

THE MESSENGER

HAGERMAN, CHAVES COUNTY, NEW MEXICO, THURSDAY, SEPTEMBER 5, 1935

NUMBER 36

Hagerman is located in the area that offers you health and opportunities.

BEST RAIN OF SEASON FALLS HERE

Moisture Since Sunday Measures 1.07 Inches; Rains Will Likely Fill Lake McMillan; Travel Slow In Some Areas.

The best general rain of the year has added a good bottom season to farm and ranch lands of eastern New Mexico and the Pecos Valley.

The rainfall varied from an inch to over two inches in this section and has filled many of the dry lakes and water holes, insuring an adequate supply of stock water and a good growth of fall and winter grass.

Lake McMillan will likely be filled to overflowing before all the moisture passes it was said here yesterday. Tabulations completed at Carlsbad Tuesday estimated that 1,500 acre feet of water was flowing into Lake McMillan daily. Lake Avalon and Lake McMillan now contain more than 27,000 acre feet of water and have a capacity of 40,000 feet.

Roads from here to El Paso was practically blocked yesterday and motorists were routed to the pass city by way of Roswell. The arroyos between Carlsbad and El Paso were running bank full in places yesterday and on the previous day motorists were experiencing difficulty in getting thru a stretch of the unpaved road between the Caverns and the Salt flats. The Bankhead highway was also reported blocked yesterday with two to three feet of water running over the highway near Clint.

Threatening clouds materialized moisture for this section Sunday night, starting shortly before 9:00 o'clock and continuing at intervals throughout the night. The precipitation here measured a half inch, according to records of the local weather bureau. Moisture was general over the eastern part of the state and held up air travel in the vicinity of Tucuman.

The fall in the immediate section measured from a quarter to an inch of rain. The rain was heavy to the south from Signal Peak northward beyond Carlsbad. The Hope section is said to have been wetted with an inch of moisture. Northwest of here the rainfall was somewhat lighter, but motorists coming through the Cottonwood section were using mud chains.

The moisture will be of material benefit to the ranchers in insuring fall and winter grass, but farmers fear that it will increase the damage from the army worm.

W. T. HAMPTON DIES

William T. Hampton, born at Jamestown, Missouri, on April 29, 1869, passed away Monday, September 2nd, at the age of sixty-six years.

The funeral was held on Tuesday morning at the Hagerman cemetery, the Rev. James A. Hedges, the officiating minister, and Mason's Funeral Home in charge. Music was furnished by Mrs. Robt. Cumpsten and Mrs. Bayard Curry. Surviving him are the four sons, who acted as pallbearers, Harrison, Charlie, Louis and Jim, all of this community. Beautiful floral offerings spoke the sympathy of friends.

August Is A Record Month For Travel To The Carlsbad Caverns

August was the record travel month of all times at Carlsbad Caverns National Park, Thomas Boles, superintendent, announced Saturday.

During the month 30,686 persons visited the Caverns, compared to 27,791 in August, 1929, the previous record travel month.

"One of the remarkable things about this month's travel was the increase in travel from states other than Texas," said Boles Saturday.

"In the previous record year, Texas sent 21,000 of the 27,000 in the Caverns. Oklahoma sent 400 and California 200. This year, California had 1,004 in the Caverns and Oklahoma had 4,463," he said.

The superintendent interpreted the larger numbers coming from other states to the spread of publicity about the Caverns.

Texas citizens, however, continued to lead travel with 16,903. Oklahoma's 4,463 stood second in number. New Mexico was third with 2,317.

Hagerman Schools Open Monday With Good Enrollment

School patrons will be interested in news of school opening with a good enrollment. One of the teachers reports that her room is full already, and there are many others that she knows have not started yet. There are three new teachers. Of these, Miss Frances Welborne, who has charge of the music department, is already well known to Hagerman people. Miss Georgina Silliman, originally from Arkansas, is the fourth grade instructor. Miss Silliman holds a bachelor's degree from the State Teacher's College in Silver City. She was the honor graduate from the Thornton, Arkansas, high school. While in Silver City she taught part time in the fourth grade; was active in Glee club work, secretary of girl's dormitory, took part in activities for children and was assistant librarian. She majored in education, and has 30 hours of social science.

Miss Katherine Hammock, Spanish instructor, graduated from Colorado, Texas, high school in 1928, received her Bachelor of Arts degree from New Mexico University in 1932 and Master of Arts degree from U. N. M. in 1935. She has taught in Cerillos, received a fellowship and taught Spanish in the New Mexico University and helped with publications at U. N. M. She plays the piano, is interested in voice, and has helped with coaching plays in school work.

BRITISH-AMERICANS GET CONCESSIONS

ADDIS ABABA—The Ethiopian government officially announced Saturday that a concession had been granted to an exploration company incorporated in Delaware, United States, for the development of resources over virtually half of Ethiopia.

Emperor Haile Selassie, seeking to stop an expected Italian advance into Ethiopia, turned over an area of 150,000 square miles to the Standard Oil company and British industrial interests under a 75-year charter. The charter authorizes its holders to exploit the oil and mineral resources and develop the country.

CARLSBAD ASKS FOR SCHOOL GRANT

Application for a new federal grant for the erection of one six-room and one eight-room school building in Carlsbad was made by the Carlsbad board of education the first of the week.

Las Cruces Flood Worst In History

The worst flood in the history of Las Cruces followed a torrential rain Thursday night in the Las Cruces and Organ mountain area. Waters virtually inundated the entire city from two to four feet deep and adobe houses over a half century old crumbled while residents were forced to flee for their lives. The rain began falling at 11:00 o'clock last Thursday night and continued throughout the night. Highways were impassable. High waters not only crumbled many buildings but are said to have washed away gullies in many streets as deep as six feet. The damage was estimated in excess of \$500,000, according to an early report.

FRAZIER-LEMKE BILL SIGNED

WASHINGTON—President Roosevelt Friday signed the Frazier-Lemke three-year farm mortgage moratorium bill, designed to replace the law declared unconstitutional by the supreme court last spring.

The measure permits debt-burdened farmers to go into federal court and obtain moratoriums of as much as three years on their mortgages. During that time their property, in effect, would be under court control.

Farmers are allowed to remain in possession of their land during the moratorium but must pay a "fair" rental, either every six months or at the end of each year, as the court may decide.

NEW CABBAGE CROP COMING IN

The new mountain cabbage crop is being gathered and several truck loads have already been marketed. Both the quantity and the quality of the crop is good, growers said here yesterday and the yield per acre will likely compare favorably with the best years cabbage growers have enjoyed.

BALLUT ABYAD SHRINE TEMPLE 'HOME COMING'

With all the entertainment features of last year included, and an even more spectacular program of initiation and fellowship being planned, Ballut Abyad Shrine is preparing for its second annual "Home Coming" in Albuquerque on Saturday, September 7th.

Of the 1600 Shriners in New Mexico, an estimate has been made that between 500 and 600 will be in Albuquerque, together with their wives and guests.

Farmers Preparing To Spray Cotton For Worm Damage

Cotton growers are preparing to fight the leaf worm. Damage from the worm has not been extensive yet, but wet weather is expected to increase the damage. Several farmers have poison ready to start spraying as soon as the new crop of worms appear.

The rains are also expected to retard the opening of the cotton. Growers here anticipated the picking season would open about the middle of the month, but if inclement weather continues, the harvesting operations may be delayed.

ALFALFA MOVING

Some alfalfa hay continues to move to eastern markets. The principal movement has been to Texas points. Choice alfalfa hay is bringing around \$9.50 per ton.

New Flood Threat In Las Cruces Area

A new threat was added to the Las Cruces flood situation yesterday afternoon when fresh and heavy rains fell again in the Organ mountains—same area which last week poured a wall of water on this city.

Officials have reported an arroyo just north of the city running full and one to the south racing. Another arroyo from Dripping Springs was carrying a large head of water toward State College.

Heavy black clouds hovered over the Organ mountains indicating a heavy rain still was falling there.

Earlier that day, pleading danger of further damage and possible loss of life in new floods, Dona Ana county commissioners passed a resolution asking that a soil erosion control project be instituted immediately in an effort to prevent new floods.

Higher Prices Seen For Cotton Result Cotton Loan Plan

WASHINGTON—The first billion dollar cotton crop since 1929 should result from President Roosevelt's action in approving the new loan and payment plan, according to Chester C. Davis, administrator of the AAA.

"Cotton farmers will instantly appreciate the significance for them of the president's action. The plan to assure cotton growers an average return of not less than twelve cents a pound not only promises the best cotton income the cotton farmers have enjoyed for years, but it also means enlarged outlets for cotton exports, which are of immense importance to the cotton industry."

Davis' forecast of a probable "billion dollar cotton crop" for 1935 is based on estimates of total farm value of cotton, including any payments necessary to bring the average return up to twelve cents, exceeding \$700,000,000 rental and benefit payments under the cotton adjustment program totaling about \$125,000,000 and farm value of cotton seed totaling between 150 and 175 million dollars.

"When cotton farmers understand how simply and easily this plan will work they will be in no hurry whatever to market this year's crop. The assurance of government payments to farmers, making up to them the difference, if any, between twelve cents and the average price of cotton on the ten spot markets from September 1 to January 1, will enable growers to take ample time to estimate the true market situation and sell their cotton to the greatest advantage to themselves. Farmers should remember that the present plan restores a free market, so that growers can benefit directly from orderly and intelligent marketing of their crop. Any payment to them will cover average differences, not individual differences, between market price and twelve cents. The nine-cent loan will assure farmers an immediate source of income," Davis said.

MAY SEEK TO HALT WORK RED BLUFF

Action to stop construction of the Red Bluff dam may be taken by the Carlsbad Irrigation district board of directors at a special meeting today, C. W. Beeman, president of the district board said at Carlsbad Tuesday.

"We are seriously considering asking Gov. Clyde Tingley to request Secretary Ickes to stop action on the dam," Beeman said.

The move followed the refusal of Gov. Allred of Texas to withdraw his protest to the construction of Alamogordo dam and reservoir.

About half a million dollars has already been spent in construction work at Red Bluff of approximately \$3,800,000 expected to be expended there.

"Red Bluff directors have refused to act, apparently in the expectation that they would acquire rights to New Mexico water through use by blocking the construction of Alamogordo dam," Beeman charged.

He stated that to protect the rights of New Mexico water users, it is probable that Governor Tingley will be asked to take action to stop the construction of the Red Bluff project.

Under the agreement reached at Washington by representatives of the Red Bluff and Carlsbad districts, the district boards were to approve the agreement which was to be followed by the beginning of construction as soon as the governors of the two states had also approved the agreement.

This approval on the part of the governors was expected to be a matter of course. It was given by Gov. Tingley following the action of the local district board approving the agreement. When Red Bluff directors refused to approve the agreement which their representatives had aided in making, Gov. Allred, refused to withdraw his protest.

Mr. and Mrs. L. J. King and Mrs. O. J. Atwood have gone to Ravenna, Texas, on a short visit.

OIL ACTIVITY NORMAL OVER SO'EAST AREA

Three Wells Completed, Eight New Locations Staked and Two Wells Abandoned During the Past Week.

Inclement weather may check the normal oil activity in the southeastern district for a short time, due to muddy roads and highways. However developments during the past week brought three producers to Lea county and eight new locations for wells were staked. Two wells were also abandoned during the period.

The best well of the week was finished in the Hobbs pool, this being the Amerada-Skelly, State 1-E sec. 24-18-37, at 4105 feet. On an initial production test the State 1-E flowed 1,747 barrels of oil daily with 500,000 feet of gas.

Average producers were also completed in the Vaughn A-14 No. 3 of the Continental Oil Co., sec. 14-24-35, which was drilled to 3537 feet. After an acid treatment the Continental well flowed at the rate of fifty-one barrels of oil an hour and 9,000,000 cubic feet of gas. The Phillips Petroleum Co., also completed its Woolworth No. 16, sec. 27-24-36 at a total depth of 3483 feet for an initial production of fifty-six barrels of oil per hour thru tubing.

New wells staked included the Sun Oil Co., Mavey No. 3, sec. 35-19-36; Texas Company, State 1-E, sec. 1-20-36; Barnsdall Oil Co., Cooper No. 1, sec. 12-20-36; Atlantic Oil Co., State 1-H, sec. 5-21-36; The California Co., Meredith No. 3, sec. 19-21-36; Stanoil Oil and Gas Co., Cyrus Farnsworth No. 11-B, sec. 7-26-37; Humble Oil and Refining Co., S. W. Harrison, sec. 25-24-36; Skelly Oil Co., State 4-B, sec. 16-21-36.

Two wells were abandoned in Eddy county. One, the Ramapo Oil Co., State No. 1, sec. 32-17-28 is plugging to abandon after drilling to 2527 feet. The other well is the Tigner, Etz and Keyes, Keyes No. 2, sec. 10-17-28, which was abandoned at 2000 feet.

Woman Killed In Mill Riot Strike

Officers began a round-up of suspected participants in a mill strike riot at Pelzer, South Carolina, Monday, which results in the death of a woman and the wounding of at least fifteen other persons.

G. W. Henson, 64, Pelzer, was taken to the county jail at Anderson under a warrant charging him with murdering Mrs. Bertha Kelly, 23, who died in one of the first blasts of gunfire which raked two plants of the Pelzer Manufacturing Company before opening time Monday morning.

Nine other men, alleged strike sympathizers, were lodged in jail "for investigation," and officers said they were seeking others.

The nine, in addition to Henson, were arrested while on picket duty. Two pistols, two rifles and a shotgun, found secreted near the mill entrance, were seized.

Nose-Heavy Plane May Have Caused Post-Rogers Crash

WASHINGTON—Government experts decided Tuesday that a nose-heavy plane and a carburetor fouled by ice or spray "could" have plunged Will Rogers and Wiley Post to their death at the edge of an Alaskan tundra.

Eugene L. Vidal, air commerce chief, making the first report on the commerce department investigation into the disaster near Point Barrow on August 15, attributed the crash to a coincidence of factors, including a climbing turn. Post was described as being believing that his ship was nose heavy after the installation of pontoons.

"The combination of the plane in a banking turn," Vidal suggested, "with still low flying speed immediately following the take-off and climb, the motor failure and the airplane's nose heaviness could result in such a stall."

"Stall" in aviation parlance is not the stalling of the motor but the loss of sufficient speed for the plane's wings to hold the air. The fouling of the carburetor, Vidal believed, might have occurred as the ship took off, with spray, or ice particles, forming from the spray, being drawn into the air scoops of the carburetor intake. This, Vidal observed, was only speculation because the motor itself was buried in the mud of the lagoon into which the ship crashed.

Contrary to first belief that the plane stalled when only 50 feet up, Vidal suggested the altitude probably was nearer 200 feet.

DAM SITE TO BE APPRAISED

SANTA FE—Governor Clyde Tingley announced last night he had been notified of the conclusion of the Conchas dam right of way condemnation hearing against the Red River Valley company at Las Vegas.

Overruling a remurrer by the defendant ranch company claiming unconstitutionality of the proceedings and the state's lack of power to act, the court announced he would appoint a board of appraisers, the governor said.

EXPECT 1,000 WPA JOBS

SANTA FE—The prediction that the state's number of accepted WPA projects will pass 1,000 was made Wednesday by State Works Progress Administration authorities. In the last two days 261 projects totaling \$4,710,000 have been sent to Washington and projects sent before that are estimated at \$4,000,000.

Typewriters for rent at Messenger

Old Timers Invited To Old Timers Day To Be Held At Roswell 8th

"Old Timers," those who have lived in New Mexico for 30 years or longer. You are invited to the special "Old Timers Day" service at the M. E. Church South of Roswell, Sunday, September 8th. Special preaching service at 10:30 a. m., lunch in the basement of the church at noon.

Invitations have been mailed as far as the committee could get the names, but if you failed to get a written invitation "This Is It." Write your name on a postal card and mail it to "Walter Gill, Roswell, N. M., Box 725." Do it right now.

This is especially for Cass G. Mason, who, we understand, is all puffed up about it. Come on Cass and bring your "old time friends." Sunday, September 8th, 10:30 a. m., M. E. Church, South, Roswell.

Woman Killed In Mill Riot Strike

Officers began a round-up of suspected participants in a mill strike riot at Pelzer, South Carolina, Monday, which results in the death of a woman and the wounding of at least fifteen other persons.

G. W. Henson, 64, Pelzer, was taken to the county jail at Anderson under a warrant charging him with murdering Mrs. Bertha Kelly, 23, who died in one of the first blasts of gunfire which raked two plants of the Pelzer Manufacturing Company before opening time Monday morning.

Nine other men, alleged strike sympathizers, were lodged in jail "for investigation," and officers said they were seeking others.

The nine, in addition to Henson, were arrested while on picket duty. Two pistols, two rifles and a shotgun, found secreted near the mill entrance, were seized.

Mrs. Ickes Killed In A Car Accident

Mrs. Harold L. Ickes, wife of the secretary of interior, was killed, and Mrs. Genevieve Forbes Herrick of Chicago, well-known writer, was critically injured in an automobile accident about thirty miles north of Santa Fe Saturday night.

Ibrahim Sayfullak, connected with the Turkish embassy, and Frank Allen of Gallup, driver of the car, also were injured.

Mrs. Ickes and party were returning from Taos when the accident occurred.

Mrs. Ickes' body was sent to Chicago Sunday, according to Congressman J. J. Dempsey, who assisted in funeral arrangements.

A coroner's jury of Spanish-Americans, for which testimony in English was translated into Spanish, Sunday night attached no blame in the accident Saturday at Velarde, in which Mrs. Harold L. Ickes was killed.

The inquest jurors were selected from the Espinosa settlement, fifteen miles south of Velarde.

District Attorney David Chavez, conducting the inquest, said after the verdict that an investigation would continue and he would question two other victims of the wreck as soon as they sufficiently recovered from their injuries.

The jury found Mrs. Ickes came to her death from a fracture of the cervical vertebrae and a possible skull fracture "as the result of an automobile accident wherein the car in which the deceased was riding overturned."

Two victims in the accident with Mrs. Ickes were reported improving in a Santa Fe hospital. Frank Allen, driver of the car died early Monday morning from injuries received in the crash. He regained consciousness once, but was never able to make a statement. Funeral for Allen was held yesterday at Gallup.

The funeral of Mrs. Ickes held at the Ickes home in Chicago, Tuesday was attended by Mrs. Franklin Roosevelt and two members of the president's cabinet.

Men's Club Holds Interesting Meet On Tuesday Night

The Men's club met on Tuesday evening for their meeting, which had been postponed from last week. They were served a delicious plate supper by the ladies of the Woman's club. Nineteen members and two visitors were present.

Business matters coming before the club were reported on by the respective committees: J. T. West reported that WPA projects submitted by Hagerman were still under advisement but no definite action had been taken upon them. A finance committee was appointed to raise the necessary funds for the school-community fair to be held on September 27th, this committee is: J. T. West, Cass G. Mason, E. A. White, the Rev. J. A. Hedges and R. W. Conner.

A farm products committee was appointed to help with the collection and arrangement of these products to be displayed. A domestic arts prize list has been completed and will be announced at an early date.

H. E. Lundquist, who is visiting his brother-in-law, Frank McCarthy, made a brief talk on his impressions of Men's clubs.

L. W. Fisher of the newly located variety store in Hagerman was present and stated that he was pleased with the reception that he had received from the business men of the city.

The next regular session of the club will be held next Tuesday night, September 10th, at the Presbyterian church basement. The financial plans of the various fair committees will be further completed and announced.

J. T. WEST ANNOUNCES NEW WPA PROJECTS

J. T. West, mayor of Hagerman, announced this morning that there have been three new WPA projects approved for this community. A sewerage system, street improvement, and a city park. A sewing project is being considered and there is a favorable possibility of getting that here.

PECK IS NAMED SUPERINTENDENT

John C. Peck of Roswell, former Chaves county sheriff, has been named superintendent of the state industrial school at Springer, it was announced at Roswell Saturday. Mr. and Mrs. Peck left for Springer Saturday to make their home on receipt of the announcement.

OUT AGENCIES

New York—President Roosevelt moved yesterday emergency agencies agreement, stating the economic crisis is past, and a report from General Farley, chairman of the democratic national conference, "things are all right."

Spent luncheon afternoon at the club with Farley and New York and national leaders.

WIN RIGHT FOR CONCHAS

The state will concede and any length, Governor Tingley said Saturday, necessary land for the dam and negotiations he probably will result in a favorable solution to the Bell ranch over way without any

All-Stars Championship Cup Football Tourney

Eastern New Mexico tournament ended at Roswell Sunday night with the team of Carlsbad of the championship cup earned the cup in a Friday night and All-Stars Saturday night of 9 to 0. Flesvig, from Carlsbad, ran total to forty-three seven strikeouts in seven. Mosley's team of the consolation in the Pecos Valley Truck and 8 to 5.

Football team lost to All-Stars Friday night in a score of 8 to 1. All-Stars was able to garner more hits than the Carlsbad team, they failed to get any runs. Flesvig, pitcher, fanned twelve runners to run his total to thirty-seven for the season at that time.

ATH TOLL FLORIDA FORM HIGH

Number of Deaths May Exceed 200; Sweeps Path Forty Miles Thru Florida; Hurricane Now Formed.

Scenes of horror and desolation greeted the storm workers last night as the storm of Florida Keys to count the number of deaths. The storm is now moving southward and is expected to reach the Gulf of Mexico in the next few days.

Conservative estimates, based on those made by the U. S. Weather Bureau, placed the number of deaths at possibly less than 200. The number of deaths, however, received from various sources, ranged upward to 400 and 500.

Louise E. Thompson, Red Cross relief chairman in the Keys, said headquarters received reports of the death toll in the Keys to be less than 200.

Those who accompanied the storm workers on a relief expedition to Miami, said his report was made after contact was made with all hitherto known points in the area.

John H. Hedges, who made an inventory of the stricken area, said he did not believe the death toll was less than 200. He said he had reports of 177 deaths in the world war veteran camp at lower Matecumbe. He estimated 100 dead in the Snake Creek area.

Franklin, railroad station at Delmar, said he had nearly 150 bodies at the station, while Jack Combs, Delmar, said he believed the death list would range from 100 to 150.

Planes flying over the stricken Keys, radioed their reports last night concerning the damage.

It appears as if broom sweepers will have a busy time with the debris. William Dokey, Delmar, said craft blown ashore. A man was sitting on a house on isolated Key near her."

MARtha OSTENSO

SYNOPSIS

Anna ("Silver") Grenoble, daughter of "Gentleman Jim," formerly of the community, but known as a gambler, news of whose recent murder in Chicago has reached the town, comes to Heron River to live with Sophronia Willard, Jim Grenoble's sister, who is at the depot to meet her. Sophronia's household consists of her husband, and stepsons, Roderick and Jason. The Willards own only half of the farm which they live on, the other half being Anna Grenoble's. On Silver's arrival Duke Melbank, shiftless youth, makes himself obnoxious. Roderick is on the eve of marriage to Corinne Meader, daughter of a failed banker. Silver says she wants to live on the farm, and has no intention of selling her half, which the Willards had feared. She meets Roddy that night. Silver tells Sophronia ("Phronia," by request) something—but by no means all—of her relations with Gerald Lucas, gambler friend of her father. Roddy marries Corinne, and brings his bride home. Corinne has a maid, Paula, who seems to attract Jason. Silver again meets Gerald Lucas, who has established a gambling resort near town. She introduces him to Corinne Willard, much against her will.

CHAPTER VI—Continued

"Harry and his sister will come for me—if you won't take me," Corinne replied distantly. "Corrie!" Her name, as he uttered it, was a vehement plea. But she did not answer. She had already left the room and gone into the hall to telephone.

Roddy sat for a minute where he was and listened to Corinne's voice as she talked to Harry Richter and made her own elaborate excuses for her husband. Then he got up and went to the kitchen.

He was sitting there a half hour later when Corinne came and stood in the kitchen doorway. She was dressed for the party. Roddy looked up.

"Give my regards to Harry," he said, "and tell him to bring you home early."

Corinne frowned. "I didn't think you could be so stubborn."

Roddy got up and put his arm about her. "It isn't stubbornness, dear," he said, quietly. "Lord, can't you tell when a man is dog-tired?"

"You're not too tired to go, if you really wanted to," she persisted. "It's just that you don't like the people who are going to be there."

"Well—they're not my idea of a steady diet, exactly," he admitted. She drew her lips tight as she returned his look. "You are very funny sometimes," she said coldly. "I simply can't understand you."

"Don't try, kid," he said, and patted her on the shoulder. "Go ahead and have a good time. I'll put in a couple of hours checking up on the new corn."

"You're not too tired for that," she retorted. "But that has to be done," he told her. "There's Harry now."

There was the sound of a car coming to a stop before the door. Corinne turned away immediately and was gone. Roddy went to the window and watched until the car was out of sight.

shop—I thought I'd sneak along and get an eyeful of it for myself." They sat in silence watching the thin wraiths blending, parting, blending, in the hollows below. "You were over to see the Healy boy today, weren't you?" Silver asked finally. "I was thinking about him today. Couldn't we give a barn dance or something and collect enough money to pay Doctor Woodward? The Micheners told me the Healy's haven't a dollar to spare for anything like this."

"That's an idea, Silver," Roddy exclaimed with enthusiasm. "I've been wondering what we could do to help out. Old Doc Woodward won't be so hard to satisfy. I can probably fix that myself. But the family is up against it, and without the boy's wages, they'll be in a bad way. I'll speak to Corrie about it. I'm sure she'll take to the idea."

"It would be fun," Silver said. And perhaps wretched for herself, she thought with a pang. Except for the Micheners, a Norwegian family on the south, and the Micheners, frugal but free-spirited Germans up near the lake, she had so far made friends of none of the people in and around Heron River.

Roddy turned and looked at her suddenly. "You know—that's the kind of thing that makes you likeable, Silver."

"What kind of thing?" "You're always thinking about somebody else. The other day in the field, when you tore off your blouse—"

She was smiling at him. "I shall probably grow up to be a nice old maid—loved for my good deeds."

Roddy laughed and put his arm about her shoulder. "You're a great little kid!" he exclaimed. "After old lady Folds, and then—this bird Lucas cropping up—or I should say flying in—"

"Now, Roddy, please don't start applauding me, or I may cry. Besides—I'll be twenty in November, so I haven't much credit coming to me."

"You will? Well, well! And I suppose Phil Michener thinks you're just about the right age to settle down, eh?"

"Oh, I don't know about that," Silver replied loftily. "I like his sister, and I like him. They are real people. Roddy. They more than make up for—women like Mrs. Folds."

"And men like Gerald Lucas?" There was a curious note in Roddy's voice, half gentle, half embarrassed, the banter gone out of it.

Silver clasped her hands together before her. "Yes," she said. "Although Gerald isn't an evil as Mrs. Folds is, Roddy. He is an evil for me, that's all. Or he was, I should say. But you know by this time that I don't run away from—from that sort of thing—any more."

oning contraction of her throat. Roddy pressed his lips together and drew a deep breath, as though some profound unease had settled within him.

Together they walked down into the yard, and their simple good night was taken coolly into the silence.

Harry Richter and his sister Evelyn, Corinne reflected with a secret flipp of contempt, were still—and perhaps always would be, in spite of their advantages of money and travel—just a pair of noisy and slightly vulgar cubs. But of course their father owned most of the town of Maynard, and the family mansion there was the pride of the district.

Corinne sat in a deep chair in the shadowed corner of the sprawling room, and as she gave a side-long glance at the amused profile of Gerald Lucas, who stood beside her in an indolent, provocative attitude, smoking a cigarette, it seemed to her that Harry's friends were a little pathetic, even rustic.

Corinne was coolly excited by the realization that never before in her life had she met anyone so polished, so cynically debonaire as Gerald Lucas. She felt, with merely the least thrill of danger, their mutual understanding.

A rubicund young grain broker from the city came from across the room with an enormous silver cocktail shaker in his hands. "One more little drink on the house—for the prettiest little girl in the party!" he announced.

"Thanks, no," she demurred. "I'm much too warm already. I think I'll stroll out for a little air."

She had not turned, even a little way, toward Gerald as she spoke, but a few minutes afterward, when she sauntered slowly among the moonlit trees above the shore, she was not surprised that he met her there. She had known that he would follow her.

They stood together for a little while, in a piquant conspiracy of silence, and looked out upon the shining lake.

"I must be very stupid," Gerald said, in a puzzled voice. "Otherwise, I would be able to figure out just how you come to be living on a farm."

Corinne laughed and felt her heart quicken. "It's very simple," she said. "I fell in love with a farmer—and married him."

"Did you?" Gerald looked at her as though in surprise. They laughed in unison. Everything seemed delightfully absurd, Gerald picked up her hand and bent her little finger inward toward the palm. But immediately, almost absently, he let it go.

"Have a cigarette?" he suggested, and offered her his onyx and gold case.

"Thanks." He held the match for her. Corinne, seeing his shapely, well-kept fingers, thought suddenly of Rodney's hands, large and powerful and bronzed. All at once she felt uncomfortable and vaguely ashamed.

"If you wish," Gerald agreed. "I think I shall ask Harry to drive me home," she said as they mounted the steps to the porch. "My own opinion, if I were asked for it," Gerald said casually, "is that Harry has had too much to drink to drive anyone home safely."

It was long past midnight when Silver, preparing for bed, heard a car enter the driveway. She heard a voice that was sharply familiar to her, although it was low and pleasantly modulated. She glanced from her window. In the moonlight, the chromium trimmings of Gerald Lucas' car shone unmistakably.

"This is downright spying!" Silver said to herself, and buried her face in her pillows. But a sudden fright took possession of her. Corinne—and Gerald Lucas! Such a thing could never be. It simply could not!

they had gathered that day in the garden. The harvest dance was but a week away now, and there were things to be bought and cooking to be done and the old barn to be decorated for the event.

"I suppose if we get a dollar for this truck we ought to be thankful," Sophronia said. "Upon my soul, it's enough to discourage anyone—if it wasn't for the satisfaction of seeing the things grow. And with Roddy talkin' of sturin' his grain it doesn't look like an easy winter for any of us."

"It's hard to understand," Silver said, "with so many people going hungry—and farmers talking of using their grain for fuel."

"It's past me," Sophronia admitted. "I wouldn't be surprised if Roddy gave up the whole business, one of these days and moved to the city. Though there wouldn't be much sense in that, either. I thought he'd feel better the other day when he got first prize for his corn at the fair. But it didn't change him any so far as I could make out."

Silver had sat and listened, her hands clasped before her, gazing straight ahead at the winding highway. There was something she wanted to say, but the words seemed too clumsy, too unutterably crude. These people had become her people—the thought forming in her mind flowed on in a radiance—the gloomy and faraway radiance of the legend of Ruth.

All at once she felt a tide of warmth move up over her throat and face. "I wanted to say something last night—when Roddy was talking to you and Jason about things," she said. "But—I didn't know just how to put it."

"What was that?" Sophronia asked. "It's just that I feel I have a right to help—and I want to. I have a little money left—plenty to do me for a year or even more—and I don't need the rent Roddy is paying for that east section. I don't see why I—"

"Land sakes, child!" Sophronia interrupted. "Don't ever mention such a thing to Roddy. He'd take your head off. I'm glad you didn't say anything about it last night—No—he'll get along and pay his way—or he'll make a change of some kind. He already thinks you're doing far more than enough to pay your board, if it comes to that!"

Silver was silent for a long time. It was just as she had expected. Roddy's pride would never permit him to take any assistance she might have to offer him.

From Maynard, Sophronia and Silver, with the car windows up, drove home through dissolving distances of rain. "Think of gettin' only ninety cents for all our work yesterday," Phronie mused aloud. "Not countin' the cost of seed and the botcher of plantin'. Darn it! I could almost wish every city swell might starve to death!"

CHAPTER VII THE mow of the new barn was full of hay, so that it could not be used for the harvest dance. Consequently, the loft of the old barn behind the hill, which had latterly been used for surplus storage, came into its own again.

Jason stood with Silver at one end of the loft, where the orchestra was getting ready to play for another square dance. "I think I'll ask Paula for this one," Jason said.

"If some one isn't ahead of you," Silver said. "She seems to be a popular tonight. Paula is a handsome girl. She would make a fine model for some painter," but Jason hurried away as old Steve, acting master of ceremonies, called for the next dance.

Silver moved down to where Roddy and Corinne were standing together. "I wonder what has happened to Gerald Lucas," Corinne said as Silver joined them. "I sent him a special invitation urging him to come, and here it's midnight—"

Silver smiled. "He may be staying away on my account, Corinne. I told him once that I didn't want him to come here. He probably took me at my word."

Corinne made no effort to conceal her amazement. "You told him that?" "Silver may have her own reasons for not wanting him around," Roddy put in. "I have," Silver said lightly. "Well—as I have said before—it's no affair of mine, after all," Corinne observed pointedly. "But I do think—when I take the trouble to invite someone specially—"

"Forget it, Corrie," Roddy interrupted. "There goes the next dance." He led her upon the floor as Phil, the eldest of the Michener boys, came for Silver. As they moved together into the dance, neither of them noticed Duke Melbank and a companion stagger up from the top rung of the loft ladder and make their way into the crowd. Uppermost in Silver's mind was the thought that she was being received by the country people here as if she were one of them. Old Steve called out in his high thin voice: "All join hands!" Silver left Phil and joined the girls who moved in a gay circle past the men.

New Autumn Woolens Striking

By CHERIE NICHOLAS

WOOLENS to "suit" the smart woman this fall are not going to be able to resist them and you wouldn't if you could after once glimpsing them.

From every inch of their wool and their warp the woolens brought out this season radiate a beauty of coloring, of texture, of novelty in patterning and weave which is simply taking the world of fashion by storm.

Seeing that the American mills and the mills abroad are giving us the most amazing, the most beautiful woolens factory can picture, it is rejoice that the English habit of wearing sporty or tailored costumes for all daytime occasions in contrast to most resplendent and glorious formal fashions for evening has spread to America. Now that the smart thing to do this fall is to go very colorfully and handsomely tailored in the daytime, it is safe to predict that dresses, suits, swagger costumes together with three-piece ensembles made of stunning woolens will predominate by a large majority in the wardrobe of every fashion-wise woman.

One of the most dramatic gestures which has to do with this sweeping vogue for grand woolens is the costume which goes fifty-fifty gorgeous cloth and high-colored suede.

Another thing likable about the new woolens is that they are so delightfully soft and caressing to the touch, and give ear to this bit of good news—they are so woven in combination of yarns, they do not wrinkle.

Just to mention a few of the smartest and newest of new woolens—there are kemp tweeds, bright nubbed tweeds of unusual treatment, sawtooth checks, marl tweeds, broken plaids, chevron stripes, ombre plaids, ribbed diagonals and others too numerous to cite.

The colorings of the versatile woolens brought out this season are a triumph both in art and of science. A complete wardrobe may be planned to include several colors, none of which conflict because the most vivid plaids and gay hues are given dusky overtones which blend into one grand symphony via misty interweavings of grayish or brownish yarns. The attractive Seton Cotterill collection of London which was recently shown in America by the Chicago wholesale market council stressed particularly this feature of color blend in smart woolens.

The trio of high-style woolen fashions here pictured were displayed in the exhibit. See illustrated to the left in the group a perfect travel costume. The Scotchly plaid in black and white, of which it is made, has a heavy nub yarn interwoven to give high lights of canary yellow.

A new chevron-stripe wool in tones of amber, rustique and brown makes the suit with tuxedo top coat (centered in the illustration). Note the smart cross-scarf of the jacket. Semi-fitted lines and woollen buttons give a new smart air.

The new skirts are marvelously built. They are most deceptive. They look as innocently pleated and paneled as you please, while in reality they are concealing slits which allow for perfect freedom of action. Such a skirt is the one to the right in the picture. "Swagger collection" describes the suit in black and ivory. It has a snug collar and stock scarf and is worn with matching sweater.

BRISBANE THIS WEEK

A Rogers Highway Our Policy? Here Why Go to Town? To Discourage Vice From Tulsa, Okla., in Will Rogers was born. I wood...

Arthur Brisbane Rogers with friends of Will Rogers on both sides from one side other were named for Will Rogers would be many "Will Rogers" ways.

Thus runs the headline: "ITALY BAILS ALL TALK." "BRITAIN WEIGHS SAYS WANTS TO KNOW OURS."

If she wants to know of 90 out of a 100 ordinary means, and 100 per cent of common sense Americans, it is this:

To mind our own business European nations, alternating dering each other and inferior nations, attend to their own business in their way.

Our policy now, with Italy following Ethiopia, should be that it was when our friends were swallowing the Boers, absorbing Italy with its valuable gold and mom mines. We did nothing. Why should we invent a policy for Mussolini now?

France and England the solini may involve three in the Ethiopian war." He heard of the New England who said: "I'm on my way to get drunk, and Lord how it." He need not have gone. European nations need to be dragged into a tri-continent if they don't want to be dragged.

A very old poker player of New York Press club, who "raised the pot," remarked: "The only way to discourage is to make it expensive." This seems to be working in Germany. Doctor Schacht, head of the Reich, warns Germany Nazi individuals indulging themselves in the pleasure of defenseless Jews brutally, and Such wanton brutality cannot a great menace to Germany everywhere, according to Schacht, who knows.

Republicans report greatly increased demand for the Senator Borah, since the announcement that, if nominated, will run. This will be a new for some Republican tion-best minds, for whether have to be "lashed with scorpions or with something else, would a little difference to some of who consider Senator Borah tinctly in the "scorpion" class.

An old gentleman of eight strolled into a New York station, remarking: "I have walked from Kansas City and back walk back again tonight."

Removed to a psychopathic ward he had substituted the verb "walk" for "walk," the police would have disturbed him, from Kansas City and back again at night. "I just ago he had said, "I would re from Kansas City." He would been sent to the dangerous ward. So there is progress.

At Sverdlovsk, Russian ment engineers, digging sewers der the city, find gold ore that ecates a rich gold field under the town. The government practically all the city, and easily take the rest, and a increase in Russia's gold production, already more than three States, may be expected.

Those who believe in the wisedness of Russia may ask: "Why does Providence allow wicked people to find so much gold?" One answer is, "The quickest way to make them stop their wickedness is to make them rich, and gold does that." Gold might not change the existing government of Russia, but another generation will see the other kind of government, and the ownership of such a lump of gold as we possess, might make that Russian government consider Lenin and Stalin "old fashioned."

Providence works mysteriously. © King Features Syndicate, Inc. Will Rogers.

COAT OF PIGSKIN

By CHERIE NICHOLAS

Have you heard about the toochie-for-words new polo coats which are made of fine pigskin? Just study this picture and see how smart they are down to the slightest detail. You can get them either in natural or rich dark dyes. The model illustrated has all of the latest "touches," such as big, roomy bellows pockets, the new sash belt which ties so casually, strap-band sleeves which are adjustable about the wrist, deep-set yoke and an intricate seaming which gives the garment exquisite finesse. The hat is of pigskin to match the coat. The plaid scarf is up to the moment in style.

LUXURIOUS METALS TOUCH UP FABRICS

Inspired by Oriental and period influences fabric manufacturers have outdone themselves in producing beautiful and luxurious metals on every type of silk ground.

In addition to being important for afternoon and evening gowns, the new metals are widely used for millinery—notably turbans—scarfs to be worn with wool as well as silk suits, blouses, waistcoats, bags, vanity and cigarette cases, in superb evening sandals and evening jackets that have a decidedly new look.

Metals with solid burnished faces in silver, gold—and newest of all—copper are shown in the market and considered especially good for jackets and accessories.

Silk crepe with double borders in metalized broche show distinct traces of Persian, Hindu and Japanese influence in their rich colorings and delicate patterns.

Sheer silk gauzes, completely metalized, form one of the newest and loveliest of the metals.

Pink Rates Coolest Shade and Looks Most Expensive

Pink, fashion's favorite color this summer, is the coolest-looking and, incidentally, the most expensive appearing shade you possibly can wear. There are pink linen and shantung suits for town and country, handsome pink sweaters to wear with white skirts when you week-end out of town and glamorous evening gowns in various tones of this lovely shade. One particularly nice evening gown is fashioned from double layers of pink chiffon and is worn under a billowing wrap of matching material.

Paris Loves Blue

Blue is a favorite color of Paris this year. Smart women seen at the races are many of them gowned in navy with white relief; also navy and white prints. Pale, misty blue crepe frocks are worn with darker blue hats, bags and shoes.

Let Our Motto Be GOOD HEALTH

BY DR. LLOYD ARNOLD
Professor of Bacteriology and Preventive Medicine, University of Illinois, College of Medicine.

AIR CONDITIONING

Almost every one has had the experience on a hot summer day of going into a movie picture theater that has had a sign announcing, "70° COOL INSIDE." For the first few moments we have a grateful sense of comfort. The air seems delightful after the sizzling blasts on the street. Then gradually it dawns on us that we are not cold. If we have a wrap, we put it on. But most of us don't carry wraps when the temperature is in the hundred mark. Moreover, we have discarded every article of clothing that our sense of public decency will permit us to discard. We debate whether we should go out and get warm, but we remember the unbearable heat of the heat. Eventually, though, we leave, and as we reach the sidewalk, the hot air makes us gasp for breath. We feel suffocated; we become cold, clammy. We may even have a strong feeling of nausea. A few of us may collapse entirely. Obviously, this is over-refrigeration.

The purpose of air-conditioning is to make us comfortable, and if we are uncomfortable when we go from the outside hot air into the inside cooled air, and acutely uncomfortable, almost to the point of sickness, when we go from the inside cooled air into the outside hot air again, then something is wrong.

The skin is the largest organ of the body. If it were spread out on the floor, it would be the size of a rug seven or eight feet square. When the outer air is cooler than the body, the skin tries to prevent heat loss by reducing the amount of warm blood flowing through this body covering layer. While it is impossible for the body to prevent loss of heat by this mechanism, still excessive dissipation of heat is avoided. But the skin loses heat and acts as a radiator in spite of all that the body can do. During cold weather we lose two-thirds of our heat value of food through our skin. Sixty-five cents of every dollar we spend for food is used to heat the air in which we live. On the other hand, in the summer the skin acts like a refrigerator. We secure water into the outside skin and the evaporation of this water cools us.

When you go from the street to an artificially cooled room during a warm summer day, your skin has to change in a moment's time from a radiator to a radiator. On the street your skin is working to keep your inside organs from getting too hot, but when the temperature of the air is above normal body temperature, the skin works hard to keep the body from being heated up to the air temperature.

The city health problem in artificially cooled theaters, restaurants, office buildings and homes is the difference in temperature and comfort between the outside and the inside air. There are several important points to be considered. The sense of comfort is the desirable end point. This is a combination of three factors: namely, temperature, humidity and air movement. When the air is saturated with moisture, it feels hotter than air of the same temperature with lower humidity. Some recent work tends to show that there should not be more than a 10 degree difference in temperature between the air inside artificially cooled rooms as compared to the outside air. But there should be 40 per cent less moisture in the air in the refrigerated rooms. There should be some air movement, but not a draft or wind, sufficient to cool off air pockets forming around people sitting in these rooms. The greatest factor, however, according to these investigations, is in the humidity of the air. In theaters, restaurants and theaters, humidity is 20 to 30 degree Fahrenheit difference in temperature between inside and outside air. Upon entering such a room—maintained at 70° F.—from a street temperature of 100° to 105° F., one has a sense of coolness and well-being. Then adjustment of the humidity to the temperature takes place, and this sense of well-being disappears.

Internal temperature rises in response to all the skin's valiant attempts to change itself instantaneously from a radiator to a refrigerator. That is why dizziness, nausea and collapse may accompany a sudden change from a November day.

We do not know enough about air conditioning of rooms in the summer to make rules as yet. We have many years of experience conditioning rooms during the winter. We need research and investigation upon the question of summer conditioning of offices, homes, restaurants and such. The necessary equipment, and special rooms must be constructed. The differences in temperature, humidity and wind currents must be examined.

Learning How a Janitor Should Push a Broom

CENTRAL Teachers' college, at Mt. Pleasant, Mich., has brought forth something new—a janitors' institute. The first one is being held this summer and the pupils are taught, by example and lecture, all the duties of the janitor. The photograph shows a class being instructed in the proper use of the broom.

BEDTIME STORY

By THORNTON W. BURGESS

LIGHTFOOT WATCHES AND WAITS

THERE had been a great change in Lightfoot the Deer. Peter Rabbit had noticed it. Sammy Jay had noticed it. So had Blacky the Crow. All three of them understood it. They understood it perfectly. They knew that Lightfoot was watching and waiting for the day which would bring into the Green Forest the hunters with terrible guns seeking to kill him.

But from the time the first Jolly Little Sunbeam came creeping through the Green Forest at the beginning of day until the Black Shadows chased them out at the beginning of night, Lightfoot remained hidden in thickets or behind tangles of fallen trees in the depths of the Green Forest. Sometimes he would lie for hours

Peter Rabbit Had Noticed It.

foot remained hidden in thickets or behind tangles of fallen trees in the depths of the Green Forest. Sometimes he would lie for hours

in his hiding place. Sometimes he would stand motionless for the longest time, his big ears cocked forward to catch every little sound, his great, soft eyes watching for the least little movement among the trees, his delicate nose testing every Merry Little Breeze that came his way for the dreaded scent of man.

When he moved about he took the greatest care to move silently. Every few steps he stopped to look, listen and test the air. The snapping of a twig would set him to trembling with fear and suspicion.

Lightfoot was watching and waiting for the coming of the most dreadful thing that can come into the lives of the people of the Green Forest, the coming of the hunters with terrible guns. Sometimes he wished they would come. It would be easier to know what to do. Nothing, you know, is harder than watching and waiting as Lightfoot was doing. He lost his appetite. He could no longer sleep peacefully, but continually awoke with fright. Each day he became more anxious. No sooner was one day ended than he would begin to dread the coming of another day. It was very beautiful in the Green Forest, but Lightfoot saw none of the beauty. Fear destroyed all beauty for Lightfoot.

MOTHER'S COOK BOOK

DESSERTS AND THINGS

A DESSERT does not need to be either elaborate in its preparation or expensive in cost to be appetizing. Many of the simplest of desserts are the most popular.

Duchess Cream.

This delightful dessert serves fifteen, so it may be cut into half for the ordinary family. Cook six tablespoonfuls of tapioca in boiling water until clear, cool, add a little salt, one cupful of sugar, the juice from a can of pineapple, the juice of two oranges and two lemons. Cook until thick. Cool, then add the pineapple, one cupful of finely broken nuts and a pint of whipping cream beaten stiff.

Two-Two Dessert.

Take the juice of two lemons, the finely mashed pulp of two bananas and two cupfuls of sugar. Add a quart of thin cream, a pinch of salt and freeze.

Dainty Dessert.

Cut with scissors dipped into cold water, one pound of marshmallows, add one cupful of cut pecan meats, or almonds if preferred; add enough whipped cream to make a mixture to stand up well. Serve in sherbet glasses with a spoonful or two of orange and pineapple

juice poured over each. Top with a maraschino cherry.

Spanish Pepper Salad.

Dissolve one package of lemon gelatin in one and one-fourth cupfuls of boiling water, add a teaspoonful of salt, the juice of a lemon and one-half cupful of mild vinegar. Mix with six canned pimientos finely chopped, one cupful each of pecans cut fine, and celery, also finely cut. Mold in individual molds and serve with highly seasoned mayonnaise, unmolded on nests of lettuce.

THE FAMILY REUNION

By ANNE CAMPBELL

THE family reunion will be held again this year.

Once more we will renew the melow friendships, tried and dear. Almost a hundred years ago, this homestead was a dream.

A plan told in the candlelight that made young glances gleam.

If these brick walls could speak, they'd tell a tale of love grown old; A cycle of warm hearts that blessed its hospitable fold.

A hundred years, a hundred souls that gather once again To testify to far-flung goals, and happy wives and men.

The family reunion! Heaven throws blue skies above! The day is touched with gold that is so wound about with love.

And for each guest assembled here, there are too many more That are so far and yet so near, upon a trackless shore.

God bless the family! Make strong its deep, abiding ties. Love that is tended keeps the warmth and beauty that we prize;

And even sunset skies are red with cheer in winter weather, When good friends gather, comforted, around a fire together!

He Kills Lions for a Living

JAY BRUCE of California, official lion hunter for the state and the only man in the world who kills lions for a living, recently put the five hundredth notch on his trusty gun. He figures that he has walked every bit of 40,000 miles while trailing varmints for the state fish and game commission since 1910. Here Bruce is seen bringing in his five hundredth varmint to Placerville.

Party Prize Frock for a Little Girl

PATTERN 9259

9259

"They all liked my new frock!" this little girl will be certain to say when she returns from the party—a triumphant little miss. For this dress is different. It boasts a double yoke. The second yoke is cut all in one with the pleats. And puffed sleeves are a deliciously youthful fashion. Moreover, young mothers will find this pattern no trouble at all to follow—they'll probably make it up in several cotton prints. The cost will be nominal. We suggest a sprig print or possibly a small polka dot pattern—in gay colors! Bloomers are included in the pattern.

Pattern 9259 may be ordered only in sizes 2, 4, 6 and 8. Size 4 requires 3 1/2 yards 36-inch fabric. Complete diagrammed sew chart included.

SEND FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, the STYLE NUMBER and SIZE.

Send your order to the Sewing Circle Pattern Department, 232 West Eighteenth street, New York, N. Y.

Smiles

BREVITY

"You have to learn a great many initials." "Yes," answered Senator Sorghum. "And initials save time. In a moment of great excitement a big, big 'D' may be made to cover the entire alphabet."

That's the idea "My papa's a mounted policeman," said little Pat to his mother's visitor. "Is that better than being a foot policeman?" she asked. "Course it is," replied Pat. "If there's any trouble, he can get away quicker."

Over His Dead Body Poet—Do you think there is any chance of my getting my poem published in your paper?

Editor—There may be. I shan't live forever.

He'd Have to Quit Doctor—What you need is an absolute change. You must not do any head work at all.

Patient—That's bad. I'm a barber.

WNU—H 35-35

Do You Know—

That Amsterdam, Holland, is the only city in the world which has satisfactorily solved the housing problem? It has no slums, all the tenements having been razed and modern apartment houses erected in their stead, with apartments which rent for as low as \$10 a month.

QUESTION BOX

by ED WYNN, The Perfect Fool

Dear Mr. Wynn: I am a boy ten years old. I have a rich uncle, but he is very stingy with his money. My birthday is next December, and I asked him to get me a bicycle for a birthday present, and he said it would cost too much money. Then I asked him to buy me a tricycle and he said that would cost too much money, too; then he said I should leave the present to him. What do you think he will get me?

Yours truly,

G. HEEESTITE.

Answer: In-as-much as he says a bicycle or a tricycle will cost too much, I guess he intends waiting till December and get you an icicle.

Dear Mr. Wynn:

I have a little son who was eight years of age last Wednesday. I asked him what he would

like for a birthday present. He asked for a Bible and I gave him one. Since that time he has pestered me with one question till I'm nearly frantic. He keeps asking me to show him what a miracle is. What can I do to demonstrate fully, to him, just what a miracle is?

Yours truly,

G. RUSELEM.

Answer: As he is so annoying with his persistency the best thing to do is this: The next time he asks you what a miracle is, ask him to turn around. The minute he does, give him a swift kick, then ask him if he felt the kick. When he says yes, say to him: "Well if you hadn't, that would have been a miracle."

AIR CONDITIONING

Almost every one has had the experience on a hot summer day of going into a movie picture theater that has had a sign announcing, "70° COOL INSIDE." For the first few moments we have a grateful sense of comfort. The air seems delightful after the sizzling blasts on the street. Then gradually it dawns on us that we are cold. If we have a wrap, we put it on. But most of us don't carry wraps when the temperature is near the hundred mark. Moreover, we have discarded every article of clothing that our sense of public decency will permit us to discard. We debate whether we should go out and get warm, but we remember the unbearable heat of the heat. Eventually, though, we leave, and as we reach the sidewalk, the hot air makes us gasp for breath. We feel suffocated; we become cold, clammy. We may even have a strong feeling of nausea. A few of us may collapse entirely. Obviously, this is over-refrigeration.

The purpose of air-conditioning is to make us comfortable, and if we are uncomfortable when we go from the outside hot air into the inside cooled air, and acutely uncomfortable, almost to the point of sickness, when we go from the inside cooled air into the outside hot air again, then something is wrong.

The skin is the largest organ of the body. If it were spread out on the floor, it would be the size of a rug seven or eight feet square. When the outer air is cooler than the body, the skin tries to prevent heat loss by reducing the amount of warm blood flowing through this body covering layer. While it is responsible for the body to prevent loss of heat by this mechanism, still excessive dissipation of heat is avoided. But the skin loses heat and acts as a radiator in spite of all that the body can do. During cold weather we lose two-thirds of the heat value of food through our skin. Sixty-five cents of every dollar we spend for food is used to heat the air in which we live. On the other hand, in the summer the skin acts like a refrigerator. We sweat water into the outside skin and the evaporation of this water cools us.

When you go from the street to an artificially cooled room during a warm summer day, your skin has to change in a moment's time from a radiator to a radiator. On the other hand, your skin is working to keep your inside organs from getting too hot, but when the temperature of the air is above normal body temperature, the skin works hard to keep the body from being heated up to the air temperature.

The only health problem in artificially cooled theaters, restaurants, office buildings and homes is the difference in temperature and comfort between the outside and the inside air. There are several separate points to be considered. The sense of comfort is the desirable end point. This is a combination of three factors; namely, temperature, humidity and air movement. When the air is saturated with moisture, it is not better than air of the same temperature with lower humidity. Recent work tends to show that there should not be more than a few degrees difference in temperature between the air inside artificially cooled rooms as compared to the outside air. But there should be 40 per cent less moisture in the air in refrigerated rooms. There should be some air movement, but not a draft or wind sufficient to chill air pockets forming around people sitting in these rooms. The greatest factor, however, according to these investigations, is the humidity of the air in restaurants and theaters. In a 20 to 30 degree Fahrenheit difference in temperature between inside and outside air. Upon such a room—maintained at 70° F.—from a street temperature of 100° to 105° F., one gets a sense of coolness and well-being.

Then adjustment of the humidity to the temperature takes on a sense of well-being.

Internal temperature rises in all the skin's valiant at to change itself instantaneously from a radiator to a refrigerator. That is why dizziness, nausea and collapse may accompany a rapid change from a November day.

do not know enough about air conditioning of rooms in the summer to make rules as yet. We have many years of experience resting rooms during the winter. We need research and upon the question of summer air conditioning of offices, homes, restaurants and such like.

The necessary equipment and special rooms must be constructed. The differences in nature, humidity and wind directions must be examined.

Learning How a Janitor Should Push a Broom

CENTRAL Teachers' college, at Mt. Pleasant, Mich., has brought forth something new—a Janitors' Institute. The first one is being held this summer and the pupils are taught, by example and lecture, all the duties of the janitor. The photograph shows a class being instructed in the proper use of the broom.

BEDTIME STORY

By THORNTON W. BURGESS

LIGHTFOOT WATCHES AND WAITS

THERE had been a great change in Lightfoot the Deer. Peter Rabbit had noticed it. Sammy Jay had noticed it. So had Blacky the Crow. All three of them understood it. They understood it perfectly. They knew that Lightfoot was watching and waiting for the day which would bring into the Green Forest the hunters with terrible guns seeking to kill him. As long as the leaves had remained green Lightfoot had wandered about where he pleased, careless of who saw him. He had even visited Farmer Brown's garden in broad daylight. He had joined Farmer Brown's cows in the Old Pasture and grazed with them contentedly. He had been free of fear. But now Lightfoot was like another creature. He didn't seem at all the same animal. It was rarely that he moved about much until after the Black Shadows had crept out from the Purple Hills. It was then that he fed and visited his favorite drinking place at the Laugh-

ing Brook. But from the time the first Jolly Little Sunbeam came creeping through the Green Forest at the beginning of day until the Black Shadows chased them out at the beginning of night, Light-

Peter Rabbit Had Noticed It.

foot remained hidden in thickets or behind tangles of fallen trees in the depths of the Green Forest. Sometimes he would lie for hours

in his hiding place. Sometimes he would stand motionless for the longest time, his big ears cocked forward to catch every little sound, his great, soft eyes watching for the least little movement among the trees, his delicate nose testing every Merry Little Breeze that came his way for the dreaded scent of man.

When he moved about he took the greatest care to move silently. Every few steps he stopped to look, listen and test the air. The snapping of a twig would set him to trembling with fear and suspicion.

Lightfoot was watching and waiting for the coming of the most dreadful thing that can come into the lives of the people of the Green Forest, the coming of the hunters with terrible guns. Sometimes he wished they would come. It would be easier to know what to do. Nothing, you know, is harder than watching and waiting as Lightfoot was doing. He lost his appetite. He could no longer sleep peacefully, but continually awoke with fright. Each day he became more anxious. No sooner was one day ended than he would begin to dread the coming of another day. It was very beautiful in the Green Forest, but Lightfoot saw none of the beauty. Fear destroyed all beauty for Lightfoot.

Do You Know—

That Amsterdam, Holland, is the only city in the world which has satisfactorily solved the housing problem? It has no slums, all the tenements having been razed and modern apartment houses erected in their stead, with apartments which rent for as low as \$10 a month.

Comin' to Town

QUESTION BOX

by ED WYNN, The Perfect Fool

Dear Mr. Wynn:

I am a boy ten years old. I have a rich uncle, but he is very stingy with his money. My birthday is next December, and I asked him to get me a bicycle for a birthday present, and he said it would cost too much money. Then I asked him to buy me a tricycle and he said that would cost too much money, too; then he said I should leave the present to him. What do you think he will get me?

Yours truly,
G. HEEESTITE.

Answer: In-as-much as he says a bicycle or a tricycle will cost too much, I guess he intends waiting till December and get you an icicle.

Dear Mr. Wynn:

I have a little son who is eight years of age last Wednesday. I asked him what he would

like for a birthday present. He asked for a Bible and I gave him one. Since that time he has pestered me with one question till I'm nearly frantic. He keeps asking me to show him what a miracle is. What can I do to demonstrate fully, to him, just what a miracle is?

Tours truly,
G. RUSELEM.

Answer: As he is so annoying with his persistency the best thing to do is this: The next time he asks you what a miracle is, ask him to turn around. The minute he does, give him a swift kick, then ask him if he felt the kick. When he says yes, say to him: "Well if you hadn't, that would have been a miracle."

MINUTE MAKE-UPS

By V. V.

One of the best beautifiers for your face is a simple glycerin and rosewater mixture, which, patted on at night in the so-called "hol-lows" directly under your eyes and on your eyelids, will smooth the skin and scare away the wrinkles.

MOTHER'S COOK BOOK

DESSERTS AND THINGS

A DESSERT does not need to be either elaborate in its preparation or expensive in cost to be appetizing. Many of the simplest of desserts are the most popular.

Duchess Cream.
This delightful dessert serves fifteen, so it may be cut into half for the ordinary family. Cook six tablespoonsful of tapioca in boiling water until clear, cool, add a little salt, one cupful of sugar, the juice from a can of pineapple, the juice of two oranges and two lemons. Cook until thick. Cool, then add the pineapple, one cupful of finely broken nuts and a pint of whipping cream beaten stiff.

Two-Two Dessert.
Take the juice of two lemons, the finely mashed pulp of two bananas and two cupfuls of sugar. Add a quart of thin cream, a pinch of salt and freeze.

Dainty Dessert.
Cut, with scissors dipped into cold water, one pound of marshmallows, add one cupful of cut pecan meats, or almonds if preferred; add enough whipped cream to make a mixture to stand up well. Serve in sherbet glasses with a spoonful or two of orange and pineapple juice poured over each. Top with a maraschino cherry.

Spanish Pepper Salad.
Dissolve one package of lemon gelatin in one and one-fourth cupfuls of boiling water, add a teaspoonful of salt, the juice of a lemon and one-half cupful of mild vinegar. Mix with six canned pimientos finely chopped, one cupful each of pecans cut fine, and celery, also finely cut. Mold in individual molds and serve with highly seasoned mayonnaise, unmolded on nests of lettuce.

Wedge-Shaped Panel
Plaided with dark green, the natural cashmere of this costume is cut effectively with a wedge-shaped panel in the front of the skirt, using the plaid on the diagonal. The scarf is dark green and all the buttons are wood and crystal-clear composition.

"Pop, what is Harlem?"
"Den of dice."

He Kills Lions for a Living

JAY BRUCE of California, official lion hunter for the state and the only man in the world who kills lions for a living, recently put the five hundredth notch on his trusty gun. He figures that he has walked every bit of 40,000 miles while trawling varnits for the state fish and game commission since 1919. Here Bruce is seen bringing in his five hundredth varnint to Placerville.

Party Prize Frock for a Little Girl

PATTERN 9259

9259

"They all liked my new frock!" this little girl will be certain to say when she returns from the party—triumphant little miss. For this dress is different. It boasts a double yoke. The second yoke is cut all in one with the pleats. And puffed sleeves are a deliciously youthful fashion. Moreover, young mothers will find this pattern no trouble at all to follow—they'll probably make it up in several cotton prints. The cost will be nominal. We suggest a sprig print or possibly a small polka dot pattern—in gay colors! Bloomers are included in the pattern.

Pattern 9259 may be ordered only in sizes 2, 4, 6 and 8. Size 4 requires 2 1/2 yards 36-inch fabric. Complete diagrammed sew chart included.

SEND FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, the STYLE NUMBER and SIZE.

Send your order to the Sewing Circle Pattern Department, 232 West Eighteenth Street, New York, N. Y.

Smiles

BREVITY

"You have to learn a great many initials."
"Yes," answered Senator Sorghum. "And initials save time. In a moment of great excitement a big, big 'I' may be made to cover the entire alphabet."

That's the Idea
"My papa's a mounted policeman," said little Pat to his mother's visitor. "Is that better than being a foot policeman?" she asked.
"Course it is," replied Pat. "If there's any trouble, he can get away quicker."

Over His Dead Body
Poet—Do you think there is any chance of my getting my poem published in your paper?
Editor—There may be. I shan't live forever.

He'd Have to Quit
Doctor—What you need is an absolute change. You must not do any head work at all.
Patient—That's bad. I'm a barber.

THE MESSENGER

Published Every Thursday At Hagerman, New Mexico TELEPHONE 17

Entered as second class matter at the post office in Hagerman, New Mexico, under the act of Congress of March 3, 1879.

Resolutions of Respect, Obituaries, Cards of Thanks, Reading Notices, and Classified Advertising, 8 cents per line for first insertion, 5 cents per line for subsequent insertions. Display advertising rates on application.

\$1.00 per year in Chaves and Eddy counties. \$2.00 elsewhere.

ETHEL W. MCKINSTRY Managing Editor

Have you ever been lonely and wished for human companionship? Can you from personal experience distinguish the difference between standing alone on a mountain side, gazing over the grandeur of nature, and being alone amid masses of people? We suggest that the latter brings about the more poignant emptiness of heart.

There are those who live among us, who have that same lonely feeling, very few faces that they know. Possibly they are so situated that they cannot form new friendships quickly, but the longing is there just the same.

As we sit here writing this, we keep thinking of that delightful little person we met, not so very long ago, which is a concrete example of our suggestion above.

Now knowing Hagerman, and Hagerman people as we have known for the years we've lived here, we also know that all that is unnecessary, and it is nothing but unintentional neglect.

Some of the beauty spots that we've noted recently are blue morning glories on Mrs. Jim Williamson's front porch, and at Mrs. Jim Michelet's back fence.

We note the railroads are having lots of trouble with the army worms crawling on the rails and causing a loss of traction.

An old timer told us the old fashioned push door entrance (one of these that swings around and around) was responsible for making as many people drunk as the old time saloon.

N. M. Dairy Herd Is First In Output

A July news letter of the Bureau of Dairy Industry shows that the Mesilla Valley Dairy Herd Improvement Association of New Mexico has the highest average milk and butterfat production per cow of any association in the United States for the year 1934.

In milk production, the Mesilla Valley Association is first, with an average of 12,081 pounds of milk per cow; a New York association is second and an Oklahoma association third. In the production of butterfat, the Mesilla Valley Association is first, with 436 pounds per cow; an Ohio association second, and a New York association third.

The three states having highest average milk production for the year in Dairy Herd Improvement Associations are: New Mexico, first; Colorado, second; Nebraska, third. The three leading states in butterfat production in Dairy Herd Improvement Associations are: New Mexico, first; Utah, second; Washington, third.

While New Mexico has only one Dairy Herd Improvement association at the present time, nevertheless, credit is received for being the highest ranking states, and Mesilla valley receives credit for having the highest ranking association in the United States.

The 175 cows in this herd are tested by student testers who are working their way thru school at the New Mexico State College.

FIVE HIGHWAY PROJECTS AWARDED

Contracts for five highway projects were awarded at Santa Fe Friday by the State Highway Commission.

The projects and successful bidders: Base course surfacing, Laguna cut-off and Highway 66, Skousen Brothers of Albuquerque, \$37,274.44. Topping, north and south of Hot Springs, Cook and Ranson of Ottawa, Kansas, \$35,635.62. Topping, Tularosa-Mescalero, Lee Moor of El Paso, \$25,706.86. Construction, Alamogordo-Valmont, Walter H. Denison of Roswell, \$78,185.93. Topping, Laguna cut-off, New Mexico Construction Company, Albuquerque, \$139,393.69.

WILSON APPOINTED NEW FEDERAL JUDGE

Fred Wilson, Albuquerque city attorney and a member of the New Mexico state senate, has been named by Governor Clyde Tingley to succeed Joseph L. Dailey as judge of the second judicial district.

THE CHURCHES

Changes in time of worship services, subjects, etc., must be in The Messenger office by Wednesday of each week. Pastors or members of congregations whose church announcements do not appear in this column are urged to send them in. Churches in Dexter and Lake Arthur are especially desired.

CHURCH OF CHRIST (Greenfield)

Morning worship, Sunday, 10:30 o'clock. Evening worship, 7:45 o'clock. Everybody is cordially invited to attend any and all of these unusual services.

CHRISTIAN CHURCH

F. H. Evans, superintendent. Sunday school, 10 o'clock. We especially want the young people to attend our Sunday school and extend an invitation to all to come.

ASSEMBLY OF GOD CHURCH

Sunday school 9:45 a. m. Preaching 11:00 a. m. Mid-week services on Wednesday and Saturday nights. Everyone welcome. DAVID L. LAUGHLIN, Pastor.

CHURCH OF THE NAZARENE

Rev. E. L. Askins, Pastor Sunday school, 9:45 a. m. Morning sermon, 11 o'clock. N. Y. P. S. and J. Y. P. S. 6:30 p. m. Evening service 8:00 p. m. A spiritual church in a friendly community.

HAGERMAN PRESBYTERIAN CHURCH

Sunday school 10:00 a. m. Morning service 11:00 a. m. Theme: "The Glorious Lord." Christian Endeavor 7:00 p. m. Elizabeth McKinstry will give us a piano number next Sunday morning. Music is one of her studies at Simmons University. Mrs. Price Curd sang beautifully for us last Sunday morning and we will ask her again as soon as possible. Keep your eye on these notices for special numbers and the theme of the morning service as there may be something of special interest to you. James A. Hedges, Pastor.

METHODIST CHURCH

The subject for Sunday morning will be, "An Individual Prerequisite." The other services of the day will be as usual. J. W. Slade.

The Girl Who Knew Men

By VIRGINIA MILLER
© McClure Newspaper Syndicate, WNU Service.

"THERE'S a job open?" the red-headed girl leaned far over the low railing which guarded the office proper to ask the woman firmly established on the pay envelope side of the railing.

"Yes, there's a position vacant," Miss Olson had to tell the truth, however much she disliked the red-head's green beret set saucily far back over her curls, her touched up lips and short tight little green checked dress.

"Then the job's mine," the girl grinned and gave the curls a pert toss. "I know men."

Miss Olson frowned at that I-know-men phrase. She critically inspected the card the girl handed her. "I shall ask Mr. Adams whether he cares to see you," she said. "The employment agency has sent over this girl," she said. Her tone called one strike on the redhead before the youngster ever got a chance to swing.

At Miss Olson's approach Mr. Adams had hastily put aside the morning newspaper. "Oh, yes," he said. "Gosh, I hope I can get a good girl this morning. The—er—the golf tournament at my club starts this afternoon."

"I am sure the agency will send in a more satisfactory applicant before the morning is over," Miss Olson called a second strike on the redhead.

Mr. Adams took a squint at the sports page, sighed, and stuffed the paper carefully into his pocket. "Well, I'd better talk to this one now."

So Miss Olson had to swing the gate open to the saucy beret.

The redhead gave her a wink. "Watch my technique," she murmured. She walked jauntily.

"Good morning, sir," she said cheerily. "What a nice sunny office you have here!"

Mr. Adams said the office was very pleasant and thought to ask about her business experience.

"I've not had stenographic experience although I've done typing. But I've just completed ten weeks shorthand study at night school. So you can understand, this being my first secretarial position, that I must take at her desk, Miss Olson snorted. Softly, of course.

Mr. Adams looked considerably taken aback. Then he started to describe the work his secretary would be expected to do.

"Well, it sounds as if your position may be what I'm looking for," the red-headed girl said encouragingly.

At that sickening moment for Miss Olson, another girl from the employment agency arrived outside the railing.

This girl's eyes were shadowed with a terrible necessity. Miss Olson saw that necessity first. Then she saw that the plain black hat was pulled down on her head sensibly and that she used no lip stick.

"I've got to have this position. I've got to," the girl said. Tears came to those dull, hungry eyes.

Miss Olson looked at the sensible outfit and the painless face. Scarcely glancing at the card handed her, she swung the gate open and hurried the white-faced, dull-eyed girl to Mr. Adams' desk.

"The agency urges you to talk to this girl before you make your decision. She has all the qualifications you need," Miss Olson said determinedly.

"I've had some experience," the girl said nervously. "Oh, Mr. Adams, I've got to have this position. I've got to. I've an invalid mother."

She stood there, those dazed, unhappy eyes fixed on the young man.

Having called the third strike on the redhead, Miss Olson nodded to her to move to the other side of the railing. But the redhead was staring with wide, startled eyes at the other applicant, so that she did not notice Miss Olson. The woman shook her in her determination to get her out of the second girl's way.

Mr. Adams glanced from the second girl to the redhead. He squirmed uneasily.

The redhead shook off Miss Olson's hand and got to her feet. She straightened her shoulders and said with a fairly bright smile: "Sorry, I understand, though. Just the wrong approach on my part, and I thought I knew better."

Miss Olson marched the girl toward the gate.

"Gosh! Mr. Adams exclaimed. "Gosh, redhead! Don't clear out. I'll—Miss Olson'll help the agency find another job for this girl. I want you for my secretary."

The redhead's hand closed on Miss Olson's arm. "I told you to watch my technique. I know men. They do like color and a cheerful grin. And they kinda like to do the hunting."

Suddenly her fingers tightened and a grin spread over her face.

And Miss Olson, looking into hunger—cruel, ugly hunger, thinly but bravely covered, with lip stick and rouge and capped with a saucy green beret—said warmly, in tribute to the red-headed youngster's pluck in face of desperation! "You've made an excellent choice, Mr. Adams."

Different Ways of Making Rugs

By GRANDMOTHER CLARK

The making of rag rugs has interested needleworkers for hundreds of years. One very good reason for this is that rugs are practical and wanted in every home. The larger the rug the harder the work; the weight increases as the work progresses. Making a rug of motifs and then assembling takes the hard labor out of rug making and the work becomes interesting. Work these motifs in spare time at home or elsewhere and, when all are finished, assemble.

Folder No. 532 contains a lot of information about making the hexagon motif in various sizes in hexagon shaped rugs and in various color combinations. Hexagon motifs are crocheted in any size and color scheme according to your own idea. Amount of material and all the stitches are given and other hints of value to rug makers. A new kind of chart for selecting your colors gives you an opportunity to see what your rug looks like before you go ahead with the work. You can get some wonderful ideas from this folder on "Different Ways to Make Rugs."

It will be mailed to you upon receipt of 10 cents.

Address Home Craft Co., Dept. C, Nineteenth and St. Louis Ave., St. Louis, Mo. Inclose stamped addressed envelope for reply when writing for any information.

Not Boastful Customer—I suppose you are your own boss? Barber—No, sir. I'd give anything to be single again.

FOOD FOR TOTS ENTERING SCHOOL FOR FIRST TIME

When the babies have grown old enough to start to school with the older children of the neighborhood all kinds of new adventures beset them. The adventure of going to school may upset the habit of sleep and appetite. The food problem may be affected directly. Friendly school mates are inclined to offer tempting all-day suckers and "deadly" chocolates between meals to children who have been accustomed to eat no more than one piece of hard candy as a treat after dinner. There may be immediate results such as a taste instituted by these new confections.

Gradually the child will fit into the school day routine, and appetite will return if it is not spoiled by an indulgence in sweets. The mother must be very wise and tactful to deal with this phase of the child's routine, but if good food habits have been started early in babyhood, the custom of obedience will be likely to prevail. Food which the child particularly likes should be provided for at meal time and the box of candy or, better, dried fruits may be passed after meals if there is a guarantee that no other sweets have been eaten between meals.

Remove the pits from a package of dates and stuff with peanut butter to which a little lemon juice has been added. It is usually desirable to have the filling visible. Roll in granulated sugar. Time will be saved if the entire package of dates is stuffed and then four or five dates at a time shaken in a sack or small paper bag with the sugar.

Honey Toast
1 egg
1/2 cup milk
Butter
Honey
Cinnamon
Bread

Beat the egg and add the milk to it. Slice the bread about one-fourth inch thick. Dip the slices in the egg mixture and saute in butter until lightly brown, turning once. Spread with honey to which a little cinnamon has been added.

Hats in Elevators

Men of Sydney, Australia, are nothing, if not polite. They, for instance never fail to remove their hats in an elevator, when ladies are present.

That is why a storm of controversy has been aroused by neat little notices just pasted in the elevators of the Bank of New South Wales, asking men to keep their hats on.

Bank officials say the removal of hats congests business. Men held them carefully against their manly chests, or lower down to protect them from being crushed. The result is that in an elevator built to carry 20 people, only 16 can get in.

Most of the obviously married men customers of the bank are now keeping their hats on, but the younger men lift theirs.

Mrs. M. E. Ryerson, whose cakes, etc., baked with CLABBER GIRL BAKING POWDER, won 44 awards at the 1934 Indiana State Fair.

ADVERTISING is as essential to business as is rain to growing crops. It is the keystone in the arch of successful merchandising. Let us show you how to apply it to your business.

Army Begins Greatest War Games Since '18

5,000 Troops Take Part in Maneuvers

The largest peacetime concentration of troops in the United States was held recently at Pine Camp, N. C. More than 35,000 men took part in the games. Military attaches from Germany, Great Britain, Japan, China, Spain, France and Cuba were present to watch maneuvers. The peaceful countryside took on the characteristics of a country arrayed for war. Farnhouses were taken over to quarter officers, and entire fields were...

It Was Roper's Treat for the Cabinet

Secretary of Commerce Roper gives an annual watermelon party in his Washington home for his fellow members of the cabinet. Here, left to right, are Attorney General Homer S. Cummings, Secretary Roper, Secretary of Agriculture Henry A. Wallace and Secretary of the Interior Harold L. Ickes, enjoying sections of the South Carolina melons.

There's No Doubt About His Party

Martin Yerkes of Upper Darby, Pa., being a candidate for county commissioner, decided to let everyone know on what he was running. So he obtained an elephant and went out campaigning although he were hunting tigers in India.

Heads a New Federal Board

Theodore Krebs, professor of business economics at Stanford university, California, has been named chairman of a new federal central relief board that will function as a board of review to co-ordinate surveys proposed by federal, state and local governments as part of the works-relief program.

Just send the top from one full-sized, yellow-and-blue package of Grape-Nuts, with your name and address, to Grape-Nuts, Battle Creek, Mich., for membership pin and copy of the club manual, containing list of 37 nifty free prizes. And to have loads of energy, start eating Grape-Nuts right away. It has a winning flavor all its own—crisp, nutlike, delicious. Economical, too, for two tablespoons, with whole milk or cream, provide more varied nourishment than many a hearty meal. (Offer expires Dec. 31, 1935. Good only in U. S. A.)

Grass On Local Ranges Is Best Seen In Years

Prospects for good fall and winter grass and weeds are the best seen here in several years, stockmen said yesterday. Likewise the range cattle are in the best condition in years, for this season of the year. While the present moisture is not sufficient to last thru the fall season, it will supply the range for a period. Probably the best range now is in the foothills to the west where rainfall has been more abundant.

Few cattle are being moved to market at the present time. The livestock market has shown a slight upward tendency and has been comparatively steady for several weeks.

LOCALS

Frank Phillips of Colmor is visiting Mr. and Mrs. Rex Phillips.

Mrs. W. A. Losey and Jeanne were Roswell shoppers on Tuesday afternoon.

Billy Jo Burck, who attended Farm Week at State College, left from Cruces for California, where he will attend the exposition at San Diego.

Friends of the Rev. and Mrs. Bryan Hall will be glad of the news that their young son, Jackie, is much better, following a very serious illness.

Mr. and Mrs. J. A. Wilson of Knox City, Texas, and Jack Wilson of Lubbock made a brief visit over Sunday night with the J. E. Wimberly and Harrison McKinstry families. They left for home early Monday morning.

Roy Slade will leave soon for Alpine, where he will enter Sul Ross for his senior year. The summer school at Sul Ross was very successful, it is in a delightful climate, competent instructors and a very heavy enrollment during the summer term.

Mrs. M. H. Britton, mother of Mrs. Maggie Wier, is making her home with Mrs. Wier. She is not very well at the present. Last Saturday Mr. and Mrs. Ben Britton and baby of Denver, Colorado, arrived to visit Mrs. Britton and the Wiers. Mrs. Britton was very glad to see this grandchild as it was the first time she had seen it.

Mr. and Mrs. Harold Hams and young son, Ross, and Miss Mary Tom Fowler of Jackson, Mississippi, arrived last Friday morning, and visited until Tuesday morning with Mrs. Martha Hams, Mr. and Mrs. Richmond Hams and Mr. and Mrs. Frankie Davis and Smoky. While here they attended the rodeo at Hope and were going to the Caverns on Tuesday, en route home.

Dexter Items

Mrs. E. J. Hubbard is recuperating from a recent tonsil operation.

Mr. and Mrs. Willy Pilley have gone to Texas for an extended visit.

Mr. and Mrs. Fred Butcher of Seguin, Texas, visited last week with friends in Dexter.

Mrs. J. H. Adams visited last week with her daughter, Mrs. Victor Wiley in Roswell.

Mrs. Earl Latimer, Miss Audre Latimer and Mrs. Tom Parks were Roswell shoppers on Tuesday afternoon.

Mrs. Ethel Miller left on Sunday for El Rito, after spending several weeks visiting her sister, Mrs. Raymond Durand.

Miss Maggie Latimer and Misses Aletha and Thelma Deane visited Mr. and Mrs. Earl Latimer and family last week.

Mr. and Mrs. Dan Rogers (Mable Adams) are expected this week to visit with Mrs. Roger's parents, Mr. and Mrs. Adams.

The P. T. A. are holding their annual teacher's party on Friday evening, September 6th. This is always an enjoyable occasion, where everyone gets acquainted and renews old friendships.

Mr. and Mrs. J. H. Adams enjoyed a short visit recently with their son and family, Mr. and Mrs. Wayne Adams, who were en route from Washington, D. C., to State College, where Mr. Adams will look after rehabilitation work.

In The WEEK'S NEWS CURRENT EVENTS PHOTOGRAPHED FOR THE MESSENGER

PREPARING—Italian war planes arrived in Somaliland where they are being overhauled just in case Premier Mussolini decides to fulfill his threat to war against Abyssinia. Mussolini's two sons, Vittorio and Bruno, are both in the air force.

WINS A.A.U. DIVING TITLE AT 11—Mary Hoegerer of Miami kisses her mother after winning National A.A.U. three meter springboard diving championship at Oriental Beach Pool, New York City.

WINS HOLLYWOOD CONTRACT—Igor Gorin, young Russian baritone who has just signed a Hollywood contract with M. G. M., tries his hand on one of the new electrical pipeless organs recently developed by Laurens Hammond of Chicago.

BEFORE THE SWIM—Jane Hamilton, popular screen star, wears one of the season's smartest swim suits of buttercup yellow knitted wool.

RE-ENACTS AMERICAN TRAGEDY—Newell P. Sherman, youthful Sutton, Mass., constable's son who confessed to drowning his wife in Lake Singletary for the love of 16-year-old Esther Magill, Mrs. Sherman was the mother of two children, the youngest of which was eight months old.

MAKES GOOD ON HIS THIRD TRY—Tony Piet, formerly with the Cincinnati and Pittsburgh teams, is now making good as regular second baseman of the Chicago White Sox.

LITTLE LARRY WHITEHEAD inspects the season's first marlin caught in the Santa Catalina island waters. The 341 pound beauty was brought to gaff in 25 minutes by A. C. Brode, well known sportsman.

(Items for either this column or the calendar must be turned in by not later than Wednesday noon)

T. CLUB ACTIVITIES

Mrs. Wayne Graham entertained the club last Thursday at the home of Mrs. Carl Hanson. The afternoon was spent in quilting on the club quilt. Iced tea and cup cakes were served to Gladys Lawing, Ethel Hanson, Rosa Mae Allen, Mary Phillips, Vera Thompson, Abbie McAllister, Jackie Downes, Mrs. Richmond Hams and the hostess.

On Sunday evening they entertained their husbands with a picnic on the lawn at the Richmond Hams home. The menu consisted of broiled steak, tomatoes, pickles, marshmallows, pie, cake and coffee. Present were Messrs. and Mrs. Arthur Lawing, Richmond Hams, Duke Thompson, Tom Allen, John Allen, John McAllister, Carl Hanson, Frankie Davis, Mrs. Mary Phillips, Mrs. Martha Hams, Mr. and Mrs. Harold Hams, George Evans, Wayne Graham and Miss Mary Tom Fowler of Mississippi.

MISS LILLIS MAE ANDRUS IS HOSTESS AT PARTY HONORING COLLEGE GIRLS

Miss Lillis Mae Andrus was hostess on Tuesday evening at her home, complimentary to the girls who are leaving soon for college, and high school seniors. A buffet supper was arranged in a delightful manner, dainty cheeses and meats on one platter, sandwiches, cakes and tea formed the menu. Afterwards the young ladies made up a line party to the movies. Present with the hostess were: Misses Dorothy Sweatt, Ruth Wiggins, Elizabeth McKinstry, Betty Mason, Duenna Deter, Sara Beth West. Miss Andrus will leave soon for Las Vegas to enter the Normal University. Dorothy and Betty go to State University and Elizabeth goes to Hardin-Simmons University.

PARTY COMPLIMENTARY TO THE MISSES PLEIPLY

Misses Mary and Hannah Burck were hostesses last Friday evening at the James home, complimentary to Misses Dorene and Ethel Pleiely of Trenton, Missouri, who are guests of Misses Viola and Bertha Askins. A game called "scavenger hunt" caused much merriment, and in which Miss Wilma Walden and

Harold Hanson, Miss Birdie Dorman and Jack Menoud were winners.

METHODIST CHURCH PARTY

A "get together" party of members of the Methodist congregation was held on last Friday evening at the Tom McKinstry home. Games were played by everyone with much enthusiasm. Cookies and lemonade were served.

Labor Day Accident Toll Over 200 Mark

Labor Day week-end, customary blight on the nation's record for motoring safety, exacted its toll of lives lost and limbs broken, with fatalities mounting to 199 last (Monday) night.

California headed the states in the incomplete tabulation of its twenty-six dead. Fifteen were killed in Los Angeles county and four in the San Francisco bay region. Three of those killed in Los Angeles were in an airplane crash.

Rains and other factors which kept potential motorists indoors tended to keep the loss under the "350 to 400" deaths estimated for the week-end by headquarters of the National Safety Council.

The list of the seriously injured mounted apace, however, with estimates placing it in excess of 200.

CARS CRASH ON THE PENASCO BRIDGE

Two cars were badly damaged when they crashed on the Penasco bridge, south of here, Friday morning. One car was driven by "Doc" Coates of Carlsbad and the other by Mrs. Max Uhling of Albuquerque. No one was seriously injured in the accident, it was said.

September 17th is constitution day. We wonder if it will also be a republican holiday.

HAGERMAN ALL-STAR PLAY EXCELLENT AT ROSWELL

The Hagerman All-Star team played some very good football at the recent Eastern Softball tournament. The game was played at Garage, the second and Riverside Camp and respectively. These three winning games, two teams were city and Roswell. The second one of the best. In the of twenty-one put on without errors. Both third games were team won second place and \$15 second place.

Out of the 180 players McCormick made thirty without error, and was fielding average, getting a knife. For most striking, Howard Basler, who made a half case of best number of strike-out game, Ike Boyce who compass; he fanned 17. There was a prize for man who made fewest errors in the Hagerman team, five who made no errors, Graham, Harrison Allen,ville Ford, John Allen, McCormick, however, won with other players, won.
