**"NEW" METHOD FOR TREAT-
ING GOLD ORES.**

This time it is Mr. L. Chard, of
St. Louis, who comes to the front
with a process for getting out gold
where other inventors cannot. It
is hardly fair to criticise Mr.
Chard's process without more defi-
nite information than is afforded by
an English exchange which at-
tempts a description of some ex-
periments lately conducted in Lon-
don, and which are cited as show-
ing that a revolution is to be effec-
ted in the metallurgy of gold. We
have been so often disappointed by
similar announcements that we
have little faith in them, and that
credence is steadily dwindling as
each new proposition appears. Mr.
Chard's method appears to be a
specie of dry washing or air con-
centration, somewhat in the line of
Krom's system. Now there is no
mystery about working refractory
gold ores. If the metal is there,
and there is enough of it, it is sim-
ply a question of profit and loss,
with an outside limit of reduction
cost of about \$12 per ton for leach-
ing, in most districts. Now, on
the other hand, is there any insu-
perable obstacle offered by scarcity
of water, provided, again, that the
gold is present in sufficient quan-
tity? Here the question is simply
one of getting water on the ground,
and the dry places which are left
unworked are generally those which
would not stand a moderate prelim-
inary outlay for ditches and flumes
or pipes. As a matter of curiosity
we quote that portion of the ac-
count which comes nearest to a
description:

"The machines, which are very
simple in construction, pulverizes
the ores, concentrate, grade and
separate the metals from the ma-
trix by a dry process, without the
use of mercury, chemicals or elec-
tricity, at a much cheaper cost
than by any of the older methods
of treatment, as it has been proved
that a machine, capable of clean-
ing forty tons of ore in ten hours,
can be worked by hand, mule or
one horse engine with two unskill-
ed laborers to supply the machine.

The 'Tierre Seca' system sub-
jects the pulverized ore to the ac-
tion of currents of dry air, with the
result that silicates and other
worthless minerals are quickly
separated from the concentrates.
During the experiments referred to
six pennyweights of gold dust, to-
gether with two small nuggets were
weighed out and mixed with 2
cwt. of sand and gravel, which was
immediately run through one of
the machines, and in less than a
minute the nuggets and 97 per

cent. of the gold dust were recover-
ed in the presence of the visitors.
A small machine for the use of
prospectors was also exhibited; by
its assistance it will be possible
without water to test in a few min-
utes any samples of ore. The lat-
ter machine weighs under six
pounds and is very compact.—

"THE MAN IN THE WOOD PILE."

"The Las Vegas Optic asks if all
concerned can hold up their hands
and swear that the job to build the
Agricultural college was square?"
J. A. Whitmore, of San Marcial,
one of the regents, has held up his.
We re-produce what he has to say
in the Reporter on our first page.
Now we want to ask a question, in
view of the fact that we have made
enquiry regarding this matter.
Can the management of the Optic,
and Russ Kistler in particular with
several other "honorable" gentle-
men, at and near Las Vegas, hold
up their hands, and swear or af-
firm that they never wrote letters
calculated to re-inforce the Las
Vegas bid for that work, and to
take a dishonorable advantage to
get the Las Vegas bid accepted?
Come, gentlemen, pop up your
"paws." Let's hear you swear.—
Socorro Chieftain:

Hands up here, too, 'pon honor.
The honorable gentlemen at and
near Las Vegas, above referred to,
never indited a syllable in regard
what the Chieftain is pleased in its
ignorance of the true state of af-
fairs to call the re-inforcement of
the Las Vegas bid. All the letters
were straight business endorsements
by two competent and reliable build-
ers, who were strangers to the
board of regents. The publication
of these letters by the parties im-
mediately concerned would soon
set the matter right. Now, will
well-informed individual or indi-
viduals, tell us why the bids were
not opened and read in Col. W. L.
Rynerson's office at Las Cruces?
They were advertised to be receiv-
ed by that functionary. It would
have been following a universal
custom to have done so. Instead
of doing so, however, the bidders
present were told that the board
would meet in the office of Judge
J. R. McFie. There the men went,
Colonel Rynerson remaining be-
hind, with the bids in
his possession, ostensibly to write
up the minutes," etc. In a short
time, long enough, however, for the
accomplishment of any under-
handed work in the interest of a
home bidder, he appeared in Judge
McFie's office, with the bids in
hand. It was noticed then and
there, and remarked by several,
that Bogardus, the Las Cruces bid-
der, to whom the award was made,
was not present. Really, now, fel-

low citizens and republicans, to a man up a tree and looking down with all his powers of vision, it seems that the interests of this man Bogardus were so well looked after under cover, of course, that he could absent himself at will and rest easy as to the result.

With these facts before them, even the down-country papers must be fair enough to admit that the manner of receiving bids was at least suspicious.—Las Vegas Optic.

Originally Designed Badge.

Mrs. M. M. Rudisille, president of the Woman's Relief corps, department of New Mexico, writes the New Mexican to enquire about an electrotype cut of old San Miguel chapel which she would utilize to ornament a unique badge to be worn by the New Mexico delegates who attend the next annual encampment at Boston in August. "I think the old church would be a very appropriate design for us to wear to Boston where everybody of any distinction traces his ancestry back to the "Mayflower," she writes and adds: "We will tell them that our people came over, with the christian standard and built this church in the city of holy faith before their ancestors thought of coming to America.—Citizen.

Col. McGorty, who quietly yet efficiently discharged the perplexing duties of internal revenue collector for New Mexico and Arizona during the past four years, will lay aside the cares and responsibilities of official life on the first of July. He will step into the walks of private life carrying with him the consciousness that he has never evaded a duty, knowingly injured anyone by a partial or prejudiced decision, or prostituted his high office to partisan uses, and that he enjoys the respect and confidence of all who have had any official relations with him. This paragraph would be imperfect if it failed to note that J. W. Schofield, who has continuously served as Col. McGorty's chief deputy, has proved a most painstaking and capable official.—Santa Fe Sun.

The American Wins.

London, June 27.—The international glove fight between George Dixon, colored, the bantam weight champion of America, and Nic Wallace, bantam weight champion of England, took place at the Pelican club this evening. The match was for the bantam weight championship of the world and a purse of 500 pounds. Wallace retired in the nineteenth round and Dixon was declared the winner.

Baltimore, Md., June 27.—The grand jury has indicted every brewer and distiller in the city for violating the high license law passed by the last legislature.

Bradstreet's Review says: More gold than usual was coined in the world in 1889, more, for example, than in either of the two preceding years. This is shown by estimates which differ more or less widely regarding the exact amount of coinage. For example, according to the estimate of the Director of the mint the coinage of gold in the year 1889 amounted to \$166,731,186, an increase of about \$33,000,000 as compared with the preceding year, and of about \$43,000,000 as compared with 1887. The report of the English Deputy Master of the mint, recently issued, estimates the world's coinage at about \$168,000,000, according to his figures an increase of \$43,000,000 over 1888, and about \$53,000,000 over 1887. According to both estimates while the coinage of gold has increased since 1887 the coinage of silver has declined, so that the metals may be said to have reversed positions as regards the amounts coined during the three years.

The Pope.

Rome, June 28.—The Pope now has under consideration the subject of a quarrel between the Hungarian government and the Catholic episcopate of that country. The law on mixed marriages provides that the son shall follow the father's religion and the daughter that of the mother. A decree recently issued by the government directs the priests who baptize the children of mixed marriages to notify the fact to clergymen of the other creed. This the Protestant clergymen are willing to do, but the Catholic priests refuse to comply with the order.

DeLesseps' Acquittal.

Paris, June 27.—The committee sent to Panama to investigate the condition of the canal has made a further report on the prospects of the enterprise. The committee says that the construction of the canal as calculated at the levee would occupy 20 years and cost 1,737,000,000 francs. In the opinion of the committee the work could only be completed on a basis of international agreement or by a syndicate of states interested.

An Early Heist.

Pine City, Minn., June 27.—At 3:30 this morning, in the county jail, Wm. Brooker was hanged for the murder of his brother-in-law, Wildam Coombs, and wife last November.

The Strike Ends.

Chicago, June 27.—The strike on the Illinois Central railroad was settled this afternoon and the men go back to work on a compromise. They withdrew their demand for the dismissal of Division superintendent Russell, and the company takes from him the power to hire or discharge men.

WOLCOTT ON HARRISON.

The Young Senator Reads Riot Act
To The President.

It is not often that one of the youngest Senators ventures to arraign the President, or is selected to present an ultimatum to an Administration. But the speech of Senator Wolcott, of Colorado, Tuesday, was evidently the admonition of the free coinage of the Republicans to the Administration not to stand in their way, and the concluding sentence is thought by some to mean that there was an arrangement by which some Democratic Senators should vote for free coinage and some Republican Senators should vote against the national election law. In the course of his speech Senator Wolcott said of President Harrison:

"It seems droll now to recall the enthusiasm created in the far West in the last campaign. The Republican candidate for the Presidency had been in public life, but his utterances had not been many or particularly important. The motto in part assumed by Junius could have been applied to him: *"Stat magni nonimis umbra."* But we hunted up the Congressional Record, and being ardent and sanguine, and our hearts being illumed with hope, many of us found here and there a phrase or a sentence which indicated a friendly feeling for silver. And we labored among the farmers in the valleys and on the plains, and with the toilers in the mining camps in the mountain gulches and canons, with these texts. We held up Mr. Cleveland to contumely and scorn in withering language that would make him feel very badly if he ever heard of it, and we extolled our candidate in glowing terms and assured our friends that upon his election the remonetization of silver would be speedily accomplished, and that meanwhile his Secretary of the Treasury, whoever he might be, would certainly commence coining four millions a month.

"If I remember aright, we made some other predictions as to the treatment and recognition the great Northwest would receive when he became President which have not exactly materialized, but I am confining myself to the silver question. We gave handsome

majorities for the Republican ticket; our hopes were high; our confidence supreme. The awakening all along the line has been somewhat rude. If the Windom recommendation, approved by the President, could have been announced before the election, it is my humble opinion that not a single State west of the Mississippi River would have given a Republican majority. Not because a large majority of the citizens of those States were not and are not and will not always be true and staunch Republicans, loving the traditions of the party and true to its principles, but because they would overwhelmingly rebuke a party that selected as its standard-bearer one undmindful of the interests of the country, and disregardful of the wishes of the majority of its members. An open foe is to be preferred to a secret enemy; but who can foretell the future or gather figs of thistles? * * * *

"A bill for the free coinage of silver will some day become a law. Administrative influence is strong and far reaching; the inducements it can offer are very great. Its friends when it has any, are supposed to bask in the sunshine of executive patronage; those who although of the same political faith, cannot agree with it must sit in outer darkness. Cabinet officers with patronage, soliciting support to a Government measure, are almost omnipotent, but not quite. We do not despair. The large majority of Senators on the other side were uninfluenced by the utterances of the last chief executive; a number of the Senators on this side of the chamber feel able to form their own opinions. A bill for free coinage will become a law because the country is in favor of it, and in the end the wishes of the majority govern, notwithstanding the personal desires and efforts of the executive. The measure is of vast importance; of far greater importance than a new election law, an anti-gerrymandering law, or a tariff law. So great are the interests involved that, in view of them, party lines are obliterated and forgotten, and the South and West meet on common ground, animated by a common and patriotic purpose." [Applause in the galleries and floor of the Senate.—National Democrat.

Pertinent editorial remark by the Albuquerque CITIZEN:

Col. Frank Chaves writes a characteristic letter to the Las Vegas Optic, giving his reasons why M. S. Otero should again head the republican ticket this fall for congressional delegate. The colonel plainly says that the democrats stole the election two years ago.

Otero made a speech at White Oaks two years ago, and Lincoln County gave Joseph 500 majority and not a vote was stolen. Give us a better excuse for Otero's defeat and if he runs again he will be defeated much more so.

THERE'S THE RUB.

The Santa Fe New Mexican pretends to have advices from a U. S. Senator on the statehood matter, who says "the so-called opposition from certain soreheads and Democratic politicians and boodle sheets from New Mexico amounts to absolutely nothing; no one pays any attention to the mouthings of Ross and his little gang; 'elect your delegate and carry your constitution, says he, 'and leave the rest to us, and the year 1891 will see New Mexico one of the states in this union."

There's the rub—"elect your delegate and carry your constitution." That done, New Mexico will undoubtedly be admitted under the September constitution. But neither branch of the proposition is possible of accomplishment. The proposed Constitution will be voted down two to one, and the Democratic candidate for Delegate will be elected by the usual majority—two to four thousand.

Since the gang that controls the Republican party in this territory and made that constitution has been forced to quit voting sheep in Valencia county, there has been no possible question about the election of Democratic delegates. 1891 may see New Mexico a state, but not under the anti public school boodle Constitution.—Headlight.

ORIGINAL-PACKAGE PERPEXY

By decision of the Supreme Court a State prohibitory liquor law is unconstitutional and void so far as it interferes with interstate commerce by forbidding the importation and sale, in original packages, of liquors shipped from another state.

By decision of a Pennsylvania court—which is obviously sound—this rule is equally applicable to license laws, and by decision of the United States Circuit Court at Leavenworth, Kansas, it makes no difference whether the "original packages" are vials holding but one drink, or larger vessels.

The case, therefore, stands thus: No State law can prevent any man from selling liquor or compel him to pay a license to engage in that business provided he imports his liquors from another State and sells them in the original packages.

Here is an end, not only to prohibition by State enactment but to all State license laws as well, and apparently also to all other State laws framed for the restraint and regulation of this traffic.—World.

Palmer's Plum.

Chicago, June 26.—Ex-Senator Palmer, of Michigan, was unanimously elected president of the World's Columbian exposition at to-day's meeting of the national commission. J. S. Dickinson, of Texas, was chosen secretary.

The bill creating a new judicial district has become a law. It now becomes a question as to how it is to be formed. It has been proposed to constitute the present county of Lincoln into a district. The only plea for this is its size and that after November there will be three counties in that territory. As to the matter of business, Judge McFie is able to clean up the docket and clear the jails in a ten day's session. In some of the other counties the courts are one and two years behind with their business. Judge Lee suggested to the Reporter a much better arrangement. The new district should comprise the counties of Socorro, Lincoln, Chaves and Eddy, with Socorro as the seat of the U. S. Court. The established line of mail and passenger transportation naturally connects these counties. This arrangement would not only furnish the new district with business sufficient to justify the establishment of a court, but it will greatly relieve the Second district, in which there is always a large surplus of business.—San Marcial Reporter.

The above article is incorrect when it states that Judge McFie is able to clear the docket in ten days. The fact is, that not one case was reached on the civil docket last term for trial, and the business on the criminal docket was not all cleared up; indictments were returned and court not being in session criminal trials were put over to next term. As to the proper place for the U. S. Court, Lincoln for the present is the most central point and if held there will save thousands of dollars to litigants and witnesses. To have a U. S. Court at Socorro, will make the travel all one way; have it at Lincoln and both sides will be near.

ADVICE TO MOTHERS.

Mrs. Winslow's Soothing Syrup, has been used by mothers for children teething for over fifty years with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep by freeing the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste, soothes the child, softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

Judge Whiteman, on the 30th, stepped down and out. The Swiss Minister done it with his little hatchet.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

We extend congratulations in common with all the friends of the happy couple.

The G. O. P. advertise a 4th of July Pic-nic at Raventon, to which none but Republicans are invited. The orators are advertised; among the number are Capt. E. Mc B. Timoney and Cruz Gallegos, and other prominent gentlemen are expected to be present. When it is the demand to exclude all but Republicans from a 4th of July pic-nic it behooves the common people to enjoy themselves as best they may. We are sorry this is the case, as a few Democrats would very much prefer to see the fun.

DROWNED.

Robert Littell, of White Oaks, on last Sunday at 2 P. M., while in bathing, in the North Spring River at Roswell, was drowned. Bob, as he was familiarly called, went in bathing with a number of men. At the time mentioned, the only person in the immediate company of Bob, was Paul McCourt. Paul was on the bank and saw Bob dive into the river, go down and come up once. The alarm was given and after a search of an hour his remains were found near where he dived in. Resuscitation was tried and everything done that could be for the poor boy, but of no avail, as upon examination, by three physicians, his neck was found to be broken. How it occurred is merely conjecture—struck bottom most likely. His remains were properly taken in charge by his friends and prepared for burial. He was buried at Roswell on Monday last, the 30th. His brother Wm. Littell, was the only relative at Roswell at the time of the accident.

Robert Littell was born at Owensboro, Kentucky, May 23, 1861. He resided there until May 1887, when he came to White Oaks. His parents are living at the old home at Owensboro. The father and mother and seven brothers still survive to mourn Bob's untimely death. Bob Littell was a universal favorite; there is only one expression of deep regret and sympathy for the family. To the fond mother and father in far away Kentucky, the blow is an extremely sad one. Bob was an ambitious, energetic young man without an enemy in the world. At the time of his death, he in company with his brother were making a large kiln of brick at Roswell, to be used in new public and private buildings. He was also interested in mining property in the Jicarillas mountains, and had an abiding faith in the final productions of that locality.

In his death, White Oaks has lost a good citizen, and had his life been spared he would have filled a place worthy of the estimation in which he was held.

PARK NOTES.

The recent rains have been very acceptable to farmers and ranchmen.

Crop prospects are surprisingly good, and our people are rejoicing greatly over the idea of having fresh vegetables soon.

Rev. S. W. Thomas preached at the Park school house last Sunday to an attentive audience. He was the guest of Mrs. McMam.

Quite a number of the Parkites will celebrate the Fourth at Nogal.

Mr. W. M. Wharton is teaching a successful school for us. The community at large greatly deplore the fact that the June appropria-

tion is so much smaller than it was formerly.

Mr. Dave Wells left for Washington, the first of the week, where he will make his residence in the future.

ROSWELL,

June 29th, 1890.

ED. INTERPRETER:

Robert Littell, of White Oaks, was drowned in North Spring River a little below the main street crossing, while in bathing, at or about 2 o'clock, p. m., to-day. Everything was done that could be to resuscitate him, but in vain.—While in Roswell, though but a short time, he had made many good friends who mourn his loss. He will be buried here to-morrow at 10 a. m., as it would be impossible to take him to White Oaks owing to the intense heat and long distance.

Robert will be greatly missed by his many friends throughout Lincoln Co., as no better boy ever lived than Bob. His sun has gone down while it is yet day.

MORTGAGEE'S SALE.

Whereas John T. Reid, and Kate M. Reid, his wife, then of the town of White Oaks, County of Lincoln and Territory of New Mexico, by their certain mortgage deed, dated the 21st day of December, A. D. 1888, and recorded in the Probate Clerk's office of Lincoln County, in book B of records, page 100, did convey to the undersigned, Melvin E. Richardson and William H. Weed, their heirs and assigns as mortgagees, the following described real estate, situated in the County of Lincoln and Territory of New Mexico, as follows to-wit:

The East half of lot two (2) in Block five (5), the west half of lot one (1), in Block twenty-one (21), and lot two (2) in Block thirty-two (32), and lot four (4) in Block twenty-three (23), all in the town of White Oaks, as shown by the survey and plat of said town. Also lot twenty-one (21), on Lincoln avenue in the City Lode Addition to the said town of White Oaks, as shown on the plat of said addition.

To secure the promissory note of said John T. Reid, of even date with said mortgage deed, for fifteen-hundred (1500) dollars, payable one year after date, with interest payable monthly, at the rate of twelve per cent. per annum from date until paid, which said note was payable to the order of Jennie D. Overton, and was endorsed by the undersigned Melvin E. Richardson and William H. Weed, to secure its payment when due.

And whereas, it was provided in and by said mortgage, that if default should be made in the payment of said note by the said John T. Reid and Kate M. Reid, together with the accrued interest thereon at the time and in the manner specified in said note when the same should become due and payable, then, and in such case the said mortgagees, their agent or legal representatives, in person, or by their agents and attorneys, might sell or dispose of said mortgaged premises at public auction, to the highest bidder for cash, first giving notice of the time and place of said sale, by publishing a notice in some newspaper printed in the County of Lincoln, for five weeks before the date of such sale, and in their names might make and deliver to the purchaser or purchasers at such sale, a good and sufficient deed or deeds of said premises—

And whereas, default has been made by the said John T. Reid and Kate Reid, in the payment of said note and the interest thereon, and the same has been fully paid by William H. Weed, one of said mortgagees. Now therefore public notice is hereby given, that on the 21st day of July A. D. 1890, between the hours of 10 A. M., and 3 P. M., of said day, at the front door of the Post Office in the town of White Oaks in said County of Lincoln, the said mortgagees in person or by their attorney, will sell at public auction, to the highest bidder for cash, the premises hereinbefore and in said mortgage described, pursuant to the powers and provisions of said mortgage. The amount claimed to be due on said note, costs of sale, Attorney fee etc., on the day of, said sale, is \$1723.00.

MR. LEE. "Why, Addie, you needn't cry about it! I only said Mrs. Allen was a very well-informed woman, and I wished you would follow her example."

MRS. LEE. "Yes, and last week you said you wished I could manage to look as stylish as Mrs. Allen—and she makes all her own clothes. But she has what I haven't."

MR. LEE. "What is that?"

MRS. LEE. "Well, she gets all of her information from the Magazine they take. I admit that she knows all that is going on, and is bright and entertaining in conversation; but I can't do as well as she does if I had the same source of information. She lent me the last number of her Magazine lately, and I learned more in one hour's reading, about various social matters and the topics of the day, than I would pick up in a month by my occasional chats with friends. It certainly covers every topic of interest, from the news of the day down to the details of housekeeping; and everything is so beautifully illustrated, too. Every time Mamie goes over to the Allens' she comes back and teases me to get you to take Demorest's Family Magazine, as the stories are so good. Even the boys watch for it every month as a place is found for them also in its pages; and Mr. Allen swears by it. It is really wonderful how it suits every member of the family!"

MR. LEE. "I'll perhaps I had better send for a Specimen Copy; for, if it is anything like what you say it is, it will amuse and instruct the whole of us."

MRS. LEE. "I see that W. Jennings Demorest, the publisher, 15 East 14th Street, New York, is offering to send a Specimen Copy for 10 cents, so we can't lose anything, as each number contains a 'Pattern Order' entitling the holder to any Pattern she may choose, and in any size—which alone makes each copy worth 30 cents; and I just want a jacket pattern like Mrs. Allen's. The subscription price is only \$2.00 a year; and I must say I can't see how they can publish so elegant a Magazine for so little money."

LONGFELLOW'S MAIDEN,

who is—
"Standing, with reluctant feet,

Womanhood and childhood fleet!"

is a type of thousands of young girls who are emerging from the chrysalis stage of their existence, as they enter upon their "teens." Nervous, excitable, irritable, stirred by strange, unknowable forces within them, each a mystery unto herself, our girls need the tenderest care, the most loving, patient oversight, and the aid of Dr. Pierce's Favorite Prescription, to safely carry them through this critical period, during which, in too many lives, alas, are sown the seeds of distressing forms of diseases peculiar to the female sex. But this boon to womankind will prevent all such diseases, or cure them if they have already seized a victim. Woman owes it to herself, to her family, and to her social station, to be well and strong. Let her then not neglect the sure means of cure. "Favorite Prescription" is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. Sold by druggists; \$1.00, or six bottles for \$5.00.

A Simple Dressing for Cuts.

A dressing for fresh cuts, stabs and similar wounds (strongly recommended by Dr. Pashkoff, of Russia), is a thick layer of of ashes prepared by burning cotton or linen stuff. The ashes and blood together form a thick protective covering under which the wound heals quickly. When the wound requires it, it should be will cleansed with a boracic solution before the ashes are applied. Dr. Pashkoff says that this convenient and cheap dressing has been used from time immemorial by the Russian peasants. He has himself employed it in many cases, where the wounds healed rapidly and without the slightest suppuration.—Financial and Mining Record.

Arsenic and Potash Three Times a day for Twenty-five years.

I have been taking S. S. S. (Swift's Specific), and feel it my duty to state the results, that others who are similarly affected may profit by my experience, and be relieved of their sufferings. I had suffered for a long time with what the doctors called Herpes, an eruption of the skin, forming scales and blotches which was horrible to endure. Under the advice of a physician I took 30 drops of Fowler's solution of Arsenic every day for 25 years besides many other kinds of medicines without a cure. I have been taking S. S. S. for about two months, and the eruption and unpleasant symptoms have all disappeared, and I am continuing it to completely root it out of my blood, which I am confident it will do; and what it has done for me I am sure it will do for others, for there are thousands of such cases all over the country which resist all other treatment. I have lived here in n.y present business 22 years.

THE SANTA FE ROUTE.

This is the short line to and from points east to White Oaks, Ft. Stanton, Lincoln, and all stage stations in Lincoln County. Close daylight connections are made by stages to and from above points with trains from Carthage, Engle and Las Cruces, which have through sleepers to Kansas City, Chicago, St. Louis, and New York, without change.

Connection is made at Albuquerque with through trains for all California points. These trains unsurpassed in modern improvements with luxurious day coaches and emigrant sleepers, the latter under the management of the Pullman company, are furnished with elegant curtains and clean bedding at a small cost per night.

Shippers will find it greatly to their advantage to consign all freight via the Santa Fe route, a saving of from three to five days time will be gained from all eastern and northern cities.

Freight from Chicago and points west of Chicago is brought through without transfer, thereby saving breakage and delay.
