DEMOCRATS PLAN NIGHT SES-SION - SUB-COMMITTEE TO FRAME PLATFORM.

Coliseum, St. Louis, Mo., June 15 .-The Democratic National Convention today changed its program of procedure and agreed to make nominations for President and Vice President tonight instead of tomorrow. The rules were amended and the convention will assemble at 9 o'clock tonight to remain in continuous session until nominations are completed.

other today the convention registered its approval of President Wilson's conduct of foreign affairs, which has GLYNN SPEECH GIVEN kept the country at peace.

When Permanent Chairman James recounted the diplomatic achievements of the President in the negotiations with Germany, the convention launched into an eighteen-minute uproar of marching, cheers and waving of flags, in which William Jennings Bryan, from his seat in the press section, joined.

The committee on permanent organization recommended Senator Ollie James of Kentucky for permanent chairman and the Kentucky Senator delivered what some of his friends said was an epoch making speech. tives are to be adopted by the convention as usual and no change is made in the rule which provides that will be nominated by acclamation and

BY FATHER KEMPER

The Commencement Exercises Notre Dame Institute took place on Sunday evening in Washington Hall before a densely packed audience. A ively instrumental quartette was the curtain raiser. This was followed by an illustrated flower song which the minims rendered admirably. Flag Day was anticipated by the patriotic operetta staged by the stadents of the High School department. A march with a rousing military air, written for Notre Dame, was the closing numimportant business was dispensed ber. Many scores of pupils received their diplomas or certificates of pro-

FOUR BILLION FISH AND EGGS IN YEAR

REPORT OF GOVERNMENT WORK SETS NEW RECORD FOR U.S.

Conservation of Food Fishes Given Close Attention and All Branches Covered During the Past Year by Bureau.

Washington, D. C .- The annual rebort of the Commissioner of Fisher to the Secretary of Commerce shows that the bureau has just completed the most successful of the forty-five years of its existence. The number of fish produced and distributed was greater, and the cost of production per million less, than in any previous year. Fifty permanent hatcheries and 76 abhatcheries, auxiliaries and eggcollecting stations have been conducted and the output during the fiscal year 1915 was over 4,000,000,000 young fish and eggs, an increase of more than 241,000,000 over the previous year. Plants of food fishes were made in every State and Territory; fish eggs were distributed to the fish commissions of 27 States, and Porto Rico, Cuba, India and Japan The distribution of the output required over 146,000 miles of travel by the five special cars of the bureau and 491,000 miles by detached messengers. The introduction of the humpback salmon of the Pacific coast into Maine streams, which last year was an experiment, is how a reality, as numbers of these fish were taken during the summer of 1915 in the Maine rivers; furthermore, ripe eggs have been taken from them-a proof positive of thorough acclimatization.
