MOTHERS, ARE YOU THANKFUL?

Another year has drifted beyond the horizon; another year with all it's clouds and sunshine.

We talked to one, a youth, bright eyed lad, a former student of a famous university. A lover of good clean sports, a lover of life; one who through the love of a mother has gained a new perspective of life. Long tortuous onths of partly recovering from a tragic, unfortunate accident, gave him ample time for thought. His words: "I've been low, terribly low, since I was hurt. The only reason I did not jump off into the make use of the bus, but instead river was my mother. Now I can see a brighter world, a new future, and I'm going to live."

That is tribute, for which any mother can feel thankful. Do you know which famous man
