lotions of love," and note the reverence of his tone when he says them, and not be aware that they come from a heart which feels what his words imply.

Mr. Winchell, in my opinion, puts forth the whole of his being to wake up, we shall say, the unappreciative "Mr. and Mrs. America" to the realization of the cherished heritage which they have, and that he says of our United States,

"It is not a place where our arms are to kill the ones we hate, but to hold the ones we love."

"It is a place where our leaders asks us to 'lick' infantile paralysis, and not his boots."

The above quoted are but a mite to the many other beautiful thoughts he has sent out to be interpreted at will.

I say, "Carry on, Mr. Winchell!"

LETTERS BACK HOME.

From a Jug to His Ma.

(By Wallace Covington.)

Dear Ma:

This vawdeville bizness ain't

what it used to be. My jugglin ain't goin' over so hot in this burg.

Yesterday I ketch a few suckers. One of 'em saved logs all through my act. I figured it was a insult to my art, so I up and bouced a jugle ball over his head. This got the boss hot under the derby, so im headin home. I'll be there by Xmas, if I can ketch a freight goin the right way.

Yer loving son,
Jake.

Rome, Italy
Feb. 3, 1939.

My dear Miss Latham,

You remember my promise to write you upon visiting the Wonders of the World while on my globe-trotting excursion. The first one is the Colosseum in Rome.

The Colosseum is a large circular structure which seated 45,000 people. The giant arena was surrounded by rows of seats. A low wall enclosed the arena, and underneath were the rooms for housing men and animals that participated in the feats.

The mammoth unroofed building, originally a place of marble, ivory, gems, silks, and perfumed fountains was for years the scene of combats of gladiators, fights of wild beasts, and the persecution of Christians. As I stood before the ancient ruins, I felt indeed thankful that the pleasures which I enjoy today are not so bloody as they were in the days of Vespalian who started it, and of Titus who finished it in 80 A. D. One could not fail to be impressed with the beauty and grandeur of the ruins. Imagine how magnificent it must have been in its earlier stages! On the other hand, I was filled with horror at the thought of what had taken place within its walls.

My next letter to you will be from Alexandria where I shall visit the Catacombs.

Best wishes,
Janice Pope.

POETS' CORNER.

The Old Home Place.

(By Charles Reader.)

I'd like to go back just for a day To the old home place Where stand great trees in their bright array. The trees whose shadows make a daily lace Upon the soft turf. The place where the trees grow so tall. Even a boy feels, O, so small. I'd like to see the rippling brook. To look in at the little nook Where I used to play. So I'd like to see just for a day That old home place Where the shadows of a tall, tall tree Fans and fans my fantasy.

Yet there are a chosen few Who are content; Who envy not nor even lament. But stand in pride with them Who in reverence hold That God-given heritage— Of a normal mind, a healthy body, And, a soul.

NEWS.

(By Frances Palmer.)

Alla Gene and Glenn Spraws are new ones this week. Alla Gene is in 7C, and Glenn is in 5C.

Dewey Crow is 7B's new member. He has been going to a rural school near Lamesa. Dewey was in school here last year. We're glad he's back.

Bobby and Janell Bruce are back from Ft. Worth at last. Bobby is in 7C, and Janell is in 6B.

John Perkins has returned from a trip to Monterey, Mexico with his parents.

Assembly was cut a few minutes short Wednesday so that we might return to our home-rooms for a clean-up campaign. Hope our visitors will call soon while everything is in good order.

Mrs. Bob Clark, our former art teacher, was a visitor Wednesday.

Miss Farnham was listed in the Castor Oil Club Monday morning. Mrs. Gilbreth was the "pinch hitter."

The sixth and seventh grade students heard Hitler's speech Monday afternoon. Carnet's Radio Sales installed a radio in the assembly room. I suspect we missed a lot of his rambling. Perhaps it's best that we did, or we might have mobilized for action afterward.

Angling is said to be the most popular sport in America. It is thought that 12,000,000 persons in the country engage in the pastime, although only 6,000 obtain fishing licenses each year.

LEGALS

No. 3161 CITATION BY PUBLICATION THE STATE OF TEXAS. To the Sheriff or any Constable of Midland County, Greeting: You Are Hereby Commanded to summon R. C. Bacon, whose residence is unknown, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Midland County, to be held at the Court House thereof, in Midland, Texas, on the Third Monday in February A. D. 1939, the same being the 20th day of February A. D. 1939, then and there to answer a petition filed in said Court on the 6th day of January A. D. 1939, in a suit, numbered on the docket of said Court as No. 3161, wherein Julia Walker Bacon is Plaintiff, and R. C. Bacon, is Defendant, and said petition alleging that Defendant was guilty of both mental and physical cruelties toward her, of such a nature as to render their living together as husband and wife insupportable. Plaintiff prays for Judgment dissolving said marriage relations and for custody of their minor son, Robert George Bacon. Herein Fail Not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same. Given Under My Hand and the Seal of said Court and issued, at office in Midland, Texas, this 20th day of January A. D. 1939. NETTIE C. ROMER, Clerk, District Court, Midland County. (SEAL) Jan. 20-27 Feb. 3-10

No. 3078 CITATION BY PUBLICATION THE STATE OF TEXAS. To the Sheriff or any Constable of Midland County, Greeting: You Are Hereby Commanded to summon C. E. Shumate, whose residence is unknown, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Midland County, to be held at the Court House thereof, in Midland, Texas, on the Third Monday in February A. D. 1939, the same being the 20th day of February A. D. 1939, then and there to answer a petition filed in said Court on the 13th day of May, A. D. 1938, in a suit, numbered on the docket of said Court as No. 3078, wherein R. D. Scruggs, sole owner of the Scruggs Motor Company, is Plaintiff, and N. D. Williams, C. E. Shumate and H. L. Cravens are Defendants, and said petition alleging Suit on note in sum of \$1257.36, dated January 12, 1938, due on demand, and secured by Chattel Mortgage on 8 automobiles to-wit: 1930 Chevrolet Sedan; 1930 Chrysler Sedan; 1935 Plymouth Coupe; 1934 Plymouth Sedan; 1930 Ford Cabriolet; 1934 Chevrolet Truck; 1932 Chevrolet Coach; 1935 Tudor Ford, as more particularly described in Plaintiff's Petition. Plaintiff prays Judgment for his debt in the sum of \$660.00 principal, plus interest, attorneys fees and costs of suit, and foreclosure of his Chattel Mortgage. Herein Fail Not, but have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same. Given Under My Hand and the Seal of said Court and issued, at office in Midland, Texas, this 20th day of January A. D. 1939. NETTIE C. ROMER, Clerk, District Court, Midland County. Texas Has Large Grape Variety

COLLEGE STATION (P)—Texas has more kinds of wild grapes than any other state, says U. A. Rands, horticulturist, grape investigations laboratory, Texas A. & M. Agricultural Experiment Station at Montague. Commercial varieties, many of them developed from these native grapes, thrive over a wide area. The reach program of the Grape Investigations Laboratory has two

AUDITS SYSTEMS TAX SERVICE HORTON & BIXLER ACCOUNTANTS AND AUDITORS 602 First National Bank Bldg. TEXAS OFFICES: Big Spring Lubbock NEW MEXICO OFFICES: Albuquerque Hobbs Santa Fe

The adaptability of certain soils to grape production is strikingly brought out by results of the past growing season at the Laboratory. A total of 2,757 rooted plants were set last spring in both the variety and cultural work. The plants are being grown on a hillside that was terraced before setting. The vineyard was also given clean cultivation. In order to find out what can be done in the way of reducing cost per bushel through increasing yield per acre, sufficient Carman vines have been set to determine the relative usefulness of the three principal ingredients of the complete commercial fertilizer—nitrogen, phosphorus and potash. Quicker results may be expected from the juice work, which does not have to await the growth of vines. Studies of methods of propagation are also fairly rapid.

Rotary "Ringers" Capture Dubious "Game" From Lions

A bunch of "honorary" Rotarians last night came through with a 20-14 win over a Lions club quintet in a hilarious event described as a basketball game.

The Lions had all the better of the battle while eligible Rotarians were in the game but President Lackey of the Rotary "pulled a smart" in the second half by running in a bunch of men who play regularly in the Industrial League.

Jack Childress Wins Title as Featherweight in CG Tourney

By Staff Writer

BIG SPRING, Feb. 3.—The second annual Golden Gloves district tournament came to a close here last night with eight champions being selected to participate in the tournament in Fort Worth.

Jack Childress of Midland won the featherweight title last night by scoring a decision over Dixie Jay of Monahans. Childress, fighting with a dislocated thumb and with both hands swollen to over size, kept flicking left in Jay's face all during the entire fight and scored often with hard right and smashes to the body to capture the crown.

In the flyweight division, little Inez Yanez of Big Spring came through with a close win over Weaver of Kermit for the title. Ellis Reid of Big Spring also won a title by knocking out Ruffian Rhone of Kermit in the lightweight division.

Grand Falls. In the second half the Bulldogs played even with the visitors but it was too late.

Raymond Gee of the Bulldogs and Menefee of Grand Falls divided scoring honors, each getting ten points.

The two clubs meet again tonight in Grand Falls.

The box score:

Midland	Fg	Pt	Reb	Ass	Stp
Arrington	1	0	0	2	
Collier	0	0	0	0	
Gee	5	0	10		
Barton	0	0	3	0	
Dodson	0	0	1	0	
McHargue	1	0	1	2	
Eryan	1	0	1	2

ers of sulphur water daily in the last three feet.

In southern Andrews, Atlantic and Standard No. 1-B Cowden cemented 7-inch pipe at 4,080 feet with 250 sacks and is standing. Total depth is 4,160 feet in line.

Richmond and Wright & McMillen No. 1 Bryant-Link in western Andrews, showed nothing in core from 4,448-65 and is drilling ahead.

Washington, Feb. 3 (AP)—Chairman Dies of the house un-American committee said today a witness had complained justice department agents were intimidating them.

Washington, Feb. 3 (AP)—Rep. Dies (D-Tex.) won the first round Thursday of his fight for an extension of life and additional funds for his committee on un-American activities.

After three days of hearings, the house rules committee approved a resolution continuing Dies' committee until Jan. 3, 1940. Dies had asked an extension until 1941.

No dissenting votes were cast. The committee's action cleared the way for the resolution to go before the house, probably today. Its passage there was predicted by members of the investigating committee.

Dies has asked for a \$150,000 appropriation for the committee, but was reported to have agreed to a compromise by which the accounts committee will cut this to \$100,000.

Before the rules committee's vote Dies—the concluding witness at its hearings—said he would accept responsibility for his committee's mistakes and would do his utmost to continue "an independent, honest and sincere" inquiry.

The telescopic goldfish has eyes which protrude from its head like marbles, but it is nearsighted, nevertheless.
