

10 PAGES THIS WEEK

THE KERRVILLE ADVANCE

VOL. 4.

KERRVILLE, TEXAS, THURSDAY, NOV. 18, 1915

NO. 10

Ingram Locals.

(Regular Correspondence)

Miss Lena Denton and Mr. Tom Peterson were happily married last Wednesday night at the home of the bride. Judge Wallace of Kerrville performed the ceremony.

Messrs. R. E. McDonald and Joseph Garber spent part of last week hunting on the Upper Guadalupe. They report game scarce.

Mr. John Henderson reports fine big buck; also Mr. Henry Pridgen reports the same good luck.

The meeting at the Christian church closed Sunday night. There was much interest manifested during the week. Rev. Baker is an interesting speaker.

Mr. Charles Leinweber happened to a slight accident last week by getting his arm sprained.

Mr. Charles Archer's mule ran away with his buggy Sunday, throwing him out, spraining his ankle and bruising him considerably.

Uncle Peat Lowrance passed through town Saturday on his way to his ranch.

The Ladies' Aid here prepared a box last week for the Buckephans' Home.

On Thanksgiving Day there will be dinner on the ground at the Ingram school. On Friday following there will be a play at the school for the benefit of the school. Everybody come, and bring some with you.

Uncle Gip Dowdy died Friday evening. He was 91 years of age on the 15th of this month.

Thanks to Firemen.

The Kerrville Light, Heat & Power Company desires to express thanks to the Kerrville Volunteer Fire Company and other citizens who turned out so promptly to fight the fire at its plant Tuesday.

T. HOLDSWORTH,
Manager.

Thanksgiving Service.

Union Thanksgiving Services will be held in the Baptist church Thursday, November 25th, at 10:30 a. m. Rev. Riddle will preside. In addition to the music, the following order of service will be observed.

Invocation, Bishop J. S. Johnston; Reading Proclamation, Bishop Johnston; Scripture Lesson, Rev. B. Schleifer; Sermon, Rev. S. W. Kemmerer; Prayer, Rev. W. P. Dickey; Benediction, Rev. B. Schleifer.

The offering taken will be divided between the churches for the benefit of the poor.

A cordial invitation is extended to the citizens of Kerrville to participate.

Moves to New Quarters

Lee Mason & Son, the Ford Sales Company, have moved to their new building just completed on West Water Street, adjoining the Kerrville Livery Stables.

The new building is large and well lighted, has plate glass front, lavatory, toilet, and nice office and store rooms, beside the large display room for their Ford cars. In the short time the Ford Sales Company has been in business in Kerrville it has demonstrated the need of a well equipped supply house where all parts of the Ford can be secured and put in place. They will soon have their machinery in place and be ready to do repair work of all kinds.

Another Fire.

The fire alarm Tuesday afternoon called out the department and a large crowd of people to the light plant where a big blaze was eating up the iron-clad building near the plant which was formerly used as a laundry building. The flames had gained such headway and the fire boys were so delayed on account of defective hose, that the building was entirely consumed. Luckily the building was practically empty.

Medina Local Notes.

(Regular Correspondence)

Miss Maggie Scallorn has not yet returned to her school which was closed on account of an epidemic of throat trouble.

Rufus Hodges and Nath Baker left Friday for Port Arthur.

Mrs. T. C. Rayfield visited at Bandera a part of last week.

Mr. and Mrs. J. H. Whitmore, former Medina people, have returned after a considerable residence at Port Arthur.

A Box Supper held at the Jones School the night of the 13th, was well attended and netted about \$20.

A. E. Porter of Beaumont is here visiting his brother, J. R.

Mrs. Sarah Lumpkin of the Wallace Creek community, died last Thursday at the age of 62. Friday afternoon she was buried in Oak Rest cemetery near Medina, Rev. S. F. Marsh conducting the services.

Mrs. Lumpkin had been a sufferer for many years from chronic bronchitis, to which she finally succumbed. Throughout her long illness she displayed that patience and fortitude which we rejoice to see in a Christian woman. The bereaved husband and sons and daughters have the sympathy of all their friends.

A light rain preceded the norther which blew up Sunday morning. Jack Frost's first visit left ice in the chicken troughs before the sun was up the 15th. Many considered this an indication that the sign was right for butchering.

More hunting parties report game very elusive, but a morsel of venison has been brought to town.

There will be no school Thanksgiving forenoon, but in the afternoon the children will render a program. A large attendance of the patrons is expected.

A Mr. Cox of Millet has been visiting C. W. Fisher several days. It is said that Mr. Cox will soon put a stock of goods into the building recently vacated by A. L. Bandy.

Handed Us a Lemon.

W. D. Wardlow, who is just back from the Lower Rio Grande Valley, walked into our office Tuesday and handed us the biggest lemon we have ever seen. It measured exactly 20 inches in circumference, and was grown near Brownsville, where he says the trees hang full of them just as large. He told us that this lemon would make at least twenty fine pies and was delicious to the taste. Our appetite for lemon pie was becoming almost uncontrollable when Mr. Wardlow put the lemon back in the sack and walked out, thereby "handing us a lemon" in another sense of the expression. He said he wanted to hand it to some one else.

Epworth League.

The following is the program of the League for Sunday, Nov. 21:

Subject—How can we Show Our Gratitude?

Hymn No. 464. (Red Book)

Prayer.

Leader—Clifford Payne.

Scripture Lesson—Ps. 40: 9-11;

and Ps. 116: 12-15.

Vocal Solo—Ethel McKiddy.

Topics:

I. The Basis of Gratitude—Lucile Palmer.

II. How can we show our Gratitude?—Paper by Mrs. Moos.

Scripture Reading—Ecc. 5: 4-5—Bryan Freeman.

Hymn No. 59.

Announcements.

League Benediction.

Our New Stock of Fall and Winter Dress Goods will compare with the best and prices are reasonable. Call and look through whether you buy or not.

Mosel, Saenger & Co.

Tivy High School Notes.

The program rendered by the Parent-Teachers Club last Wednesday evening was attended by an enthusiastic audience. The subjects discussed were most interesting and helpful. Mrs. Geo. B. Peyton, President of the Federated Mothers Clubs of San Antonio, gave a splendid address which was highly appreciated. The next program will be a good one.

The "Indians" rendered their program to a full house Friday afternoon. The debate, "Resolved that Stealin' Chickens Aint no Crime," was most laughable and the black-faced participants acquitted themselves admirably.

The Barbarians will have their next program Friday, November 26. It will be published next week.

Basket Ball.

The basket-ball game here last Saturday between the Kerrville and Center Point High School teams was very interesting and was witnessed by a large crowd. The honors were carried off by Kerrville by a score of 16 to 7. The C. P. girls took their defeat good naturedly and in fact, won the admiration of all; they played well and looked like it was only by dire good luck that Kerrville won. The splendid goal pitching of Myrtle Kotzebue for the locals was no doubt the feature which gave Kerrville the honors, although the team work was good.

The following was the line-up of the two teams:

Kerrville
Center Point
Forwards
Myrtle Kotzebue
Angelina Wharton
Leah Buckner
Verna Burney
Quarters
Ruby Hicks
Bettie Burney
Ina Coleman
Pearl Rees
Centers
Mamie Heinen
Reta Bruff
Hilda Hamilton
Laloie Kendall
Referee: Miss McCorley of Center Point.
Umpire: Miss Willie Amie Williamson of Kerrville.

Automobile Register.

No. 221, W. H. Witt, of Center Point, Maxwell.
No. 222, John H. Ward, of Kerrville, Ford.
No. 223, Mrs. J. W. Nelson, of Center Point, Dodge.
No. 224, Lee Brandon, of Kerrville, Studebaker.
No. 225, W. H. Bonnell, of Camp Verde, Ford.

Baptist General Convention.

The Baptist General Convention of Texas meets in Austin today. The Pastors' Conference and Women's Missionary Union began its sessions Tuesday morning preceding the Convention. The sessions are being held in the Capitol Building.

The Kerrville Baptist Church is represented by Rev. J. B. Riddle, the pastor; Rev. and Mrs. A. P. Robb, and Miss Graves Dewees.

Baptist Ladies' Aid.

On Tuesday, November 16th, the Baptist Aid and Missionary Society held their monthly missionary meeting at the home of Mrs. A. B. Williamson.

The meeting was called to order and 13 members and 2 visitors responded to roll call. An interesting program was rendered, consisting of readings and special music. Miss Ethel Williams favored us with a beautiful piano selection; Mrs. J. Ash read a splendid paper on temperance, a subject which touches the key note of every Christian woman. Our hostess served delicious refreshments, assisted by Misses Williams and Williamson.

Free will offering, \$3.25.

Press Reporter.

Camp Verde Letter.

(Regular Correspondence)

A. D. McBryde made a flying trip to the Alamo City Friday, returning Saturday.

We are sorry to report D. C. Reeves not doing so well as he has been.

J. C. Baxter and Ivey Rees were Kerrville visitors Saturday.

Mrs. S. A. Rees went to Kerrville, Saturday to visit her son for a few days.

A. Eakin, wife and daughter, Miss Eula, of Center Point visited on the Verde Friday.

Ivey Rees and G. C. Sutherland made a business trip over in Bandera county Thursday.

Chester D. Dickey and family and Mrs. W. H. Bonnell were Center Point shoppers Friday.

Bro. Meredith, the new Methodist pastor, came out and preached for us Sunday afternoon. F. F. Cooke accompanied him.

T. A. McBryde and wife of Center Point, and Miss Ella Dale of Alabama, were Camp Verde callers last Friday.

Oliver Gross from on the river came over Monday afternoon to Roy Nowlin's for a load of hogs.

Dr. Merritt was called out Monday to see Mr. Roy Nowlin's baby, who is ill.

John Reeves and Mac Dozier left for the Medina dam Tuesday morning for a few days' fishing.

TO CURE A COUGH REMOVE THE CAUSE

☞ Coughs are a result, not a disease. They are the result of inflammation, caused by a cold, invading the delicate capillary air tubes in the lungs. ☞ All of the narcotics in the world will not change the condition; they simply deaden the senses and afford temporary relief.

MOUNTAIN PINE COUGH SYRUP

allays inflammation and promptly corrects the condition in the lungs and bronchial tubes which causes the cough. Don't drug a cough. Use Mountain Pine Cough Remedy—it removes the cause.

ONE YEAR'S SUPPLY OF MAGAZINES 10c

DO YOU KNOW that hundreds of publishers would be glad to send you a free sample copy of their Magazine if they only knew your address. It is our business to furnish Publishers only with the names of intelligent magazine readers. If you will write your full address VERY plain and send us ONLY 10 cents (in silver) or money order, we will send your name to several hundred publishers within a year, who will send you FREE sample copies of hundreds (yes several hundreds) of the leading Standard Magazines, Farm Papers, Poultry Journals, Story Magazines, Reviews and Weekly Papers, Mail Order and Trade Publications, Housekeeping Magazines, Fashion Journals, Illustrated Magazines, and, in fact, about all kinds of high-grade interesting magazines coming to you in most every mail for over a year, and all for ONLY 10 cents (in silver).

WE-DO-AS-WE-SAY
 So send a silver dime at once, and your name will go on our next month's circulating list, and you will be greatly surprised at the results, as we assure you that you will be more than well pleased with the small investment. And you WILL NEVER regret it. Address the Magazine Circulating Co., Box 5240, Boston, U. S. A., Circulating Dept., 40M. DON'T fail to write YOUR full address EXTRA plain. We have something in store for you—as a real surprise—if you will please let us know in what paper you saw this advertisement.

and France Determine to Press Balkan Campaign.

The Serbians in the North are still in retreat before the Austro-Hungarians and Germans, having fallen back, according to their latest communication, to defensive positions to the South and East of Kralievo, and to the East of Ivagnitza, which would indicate that the fears expressed in an Italian newspaper dispatch that they might be cut off are unfounded.

Nothing has come through to show the existing situation in the South, where the Anglo-French forces are co-operating with the Serbs against the Bulgarians, or from the Montenegrin theater, where the Austrians and Montenegrins have been at grips for some time, with varying successes. Further advances for the Russians against the Germans in Northwest Russia are reported by Petrograd. Kemmern and Anting, to the West of Riga, have been captured by the Muscovites and in the same district an advance has been made by them to the West of the town of Raggatz. Heavy losses were suffered by the Germans in the fighting around Kimmern, as likewise was the case in the district of Iskull, where ten German attacks were repulsed.

Little fighting has been going on along the Western front in France and Belgium or in the Austro-Italian zone, except by the artillery of the contending sides.

Dr. Von Bethmann Hollweg, the German Imperial Chancellor, has told the Socialists that the people of Germany could be assured that the "hopes of the Entente powers of starving Germany would be disappointed."

According to the Overseas News Agency of Berlin, the Greek Premier has informed the Bulgarian Minister at Athens that it is the Premier's sincere desire that the friendly relations between Greece and Bulgaria be maintained. Greece, the Premier added, was not preparing to attack Bulgaria.

London—The continued landing of British and French troops at Saloniki is causing some uneasiness in Bulgaria and Turkey and the ministers of those two powers today again protested to the Greek Government, which took formal notice of their protest.

The determination of the Entente Allies in their Balkan campaign is shown by the large force they are sending to the Balkans and news has been received from Rome that Italy also had decided to intervene in this region "in a manner worthy of her greatness" and to give sufficient support to the British and French to assure a complete triumph. This is said to have had some influence on Greece and Roumania. Roumania, however, is waiting for the developments of the Russian plans.

Meanwhile the Austro-Germans and Bulgarians are advancing slowly in their efforts to cut off or annihilate the Serbian army. These efforts, however,

are growing more difficult as the Serbians now have occupied, according to their official report, defensive positions South and East of Kralievo and East of Ivagnitza, and on the Eastern front on the left bank of the Southern Morava, where heavy fighting is in progress. Big battles also are proceeding in the South between the Bulgarians and the Anglo-French, but the reports are so conflicting that it cannot be said which side has gained an advantage.

Outside the Balkans, the most important theater of operations is now along the Eastern front. In the North the Germans apparently have abandoned any hope of reaching Riga and Dvinsk, at least until the ground freezes, and are falling back or are being driven back from the Dvina, which was their objective.

The Russians in the Riga region are attempting an outflanking movement and their recent successes have brought them within striking distance of the Tukum-Mitau Railroad, which connects the German fighting front with the Fortress of Windau.

The Germans are also falling back before Dvinsk as the result of the Russian offensive near Lake Swenton, while in the South, General Ivanoff has continued to harass the invaders by repeated thrusts, which, during the past five weeks, according to Petrograd dispatches, have brought him nearly 130,000 prisoners. In the most recent of these thrusts, near Rudka, the bag totaled 6,000, many of whom were Germans.

The Italians keep up their offensive on both the Trentino and Isonzo fronts and are making another effort to take Gorizia, which has withstood them for so long.

AUSTRIAN AGENTS ACCUSED OF MISCONDUCT

Washington, D. C.—Published charges, attributed to Dr. Joseph Goricar, former Austro-Hungarian consul at San Francisco, that Austrian consuls in the United States, working under the direction of Consul General Von Nuber and Count Von Bernstorff, the German ambassador, are active in propaganda for destruction of munitions factories and fomenting strikes among the workers, will be referred by the State Department to the Department of Justice for investigation. The Austrian embassy here denounced Goricar's published statement as untrue in every particular and announced it would try to find some way to prosecute him for it. Goricar, the embassy said, left his post at San Francisco and failed to return. Secretary Lansing declined to comment. The Department of Justice has nothing definite on the charges attributed to Dr. Goricar.

In substance Goricar is credited with making the statement that he resigned his post after fifteen years in the Austrian consular service, because he declined to perform the work of a spy. He charges that while consul at San Francisco, Commander Maximilian Burstyn, Austrian naval attaché at Washington, ordered him to gather plans of the fortifications of San Francisco harbor and along the Pacific Coast, and to get especially details of the work at the Bremerton navy yard. When he refused, Goricar is credited with saying he was transferred to Berlin, where after five months, he was ordered to proceed to Vienna, which he feared to do because of his pro-Slavic affiliations, so he fled to Rome, where he resigned last December.

Goricar's story concerning the German ambassador working with Von Nuber, is in touch with the American consuls at Cleveland, St. Louis, Pittsburgh, St. Paul, Chicago and Philadelphia, who spread propaganda among the foreign workers in the munitions factories and such activity, Goricar, alleges, extends even to controlling the foreigners through fraternal and secret organizations. The alleged extent of the activities of the Austrian consuls and the so-called spy system are described at length in Goricar's published statement.

Goricar's record shows he first came to this country in 1907, and was consul at Pittsburgh, Denver, and, finally, at San Francisco, where he served three years.

The Austro-Hungarian embassy issued the following statement: "Ex-Consul Dr. Goricar, formerly at San Francisco, had been temporarily attached to the Austro-Hungarian consulate general in Berlin, Germany. There he obtained knowledge that the Austro-Hungarian authorities had received information about his secret connection with the enemies of Austro-Hungary and disappeared. Later it was learned that he was staying at Rome, from where he tendered his resignation, thereby preventing his dismissal.

"When he was in Rome it was ascertained that he was in close relation with Russian and Siberian agents, obviously with the purpose of going to the United States to use his knowledge in the service of the Pan-Slavic propaganda and with the intention of disseminating disloyalty among our immigrants against their country of birth.

"The Austro-Hungarian embassy has been informed that a number of Southern Slavs from the Monarchy have been enlisted by the agents of the Allies and have left this country to fight against the Austro-Hungarian army. It is very probable that Dr. Goricar's subversive activity contributed to the very regrettable acts of treason which certainly, without changing the outcome of the war, will be of the gravest consequence for those who may be prisoners of war.

AT THE
Majestic Theatre
SAN ANTONIO

LATE STARS OF LIGHT
OPERA AT MAJESTIC

San Antonio—An advance notice says:
"Recent stars of light opera are the headliners of the next week's vaudeville bill of seven acts of quality at the Majestic Theatre, beginning with Monday's matinee. They are James Morton and Frank Moore, who were features of 'The Tik Tok Man of Oz,' in which their roles they are said to have scored notable successes. Singing and dancing and eccentric comedy with a novelty and a freshness that are said to lend the act a distinct and individual character make up the offering."
"Morton and Moore are exceedingly young men to have behind them the record of achievement they possess. They received their first theatrical training on the vaudeville stage, but went to standard high-class teams where their services were always in demand, the light opera producers began to bid for contracts and feature them in musical comedies. Each of the pair possesses a richly beautiful voice, a wonderful pleasing personality and a pair of legs and feet that are nimble and graceful in dancing. It is said they are fitted especially well for musical farces."

"Morton and Moore, since their return to vaudeville, have been headlining pretentious programs all over the country, meeting with especially notable success in his city nephew and the hapless B. F. Keith and the Orpheum circuits, most of which they began at the Palace Theatre, New York City."

"Belle Blanche, pretty, talented, charming, is expected to vie with the headliners for first honors. She is presenting songs and impersonations of the greatest stage celebrities, confining herself to no one particular branch of the art. Miss Blanche is recognized as one of the foremost artists of her day in the particular line that she follows. She possesses an exquisite voice and her repertoire of songs, ranging from grand opera to the lightest popular music, is said to be exceedingly well chosen."

"Bryand Cheerbert's Marvelous Manchurians are five all-round athletes, jugglers, magicians and Oriental entertainers. They perform innumerable unusual feats of strength, acrobatics and equilibrium. Probably the most spectacular feature of their offering comes when the men are hoisted by a rope tied to their queues twenty feet above the stage. They then go through all manner of evolutions and contortions. All of the Chinamen are natives of Manchuria. They have been working together under the managerial wing of Cheerbert nine years. He has exhibited them in every quarter of the globe, with the exception of the United States, this being their first tour of this country."

"Billy McDermott bills himself as 'the last survivor of Coxey's army.' He is a tramp comedian. There are only a few of them left and he and Nat Willis rank as the greatest of all. There are just as laughs in McDermott's logue as there are patches in tattered clothing. A story

that he tells of the memorable march of 'General' Coxey's army of weary walkers to Washington takes precedent over all his other yarns.

"John B. Gordon, in writing 'Knight and Day,' the playlet in which he is appearing, hit upon an idea that is said to be as fresh as the dew and he is said to have worked it out in refreshingly novel manner. The plot has to do with two men, whose names are Knight and Day. Instead of being entirely different in tastes and temperaments, they are most congenial and similar in all their mental processes. In the little drama a domestic tragedy is turned into a bit of comedy that has a distinct and appealing charm."

"John R. Gordon is a recruit from the legitimate stage. He has appeared in several notable successes, but is best known as a stock actor. Gordon's supporting company is said to be exceptionally strong. The cast includes C. H. McKenney, who several years ago was one of the most noted football players in the country."

"A repertoire of instrumental and vocal selections, ranging from grand opera to light popular compositions, is offered by the Muedelsch-Pour. Each member is said to possess a rarely beautiful voice."

**ACCUSED OF FRAUDS
IN WAR CONTRACT**

London—John Wesley Dekay, New York has been remanded on the charge of fraud in France connection with the supplying of rifles to the Belgian Government. Bail was not allowed. The inspector who arrested Mr. Dekay testified that when the warrant was read to him, he declared:

"There is no foundation to the charge. There was nothing wrong in the transaction."

It was stated that an agent of Dekay named Charlier had been arrested in France.

Corney Matthews, in making application for bail for his client, said: Dekay was a substantial man who had lived in England for years. His house, he said, was insured for \$55,000. Mr. Matthews added that Dekay knew Charlier had been arrested, but Dekay had made no effort to evade being taken into custody.

John Wesley Dekay was born near New Hampton, Iowa. He is an author and is a member of several New York and Boston clubs. For some time he headed the American National Packing Company. In the spring of 1914 he went to Europe on a mission to purchase arms and ammunition for the Government of Provisional President Huerta.

ABOUT THE FARM

Cheaper Cow Feed.

We hear a great deal of complaint just now from those who have dairy products to sell of the high cost of cow feed—meaning cotton seed, of course. The average farmer thinks it would be folly to try keeping milk cows unless he has plenty of cotton seed to feed them; and with cotton seed and \$43 and upward per ton he knows he cannot afford to keep them.

Hay and all kinds of roughness were perhaps never cheaper. A grain dealer who usually ships out several car loads of hay every season told the writer a few days ago that he was only offered \$5 per ton for the best Johnson grass hay.

Every farmer seems to have lots of second-crop sorghum; grass is better now than it has been at this season for many years; oats are more plentiful and cheaper; corn is much cheaper than last year.

But just because one item of feed is unusually high we hear people on all sides expressing a desire to sell their cows, thinking they cannot afford to feed them. They should rather rejoice in the fact that the high price received for cotton seed will put much more money into circulation, and will cause thousands of farmers to abandon the all-cottonseed ration as a cow feed, and in doing the latter will greatly improve our Texas butter. Texas butter at present sells on the Northern and Eastern markets three to five cents per pound less than Western or Northern butter just because of this all-cottonseed cow diet.

If the reader will feed two parts (by weight) of cottonseed meal to one and a half parts each of good wheat bran and pure corn cobs, mixing each feed with only two or three pounds of hulls, he will have a much better feed than the one he has been using, and will also get much better results from the cows. Unless you have good grass pasture, give the cow all the hay or other roughness she will eat up clean. I mentioned above feed, one pound of the grain mixture for each three to four pounds of milk the cow gives. If you do this your cows should bring you in a cash monthly income of \$6 to \$9 each for cream or butter sold, leaving the skim milk to feed the pigs and calves.

If you had to buy all these feeds they would not cost you more than half the amount received for the cream or butter; but there is no need paying out cash for any of this feed.

The cotton seed can be exchanged for meal and hulls in such proportions as to pay for the hauling both ways, for the oil mill man gets good pay in the oil, which is worse than wasted when fed to the cow; the wheat (which should be raised on the farm) could be exchanged for flour and bran, and the corn could be chopped at home or a near-by mill.

With more cows kept on the farm good hay would not have to go begging for a buyer at \$6 to \$7.50 per ton.

Utilizing Leaves.

In most towns and cities autumn brings with it the pungent odor of burning leaves, the smoke of which settles like a choking pall over the streets and homes. The door yard cleaning days of spring are likewise marked with the incense of smoking vegetable matter that is being cremated along streets and alleys. Instead of smudging themselves and their neighbors, the inhabitants of our towns who own shade trees often make better use of the fallen leaves by composting them. The high degree of fertility usually noticed in newly cleared lands which have been covered with forests of broad-leaf trees is mainly due to the abundance of leaf mold which the soils contain. This material is especially valuable for its effects in increasing the moisture-holding ability of light soils and of improving the texture of clay soils. Florists use leaf mold, where obtainable, for mixing with their potting soils, and it is of equal value in the flower bed, the vegetable garden and the field.

In our semi-arid regions leaf mold does not readily form without a little care being given to the matter: The leaves may be stored in a large bin in some shady or secluded corner of the yard, or even in a pit dug in

the earth. They should be packed in tightly and kept moist by an occasional wetting with the hose, or, if in a pit, from the irrigation ditch, or they may be spaded or plowed directly into the garden.

Leaves also form a fair substitute for straw in bedding the horse and will add to the value of the manure for fertilizing purposes.

In case none of these uses can be made of the fallen leaves of trees, some local market gardener or farmer who knows their value may be given the privilege of hauling them away to use on his fields or in the compost heap.

The older nations of the world have learned to utilize every bit of waste vegetable matter in some such way and, although intensive agriculture is perhaps not yet so imperative in this country, the utilization of dead leaves is in line with the growing sentiment for the conservation of soil fertility.

"This one thing I know—agriculture, and this one thing I do—farm." Make this your life motto—farm-life motto, in fact.

If you are an agricultural doubter, you'll never be agriculturally stouter.

Mulch the Strawberries.

Mulches are one of the most important factors in successful strawberry culture in most localities, for by their use protection is given to both plants and fruit. The straw mulch, which is most frequently used, should be applied late in the fall, preferably before frost. When applied at this time it serves as a protection throughout the entire winter. Its use largely prevents the heaving which is so noticeable in many patches. The mulch also holds much water, with the result that the patch is better able to withstand the dry summer weather. During the spring the mulch protects the berries from dirt, which is dashed upon them by the rains if the ground is bare. If the spring is late, in the home garden the mulch may be raked over the plants to protect the blossoms and fruit from frosts.

After the berries are picked the mulch should be washed into the soil. Where this is done much humus and plant food is added with the result that greater yields may be expected.

**AUXILIARY SHIPS
FOR NAVY NEEDED**

New York—The necessity of providing at least 400 auxiliary ships for the navy as an arm of the National defense, was urged by Senator Duncan U. Fletcher of Florida at a meeting of the Academy of Political Science at Columbia University as justification in itself for the enactment of a bill for the Government ownership of merchant ships. Senator Fletcher had charge of the Government ship purchase bill in the Senate last session and his words were listened to as indicative of plans for enacting the measure into law at the coming session.

"Last January, when the ship purchase bill was before the Senate, I pointed out that Great Britain, with all of its naval establishment, had found it necessary to commandeer about 1,500 merchant vessels during the present war," said the Senator. "I pointed out our need of naval auxiliaries. The need grows on us. The Government is compelled to build and acquire ships to meet the necessities of the navy. Navy auxiliaries are a certain and controlling need. These auxiliaries can be constructed so as to serve commerce in time of peace and be made ready to serve the navy in time of threatened or actual war. It is an arm of the National defense which must be developed and made serviceable."

Private control of transportation may serve the purpose today, and tomorrow may join foreign combinations in utter disregard of both investors and the public, he continued to say. "We must be free from foreign

domination," he added. "I do not know how this can be secured, except by governmental control, in view of the great lead that the merchant marines of other countries has secured."

The shipping laws enacted since 1912 were pronounced as the first aid given American shipping in years. He defended the terms of the seaman's law, which went into effect eight days ago, adding that he thought it would be found that the strongest objections to the act on the Atlantic Coast came from foreign shipping interests. The Senator denounced the action of the Pacific Mail Steamship Company officials in abandoning their trans-Pacific service on the ground of the seaman's law, and then transferring their ships to another ocean, where the same law applies with equal force.

The commercial demand for more tonnage is increasing as the months roll by, the Senator pointed out.

"There is no doubt we have suffered many millions of dollars during the past year in loss of trade and commerce, and in burdensome freight rates," he said. "The rate on grain to Liverpool is 40 cents a bushel, while before the war it was four cents. The rate on flour has gone from 12 to 65 cents a hundred pounds. On provisions the rate is increased from \$5 a ton to \$1 a hundred pounds. On cotton the rate is \$1.25, when formerly it was 20 cents a hundred pounds. Eastern railroad terminals are congested, due to lack of ships. Freight continues to pile up at the ports. No law controls ocean rates. We may expect to pay foreign ship owners their own price, and that price will be

THE KERRVILLE ADVANCE

Published Every Thursday at Kerrville, Texas, by T. A. Buckner.

SUBSCRIPTION \$1.00 A YEAR IN ADVANCE

Entered as second class matter at the postoffice at Kerrville, Texas.

Bell County Goes Dry.

Last Saturday Bell county, the home of Governor Ferguson, and one of the most populous counties in the State, changed from wet to dry by a majority of 443. The Governor made several speeches in the county against local option and contended that the election was called to discredit his administration and not in good faith or for the public good. He exaggerated his personal and official importance in this contest as he did in his criticism of Senator Morris Sheppard's efforts to bring about order on the Mexican border. "The wicked flee when no man pursueth," as the Good Book says, and the Governor's wicked pledge to stand by the liquor interests, even to the point of vetoing all laws for the regulation or lessening the admitted evils of the traffic, evidently is causing him trouble in asserting his right to a second term. He was elected for a term of two years and could not have been elected for four years under our constitution, and to demand a second term would be to place men above principles or the public interests.

To continue in an influential office one who favors the saloons, the greatest enemy to the church, the schools and public order, even to the extent of opposing local option against the opinion and will of a majority of the people, is to ask the people to stultify themselves.

If a majority of the Democrats of Texas oppose the policy of Governor Ferguson on this great question, it is their manly duty to elect a governor who is in accord with their views, and they will discharge their duty.

Since the last election the people of Texas have had demonstrated, by the testimony of brewers and liquor

dealers, forced from them in the suit of Attorney General Looney, their active efforts to defeat prohibition and local option and other violations of the law, yet the Governor still opposes any further regulation of this traffic.

Strangulation and not regulation of the saloons is the only effectual remedy.

THE Georgetown Commercial says that when an individual furnishes his powder, lead and gun to another individual to murder the third individual, and it is proven, the first man is also included in the indictment. When a nation pursues the same course in war, it is particeps criminis. Murder is murder, whether by nations or individuals. This country may be getting rich by selling munitions of war to the struggling European, but can we profit as a Christian nation by so gaining wealth? We tremble at the thought.

KERRVILLE is proud of her splendid public schools, and she has a good right to be. Our splendid buildings and equipment and able corps of instructors, with the extraordinary material they have to work on cannot but produce the best results. The pupils in all branches of the school seem to be doing good work this year, and with the proper cooperation from Ma and Pa, a satisfactory record will surely be made.

CONSIDERATION and common horse sense are most needful in dealing with children, and these essentials are often the most lacking in both parents and teachers. A "Preparatory School for Parents" ought to have a large patronage. If you know of one, please send us an entrance blank.

If over-eating was the only sin, heaven would be full of country editors.

WHAT do you think about the booze business, any way.

If we could see from the other fellows view point things might look different.

KERRVILLE

Is the county seat of Kerr County, has a population of about 2500, is situated 70 miles northwesterly from San Antonio, and is the terminus of the Kerrville branch of the S. A. & A. P. railroad. It has two daily trains to and from San Antonio, and daily mail route, carrying passengers in backs, to Ingram, Junction, Rock Springs, Harper and other places north and west of Kerrville, and also a daily line to Fredericksburg. From Kerrville to Fredericksburg is 25 miles; to Bandera and Medina City, 25 miles; to Junction 60 miles; Rock Springs 80 miles, Harper 21 miles.

Kerrville has electric lights and a splendid system of water works. The sum of \$20,000 has been spent on the streets and \$10,000 has been voted for road improvements in this precinct.

The elevation at Kerrville is 1750 feet. The Guadalupe river, which heads 30 miles north of Kerrville, runs through the city. On the east side where the city is located, there are high bluffs on the river, and on the west side is a fertile and beautiful valley, and mountains surround the city on the east and west. The Guadalupe valley is occupied by thrifty farmers and ranchmen, and the mountain regions, among which there is considerable valley, creek and arable land, there are large ranches of cattle, horses, sheep and goats, all of which do well in the Kerrville country. The land generally is well wooded, principally with live oak, Spanish oak and cedar, and the range is good, and water excellent.

Our farmers grow wheat, oats and all other small grain, cane and alfalfa, cotton and corn, and fruit and vegetables do well. Kerrville is one of the largest wool markets in the state, and large quantities of wool, mohair, cotton, oats, cattle, etc., are shipped from this point.

The climate of the Kerrville country is unsurpassed. The winters are short and generally mild and invigorating owing to the dryness of the climate and the prevalence of sunshine. The summers are cool and delightful, and the mountain air is pure and bracing. Game abounds in the Kerrville country, and fishing in the Guadalupe, especially north of Kerrville, is good. Kerrville and the adjoining towns are popular resorts for health and recreation.

The Kerrville Commercial Club, any of the different Realty Companies or any of our citizens, will be pleased to give prospective residents or visitors further information.

FOR SALE—One of the prettiest homes in Kerrville. Has 6 rooms, hall, bath, screened sleeping porch and front porch, electric lights, etc. Two good lots. Underground cistern, garden, cow and horse lots, large yard with flowers, berries and fruit trees. House and all improvements almost brand new. Beautiful location and splendid neighborhood. Price \$2750. Small payment down and easy terms on balance. Apply at Advance office.

Robes! Robes!

Winter is here and so are our nice line of Auto and Buggy Robes. Do not freeze but come and get your robe before they are all gone. Now is the time to buy before they are all picked over.

Oh, yes, we still have a splendid line of Buggies, Harness, Saddles and Hardware.

J. E. PALMER
LOWRY BUILDING KERRVILLE, TEXAS

An Event of Extra-Ordinary Interest to PIANO BUYERS

Thos. Goggan & Bros., the Old Reliable Texas Establishment, have acquired quarters in Kerrville, and opened a Piano Store in the Lowry Building, Post Office Block, with a Great Display of HIGH GRADE PIANOS

In a stock of pianos, such as we have assembled in Kerrville, the buyer has the opportunity to compare one make with another and test carefully the tone quality of different high grade instruments. A side by side estimate of the value and worth of such a notable collection of good pianos will make a better buyer of you, and will lead you to a choice of a piano that is bound to please you. Even should you not be ready right now to purchase the instrument you will learn some things that you will profit by in the end. You are welcome anyway and we want to meet you here at our store. While we are placing here on exhibit the very choicest pianos that have ever been shipped to Texas—all brand new and in beautiful mahogany, walnut and oak casings—we have, just the same, prepared a surprise for you in the extremely low pricing and liberal terms which we will offer you.

We want to make this OPENING SALE the most sensational and nothing to tempt you to buy a cheap piano. We know what the Kerrville people want, and you will find just that reliable quality which every intelligent buyer insists on having.

It's your loss if you don't buy that piano at this price. Don't let anything prevent you from seeing this great stock and getting the prices. We guarantee that they can be sold by Underpricing, and it will be plain to you that we are giving a whole new piano at a very small price. Backed up by the reputation this old firm has acquired for integrity and perfect security of its guarantee, you should not hesitate a minute in placing your order for a piano. Remember that we guarantee satisfaction or positively refund your money.

- \$240.00 buys a Mahogany Piano; regular value \$325.00.
- \$260.00 takes a real high grade; regular value \$350.00.
- \$15.00 cash will buy either of the above pianos; or \$10 cash and \$10 monthly.
- \$285.00 represents another bargain worth \$375.00.
- \$295.00 buys another Upright that we sell at \$385.00.
- \$20 cash and \$8 monthly on either of these instruments; or \$15 cash and \$10 monthly.
- \$325.00 takes a high grade piano worth \$425.00.
- \$367.00 will secure a high grade \$500.00 piano.
- \$40 cash and \$15 monthly; or \$50 cash and \$10 monthly, gets either of them.

Prices one-third less than you pay for pianos of same quality elsewhere and all pianos are guaranteed.

We make terms to suit. We can arrange quarterly or semi-annual payments to suit the convenience of customers.

We do not sell or recommend cheap pianos. At this sale you can get some of the best makes at low prices.

Price & Tangle Pianos, Emerson Pianos, Schaeffer Pianos, Krell Pianos, Goggan Pianos, Apollo Player Pianos, Foster Players, Armstrong Players, Lindeman Players and others.

John H. Ward, Kerrville's enterprising undertaker, has just received the latest thing on the market, and at a cost of upwards of a thousand dollars. Mr. Ward believes in the latest of the times regarding the cost of the service he can be depended on to give the public.

Let me write you in a \$1,000,000 company. Fire Insurance
E. Palmer.

Do not fail to get premium tickets at Kerrville Furniture Co.

Parker fountain pens, the old reliable. Large assortment at prices to suit your purse.
Kerrville Drug Co.

Our new line of Fall Goods, dress goods, shoes and hats is now ready for your inspection. Come and see us and get our prices.
Mosel, Saenger & Co.

The Advance has a good little electric motor which we will sell at half price. Splendid for running light machinery. We have used it for running our job press.

We carry a complete line of first grade lumber, shingles, sash, doors and blinds.
Hillyer-Deutsch Lumber Co.

Foot Ball Game Won by Tivy.
The second of the series of foot ball games between Tivy High School and Center Point High School was played on the Kerrville athletic field Saturday and resulted in favor of Kerrville by a score of 27 to 6.

Following was the line-up:
Tivy Center Point.
Pampell L. E. Painter
Pierce L. T. Surber
Staudt L. G. D. Burney
Comparette C. Goss
Conwill R. G. C. Burney
Sutton R. T. Fuller
Gold R. E. Nowlin
Everheart Qb McElroy
Auld L. H. Rambie
Smith R. H. Davenport
Renschel Fb Dozier

The first quarter netted each team one touchdown, Center Point failing to kick goal, and score stood 7 to 6. Tivy made the first touchdown when Pampell took the ball across on a 30-yard forward pass. Center Point then kicked off, and Kerrville returned the ball to her 45-yard line, when she fumbled, and Dozier took the ball down the field 45 yards for a touchdown. McElroy failed on goal. Quarter ended with ball in Center Point territory.

The Tivy goal was never in very great danger after the first quarter. The three other touchdowns for Tivy were made by Smith on a line plunge and Gold on two forward passes.

Tivy used the forward pass very effectively and made good gains on end runs. Center Point was not successful with the forward pass, but made good gains on end runs and line plunges.

The tackling of Dozier and Davenport was spectacular.

Officials: Garner of Kerrville, referee; Buckner of Center Point, umpire; Shacklett of Kerrville, head linesman.

Our correspondents will please remember that unless their letters are received by noon Tuesday we can seldom get them set up for that issue. This also applies to church notices and other free matter.

For Sale—6-room house in Tivy addition, Kerrville. Place contains one and one-half acres, well, windmill and tank and irrigated garden. Will sell for \$1200. Apply at the Advance office.

Goats Wanted
I want to take a flock of goats on shares, any number up to 1000. I have fine range on my ranch 6 miles from Kerrville. Leave word with Advance or write me at Kerrville.
Mrs. M. E. MERCER.

Place For Sale Cheap
Two large lots, well, good house, conveniently located. Good neighborhood, in a desirable part of town. If you are looking for a bargain, see
R. A. HOLLAND.

For a complete line of first grade lumber at low prices, see
Hillyer-Deutsch Lumber Co.

ENHANCED BEAUTY IS WITHIN REACH OF ALL

Ladies, did you ever stop to think or ask yourselves what we all owe ourselves? We all owe it to ourselves to keep our skins and hair in the best condition possible. It has always been said a woman's crowning glory is her hair—likewise her redeeming feature is the beauty of her skin. We should especially give attention to our skins after we have reached the one score and ten; then, the crows' feet, fine lines, blackheads, coarse pores, freckles, thick skins, blemishes and dryness are visible. Keep the pores cleansed, the skin from becoming dry and thick. A dry and thickened skin sets lines. Blackheads, large pores, blemishes, freckles, etc., are unsightly and can be prevented. Keep the skin soft and velvety, keep your youth, keep your hair healthy and glossy. We will help you. We have the appliances and guarantee all our work. Give us a call. You are always welcome and can find us in the most modern building in San Antonio. Take the elevator to the fourth floor or the Brady Building and there you will find **The Select Beauty Parlor** for ladies and gentlemen. All work guaranteed. You may phone for appointment, Crockett 6887.

SHORTHAND SYSTEM RECEIVES COMPLIMENT

Fifty students have been selected by the Panama-Pacific Exposition, tuition free, for their Standard Commercial School—twenty-five to take shorthand (Gregg System), and twenty-five to take bookkeeping (Twentieth Century System). No other systems used. What higher compliment to Gregg? What more could be said for Twentieth Century Bookkeeping?

We teach Gregg Shorthand and Twentieth Century Bookkeeping.

Our commercial teacher, just from the East, represents the best in scholarship and teaching methods.

Our stenographic teacher writes two hundred and fifty words a minute in Gregg Shorthand.

Our President has a National reputation as a teacher in English and punctuation.

Our Spanish teacher is a man of classical accomplishments in both English and Spanish, a graduate of Williams College, Massachusetts.

All university men; all "Gold Medal" Systems.

Can you equal this combination?

CATTLEMEN PLAN RAID INTO MEXICO

Nogales, Ariz.—Following the killing here of Manuel Ynigo, a Mexican, by Sidney Simpson, a cattleman whom Ynigo had accompanied to the border to obtain ransom money, a band of Americans began organizing with the avowed intention of rescuing two Americans held at Sasbo, Sonora, twenty-five miles southwest of here.

J. H. Haas, a cattle buyer, and another American whose name could not be learned, who have been held for several days by the Mexicans, are men whom it was planned by the citizens to rescue.

Simpson shot and instantly killed Ynigo shortly after they reached here. Ynigo came with the American to receive \$3,000 which had been demanded, it was said, as ransom for the other Americans. Simpson was said to have left the Mexican near the Nogales electric light plant, telling him he would get the money.

Instead, the cattleman returned a few minutes later with a revolver and opened fire on the Mexican. Six bullets took effect.

Persons organizing the rescue party declared they would endeavor to rescue Haas and the other American before the Mexicans at Sasbo learned of the death of Ynigo. If this was not done they feared the two Americans would be killed.

ANCONA DISASTER NOT YET CLEARED

Washington, D. C.—Still without definite information concerning the circumstances under which the Italian liner Ancona was sunk, State Department officials have taken no further steps in the situation.

It is believed details probably will reach here shortly. Ambassador Thomas Nelson Page's visit to the Italian Government is expected to develop at least whether the Ancona was torpedoed without warning, or whether she was fired at the vessel after she had stopped. Until definite information is available on these points, representations to Austria will be withheld. The impression is strong in official quarters, based on press dispatches, the vessel tried to escape.

ENGLAND'S SWORD NOT TO BE SHEATHED

London—Reaffirmation of Premier Asquith's historic pledge regarding the Entente Allies' terms of peace, delivered at the Lord Mayor's banquet November 9, 1914, was made by Sir Edward Grey, British Foreign Secretary, today in a written answer to a question put by Sir Arthur Markham, Liberal member of Parliament.

After stating that Great Britain's position in the war is fixed by her allegiances with Japan, France and Russia, the Foreign Secretary proceeds:

"In our view the conditions of peace must fulfill those laid down by the Prime Minister on November 9, 1914. It is very desirable that it should be understood once and for all that this is the determination of the Government, collectively and individually, and of the Nation."

At the Lord Mayor's banquet, November 9, 1914, Premier Asquith in outlining the war situation, said:

"There is going to be a long war, but there is nothing in a long struggle to depress us, or in what has happened. Our enemy has tried three objectives—Paris, Warsaw and Calais—and has been baffled in all."

"That is not enough. We shall not sheath the sword, which we have not lightly drawn, until Belgium has recovered more than she has sacrificed; until France is adequately secured against menace; until the rights of the smaller nationalities have been placed upon an unassailable foundation, and until the military domination of Prussia is finally destroyed."

CHURCHILL RESIGNS FROM WAR CABINET

Former First Lord of Admiralty Announces Intention of Going to Front.

London—It is officially announced that Winston Spencer Churchill, Chancellor of the Duchy of Lancaster, has resigned from the cabinet and will join the navy in France.

Mr. Churchill in his letter of resignation explains that he agrees in the formation of a small war council and appreciates the intention which Premier Asquith expressed to include him among its members. He foresaw the difficulties that the Premier would have to face in its composition, he states, and he makes no complaint because the scheme was changed, but with that change his work in the Government naturally closed. He said he could not accept a position of general responsibility for a war policy without any effective share in its guidance and control and did not feel able in times like these to remain in well-paid inactivity.

Rumors had been current for some time that Mr. Churchill would resign his seat in the cabinet and go out on active service at the front. He is a major in the Oxford Yeomanry.

YOU WANT TO EARN MORE

Young Man, Young Woman, Do you want a better job—to earn more, to get out of the long-hour and short-pay crowd, to win success?

The Draughton Training will take you out of the \$1-to-\$2-a-day class and put you into the \$5-to-\$10-a-day class.

That's just what the Draughton Training has done for more than 200,000 young people during the past twenty years.

Investigate. Asking for catalogue will not obligate you. Ask for it NOW. "Now" means today. Draughton's Practical Business College, San Antonio.

Prominent School Changes

Our representative of the owners of the San Business University one week and spent a pleasant becoming acquainted with the business manager and teachers of that institution.

We were impressed not only with the fact that the ownership had changed, but that the name was changed, teachers were changed, the course of study was changed—everything was changed.

There was evident everywhere a college spirit, and we were impressed with the businesslike atmosphere that pervaded the whole establishment.

Owing to the change in the educational program, the proprietors thought it best to change the name from the San Antonio Business College to that of the **San Antonio Business University**, for the schedule of studies provided, and the class of teachers engaged, entitled the school to rank as one of the most progressive and efficient institutions of learning in the Southwest.

Four departments are maintained at a high state of efficiency—each headed by a university man—each man an educational expert.

The system of bookkeeping taught, while easy to master, was adopted in the Model School of the Pan-American Exposition as the best system taught in the United States, and the system of shorthand—the Gregg, which is taught by this university—is the system also adopted by the promoters of the Pan-American Exposition. The proprietors and teachers are very naturally proud of this greatest of all endorsements for the two systems they champion and teach.

One fact we noted with much satisfaction was, that the English branches were very skillfully taught, so that this school is prepared to give special attention to those young men and young women, who, for one and another reason, find themselves in need of general instruction.

We feel, after our visit, like congratulating San Antonio, and Texas, on the assembling of such a group of men in an educational enterprise. We shall watch their progress with interest.

ENGLAND EXPLAINS ZEALANDIA SEARCH

Washington, D. C.—An explanation of the recent search of the steamship Zealandia by British sailors off Progresso, Mexico, was made at the State Department recently by Charge Barclay of the British Embassy, who said the vessel was on the high seas at the time and not in Mexican territorial waters, as had been alleged.

The Zealandia, Mr. Barclay told Counsellor Polk, was anchored about three-quarters of a mile outside of the line of Mexican waters and was boarded by a party from a British cruiser and searched for contraband, an admitted right of a belligerent.

M. Barclay said that because the ship was flying the American flag she was not molested, although no document was found aboard to show her nationality or registry. These facts were reported to the British admiralty and, it was explained, were submitted to the State Department for any action the United States Government desires to take.

The Zealandia carries a cargo of rosin, which is used in the manufacture of explosives and is said to be manned chiefly by Germans. There were reports she flew the German flag during the voyage from Pensacola, Fla., to Progresso.

AWFUL EFFECTS OF SHELL FIRE

Chalons, France—"When we were taken out before, we have shown you trenches," said a French officer. "This time we are going to show you a field of victory—lines of trenches which we took from the Germans."

Not all the spoil had yet been removed from that section fifteen miles long and from one to five in breadth, where on September 25 and 26 the French had broken back the siege of the Germans with the concentration of infantry and the expenditure of a million shells.

What looked like a man-o-war turret on wheels was being drawn along the road. This cupola of riveted armor was dented by shell fragments. It had an opening for the swing of a small gun and a door for the exit and entrance of the crew, which could be fastened by a bolt and a heavy chain.

"Three men were found inside—locked in," said an officer. "The turret was set in the parapet of a trench at an important point of the line. All the German soldiers in the neighborhood had either been killed or buried alive. We had to break the lock to take the crew out. All three were alive, but stunned. They had gone on firing their guns as long as they could."

Freely the correspondent moved between the old first line French and German trenches, which, for many months, had been a zone of death for whoever showed himself. In front of the first line trench the Germans had barbed wire entanglements five or six feet broad. A rabbit could not have gone through without being caught. In places now one had to search to find any wire. It had been chopped to bits by the burst of shrapnel bullets from the "soixante quinze" guns and then kneaded into earth by high explosive shells. Those guns had been firing from a range of anywhere from 2,000 to 5,000 yards, yet with such accuracy that they could hit this ribbon of wire six feet broad. On such accuracy depended the success of the infantry in reaching the German trenches. There must be guns and shells enough to destroy wire over a front of fifteen miles. If the Germans in the trench with their rifles and machine guns and hand grenades could go on firing it means murder for the Frenchmen exposed in the open as they charged.

So fifteen or twenty yards beyond where the wire was being cut more shell fire had to kill the fire from the German trenches. Some blasts of shrapnel bullets here, too, enough to make any man in the German trenches want to keep his head down if he was not buried or eviscerated by high explosive shells. For hundreds of yards in some places there was scarcely any semblance of trenches after the French guns had prepared the way for the French infantry. It was as if the trenches had been dynamited systematically with charges plotted out checkerboard fashion.

At other places where the destruction had not been so complete, it was possible to see what the German trenches were like and with what amazing thoroughness and care they had been built.

To a layman they seemed impregnable. Down these slanting shafts under the parapet were caves twenty and thirty feet deep for refuge in a bombardment. In many cases the openings had been closed by the descent of a ton or more of earth from the parapet from the concussion of a large caliber howitzer shell, and all the men within were buried alive.

The fate of those who were in the trench itself was often to be

NEW GUN EQUAL TO ANY FOREIGN WEAPON

Fourteen-Inch Rifle Superior in Some Respects to England's Famous Fifteen.

Washington—Battleships now being built for the United States navy will carry 14-inch, 50-caliber guns which are believed by admiralty experts to be the equal of the 15-inch weapons in foreign navies, although of lighter weight. In his annual report, Rear Admiral Joseph Strauss, chief of the Navy Ordnance Bureau, says:

"With the object of keeping pace with the increased range of modern naval warfare the bureau has increased the power of the 14-inch guns for the California, Mississippi and Idaho by increasing the length of the gun to 50 calibers and enlarging its chamber capacity. In order that these latest additions to the navy should carry the highest type of artillery the bureau took the bold step of ordering their guns without manufacturing a trial gun. The bureau's confidence in its design has been fully justified. The first gun made not only gave the desired velocity and pressure exactly, but its additional longitudinal strength which has been provided for has resulted in these guns having less droop than any guns of large caliber heretofore produced. As it stands, these guns, although of lesser caliber and weight than the 15-inch guns now mounted abroad, are capable of penetrating the heaviest side armor at oblique impacts and at the greatest effective range, and give us the advantage of flatter trajectory, with greater volume of fire due to the increased number that we are permitted to mount on any ship of equal displacement."

"In August, 1914, a type 16-inch gun of 45-caliber length was tested. This gun fulfilled the highest expectations of its design and the bureau believes it to be as powerful a gun as is in existence today."

The report shows that the navy's armament had been kept well up to date, older type 5-inch guns having been replaced on all ships of the first line; that anti-aircraft rifles of sizes up to 4-inch rifles have been designed, and that mounts for the disappearing guns for submarines have been built. The latter weapons will be given an increased elevation so that they may fire at aeroplanes.

Difficulty has been encountered in placing contracts for a sufficient number of the new armor-piercing projectiles for big guns now being used by the navy. The rise in price, due to the war, is indicated by the fact that projectiles were purchased in 1913 at \$320 each, while those contracted for in 1915 cost \$415. Part of the increased cost, however, is due to the new design. Satisfactory 8-inch projectiles have been produced at the naval gun factory and larger shells are now being made there.

As to the value of armor-piercing shells, the report says experiments during the year have strengthened the view that missiles of this type, but carrying high explosive in limited quantities, are superior to high explosive shells that depend wholly upon the force of an outside explosion to accomplish their mission. A French official report is quoted to show that plain shells carrying high explosives in large quantities were "absolutely powerless" against armor of any importance.

The Indian Head powder factory turned out 700,000 pounds above its 1914 output last year as a result of improved methods, and with increases authorized by Congress, is expected to make 5,000,000 pounds in 1916 and 6,000,000 pounds in 1917, the report states.

THINKS UNITED STATES WILL FREE THE SEAS

Berlin—Dr. Bernard Dernburg, discussing in the Tageblatt the American note to Great Britain says the note prepares the way for securing the freedom of the seas and thereby opens a new era of discussion with Great Britain, the result of which undoubtedly will be favorable to the right.

Adverting to the question raised by the German press as to whether the United States intends to see that its demands are satisfied, Dr. Dernburg says that the diplomatic history of the United States gives assurance that it will do so under all circumstances.

There is a difference in Dental Work. When in San Antonio, see Dr. G. Keller, 205 Brady Bldg. Genta Percha plates are the best. Emetine in Pyorrhea a specialty.

A Baltimore inventor has provided a bootblack's chair intended for women's use, with curtains that can be moved from the arms to prevent an undue display of hosiery.

IRISH VISCOUNT MAKING MUNITIONS

London—Lord Charlemont, 38, eighth viscount of that notable Irish family, is in a fair way to become a member of the Tinplaters' Union. He not only admits but welcomes the possibility.

Lord Charlemont has been working for months in a munition factory at Coalisland, Southern England. He started at \$6 a week and piece work. To date he has not made less than \$7 a week and sometimes \$17. He has acquired some knowledge of metal turning, and having a knack for machinery, admits he has "landed on his feet." He has worked on shells with trade unionists and there was no kick. That is where he first got his idea of joining the tinplaters.

Alongside Lord Charlemont are gentlemen and laborers, tradesmen, chauffeurs, grooms and gardeners—all making munitions. He declares they are all making good. Average intelligence, he insists, backed by a desire to do one's best, have beaten skilled labor at its own game.

"The first day," says Lord Charlemont, "I did thirty 10-pounder shells and thought it jolly good. The second day I did fifty, and now I do from 130 to 150 quite easily. I have been on 60-pounders also; nasty things to tackle—weigh about forty pounds apiece and are two feet and a half long. I can do about fifty or sixty of them in a day, and each one pays me five cents. The miserable 10-pounders are only three farthings."

To save firemen carrying hose high into buildings, a standpipe has been invented from which water can be turned on at any floor by valves at the street level.

MARRIES COUPLE OVER TELEPHONE

Paragould, Ark.—Standing in a booth of the local telephone exchange here, the Rev. W. C. Wood of this city said over long that united in marriage Charles Miller of Louisville, Ky., and Miss Blanche Drosta of Jeffersonville, Ind., at the bride's home in Jeffersonville, 500 miles away. Double receivers were provided for the bride and groom.

Miss Drosta is the sister-in-law of the Rev. Mr. Wood. She desired to have him perform the ceremony and as he was unable to leave here, the telephone was resorted to. The ceremony occupied but three minutes.

Some music is given out by the choir, but the drummer dispenses it by the pound.

will require the most careful consideration of the department when the European war is over and the present demand from abroad has ceased.

Great strides in the development of the mine planting equipment of the fleet in the last few months are recorded in the report. It says:

"The Dubuque has been fitted out as a mine-layer and mine instruction ship. Six old torpedo boats are being equipped for sweeping. A mining division has been formed in the fleet. All capital ships are provided with sweeping nets. All destroyers are being fitted for sweeping. A mine-sweeping manual has been prepared and submitted to the fleet for comment.

"A list of steam fishing vessels of over 100 tons has been prepared and their owners communicated with, and arrangements have been made for their inspection with a view to their utilization as mine sweepers in time of war. These vessels are now being inspected. Recommendations have been made and approved that six gunboats be fitted for mine sweeping. Portable mine-laying tracks have been ordered for one division of destroyers in each of the fleets. These tracks are to be carried in the destroyer tender, to be shifted to the destroyers when necessity arises. Mine-laying tracks have been authorized for eleven vessels of the cruiser class. During the summer extensive exercises have been conducted in mine laying and sweeping in the fleet, and in general it may be said that the whole subject has been made active and progressive."

Progress has been made during the year toward gathering smaller navy guns at various yards in reserve for use as merchantmen in time of war, and instructions has been issued to provide for quick mobilization of weapons loaned to the naval militia should need arise.

Inventors have been busy with war materials and the report shows that the special board appointed to examine suggestions dealing with ordnance matters considered 656 proposals.

Why Should I Buy Kryptoks?
Instead of two pairs of glasses, a single pair of these bifocals is all that is necessary. Compared with Kryptok lenses, the old style bifocal lenses with a reading portion pasted on are unsightly and even disfiguring. They accentuate the age of the wearer, besides making it necessary to duck and dodge the ever present dividing lines in a most awkward manner. But with Kryptoks all this is avoided. No one, even intimate friends, would suspect that you wear bifocals, for there are no dust-collecting visible marks to advertise the fact. Let us show you.
