AFTERNOON WINTER SUIT IS HIGH NOTE

The afternoon suit is one of the triumphs of Paris couturiers for the winter season, and each has presented his version of the new silhouette in handsome tailleurs of rich materials and luxurious furs.

Broadcloth and duvetyn are the newest of dressy suit materials with velvet and lightweight wools popular at all leading fashion houses. Silver and black fox form immense collars, trim sleeves and hemlines and edge the bottoms of long tackets. Persian lamb, a favorite for coat trim, makes collars, cuffs, vests, and even buttons-and smooth broadtail and silky caracul are used for tailored collars and

Plaid for Dress, Blouse Suit and Coat Is Latest

Plaids are telling a fascinating story. You'll be wanting a twopiece tailored jacket suit. Give you that new-this-season look, besides the plaids that are being mantailored are that colorful and flattering they are simply irresistible. A dress of plaid woolen made on the bias and adhering to form-fitting lines will prove a treasure in any wardrobe for practical day wear. Then, to wear to the ball game, a huge roomy coat of horse-blanket plaid as bizarre as they make 'em will be a cheer leader in itself.

Enliven Black Costumes

With Bright Accessories

The call for black with colorful accessories is answered in the present vogue for black costumes enlivened with red accessories. The latest interpretation of the black and red color scheme is given by smart dressed women who wear red suede hats and carry handbags to match. This combination sets a black suit or ensemble off to perfection. And there's the new red suede gloves they're wearing with black. You will yield to temptation when you see them. A red boutonniere adds in finitely to this allure.

You simply carry your alkalizer with you - and use it at the first sign of "upset" stomach. Simply take two tiny tablets of Phillip Milk of Magnesia when out with others. Or — if at home — you can take two teaspoons of liquid Phillips'. Both act the same way.

Relief is usually a matter of seconds. "Gas," nausea, "heartburn," acid breath - all respond quickly. Just make sure you ask for "Phillips."

Give you that new-this-season look, beside, the plaids that are being mantailored are that colorful and flattering they are simply irresistible. A dress of plaid woolen made on the bias and adhering to form-fitting lines will prove a treasure in any wardrobe for practical day wear. Then, to wear to the ball game, a huge roomy coat of horse-blanket plaid as bizarre as they make 'em will be a cheer leader in itself. **Enliven Black Costumes**

With Bright Accessories

The call for black with colorful accessories is answered in the present vogue for black costumes enlivened with red accessories. The latest in terpretation of the black and red color scheme is given by smart dressed women who wear red suede hats and carry handbags to match. This combination sets a black suit or ensemble off to perfection. And there's the new red suede gloves they're wearing with black. You will yield to temptation when you see them. A red boutonniere adds in finitely to this allure.

gold rush, the few publishers in Alaska, especially those who issued dailies, had great difficulty in getting enough news to fill their papers. At one time the telegraph lines into Dawson were down for two months and the roads were so filled with snow that no mail arrived by dog team for 35 days.

During this period one Dawson publisher called his reporter to him. 'Look here, we've simply got to have more news," he said. When the reporter took him to a minister's home and showed him a picture of Noah's Ark, the chief declared that it was exactly like the house in the big canoe on the mountain top.

The story caused a sensation when the paper was distributed in Dawson. Although the other two dailies tried to discredit the yarn, many people were enough impressed by the affidavit, furnished by the chief, which was given a prominent place on the front page, to believe it. It was also believed "We have about 200 years to go by many people back in the printed it and to this day one can hear an occasional reference to the ago."

Another Doom Proves Dud.

In 1925 Robert Reidt of Freeport, Long Island, made Page One of most newspapers by predicting that the world would end February 26, 1926. Collision with a comet would demol ish this planet, he said. Nothing more was heard of Mr. Reidt until 1932, when he "revealed" that New York City would be destroyed at 11 o'clock Sunday night, October 9. The appointed time came-and went, He was last reported running a tea-

The cry of "Doom!" was taken up again in 1933 by Arthur B. Ware, who tried to prove there is some thing in a name. The Britisher flooded the world with pamphlets, booklets and announcements that the earth would cease to exist on June

Two years later Wilbur Glenn Voliva, cult leader of Zion, Illinois, took up the torch of prophecy. Mr. Voliva wasn't sure whether

world would end in 1935 or 1936. The second group of calamityhowlers-those who try to shake the faith of pioneers with the cry: "It can't be done!"-have pretty generally suffered the same disappointment that overtook those who pre-

Calamity-Howlers Still Wail. Even Columbus, who had to contend with his share of scoffers, did not envision the day when ships with a net tonnage of 130,717,015 would cross between the Old World and the New, as they did in 1936. Nor did the Wright brothers foresee the time when glistening liners of the airlanes would chalk up a record of 439,000,000 passenger miles in

one year, as they are doing now. There are still many calamityhowlers who defy history with predictions of dire happenings about to

occur. In 1934, Professor Gustave Meyer, said that there would be an epidemic of scarlet fever of terrible proportions in the United States navy. Nothing to confirm this can be found in navy medical records, however, and the 103,000 men in the navy rolls are ample evidence of another prediction that went wrong.

A modern pioneer in the prediction of calamitous events was R. P. Hearne, noted British economist. Writing for the London pictorial magazine, The Sphere, he said in the issue of October 10, 1920:

"Within ten years the power monopoly of coal will be broken and it will be broken not by political and come as obsolete as coal itself."

Washington Was First to Proclaim Thanksgiving Day

But Thank a Woman for Keeping It Alive.

A RGUMENT about the origin of Thanksgiving day in the United States has been going on, lo, these many years. There are several answers, and which of them is correct depends entirely upon the point of view.

We think of Thanksgiving usually as an institution begun by the Pilgrims. Without a doubt it was the Pilgrims who were the first group of American people to cease work to observe a day of thanksgiving.

national Thanksgiving day. It was Sarah Josepha Hale, editor of Godey's Lady's Book, who fought for many years to have the national holiday revived as a regular annual

giving proclamation since Jefferson, reviving a practice that has been observed each year ever since by whatever President who happened to be in office.

America's first official national Thanksgiving day occurred on November 29, 1789, or 168 years after Bradford's call upon the Pilgrims to give thanks. President Washington proclaimed it at the request of a joint committee of both houses of congress who beseeched him to declare a day of thanks for the favors of God bestowed upon the new republic.

In his proclamation President Washington said: "Now therefore do ty at neck and sew the stuffing in as I recommend to the people of the described.

> "Murder on the Loose" By FLOYD GIBBONS Famous Headline Hunter

TELLO, EVERYBODY:

Well, sir, here's an adventurer who had it coming to him. It's the first case I've seen in a long time where a bird went out looking for a thrill and actually found one. And at that, the thrill that Ben Cohn of New York City met up with in the murdered woman's bedroom was not at all the sort of thrill he had gone there looking for. But it seems that Old IC-The Need for Christian Workers. Lady Adventure covered his initial bet and raised him ten, big, blue-chip goose-pimples.

Ben is a newspaper reporter, so looking for trouble is no more than part of the day's work for him. In January, 1932, he was just a cub, helping out the police reporter on a Cleveland, Ohio, news-

All the small, routine assignments fell to Ben's lot. He was kept pastors and missionaries as the busy all day, chasing around to dinky, one-alarm fires, and listening to the sorry tale of Joe Doakes who had his hat stolen while eating in a one-arm lunch room. He had time to the Lord's work, let us be killed half a dozen women-hacked them to pieces as they lay in their sure properly to stress the imporbeds. What wouldn't Ben have given for a chance to cover that story? Boy! Just lead him to it!

That's about the way Ben was feeling one Friday afternoon, when suddenly the police radio began booming out a message. "Number one reserve squad and detective cruiser D-2," the loudspeaker cried. "Go ssible without ham- to Nineteenth and Chester-red brick apartment house. You will find the the free burning of the fire. body of a young woman who has been murdered."

We dare not AND THAT DOOR WAS SLOWLY OPENING!

Battling the Murderer for His Life.

Ben stiffened. The door swung wide open and a big, heavy-set colored man came tiptoeing in Ben's direction. He had a huge club in his hand and as he came close to Ben he raised it to strike.

Ben didn't wait for any more. He wheeled and dived to get inside the arc of that swinging club. He grappled with the negro as the club came down and the negro dropped the club to grapple with Ben. Then came a battle like the Roman gladiatorial contests of old. Two men, going at it bare-handed-both fighting for their lives.

The colored man was much larger and much stronger than Ben. He pushed Ben backward by sheer weight alone. Before he realized faithful, true and diligent in preachwhat was happening, he was thrown back onto the bed and found himself rolling over the blood-drenched body of the dead girl. It was horrible. But what was more horrible still were the fingers of the big negro, which were fastening themselves tightly around Ben's throat.

Police Got There Just in Time.

Before that Ben had been too surprised to cry out. Now, as the negro's fingers closed over his windpipe he wished he had when he had chance. With his own hands he fought vainly to dislodge those tightening fingers, but it was no use. He kicked and heaved desperately, trying to throw the negro off him. But that wasn't any use, either, The negro's body was heavier than his own.

Ben's head began to spin. Things began to go black in front of his eyes. Then, just as he was about to give up and relax the door burst open and the room was full of policemen. The rcserve squad had come at last.

Ben had not been working long around police headquarters and not seed. Would that it were all good many of the cops knew him. Even if they had they would never have seed that were sown-but we see recognized him, for his clothing was disheveled and he was blood from the sowing to the flesh as well as head to foot. He looked like a mighty suspicious customer to those to the Spirit. This is true cops. And Ben had to admit that being caught fighting over the body of a murdered woman was a mighty suspicious circumstance. The ble law of sowing and reaping precops arrested both Ben and the colored man and dragged them back to vails in the moral realm as truly the police station. The first requisite of a building is respective of its legal authority. a foundation and it must be strong a sure foundation stone in Him. 1. The Foundation-Jesus Christ.

There is only definite assurance in Paul's word concerning the foundation. It is perfectly clear to him that there can be no Christian faith without Jesus Christ. Such a state- ful. ment sounds almost childish. One might well assume that no intelligent person would claim to be one of God's builders, and reject his foundation stone. But, alas, many are they who claim to be Christians. who profess to be raising a structure of Christian life and testimony, but who have set aside the only possible foundation on which to build. Plain consistency and ordinary honesty would seem to require that they announce their organizations as being social, benevolent, or political, but certainly not Christian.

2. The Master Builder-and his

Paul was a pioneer. He declares his ambition and calling to be "to was named, lest I should build on made the second floor. He burst into the room, and there on the bed lay another man's foundation" (Rom. 10:25). Such a privilege does not come to all men, but let those who thus serve learn of this "wise master builder" that they may lay only ne foundation-Jesus Christ.

"Let every man take heed how he heedlessly rush about "doing things" for God, without giving thought and prayer to our work. 3. The materials-good and bad.

Whether we apply Paul's words to the building of our personal spiritual life or to the work we do in the church they are equally serious and urgent. "The day"-when Christ returns, and we shall stand before him to give account of the deeds done in the flesh-will reveal by flaming fire whether we have been ing God's Word, in prayer, in sacrificial service for Christ, or have sought to introduce into our lives and into the churches we serve the "wood, hay, and stubble" of unspiritual schemes, neglect of God's Word, prayerlessness.

Firestone GROUND GRIP TIRES
WIN First Honors at troy BIG ROCK LILY LAKE . WHEATLAND PLOWING CONTESTS

Using Firestone Ground Grip Tires, Paul Stiefboldt made the highest score for any one meet, with 92½ points out of 100. Healso had the largest number of points for the four contests, 356½ out of a possible 400.

Carl Shoger had the highest average score per contest with 90 out of 100 possible points, using Firestone Ground Grip Tires.

Clarence Shoger won first place in the Young Men's Class in each of the four contests on Firestone Ground Grip Tires.

FIRESTONE Ground Grip Tires won sweeping victories this year in the plowing contests at Troy, Lily Lake, Big Rock and Wheatland, Illinois. In the plowing contests, as on the farms, more tractors were equipped with Firestone Ground Grip Tires than all other makes of tires combined. And these all-purpose tractor tires scored 35001/2 points out of a possible total of 4100 for the four contests.

Why do plowing champions choose Firestone Ground Grip Tires? The answer is:

GREATER TRACTION - Takes a deeper, broader bite into the soil. Has positive self-cleaning

GREATER STRENGTH - Resists the strain of heavy pulling because every fiber of every cord is saturated with liquid rubber by the patented Firestone Gum-Dipping process. Two extra layers of Gum-Dipped cords under the tread bind the tread and cord body so solidly together that we guarantee they will not separate.

GREATER SAVINGS - Saves 25% in time and up to 50% in fuel over steel-lugged wheels.

GREATER DRAWBAR PULL enables this tire to do more work in a given time.

Specify Firestone Ground Grip Tires when buying a new tractor or any wheeled farm implement. And, for your present equipment, ask your nearest Firestone Implement Dealer, Tire Dealer or Firestone Auto Supply & Service Store about the economical Firestone Cut-Down Wheel
