Good News In Bovina For The Past 44 Years

Search On For Mrs. Friona & Mrs. Bovina

A news release from the Mrs. Texas International Pageant in San Antonio announced the applications are being accepted for the title of Mrs. Friona and Mrs. Bovina International, an official preliminary to the Mrs. Texas International pageant. It will be held March 13th and 14th at the Carver Community Cultural Center in San Antonio.

The women chosen as Mrs. Friona and Mrs. Bovina will serve as ambassadors for the area, receiving a title and sash and will compete for the coveted Mrs. Texas International crown, along with a prize package valued at over \$10,000.

State competition includes personal interview, aerobic wear and evening gown categories, with emphasis placed on community service participation. Local title holders are selected on the basis of submitted information.

Married women between the ages of 24 and 55 who are interested in applying for the title should submit a short biography, including date of birth and date of marriage, as well as family, professional, and community service information, and a recent photo to: Mrs. Texas International Pageant, 14080 Nacogdoches, Box 289, San Antonio, Texas 78247. For more information call 210-590-6877.

WEATHER HAS SURE been a big topic the past several months--even the past several years.

This year, there have been devastating floods in the midwest, too much rain on the West Coast, which has caused mudslides, with loss of homes and lives.

Then there have been thousands of fires in Mexico, which caused smoke to drift as far north as our own area, unusually bad fires in Florida, of all places, and tornadoes, which shifted somewhat east of what has usually been known as "Tornado Alley."

Our particular area has been reeling under the throes of a bad drought, which is culminating with more back-to-back 100-degree days than has been the case for many years.

In fact, practically the entire state of Texas is suffering from lack of rain, which has already caused failure of cotton and grain crops in south-central Texas. I visited by phone with a publisher in Rosebud, which is just south of Waco, and he indicated that most farmers in his area would go without a harvest this year.

We would be in the same boat here, were it not for irrigation, and it's worrisome that the farmers are having to pump so much precious water just to make one year's crop.

Scientists and weather experts have attempted to explain this year's most unusual weather as a side-affect of "El Nino," which warmed the waters of the Pacific ocean to a higher degree than usual, and set most of the above-described weather phenoms in action.

They say that El Nino is moving out, but that "La Nina," its counterpart, is next. I'm not sure what kinds of things La Nina will bring. Who knows--it may be earthquakes and/or volcanoes.

It hasn't been too many years since Mt. St. Helens, which had been a dormant volcano in Washington state, came to life after hundreds of years, and caused much destruction and death in that area.

California has experienced some bad earthquakes within the last several years, none of which were as bad as the one that hit the lower Mississippi River area in the early 1800s, revamping the river's path and creating Reelfoot Lake in northwestern Tennessee. Some of my ancestors had property in an area that is now under about 40 feet of water.

We are about to enter the 21st century of our own man-made calendar, and we'd like to think we have control over our lives and property.

Truth of the matter is that our earth is a "still evolving planet." When you see news blips about bad earthquakes and volcanoes in third-world countries, you need to realize that these things have been going on for hundreds of thousands of years.

We have built cities along fault lines, or in the shadow of long-dormant volcanoes, on the cliffs of Southern California, or on the banks of the large Midwestern rivers, and when a flood, earthquake or volcano erupts, we think it's "bad luck."

As a matter of fact, these things have been happening for millions of years on this old planet. They happened before there were any structures built on top of them, and they'll probably continue to happen long into the future.

Mankind's time on planet earth is like the blink of an eye for earth's history, and we're no likely to stop, or even divert many of these continuing forces of nature.

As Oscar Madison told Felix Unger in one of the old "Odd Couple" TV episodes: "The world is a sloppy place, and it doesn't like for people to try to clean it up."

ROCKET'S RED GLARE.....Bovinans will celebrate the Fourth of July in many ways. Have a safe and sane holiday and remember our county is very dry. Good sense makes happy times!

Principal Hired For High School

The comings and goings of teachers and coaches has caused work for the Bovina school staff and school board this summer.

A high school principal candidate from Austin had been offered the job in Bovina but a better offer from the Austin School District kept him there.

Superintendent Nuttall said that the high school principal position had been officially accepted now by Wayne Erwin, who comes to Bovina from Wimberly, Texas.

Also announced was that Coach Derrick Byrd has resigned his coaching position in Bovina. Head coach Bruce Scroggins is busy interviewing for four coaching positions.

There will be six coaches on staff for the 1998-99 school year instead of the seven positions last year.

RECORDS GIVEN June, '98 Hottest Here Since 1990

The month of June ended with a string of 100-degree readings--eight consecutive days--and became the area's hottest June in at least eight years.

The highest reading was 105 degrees at Friona's National Weather Service's recording station, and this occurred both Saturday and Sunday, June 27-28. However, this wasn't a record, since the mercury climbed to 108 on June 25, 1990. June of '90 was also a hot month locally.

However, the string of eight straight days of 100-degree temps or more eclipsed the 1990 streak, which wound up with five straight days from June 25-29. Ironically, the latest streak of eight days also ended on June 29.

Having registered a pair of 102-degree readings on June 1 and 2 gave the area ten days of the month with 100+ readings, one less day than June of 1990.

The past month's high temperatures contrasts with 1997, when the area never reached the 100-degree mark all summer. In fact, four of the years of the 10-year period ending in 1997 failed to produce a 100-degree reading.

The eight-day hot streak began with readings of 100 degrees on both June 22 and 23. The mercury escalated as follows: June 24: 101; June 25: 101; June 26: 102; June 27: 105; June 28: 105 and June 30: 100.

In June of 1990, the hot readings included June 6: 103; June 7: 101; June 8: 100; June 9: 102; June 19: 100; June 20: 101; June 25: 108; June 26: 103; June 27: 103; June 28: 101 and June 20: 100.

Of the 27 days since 1988 that have produced high temperatures of 100 degrees or over, 22 have occurred in June. Four were in July, and only one--August 19 of 1994--was in August.

5:00 p.m. Volleyball tournament begins at the football field. All volleyball teams must be turned in and paid for by July 1st. \$30 for six people--\$5 per person after six. Contact Suzan for more info at 238-1656.

6:30 p.m. BBQ dinner at football field. At Dark--Fireworks at the football field.

Shingle Dumping Rates Set

The City of Bovina passed an ordinance setting rates for dumping old roofing shingles.

To clarify last week's notification, here are the correct rates:

\$10 for pickups, \$20 for trucks or 16-foot trailer, and \$50 for a 20-yard dumpster.

To dump shingles, contact City Hall to pay the fee and have the dump site opened.

DAVID BOOZER Former Bovinan Wins Award

David Boozer, a former resident of Bovina now living in Denton, Texas, received the Paramedic of the Year award at the Chamber of Commerce banquet.

David moved from Bovina to Canyon when he was a freshman in high school, and went on to Amarillo College.

He is now employed at the Denton Fire Department and is certified paramedic. David's parents are former Bovina residents, Lowell and Kathy Boozer of Canyon and his grandmother is Carlene Jones of Amarillo.

David and his wife, Dawn, are parents of two children, Douglas 8, and Patricia 6.

Drought Conditions Affect '98 Cotton Crop

Predicting the size of the 1998 High Plains cotton crop has been no easy task. This year everything hinges on the amount of acreage that is eventually lost because of extreme drought conditions which have so far dictated the course of the 1998 crop.

After conversations with USDA Risk Management Agency personnel, PCG estimates 1.25 million acres of dryland cotton planted in the region has already been released by Federal Crop Insurance as of June 26.

That means as much as 35 percent of the total cotton acreage expected to be planted on the High Plains this year has already been lost and more acres could follow. This is a big change from the 1997 High Plains cotton crop.

Final figures for the 1997 crop show total production for the area totaled a healthy 3.415 million bales from 3.3 million harvested acres. This translates to an overall average yield of 496 pounds per acre harvested. Acreage abandonment for the 1997 crop was seven percent.

Growers in a number of High Plains counties had another weapon added to their arsenal this week with the approval of Section 18 exemptions allowing the use of Pirate and Confirm for beet armyworm control.

Although no significant

outbreaks have been reported so far, the potential exists for problems to flare later in the season as cotton matures.

Additional information about specific aspects of the Section 18 for Pirate and Confirm can be obtained from the Texas Agricultural Extension Service.

The Section 18 is effective through September 30, 1998 in the following counties: Bailey, Borden, Castro, Cochran, Crosby, Dawson, Floyd, Gaines, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Mitchell, Parmer, Scurry, Swisher, Terry, and Yoakum.

Thelma Shelton Is Buried In Friona

Funeral services for Thelma Ruth Shelton, 76, of Friona were held Tuesday morning at First Baptist Church with Rev. Waide Messer, Pastor officiating and Bobby Griffith of Lubbock.

Burial was in Friona Cemetery, under the direction of Ellis-Blackwell Funeral Home.

Mrs. Shelton died June 28, 1998 at Baptist-St. Anthony's Hospice in Amarillo. She was born November 5, 1921 in Wichita Falls. She married Luther Shelton January 16, 1942 in Clovis, New Mexico.

She was a member of the First Baptist Church of Friona. She lived in Friona since 1954 moving from Amarillo. She was a homemaker.

Survivors includes her husband, Luther Shelton of the home; two sons, Jerry Shelton of Green Bay,

THELMA SHELTON

Wisconsin, and Tom Shelton of Amarillo; two grandchildren, Russ and Chris Shelton and one great-grandchild, Madeline Shelton.

The family suggests memorials to Baptist-St. Anthony's Hospice of Amarillo.

Owners Of Pets Should Take Extra Precautions

With temperatures reaching past 100 degrees in the Panhandle, pet owners should take extra care in ensuring that their pets are safe from the blazing heat, according to Janice Fielding, executive director of the Amarillo Humane Society.

Providing pets with plenty of fresh water and open shade are the most important things pet owners can do to protect their pets, she said.

"If you can keep them inside when it's really hot, that's better," Fielding said.

But for people who cannot let their pets indoors, they need to keep that water dish full and change it frequently, she said.

"A lot of people will stick out the water for two or three days," Fielding said. "On a really hot day, a small, shallow container will get hot really fast."

Pets also need access to a shaded area open to a breeze, she said. They should not be put in sheds.

Putting the water dish in the shade will help keep the water cool. And that cool water is essential in preventing heat exhaustion and heat stroke in pets, according to Amarillo veterinarian Patricia Chase.

"Dogs and cats don't sweat...so the only way they have to cool themselves is by panting," she said. "They'll go through lots of water because when they pant, they lose moisture."

Chase said wading pools also can help pets cool off.

"If a dog is big enough and likes water, get a wading pool," she said.

People who keep their dogs on chains should be especially careful in making sure that the dog has access to its water and shade, Fielding said.

Chase said the best time to feed and walk animals is in the morning when temperatures are cooler.

410 *Facts About The* **BIBLE** BY JOHN LEHTI

This is a dramatized version of facts taken from the book of I Samuel intending to show some of the customs of these ancient and traditional times

SAMUEL AND SAUL
SAUL, ON HIS JOURNEY HOME, MEETS WITH A COMPANY OF HOLY PROPHETS AND PROPHESIES WITH THEM JUST AS SAMUEL HAD FORETOLD HIM HE WOULD, NOW....

... HAVING LEFT THE PROPHETS, SAUL AND HIS SERVANT CONTINUE HOMEWARD...

BEHOLD, WE ARE ALMOST THERE!

... AS SAUL REACHES HOME, HE MEETS HIS UNCLE ...

WHITHER WENT YE? TO SEEK THE LOST ANIMALS - WHEN WE COULD NOT FIND THEM WE WENT TO SAMUEL!

AND SAUL TELLS HIS UNCLE OF ALL THE WONDERS THE PROPHET PREDICTED FOR HIS JOURNEY HOME - BUT, BEING A MODEST MAN NOR WANTING TO BE LAUGHED AT, HE SAYS NOTHING OF BEING PICKED TO BE KING!

BUT, EVEN AS SAUL SLIPS BACK INTO THE HUM-DRUM EXISTENCE OF EVERY-DAY LIFE, THE WHEELS OF DESTINY SPIN ON, FOR SAMUEL HAS CALLED THE TRIBES OF ISRAEL TO GATHER AT MIZPEH...

SPEED MY MESSAGE TO ALL THE TRIBES OF ISRAEL, FOR BEHOLD, THE TIME HAS COME!

Next Week THE GATHERING!

Scooter's Scoops

By SCOOTER RUSSELL

Seems this hot weather just goes on and on, day after day it is over 100 degrees. We had a lot of damage from a hail storm recently and there are a lot of roofing going on. That's got to be a hot job these days.

We're happy to still have the Stormes' daughter, Tammy and her baby daughter, Tiffany, safe. They were involved in a one vehicle accident on their way to Morton, when Tammy turned on a curve, over-corrected and lost control, rolling her pickup truck.

Both she and Tiffany were buckled in and Tammy received some bruises but no serious injuries. An ambulance was called and they were taken to the hospital, treated and released.

Carlene Jones came in with a picture and information about her grandson, David Boozer. He was honored with the "Paramedic of the Year" award received at the Chamber of Commerce banquet, held in his hometown of Denton.

David grew up in Bovina and left here when he was a freshman in high school. He is married with two children and his parents are Lowell and Kathy Boozer, former Bovina residents now living

in Canyon.

Emmagene Calaway's nephew and his family, Lynn and Jane Wells and children, Channy and Hailey of Boulder, Colorado spent a day and night with her in Bovina. Emmagene said they will be moving soon to Moscow, Russia in July.

Lynn works for an advertising company and they will be in Russia for at least two years.

Dottie Ward spent almost two weeks in Amarillo recently with daughter, Billie and her husband, Ken Harrison. While in Amarillo, she spent time with all of her grandchildren, Kathy, Sharon, and Steven, who live in the area and also with her great-granddaughter, Kiley.

Lowell and Kathy Boozer of Canyon spent the weekend with Kathy's mother, Carlene Jones. While here, they went to Farwell and got Carlene's son and daughter-in-law, Don and Vicki Jones and drove to Clovis and had supper at Leal's Mexican food restaurant following the evening services at church.

Mary Trienen came home from the hospital after having an appendectomy and spent four days at the Hereford Hospital. She is back at work and feeling fine.

Marie Venable underwent surgery to correct a hietal hernea. She said she got along fine and was released shortly.

The following was taken from a newspaper up north and I thought it was worth sharing.

Differences Between The Sexes--
Success...A successful man

is one who makes more money than his wife can spend.

A successful woman is one who can find such a man.

Style...Men wake up as good looking as they went to bed. Women somehow deteriorate during the night.

Money Management...A man is a person who will pay two dollars for a one dollar item he wants.

A woman will pay one dollar for a two dollar item she doesn't want.

Happiness...To be happy with a man you must understand him a lot and love him a little.

To be happy with a woman you must love her a lot and not try to understand her at all.

Marriage Expectations... A woman marries a man expecting he will change, but he doesn't.

A man marries a woman expecting that she won't change and she does.

Marriage and the Future... Men marry because they are tired. Women marry because they are curious. Both are disappointed.

Marriage and the Future... A Woman worries about the future until she gets a husband.

A man never worries about the future until he gets a wife.

Memories...A woman will always cherish the memory of a man who wanted to marry her.

A man cherishes the memory of the woman who he didn't marry.

Understanding Women...There are two times when a man doesn't understand a woman--before marriage and after marriage.

Mel Clark's Funeral Services Are Held June 20 In Bovina

Melvin O. "Mel" Clark, 71, a resident of Bovina, died Thursday, June 18, 1998. Services were at 10 a.m. Saturday, June 20, 1998, at the First Baptist Church in Bovina, with Rev. Gary Morgan officiating.

Military graveside services were held on June 21 at Cherokee Cemetery at Cherokee, Oklahoma by Clark Funeral Service of Beaver, Oklahoma.

Clark was born in Aline, Oklahoma to Edward and Mary Clark. He was a Navy veteran of World War II. After his service years he attended Mortuary College in Dallas.

After working several years in the funeral industry, he worked in several different occupations. In 1968 he moved to Beaver, Oklahoma and worked at the Goodner Funeral Home, which he purchased in 1974. He was the founder of Clark Funeral Service.

In 1983, Mel moved to Bovina and became a police officer. He later became a reserve deputy for Farmer County.

Mel enjoyed life and it was his main goal to bring a little laughter and cheer into each life he touched. He never met a stranger and was ready to lend a helping hand or a listening ear to each person that he came in contact with. Mel's friends were many and he valued each and everyone of them.

His first wife was Jo Ann Scherer, and after their divorce he married Billie F. Teten. After their divorce he married Pam Webb Taylor in 1987.

He was preceded in death by one daughter, Linda, and one brother, Eddie Clark of Abilene, and one grandson Andrew of Beaver, Oklahoma.

Survivors include his wife, Pam, four sons, John Clark of Oklahoma City, Alan Clark and Mel Clark II of Beaver,

Oklahoma and Danny Clark of Stafford, Kansas; two stepdaughters, Melissa Taylor of Bovina and Tammy Moses of Goldsboro, North Carolina, a twin brother, Marvin Clark of Cherokee, Oklahoma; nine grandchildren, five great-grandchildren, and six stepgrandchildren.

Choose quality of steel roofing from Cover-All Home Pros

If your roof has suffered damage because of hail storms in the area, don't settle for less than the best for your new roof--permanent steel roofing installed by the professionals at Cover-All Home Pros of Lubbock, telephone 748-1822.

In West Texas, spring and summer storms are sure to mean a hail shower or two. From tiny pea-sized stones to those as huge as softballs, hail can cause major damage to your home's roof.

Maybe your roof has already suffered hail damage. Or maybe, you dread the storm season, constantly watching the sky and worrying if your old roof is strong enough to last one more year. Either way, you need to call Cover-All Home Pros today for a solution.

Cover-All Home Pros offers homeowners the superior quality and long life of 26-gauge, double-coated steel roofing. This roofing carries a 20-year warranty on both labor and materials and will add beauty and value to any home. Steel roofing will end your roofing worries and "very well could be the last roof you ever need."

The roofing professionals at Cover-All say steel roofing is an excellent choice to combat hail damage on your home. The staff reports that steel roofs installed on area homes suffer virtually no

damage during even the fiercest hail storms. Even after the worse abuse Mother Nature can dish out, steel roofs still look great.

Quality steel roofing from Cover-All Home Pros offers several important advantages over traditional roofing. For example:

- Steel roofing is durable and offers a long-lasting alternative to composition roofing.
- Steel roofing has a low life-cycle cost and will not crack, shrink, curl or corrode.
- Steel roofing is energy efficient. Steel roofs reflect radiant heat, which translates into savings on cooling costs.
- Steel roofing is fire resistant and offers protection from wind-blown sparks.
- Steel roofing is wind-resistant. When properly installed, steel roofing offers significant reduction in the potential for wind or storm damage.
- Steel roofing may reduce your home's insurance cost. Local homeowners report discounts of up to 10 percent off on their homeowners' insurance with the installation of a new steel roof. Please check with your personal insurance agent for details about potential discounts.

And don't forget that steel roofing also adds value and beauty to your home. Steel roofing from Cover-All is available in a range of

colors and styles to update and enhance your home's exterior. Steel roofing is suitable for all architectural styles and may be used on mobile homes, as well.

For a no-obligation consultation about the benefits of permanent steel roofing, contact Cover-All Home Pros. The firm has many years of experience working with steel roofs and uses only trained, qualified personnel for its installations.

Visit Cover-All Home Pros today in their newly-remodeled showroom at 6716 Cedar Ave., telephone 748-1822 or 1-800-248-1149. The firm is located one block south of the Slaton Highway on Cedar Avenue. Homeowners will be pleased to learn Cover-All offers 100 percent financing with no down payment and low monthly payments to homeowners who qualify. In addition, the firm works with insurance companies on roof replacements.

If you have ever considered the addition of a steel roof to your home, now is an excellent time to act. Certainly, if your current roof is damaged, don't delay. Putting off roof repairs only worsens the problem, so act now. Contact Cover-All Home Pros for information about the benefits of top-quality steel roofing.
