STATE LAND SALE CHAVES COUNTY

OFFICE OF COMMISSIONER OF PUBLIC LANDS

Santa Fe, New Mexico

Notice is hereby given that pursuant to the provisions of the Act

THE PERFORMANCE OF YOUR WATCH

In ten years time which includes two leap years, and consequently 3,652 days, the hour hand of your watch has made 7,304 revolutions and the minute hand has made 87,604 revolutions. The end of an average minute hand has traveled 10,820 yards, or more than 6 miles. The second hand has made 5,258, 880 revolutions and its extremity has traveled on the dial a distance of upwards of 123 miles. The escape wheel has made 52,588,800 revolutions and as it has 14 teeth it has come in contact with the pal-let 788,832,000 times. The balance wheel has made 1,577,644,000 vibrations and any point on the outside of the rim has covered a distance of about 52,000 miles which is equal to twice the circumference of the world.

My thirty years experience enables us to repair your watch in a perfect manner. A trial will convince you. Our prices are as low as is consistent with good workman-ship.
